IDENTIFICATION CARDS: Not required.
CONSULS: No consular representatives at this port and all immigration and migration matters are handled by the Collector of Customs.
REPAIRS: Only minor repairs can be carried out.
REPATRIATION: Full repatriation facilities are available for effecting any crew changes.
AIRPORT: Situated approximately 2 miles from Wharf area. There is a daily connection to Australia with Trans-Australia Airlines and Ansett Airlines of Australia.
TIME: Local time is 10 hours ahead of GMT, and does not vary during the year.
HOLIDAYS: New Year's Day (1st January); Australian Foundation Day (26th January); Good Friday; Easter Saturday; Easter Sunday; Easter Monday; Anzac Day (25th April); Queen's Birthday (June); Commemoration Day (Mid-September); Christmas Day (25th December); Boxing Day (26th December). Cargo work is carried on all through the year with the exception of Christmas Day and Good Friday.
POLICE/AMBULANCE/FIRE: Police 2222; Ambulance 2911; Fire 2255.
Fire alarms connected to Fire Station are situated outside No. 4 and No. 5 cargo sheds. A direct telephone line to the Police Station is situated at No. 2 cargo shed.
TELEPHONES: No facilities available for connection of a telephone to vessels, but there is a public telephone installed in the wharf area.
SHORE LEAVE: Allowed.
DELAYS: Whilst only 800 ft. of overseas wharfage is available there is likely to be berthing delays of up to four days.
AUTHORITY: The Port Manager, Papua and New Guinea Harbours Board, PO Box 563, Lae. Tel. 2650 and 2407.

AGENT: See "Port Moresby".

MADANG: 05.12 S. 145.49 E.

DOCUMENTS: See "Lae".
PILOTAGE: One pilot is normally available on application to Harbour Master. Boarding station is situated ½ to 1 mile off the Coast Watcher's Light on Kalibobo Point.
RESTRICTIONS: Ships do not normally berth at East Wharf or at the West Wharf after civil sunset.
HEALTH: See "Lae".
RADIO: Call through Lae Radio VIL.
TUGS: No tug is available but a 40-ft. work-boat may assist on application to Harbour Master.
BERTHING: *East Wharf:* Length 300 ft.; width 45 ft. Minimum depth at LW 26 ft.
West Wharf: Length 450 ft.; width 40 ft. Minimum depth at LW 32 ft.
Small Ship's Wharf: Length 90 ft.; width 18 ft. Minimum depth at LW 19 ft. 9 in.
Concrete Quay: Length 100 ft.; width 15 ft. Minimum depth at LW 5 ft. 9 in.
FRESH WATER: Available at wharves but supply is limited.
FUEL: Fuel oil and distillate are available. Supply is by road tanker.
CUSTOMS ALLOWANCE: Tobacco: 1 lb per person, 400 cigarettes deemed to be equivalent of 1 lb. tobacco. Wine/spirit: Not in excess of three quarts per person.
CONSULS: None.
REPAIRS: All normal deck and engine repairs available. Slipways available up to 400 tons.
REPATRIATION: Can be arranged.
AIRPORT: Distance from port 4 miles by road, served by regular airlines.
TIME: GMT plus 10 hours throughout the year.
AUTHORITY: Port Manager, postal address: Box 273, Madang. Tel. 3252. Cables: "Portman Madang."

AGENT: See "Port Moresby".

PORT MORESBY: 09.26 S. 147.06 E.

PORT LIMITS: A line drawn from Bogirohodobi to the Southernmost tip of the South Lolurua Island.
DOCUMENTS:
4 Crew Lists.
4 Passenger Lists.
1 Customs List of Articles in possession of Crew.
3 Customs List showing Stores, fuel, etc. on board.
Normal International Health Papers.
7 Inward Manifest.
1 Copy of Bills of Lading.
PILOTAGE: Apply by radio through Agent or direct to "Harmas" 48 hours before arrival and up-date as necessary. Pilot vessel is fitted with VHF calling on Channel 16.
Pilotage is compulsory. Pilot vessel is 53 ft. long, white hull with word "Pilot" in large block letters each side. White superstructure, small buff-colour funnel, green awnings. White over red all-round lights at night. Pilot usually boards 1½–2 miles South-east of Basilisk Light Beacon. In heavy weather, ship may enter on leads and Pilot will board North-west of Basilisk Beacon. Usual safety precautions are expected. Vessels may anchor North-easterly of Basilisk Beacon clear of leads.
ANCHORAGES: If necessary to anchor prior Pilot boarding do so at Kila Leads. Pilot will then direct to suitable anchorage on boarding.
RESTRICTIONS: No restrictions after dark if conditions favourable.
MAX. SIZE: For Berthing 700 ft. length. Draft 27 ft. *Tankers:* 600 ft. length. Draft 40 ft.
HEALTH: Radio "Health Boroko" 24 hours prior to arrival. If from Australia or another T.P.N.G. port pratique will be granted by radio or advised by Agent on arrival. In other instances if a ship has been at sea more than 10 days from last port of call and no quarantine disease on board may also be given Radio Pratique, but this is up to Health Authorities.
RADIO: Port Moresby Radio, VIG.
TUGS: One tug of 560 h.p. and 7-ton bollard pull available through arrangement with Harbour Master direct.
BERTHING: Permission required to berth after dark which is normally automatic. Maximum draft 25 ft. but on inner North-east arm 320 ft. length, maximum draft 15 ft. Height of deck above LWOS 14·64 ft. Wharf length 700 ft.
STEVEDORES: ETA required 24 hours advising no. of gangs required.
MEDICAL: If serious notify any time. Hospital facilities available. Normal International Health Regulations required.
TANKERS: Two tanker discharge berths, one with depth of 45 ft., and one with depth of 48 ft.
FRESH WATER: Available at berth. Rate of delivery 20 tons per hr.
FUEL: Only gasoil and light marine diesel available. By road tanker to wharf. Deliveries normally limited to 100 tons.
DEVELOPMENTS: To lengthen wharf by 150 ft. to 850 ft.
GANGWAY/DECK WATCHMEN: Required: Ships crew.
OPENING/CLOSING HATCHES: Carried out by Stevedores.
CUSTOMS ALLOWANCES: 200 cigarettes each 10 days. No wines/spirits allowance.
CARGO GEAR: Normally supplied by stevedores unless special gear required.
IDENTIFICATION CARDS: Required.
CONSULS: French. Tel. 2033/34.
REPAIRS: Only very minor deck and engine repairs carried out.
REPATRIATION: If necessary crew changes could be effected though not recommended.
AIRPORT: Distance 6 miles from Wharf Area regular daily flights to Australia where overseas connection normally made. Also two flights a week via Manila and Hong Kong to Europe, and one flight a week to Singapore via Darwin.
TIME: Ten hours ahead of GMT. No change throughout the year.
HOLIDAYS: Only two days vessels do not work. Good Friday and Christmas Day.
POLICE/AMBULANCE/FIRE: Police 55555; Ambulance 58622. Fire 2255.
TELEPHONES: Can be placed on ship at berth local calls only.
GENERAL: If any tankers arrive for water or provisions and wish to berth they have to be gas free and tanks blown.
SERVICES: Very limited, compass adjusting can be done if necessary.
SHORE LEAVE: Crew members normally permitted ashore.
DELAYS: Port very busy, turn-around good, but delays can occur up to 48 hours at times.
AUTHORITY: The Port Manager, PO Box 384, Port Moresby. Telegraphic address "Portman, Port Moresby".

AGENT: Burns, Philp (New Guinea) Ltd., PO Box 75, Port Moresby. Telex TNG 116. Cables: "Burphil Port Moresby".
Agents at all major Papua New Guinea ports.

RABAUL: 04.13 S. 152.12 E.

PORT LIMITS: The port limits are from Matupit Causeway – the connection (on Chart Aus 680) to Matupit Island, across to the Easternmost point of Vulcan.
DOCUMENTS: See "Lae".
PILOTAGE: Two pilots are normally available on application to Harbour Master. Boarding station is one mile South of Sulphur Point, off Matupi Harbour for vessel requiring full pilotage, or be

tween the Beehives and the Wharves for vessels requiring berthing assistance only.
HEALTH: See "Lae".
RADIO: Call sign VJZ.
TUGS: No tug is available, but three 40-ft. work-boats of 165 h.p. may be hired to assist in manoeuvring.
BERTHING: *East Wharf:* Lat. 4° 12.1′ S. Long. 152° 10.5′ E. Length 400 ft., width 40 ft. Minimum depth at low water 28·5 ft.
New Wharf: Length 500 ft. Minimum depth at low water 31 ft.
Kamaki Wharf: Out of commission.
Small Ships' Wharf: Length 204 ft., width 22 ft. Minimum depth at low water 11 ft.
CARGO HANDLING: A limited number of small containers are handled only by conventional methods. The ships concerned are unit loaders and carry containers, palletised, and wire caged cargoes. These are handled mainly by forklifts, from side ports.
The only roll-on/roll-off carriers are coastal barges, with bow doors.
LPG Carriers discharge at CPL Toboi Wharf, which is privately owned. This wharf also handled copra expeller and coconut oil. The expeller is loaded in bulk, but by conventional methods, i.e. bins hoisted on board by ship's gear, and then emptied over the hold.
FRESH WATER: Available at the wharves. The rate is 25 tons an hour depending on number of vessels taking water simultaneously.
Also obtainable at anchor by water barge, with a minimum of 100 tons. As a point of interest the water barges are old Japanese dumb submarines, used in the war to bring cargo from Kavieng and towed by a powered submarine submerged.
FUEL: Diesel and distillate are available, the former by pipeline, the latter by road tanker. Fuel available by barge if sufficient notice given.
DEVELOPMENTS: Design is being undertaken for expansion of coastal facilities to eastward of the small ships wharf.
CUSTOMS ALLOWANCES: Tobacco: 1 lb per person, 400 cigarettes deemed equivalent to 1 lb. tobacco. Wine/spirit: not in excess of three reputed quarts per person.
CONSULS: None.
REPAIRS: Small repairs undertaken.
DRY-DOCKS: None available. Slipway length 140 ft.
AIRPORT: Distance from port 3 miles by road. Served by regular airlines.
TIME: GMT plus 10 hours. No change throughout the year.
AUTHORITY: Controller (Marine Services), POB 463, Rabaul. Tel. 2009. Cables: "Harmas Rabaul".

AGENT: Burns, Philp (New Guinea) Limited, POB 87,Rabaul Tel. 92–2414. After hours tel. 92–2803. Cables: "Burphil Rabaul".

SAMARAI: 10.30 S. 151.00 E.

DOCUMENTS: See "Lae".
PILOTAGE: For ships approaching from the Westward, boarding station is situated in the vicinity of Wekunna Light; for ships approaching from the Eastward, 1 mile South-east of Samarai Island; for ships approaching from the Northward via China Strait, off Isololi Point.
RESTRICTIONS: Ships, except under 50 tons nett, do not normally berth after dark.
HEALTH: See "Lae".
RADIO: Through Port Moresby Radio VIG.
TUGS: None available.
BERTHING: *Main Wharf:* Length 300 ft.; width 40 ft. Minimum depth at LW 25·6 ft.
Small Ship's Wharf: Length 100 ft.; width 15 ft. Minimum depth at LW 12 ft.
Two dolphins are located, one on each side of the main wharf.
Owing to the swift currents which pass through the China Straight, a flag is normally placed at one end of the wharf to indicate from which direction the current is running. (A flag on the North end of the main wharf indicates a current running from North to South. The flag when placed in the centre of the main wharf is for slack water.)
FRESH WATER: Available in limited quantities but supply is erratic.
FUEL: Distillate available by pipeline; diesel fuel by road tanker only.
CUSTOMS ALLOWANCE: Tobacco: 1 lb. per person, 400 cigarettes deemed to be equivalent to 1 lb. Wine/spirit: not in excess of three reputed quarts per person.
REPAIRS: Normal deck and engine repairs available.
Slipways up to 9-ft. draft.
AIRPORT: Distance from port 35 miles by sea. Served by regular airlines.
TIME: GMT plus 10 hours. No change.
AUTHORITY: Collector of Customs. Tel. Office 226; Telegraphic address: "Portman, Samarai." Postal address: Box 24.

AGENT: See "Port Moresby".

Peru

CALLAO: 12.03 S. 77.10 W.

DOCUMENTS: 9 copies Peruvian "Declaracion de Entrada/Rol de Tripulación" from last port, (forms available at Consulate), 8 Crew Lists, 7 Peruvian Cargo Manifests from each port where cargo loaded (forms available from Consulate), 3 Personal Effects Lists, 6 Stores Lists, 5 copies of each Bill of Lading, 1 Tonnage Certificate from First and Last port, 1 International Maritime Health Certificate from last port, 13 copies each Passenger List: disembarking, in transit and/or "no passengers", 1 Clearance from last port, plus sealed envelopes from Peruvian Consulates addressed to Customs. Documents should be visaed by Peruvian Consulates.
PILOTAGE: Pilots must be requested by Agent and board ships outside of port at anchorage. Various pilot launches painted white, black and red. Pilots will only board after free pratique granted by Port Captain and doctor.
ANCHORAGE: Very large area West of entrance buoys north of Naval anchorage.
RESTRICTIONS: Vessels of up to 32 ft. draft may enter at any time. Vessels of more than 32 ft. draft must enter at high water. Pilots available 24 hours.
MAX. SIZE: Length and breadth practically unlimited, draft 32 ft. plus height of tide making allowance for keel clearance.
HEALTH: Cable Agent requesting free pratique. Agent must be notified in advance if disease suspected on board.
RADIO: "Habla Naves", OAA, 500, 8605, 6430, 1300, 468 Kcs.
TUGS: Port Authority Tugs join vessel once inside mole, one or two as required, using vessel's lines, later passed to pier.
BERTHING: There are nine piers with a total of 22 berths, 20 for large vessels, and two for coasters.

Pier No.	*Number of Berths*	*Cargo*
1	2	General cargo
2	2	General cargo
3	2	General cargo
4	2	General cargo
5	3	Minerals and grain and general cargo
7	2	Petroleum products
9	4	Fish Meal, general cargo, vegetable oil
10	2	Coasters only
11	3	Wheat, vegetable oil, general cargo

All piers except the petrol pier are connected to railway system for unloading and loading to railway wagons.
Within port limits there are two anchorages normally used for discharge of livestock, scrap and occasionally for general cargo.
Piers equipped with conveyor belt for loading minerals and fish meal.
For discharge of grain there are two pneumatic suction pipes and silos with capacity of 23,000 tons.
STEVEDORES: No particular advice necessary but Agent must receive Stowage Plan beforehand to advise Port Authority of planned operation.
MEDICAL: Advance information as to sick crew members not required but helpful. Ample first class facilities in Lima area. Smallpox vaccination cards required but seldom inspected.
TANKERS: 10 in. and 12 in. discharge lines at two berths for petroleum products discharge. Discharge of ballast or slops inside mole prohibited. Tankers loading Fishoil must arrive free of ballast.
DENSITY: Sea water.
FRESH WATER: All berths equipped with fresh water supply at a rate of 30 tons per hour.
FUEL: Marine No. 2 Gas oil; Bunker C. Premium Intermediary Oil No. 4 available from International Petroleum Co.
PORT FIRE PRECAUTIONS: Use of Port Authority Fire Equipment mandatory during discharge of petroleum products with charge for service.
GANGWAY/DECK WATCHMAN: Recommendable.
SHIPS CERTIFICATES: All may be required but normally only Deratisation. If Rat Guards are not used on all lines, vessel liable to fines.
CUSTOMS ALLOWANCES: Any amount over normal consumption usually cause difficulties including searching.
CARGO GEAR: No additional requirements.
IDENTIFICATION CARDS: Supplied by Agent and stamped by Immigration Authority required for all crewmembers.
CONSULS:

Argentina	Ecuador	Mexico
Australia	Finland	Norway
Austria	France	Portugal
Belgium	Germany	Spain
Bolivia	Greece	Sweden
Brazil	Haiti	Switzerland
Canada	Holland	U.A.R.
Chile	Israel	Great Britain
China	Italy	Uruguay
Colombia	Japan	U.S.A.
Denmark	Jordan	Venezuela
	Lebanon	

REPAIRS: Normal Deck and Engine repair facilities.
DRYDOCK: Peruvian Nave within port area, extreme length, 600 ft., breadth 76 ft., depth 27 ft. 120 ton crane, fully equipped workshop.
REPATRIATION: All foreign crewmembers who do not have Peruvian Visas which only obtainable abroad, must be repatriated by quickest means (Air) by Agent, paying all detention expenses. Peruvian and foreign crewmembers available.
AIRPORT: Lima/Callao within city limits has regular direct international service to North and South America, Europe and Far East.
HOLIDAYS: Only 1st May when work is not available.
AUTHORITY: Port Captain, Terminal Maritimo de Callao.

AGENT: Abraham Woll Davila S.A. P.O. Box 295. Av. Dos de Mayo 759, Callao. Tel. 296020. Telex, Awoldav Px5571. Cables; AWOLDAVILA CALLAO.

CHIMBOTE: 09.05 S. 78.35 W.

DOCUMENTS:

For Entry

2 Entry Declarations (Form No. 1).
1 Departure License of the last foreign port en route.
1 Maritime Health Declaration (Form No. 2).
2 Passenger Lists with entry baggage (Form No. 3).
1 Consular Roll of the last foreign port en route.
1 Consular Passenger List of the last foreign port.

Customs Administration

1 Original Cargo Manifest(s) with the Consular stamp. (Form No. 4).
The envelope(s) from the Consul, enclosing copies of the Consular invoices, bill of lading and cargo manifest for the port with the consular stamp.
1 Cargo Manifest (Form No. 4).
1 Cargo Manifest of cargo, but with further destination for another national or foreign port (Form No. 4).
1 Cargo Manifest in transit.
1 Gross or Net Tonnage Certificate, with Consular visa.
1 Not Accompany Baggage List (Form No. 5).

Customs

1 Entry Declaration (Form No. 1).
1 Cargo Manifest(s) for port without Consular visa (Form No. 4).
1 Manifest of Cargo for port, but with further destination for another national or foreign port, without Consular visa (Form No. 4).
2 Passenger Lists with entry baggage (Form No. 3).
2 Not Accompany Baggage Lists (Form No. 5).
1 Crew Personal Effect List.
1 Store List, food and spirits.
1 Mail List.

Port Administration

1 Entry Declaration (Form No.1).
1 Passenger List with entry baggage (Form No. 3).
1 Not Accompany Baggage List (Form No. 5).
3 Cargo Manifests for the port, without the Consular visa (Form No. 4).
3 Manifests of Cargo for port, but with further destination for another national or foreign port, without Consular visa (Form No. 4).
3 Sets of Bills of Lading.

Refer to "San Juan" for further information on Consular endorsement.

PILOTAGE: Compulsory. Official Pilot boards vessels at entrance to bay and leads ship to appropriate anchorage according to draft. Private Pilot to moor to the quays of the "Corporacion Peruana del Santa" and to "Sogesa". Vessels enter the inner roadstead, through southern side of each channel. Depart through Northern side of channel.

ANCHORAGE: Good anchorages in bay according to draught. Anchorages are of mud and sand. Best place to anchor ship of medium draught is inner side of Paso del Norte, 6 fathoms deep, near port and safe. Another good anchorage for ship of medium draught is with Island bearing 170° and Rosas Blancas bearing 275°, 6 fathoms deep.

MAX. SIZE: According to depth of anchorage.

HEALTH: Masters apply according to International Regulations through Agents to Maritime Health Department in the first Peruvian port of call for free pratique by radio, in which case it will not be necessary for Sanitary Doctor to board on arrival. Pratique only essential at first port of call unless requested by Captain, in case of suspected illness on board.

RADIO: "Hablanaves" Station del Callao a Talara.

TUGS: No sea-going tugs. Only small boats, called "Remolcadores del Bahia" (bay tugs), which are used to tow boats that carry cargo to anchored ships.

BERTHING: Operated on "First come, first served" basis.

STEVEDORES: Agent arranges stevedores. Normally done when ship has arrived.

MEDICAL: Agent arranges emergency attention. Hospital and private clinic available.

TANKERS: Three zones for load/discharge of fish-oil and lubricants. Ship loads fish-oil by barges being anchored. Discharge of fuel when ship anchored to buoys by means of submarine lines.

FRESH WATER: Two barges to supply fresh water to ships, one of 40 metric tons and the other one of 25 metric tons.

FUEL: None available.

DEVELOPMENTS: New quays to be built.

GANGWAY/DECK WATCHMEN: The services of watchmen are necessary.

OPENING/CLOSING HATCHES: This job is carried out by stevedores.

CUSTOMS ALLOWANCES: Tobacco: 10 packets per person per week. Wine and/or Spirits: With approval of customs, within normal consumption.

CARGO GEAR: Vessel's derricks used, the quay has fixed crane for 50 metric tons and three mobile cranes for 15 tons.

IDENTIFICATION CARDS: Needed for both crew and passengers.

CONSULS: Only the Vice-Consul of Spain and Panama.

REPAIRS: Only minor repairs are possible.

REPATRIATION: Facilities for crew changes and arranging any necessary repatriation.

AIRPORT: Port has landing place for planes, but it is only for national use, not for international flights.

TIME: GMT minus 5 hours, all year round.

HOLIDAYS: Cargo work can be arranged on holidays with an extra 100% charge over basic pay. The only exception is 1st of May, on which cargo work cannot be arranged.

TELEPHONES: No arrangements for placing telephones on board. They are about 50 metres from ship.

SHORE LEAVE: Crew members allowed ashore.

PORT REGULATIONS: Not allowed to use wireless when ship is in port. Not allowed to put any boat on the water without permission of Capitania del Puerto. Not allowed to throw any waste or litter into bay. Not allowed to make unnecessary sound signals.

AUTHORITY: The Port Authority is Capitan de Puerto – Direccion Capitania de Puerto Chimbote. Tel. 2301–2331.

AGENT: See Callao.

CONCHAN: 12.10 S. 77.00 W.

Tanker Buoy berth about 30 miles South of Callao.

DOCUMENTS: Tankers calling at Conchan must first call at Callao anchorage to be received and cleared by Authorities. Not necessary to call at Callao after discharge as clearance is simultaneous with reception. Pilot boards vessel at Callao anchorage and either remains on board or returns to take vessel out, as required by Master.

BERTHING: Vessels moor to buoys. One submarine line of 16 in. reducing to 12 in. at vessel's connection, running 1,000 metres from shore opposite Conchan refinery.

LAUNCH: Launch service between Conchan and Callao during vessel's stay in port.

GENERAL: Two customs police and two refinery employees board at Callao and remain in vessel during discharge.

AGENT: See "Callao".

ILO: 17.39 S. 71.22 W.

DOCUMENTS:

6 Entry Declarations.
4 Passenger Lists (disembarking).
4 Passenger Lists (in transit).
3 Personal Effects Lists.
3 Store Lists.
1 Maritime Health Declaration.
3 Sets Cargo Manifest.
10 Cargo Manifest.

Refer to "San Juan" for further information on Consular endorsement.

PILOTAGE: No pilot station; there is a Pilot in the Capitania del Puerto, who should be notified in advance by Agents. Two hours notice of ETA required. Pilot boards at anchorage 800 metres from extension of the SPCC quay.

ANCHORAGES: 400 metres to the North of the end of the SPCC quay, in 15 fathoms depth.

MAX. SIZE: The anchorage is deep and ships of any length and draft can anchor. Vessel 600 ft. long and 42 ft. draft can berth. At the quay of the SPCC vessel 500 ft. long and 30 ft. draft can moor. Outside of the area of Ilo, 8 miles to the North, there is Punta Tablones, where ships of 750 ft. can moor, depth 40 ft.

HEALTH: Pratique given by captain of port. In cases of suspected illness a doctor should be requested in advance. When the ship arrives from another Peruvian port free pratique is automatic.

RADIO: Cables connect with National Communications network. ETA sent to Port Authority and to Agencies.

TUGS: No large tugs; some small tugs operated by Agencies.

BERTHING. Berthing any time.

STEVEDORES: Stevedores come under the Capitania del Puerto and are ordered by Agents. *Loading Rates:* Copper sheets loaded 65 metric ton per hour. Fish-flour loaded at 100 metric tons per hour in an 8-hour shift.

MEDICAL: Medical assistance ordered by Agents. Hospital "El Centro de la Salud", and the Saint Geronimo Hospital.

TANKERS: *At Ilo:* Discharge line diameter 10 in, 2 lines, connection to the ship's manifold 8 in., connection and flexible line, working pressure 100 lb. A buoy mooring berth.

Punta Tablones: Discharge line diameter 12 in., connection to the ship manifold 8 in. Flexible connection line, working pressure 100 lb. or 400 barrels per hour. A buoy mooring berth.

DENSITY: Salt water.

FRESH WATER: In small quantities and only in emergencies.

FUEL: None available.

DEVELOPMENTS: Terminal quay of 900 ft. long is now being built.

GANGWAY/DECK WATCHMEN: Watchmen provided by Agents when necessary.

OPENING/CLOSING HATCHES: Strictly forbidden for the crew; must be done by stevedores.

CERTIFICATES: When the ship comes from foreign port it is compulsory to produce Certificate of Gross Tonnage.

CUSTOMS ALLOWANCE: Tobacco: 10 packets per person. Wine and/or Spirits: Sufficient for meal times. Normal crew consumption only.

IDENTIFICATION CARDS: Agents arrange for cards to be signed by Port Authority for each crew member.

CONSULS: None.

REPAIRS: Some minor repairs.

REPATRIATION: There are facilities for effecting crew changes

and arranging any necessary repatriation. Those who are going to be repatriated must have a permit from the Port Authority to be allowed ashore.
AIRPORT: Ilo Airport, 8 kms. Scheduled flights twice a week on Tuesdays and Saturdays and regular airport in Tacna at 1½ hours by taxi, scheduled flights twice daily to Lima.
TIME: GMT minus 5 hours. No alterations during the year.
HOLIDAYS: 1st January (New Year); Maunday Thursday and Good Friday (change every year); 1st May (Labour Day); 29th June (Saint Peter and Saint Paul); 28th and 29th July (Motherland Days); 30th August (Saint Rosa of Lima); 1st November (All Saints Day); 8th December (Our Lady); 25th December (Christmas).
Holidays which are not in the Calendar but are considered Holidays with reference to payments to the workers: 6th January (King's Day); 19th March (Saint Joseph); Corpus Christi (it varies every year); The evening of the 24th June (India man day); 30th July (Motherland Day); 15th August (Feast of the Assumption); 24th September (Las Mercedes); 12th October (Race Day); 27th November (Tarapaca Battle); 9th December (Ayacucho Battle).
POLICE/AMBULANCE/FIRE: Southern Copper Corporation operate fire service. Police, tel. No. 3; Ambulance, tel. No. 3.
TELEPHONES: No arrangements for placing telephones on board.
SHORE LEAVE: Crew members allowed ashore and identify themselves with cards signed by Capitania del Puerto given through ship's Agents.
GENERAL: Tank cleaning and well cleaning must be done 5 miles leeward of the port. Not allowed to unload explosive cargo.
DELAYS: Only delays when quay is occupied by two ships. In the load/unload operations the port can attend to 4 ships simultaneously and 4 more when new quay (that is now being built) is finished.
AUTHORITY: The Port Authority is Capitan del Puerto, who is a Navy Officer. Cable address: Capitania de Puerto. Tel. 79.
AGENT: See Callao.

LA PAMPILLA

Tanker Buoy Berth about 30 miles North of Callao.
DOCUMENTS, ETC.: As for Callao.
PILOTAGE: Tankers calling at La Pampilla must first call Callao anchorage to be received and cleared by Authorities. Not necessary to call Callao after discharge as clearance simultaneous with reception. Pilot boards vessel at Callao anchorage and either remains on board or returns by launch to take vessel out, as required by Master.
BERTHING: Vessels moor to buoys. One submarine line of 18 in. reduced to 10 in. at vessel's connection running 1,500 m. from shore opposite La Pampilla refinery.
LAUNCH: Launch service between La Pampilla and Callao during vessel's stay in berth.
GENERAL: Two customs police and two refinery employees board at Callao and remain in vessel during discharge.
AGENT: See "Callao".

PACASMAYO: 07.24 S. 79.33 W.

DOCUMENTS:
3 copies Voyage Log Extract.
2 originals and 5 copies of Entry/Exit Declaration, endorsed by Consul.
8 copies of Passenger Lists for the Port.
8 copies of Transit Passengers List.
4 copies of Store List.
4 copies of Personal Belongings Manifest.
13 copies of Cargo Manifest.
1 Maritime Health Declaration.
2 Crew Lists.
1 Vaccination List.
When this is the first Peruvian port, Gross Tonnage Certificates.
When having cargo for the port, Statement of Cargo, endorsed by Consul.
When Pacasmayo is the first or last port called, Lists or Manifests of cargo in transit (2 copies each).
Refer to "San Juan" for further information on Consular endorsement.
PILOTAGE: The port has no Pilots because it is an open bay. Vessels have free pratique after boarding by port officials.
ANCHORAGE: The most usual anchorage area is in position 7° 23′ 50″ S. 79° 35′ 10″ W. Bottom from 3¼ to 4½ fathoms deep.
APPROACHES: Reference points are the lighthouse of Cruz Punta Pacasmayo with a range of 12 miles, and during the day the cylindrical tower of cement factory with a height of 50 metres situated in the S.E. of the bay. On the head of the quay there is also a small iron tower of 9 metres height with a permanent red light of 2 miles visibility. The quay is very old and only flat boats can moor.
MAX. SIZE: Wide anchorage without problems concerning length or breadth. Recommended draught 4 fathoms, but it is possible to find 6, 8 or 10 fathoms towards the West. Current from South to North at an average of 6 knots.
HEALTH: Sanitary control is carried out by the health doctor who comes on board with port officials. Normally, captains notify any suspected illness or any other information by telegraph.
RADIO: There is only one radio station. It operates in the premises of the Agency Juan Dalmau, call sign OC155 and frequency 40.400 kc/s.
TUGS: They only operate to bring or take out flat bottomed barges once the vessel is moored.
BERTHING: Vessels anchor in open bay.
STEVEDORES: Agents order the number of gangs required. These gangs work at a tariff hour/ton and the amount is controlled by the Port Captain. The number of gangs (9 men each) depends on loading/discharging speed required and on the number of holds and winches available.
MEDICAL ATTENTION: Can be provided by Centro Preventivo del Area de Salud or by Hospital Regional de Chepen, 35 km. from port (150 beds).
DENSITY: Salt water.
FRESH WATER: Not available.
FUEL: Not available.
PORT DEVELOPMENTS: When the mines of Micchiquillay (copper) start working, the embarking capacity of the port has to be 100,000 tons per month, consequently it is planned to build a quay for minerals or otherwise a floating island 6 miles from the port for embarking in gross raw materials by pipelines.
OPENING/CLOSING HATCHES: These operations are carried out by the stevedores.
SHIP CERTIFICATES: Deratisation or Fumigation Certificate; Vaccination Certificate for Crew and Passengers; Tonnage Certificate when coming from abroad.
CUSTOMS ALLOWANCES: Only tobacco, wines, spirits required for normal consumption, which must be included in vessel's stores list.
CARGO GEAR: Ships gear used.
IDENTIFICATION CARDS: Not required unless leaving the vessel.
CONSULS: There are no Consuls in the port.
REPAIRS: There is a small workshop in the port for minor repairs such as soldering, etc. There is no foundry.
DRY DOCKS: Nearest at Callao.
REPATRIATION: Members of crew or passengers can be repatriated subject to Port Authorities permission and passport control.
AIRPORT: There is a small emergency airport 2 km. from the port where biplanes can land.
TIME: GMT minus 5 hours. During the 3 months of summer clocks advance 1 hour.
HOLIDAYS: Holidays have been restricted. The national official holidays are: 27th and 28th July (National Independence Days); 1st January (New Year); 25th December (Religious Fete); Maundy Thursday and Good Friday; variable days and 1st May (Workers' Day).
POLICE/AMBULANCE/FIRE: Police 2126; Ambulance 2225; Fire 2081.
TELEPHONES: It is not possible to instal telephones on board. Communication by walkie-talkie radio.
GENERAL: Fresh and dry provisions can be supplied, such as meat, poultry, vegetables and fruits.
SERVICES: There is no tank-cleaning equipment and the discharge of tank washing and any other kind of garbage is forbidden, for the bay is a bathing area.
SHORE LEAVE: Allowed.
DELAYS: The vessel is moored on arrival. Delays can occur due to heavy sea or rain in case of cement loading.
AUTHORITY: Captain of the Port: Captain de Fragata, Rafael Diaz Zumaeta, Tel. 2202.
AGENT: See Callao.

SALAVERRY: 8.14 S. 78.57 W.

DOCUMENTS: See "Callao".
RESTRICTIONS: Harbour entrance is sand and liable to silting. Advisable to check draft requirements in advance, as depths are subject to latest dredging.
MAX. SIZE: Approx. 25,000 dwt. with up to 32 ft. draft.
PRATIQUE: Cable Agent requesting free pratique. Agent must be notified in advance if disease suspected on board.
GANGWAY/DECK WATCHMEN: Recommended.
CUSTOMS ALLOWANCES: Any amount held over normal consumption may result in customs search being imposed.
IDENTIFICATION CARDS: Supplied by Agent and stamped by Immigration. Required for all crew members.
HOLIDAYS: Only 1st May when work is not available.
CONSULS: Nearest at Callao/Lima.
AGENT: See "Callao".

SAN JUAN: 15.21 S. 75.11 W.
SAN NICOLAS: 15.14 S. 75.14 W.

DOCUMENTS:
1 copy Clearance from previous port.
2 copies Health Declaration.
10 copies Entrance Declaration, Form 1. Original visaed by Consul.
8 copies Passenger List, Form 3. Original visaed by Consul.
5 copies Passengers in Transit. Original visaed by Consul.
6 copies Cargo Manifests. Original visaed by Consul.
2 copies Cargo in Transit Manifest.
1 copy Tonnage Certificate, issued by Peruvian Consul.
3 copies Ballast Certificate. Original visaed by Consul.
8 copies Stores List.
4 copies Personal Effects Declaration.
8 copies Passengers Baggage Declaration.
1 copy Vessels Information Sheet, supplied by Agent.

Note 1. If no Peruvian Consul exists at port of departure or within 50 km/s. radius, then the documents which require Consular visa should be signed by a Consul of a friendly nation stating that there is no Peruvian Consul. If no Consul of any nation exists at the port of departure, the documents above mentioned must bear a certificate signed by an official of the port stating that no Consul of any nation exists at the port of departure or within 50 km/s. radius.

Note 2. In the case of a vessel merely transiting the Panama Canal, no new Peruvian Consular clearance is required. The Consular despatch from port of departure will be accepted provided it is correct and no changes have taken place. If, however, vessel stops for any business during the Canal passage, embarking or disembarking passengers, crew changes, loading or discharging cargo or the conduct of any business which causes a change in the Peruvian Consular documents, New Consular Dispatch must be obtained. Panama or Balboa, which ever applies, becomes the port of departure for Peru.

The following documents should be available for inspection:
Ship's Papers.
Valid Fumigation or Exemption Certificate.
Crew's Identity Documents.
International Vaccination Certificates of all persons aboard.
List with following data: date and port of issue of ship's register, date and port of issue of Health Certificate, date of vessel's building and yard, list of ports of call with dates during previous four months.

PILOTAGE: Pilotage is compulsory for berthing. No vessel may proceed to pier until permission to berth has been granted. No vessel is permitted to berth alongside Marcona Mining Company's pier without an authorised Docking Pilot on board. While loading, during periods of heavy swells and surge a Marcona Pilot will be on board permanently. Masters are requested to make arrangements and facilities available.

Upon arrival in port, vessels must anchor and wait for reception. The starboard accommodation ladder must be rigged for port Officials and Marcona representatives. Ships approaching San Nicholas must fly their national and quarantine flags. Vessels proceeding to San Nicholas to load iron ore will radio Marcona Mining Company, Lima, Peru, cable address Marminco Lima, their ETA five days – forty-eight hours and again at twenty-four hours prior to arrival; when vessels have direct contact with station "OAS", a prestowage hatch list must be radioed to Agent, giving tonnage per hatch and loading sequence. The coast radio station "OAS" located in San Juan Bay should be contacted as soon as vessel is within range. Berthing instructions and other messages from Agent at San Nicolas will be transmitted via this station. Radio contact must be made 48 hours prior to arrival, specially on week-ends and holidays.

ANCHORAGE: The anchorage recommended for vessels waiting for berth is in inner portion of the bay, East of meridian through San Nicolas point in depths of 15 to 20 fathoms. When anchoring, it is essential to leave sufficient sea room, about ¾ of a mile for ships to manoeuvre in and about the berth.

Wreck of M/S *Templar* lies in position: Lat. 15° 13′ 53″ S., Long. 75° 09′ 48″ W. The obstruction lies in approximately 150 ft. of water. Clearance above the obstruction is 60 ft. Do not anchor in the vicinity of the wreck.

RADIO: Coast Radio Station "OAS" is located in port of San Juan and serves both San Juan and San Nicolas. This station listens on 500 kc/s 0700 hrs. to 2300 hrs. local time (1200 to 0300 GMT) each day. It handles traffic on 410, 425, 444, 448, 454, 468, and 480 kc/s. Antenna output is 300 w.

There is a new transmitter with the following frequencies schedule:

4,345 kHz – GMT 0045; 0100; 1000; 0200
8,680 kHz – GMT 0000/0045; 1200/1230; 1600/1630; 2000/2100
16,978 kHz – GMT 1130/1400; 1630/1700; 2100/2200 listening on 4, 8 and 16 M/rz.

TUGS: None available.

BERTHING: Vessels calling San Nicolas for discharging general cargo or ore slurry berth on east side of pier, starboard side to pier. Ore vessels berth at west side of pier, port side to pier. In addition to vessels' own mooring lines, heavy surge lines are compulsory for vessels loading iron ore. Wires not permitted except when attached to tension winches. While vessels are alongside pier, engines must be ready for immediate use. Sufficient crew must be on deck at all times to tend mooring lines. Failure to do so may result in a discontinuance of loading and the vessel being moved out from the berth. Pier is located at South side of bay and is built on a north-south direction. It is constructed entirely of prestressed concrete with deck 1,000 ft. long and 50 ft. wide. The deck is 11 ft. 3 in. above mean low water. Depth alongside 62 ft.

MEDICAL: All medical attention may be arranged.

STEVEDORES: Available.

TANKERS: On east and west side of pier are three raisers to which three 8-in. diameter hoses can be connected to a main pipe line of 16 in. diameter for discharging of bunker C. Flanges are U.S. Standard (ASA). Location on pier is for midship connection on vessels. Maximum pressure permissible is 125 lb. p.s.i. and maximum temperature 150° F. Also possible to connect to pipeline from east side of pier, midship connection on vessel. Diesel oil is discharged on east side of pier, using one hose to 8 in. diameter pipeline. Flanges are U.S. Standard (ASA) with 8 bolt holes. Vessel's crew is required to connect hoses to vessel's manifold.

BALLAST: Special attention is called to ballast requirements of vessels which do not need ballast in order to enter under the loading boom. Such vessels are required to carry sufficient ballast for safe handling during berthing. It is permissible to discharge clean ballast at the pier.

FRESH WATER: None available.

FUEL: None available.

GANGWAY/DECK WATCHMEN: Recommended by crewmen to prevent stowaways.

OPENING/CLOSING HATCHES: Stevedores/Crew.

CARGO GEAR: Ore-loading boom extends 60 ft. from face of pier fender, and can be retracted from this position to a minimum length of 29 ft. Gantry with loading boom is mobile. Range of its mobility is 900 ft. starting at a point 76 ft. from the head of the pier. Shifting of vessels during loading is therefore not required. Height from water to underside of boom is 41 ft. Vessels must be ballasted so that height of any coaming or any other objects in the vicinity of the hatch where loading is to start will not exceed 39 ft. above waterline.

IDENTIFICATION CARDS: Required.

CONSULS: At Lima.

REPAIRS: Except in extreme emergency, repairs cannot be effected at this port.

TELEPHONES: None available.

REPATRIATION: In cases where crew changes are to take place in San Nicolas, at least seven days advanced cable notice is required to obtain the necessary immigration authorities permission. The advanced cable must set forth name, nationality and passport number.

HOLIDAYS: See "Ilo".

GENERAL: Official hours for port officials are from 0700 to 1100 and 1300 to 1800 hours. Upon request, port officials will board vessels at any time day or night, Sundays and holidays included. Overtime for such service is for account of vessels.

SHORE LEAVE: Allowed. Crew members are not permitted to travel outside of the San Nicolas/San Juan port areas without written authorisation or pass from the Master approved by Immigration authorities.

PORT REGULATIONS: Cargo holds must be properly cleaned. In this respect special care must be taken where vessels prior to their arrival at San Nicolas have carried the following cargoes: Gypsum, Phosphate, Pyrite, Coal, Sulfur, Silica, Aluminium, Sand, Gravel, or Quartz, or any other ore containing Arsenic, Phosphorus, Sulfur, Silica, Aluminium, or Copper. Prior to commencement of loading, cargo holds will be inspected by a representative of the shippers. It is recommended that the Master or a ship's officer accompany the cargo hold inspector during the inspection.

AGENT: Agentes Navieros San Nicolas, S.A. P.O. Box 1229 Lima. Cables: "Agnav Sannicolas".

TALARA: 04.35 S. 81.17 W.

DOCUMENTS, and all general information, refer to "Callao".

RESTRICTIONS: Depth in approach channel more than 24 ft.

TUGS: Three tugs available, each of 200 h.p.

BERTHING: At Talara there are two berths for loading fuel and water; one is a regular quay, the other a petroleum berth in which vessels lie, moored to dolphins alongside hose platform.

Quay length 385 ft., depth alongside 18 ft. to 34 ft.
Petroleum berth, length 585 ft., depth alongside 34 ft.

Talara is mainly a bunkering port as it is the main port for the Northern Peru Oilfields. The little general cargo discharged is done at the quay; bunkering being done at the quay and at the dolphin berths.

FRESH WATER: Available alongside berths.

FUEL: Available alongside berths.

AGENT: See "Callao".

Philippines

BATAAN, Limay: 14.32 N. 120.36 E.

Esso Tanker Terminal.

DOCUMENTS:
Maritime Declaration of Health.
Crew List.
7 copies Cargo Manifest.
3 Stores Lists.
3 Personal Effects Lists.

PILOTAGE: Not compulsory but recommended. Pilot boards vessel just off the berth.

RESTRICTIONS: Approaches are open deep water. Vessels may berth and unberth at any hour and any stage of the tide. Keel clearance of 10 ft. required.

MAX. SIZE: LOA 1,000 ft. Maximum draft 50 ft.

RADIO: Manila Radio. At the berth, shore communication with vocaline JRC 475 transceivers on 465 Mc/s.

HEALTH: Port health officials board with the Pilot. Radio request for free pratique can be made prior arrival.

TUGS: Available.

BERTHING: *Crude berth:* Conventional buoy mooring, tankers moor to eight buoys, in depth of 60 ft. Hoses may be connected on either side. Four 12-inch hoses for crude oil discharge.

Products Pier: Inner berth depth 13 ft. Outer berth depth 32 ft. Can accommodate vessel up to 530 ft. length. No slop discharge facilities available.

DENSITY: 1025.

MEDICAL: Doctor and hospital facilities available. Advance notice required of any medical attention needed.
FRESH WATER: Not available at berth. Can be supplied by barge.
FUEL: Bunkers, fuel and diesel, obtainable from berth, advance notice required.
REPAIRS: No facilities available.
CERTIFICATES: Those required are.
Certificate of Registration.
Certificate to Operate.
Certificate of Officers and Engineers (Licenses).
Officers and Crew-Seaman's book.
CUSTOMS ALLOWANCES: 200 cigarettes for each crew member, and one bottle of liquor for each crew member.
IDENTIFICATION CARDS: Essential.
REPATRIATION: Effecting crew changes and arranging necessary repatriation are carried out by the Immigration Office in the port with the assistance of the ship Agent and the Foreign Embassy concerned.
TIME: Local Civil Time is 8 hours ahead of GMT. This time reckoning is constant throughout the year.
HOLIDAYS: New Year's Day (1st January); Bataan Day (9th April); Holy Thursday (variable); Good Friday (variable); Labour Day (1st May); Independence Day (12th June); Republic Day (4th July); All Saints' Day (1st November); National Heroes Day (30th November); Christmas Day (25th December); Rizal Day (30th December). When any holiday falls on a Sunday, the following day (Monday) is by law considered a public legal holiday. As a general rule, employees of the government in the Philippines do not work on Saturdays. Cargo work on board vessels on these holidays can be arranged.
SHORE LEAVE: Crew of vessels who are nationals of countries with whom the Philippines maintains diplomatic relations can be allowed ashore after securing a pass from the Immigration Officer in the port. Restricted aliens (citizens or nationals of Iron and Bamboo Curtain countries) are not allowed on shore as a matter of policy.
GENERAL: Customs Inspector and two guards accommodated on board during vessels stay.
AUTHORITY: Private oil company terminal.

BATANGAS, Luzon (including Tabangao): 13.43 N. 121.03 E.

DOCUMENTS: Upon arrival of the vessel, the following papers must be submitted to the boarding authorities:
Original and 1 copy Visaed Crew List.
Original and 2 copies List of Stores: Deck, Engine, Steward Dept.
Original and 2 copies List of Stores: Firearms, Medicines, including opium and the like, if any.
Original and 2 copies Personal Effects Declaration of Officers and Crew (include cigarettes, whiskey, etc.).
Original and 5 copies Inward Foreign Cargo Manifest.
8 copies Ordinary Crew List.
1 copy Clearance from previous port of call.
PILOTAGE: Pilotage for docking and undocking at government wharves and privately owned wharves in the Port of Batangas is compulsory for all vessels engaged in foreign trade. The vessel is met by the harbour Pilot approximately 2 miles South of the wharf. Pilotage for entering the Batangas Harbour and anchoring in the quarantine anchorage is optional but pilotage for shifting therefrom or changing in the stream is compulsory for vessel engaged in foreign trade.
ANCHORAGES: Bureau of Customs Administrative Order No. 191, dated January 13, 1955, defines the limits of Batangas Harbour for navigational and mooring purposes as follows:
"... a navigational and mooring area a depth of 1 mile measured from Hagony River (near West boundary of refinery compound) Eastward along the coast by ¾ mile seaward running perpendicularly from both points . . ."
Within this navigational and mooring area a depth of 12 to 14 fathoms with good holding ground will be found at less than 400 yards from the beach. The bottom close to the beach is mainly sand and gravel. In the event of a strong South-west monsoon, vessels may resort to the protection afforded by the mountains of Maricaban Island by anchoring on the Northern side of the island along Maricaban Straight.
MAX. SIZE: Caltex Refinery: LOA 755 ft., draft 41 ft. Jetty designed for 45,000 DWT.
Tabangao Shell Refinery: LOA 900 ft., draft 48 ft.
HEALTH: Ships will clear for quarantine on arrival at the Batangas Harbour. Quarantine officers will normally board the vessel 2 miles South of the oil wharf.
TUGS: Tug service is not furnished by the two oil refineries. The use of a tug for berthing and unberthing is required. Although a tug is normally available at Batangas it may be necessary to dispatch a tug from Manila. Accordingly, it is important for Masters of vessels to provide at least 48 hours advance notice of ETA to ensure the availability of the tug boat.
BERTHING: Berthing may be done any time during the day or at night and Masters should exercise their own judgement in this respect. Vessels moor either port or starboard side to, depending on prevailing conditions.
STEVEDORES: All vessels proceeding to Batangas should radio either Caltex or Shell, whichever is their destination, their estimated time arrival at Batangas as early as possible, but not less than 96 hours before arrival, amending this ETA subsequently if it varies more than two hours from the original estimate in order to arrange towing gangs with the Luzon Stevedoring Corporation. Stevedoring is usually handled by Luzon Stevedoring Corporation.
MEDICAL: Both refineries have a small hospital for handling emergency cases. Should any ship's personnel need prolonged hospitalisation, arrangement will have to be made to transfer the patient to Manila or to the Provincial Hospital of Batangas where suitable medical attention is available. Dental treatment can be obtained from local dentists in the town of Batangas.
TANKERS: *Shell Refinery, Tabangao.* Jetty 1, two hoses of 10-in. diameter. Jetty 2, four arms of 12-in. diameter. Two berths of 50 ft. depth alongside. Slops acceptable at 500 t.p.h. up to limit of 3,000 tons.
Caltex Refinery: a T-head jetty. Berth No. 1 (depth alongside), 15 ft., No. 2, (depth alongside), 35 ft.; No. 3, (depth alongside), 42·4 ft.; No. 4, (depth alongside), 35 ft. Maximum distance between head and stern mooring buoys 1,040 ft.
DENSITY: 1.0261.
FRESH WATER: Fresh water is available to vessels loading, unloading or bunkering at Batangas Port. It is delivered to the vessel through hose connections. The water satisfies the physical and chemical requirements for drinking water.
FUEL: Bunkers are available from the two refineries. Prior advice should be given through the ship's Agent.
FIRE PRECAUTIONS: At both refineries smoking or open fires are prohibited on the wharves or on vessels alongside or within 100 yards of either wharf. Furthermore, each vessel's personnel is responsible for the safety of its own ships at all times.
DEVELOPMENT: The Government pier at present is under construction, with plans of constructing two other piers which will enable this port to accommodate more foreign vessels. The Caltex Refinery also has plans of pier improvements.
GANGWAY/DECK WATCHMEN: Not needed. The security guards in the gates of the two refineries serve the purpose.
OPENING/CLOSING HATCHES: This work is normally carried out by crew members of the vessel at the 2 refineries; off loading hoses will be connected and disconnected on board by the vessel personnel under the direct supervision of a ship's officer with the assistance and advice of wharf personnel.
CUSTOMS ALLOWANCES: Sufficient amount for crew's consumption while in port.
CARGO GEAR: During berthing and unberthing, it is required that ship's engines, tackle and all other gear must be in operative condition and in a state of readiness for use at a moment's notice, as required.
After clearing with the Customs' representative, off-loading hoses will be connected and disconnected on board by the vessel personnel under the direct supervision of a ship's officer with the assistance and advice of wharf personnel. Wharf equipment will normally be used for handling hoses although vessel's gear may at times be required and must be made available for this purpose. A ship's officer must approve the hose connections on board before off-loading commences.
IDENTIFICATION CARDS: Not required in the Port of Batangas.
CONSULS: Consulates are stationed in Manila.
REPATRIATION: To expedite disembarkation and in order that proper arrangements can be made in case of repatriation, the Master should radio this matter to Caltex or Shell refineries or his Agents within 48 hours before arrival. The message should give the names of the crew to be repatriated and their destination.
AIRPORT: At Manila.
TIME: GMT plus 8 hours.
HOLIDAYS: New Year's Day (January 1st); Holy Thursday; Good Friday; Labour Day (May 1st); Independence Day (June 12th); P.I.U.S. Friendship Day (July 4th); Bonifacio Day (November 30th); Special holidays declared by the President of the Philippines are also included. If any other legal holiday falls on Sunday the following day is observed as a holiday. Cargo work can be arranged on any or all holidays with the vessel's agent.
POLICE/AMBULANCE/FIRE: Police, tel. 125–J; Ambulance, tel. 7–J; Fire Department, tel. 261.
TELEPHONES: At present placing telephones on board foreign vessels is not available; however, telephone service is available on the jetty of both refineries.
GENERAL: Discharge of ballast: No dirty ballast may be dumped into the territorial waters of the Republic of the Philippines. The refineries have provisions for off-loading a limited amount of oil water ballast. Rat Guards: Rat guards shall be placed on all mooring lines to the wharf.
AUTHORITY: Collector of Customs, Port of Batangas, Sta. Clara, Batangas. Tel. 162 R.

BISLIG, Mindanao: 08.12 N. 126.19 E.

DOCUMENTS:
The original Manifest of all Cargo destined for the port, to be returned with the endorsement of the boarding official.
4 copies of the same Manifest, one of which, upon certification boarding official as to the correctness of the copy, shall be returned to the Master.
4 copies of Stores List.
4 copies of Passenger List.
4 copies of the Crew List.
The original of all through Cargo Manifest, for deposit, while in port, with Customs official in charge of the vessel.
A Passenger Manifest of all aliens.
PILOTAGE: Vessel should send direct advice to the Pilot or through its Agents 48 hours prior or at the very least 24 hours before ETA by commercial telegraphy.
There is no VHF operated by the Pilot.

Pilot boat is painted black (hull) and white (bridge and mast). International Code Signals used to call Pilot.

Pilot Station is located at Lat. 8 deg. 11.4 min. N., Long. 126 deg. 21.2 min. E.

Pilot boat will be located (if by prior advice/arrangement by Master requiring specific service of meeting vessel outside of entrance and conducting vessel through channel to inner harbour) at Lat. 8 deg. 16.85 min. N., Long. 126 deg. 26.50 min. E. or 340 degrees, 2·35 miles off Sanco Pt. lighthouse.

Pilot will always board a vessel (outside of entrance) via the pilot's or Jacob's ladder on the leeward side of the vessel.

ANCHORAGE: While waiting for a Pilot, the recommended anchorage (at entrance) is at Lat. 8 deg. 16.1 min. N., Long. 126 deg. 26.1 min. E. on or about this position and/or within an area of 0.5 mile radius from this point.

Quarantine anchorage or inner harbour is based on the point Lat. 8 deg. 12.9 N., Long. 126 deg. 22.0 E. to within a 5 mile radius from this point as centre, otherwise 1 mile north of BBLCI Pier's end.

Working anchorage at stream. When vessel is through with all the port formalities, she has to go to a working area for loading/unloading operations, thus:

BBLCI. Vessels will anchor at least within a 0.5 mile radius from the tip of BBLCI pier.

PICOP. Is especially prefered during North-west monsoon at least within a 5 mile radius from the foot/base of PICOP breakwater.

Bisling Bay. In general is bounded by a line from (*a*) Sanco Pt. to (*b*) Mawes I. to the North-west, thence to (*c*) the town of Bislig to the South-west, thence to (*d*) the village of Mangagoy to the South-west, and back to (*a*) Sanco Pt.

MAX. SIZE: At BBLCI Pier, at low water: Draft, forward 21 ft., aft 32 ft. Better prospect at high water.

HEALTH: Any vessel can be given free pratique if upon inspection everybody is healthy, vessel is clean and all certificates of vaccination are complete. However, if there is a suspicious quarantineable disease, a probationary pratique should be issued and after six days, if it was found out that there was no quarantineable disease at all, free pratique will be issued.

RADIO: RCPI, Clavecella and CRC.

TUGS: Tugs normally meet vessel with Pilot at the five miles limit and assist Pilot in docking, using ship's lines.

BERTHING: Berthing is on a first-come first serve basis. During the North-east monsoon berthing is in daylight only for precautionary measures.

STEVEDORES: ETA should be advised two days before ship's arrival stating workable hatches and gang requirement for berthing and gang arrangement.

MEDICAL: It is necessary for the Agent to receive advance notice if there is serious medical attendance and hospitalisation. However, less serious medical attendance does not need notification. Port of Bislig has hospital facilities with complete smallpox, cholera, El Tor and typhoid vaccine available.

DENSITY: About 1.025 with tendency to become heavier during dry season and on flood tide.

FRESH WATER: There is no available water supply. Water facilities may be installed with completion of additional pier.

FUEL: There is no available fuel supply.

DEVELOPMENTS: More berthing facilities are on the programme for the next three to five years when the pulp and paper mill is in operation. Installation of more log-processing plants to increase shipments.

GANGWAY/DECK WATCHMEN: P1.00 per hour for at least 3 men.

OPENING/CLOSING HATCHES: Rigging of booms is done by ship's crew, while opening and closing of hatches is carried out by stevedores.

CUSTOMS ALLOWANCES: 200 cigarettes and one bottle liquor for each man.

IDENTIFICATION CARDS: Needed.

REPAIRS: Very limited.

AIRPORT: 5 kilometres distant; daily flights except Sunday.

TIME: Local Standard Time is 8 hours ahead of GMT.

HOLIDAYS: On Christmas Day; New Year's Day and Good Friday. Cargo work may be arranged.

AUTHORITY: Collector of Customs, Port of Bislig.

CEBU, Cebu Island: 10.18 N. 123.54 E.

PORT LIMITS: The seaward boundaries of the Port of Cebu within which a vessel is considered to be an "arrived vessel". North Entrance: between Pier No. 2 and Caltex Bunkering Station. South Entrance: between Shell Island and Kawit Island.

DOCUMENTS:

1 copy Letter to the Quarantine Officer.
1 copy Free Pratique issued by Quarantine Officer.
1 copy Oath of Master (ship coming from foreign port).
1 copy Oath of Master (ship coming from local port).
1 copy Clearance from last port.
6 copies List of Ports of call.
6 copies List of Passengers Manifest.
5 copies Baggage Declaration of disembarking passengers.
6 copies Crew's Manifest.
5 copies Personal Effects List of crews.
5 copies Bonded Store List/Ship's Store List, etc.
5 copies Parcel List.
1 copy Narcotics List.
1 copy Firearms and Ammo List.
1 copy Foreign Currency List.
6 copies Inward Foreign Cargo Manifest.

PILOTAGE: Advance notice 24 hours before arrival, giving draft, ETA pilot station, whether coming via North or South Entrance. Pilotage compulsory. Pilot boarding South Entrance at Lauis Ledge of Black Buoy No. 1; Pilot boarding North Entrance between Bagacay and Bontolinao lights.

ANCHORAGE: North Entrance between Pier No. 2 and Caltex Bunkering Station. South Entrance between Shell Island and Kawit Island, in front of Lu Do & Luym's private wharf.

ENTRY RESTRICTIONS: No restriction on night entry. If draft above, North 26 ft. and South 30 ft. vessel cannot go alongside.

MAX. SIZE: Length 550 ft.; draft Shell Island 30 ft., Caltex 25 ft., General Milling Corp. 28 ft., and Mobil 28 ft.

HEALTH: Pratique obtained after Quarantine personnel have boarded, mustered crew and passengers, and examined ship's health documents. Pratique automatic if vessel coming from another Philippine port.

RADIO: Globe Mackay Cable & Radio Corp.

Call letters DZM.
Working frequencies: 4328 kc, 6492 kc, 8656 kc, 1298 kc.
Listening frequencies: 425 kc and 500 kc; 6265·5–6258·5 kc; 8354–8374 kc; 12531–12561 kc.
Call letters: DZG.
Working frequencies: 483 kc, 4308 kc, 6462 kc, 8616 kc, 1292 kc, 17232 kc.
Listening frequencies: 425 kc, 432 kc and 500 kc; 6265·5–6280·5 kc; 8354–8374 kc; 12531–12461 kc; 16708–16748 kc.

Master may contact Cebu Stevedoring Company through Channel 1 (156·7 Megacycle) and Channel 2 (157·8 Megacycle) VHF.

TUGS: Tugs: 300 h.p. and 600 h.p. Tugs will assist berthing. Ship's lines always used.

BERTHING: anytime except when current strong at a certain time on North side of Piers 1 and 2.

General Milling Corporation wharf, Port of Mactan, Cebu has a pneumatic suction pump for bulk cargoes like wheat and soybean meal.

Suction rate (wheat), about 85 tons per hour.
Suction rate (soybean), about 40 tons per hour.

All oil depot in Cebu (Shell, Caltex, Mobil, Esso and Filoil) has facilities in handling liquid chemicals or LPG carriers.

BRIDGES: Bridge crossing North Channel, clearance 70 ft. under construction. Channel meanwhile closed to navigation.

STEVEDORES: Ordered by Agents, no ETA to stevedores necessary from Master.

MEDICAL: No advance notice to Agents needed. Hospital facilities available anytime.

TANKERS: See "Max Size".

FRESH WATER: Most berths supply by shore installation, otherwise by barge or trucks.

FUEL: All grades available.

FIRE PRECAUTIONS: Tankers discharging: smoking only allowed in saloon (officers), crew in the messroom.

DEVELOPMENTS: Reclamation project at the North side of Cebu.

GANGWAY/DECK WATCHMEN: Services of watchmen necessary subject Master's recommendation.

OPENING/CLOSING HATCHES: Stevedores, with aid of ship's crew.

CUSTOMS ALLOWANCES: (Tobacco) One carton a week for each crew member. (Wine and/or Spirits) One bottle a week for each crew member.

IDENTIFICATION CARDS: Required by Immigration Authorities.

CONSULS: British tel. 7–22–68; Norwegian 9–77–20; Chinese 7–45–85; American 7–31–51.

REPAIRS: Minor repairs possible.

DRY DOCK: Cebu Shipyard – maximum 1,000 dwt only.

REPATRIATION: Facilities available.

AIRPORT: Distance 7 miles from port and regularly served by all domestic airlines.

TIME: Local time based on the 120 East meridian. GMT plus 8 hours.

HOLIDAYS: Cargo can be arranged during holidays, which are the following: New Year (January 1st); Maunday Thursday; Good Friday; Bataan Day (April 9th); Labour Day (May 1st); Independence Day (June 12th); Republic Day (July 4th); Bonifacio Day (November 30th); Christmas Day (December 25th); Rizal Day (December 30th).

SHORE LEAVE: Crew members allowed ashore any time, except Chinese nationals.

DELAYS: Berthing on North side of piers depends upon tide and current. South side of piers, vessel can dock any time.

AUTHORITY: Dept. of Finance, Bureau of Customs, Cebu.

AGENT: Smith, Bell & Co. (Phil.) Inc., Corner M.C. Briones and P. Burgos Sts., Cebu City. Tel. 7–52–98, after office hours 72630, 9–70–14. Lloyds Agents. Cables: "Bell Cebu".

CLAVERIA, Luzon: 18.37 N. 121.02 E.

DOCUMENTS: Required by Customs officers'.

2 copies Crew List.
2 copies Crew Manifest.
2 copies Bonded Store List.
2 Passenger List.
7 Inward Manifest.
2 Narcotic List.
2 copies Money List.
Clearance from Last Port.

PILOTAGE: There are no telegraphic addresses of pilot stations although Pilots could be contacted in the Port of Manila with at least 3 days advance notice.
ANCHORAGE: Very deep and wide, safe enough to accommodate 6 ships at a time.
RESTRICTION: No restriction whatsoever is imposed upon entry day or night time.
MAX. SIZE: Maximum length permissible is around 300 metres.
HEALTH: Pratique is granted as soon as the ship's Master has presented all his crew for vaccination in case same has expired and/or verification of its crew's health record and the submission of the Maritime Declaration of Health of the ship duly signed by the Master.
RADIO: Cables could be routed through RCA or DZN Manila for ship's Agents.
TUGS: Only required for lighters. Upon anchorage tugs could be called by blowing the ship's whistle twice.
STEVEDORES: No particular ETA advice in order to arrange gangs.
MEDICAL: Not necessary for ship's Agents to receive advance notice of required medical attendance. Doctors available.
FRESH WATER: No fresh water available for ships in this port.
FUEL: Not available in this port.
DEVELOPMENT: The construction of a breakwater.
GANGWAY/DECK WATCHMEN: It is recommended that ships that call at this port employ watchmen.
OPENING/CLOSING HATCHES: Is carried out jointly by ship's crew and stevedores.
CUSTOMS ALLOWANCES: 200 cigarettes for each man a week, and one bottle wine/spirits.
IDENTIFICATION CARDS: Not needed in this port.
CONSULS: No Consuls could be contacted in this port, although they could be contacted in the City of Manila.
REPAIRS: Major repairs not advisable in this port.
REPATRIATION: Changing of crew can be carried out by ship's Agent in Manila, Cebu or in any other big ports in the Philippines.
AIRPORT: No government airport in this port, although there is one private but no regular flights.
TIME: GMT plus eight hours.
GENERAL: See "Manila" for general information.
AUTHORITY: Collector of Customs, Claveria.

DADIANGAS: 06.27 N. 125.12 E.

DOCUMENTS:
4 Crew Lists.
3 Stores Lists.
3 Crew Personal Manifests.
Last Clearance.
Ship's Register, etc.
Immigration:
1 Visaed Philippine Crew List (and one copy).
Port Health:
De-Ratisation or Exemption Certificate.
International Health Form.
1 List of Vaccination Certificates – must be valid.
1 Crew List.
Department of Agriculture:
Certificate stating vessel free of Kaphra beetle.
PILOTAGE: Pilot boards about half a mile from the berth. Uses a white painted launch as a rule. If berth occupied, Pilot takes vessel to anchorage off the town.
ANCHORAGE: Very deep water. Vessel lowers seven or eight shackles on the port anchor as vessel approaches shoreline. Anchor then takes hold on reef. This is about 200 ft. from shore, when vessel has swung stern-to.
RADIO: Messages regarding ETA, etc. are sent through Manila Agent.
TUGS: Not available.
BERTHING: Private concrete finger pier. Well fendered. Berth on South side only in deep water. Pier width 24 ft. at shore end and about 60 ft. at seaward end. Depth alongside 40 ft.
REPATRIATION: Possible, but very difficult via Manila.
MEDICAL: Small hospital in town.
STEVEDORES: One company only. Ship's gear used and a loading rate of about 1,500 tons per day. Exports are: fresh fruit, canned pineapple and concentrated pineapple juice.
CUSTOMS ALLOWANCES: 200 cigarettes and one bottle of spirits per man.
SHORE LEAVE: Allowed.
FUEL: None available.
GENERAL: One Customs Inspector and two guards to be given accommodation and meals. When a vessel is expected, the Agent usually contacts VHF Channel 16 from a vessel alongside.
AGENT: See "Manila".

DAVAO: 07.04 N. 125.38 E.

DOCUMENTS: The following documents are required of vessels entering port:
Clearance papers from last port of call.
8 Inward Cargo Manifests.
3 Crew Lists.
3 Passenger Lists.
3 Store Lists.
1 Vessel's information sheet of Ship's Registry.
1 List of Crew Personal Effects.
Officer's and Seaman's Passports (for Immigration Inspection).
PILOTAGE: Pilotage at Davao port is compulsory. When vessel is due to call at Davao port, the Master should cable Agents of the vessel's ETA at least 24 hours before arrival. Licensed Pilots are available 24 hours a day. The Master may, likewise, cable the Pilot's Station addressed "DAVAO PILOTS" either through Globe-Mackay or RCA frequencies. There are two pilot boats servicing the port of Davao and they fly the usual "red and white" Pilot Flag, visible in daytime.
ANCHORAGES: Davao port harbour limits embraces all that portion of Davao Gulf bounded by an imaginary line drawn from Dumalag Point running East (true) to the Western shoreline of Samal Island; Thence by shoreline of Samal Island to Bassa Point; thence by an imaginary line running straight to the mouth of Lasang River, and thence by shoreline of the mainland (Mindanao Island) to Dumalag Point, the place of commencement. Vessels normally drop anchor approximately 1 mile off the pier area. (Note: Davao Pilots conduct vessels to safest anchorage, away from traffic obstructions.)
RESTRICTIONS: Vessels entering port should be prepared to present required documents upon boarding of the Customs Boarding Party. No unauthorised persons must be allowed to go onboard before the customary entrance formalities are effected by the Government authorities, i.e. Quarantine Officers, Customs Boarding Party, Immigration Officers and other Government representatives.
MAX. SIZE: For entrance formality purposes, Davao port can accommodate vessels with a length of 700 ft. with a maximum draft of 40 ft. However, if the vessel should proceed alongside the wharf, the maximum length allowable will be approximately 500 ft. with a draft of 20 ft. to avoid touching the bottom at low tide, which is approximately 23 ft. Oil docks can accommodate oil carriers with a maximum length of 500 ft. and a maximum draft of 25 ft. at low tide to avoid touching the bottom.
HEALTH: Vessels entering port should display International flag "Q" at fore. Masters are advised to make ready the health book of each officer and crew for submission to the Medical Quarantine Officer when he boards the vessel. In the event of any suspected disease or fever onboard, International Code flags "E Z Q" should be displayed conspicuously, and in the event of death, Customs and Quarantine calls, or International Code flags "E N L" should be displayed.
Pratique is automatic after a vessel has called at another port of entry in the same country.
RADIO: Radio messages can be routed through any big stations like RCA or Globe-Mackay. Masters are advised, however, not to send messages when vessel is within a 3-mile radius of the port as defined in the regulations.
TUGS: The only tugs available are those belonging to the stevedoring company, and in most cases are not used in assisting vessels when coming in for berth. The Pilot's boat usually assists in handling ship's lines when docking at the wharf. There is a two-line service at the wharf receiving ships' lines and letting-go lines.
BERTHING: Berthing facilities of Davao port are limited. The present length of the existing wharf is 1,550 ft. accommodating two overseas vessels and two coastal vessels at the same time. Berthing arrangements are by "first to arrive – first to berth", and vessels are required to work 24 hrs. a day during weather-working days to give way to other vessels awaiting berth. In most instances the wharf is congested and vessels should advise their ETA at least 48 hrs. in advance.
STEVEDORES: There are several stevedoring firms operating. The biggest, Luzon Stevedoring Corporation, is most reliable with adequate facilities in handling incoming and outgoing cargoes. Upon receipt of vessel's ETA, the Agents arrange the stevedore gangs required by the vessel and other requirements for discharging or loading operations.
MEDICAL: In any cases when vessels entering port requires immediate medical attention of her crew members, the Agents must be advised by cable and the Medical Quarantine Officer shall immediately arrange hospitalisation if necessary. Innoculations are performed by the Medical Quarantine Officers. There are first-class hospitals available with adequate facilities.
TANKERS: Only medium-sized tankers can dock at local oildocks, namely, Shell, Caltex and Esso. The lines are 3 and 4 in. Each oildock can accommodate one tanker at a time, and maximum permitted draft is 25 ft.
FRESH WATER: Davao port has no water connections at the wharf, and fresh water supply to the vessels is done by tank-trucks with average delivery of 15 tons per hour.
FUEL: Fuelling of vessels is done alongside, Shell or Caltex oildocks with average viscosities 750 SSU 100°F. Vessels scheduled for fuelling should make 24 hrs. notice at least.
FIRE PRECAUTIONS: No fire boats are available in the port. Vessels docked alongside wharf are assisted by the Davao Fire Department and other ships docked alongside, in case of fire onboard.
DEVELOPMENTS: Development programme for the lengthening of the existing wharf is at a slow place. The Government has on its blue-print the construction of the proposed "Free Zone" about 2 miles North of the existing wharf. This is called the Mindanao Development Authority Project. One of the proposed plans is to construct a marginal wharf which will accommodate five overseas vessels at a time, each average 500 ft. in length. Estimated completion within 2 years from start of actual construction.
GANGWAY/DECK WATCHMEN: There are numerous watchmen agencies operating in Davao port. Local shipping agents re-

commend only one agency at a time, and the rates are hourly for deck watchmen on patrol.
OPENING/CLOSING HATCHES: This is normally done by the stevedores.
CUSTOMS ALLOWANCES: Number of items allowed for the crew while the vessel is in port depends on how long the vessel stays in port and this should be arranged with the Customs Boarding Officer.
CARGO GEAR: Stevedoring company provides cargo gear and vessel may supply additional gear upon request of the stevedores' boss.
IDENTIFICATION CARDS: Not required.
CONSULS: Countries with consulates are Republic of China (Taiwan), Indonesia, U.S.A. (represented by the USIS).
REPAIRS: Only minor repairs are possible for deck and engines, and also refrigeration and electrical repairs.
REPATRIATION: There is an office of the Immigration Bureau which arranges repatriation and change of crew.
AIRPORT: Wharf is approximately 2 miles from airport with daily flights served by three domestic airlines. Average daily flights to Manila is five flights a day.
HOLIDAYS: There are a number of official holidays (same as in Manila) being observed. Stevedores do not work on 1st May, Labour Day, and work half-day During Christmas Day, New Year's Day and Good Friday.
POLICE/FIRE/AMBULANCE: Contact should be made through the Customs Office which is at the wharf-side. There is a police outpost near the wharf.
TELEPHONES: No telephone connection to vessels at present.
GENERAL: Shipmasters should advise their crew not to bring along with them valuables when on shore leave. No visitors are allowed onboard without prior permission by the Customs Inspector onboard.
SERVICES: Special services available, e.g. tank cleaning and discharge of tank washings done by Luzon Stevedoring Company.
SHORE LEAVE: Except for Chinese crew and other nationalities without diplomatic relations with the country, all other nationalities are allowed shore leave.
PORT REGULATIONS: Local ship Agents will brief Shipmasters of the existing port regulations and also Customs Inspectors onboard will assist Shipmasters of these regulations when their assistance is sought.
AGENTS: Smith, Bell & Co. (Philippines) Inc., PO Box 146, Davao City, Philippines. Cable address: "Smithbell Davao". Telephone numbers: 7-23-86, 7-36-42, 7-51-02.

ILOILO Panay: 10.42 N. 122.35 E.

PORT LIMITS: Iloilo Harbour is defined as that portion of Iloilo Strait within the following boundaries: an imaginary line extending from the Northern bank of Dumangas River, Island of Panay, across Iloilo Strait to Navalas Point on the Northern coast of Guimaras Island; thence along the North-west and West shore of Guimaras Island to Lusaran Point, thence along an imaginary line extending from Lusaran Point to the South bank at the mouth of Siuaragan River in the municipality of San Joaquin, Province of Iloilo, Island of Panay, to the North bank of Dumangas River.
DOCUMENTS:
6 Crew Lists.
1 Visaed Crew List.
2 Crew Personal Effects Lists.
3 Passenger Lists.
1 Health Declaration.
10 Cargo Manifests.
3 Cargo Stowage Plans.
1 Bill of Lading.
2 copies of Customs Documents.
PILOTAGE: All foreign-going vessels required advise ETA 24 hours before arrival. Telegraphic address Iloilo Pilots. Pilot station: South entrance at Sinapsan Point; North entrance at Navalas Point. Pilot boat painted white with name "Pilot" on top, carries flag "H". Sound signals for calling Pilot, two long blasts and one short.

Northern entrance: Pilot boards vessels at Northern entrance to Iloilo Strait 2 miles East of Navalas Point. Maximum draft 24 ft. Entry and departure in daytime only.

Southern entrance: Pilots board vessel 1 mile West of Sinapsan Point. Vessels can be brought in and out of the harbour at any time, maximum draft 30 ft. Vessels with more than 30 ft. draft must wait for high tide.
RESTRICTIONS: Iloilo Strait, separating Panay and Guimaras Islands, has a width of about 0·9 mile at its narrowest part. This important thoroughfare leads to the port of Iloilo. Its shorelines are very irregular, and the navigable channels are narrowed by Iguana bank and Siete Pecados Islands on the Northern entrance and by Oton bank on the Southern entrance. Ocean vessels use only the South entrance when entering Iloilo Strait. Incoming vessels are met and boarded by Iloilo Pilot at Sinapsapan Point. Pilotage is compulsory. Oton bank is of soft muddy sand, about 0·1 mile West South-west of the Southern extremity of the flat on which Iloilo City stands and extends about 8 miles in a West South-westerly direction. It is composed of shifting sand and said to be extending Westward; vessels should not attempt to cross it. There is a narrow channel between it and the Panay shore, used by coast-wise vessels, but the main channel into Iloilo is between the bank and Guimaras Island. It is the sand bar along this channel that limits the draft of ocean vessels, entering or leaving Iloilo Strait, to a maximum of 33 ft. on a 5.0 ft. tide.
ANCHORAGE: Vessels waiting for Pilot may anchor in vicinity of pilot boarding station. No specified quarantine or Customs anchorages. Ships may anchor at any place North or South of the mouth of the Iloilo River provided that they do not obstruct navigation.
MAX. SIZE: No restrictions on length and breadth. Vessels over 30 ft. draft dependent on height of tide.
HEALTH: All overseas vessels calling first port of entry are subject to quarantine until free pratique granted. Quarantine doctor boards on arrival and issues Bill of Health subject to Master's Health Declaration and clearance from last port. Agents must be advised by radio in advance if suspected disease or fever on board. Pratique automatic for vessels coming from another port in the Philippines.
RADIO: Sarmiento Radio via Phimacomi, call sign DZZ. Frequencies 6 and 8 mhz.
TUGS: Berthing assistance by tugs available if requested. Ship's lines used. Pilot boats normally assist berthing.
BERTHING: Limited berthing space at pier berths, accommodation for two vessels only. Advance information required for vessels loading bulk sugar or molasses, since only one vessel may berth at a time.

Guimaras Island: Molasses installation, the molasses loading pier, owned and operated by the Luzon Stevedoring Co., is easily picked out and distinguished by the three steel tanks and one concrete tank situated on a hill just above the pier and should not be confused with the Jordan municipal pier laying just south of it. The pier is T-shaped, being 25 ft. at the face with a row of four pile clusters in line with the face, with a total span of about 300 ft. and with ample mooring facilities. It is recommended that berthing be done at flood tide, with the assistance of a Pilot obtainable at Iloilo. Unberthing can be done at any time. The three steel and one concrete tanks has an aggregate capacity to store 52,400 tons of molasses. Three of these four tanks are provided with pneumercator scales. The molasses outloading berth is located about 800 ft. North of the bulk sugar outloading berth and its outloading capacity is about 5,500 tons of molasses per day. Tankers with as much as 12,000 tons deadweight capacity have been handled here.

Bulk sugar installation. The berth has an average depth of water alongside of 40 ft., the shallowest portion being 33 ft. at the Southernmost part of the breakwater extending down to the inloading berth. Maximum length of vessel so far accommodated is 633 ft. (without utilising hatches 1 and 7). The outloading capacity for bulk sugar is from 7,000 to 8,000 tons per day, while the capacity to inload from barges into its three warehouses is about 4,000 tons per day. The three warehouses have a total capacity of 60,000 tons. Outloading of bulk sugar to ocean vessels is affected by means of conveyor system running from the warehouses to the outloading tower which has two retractable boom bridges fitted with ship trimmers. Height of boom bridge down to its base is 31 ft. with the water level during high tide being one foot below this base. Carrier vessels coming alongside to load therefore should not exceed the height of 32 ft. from waterline to hatch coaming in order to allow boom bridge of the outloading tower clearance over the hatch opening.
STEVEDORES: Advise Agent before arrival details of cargo and number of gangs required.
MEDICAL: Agent should be advised 24 hours in advance of any medical requirements. Hospital facilities available. All crew require valid vaccination certificates.
FRESH WATER: Delivered by barge, minimum charge for 40 metric tons. Available from Guimaras Shore Installation, minimum charge for 40 metric tons
FUEL: Bunker "C" available, subject to three days advance notice.
WATCHMEN: Services of shore watchmen recommended.
HATCHES: Opening and closing hatches is normally done by stevedores except for McGregor or other automatic hatch covers which are operated by the crew.
CUSTOMS ALLOWANCES: 200 cigarettes in an open carton allowed each man. No allowance for wine or spirits.
CARGO GEAR: Details of any heavy lifts should be advised to avoid delay.
IDENTIFICATION CARDS: Required for shore leave. Seamen's books or passports usually deposited with Immigration.
CONSULS: Great Britain, telephone 5086. All other Consuls at Manila.
REPAIRS: Minor repairs can be effected. Dry docks for local barges and launches only.
REPATRIATION: Can be arranged subject to Immigration approval.
AIRPORT: Situated about 4 miles from the port with regular local services.
TIME: GMT plus 8 hours all the year round.
HOLIDAYS: 1st January, Holy Thursday, Good Friday, 9th April, 1st May, 12th June, 4th July, 25th December, 30th December. Cargo work may be arranged on these days.
POLICE/FIRE/AMBULANCE: Police, tel. 55-21; Fire, tel. 30-11; Ambulance, tel. 26-12 or 25-61.
TELEPHONES: No facilities for placing telephones on board.
SHORE LEAVE: Crew members are allowed ashore subject to Immigration control.

AGENTS: Smith Bell & Co. (Philippines) Inc., tel. 28-51. Telegraphic Address: Bell Iloilo.

JOLO: (Jolo Island) 06.03 N. 121.00 E.

DOCUMENTS:
1 copy of Clearance issued by the last Port of Call.
1 copy of Quarantine Clearance.
2 copies of Crew List.
2 copies of Crew Possessions' List.
2 copies of Stores List.
2 copies each of Narcotic, Firearm, Passenger, Mail, Parcel and Money Lists.
5 copies of Inward Foreign Manifest.

PILOTAGE: Telegraphic advice to pilot station required 48 hours in advance. Pilot boards in quarantine anchorage.

ANCHORAGES: 4 miles North-west of Piers I and II.

RESTRICTIONS: Entry permitted only before sunset and after sunrise. Vessel should wait 4 miles off Piers for quarantine or Pilot service.

MAX. SIZE: Up to 8,000 tons dwt.

HEALTH: Wait for quarantine doctor at quarantine anchorage. To obtain pratique, the ship's Master must advise the ship's Agent vessel's ETA in advance. The ship Agent must in turn advise the quarantine officer of the arrival of the vessel 2 to 3 hours before the vessel sails into port. When the vessel arrives at the quarantine anchorage, the quarantine officer boards and inspects the same and if the vessel is found to be free from all quarantinable diseases, pratique is granted.

Automatic pratique is granted only to naval vessels.

Pratique is no longer necessary when the vessel entering the port has called at another port in the Philippines immediately before.

RADIO: Radio Corporation of America or Mackay Radio.

TUGS: None available.

BERTHING: As may be directed by Wharfinger.

STEVEDORES: ETA advices required in order to arrange gangs.

MEDICAL: It is always necessary for ship Masters to notify their Agents of required medical attention at least two to three hours before arrival. Hospital facilities are available. Vaccination/Fever Certificates required, especially those against cholera, smallpox and yellow fever.

DENSITY: 1025.

FRESH WATER: Available, direct line to ship from all berths.

FUEL: Available. Delivery direct line to ship from pier.

GANGWAY/DECK WATCHMEN: Services of watchmen necessary.

OPENING/CLOSING HATCHES: This work is normally carried out by stevedores.

CUSTOMS ALLOWANCES: 200 cigarettes for each crew member, and one bottle of liquor for each crew member.

IDENTIFICATION CARDS: Essential.

REPATRIATION: Effecting crew changes and arranging necessary repatriation are carried out by the Immigration Office in the port with the assistance of the ship Agent and the Foreign Embassy concerned.

CONSULS: None.

REPAIRS: No facilities.

AIRPORT: Plane flight twice a day to Manila for international connections.

TIME: Local Civil Time is 8 hours ahead of GMT. This time reckoning is constant throughout the year.

HOLIDAYS: New Year's Day (1st January); Bataan Day (9th April); Holy Thursday (variable); Good Friday (variable); Labour Day (1st May); Independence Day (12th June); Republic Day (4th July); All Saints' Day (1st November); National Heroes Day (30th November); Christmas Day (25th December); Rizal Day (30th December). When any holiday falls on a Sunday, the following day (Monday) is by law considered a legal public holiday. As a general rule, employees of the government in the Philippines do not work on Saturdays. Cargo work on board vessels on these holidays can be arranged.

POLICE/AMBULANCE/FIRE: Telephone numbers can be supplied by Agent.

TELEPHONES: Cannot be connected on board vessels.

SHORE LEAVE: Crew of vessels who are nationals of countries with whom the Philippines maintains diplomatic relations can be allowed ashore after securing a pass from the Immigration Officer in the port. Restricted aliens (citizens or nationals of Iron and Bamboo Curtain countries) are not allowed on shore as a matter of policy.

DELAYS: Availability of berthing space.

AUTHORITY: Collector of Customs, Jolo, Sulu.

JOSE PANGANIBAN, Luzon: 14.17 N. 122.42 E.

DOCUMENTS:
5 copies Crew List.
3 copies Passenger List.
4 copies Inward Manifest.
4 copies Outward Manifest.
5 copies Stores List.
3 copies Personnel Effects List.
3 copies Narcotics List.
3 copies Tobacco List.
3 copies Ship's Particulars.
Ship's Registry and Quarantine Papers from last Port of Call.

PILOTAGE: Compulsory for entrance and for clearance. ETA must be forwarded to the Agency in Manila; the last telegram from the Master w/ETA will be transmitted by radio to Pilots at Jose Panganiban (mentioning Larap if the vessel goes direct to Larap, J.P., and also to the loader in Daet. (Daet is the Capital of North Camarines.) In case of change of time, the hour of expected arrival may be forwarded directly to the Harbour Pilot. Master to pilot his vessel 1·5 miles South of Tanao Island lighthouse and steer 180° at moderate speed to meet the Pilot.

ANCHORAGE: About 1 to 2 miles W. of Pinandugan Point; advisable to await Pilot; in 8 to 11 fathoms or proceed Southward at slow speed to meet Pilot.

RESTRICTIONS: Entrance can be at any time day or night, but during Northern monsoon advance notice should be given to consider the use of a motor-boat instead of small-motored *banea;* in case of meeting outside harbour limits the request should be made to Pilot by the Master of vessel entering.

MAX. SIZE: Maximum draft not to exceed 30 ft.

HEALTH: To obtain pratique, the ship Master must advise Agent vessel's ETA in advance. The foregoing advice is very important because the ship Agent must in turn advise the quarantine officer of the arrival of the vessel 2 to 3 hours before the vessel sails into port. When the vessel arrives at the quarantine anchorage, the quarantine officer boards and inspects the same, and if the vessel is found to be free from all quarantinable diseases, pratique is granted. Automatic pratique is granted only to naval vessels. Pratique is no longer necessary when the vessel entering the port has called at another port in the Philippines.

RADIO: RCPI (Radio Communications of the Philippines, Inc.).

TUGS: A motor-boat is used by the PIM (Phil. Iron Mines) in Larap for vessels to load for them in that bay, but it is not needed for Panganiban Bay.

MEDICAL: Good hospital facilities in Larap and in Daet. There is also rural Medical Officer in this locality.

FRESH WATER: Insufficient fresh water on the pier to supply ships.

WATCHMEN: There is watchmen service in this port; number of watchmen at ship's convenience.

OPENING/CLOSING HATCHES: An additional charge for this job is imposed if carried out by stevedores. The crew can, however, do the job.

CUSTOMS ALLOWANCES: 200 cigarettes for each member of the crew.

IDENTIFICATION CARDS: Only those which have to be shown to Immigration Officer with booklet are necessary. Immigration Officer will board vessel after the doctor's clearance.

REPATRIATION: Effecting crew changes and arranging necessary repatriation are carried out by the Immigration Office in the port with the assistance of the ship Agent and the Foreign Embassy concerned.

AIRPORT: In Larap and in Daet. Daily trips to Manila.

TIME: Local Civil Time is 8 hours ahead of GMT. This time reckoning is constant throughout the year.

HOLIDAYS: New Year's Day (1st January); Bataan Day (9th April); Holy Thursday (variable); Good Friday (variable); Labour Day (1st May); Independence Day (12th June); Republic Day (4th July); All Saints' Day (1st November); National Heroes Day (30th November); Christmas Day (25th December); Rizal Day (30th December).

SHORE LEAVE: Crew of vessels who are nationals of countries with whom the Philippines maintains diplomatic relations can be allowed ashore after securing a pass from the Immigration Officer in the port. Restricted aliens (citizens or nationals of Iron and Bamboo Curtain countries) are not allowed on shore as a matter of policy.

AUTHORITY: The Collector of Customs, J. Panganiban, Bureau of Customs.

LEGASPI: 13.10 N. 123.45 E.

DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
2 Bills of Lading.
2 Fire Arms Lists.
2 Bonded Store Lists.
2 Narcotic Lists.
7 Inward Manifests from last port of call.
8 Outward Manifests from last port of call.
1 Vessel's Registration Certificate.
1 Certificate of Ownership.
1 International Loading-Line Certificate.
1 Safety Equipment Certificate.
1 Prevention of Life and Property at Sea Certificate.

PILOTAGE: Send advance notice telegram to Harbour Pilot, Legaspi City, 48 hrs. before arrival. ETA should be tendered 48 hrs. and 24 hrs. in advance. No VHF available. Pilot boat has letter "P" painted white above water line. International Code signals used.

Pilot area is within the 3-mile limit from the harbour, whereby no extra charges will be solicited. However, if vessel requires services outside the harbour limits, extra pay is solicited. During inclement weather, Masters of vessels should notify their arrival in order to be met within or outside the 3-mile limit.

During bad weather a jacob's ladder is more appropriate until vessel is at anchorage, thence accommodation ladder will be utilised for the purpose of Quarantine and Customs Officers.

No specific areas of anchorage in waiting for a Pilot; Master must use his discretion to drop anchor within the 3-mile limit with seven shackles in the water until Pilot arrives.

ANCHORAGE: After sunset and before no vessel is cleared by Customs.

Anchorage area is open to vessels of any draft.

MAX. SIZE: Length 600 ft. draft 32 ft. During spring and neap tides current is strong. At Pilot's discretion when to dock and undock.

HEALTH: All crew members and officers should possess valid vaccination certificates. In the event of suspected disease or fever onboard, Quarantine Officers should be notified at port of call.

Pratique could be served by boarding Quarantine Officers. Pratique is not needed if vessel already called at port of entry within the jurisdiction of the Philippines.

RADIO: Following stations are normally used:

RCPI FILTEL
TELEFAST CLAVECILLA
CRC

TUGS: No tugs available. Motor launch is used to attend to mooring and unmooring.

BERTHING: At AIC Berth and Legaspi Berth. Mooring daytime only. Vessels moor stern to quay (Mediterranean mooring).

STEVEDORES: Stevedores are members of Union Oberara of Legaspi, Fraternal Obrara and Espinosa Estervering.

Bulk cargoes are handled and charged per ton. Hired shore personnel are paid per minimum wage rate daily as described by the Bureau of Labour Law.

TANKERS: Maximum draft 30 ft. Diameter of Load Discharge Line, 4 in.

DENSITY: Salt water density 1036.

FRESH WATER: Fresh water is available by tank-truck, containing 6 tons.

FUEL: Fuel available at any time.

GANGWAY/DECK WATCHMEN: Services of watchmen are available at the Master's discretion.

OPENING/CLOSING HATCHES: In the absence of sailors to open/close hatches, shore union personnel are available with a rate based on Union Rate Tariff.

CUSTOMS ALLOWANCES: 1 carton of cigarettes for each crew member. 1 bottle of wine and/or spirits for each officer.

IDENTIFICATION CARDS: Required, also Seaman's Book.

REPATRIATION: Allowed upon approval by Commissioner of Immigration at Manila.

AIRPORT: There is an airport about 2 km. away. 1 flight per day or 7 flights per week.

TIME: Standard time. GMT plus 8 hrs.

HOLIDAYS: 1st January (New Year's Day); 9th April (Bataan Day); Maundy Thursday; Good Friday; 1st May (Labour Day); 12th June (Independence Day); 4th July (Fil-American Friendship Day); 30th November (Bonifacio Day); 25th December (Christmas Day); 30th December (Rizal Day).

Cargo work can be arranged on these days with additional overtime charges covered by the Bureau of Labour Law.

POLICE/AMBULANCE/FIRE: There are telephones connected to the three mentioned services but they have no numbers. Only controlled by operator available for any call simultaneously.

GENERAL: Notice of vessel's should be sent 48 hours before the vessel's arrival.

SHORE LEAVE: Seamen who are restricted aliens are not allowed to leave the ship unless authorised by the Commissioner of Immigration.

AGENTS: Smith, Bell & Co. (Philippines) Inc., Legaspi City.

MANILA, Luzon: 14.40 N. 121.00 E.

DOCUMENTS:

6 copies Inward Foreign Cargo Manifests:
- 1 copy Customs Marine Division.
- 1 copy File – Surveyor's Office.
- 1 copy Customs Secret Service Division.
- 1 copy Customs Auditor.
- 1 copy Plant Quarantine Officer.
- 1 copy Terminal Contractor (Arrastre).

3 copies Ship's Stores Lists:
- 1 copy Customs Marine Division.
- 1 copy Customs Inspector in charge of vessel.
- 1 copy Customs Harbour Police.

2 copies Crew Personal Effects Lists:
- 1 copy Customs Marine Division.
- 1 copy Customs Inspector in charge of vessel.
- 1 copy Customs Harbour.

2 copies Visaed Crew List: To be handed to Immigration Officer.

7 copies Crew Lists.
- 2 copies Customs Marine Division.
- 2 copies Immigration Officer.
- 1 copy Customs Inspector in charge of vessel.
- 1 copy Manila Police Department representative.
- 1 copy Customs Secret Service Division.

5 copies Landing Passengers Manifests (BU of Immigration Form 15):
- 4 copies Immigration Officer.
- 1 copy Manila Police Department representative.

6 copies Landing Passengers Lists:
- 2 copies Customs Marine Division.
- 1 copy Customs Inspector in charge of vessel.
- 1 copy Appraisers (Baggage Section) Division.
- 1 copy Customs Secret Service Division.
- 1 copy Manila Police Department representative.

7 copies in Transit Passengers Lists.
- 2 copies Customs Marine Division.
- 2 copies Immigration Officer.
- 1 copy Customs Inspector in charge of vessel.
- 1 copy Manila Police Department representative.
- 1 copy Customs Secret Service Division.

Baggage Declarations:
- 1 copy per Landing Passenger or per Head of family.

Other Papers:
- Quarantine Pratique.
- Ship's Register and clearance from Last Port called should also be handed to the Boarding Officer.

PILOTAGE: The Pilot will board vessels in the quarantine anchorage at the completion of the quarantine inspection if vessels are proceeding to one of the 26 anchorages within the breakwater or to one of the piers.

Pilotage for anchoring or leaving anchorage within the breakwater is compulsory, as well as when docking and undocking at any of the piers.

ANCHORAGE: The position and bounds of the quarantine anchorage may be determined as follows: From the Manila Outer Harbour light buoy No. 1, approximate position, Lat. 14° 33′ 09″ N., Long. 120° 54′ 00″ E., thence on a range of 76° 24′ true, Custom House City Hall Towers 4,000 yards to approximate position Lat. 14° 34′ 50″ N., Long. 120° 56′ 00″ E., thence 180° true 119 yards to approximate position Lat. 14° 34′ 14″ N., Long. 120° 50′ 00″ E., thence 242° 30′ true 4,440 yards to the Manila Outer Harbour lighted buoy No. 1 at point of commencement.

When approaching the quarantine anchorage during daytime, the ship should fly her registered signal letters. When the vessel arrives during night at the quarantine anchorage, vessel's call letters should be hoisted at daylight as well as the "Q" flag. If vessel is carrying mail also the "Y" flag should be hoisted until delivery is effected.

RESTRICTIONS: Vessels entering Manila Bay through the North channel shall pass midway between La Monja Island and Guardia Shoal and shall proceed directly through the middle of the channel between Corregidor Island and the mainland, steering 070° until 1 mile distance from the shore is cleared. The same route shall be followed by vessels when leaving Manila Bay through the North channel.

Vessels entering Manila Bay through the South channel should not approach any shore closer than 1 mile and shall keep South of the restricted area, South of La Monja, Corregidor and Caballo Islands, which is embraced within the North sector of the following two bearings: 296° from El Fraile Island and 236° from Caballo Island lighthouse; furthermore on the Southern side of the channel, they shall not approach the line joining El Fraile and the North-west point of Limbones Island closer than 1 mile. The same restrictions apply to vessels leaving Manila Bay through the South channel.

There are no uncharted obstructions between the entrance to Manila Bay and the quarantine anchorage and vessels should have no difficulty proceeding over this route. Frequent difficulty is experienced in picking up Sangley point light because of its low visibility and the background of shore lights.

MAX. SIZE: Pier 9, length 250 m., draft 20 ft. Pier 13, length 400 m., draft 32 ft. Pier 15, length 380 m., draft 35 ft. Tankers: Up to 40 ft. draft at Rosario Sea Berth.

RADIO: Weather information and Notices to Mariners are broadcast daily from the following local radio stations:

Station DUS of the Coast and Geodetic Survey may be contacted for urgent nautical information at 0820 and 1350 hours weekdays and 0820 and 1220 on Saturdays. DUS transmits on 8690 kc (CW) and receives on 8412 kc (CW).

BERTHING: Vessels having 100 tons or more of general cargo for discharge (except those granted ship-side delivery permits) must berth at piers for such discharge. Ship-side delivery permits are issued by the Bureau of Customs on certain merchandise considered as bulk cargo.

There are piers available for ocean going vessels with a total of 14 berths and a total area covered of 376,955 sq. ft.

	Controlling Depths Alongside Piers	*No. of Sheds per Pier*	*Total Covered Area per Pier*

Inner ,, North ,, 18 ft.
Outer ,, ,, ,, 25 ft.

STEVEDORES: Stevedoring is handled by Luzon Stevedoring Co. and the Delgado Stevedoring Co., supply ample labour, lighters and tugs. Cargo averages about 10 tons per hour and for the following bulk cargo: Copra, in bulk, 10/12 tons per gang hour. Copra cake and meal, 15/20 tons per gang hour. Desiccated coconut, 250–300 bags per hours. Hemp, 80/100 bales per gang hour. Sugar, 25 tons per gang hour. For the discharging of coal or gypsum, the rate is about 25 tons per hour.

TANKERS: Filoil Refinery Corporation Terminal. Rosario. The mooring place is a conventional sea berth located in position Latitude 14° 26′ 30″ N., Longitude 120° 49′ 24″ E., that is 1·5 miles offshore from Rosario, Cavite. Depth of water 45 ft. Usual method of mooring for conventional sea berths. Both anchors required to be ready but normally only the starboard anchor is used. Mooring is only effected day time, but unmooring can be carried out at any time. Normal number of lines required, 10 aft and 2 forward. After the mooring the vessel is heading in a W.S.W. direction parallel with the tide current flow. The port derrick is required for cargo hose handling, with a SWL of 5 tons. Three tug-boats are normally used for mooring but two for unmooring.

Two submarine hoses 10 in. and 255 ft. in length are available connected to 24 in. submarine line which is 2·5 miles in length. Maximum discharge pressure allowed at ship's manifold is 120 lb./sq. in. and not less than 60 lb./sq. in. Hose connecting/disconnecting gang is available under contract with Filoil Refinery Corporation.

FUEL: Fuel oil can be obtained from the Esso, Mobil, Caltex and Shell Oil Companies. Delivery by barge is made either at one of the anchorages within the breakwater or at the piers. Where possible, prior notice of 72 hours should be given the oil companies. Maximum rate of loading is 100 tons of bunker fuel and 125 tons of diesel fuel per hour.

MEDICAL: Complete hospital facilities are available in Manila.

REPAIRS: The Mariveles shipyard operated by the National Shipyard and Steel Corporation located at Mariveles Harbour have facilities for the dry docking and repairs of vessels up to 10,000 gross tons and of length and draft up to 500 ft. and 25 ft.. respectively.

SERVICES: The Atlantic Gulf and Pacific Co. is equipped to undertake cleaning of tanks for receipt of coconut and vegetable oils. Where the tanks have contained coconut or vegetable oils previously, the time required for cleaning is from 18 to 30 hours; where tanks have previously held wood oils or fuel oils, the time required to prepare them is from 48 to 60 hours.

Vessel requiring the services of a launch at any time of the night should use the following signal to which the harbour transport launches will answer: Searchlight, signal lamp or open blinker light pointed straight up slightly inclined shoreward and left on until launch arrives alongside.

AUTHORITY: Head of Port Operations Service, Bureau of Customs

AGENT: Smith, Bell & Co. Inc, POB 311, 5th Floor, Domestic Building, Bonifacio Drive, Port Area, Manila.
Tel: 49-21-11. Telex: RCA 722566. Cables: SHIPPING MANILA.

MASAO: 09.00 N. 125.29 E.

DOCUMENTS:
7 copies of Inward Foreign Manifest.
2 copies of Crew List.
Passenger List.
Narcotics List.
Curio or Personal Effects List.
Stores List.
Vessels General Information List.
Money List.
Firearms List.
Parcel Lists

PILOTAGE: Pilotage is compulsory and appropriate notice should be sent to the Masao Pilots' Association at least 24 hours before the arrival of the vessel.

ANCHORAGE: The anchorage is wide and deep enough to accommodate as many as twenty vessels at one time.

RADIO: Any commercial radio systems would be sufficient, such as Globe, or Mackay or RCA.

TUGS: At Magallanes Bay, where majority of foreign vessels discharge, tugs are not needed, as anchorage is done along the stream. But at Nasipit, the pilot launch will handle the lines for mooring.

BERTHING: Vessels work cargo to lighters in Magellanes Bay. At Nasipit: Copra loading.

STEVEDORES: No particular ETA advices necessary; exporters will handle the advice of their stevedores.

MEDICAL: Necessary for Agents to receive advance notices for medical attention required; hospitals to handle major medical cases.

FRESH WATER: This is available at Nasipit, but notice should be given to the Agent who in turn will serve notice to Messrs. Nasipit Lumber Co. Water is delivered by truck.

GANGWAY/DECK WATCHMEN: Available and recommended.

OPENING/CLOSING HATCHES: This is normally carried out by members of the crew, but at Nasipit, in the case of American vessels, this is done by the stevedores, chargeable to the exporters.

CUSTOMS ALLOWANCES: 200 cigarettes and a bottle of wine for each crew member would be allowed during the duration of the vessel's stay in port. Request for additional needs could be arranged by the Master through the Customs Inspector on board.

IDENTIFICATION CARDS: Necessary.

CONSULS: None. Nearest at Cebu, and Manila.

REPAIRS: All types of repairs on deck require the permission of the Collector of Customs.

REPATRIATION: Can be arranged.

AIRPORT: Distance to the airport is about 4 kilometres and flights are daily to Manila. Philippine Airlines, Filipinas Orient Airways have their regular flights for Manila, Cebu, Cagayan de Oro, and Davao.

HOLIDAYS: Cargo can be worked on any day except New Year, Independence Day, 12th June, and Holy Week.

SHORE LEAVE: Allowed.

AUTHORITY: The Collector of Customs, Port of Masao, Butuan City.

SAN FERNANDO, Luzon: 16.37 N. 120.17 E.

DOCUMENTS:
1 copy of Clearance issued by the last Port of Call.
1 copy of Quarantine Clearance.
2 copies of Crew List.
2 copies of Crew Possessions' List.
2 copies of Stores List.
2 copies each of Narcotic, Firearm, Passenger, Mail, Parcel, and Money Lists.
5 copies of Inward Foreign Manifest.

PILOTAGE: Send telegraphic message (through the ship Agent) addressed to Port Pilot, San Fernando, La Union, Philippines, at least 24 hours before expected time of arrival. This is the only means by which the Pilot can be contacted.

The moment the Pilot receives the 24-hour advance notice of ETA, he is under constant watch for the vessel to appear outside the Harbour. When vessel appears, he meets the same in an ordinary outboard motor-boat, which is painted white and bearing International Flag "H".

The vessel, when calling the Pilot, flies the International Flag "G" or sounds a signal of two long and one short blasts.

The Pilot boards within 3 miles of the lower beacon. In case of bad weather or when pilot boat cannot be seen, the vessel can proceed to the quarantine anchorage as there is no specific anchorage for vessels awaiting a Pilot. The Pilot does not go out during stormy weather. He requires a rope ladder for boarding or disembarking when the sea is rough.

ANCHORAGES: The Port of San Fernando is one of the deepest in the Philippines, and the quarantine anchorage as well as the anchorage for vessels waiting to dock at the piers can accommodate vessels up to 30,000 dead weight tons.

MAX. SIZE: The maximum permissible tonnage of a vessel which can be ordinarily accommodated at the piers is 10,000 tons irrespective of the length, breadth, draft, and kind of the vessel. The state of tide does not affect the dimensions of the vessels. However, vessels with a tonnage of more than 10,000 tons up to 30,000 tons need the aid of tug-boats so that they can be manoeuvered into the pier area.

HEALTH: To obtain pratique, the ship Master must advise the ship Agent vessel's ETA in advance. The foregoing advice is very important because the ship Agent must in turn advise the quarantine officer of the arrival of the vessel 2 to 3 hours before the vessel sails into port. When the vessel arrives at the quarantine anchorage, the quarantine officer boards and inspects the same, and if the vessel is found to be free from all quarantinable diseases, pratique is granted. Automatic pratique is granted only to naval vessels. Pratique is no longer necessary when the vessel entering the port has called at another port in the Philippines immediately before proceeding to San Fernando.

TUGS: It is the ship Agent of the vessel who furnishes tugs. Whenever needed, the tug-boat normally joins the vessel near the pier while the vessel is docking and at the pier when the vessel is undocking.

BERTHING: All berths are alongside piers.

STEVEDORES: ETA advices are useful but gangs can be easily arranged even at short notice. The average load rate per gang (12 men) per hour is 20 tons, while the average discharge rate is 25 tons.

MEDICAL: It is always necessary for ship Masters to notify their Agents of required medical attention at least 2 to 3 hours before arrival. Hospital facilities are available. There are three hospitals in the town of San Fernando. Vaccination/Fever Certificates are required, especially those against cholera, smallpox, and yellow fever.

TANKERS: There are no berths available for the exclusive use of tankers. Existing facilities for unloading oil have been installed alongside the piers by private oil companies for their own use.

FRESH WATER: Supply of fresh water is available at the government pier by pumping from shore-side to vessel at the rate of 15 tons per hour.

FUEL: All grades can be readily supplied by any of the oil companies with oil depots in the port area.

DEVELOPMENTS: There is an ambitious programme to improve the marine terminal of the port which, among other things, includes reclamation and construction of additional storage facilities. Works on the breakwater, marginal wharf for fishing boats, and an industrial estate complete with a new pier, as well as the removal of wrecks (parts of sunken ships) inside the harbour are expected.

GANGWAY/DECK WATCHMEN: The employment of gangway/deck watchmen though not compulsory is recommended.

OPENING/CLOSING HATCHES: An additional charge for this job is imposed if carried out by stevedores. The crew can, however, do the job.
CERTIFICATES: Those required are:
Certificate of Registration.
Certificate to Operate.
Certificate of Officers and Engineers (Licenses).
Officers and Crew-Seaman's Book.
CUSTOMS ALLOWANCES: 200 cigarettes for each crew member, and one bottle of liquor for each crew member.
IDENTIFICATION CARDS: Absolutely needed.
CONSULS: None at San Fernando.
REPAIRS: Deck and engine repairs are limited only to re-winding, welding, fixing electrical devices and connections, patching, and repainting.
DRY DOCKS: Except for the dry dock maintained and operated by the Atlantic Gulf and Pacific Company for the exclusive repair of U.S. Navy LCMs, no facilities of this nature in the port at present.
REPATRIATION: Effecting crew changes and arranging necessary repatriation are carried out by the Immigration Office in the port with the assistance of the ship Agent and the Foreign Embassy concerned.
AIRPORT: An airport, which is served by the Philippine Air Lines on a daily schedule to and from Manila and other points in Northern Luzon, is located about 1 kilometre from the pier area.
TIME: Local Civil Time is 8 hours ahead of GMT. This time reckoning is constant throughout the year.
HOLIDAYS: New Year's Day (January 1st); Bataan Day (April 9th); Holy Thursday (variable); Good Friday (variable); Labour Day (May 1st); Independence Day (June 12th); Republic Day (July 4th); All Saints' Day (November 1st); National Heroes Day (November 30th); Christmas Day (December 25th); Rizal Day (December 30th). When any holiday falls on a Sunday, the following day (Monday) is by law considered a legal public holiday. As a general rule, employees of the government in the Philippines do not work on Saturdays.
POLICE/AMBULANCE/FIRE: For Police and Fire, either call No. 99 (Phil. long distance tel.) or No. 0 (Gov't tel. System). For Ambulance, call directly for Lorma Hospital, Bethany Hospital or La Union Provincial Hospital on any of the two telephone systems above said.
TELEPHONE: Facilities for placing telephones on board vessels are not available at present.
SHORE LEAVE: Crew of vessels who are nationals of countries with whom the Philippines maintains diplomatic relations can be allowed ashore after securing a pass from the Immigration Officer in the port. Restricted aliens (citizens or nationals of Iron and Bamboo Curtain countries) are not allowed on shore as a matter of policy.
AUTHORITY: San Fernando Port Authority, San Fernando, Philippines. Tel. 2557. Cable address: "Poroport".

TACLOBAN: 11.15 N. 125.00 E.

DOCUMENTS: 3 copies of the following required:
Number of Crew Lists.
Passenger Lists.
Customs Documents.
Health Documents.
Manifests.
Bills of Lading.
Ship's Papers, etc.
PILOTAGE: Notice of ETA of vessel must be given at least 24 hours in advance and must be sent through cablegram direct to Collector of Customs, Tacloban City.
ANCHORAGES: Safe anchorage: low tide, 17 ft. draft; high tide, 19 ft. draft; area for anchorage, 300 ft. length.
ENTRY RESTRICTIONS: At the discretion of the Collector of Customs.
MAX. SIZE: Permissible length 300 ft. Draft low tide, 17 ft.; high tide, 19 ft.
HEALTH: Pratique is only necessary and required in the first port of entry; it is automatic when entering ports in the same country or state.
RADIO: Radio communication of the Philippines, Inc., Manila.
TUGS: Ship's Agent arranges tug's lines with watchmen.
BERTHING: Inform Customs Collector at least 24 hours before ETA of vessel so that berthing space can be reserved.
STEVEDORES: ETA advices should be furnished to stevedores through ship's Agent.
MEDICAL: Advance notice of required medical attention to ship's Agent essential.
FRESH WATER: Fresh water available delivered by water-tank truck.
FUEL: Not available.
GANGWAY/DECK WATCHMEN: Necessary for safety of vessel. Ship's Agent makes all necessary arrangements.
OPENING/CLOSING HATCHES: Normally carried out by stevedores.
SHIP CERTIFICATES: All documents required by International Shipping Rules and Regulations.
CUSTOMS ALLOWANCES: One carton cigarettes per week for each man. Wines/spirits at the discretion of the Collector of Customs.
IDENTIFICATION CARDS: Needed for inspection by Immigration Officer.
REPAIRS: Not possible.
REPATRIATION: Immigration Officer effects crew exchanges and arranging necessary repatriations.
AIRPORT: Distance from airport, 9 kilometres, and is regularly served by airlines.
TIME: GMT plus 8 hours. No alterations during the year.
HOLIDAYS: Depending upon agreement with stevedores, work may be performed during holidays.
POLICE/AMBULANCE/FIRE: All departments are within one minute's call from the harbour.
TELEPHONES: Can be connected on board if required.
SHORE LEAVE: Allowed.
AUTHORITY: Collector of Customs, Port of Tacloban, Philippines.

ZAMBOANGA: 06.54 N. 122.04 E.

DOCUMENTS:
1 copy of Clearance issued by the last Port of Call.
1 copy of Quarantine Clearance.
2 copies of Crew List.
2 copies of Crew Possessions' List.
2 copies of Stores List.
2 copies each of Narcotic, Firearm, Passenger, Mail, Parcel and Money lists.
5 copies of Inward Foreign Manifest.
PILOTAGE: Vessels approaching the port use International Code Signals for calling Pilot.
Pilot Station: Telegraphic address is Zamboanga Pilots, Zamboanga City. Estimate time of arrival (ETA) must be radioed 24 hours in advance. Pilots always on duty. Pilot boat is wooden launch painted white with red trimmings and displaying the pilot flag. The exact area where a Pilot will board vessel is in the vicinity of Little Sta., Cruz Island, for vessels coming from West, and near the vicinity of Rio Hondo for vessels coming from East. Alternative area in the event of bad weather is in the vicinity of Zamboanga Pier at a distance of at least 1 mile either way. Vessels awaiting Pilot should not necessarily drop anchor, provided 24 hours notice of their ETA is given by local Agents or the Master, to the Zamboanga Pilots, for a Pilot is *always* on duty.
ANCHORAGES: Owing to the steep bank, strong currents and hard, uneven bottom, there are no good anchorages off Zamboanga. However, anchorage may be made anywhere Southward of the wharf at a distance of about 3 cables from shore Eastward of an imaginary line from the Tide Indicator, at a depth of between 25 and 30 fathoms and giving 7 shackles of chain in the water. This will hold vessel even at strongest current of 6 knots. In the event of very bad weather the vessel should transfer her anchorage to Lamitan, a town 16 miles South-east of Zamboanga on the North coast of Basilan Island.
MAX. SIZE: No limits for anchoring. For berthing, up to 32 ft. draft.
HEALTH: Quarantine Officer will board the vessel for the necessary inspection of all crew on board. Thereafter he issues pratique, if and when he finds that there are no disease or fever on board. The pratique is valid until after the vessel departs to a foreign port.
RADIO: Universal Telecommunication Service, the Capitol Radio Telecommunication, the Telefast Radio Communication, the Radio Communications of the Philippines and the Telecom, operated by the National Government for receiving and transmitting radio messages night and day services.
TUGS: The position where tugs normally join the vessel is in the stream and the usual ship's lines or tug's lines are used. There is no charge collected for the use of the tug's lines.
BERTHING: The Zamboanga Government wharf is about 800 ft. long with a depth at the latest survey of the following: East end 30 ft.; mid-section 25 ft. and West end 21 ft. There is a private wharf at Baliwasan and vessels of 15,000 gross tons can dock there with the following limitations: Draft forward must not exceed 32 ft.; draft aft must not exceed 36 ft., upon completion of loading. Vessels docking at this wharf can only be docked at *flood* tide (current running East to West) and can only be undocked in the same manner.
Two anchors must be used in berthing and vessels lay alongside the concrete pier port-side-to. This wharf in Baliwasan is for loading coconut oil and copra pellets only.
TANKERS: There are four oil depots at Gavilan Pt. and at Baliwasan. (Shell, Mobil, Esso and Caltex.) Max. tonnage of 4,000 gross with a draft of not more than 18 ft. can be moored for discharge.
STEVEDORES: The Master of the vessel shall wire to the local Agents of the vessel so that a contract could be made with the shipper to arrange gangs.
MEDICAL: It is necessary for Agents to receive advance notice of required medical attention. Hospital facilities are available at all times. Inoculations are also required by the Quarantine Officer upon boarding a vessel.
FRESH WATER: Fresh water can be obtained only at night-time due to low pressure. If there is no available space at the Zamboanga Pier the vessel has to wait at the anchorage for a berthing space to get water supply.
FUEL: Fuel, diesel, and crude oil available.
FIRE PRECAUTIONS: Smoking is entirely prohibited on board a tanker entering this port. The Master must advise all persons boarding his vessel.
DEVELOPMENTS: Improvements are carried out every year to the local wharf adding additional berths and dredging to increase draft.

GANGWAY/DECK WATCHMEN: The services of watchmen are necessary to foil looters from boarding the vessel.
OPENING/CLOSING HATCHES: Normally opening and closing of the hatches are done by the crew, and if the job is done by stevedores the vessel has to pay.
CUSTOMS ALLOWANCES: 200 cigarettes per man. Upon arrival in port the cigarettes are sealed in a bonded store by the Customs authorities, and can be opened only upon permission granted by the Collector of Customs.
IDENTIFICATION CARDS: All crew members to have identification cards for immediate identification in case of trouble while the crews are on shore.
CONSULS: None available.
REPATRIATION: Effecting crew changes and arranging necessary repatriation are carried out by the Immigration Office in the port with the assistance of the ship Agent and the Foreign Embassy concerned.
AIRPORT: Distance from Zamboanga Pier to the airport is three kilometres. Served by regular airlines. There is a daily flight from Zamboanga to Manila by Philippine airlines.
TIME: Local Civil Time is 8 hours ahead of GMT. This time reckoning is constant throughout the year.
HOLIDAYS: Cargo work can be arranged with the Stevedoring Company through the shipper to work during holidays, including Sundays.
POLICE/AMBULANCE/FIRE: Police Department, tel. 06; Ambulance, Zamboanga General Hospita, tel. 08; and Fire Department, tel. 00.
TELEPHONES: Telephones cannot be installed on board when docked at the pier as is not allowed by the City Government.
SERVICES: Special services may be available, e.g. tank-cleaning equipment, facilities for discharge of tank-washings, compass adjusting, through representations to be made with the shipper or local Agent of the vessel.
SHORE LEAVE: Crew members are allowed ashore upon permission granted by the local Immigration Officer.
AUTHORITY: The Collector of Customs, Port of Zamboanga, Zamboanga City, tel. 1103.

Poland

GDAŃSK: 54.20 N. 18.40 E.

ICE: Efforts made to keep port open all year round. Only in very severe winter are difficulties experienced.
DOCUMENTS:
12 copies Cargo Manifest.
2 copies Bills of Lading.
Discharge Books to be collected for presentation.
Ship's Register.
Maritime Declaration of Health.
Ship's Articles/Crew List.
Deratisation Certificate or exemption from Sanitary Certificates, covering food cargoes and/or of animal origin, destined for discharge here.
Specification of Dangerous Cargo even if in transit.
2 Stowage Plans.
PILOTAGE: Compulsory. Boarding in Gdańsk road. Gdańsk pilot station available on VHF, Channel No. 14.
ANCHORAGE: Gdańsk roads up to buoys NP1, NP2. No tides.
RESTRICTIONS: Approaches 36 to 40 ft. depth.
MAX. SIZE: Maximum size of vessels permitted to enter: draft, 33 ft. 6 in. brackish water; length, about 650 ft.
HEALTH: Maritime Declaration of Health to be presented on arrival. In the event of suspected disease, the vessel should wire to "Quarantine Gdańsk," or via Agents.
RADIO: Messages should be sent via Gdynia Radio.
RADAR/VHF: Port Radar Service acting with pilot station, contactable on VHF Channel No. 14.
TUGS: Join in Gdańsk roads. Vessel's lines must be used.
BERTHING:

Name of Berth	*Length of Berth*	*Depth alongside*
Wladyskawa IV Basin	1,190 metres	up to 31 ft.
Westerplatte Defenders Quay	1,442 metres	up to 34 ft.
Oliva Quay	1,278 metres	up to 31 ft.
Post Office Defenders Quay	330 metres	30 ft.
Iron Ore/Coal Quay	1,612 metres	29 ft. (with pontoons, up to 38 ft. 8 in.)
Administration Quay	80 metres	19 ft.
Anniversary of Republic Quay	1,076 metres	up to 32 ft.
Szczecinsie Quay	250 metres	27 ft.
Timber Quay	510 metres	up to 25 ft.
Industrial Quay	350 metres	up to 27 ft. 9 in.
Bytom Quay	210 metres	up to 23 ft.
Chemists Quay	250 metres	up to 36 ft.

BULK HANDLING FACILITIES: Bulk and liquid sulphur handled at Post Office Defenders Quay.
Coal/Ore quays equipped with seven 10-ton cranes and ten ore bridges of 15 tons capacity, wagon tipper and coal belt conveyor with 380 tons per hour capacity. Grain elevator at Anniversary of the Republic Quay.
A conveyor system for fertilisers in bulk at Chemists Quay.
In the event of no accessible berth and/or grain elevator not being available, such bulk cargoes discharged by grabs. Vessels should be suitable for grab discharge.
STEVEDORES: As gangs for the following day must be ordered before 11 a.m., vessel's ETA should reach the Agents relevantly in advance.
Stevedores work 24 hours per day, which is considered to be between 2300 to 2300 following day. First shift from 2300 to 0700, second shift from 0700 to 1500, third shift from 1500 to 2300. Port works Sundays and holidays at premium rates.
MEDICAL: No special notice required. Full hospital facilities available.
DENSITY: Salt contents: 0.54%.
FRESH WATER: Available at hydrants.
FUEL: Heavy, intermediate and thin fuels, marine diesel oils and gas oils available ex-shore installation or lighter. 48 hours notice required.
DEVELOPMENTS: A new bulk cargo terminal capable of handling vessels of up to 100,000 dwt. is being constructed.
The coal facilities, the first stage of the new complex, will be in operation in 1974–75

PORT LIMITS: A vessel is considered to be an "arrived vessel" when, after entering the Tagus Estuary, she has left behind the alignment between the Torre of S. Juliao and the Torre of Bugio.
DOCUMENTS:
Health Certificate.
6 Crew Lists.
10 Passenger Lists.
2 Lists of Articles held by the crew: cameras, binoculars, radios, cigarettes, spirits, etc.
2 Stores Lists.
All to be signed by ship's Master.
Certificates for vessels up to 500 tons: – tonnage register, loading and navigability certificates. For vessels over 500 tons: – tonnage register; loadline; radio; safety equipment and navigability certificates.
CARGO DOCUMENTS:
10 Manifests.
3 sets of Bills of Lading.
For cargo in transit: 2 Manifests.
PILOTAGE: Compulsory. Pilot boat anchored outside the river at Cascais Bay, day and night, but Pilot can also board vessel inside the river at Belem Station.
Pilots are to be requested not less than 6 hours or more than 24 hours prior to the ship's arrival, by a radiogram addressed to "Pilotos Lisboa", or by a radio call direct to the pilot boat stating ship's name, estimated time of arrival at the pilotage area, the station where ship wants to take a Pilot, and vessel's draft. Any vessel failing to correct her ETA or arriving more than 2 hours after her ETA may have to wait at Cascais before a pilot is available to board.
Pilots can be contacted by VHF Channel 16, on permanent watch, and by radio-telephone 2182 kHz.
MAX. SIZE: Depth alongside piers varying between 15 and 34 ft.
SPECIALISED CARGO-HANDLING FACILITIES: *Container Terminal* at Santa Apolonia equipped with two portainers of 30 and 36 tons respectively, side loaders, semi trailers, tractors, etc., depth 8·5 metres.
Roll-on/roll-off Terminal at Alcantara for ferry boats and cargo.
Grain Elevators and Silos at Poco do Bispo operated by Federacao Nacional dos Produtores de Trigo. Unloading by elevator up to 400 tons per hour.
Ore Terminal: At Barreiro there is a terminal for unloading ore from railway wagons to lighters, intended for carrying ore, in particular, to the national steel works (Siderurgia Nacional).
Cement Storage Terminal: This is at Poco do Bispo and is operated by Secil.
TANKERS: Shell and Sonap berths exposed to 9 knot current. Essential to use good new mooring lines.
Cabo Ruivo Terminal: This is operated, on a concession basis, by Soponata and has depths of 11 metres, capable of mooring tankers up to 65,000 dwt. alongside its jetty.
Fuel Oil Facilities: The port of Lisbon fuel oil installations belong to private companies are concentrated along both banks of the Tagus at the following points:
Sacavem and Cabo Ruivo (with oil refinery facilities), Montijo, Barreiro, Santa Iria, Porto Brandao, Porto dos Buchos.
HEALTH: Ordinary visit made at central area with vessel anchored, from 08.00 to sunset. Master may ask for free pratique to get ship moored immediately on arrival. For this, necessary to cable the Health Authorities, addressing cable as follows: Estação Marítima de Lisboa, Rocha do Conde de Obidos, max./min. respectively 15/6 hours prior to the ship's arrival. Text of cable: "ship's name, nationality, code (MIBDU), day and time of arrival" signed by the Master.
RADIO: ETA to be advised by Master, to Agent, 24 and 12 hours before ship's arrival. Lisboa Radio: call sign CUL, medium and short waves by code 720, 22, 24. By VHF Channels 5, 9, 21, 16 and 19.
FUEL: Shell, Esso, Sonap. These companies can supply through their own barges or alongside their private bunkering stations on pier.
FRESH WATER: Usually supplied by barge unless vessel lying alongside a pier where water provided.
DEVELOPMENTS: In a second stage of the Santa Apolonia container terminal there will be a new wharf of 500 metres length, with water depths of 13·5 metres and a close levelled paved ground area of nearly 50,000 sq. metres will be prepared. This terminal will have, when completed, an 850 metres long wharf and a close paved area of 75,000 sq. metres.
This second stage will also include two roll-on/roll-off berths, as well as lift-on/lift-off equipment. It is operated by the Port Authority.
IDENTIFICATION CARDS: Crew members going ashore will need a special yellow card issued by Agent and stamped with police visa. The cards are supplied by Agent to be completed on board in accordance with crew list particulars. With these shore passes crew members may circulate between Lisbon and Cascais, and Lisbon and Sintra.
Master and/or Owners will be fined Esc. 1.000$00 for any crew member found ashore without that card. A double fine will be imposed in case of reincidence.
Similar cards, but white, are required for passengers in transit.
CONSULS: Practically all countries are represented in Lisbon.
REPAIRS: There are several repair workshops. The biggest is Lisnave Shipyard with several docks, one for vessels up to 300,000 tons and a new dock where vessels up to 1,000,000 tons can be repaired.
AIRPORT: Within the Lisbon area. Regular International services.
TIME: GMT. plus one hour No change during the year.
HOLIDAYS: 1st January; 1st June; 10th June; 15th August; 5th October; 1st November; 1st December; 8th December; 25th December.
AUTHORITY: Board of Administration.

AGENTS: A. J. Gonçalves de Moraes, Lda. Steamship and For-

warding Agents. Tourist Department. 22, Rua do Alecrim-Lisbon 2. PO Box 2772. Tel. 34943 (20 lines). Telex 1296, 1297 and 1298. Cables: Amoras. VHF Radio, Channel 16.

SETUBAL: 38.30 N. 08.55 W.

DOCUMENTS:
5 Crew Lists.
5 Passenger Lists.
Personal belongings of the Crew (portable radio, binoculars, cameras, etc.).
Store List.
Health Declaration.

Puerto Rico

AGUADILLA: 18.22 N. 67.12 W.

DOCUMENTS:
1 copy of Inward Foreign Manifest (U.S. Customs Form 5727–A), Cargo for San Juan.
1 Stores List.
1 Crew Purchase List.
1 Passenger List (if any).
1 Crew List (U.S. Form I–418).
1 copy of Ships in Transit Cargo Manifest.
Clearance from Last Port.

PILOTAGE: Mayaguez's Pilots provide service in Aguadilla. Advise ETA in good time to Aguadilla Terminal.
RESTRICTIONS: Open port, very deep, safe in good weather. Cold fronts from North cause very heavy swells. Cannot berth during this kind of weather.
MAX. SIZE: 600 ft. long, 36 ft. draft.
HEALTH: Advise arrival to Aguadilla Terminal Inc. for free pratique.
BERTHING: The Aguadilla Shipping Terminal operates a bulk sugar-loading facility. Sugar-loading vessels tie-up on mooring buoys. There is 40 ft. or more depth at the outer end of the bulk sugar-loading berth. Ship ties up to 4 buoys and two bollards at main tower. Spring lines needed for shifting. Terminal boat handles lines, no charge; ship's lines not less than 600 ft. long.
MEDICAL: 24 hours notice preferred; 90 miles for nearest hospital except emergencies.
TANKERS: Molasses tankers – 10 in. connection (loading only). Only sugar and molasses loaded at the only loading facility available. Rate 66 tons/hr. sugar; 500 tons/hr. molasses.
There is also a mooring buoys and pile clusters berth for the tanker traffic that supply aviation gas for Ramey Air Force Base.
FRESH WATER: Available. 2 in. pipe-line with meter, 40c/ton.
GANGWAY/DECK WATCHMEN: Usually crew members are used.
OPENING/CLOSING HATCHES: Performed by stevedores.
SHIP CERTIFICATES/CUSTOMS ALLOWANCES: U.S. Customs regulations.
IDENTIFICATION CARDS: Required to go ashore.
CONSULS: No local representation.
REPATRIATION: Can be arranged.
AIRPORT: 20 min. drive. Regular airlines.
TIME: Atlantic Std. Time, 4 hours less than GMT. No alterations during year.
HOLIDAYS: Refer to "San Juan".
SHORE LEAVE: Allowed.
DELAYS: No delays unless another ship is already berthed.
AUTHORITY: Puerto Rico Ports Authority, Harbour Master.

GUANICA: 17.57 N. 66.54 W.

DOCUMENTS/GENERAL INFORMATION: Refer to "Ponce".
PILOTAGE: Port operations are under the control of the Captain of the port. Pilot services are available day and night.
ANCHORAGE: Harbour is located 8 miles Westward of Guayanilla Bay. Though small, it is one of the best hurricane harbours in Puerto Rico.
TUGS: Available from Guayanilla.
BERTHING: Pier facilities are owned by the Guanica Central and used for bulk sugar shipments and limited general cargo operations. On the East side of the harbour entrance there is a reinforced concrete bulkhead wharf 440 ft. long with depths of 25 ft. alongside for the handling of bulk fertilisers. Small craft landings and facilities are along the boulevard fronting the beach.
FRESH WATER: Available in limited quantities for emergencies only.
FUEL: Available by trucks from Ponce.
MEDICAL: Medical assistance is available; if hospitalisation is required for any crew member, it will probably be necessary to arrange for admittance to a Ponce hospital.
CONSULS: None available locally, nearest at Ponce, Puerto Rico.
AUTHORITY: Port Captain, Puerto Rico Ports Authority.

GUAYANILLA: 18.00 N. 66.47 W.

Oil Terminal owned by Commonwealth Oil Refining Co.
DOCUMENTS/GENERAL INFORMATION: Refer to "San Juan".
PILOTAGE: Port operations are under the control of the Captain of the port and pilot services are available day and night.
ANCHORAGE: It is the largest hurricane harbour and one of the best in Puerto Rico. Available for vessels of any draft. The harbour is protected at its entrance by extensive reefs which extend a mile or more offshore. The entrance channel between these reefs is about 1·5 miles long and about 0·4 mile wide.
MAX. SIZE: Tankers up to 680 ft. LOA, with maximum draft 35 ft. 6 in. forward and 38 ft. aft.
TUGS: Available 24 hrs. daily, as requested by vessel.
BERTHING: Fuel dock. Two 680 ft. berths with 365 ft. depth alongside. Mooring buoys placed to assist in clearing dock and mooring dolphins. No slop disposal facilities. The Union Carbide Company has berthing facilities for barge operations.
New port facilities for Commonwealth Oil Refining Co. and Pittsburgh Plate Glass are owned by the Puerto Rico Ports Authority.
FRESH WATER: Available whenever requested by the vessel.
FUEL: Available only whenever arranged by owners of the vessel and/or characters prior to arrival.
MEDICAL: Medical service is available; hospitalisation at Ponce, which is only 15 minutes distance.
CONSULS: None available locally; nearest at Ponce, Puerto Rico.
AUTHORITY: Commonwealth of Puerto Rico – Harbour Master. Port facilities are operated and owned by the oil refinery.

JOBOS (Aguirre): 17.58 N. 66.39 W.

DOCUMENTS/GENERAL INFORMATION: Refer to "Ponce".
PILOTAGE: The Port of Jobos is served by the Pilots of Port Ponce. Services must be arranged in advance.
ANCHORAGE: A fine land-locked harbour, located on the South coast, approximately 42 nautical miles Eastward of Ponce and 20 miles West of Point Tuna. Anchorage inside the bay is Southward of the pier in depths of 19 to 24 ft. soft mud bottom.
RESTRICTIONS: The principal entrance is from Westward between Morrillo Cay and Ratones Cay, thence through buoyed channel to the bulk sugar-loading pier at Central Aguirre. Private range lights mark the dredged cuts. Controlling depth is 28.5 ft.
TUGS: No tug-boats available.
BERTHING: A 1,000 ft. finger pier at Central Aguirre, 29 ft. depth alongside. Pipe-lines for water and molasses, a conveyor belt for bulk sugar and a gantry crane are on the pier.
FRESH WATER: Fresh water is available at this dock.
FUEL: No bunkers are available at this dock.
MEDICAL: Medical assistance is available; if hospitalisation is required for any crew member, it will probably be necessary to arrange for admittance to a Ponce hospital.
CONSULS: None available locally; nearest available at Ponce.
AUTHORITY: Puerto Rico Ports Authority, port facilities owned and operated by Central Aguirre Sugar Company.

LAS MAREAS: 17.54 N. 66.11 W.

DOCUMENTS/GENERAL INFORMATION: Refer to "Ponce".
PILOTAGE: Pilot service available day and night. Entrance buoys, lt. buoy "LM", Fl. w. 3 sec., ecl. 7 sec. Radar reflector. Black and white vertical stripes.
TUGS: Available.
BERTHING: Port serves Phillips Petroleum Company, a petrochemical complex, on the South coast, close Easterly to Jobos. 1,000 ft. long pier for the receipt and shipment of fuel oils and other liquid chemicals.
FRESH WATER: Fresh water, in limited quantities, is available at the dock; must be ordered 48 hours prior to the arrival of the vessel at the dock.
FUEL: No bunkers are available at Port of Las Mareas, lubricants may be obtained from Ponce.
MEDICAL: Medical assistance is available at Port of Las Mareas; if hospitalisation is required for any crew member, it will probably be necessary to arrange for admittance to a Ponce hospital.
CONSULS: None available locally; nearest available at Ponce.
AUTHORITY: Puerto Rico Ports Authority; port facilities operated by Phillips, P.R. Core, Inc.

MAYAGUEZ: 18.12 N. 67.09 W.

DOCUMENTS: If vessel staying less than 24 hours:
Crew List.
Stores List.
Cargo Manifest.
Crew Purchase List.
Valid Load-line Certificate.
Ship's Register.
Clearance from Previous Port.
Vessels working cargo. Two sets of documents to be prepared as follows:
Original:
1 copy of Inward Foreign Manifest (U.S. Customs Form 5727–A), Cargo for San Juan.
1 Stores List.
1 Crew Purchase List.
1 Passenger List (if any).
1 Crew List (U.S. Form I–418).
1 copy of Ship's in Transit Cargo Manifest.
Clearance from Last Port.
Duplicate:
Same as original except the in-transit Cargo Manifest.
If vessel has on board cargo for another American port, an extra copy of the original Cargo Manifest is required.
Crew members to declare individually all articles such as souvenirs, etc.
Agents require:
3 sets of Bills of Lading.
2 copies of Manifest (for San Juan only).
1 copy of Crew List.
1 copy of Stores List.
1 copy of Crew Purchases List.
1 copy of Narcotics List.
1 copy of Passengers List.
Certificates:
Valid Load-line Certificate.
Ship's Register.
U.S. Tonnage Tax Certificates (if any).
PILOTAGE: Ships Agents must make arrangements with Captain of the Port Office at Mayaguez Pier well in advance, not less than 24 hours, of arrival of vessel at harbour entrance. Pilot boats are painted black (hull) and white (topside) as required, showing the letter "P" on each bow. Pilots board 1 to 2 miles offshore of sea buoy depending on weather conditions.
ANCHORAGES: Close to the entrance channel and boundaries. Sufficient depths for large vessels.
RESTRICTIONS: The bay is easily entered day or night and is a good harbour in any weather, except in a hurricane. The harbour is 3·8 miles wide, and offshore is protected by shoals which extend across the harbour entrance in a general North by West direction.
The principal channel is about 0·4 mile wide, with depths at the entrance of about 47 to 120 ft. and it is marked by lighted buoys and the range. Depth in the inner channel is approximately 30 ft. and close alongside the pier from 28 to 29 ft.
MAX. SIZE: Cargo vessels 600 ft. or more in length call at the port. Safe draft for operations at the wharf is 27 ft.
RADIO: Communication to all points, including ships at sea, is available through commercial systems. Cables–Telex via RCA Communications, Inc., a global service of Radio Corporation of America. ITT World Communications, Inc., tel. 830–3316. Puerto Rico Telephone Company, local and overseas communications services, 129 and 128.
TUGS: Not used at Mayaguez Port.
BERTHING: Berthing permit required from the Ports Authority. The Puerto Rico Ports Authority operates the terminal facilities which consist of a bulkhead wharf approximately 1,200 ft. long, apron width, 30 ft., and transit sheds. There are other berthing facilities in the port which are owned by the tuna packing plants.
STEVEDORES: Arrangements are made by the ship's Agents or representatives.
MEDICAL: The Agent should know in advance any medical needs so that he can make the necessary arrangements with the U.S. Public Health Service. Good medical and hospital services available.
TANKERS: See "Port of Guayanilla". Regular calls from Esso and Texaco to unload fuel by means of barges in order to supply tanks on land by means of pipes located at berthing facilities.
FRESH WATER: Available at pier facilities alongside the berth in four outlets to supply any amount required at any time. Hose connections of 2½ in. or less, maximum pressure.
FUEL: All grades available.
FIRE PRECAUTIONS: Standard fire and safety precautions throughout. U.S. Coast Guard regulations.
DEVELOPMENTS: It is planned to locate a heavy lift crane on the berth facility.
GANGWAY/DECK WATCHMEN: Ship provides own gangway watchmen.
OPENING/CLOSING HATCHES: By stevedores.
IDENTIFICATION CARDS: Required to go ashore.
CONSULS: Dominican Republic, France, tel. 832–4322. Others at San Juan.
REPAIRS: Call San Juan facilities where complete salvage equipment is available. Service to other ports of the island.
REPATRIATION: Arranged by ship's Agents.
AIRPORT: Mani Airport, 15 minutes from pier, served by regular airlines daily from Mayaguez to San Juan.
TIME: GMT minus 4 hours all year round.
HOLIDAYS: Refer to "San Juan".
POLICE/AMBULANCE/FIRE: Telephone numbers: Police, 343–2020, 832–2300; Ambulance, 832–0496, 832–3212; Fire, 343–2330, 832–2330.
TELEPHONES: Can be arranged by Puerto Rico Telephone Company.
SHORE LEAVE: Allowed.
AUTHORITY: Puerto Rico Ports Authority, Post Office Box 3272, Mayaguez, Puerto Rico 00708. Autorip, Mayaguez, P.R. Tel. 832–3590, 832–3375.

PONCE: 17.58 N. 66.39 W.

DOCUMENTS: If vessel staying less than 24 hours:
Crew List.
Stores List.
Cargo Manifests.
Crew Purchase List.
Valid Load-line Certificate.
Ship's Register.
Clearance from Previous Port.
Vessels working cargo: Two sets of documents to be prepared as follows:
Original:

Vessels working cargo. Two sets of documents to be prepared as follows:
Original:
1 copy of Inward Foreign Manifest (U.S. Customs Form 5727–A), Cargo for San Juan.
1 Stores List.
1 Crew Purchase List.
1 Passenger List (if any).
1 Crew List (U.S. Form I–418).
1 copy of Ship's in Transit Cargo Manifest.
Clearance from Last Port.
Duplicate:
Same as original except the in-transit Cargo Manifest.
If vessel has on board cargo for another American port, an extra copy of the original Cargo Manifest is required.
Crew members to declare individually all articles such as souvenirs, etc.
Agents require:
3 sets of Bills of Lading.
2 copies of Manifest (for San Juan only).
1 copy of Crew List.
1 copy of Stores List.
1 copy of Crew Purchases List.
1 copy of Narcotics List.
1 copy of Passengers List.
Certificates:
Valid Load-line Certificate.
Ship's Register.
U.S. Tonnage Tax Certificates (if any).
PILOTAGE: Compulsory. Ships Agents must make arrangements with pilot station well in advance – not less than 24 hours – of arrival of vessel at harbour entrance. Pilot boats are painted black (hull) and white (topside). Show the letter "P" on each bow. Pilots board three miles offshore of sea buoy. Call pilot station on Channel 16 VHF. There is no inner anchorage for incoming vessels to wait for the Pilot.
ANCHORAGES: Deep draft anchorage "E", on the South-west shore of Isla Grande, is for vessels awaiting Customs or quarantine, and no vessel shall remain more than 24 hours without a permit from the Commonwealth and U.S. Coast Guard Captains of the Port. Restricted Anchorage "F" (Fox), shoreward of the West margin of Anegado Channel, is for vessels discharging explosives. No vessel shall anchor without a permit from the Captain of the Port. Anchorage "D", East end of San Antonio Channel, is for yachts, schooners and small craft.
RESTRICTIONS: Besides the harbour entrance channel (Bar Channel) and the main ship channel (Anegado Channel) with depths of 42 ft. and 36 ft., respectively, there are four other navigable channels in the inner harbour:
The Army Terminal Channel is approximately 1 mile long and 300 ft. wide, with an average depth of 36 ft. Safe draft 33 ft.
The Puerto Nuevo Channel, approximately 1 mile long and 300 ft. wide. with an average depth of 32 ft.
The Graving Dock Channel, approximately 1 mile long, 300 ft. wide, an average depth of 30 ft.
San Antonio Channel, approximately 1½ miles long, 300 yards wide, mid-channel average depth 35 ft.
MAX. SIZE: Cargo vessels 750 ft. in length call regularly at the Port of San Juan. Channel to tanker's berth, 36 ft.
RADIO: Radio communication to all points, including ships at sea, is available through commercial systems. Cables-Telex via RCA Communications, Inc., a global service of Radio Corporation of America, tel. 723–6170, San Juan, Puerto Rico.
The signal station at Fort San Cristobal in San Juan harbour is manned around the clock for radio-telephone communication with incoming and outgoing ships traffic. Transmitting vessels can communicate with the station through 156·8 mHz for call and reply (Channel 10) and working Channel 14, 156·7 mHz.
Vessels approaching to enter San Juan Harbour shall remain outside not less than 3 miles Northerly of the harbour entrance to pick up the Pilot, and vessels about ready to depart shall inform the signal station via radio-telephone of their intentions.
TUGS: The Puerto Rico Lighterage Company, tel. 723–6164, and Port San Juan Towing Company, tel. 724–2350, operate a fleet of tug-boats. Tugs join vessel just inside harbour entrance.
Use of tugboats compulsory for docking and undocking vessels 8,000 tons displacement and over unless equipped with bow or side thrusters.
BERTHING: All vessels must request and obtain well in advance before arrival a berthing permit from the Ports Authority.
Pier 1. Finger pier, two berths; 500 ft. long, 100 ft. wide; general cargo pier.
Pier 3. East of Pier 1. Tourist ships terminal. Double deck finger pier, 630 ft. long, 90 ft. wide; 35 ft. depth alongside.
Piers 6 to 15. General cargo berths.
Isla Grande Terminal. 1,500 ft. wharf, 30 ft. depth alongside.
Seatrain Lines Terminal. 600 ft. berth, 30 ft. depth alongside.
Puerto Nuevo Docks. Two 500 ft. berths, 30 ft. depth alongside.
Trailership Terminals. Six berths, 30 ft. depth alongside.
STEVEDORES: Arranged by the ship's Agents.
MEDICAL: Medical attendance and services are available for seamen at the United States Marine Hospital in San Juan (outpatients). The Presbyterian Hospital handles internal cases.
TANKERS: Caribbean Oil Refinery pile clusters berth, maximum permitted draft, 35 ft.; Navy Oil Pier, maximum permitted draft, 29 ft.
FUEL: Served in barges either alongside the vessel at the pier or at anchor. Other combustible liquids are delivered in tank trucks by Shell, Esso and Texaco.
FRESH WATER: Most of the piers have adequate installations to supply water.
REPAIRS: Abarca Dry Dock and Marine Terminals handles dry docking and major vessel's repairs. Stateside Shipyard and Marina, at Isla Grande, and Vaello Shipyard at La Puntilla, Catano, operate marine railways for dry-docking and repairs of small vessels. The Puerto Rico Lighterage Company handles minor ship repairs.
DEVELOPMENTS: Two additional trailership berths are under construction at the Puerto Nuevo port sector.
GANGWAY/DECK WATCHMEN: Ship provides own gangway watchmen.
OPENING/CLOSING HATCHES: By stevedores.
IDENTIFICATION CARDS: Required to go ashore.
CONSULS:

Belgium	tel. 725–3179	Honduras	tel. 723–5230
Bolivia	,, 723–0180	Italy	,, 722–4344

REPATRIATION: Arranged by ship's Agents.
AIRPORT: On outskirts of port area, served by regular airlines.
TIME: GMT minus 4 hours.
HOLIDAYS: *New Year's Day (January 1st); Three Kings' Day (January 6th); De Hostos Birthday (January 11th); Washington's Birthday (February, Third Monday); Emancipation Day (March 22nd); *Good Friday; De Diego's Birthday (April 16th); Memorial Day (May, Last Monday); *Independence Day (July 4th); Muñoz Rivera's Birthday (July 17th); *Constitution Day (July 25th); Barbosa's Birthday (July 27th); *Labour Day (September, first Monday); Columbus Day (October 12th); Veteran's Day (November 11th); Discovery of Puerto Rico (November 19th); *Thanksgiving Day (November, last Thursday); Elections Day (November, 4 every years); *Christmas Day (December 25th). Any holiday falling on Sunday is observed on the following Monday.
* No cargo operations on these dates.
POLICE/AMBULANCE/FIRE: Police, 343–2020; Ambulance, 765–9700; Fire, 343–2330.
AUTHORITY: Puerto Rico Ports Authority, Post Office Box 2829, San Juan, Puerto Rico 00936. Autorip, San Juan, P.R. Tel. 723–2260.

YABUCOA: 18.03 N. 65.49 W.

Man-made harbour and channel located at the South East corner of Puerto Rico. Berthing facilities for deep draft tankers and a barge dock. Port and shoreside installations for the receipt and shipment of fuel oils and liquid chemicals for the Puerto Rico Sun Oil Company, a petro-chemical complex.
Facilities consist of the following: Ship channel 500 ft. wide, 40 ft. depth. Turning Basin. Dock and operating platform for a maximum of 100,000 tons dwt. tank vessels. Mooring, breasting and turning dolphins. Catwalks. Additional dock appurtenances (fire-fighting equipment, protective jetty, etc.). Pilot services and tugboats available.
AUTHORITY: Captain of the Port, Puerto Rico Ports Authority.

Qatar

DOHA: 25.17 N. 51.32 E.

DOCUMENTS: The following documents will be required at this port:
Agents:
1 copy of the Arrival Report (supplied by the Agent on boarding).
1 copy of the Crew List.
1 copy of the International Declaration of Health.
1 copy of the Passenger List (if applicable).

Port Health:
1 copy of Crew List.
1 copy of Dates and Types of Inoculations.
1 copy of the International Declaration of Health.
Immigration:
4 copies of Lists of Passengers Landing (if applicable).
Customs:
Bonded Store List (Bond will be sealed but issues are available).
Port Clearance Certificate should be procured before the vessel sails.

PILOTAGE: Application for a Pilot should be made through the Agent in Bahrain at least 24 hrs. before arrival.

Pilot station keeps a VHF watch 24 hrs. a day on Channel 16. Call sign DOHA PORT. Similar watch kept on R/T 2182 K/cs.

Pilot boat proceeds to the vicinity of the Doha Outer Buoy, position 25° 17′ 06″ N. 51° 41′ 26″ E. when the pilot is required. Pilot launches are painted white. When the vessel is underway the Pilot requires a pilot ladder complete with manropes. When the sea is calm and the vessel is at anchor the accommodation ladder may be used.

ANCHORAGES: Near the Outer Buoy and Southerly from it only. Minimum depth of water 5 fathoms.

ENTRY RESTRICTIONS: Compulsory pilotage for all vessels of 14 ft. draft or more. Naval vessels exempted. Depth of water in entrance is 27 ft. plus tide and the minimum depth of water required under the keel for manoeuvring in the channel is 3 ft.

Maximum draft for normal or average high waters is 28 ft. 9 in.

MAX. SIZE: Maximum length 525 ft., maximum breadth 75 ft., maximum draft 28 ft. 9 in. Vessels of 560 ft. have been accepted in favourable conditions.

HEALTH: The International Flag signals for pratique must be flown and remain up until the vessel is cleared by the Port Health Authorities. A Port Health Official will board the vessel in the anchorage or at the Deep Water Jetty when the vessel is alongside. There is no automatic or radio pratique available.

RADIO: ETA and Agents messages should be routed through Bahrain Radio.

TUGS: One tug of 1,000 h.p. and one of 500 h.p. to assist in berthing. Ship's lines are used.

BERTHING: Berthing alongside the Deep Water Jetty (30 ft.). It is 2,400 ft. in length and can accommodate four vessels at any one time with drafts of up to 28 ft. A further two berths may be constructed at a later date.

STEVEDORES: ETA advice is required on the number of gangs workable. Advance notice is required for any heavy lifts (say in excess of 10 tons dwt.) and the consignees name if possible as special arrangements have to be made for handling. Average discharge rate is 75 tons per hook day.

MEDICAL: Unless an emergency no advance notice is required. Hospital facilities do exist and a doctor will visit on request. Current Vaccination and Cholera Certificates are required.

DENSITY: The density of the water is salt (1025) at all states of the tide.

FRESH WATER: Fresh water is available in small quantities (50 tons) at the anchorage and larger quantities when alongside the jetty and is supplied by motor tankers.

FUEL: Only available by road tankers.

GANGWAY/DECK WATCHMEN: The Public Security Department (Police) post a guard at each gangway, but it is advisable the ship also supplies a watchman. Before landing *every* crew member must lodge his passport or seamen's identity card with the guard when alongside the jetty and at the dock Police Station when at the anchorage.

OPENING/CLOSING HATCHES: This work may be carried out by either crew or stevedores, but usually by the latter.

CUSTOMS ALLOWANCES: Qatar is "dry" and no official allowance is made. The bond is sealed on the ship's arrival.

CARGO GEAR: No additional requirements apart from those required by International Law.

CREW IDENTIFICATION CARDS: Discharge Books or Passports are required to be handed to the Police before any crew member may proceed ashore.

CONSULS: The following countries maintain embassies in Qatar:

Iran	U.S.A.	Jordan
Great Britain	Egypt	Yemen
Saudi Arabia	France	Netherlands
Kuwait	India	Tunisia
Iraq		

REPAIRS: Only minor repairs can be carried out. Metal-locking, bottom brushing and underwater welding.

REPATRIATION: Crew changes can be carried out. The Agents will require to know the names, discharge book or passport numbers and necessary information of dates, etc. well in advance for the authorities. Repatriation is normally by air, but Asian crews can be repatriated to Pakistan and India by sea.

AIRPORT: It is about 3 miles from the port to the airport. There are regular flights to Europe, U.K. and India by B.O.A.C., M.E.A., etc.

TIME: The standard time in Qatar is GMT plus 4 hours.

HOLIDAYS: The holidays in Qatar are usually religious and therefore fall on moveable dates. As far as shipping is concerned there are only two days when work is not possible under any circumstances.

POLICE/AMBULANCE/FIRE: Police 4646; Ambulance 5151; Fire 5252.

TELEPHONES: Telephone available at the new Jetty.

GENERAL: Particular attention must be paid to:

(1) The Qatari flag must be flown at all times at the fore mast.

(2) Liquor is not allowed ashore and it is a serious offence to offer alcohol to a Qatari.

(3) Smoking is not permitted in any public places during the month of Ramadan.

SHORE LEAVE: Shore leave is permitted after the Immigration Authorities have cleared the ship and given permission, in writing, on the Crew List. Seamens' documents or passports must be deposited with the police at the gangway and retrieved on returning aboard.

DELAYS: The only delays that can be expected for berthing are on draft. No delay exists for vessels up to 22 ft. 6 in. Over this delays may occur awaiting tides. Congestion delays for the discharge of cargo do occur from time to time but the maximum that can be expected is 3/4 days.

AUTHORITY: Port Department, Ministry of Communications & Transport, P.O. Box 313, Doha, Qatar.

AGENTS: The Qatar National Navigation & Transport Co. Ltd., PO Box 153, Doha, Qatar, Qatar Arabian Gulf. Telex: DH 206. Tel.: 23864. General Manager: 22245. Shipping Manager: 21138. Cargo Supervisor: 21213.

HALUL ISLAND: 25.38.55 N. 52.25.33 E.

Halul Terminal S.B.M.

Qatar national flag should be flown during hours of daylight.

DOCUMENTS: Master required provide 2 copies of crew list and show Light Dues receipt. All other necessary papers will be supplied on arrival, by Berthing Master.

PILOTAGE: Berthing Master will board incoming vessels in approximate position with Halul lighthouse bearing 270°×2·5 miles (that is to the Eastwards of the island) only. Vessels are requested *not* to pass to the Westwards or the Southwards of the island when approaching the anchorage or pilot cutter, as this is a hazardous area due to numerous underwater pipe-lines. Masters requested provide a good lee for the launch to facilitate boarding of Berthing Master and the lifting on board of equipment.

ANCHORAGE: To the Eastwards of Halul Island centred in a position with Halul lighthouse bearing 270°×2·3 miles. Depth about 80 ft. and bottom sand.

MAX. SIZE: SBM No. 1 up to 65 ft. draft (240,000 tons). SBM No. 2 up to 100 ft. draft (500,000 tons).

HEALTH: If sickness on board, details should be included in ETA message. No Doctor on Halul. In emergencies the services or advice of Company's Medical Officer based in Doha may be obtained. If Medical Officer or patient has to be flown to or from Doha, the tanker concerned will be charged for helicopter hire. Round trip is approx. £80.

RADIO: Vessels should establish communications with Shell Company of Qatar Ltd., Doha, at least 48 hours before arrival Halul Terminal, giving ETA local time and quantity of cargo required in long tons. Message to "Shell Qatar Doha" via Bahrain Radio. Any changes in ETA should be passed via Bahrain Radio, or if within range, through station 2AA (see below).

A private radio station, call sign "2AA", operated by Shell Company of Qatar Ltd., situated in position 25° 17′ 12″ N. 51° 34′ 39″ E. A continuous listening watch maintained on 500 kHz. Incoming tankers should listen for the 2AA traffic list which is transmitted on 438 kHz at 0400, 0800, 1200 and 1600 hours GMT after first calling on 500 kHz. Other details shown in Admiralty List of Radio Stations Volume 1.

A standard information cable is passed to all incoming tankers by station 2AA.

Ship's radio station must not be used while tanker moored to SBM.

VHF: A VHF station on Halul Island, call sign "Halul Control", maintains a continuous watch on the International Marine Band, Channel 6. The station has a range of approximately 50 miles and incoming tankers should establish communications with this station as soon as possible. Ship-to-shore communication during loading is by portable VHF Radio telephone provide by the terminal.

TUGS: Not available.

BERTHING: Approach is from the open sea, passing to the Eastwards of Halul. There are two single buoy moorings. Number one SBM in position 25° 39′ 00″ N, 52° 25′ 55″ E. fitted with two 810 ft.×16 in. floating hose strings and connected to one × 30 in. shore submarine and two 12 in.×150 ft. nylon floating mooring lines from the buoy. This berth will primarily accommodate vessels up to 120,000 tons dwt., but however, may be used for larger vessels if required. Loading rates of up to 8,000 m³ may be given. Number two SBM in position 25° 38′ 36″ N, 52° 27′ 35″ E. fitted with two 885 ft.×24/20 in. floating hose strings and connected to two double 15 in.×150 ft. nylon mooring lines from the buoy. This berth will accommodate vessels of over 120,000 tons dwt. with up to a draft of 100 ft. Loading rates of up to 15,000 m³ will be given. In both berths, mooring lines from the buoy are secured on the forecastle head using equipment provided by the terminal. A suitable messenger rope should be ready for use. No moorings are used aft. The Berthing Master will advise in detail the mooring procedure.

Hose Connections: No. 1 SBM amidships port side two 16 in. hoses. Hose derrick should be rigged to lift at least 5 tons and two 16-in. reducers should be fitted on the port side only.

No. 2 SBM amidships, starboard, side two 20-in. hoses. Hose derrick must be rigged to lift at least 10 tons and two 20-in. reducers should be fitted on starboard side only.

Hose connection carried out by ship's personnel with advice from

Berthing Master. Tankers *not* permitted to immobilise main engines or auxiliaries whilst moored to SBMs.

DENSITY: At berth, 1028/1030 (approx.).

CARGO: Flash point: Flash point of Qatar crude is below 32 degrees Fahrenheit.

H_2S content: Qatar marine crude contains concentrations of H_2S (sulphuretted hydrogen). This is an evil-smelling poisonous gas which can be lethal depending on concentration of gas in the air inhaled. It can be detected normally by smell, but unfortunately a high concentration of the gas rapidly paralyses sense of smell and may lead to a false sense of security. It is, therefore, important that when the presence of the gas is detected the area or compartment concerned must be left with all possible despatch until adequate ventilation can be carried out. *The explosimeter will not detect this type of gas.* The under-noted precautions have been evolved as necessary to provide against a possible accident.

(*a*) During loading gas should only be allowed to escape via the agreed venting arrangements.
(*b*) When ullaging tanks, personnel should keep to windward of the tank opening and avoid breathing fumes as much as possible. If H_2S is inadvertently inhaled the man should leave the area and not return until his sense of smell has been restored.
(*c*) No one should enter any pump room or any compartment where gas could collect unless another person is standing by.
(*d*) Lifelines, breathing apparatus and resuscitator should be readily available.
(*e*) As a precautionary measure, the gas ejector for the pump room should be put into operation at any time entry is made into this space whilst the possibility of H_2S gas entering pump room from cargo or empty tanks exists.

FRESH WATER: Not available.

FUEL: Not available.

REPAIRS/STORES/LAUNDRY: Not available.

TANK CLEANING: No facilities available and ships must arrive with clean ballast, lines and pumps.

CUSTOMS: Trading in liquor is *strictly* prohibited and no alcoholic drink should be offered to Arab nationals.

TIME: Local time GMT plus 4 hours.

SHORE LEAVE: Not Permitted.

AGENT: The Shell Company of Qatar Ltd., PO Box 47, Doha, Qatar, Arabian Gulf. Telegraphic address: "Shell Qatar Doha".

UMM SAID: 24.54 N. 51.34 E.

When vessel enters port waters in ballast, the ballast water for overside discharge must be clean and a declaration signed by Master and delivered to representative of the terminal. Ashes, oil, oily water or other refuse must not be discharged overboard in port waters. Vessel's scuppers must be effectively plugged and leakage or spillage of oil aboard ship must not be swept or washed overboard whilst in port waters.

DOCUMENTS:
Health Declaration.
Crew Lists,
Light Dues Receipt.
Other necessary papers supplied on arrival.

BUOYED CHANNEL: All vessels wishing to navigate the Umm Said buoyed channel must obtain prior clearance from Umm Said Control who can be contacted on VHF Channels 14 or 16 or by Telex via Bahrain Radio, addressed to Petroqat Umm Said. This precaution is essential to avoid unexpected encounters with deep-laden oil tankers.

APPROACHES:

Depths. In Outer Channel there are at least depths of 37 ft. in vicinity of Nos. 1 and 2 buoys, 3 and 4 buoys and Nos. 9 and 10 buoys. Between Outer and Inner Channel, depth varies from 40 ft. at Nos. 11 and 12 Outer Channel buoys through 72 and 78 ft. between S.E. Arrif and S. Arrif buoys to 47 ft. close to No. 1 Inner Channel buoy. In Inner Channel, least depth is 38 ft. between Nos. 3 and 4 Inner Channel buoys.

From Inner Channel to anchorage, depths vary from 43 ft. between Channel and Turning buoy to 48 ft. at anchorage.

Tides. Tides in this area have large diurnal component and at times there is only one high water and one low water in twenty-four hours. This irregularity is more pronounced at Umm Said than at Outer Channel entrance for which predictions are made.

In December the higher high water, or the only high water during periods of single day tides, occurs between 5 a.m. and 2 p.m.; in March between 10 p.m. and 9 a.m.; on June between 6 p.m. and 1 a.m. and in September between 9 a.m. and 9 p.m.

At Umm Said there are a few days in the year when tide does not rise above 5 ft. and there are considerable periods each day when predicted height of tide is greater than 3 ft. In vicinity of Nos. 3 and 4 Inner Channel buoys, high water occurs about 1 hour after high water at Outer Channel entrance and rise of tide is slightly more than at Outer Channel entrance. Higher high water is normally 5 ft. or better, rising to 8 ft. at exceptional Springs.

Meteorological conditions may affect all the above tides by +2 ft.

Tidal Streams. In general, flood stream sets to South south west and ebb stream to North north-east, the rate being up to two knots at Springs.

Cross sets will consequently be experienced in the channel, more particularly in Northern part of Outer Channel, between Outer Channel and S.E. Arrif buoy and between S. Arrif buoy and the Turning buoy. Outer Channel entrance stream continues to set to Southward for some time after tide has started to fall.

PILOTAGE:

Inward: Except on special request Pilots are not provided for the inward passage. Tankers should proceed to Eastern Anchorage, having first received clearance from Umm Said Terminal to enter channel. This is to ensure that all outward bound vessels are aware of traffic movements in channel.

Outward: Pilots will be disembarked off Hul (H) light buoy.

N.B. It is requested that tankers of 40,000 dwt and over should have rigged, when in light condition, an accommodation ladder lowered to about 12 ft. above the water. This can be adjusted to suit conditions. A pilot ladder should be rigged immediately abaft the accommodation ladder, to within 2 ft. above the water. This will enable Pilot to ascend pilot ladder clear of launch, and then step on to lower platform of accommodation ladder.

Pilotage is compulsory for dry cargo ships bound for Umm Said anchorage. Pilotage performed by Doha Pilots.

ANCHORAGE: Eastern Anchorage. Depth 48 ft.

MAX. SIZE: Draft of laden tankers leaving Umm Said controlled by depth at outer end of Outer Channel. This is 37 ft. below Chart Datum and Zero of Predictions. Tide rarely falls below 1 ft. above datum, so that there is always 38 ft. or more in the channel.

Even under worst weather conditions there is no appreciable movement on larger ships in Outer Channel. As deep-draft vessels always reduce speed between Nos. 3 and 4 Inner Buoys and in Outer Channel, there is very little "draw down" and an allowance of 3 ft. under the keel for safety is considered adequate. Deep-draft vessels should endeavour to pass between Nos. 1 and 2 Outer buoys at higher high water for the Outer Channel entrance.

In general, limitations are as follows:

(*a*) Ships drawing 35 ft. or less can sail at any time on any day.
(*b*) Ships drawing 36 ft. will rarely have to use tides.
(*c*) Ships drawing 37 ft. will usually have to use tides.
(*d*) Ships drawing 38 ft. always have to use tides.
(*e*) Ships drawing 39 ft. will occasionally be neaped.
(*f*) Ships drawing 40 ft. will be neaped 120 days + a year. The best months are April to August.
(*g*) Ships drawing 41 ft. can sail occasionally. The best months are June and July.
(*h*) Ships drawing 42 ft. are not worth programming as on the few days when predictions indicate they could sail, meteorological conditions may well cut the tides.

HEALTH: (Quarantine and Medical Clearance). The Medical Officer of Qatar Petroleum Company Ltd. will carry out these duties. No fees are payable. Medical attention to Masters and crews of ships arranged by Qatar Petroleum Company's Medical Officer when asked for by Master.

RADIO: Vessels are requested to inform QPC Limited by cable of ETA Hul (H) light buoy 48 hours prior to arrival. It should be clearly indicated whether times quoted are Greenwich Mean Time or Local Time. Also state quantity of cargo, in long tons, and maximum loading rate required. Cables should be addressed "Petroqat, Umm Said", and passed via Bahrain Coast Radio Station.

When advising ETA ships must state last port of call and if there is any sickness on board. If last port of call Bahrain or Ras Tanura, the port previous to them must be stated.

VHF: Tanker VHF Radio Communications. Terminal equipped operate on six channels of International Maritime Mobile Radio Telephone Service as follows:

Channel No.	*Transmit frequency mc/s.*	*Receive frequency mc/s.*
1	156·05	156·05
9	156·45	156·45
11	156·55	156·55
12	156·60	156·60
14	156·70	156·70
16	156·80	156·80

Continuous listening maintained on Channels 16 and 14, call sign being "Umm Said" and range of station approximately 50 miles.

TUGS: No tug available.

BERTHING: Pilots act in same capacity as Mooring Masters in the berthing, after which they supervise raising of flexible hoses and connection to ship's manifold. During loading operation they act as company's representatives.

Mooring, loading and unmooring carried out night and day and necessary standards of safety can only be maintained if vessels have equipment suited to terminal requirements.

North Berth is a Single Buoy Mooring in Position 24° 53′ 37″ N. 51° 34′ 54″ E.

Vessels moored at South Berth by ship's anchors and mooring buoys. Following equipment should be carried:

(*a*) Port and starboard anchors to be fitted with marker buoys and sufficient line.
(*b*) Two good boat ropes 4½ in. circ., at least 200 ft. long.
(*c*) A good line by the pilot ladder for hauling on board equipment such as hose clamps, wrenches, reducers and elbows.
(*d*) Four good mooring lines aft of a suitable size for the vessel on which they are used. Each line should consist of 120 fathom hawser, tailed by a similar hawser and ready to run out if required.
(*e*) Two good mooring lines forward similar to the after lines for use on breast buoy if necessary.
(*f*) Two good rope stoppers to be available forward. Four good rope stoppers to be available aft.

(*g*) Derricks or cranes reaching over hose connection should be capable of lifting flexible hose from sea-bed to a height of up to 30 ft. above deck.
Derricks should have a safe working load of 10 tons in order to lift 12 in. hose strings.
(*h*) Reducers or adaptors to be bolted to ship's flanges, so as to take 12 in. hose.
Note. Where a vessel has two or more loading connections, the ship's flanges should not be less than 4 ft. apart.
Sea-Line Berths.

Berth	*Maximum tph*	*Fixed sea-line*		*Strings of flexible hoses*	
North	7,000	One	36″	Two	12″
South	4,300	One	24″	Two	12″

Depth of Water at Berth. Available depth of water at seaward end of sea line is 44 ft.

BULK HANDLING FACILITIES: A Government Jetty has been constructed in Umm Said Bay connected to a Fertiliser Production Plant and grain mill. There are facilities alongside the quay for loading bulk urea and bagged urea; for loading refrigerated liquid ammonia; discharging bulk grain.

Vessels up to 60,000 dwt. may be accepted alongside.

The jetty is 700 ft. long, 100 ft. wide; the deck level being 20 ft. 3 in. above. Admiralty Chart datum. There is a least depth of 40 ft. alongside.

Government Pilots provide berthing assistance. See "Doha".

The Qatar Petroleum Company has started construction work for a liquid gas plant which will include a "T"-head jetty extending approximately 380 metres seaward from position 24° 54′ 15″ N. 51° 33′ 37″ E. due for completion in 1974.

CARGO:

1. Flash Point. Flash point of Qatar crude is below 32 degrees Fahrenheit.

2. H_2S Content. Qatar crude contains concentrations of H_2S (sulphuretted hydrogen). This is an evil-smelling poisonous gas which can be lethal depending on concentration of gas in the air inhaled. It can be detected normally by smell, but unfortunately a high concentration of the gas rapidly paralyses sense of smell and may lead to a false sense of security. It is, therefore, important that when the presence of the gas is detected the area or compartment concerned must be left with all possible despatch until adequate ventilation can be carried out. *The explosimeter will not detect this type of gas.* The under-noted precautions have been evolved as necessary to provide against a possible accident.

(*a*) During loading gas should only be allowed to escape via the agreed venting arrangements.
(*b*) When ullaging tanks, personnel should keep to windward of the tank opening and avoid breathing fumes as much as possible. If H_2S is inadvertently inhaled the man should leave the area and not return until his sense of smell has been restored.
(*c*) No one should enter any pump room or any compartment when gas could collect unless another person is standing by.
(*d*) Lifelines, breathing apparatus and resuscitator should be readily available.
(*e*) As a precautionary measure, the gas ejector for the pump room should be put into operation at any time entry is made into this space whilst the possibility of H_2S gas entering pump room from cargo or empty tanks exists.

LOADING:

(*a*) *Readiness.* Notice of Readiness will be received by Company Representative provided vessel ready to load. Lay time will commence six hours after receipt of Notice of Readiness, berth or no berth. The Company will make every effort to load tanker on arrival provided berth available and weather permitting.

Advice from vessel which states she is ready to receive cargo is considered as final, and as indicating that every operation necessary aboard vessel has been completed. As soon a possible after such a signal has been received, and without further advice, loading will commence. Damage to hoses can occur if ship's valves are not open at the start of loading.

(*b*) *Pipelines.* Each berth connected to shore installation by one or two submarine pipelines. The seaward ends of pipelines terminate in 12 in. flexible hoses, there being two such strings of hoses at each berth.

A mooring barge is available to assist ships to raise hoses from sea bed and connect up.

(*c*) *Tank Dips.* When loading, dips shall be taken frequently of vessel's tanks, thereby preventing loss of oil through a leaking hose. This particularly applies at night, as seepage of oil is practically invisible on the water during darkness. Inspection of vessel's tanks will be made before loading commences by a ship's officer and a representative of the Terminal. Opening dips and closing ullages will be taken and the quantity of cargo calculated. Particular care must be exercised by ship's personnel, towards completion of loading, in the "topping-off" of tanks to ensure that Terminal given timely advice of any decrease in pumping rate required. Adequate "Stand-by" notice should be given before the final "Stop".

(*d*) *Loading Pumps.* Cargo is loaded with two 1,200 h.p. pumps. Sudden shutting of valves or asking for pumps to be stopped whilst loading at full speed can cause pressure surges throughout pipe system. This has caused breakage in the lines and consequent loss of large quantities of oil with the serious risk of fire. Should a pressure surge occur causing damage to flexible hoses connected to vessel you can imagine the risk with large quantities of crude oil on the decks and in the surrounding sea. In order to avoid any possibility of this, please ensure that 15 minutes notice of requiring to stop pumping be given and that *slow speed* be asked for at this time.

(*e*) *Ballast.*
(*a*) Essential that vessel is adequately ballasted to ensure safe handling and manoeuvring. Please comply with Mooring Master's requests as to ballast quantity and disposition.
(*b*) Umm Said is an open roadstead and subject to sudden changes in weather. On occasions it is of great advantage to commence loading whilst discharging ballast or prior to completely de-ballasting to avoid having the vessel in a flying light condition.
(*c*) No cleaning of boiler tubes whilst ship is in port.
(*d*) All pump-room seacocks must be closed before commencement of loading.

FUEL: Bunkers not available. A vessel proceeding to a nearby bunkering port should repeat ETA to Qatar Petroleum Company Ltd. for information. If Qatar Petroleum Company Ltd. have sufficient information concerning expected arrivals, taking into consideration time taken to bunker, they will advise Masters when they consider that probable delay at Umm Said can be avoided by the vessel loading cargo before proceeding to the bunkering port. A similar request may be made in exceptional circumstances when there is a possibility that unduly large stocks of oil may necessitate shutting down the field.

FRESH WATER: Not available.

CUSTOMS ALLOWANCES: The State Laws of Qatar are very strict about import of liquor and its consumption both on mainland and on vessels in harbour. No employee, whether senior or junior, is permitted to import any liquor direct or to bring any liquor ashore from vessels, and under no circumstances should liquor be offered for consumption on vessel to any company employee unless he is of staff status. At the present time vessels enjoy the privilege of not having to seal liquor stocks whilst in port, but this privilege would be withdrawn if above rules not strictly observed.

DERATISATION: No facilities.

DISCHARGE CERTIFICATE: The Master of every vessel loading at Umm Said is handed a Discharge Certificate for completion by the Customs or Port Authority at port of discharge and return by air mail to the Director of Customs Government of Qatar. Doha, within *three* months of sailing from Umm Said. It must be emphasised that failure to comply with this requirement may result in delay or even boycott of the vessel upon return to Qatar. It is therefore in best interest to ensure that Agent at port of discharge attends to despatch of this certificate with least possible delay and by *airmail.*

OUTWARD PASSAGE: Same track is followed as for inward passage. Speed must be reduced before rounding the Turning buoy and passage of Inner Channel must be made at slow speed to avoid increase of draft due to "draw down" or "heel under helm". Outer Channel should also be taken at moderate speed to avoid "draw down" and "canal action" when passing close to shoal patches.

AGENT: Agency carried out by Qatar Petroleum Company Ltd. Telegraphic address, "Petroqat" Umm Said. Postal address, Qatar Petroleum Company Ltd., PO Umm Said, Qatar, Arabian Gulf.

Reunion Island

POINTE DES GALETS: 20.55 S. 55.18 E.

PILOTAGE: Pilot is normally ordered by the ship's Agent, or in particular cases by the Harbour Master if contacted by VHF beforehand. Pilot launch carries regulation pilot signals. Pilot boards at the entrance to the port about 1 mile from the breakwaters.

ANCHORAGE: There are 3 anchorages in the roads near the port.
(*a*) In Baie de St. Paul in depths of about 40 metres, well marked and safe except in very strong swell.
(*b*) South of the port entrance in the immediate approaches, depths of 40 metres, only used in fine weather and calm sea.
(*c*) In roads of La Possession unmarked anchorage and little used.

If vessel requires a Pilot for anchoring, then anchorage dues are incurred. Vessels anchoring by their own means do not incur charges.

RESTRICTIONS: Entering port in daylight only. Before berthing vessels swing in the outer port using starboard anchor.

MAX. SIZE: Length, 175 metres; draft, 9 metres.

RADIO: Saint Denis Radio. Harbour Master's Office equipped with VHF.

TUGS: Only used to assist vessel manoeuvring in the port. Tugs join vessel in outer harbour. Ship's lines always used.

BERTHING: Berth assigned by Harbour Master, basis vessel's length and draft. Tankers berth in the outer harbour at dolphin berth. No slop facilities.

DENSITY: 1025.

FRESH WATER: Available by pipe-line at the quays. Rate 10 tons per hour. Not available at tanker berth.

FUEL: Bunkers reported to be available.

MEDICAL: Doctor and hospital facilities available.

WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Normally performed by ship's crew.

REPAIRS: Only minor repairs can be effected.

REPATRIATION: All facilities available for crew change and repatriation.

AIRPORT: 30 kilometres away, daily connections to Africa and Europe.
TIME: GMT plus 4 hours. No alterations during the year.
HOLIDAYS: Same as for "France".
SHORE LEAVE: Crew are allowed to go ashore.
AUTHORITY: Capitain du Port.

Romania

CONSTANTZA: 44.12 N. 28.41 E.

DOCUMENTS: As soon as vessel is boarded by the border control commission, the Master fills in a form of declaration in 4 copies, which together with Stowage Plan, Cargo Manifests, Sanitary Certificates, is handed to representative of the Agency. Also following documents are to be handed over at Harbour Master's Office:
Derating Certificate.
Certificate of Nationality.
Tonnage Certificate.
Safety Equipment Certificate.
Load-line Certificate.
Safety Radio-telegraph Equipment Certificate.
Crew Lists and Passengers Lists must be typed in several copies (up to 7).
PILOTAGE: Upon arrival in roads, a cable must be sent through radio coast station to Agent, stating hour of arrival and asking for Pilot. If entrance is not possible immediately due congestion Agent will call back the vessel advising when Pilot may board near the port entrance in order to berth vessel.
MINEFIELDS: Danger Area Nr. 3B (Constantza South). The area enclosed by the coast and by lines joining the following positions:
(*a*) 44° 09′ 81″ N. 28° 38′ 25″ E. (*b*) 44° 08′ 99″ N. 28° 39′ 96″ E.
(*c*) 44° 08′ 50″ N. 28° 39′ 96″ E. (*d*) 44° 08′ 50″ N. 28° 54′ 01″ E.
(*e*) 44° 00′ 17″ N. 28° 54′ 01″ E. (*f*) 44° 00′ 17″ N. 28° 39′ 88″ E.
Danger Area Nr. 3A (Constantza North). The area enclosed by the coast and by lines joining the following positions:
(*a*) 44° 21′ 79″ N. 28° 41′ 10″ E. (*b*) 44° 21′ 79″ N. 28° 52′ 69″ E.
(*c*) 44° 21′ 14″ N. 28° 54′ 01″ E. (*d*) 44° 10′ 19″ N. 28° 54′ 01″ E.
(*e*) 44° 10′ 19″ N. 28° 42′ 18″ E. (*f*) 44° 10′ 48″ N. 28° 42′ 16″ E.
(*g*) 44° 10′ 99″ N. 28° 40′ 76″ E. (*h*) 44° 09′ 77″ N. 28° 39′ 55″ E.
ANCHORAGE: Anchorage areas in Constantza roads are just near the new port works in an area up to 44 ft. depth. Length and breadth have no special restrictions. Actual official permitted draft for tankers 30·6 ft. will be soon improved in new tanker berths. Constantza anchorage – East approach Nr. 2. Approach is between limits of Danger Areas Nos. 3B and 3A. Width 1·7 miles, length 15·3 miles, direction 270°–90°. Centre line joins following positions.
C1: 44° 09′ 35″ N. 29° 02′ 20″ E. At 17·5 miles on bearing 91° 12′ from Constantza main lighthouse (nr. 1·5).
C2: 44° 09′ 35″ N. 28° 41′ 00″ E. At 2·25 miles on bearing 99° 12′ from Constantza main lighthouse (nr. 1·5).
On this approach non-degaussed vessels with max. draft 12 metres may navigate.
MAX SIZE: Vessels up to maximum draft 35 to 36 ft. may berth in Constantza. Tankers, see below.
TUGS: Tugs normally join vessel near port entrance assisting them until berthing.
RADIO: Constantza coast radio station, call sign YQ1, frequency 462 kc/s. Operation – daily starting at 0650, 1250 and 1850 GMT.
TANKERS: Five oil wharfs under construction capable of berthing tankers up to 80,000 dwt.
MEDICAL: Crew members are offered medical assistance on Monday, Wednesday and Friday between 0900 and 1200 a.m., and on Tuesday, Thursday and Saturday between 1300 and 1700 hours.
WATCHMEN: Watchmen recommended for special general cargoes. Cost will be arranged through Agent.
CUSTOMS ALLOWANCES: Small quantity permitted for each crew member out of bond but may be renewed if vessel stays longer in port.
REPAIRS: Largest dry dock in Constantza has 15,000 tons lifting capacity, second dock up to 8,000 tons.
TIME: Local time is GMT plus 2 hours.
HOLIDAYS: Official holidays in Romania: New Year's Days (1st and 2nd January); Easter Orthodox Monday (April); Labourer's Days (1st and 2nd May); Liberation Days (23rd and 24th August); Anniversary of Socialist Revolution (7th and 8th November); Christmas (25th and 26th December); Proclamation of the Republic (30th December).
STEVEDORES: Working hours 0800–1700 and 2000–0500. Saturday afternoons, afternoon of days before holidays, Monday mornings and days after holidays until 0800 usually exempted in C/P although work may be effected. Loading and discharging are generally effected by shippers and receivers, respectively at their own expense and they may work also on holidays, Sunday and Saturday afternoons, no overtime expenses being charged to the vessel for shore labourers but without payment of overtime to vessel's crew and without counting the time.
SHORE LEAVE: On completion of border inspection, crew can go ashore taking their Seaman's Books (or Passports) and the permits they receive from the soldier at the gangway. The permits must be returned to soldier upon coming back on board. In the event that crew members desire to visit another place outside Constantza they shall inform Agent.
GENERAL: From the time a vessel enters the territorial waters of Romania until she leaves the respective zone, i.e. 12 miles, it is compulsory to fly the Romanian flag. Ships that call at Constantza for the first time and have not got the Romanian flag on board must have it ordered through the Agent immediately upon berthing.
AGENT: Navlomar Shipping Agencies, Telex 014–259. Cables "Navlomar Constantza".

SULINA (including Galatz and Braila): 45.09 N. 29.39 E.

DOCUMENTS: Within maximum 1 hr. from fulfilment of arrival formalities the Master or Chief Mate reports at the Harbour Master's Office where he hands the following documents:
Certificate of Nationality.
Tonnage Certificate.
Safety Equipment Certificate.
Load-line Certificate.
Safety Radio-telegraphy Equipment Certificate.
Safety Construction Certificate.
Cargo Gear Certificate.
The above certificates are to be valid and not to expire before ship's sailing the port, Load-line Certificate and Cargo Gear Certificate not to be older than 12 months, and same remain with the Harbour Master until ship's departure when returned through the representative of the Agency that accompanies the Control Commission on departure.
PILOTAGE: Notice of arrival to pilot station at Sulina is to be sent in due time through Navlomar Sulina.
Sulina – South-east approach nr. 5. Width 1·6 miles. Length 7 miles. Direction 146°–326°. Centre line joins the following positions:
S1: 45° 03′ 01″ N., 29° 53′ 4″ E. At 11·5 miles on bearing 124° 24′ from Sulina Lighthouse (nr. 1.20).
S2: 45° 08′ 9″ N., 29° 47′ 9″ E. At 5·75 miles on bearing 95° 42′ from Sulina lighthouse (nr. 1.20).
Thence on the Nr. 01 Sulina black light and whistle buoy, and afterwards on the line of Sulina Entrance leading lights (301° 12′) into Sulina Channel and so to harbour. On this approach non-degaussed vessels with maximum draft 7 metres may navigate.
The port of Galatz is situated on the left side of the Danube 79 miles from the Black Sea.
RESTRICTIONS: Vessels calling at Danube ports are obliged to wait in roadstead of Sulina, at least one mile away from the black buoy (a black floating cylinder marked 01 in white, which is lighted at night by green flashing light). All vessels both entering and going out of Sulina channel as well as during navigation in the channel and Danube, are obliged to have on board a Danube Administration Pilot. As a rule, entering and leaving the Sulina channel, as well as navigation in the channel, is prohibited after night-fall.
MAX. SIZE: The draft at Sulina bar is 23 ft. passable. Any other changes of official draft are broadcast daily, at 11.50 hours on 1935 metres, long wave.
MINEFIELD: Danger Area nr. 7 A (Sulina). The area enclosed by the coast and by lines joining the following positions:
(*a*) 45° 13′ 27″ N. 29° 40′ 42″ E. (*b*) 45° 11′ 77″ N. 29° 41′ 42″ E.
(*c*) 45° 09′ 17″ N. 29° 57′ 22″ E. (*d*) 45° 07′ 37″ N. 29° 57′ 22″ E.
(*e*) 40° 03′ 07″ N. 29° 54′ 82″ E. (*f*) 45° 03′ 07″ N. 29° 39′ 34″ E.
CLEARANCE: On arrival in Sulina harbour vessel has to stop to complete border and sanitary formalities and after vessel has completed same, with Danube Administration Pilot on board, proceed to destination. After the vessel has completed manoeuvring to come alongside berth, she is boarded by the sanitary commission. If the vessel has passed the sanitary inspection she is boarded by border control commission which includes a representative of the Agency, the latter assisting the Master in fulfilling arrival formalities and facilitating meeting of any requirements on ship's part. The Master fills in a form of declaration in 3 copies which together with the Stowage, Plan, Cargo Manifest, etc., are handed to representative of the Agency upon his leaving ship. A supplementary declaration is to be completed by the Master, stating: 1. Who supports disbursements expenses (name, mail address, telegraphic address, number of telex). 2. Who supports the supplies of bunkers, provisions other services, etc. (name, mail address, telegraphic address, number of telex).
RADIO: Constantza – coast radio station. Call signal YQ1, frequency 462 kc/s. Operation daily, starting with 0650, 1250 and 1850 GMT. Contents of transmission: meteorological and navigation notices. Weather forecasts are broadcast in clear English or codified; radio notices to mariners and navigation warnings are broadcast in Romanian, Russian, and English.
BERTHING: After arrival in Galatz roads and port Pilot boarded, the berthing of the vessel is done as ordered by the Port Authorities according to the possibilities of operation (loading/discharging) and to the availability of berths.
MEDICAL: Crew members are offered medical assistance if necessary when the Master requests, and they have to come at the Agency Office between 08.00 and 09.00 a.m. every day, except Sundays and holidays.
STEVEDORES: Working hours: 0700–1500 and 1500–2300 hours.
CUSTOMS ALLOWANCES: For releasing cigarettes from Customs seal it is necessary to notify the Agent who, in turn, will arrange with the Customs House. Attention is drawn to the fact that bringing into or taking Romanian currency out of the country is prohibited. According to requirements of crew, the Master gets from Agent any sum of Romanian currency. The respective sum is charged in the disbursements account at official exchange rate +200% premium granted to seamen. Before departure from port the Master is obliged to return to Agent the sums of Romanian currency unspent against

receipt. The sums are returned in front of the representative of the Customs during the control for departure.
HATCHES: Opening and closing of the hatches is to be performed by crew whenever requested due to weather conditions.
CARGO GEAR: Rigging of derricks, the good working condition of the winches and derricks, are permanent obligations of the vessel according to requirements of working gangs, The hatch ways must be opened or closed to their full size. The removable beams or covers shall always be stowed on deck on the side where work is not being carried on, so that they may not hinder working gangs or cause accidents. During operations, the vessel is recommended to close the hatches with rain tents, ship's property, if bad weather. If cargo handling gear gets out of order during operations, the waiting time of workers is charged against vessel and such time lost for breakdown of winches not to count as laytime.
SHORE LEAVE: On completion of border inspection crew can go ashore taking their Seaman's Books (or Passports) and the permits they receive from the soldier at the gangway. The permits must be returned to the soldier upon coming back on board. In the event that crew members desire to visit another place out of Galatz they shall inform the Agent.
GENERAL: From the time a vessel enters the territorial waters of Romania until she leaves the respective zone, i.e. 12 miles, it is compulsory to fly the Romanian flag. Ships that call at Galatz for the first time and have not got the Romanian flag on board must have it ordered through the Agent immediately upon berthing at Sulina Harbour. Throwing garbage overboard or pumping out dirty ballast or bilge water is allowed only beyond the territorial waters of Romania. Non-observance of these rules may result in fines varying between 3,000 and 10,000 lei imposed by the Harbour Master.

AGENT: Navlomar Shipping Agency.
Galatz: 20, 13 Junie. Telex 225. Cables "Navlomar Galatz".
Braila: 2 Imparatul Traian. Telex 10. Cables "Navlomar Braila".

St. Lawrence Seaway: See next page.

St. Pierre and Miquelon

ST. PIERRE: 46.47 N. 56.10 W.

DOCUMENTS: Formalities completed on arrival. Advise Port Service beforehand of vessels ETA, length, tonnage and draft.
PILOTAGE: Contact pilot one hour before arrival calling TFU by radio telephone on 2182 kilocycles. Permanent watch kept. Pilot boats equipped with VHF Channel 12, radar, and radio-telephone. Pilot launch available at entrance to North-east channel in position 46° 48′ N. 56° 08′ W. in the vicinity of the Land Fall Buoy.
ANCHORAGE: In the roads, depth 13 metres, not secure in strong East winds.
MAX. SIZE: Maximum draft 8 metres. New Port: Max. length 110 metres. Old Port: max. length 70 metres. Channel depth 5 metres below chart datum.
HEALTH: If suspected disease on board contact St. Pierre Health Service, tel. 279.
RADIO: St. Pierre Radio, call sign TXU, receiving on 2182 kilocycles, transmitting on 2410 kilocycles.
BERTHING: Mole du Commerce; length 170 metres, depth alongside 8·50 metres.
Quai de Peche: length 135 metres, depth alongside 6 to 7 metres.
Mole Frigorifique: Three berths, No. 1; 120 metres length, 7 metres depth. No. 2; 85 metres length, 6 metres depth. No. 3; 120 metres length, 5·5 metres depth.
Old Port: Quai de la Douane: length 123 metres, depth 6 metres.
Quai de l'Alysse: length 50 metres, depth, 6 metres.
TANKERS: One berth alongside dolphins in depth of 8·50 metres.
MEDICAL: All facilities available.
FRESH WATER: Available at berths.
FUEL: Only diesel oil SG 825/840 at 15° C available at all berths.
IDENTIFICATION CARDS: Each man to carry passport or seamen's book.
CONSULS: Local representatives for Canada, Netherlands, Norway, Portugal and Spain.
REPAIRS: Small repairs can be effected. Floating dock, capacity 750 tons, for vessels up to 13 ft. 6 in. draft.
REPATRIATION: Can be arranged.
TIME: GMT minus 3 hours all the year round.
AMBULANCE: Telephone: 279.
AIRPORTS: Connections from St. Pierre to Sydney (Nova Scotia) International Airport.
AUTHORITY: Officier de Port, POB 24, St. Pierre. Tel. 008.

APIA, Western Samoa: 13.50S. 171.45 W.

DOCUMENTS:
1 Clearance from previous port of call.
3 Crew Lists.
3 Passenger Lists.
Customs Documents.
2 Health Documents.
1 Manifest.
Bills of Lading.
Ship's Papers (stores and poisons).
PILOTAGE: 24 hours ETA is required. Pilotage is compulsory for merchant vessels and advisable for naval vessels. Pilot boards 1½ miles outside harbour on line of leading beacons. Pilot boat painted white with red upper structure and deck on which painted in white lettering the words "Pilot-Apia". Also has black rubbing band and word "Pilot" on bows.
By night, in addition to usual navigation lights, pilot boat carries standard identification, i.e. a red light on foremast with all-round visibility. Exemption from pilotage may be granted to Masters of vessels trading regularly to Apia, but pilotage dues are still payable.
Pilotage District: This is defined as being all navigable waters contained within the segment of a circle of 3·5 nautical miles radius having as its centre Vaea beacon and having as its Western and Eastern limits radii bearing 348° and 030° respectively from its centre.
ANCHORAGES: In 20 fathoms outside a line drawn between the two reefs and preferably on line of leading beacons. Bottom is coral.
RESTRICTIONS: No night-time or tide restrictions. Turning basin dredged to 35 ft., extending to 1200 ft. from each end of the wharf. Arrivals preferred either early morning or late afternoon due to trade winds.
MAX. SIZE: Shore bollards to take stern and bow lines for vessels up to 800 ft. in length. Maximum draft 35 ft. Maximum length 600 ft. if moored to buoy. No limit to beam.
HEALTH: Doctor boards vessel on arrival.
RADIO: Signals to incoming ships by radio or radio-telephone from Apia radio station 5WA. For radio, ships should call on 500 kc/s and operate on 483 kc/s. For radio telephone, ships should call on 2182 and operate on 2162 or other available frequency as may be arranged once contact has been established. Apia maintains continuous service.
TUGS: Four tugs of 150 h.p. to 400 h.p., and one new powerful tug 600 ft. long available.
BERTHING: Small charge made for use of hawsers and moorings. Export Wharf – reinforced concrete wharf 604 ft. in length on the East side of inner harbour. Maximum draft alongside 35 ft. All loading and discharging is carried out with ship's gear. No wharf cranes available. This wharf and all surrounding areas enclosed by fence is Customs area and all vessels trading to or from places outside Western Samoa must depart from or arrive at this wharf.
Buoy – one mooring buoy (black with white top) for use by tankers and other vessels which may be unable berth at wharf. Usual to moor to buoy by the stern, using two wires and two ropes. Length of moorings will be advised by the Pilot or by the Harbour Master having regard to sea conditions and interval between swells.
STEVEDORES: Arranged by ship's Agents.
MEDICAL: Advance notice to Agents prefereble. No private doctors but good general hospital where seamen may be admitted.
TANKERS: Shell, Mobil, and B.P. operating in Samoa, and have own discharging facilities. Tanker terminal situated on West reef. Vessel's stern moored half way between reef and buoy. Discharge line is 6 in. diameter. Launch service may be provided between ship and shore at a small charge.
TIDES: Mean high water intervals 6 hrs. 27 mins., spring range 3.2 ft., mean range 2.6 ft. Tidal stern normally slight, but after heavy rain outflow from rivers and streams can cause it to become quite strong.
FRESH WATER: Available at wharf from shore installation.
FUEL: Only light diesel fuel available.
FIRE PRECAUTIONS: Fire services available on wharf and new tug will have fire pumps fitted.
DEVELOPMENTS: Extending turning basins and adding 200 ft. to existing wharf length. New wharf 604 ft. long, and in future, when sufficient mooring facilities provided, ships up to 800 ft. length may be berthed.
WATCHMEN: Recommended and available.
HATCHES: Opened and closed by stevedores.
CUSTOMS ALLOWANCES: No enforcements.
IDENTIFICATION CARDS: Not needed.
CONSULS: The New Zealand High Commissioner represents all British subjects; French Consul, tel. 156.
REPAIRS: Minor repairs only.
AIRPORT: 25 miles from Apia on Western side of Island. Regular and frequent mail and passenger services.
TIME: GMT minus 11 hours. No alteration to clocks.
HOLIDAYS: No cargo on Sundays between 0300 and 2100. The recognised holidays are Christmas, New Year, Boxing Day, Good Friday, Easter Monday, Whit Monday, Anzac Day and Independence holidays from 1st June to 3rd June.
TELEPHONES: Police and public telephones at wharf and provisions are available for telephone connection to vessels berthed at the wharf.
POLICE/AMBULANCE/FIRE: Hospital 364; Police 390; Fire Brigade 200.
AUTHORITY: Port Administrator and Harbour Master, PO Box 474, Apia, Western Samoa.

ST. LAWRENCE SEAWAY

DOCUMENTS: For Agent in Montreal, three unfreighted copies of Complete Manifest for Seaway Toll purposes covering all cargo to be discharged in the Great Lakes.

In first U.S. port, a "Traveller" is made up by the Customs Inspector with the following documents:

2 complete sets of U.S. Cargo Manifests, plus 6 copies for Agents.
1 set Manifest of Cargo for first U.S. port.
4 Stores Lists.
4 Personal Effects Lists.
4 Firearms and Ammunition Lists.
4 Crew Lists, Form I–418.
4 Narcotics Lists.
4 Vessel's Itinerary Lists.
Vessel's Registry and copies of Paid Tonnage Tax Certificates.
Health Pratique.
Clearance from previous port.
2 sets Bills of Lading.
3 copies Stowage Plan.

In subsequent U.S. ports the following are required:

5 sets Manifest of Cargo for that port.
The Traveller and Permit to Proceed issued in previous port.
2 Stores Lists.
2 Personal Effects Lists.
2 Firearms and Ammunition Lists.
2 Crew Lists.
2 Narcotics Lists.
2 sets Bills of Lading.
3 copies Stowage Plan.

During the ice season, radio broadcasts of ice information are made twice daily from Marine radio stations as follows: Cape Race, Newfoundland; Fox River, Quebec; Mont-Joli, Quebec; Halifax, Nova Scotia.

PILOTAGE: The first pilot station when entering the St. Lawrence River is at Les Escoumins, 80 miles West of Father Point. This Pilot will take the ship to the Quebec pilot station 121 miles to the West. Off Quebec a new Pilot boards to take the ship to Trois Rivières, where there is another change of Pilot for the remaining trip to Montreal.

Pre-clearance: Vessels intending to transit the St. Lawrence Seaway must be pre-cleared by a representative who shall assume responsibility to the authority for payment of all tolls and charges to be incurred.

Application for pre-clearance Form SLS 429 may be obtained from the St. Lawrence Seaway Authority, Cornwall, Ontario, or from the St. Lawrence Seaway Development Corp., Massena, New York.

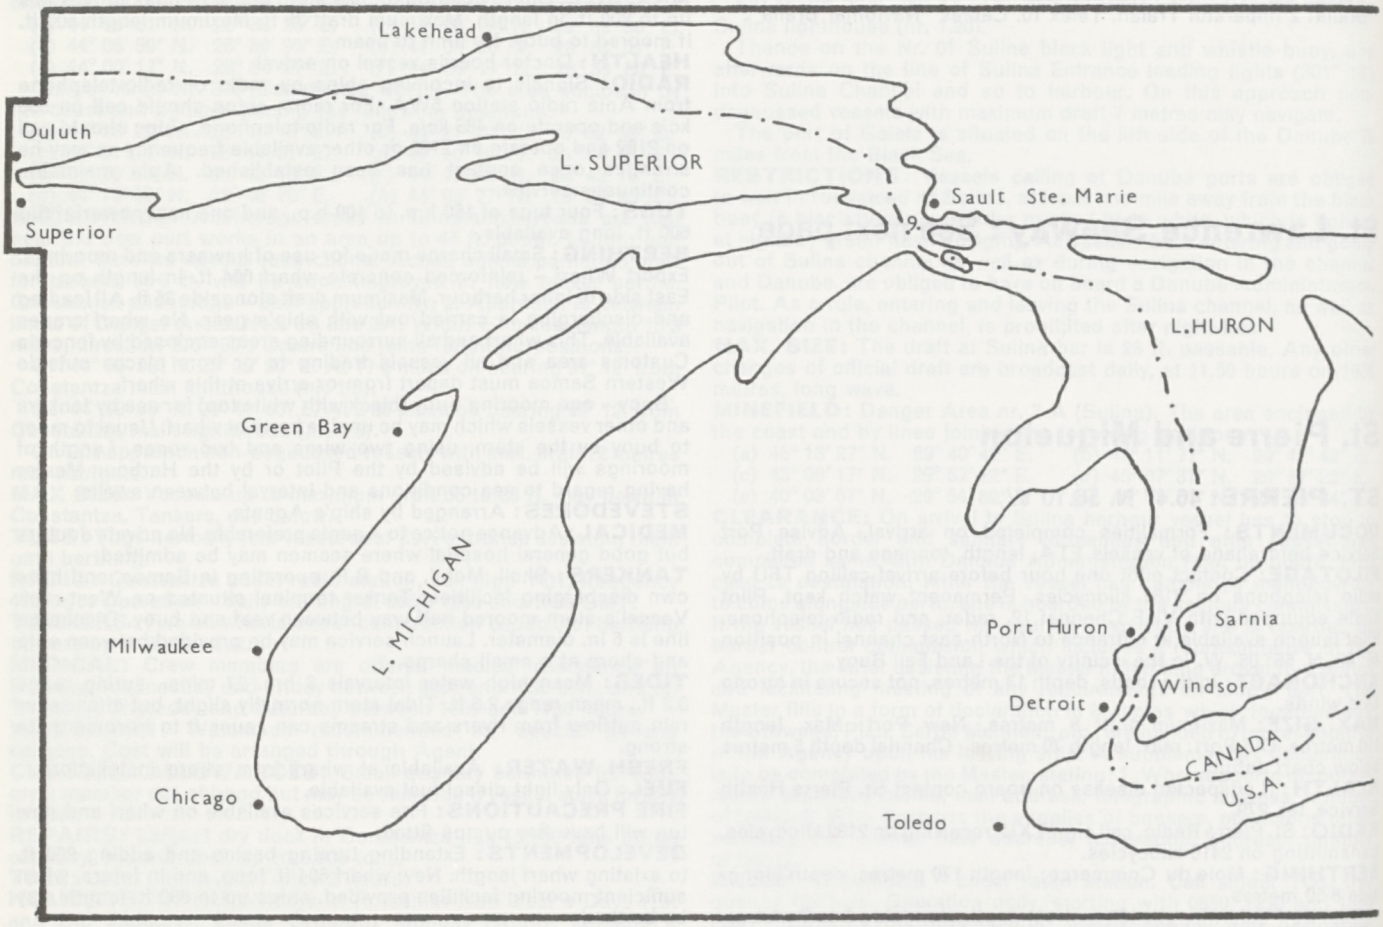
RESTRICTIONS: The average navigation season in the St. Lawrence River is from April 1st to December 20th.

Locks Nos. 1 to 7: length, 860 ft.; width, 80 ft.; depth, 30 ft.; channel depth, 27 ft.

Welland Canal Locks: No. 1: length, 865 ft.; width, 80 ft. Nos. 2 to 7: length 859 ft.; width, 80 ft. No. 8: length, 1,380 ft.; width, 80 ft.; channel depth, 27 ft.

St. Mary's River Locks: MacArthur: length, 800 ft.; width, 80 ft. Poe: length, 1,000 ft.; width, 100 ft. Davis: length, 1,350 ft.; width, 80 ft. Sabin: length, 1,350 ft.; width, 80 ft. Canadian: length, 900 ft.; width, 59 ft. Channel depth 27 ft.

Speed Limits: 10 m.p.h. upbound, 12 m.p.h. downbound in the Beauharnois Canal; 9 m.p.h. Port Weller Harbour and 7 m.p.h. in all other canals. The speed limits vary from 10 m.p.h. to 18 m.p.h. in most remaining sections of the St. Lawrence River; Lower Detroit River 12 m.p.h.; St. Clare River 9 m.p.h. to 12 m.p.h.; St. Mary's River 10 to 15 m.p.h. Speed limits are detailed in a seaway notice issued early in the year.



Vessels navigating St. Lawrence Seaway are required to complete applications for:

(1) Certificate of financial responsibility,
(2) Certificate of Insurance, form FMC 225,
(3) Oil discharge assurity Bond, form FMC 226,
(4) Guarantee in respect of liability for discharging oil, form FMC 227.

These applications have to be filed with the Secretary of the Federal Maritime Commission before a certificate is issued. The oil pollution liability certificate should be retained aboard the vessel.

ICE ADVISORY SERVICE: Ships inbound from seaward between December 15th and April 15th should advise the Ice Information Officer, Sydney, 36 hours prior to entering Cabot Straight, stating their position, destination, whether loaded or in bulk. This procedure will facilitate the passing of ice information to the ship as necessary. Ice information is also available from radio stations at Halifax, Seven Islands, Wirringate and Grindstone. The Canadian Broadcasting Corporation Maritime Network also broadcasts ice information daily during the winter navigation season. Supplementary ice information may also be obtained from the Canadian Marine Service Icebreakers.

MAX. SIZE: Length 730 ft., beam 75 ft. 6 in., draft 26 ft. Masts must not exceed 117 ft. above water level.

HEALTH: All ocean-going vessels must obtain a free pratique before entering the Seaway. Vessels entering the Seaway direct may receive quarantine inspection and clearance from the Canadian authorities at Montreal while at anchor awaiting entrance to the Seaway.

RADIO: *Notice of Arrival.* Master must give at least 24 hours notice to Commander, 9th Coast Guard District, Cleveland, Ohio, of the vessel's ETA at Snell Lock. Also at least 24 hours notice of ETA at first U.S. discharge port is required.

Welland Canal: A vessel arriving at either calling- in point will call the Welland Canal Traffic Control Centre on Channel 16 (156·8 Mc/s) giving (*a*) name of vessel, and (*b*) position. Seaway Welland will acknowledge the call and request the vessel to shift to Channel 14 (156·7 Mc/s). The vessel will then shift to Channel 14 and give:

(c)-destination, (*d*) draft, fore and aft, and (*e*) cargo. If the vessel is called directly into the canal, she will be told to remain on Channel 14. If the vessel is not to come into the canal, she will be ordered to anchor and instructed to guard Channel 16 until called in. Unless instructed otherwise, vessels will guard Channel 14 during their entire transit from calling-in point 15 to calling-in point 16, or vice versa, and all transmissions will take place on Channel 14.

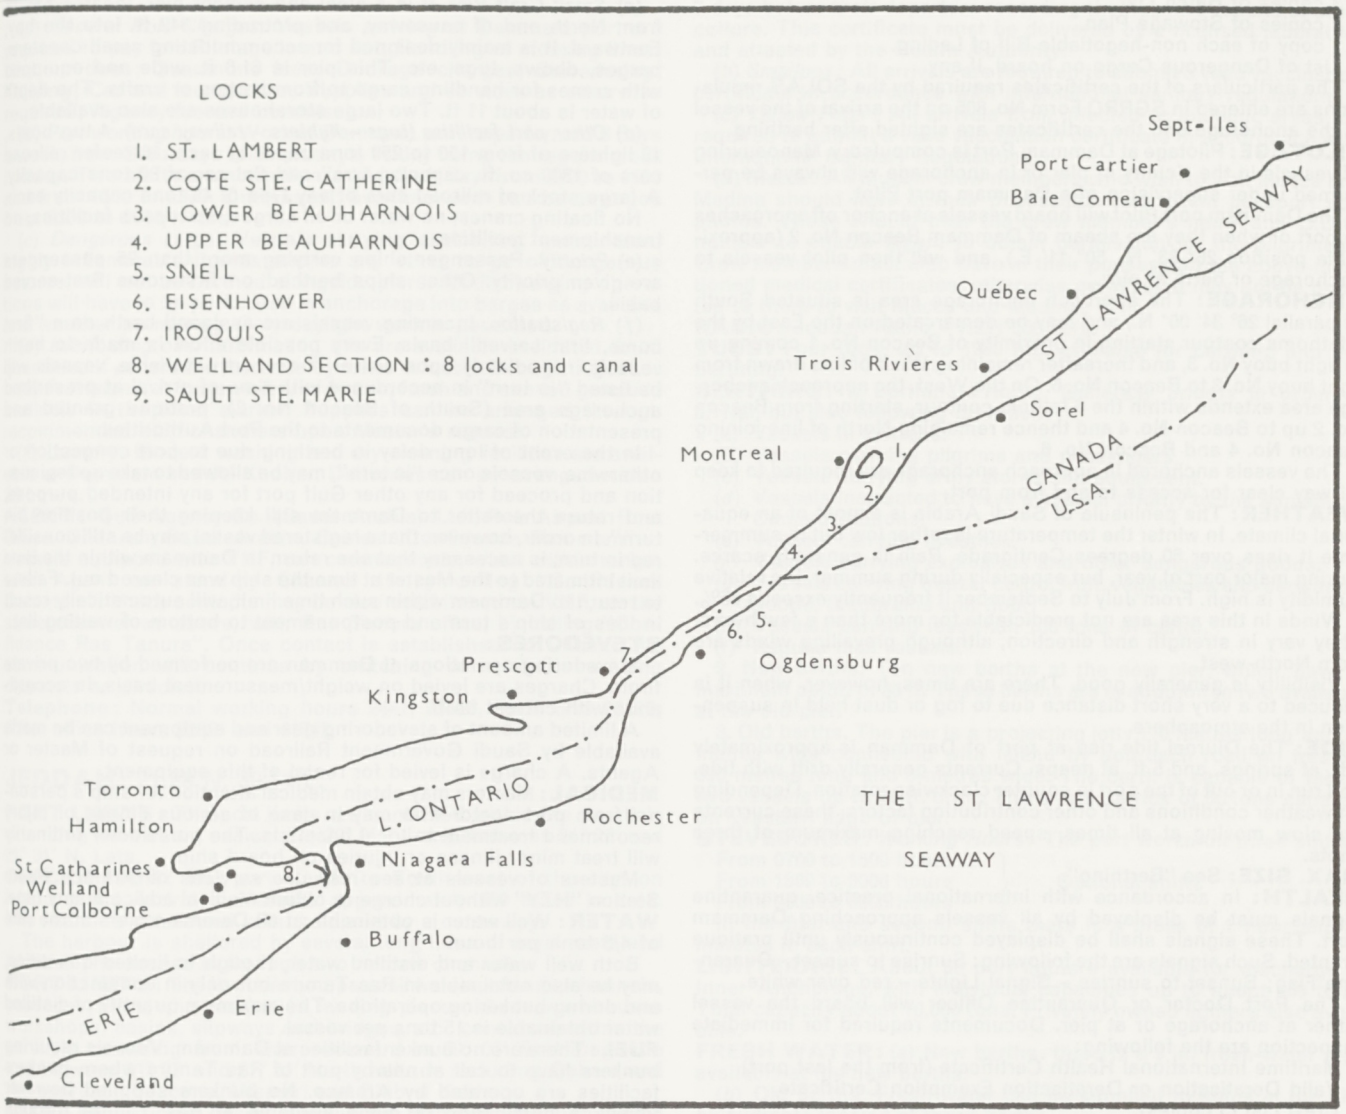
Great Lakes: It is recommended that vessels within a radius of 35 miles of a shore station use their FM transmitting and receiving equipment to ensure better connections. This pertains especially to vessels at anchor or in the proximity of a port or berth.

Radio Stations: Buffalo, New York, marine operator. Port Burwell, Ontario, marine operator. Geneva, Ohio, marine operator. Loraine, Ohio, marine operator. Rogers City, Michigan, marine operator.

IDENTIFICATION CARDS: In the first U.S. port, the immigration officer requires an alphabetical crew list made up on Form I–418 and visaed by the American Consul in the last overseas port. This crew list should contain the name of every crew member on board. Also needed are three copies of this crew list on the same form. The Immigration Officer will require all seamen's books and passports, to issue the completed crew landing permits made out on Form I–95A. The Master will be given a crew list receipt which will indicate the names of crew members detained on board, if any. In case a crew member is detained on board, he cannot go ashore, and at irregular times an officer of the Immigration Service will check if the crew member is on board. A fine of $1,000.00 will be imposed on the vessel for each detained crew member who is not on board.

TUGS: Whistle signals differ from those in international usage and are as follows:

1. Ship to Tug: One Long and One Short (— .) = ship ready to proceed, O.K. or all right. One Long and Two Short (— . .) = let go the bow tow-line. One Long and Three Short (— . . .) = let go the stern tow-line.
2. Both Ship to Tug and Tug to Ship: One Short (.) = work propeller ahead when stopped, *or*, stop propeller when working, either ahead or astern. Two Short (. .) = work propeller astern. Three Short (. . .) = slow down or check. Four Short (. . . .) = work propeller strong in the same direction it is working at the time the signal is blown. Five or more Short Blasts (. . . . .) = the standard danger signal.



Based on map supplied by St. Lawrence Seaway Authority.

SEAWAY EQUIPMENT: *Radio-telephone Equipment:* All vessels, other than pleasure craft of less than 65 ft. in overall length, must be equipped with VHF radio-telephone equipment, in addition to the FM equipment otherwise required. The radio transmitters must have sufficient power output to enable the vessels to communicate with Authority Stations from a distance of 30 miles and must be fitted to operate from the wheelhouse and to communicate on 156·6, 156·55, 156·7 and 156·8 Mc/s.

Stern Anchors: It is strongly recommended that vessels in excess of 350 ft. in overall length be equipped with a stern anchor rigged and ready for immediate use.

Propeller Direction Alarms: Vessels in excess of 260 ft. in overall length shall be equipped with propeller direction and shaft r.p.m. indicators or visible and audible wrong-way propeller direction alarms located in the wheelhouse and in the engine-room.

Sewage and Galley Waste Disposal Systems: Sewage retention tanks and galley waste grease traps are required for vessels not otherwise equipped with containers for ordures. At Montreal, or at Port Colborne, vessels without retention tanks intending to call at Chicago must put on board portable chemical toilets which are offered for rental by two chemical companies. Two to ten chemical toilets are required for each ship at $30.00 each per week rental charge.

Oily water separators: Vessels which cannot contain waste oil products are required to be equipped with oily water separators or other such equipment for the extraction of oil products or waste water discharge.

Rudder Angle Indicators: Vessels in excess of 260 ft. in overall length shall be equipped with rudder angle indicators located in the wheelhouse.

Gyro Compass: It is recommended that vessels be equipped with a gyro compass.

Radar Equipment: It is recommended that vessels be equipped with radar.

Vessels not fitted for the Seaway as prescribed above, will incur expenses for the rental, installation and removal of compulsory fittings.

REGULATIONS: For additional information on regulations and procedures, Masters and Owners are urged to refer to the Seaway Handbook and Seaway Notices.

AUTHORITY: The St. Lawrence Seaway Authority.

Saudi Arabia

DAMMAM: 26.30 N. 50.12 E.

LOCATION: Situated on the East coast of Saudi Arabia, in the Arabian Gulf, is operated by the Saudi Government Railroad.

FLAG: In addition to the quarantine signals which are to be shown until pratique is granted, the Saudi Arabian Flag must be flown from vessel's foremast while in port of Dammam.

DOCUMENTS: In order to cope with Port, Customs and Agent's requirements, following documents should be airmailed to Agents prior to arrival of vessel at Dammam port:

12 copies of Cargo Manifest for each port of loading, all typed, stamped and signed.
2 copies of Freight Manifest.
3 copies of Hatch List.
3 copies of Stowage Plan.
1 copy of each non-negotiable Bill of Lading.
List of Dangerous Cargo on board, if any.

The particulars of the certificates required by the SOLAS regulations are entered in SGRRO Form No. 805 on the arrival of the vessel at the anchorage and the certificates are sighted after berthing.

PILOTAGE: Pilotage at Dammam Port is compulsory. Manoeuvring of vessels in the vicinity of pier or in anchorage will always be performed under supervision of a Dammam port Pilot.

The Dammam port Pilot will board vessels at anchor off approaches to port or when they are abeam of Dammam Beacon No. 2 (approximate position 26° 33′ N., 50° 11′ E.), and will then pilot vessels to anchorage or berth at pier.

ANCHORAGE: The approach anchorage area is situated South of parallel 26° 34′ 00″ N., and may be demarcated on the East by the 6 fathoms contour starting in proximity of Beacon No. 1 coming up to light buoy No. 3, and thereafter remaining West of line drawn from light buoy No. 3 to Beacon No. 6. On the West, the approach anchorage area extends within the 6 fathom contour, starting from Beacon No. 2 up to Beacon No. 4 and thence remaining North of line joining Beacon No. 4 and Beacon No. 6.

The vessels anchored in approach anchorage are required to keep fairway clear for access to and from port.

WEATHER: The peninsula of Saudi Arabia is almost of an equatorial climate. In winter the temperature is rather low but in summertime it rises over 50 degrees Centigrade. Rain is generally scarce. During major part of year, but especially during summer, the relative humidity is high. From July to September it frequently exceeds 85%.

Winds in this area are not predictable for more than a few hours. They vary in strength and direction, although prevailing winds are from North-west.

Visibility is generally good. There are times, however, when it is reduced to a very short distance due to fog or dust held in suspension in the atmosphere.

TIDE: The Diurnal tide rise at port of Damman is approximately 8 ft. at springs, and 5 ft. at neaps. Currents generally drift with tide, and run in or out of the port in counter clockwise rotation. Depending on weather conditions and other contributing factors, these currents are slow moving at all times, speed reaching maximum of three knots.

MAX. SIZE: See "Berthing".

HEALTH: In accordance with international practice, quarantine signals must be displayed by all vessels approaching Dammam port. These signals shall be displayed continuously until pratique granted. Such signals are the following: Sunrise to sunset – Quarantine Flag; Sunset to sunrise – Signal Lights – red over white.

The Port Doctor or Quarantine Officer will board the vessel either at anchorage or at pier. Documents required for immediate inspection are the following:

Maritime International Health Certificate (from the last port).
Valid Deratisation or Deratisation Exemption Certificate.
Crew List (3 copies).
Passenger List, if any.
Valid Smallpox Vaccination Certificates (of a date not exceeding three years) for all crew members and passengers.
Valid Cholera Certificates (of a date not exceeding six months) for all crew members and passengers.
Valid Yellow Fever Certificates for all crew members and passengers.
Certificates of inoculation against any communicable diseases prevailing at the ports of departure.
Ship's Log Books.

RADIO: (Also see "Agents"). Vessels bound to Dammam are required to notify their Agents 72 hours steaming-time prior to arrival, giving ETA in GMT, total weight tons of cargo for discharge at Dammam, number of workable hatches, maximum arrival draft and overall length of the ship. ETA notice should then be confirmed 48 hours and again 24 hours before arrival.

Vessels' messages to Agents can be given by contacting via wireless Aramco Radio Station "HZY" on 500 kc/s, which station provides free of charges service.

TUGS: A number of tug-boats is available to assist vessels in mooring or unmooring. Whenever such assistance is provided, Master and crew of tug shall, in the performance of such services as they render to the vessel, become and be deemed to be the Agents and servants of the Owners and/or charterers of the vessel assisted.

BERTHING: There are three piers at Dammam commonly referred to as North Pier, South Pier and Small Craft Pier.

(a) *North Pier:* Consists of steel and wood structure connected with mainland by means of 4·86 miles of railroad causeway with 1·06 km. railway track laid on the breakwater to feed the North Pier. The use of the trestle as a means of access to the North Pier has been discontinued since the completion of the breakwater. The main wharf, located at outer end, is 744 ft. long and 86 ft. wide. The heading of main wharf is 346° true. It provides berths for two ocean-going vessels, one on each side, with approx. 36 ft. of water at LW.

(b) *South Pier:* This is a new built steel and cement pier consisting of a man-made island built halfway between the North Pier terminal described above, and small craft pier. This new pier is 2,000 ft. long and 500 ft. wide. It provides berths for four vessels in a depth of water of 29 ft. 6 in. at low tide. A breakwater, 1·4 km. long, has already been completed.

The South Pier has lately been lengthened with the construction of a new berth, mainly designed to accommodate vessels loading fertiliser in bags by the use of ship loaders and conveyor belts, or by vessels discharging with their own gear.

(c) *Small Craft Pier.* It is a steel and cement pier, located 575 ft. from North end of causeway, and protruding 342 ft. into the bay, Eastward. It is mainly designed for accommodating small coasters, barges, dhows, tugs, etc. This pier is 61·6 ft. wide and equipped with cranes for handling cargo to/from barges or crafts. The depth of water is about 11 ft. Two large storehouses are also available.

(d) *Other port facilities (tugs – lighters – railway cars).* 4 tug boats, 12 lighters of from 150 to 250 tons capacity each, 10 reefer railroad cars of 1300 cu. ft. capacity, 1 railroad flat car of 80 tons capacity, A large stock of railroad cars of any type of 45 tons capacity each.

No floating cranes, no water or oil barges, no repairs facilities, no transhipment facilities.

(e) *Priority.* Passenger ships carrying more than 25 passengers are given priority. Other ships berthed on first-come first-served basis.

(f) *Registration.* Incoming vessels are assigned berth on a "first come, first served" basis. Every possible effort is made to berth vessels immediately upon arrival. If no berth available, vessels will be listed "in turn" in accordance with time of arrival at prescribed anchorage area (South of Beacon No. 2), pratique granted and presentation of cargo documents to the Port Authorities.

In the event of long delay in berthing due to port congestion or otherwise, vessels once "in turn", may be allowed to take up registration and proceed for any other Gulf port for any intended purpose, and return thereafter to Dammam still keeping their position "in turn". In order, however, that a registered vessel may be still considered in turn, is necessary that she return to Dammam within the time limit intimated to the Master at time the ship was cleared out. Failure to return to Dammam within such time limit, will automatically result in loss of ship's turn and postponement to bottom of waiting list.

STEVEDORES:

Stevedoring operations at Damman are performed by two private firms. Charges are levied on weight/measurement basis, in accordance with current tariff.

A limited amount of stevedoring gear and equipment can be made available by Saudi Government Railroad on request of Master or Agents. A charge is levied for rental of this equipment.

MEDICAL: Masters may obtain medical attention for ship's personnel from port doctor who may in case of serious illness or injury recommend treatment to local hospitals. The port doctor ordinarily will treat minor illness or injuries on board ship.

Masters of vessels at sea may use services of Aramco Radio Station "HZY" without charge to obtain medical advice at any time.

WATER: Well water is obtainable at all Dammam piers at the rate of 4/5 tons per hour.

Both well water and distilled water, though in limited quantities, may be also obtainable in Ras Tanura but only in conjunction with and during bunkering operations. The maximum quantity of distilled water obtainable is 15 tons per vessel.

FUEL: There are no bunker facilities at Dammam. Vessels requiring bunkers have to call at nearby port of Ras Tanura where bunkers facilities are operated by Aramco. No bunkers supplied however unless a nomination is made available at Ras Tanura through Aramco New York. To obtain such nomination, Owners/Charterers/Operators are required to handle the necessary arrangements in advance of time directly with Aramco New York or one of its off-takers.

CUSTOMS: All materials to be either exported from or imported into Saudi Arabia are subject to examination by Customs Authorities. The importation of certain articles, such as the following, is strictly prohibited:

Alcoholic beverages, including beer and wines.
Explosives.
Firearms.
Implements of war of any kind, including antiques.
Religious matter not pertaining to the Moslem faith.
Playing cards and gambling devices.
Narcotics.

Trafficking in these items between ships or between ships and shore is strictly prohibited, regardless of whether they are alongside the piers or at anchor.

CONSULS: Except for the U.S. Consulate-General residing in Dhahran, no other foreign consulates are available.

DEVELOPMENTS: Dammam port extension project to provide new berths for five vessels, extending the South Pier 420 metres Northwards to join the breakwater. Depths at the new berths to be between 12 and 14 metres. Deepening of approach channel and part of the basin to 12 metres in hand. Project scheduled for completion about 1976.

REPAIRS: Relatively limited repair service is available from local

business concerns and replacement parts are practically unavailable.

Deep-sea divers, operating from modern and well-equipped diving boats, are available at Dammam.

A Lloyds representative is available in Dammam.

AIRPORT: Very good airline facilities available. Daily departures for any part of the world.

TIME: GMT plus 3 hours all year round.

POLICE/AMBULANCE/FIRE: Ambulance 3182; SGRR Police 3771; SGRR Fire House 2211.

SHORE LEAVE: Ship's personnel and passengers are not permitted ashore for any purpose whatsoever until pratique has been granted. All shore leave is contingent upon compliance with quarantine regulations and subject to proper permission granted by Immigration Authorities. The necessary arrangements can be made by ship's Agent on Master's request. While in port, the vessel's personnel is under jurisdiction of the Law of Saudi Arabia.

GENERAL:

(*a*) *General Port Charges.* Vessels arriving at Dammam port are required to pay for: Pilotage in and out; Handling of mooring lines; Harbour dues; Quarantine fees; Dockage charges; Stevedoring; Tallying; Car and launch hire; Supplies and services as otherwise required; Agency fee and commission.

(*b*) *Port working hours.* Work at Dammam port is performed 6 days a week, from Saturdays to Thursdays, Friday being the regular week holiday. Two shifts are normally worked each day: from 0700 to 1500 and from 1500 to 2300. On request, overtime work can be arranged from 2300 to 0700 hours.

(*c*) *Dangerous cargo.* Vessels carrying explosives, ammunition, highly inflammable liquids and/or any other cargo of dangerous natures, will not be berthed alongside piers. All discharging operations will have to be performed in anchorage into barges as available and weather permitting. Only daylight work is permitted.

(*d*) *Lubricating oils.* Lubricating oils are available in limited drum quantities if ordered in advance by letter or cable through Agent.

(*e*) *Provisions.* A large variety of frozen, fresh and canned goods is available in the local market. Supplies can be arranged through recommended ship chandlers upon Master's request.

(*f*) *Laundry.* Modern washing and dry cleaning facilities are available at Dammam and Al-Khobar. Deliveries can be arranged within 24 hours.

AGENT: Gulf Agency Co. (Saudi Arabia) Ltd., Pob Airport Post Office, Dhahran, Saudi Arabia, Cables "Confidence Dammam". Vessels equipped with VHF, can communicate, when within range, with Agent on stand-by Channel 16 by calling "Confidence Dammam". Voice contacts may be also established via VHF, on the same channel as above, with Ras Tanura office, by calling "Confidence Ras Tanura". Once contact is established on Channel 16, communication will continue by switching on available working channels as directed.

Telephone: Normal working hours 2441, 23425, 23426 and 23427; After office hours 22861 and 41742.

JEDDAH: 21.28 N. 39.11 E.

PORT LIMITS: The port limits are contained within the parallels extending from shore seaward to 39° 6′ E. Long. between 21° 27′ and 21° 31′ N. Lats.

DESCRIPTION: The port stands to South-west of the city, on island called Jazirat al Mafsaka approximately 600 acres in area. The island is connected with mainland by a causeway.

The harbour is sheltered by several long lines of coral reefs and islands. The access is through two narrow channels.

PORT LIMITS: The limits encompass all waters, islands, channels, passages, piers, wharves, jetties, landing-places, sheds, warehouses workshops, basins, slipways and bridges, etc., contained within the parallels extending from shore seaward to 39° 06′ East longitude and between 21° 27′ and 21° 31′ North latitude including Qaham and the approach beacons, Mismari and Shib el Kabir.

CLIMATE: Tropical desert, hot climate. Humidity very high during summer months, but winter is mild and pleasant. Rainfall is negligible and does not exceed more than 3 to 4 inches per annum.

General direction of wind is mostly North-westerly, mild in intensity. Winds of gale force occur very rarely. The effect of high winds when they do occur in the harbour is not felt due to barrier reefs breaking force of waves. Waves inside harbour not generally above 1 to 2 metres, although waves up to 6 metres may sometimes occur beyond outer reef.

Tides of Indian Ocean do not affect Red Sea due to construction of the Bab-el-Mandab. There is, however, a local semi-diurnal tidal oscillatory motion of the sea along its length, giving a high tide at one end and at the same time a low tide at the other. Jeddah Port is hardly affected by these tides and there are almost no currents produced by these movements.

The variation between the summer and winter water levels is approximately 50/60 cm. only.

Visibility in the port area is generally good, occasionally obstruction to vision occurs due to dust, but such occurrences are seldom of long duration.

DOCUMENTS:

2 Crew Lists.
2 Passenger Lists.
Last Port Clearance.
Vaccination Certificates.
Stores List.

PILOTAGE: Necessary and compulsory. Pilot boards 1½ miles N.W. of Kaham Beacon for vessels coming from the North, and 2 miles S.W. for vessels coming from the South.

RESTRICTIONS: No navigational aids marking approaches to port, and therefore there is no night navigation. A lighthouse and lighted marker buoys are scheduled for positioning in the development of the new port.

ANCHORAGE: If vessel arrives pilot station too late for entry, anchorage may be made ½ mile North or South of the Kaham Beacon.

Arriving vessels will remain at Outer anchorage until turn for berthing, or proceeding into Inner Anchorage for discharge into lighters.

HEALTH: (*a*) *Cholera:* All arrivals from infected or endemic areas are required to possess a certificate showing two injections made not less than 7 days and not more than 30 days before arrival. For re-vaccination carried out within six months of a recorded vaccination or re-vaccination, a single injection renders the certificate valid for a further six months.

In addition, arrivals must submit a certificate dated not more than 7 days before their departure recording the negative results of stool culture. This certificate must be delivered by a licensed laboratory and attested by the Health Authority.

(*b*) *Smallpox:* All arrivals are required to submit a valid vaccination certificate in accordance with international sanitary regulations.

(*c*) *Yellow Fever:* All arrivals from infected or endemic areas are required to submit a valid vaccination certificate in accordance with International Sanitary Regulations.

(*d*) *Mecca:* All Muslim crew members who wish to visit Mecca and Medina should have in their possession two recent passport size photos. These should bear the crew member's name and C.D.C. number to enable Agent to obtain permission for the pilgrimage. Crew members must also have in their possession the above-mentioned medical certificates, otherwise permission may not be granted to them to visit Mecca and Medina.

RADIO: Jeddah Radio – HZH 500 kc/s.

TUGS: Four tugs, up to 1200 h.p. available for berthing and unberthing.

BERTHING: 1. Berthing Priority. Generally priority in order of arrival, but also following priorities:

(*a*) Vessels in distress.
(*b*) Vessels carrying pilgrims and passengers.
(*c*) Vessels carrying army stores and equipment.
(*d*) Vessels instructed to have a special priority by the Ministry of Communications.
(*e*) Vessels carrying livestock.
(*f*) Vessels carrying explosives and other dangerous goods.
(*g*) Vessels carrying freezer cargo, fruit, vegetables and perishable goods, foodgrains and flour.
(*h*) Vessels carrying less than 100 tons of cargo.
(*i*) Regular mail vessels.

2. New berths. Ten new berths at the new pier, which have a maximum depth of 35 ft. These berths are in addition to two available at the old pier.

3. Old berths. The pier is a projecting jetty 170 metres long and 30 metres wide connected with island by approach road on trestles 390 metres long and 8 metres wide. The berth is capable of taking two vessels up to 30 ft. draft. There is a derrick of 50 tons capacity on Western edge of pier.

STEVEDORES: *Working Hours:* The port works on three shifts:

From 0700 to 1500 hours
From 1500 to 0000 hours
From 0000 to 0600 hours
} Optional shifts

In the first and second shifts there is a break of 1 hour and 30 minutes in each shift.

LIGHTERAGE: About 50 port lighters available for discharge at Inner Anchorage, with individual capacities up to about 400 tons. Total capacity about 10,000 tons. Privately owned lighters also available.

FRESH WATER: (*a*) New berths: there is a 9 in. fresh-water pipe available at the new berths.

(*b*) Old berths: Fresh water can be supplied to ships at the pier by hydrants located at these berths.

FUEL: Privately owned bulk storage for petroleum and fuel oil is available, which is connected with a pipeline to the oil mooring in the port. Fuel oil can also be supplied to vessels by barges.

FIRE PRECAUTIONS: A fire-float is available.

DEVELOPMENTS: The entire harbour has been dredged to 11·0 metres. The entrance to the harbour has been widened and made easier for vessels to enter and leave at any time of day and night. Night navigation has not, however, been introduced so far, but it is under active consideration and it is hoped that in the very near future it will be introduced.

CUSTOMS: All alcoholic beverages will be placed under seal.

CARGO GEAR: No cranes available at either Old or New Piers. Cranes are to be installed at New Pier under development programme.

Discharging gear is obtainable on a hire-basis from ashore, but is expensive. Bagged cargo requires canvas slings, and six slings are needed for each gang.

Vessels carrying explosives for discharge Jeddah or any other port are not permitted to berth inside harbour. Such vessels will be discharged at the Outer Anchorage and must be capable of discharging all cargo with ship's gear.

AUTHORITY: Saudi Government Railroad Organisation.

AGENT: Gulf Agency Company (Saudi Arabia) Limited, King Abdul Aziz Street, POB 2038, Jeddah, Saudi Arabia. Tel. 2493. Cables: "Gulf Agency Jeddah".

Copies of correspondence to the Jeddah Office should be sent to Ras Tanura Office.

RAS-AL-KHAFJI: 28.25 N. 48.32 E.

OPERATORS: The Arabian Oil Co. Ltd. (Japan).

LOCATION: Port located within Company's Concession Area which covers offshore area of Partioned Zone between Kingdom of Saudi Arabia and State of Kuwait. Onshore base situated in approximately 28° 25′ North, 43° 31′ East, and within a distance of 6 miles (10 km) offshore, the Company has laid two conventional sea-berths and a single-buoy-mooring for loading tankers and also an anchorage area for cargo ships working cargo. Outside this distance is an anchorage area for tankers.

In addition to exporting crude oil, fuel oil and naptha are also exported.

COURTESY FLAG: As Ras-al-Khafji is in Partitioned Zone where there is dual government by Saudi Arabia and Kuwait, all vessels calling at this port are required to fly national flag of Saudi Arabia while in port limits.

APPROACHES: Approaches to Ras-al-Khafji marked on appropriate U.S.H.O. and British Admiralty Charts, and are deep enough for majority of vessels using the port to proceed with normal caution using the buoys as centreline markers. A single patch with a depth of 56 ft. (17·07 metres) exists North of courseline between Buoys Nos. 2 and 3, and this necessitates caution on the part of large tankers leaving Ras-al-Khafji in loaded condition.

For tankers arriving Ras-al-Khafji without necessary charts, the full information will be given by telegram if request is sent to "Arabiaoil Kuwait" (via "9KK", Kuwait Radio Station) a few days before arrival. Alternatively, if vessel has VHF, the buoy positions will be given to them upon request to "Ras-al-Khafji" as the vessel approaches, but prior notice of requiring this service should be given in vessel's arrival message.

NAVIGATIONAL AIDS: All geographical positions given although approximately correct, are intended for reference purposes only as certain differences are known to exist between these positions and those shown on the U.S.H.O. and British Admiralty Charts of the area.

Conspicuous Marks. Flare stacks in offshore field and ashore normally visible at a great distance, but may occasionally be extinguished.

No. 1 Flare Latitude	28° 28.3′ North Longitude	48° 57.0′ East
No. 2 Flare	28° 27.0′	48° 54.8′
No. 3 Flare	28° 29.8′	48° 56.0′
No. 4 Flare	28° 30.3′	48° 58.0′
Onshore Flare	28° 24.5′	48° 32.4′

DOCUMENTS: (*a*) Clearance. Master should submit following documents to Kuwait Government through Agent (2 copies each):

Maritime Declaration of Health.
Health Condition of Crew.
Details of Air-conditioning.
Crew List.
Vaccination List.
Passenger List (if any).

Note Forms 1–3 are supplied by the Agent.

(*b*) Cargo. All cargo documents and shore figures are usually prepared on shore, and this takes about 1.5 hours with a futher 30 minutes before the documents arrive at the ship. Ship's Statement of Cargo is, however, prepared on board. Wherever necessary Mooring-Master will sign documents on behalf of the Company.

Following cargo documents are to be completed after loading:

Notice of Readiness.
Bill of Lading.
Time Sheet.
Ship's Statement of Cargo*.
Certificate of Delivery‡.

Note: *Ship's Statement of Cargo includes the items for "clean ballast declaration" and "dry inspection" altogether in one form.

‡ Certificate of Delivery should be handed to ship's Agent at port of discharge for certification by Customs Authorities. Agent should then return Certificates to the Company as soon as possible. Non-compliance with this requirement could involve vessel in serious difficulty. Masters therefore advised to ensure that their Agents at each discharging port return the Certificates at the earliest possible moment.

All certificates are to be sent direct to Arabian Oil Company and the Agents should be notified accordingly. It is understood that Arabian Oil Co. do not require legalised certificates and only certificates attested by the Customs at discharging ports will suffice.

EARLY DEPARTURE DOCUMENTATION: This documentation system aims to assist ships to depart early from this port after they complete loading by saving time awaiting documents. For this reason, relevant tanker documents will be signed previously by ship's Master or signed by their Agents at this port, depending on Master's choice on the request sheet. Completed tanker documents, therefore, will not be despatched to ships after completion of loading.

It must be noted that this system is not compulsory at this port, but it is at Master's option on condition that ships can communicate on Harbour Service VHF Radio or Marine Communication Band 2150 mc. to receive shore figures and time after departure.

READINESS: Master should present Notice of Readiness to load to Company's Mooring Master who will sign it on behalf of the Company. The Notice should be tendered as the time of the vessel's arrival at tanker anchorage area, which is, in principle, understood to be either time of dropping anchor in anchorage, or if vessel does not anchor, the time that Mooring Master boards to commence berthing.

MOORING MASTER: Compulsory for berthing and unberthing at Ras-al-Khafji, and Company's Mooring Masters will board vessels at anchorage area to take them to allocated berths. After berthing, Mooring Master will remain on board vessel until it is unberthed and cargo documents are completed. During this time he will act as the Company's representative in charge of all operations and shore personnel where the Company is concerned.

Notwithstanding presence of Company's Mooring Master on board, the Master of the vessel remains responsible for his vessel at all times and in all respects. In event of any emergency, however, the necessary steps should be taken by joint action between the Master and the Mooring Master.

The Master of each vessel shall give to Mooring Master all information necessary for safe handling and safe operation of vessel while it is in berth.

BALLAST: All vessels required to have on board sufficient clean ballast to give safe draft for manoeuvring purposes. Vessel arriving with too little ballast may be required to increase quantity, should Mooring Master feel that it would not be safe to berth vessel in its arrived condition. Recommended arrival condition is with propeller completely or almost completely immersed and vessel trimmed not more than 10 ft. (3.05 metres) by stern.

In good weather conditions, Mooring Masters will normally permit vessels to start deballasting as they approach the berth in order to save ship's time.

BOARDING: All vessels required to provide safe means of access for personnel boarding and leaving and should have accommodation ladder rigged on port side. In the case of vessels assigned to Berth No. 3, an accommodation ladder which leads down forwards is liable to be blocked by floating hoses, and in such cases the ladder should be rigged on starboard side. A ladder aft is always suitable on the port side.

For the benefit of people boarding at the anchorage area, vessels should provide a safe means of access on the lee side.

ANCHORAGE: (*a*) *Tankers:* Within 1 mile radius of position 28° 29′ .5 N. 48° 39′ .0 E.

Two buoys have been established to indicate the South and West boundaries of the new tanker anchorage at:

Buoy No. 10: 28° 29.5′ N. 48° 38.7′ E. Colour RED. Light characteristic Fl. (R) every six seconds.

Buoy No. 11: 28° 28.3′ N. 38° 39.2′ E. Colour BLACK. Light characteristic Fl. (W) every three seconds.

(*b*) Dry-cargo. Anchorage for dry-cargo ships located about 4 miles to West of tanker anchorage, and is centred in position 28° 26.8′ North 48° 33.4′ East at which position a red light-buoy showing a flashing red light every 3 seconds has been laid. Cargo ships should anchor within a half mile radius of this buoy, where depths are between 36 ft. (10.97 metres) to 50 ft. (15.24 metres) in good holding ground of clayey mud.

(*c*) Prohibited Area. An area bounded by straight lines joining following points is prohibited to anchoring and fishing due to presence of well-heads, Flow Stations, Gathering Station, etc. and numerous pipelines and power transmission cables on the sea bed. Additionally, the area bounded by five light-buoys is prohibited to navigation by all vessels or craft except those operating on direct instructions from the Company.

	Latitude	*Longitude*

(*l*)	28° 23′ 13″	48° 31′ 48″	

HEALTH: No radio pratique will be given. Vessels must be cleared by quarantine office on arrival. (In the past, tankers were given free pratique at the request of Agents and on the production of the copy of telegrams from vessels confirming that all crew members possess valid cholera and vaccination certificates and that there is no sickness on board. This procedure has changed recently and all vessels are boarded by quarantine officer and pratique is given only after checking the documents concerned.)

RADIO: (Also see "Approaches"). Advise ETA Khafji at least 4 days, and again 1 day, before arrival through normal radio services. As an alternative to the route through Kuwait Radio Station (call sign: 9KK), vessels may send their first message through Singapore, Bombay or Bahrain Radios. Confirmation of ETA should be made a few hours before arrival by calling "Ras-al-Khafji" on Channel 16 VHF. All cables should be addressed to "Arabiaoil Kuwait".

The first message should be sent according to following form, but any items which are the same as a recent previous voyage to this port may be omitted.

(1) ETA Ras-al-Khafji
(2) Last port
(3) Deballasting time
(4) Quantity and type of cargo and bunkers required
(5) Maximum loading rate
(6) Diameter of cargo and bunker connections
(7) Distance from manifold to ship's side
(8) Derrick capacity
(9) Whether Ras-al-Khafji is first or second port (when taking part cargo)

Note: Item (9) should only be answered in cases where vessels are

taking part cargo at Ras-al-Khafji. If second port, the first loading port should be mentioned.

Communications between shore and loading berth mainly sent and received by means of FM wireless telephone, which is brought on board tankers at time of arrival.

VHF: Short-range communication can be made with Terminal Office by calling "Ras-al-Khafji" on VHF Channel 16. Working channels are 9, 11, 12, 13 and 14. Vessels should call Ras-al-Khafji several hours before arrival to confirm ETA and receive berthing instructions. After anchoring they should advise their anchoring time and then maintain watch on Channel 16 until the Mooring-Master boards. Terminal VHF normally operative between 0400–1400 GMT, and is used outside these hours by special arrangements with individual ships.

TUGS: The undermentioned tug-boats are available for mooring and unmooring purposes: "Chiyoda Maru No. 22 200 GRT, 1,320 BHP; "Chiyoda Maru No. 3" 175 GRT, 1,320 BHP; "Chiyoda Maru No. 4" 236 GRT, 2,200 BHP.

One of these tugs stands by near the berths as long as any vessel remains moored. Two mooring boats are used for handling ropes and hoses.

BERTHING: 1. Personnel. After vessel berthed, Company's Loading Operator and Mooring Crew will board. Loading Operators work shifts and there will always be one on board vessel while in berth. This man acts as assistant to Mooring-Master, and should be treated as such at all times. In particular he will carry out Safety Inspections and handle communications between ship and shore, particularly those communications regarding cargo.

Ship's personnel requested to give Loading Operator all required information and necessary assistance to allow him to do his job properly. Any disputes arising from his actions should be referred to Mooring-Master for final decision.

Mooring Crew will connect and disconnect hoses as required, but may at any time be transferred to another vessel for the same purpose. While they remain on board, vessels are requested to provide them with following: use of Smoking Room, toilet and washing facilities; hot and cold drinking water; utensils for eating and drinking (it is not normally necessary to supply food).

2. Description of berths.

(a) *Sea-Berth No. 1*

Position: 28° 26′ 10″ North, 48° 34′ 57″ East.

Depth: 53 ft. (16.15 metres) at Indian Spring Low Water.

Permitted draft: 47 ft. (14.33 metres) maximum.

Type of berth: Conventional four-buoy system where vessel moors to two anchors and one buoy forward and to three buoys aft.

Length: Designed for tankers of 800 ft. (245 metres) length but can be used by tankers of any size, although tankers of less than 650 ft. (200 metres) overall length sometimes experience difficulty in mooring if their lines are less than a full 720 ft. (220 metres).

Submarine Pipelines and Hoses: From the ex-Loading Dock one 26 in. crude oil line and one 18 in. fuel oil line have been laid to the manifold position. Two 10 in. rubber hoses for crude oil and one 12 in. rubber hose for fuel oils are connected to ship's manifold. These hoses approximately 225 ft. (69 metres) long and maximum lifting weight of the two crude oil hoses together is 4.5–5 tons. For bunkering purposes one section of 6 in. hose is attached to the end of the 12 in. fuel oil hose.

(b) Sea-Berth No. 2

Position: 28° 25′ 55″ North, 48° 35′ 28″ East.

Depth: 56 ft. (17.07 metres) at Indian Spring Low Water.

Permitted draft: 50 ft. (15.24 metres) maximum.

Type of berth: As Berth No. 1.

Length of berth: As Berth No. 1.

Submarine Pipelines and Hoses: From the ex-Loading Dock one 26 in. crude oil line, one 10 in. bunker line and one 4 in. marine diesel line have been laid to the manifold position. Two 10 in. rubber hoses for crude oil, one 6 in. rubber hose for bunkers and one 4 in. rubber hose for marine diesel oil are connected to ship's manifold. All these hoses approximately 225 ft. (69 metres) in length, and the maximum lifting weight of two crude oil hoses together is 4.5–5 tons.

(c) Loading Rates at Berths No. 1 and No. 2

Crude oil rate is 30,000 bbls/hr or 4,000 tons/hr.

Fuel oil loading rate at Berth No. 1 is 7,000 bbls/hr or 1,000 tons/hr.

(d) Preparation on Board before Berthing at Berths No. 1 and No. 2

Vessels should have ready:

(i) Both anchors.

(ii) Three ropes forward and nine ropes aft.
Some wires are acceptable in place of equivalent number of ropes. No shore wires used from buoys to ship. All ropes and wires should be in good condition and preferably without splices.

(iii) Port derrick rigged for a minimum lift of 5 tons, using a wire runner and a hook.

(iv) Two 10 in. ASA 150 hose connections for crude oil, and one 12 in. ASA 150 for fuel oil cargo (at Berth No. 1 only), at the ship's port side manifold.
If ASA 150 is not available, the Company should be advised before arrival.

(e) Mooring and Unmooring at Berths No. 1 and No. 2

On approaching berth a ship's line is passed to one tug from centre fairlead aft. This line should be of good strength and well made fast on board.

When in position off berth, starboard anchor is let go and slacked away easily to about 9 or 10 shackles on deck. Port anchor is then let go and paid out easily as vessel swings round into berth using tugs and engines as required. At same time, starboard anchor is hove-in to about 6 or 7 shackles on deck and then made ready for slacking away again.

As vessel backs down berth the anchors are slacked away as necessary, and ropes sent to forward (No. 4) buoy. When stern passes close to starboard quarter (No. 1) buoy, ropes are sent away to this buoy, hove in tight and put on bitts ready for slacking if necessary. Ropes then run to port quarter (No. 3) buoy, hove tight, and lateral position in berth adjusted between port and starboard quarter buoys. Lastly, ropes are run to the stern (No. 2) buoy and tug line also passed to this buoy. The fore-and-aft position is then adjusted between the anchors and the sternlines. A second tug is used to assist in lateral positioning of the vessel, and two mooring boats are used for running lines to buoys, normally taking two ropes at a time.

In wintertime three ropes are used to each buoy, but in summer two of these may be dispensed with at Mooring-Master's discretion.

When properly positioned in berth, distance from ship's side to manifold marker buoy should be about 50–66 ft. (15–20 metres).

When hose disconnection completed, vessel unmoors by letting go all lines on buoys No. 3 and No. 4, followed by those on buoy No. 2 and lastly those on buoy No. 1. Vessel then heaves both anchors as necessary until they are up and clear, and vessel can leave berth.

Tugs used as required to keep vessel away from manifold marker and mooring buoys.

Mooring-Master may vary this procedure according to prevailing weather.

(f) Hose Connection and Disconnection at Berths No. 1 and No. 2

After completion of mooring, mooring boat will pull hose marker buoys to ship, and connect to ship's port derrick runner. The two crude oil hoses are lifted together from seabed by ship's derrick, and connected directly to manifold by Company's Crew.

Fuel oil hose at Berth No. 1 is lifted separately and connected in similar manner.

Time taken for hose connection about 1–1.5 hours depending on number of hoses connected. Hose disconnection takes about 1 hour, and is done in reverse manner to connection.

(g) Loading Restriction at Berths No. 1 and No. 2

Due to there being only one cargo pipeline between ex-Loading Dock and the shore, it is not possible to load vessels in Berths No. 1 and No. 2 simultaneously. Therefore, when these berths both occupied, one vessel will be loading while the other is deballasting; the latter arranging to finish ballast about 1 hour before the other vessel finishes cargo.

(h) General Description of Berth No. 3

Position: 28° 27′ 06″ North, 40° 36′ 28″ East.

Depth: 62–64 ft. (18.90–19.51 metres), but 59 ft. (17.98 metres) over pipelines, at Indian Spring Low Water.

Permitted draft: Normally 54 ft. (16.46 metres), but 56 ft. (17.07 metres) permissible using rise of tide.

Type of berth: Single-buoy-mooring system consisting of a buoy 30 ft. (9.14 metres) in diameter, moored to eight pendant legs of 3.5 in. high strength chain shackled to anchor piles at a radius of 575 ft. (175 metres), and having a rotating deck carrying pipeline and mooring connections.

Moorings: Attached to mooring connections on the buoy are two 12 in. nylon ropes (97 mm. dia., breaking strain 150 tons). These ropes are 120 ft. (37 metres) long, and have at their free end a length of stud link chain which includes a "sister-plate" for receiving the shackles used on deck of tanker. From outer end of this chain is connected a 10 in. polypropylene "pick-up" rope about 180 ft. (55 metres) in length. Rope supported by "doughnut" floats, and chain hung by large plastic buoys 5 ft. in diameter, coloured red and green.

Submarine Pipelines and hoses: One 36 in. crude oil line and two 12 in. fuel oil lines have been laid approximately 30,000 ft. (9 km.) from shore to position close under buoy. From underwater manifold the crude oil goes to the buoy through 20 in. underwater hose; fuel oil lines joined at manifold and fuel oil led to buoy through one 10 in. submarine hose. From deck of buoy 20 in. crude oil hose and 10 in. fuel oil hose are supported by floats, and have a length of 660 ft. (201 metres) to a hose raft, at which position the 20 in. hose is divided into three strings of 12 in. floating hose. These, together with the 10 in. fuel oil hose, extended for a further 120 ft. (37 metres) making a total length of 780 ft. (238 metres) including the raft. At their free end the hoses are paired and connected to two large plastic buoys each 4 ft. in diameter.

Loading Rate: Maximum loading rate of crude oil is 45,000 bbls/hr or 6,200 tons/hr. The fuel oil loading rate is 5,000 bbls/hr or 700 tons/hr.

(i) Preparation on Board before Berthing at Berth No. 3

Before arriving at anchorage, vessels assigned to Berth No. 3 should have ready:

(a) Two mooring ropes forward, together with rope stoppers, and also one or two steel crowbars.

(b) Port derrick rigged for 10 tons, or maximum lift if 7–10 tons.

(c) Three 12 in ASA 150 hose connections for crude oil, and one 10 in ASA 150 for fuel oil cargo, at the port side manifold. If ASA 150 is not available, the Company should be advised before arrival.

(j) Mooring at Berth No. 3

Mooring-Master will board from tug which carries mooring and hose connection materials. Vessels should have crew standing-by ready to receive these materials, and should maintain a lee until this is completed.

Mooring-Master will instruct crew in setting-up of forward moorings, where two 12 in. nylon ropes are made fast round port and starboard bitts with their attached shackles about 12 ft. (3.66 metres) inboard from the fairleads of panama leads as far forward as possible Size of fairlead opening should be at least 12 in. to prevent chain jamming in fairleads.

Approaching berth, tanker should lower a mooring rope from each bow as a messenger. Mooring boat will take port rope first, and connect it to the port "pick-up" rope which should then be hove-in while the boat returns to take the starboard rope for connection to its "pick-up" rope. These two ropes are then hove in until the chains come into the fairleads, and the shackles can be made fast in the "sister-plates". The "pick-up" ropes are then slacked back until the nylon ropes have the weight.

Usual time from sending away first line until all fast is about 20 minutes.

(*k*) Unmooring from Berth No. 3

After hose disconnection completed, the weight is taken on "pick-up" ropes, nylon ropes are unshackled, and as vessel backs off berth the "pick-up" ropes are slacked off and then dropped into the water. The tug will come alongside either before or after vessel backs off berth, whichever is convenient, and the nylon ropes and the two big shackles are passed to the tug. Unmooring time usually 10 minutes.

(*l*) Hose Connection and Disconnection at Berth No. 3

After completion of mooring, the mooring boat which has been holding the hoses clear during berthing, will bring the hoses to the ship and connect the derrick runner to the buoy having two 12 in. crude oil hoses. These are usually lifted aboard together and connected directly to ship's manifold, making any necessary separation of hoses as may be required according to lifting capacity of ship's derrick

The hoses are hung off on 2 in. diameter nylon ropes and lashed to the rail to prevent shock loads due to wave action being transmitted to manifold flanges.

After the first pair of hoses have been connected, the second buoy is lifted and the remaining crude oil hose and the fuel oil hose connected in similar manner to the first two hoses. If a vessel requires a loading rate of 5,000 tons/hr or less, only two crude oil hoses are connected. According to the number of hoses to be connected, connection takes 1.5–2.5 hours.

Hose disconnection is done in a reverse manner to connection, and takes about 1–1.5 hours.

LOADING: Loading crude cargo on top of oily residue is acceptable.

(*a*) Dry Inspection

Upon completion of deballasting the Mooring-Master will inspect the tanks.

If the tanks are not satisfactory, he may require further pumping until such time as they reach the required standard.

(*b*) Loading Operations

When ship is ready for loading, ship's officer must inform Loading Operator who will transmit necessary orders to Control Room on shore.

Loading is started by booster pump, and after everything has been checked and found satisfactory on board loading rate will be gradually increased by starting further booster pumps and then main pumps in sequence until the required loading rate is reached; provided always that required loading rate is within capacity of the pumps.

Loading rates can be varied at any time during loading upon 5–10 minutes notice to the Mooring-Master or Loading Operator on board.

In case of emergency, the immediate stopping of all loading can be accomplished.

When loading is completing, the rate is gradually reduced first by stopping the main pumps and latterly the booster pumps, one by one according to the request of the ship's officer. At the final stage of loading only booster pumps should be on the line, and the ship's officer should tell the Loading Operator to "Stand-by" at least 5–10 minutes before finishing cargo.

Shore pumps will stop about 15 seconds after their control buttons are pressed, but the oil will continue to flow for several minutes, depending on amount of time since main pumps were stopped.

All stops for cargo completion must be given by the ship, as "shore-stop" is *NOT* practised at this port.

(*c*) Overflows and Spillage

In the event of overflow or spillage during loading, cargo will be stopped immediately and will remain stopped until such time as Mooring-Master considers it safe to resume loading. This will normally be when all the overflowed oil has been cleared off the deck and there is no longer any unusual danger involved. It is ship's responsibility to clear oil away as soon as possible after occurence.

(*d*) Ullaging and Gauging

After loading completed, Mooring Master will witness final ullaging on board so that ship's figures can be calculated.

Onshore a group of Government and Company gaugers will take manual gauges of the shore tanks before and after loading, and from these gauges the Bill of Lading figures will be calculated.

(*e*) Saybolt Inspection

The oil inspectors of E.W. Saybolt & Co., S.A., based in Mina Abdullah, Kuwait, are available at this port upon consignee's special request. They will carry out or witness gauging of the shore tanks, dry inspection and ullaging of the ship's tanks, calculation of shore and ship's figures, analysis of oils, etc., issuing the necessary certificates according to consignee's requirements.

STEVEDORES: Dry-cargo vessels calling Ras-al-Khafji to give at least 72 hours notice to Agents to arrange labourers. Stevedores will be arranged from Kuwait. Ship's gear used for discharging, which takes place at anchorage into barges.

MEDICAL: Company operates a clinic and a hospital at Ras-al-Khafji. Medical and dental treatment can be given in cases of emergency or serious illness or injury. Epidemic diseases or cases of serious injury or disease requiring operations, etc. are normally transferred to State hospitals in Kuwait. Company's doctor will not normally attend on board unless patient is incapable of attending clinic. Requests for medical attention should be given to ship's Agent as early as possible before arrival.

FRESH WATER: Not available except in cases of extreme emergency.

FUEL: (Also see "Berthing")

(*a*) Grades. Marine diesel oil (MDO), light bunker oil (LBO) and heavy bunker oil (HBO) are supplied. Each loading berth has pipeline which can deliver light and heavy bunker oils, but only berth No. 2 has marine diesel line. At Berths No. 1 and No. 3, marine diesel oil supplied from barge for which no extra charge made.

"Bunkering Information" booklet, which gives full details of bunkering services at this port, is available from the Company upon request.

(*b*) Bunker Nomination. Owners, Operators or Charterers should nominate their vessels' bunker requirements *to the Company's Head Office in Tokyo.*

Vessels requested confirm grade and quantity of bunkers required *direct to "Arabiaoil Kuwait"* (via "9KK") through normal radio services at least 4 days before arrival; or in cases where vessels receive instructions less than 4 days away, they should advise bunker requirements as soon as possible.

(*c*) Bunkering Operation, Bunkers normally supplied to vessels in berths while they are discharging ballast or loading crude oil. At Berths No. 1 and No. 3 MDO supply from a barge will be done usually before loading cargo.

Except in special circumstances when previously agreed, bunker supply is Stopped Onshore when requested quantity has been pumped according to shore tank gauging.

Berth	*Marine diesel oil*	*Light and heavy bunker oils*
No. 1	4″ 80 t/hr*	6″ 400/300 t/hr
No. 2	4″ 40	6″ 400/300
No. 3	4″ 80*	10″ 400/300

Note: (*a*) * Supply from a barge with 4″ rubber hose.

(*b*) In winter time the rates for light and heavy bunker oils decrease due to the low sea-water temperature increasing the viscosity of these oils.

Bunkering for Cargo Vessels

Bunker supply to cargo ships from a barge or a coastal tanker is available.

CUSTOMS: Upon arrival Master required submit to Customs a manifest of any cargo to be landed at Ras-al-Khafji and to sign a declaration that no intoxicating liquors or drugs will be landed. After loading completed, Customs will sign an Outward Manifest and issue Port Clearance. These will be handed to Master by Agent.

In normal circumstances Customs Officers do not board tankers, but board cargo ships and leave a Customs Guard on board throughout vessel's stay.

Import of following articles forbidden:

Alcoholic beverages.
Pornographic literature, photographs, pictures and films.
Explosives.
Fire arms or implements of war of any kind.
Religious matters not pertaining to the Moslem faith.
Playing cards and other gambling devices.

REPAIRS: Some minor repairs may be made on board using shore assistance in case of extreme emergency, but such repairs must be made only with prior permission of Company's Terminal Office should it be required to do them in berth. Preferably all repairs should be carried out at anchorage. In all cases when shore assistance is required Master should notify ship's Agent well in advance.

DRY DOCKS: None.

REPATRIATION: May be accomplished by making special arrangement through the ship's Agent, well in advance of vessels arrival.

Seamen arriving at Kuwait Airport to join vessels at Kuwait and Partitioned Zone ports can obtain transit visa at the Airport, if Agents arrange to submit necessary guarantee to Immigration Authorities confirming that they are in transit and joining vessels calling at Kuwait and/or Partitioned Zone. In order to meet crew at Airport and arrange transit visa, cables confirming their arrivals and flight numbers are to be sent to Agents to reach them at least 24 hours before the arrival of the crew.

Marine Superintendent of Owners, or Owners Representatives and businessmen visiting Kuwait must have valid visas. Such visas can be obtained from Kuwait Government's diplomatic missions abroad.

AIRPORT: Kuwait. Served by International Airlines.

TIME: GMT plus 3 hours throughout year.

TELEPHONES: No facilities for placing on board.

SERVICES: Swedish Welfare for Seamen, Lloyd's Surveyor, Butterworth Tank Cleaning Machines and Equipment and Underwater cleaning.

Provisions and deck stores are available from ship chandlers in Kuwait in limited kinds and quantities. Prices at Khafji may be a little more expensive than in Kuwait due to the transportation charges made. In all cases the ship's Agent should be advised of the requests at the earliest possible time before arrival.

SHORE LEAVE: Not normally permitted by Authorities except by arrangement through the ship's Agent.

AUTHORITY: *Arabian Oil Company Offices.* Head Office Chiyoda Denden Building, 1–6, Otemachi, Chiyoda-ku, Tokyo, Japan. Tel. (201) 6821. Central PO Vox 1679, Tokyo, Japan. Cable "Arabiaoil Tokyo" or Telex TK 2416 (Araboil).

Field Office (Partitioned Zone Office): Ras-al-Khafji, Saudi Arabia-Kuwait Zone, (There is no direct telephone connection between Field Office and the Kuwait telephone system.) Ras-al-Khafji, Partitioned Zone, Kuwait. Cable "Arabiaoil Kuwait".

AGENT: See "Kuwait".

RAS TANURA: 26.38 N. 50.10 E.

OPERATORS: Arabian American Oil Co. ("Aramco").

FLAG: Saudi Arabian flag must be flown from vessel's foremast while in port. Vessels should provide themselves with this flag before arrival but, if circumstances render this impossible, such flag may be purchased from the vessel's Agent. Saudi Arabian flag is properly displayed when writing appears on top and sword or swords on the bottom.

IMPORTANT FEATURES:

1. There are two piers and a Sea Island having a total of sixteen oil-loading berths. In addition, a small oil-loading pier is located on West side of Ras Tanura peninsula.
2. Aramco Harbour Pilots moor, unmoor and supervise movement of all vessels in vicinity of piers except coastal tankers loading at West Oil Pier. Normally no charge made for this service.
3. Safety rules strictly enforced. Receipt of instructions must be acknowledged before vessel will be berthed.
4. Aramco maintains radio station (call letters HZY) for exchange of messages with ships. All incoming tankers should establish early contact with this station order transmit ETA data, etc.
5. Vessels should arrive with minimum clean ballast water to enable manoeuvring under prevailing weather conditions. Masters urged to maintain radio contact with HZY or ship-to-shore communication by VHF voice radio order obtain latest weather information.
6. Consumption of alcoholic beverages prohibited within Kingdom of Saudi Arabia. Local officials carry out inspection to confirm that all alcoholic beverages under lock and key during vessel's stay. Vessels moored at loading piers or anchored in harbour considered to be in Kingdom of Saudi Arabia.
7. Display of quarantine signals on approach to Ras Tanura must be maintained until pratique is granted. The flag of Saudi Arabia must be flown throughout the vessel's stay in port. Ships cannot be berthed until the quarantine message has been received (see "Radio").
8. To permit more rapid ship turnaround, an "Early Departure Procedure" is available. This service provides for a quick departure of the vessel after loading, without necessity of waiting for delivery of documents at anchorage. This special service should be requested and arranged with Agent at earliest opportunity.

LOCATION: Aramco's shipping and refining facilities situated on Saudi Arabian coast of Arabian Gulf on peninsula known as Ras Tanura. The peninsula, which has a total length of 13 statute miles, has as Southern extremity a 5 mile-long sandspit with maximum width about 5 mile. Near its tip are Company's piers, shipping tanks, and terminal offices. Refinery and its storage tanks located about 5 miles to the North. There is a survey reference point located at Southern tip of peninsula, over which a beacon tower has been erected. Exact position of this beacon is Latitude 26° 37′ 25″ North, Longitude 50° 09′ 50″ East. All bearings are referenced to this point, which is officially known as Ra's at Tannurah. The name "Ra's-at-Tannura" (variously spelled) appears on most charts and publications.

Port of Ras Tanura is a roadstead and there are only open anchorage areas for oil tankers and other vessels. Some protection is afforded by land on the West and shoals to the North, East and South. These shoals tend to keep the sea down to such an extent that vessels do not ordinarily register heavy movement.

APPROACHES: The inner channel at Ras Tanura port has been buoyed for the safe navigation of deep-drafted outward bound vessels where marine navigation aids, in accordance with international standard, have been installed. The channel has a certified depth of 69 ft. at ISLW.

Ship lanes are now being established for vessels entering or leaving the port of Ras Tanura. Specially marked charts may be obtained from the Port Captain Aramco, Ras Tanura, Saudi Arabia; they are not for general navigation but show in colour the channel and its division into a lane for arriving vessels, a separation zone, and a lane for departing vessels. The lanes and separation zone begin at the Ras Tanura Approach Buoy – at this point both lanes and separation zone are each ¾ miles wide, and run approximately East to West. Vessels arriving should keep Northward of the Ras Tanura Approach Buoy, in order to enter the Northern lane, which is the one for arrival, and thereafter should keep to the starboard side while proceeding along the Ras Tanura Deepwater Departure Channel.

Separation Zone (arriving vessels):

(*a*) All arriving vessels should stay within the lane.
(*b*) From Approach Buoy or Entry Buoy to Buoy No. 4 the separation zone is ¾ mile.
(*c*) From Buoy No. 4 to Buoy No. 5 the separation zone is ½ mile.
(*d*) From Buoy No. 5 to Buoy No. 7 the separation zone decreases to nil.
(*e*) From Buoy No. 7 to Buoy No. 17 all arriving vessels are to keep to the West of Buoys, No. 7, 9, 11, 13, 15 and 17.

Separation Zone (Departing Vessels):

(*a*) All departing vessels should stay within the lane.
(*b*) From Buoy No. 17 to Buoy No. 5 all departing vessels are to keep to the East of Buoys No. 17, 15, 13, 11, 9, 7, and 5.
(*c*) The separation zone starts at Buoy No. 7 and increases to a width of ½ mile at Buoy No. 5.
(*d*) Buoy No. 4 to Buoy No. 5 the separation zone is ½ mile wide.
(*e*) From Buoy No. 4 to the Entry Buoy or Approach Buoy, the separation zone width is ¾ mile.

Special Notes:

(*a*) No deeply laden arriving vessel that is required to use the deep-water departure channel, due to draft, shall enter the departure channel without obtaining permission from the Aramco Port Captain's Officer. It may be necessary for a deeply laden vessel to go to anchor outside the recommended ship lanes until the channel is clear and permission given by the Port Captain or Senior Duty Harbour Pilot to proceed down the channel.
(*b*) Arriving vessels should endeavour to avoid getting into crossing situations that might require outward bound vessels to make an alteration of course. Such vessels may be extremely limited in their room to manoeuvre, due to their deep draft.
(*c*) Any departing vessel overtaking another vessel shall not overtake the vessel ahead until both vessels have passed Buoy No. 5.
(*d*) Any vessel equipped with VHF radio-telephone when transitting the Ras Tanura Channel, either arriving or departing, shall monitor Channel 16.
(*e*) No vessel may transit these channels unless it has at least 5 ft. keel clearance.

DOCUMENTS:

(*a*) Following documents required for immediate inspection by boarding officials:

Maritime International Declaration of Health. (1 copy from last loading port to be surrendered).
Valid Deratisation or Deratisation Exemption Certificate.
Crew List.
Passenger List.
Smallpox Vaccination Certificate, of a date not exceeding three years, for all passengers and crew members.
Certificates of Inoculation against any communicable diseases prevailing at the ports of departure.
A complete set of Log Books covering the period since the vessel's last call at Ras Tanura. In the case of a first visit, log books must cover the period from the date of a vessel's first sailing or from April 25, 1952, whichever date is most recent.

(*b*) "Early Departure Procedure." To permit more rapid ship turnaround, an "Early Departure Procedure" is available. This service provides for a quick departure of the vessel after loading, without the necessity of waiting for delivery of documents at anchorage. This special service should be required and arranged with Agent at ship's earliest opportunity. When vessel is ready to leave port, a Ministry of Health permit and port clearance will be given to Master by ship's Agent.

(*c*) Export Goods Manifest. Masters will receive from Agents, Export Goods Manifest forms covering each consignment of cargo loaded. A letter addressed to the consignee will accompany these forms. This letter provides detailed instructions as to requirements and disposition of the Export Goods Manifest forms. It is imperative that Master delivers these papers to consignee upon arrival at the discharge port(s).

(*d*) Discharge Certificates. According to local procedure, certificates showing details of cargo loaded at this port on any tanker, are airmailed by Agents to the receivers of cargo at the port of discharge along with a self-addressed envelope, and returned to the Arabian American Oil Company in Ras Tanura signed by the recipient Customs Authorities.

PILOTAGE:

(*a*) Channel Pilots. Approach channels well marked by lighted, radar-reflecting beacons and buoys. For these reasons, Channel Pilots not provided.

(*b*) Harbour Pilots. Harbour Pilots provided for assistance to Masters of vessels using the Port. Aramco Pilots are on duty continuously. If a berth is available and the ship's radioed quarantine message and notice of arrival and readiness have been received, an Aramco Harbour Pilot will board the incoming vessel while it is underway. The point of boarding will be South of beacon No. 15A and East of the Sea Island. Aramco Harbour Pilots will pilot vessels to berth at all piers. All manoeuvring of vessels in vicinity of or at the piers will be under supervision of an Aramco Harbour Pilot. VHF radio contact may be made between ships and the Port Control and the Pilot's Office at frequencies listed under "Radio".

ANCHORAGES: There is ample anchorage and manoeuvring area East of the peninsula. The anchorage area ranges in depth from 5 to 12 fathoms. Holding ground is only fair, as bottom is varied in character, it is recommended that anchored vessels lie to a long scope of chain whenever weather is unfavourable. Any vessel having anchored should immediately advise Aramco, via Radio HZY, following information: (*a*) Time of arrival in anchorage area (in GMT); (*b*) Approximate position in anchorage area in relation to North Pier; (*c*) Contact Ras Tanura Port Control Office by VHF Radio, Channel 14 or 16 if vessel is so equipped.

MAX. SIZE: Vessels up to 250,000 dwt. (part-cargo) have been handled. Departure channel 69 ft. ISLW – see "Approaches". Water depth at Sea Island berths is a minimum of 85 ft. at ISLW, but depth of water in departure channel and not depth of Sea Island berths limits the draft of vessels calling at Ras Tanura.

HEALTH: A modified Radio Pratique procedure is in use. Vessels supplying requested quarantine information can be berthed on

arrival and proceed with normal loading operations prior to arrival on board of quarantine officer. Vessels failing to supply information will be delayed at anchorage until cleared by quarantine officer. Extensive delay can be incurred by vessels failing to supply requested information promptly. Quarantine information (see "Radio") must be received prior to berthing. In accordance with international practice, quarantine signals must be displayed by all vessels when approaching Ras Tanura. These signals shall be displayed continuously until pratique granted. These signals are: Sunrise to sunset, quarantine flag. Sunset to sunrise, Signal lights, red over white.

Quarantine officer may board vessels awaiting berth in prescribed anchorage area; however, vessels proceeding directly to a berth at one of the piers will be boarded at the pier after being tied up. Pier personnel are normally allowed on board prior to arrival of quarantine official. Vessels at anchor awaiting berth should not rig an accommodation ladder, but instead should provide a safe pilot ladder in good repair, properly secured. At night, the pilot ladder must be adequately lighted.

RADIO:

(*a*) Station. Aramco owns and operates marine radio station call letters HZY, maintained for transacting company business with "in-or-outbound vessels" and is open 24 hours daily. Station HZY will also accept and forward messages concerning ship's agency matters to Agents. However, agency messages to Masters are not permitted. No charge for either incoming or outgoing messages. Marine transmitting antenna of HZY located at Latitude 26° 18′ 36″ North, Longitude 50° 07′ 12″ East.

Due to its inland location Masters strongly advised *not* to use this antenna for radio direction-finding purposes since inaccurate bearings will be obtained due to coastal refraction.

(*b*) Messages. All vessels must endeavour keep HZY fully advised regarding estimated times of arrival at Ras Tanura, as well as times of actual arrival and position in anchorage. It is required that vessels provide HZY with a minimum of three notices of ETA information at about 72, 48 and 24 hours "steaming time" from Ras Tanura. Shorter notices may result in berthing delay. If loading part cargoes at other Arabian Gulf ports prevents a vessel from furnishing an accurate ETA, steps should be taken to dispatch a message either direct or through ship's Agent giving best estimate possible at the time. This message should then be followed by an accurate ETA immediately upon departure for Ras Tanura. Failure to give at least 24 hours notice will result in an addition to allowable laytime in the event a demurrage claims is filed against Aramco.

Upon first contact with an inbound tanker, HZY will transmit the following two standard messages of 180, and 40 words:

180 Word Message

Master————————————————HZY

Contact HZY soonest advise ETA GMT Ras Tanura and later changes stop agents name and requirements stop arrival and sailing draft stop if vessel equipped with VHF start calling Rastanura Port Control for berthing instructions on 156.8 Channel 16 or 156.7 Channel 14 when 100 miles out stop if no VHF aboard contact HZY 500 kc and also copy traffic lists on odd hours for possible berthing instructions stop on arrival anchorage advise HZY giving official arrival readiness time and position relative North Oil Pier stop all Radio messages without charge stop suggest copy HZY traffic lists several days after departure stop Pilots require sufficient clean ballast for safe manoeuvring and Pilot will board in anchorage for mooring stop please have gangway ready for use fullstop vessels loading cargo advise previous cargo carried stop all tanks and loading lines must be washed and gas free prior to loading kerosene, kerosene type jet fuels, white diesel and black diesel products stop advise if cargo or residue aboard to be commingled with cargo to be loaded here stop advise hours ballast and maximum loading rate per hour. Aramco

40 Word Message

Master————————————————HZY

Advise any epidemic diseases or illness on board stop status of crews international certificates of immunization stop All ports of call past thirty days stop destination stop Agent stop flag stop net registered tonnage stop vessel will not be allowed to berth until this information is received Aramco

It is important that Master send a reply to the above two messages soonest after receipt. The quarantine signal shall remain until quarantine officer grants pratique (also see "Health").

(*c*) Traffic. Traffic list transmitting times and frequencies of HZY as follows:

Transmits on 12,814 kilocycles (kc) on even-hours GMT from 0600 to 1600 GMT. Duals 12,814 kc transmission with 16,960 kc at 0800, 1000, 1200 GMT. HZY will transmit on 16,960 kc at other times on request.

Listens on 12 megacycle (mc) band until 15 minutes after above traffic list transmission, and also on 16 mc band at approximately 0815, 1015, and 1215 GMT after 12 mc calls have been cleared.

Transmits on 8,480 kc on even hour GMT from 1800 to 0400 GMT.

Listens on 8 mc band for 15 minutes after traffic list transmissions.

Transmits on 430 kc on all odd hours GMT after call up is made on 500 kc.

N.B.—To faciliate contacting a vessel after departure, it is suggested that vessels copy HZY traffic lists for several days after leaving Ras Tanura.

(*d*) Weather. Weather advice, hydrographic notices and traffic lists are "dualed" on 430 kc and 8,480 kc at 0430 GMT and again on 430 kc and 12,814 kc at 1630 GMT. It is requested that all vessels forward their local weather observations to this station, either in code or plain language, to assist in preparation of the Arabian Gulf forecasts. No charge for the incoming traffic or the forecast.

(*e*) Agents. Messages to ship's Agents are handled by HZY, free of charge. However, the shipping Agents are not permitted to use HZY for outgoing traffic. Address message to Aramco and indicate Agent's name as the first words of text.

(*f*) Beacon. An aircraft radio beacon, call sign RT, which transmits on 335 kc is located at Latitude 26° 37′ 36″ North, Longitude 50° 09′ 47″ East.

(*g*) VHF/RT. VHF radio-telephone Channels 9, 10, 11, 13, 14, and 16 are available for ship-to-shore communication. Channels 13, 14, and 16 are monitored 24 hours a day in Port Control Office. Harbour Pilots can be contacted on Channels 13 and 16. VHF equipped vessels should try to contact Ras Tanura Port Control when within 100 mile range of port, and while at anchor. HZY will, on request via CW, utilise voice radio, transmitting on 4,372.4 and 8,780 kc and receiving in the 2, 4, 8, and 12 mc bands.

(*h*) Radio Silence. The main wireless equipment of any ship must not be operated while the vessel is alongside oil piers. Use of VHF while alongside the oil piers to contact Port Control, Pilots, or Agents is permitted.

TUGS: Under normal operating conditions, no tow-boat or other craft is to come alongside any vessel before Harbour Pilot boards vessel. Should Harbour Pilot deem assistance of a tug to be necessary, he will give proper signal. Ship's personnel must not signal for tugs or boats to come alongside except as directed to do so by the Pilot. Mooring and unmooring assistance is provided by diesel tugs, which are regularly stationed in immediate vicinity of piers. At present no charge is made for these tugs when employed in normal mooring and unmooring operations, but a charge is made for additional or unusual services. Tugs are fitted with fire pumps and water/foam monitors to assist in fighting fires.

BERTHING: Harbour Pilot will direct the manoeuvring of the vessel to the assigned berth. Berthing draft should be sufficient to immerse or almost immerse the propeller, with a maximum of 10 ft. stern trim. Full power and manoeuvrability should be available.

(*a*) Turn. Incoming ships are assigned berths in accordance with time of arrival, product to be loaded, size of vessel, and loaded draft. Vessels loading crude oil or crude blends will normally be assigned berths as follows: Below 60,000 dwt. Usually assigned to North Pier (or South Pier in case of some refined products). 60,000 to 100,000 dwt. May be assigned either to North Pier or Sea Island depending on berth availability. Above 100,000 dwt. Usually assigned to Sea Island. Endeavour is made to berth vessels immediately upon arrival and Master should maintain radio contact with station HZY. If no berth available, vessels to anchor in prescribed anchorage and maintain radio contact with station HZY or Ras Tanura Port Control office by VHF radio frequencies listed under "Radio".

(*b*) Ballast. Storage space is extremely small for dirty ballast and residue. Prior clearance must be arranged for discharge of reclaimed oil or dirty ballast ashore. The Sea Island does not have facilities for handling this material. Aramco strongly recommend the "Load on Top" procedure wherein such residues are commingled with crude cargo whenever possible and that new vessels be built with ballast system independent of cargo tanks. A separate ballast system shortens time in port by about 5 hours. Vessels should arrive with minimum clean ballast to enable manoeuvring under prevailing weather conditions. Masters are encouraged to take advantage of the favourable weather which prevails much of the time, particularly during summer and fall months, to minimise ballast in order to reduce turn-around time. Masters should maintain radio contact with HZY or ship-to-shore communication by voice radio in order to obtain latest weather information and advice on appropriate ballast. Aramco particularly interested in having vessels complete deballasting promptly after berthing order minimise time at berth. Simultaneous loading and deballasting is encouraged on properly equipped vessels. Vessels requiring excessive time to complete deballasting will be given Letters of Deficiency. To avoid any possible pollution of local waters, all tankers calling at Ras Tanura to load must do necessary tank cleaning prior to arrival. Prior to arriving at a loading berth Masters must assure themselves that all tanks, pipe-lines, and pumps are free of oil. All tank cleaning must be done East of 52nd meridian. Regulations in this regard strictly enforced to protect local fishing and pearling and reduce fire hazards. If, after arriving alongside, a vessel is found to have oil ballast water on board, it will be sent to sea to accomplish necessary tank cleaning. A new notice of readiness to load must then be given.

(*c*) Gangway. All vessels required to furnish their own gangway which should be made "ready" prior to berthing at North or South Pier. At the Sea Island, Aramco will normally furnish ladder-type aluminium gangway with range of reach varying from a maximum of 65 ft. in Berth 14 to a maximum of 93 ft. in Berth 18. These ranges are above the deck elevation of the Sea Island loading platform.

OIL LOADING PIERS: There are two "T" head piers (piers project from Eastern face of peninsula and are commonly referred to as South Pier and North Pier) and a Sea Island.

(*a*) South Pier. Designed to handle T-2 class tankers. Ships up to 25–30000 dwt, are efficiently handled. An 8 ft. tide permits some flexibility in loading. Ships up to 35000 dwt. will be topped off and unberthed on rising tide. The pier is mainly used to load refined products and has one 15,000 b.p.h. crude loading system to service small crude ships. South Pier connected to peninsula by causeway and trestle, 2,300 ft. in length. Pier has four berths and is 1,200 ft. long and 105 ft. wide. Depths South Pier as follows: Berth 1, 33 ft. at ISLW; Berth 2, 33 ft. at ISLW; Berth 3, 33 ft. at ISLW; Berth 4, 32½ ft. at ISLW.

(*b*) North Pier. This pier handles mainly crude shipments with loading rates up to 60,000 barrels per hour. Some refined products as well as refrigerated propane and butane are also available. The

berths were designed for 45,000 dwt. tankers; however, vessels in excess of 100,000 dwt. have been safely handled, berthed and loaded with sufficient attention given to approach velocities and tidal conditions. North Pier located about 3/4 mile to North of South Pier, and has causeway and trestle that extends some 3,600 ft. from the peninsula. Pier is 2,200 ft. long and 110 ft. wide, and comprises six berths. Depths North Pier as follows: Berth 6, 48 ft. at ISLW; Berth 7, 42 ft. at ISLW; Berth 8, 50 ft. at ISLW; Berth 9, 48 ft. at ISLW; Berth 10, 50 ft. at ISLW; Berth 11, 50 ft. at ISLW.

(*c*) Sea Island. Located about 5,600 ft. North-east of the North Pier. The Sea Island has six berths in service. Berths 19 and 20 to be completed 1973. Berths 12–17 are capable of routinely handling vessels up to 200,000 dwt. Berth 18 is designed to handle vessels between 65 and 400,000 dwt. Larger vessels can be berthed under special conditions. Depths Sea Island as follows: Berth 12, 85 ft. at ISLW; Berth 14, 85 ft. at ISLW; Berth 15, 85 ft. at ISLW; Berth 16, 85 ft. at ISLW; Berth 17, 85 ft. at ISLW; Berth 18, 85 ft. at ISLW. Each island, or pair of berths, consists of four mooring dolphins and a platform with four breasting dolphins on each side. Length of Sea Island No. 1 (Berths 12 and 14) is 1,250 ft. whereas length of Sea Islands No. 2 and 3 (berths 15, 16, 17, and 18) is 1,400 ft. each between outer mooring dolphins. Sea Island facility equipped with four submarine crude loading lines having a combined capacity of 166,000 b.p.h. and one bunker fuel line having a capacity of 10,000 b.p.h. Prevailing wind is from a N.N.W. quarter. Sea Island design is for berthing of ships at wind velocities up to 30 m.p.h. and wind pressure of 5 pounds per square foot on pier structure, and 3 pounds per square foot on vessel.

(*d*) West Oil Pier. A small oil-loading pier with maximum water depth 12 ft. Located on West side of peninsula. Pier is used for fueling small craft and loading coastal tankers. Vessels taking cargo subject to same safety regulations applicable to other piers.

MOORING:

1. Full power must be available for manoeuvring to and from wharves.
2. An Aramco Pilot will pilot vessel to berth assigned.
3. All manoeuvring in vicinity of, or at piers, will be under supervision of an Aramco Pilot.
4. Aramco tugs will assist in mooring and unmooring.
5. All tank tops, ullage plugs and sighting ports will be closed before berthing.
6. Vessel's Master must notify the Pilot of any special conditions, difficulties or peculiarities such as defective equipment, lines or gear which might impose special hazards in connection with handling mooring or loading of vessels.
7. Steering gear, engine-room telegraph, whistle and all navigational equipment must be tested before any manoeuvring to or from piers is started.
8. Pilot will decline to moor vessel with unsatisfactory equipment, lines, gear, etc.
9. Aramco will loan additional mooring lines if Pilot deems them necessary.
10. Vessels must be moored to entire satisfaction of Pilot.
11. Vessels must be ready to put out more lines as required by weather changes or at request of Pilot or oil-loading personnel.
12. Winches must be ready at all times for immediate use.
13. Except in emergency, no mooring lines will be let go without permission of the Pilot.
14. While alongside wharves, maintain engines and propulsive machinery ready at all times to leave wharf on short notice under full power.
15. No repairs are permitted that will delay or interfere with this manoeuvring.
16. Non-compliance with 13 and 14 constitutes a serious safety hazard. Any towage and delay resulting from non-compliance will be for vessel's account.
17. If fire or other grave emergency occurs or danger appears imminent on either the vessel or pier, do not await arrival of Pilot–immediately let go mooring lines and personally remove vessels from pier in such manner as to best avoid damage to pier or other vessels.
18. Upon completion of loading and/or bunkering and immediately after disconnection of hoses, vessel must leave berth and await clearance in stream.

Note: Most vessels will be loaded using all-metal Chiksan arms. The use of nylon or other highly elastic line is prohibited. Mooring lines should be checked frequently and kept tight to prevent excessive movement of vessel in berth. All vessels moored with automatic tension winches shall set manual brakes on these winches. Pier crews on duty continuously to handle oil hoses/arms and mooring lines. Mooring lines on board vessels will not be handled by Aramco personnel. All loading connections equipped with electrical insulating flanges. Therefore ship-to-shore bonding cables are not used.

LOADING: A commonly-used design criterion for tanker loading rates is as follows:

Loading rate in barrels per hour equals dead weight tonnage of vessel (bph. equals dwt.). This rate results in loading a vessel in 7 to 8 hours.

This criterion can be achieved for vessels up to 60,000 dwt. at the North Pier, for vessels up to 90,000 dwt. at Sea Island berths 12, 14, 15 and 16 and for vessels up to 120,000 dwt. at Sea Island berths 17 and 18. With the installation of the fourth 16 in. loading arms in berths 15 and 16, the maximum loading rate at these berths will also increase to about 120,000 bph. Achieving these loading rates will depend upon availability of loading systems, whether vessel's manifold permits connecting all the arms at a berth, and the loading rate at which excessive arm vibration begins to occur.

Note: Diurnal tidal rise approximately 8 ft. at spring and 5 ft. at neaps. If at any time a ship's draft approaches to within about 3 ft. of the depth of water at the berth, loading will be suspended until an incoming tide increases the depth to permit resumption of loading and provide for safe draft of the fully loaded ship on departure.

(*a*) Loading Rates. Following table shows products available at each berth and nominal loading rates:

Cargo	*Available at Berths*	*Barrels per Hour*
Crude Oil	12, 14, 15, 16, 17, 18	40,000 to 120,000
Crude Oil	6, 7, 8, 9, 10, 11	15,000 to 60,000
Crude Oil	1, 2, 3, 4	12,000
Fuel Oil	6, 7, 8, 9, 10, 11	12,000 to 22,000
Fuel Oil	1, 2, 3, 4	12,000 to 18,000
Black Diesel	1, 2, 3, 4	5,000
White Diesel	6, 7, 8, 9	15,000
White Diesel	1, 2, 3, 4	8,500
Gasoline	1, 2, 3, 4	6,000
Aviation Gasoline	2, 3, 4	800
Kerosene (See X-2-34)	1, 2, 3, 4	6,500
Jet Fuel (See X-2-34)	1, 2, 3, 4, 8, 9	10,000
Bunker Fuel Oil	1, 2, 3, 4	5,000
Bunker Fuel Oil	6, 7, 8, 9, 10, 11	5,000
Bunker Fuel Oil	12, 14, 15, 16, 17, 18	10,000
Bunker Diesel	1, 2, 3, 4	1,400
Bunker Diesel	6, 7, 8, 9, 10, 11	1,200
Refrigerated LPG	6	8,000 to 28,000
Naphtha	8, 9	15,000

Products can be loaded simultaneously at the respective berths if shown above as being available. It is expected that most ships will be able to receive any cargo, except crude oil, as fast as it can be delivered. Officers in charge of loading must have due regard for all safety precautions as well as for individual ship hazards. If loading is too slow, Aramco reserves the right to register protests and an addition to allowed lay-time will be made in the event a demurrage claim is filed against Aramco.

(*b*) Responsibility. All operations in connection with starting of loading, discharging, switching tanks and topping off must be directly and personally supervised by a ship's officer. Upon completion of loading vessel will normally be required to leave berth immediately after disconnecting hoses/arms to await clearance in tanker anchorage.

(*c*) Manifold Connections. Since most tankers have manifolds located near midships, the berths at Ras Tanura are designed accordingly. Aramco recommend midship manifolds for all vessels loading at Ras Tanura. Cargo loading arms at the North Pier have 12 in. standard 150 lb. ASA raised face flanges. The two refrigerated LPG loading arms at North Pier Berth 6 have 12 in and 8 in. standard 150 lb. ASA raised-face flanges. Cargo loading arms at the Sea Island have 16 in. standard 150 lb. ASA flanges. Cargo loading hoses/arms at the South Pier have 8 in. standard 150 lb. ASA raised face flanges. All vessels calling at Ras Tanura should be equipped with reducing spools to fit these loading connections. These fittings should be in place prior to berthing to help expedite ship turnaround time.

(*d*) Refrigerated LPG.Facilities for loading Refrigerated LPG located in Berth 6. LPG loaded at approximately -40°F. for propane and 30°F. for butane. Maximum loading rate 8,000 bhp. for butane and 20,000 bph. for propane. Ships arriving for Refrigerated LPG cargo should have cargo tanks chilled to desired temperature upon arrival. RLPG loading facilities consist of following:

(i) Two 22-in. insulated loading lines each with a 6-in. liquid return line from pier to storage tanks. 4,800 ft. lines manifolded to permit loading propane in one, and butane in the other simultaneously.

(ii) Two PCMA Chiksan loading arms, one 8-in. and one 12-in. The arms are 9 ft. 5 in. centre to centre and are located about 11 ft. 6 in. from ship's rail (12-in. arm is on the North side). The 48-ft. long arms designed for maximum operating elevation of 61·5 ft. above ISLW. Arms equipped with 150 lb. USAW raised face flanges. The 8-in. and the 12-in. arms manifolded to permit propane or butane loading through either arm. Using 12-in. arm propane can be loaded at rates up to 17,500 bhp. of —40°F. (20,000 bhp. equivalent 60°F. liquid). Alternatively butane can be loaded through same arm at rates up to 10,000 bhp. of +24°F. liquid (10,000 bhp. equivalent 60°F. liquid). Using 8-in. arm propane or butane can be loaded at rates up to 8,000 bhp. of —40°F. C_3 or +24°F. C_3.

(iii) One 20-in. ship-to-shore LPG vapour return line with 12-in. hose connection to ship's vapour manifold. The 12-in. vapour return riser is located 9 ft. North of 12-in. LPG loading arm.

(*e*) Blended Cargoes.

(i) Fuel/Crude. If vessel's draft permits, a full cargo of fuel or a split cargo of fuel and crude can be loaded at the North Pier. In the latter case vessel design should permit simultaneous loading of both fuel oil and crude. The maximum fuel oil loading rate on the North Pier is 25,000 bhp. No facilities to load fuel oil cargoes at Sea Island. However, fuel portion of split cargo could be loaded at North Pier after which vessel would be shifted to Sea Island to load crude portion. Bunker "C" fuel oil is available at Sea Island at rates up to 7,500 bph, metered.

(ii) Crude/Crude Blends. Many large vessels calling at Sea Island load two or more segregated parcels of crude and/or crude blends. Order assure satisfactory loading rates under these conditions, the piping arrangements aboard vessels should be such as to permit loading each parcel consecutively, at rates

of 60 mbph., through two or three 16-in. Chiksan arms, Simultaneous loading of another non-blended crude is possible if ship's manifolding allows this.

(iii) Co-mingled. A 60 mbh. blender is used to supply blends of crude oil/products/LPG to both North Pier and Sea Island. A 30 mbh. blender is used to load blends at North Pier only. Both blenders required full time to load blends containing LPG where homogeneity is critical. Blends that do not contain LPG not required to be homogeneous during loading. Therefore whenever possible Aramco use "batch blend" method, sometimes referred to as "commingling" or "ship board blending". Blenders used to supply Sea Island with blends containing naptha.

(iv) Spiked Crude. Blends of Arab Light and Arab Medium crudes and LPG are commonly referred to as spiked crude. Order assure that boiling mixtures are not delivered to a ship at any time, blend vapour pressure calculations are made prior to each loading taking into consideration such factors as crude vapour pressure, LPG vapour pressure, and blend temperature. LPG and crude stream rates carefully controlled in Inline Blender and spiked crude blend continuously monitored by a Hallikainen Vapour Pressure Analyser so as to at no time exceed a Reid Vapour Pressure of 13 lb. or a True Vapour Pressure of 14.7 psia. For the amount of vapour to be vented, a non-boiling mixture with a True Vapour Pressure equal to atmospheric pressures will have only about 10–20 per cent more than for a stabilised crude of 4–5 lb. RVP.

(*f*) Loading Arms/Pressure.

(i) Piers. Chiksan loading arms used extensively for loading crude, crude blends, bunkers, and refrigerated LPG at Ras Tanura over North Pier. Hoses used at South Pier and for occasional product and bunker loading at North Pier. North Pier has six berths handling vessels up to 150,000 dwt., equipment as follows: Type of Arms: Chiksan HMLA* arms for crude oil, crude blends, and bunkers; Chiksan PCMA** arms for refrigerated LPG (one 8-in. arm and one 12-in. arm – both at North Pier berth 6). Number and Size: Most North Pier berths have four 12-in. arms per berth for cargo with an additional 8-in. or 12-in. arm for bunkers. The bunker arm is located South (aft) of cargo arms (except for 11 berths where arm located North of cargo arms). One berth (Mo. 8) has 12in.- arm for loading white products (located North of cargo arms) and three berths (Nos. 6, 8, and 9) each have a 12-in. arm in dual service for fuel oil cargoes or bunkers. Berths 8, 9, 10 and 11 each have two 12-in. arms through which fuel oil cargo can be loaded. Spacing of Arms: All arms on North Pier with exception of LPG loading arms are spaced 66 in. apart, centre to centre. Capacity: Each 12-in. arm has a capacity of 15.000 barrels per hour. The point at which vibration of arm and ship's manifold becomes excessive limits loading capacity. Flanges: All 12-in. arms have 12-in., 150 lb. USAS raised face flanges. All 8-in. arms have 8-in. 150 lb. USAS rasised face flanges.
* HMLA – Hydraulic Marine Loading Arm.
** PCMA – Pantograph-Counterweighted Marine Arm.

(ii) Sea Island. Double Counterweighted Marine Arms. Number of Arms: Sea Island berths 12 and 14 have three 16-in. arms for cargo and on 10-in. arm for bunkers in each berth. Bunker arm located South (aft) of cargo arm in each berth. A hose length is used if vessel bunker connection is forward of manifold. Sea Island berths 15 and 16 have three 16-in. Chiksan cargo loading arms. Space provided for future installation of fourth 16-in. cargo arm when demand for higher loading rate justifies installation. Berths 17 and 18 have four 16-in. cargo loading arms. Two loading arms in berth 18 are 72 ft. long. All other loading arms 60 ft. long. Two 10-in. bunker arms (one on each side of the cargo arms) provided in each of these four berths. Spacing of Arms: All arms on Sea Island spaced on 11 ft. centres. This large space required to permit rotating travel of counterweights. Elevation of Arms: Sixty-foot arms designed for maximum operating elevation of 72 ft. above ISLW whereas 72-ft. arms operate 97 ft. above ISLW. Capacity: Capacity of each of 16-in. arms is 30,000 barrels per hour. Actual capacity limited by vibration – thus ship's manifold design should be adequate and well supported. Flanges: Flanges on 16-in. arms of Sea Island berths 12 and 14 are 16-in., 150 lb. USAS *flat* faced. Flanges on 10-in. arms of Sea Island berths 12 and 14 are 10-in., 150 lb. USAS *flat* faced. Flanges on 16-in. and 10-in. arms of Sea Island berths 15–18 same as above except that they are *raised* face. An alarm sounds when pressure in loading arm reaches 100 psig and pier operator shuts down loading. A motor-operated valve upstream of loading arms is throttled during "topping-off" operations to prevent over-pressuring. In addition to alarm which sounds when loading system pressure reaches 100 psig. at Sea Island, loading pumps shut down automatically when pressure reaches 125 psig. This feature does not protect against high surge pressures associated with sudden shut-off against a high loading rate. Loading rate control is by means of a hydraulic coupling between pump and motor of each loading system. Speed of pump (and thus loading rate) is remotely controlled from Sea Island. Push button controls at loading arms and in control room shuts down loading pumps and closes a motor-operated valve in loading line. Pump discharge pressure on shore is 150 psig. Pressure at ship's manifold depends on size and number of ship's lines, number of tanks being loaded, loading rates, etc. Aramco design basis is for pressure of 30 psig. at ship's manifold when loading at 75,000 barrels per hour through Chiksan arms. Aramco recommend this same ship's manifold pressure for higher rates, also.

(*g*) Valves. Calculations indicate valves closing in *less than 30 seconds* when loading at high rates will cause excessive surge pressure and will possibly damage Chiksan arms and ship's loading manifold. Aramco strongly recommend that hydraulically controlled valves be adjusted to close in no less than 30–40 seconds. Several ships which have called at Ras Tanura have hydraulically operated valves in their cargo handling syatems which close in 5 to 10 seconds. Closure of valves in 5 to 10 seconds while loading at high rates will result in momentary surge pressures well above pressure rating of ship's loading system fittings and maximum pressure rating of Chiksan arms. Aramco presently limits loading rate of ships equipped with fast closing hydraulic valves. As an example, ships with valves capable of closing in 10 seconds would be limited to loading rates of 22,000 bph. per system.

MEDICAL: When necessary, Master may obtain medical attention for ship's personnel from port doctor (quarantine officer), who may in the case of serious illness or injury recommend treatment at Dammam Government Hospital, Government or private clinics in Ras Tanura, or Al-Sharq hospital in Al-Khobar. Port doctor ordinarily will treat minor illness or injuries on board ship. A charge is made for medical attention or supplies furnished by port doctor or other private sources. Medical facilities of Aramco made available in emergency only when referral is warranted medically. A charge is made for medical attention or supplies furnished by the Company. Aramco radio station, HZY, may be used without charge by vessels at sea to obtain medical advice at any time.

WATER: The natural well water obtainable in Ras Tanura is quite brackish and is used mainly for washing. Well water obtainable at all berths on North and South Piers at a rate of 50 tons per hour. Water is not available at Sea Island. Vessels will be supplied with well water usually up to a limit of 100 tons at a cost of approximately $1.25 per ton. Distilled water also obtainable at all berths on North and South Piers, at a rate of 20 tons per hour, but supply usually limited to 25 tons per vessel. The cost is $4.00 per ton. No water or bunkering barges in port of Ras Tanura.

FUEL: The maximum viscosity of fuel oil bunker is 60 SF at 122°F. The maximum viscosity of black diesel bunker is 55 SU at 100°F. About 72 hours advance notice is needed for large lifting of these fuel grades.

It is recommended that vessels taking bunkers only, call at Ras Tanura prior to loading cargo elsewhere. By following this recommendation vessel will avoid delays caused by draft and berth assignment problems.

Bunkering facilities are operated by Aramco. Failure of a ship to provide advance notice of bunker requirements could result in vessel delays. Majority of bunkering effected through temperature-compensated positive displacement meters which record on print-out forms the net barrels at 60°F. delivered. Galley fuel is available at all berths at the North and South Piers at approximately U.S. $28.00 per ton. Not available at Sea Island. Lubricating oils available in limited drum quantities if ordered in advance by letter or radio through ship's Agent.

Sea Island. One 20/22 in. line supplying bunker "C" bunkers up to a maximum of 7,500 barrels per hour. Bunkering is simultaneous with cargo loading. A diesel supply line (black diesel) has been extended to berths 15 and 16 of Sea Island for bunkering vessels when alongside to either one of such berths.

SAFETY: Master should acquaint himself with Aramco's safety regulations, and obtain copy of regulations from terminal representative. Port of Ras Tanura maintains vigorous tanker loading safety programme. Arabian American Oil Company is a member of International Oil Tanker Terminal Safety Group (IOTTSG) and as such follows procedures recommended by this international organisation. Each ship's Master is presented a "Declaration by Master" by pier safety representative who discusses each item in detail with Master. Prior to start of loading cargo and at several times during loading, pier safety inspectors will personally visit vessel and, in company with one of ship's officers, will check to ensure that safe loading practices being observed by both ship and shore.

Hydrogen Sulphide Hazards: Aramco crudes may contain dissolved hydrogen sulphide in concentrations which would cause the gases vented during tanker loading to be hazardous if inhaled. Aramco recommend that Masters review instructions issued by Owners/Charterers about hydrogen sulphide hazards. If loading of H_2S bearing crude oil is not covered by such instructions, Aramco has available, upon request, a list of recommendations to aid Masters.

Signals for Emergency: (*a*) Ship should sound an "Emergency Stations" signal consisting of a continuous ringing of ship's alarm bells supplemented by a series of short blasts of ship's whistle or siren. (*b*) Telephone is fitted on jetty. Normally, Aramco personnel will telephone for assistance. If no Aramco personnel available, ship's personnel may call for emergency assistance by dialing telephone number 3100 from any berth. (*c*) Assistance can be summoned on VHF radio if necessary. Use International Channel 16 on VHF. Give location and extent of assistance required. (*d*) Shore signal in event of an emergency is either a fire siren or a series of short blasts on an alarm or horn.

CUSTOMS: All materials to be either exported from or imported into Saudi Arabia subject to examination by Customs authorities. Importation of certain articles is strictly prohibited. Such articles include: alchoholic beverages, including beer and wines; explosives; firearms; implements of war of any kind, including antiques; religious matter not pertaining to the Moslem faith; playing cards

and gambling devices; narcotics. Trafficking in these items between ships also is strictly prohibited. This applies to ships at anchor as well as to ships at piers. Almost without exception, all other commodities subject to close examination and to Customs Duty if imported. Saudi Arab Government discourages trafficking between members of ship's crews and shore personnel.

CONSULS: United States Consulate General established at Dhahran, about 50 miles by road from Ras Tanura. British Political Agent established on Bahrain Island. It is very difficult, however, to contact Bahrain Island from Ras Tanura, and Masters having business there usually arrange to call at port of Sitra.

REPAIRS: Relatively limited repair service available from local business concerns. Aramco will assist in making emergency repairs on vessels only if approved by Aramco Marine Superintendent of Chief Harbour Pilot. Suggested that Master discuss repair charges with ship's Agent prior to authorizing or requesting any repair work. Deep sea divers, operating from modern and well-equipped diving boats, available under same conditions as repair services. When alongside Aramco piers, vessels must maintain engines and propulsion machinery in readiness to leave the pier under full power on short notice. No repairs permitted which would interfere with this requirement. Violation of this rule will entail towage from the berth at the vessel's expense and Aramco will not accept responsibility for the resulting delay to the vessel.

REPATRIATION: Arrangements can be made through ship's Agent. All crew leaving or joining vessel require valid passport or Saudi Arabian visa.

The following countries are considered cholera-infected areas: Burma, Cambodia, India, Indonesia, Laos, Nepal, Pakistan, Philippines, Singapore, Thailand, Vietnam.

All concerned persons, including regular passengers and crew members, must bring in a stool culture Certificate, and five-day stay in a cholera-free area Certificate, in addition to the usual Health Certificate, for entry into Saudi Arabia. Persons not possessing the above-mentioned Certificates will be denied entry by Immigration Authorities, and returned to the place of their embarkation.

AIRPORT: Ras Tanura terminal about 50 miles from Dhahran Airport, This airport is serviced by many international airlines.

TIME: Company generally bases local time on 45th meridian (3 hours East of Greenwich). In order to avoid any confusion all communications should be quoted in Greenwich Mean Time.

HOLIDAYS: Ras Tanura port operates 24 hours a day, 365 days a year, irrespective of holidays.

EMERGENCY TELEPHONES: Emergency (fire, serious injury), 3100; Port Control, 3101; Pilots' Office, 7195; Pier Foreman: North Pier, 7140; South Pier, 7161; Sea Island, 7152.

SERVICES: (*a*) Recreation Centre. Seaman's Recreation Centre located at shore end of South Pier causeway. The route to the centre and area itself is prescribed and no one should attempt to violate these limits, as Coast Guard personnel guard the route. Violators subject to arrest. Arrangements may be made through ship's Agent for launch transportation from North Pier. During limited hours, soft drinks and ice cream available at nominal cost. Motion pictures, games, and a barber shop also located at this facility. (*b*) Provisions. Ship's chandlers available through ship's Agent at piers, but are not allowed to board vessel. (*c*) Oil Inspectors. Oil inspection service maintained by following independent agencies: Charles Martin Inspectors of Petroleum Inc., 61 Broadway, New York, New York 10006; E. W. Saybolt & Co., S.A., 400 Swenson Drive, Kenilworth, New Jersey 07033; U. S. Navy. (*d*) Surveyors. American Bureau of Shipping and Lloyds of London maintain a marine surveyor at nearby Manama on Bahrain Island.

SHORE LEAVE: Ship's personnel and passengers not permitted ashore for any purpose whatsoever until pratique granted. This regulation includes going to pier to read arrival draft. Personnel may go to pier if actually engaged in duties connected with discharging of ballast, loading, etc., but only after pratique granted. All shore leave contingent upon compliance with quarantine regulations. Direct transit to or from Seamen's Recreation Centre requires no special government approval. Centre is open to seamen usually between the hours of 1430 and 2230 local time each day (during summer months of May through September, Centre is open between hours of 1330 and 2130 local time.) Saudi Arab Government regulations strictly enforced, and if Masters have any doubts with regard to these regulations they are urged to consult their Agent. While in port, vessel's personnel under jurisdiction of Saudi Arab laws.

AUTHORITIES: The Arabian American Oil Company, Dhahran, Saudi Arabia. Cable Address, Aramco, Dammam.Port Officials: Saudi Arab Government port authorities located in Customs House, Port Office, and Quarantine Office at Ras Tanura.

AGENTS: Mail Address: Gulf Agency Co. (Saudi Arabia) Ltd., Aramco Mail Box 621, Ras Tanura, Via Dhahran, Saudi Arabia. Telephones: 7118, 7190. Cables: "Confidence", Dammam. Due to slow cable communication, messages of any urgency should be sent via the telex of Bahrain office, telex: 211 Bahrain, Answer back: "Gacship 211", stating "For Ras Tanura". Radio: Vessels can communicate with SSB radio station, frequencies 3539 and 6910, call "Confidence Ras Tanura". For ship to shore communication Ras Tanura office is also equipped with VHF radio, call "Confidence Ras Tanura", on Channel 16, and switch to Channels 13, 6, 9, or 14 for communication.

YEMBO (Yenbo): 24.05 N. 38.03 E.

FLAG: Saudi Arabian flag must be hoisted.

LOCATION: On Red Sea coast, about 218 nautical miles North of Jeddah.

CHANNEL: Ships entering port pass a channel of the following measurement: Length 1647 metres, width varying between 70 to 130 metres, width at entrance between beacons 310 metres.

BEACONS: 11 miles outside port, beacon at Al-Sharm. Height 23 ft. White flash every ten seconds. At entrance of port channel two beacons, height 15 ft. Starboard-hand beacon (black), green flash every second. Port-hand beacon (red), red flash every second.

795 metres from channel entrance on port hand is another beacon, height 15 metres (black and white squares), white flash every second,

BUOYS: Channel is buoyed with red and green port and starboard-hand buoys.

PILOTAGE: Compulsory. Vessels requiring Pilot should exhibit code flag or International light signal.

DOCUMENTS: All vessels calling Yembo should provide the authorities with the following:

Passenger Vessels

Certificate of Registry.
International Safety Certificate (issued and validated from one of the signatory states of the pact).
Radio-telegraphy Safety Certificate.

Cargo Vessels

Certificate of Registry.
Load-line Certificate.
Safety Construction Certificate.
Safety Equipment Certificate.
Safety Wireless Certificate for vessel of 1,600 tons dwt. or more
Safety Wireless and Telephone Certificate for vessels of 300 tons to 1,600 tons dwt.

Requirements of Cargo and/or Pilgrim Documents:

For Doctor

2 copies Passenger List – landing.
2 copies Passenger List – transit.
2 copies Crew List.
2 copies Declaration of Health.

For Customs

2 copies Passenger List – Landing.
2 copies Passenger List – Transit.
2 copies Crew List.
2 copies Ship's Bond (tobacco, spirit, wine and beer).

For Immigration

6 copies Passenger List – Landing.

For Agents

6 copies Passenger List – Landing.
1 copy Crew List.

HEALTH: All incoming vessels should abide by health regulations and present necessary documents to the authorities in accordance with international laws, i.e. as under: Q if the health condition is clean. QQ if there is a suspicious case in the vessel. QL if there is an infection or epidemic case on board.

RADIO: Until the implementation of a Beacon Station for navigation, all ships entering port before passing the channel should contact Port Department by radio/telephone during following times: 0500 to 0600 GMT; 100 to 1100 GMT; 1400 to 1500 GMT.

These are the decided times during normal days, but during the Hajj Season a new publication is issued to cover additional times.

BERTHING: The port has two quays built at right-angles. The Northerly berth is 170 metres long and the Easterly berth is 210 metres long. The depth is 31–32½ ft. The port can accommodate 2 big and 1 small ship or 4 small ships. Turning circle is 350 metres.

Mobile cranes with a capacity of between 1 and 5 tons are available. There is also a supply of fork-lifts to meet with present port requirements. Discharge is mostly carried out by ship's own gear.

There are no barges at Yembo, but 70 native lighters (sambouks) with a capacity of between 5 to 80 tons are available. The total capacity of these native lighters is 1,034 tons.

STEVEDORES: Like Jeddah, stevedoring at Yembo, is based on daily paid basis. There are no stevedoring companies and labour is engaged on day to day basis.

There is one custom warehouse at the moment (at Easterly berth) which can accommodate about 10,000 tons of cargo. This shed is near quay and can receive cargo direct into shed from vessel.

FRESH WATER: Ships receive fresh water alongside quay and a 24 hours advance notice by the Master should be given. There are no facilities to supply water at anchorage.

CUSTOMS: Each crew member may have 200 cigarettes or ½ lb. tobacco, but all alcohol and wine, beer, etc., must be sealed. This applies to all persons on board. For each flask/glass/bottle containing alcohol found by the customs, there is a penalty of £100 sterling.

SHORE LEAVE: Passengers may only go ashore if they have a valid visa. Crew may go ashore if they have written permission from Master and leave their passports with passport office at the port.

AGENT: Head Office. Gulf Agency Co. (Saudi Arabia) Ltd., Shipsbrokers and Agents, POB. Airport Post Office, Dhahran, Saudi Arabia. Cables: "Confidence Dammam". Tel. 2441, 23425/26/27. After office hours. 22861–41742.

ZULUF TERMINAL: 28.23 N. 49.14 E.

DOCUMENTS: All tankers which have called at Ras Tanura will have all EDP documents aboard and will have cleared quarantine. In this case, no further government formalities will be required. Seals placed on ship's stores at Ras Tanura must remain in place until the tanker has completed loading at Zuluf.

Those tankers which have not called at Ras Tanura will require appropriate clearance and must have Port Clearance Documents, Bill of Lading and Export Manifest aboard at time of departure.

This group of documents consists of:

1. Permit of Departure form in English which is filled out with information supplied by tankers in their quarantine radio message;
2. Port Clearance Application in Arabic which is filled out with information from the Permit of Departure form.
3. The official Saudi Arabian Government Port Clearance form in Arabic which must be filled out using the information from the Port Clearance Application.
   (Both the Permit of Departure (English) and Port Clearance (Arabic) forms are to be aboard the tanker at the time of departure).
4. Bill of Lading is an Aramco document. A supply of these forms will be maintained on the *F. A. Davies* and the required information will be typed in by the clerk prior to arrival of the loading tanker.
5. The Export Manifest is a Saudi Arabian Government document which is normally required.

The preceding documents will be filled out in advance using information received primarily from OSPAS (Aramco) via teletype and telephone. These documents will be carried aboard the loading tanker by the Mooring Master.

APPROACHES: Zuluf is located in the Arabian Gulf in approx. Lat. 28° 21′ N., Long. 49° 15′ E., in water depths ranging from 100 to 130 ft. Aramco's Floating Storage Vessel (*F. A. Davies*) is moored to a SBM in this position with a SBM loading berth one mile away in a South-Easterly direction. Both buoys exhibit flashing red lights and the *F. A. Davies* is well lighted during hours of darkness. A gas oil separator platform (GOSP) is located at Lat. 28° 23′ N., Long. 49° 12′ E. A flare from this platform should be visible from a considerable distance depending on atmospheric conditions. An additional flare may be observed from a platform about 30 miles East of Zuluf at Marjan located in Lat. 28° 27′ N., Long. 49° 42′ E. The area between Lat. 28° 18′ N., and Lat. 28° 33′ N., and between Long. 49° 08′ E., and Long., 49° 45′ E., is an area with submarine pipe-lines, drilling rigs and GOSP platforms in several locations. Ships should navigate in this area with extreme caution and avoid anchoring near pipe-lines.

PILOTAGE: A Mooring Master will board the loading tanker in the anchorage area about 2 miles South of the SBM berth. He will carry two portable VHF radio sets to be used while on board the vessel for communications with the *F. A. Davies* and mooring boats. He will advise the Master on all manoeuvres relative to berthing, connecting and disconnecting the hoses.

Mooring equipment and other equipment supplied at Zuluf will be lifted aboard the loading tanker from the mooring launch which delivers the Mooring Master. Included are such things as special mooring equipment to be used at the bow, various gaskets, bolts, tools, adaptor spool pieces (if required) and portable radios.

ANCHORAGE: The designated tanker anchorage is within lines joining:

(*a*) 28° 19′ 0″ N. 49° 13.5′ E.
(*b*) 28° 19′ 0″ N. 49° 15.5′ E.
(*c*) 28° 17.5′ N. 49° 15.5′ E.
(*d*) 28° 17.5′ N. 49° 13.5′ E.

The anchorage area ranges in depth from 15 to 20 fathoms. Holding ground in this area is only fair.

Any vessel having anchored in the suggested anchorage area should immediately advise Aramco, via Radio HZY, the following information:

(*a*) time of arrival in the anchorage area in GMT;
(*b*) approx. position in the anchorage area in relation to the SBM;
(*c*) contact Zuluf by VHF radio Channel 14 or 16 if vessel is so equipped.

RADIO: Masters are urged to maintain radio contact with HZY or ship to shore communication by VHF voice radio in order to obtain the latest weather information.

VHF Radio-telephone, Channels 9, 10, 11, 13, 14 and 16, are available for ship-to-ship communications at Zuluf. Channels 13, 14 and 16 are monitored 24 hours per day aboard the *F. A. Davies*.

HZY will, on request via CW, utilise voice radio, transmitting on 4372.4 and 8780 kHz and receiving in the 2, 4, 8 and 12 mHz bands.

Use of the high-frequency radio transmitter is not permitted while vessels are moored at the SBM. Use of the VHF is permitted for contacting the *F. A. Davies*.

PRATIQUE: In accordance with international practice, quarantine signals must be displayed continuously until pratique is granted. A modified Radio Pratique procedure is in use at Zuluf. Vessels supplying requested quarantine information can be berthed on arrival and proceed with normal loading operation. Vessels failing to supply necessary information will be delayed at anchorage. Extensive delays can be incurred by vessel's failure to supply requested information promptly.

In the event of the failure of the VHF communications system, the loading tanker will sound five long blasts on the ship's whistle. Loading will be stopped and will not be resumed until communications have been re-established.

BERTH DESCRIPTION: The SBM for loading tankers has a single flow system for crude oil designated for a flow rate of about 80,000 b.p.h. It is in approx. 124 ft. of water. The loading hoses consist of two strings of 24-in. underbuoy hoses 175 ft. in length from the two 30-in. undersea pipe-lines to the buoy and two strings of 24-in. floating hoses 1,050 ft. in length from the buoy to the loading tanker, each string terminating in three lengths of 16-in. hoses for connecting to the tanker's manifold.

FLOATING STORAGE VESSEL: The 228,000 dwt tanker *F. A. Davies* moored at SBM about 30 miles offshore in water depths of 130 ft. The storage vessel may move temporarily from its mooring in severe weather conditions. The storage vessel also acts as base for Pilots and production crews, and is provided with a helicopter platform.

MOORING: Mooring, and unmooring, connecting and disconnecting of cargo hoses is to be performed by the crew of the loading tanker under the supervision of the Mooring Master. Communications between the Mooring Master and his assistant or the chief mate will be by means of portable VHF radio-telephone.

During the approach and while mooring, the vessel's anchors must be secured by stoppers to prevent accidental dropping with subsequent damage to the SBM's mooring chains and undersea pipe-lines. Two mooring launches will normally be used. As the tanker approaches the SBM from down-wind one launch will tow the floating hose clear. The other launch will approach the bow and take the ship's messenger line and secure the end of a 12-in. polypropolene "pick-up" rope. The port "pick-up" rope will be hove through the centre of port mooring chock until the port chafing chain is in the chock. This chain will be secured to a 15-in. nylon strop previously secured to the tanker's bollards using a 3-in. D-shackle between the strop and the chafing chain. The starboard headrope will be secured in a similar manner. On tankers equipped with a Smit's towing bracket or brackets the chafing chains will be secured to the bracket(s) using the 3-in. open link on the end of the chains. If required on very large tankers additional strops may be secured from other bollards on the bow to the open links on the ends of the chafing chains or additional mooring lines may be run from the bow to the buoy.

HOSES: All vessels calling at Zuluf should have two reducing spools to fit 16-in. standard 150 pound ASA raised face flanges on the port manifold to avoid any delay in connecting hoses.

LOADING: The oil loading operation from the *F. A. Davies* to the loading tanker will be controlled by VHF radio voice communication between the Mooring Master on the loading tanker and the *F. A. Davies*. All operations including switching of tanks and topping off must be directly and personally supervised by a ship's Officer. The max. rate of loading will be 80,000 b.p.h.

Upon being informed by the loading tanker's personnel that the tanker is ready to start loading, the Mooring Master will request the loading operation to proceed according to a previously agreed plan with respect to start-up rates, max. loading rates and topping-off rates. Need for emergency shutdown of loading aboard the loading tanker must be communicated via VHF from the loading tanker to the FSV. No remote control shutdown device is provided to effect shutdown of loading from the loading tanker.

In the event of the failure of the VHF communications system, the loading tanker will sound five long blasts on the ship's whistle. Loading will be stopped and will not be resumed until communications have been re-established.

BALLAST: Due to the exposed location of the berth, tanker should arrive with adequate clean ballast for safe handling, having due regard for existing weather and sea conditions. Masters should contact Zuluf for advice on an appropriate ballast draft and weather conditions at the loading facilities. Aramco is particularly interested in having vessels complete the deballasting operation promptly after berthing in order to minimise time at berth. Simultaneous loading and deballasting is encouraged on properly equipped vessels. Owners/Operators or charterers of vessels requiring time to deballast in excess of what Aramco considers standard will be so notified by letter with a copy of letter to the Master.

CONSTANT READINESS: When moored at the SBM vessels must maintain engines and propulsion machinery in readiness to leave under full power on short notice. Steam turbine vessels to have automatic gear in astern operation position. When unmooring, engines should be warmed up in astern position. No repairs are permitted which would interfere with this requirement. Violation of this rule will entail towage from the berth at the vessel's expense and Aramco will not accept responsibility for the resultant delay to the vessel.

DEPARTURE: Upon completion of loading, documentation procedures and removal of hoses, the loading tanker will be unberthed, normally with the assistance of at least one mooring launch. It is expected that tankers will unmoor without assistance from the mooring launches in adverse weather conditions.

To unmoor from the SBM the "pick-up" ropes are taken to the winch and the weight is taken off the strops. The strops are unshackled from the chafing chains and the ropes are slacked as the tanker backs out of the berth. The ends of the "pick-up" ropes are cast off and float free to await the arrival of the next vessel.

Upon completion of unmooring, the tanker will make a lee and the loading facility equipment will be transferred to the mooring launch and the Mooring Master will disembark.

The tanker will then proceed to the anchorage to await cargo documents and final clearance by Aramco, or depart if final clearance has been given by Aramco.

MEDICAL: No medical facilities are available at Zuluf. Emergencies should be handled by Ras Tanura Port Doctor (Quarantine Officer). The Aramco radio station, HZY, may be used without charge by vessels at sea to obtain medical advice at any time.
FRESH WATER: Not available.
FUEL: Not available.
REGULATIONS: The Saudi Arabian flag must be flown from the foremast while vessel is in the coastal waters of Saudi Arabia. Such flags are available for loan and may be obtained from the Mooring Master. The Saudi Arabian flag is properly displayed when the writing appears on top and the swords at the bottom.

Importation and/or use of liquor or contraband items, or trafficking in such items, is absolutely prohibited. The Saudi Arabian Government rigidly enforces these regulations and penalties are severe. In the event of violation, considerable delay to the vessel involved could occur.
SHORE LEAVE: Crew members of loading tankers are not allowed to leave their vessels.
SERVICES: Crew changes, mail delivery, spares, etc., should be performed at Ras Tanura when passing in ballast or calling for bunkers.
TERMINAL OPERATOR: Arabian American Oil Co.

Senegal

DAKAR: 14.40 N. 17.26 W.

PORT LIMITS: *North:* from the point of Bel-Air by a parallel from North East of the N.E. Jetty of the harbour, to 1 mile North East by a meridian passing 2,900 metres East of the Round-Point determined by the crossing of Felix Eboue and Avenue de la Jetee Nord and by the parallel passing 2,060 metres North of Goree Island.
East: By the meridian passing 1 mile East of Goree.
South: By a line joining the Cape Manuel from the South point of Goree prolonged until it encounters the meridian passing 1 mile East of Goree.
DOCUMENTS:
5 Crew Lists.
2 Lists of Vaccinations.
6 Lists of Passengers in Transit.
6 Lists of Passengers Disembarking.
4 Lists of Crew Personal Effects.
4 Lists of Ship's Stores.
1 Maritime Declaration of Health.
2 Lists of Ports of Call.
5 Ship's Report Inwards.
1 Hatch List.
PILOTAGE: Pilots meet vessels off the North point of the island of Gorée in a naturally sheltered area.
RESTRICTIONS: During the rainy season, all vessels with a draft of more than 32 ft. 6 in. could be delayed due to the effects of swell to stay at anchorage in outer-roads and await meteorological conditions permitting their entry into the harbour.

Use of whistle signals to call Pilot is forbidden between 2200 and 0600 hours. The harbour area is dredged to a depth of 10 to 11 metres.
MAX. SIZE: Ships of 33 ft. draft are able to enter at all stages of the tide by day and night. Vessels up to 36 ft. draft may enter at high tide except possibly during the stormy season, between mid August and Mid October.
HEALTH: Health Officials board vessel immediately after berthing alongside. For passenger vessels, these formalities are effected before berthing to avoid delays. Vessels at sea may obtain medical advice by VHF via Dakar Radio.

Inoculation/Vaccination can be arranged through Agent during weekdays.

Free pratique can be granted via radio by Agent, by using International Code Words "MIBDU/MIJMA".
VHF: The Port Captain's Office, pilot station and tugs are equipped with VHF, with the following channels: Channel 16 used by vessels approaching to contact pilot station or Port Captain's Office; Channel 12 used during manoeuvres for communications between Pilots and tugs; Channel 6 used only by the tug station.
TUGS: Operated by a private company, 4 tugs available up to 2,000 h.p. Compulsory for loaded tankers.
BERTHING: 9,000 metres of quay length available of which more than half has depths of 8 to 12 metres alongside.

Mole D'Escale: 6 berths, depth alongside 10 metres, can be used for vessels refuelling simultaneously with cargo operations.

Pier 718 Phosphate quay (Pechiny). 215 metres long, max. draft of 25 ft. 7 in., loading average of 200 T/hour.

Pier 52 Phosphate quay (TA IBA). 170 metres long, max. draft of 36 ft., loading average of 1,000 T/hour.

The South area has three wharves with a depth of 26–33 ft.

Dock I is 460 metres long.

Berth No. 12 Draft 26 ft. 3 in.
" " 13 " 28 ft. 7 in.
" " 14 " 28 ft. 7 in.
" " 15 " 33 ft.
" " 17 " 33 ft.

Dock II

Berth No. 21 Draft 27 ft. 3 in.
" " 22 " 26 ft. 11 in.
" " 24 " 26 ft. 3 in.
" " 25 " 25 ft. 11 in.

Dock III
360 metres long. Max. draft of 32 ft. 10 in.

TANKERS: The Petroleum Basin is dredged to a depth of 10 to 11 metres. Two jetty berths can receive tankers up to 200 metres length, max. draft 32 ft. 6 in. Petroleum Wharf: 4 berths, depth alongside 12 metres (depth in approaches 11 metres) can receive tankers up to 250 metres length with a draft of 36 ft.
STEVEDORES: Normal working hours, weekdays from 08.00 to 12.00 and from 14.00 to 18.00. Saturdays from 08.00 to 12.00. Overtime, week-days from 05.00 to 08.00; from 12.00 to 14.00; from 18.00 to 22.00; from 22.00 to 05.00. Holidays and Sundays from 00.00 to 05.00; from 22.00 to 24.00.
MEDICAL: *Vaccinations:* Possibilities from 08.00 to 12.00 and 15.00 to 17.00. Sunday and holidays excluded. *Doctors:* All kinds of specialists available. *Hospitals:* With qualified European doctors and good equipment.
FRESH WATER: All quays are fitted with water hydrants. Water supplied by 3 hoses simultaneously, with a rate from 60 to 100 cubic metres per hour. Can also be supplied by barge up to 400 tons capacity.
FUEL: All grades can be supplied from the quays up to 1,000 tons per hour. Fuel can also be supplied by barge.
REPAIRS: All types of repair can be effected by the Naval Arsenal or by private companies.
DRY DOCK: At the Naval Arsenal, one dry dock length 189 metres, width 23 metres, depth up to 9.50 metres.
REPATRIATION: Seamen can be repatriated to Europe without delay by air.
AIRPORT: International airport with regular services to Europe.
TELEPHONES: All berths are equipped with telephone apparatus which is placed on board vessels without charge.
HOLIDAYS: New Year (1st January); Tabaski (Variable Date); National Day (4th April); Easter (Variable Date); Labour Day (1st May); Ascension Day (7th May); Whit Monday (Variable Date); Maouloud (Variable Date); National Day (14th July); Assumption (15th August); All Saints' Day (1st November); Korite (Variable Date); Christmas (25th December);
AUTHORITY: Port Autonome de Dakar.

AGENT: Socopao Senegal, 47 Avenue Albert Sarrault, B.P. 233. Tel. 26600/7. Telex 521. Cables "Freight Dakar".

KAOLACK: 14.09 N. 16.06 W.

DOCUMENTS:
2 Crew Lists.
2 Store Lists.
2 Manifest pacotille (tobacco, wine, etc.). Agents deposit to Customs office.
PILOTAGE: Pilot taken on board, and lands in Dakar. When vessels do not require tank-washing, the Pilot disembarks in roadstead.
ANCHORAGES: Sufficient for three vessels only. About six metres deep.
RESTRICTIONS: Night navigation forbidden in river Saloum.
MAX. SIZE: Length 105 metres (because of river Valor).
HEALTH: Agent signals to Harbour Master. Provisionally vessels quarantine in Dakar. No hospital.
TUGS: No tugs. (Only from Dakar.)
BERTHING: Signalled by flag when berth available. Vessels enter at flood tide so that they can turn at anchorage to be ready for sailing.
MEDICAL: Yellow fever vaccinations only at Dakar. No hospital facilities.
DENSITY: August to December: sea water. January to July: 1·55.
FRESH WATER: Available at ten tons/hour.
FUEL: None available.
GANGWAY/DECK WATCHMEN: Arranged by Agent.
OPENING/CLOSING HATCHES: By stevedores.
CUSTOMS ALLOWANCES: Tobacco, No restrictions, but Customs control on board (declaration on manifest). Crew going ashore only allowed cigarettes marked "Vente au Senegal". Wine and/or Spirit, Not limited, Customs controlled.
IDENTIFICATION CARDS: Not necessary.
CONSULS: None (Dakar only). French Consulate Agent: Mr Jean Guillemot. UTRAM. Tel. 87. Telex Mafic 781 SG.
REPAIRS: None (only Dakar).
REPATRIATION: Not possible (Dakar only).
AIRPORT: None.
TIME: GMT Permanent.
HOLIDAYS: Independence Day (4th April) no loading. Tabasky (dependent on moon phase).
FIRE: Fire Tel. 324.
TELEPHONES: Not possible to place on board.
SHORE LEAVE: Crew members allowed ashore.
PORT REGULATIONS: Vessels must hoist Senegalese flag and notify agent before entering port.
PORT AUTHORITY: Harbour Master Tel. 92.

AGENT: See Dakar.

Seychelles

PORT VICTORIA, Mahe: 04.37 S. 55.28 E.

DOCUMENTS:
Health Certificate – forms obtainable from Medical Officer.
Deratisation Certificate.
5 Crew Lists and Passengers' Lists.
Dangerous Cargo List.
Ship's Register.

PILOTAGE: 24 hours notice, giving draft and length, Telegraphic address "Port Officer" through Cable and Wireless (on CW schedule 500 kc/s. and 8714 megs.) Schedule published in Radio List, VHF to be installed 1973. Pilot boat: white hull with blue cabin, flies "H" flag. Signals for Pilot: "G" by flag and/or whistle and by night "G" by morse. Pilot boat stationed ashore and proceeds to sea to meet approaching vessels 3 cables Northward of outermost buoys in North Entrance Channel. Pilot can board in any weather. While awaiting Pilot, Vessel can anchor in any suitable anchorage in approaches to harbour. Pilotage compulsory for vessels over 150 tons net. entering Inner Harbour.

ANCHORAGES: (1) Anchorage A. In depth of 66 to 72 ft., fine sand and shells. Good holding, 9·75 cables, 058 degrees from Victoria Lighthouse.

(2) Anchorage B. In depth of about 64 ft., sand and coral. Good holding, 8·25 cables, 074 degrees from Victoria Lighthouse.

(3) Anchorage D. In depth of 78 ft. coral and sand. Good holding, 3 cables, 048 degrees from Victoria Lighthouse.

(4) Anchorage E. In depth of about 78 ft., sand and shells. Good holding, 1·25 miles, 089½ degrees from Victoria Lighthouse. Super tankers and large vessels anchor outside the Fairway Buoy in any suitable anchorage. The Master should always contact Port Officer for anchorage instructions if not familiar with harbour.

RESTRICTIONS: All shipping movement in Inner Harbour to take place during daylight hours only. Ships limited to 250 ft. in length. In Outer Harbour, night movement at discretion of Master. No tide restrictions.

HEALTH: "Q" Flag or international red over white. Medical Officer boards vessels at anchor and before entering Inner Harbour. Crew Lists with vaccination dates against smallpox, yellow fever and cholera if vessel from infected places. Health clearance given at Port Victoria only. Hospital facilities available.

RADIO: Cable and Wireless, Port Victoria, Mahe. Call sign ZCQ.

TUGS: Join vessels in Inner Harbour. Ship's lines must be used.

BERTHING: Due to limited space no berth can be reserved either alongside or at anchorage. All assistance given to position every ship in best available place.

STEVEDORES: ETA advice required two to three days before ship's arrival in port. Loading and Discharging: General Cargo: average 8 to 10 tons per hour per gang (subject weather condition). Bagged Cargo: average 10 to 15 tons per hour per gang (subject weather conditions).

TANKERS: No specific requirements. No restrictions in draft. Maximum length to 250 ft. No night discharge. Discharge line 4 in.

DENSITY: Average 1025 at all states of tide.

FRESH WATER: In good supply. By mains when alongside and steel barges when at anchor. All water supplied is chlorinated. Two special steel water barges with capacity of 100 and 80 tons each with pumping capacity of 40 tons an hour per barge.

FUEL: Marine diesel, viscosity 5·5 secs. at 100°F. Gas oil, viscosity 3·4/3·9 secs. at 100°F. Due to limited stock, it is advisable to give one week's notice.

DEVELOPMENTS: New harbour planned. New Jetty to accommodate one vessel of 30 ft. draft and one smaller vessel. Inner Harbour will be provided with lights to facilitate night navigation. Lighthouses under construction on outer islands.

GANGWAY/DECK WATCHMEN: Customs Officer on duty at all times if vessel carries cargo or passengers.

OPENING/CLOSING HATCHES: Normally carried out by Stevedores.

CUSTOMS ALLOWANCE: At Custom Officer's discretion. No fixed allowance.

CARGO GEAR: No local safety regulations required for cargo gear. All cargo slings and gears supplied by ship.

IDENTIFICATION CARDS: Not required.

CONSULS: French, Mr Andre Delhomme, Le Chantier, PO Box 69, Victoria, Mahe. Tel. 2253.

Netherlands, Norway, Sweden, Denmark, Finland and Iceland, Mr. Harold Hunt, Port Victoria, PO Box 83, Mahe. Tel. 2353.

REPAIRS: Only minor repairs to deck: gas welding, pipe bending, etc.

DRY DOCKS: None.

REPATRIATION: Crew changes for British ships and nationalities represented. Repatriations for same by Agents.

AIRPORT: In operation. Several flights weekly.

TIME: GMT plus four hours, throughout year.

HOLIDAYS: *Public and Estate:* New Year (1st and 2nd); Good Friday; Easter Monday; Official Anniversary of the Birth of the Sovereign (8th June); Corpus Christi (15th August); Saints day (November 1st)); Immaculate Conception (December 8th); Christmas Day (December 25th).

TELEPHONE NUMBERS: Police 2011; Fire 2555; Ambulance 2555.

A telephone is placed on board ships alongside for a fee of Rs. 25/- and a daily rate of Rs. 5/-.

SERVICES: No tank-cleaning equipment, no facilities for discharge of tank washing, no compass adjusting, radar or radio engineer available for small repairs.

SHORE LEAVE: All members of the crew are allowed ashore. No limit to shore leave.

DELAYS: Berthing: limited berth, adverse weather conditions. Loading or discharging: weather conditions. Bunkering: space alongside and weather conditions.

AUTHORITY: Port Officer, Port & Marine Department, Victoria, Mahe.

AGENT: The Union Lighterage Company Limited, PO Box 38, Mahe, Seychelles. Tel. 2424 and 2425. Telex Unilight SZ 219. Cable address: "Lighterage Mahe Seychelles."

Sierra Leone

FREETOWN: 08.30 N. 13.14 W.

DOCUMENTS:

5 Crew Lists.
5 Ports of Call Lists.
5 Passengers in Transit Lists.
5 Passengers Landing Lists.
1 Crew Declaration (signed by Crew Members).
1 Store List.
1 Arms Ammunition List.
1 Port Health Declaration.
1 Vaccination List (smallpox, cholera and yellow fever).

Port Health Declaration, Crew Declaration Form and Arms and Ammunition List, all special forms, which obtained from boarding party or, if required, mailed in advance to ship's owners.

1. *For vessels working cargo (discharging):*

(*a*) From each port of loading, by air mail to vessels Agent: 8 copies of Cargo Manifest, 1 copy of Freighted Manifest.

(*b*) On arrival: 4 copies of Cargo Manifests, 1 copy each Bill of Lading (non-negotiable).

Note: Customs and Port Authority insists on documents in English, and that Manifests should show weights and measurements. Non-compliance with these instructions places vessel's Agent in difficult position, and vessel may not discharge without payment of fine.

2. *Required by Port & Stevedores for vessels working cargo:* 4 copies Stowage Plan, 4 copies Hatch Lists.

PILOTAGE: Vessels can enter and leave port anchorage without Pilot. Pilotage only compulsory for vessels berthing alongside Queen Elizabeth 2nd Quay or Kissy Oil Jetty. Upon Master's request, Pilot available at Fairway Buoy with 24 hours notice. Normally only at daylight hours. Port entrance is between Cape Sierra Leone to South and Fairway Buoy to North. Is approximately 1 mile wide and minimum draft 36 ft. To West harbour is protected by sand shoals, nearest to entrance is O'Farrell Shoal about 1½ mile North of Cape Sierra Leone.

Pilots board from a launch painted black, with white superstructure, with letter "P" on each bow.

Aberdeen Signal Station will give an anchorage to every vessel arriving or, if a vessel is berthing on arrival, will advise where the Pilot is boarding. This is normally off the quay. The Signal Station is equipped with VHF, standing-by on Channel 16, switching to Channel 12 for communication.

The Pilot Office, Queen Elizabeth II Quay, is also equipped with VHF, standing-by on Channel 16, switching to Channel 12 for communication. The Port Operations Manager is available on this link.

ANCHORAGE: With Falconbridge Point Beacon bearing as follows (all bearings true): Note: Falconbridge Point Beacon circular steel tower 8 ft. high, painted white with two horizontal black bands; F1. white every 2 seconds.

1700–1730	8710	8354 to 8374 kc/s

Traffic lists broadcast at commencement of every HF schedule, and repeated at intervals during schedule.

Ships' Radiotelephone and Harbour Service: Watch kept on 2182 kc/s for casual R/T traffic from 0730 to 2000 hours GMT on weekdays and 0800 to 1730 hours GMT on Sundays and holidays. Ships advised arrange calls in advance by W/T where possible order ensure called party available take call. Calls can be connected to or from any number on Freetown telephone exchange. Longer range contacts should be in 8 mc/s maritime band, frequency of VPU in this band being 8768·9 kc/s.

Other Services: Navigational warnings broadcast on W/T. GTC beacon signals transmitted upon request. Spoken telegrams accepted at ordinary W/T rates on R/T.

VHF: Watch is kept 24 hours on Channel 16, switching to Channel 26 for communication. Calls can be connected to Freetown telephone exchange. Masters advised that fullest use should be taken of this service, particularly after office hours and during early hours of morning or late at night when no cable service available.

AGENTS CABLE REQUIREMENTS: Masters requested cable ETA as early as possible. Following information required:

(*a*) For vessels working cargo: 1 Discharge or Loading Hatch distribution. 2 Gangs required. 3 If Explosives on board for Freetown or in transit.

(*b*) For vessels bunkering: 1 Bunkers and water required.

(*c*) For Tankers discharging: 1 Total Displacement. 2 Draft. 3 Cargo particulars (quantity and grade).

(*d*) For vessels embarking/disembarking krooboys: 1 If Krooboys provisions required and for how long. 2 Cash requirements. 3 If service on arrival if arriving between 10 p.m. and 7 a.m., bearing in mind the high costs for Customs overtime and port service.

(*e*) In general: 1 Cash requirements. 2 Water requirements. 3 Medical attendance, if required on arrival.

When ETA received and confirmed agent will cable vessel informing despatch prospects and if not berthing on arrival, anchor berth.

Note: For vessels returning to Freetown from round trip to coast, information should be cabled if any over-carried cargo, etc., to be discharged.

TUGS: Two tugs "Farren" and "Fourah" which twin screw, diesel engined, and develop 1,000 h.p. each. "Fourah" only equipped for salvage having fire-fighting equipment and a 10-ton derrick. Normally one tug used for berthing and unberthing operations, but if necessary two. Charges for berthing and unberthing include use of one tug, whether required or not. Tugs' lines £3.

BERTHING: All alongside berths: between hours of 0630 and 2330. Kissy Oil Jetty: vessels of 15,000 tons and upwards, berthing flood-tide only.

Queen Elizabeth II Quay No. 1: Berthing length: no restriction; breadth: no restriction; maximum draft 31 ft. 6 in. At this draft vessels must be 180 ft. from steps East end of quay. Vessels up to draft not exceeding 24 ft. may berth as far east as steps. Unberthing not permitted from 1 hour after high water until 1 hour after low water. Pilots may at their discretion, under favourable conditions, extend these times.

Berth No. 2: As for Berth No. 1, maximum draft 31 ft. 6 in.

Berth No. 3: Berthing and unberthing, length and breadth no restrictions. Maximum draft 31 ft. 6 in. No tidal restrictions.

Berths 4, 5, and 6, Maximum draft 33 ft.

Quay is equipped with 3 electric travelling cranes, the maximum lift being 5 tons. The port is not equipped with any heavy-lift equipment. Produce is loaded from both berths and transported by trailers to ship's side from shipper's shed, close to port area. Facilities for loading Palmkernel Oil available only at Berth No. 1.

Grain discharge facilities also only at Berth No. 1.

Kissy Oil Jetty: Berthing and unberthing restricted as follows: length 600 ft. Pilots at discretion extend this length, taking into account mooring facilities on vessel being available. Breadth no restriction. Maximum draft 32 ft. Jetty restricted to 30,000 tons displacement. Regulations: 18,000 tons to 30,000 tons displacement must berth bows West at slack water or when flood tides does not exceed 2 knots at approach route and alongside jetty. 15,000 tons to 18,000 tons displacement berth slack water or anytime during flood tide, must berth bow West. 15,000 tons displacement or less anytime during flood or ebb tide, bows East or West. Ship's anchor must be used for all vessels.

Pilotage also undertaken to and from Kissy Cold Store Jetty, a private jetty, but pilotage not compulsory.

Kissy Cold Store Jetty: Berthing or unberthing (daylight hours only) maximum length 270 ft. breadth no restriction. Weather must be calm, no swell in harbour, no wind of more than force 2 to 3. Maximum draft 14 ft. 6 in. These vessels can be berthed under less favourable conditions at Pilot's discretion. Berthing and unberthing only 1 hour after high water.

During discharging and/or loading, Customs Officers, normally 2, as well as 2 Port Authority Discrepancy Clerks (only when discharging) will be on board. In accordance with regulations same should be provided with food during normal meal hours. Recommended that vessels provide food in order not to encounter unnecessary delays.

Loading of Transhipment Cargo: Due extremely lengthy procedure and consequently high cost in having transhipment cargo released and brought alongside ready for shipment, officers requested accept this cargo (when consisting of a small number of packages) immediately upon its release from Custom's Warehouse order minimise transhipment expenses.

Sherbro River: Anchorage daylight only. Length of vessel up to 470 ft. Breadth, no restrictions. Max. draft, 24 ft. 6 in.

The Channel between Buoy Point and Yangsai Tree must be navigated only during period two hours to high water, and on a rising tide, buoy point being area which restricts draft. Bagru River Anchorage Buoy 8, length and breadth unlimited. Maximum draft 24 ft. 6 in. Limitations as regards vessel's dimensions, drafts and times at which movements may be carried out should not be deviated from without prior permission of the Harbour Master.

DANGEROUS CARGO: Dangerous cargo, explosives, small arms, ammunition, *must not* be unloaded either alongside or into lighters unless Port Authority has been notified on approved form, and has given permission for cargo to be discharged. Vessels should cable prior arrival if dangerous cargo for discharge on board.

LIGHTERAGE: Sierra Leone Ports Authority operates lighter fleet, presently 14 lighters and 2 tugs for handling. Lighters mostly used order minimise berthing delays and generally only bulk cargo such as sugar in bags, etc., discharged by lighters. Lighterage effected 24 hours a day at anchorage, and capacity each lighter about 100 tons/5000 bale. Lighterage fleet operated from former lighterage quay east of Queen Elizabeth II Quay. Lighterage will take place only at discretion of Port Manager, and condition of the lighterage fleet is rather poor.

STEVEDORES: (See "Agents Cable Requirements") ETA as soon as possible. Discharge/loading hatch distribution. Gangs required. Bunkers and water requirements information re explosives. For tankers discharging – total displacement and draught. Work ashore undertaken by Sierra Leone Ports Authority on cargo quay, Queen Elizabeth II Quay, whilst work on board as well as discharging and/or loading to or from lighters at stream undertaken by private stevedoring companies, generally same as vessels' agent.

Working hours alongside quay: Total hours: from 0800 to 2200 hours. Normal working hours from 0800 to 1200 hours, from 1300 to 1700 hours, Saturdays: from 0800 to 1200 hours.

No meal-break but the hour 1200 to 1300 counts overtime.

Working at Stream: Discharging and/or loading to or from lighters effected 24 hours a day. Gangs can be arranged at anytime between 0730 hours and 1800 hours week-days as well as Sundays, etc.

MEDICAL: Hospital facilities available.

TANKERS: No special requirements. One berth, maximum length 600 ft. (may be extended by arrangement with Pilot). Maximum draft 32 ft. Maximum disp. tonnage 30,000.

DENSITY: 1018 to 1025.

FRESH WATER: Queen Elizabeth Quay 30 tons per hour; Water barge 30 tons per hour; Kissy Oil Jetty 12/15 tons per hour.

FUEL: Most grades 12 hours.

BUNKERS AND FRESH WATER FACILITIES: Each berth (Queen Elizabeth II Quay) gives opportunity for bunkering, suppliers Shell and Mobil, and also supplies fresh water. Vessels can also take bunkers and water at Kissy Oil Jetty as well as ex. barge. Fresh water ex. barge and on quay supplied by Ports Authority and 3 barges of 110/130 tons capacity available. Bunkers barge supplied by Texaco/Caltex/BP, by two barges, each with capacity about 700 tons d.w. Delivery rate for bunkers about 150/200 tons an hour, for water between 20/35 tons.

GANGWAY/DECK WATCHMEN: Strongly recommended, available through Agent.

OPENING/CLOSING HATCHES: Stevedores.

CERTIFICATES:

Ship's Register.
Deratisation Certificate.
Deck Passengers Certificate.
Radio Certificate.

CUSTOMS ALLOWANCES: Tobacco, 40 cigarettes *or* ¼ lb tobacco. Wine and/or Spirits, ¼ bottle of spirits. Master – 200 cigarettes and one opened bottle of spirit.

IDENTIFICATION CARDS: Not required.

PEPEL 08.34 N. 13.04 W.

On Sierra Leone River, 15 miles upstream from Freetown. Approach Channel between Freetown anchorage and Pepel is fully buoyed. No night navigation.
DOCUMENTS: See Freetown.
PILOTAGE: Private pilotage undertaken by mining Company's Pilots who board Freetown anchorage, 48 hours ETA required, cable "Mags Freetown Sierra Leone", giving ETA Fairway buoy, quantity water/fuel required, asking free pratique, and if Pilot required to Freetown anchorage.
ANCHORAGE: See Freetown.
RESTRICTIONS: Draft only, decided at discretion of berthing master. Entry daylight hours only. Channel between Pepel and Freetown is now deepened so that depth in channel is 38 ft. plus height of tide According official tide tables, range of high tides is from approximately 7 ft. to 11 ft. above Admiralty Chart Datum.
MAXIMUM SIZE: Length 840 ft., beam 128, depth water 38 ft. plus height of tide which ranges from 7 to 11 ft. above Chart Datum. September to December additional draft restrictions due Channel Silting.
HEALTH: See Freetown. 48 hours advance warning for free pratique.
TUGS: Not used.
BERTHING: Milton Margai Pier only. Loading up to 3,000 tons per hour according to size of vessel.

New dolphin mooring system installed to permit handling larger ships. Depth alongside 45 ft.

Shiploaders maximum boom height when in horizontal position is 71 ft. above Chart Datum, with maximum outreach 87 ft. from berthing line. Loading rate now increased to 4,000 tons per hour.

Under the new conditions, limiting dimensions for ships (which must be equipped with satisfactory mooring equipment): Length overall 840 ft. Moulded breadth 128 ft.

Allowance must be made for safe navigation, permissible sailing draft of all ships will, as at present, remain absolutely at discretion of Berthing Master at Pepel or his deputy. It is possible that yearly during the months of September to December an additional draft allowance will have to be imposed by reason of seasonal silting of the channel, but it is intended to carry out annual maintenance dredging.

Company will be prepared to consider acceptance of ships having dimensions in excess of those above but only after specific approval of fully detailed plans of each ship concerned and, in any event, not in excess of dimensions Length overall 870 ft. Moulded breadth 136 ft. Moulded depth 73 ft.

Berthing displacement 63,000 tons on an even keel ballast draft of 23 ft. forward and aft on berthing.
STEVEDORES: Available.
FRESH WATER: Available, 48 hours notice required.
FUEL: Limited supplies available, 48 hours notice required.
GENERAL: See Freetown for all general information.
TIME: GMT throughout year.
TELEPHONES: None available.
SHORE LEAVE: Not allowed. Customs and Immigration regulations prohibit any member of crew from disembarking at jetty or other works.
DELAYS: First come first served.
AUTHORITY/AGENTS: Mining & General Services Ltd., PO Box 68, Freetown. Tel. Freetown 4427; Telex Freetown 226. Cables "Mags". Lloyds Agents.

Singapore

SINGAPORE: (incl. Jurong, Pulau Bukom, Pulau Ayer Chawan and Tanjong Penjuru) 01.16 N. 103.50 E.

DOCUMENTS:
4 Ships Passenger Lists.
10 Crew Lists.
5 Cargo Manifests.
Customs Declaration of duty free liquor and tobacco Form (C and E 117) to be furnished by Master to Customs boarding officers. Master, mate, or authorised officer required to furnish information asked for by Officer i/c of Customs Boarding Party for Boarding Officer's Report (this only required if ship is to be searched).
Immigration: Four copies Crew List and two copies each of Disembarking and Through-passenger Lists on arrival. At departure, two copies Crew List and two copies Passenger List.

Declaration regarding presence on board of any stowaway, unauthorised person and/or repatriate.
Marine: All vessels: General Declaration on arrival or departure.
Port Health: Entry Declaration. Deratisation or Exemption Certificate. Vaccination Certificate requirements – Cholera: from infected local areas, except children under 1 year of age. Smallpox: from all countries, except children under 1 year of age if they arrive from a non-infected area or under 6 months of age if they arrive from an infected area.
Note: Additional measures may be applied to unberthed passengers if ship comes from infected port or a port in free communication with infected areas.
Crew Lists. Passenger List.
PSA (The Port of Singapore Authority): Arms and Explosives, and Dangerous Goods and Petroleum Declaration.
TRAFFIC LANES:
1. *The Sisters Channel* defined as the navigable water contained between Sisters Island and west St. John's Island, extending from a line joining Beacon 15 (Terumbu Selegi) to the northern end of Pulau Tekukor, and along the navigable channel margins projected tangential to the eastern side of the Southern Sisters Island and the western side of west St. John's Island until they meet a line joining the Southern extremity of west St. John's Island to Beacon No. 45, is designated an *Inwards Channel Only*.
2. *The Middle Channel* defined as the navigable water contained eastwards of a line projected in a 131° direction from the charted position of the Sisters Buoy, to where it meets a line joining the southern extremity of west St. John's Island to Beacon No. 45, thence along that line eastwards, to where it intersects a line lying in a 131°–311° direction drawn through the charted position of a channel buoy laid in position bearing 266° at one mile from S.W. extremity of Southern Sisters Island. Thence 311° to the southern limit of the Alternative Quarantine & Immigration Anchorage, thence along that limit to the charted position of the Sisters Buoy, is designated an *Inwards Channel Only*.
3. *The Sebarok Channel* defined as the navigable water contained westwards of a line projected in a 131° direction from the charted position of the Sisters Buoy to where it meets a line joining the southern extremity of west St. John's Island to Beacon No. 45, thence westwards along that line to where it meets a line joining Pulau Jong Trig. Station to Beacon No. 45, thence 313° to Pulau Jong, thence along a line extending from Pulau John Trig. Station to the charted position of the Sisters Buoy is designated an *Outwards Channel Only*, except for those inward bound ships of such draught as precludes their safe use of the aforementioned Middle Channel.
4. *The Southern Fairway* defined as the navigable water contained between lines joining Beacon No. 45 to the Southern extremity of West St. John's Island, thence to Peak Island Light Beacon, thence with Beacon No. 39 in transit with Peak Island Light Beacon to the Southern port limit, thence Westwards along the Port Limit until Beacon No. 45 bears 313°, thence along that line to Beacon No. 45 is designated a fairway for vessels intending to enter or leave the port via the Sisters Channel, Middle Channel, or Sebarok Channel, whether from or to sea, or from or to the Eastern sector of the port. The Southern Fairway is to be considered sub-divided by a median line extending from the Western limit to the Eastern limit of the fairway. All westbound vessels are to keep Northwards of the median line, all eastbound vessels are to keep Southwards of the median line.

PILOTAGE: Compulsory in Keppel Harbour, including East Lagoon, the Western Sector and Sembawang from Johore Shoal Buoy to the Causeway. Contact Pilot with not less than two hours' notice, telegraphic address "Pilots Singapore". Vessels requested to report ETA when within 20 miles of the port. VHF safety and calling, Channel 16; port information, Channel 12; Pilots, channels 20 and 22.

Vessels approaching from West pick up Pilot in approx. position 01° 12′ 24″ N., 103° 51′ 30″ E., and from East at approx 01° 13′ 4″ N., 103° 51′ 8″ E. Vessels bound for Jurong can obtain Pilot at West Jurong Anchorage by calling "Jurong Control" on Channel 21. Pilot ladder required.
ANCHORAGES: As indicated on BA Charts of port area. Note: Revision and realignment of anchorages is due; these will appear on the appropriate charts. Anchorage prohibited in vicinity of SBM moorings.

Masters are required to notify Port Authorities of anchorage bearings after anchoring.
MAX. SIZE: Length, no restrictions. Breadth, no restrictions. Draft, Keppel Harbour 33 ft. at zero tide; Empire Dock 27 ft. at zero tide; Jurong Wharves being dredged to 38 ft. at zero tide.
Oil Installations: see "Tankers" below.
CLEARANCE: The Master of any vessel entering Singapore may apply for radio pratique to the Port Health Office through his local Agent, not less than 12 hours or more than 24 hours prior to arrival in Singapore.

All applications should be accompanied by answers to the Port Health Questionnaire.

Free Radio Pratique will not be granted in the following cases:
(*a*) Vessels with a case or suspected case of infectious disease on board.
(*b*) Vessels with a dead body on board.
(*c*) Vessel which has visited plague-infected ports during the current voyage.
(*d*) Passenger vessels, excluding cargo vessels with 12 or less passengers.

The provisional pratique by radio is a quarantine clearance by the Port Health Officer on duty. The clearance permits a vessel to pro-

ceed directly to berths or working anchorages and begin normal business activities without the inspection of the Port Health Officer.

The granting of radio pratique clears the vessel only as far as the Port Health Officer is concerned, and it neither exempts the vessel from the requirements of other government agencies prior to commencing operations, nor a vessel from quarantine inspection and other control measures, subsequently deemed necessary by the Port Health Officer.

Vessels wishing to communicate with the Port Health Officer should do so on VHF Channel 12.

All ships other than gazetted mail ships, arriving within 5 days of departure from a cholera infected port, or within 14 days of departure from a smallpox infected port, or from a Vietnam port, should await health clearance at Quarantine Anchorage displaying appropriate signals.

All ships with suspected infectious disease on board should radio information to Port Health Officer and await clearance at Quarantine Anchorages. All vessels upon arrival required to anchor in Eastern Principal Anchorage (alternatively Western Principal Anchorage during the N.E. monsoon, approx. December to March), unless Health and Immigration exemption has previously been granted. Vessels from non-infected ports can obtain free pratique. Vessels from infected ports must fly "Q" flag for Port Health. Vessels must also fly pennants 2 over 5 (alternatively 3 over 4 when there are passengers aboard) for immigration.

Corresponding night lights red over white for Port Health and two green for Immigration. Once vessel has been cleared by Port Health and/or Immigration she must proceed to allotted berth/anchorage. On sailing, unless exemption granted, vessels must return to Principal Anchorage for Immigration Clearance; 2 hours notice required of departure.

RADIO: Singapore Radio. Frequency 156·8 m/cs. R/T call frequency 2182 kc/s. VHF Hague Plan Channel 16. ETA should be reported 20 miles out to "Faber Operations" Channel 12.

TUGS: PSA operates 7 tugs – 6 of 1,100 bhp and 1 of 500 bhp. One private company operates two 2,000 bhp. Shell operates 2 tugs approximately 1,500 bhp. A number of privately owned salvage tugs make the port their base.

Tugs join anywhere in port limits by pre-arrangement with Pilots. Normally ship's line used. All PSA and Shell tugs carry tow ropes for use if required. PSA charge for use of tow rope.

BERTHING: Vessel's Agents should submit to Authority a Schedule "A" (Application for Berth) giving overall length, maximum draft alongside, ETA and ETD of, and list of dangerous cargo on board vessel at least 24 hours before berth required.

CARGO-HANDLING FACILITIES: Vessels working only general cargo will normally be berthed at PSA Wharves in Keppel Harbour. Adjacent to these Wharves is the East Lagoon Container Port, where one berth is already operating and two more scheduled for completion mid-1973. Depth 44 ft.

Additionally, there is a smaller berth for container feeder ships. Jurong Port, with its five wharves, is designed as a bulk handling terminal with facilities for the discharge of grain (by elevator), sugar, fertilisers, cement, clinker, sulphur, etc. Shore bulk-handling cranes are used. Bundled timber is extensively loaded at Jurong; also at Sembawang.

STEVEDORES: Labour should be ordered by 0900 hours for 2nd shift (1500 to 2300) on same day and by 1300 hours for 1st shift (0700 to 1500 hours) for next day. Vessels normally work 3rd shift (2300 to 0500 hours). Minimum 24 hours notice to Agent of gangs required.

MEDICAL: When infectious disease not suspected, permission will be granted by Port Health Officer to Agent to take doctor on board and remove the case, if necessary, to hospital. Preferably as much notice as possible. Several hospitals, General Hospital, Gleneagles, Mt. Alvernia. Cholera, smallpox, plague, etc., are not endemic in Singapore.

TANKERS: Eastern and Western Petroleum anchorages or installations. Limited slop (residue) discharge facilities at Shell, Pulo Bukom and Mobil, Jurong. Maximum i/d of discharge hose: 8 in. Smoking not permitted during period tanker alongside PSA wharves. Grades permitted for discharge along PSA wharves: (*a*) marine diesel oil, (*b*) fuel oil.

Shell

Pulau Bukom – 10 berths and conventional buoy mooring.

Berth	*Length*	*Depth LWS*	*Displacement*
1A	200 ft.	10 ft.	670 tons
1	700 ft.	33 ft.	33,000 tons
2	700 ft.	33 ft.	33,000 tons
3	700 ft.	34 ft.	33,000 tons
4	700 ft.	34 ft.	43,000 tons
5	650 ft.	41 ft.	45,000 tons
6	800 ft.	45 ft.	92,000 tons
7	700 ft.	37 ft.	65,000 tons
8	800 ft.	41 ft.	65,000 tons
9	600 ft.	41 ft.	33,000 tons
CBM	1,200 ft.	65 ft.	250,000 tons

Esso

S.B.M.—A large orange coloured Single Buoy Mooring for discharging VLCC's has been established at the western entrance to Selat Sinki, exhibiting a quick flashing orange light in position Lat. 1° 13′ 51″ N., Long. 103° 41′ 29″ E., B. A. Chart No. 2165 and H. O. 3748. On the sea bed, a submarine oil pipeline extends from the SBM to the southern shore of Pulau Ayer Chawan. A floating pipeline extends from the SBM for several hundred feet into the surrounding area. The floating pipeline revolves around the buoy, and its direction from the buoy at any time will depend on wind and tide. The floating line will be marked with a flashing blue light at its outer end from sunset to sunrise. Mariners are advised to give the SBM a wide berth at all times, and on no account to attempt to pass between the flashing orange coloured light and the flashing blue light.

Pulau Ayer Chawan

Berth No. 1 length 270 ft., draft 42 ft.
Berth No. 2 length 620 ft., draft 42 ft.
Berth No. 3 length 740 ft., draft 42 ft.
Berth No. 4 length* 820 ft., draft 52 ft.
* Vessels up to 1000 ft. acceptable in ballast.

Caltex

Tanjong Penjuru – Two berths (No. 1 and No. 2) accommodate vessels alongside up to 45 ft. maximum draft.

Mobil Jurong – Maximum depth alongside:

Berth No. 1 – 46 ft. LWOST
Berth No. 2 – 42 ft. LWOST
Berth No. 3 – 22 ft. LWOST

B.P. Refinery

Pasir Panjang – Three berths at refinery. Small jetty inside harbour known as Jetty No. 2 and can receive small vessels up to 1,000 tons as water depth only 13 ft. below ACD.

No. 1 Jetty at South-west side of Tanjong Berlayer can accommodate vessels up to 33,000 tons at offshore mooring where dredged channel 35 ft. below ACD. Berthing cannot be effected for 43 days of year due strong tidal currents.

At Jetty No. 1A which is Northwards extension from Jetty No. 1 trunkway, vessels up to 5,000 tons can be berthed; water depth 30 ft. below ACD. Simultaneous mooring of vessels at Jetties Nos. 1 and 1A not allowed as floating hose used to connect Jetty No. 1 to ship at mooring buoys.

There are slop reception facilities at Pulau Sebarok, administered by the PSA, and at Sembawang Shipyard.

DEVELOPMENTS: Jurong Shipyard is being extended to accommodate vessels up to 250,000 dwt.

At Sebawang Shipyard, a new dock with capacity of 400,000 dwt. under construction.

DENSITY: Usually between 1019 and 1022 unaffected by tide or temperature variations. Variation due to periodic heavy run-off of rain water.

FRESH WATER: Good pure water available at wharves Keppel, Jurong, Pulau Bukom and Mobil Jurong. Also by PSA Waterboats. Shore supply through hoses (2½ in. dia., approx. 20 to 25 tons per hour outlet.

FUEL: All grades available alongside PSA wharves and ex installation, otherwise by barge. Marine diesel oil 40 sec. to 100 sec. Heavy fuel oil 700 sec. to 1,000 sec. Thinned fuel 433 sec. to 450 sec. Blended fuel 200 sec. to 430 sec.

FIRE PRECAUTIONS: Normal precautions with respect to cargo vessels, vessels under repair, etc. Fire boats available. Oil companies apply own regulations at installations.

GANGWAY/DECK WATCHMEN: Recommended, particularly in Roads. Agents normally arrange. Cost varies.

OPENING/CLOSING HATCHES: Conventional hatches by stevedores. Mechanical hatches usually by ship's crew.

CERTIFICATES: If dangerous drugs on board, an export authorisation from country of origin and an import authorisation from country to which drugs being conveyed should be available for sighting and endorsement.

All vessels	Certificate of Registry or Tonnage Certificate. International Load-line Certificate or equivalent.
Passenger ships	Passenger Safety Certificate issued under International Convention for Safety of Life at Sea 1960 or the Simla Rules 1931.
Cargo ships	Safety Equipment Certificate (if over 500 tons gross) or equivalent. Radiotelegraphy Certificate or Radiotelephony Certificate whichever is applicable.

CUSTOMS ALLOWANCE: Tobacco: for crew and transit adult passengers. First day of arrival 50 cigarettes or 15 cigars or other tobacco 2 oz.; and for each subsequent day to the maximum of 7 days. 25 cigarettes or 7 cigars or other tobacco 1 oz.

Wine and/or Spirit: Wine allowance, one quart bottle per day to maximum of 8 days. Spirit allowance, ⅞ reputed quart (in opened bottles) on first day of arrival and ⅛ reputed quart per day for rest of 7 days.

CARGO GEAR: Possession of valid test certificates. At PSA wharves, if gear appears faulty, an inspection by competent Port Officer may be required.

IDENTIFICATION CARDS: Sect. 22 (1) (c) of Ordinance provides for issue of Seamen's Identification Card as set out in First Schedule to the Immigration Regs. 1966, but rarely issued nowadays. Normally accept passports, discharge books or any identification cards issued by masters of vessels for purpose of granting shore leave to crew members, provided these documents sufficiently identify person concerned.

Gate Passes issued against crew list at wharves and installations. No passes required from roads, although some form of identification advisable.

CONSULS: Consuls, Embassies and High Commissions. America, Argentina, Australia, Belgium, Bulgaria, Burma, Cambodia, China, Denmark, France, Germany, Greece, India, Indonesia, Israel, Italy, Japan, Malaysia, Netherlands, New Zealand, Norway, Pakistan, Panama, Philippines, Poland, Portugal, Romania, Saudi Arabia, Sweden, Switzerland, Thailand, Russia, U.A.R., U.K., Vietnam.

REPAIRS: All types of repairs (hull, engine and electrical including navigational aids) carried out. Facilities also available for repairs out afloat while vessel in anchorages.

DRY DOCKS: Eight graving docks and seven floating docks available at three shipyards.

Jurong Shipyard; largest dock, 260 metres length, 66 metres wide, depth 12 metres for vessels up to 100,000 tons dwt.

Keppel Shipyard; largest dock, length 885 ft., beam 92 ft. 6 in., depth 33 ft.

Sembawang Shipyard; has dry dock facilities for up to 100,000 ton vessels and repair berths with 40 ft. depth of water alongside.

REPATRIATION: Ships' Agents responsible for repatriating seamen. Mercantile Marine Office undertakes repatriation of distressed British seamen on behalf of Board of Trade, United Kingdom, whenever necessary. Seamen who hold proper documents which ensure entry into their countries of origin, citizenship and destination are normally granted Special Passes after discharge for purpose of repatriation.

AIRPORT: Six miles from city. Regular and frequent services to all parts of the world.

TIME: Singapore time, GMT plus 7½ hours. No seasonal change.

HOLIDAYS: Work can be arranged on all eleven Public Holidays. New Year's Day; Chinese New Year; Hari Raya Haji; Good Friday; Labour Day (1st May); Vesak Day; National Day (9th August); Deepavali; Hari Raya Puasa; Christmas Day.

POLICE/AMBULANCE/FIRE: City Police 999; Fire/Ambulance only, 28111; Flag signal: S over T. VHF channels 12 or 16. PSA Police 222; Fire 209 or 333; Ambulance 76021.

TELEPHONES: Available on board vessel at PSA wharves only.

GENERAL: Master of any vessel in territorial waters of Singapore shall obey any signal from a preventive vessel and any instruction from officers of Customs. Customs officers shall have free access to any part of vessel and have powers to mark, lock or seal any dutiable goods on import including sea stores.

SERVICES: Following additional services available: Cleaning and preparing ship's tanks. Cleaning, scaling and painting. Insulation. Interior decorating and furnishing. Refrigeration and air-conditioning. Chemical cleaning of boilers, etc. SCAMP underwater cleaning service.

Services of following Classification Societies available: Lloyds Register of Shipping. Det Norske Veritas. American Bureau of Shipping. Bureau Veritas. Nippon Kaiji Kyokai. Germanischer Lloyd. Polski Register Stratkow. China Corporation Register of Shipping.

Compass adjusting and DF Calibration. Radar and Radio servicing depots.

SHORE LEAVE: No restriction on crews landing after Immigration and Health formalities have been satisfactorily completed. With rare exception (e.g. CPG Crew), all *bona fide* crew of a vessel allowed shore leave on strength of their passports, discharge books or identification cards.

DELAYS: Normally none. Occasional congestion due to prolonged rainy weather or other abnormal conditions.

AUTHORITY: Port of Singapore Authority (PSA), POB 300 Singapore. Tel. 76021. Telegraphic: "Tanjong" Singapore.

The Marine Department is administered by the Director of Marine (who is also Port Manager).

Society Islands

BORA BORA (Vaitape): 16.31 S. 151.45 W.

DOCUMENTS: All vessels arriving in French Polynesia must first call for clearance at Papeete, or at Uturoa, or at Taiohae. See "Papeete" for documents required.

PILOTAGE: There is no pilotage station at Bora Bora; a Pilot will be provided at Papeete. Vessels are requested to advise their Agents at least 15 days before arrival of their ETA, length and draft of ship. In addition, Masters should confirm their ETA to the Port Captain of Papeete at least 3 days before arrival. Telegraphic address is Capitaine de Port, Papeete.

ANCHORAGE: Vessels may anchor in the port roads in depths of 34–21 metres. Good holding ground in sand and coral.

RESTRICTIONS: Night pilotage is impracticable due to the absence of lighted navigation marks.

MAX. SIZE: Lengths 220 metres, beam 30 metres, draft 9·60 metres.

HEALTH: Vessel should ask for free pratique by radio message to Santé Maritime Papeete, via coast station Mahina. This message to be sent 24 hours before arrival.

RADIO: Mahina Radio, call sign FJA, operating 24 hours per day on 500, 2,182 and 8,230 khz.

TUGS: No tugs available at Bora Bora.

BERTHING: One quay, 132 metres length, situated in Faanui Bay. Depth alongside 7·30 metres. This quay was constructed during the 2nd World War and is in poor condition, only used by small warships and yachts. One other quay 40 metres long and with depth alongside 4 metres. Situated at Vaitape. Used by barges.

MEDICAL: No doctor available, but there is a local infirmary.

FRESH WATER: Not available.

FUEL: Not available.

CUSTOMS ALLOWANCES: No restrictions for crew members, but all tobacco and alcohol must be declared. Crew men going ashore may not take more than 2 packets of cigarettes.

AIRPORT: Situated 7 kms. from Vaitape, only inter-island services.

TIME: GMT minus 10 hours. No change during the year.

HOLIDAYS: See "Papeete"

SHORE LEAVE: Allowed.

AUTHORITY: Chef de Post, Bora Bora.

PAPEETE: 17.33 S. 149.34 W.

DOCUMENTS:

Required by Port Health:
- Maritime Declaration of Health (form provided by the Pilot).

Required by Police:
- Crew List.
- List of Passengers Disembarking.
- List of Passengers in Transit.

Required by Customs (2 copies of each):
- Manifest of Cargo for Discharge.
- Provisions List.
- Mail List.
- Crew Personal Effect List.
- Bonded Stores List.
- Ship's Spares List.
- Crew List.
- List of Passengers Disembarking.
- List of Passengers in Transit.
- List of Animals Disembarking.
- List of Animals in Transit.
- Complete Cargo Manifest.

Required by Port Captain:
- Entry Declaration (from supplied on arrival).
- Crew List.
- List of Passengers Disembarking.
- List of Passengers in Transit.

PILOTAGE: Vessels are requested to advise their Agents at least 3 days before arrival giving their ETA, length and draft of the ship, amount of cargo for discharge and any other requirements. In addition, Masters must give their ETA 24 hours before arrival to Capitaine de Port, Papeete. Pilot station and pilot launches are equipped with VHF and may be contacted on Channel 16 when within 30 miles. Pilot launches have grey painted hull with a white band, with wheelhouse on the fore part. The pilot flag is described as the colours of code flag "W" upside-down. International code flag signals may be used to call Pilot. Pilot boards about 1½ miles from the entrance channel. There is no anchorage outside the port for ships awaiting a Pilot.

Pilotage is effected from 0500 to 2200 for entering vessels. For departing vessels, pilotage available up to 2400 hours.

ANCHORAGE: Vessels up to 205 metres length can anchor in the port roads in depths of 18–25 metres. Good holding ground in mud.

MAX. SIZE: Length 220 metres, beam 30 metres, draft 10 metres.

HEALTH: Vessels should ask for free pratique by radio to Santé Maritime Papeete, via Coast Station Mahina Radio. This message should be sent 24 hours before arrival. Pratique is automatic for vessels coming from another Polynesian port.

RADIO: Mahina Radio, call sign FJA, operating 24 hours per day on 500, 2,182 and 8,230 Khz.

VHF: The Port Captain's Office is equipped with VHF. Watches are kept on Channel 16 when a ship is expected.

TUGS: Tugs join ships as soon as they are in the entrance channel. Generally, tow-lines are not required, as tugs push the vessels only. There are three tugs available up to 1,200 h.p. belonging to the Port Authority, and in addition, there are two naval tugs up to 700 h.p. which may assist if required.

BERTHING: Passenger Quay: 233 metres length, two berths, depth alongside 9 metres.

Cargo Quay: 450 metres length, depth alongside 10·50 metres.

STEVEDORES: Cargo information should be confirmed to the Agents with ETA 48 hours before arrival.

MEDICAL: Advance notice required if medical attendance needed on board. Two hospitals available. Passengers disembarking must present a valid vaccination certificate.

TANKERS: One tanker berth, 105 metres long. Max. allowed draft 9·60 metres. Discharging hoses are: Mobil Oil 8 in., Standard Oil 6 in.

FRESH WATER: Available from pipe-lines on all quays. Loading rate is 50 tons per hour at passenger and cargo quays and 30 tons per hour at the tanker berth.

FUEL: Diesel and light fuel available subject to one week's notice.

DEVELOPMENTS: Construction of a new quay for passenger vessels up to 300 metres length.

Dredging harbour entrance to widen channel to 160 metres width 12·50 metres depth.

WATCHMEN: Services of shore watchmen are necessary. Hatches opened and closed by crew if they are of mechanical type, otherwise the stevedores will perform this operation.

CUSTOMS ALLOWANCES: No restrictions for crew members but all tobacco and alcohol must be declared. Crew members going ashore must not take more than 2 packets of cigarettes. Passengers disembarking may take 200 cigarettes or 50 cigars or 400 grammes of tobacco and one bottle of alcohol.

CONSULS: The following countries maintain representatives at Papeete:

Austria	China	Norway
Belgium	Denmark	Sweden
Chile	Netherlands	

REPAIRS: Woodwork, electrical and welding repairs can be effected. There are 2 floating docks for vessels up to 3,500 tons.

REPATRIATION: Can be effected.

AIRPORT: Tahiti – Faaa Airport is situated 6 kms. from the port. Regular international flights.
HOLIDAYS: 1st January, Easter Monday, 1st May, Ascension Day, Whit Monday, 14th July, 15th August, 1st November, 11th November, 25th December. No work is carried out on Sundays or on 1st May. All other holidays can be worked on double overtime rates.
TIME: GMT minus 10 hours. No alterations during the year.
POLICE/FIRE/AMBULANCE: Police 17; Fire 18; Ambulance 2 96 74.
TELEPHONES: Can be installed on board vessels at all quays.
SHORE LEAVE: Allowed without restriction.
AUTHORITY: Capitaine de Port, Papeete. Tel. 20189.

Solomon Islands

GIZO: 08.05 S. 156.52 E.

Gizo is the copra and cocoa receiving centre for Western Solomons. Situated on Gizo Island West of New Georgia. Entrance to harbour is beaconed and a jetty with depth alongside of 9ft. Sheltered anchorage available in 16 fathoms. The British Solomons Trading Company Ltd. provides stevedores and conducts a lighterage handling and warehousing service to Importers and Exporters. Framework warning stations at foot of 300 ft. hill near Eastern end of township. When one board displayed, vessel occupying timber loading wharf. When two boards displayed, vessel occupying copra loading/general discharge anchorage. When three boards displayed, approaches must be kept clear as vessel is preparing to leave.

HONIARA: 09.25 S. 159.58 E.

DOCUMENTS:
Clearance from last port.
3 Crew Lists.
3 Passenger Lists.
2 Entry Inwards Forms.
2 Stores Lists.
2 Crew's Stores Lists.
Manifest
Bills of Lading.
2 Unmanifested Cargo Lists.
Ship's Bad Order List.
1 copy Maritime Declaration of Health.

PILOTAGE: 24 hours notice ETA stating number of passengers, dangerous cargo, etc., to Harbour Master, Honiara, via Honiara Radio. Usual signals. Pilot boards from launch marked PA about ¾ mile N.E. Pelope Shoal. Vessels normally berthed port side to. Pilot uses port gangway in calm weather.
ANCHORAGES: East of Port Main Leading Lights. F1. white and fixed green, in about 20 fathoms; coral bottom.
APPROACHES: Approaches free from dangers provided vessels keep at least 2 cables off Point Cruz Beacon, identified by quick flashing red light. On foreshore in front of Shell Oil Storage Tanks is beacon with fixed green light, and above on Vavaya Ridge is white light flashes every 5 seconds from car on radio station building. When in line these two lights give correct approach to anchorage in 20 fathoms on, or East of, the line. Prevailing winds during South-east season blow from North-easterly direction sometimes reaching force 4 to 5 in early afternoon. During North-west season direction and force variable generally between North and West up to force 4 and occasionally force 5.
RESTRICTIONS: Berthing in daylight hours only – departure any time.

BERTHING: *East Bank:* No. 2. Quay depth 35 ft.; No. 3. Quay depth 32 ft.; No. 4. Quay depth 28 ft.; No. 5. Quay depth 35 ft.; No. 6. Quay depth 35 ft. *West Bank:* Commercial Berths depth 35 ft. Oil Tanker Berth depth 35 ft.

CARGO HANDLING FACILITIES: One berth equipped with bulk loading of maize. One berth equipped for discharging bulk petroleum products. All other berths for general cargo. Provision for handling of containers under consideration.

MEDICAL: Unrestricted hospital facilities. Medical assistance must be arranged through Agents.

TANKERS: One tanker berth suitable for vessels of 670 ft. length with maximum draft 32 ft. 6 in. Diameter of hoses, 12 in.

DENSITY: 1025.

FRESH WATER: Delivery by hose ex-wharf hydrants. Rate of delivery 60 tons per hour.

FUEL: 48 hours notice required. All grades of fuel available.

OPENING/CLOSING HATCHES: Mechanical hatches opened/closed by crew. Other types of hatches by stevedores.

CERTIFICATES:
- Safety Certificates in respect of construction and gear.
- Radio Certificate.
- Load-line Certificate.
- De-ratisation Certificate.
- Certificate of Competent Officers (passenger ships only).

CUSTOMS ALLOWANCES: 200 cigarettes or 5 lb. tobacco. Officers only allowed one bottle spirits.

CARGO GEAR: All cargo handling equipment must be in good condition and certificates available for inspection.

IDENTIFICATION CARDS: Required, otherwise National Identity Cards, if available.

CONSULS:

Belgium	Germany	Norway
Denmark	Italy	Portugal
France	Netherlands	Sweden

REPAIRS: All types of repairs can be undertaken.

DRY DOCKS: Princess Elizabeth Graving Dock. Dock length 686 ft., width at entrance 89 ft. 3 in., depth on entrance 33 ft. 6 in. entrance sill 33 ft. 6 in.

REPATRIATION: All facilities available.

AIRPORT: Ben Schoeman Airport – 6 miles from harbour. Daily flights to Johannesburg connecting with overseas flights by regular airlines.

TIME: GMT plus 2 hours.

HOLIDAYS: See "Durban".

POLICE/AMBULANCE/FIRE: Police 2–5555; Ambulance 2–1212; Fire 2–1212. Sea Rescue Service 21000.

TELEPHONES: Telephones can be supplied at all berths. Arrange through Agents.

SHORE LEAVE: Allowed.

AUTHORITY: South African Railways, Port Captain, East London. Tel. 2–2155.

AGENT: Freight Services Ships Agency Co., Marine Chambers, 31 Cambridge Street, POB 2, East London. Tel: 26781–8. Telex: 75–761. Cables: Seafreight East London.

MOSSEL BAY: 34.10 S. 22.10 E.

DOCUMENTS: Refer to "Durban".

PILOTAGE: Compulsory. One hour advance notice to be given to Port Captain through VHF radio. Port operation calling Channel 16, Working Channel 12. Motor pilot boat – black hull, white housing "Pilot-Loods" painted in black on housing. International pilotage signals used. Pilot boards about 2 miles north of Cape St. Blaize Light.

ANCHORAGE: Open anchorage, depth 8 fathoms about one mile E.S.E. of Seal Island.

RESTRICTIONS: Vessels not permitted to enter unless Agents have been appointed. No night berthing for tankers.

MAX. SIZE: Anchorage: no restrictions. Tankers: up to 32,000 dwt.

HEALTH: Pratique granted at first port of entry in South Africa. Pratique message 24 hours prior to arrival to "Port Health" at port of entry. If radio pratique not granted "Q" flag to be flown until ship has been cleared.

Valid certificates must be held for smallpox and yellow fever. Ships from Eastern ports must also have valid certificates for cholera and typhoid.

RADIO: Cape Town Radio, ZSC. Port Elizabeth Radio, ZSQ.

TUGS: One tug of 300 h.p. available.

BERTHING: No. 1 jetty: No berthing facilities. No. 3 quay: depth alongside 22 ft. LWOST. Maximum draft for berthing 18 ft. 6 in. No. 4 quay will be 900 ft. long and 230 ft. wide. Minimum initial depth alongside 24 ft. Approach channel will be dredged to 27 ft.

TANKERS: Conventional buoy mooring designed for 32,000 dwt vessels up to 670 ft. length. Situated offshore at Voorbaai. No slop facilities.

DENSITY: S.G. 1025.

FRESH WATER: Not available.

FUEL: Not available.

MEDICAL: Cape St. Blaize lighthouse on 24-hour watch. Requests for medical assistance passed through lighthouse to harbour master and Pilot.
Hospital facilities available. Vessels in port should arrange medical facilities through Agent.
CUSTOMS ALLOWANCE: 200 cigarettes for each man. No alcohol.
CARGO GEAR: All cargo handling equipment must be in good condition and certificates available for inspection.
IDENTIFICATION CARDS: Required. Otherwise National Identity Cards, if available.
REPAIRS: Only minor repairs can be undertaken.
TIME: GMT plus 2 hours.

South Atlantic Islands

ASCENSION ISLAND, GEORGETOWN: 07.55 S. 14.20 W.

DOCUMENTS: Crew and Passenger lists, Health documents, Manifests and Bills of lading if discharging cargo.
PILOTAGE: No pilots are available and not required as it is an open anchorage. Require 48 hours of ETA. VHF 16, and Ascension radio operated by Cable & Wireless will reply.
RESTRICTIONS: None – but if vessel has not been here before it would be advisable to wait until daylight.
ANCHORAGE: Only one ship can anchor at a time. There is 14 fathoms of water in the anchorage and vessels of 28,705 tons have used this anchorage. The other anchorage used by tankers is at English Bay and there is a special berthing procedure which the Oil Company give to Captains of tankers.
HEALTH: Pratique should be requested when giving the ETA and will be granted by either Cable or VHF.
RADIO: If coming from the North via Freetown Radio, and from the South via Cape Town.
TUGS: No tugs available.
BERTHING: Open anchorage only, no berthing alongside.
MEDICAL: Facilities available, if possible 48 hours notice required. There is a 12-bed hospital in Georgetown and a second for American personnel at the U.S.A.F. Base. Inoculation, vaccination and yellow-fever certificates not required. Other than Government personnel no one is allowed to land on Ascension without an entry permit.
TANKERS: Only one berth available at anytime.
FRESH WATER: None available.
FUEL: None available.
WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Usually done by stevedores.
CONSULS: No Consulates. British Administrator attends to all requirements.
REPAIRS: Only minor repairs can be effected.
REPATRIATION: No facilities for crew changes. Repatriation can be arranged but only in the case where a person has been hospitalised. If a ship puts in with a medical case on board an M.O. will visit the ship. Fees paid to the Cable & Wireless representative. If the patient is hospitalised the Master must guarantee in writing that all hospital fees and the air fare to Antigua will be honoured by his shipping line Agent. As so few ships call at Ascension no hospitalised patients can be evacuated by sea. All patients received from ships are evacuated on M.A.C. flights to Antigua. These flights are run weekly.
AIRPORT: Airport 2 miles. U.S.A.F. No civil airlines call here.
TIME: Always GMT.
HOLIDAYS: Cargo vessels are discharged during public holidays – no night work.
GENERAL: There are no facilities for visitors on the island. Anchorage must be vacated when a mail vessel is due.
SHORE LEAVE: Not permitted.
AUTHORITY: The Administrator, Ascension Island. South Atlantic Ocean.

ST. HELENA, JAMESTOWN: 15.56 S. 05.40 W.

DOCUMENTS:
3 copies of Crew List.
3 copies of Passenger List.
10 copies of Manifest.
1 Health form.
PILOTAGE: No official pilot. Agents sometimes hire a pilot (retired Union Castle Captain) for ships requiring one.
ANCHORAGE: The harbour consists of an open roadstead with anchorages shown on charts.
MAX. SIZE: Any size vessel can anchor in the roadstead. Depth up to 20 fathoms.
HEALTH: Pratique will be granted by the boarding party or by telegram from Port Health Officer. If suspected disease or fever, the Port Health should be informed by telegram in advance of anchoring so that the necessary precautions can be taken.
RADIO: ETA message should be relayed through Cape Town Radio. Agents have VHF service.
TUGS: None. There are 3 towing launches (from 16 to 28 h.p.) for harbour use only.
BERTHING: Vessels anchor in 18–20 fathoms offshore, in open roadstead. There is deep water (sufficient for ocean-going vessels) right in to the area where cargo lighters and other small craft are moored).
STEVEDORES: 48 hours notice required by Agent, also particulars of tonnage of cargo.
MEDICAL: Agent should be notified if medical attention required. A resident staff of three doctors, plus nursing staff, in a well-equipped modern hospital. The basic requirements for intending visitors is a certificate of vaccination against smallpox.
FRESH WATER: Delivered by floating pipeline at a rate of approximately 14 tons an hour.
FUEL: No stocks of marine fuel. Ordinary diesel oil is available in drums of 45 gallons (supplied ex South Africa) and only limited stocks for local needs are held.
OPENING/CLOSING HATCHES: Stevedores can do this, but preferable for crew to open on arrival so that work can start as soon as stevedores arrive on ship.
CERTIFICATES: Vaccination certificates required for all crew. Deratting. certificate should be valid.
CUSTOMS ALLOWANCES: No restrictions. Free use on board.
CARGO GEAR: All discharge carried out by vessels derricks into lighters. Agents provide own cargo nets, etc.
CONSULS: French Consul. Appointed representatives for Denmark and Norway.
REPAIRS: Small repairs can be carried out (welding or turning pipes, etc.).
REPATRIATION: No facilities for crew changes. Only for those left behind for hospitalisation.
AIRPORT: No airport on St. Helena.
TIME: GMT throughout the year.
HOLIDAYS: New Year's Day (1 January); Good Friday; Easter Monday; St. Helena Day (21 May); Whit Monday; Queen's Official Birthday; August Bank Holiday; Christmas Day (24th December); Boxing Day (25 December). Cargo work can be arranged except on Christmas holidays.
POLICE/FIRE/AMBULANCE: No telephone nos. Must ring exchange.
SHORE LEAVE: Allowed. No restrictions provided vessel has free pratique.
DELAYS: No delays in berthing, loading or discharge can be delayed by bad weather due to swell alongside wharf.
AUTHORITY: Harbour Master, Colonial Treasurer's Office, The Castle, St. Helena, S.A.O.
AGENT: Solomon and Company (St. Helena) Ltd., Jamestown, St. Helena. Cables: "Solomon St. Helena."

Spain

AGUILAS and HORNILLO: 37.24 N. 01.35 W.

DOCUMENTS: See "Almeria".
PILOTAGE: Hornillo port has no Pilot. The Pilot of port of Aguilas which is less than a mile from Hornillo, does pilotage services of both. To enter both ports Hornillo and Aguilas, anchor a mile or a mile and half distance from entrance of Aguilas. Wait for Pilot with engine stopped. To call Pilot give three long blasts several times. Pilot's launch is small motor boat painted white, with letter "P" painted on both sides of boat. During night it carries white light on top of mast, and 8 ft. lower a red light, besides the usual lights.
RESTRICTIONS: It is not possible to enter Hornillo port during dark. Wait till dawn outside Aguilas.
MAX. SIZE: Length up to 110 metres, draft about 22 ft.
HEALTH: See "Almeria".
TUGS: None in port. Not necessary for either port.
BERTHING: Aguilas port has a commercial quay with a berth area about 200 metres and depths of between 8–12 metres. Hornillo port has a pier to handle minerals with berth area of 90 to 100 metres and depths between 6–10 metres.
BULK HANDLING: Two conveyor belts each of 100 tons grain per hour capacity. May be used for other bulk cargoes.
STEVEDORES: Team of stevedores who belong to "Port Workers' Trade Unions" (Sindicato de Obreros Portuarios).
MEDICAL: Captain can send cables to consignee requiring this kind of service. There are a number of doctors and a hospital.
FRESH WATER: In Aguilas port are small supplies of water. It is supplied by the town hall by means of tank lorries.
FUEL: There are no supplies of fuel in either port.
GANGWAY/DECK WATCHMEN: Not necessary, usually this is done by crew.
OPENING/CLOSING HATCHES: Usually this is done by crew.
CONSULS: There is only Vice-Consul of Norway in Aguilas. Tel. 411035.
REPAIRS: No facilities.
REPATRIATION: Facilities for effecting crew changes exist. Repatriation can be done by train to Madrid and by plane from there.
TIME: GMT plus 1 hour.
HOLIDAYS: See "Almeria".
POLICE/AMBULANCE/FIRE: Ambulance and fire services can be requested from Port Authority. If the police services are required call to "Caseta de Vigilancia" of the Civil Guard in either port.
GENERAL: Hornillo port is used only for loading and discharge of minerals, and for this purpose a pier is provided with a railway. The nearest port of Aguilas, less than a mile distant on the West, is the commercial port, with a quay for loading/discharging and a crane of 10 tons capacity.
SHORE LEAVE: Crew members are allowed ashore.
AUTHORITY: Ayudante de Marina o Capitan del puerto (Port Authority or the Assistant) tel. Aguilas 411074. Cable address Ayudmar, Aguilas. Hornillo port is in this respect subordinated to Aguilas.

ALGECIRAS: 36.07 N. 05.26 W.

DOCUMENTS:
Maritime Declaration of Health.
5 Crew Lists.
2 Manifests of Cargo for the Port.
2 Manifests of Cargo in Transit (if coming from Spanish port a Manifest is sent by the Customs officials of that port).
1 Bill of Lading of cargo for the port.
2 Ship's Stores Lists.
2 Lists of Crew Personal Effects.
If the vessel carries passengers the following are required:
8 Lists of Passengers Disembarking with baggage declaration for each passenger.
5 Lists of Passengers in Transit.
2 copies of Arrival Report.
1 Manifest of Vehicles belonging to Passengers Disembarking.
If the vessel is a tanker the following are required:
Certificate of Quantity of Cargo.
Certificate of Quality of Cargo (or Ballast Certificate).

PILOTAGE: Vessels entering the port call Pilot by international code signals, sound or light. Notice of ETA should be radioed to Agent 72, 48 and 24 hours before arrival. Pilots cannot be contacted by radio, and are ordered by Agents on the basis of Master's ETA.

Pilot boat is painted white with a letter "P" in black on both sides. By day they carry a blue flag with the letter "P" in white. By night they carry regulation pilot lights. The pilot boarding zone is a circle of ½ mile radius with centre 1 mile East of the Northern breakwater head (red light).

ANCHORAGE: Vessels waiting for a Pilot may anchor North of the parallel of the Barranco beacon in depths of 30 m.

RESTRICTIONS: Vessels may enter by day or night.

MAX. SIZE: Puerto de Algeciras – no length restrictions, maximum draft 29 ft. Refineria Gibraltar – maximum length 283 m. Draft up to 65 ft.

HEALTH: Free pratique is obtained automatically when authorities board on arrival and Maritime Declaration of Health is completed. In case of suspected disease or fever on board full details should be sent by radio to Sanidad Maritima, Algeciras, before arrival.

RADIO: Aranjuez Radio and Cadiz radio. Vessels proceeding to Refineria Gibraltar should announce their arrival by VHF to the Capitania of the port using Channel 16 for calling and Channel 13 for communication.

TUGS: Four tugs are available up to 1,500 h.p. and assist according to Pilot's directions. Ship's tow lines used.

STEVEDORES: Ordered by vessel's Agent on basis of Master's ETA.

MEDICAL: Doctors and hospital facilities available. International vaccination certificates only required if vessel is proceeding from an infected area.

TANKERS: Refineria Gibraltar – 5 berths for tankers up to 283 metres length, two of which can accept draft up to 65 ft. The other three berths can accept vessels up to 57 ft. draft. Loading/discharge lines are 12 in., 10 in., 8 in., 6 in. and 4 in. Refineria Gibraltar has two slop tanks each of 600 cubic metres capacity which can accept oily residues.

FRESH WATER: Available from all berths in Algeciras and at Refineria Gibraltar at a rate of 40 tons per hour. Can also be supplied by barge at the rate of 15 tons per hour.

FUEL: All grades can be supplied with three hours notice. Loading rate 250 tons per hour for fuel and 150 tons per hour for diesel and gas oil. Supply is effected by barge at all quays which are not connected by pipe-line.

DEVELOPMENTS: In Algeciras Commercial Port a new berth is under construction in the South part of the dock for vessels up to 9 metres draft. It is planned to dredge the whole commercial port to 10 metres depth.

WATCHMEN: Not available from shore.

HATCHES: Are opened and closed by ship's crew.

CUSTOMS ALLOWANCES: Maximum quantity of tobacco permitted in ship's stores is 3 kilos per crew member and two kilos per passenger. The quantity that may be held out of bond is 40 grammes tobacco per person per day. Wine/Spirits. One decilitre per person per day may be held out of bond.

CONSULS:

Great Britain	tel. 67.14.50	Germany	tel. 67.22.37
Morocco	,, 67.36.98	Denmark	,, 67.27.95

Norway, Italy, France, all tel. 67.27.20.

REPAIRS: Small repairs afloat can be effected. No dry docks.

AIRPORT: Nearest is at Malaga, 120 kms. from Algeciras.

TIME: GMT plus one hour all the year round.

HOLIDAYS: New Year's Day, 6th January, 19th March, Maundy Thursday, Good Friday, Easter Saturday, 1st May, Ascension Day, Corpus Christi, 29th June, 18th July, 25th July, 15th August, 1st October, 12th October, 1st November, 8th December, 25th December.

POLICE/FIRE/AMBULANCE: *Algeciras:* Police, tel. 67.15.55; Fire, tel. 67.20.20; Ambulance, tel. 67.22.90. *Refineria Gibraltar:* Police, tel. 67.15.55; Fire, tel. 76.17.00; Ambulance, tel. 76.12.47.

SHORE LEAVE: Crew members are permitted to go ashore subject to police control.

AUTHORITY: Comandancia de Marina. Telephone: 67.14.60. Cables: Comtemar Algeciras.

ALICANTE: 38.23 N. 0.28 W.

PORT LIMITS: The line drawn from Cabo de las Huertas and Cabo de Santa Pola.

DOCUMENTS:
3 Crew Lists.
6 Passenger Lists.
2 Manifests for Cargo, including cargo in transit as well as cargo for Alicante. Tobacco and Cargo Manifests to be visaed by Spanish Consulate in port of origin.
3 Stores Lists, for Customs.
For the Agent
4 Manifests of cargo destined for Alicante, with one copy of each Bill of Lading.

PILOTAGE: Pilotage service is permanent and Pilots are summoned by displaying international code flag "G", (same signal at night-time by light), or by sounding three long blasts on ship's whistle.

Pilot launch is a white-painted motor launch with a black letter "P" on both sides. The launch flies a black flag with white letter "P" by day, and shows usual pilot lights at night. The launch will meet arriving vessels about one mile from breakwater entrance in good weather.

In bad weather from the East, the launch goes out as far as the breakwater and meets vessel opposite the green light at the breakwater head. Pilot boards on the lee side, which is generally the port side.

ANCHORAGE: Vessels waiting to enter port may anchor at a distance of half a mile east of the breakwater in depths of 16 metres.

MAX. SIZE: Vessels of up to 225 metres length and 33 ft. draft can be berthed alongside. For tankers, max. draft 29 ft.

HEALTH: Report in advance to Pilot if there is any problem. If situation is normal, then after ship berths the health inspector boards and quickly grants pratique. In the event of any suspected disease or fever on board the Pilot (without boarding) will show the anchorage area then Health Inspectors and Authorities will board and give necessary instructions.

Vessels entering after calling at another Spanish port have no problems obtaining pratique.

RADIO: Radio-telephone communication through Radio La Costera, Alicante, medium range approx. 220 miles and short range approx. 40 miles.

Port Radio station situated at the Western end of Muelle B, is equipped only to receive messages by R/T. Messages received by this station are passed to destinations within the port by telephone lines. VHF is installed but not yet in service.

TUGS: Only one tug available to assist berthing of 176 g.t. and 1295 h.p. Normally ship's lines used for connection with tug.

BERTHING: The breakwater extends in a South-westerly direction and vessels berth within the breakwater. Maximum depth being available at the outer end of the breakwater, decreasing in the North-easterly direction.

Muelle 14: Extends along the length of the N.E./S.W. breakwater and depths vary alongside the berth from 11 metres at the South-west end to 8 metres at the North-east end. Depths in the outer port vary from 12 metres at the South-west end to 9 metres at the North-east end.

Muelle 12: Depth alongside 7·5 metres, depth for the berth 9 metres.
Muelle 10: Depths alongside the berth vary from 6 to 8·75 metres.
Muelle 9: Depth alongside berth 8·75 metres.
Muelle 7: Depth alongside the berth 8·75 metres.
Muelle 11: A combined tanker and dry cargo berth. Depth alongside berth 8·75 metres.

STEVEDORES: Agents should be advised of ETA and shore cargo gear requirements.

Grain Discharge: effected by grabs normally at Muelle 11. Discharge three to four tons per gang per hour.
General Cargo: discharge about 10 tons per gang per hour.
Bagged Cargo: discharge about 150 tons per gang per hour.

MEDICAL: Many hospitals and medical services available.

TANKERS: Tankers discharge takes place at Muelle 11 (see "Berthing"). There is no refinery and the only products unloaded are fuel oil, diesel oil, gasoline and aviation spirit. There are three pipe-lines available for cargo discharge.

DENSITY: 1025.

FRESH WATER: Available from hydrants at the quays at the rate of 10 tons per hour, per hydrant.

FUEL: Supplied by Campsa. Vessels requiring fuel are requested to berth alongside Muelle 11 and will incur delays if that berth is already occupied. Maximum advance notice is essential. Owners of vessels requiring fuel are required to pay a bank deposit in foreign currency.

CUSTOMS ALLOWANCES: Total tobacco allowed on board, three kilos per crew member, two kilos per passenger. All must be declared in ship's provision list and any in excess of these amounts declared in a separate visaed manifest as tobacco in transit (see "Documents").

DEVELOPMENTS: Two new tanker berths expected to be available about 1974.

GANGWAY/DECK WATCHMEN: Agent normally arranges watchmen.

OPENING/CLOSING HATCHES: Normally opened by crew and closed by stevedores using cranes.

CARGO GEAR: All berths have cranes, varying from about 6 tons capacity. There is one heavy lift crane capacity 30 tons, and one, capacity 10 tons.

REPAIRS: Only minor repairs available. If dry docking, or undertaking major repairs, vessels should proceed to Cartagena.
AIRPORT: About 8 km distance from Alicante, and serviced by international flights.
IDENTIFICATION CARDS: Additional identification cards only required by crew members of communist-flag ships.
TIME: GMT plus one hour.
TELEPHONES: Telephones may be connected, provided sufficient notice is given, subject to payment of installation costs of about 7,500 Pts. plus the cost of calls.
AUTHORITY: Comandante Militar de Marina. Tel. 211514. Telex 66026 (A/B Marale).

ALMERIA: 36.52 N. 02.30 W.

DOCUMENTS:
4 Crew Lists.
4 Passenger Lists or negative.
2 Cargo Manifests of goods destined to Almeria, as well as other cargoes in transit.
Store List in duplicate, including tobacco, spirits, radios, etc., belonging to vessel.
Details list in duplicate of all personal effects of crew and passengers (tobacco, spirits, cameras, radios, etc.).
Note: Tobacco. In case vessel carries more than 3 kilos of tobacco per man, excess must be declared in a separate manifest, which must be visaed by a Spanish Consul. In absence of Consul, said document will have to be visaed by an Authority of former port of clearance. Otherwise, the vessel would be fined.
PILOTAGE: Is compulsory and service is permanent. Pilots board vessels by motor-boat in roads, near entrance formed by two breakwaters. This entrance is 287 metres wide. Pilot boats are painted white and letter "P" is painted in black on each bow. Also boats have a blue flag hoisted on mast, with letter "P" in white on both sides of flag. At night, boats have white light, under this light is a red light. When weather is bad vessels approach as close as possible to entrance so that Pilot can easily board the vessel.
ANCHORAGE: When harbour is congested, vessels can anchor at West Mole while waiting for berth.
MAX. SIZE: Only limitation is draft (maximum 30 ft.).
HEALTH: Pratique is obtained immediately after berthing, when Health Officer boards vessel. In case of suspected disease of fever on board Master must send a radio message to Agents, in order that they advise the Health Officer. Following documents are required by Health Officer upon berthing: Maritime Declaration of Health, Deratisation Certificate, 1 Crew List.
RADIO: Nearest important radio stations are Cadiz-Radio and Palos-Radio.
TUGS: One available but not compulsory, is employed according to Master's requirements.
BERTHING: Prior to ship's arrival and in accordance with Master's ETA Agent attends port Authorities to procure a proper available berth. Commercial quays have a length of 500 metres with double sheds, 360 metres with single shed with maximum depth 24–25 ft., and about 700 metres uncovered for goods in bulk with depth between 24–30 ft.
STEVEDORES: It is necessary that Master sends ETA so that Agent can inform Receiver's stevedores accordingly and arrange for proper reception of cargo and berth. Timetable of shifts available at the port; Daytime, normal working hours, from 08.00–12.00 and 14.00–18.00 (one shift), 08.00–14.00 (one intensive shift), 14.00–20.00 (one intensive shift). Night time, from 18.00 to 24.00; Sundays and holidays, from 09.00 to 12.00 and 14.00 to 18.00.
MEDICAL: Medical facilities are available; only it would be appreciated for Master to send a radio message if a crew member is in need of urgent medical attention.
FRESH WATER: Always available. Deliveries from quay available at all berths, supplying about 30 tons per hour.
FUEL: Ordinary fuel oil and gas oil is available at local refinery of "Campsa". It is advisable that Shipowners stem bunkers through their own Contractors, with an ETA of 48 hours, so that the order can be received in time.
FIRE PRECAUTIONS: Tankers perform their operations at the berth of "Campsa" at East Pier, which has the necessary fire precautions. No special precautions at other piers.
GANGWAY/DECK WATCHMEN: Available but not compulsory.
OPENING/CLOSING HATCHES: This work normally carried out by crew.
CERTIFICATES: Vessel should have the usual documents on board, but only the Safety Wireless, Safety Equipment and Deratisation Certificates are required by Authorities.
CUSTOMS ALLOWANCES: The quantity allowed per each crew member is 3 kilos tobacco. (See "Documents".)
Wine and/or Spirits: Only one bottle for each crew member.
CARGO GEAR: All commercial piers are served by electric shore cranes able to lift 3/6 tons (18 cranes in total), and one crane with a lifting capacity of 15/25 tons situated on Pier Costa.
IDENTIFICATION CARDS: Not required.

AVILES: 43.35 N. 05.56 W.

DOCUMENTS:
3 Crew Lists.
2 Passenger Lists or a negative.
1 Cargo Manifest of goods destined for the port.
Another Manifest covering transit cargo.
2 Store Lists, including tobacco, cigars, cigarettes, coffee, spirits, radios, cameras, etc., in possession of crew. In all cases make and number of radios to be indicated.
Safety Wireless Certificate and Safety Equipment Certificate.
If vessel carries over 3 kilos tobacco per man, the excess to be declared in a separate manifest, which must be visaed by the Spanish Consul at the last port, otherwise vessel exposed to heavy fine.
RESTRICTIONS: Entrance channel 90 m. wide, 1,000 m. long up to San Juan de Nieva Dock. Depth at low water from 6 to 9 metres.
MAX. SIZE: Length 150 m. draft 9 m.
HEALTH: If vessel proceeds directly to berth, pratique can be obtained immediately after berthing. Otherwise, at anchorage at vessel's arrival.
If vessel has sickness on board of a contagious nature Master should advise Health Authorities by radio, and they will examine patients immediately upon arrival, to enable vessel to be granted free pratique.
TUGS: five tugs available up to 1,200 h.p.
BERTHING: Muelle de Raices, length 823 m., depth alongside 8 m. San Juan de Nieva length 776 m., depth alongside 6 m.
San Agustin, Ensidesa East, length 300 m., depth alongside 9 m. Ensidesa South, length 715 m., depth alongside 7 m.; length 108 m., depth alongside 5 m.
San Balandran, Endasa East length 133 m., depth alongside 7 m.
CUSTOMS ALLOWANCE: Normally Customs permit to have 200 cigarettes per man out of bond. Additional quantities needed on the stay of ship in port. One bottle of spirit per man.
DRY DOCKS: one dock at Las Canteres, owned by Entrecanales Y Tavora, length 50 m., width 9.50 m.
FRESH WATER: Can be supplied from Ensidesa berths at 40 cu.m per hour. Supply from other berths at a low rate.
FUEL: Fuel and gas-oil can be supplied by barge at 200 tons per hour.
TIME: Always GMT plus 1 hour.
HOLIDAYS: Work can be arranged on the following holidays: 6th January; 19th March; Easter Monday; Ascension Day; 29th June; 28th August (San Augustin); 8th September (Nuestra Senora de Covadangoa); 12th October (La Hispanidad).
Work not done on the following holidays: 1st January; Good Friday; 1st May (San Jose); 1st November (All Saints); 8th December (Immaculate Conception); 25th December (Christmas); Trade Union holiday, 16th July.
AUTHORITY: Junta del Puerto Ria de Aviles, Juan Ochoa 9, Aviles.

BARCELONA: 41.25 N. 02.10 E.

DOCUMENTS:
(1) Manifest of Barcelona cargo: one set covering all loading ports; make sure that this manifest is in perfectly good order before ship's berthing, as Customs will board the vessel immediately and take it away as it is; thereafter any omission or excess of pages may lead to a fine.
(2) Manifest of Transit Cargo: two sets (same recommendations as above).
(3) 3 Crew Lists.
(4) 1 Negative of Passengers.
(5) 2 sets of Bills of Landing of the Barcelona cargo.
(6) 2 Provisions Lists.
Of items (3), (4) and (6) above several copies will be required for distribution among various authorities, therefore it would be well for the Master to have at least three copies of each ready at hand on arrival. Tobacco allowed per crew member ia 3,000 cigarettes. Any excess should be manifested in a separate Visaed statement.
If any item of cargo manifested for Barcelona should be discharged in error at any other port in the ship's itinerary before arrival at Spain, there would be a fine imposed here for shortage of

goods if no advice of such shortage is given before arrival.

PILOTAGE: Pilot boats painted black, with letter "P" in white on each bow. Telegraphic address: "Pilot Station-Barcelona". Required notice of ETA 24 hours before arrival. Signals to be made by vessels requiring Pilot: the letter "G" in sound and/or light.

Pilot boats have no radar and are reluctant to venture more than just outside port entrance in poor visibility. Pilots give priority to vessels nearest port entrance. Pilotage is compulsory and the service is permanent. In case of port congestion vessels remain at anchor at the roads.

ANCHORAGES: In the Outer port for small vessels only, with depths over 50 ft. Also at the roads ½ mile away from breakwaters where vessels usually remain at anchor.

MAX. SIZE: Only limitation is draft; max. 39 ft.

HEALTH: Pratique obtained immediately after berthing, when Health Officer boards vessel. In case of suspected disease or fever on board Master must send a message to Agent, to advise Health Office. Following documents are required by Health Officer upon berthing: Maritime Declaration of Health, Deratisation Certificate, 1 Crew List.

RADIO: Aranjuez Radio, call sign EAD.

TUGS: Tugs join vessel at entrance of port. Usually use ship's lines; if tug's lines used usual charge 10% of official tariff. It is normal for two tugs to be used for vessels from 5,000 to 15,000 GRT.

Nine tugs available, from 300 to 900 h.p.

BERTHING: Commercial quay, length 9,095 metres and depths minimum 8 metres, max. 12 metres dependent location. Depth alongside Grain Elevator in Pier Contradique is 32 ft. Pier Barcelona, berths for transoceanic maritime passenger traffic, depths 26 ft. and 31 ft. Shore fenders keep vessel about 1 metre off quay.

CARGO-HANDLING FACILITIES: For unloading grain, there is a silo with a 24,000 ton storage capacity, provided with four suction pumps capable of unloading vessels at a rate of 400 tons per hour and loading rail or road trucks at the rate of 200 tons per hour.

Liquid methane reception and gasification plant with a storage capacity for 249,000 cubic metres of liquid gas. Potash reception and loading plant with mechanical loading bridges which can load up to 450 tons per hour of this product.

General cargo handling is fully mechanised and, apart from the pier cranes, there are fork-lift trucks, truck cranes and a palletisation process.

A container wharf with a berthing frontage of 220 metres, 14 metres water depth. 9·8 acres surface area, with a capacity for 1,250 20-foot containers. There will be a terminal with berthing space for six ferries for operating a ro/ro service.

TANKERS: There are seven special berths for oil and liquid gas tankers, capable of receiving vessels up to 50,000 tons dwt.

Diameter of loading lines 4 in. and 8 in. Diameter of discharge lines 10 in., 12 in., and some of 18 in.

STEVEDORES: (*a*) Daytime, normal working hours, from 08.00–12.00 and 14.00–18.00 (one shift); (*b*) 08.00–14.00 and 14.00–20.00 (two "intensive" shifts). Night time, from 20.00–02.00 and 02.00–08.00 (two intensive night shifts). Extra costs are involved for intensive shifts. Nightwork is paid on an overtime basis. Average rates for discharge of grains in bulk are about 7,500/8,000 tons per day of 24 consecutive hours; for general cargo a rate of 100 tons within normal working hours.

MEDICAL: All medical facilities are available; it would be appreciated for the Master to advise in advance if a crew member is in need of urgent medical attention.

FRESH WATER: All piers have water available by shore pipes or by barge. Rate of delivery about 16/20 tons per hour.

FUEL: Fuel oil and gas oil available at "Campsa", installation. It is advisable that Shipowners stem bunkers through their own contractors, with advance notice of 48 hours. Delivery either by barge, or at the bunkering pier of "Campsa". Bunker barges allowed alongside vessel during cargo-handling.

DEVELOPMENTS: Lengthening under construction of breakwater Dique del Este, and pier Contradique. A wharf for 6 berths for tankers only, plus 4 berths for vessels loading/unloading crudes in bulk with a depth of 39 ft. Drydock planned for vessels up to 200 m. length

GANGWAY/DECK WATCHMEN: Available but not compulsory.

OPENING/CLOSING HATCHES: Normally carried out by crew, except in liner vessels which is contracted for by stevedores.

CERTIFICATES: Vessels should have all usual certificates aboard but only the Safety Wireless, Safety Equipment and Deratisation Certificates are required by authorities.

CUSTOMS ALLOWANCE: Quantity allowed for each crew member is 3,000 cigarettes. and one bottle wine/spirits.

CARGO GEAR: All commercial piers served by electric shore cranes able to lift 3, 6, and 10 tons respectively. In addition, 3 floating cranes with a lifting capacity of 80 tons each and, when two of them working together the lifting capacity is 130–150 tons.

IDENTIFICATION CARDS: Not required.

POLICE/AMBULANCE/FIRE: Police 091; Ambulance 2410600; Fire 2535353.

TELEPHONES: Not available on board.

AUTHORITY: Junta del Puerto de Barcelona, Puerto de la Paz 1, Barcelona 2. Tel. 222–07–24.

BILBAO: 43.17 N. 02.55 W.

DOCUMENTS:

3 Crew Lists.
1 Passenger List.
1 Manifest of Cargo destined Bilbao, as well as other cargoes in transit.
Store List in duplicate, including tobacco, spirits, radios, etc., belonging to vessel.
Detailed list in duplicate of personal effects crew and passengers (tobacco, spirits, cameras, radios, etc.).
Safety Radio and Safety Equipment Certificates.

Note: Tobacco – Case more than 3 kilos tobacco per man, excess must be declared in separate manifest, which must be visaed by a Spanish Consul. In absence of Consul, must be visaed by authority of former port of clearance. Otherwise severe fines.

PILOTAGE: Compulsory, Pilots board by cutter in roads near entrance formed by two breakwaters. Small office on one breakwater advises Head Office of Pilots at Portugalete when vessel approaching port. Contact by VHF Channel 12 between 0700–2100. Pilot cutters painted white have letter "P" in black, on each bow. Nighttime, cutters have white light over red. Entrance between breakwaters 570 metres wide. When weather at roads is bad vessels should approach as near entrance as possible order cutter can easily approach.

ANCHORAGES: Good anchorage in Outer Harbour inside breakwaters. Depths at LW about 26–33 ft. Also anchorage outside breakwaters, lightening operations sometimes performed when weather good.

RESTRICTIONS: None, except when draft exceeds 13–14 ft. and proceeding to berths inside river, which case must await tide.

MAX. SIZE: No restrictions length or breadth. Maximum advisable draft 30–31 ft.

HEALTH: If proceeding direct to berth, pratique obtained immediately after berthing. Otherwise, at anchorage on arrival. Case suspected disease or fever on board, Master must radio Agents, to advise Health Office.

RADIO: Cabo Mayor Radio.

TUGS: No tugs required for entering port, only for berthing or shifting inside river. Ship's lines used, the tug employed according Pilot's advice.

BERTHING: Santurce 29–31 ft. alongside. Canal de Deusto 26 ft. alongside.

STEVEDORES: Very important send advance messages giving ETA. Agents then inform Shippers or Receivers' stevedores. Official working hours Monday/Saturday 08.00–12.00; 14.00–18.00 hours.

MEDICAL: Any medical service can be arranged. Case crew member needs medical attendance urgently, advisable radio details in advance.

TANKERS: "Campsa" have private berths at Santurce and Zorrosa. Cargo manifest must be visaed by Spanish Consul, or in absence of Consul by Authority at loading port.

DENSITY: 1025.

FRESH WATER: Always available. Delivery by tugs. Minimum 10 tons.

FUEL: Ordinary fuel oil and gas oil available at local "Campsa" refinery. Advisable that Shipowners stem bunkers 48 hours prior arrival. Delivery by barges, or at the bunkering pier.

DEVELOPMENTS: Oil refining plant under construction (Petronor) and completion expected by 1975. Crude oil discharging terminal will be constructed for vessels of up to 200,000 dwt. at that time.

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Normally by crew, except in liner vessels, when contracted by stevedores.

CERTIFICATES: Have usual documents on board, but only Safety Radio, Safety Equipment and Deratisation Certificates required by authorities.

CUSTOMS ALLOWANCES: Normally, customs permit 200 cigarettes, and one bottle wine/spirits per man.

CARGO GEAR: Usually shore cranes employed in loading or discharging but if require lightening then ship's derricks used as only one floating crane is available.

IDENTIFICATION CARDS: Not required.
CONSULS: Pratically all countries have consulates at Bilbao.
REPAIRS: Good repair facilities, and several important shipyards.
DRY DOCKS: Five graving docks. Biggest: length 152 metres, breadth: 20 metres (naval shipyard).
REPATRIATION: Good facilities.
AIRPORT: About 10 km. from town. Regular services to Madrid and Barcelona. Also direct flights London and Paris.
TIME: GMT plus 1 hour (permanent).
HOLIDAYS: 1st January; 6th January; 19th March (St. Joseph); Good Thursday afternoon; Good Friday; 1st May (Labour Day); Ascension Day; Corpus Christi; 29th June (St. Peter and St. Paul); 18th July (National Holiday); 31st July (local holiday); 15th August; 12th October; 1st November; 25th December.
POLICE/AMBULANCE/FIRE: Police 091; Ambulance (hospital) 41.87.00; Fire 21.30.00.

CADIZ: 36.30 N. 06.20 W.

DOCUMENTS:
Entrance Declaration.
Health Declaration.
List of Crew on Arrival.
List of Crew on Departure.
List of Passengers on Arrival (if applicable).
List of Passengers on Departure (if applicable).

All vessels must be represented by a local Agent who will be responsible for completing the required Customs, Health and Port Authorities documentation.

PILOTAGE: International Code Signals used to call pilot. Pilot can be contacted by VHF or through telegraphic address "Praticos Cadiz". Six to eight hours notice of ETA preferred.

Pilots operate a steam launch and a diesel launch both painted black with yellow funnel on which letter "P" is painted in white on both sides. Pilot boat does not remain at station but comes out when ordered. Pilot boards in an area between the Rota light and San Sebastian light. In case of bad weather the pilot will board nearer Los Cochinos shore and meanwhile signal instructions to the vessel until the pilot is able to board.

ANCHORAGE: Vessels waiting for a Pilot may anchor in any safe position according to draft and weather conditions. Tankers or deep draft vessels may anchor West of the Diamante buoy in 16–18 metres depth where the Pilot boards at first opportunity.

RESTRICTIONS: Entry is restricted only by the depth of the entrance channel, maximum safe draft 30 ft.

HEALTH: Master should radio, not more than 50 hours and not less than 5 hours before arrival, the following information to the port authority: name and nationality of ship, date and time of arrival, last port of call, number of passengers and crew aboard, if doctor on board and details of any sickness noted on voyage. Message to be addressed to "Sanidad Maritima Cadiz". International code quarantine signals to be shown on arrival when free pratique will be given provided health situation is satisfactory.

TUGS: Normally join vessel off the berths. 7 tugs available, up to 1,500 h.p.

BERTHING:
Mole No. 1. 220 metres length, depth alongside 10 metres. L.W.
Mole No. 2. 460 metres length, depth alongside 10 metres. ,,
Mole No. 3. 440 metres length, depth alongside 10 metres. ,,
Generalisimo Franco Mole: 365 metres length, depth alongside 10 metres.
Muelle Armamento: 200 metres length, depth alongside 9·50 metres.
Muelle Embacadura: 110 metres length, depth alongside 9·50 metres.

TANKERS: 3 tanker berths for vessels up to 27 ft. draft at the piers in the Zona Franca, operated by Campsa. Hoses: Fuel oil 10 in., gas oil 8 in., gasoline 8 in. No slop discharge facilities.

International Terminals Corp. Berth, length 170 metres, depth 9·50 metres.

FUEL: Fuel, gas oil and several types of marine diesel can be supplied.

REPAIRS: There are three shipyards – Astilleros Espanoles SA, at Cadiz and Matagorda. Empresa Nacional Bazan–Carraca, and several workshops of Auxiliar de la Construccion Naval. All types of repairs can be effected.

DRY DOCKS: Largest is 245 metres long, 57 metres wide. In addition Astilleros Espanoles have two floating docks, one of 231 metres length, 24 metres breadth, lifting capacity 39,400 tons, and the other 100 metres length, 17·54 metres breadth lifting capacity 4,500 tons.

At Matagorda, there is a dry dock of 150·97 metres length, 19 metres width, and 6·23 metres max. draft.

OPENING/CLOSING HATCHES: This work is normally effected by the stevedores.

CONSULS:
Argentina, Belgium, Bolivia, Colombia, Denmark, France, Germany, Greece, Italy, Liberia, Netherlands, Norway, Sweden and Finland, Portugal, Venezuela.

CUSTOMS ALLOWANCES: Maximum of three kilos of tobacco for each person on board. All to be declared. Wine or spirits, one decilitre per man per day.

AIRPORT: Nearest at Seville, about 150 kms. away. Daily flights to Madrid, Barcelona and overseas.

TIME: GMT plus 1 hour all the year round.

TELEPHONES: Connection to vessels can be arranged by Agents.

SHORE LEAVE: Crew are permitted to go ashore subject to police control.

AUTHORITY: Comandante Militar de Marina, Comandancia Marina Puerto de Cadiz. Telephone 233902/233903. Cables: Comtemar Cadiz.

CARTAGENA: 37.35 N. 00.59 W.

DOCUMENTS:
6 copies of the Crew List.
6 copies of the Passenger List, or 2 negative copies as the case may be.
2 sets copies Manifests covering cargo destined to Cartagena and carried in transit.
Store Provision List, in duplicate, including items such as: tobacco spirits, radios, coffee, tea, bunkers, and any other items belonging to the vessel.
2 copies of all Personal Effects Lists, from passengers and ship's crew.

The amount of cigarettes allowed for each member of crew/passenger is 3 kilos; any amount over has to be manifested as tobacco in transit, and this manifest must be visaed by a Spanish Consul in the last loading/discharging port. If there is no Spanish Consul in the port of call before Cartagena, the Master is requested to send a cable to: Direccion General de Aduanas, Madrid, quoting as follows: "m.v.'. . .' coming from . . . order to proceed to Cartagena tobacco manifest unlegalised = Master."

This cable to be inserted in the radio log-book, and copy of same to be delivered to local Customs Authorities when boarding the vessel.

PILOTAGE: Compulsory. Position of pilot station 37° 34.6′ N. 0° 59′ W. Position with green light of Dique de Curra bearing 000°, and the white light of Las Losas bearing 090°. This is the position at which Pilot normally boards.

Vessels bound for Escombreras wait for Pilot in position 37° 34.2′ N. 0° 59′ W., with green light of Dique de Curra bearing 000° and the green light of Dique Bastarreche bearing 090°.

Pilot launch is a motor-boat with cabin, about 9 metres long, white hull, red below water line, black letter "P" painted on both sides.

When bad weather prohibits Pilot boarding in the above position, vessel may be required to embark Pilot inside the harbour breakwaters.

Vessels call Pilot in daytime by code flag "G", or by sounding three prolonged blasts on the whistle.

At night, Pilot may be called by flashing code signal "PT", or by three prolonged blasts on whistle.

Radio messages, with ETA, may be sent direct to PRACTICOS CARTAGENA with 24 hours notice, and confirmed 12 hours before arrival, messages should include vessel's seawater draft and, if calling for the first time, vessel's length overall. Pilot station equipped with VHF.

APPROACHES: Escombreras bank with datum depth of 9·5 metres situated West of Escombreras Island, extends from 200 to 400 metres West of the Eastern tip of the island. This bank is unmarked.

Area of underwater obstructions exists between the coast, the meridian of Santa Ana buoy, and the parallel of Las Losas beacon.

There is a zone used for submarine exercises which is marked on the charts. Occasionally, naval divers carry out exercises in the vicinity of the port entrance. These are accompanied by naval vessels showing appropriate signals.

Ships bound for Escombreras, to ente the port, should steer for a point situated at the intersection of the N.S. line of the red light at the extremity of Curra Pier, and the E.W. line through the green light at the extremity of the Bastarreche Pier, at which point, approximately, the Pilot boards the vessel.

The least recorded depth in the entrance to the port is 25 metres. The approaches to the port of Escombreras do not present any difficulties.

ANCHORAGE: Vessels anchored within the port limits should not carry out repairs affecting main engines as the possibility of sudden storms in winter may make it necessary to move to a sheltered anchorage North of Cabo Tinoso, or to put to sea.

Vessels under 29 ft. 6 in. draft may anchor inside the breakwater provided they do not obstruct other vessels' movements.

Anchorage for larger vessels in Cartagena Roads, approx. position 37° 35′ N., 0° 59′ 30″ W. in depths of 40 metres.

Anchorage for tankers off Escombreras in approx. position 37° 34′ N., 0° 58′ 23″ W., in depths of 42 metres.

MAX. SIZE: No length limitations. For Cartagena max. draft 31 ft. 6 in. For Escombreras max. draft 68 ft.

HEALTH: Free pratique is immediately obtained when vessels berth any time from sunrise to sunset. Port Health Officers, require Maritime Health Declaration, Deratisation Certificate, and copy of crew and passenger lists.

RADIO: Cabo Palos Radio, Aranjuez Radio, and/or Gibraltar Radio.

TUGS: Three tug-boats 500–1000 h.p. with fire-fighting capabilities. All three tugs on duty 24 hours duly equipped, with two shifts of crew.

Tugs join vessels in vicinity of port entrance, vessel's lines normally used.

The tugs available to assist berthing tankers in Escombreras are all diesel tugs, equipped with fire-fighting equipment. Five tugs available of up to 2,400 h.p.

STEVEDORES: In the case of a vessel calling at Cartagena at night time, Sundays or holidays, it is important that Master cable 24 hours in advance to advise his ETA in order that Agents are able to arrange stevedores' operations. Gangs can be called on as follows: on weekly working days 08.00 and 13.30 hours. On Sundays/holidays 08.00 hours (with prior advice to Union by 12.00 hours on Saturdays or day preceding holidays. The official working hours are: Monday/Saturday 08.00 to 12.00 and from 13.30 to 17.30 hours – Sundays/holidays: from 08.00 to 14.00 hours.

MEDICAL: Medical services rendered as soon as requested but, in case of emergency, Master required to send urgent cable in advance.

TANKERS: These vessels call at port of Escombreras 2 miles away from Cartagena port, this port owned by Refineria de Petroleos de Escombreras S.A. Slop discharge facilities available at Escombreras.

For ships of 250,000 dwt. Berth Number 7, of recent construction, consists of four dolphins, in a line parallel to Bastarreche Pier. Between the first and the third dolphin is situated a loading platform with loading/discharging lines. The centre of this platform is situated at a distance of 230 metres from the head of Bastarreche Pier, bearing 140°.

The least depth in Berth No. 7 is 21·45 metres or 70 ft. 4 in. at the extreme South of the berth. The rest of the area has a depth of between 24 to 28 metres.

The maximum length foreseen for tankers of 250,000 tons dwt. is 250 metres or 1,145 ft., since the total length of the berth is 430 metres.

The maximum allowable draft is 21 metres or 68 ft. 1 in.

Shore lines for crude oil are one of 40 in. diameter and 3,500 metres length, and another of 24 in. diameter and 3,500 metres length.

The Woodfield hose-handling gantry has four 16-in. hoses of which the two outside hoses should be used for loading bunkers as well as for discharging. Connecting flanges of 16 in. diameter, type 150 ASA.

Fresh water can be supplied by pipe-line at all berths at a rate of 45 tons per hour.

Only vessels up to about 100,000 dwt. may be berthed at night.

Eight berths suitable for tankers from 29 ft. 6 in. to 43 ft. draft.

Two berths for LPG carriers up to 29 ft. 6 in. draft.

FUEL: At Cartagena, only gas oil available from tank trucks. At Escombreras all grades of fuel available subject to advance notice given.

FRESH WATER: Available from quay by hose connections, only on working days. On Sundays/holidays notification to be required before 1400 hours preceding day.

FIRE PRECAUTIONS: The port area has its own Fire Department under Supervision of Port Director. Although there is no water-borne equipment available, tug "Brio" will assist as required as well as Cartagena City Fire Department.

DEVELOPMENTS: There is a big programme to increase berthing-places by building new piers close to breakwaters, available for three vessels, provided with 4 shore cranes, capacities 3–6 tons each.

CONSULS: The following countries are represented in Cartagena:

Finland	Peru	Norway
France	Italy	Holland
Sweden	Denmark	Belgium
Panama	Greece	

GANGWAY/DECK WATCHMEN: Not compulsory, only used when required by Master under Immigration Police Supervision.

OPENING/CLOSING HATCHES: Usually by ship's crew.

CUSTOMS ALLOWANCES: 200 cigarettes per each crew member, out of bond. The excess to be declared as cargo in transit. Wine and/or Spirit: One bottle for each crew member or passenger.

CREW IDENTIFICATION CARDS: Not required.

REPAIRS: There are very good repair facilities. A private shipyard "Empresa Nacional Bazan" and two other private repair shops.

DRY DOCKS: One dry dock can accept vessels of 566 ft. length and 73 ft. beam. Two floating docks for vessels up to 333 ft. length.

REPATRIATION: All facilities available.

AIRPORT: San Janvier airport situated 27 miles from Cartagena with daily service to Madrid, Barcelona and Almeria.

TIME: GMT plus 1 hour.

HOLIDAYS: 1st January; 6th January; 19th March (St. Joseph); Good Thursday from 14.00 hours; Good Friday; 1st May (Labour Day); Ascension Day; Corpus Christi; 29th June (St. Peter and St. Paul); 18th July (national holiday); 15th August; 12th October; 1st November (All Saints' Day); 25th December.

POLICE/AMBULANCE/FIRE: Police tel. 501456; Ambulance 503470; Red Cross 501727; Fire Department 501111; Port Fire Department 503100.

AUTHORITY: Capitan de Navio, Comandante Militas de Marina de Cartagena, Comandancia de Marina, tel. 501653.

AGENT: Daniel Gomez Gomez, S.A. Mayor, 6–1°, PO Box 100, Tel. 505805/06/07, 501616/503333, Cables "Frutera", Cartagena. Telex: 68013 Dago.

CASTELLON DE LA PLANA: 39.58 N. 00.01 W.

DOCUMENTS:

Manifest of Castellón cargo: 1 set covering all loading ports; make sure that this manifest is in perfectly good order before ship's berthing, as the Customs will board the vessel immediately and take it away as it is; thereafter any omission or excess of pages may lead to a fine.

Manifest of the Transit cargo: 2 sets (the same recommendations as above).

3 Crew Lists.

2 Negative of Passengers.

2 sets of Bills of Lading of Castellón cargo.

2 Provisions lists.

2 Manifests of personal effects.

PILOTAGE: Compulsory, and service is permanent. Pilots board vessels by a cutter in roads near entrance formed by the two breakwaters.

Pilot cutters are painted white and have the letter "P" in black on each bow. Cutters have a blue flag, with letter "P" in white. Signals to be made by vessels requiring Pilot: three long blasts. Telegraphic address: "Praticos, Comandancia Marina, Castellon".

ANCHORAGE: Vessels can remain at anchor at the roads. Recommended anchorage: ½ a mile East of lighthouse in depth of 12 metres.

RESTRICTIONS: Maximum draft 22 ft. for vessels of about 110–120 metres length. For vessels of more 120 metres, to 140 metres length, maximum draft is 20–21 ft. *Tanker sea berth:* Max. draft 65 ft.

HEALTH: Pratique obtained immediately after berthing, when Health Officer boards vessel. In case of suspected disease or fever on board Master must radio Agent to advise the Health Office. Following documents are required by the Health Officer upon berthing: Maritime Declaration of Health, Deratisation Certificate, 1 Crew List.

RADIO: Aranjuez Radio, call sign EAD, 36–48 hours prior arrival nearest radio station is El Grao Radio, call sign EAV.

TUGS: Tugs join vessels at entrance of port. Vessels of more than 100 metres length normally use one or two tugs.

STEVEDORES: Very important that Master sends in advance short radio notice regarding vessel's ETA so Agent can inform Shippers or Receivers' stevedores accordingly. Official working hours of port are: Monday/Saturday 08.30–12.30 – 14.00–18,00 hours.

MEDICAL: All kinds of medical services can be arranged. In case a crew member needs medical attendance urgently, it is advisable that Master sends a radio message in advance.

TANKERS: "Campsa" berth in Muelle Serrano Lloberes.

Esso Petroleos Espanoles, S.A. Refinery Terminal. Breasting Island: Lat. 39° 56′ 7″ N. Long. 00° 01′ 6″ E. for tankers with unlimited length and draft up to 41 ft.

Sea berth: For crude oil cargoes with submarine pipeline: Lat. 39° 56′ 4″ N. Long. 00° 02′ 7″ E. Unlimited length, draft up to 65 ft.

Bunkering available. Water available by barge. Provisions available Pilotage compulsory – ESSO Pilots. Tugs: two tugs compulsory.

FRESH WATER: All piers have water available by shore pipes. The rate of delivery is about 8–9 tons per hour.

FUEL: Available with five days notice and subject to "Campsa" berthing availability.

GANGWAY/DECK WATCHMEN: Available but not compulsory.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CERTIFICATES: Vessels should have usual documents on board, but only the Safety Wireless, Safety Equipment and Deratisation Certificates are required by authorities.

CUSTOMS ALLOWANCES: Normally, Customs permit 200 cigarettes per man out of bond and one bottle of spirit per man.

CARGO GEAR: All commercial piers served by electric shore cranes able to lift 3, 6 and 8–9 tons.

CREW IDENTIFICATION CARDS: Not required.

CONSULS: Italian, postal address Plaza Huerto Sogueros, 2–3°–2ª, tel. 212288; France, Plaza Borull, 9, 220180; Sweden, Maestro Ripollés, 28, 220053; Norway, Trinidad 85, 224511.

REPAIRS: Work shop for small repairs.

REPATRIATION: Good facilities exist.

AIRPORT: Valencia, 70 km. away.

TIME: Always GMT plus 1 hour.

HOLIDAYS: 1st January; 6th January; 19th March, St. Joseph; Good Thursday after 2 p.m.; Good Friday; 1st May, Labour Day; Ascension Day; Corpus Christi; 14th June, local holiday; 29th June, St. Peter and St. Paul; 18th July, National holiday; 25th July, St. James; 15th August; 12th October; 1st November; 8th December; 25th December; and two or three local holidays more, variable.

POLICE/AMBULANCE/FIRE: Police: tel. 220516; Ambulance 213944; Fire 221222.

AGENT: Gerónimo Mallach Pachés, General Aranda, 22, Castellon De La Plana. Telegrams "Gemapa". Tel. 220061, 220064, 222806, 221830 (Shipbroker and Stevedore.) Telex: 65541–Gemap–E.

CASTRO-URDIALES: 43.24 N. 03.14 W.

DOCUMENTS:

Manifest of Cargo.

Manifest of Cargo to other ports, if any.

If in ballast state so in the Manifest.

Passenger List, if no passengers, nevertheless state "Passengers Nil".

Store List in duplicate, including list of customs-barred articles in possession of each crew member (cameras, binoculars, radios, cigarettes, cigars, tobacco, spirits, etc.).

Crew List.

Bill of Health.

PILOTAGE: Compulsory. Approaching Port hoist letter "G" flag to apply for Pilot, who boards vessel near entrance formed by two breakwaters. White motor-launch flies blue flag with letter "P" in white.
ANCHORAGES: In the roads, outside the Harbour, good anchorage in about 50 ft., at 1·5 cables N.E. from entrance.
MAX. SIZE: Draft 26 ft. depth at entrance 30 ft., width 165 fathoms.
HEALTH: In case of any suspected disease or fever on board, the Master must radio Agent to inform Health Officer. Otherwise usual procedure to apply and free pratique obtained. Deratisation Certificate to be produced.
RADIO: Cabo Mayor Radio, near Santander, 30 miles W. Call sign "EAS". Frequency 500 ks.
TUGS: None.
BERTHING: Irrespective of tide. The S.E. pier has a total length of 980 ft., of which 500 ft. forms the commercial wharf, mainly for coasters sundry cargoes. No cranes. Fresh water supply. Depth 17 ft. at low water.

Iron ore loading tips: Along open coast adjoining Castro-Urdiales are several cantilever piers connected with the Iron Ore Mines, partly sheltered in creeks or small coves. All vessels bound to land iron ore there should clear and apply at Port of Castro Urdiales. Steamers cannot remain at these berths during rough weather but may find good anchorage in roads, or immediate shelter at the port of Castro-Urdiales, or better at Bilbao Harbour 9 miles East.

The Iron Ore Loading Berths (no length limit) are as follows:

Name	*Situation*	*Approx. ebbtide draft*	*Loading rate per working hour*
Dicido	1 mile E.	21 ft.	800 tons
Saltacaballo	1½ miles E.	22 ft.	800 tons
Onton	2 miles E.	21 ft.	1,000 tons

STEVEDORES: Ordered by Agent or Shipper. No ETA to stevedores necessary.
MEDICAL: Hospital available.
FRESH WATER: Three installations at the S.E. pier. Rate 5 ton/hour.
FUEL: Not available.
DEVELOPMENTS: Limited to strengthening the breakwater.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Carried out by crew.
CERTIFICATES: Safety Wireless, Safety Equipment, and Deratisation generally inspected.
CUSTOMS ALLOWANCE: Normally 200 cigarettes per man. For longer stay, new allotment out of bond obtainable. Wine/and/or Spirit: one bottle per man.
CARGO GEAR: Vessel's derricks employed at Iron Ore Loading Berth on coast, with cantilever piers; no other special cargo gear required.
IDENTIFICATION CARDS: Not required.
CONSULS: None.
REPAIRS: Limited.
REPATRIATION: Repatriation is possible.
AIRPORT: Nearest Sondica (Bilbao) 40 km. by road.
TIME: Always GMT plus 1 hour.
HOLIDAYS: 1st January; 6th January; 19th March (St. Joseph); Good Thursday afternoon; Good Friday; 1st May (Labour Day); Ascension Day; Corpus Christi; 26th June (local holiday); 29th June (Sts. Peter and Paul); 18th July (national holiday); 15th August; 12th October; 1st November; 25th December.
POLICE/AMBULANCE/FIRE: Police tel. 6; Ambulance (Hospital) 26; Fire 54.
TELEPHONES: No arrangements for placing telephones on board.
SHORE LEAVE: Crew allowed ashore.
DELAYS: The only delay that can normally be expected are those due to bad weather.

AGENT: J. Ibanez, Castro-Urdiales, Muelle 11. Tel. office 3, home 76. Telegraphic address "Ibanez".

CORUNNA: 43.23 N. 08.22 W.

DOCUMENTS:
3 Crew Lists.
2 Passenger Lists or a negative.
1 Cargo Manifest of goods destined for the port.
Another Manifest covering Transit Cargo.
2 Store Lists, including tobacco, cigars, cigarettes, coffee, spirits, radios, cameras, etc., in possession of crew. In all cases make and number of radios to be indicated.
Safety Wireless Certificate and Safety Equipment Certificate.
If vessel carries over 3 kilos tobacco per man, the excess to be declared in separate manifest, which must be visaed by Spanish Consul at the last port, otherwise vessel is exposed to heavy fine.
PILOTAGE: Compulsory. International code signals used to call Pilot.
RESTRICTIONS: Approaches to port are deep water, depth about 15 metres. No restrictions on night manoeuvres.
MAX. SIZE: Length and beam not restricted. Tankers up to 13 m. draft. Cargo vessels 32 ft. draft for berthing.
HEALTH: If vessels proceed directly to berth, pratique can be obtained immediately after berthing. Otherwise, at anchorage at vessel's arrival.

If vessel has sickness on board of a contagious nature Master should advise Health Authorities by radio, and they will examine patients immediately upon arrival, to enable vessel to be granted free pratique.
TUGS: Available up to 800 h.p.
BERTHING:
East Quay, length 1,148 ft. depth alongside 19 ft.
Palloza Quay, ,, 984 ft. ,, ,, 21–27 ft.
Santa Lucia Quay, ,, 754 ft. ,, ,, 18–21 ft.
Calvo Soutlo Quay, two berths, depth alongside 30 ft.
San Diego Quay, depth alongside 33 ft.
TANKERS: Oil Refinery No. I pier depth alongside 13 metres. No. II pier depth alongside 13 metres. Facilities for reception of dirty ballast ashore.
FRESH WATER: Can be supplied by pipeline at most berths or by barge.
FUEL: Can be supplied by pipeline at most berths. No barges.
CUSTOMS ALLOWANCES: Normally Customs permit to have 200 cigarettes per man out of bond. Additional quantities needed depend on the stay of ship in port. One bottle of spirits per man.
REPAIRS: Minor repairs can be effected in shore work shops.
DEVELOPMENTS: New pier under construction.
AIRPORT: Nearest international airport at Santiago de Compostella 60 km. away.
TIME: Always GMT plus 1 hour.
HOLIDAYS: Work can be arranged on following holidays. New Year's Day (January 1st full day); Epiphany (January 6th full day); January 7th (full day); St. Joseph (March 19th full day); Easter Thursday (half day); Easter Friday (full day); St. Joseph Artizan (May 1st full day); St. Peter (June 29th full day); Labour Day (July 18th full day); July 16th (full day); Patron Saint of Spain (July 25th full day); Ascencion Day (August 15th full day); Corpus Christi (full day); Holiday of Hispanisicm (October 12th full day); All Saints' (November 1st full day); Immaculate Conception (December 8th full day); Christmas Day (December 25th full day).
AUTHORITY: Junta de Obras Y Servicios del Puerto.

FERROL: 43.28 N. 08.16 W.

DOCUMENTS:
3 Crew Lists.
2 Passenger Lists or a negative.
1 Cargo Manifest of goods destined for the port.
Another Manifest covering transit cargo.
2 Store Lists, including tobacco, cigars, cigarettes, coffee, spirits, radios cameras, etc., in possession of crew. In all cases make and number of radios to be indicated.
Safety Wireless Certificate and Safety Equipment Certificate.
If vessel carries over 3 kilos tobacco per man, the excess to be declared in a separate manifest, which must be visaed by Spanish Consul at the last port, otherwise vessel is exposed to heavy fine.
PILOTAGE: Compulsory. International code signals used to call Pilots. Pilots board off Cape Priorino.
MAX. SIZE: Cargo vessels up to 32 ft. draft. Tankers up to 35 ft. draft.
HEALTH: If vessel proceeds directly to berth, pratique can be obtained immediately after berthing. Otherwise, at anchorage at vessels arrival. If vessel has sickness on board of a contagious nature Masters should advise Health Authorities by radio, and they will examine patients immediately upon arrival, to enable vessel to be granted free pratique.
TUGS: Available up to 1,250 h.p. Also salvage tug normally stationed at Ferrol.
BERTHING: Depth alongside quays 25–32 ft.
TANKERS: Campsa Oil Terminal, three berths, can accommodate tankers up to 656 ft. length and 35 ft. draft. Facilities available for discharging slops ashore.
FRESH WATER: Can be supplied from the quays.
FUEL: All grades available at the oil berths.
REPAIRS: All ships repairs can be effected.
DRY DOCKS: 5 dry docks for building and repairing Naval and merchant ships. Largest dry dock length 1,020 ft., width 155 ft. for vessels up to 80,000 dwt.
CUSTOMS ALLOWANCE: Normally Customs permit to have 200 cigarettes per man out of bond. Additional quantities needed depend on the stay of ship in port. One bottle of spirits per man.
AIRPORT: Alevedro Airport (La Coruna), two services a day to Madrid. Labacolla Airport (Compostela), regular services to Oviedo, Santander, Bilbao, San Sebastian, Barcelona, and Madrid.
TIME: Always GMT plus 1 hour.
HOLIDAYS: Work can be arranged on following holidays. New Year's Day (January 1 full day); Epiphany (January 6 full day); January 7 (full day); Saint Joseph (March 19 full day); Easter (two days); St. Joseph Artisan (May 1 full day); St. Peter & St Paul (June 29 full day); Labour Day (July 13 full day); July 16th (full day); Patron Saint of Spain (July 25 full day); Assumption Day (August 15 full day); Martyrs' Day (August 30 full day); Holiday of Hispanicism (October 12 full day); All Saints (November 1 full day); Christmas Day (December 25 full day).
AUTHORITY: Junta del Puerto, Comandancia de Marina.

GIJON–MUSEL: 43.33 N. 05.39 W.

DOCUMENTS:
3 Crew Lists.
2 Passenger Lists or a negative.
1 Cargo Manifest of goods destined for the port.
Another Manifest covering transit cargo.
2 Store Lists, including tobacco, cigars, cigarettes, coffee, spirits, radios, cameras, etc., in possession of crew. In all cases make and number of radios to be indicated.
Safety Wireless Certificate and Safety Equipment Certificate.

If vessel carries over 3 kilos tobacco per man, the excess to be declared in a separate manifest, which must be visaed by Spanish Consul at the last port, otherwise vessel is exposed to heavy fine.
RESTRICTIONS: Approaches to Musel are open deep water with low-water depths greater than 19 m. The Puerto Local is approached through a channel 150 m. long, 15 m. wide, with a depth of 4 m. low water.
MAX. SIZE: Musel; length 200 m., draft 11 m. Puerto Local; length 60 m., draft 4.6 m.
HEALTH: If the vessel preceeds directly to berth, pratique can be obtained immediately after berthing. Otherwise, at anchorage at vessel's arrival.

If vessel has sickness on board of a contagious nature Master should advise Health Authorities by radio, and they will examine patients immediately upon arrival, to enable vessel to be granted free pratique.
TUGS: 3 tugs available up to 1,000 h.p.
TANKERS: 1 tanker berth owned by Campsa accommodating tankers of 600 ft. length and maximum draft 29 ft. 6 in.

CUSTOMS ALLOWANCE: Normally Customs permit to have 200 cigarettes per man out of bond. Additional quantities needed depend on the stay of ship in port. One bottle of spirit per man.
DRY DOCKS: 3 companies own a total of 6 dry docks at Gijon, the largest of which is 170 m. length, 27.40 m. wide, for vessels up to 26,000 tons.
FRESH WATER: Supplied from the quays at the rate of 20 tons per hour.
FUEL: Can be supplied from the quays at variable rates up to 200 tons per hour.
TIME: Always GMT plus 1 hour.
HOLIDAYS: New Year's Day (full day); Epiphany (January 6th, full day); St. Joseph (March 19th, full day); Easter Thursday (half day); Easter Friday (full day); St. Joseph (May 1st, full day); Ascension Day (full day); Corpus Christi (full day); St. Peter and Paul (June 29th, full day); National Holiday (July 18th, full day); Patron Saint of Spain (July 25th, full day); Assumption Day (August 15th, full day); Provincial Holiday (September 8th, full day); Holiday of Spanicism (October 12th full day); All Saints (November 2nd full day); Immaculate Conception (December 8th, full day).
AUTHORITY: Junta del Puerto Gijon.

HUELVA: 37.16 N. 06.55 W.

DOCUMENTS:
3 Crew Lists.
2 Passenger Lists or a negative.
1 Cargo Manifest of goods destined to Huelva.
Another Manifest covering transit cargo.
2 Store Lists, including tobacco, cigars, cigarettes, coffee, spirits, radios, cameras, etc., in possession of crew. In all cases make and number of radios to be indicated.
Safety Wireless Certificate and Safety Equipment Certificate.

If vessel carries over 3 kilos tobacco per man, the excess to be declared in a separate manifest, which must be visaed by the Spanish Consul at the last port, otherwise vessel is exposed to heavy fine.
PILOTAGE: Compulsory. Services from middle to high tide, depending on draft of vessel on arrival or departure. Pilot's motorboat painted white. Letter "P" in black at both bows. Agent must be in close contact with Pilot Office. Pilots are informed by Agent of ETA at bar. In rough weather Pilots will not be available for entries. or sailings. Depths of water depend on location, ranging from 15 ft. to 30 ft. in high tide. Pilot station equipped with VHF Channel 16.
MAX. SIZE: Only restriction, max. draft 25 ft.
For tankers see below.
PRATIQUE: As long as Captains of vessels notify Medical Office by cable that there are no sick on board and that the ship proceeds from an area free from contagious diseases as specified by the International Sanitary Regulations, free pratique will be granted to the vessel, although this does not eliminate all the sanitary measures specified in the Exterior Sanitary Regulations in force.

Notice should be given en-route towards the Port of Huelva and sufficiently in advance to permit the free pratique to be granted.

When there is any sickness on board, no operation will be carried out until the vessel or its personnel have been inspected by the Medical Authorities.

The granting of free pratique does not signify that the Yellow Flag may be lowered. This will be done once the Medical Authorities have carried out their inspection or are in possession of the Maritime Health Declaration Form signed by the Captain.
RADIO: Nearest Radio Station, Cadiz. Station most used for shipping business Radio Aranjuez, due to larger range, unless vessel within 400/500 miles distance to Cadiz.
TUGS: Only used inside harbour. Ship's lines employed, four tugs available. Number required to assist vessels at the discretion of the Pilot in charge.
BERTHING: Berths available, depths alongside 15–30 ft.
STEVEDORES: 48 hours advice to Agent necessary to engage labour.
MEDICAL: Advance notice to Agent in case of urgent need of medical assistance always necessary, so as to have time for arrangements to be made.
TANKERS: Rio Gulf de Petroleos operate a SBM tanker mooring 7 miles offshore, about 20 miles distant from Huelva. Suitable for vessels 900 ft. long with draft up to 48 ft. Mooring is positioned in depth of 20 metres. Discharge rate about 1,300 tons per hour. Ships accommodation ladder to be rigged when at berth.

Within Huelva port, Rio Gulf have two tanker berths, Campsa have one.
DENSITY: Water at this port is salt water. Fresh water, in quantity of 1 in. to 7½ in., only present in heavy rainy weather.
FRESH WATER: Public pier (Muelle de Levante) can supply direct from wharf. Tharsis, Rio Tinto, Campsa and Rio Gulf Jetties have no installation for this purpose. Fresh water is supplied from barge and barge to be towed alongside ships.
FUEL: Fuel oil and diesel available in main port. Not available at offshore tanker terminal.
DEVELOPMENTS: Projects are in being to increase depth of water down to 35 ft. for tankers using the Rio Gulf berths, but this implies dredging of bar and channel, a distance of 8–9 miles; it is not known when the project will be completed.
GANGWAY/DECK WATCHMEN: The employment is at the discretion of Masters, who are free to either employ or do without any watchmen.
OPENING/CLOSING HATCHES: Normally effected by crew, liner vessels excepted.
CERTIFICATES: Safety Wireless, Safety Equipment and Deratisation Certificates should be at hand for production if requested.
CUSTOMS ALLOWANCES: 200–300 cigarettes per man out of bond. If necessary permit may be obtained from Customs Authorities to open bond and provide crew with fresh supplies, if stay in port justifies procedure. Wine and/or Spirit Allowances: One/two bottles per man.
IDENTIFICATION CARDS: Should be handy for production to Port Police, if no passports.
CONSULS:

Belgium	Norway
Denmark	Panama
Germany	Portugal
Holland	Sweden
Italy	

REPAIRS: Any kind in engine room, and hull above water.
DRY DOCKS: Only one small dry dock available for vessels up to 3.500 GRT.
REPATRIATION: No difficulty in this respect.
AIPPORT: Distance to the nearest airport (San Pablo-Seville) 90 kilometres. Good domestic services and connections with all foreign airlines.
TIME: GMT plus 1 hour.
HOLIDAYS: 1st January; 6th January; 20th January; 19th March; Thursday preceding Good Friday as from 2 p.m. Good Friday; 1st May; Corpus Christi; 29th June; 18th July; 3rd August; 15th August; 1st October; 12th October 1st November; 8th December; 25th December.

Permit to work on any of the mentioned holidays (1st January Good Friday and 25th December excepted) can be obtained, but sufficient reasons must be given to justify permission.
POLICE/AMBULANCE/FIRE: Police tel. 214012; Ambulance 214867; Fire Station 211634.
TELEPHONES: No arrangements exist, for the time being, to place telephones on board vessels.

IBIZA: 38.54 N. 01.28 E.

DOCUMENTS: *Passenger Liners:*
5 Crew Lists (Customs, Comandancia de Marina, Health, Police and Consignee).
6 Passenger Lists (Customs, Police, Guardia Civil, Obras del Puerto, Health and Consignee).
2 Lists of crew and passengers personal effects (Customs).
2 Store Lists (Customs).
Health Certificate (Health Department).
2 Cargo Manifest, if any. (Customs).
2 Negative Cargo manifest, if no cargo.
Cargo Ships:
5 Crew Lists.
2 Lists of crew personal effects.
2 Store Lists.
Health Certificate.
2 Cargo Manifests.
PILOTAGE: Pilotage compulsory. No ships allowed to go further than imaginary line between Botafoch lighthouse and Isla Negra de Este, without a Pilot. Advisable to give 24 hours notice of ETA. Shortly VHF will be installed in Pilot Station and boats. Pilot's boat is of the canoe type with white sides and letter "P" in black on both sides. Vessels requiring a Pilot must give three long whistles. By night flash morse "G".

Pilot will board between Botafoch lighthouse and Isla Negra del Este. In bad weather vessel should follow Pilot's canoe till he is able to board.

ANCHORAGES: Anchorage area situated inside of imaginary line: Botafoch–Negra del Este with depths of 40 to 50 ft. Pilot required to anchor.
MAX. SIZE: Maximum length for berthing, 135 metres. Maximum draft 21 ft.
HEALTH: Report in advance to Pilot if there is any problem. If situation is normal, then, after ship berths the health inspector boards and quickly grants pratique. In event of any suspected disease or fever on board, the Pilot (without boarding), will show the anchorage area, then health inspectors and authorities will board, and give necessary instructions.

Vessels entering after calling at another Spanish port have no problems obtaining pratique.
TUGS: Not available.
STEVEDORES: Available, ETA required 24 hours in advance.
MEDICAL: Civil hospital, military hospital, and three private clinics available.
TANKERS: Load/discharge lines 10 in. and 8 in. No facilities for discharging residues. One berth. Maximum draft of the ship is 21 ft.
FRESH WATER: Available at the quays. 9 metric tons per hour.
FUEL: Available. Notice required, 24 hours.
FIRE PRECAUTIONS: Tankers should have a rope over bows, at water level while the ship is berthed.
DEVELOPMENTS: Increasing depths in the port to 7 metres. It has also been approved to enlarge berthing quays to 220 metres and 7 metres depth, and build a fishing dock.
GANGWAY/DECK WATCHMEN: Performed by crew.
OPENING/CLOSING HATCHES: There are no fixed rules on this matter: it varies according to the circumstances.
CUSTOMS ALLOWANCE: Quantity permitted for each crew member to be held out of bond: 1,000 cigarettes and 100 cigars. 2 litres of alcohol (whisky, cognac, etc.)
IDENTIFICATION CARDS: Required.
REPAIRS: There are good work shops and engineers but with limited possibilities. There is a shipbuilder's yard where they build and repair yachts and canoes.
REPATRIATION: Facilities for effecting crew changes and arranging any necessary repatriations.
AIRPORT: 8 kilometres away, served by scheduled flights daily.
TIME: GMT plus 1.
HOLIDAYS: Cargo work can be arranged on the official holidays with an extra charge of 40% to the workmen.
New Year; Epiphany (6th January); Saint Joseph (19th March); Maundy Thursday: half-day (the evening); Good Friday; Ascension of our Lord (40 days after Resurrection); Saint Joseph the Artisan (1st May); The Holy Heart (last Friday of June); Exaltation to work (18th July); Santiago, Lord of Spain (25th July); Our Lady of the Snows, Lord of Ibiza (5th August); Ascent of Blessed Virgin Mary to Heaven (15th August); Feast of the Hispanicism (12th October); All Saints' Day (1st November); Festival of the Immaculate Conception (8th December); Christmas Day (25th December).
Although not yet official there will be introduced as a holiday Easter Monday and 26th December.
POLICE/AMBULANCE/FIRE: Police 301131; Ambulance 301214; Fire telephone call to the Comandancia de Marina, tel. 301190.
SERVICES: Compass adjusting.
SHORE LEAVE: Crew members are allowed ashore.
AUTHORITY: Comandante de Marina de Ibiza, Comandancia de Marina, tel. 311190.

MAHON: Minorca, 39.52 N. 04.18 E.

DOCUMENTS: *Health Department:*
Health Document.
Crew List.
Passenger List.
Disinfect and De-Ratisation Certificates.
Port Authorities:
Crew, Passenger List.
Ship characteristics and other details.
Cargo.
Indication of previous Port and destination.
Muster Roll, to be produced.
Customs:
Cargo Manifest.
Bill of Lading.
Crew List and Passenger List.
Also the Captain will produce, if required, Log book and passports of crew.
PILOTAGE: Compulsory to take Pilot in entry, departure and any movements within port. On approaching port, during day, ships will hoist flag corresponding to International Code "I need a Pilot". By night, by means of lights, according to International Code.

During day Pilot's boat is recognised by a square blue flag with letter "P" (painted white) in centre of flag. Pilotage area comprises all the estuary, from inside port to outside Capes of La Mola and San Carlos.
ANCHORAGES: Inside are good anchorages, for instance Cala Llorga and Plana de Cala Figuera.
MAX. SIZE: Unlimited length and width, but draft is limited to commercial port, 25 ft.; and to anchorage, 43 ft.
HEALTH: Hoist correct flags of International Signals Code to indicate health situation of ship. Before pilot boards, he should ask for health situation. If ship suspected, he will lead it to Lazareto anchorage and once anchored Pilot will report by means of Port Authority to Health Department. Port is provided with service of disinfection and means to kill rats.

Ships coming from Middle East and East Africa should carry certificate of anticholeric vaccination, antivariolic, antimarilic and antityphus. Also from North Africa and South America. All others only antivariolic and antityphus.
TUGS: A military tug, from Naval Station, can give private services if required with 24 hours notice, payment in advance.
BERTHING: Allocated in South of port, in front of Naval Station. The commercial berth is 216 metres long, 25 ft. depth. Berth of Cala Figuera only for oil, limit of draft 25 ft.
STEVEDORES: Stevedores available. Loading/discharge rates 200 metric tons per day. They should be notified before 8 a.m., those ships that berth first having preference or priority.
MEDICAL: In case of accident or illness of any member of crew medical assistance and hospitalization will be in civil hospital.
FRESH WATER: One supply in Cala Figuera, two in Maritime Club and three in Commercial berth. The minimum supply is 2 metric tons.
FUEL: Available from Campsa at Cala Figuera.
DEVELOPMENT: Scheme to increase Commercial Quay by another 60 metres, towards the West.
OPENING/CLOSING HATCHES: Carried out by crew.
IDENTIFICATION CARDS: Not required.
CONSULS: No consuls, but consular agents: France, tel. 351907; Holland tel. 351167; Italy tel. 351264.
REPAIRS: Small repairs available.
DRY DOCKS: Military floating dock of 2,000 metric tons.
AIRPORT: Mahon, 5 kilometres distance, with daily flights to Peninsula.
TIME: GMT plus 1 hour.
HOLIDAYS: Work can be arranged on holidays, provided workmen are paid extra.
POLICE/AMBULANCE/FIRE: Police 351095; Hospital 351023; Airport firemen 351193.
TELEPHONES: No facilities available.
AUTHORITY: Capitan de Navio, Comandante Militar de Marina de Menorca; tel. 352394 Estacion Naval de Mahon, tel. 351600.

MALAGA: 43.00 N. 36.04 W.

DOCUMENTS:
5 Crew Lists.
5 Passenger List or Negative.
1 Cargo Manifest of goods destined to Malaga, as well as of other cargoes in transit.
Store List in duplicate, including tobacco, spirits, radios, etc., belonging to vessel.

Details list in duplicate of all personal effects of the crew and passengers (tobacco, spirits, cameras, radios etc.). For vessels bigger than 499 GRT., Safety Equipment Certificate.

Note: Tobacco; In case vessel carries more than 3 kilos of tobacco per man, the excess must be declared in a separate manifest, which must be visaed by Spanish Consul. In absence of Consul, said document will have to be visaed by an Authority or Consul of a friendly nation at the former port clearance. Otherwise, vessel may be severely fined.
PILOTAGE: Pilotage is compulsory and service is permanent. Pilots board vessel by cutter in roads, near entrance formed by two breakwaters. Pilot cutters are painted white and have letter "P" in black on each bow. Cutters have a blue flag hoisted on mast, with the letter "P" in white, at both sides of flag. At nights, cutters have white light, and under this light, red one. Entrance between breakwaters is 320 metres wide and easily accessible. When weather in the roads is rather bad, which seldom happens, vessels approach as close as possible to entrance in order that Pilot can board easily.
ANCHORAGE: Vessels can anchor outside of breakwaters, in roads in depths of 60–70 ft. Anchoring is prohibited in vicinity of tanker moorings, the pilot will advise best position. Weather is bad occasionally when East wind blows, during winter.
MAX. SIZE: No restrictions in respect of length or breadth. Maximum advisable draft to enter port is 31–32 ft. Vessels like "New Amsterdam" and "Cristoforo Colombo" enter regularly.

The tanker sealine berth can accept vessels up to 300,000 dwt.
HEALTH: If vessels proceed directly to berth, pratique can be obtained immediately after berthing. In case of any suspected disease or fever on board, Master must radio to Agents, in order that they can advise Health Office.
RADIO: Nearest important radio station is Cadiz, or Gibraltar and Aranjuez. Master's messages should be received at least 24 hours before arrival.
TUGS: Ship's lines are used, tug-boats are employed according to Pilot's advice ,and upon request. There is one 600 h.p., another 1,000 h.p., and two of 1,500 h.p.
BERTHING: Pilots will advise Masters whether vessel has a free berth or not. Also if she has to anchor in roads. Further particulars can also be obtained from Pilot. Berth depths at L.W. from 26 tp 32 ft.
SPECIALISED CARGO-HANDLING FACILITIES: Quay No. 2 includes 15,000 tons silo for grain, and two new electric cranes are being set up at present for pneumatic loading and unloading, holding approximately 100 tons per hour.

Quay Number 6 can handle all cargo in bulk. Also three ton forklifts and a Hyster 620 capable for handling containers up to 26 tons. There are regular car ferries for passenger and cargo, roll-on/roll-off

plying daily with Tangiers and weekly with Genoa, Marseilles and Casablanca, all of them direct. For butane gas a special pier built outside the port Westward, along the beach in front of the depot. For LPG and chemicals the inner side of the Western breakwater can be used, though loading and unloading has to be done into tank trucks. 20 ft. containers can be handled with a Hyster forklift with appropriate spreader, eventually 30 ft. containers too.

By the end of 1973 it is expected that a 35-ton gantry crane will be available at Quay Number 1.

STEVEDORES: It is important that Master sends advance message regarding the vessel's ETA. Agents can inform Shippers or Receivers' stevedores accordingly, to arrange operations properly. Official working hours of port are: Monday/Saturday 08.00/12.00, 14.00–18.00 hours.

MEDICAL: Any kind of medical service can be arranged. In case a crew member needs medical attendance urgently, it is advisable that the Master radio in advance.

TANKERS: Petrol pier in the port can take ships of 30,000 tons, and 31 ft. draft. Ships up to 300,000 dwt tons, can unload at private sealine berth, a five point buoy mooring in depth of 70 metres.

DENSITY: 1025.

FRESH WATER: Always available. Deliveries are performed directly from the quay or occasionally by tugs. Minimum tonnage, 17 tons, occasionally supplies by tank-barge.

FUEL: Ordinary fuel oil and gas oil are available at local refinery of "Campsa". It is advisable that Shipowners contract bunkers through their own contractors, with anticipation of 48 hours, so that order can be received in time. Delivery can be performed at bunkering pier or by car tankers.

FIRE PRECAUTIONS: Tankers perform their operations at the private berths of "Campsa" which have necessary fire precautions.

DEVELOPMENTS: An extensive plan to increase facilities of port, and for building new piers. Other important work being effected at breakwater, to erect new piers for large passenger ships.

GANGWAY/DECK WATCHMEN: Available but not compulsory.

OPENING/CLOSING HATCHES: This work effected normally by crew, except in liner vessels, which is contracted by stevedores.

CERTIFICATES: Vessels should have the usual documents on board, but only Safety Wireless, Safety Equipment and Deratisation Certificates are required by authorities.

CUSTOMS ALLOWANCES: Normally, customs permit to have 200 cigarettes per man out of bond. One bottle of spirit for each crew member.

CARGO GEAR: Usually shore cranes are 2–3–6–15 tons lifting power employed in loading or discharging operations, if vessels require any lightening then vessel derricks are employed, as only one floating crane is available at the port of 25 tons and 15 m. height.

IDENTIFICATION CARDS: Not required.

CONSULS: Practically all countries have consulates at Malaga.

REPAIRS: Facilities of a limited nature.

DRY DOCKS: There is a floating dock for vessels up to 2,000 tons.

REPATRIATION: Good facilities.

AIRPORT: The airport is about 8 km from town. Daily services with Madrid, Barcelona, Seville, Valencia, Tangier and Melilla. Also direct flights to London, Paris, Amsterdam, Brussels, Frankfurt, Stockholm, Helsinki, Geneva, Zurich, Nice.

TIME: GMT plus 1 hour.

HOLIDAYS: 1st January; 6th January; St. Joseph (19th March); Good Thursday afternoon; Good Friday; Labour Day (1st May); Ascension Day; Corpus Christi; St. Peter and St. Paul (29th June); national holiday (18th July); 25th July; 15th August; 12th October; 1st November; 8th and 25th December.

POLICE/AMBULANCE/FIRE: Police, tel. 211302; Ambulance, tel. 275250; Fire, tel. 234567.

AGENT: Covandulken, SA, Alameda de Colon 9, Malaga. Telegrams "Covandulken" Malaga. Telex: 77040 Dulkn, 77063 sunco. Tel. 21–77–57 (3 lines); 21–96–04. Shipbrokers, Customs and Chartering Agents.

MOTRIL: 36.43 N. 03.30 W.

DOCUMENTS:

Health Certificate.
5 Passenger Manifests (1 Health, 2 Customs, 1 Police, 1 Agent).
4 Crew Manifests (1 Health, 2 Customs, 1 Agent).
2 Store Lists (for Customs).

PILOTAGE: Arranged by Agent basis ETA given 24 hours in advance. Pilot boat distinguished by painted "P". Night pilotage possible approx. 40% extra. Vessels await Pilot just outside port.

ANCHORAGE: Area near the port.

RESTRICTIONS: No entrance at night.

MAX. SIZE: Maximum draft 23 ft. Length maximum 230 metres.

HEALTH: Free pratique given on board.

RADIO: Telegraph office, no radio.

TUGS: Available.

CARGO-HANDLING FACILITIES: Berths equipped with shore cranes, 6-ton capacity, for handling bulk cargoes (grain, ore, fertilisers, etc.).

STEVEDORES: No ETA advice necessary. Agents arrange gangs. Work normal hours except holidays.

MEDICAL: No advance notice required. All facilities available.

TANKERS: Vessel about 8,000 tons. No special requirements.

DENSITY: Normal Mediterranean.

FRESH WATER: Available.

FUEL: No fuel available.

GANGWAY/DECK WATCHMEN: Agent arranges.

OPENING/CLOSING HATCHES: Crew open and close hatches.

CUSTOMS ALLOWANCE: Tobacco: About 100 cigarettes per man. Wine and or spirit. None.

IDENTIFICATION CARDS: Not necessary.

CONSULS: None in Motril. The nearest Granada or Malaga.

REPAIRS: No repairs possible.

REPATRIATION: Facilities available.

AIRPORT: The nearest airports Malaga 105 km. Granada 75 km.

TIME: Local time GMT plus 1 hour.

HOLIDAYS: see "Malaga."

POLICE/AMBULANCE/FIRE: Police 601221; Ambulance 600200; Fire 600200.

TELEPHONES: No facilities for placing telephones on board.

SHORE LEAVE: Crew members are allowed ashore.

AUTHORITY: Teniente de Navio, Ayudantia Militar de Marina, Puerto de Motril. Tel. 601059.

AGENT: Munoz Chapuli, Iribane y Garvayo Asociados S.A., Port Avenue, POB 55, Motril (Granada). Tel. 600627. Cables: Muirigar Motril.

PALAMOS: 41.50 N. 03.08 E.

DOCUMENTS:

3 Crew Lists.
1 Passenger List or negative.
Manifest of goods destination Palamos and in transit.
Store List in duplicate, including tobacco, spirits, radios, etc., belonging to vessel.
Detailed list in duplicate of all personnel effects of crew and passengers (Tobacco, spirits, camera, radios, etc.).

Tobacco – any excess over 3 kilos per person must be stated on a separate manifest duly visaed by Spanish Consul.

If on inspection differences are found in more or less, articles removed and heavy fine imposed.

PILOTAGE: Pilotage is compulsory and service is permanent. Often no berths available between 2400 and 0600 owing to port occupied by fishing boats. Pilot is informed by Agent of vessels ETA given 24 hours in advance. When vessels approach the breakwater, pilot will board. Pilot boat is white with a black "P" painted on the side.

BERTHING: Depth of water in centre of harbour 42–52 ft. Commercial Wharf length: North 689 ft., depth 18–26 ft. South 246 ft., depth 15–24 ft. Pier Wharf or breakwater: not available for commercial traffic. Length 2,100 ft.

RESTRICTIONS: None but for draft. Vessels carrying dangerous cargo should get authorization for berthing prior to arrival of the ship.

MAX. SIZE: No restrictions in respect of length. The maximum advisable draft for berthing is 24 ft. stern, 20 ft. bow.

HEALTH: Pratique is obtained immediately after berthing. In case of suspected disease or fever on board the master must radio to Agent in order inform Health Office in time.

RADIO: Radio Costera of Barcelona.

TUGS: None but Barcelona's tugs could be hired should the vessel's size make it necessary.

STEVEDORES: Information about ETA time is advisable to get gangs ready.

MEDICAL: Any kind of medical services can be arranged if information received in time.

FRESH WATER: Plentiful supply of water by means of hoses from the pier to vessel.

FUEL: Can be supplied if required.

DEVELOPMENTS: Steps are being taken to get the breakwater in condition to berth tankers and liners.

GANGWAY/DECK WATCHMEN: It is not compulsory but advisable at night.

OPENING/CLOSING HATCHES: Normally opened/closed by the crew, otherwise according to Charter Party.

CERTIFICATES: Usual documents on board. Safety Wireless, Safety Equipment, Deratisation and Registered Tonnage Certificates are the only ones required by the Authorities.

CUSTOMS ALLOWANCES: Crew: 3 Kilos tobacco per person. Passengers: 2 kilos per person. Any excess on this amount must be declared on a separate Manifest as in transit. Wine and/or Spirit: Only one bottle per man. Any excess, must be declared on a separate Manifest as cargo in transit and stowed apart from the tobacco and spirits carried under the Provisions List. This Manifest must be visaed by the Spanish Consul at the last port of call. Any infringement of this regulation will subject the vessel to the immediate imposition of heavy fines and confiscation of the excess tobacco.

IDENTIFICATION CARDS: Not required.

CONSULS:

France	Tel. 314472	Portugal	Tel. 320148
Denmark	,, 314400	Sweden	,, 320850
Italy	,, 320200		

REPAIRS: Only small ones.

REPATRIATION: There exist good facilities.

AIRPORT: Gerona Airport situated at 40 km. distance and half an hour time by car from Palamos. Regular flight services with Madrid, Barcelona, Palma Mallorca, London, and all over the world with transhipment at Madrid and/or Barcelona.

TIME: Always GMT plus 1 hour.

HOLIDAYS: New Year's Day (1st January); The Three Wise Men (6th January); St. Joseph (19th March); Good Thursday – afternoon only; Good Friday; Easter Monday; Whit Monday; Labour Day (1st

May); Ascension Day; Corpus Christi; Main Holiday (24th June); St. Peter and St. Paul (29th June); National holiday (18th July); St. James (25th July); Our Lady's Assumption (15th August); Columbus Day (12th October); All Saints Day (1st November); Immaculate Conception (8th December); Christmas Day (25th December); Second Christmas Day (26th December).
POLICE/AMBULANCE/FIRE: Police 31 41 87; Ambulance 31 43 50; Fire 31 43 50.
AUTHORITY: Captain of the Port.

PALMA, Majorca: 39.34 N. 02.38 E.

PILOTAGE: Compulsory. Order through Agent.
ANCHORAGE: In outer harbour in depths up to 13 metres.
RESTRICTIONS: Depth in harbour entrance up to 15 metres.
TUGS: Available if required.
BERTHING: Quays at Puerto Pi with 12 metres depth alongside. Quays at Puerto de Palma with up to 10 metres depth alongside.
FUEL: Supplied at the quays, rate 150 tons per hour.
FRESH WATER: Available at the quays.
AIRPORT: Palma Airport well connected with the Peninsula (mainland) and with foreign airports.

PASAJES: 43.21 N. 01.54 W.

PORT LIMITS: In this port a vessel is considered to be an "arrived ship" (subject to C/P Terms) when the Pilot leaves the vessel once she is inside the harbour. Can be on the roads awaiting for berth or alongside the quay. The laytime will commence when the Master has delivered by writing the notice of readiness.
DOCUMENTS:
4 Crew Lists.
2 Passenger Lists or negative.
2 Cargo Manifests with an individual copy of each Bill of Lading for parcels to be discharged at port of Pasajes.
Copy of Manifest covering other cargo on board in transit for other ports.
Stores List in duplicate, including tobacco, cigarettes, spirits, radios, etc., belonging to the vessel.
Detailed Crew's Stores List, in duplicate, of all personal effects pertaining to crew and passengers (tobacco, cigarettes, spirits, cameras, radios, arms, etc.).
For vessels exceeding 499 tons GRT Safety Manifest Certificate; Safety Equipment Certificate, Deratisation Certificate should be on board ready for production.
PILOTAGE: Pilot service is compulsory and permanent. Pilots board vessel in an area about one-and-a-half miles out from leading lights of entrance of port. The telegraphic address is: Corporacion Practicos, Pasajes. Notice should be given 24 hours before arrival; generally Agents keep Pilots informed of vessel's time of arrival when they are advised by Masters. VHF service will be available after 1970.
Pilots' cutter is painted in naval-grey with letter "P" painted in white on both sides of bridge; flag with letter "P" in white, is hoisted on cutters' mast.
International pilot signals are used by Pilots, by means of Aldis lamps, when approaching vessel at night. International light and sound signals to be made by vessel when requiring the Pilot.
In event of bad weather Pilots cannot board vessel at usual one/one-and-a-half miles location. Then vessel has to wait for instructions (VHF or radio) for coming in port.
With respect to boarding and safety measures the international safety regulations are to be carried out.
ANCHORAGES: A limited number of vessels may anchor in roads inside the port, in good shelter. Depth in area of anchorage is 25–30 ft.
RESTRICTIONS: The entrance channel has a length of 1,200 metres, breadth 120 metres and a depth of 10 metres LWS. Vessels over 130 metres length must enter at high water and in daylight.
MAX. SIZE: 150 metres length and 25 ft. draft. When dredging works are completed in the entrance channel, the port will be able to accept vessels of up to 180 metres length and 30 ft. draft.
HEALTH: If vessels proceed directly to berth pratique can be obtained immediately upon berthing. Vessels anchored in bay, pratique can be obtained after anchoring. In case of any suspected disease or fever on board, the Master must advise the Agents, by radio, in order they inform the Sanitary Authorities in advance.
RADIO: Nearest Radio Station is Cabo Mayor Radio. Messages by radio-telephone can be transmitted via Radio Arcachon (France). Notice of ETA should be sent to Agent 24 hours before arrival.
TUGS: No tug-boats required for vessels of normal steering when entering port. Tug-boats are required for berthing or shifting to and/or from quays Muelle De Ancho, Muelle De Molinao, Muelle De Capuchinos for vessels from 80 metres length on. Ship's lines are used and tug-boats are employed according to Pilot's advice.
BERTHING: Berths are appointed by Port Authorities after notice of arrival and information regarding cargo given by Agent. Pilots inform Masters of location of berth appointed, if any. No tidal difficulties for berthing or shifting inside the port.
CARGO HANDLING: Berth equipped for containers with two cranes of 12 tons. A new quay under construction for roll-on/roll-off traffic. There are two berths for discharging through pipe-line; tallow, codfish-oil, etc.
Whenever a vessel arrives with inflammable products, such as gas, propane, etc., the quay where vessel is discharging is fenced off.
STEVEDORES: ETA advice should be received by Agent 24 hours before arrival in order arrange loading/unloading operations with stevedores. The official working time in the port is: Monday/Saturday 08.00 to 12.00 and 13.30 to 17.30 hours.
MEDICAL: Any kind of medical assistance is available. In case urgent surgical or medical assistance required on vessel's arrival, Agent should be timely informed for making the necessary arrangements.
No particular inoculations required or vaccination/fever certificates to be produced unless epidemic at port wherefrom vessel is proceeding or has called during voyage.
TANKERS: Slop discharge to shore possible under agreement. Oil/tallow/asphalt-carriers berth alongside quays with 30 ft. of water. Diameter of discharge shore-lines are 6 in. and 8 in.
FRESH WATER: Available on all quays. Delivered by hoses.
FRESHWATER: Available at the quays.
directly from the quay at rate of 10 tons per hour.
FUEL: Ordinary fuel oil and gas oil are available. Supply is by means of pipes on bunkering pier Muelle De Petroleos. Owners should stem the bunkers with "Campsa" 48 hours before delivery.
FIRE PRECAUTIONS: No specific precautions required unless the vessel carries inflammable cargo. Special harbour fire-fighting corps.
DEVELOPMENTS: Extensive developments respecting the construction of new quays and amelioration of the entrance channel are actually under way. The works in the entrance channel will permit a draft and length increase.
GANGWAY/DECK WATCHMEN: Not compulsory. Shore watchmen available.
OPENING/CLOSING HATCHES: Normally carried out by crew.
CERTIFICATES: To be produced if required, specially Safety Wireless, Safety Equipment and Deratisation Certificates.
CUSTOMS ALLOWANCES: In case the vessel carries more than three kilos tobacco per each crew member and more than two kilos per passenger, the excess must be declared in a separate Manifest which must be legalised by the Spanish Consular Authorities. In absence of Spanish Consular Authorities that Manifest will have to be legalised by an Authority of last port of clearance wherefrom the vessel proceeds. Prudent, limited amount of spirits allowed per man.
IDENTIFICATION CARDS: Not required.
CONSULS: Consulates/Vice-Consulates at San Sebastian and/or Pasajes:

Argentina	El Salvador	Netherlands
Belgium	Finland	Norway
Brazil	France	Panama
Columbia	Germany	Paraguay
Costa Rica	Great Britain	Peru
Chile	Greece	Portugal
Denmark	Italy	Sweden

REPAIRS: Repair shops and shipyards available, where repairs or overhauls may be carried out.
DRY DOCKS: One floating dock 66·27 metres long, 23·25 metres wide, 9·125 metres draft. with lifting power of 1,900 tons. Two slipways (one for vessels of up to 1,000 tons – one for vessels of up to 300 tons).
REPATRIATION: Good facilities for repatriation.
AIRPORT: Airport of Fuenterrabia is situated at 15 km. from Pasajes. Regular daily services with Madrid and Barcelona.
TIME: GMT plus 1 hour.
HOLIDAYS: 1st January; 6th January; 19th March; Maunday Thursday (afternoon); Good Friday; 1st May; Ascension Day; Corpus Christi; 29th June; 7th July; 18th July; 25th July; 31st July; 15th August; 12th October; 1st November; 8th December; 25th December.
POLICE/AMBULANCE/FIRE: Police 351841; Ambulance 414148; Fire from 08.00 to 19.30 tel. 351400, from 19.30 to 08.00 tel. 352391; Red Cross (local) 351032; Hospital, San Sebastian, 423632.
TELEPHONES: No possibility of placing telephones on board.
SERVICES: Divers, compass adjusting.
SHORE LEAVE: Crew allowed to land immediately upon arrival.
AGENT: Sobrinos De. M. Camara Y Compania, Telegrams "Camara". Tel. 351414, 351293, 352734. Telex 36241.

RIBADEO: 43.33 N. 07.05 W.

DOCUMENTS:
Manifest of Cargo, including cargo in transit.
3 Crew Lists.
2 Passenger Lists or negative.
2 Stores Lists.
If vessel carries over 3 kilos tobacco per man, the excess to be declared in a separate manifest which must be visaed by Spanish Consul at last port, otherwise is exposed to heavy fine.
PILOTAGE: Prior advice of ETA required by Pilot, who boards at the mouth of the river at the time advised by Agent. Pilot boat is white-painted motor launch, carrying international pilot signals.
In case of bad weather, Pilot will instruct vessel by signals to proceed to anchorage or to berth.
The Pilot always boards on the lee side, in the latitude of Isla Pancha.
ANCHORAGE: At Ensenada de Arneo, approx. position 43° 33′ N. 7° 01.6′ W. in depth of 9 metres LW.
RESTRICTIONS: Vessels enter night and day, limited only by draft and state of tide.

MAX. SIZE: Length and beam not limited. Max. draft 15 ft.
HEALTH: Pratique given on arrival on production of clean Bill of Health. International quarantine signals to be used. Port Authorities to be advised if any case of suspected disease or fever on board.
RADIO: Messages may be routed through coastal stations at Vigo, La Coruna or Gijon.
TUGS: None available.
STEVEDORES: Stevedore services operated only by Servicio de Trabajadores Portuarios.
BERTHING: Vessels may berth at the mole at any time, or state of of tide, according to draft.
MEDICAL: There are two clinics and one hospital locally. Advance notice not essential.
DENSITY: 1025.
FRESH WATER: Water connections exist along the length of the mole. Rate, 20 tons per hour.
FUEL: There is a gas oil supply for small vessels, rate 5 tons per hour.
GANGWAY/DECK WATCHMEN: None required.
OPENING/CLOSING HATCHES: Performed by crew.
CUSTOMS ALLOWANCES: 200 cigarettes and one bottle wine/spirits per man.
CONSULS: Nearest at La Coruna.
REPAIRS: Minor mechanical repairs can be effected. Slipway for vessels up to 200 tons.
AIRPORT: Nearest at La Coruna, 150 km. away, or Aviles, 165 km. away, with regular services to Madrid.
TIME: GMT plus one hour all year round.

Passenger List.
(One of each) Ship's Papers.
PILOTAGE: No pilots in this port.
ANCHORAGE: Bay of Rosas is anchorage area.
MAX. SIZE: Draft in Commercial Port is 4 metres, which berths cargo ships of about 1,000 metric tons of net register.
HEALTH: Once ship is anchored in the bay it requires pratique by means of signals, and by raising the yellow health flag. When vessel entering after calling at another port in the same country, this procedure is not required; health inspector boards at the quay side.
RADIO: No radio station in the port, but can contact Coastal Radio Station of Barcelona (1730 kc/s. – 173·4 m.), power 150 W.
TUGS: None.
BERTHING: Advisable during daylight only.
MEDICAL: Port Health Doctor available. Hospitals 18 kilometres distance.
FRESH WATER: Available at Commercial Port at rate of 8 to 10 metric tons per hour.
FUEL: None available.
POLICE/AMBULANCE/FIRE: Police Service 25–62–72; Ambulance Service 24–21–20; Fire Service 24–10–00.
AUTHORITY: Ayudante Militar de Marina de Rosas. Tel. 25–63–23.

SAGUNTO: 39.42 N. 00.14 W.

PORT LIMITS: The East/West line through the point of Cape Escollera de Levante.
DOCUMENTS:
2 copies Entrance Manifest.
4 copies Crew List.
Passenger List disembarking at this port.
Passenger List in transit.
Refer to "Barcelona" for other important information concerning Documentation.
PILOTAGE: Port is privately owned, and Pilots employed by Altos Hornos de Viscaya S.A. As Pilots are employed in Consignees office, no separate ETA is necessary. They are sent out to meet vessels as required. Pilot boat is not fitted with radar or VHF. Boat displays signals in accordance with international regulations.
ANCHORAGE: Bearing 073° from Cape Escollera de Levante.
RESTRICTIONS: Delays may be caused by berth being occupied. Larger vessels may be delayed by bad weather (the Levante), as dredged channel is narrow.
MAX. SIZE: Draft 29 ft. 5 in. No other limitations.
HEALTH: Pratique can be arranged at any time by Consignees.
RADIO: Cadiz Radio-EAC, Cabo Palos Radio-EAP.
TUGS: Normally join vessel either in anchorage or ½ mile from entrance. Ship's lines are used. Tugs should be ordered in ETA message also mentioning vessels length and cargo.
BERTHING: Subject to berth occupation and to berthing priority that Altos Hornos gives to different cargoes. Overnight berthing is allowed, in cases of emergency, or for ship safety.
STEVEDORES: Employed by consignees.
MEDICAL: Medical assistance should be ordered in advance. All kinds of medical assistance available. One hospital owned by Altos Hornos.
TANKERS: No facilities.
DENSITY: Salt water.
FRESH WATER: Available.
FUEL: None available.
PORT FIRE PRECAUTIONS: Fire service organised by Altos Hornos.
GANGWAY/DECK WATCHMEN: Usually by crew. The Civil Guard keep watch on all ships for contraband.
OPENING/CLOSING HATCHES: Effected by ship's crew.
DEVELOPMENTS: Port to be expanded during the next five years to accommodate 300,000 tonners, at specialised cargo handling facilities.
CUSTOMS ALLOWANCES: 200 cigarettes only. One bottle spirits per man but bottle should be opened. Spanish spirits allowed; one bottle per man. No control of Spanish wines.
IDENTIFICATION CARDS: Passport only.
CONSULS: Nearest at Valencia.
REPAIRS: No facilities exist.
REPATRIATION: Facilities for effecting crew changes and arranging repatriation.
AIRPORT: Manises Valencia, 40 kilometres away.
TIME: GMT plus 1 hour.
HOLIDAYS: On religious festivals or Sundays no cargo work can be arranged. These are as follows: Our Lady of the Marine (16th July) no cargo work; National Festivity (18th July) no work; National Festivity (25th Jaly) no work; Hispanic Festivity (12th October) no work; Maundy Thursday, work can be done till 14.00 hours; Good Friday, no work.
TELEPHONES: None on board. Telephones placed in Boat house and Pilots' office.
SHORE LEAVE: Crew members allowed ashore.
AUTHORITY: Ayudante Militar de Marina, Calle General Mola No. 75. Tel. No. 5.

SAN FELIU DE GUIXOLS (Gerona): 41.46 N. 03.01 E.

GENERAL: Refer to Palamos for all general information.
PILOTAGE: Pilotage is compulsory. Service between 07.00 to 24.00 hours.
ANCHORAGE: Vessels arriving after midnight or due to port congestion are anchored outside the breakwater.
MAX. SIZE: The maximum advisable draft for berthing is 25 ft. and up to 115 metres length.
TUGS: No tugs available.
BERTHING: Due to the fact that a few vessels can work at the same time, it is advisable to know as soon as possible the ETA for berthing arrangements.

Commercial Wharf.	Length 108 m.	Depth 24–25 ft.
Breakwater	Length 116 m.	Depth 27–28 ft.

A pier for coasting vessels with a maximum draft of 18 ft.
MEDICAL: Any kind of medical services can be obtained in San Feliu or Gerona hospital.
FRESH WATER: By means of hoses from the pier.
FUEL: Can be supplied in small quantities.
CARGO GEAR: Commercial pier is served by an electric crane able to lift up to 6 tons. Normally vessels derricks are used.

SANTANDER: 43.28 N. 03.49 W.

PORT LIMITS: Between Cabo Menor and Punta Galizano.
DOCUMENTS:
5 crew lists.
7 passenger lists, or 3 negative.
3 cargo manifests of the goods destined to the port of Santander, two sets of manifests for cargoes in transit.
Store list in triplicate, including tobacco, spirits, radios, etc., belonging to the vessel.
Detailed list in triplicate of all personal effects of crew and passengers (tobacco, spirits, cameras, souvenirs, radios, etc.).
For vessels exceeding 499 GRT: Safety wireless certificate and Safety equipment certificate.
Legalisation required for manifests covering tobacco and tobacco products. This legalisation to be effected at the port prior to the first Spanish port of call.
Master and each member of crew of vessel can carry for his own consumption up to 3 kilos of tobacco in whatever form, and, if passengers are carried, up to 2 kilos per passenger, all of which must be declared in provisions list (1 kilo of tobacco = 1,000 cigarettes = 100 cigars). If Masters carry greater quantity than stated above, it cannot be manifested as tobacco for consumption on board, but must be included in Consular Manifest as being in transit, and as such must be separated in the holds from other cargo and hatches or lockers will be sealed by Customs until ship leaves Spanish waters. This Consular Manifest has to be legalised by a Spanish Consul. In the absence of Consul, said document will have to be visaed by an Authority of the former port of clearance. Otherwise, vessel would be severely fined.
PILOTAGE: Compulsory and service is permanent. Pilots board vessel by a cutter at the road, near the entrance off Mouro Island. Pilot cutters are painted white and have the letter "P" in black, on each bow. Cutters have blue flag with letter "P" in white, at both sides of flag. At night cutters have a white light, under this a red one. VHF available.
ANCHORAGES: The harbour consists of a large bay which provides good anchorage.

RESTRICTIONS: Entrance is well marked and there is no bar. Depth at entrance is at max. (dependent on tides) 33 ft.
MAX. SIZE: No restriction in respect of length or breadth, the maximum advisable draft to enter port is 33 ft.
HEALTH: If the vessels proceed directly to berth, pratique can be obtained immediately after berthing. Otherwise, at anchorage at vessel's arrival.

If vessel has sickness on board of a contagious nature Masters should advise Health Authorities by radio, and they will examine patients immediately upon arrival, to enable vessel to be granted free pratique. Should there be yellow fever on board, the vessel would proceed to Vigo. If vessel has to be fumigated or deratised a charge is made.
RADIO: Nearest important radio station is Cabo Mayor Radio, and it is advisable that messages received at least 24 hours before arrival.
TUGS: No tug-boats required for entering the port, only for berthing or shifting when in port. Ship's lines are used, and tug-boats are employed according to Pilot's advice.

BERTHING:

	Length	*Depth*
Calderon quay	650 ft.	12 ft.
Maura/Albareda quay	423 ft.	12 ft.
Bloques quay	3,940 ft.	30 ft.
Anaos ,,		32 ft.
Maliaño ,,		27 ft.
Maliaño ,, North Section	1,500 ft.	32 ft.
Campsa quays	900 ft.	24–28 ft.
Nueva Montaña quay	350 ft.	18 ft.

All depths of water quoted above correspond to LWOST and 13–14 ft. should be added for depths at HWOST. Bottom is generally soft.
Calatrava Wharf: for discharge of chemicals. Depth alongside 34 ft. with overall length limitation of 980 ft. Up River, at Astillero, beyond the harbour area, there is one spout called Orconera Tip for loading iron ore. Vessels up to 260–270 ft. length are allowed with a maximum draught, fully loaded, of 19 ft. Loaded vessels can only sail from that place at high water. A modern installation for dismantling and scrapping vessels is operating up river, on the way to Astillero.
CARGO-HANDLING FACILITIES: There are berths for handling bulk cargoes, grain, ore, coal, etc. There are also berths for handling bulk liquids chemicals. Berth available for roll-on/roll-off traffic in 1973.
STEVEDORES: It is very important that Masters send advance notice regarding vessel's ETA. With this notice, Agents can inform Shippers or Receivers' stevedores accordingly. Official working hours of port, are: Monday/Saturday: 08.00–12.00; 14.00–18.00.
MEDICAL: Any kind of medical services can be arranged.
TANKERS: "Campsa" (Spanish State Monopoly) has private berths. Installation is served by two identical concrete wharves situated in Nueva Montaña Basin, berthing space of which is 500 ft. with a depth alongside of 29 ft. New wharf under construction for tankers up to 35,000 dwt.
DENSITY: Sea water.
FRESH WATER: Always available. Supply is performed by tug-boats and from shore connections at various quays.
FUEL: Ordinary fuel, diesel and gas oil are available at "Campsa". Advisable that shipowners stem bunkers through their own Contractors, with an anticipation (at least)of 48 hours. Delivery can be performed either by tank-trucks or at bunkering pier.
DEVELOPMENTS: There is an extensive plan to increase the facilities of port, and also for building new piers. A new basin named Puerto de Raos is under construction (19,000 ft. of new quay line) including container terminal.
GANGWAY/DECK WATCHMEN: Not compulsory but available upon request.
OPENING/CLOSING HATCHES: Effected normally by crew, except in liner vessels, which is contracted by stevedores.
SHIP'S CERTIFICATES: Vessels should have the usual documents on board, but only the Safety Wireless, Safety Equipment and Deratisation Certificates are required by Authorities.
CUSTOMS ALLOWANCE: Normally, Customs permit to have 200 cigarettes per man out of bond. Additional quantities needed depend on the stay of ship in port. One bottle of spirit per man.
CARGO GEAR: Shore cranes are usually employed in loading/discharging operations.

1	fixed electric crane on Maura concrete quay	30 T.
4	movable electric cranes on Maura quay	3–6 T.
9	,, ,, ,, ,, Bloques quay	3–6 T.
11	,, ,, ,, ,, Maliaño quay	3–6 T.
4	,, ,, ,, ,, ,, N. quay	6 T.
5	,, ,, ,, ,, ,, N. quay	12 T.
2	,, ,, (grain) ,, ,, N. quay	250 T/hr.
2	,, ,, ,, ,, N. Montaña quay	3–6 T.

Also movable motor cranes, mechanical shovels and similar, available.
IDENTIFICATION CARDS: Not required.
CONSULS:

Germany	Honduras
Belgium	Italy
Colombia	Monaco
Costa Rica	Norway
Chile	Pays Bas
Denmark	Panama
Ecuador	Peru
Finland	Portugal
France	Santo Domingo
Greece	Sweden
Haiti	Guatemala

Note. Acting as Consul of those countries with no Consular Representation: Valentín Lavín del Noval, Dominican Consul.
REPAIRS: Good repair facilities with various shipyards at port. All types of deck, engine, etc., repairs are possible.
DRY DOCKS: Three dry docks, one of which is within the harbour area and the other at Astillero (beyond the harbour area). Dimensions are:

Extreme length	405 ft.	434 ft.	722 ft.
Breadth at entrance	58 ft.	54 ft.	105 ft.
Depth on sill (high water)	23·7 ft.	20 ft.	38 ft.

REPATRIATION: No difficulties.
AIRPORT: About 4 miles from town. There are regular services with Madrid and Barcelona. Also charter flights to U.K. and other European countries.
TIME: Always GMT plus 1 hour.
HOLIDAYS:

POLICE/AMBULANCE/FIRE: Police 222543; Civil Security Guards 232004; Hospital, Casa de Socorro 221214, Valdecilla 231400; Fire 231662; Ambulance Cruz Roja 270235.
TELEPHONES: On very special instances, can be arranged.
SERVICES: Available for tank cleaning, washings, compass adjusting, hull cleaning whilst floating, radio installation repairs, etc.
SHORE LEAVE: Crew allowed ashore at any time.
AGENT: Modesto Pineiro y Compania, S.R.C. PO Box 14, Paseo de Pereda, num. 27, santander.
Telegrams "PINEIRO-SANTANDER". Tel. 273600. Telex 35832. (Shipbrokers, stevedores and chartering Agents, Lloyd's Sub-agents.)

SEVILLE: 37.25 N. 06.00 W.

DOCUMENTS:
3 Crew Lists.
3 Passenger Lists.
2 Cargo Manifests, including cargo for discharge and in transit.
Declaration of Health
2 Lists of Provisions and Stores.
2 copies of Bills of Lading.

If vessel carries over 3 kilos tobacco per man the excess to be declared in a separate manifest which must be visaed by Spanish Consul at last port, otherwise is exposed to heavy fine.
PILOTAGE: *At the Bar:* Vessels may commence to enter and leave the river one and a half hours after low water. Bar Pilots are stationed at Chipiona and come out to board vessels when requested, 2 miles North of Chipiona Lighthouse.

Pilot motor launches about 9 metres long, painted white with black "P" on sides. They carry regulation lights and signals day and night.

River Pilots: Vessels should radio their ETA at least 24 hours in advance to "Practicos Sevilla". River Pilots are stationed at the pier at Bonanza, 36.48 N. 06.20 W. Sound signal to call Pilot is three long blasts. Pilot boards from white-painted launch marked by black letter "P" and carrying regulation signals. Pilots require means of embarkation in accordance with International Conventions.
ANCHORAGE: At Bonanza, in depth of 20 ft. below chart datum.
RESTRICTIONS: Navigation in the river above Bonanza is prohibited at night to vessels of more than 115 metres length, and 18 ft. draft, and to tankers or vessels with dangerous cargoes.

Draft is controlled by height of tide and this should be ascertained by Owners or Agents in advance for the probable date of entry.
MAX. SIZE: Length 185 metres, beam 24 metres, maximum draft about 24 ft. dependent on height of tide. Tankers are required to have an additional 1 ft. keel clearance.
HEALTH: Pratique is obtained on arrival at Bonanza, on presentation of International Health Certificates.
RADIO: Coastal stations of Cadiz, EAC, or Aranjuez, EAD 3.
TUGS: Normally join vessel in the anteport. Ship's tow line is used.
BRIDGES: Vessels berthing at Delicias Quay must pass through the Alfonso XIII drawbridge. May be opened at any time of day.
STEVEDORES: 24 hours notice should be given by Agents and confirmed 12 hours before vessels arrival.
MEDICAL: All medical and hospital facilities available.
TANKERS: There are two berths, depth alongside 20 ft.
At Quay No. 2, hoses 8-in. diameter
At Quay No. 3, hoses 8 and 10-in. diameter.

DENSITY: Fresh water. The tide has no influence at Seville.
FUEL: All grades available.
GANWAY/DECK WATCHMEN: Not considered necessary. All quays are watched by the Guardia Civil.
OPENING/CLOSING HATCHES: Performed by ship's crew.
CUSTOMS ALLOWANCES: 3 kilos tobacco per crewman, and 2 kilos per passenger; this includes tobacco in bonded stores. No restriction on wines/spirits.
IDENTIFICATION CARDS: Not required.
CONSULS: The following countries are represented at Seville:

Belgium	W. Germany	Panama
Bolivia	Great Britain	Peru
Colombia	Greece	Portugal
Cuba	Honduras	Sweden
Chile	Italy	Uruguay
Denmark	Liberia	Venezuela
Dominican Republic	Nicaragua	United States
	Netherlands	

REPAIRS: All types of repairs can be effected.
DRY DOCK: Astilleros Espanoles S.A. have one dock, length 149 metres, breadth 25 metres.
REPATRIATION: All facilities available.
AIRPORT: Situated 12 km. away, regular daily flights to Madrid, Barcelona, other parts of Spain. Some transatlantic flights.
TIME: GMT plus one hour, all year round.
HOLIDAYS: 1st January; 6th January; 19th March; Maundy Thursday; Good Friday; 1st May; Ascension Day; Corpus Christi; 29th June; 12th October; 1st November; 8th December; 25th December. All holidays may be worked with overtime.
POLICE/AMBULANCE/FIRE: Police: 091; Fire Brigade: 232123; Ambulance: 231945.
TELEPHONES: Can be installed on board if requested ten days in advance.
SHORE LEAVE: No restrictions.
SERVICES: Fresh provisions and stores available, refuse collection, correction of compasses.
AUTHORITY: Comandancia Militar de Marina, Avenida de Molini, Seville. Tel. 232527. Telex 72075.

SOLLER: Majorca, 39.47 N. 02.46 E.

DOCUMENTS: See "Bilbao".
PILOTAGE: None available. Two intermittent lights situated on the Mola indicate the Entry Channel.
MAX. SIZE: Advisable length and draft 60 and 4·50 metres respectively.
TUGS: None available.
MEDICAL: It is advisable to give advance notice if medical attention is required. There are no hospitals. Medical service is available 5 kilometres from the port.
FRESH WATER: Not available at the quay.
FUEL: None available. If required the order should be placed to Campsa through the Agent.
GANGWAY/DECK WATCHMEN: Crew do this operation.
OPENING/CLOSING HATCHES: Crew.
IDENTIFICATION CARDS: It is advisable to have these available.
CONSULS: None.
REPAIRS: No facilities exist.
AIRPORT: The airport is situated 40 kilometres away; the island is well connected with the Peninsula (mainland) and with foreign airports.
TIME: GMT plus 1 hour.
SHORE LEAVE: Allowed.
AUTHORITY: Jefe Encargo del Despacho de Buques, Oficianas del Destacamento de la Comandancia Militar de Marina en Soller.

TARRAGONA: 41.06 N. 01.17 E.

DOCUMENTS: Cargo Manifest of all goods in ship, stating any foreign port from where those goods come. This procedure should always be done in the first Spanish port.

In first Spanish port ship should produce an Itinerary Manifest; and those ships which carry goods to discharge should produce this Manifest in those ports in which they will discharge the goods.

Supplies Certificate for those ships that not having any goods to discharge in any Spanish port, had previously being in other Spanish port.

Register of the Supplies and Equipments in ship.

Register of the Crew's Belongings, if the ship comes directly from a foreign port.

Passenger List (if there are passengers). Negative Passenger List (if there are not passengers)

Crew List.

Health Certificate, if the ship comes from another Spanish port.

PILOTAGE: Every ship upon arrival should note following signals: During day, hoist flag letter "G" of International Signals Code. Acoustics signal, three long whistles. During the night, flash signal letter "G" of code or the letters "PT". Cable Address: Practicos Puerto Tarragona. No VHF station.

Pilot boats: White colour with letter "P" painted on both sides. Lights: according to International Regulations. Pilotage area begins at a maximum distance of two miles from port entrance. Ships awaiting for Pilot anchor in the Rada and East of the lighthouse. If weather does not allow, Pilot will meet ship at port entrance. Ladder for Pilot to be placed at leeward side.

ANCHORAGE: The West limit is marked by imaginary line between lighthouse and cathedral tower. East limit is marked by imaginary line between the Paseo de Sta. Clara with the cathedral tower. Depths in Rada are 16 metres and 30 metres; quite good for anchoring (mud and sand).
RESTRICTIONS: No restrictions to enter port during day or night. No tides.
MAX. SIZE: Maximum length 230 metres, maximum draft 32 ft. Outside port the plant of Pantalán de Assesa, one mile West of lighthouse, allows berth of tankers up to 30,000 tons dwt.
HEALTH: Hospitals and clinics available. There is a doctor service in health department of port, which is authorised to vaccinate, and give certificates against yellow fever authorised by the OMS.
RADIO: No radio station.
TUGS: Four tugs. Tugs join vessel outside port. Ship's lines are used.
BERTHING: All berths are made of stone with rubber protection every 20 metres in the port. In Pantalán de Assesa, quays over iron pillars and berth is on the platform.
STEVEDORES: Advisable to report ETA, in order to have all the necessary equipment and necessary number of workmen required for operations. If there are not enough cranes at a given time, own ship equipment is used.

General Cargo: Estimated speed of 80–100 tons per person in a working day of 8 hours, except in particuar cases due to the nature of the cargo.

Cargo in Bulk: Speed varies according to the nature of the goods. For instance:

Minerals 500–800 tons per person in a working day of 8 hours.
Grains: 400–600 tons per person in a working day of 8 hours.
Goods in bags: 150–200 tons per person in a working day of 8 hours.

GANGWAY/DECK WATCHMEN: Not compulsory, if Master requires them he is provided with specialised staff for this purpose.
OPENING/CLOSING HATCHES: Although this work is normally carried out by crew it can be done as well by the stevedores if required at extra charge.
TANKERS: Outside the port is the Pantalán of Assesa for berthing oil carriers.

Storage of residues: There is a plant for slop (residue) discharge facilities connected with all platforms of the Pantalán and plant of residues disposal is available to all vessels.

There are three platforms to berth with the following draughts: Platform "A" – 38 ft. Platform "B" – 29 ft. Platform "C" – 23 ft. In inner port there are berths to discharge refined goods available to the tankers of the Compania Arrendataria of the Oil Monopoly.
FRESH WATER: Supply of fresh water by means of an underground pipe in all the commercial quays of the port.
FUEL: Available. The grade of viscosity available is below 20 E. to 50 C. Request of this supply should be done with 24 hours notice through the Commercial Agent of Campsa.
DEVELOPMENTS: Building of quay in Levante Dock, with a length of 550 metres and 12 metres draft, with a probable extension of another 300 metres of quay with 14 metres draft. The draft in the port will then be 12·70 metres and in the entrance channel 13·40 metres.
CUSTOMS ALLOWANCES: It is permitted to have a packet of tobacco per person per day. Unlimited allowance with national drinks.
CREW IDENTIFICATION CARDS: Not required.
CONSULS: Various available.
REPAIRS: Small repairs available.
DRY DOCKS: None.
REPATRIATION: Facilities exist.
AIRPORT: The town of Reus 12 kilometres distance has a military airport that is also used for charter flights.
TIME: GMT plus 1 hour.
POLICE/AMBULANCE/FIRE: Police 20–11–29; Ambulance at local hospitals; Fire 20–19–50.
SHORE LEAVE: Allowed.
AUTHORITY: Capitan del Puerto en Comandancia Militar de Marina, telephone 20–16–22.

TORREVIEJA: 37.58 N. 00.40 W.

DOCUMENTS:
2 Crew Lists.
Customs Documents.
Health Declaration.
Manifests,
Bills of Lading are done by Agents.

PILOTAGE: Requested by Agent. Permanent service. White-painted boat with letter "P" on sides. Pilot goes out of port as far as one mile.
ANCHORAGE: Outside, 0·5 mile off lighthouse of Eastern quay. Inside, according to Pilot's judgement.
MAX. SIZE: Unlimited length and breadth; limiting draft 27 ft.
RADIO: Alicante Coastal Radio.
TUGS: None available.
BERTHING: West quay is 220 metres long with a depth of 10 metres used only for loading salt, 200–400 tons metric tons per hour.
STEVEDORES: Available, employed by the consignees.
MEDICAL: Hospital situated 45 kilometres distance. Medical services and Emergency Clinic in port.
DENSITY: 1034.
FRESH WATER: Available at the quay. Price 50 pesetas per metric ton.

FUEL: None available.
GANGWAY/DECK WATCHMEN: If required can be contracted.
OPENING/CLOSING HATCHES: Carried out by crew.
CUSTOMS ALLOWANCES: 200 cigarettes. Two bottles wine.
IDENTIFICATION CARDS: Not necessary but convenient.
CONSULS: Sweden Vice-Consul 101; Norway, Denmark and Liberia Vice-Consul 135.
REPAIRS: Small repairs in engines, electrical, etc.
REPATRIATION: There are no problems in this respect.
AIRPORT: 30 km. distant at Alicante. Regular flights to Madrid.
TIME: GMT plus 1 hour.
HOLIDAYS: See Huelva.
POLICE/AMBULANCE/FIRE: Police tel. 99, Ambulance and Firemen tel. 83.
TELEPHONES: There are no connections on board. One on the quay.
SHORE LEAVE: No restrictions.
AUTHORITY: Ayudante Militar de Marina and Captain of the Port, Telephone 42.

VALENCIA: 39.27 N. 00.19 W.

DOCUMENTS:
3 Crew Lists.
2 Passenger Lists or a negative.
1 Cargo Manifest of goods destined for the port.
Another Manifest covering transit cargo.
2 Store Lists, including tobacco, cigars, cigarettes, coffee, spirits, radios, cameras, etc., in possession of crew. In all cases make and number of radios to be indicated.
Safety Wireless Certificate and Safety Equipment Certificate.
If vessel carries over 3 kilos tobacco per man, the excess to be declared in a separate manifest, which must be visaed by Spanish Consul at the last port, otherwise vessel is exposed to heavy fine.
PILOTAGE: Pilotage is compulsory for this port. The pilot launch is painted black with a letter "P" painted in white on the sides.
ANCHORAGE: There is a good anchorage outside the port, vessels are required to keep the entrance channel clear.
RESTRICTIONS: Entrance to the port faces S.S.E. and is 260 m. wide, with a low water depth of 12 m.
MAX. SIZE: Length 250 m. draft 11 m.
HEALTH: If the vessels proceed directly to berth, pratique can be obtained immediately after berthing. Otherwise, at anchorage at vessel's arrival.
If vessel has sickness on board of a contagious nature Master should advise Health Authorities by radio, and they will examine patients immediately upon arrival, to enable vessel to be granted free pratique.
RADIO: Coastal radio station with international frequencies 1580 kHz.
TUGS: Not compulsory for entering port. 7 tugs available up to 900 h.p. Two tugs normally used for berthing and unberthing.
BERTHING: *Espigon Del Turia:* Berths for 8 vessels, depth alongside 9–11 metres.
Muelle de Poniente: 3 berths, depths alongside 7–11 metres.
Muelle de Levante: 3 berths, depth alongside 8–9.5 m.
Inner Dock: Berths for 6 vessels, depth alongside 7 m.
CARGO-HANDLING FACILITIES: Grain, coal, fertilisers, etc., in bulk are handled at Espigon del Turia and Muelle del Turia. Also at Muelle del Turia is a chemical-handling installation, depth alongside 9·25 metres.
Container berths situated at Muelle de Poniente and on the North side of Espigon del Turia. Two berths available for roll-on/roll-off traffic.
TANKERS: Berth at Muelle de Poniente, up to 30 ft. draft.
MEDICAL: All medical services available in the port and in the city.
DEVELOPMENTS: Two new berths scheduled to be completed end 1973, one length 160 metres with 9 metres depth, and the other 600 metres long with a depth of 14 metres.
REPAIRS: All types of hull and machinery repairs can be effected.
FLOATING DOCK: 1 floating dock available, owned by Union Naval de Levante. Interior length 143 m., interior width 24.60 m. Lifting capacity 8,000 tons.
CUSTOMS ALLOWANCE: Normally Customs permit to have 200 cigarettes per man out of bond. Additional quantities needed depend on the stay of ship in port. One bottle of spirit per man.
FRESH WATER: Available at all main berths at the rate of 30 tons per hour.
FUEL: Campsa can supply by pipelines at the Turia berths, at the rate of 750 tons per hour and at Muelle de Poniente at the rate of 200 tons per hour.
TIME: Always GMT plus 1 hour.
AIRPORT: Situated at Manises, 10 kilometres away from the port.
CONSULS: The following countries are represented in Valencia:

West Germany	Ecuador	Nicaragua
Argentina	U.S.A.	Norway
Belgium	El Salvador	Netherlands
Bolivia	Finland	Panama
Brazil	France	Portugal
Colombia	Great Britain	Sweden
Costa Rica	Greece	Switzerland
Chile	Guatemala	Uruguay
Denmark	Honduras	Venezuela
Dominican Republic	Iceland	Yugoslavia
	Italy	

POLICE/AMBULANCE/FIRE: Police 091; Fire 271234; Ambulance 230304.
HOLIDAYS: Work can be arranged on following holidays. New Year's Day (January 1 full day); Epiphany (January 6 full day); Saint Joseph (March 19 full day); Easter (two days); Saint Joseph Artisan (May 1 full day); Saint Peter & St. Paul (June 29 full day); Labour Day (July 13 full day); Patron Saint of Spain (July 25 full day); Assumption Day (August 15 full day); Martyrs' Day (August 30 full day); Holiday of Hispanicism (October 12 full day); All Saints (November 1 full day); Christmas Day (December 25 full day).
AUTHORITY: Direccion del Puerto de Valencia, Muelle de la Aduana, Valencia.

VIGO: 42.14 N. 08.40 W.

DOCUMENTS:
Maritime Declaration of Health.
Crew List.
Passenger List.
Manifest of Cargo for the Port.
Manifest of Cargo in Transit.
Ship's Stores List.
Crew's Personal Effects List.
Ship's Particulars Declaration.
Note: Tobacco. In case the vessel carries more than 3 kilos of tobacco per man, the excess must be declared in a separate manifest, which must be visaed by a Spanish Consul. In the absence of the Consul, said document will have to be visaed by an authority of the former port of clearance. Otherwise the vessel would be severely fined.
PILOTAGE: Pilotage at Vigo is compulsory and the service permanent day and night. Pilots board in auxiliary motor-boats with a letter "P" in white at both sides of the hull and a blue flag with the letter "P" in white, near the entrance of the harbour, in the zone included inside Punta Lameda-Cabo Vicos on the channel of the South entrance and inside Punta Caballo-Subrido, on the channel of the North, both situated to the West of the harbour. At night the pilot boats have a white light visible around the horizon and under this light another red one, also visible around the horizon. International code signals used to call Pilot, or four long blasts on the whistle. Pilot station situated at Cabo de Mar. Three pilot boats normally on station on a line connecting Borneira and Cabo de Mar.
ANCHORAGE: Several suitable anchorages in the Vigo River, naturally sheltered, in depths of more than 35 metres. The main anchorage opposite the port on the South side of the river has depths of 15–25 metres.
MAX. SIZE: No limitation for length and beam, unlimited deep water approaches.
HEALTH: If vessels proceed directly to the berth, pratique can be obtained immediately after berthing. Otherwise, at the anchorage on vessel's arrival. In case of suspected disease or fever on board, the Master must send a radio message to the Agent in order that they advise the Health Office.
RADIO: The nearest Radio Station is Vigo Radio, situated in the limits of Vigo port.
TUGS: No tug-boats are required for entering the port. Only used for berthing ships from 120 metres length upwards according to Pilot's advice. At Vigo there are 2 modern tugs of 1,000 h.p. each. Tugs join vessel off the berth. Tug's line used at no extra charge.
BERTHING: The commercial piers to load or unload have a depth of about 28 ft. and the Transatlantic Pier, depth of about 40 ft. at LW. The tide difference between high water and low water is about 3·50 metres.
At Rande, in the lower harbour, there are very modern special loading installations for mineral ore, at an average rate of 2,000 tons per hour. The depth alongside this installation is 36 ft. LW.
Containers are handled at Muelle de Arenal by cranes of 15 and 20 tons capacity. Depth alongside 10 metres.
Roll-on/roll-off traffic berths, depth 6 metres, situated inside Transatlantic Pier.
TANKERS: Tankers berth at a pier depth alongside 11 metres at low water. Tankers up to 300 metres length acceptable. Inner berth suitable for vessels of less than 100 metres length with a draft of 6 metres. Discharge lines 12 in., 10 in. and two of 8 in. diameter.
STEVEDORES: It is very important that Masters send advance notice regarding the vessel's ETA. With this notice, Agents can inform Shipper's or Receivers' stevedores accordingly, so that they arrange operations properly. The official working hours of the port are: Monday/Saturday, 09.30/13.00 – 14.00/18.00 hours.
MEDICAL: Doctors and hospital facilities available. Advance notice preferred in urgent cases.
DENSITY: Average 1026.
FRESH WATER: Available from the quays at the rate of 50–80 tons per hour. Can also be supplied by tugs at 500 tons per hour.
FUEL: Available from the Oil Pier or delivered by barge. 24 hours notice of requirements recommended.
DEVELOPMENTS: Bulk carrier berth under construction suitable for vessels up to 300 metres length and 16 metres draft.
WATCHMEN: Available from shore if required.
HATCHES: Opening may be done by crew to avoid delays. Closing hatches usually performed by crew.
CUSTOMS ALLOWANCES: 200–250 cigarettes or three kilos of tobacco and 2 bottles spirits may be held out of bond for each person. Wine not restricted.
IDENTIFICATION CARDS: Shore passes are provided by the Agent.
CONSULS: Practically all countries have consulates at Vigo.

REPAIRS: All types of deck and engine repairs are possible.
FLOATING DOCKS: One floating dock available: length 128 m., breadth 22·40 m.
REPATRIATION: Crew changes and repatriation can be arranged without difficulty.
AIRPORT: Local airport, situated 8 kms. from the port, has at least one daily flight to Madrid. International airport of Santiago de Compostela is 100 km. away.
TIME: GMT plus 1 hour all the year round.
HOLIDAYS: 1st January; 6th January; 19th March (St. Joseph); Good Thursday afternoon; Good Friday; 28th March (local holiday, Reconquest Day); 1st May (Labour Day); Ascension Day; Corpus Christi; 29th June (St. Peter and St. Paul); 18th July (National Holiday); 25th July (St. James' Day); 15th August; 12th October; 1st November; 25th December.
POLICE/FIRE/AMBULANCE: Police, tel. 21.00.00; Fire, tel. 21.20.00; Ambulance, tel. 21.25.09.
TELEPHONES: No arrangement for connecting on board.
SHORE LEAVE: Allowed without restriction.
AUTHORITY: Director del Puerto, Junta del Puerto y Ria de Vigo, Plaza del Puerto. Tel. 21.13.24.

Spanish Sahara

EL AAIUN: 27.06 N. 13.25 W.

DOCUMENTS: See 'Villa Cisneros'.
APPROACHES: There is a light located at Medeano de Aaiun in position 27.06 N. 13.25 W. flashing 5 seconds, 10 miles.

This light reported to be obscured and thereby giving the mariner no warning. It should be noted that during the night all lights at the pier are switched off and no lights ashore are visible at a distance of 10 miles off the coast.

However, Aaiun Terminal gives a good radar target at a distance of 25 miles. Vessels approaching from the North should keep 10 miles off the coast until the pier is bearing 090° and then steer straight for the pierhead.

It is not recommended to approach in darkness, as no lights or other guides are available, except Radar bearings.
PILOTAGE: Compulsory. Pilot boards about 0·5 miles to 0·75 miles off the berth from a blue-painted craft.
ANCHORAGES: Good anchorage can be found in 7 fathoms of water, 1 mile from the pierhead. Recommended anchoring at this port only in good weather. No shelter in strong winds.
MAX. SIZE: Depth 17·5 metres at LWS at the berth.

At present there are three dolphins, 25 metres apart: also mooring dolphins capable of taking vessels up to 100,000 dwt.
QUARANTINE: Valid Smallpox and Yellow Fever Certificates are required. Otherwise usual clearance.
RADIO: Via Teneriffe Radio on HF, call sign EAT. Via Las Palmas Radio on MF, call sign EAL.

There is no coast radio station in Spanish Sahara for communication with El Aaiun. Communication between vessel and terminal during loading is by walkie-talkie which Pilot brings on board.
TUGS: There are two tugs available from Las Palmas, one of 2,000 h.p. and one of 1,400 h.p. The tugs are called to assist from Las Palmas whenever a ship arrives.

Vessels not seeing the tugs moored or anchored in the area of the port should anchor as Pilot will most likely not board prior to arrival of the tugs.
BERTHING: Aaiun Mineral Terminal is located approx. 3 miles South of El Aaiun City. Facilities consist of modern equipment available for handling phosphates in bulk, at a rate of 600 tons per hour.

There are two loading conveyors. The conveyors are fixed and placed about 200 ft. apart, but can turn 180° in each direction.

It should be noted that no gangway must be rigged at this terminal, as communication from ship to shore is done by means of elevators from the conveyor head.

The terminal head is in a North–South direction. Vessels are moored alongside three dolphins. The loading pier has a height above water level of 50 ft. and the dolphins approx. 20 ft. The dolphins are well fendered.
REPAIRS: No repairs can be effected at this port.
SUPPLIES: No ship supplies are available.
TERMINAL OPERATORS: Fosfatos de Bu Craa SA (Fosbucraa), Boix Y Morer 6, Madrid 3, Spain. Cables: Fosbucraa Madrid. Telex: 27356. Tel. 2–33–36–00.

VILLA CISNEROS: 23.42 N. 15.55 W.

DOCUMENTS: *Foreign Vessels*
Crew List.
Health Pratique.
Passenger List.
Cargo Manifest.
Spanish Vessels, in addition to the above:
Safety Equipment Certificate.
Radio Safety Certificate.
Seaworthiness Certificate.
PILOTAGE: Pilot is necessary to cross the bar and for river navigation. Pilot joins at anchorage. Pilotage compulsory for all vessels over 50 GRT. Contact Pilot by radio-telephone, via Puerto de Villa Cisneros Radio operating on 2182 and 2626 kHz. from 0800 to 1300 and from 1500 to 2000 hours GMT.
ANCHORAGE: In depths of more than 10 metres about 0·6 mile East of the breakwater head. This situation is well protected from swell from the S.W. but open to winds from the N.E. which are frequently strong creating difficult conditions for very small vessels. There are no mooring buoys.

Vessels loading trans-shipment cargo anchor in position with Punta Galera Light bearing 030° T, 1·2 miles off. The prevailing winds blow mostly from the north up to force 3 with a long low swell mostly from a north westerly direction.
MAX. SIZE: Length 100 metres, beam 12 metres, draft 5 metres.
HEALTH: Masters are required to complete a health certificate for the Comandancia declaring that the vessel has not called at any infected ports.
TUGS: None available, only one small launch which may assist.
BERTHING: Breakwater of 750 metres length extends towards the S.E., berths alongside the last 200 metres, one concrete pier for small vessels, three small jetties enclosing two docks, can be used by vessels of medium size.
STEVEDORES: Employed by Port Authority and engaged by ship's Agent.
MEDICAL: Hospital available for any kind of medical attention; doctors and ambulance service available.
TANKERS: Moor at jetty No. 2. Pipelines 4 in. diameter.
FRESH WATER: On the quays are 3 hydrants, capacity 3 tons per hour and 4 of 2 tons per hour.
FUEL: Atlas Company can supply fuel subject to advance notice.
HATCHES: Opened and closed by crew.
CUSTOMS ALLOWANCES: Crew are allowed to take only sufficient tobacco ashore for their own consumption. It is not permitted to take alcohol ashore.
IDENTIFICATION CARDS: Seamen going ashore must take an identity card or a shore pass, issued by the Master.
CONSULS: No local representation.
REPAIRS: Only facilities for very minor repairs.
REPATRIATION: Can be arranged provided that documentation is in order.
AIRPORT: Situated 1 kilometre from the port. Iberia Airlines have 5 flights per week. In case of emergency, military aircraft may be used.
TIME: GMT is used all year round.
HOLIDAYS: 1st January; 6th January; Maundy Thursday; Good Friday; Corpus Christi; Ascension Day; 29th June; 16th, 18th and 25th July; 15th August; 12th October; 1st November; 25th December.

Mohammedan Holidays: Aid el Queber (2 days); Aid el Mulud (1 day); Aid el Seguer (2 days).
POLICE/FIRE/AMBULANCE: Police Station situated 100 metres from the quays. Fire: tel. 18. Ambulance: tel. 17.
SHORE LEAVE: Allowed without restriction.
AUTHORITY: El Comandante, Militar de Marina.

Sri Lanka (formerly Ceylon)

COLOMBO: 06.56 N. 79.50 E.

DOCUMENTS:
5 each of Crew and Passenger Lists.
8 Manifests.
1 Arrival Report for Pilot.
1 Master's Declaration for Immigration, and same for Police.
2 Private Property Lists of officers and crew for Customs.
2 copies of Preliminary Report by Master for Customs.
1 Maritime Declaration of Health for Port Health Officer.
1 Master's Declaration of Cargo for Quarantine Department.
PILOTAGE: Vessels approaching port apply for Pilot by flying the G flag by day or two red lights at night. They can, in addition, flash the pilot station or use VHF Channel 16. The telegraphic address of pilot station is "Pilot Station Port Commission Colombo" and a provisional ETA 24 hours ahead is advisable with corrections thereafter. However, these are best channelled through the vessel's Agent. Pilot boat is a wooden motor launch with the word "Pilot" on its side. It flies the H flag by day or red and white lights by night according to the international code. The Pilot boards within an area of about 1 mile of the harbour entrance. Advice of where to anchor can be obtained from the Pilot by VHF or signal light.
ANCHORAGES: The usual anchorage off port is within 3 miles of the harbour mouth where up to 14 fathoms of water is available. 18 fathoms of water is available within 6 miles.
RESTRICTIONS: Entry may take place at all hours of the day and night but it is unusual for the Pilot to board vessel between midnight and 0400 hours.
MAX. SIZE: For entering harbour, max. draft 36 ft. and a length of 800 ft. is permissible. Beam is not critical. There is no appreciable rise and fall of tide.

Tankers' max. dimensions for berthing alongside: length 750 ft., draft 34 ft.
HEALTH: The vessel entering port must fly the Q flag until boarded by the Port Health Officer to grant pratique. Pratique may be granted by radio if there is a doctor on board provided the ship is not calling from a port in India. A radio message should be sent within 24 hours of the vessel's ETA in the following terms "Last port —— no quaran-

tinable disease on board – Doctor on board" and the Port Health Officer will reply to the Agent confirming pratique being granted by radio. Pratique is automatic if the vessel enters after calling at another port in Sri Lanka. If any quarantinable disease on board double Q flags must be hoisted prior to entering harbour.

RADIO: "Colombo Radio" with a call sign 4PB is the usual channel for communicating with Colombo.

The pilot station is presently available on VHF Channel 16 and the Port (Cargo) Corporation on VHF Channel 11.

TUGS: Tugs normally join the vessel at the harbour mouth and use their own lines.

BERTHING: There are no specific requirements relating to berthing space but early advice of draft is most advisable.

STEVEDORES: The stevedores at Colombo are the Port (Cargo) Corporation, a nationalised concern having the monopoly of stevedoring and lighterage. ETA at least 24 hours in advance if possible. Gangs for the day shift which commences at 0730 hours must be ordered by 0700 hours and gangs for the evening shift, commencing at 1630 hours, by 1600 hours. This excludes the Poya Day on which only the day shift is worked, and gangs must be ordered by 0930 hours on the previous day.

MEDICAL: Although advance notice of medical assistance required is helpful, particularly when port stay is limited, it is not essential. Comprehensive hospital facilities are available either in private nursing homes or in the Government hospitals. The following inoculations are required: Smallpox and cholera, yellow fever if calling from ports in East Africa and Mozambique.

TANKERS: There are 3 tanker berths, one for importing crude oil suitable for tankers of 750 ft. length, max. draft 34 ft. One berth for white oil tankers with max. draft 33 ft. One berth for fuel oil imports for vessels with a max. draft of 31 ft., and this same berth is used for exports when permissible draft is 33 ft.

The diameter of discharge lines;

Crude oil, 24 in giving capacity 1,000 tons per hour.
White oil, 10 in., capacity 250 tons per hour.
Gasoline, 10 in., capacity 170 tons per hour.
Furnace oil, 14 in., capacity 500 tons per hour.
Naphtha, $12\frac{3}{4}$ in., capacity 450 tons per hour.

Pumping will not be commenced after nightfall. No residue discharge facilities are available.

DENSITY: 1025.

FRESH WATER: Fresh water is readily available by barge. The rate of delivery is approximately 40 tons per hour. The water is of good quality.

FUEL: Furnace diesel and gas oil available. Advance notice of at least 24 hours is advisable as the bunker requirements of the port often exceed the ability of the oil companies to supply immediately. Supplies are by barges which can pump at 150/200 tons per hour.

DEVELOPMENTS: One new alongside dry-cargo berth with a draft of 34–42 ft. should be ready by 1973 and there are plans for further development.

GANGWAY/DECK WATCHMEN: Watchmen are available and are to be recommended unless members of the crew are available to provide this service.

OPENING/CLOSING HATCHES: This work is normally carried out by the stevedores except in the case of McGregor or similar hatch covers which they will not handle.

CERTIFICATES: Register showing vessels name, port of registry, gross and nett tonnages and owner. Safety Equipment Certificates quadrenninal and annual, Ship's Articles (British) and clearance from previous port and deratisation Certificate.

CUSTOMS ALLOWANCES: Cigarettes 25 per man per day. Tobacco 1 oz. per man per day. Snuff 1 oz. per man per day. Spirits $\frac{1}{4}$ bot. per man per day. Wine 1 bot. per man per day. Beer 2 bots. per man per day.

IDENTIFICATION CARDS: These are not essential but the crew is expected to carry some form of identification with a photograph on it when they leave the vessel.

CONSULS:

America	Maldives
Belgium	Netherlands
Burma	Philippines
China	Poland
Czechoslovakia	Denmark
France	Thailand
Germany	Rumania
Hungary	Soviet Union
Indonesia	Switzerland
Italy	United Arab Republic
Japan	Yugoslavia

REPAIRS: Most main engine and boiler repairs and minor hull repairs can be effected.

DRY DOCKS: Maximum length 630 ft. overall 72 ft. breadth deepest draft 30 ft. Maximum possible notice required for booking.

REPATRIATION: There is no difficulty in arranging repatriation and crew change.

AIRPORT: It is 18 miles to the international airport which is served by regular airlines. The second airport, for domestic flights, is 8 miles away.

TIME: Ceylon standard time is $5\frac{1}{2}$ hours in advance of GMT, and no alterations are made during the year.

HOLIDAYS: Cargo work can normally be arranged on all except the following holidays:

1st January; 4th February; Sinhalese & Tamil New Year 1 day in April; 1st May; Wesak Full Moon in May; 26th September; Christmas Day.

POLICE/AMBULANCE/FIRE: Harbour Police tel. 21075; Ambulance 20428; Ambulance launch: Exhibit A.L. flags; Port Fire Brigade 32331.

TELEPHONES: None are available for placing on board.

GENERAL: Ships should not discharge oil within territorial waters, dispose any waste into harbour or on to quays, immobilise main engines without prior permission, use radio for transmission in harbour. Ships should hoist national flag during daylight hours.

SHORE LEAVE: There is no restriction on crew members being allowed ashore.

DELAYS: Delays for vessels working cargo vary considerably and it is impossible to generalise. However, it is very unusual for vessels calling for bunkers, fresh water, stores, etc., to be delayed for more than, say, 24 hours.

AUTHORITY: Colombo Port Commission, POB 528, Colombo 1. Tel. 21201.

AGENT: Aitken, Spence & Co. Ltd., Lloyd's Building, Sir Baron Jayatilaka Mawatha, PO Box 5, Colombo 1. Tel. 27861–7 (7 lines). Telex 142. Cable Address "Aitken Colombo."

GALLE: 06.01 N. 80.14 E.

PORT LIMITS: To the Eastward Unawatuna Point, to the Westward Gindurah Point, to the Southward the usual sea league from the line between these points.

DOCUMENTS: Pilot brings on board:

Arrival Report and Maritime Declaration of Health.

Port Health Officer boards vessel after berthing and collects Crew List, Passenger List, Maritime Declaration of Health. Examines crew, passengers and International Certificates of Vaccination.

Customs. Manifests, Bonded List, Passenger List, Cargo List, List of Currency, Port Declaration.

Immigration. 3 Crew Lists.

PILOTAGE: Apply for Pilots via local Agents. Send ETA not more than 24 hrs. prior arrival via Colombo Radio. Vessels telegraph direct to Master Attendant, Galle, via Colombo Radio. Vessels advised listen-in on Channel 16, VHF.

Pilot launch about 60 ft. long with white hull carrying word "Pilot". Pilot launch proceeds to vessels from Master Attendant's Office and Pilot will board about $\frac{1}{4}$ mile to South of bell buoy. Vessels should anchor until pilot launch arrives and heave-up on approach of pilot launch; due to heavy swell prevalent *essential* vessels provide good lee for Pilot. Proper pilot ladder and two man ropes should be ready. Vessels anchoring should do so to the South or East of bell buoy. See "Anchorages".

ANCHORAGES: Best anchorage lies to Eastward of bell buoy where depth 9 fathoms. To Southward of bell buoy depth increases to 15 fathoms. Vessels should anchor about $\frac{1}{2}$ mile from bell buoy.

RESTRICTIONS: Vessels should not proceed north of bell buoy. Entry prohibited after 1700 hrs. and may be delayed by bad weather. Generally a wind force of over 25 kts. and a swell of over 4 ft. delays entry.

MAX. SIZE: North-east Monsoon. 1 vessel of 500 ft. up to 30 ft. draft, 2 vessels of 500 ft. up to 26 ft. draft, 1 vessel of 450 ft. up to 23 ft. draft, 1 vessel of 350 ft. up to 20 ft. can be berthed at stream berths. South-west Monsoon. 1 vessel of 475 ft. up to 25 ft., 1 vessel of 450 ft. up to 21 ft., 1 vessel of 350 ft., up to 18 ft. can be berthed at stream berths.

Two alongside berths available for vessels 18 ft. draft. Alongside berths being dredged to accommodate vessels of up to 24 ft. draft, but at the moment only vessels of up to 350 ft. length permitted alongside. 750 ft. of quay space available, but this being extended to over 1,000 ft.

HEALTH: The International Declaration of Health, handed to Master by Pilot, must be completed and returned to Port Health Officer, who boards after berthing. PHO also requires 2 Crew Lists, synopsis of Vaccination Certificates, De-ratisation Certificate and examines Certificate of Vaccination.

RADIO: Colombo Radio.

TUGS: At present only one tug of 250 h.p. available throughout year. If sufficient notice given (over 24 hrs.) an additional tug could be sent from Colombo (only available during N.E. Monsoon). Proposal to station a 2,000 h.p. tug permanently in Galle under consideration. Tug meets vessel at berth, tugs lines used. Charges for tugs included in port (pilotage) charges irrespective of ownership of towing lines.

BERTHING: Vessel berthing in stream lies to both anchors and picks up 4 to 6 mooring lines from buoys aft. To pick up mooring lines, vessel should have ready at stream two messenger wires of $2\frac{1}{2}$ in. diameter and 60 fathoms length.

STEVEDORES: All stevedoring carried out by Government Corporation gangs, lighters, etc., are all arranged by Corporation.

MEDICAL: Vessel arriving in Galle and requiring medical attention should cable Agents at least 12 hrs. in advance.

DENSITY: 1025.

FRESH WATER: Not available.

FUEL: Cannot be supplied under any circumstances.

DEVELOPMENTS: In addition to alongside berths now available, proposed to build breakwater from Watering Point to Secundra Rock continuing to Fort.

Dredging main quay to 30 ft. depth, and channels to 33 ft. depth.

GANGWAY/DECK WATCHMEN: Ceylon police station two policemen aboard every vessel in harbour. For vessels berthed alongside policemen stationed aboard through day. For stream vessels policemen stationed only during hours when cargo worked.

OPENING/CLOSING HATCHES: Shore labour, but there is no objection to hatches being opened prior to labour boarding.

CUSTOMS ALLOWANCES: Present allowance 200 cigarettes/week, 2 bottles beer/day. Others proportionally.
CONSULS: All consular officers in Colombo, 72 miles away, 3 hours by train, 2 hours by road.
REPAIRS: No repairs possible as Galle open to S.W., essential that vessels have engines ready at all times. No shutdown permitted.
REPATRIATION: Via Colombo. Government Agent in his capacity as collector of Customs acts as Shipping Master and will sign on/off properly authorised crew changes.
AIRPORT: Colombo.
TIME: standard Time GMT plus 5½ hrs.
HOLIDAYS: Non-working days in the Port (dates variable yearly): National Heroes' Day, Independence Commemoration Day, Sinhala and Tamil New Year Day, Good Friday, May Day, Vesak Full Moon Day, Poson Full Moon Day, Christmas Day.
POLICE/FIRE/AMBULANCE: Harbour Police 325; Ambulance 251, 252. No fire brigade available.
TELEPHONES: No telephones available aboard.
SHORE LEAVE: Crew allowed ashore.
AUTHORITY: Assistant Master Attendant, Master Attendant's Office, Galle, tel. 324.
AGENT: Clark, Spence & Co. Ltd., P.O. Box 11, Clan House, Fort, Galle. Cables: Spence Galle.

TRINCOMALEE: 08.36 N. 81.15 E.

DOCUMENTS:
International Maritime Declaration of Health.
6 copies Crew List.
6 copies Passenger List.
Smallpox Vaccination Certificates are compulsory.
Cholera or Yellow Fever Certificates required if vessel is arriving from an infected port.
PILOTAGE: No means of communication between Pilot Station and vessels calling at port. Vessels should indicate ETA through Colombo Radio, either to Agent or direct to Deputy Master Attendant, Trincomalee, at least twenty-four hours before arrival. No night pilotage. Pilot boards incoming vessels between hours of 0600 and 1800 about 2 cables Northward of Round Island (8° 30′ 48″ N. 81° 13′ 24″ E.). Vessels embarking pilot should whenever possible lower an accommodation ladder; if this is not practicable should let down a pilot ladder and provide two man ropes not less than three inches in circumference. Vessels awaiting a pilot should anchor half a mile North-eastward of Round Island light tower in depths from 11 to 13 fathoms.
Vessels arriving between 1800–2100 hours may be brought in at Deputy Master Attendants discretion if they come to anchorage 5 cables North-East of Round Island.
ANCHORAGES: Trincomalee Harbour is the only entirely sheltered natural harbour in Sri Lanka. Good anchorage may be found in almost any part of harbour in good weather.
RESTRICTIONS: Vessels may enter during hours of daylight only. Range of tide is very small and does not restrict entry.
MAX. SIZE: Almost unlimited length and draft can be accommodated in anchorage. Only one berth which can accommodate up to 600 ft. length, and 32 ft. draft. This jetty used for discharging tankers and bunkering.
HEALTH: The Port Health Officer boards vessels after arrival at anchorage to grant pratique. Pratique automatic for vessels arriving from another port in Sri Lanka.
RADIO: All cables to Deputy Master Attendant, Agents, Receivers, etc., should be routed through Colombo Radio; call sign 4 PB.
Pilot carries a portable VHF set, Channel 16, with about 2 miles range.
TUGS: One tug attends when required. Tow-lines generally not used; but if required tug lines used.
STEVEDORES: Stevedoring operations have been nationalized and are carried out by the Port (Cargo) Corporation, Trincomalee.
TANKERS: One tanker berth at which vessels of 600 ft. length and 32 ft. draft are discharged.
DENSITY: Salt water.
FRESH WATER: Available, supplied by water lighters, and from bunkering jetty.
FUEL: Marine heavy diesel and furnace oil can be supplied at 24 hours notice.
GANGWAY/DECK WATCHMEN: Watchmen are provided by the Port Tally and Security Services Corporation.
OPENING/CLOSING HATCHES: Carried out by stevedores.
CUSTOMS ALLOWANCE: Tobacco issued as required. Wine and/or Spirit issued as required.
IDENTIFICATION CARDS: Identity Cards or Passports are required to be carried by crew members ashore.
CONSULS: All Consular officers are in Colombo.
REPAIRS: Only minor repairs can be carried out.
REPATRIATION: Crew changes and repatriation can be effected.
AIRPORT: No International flights through Trincomalee. Internal service of Air Ceylon operates daily flights between Trincomalee and Colombo.
TIME: GMT plus 5½ hours.
HOLIDAYS: Dates of holidays are not fixed. Cargo work can generally be arranged on any holiday.
TELEPHONES: Police 308; Ambulance 448; Fire 335. There are no telephone connections for ships.
SHORE LEAVE: Allowed.
AUTHORITY: Deputy Master Attendant, Port Commission, Trincomalee. Tel. Dockyard 212.

Sudan

PORT SUDAN: 19.37 N. 37.14 E.

DOCUMENTS:
Port Sudan Harbour Master's Declaration.
Sudan Customs Declaration.
Quarantine Form.
(All above forms to be filled by Master on arrival).
3 Crew Lists.
3 Passengers Lists.
1 Crew Declaration.
1 Dutiable Stores.
4 copies Manifest.
1 copy B/Lading.
1 Provisions List.
PILOTAGE: 24 hours notice ETA. VHF. Channel 16. Pilot boards South of South Wingate Beacon. Pilotage compulsory.
ANCHORAGES: Towartit Anchorage, approx. 8 km. S.E. of harbour.
RESTRICTIONS: No restrictions providing berth available.
MAX. SIZE: Length 850 ft. maximum. Draught at Oil Terminal 37 ft., other berths 34 ft. 6 in.
HEALTH: Radio pratique obtainable if message sent not more than 24 and not less than 8 hours before arrival to "Quarantine, Port Sudan", with following information: Name of ship and ETA; Name of Agent; Whether surgeon carried or not; Whether illness on board, if so, what illness; Port of departure and last port of call. On receipt the Quarantine Medical Officer will inform ship by wireless whether pratique is granted or not.
RADIO: Port Sudan Radio (call sign STP). Operates daily on High Frequency as follows: 8652 Mcs from 0400 hours to 1600 hours GMT; 4356 Mcs from 1600 hours to 0400 hours GMT; 0500 kcs – continuous listening watch for first ten minutes of every hour. Radiograms may be handed in at Port Sudan Post Office at all times and at Port Sudan Quays Post Office during office hours.
TUGS: About one mile from harbour entrance. Either ship's or tug's lines at Pilot's discretion.
BERTHING:

		Depth

Nos. 8 & 9	600 ft.	37 ft.	35 ft.
No. 15	642 ft.	37 ft.	36 ft.
No. 16	230 ft.	37 ft.	35 ft.
Nos. 17 & 18	908 ft.	39 ft.	37½ ft.

CARGO HANDLING: Grain silo of 50,000 tons capacity situated at Berth No. 15. Heaviest lift normally acceptable is 30 tons; special arrangements necessary for heavier items.
Span of coal transporters is 420 ft.
TANKERS: At berth No. 16 vessels up to 600 ft. length can berth with overhang. Max. draft 34 ft. 6 in.
Berths 17 and 18 accommodate tankers up to 37 ft. draft. Berths connected by pipe-line to refinery 8 km. South of Port Sudan.
Used for discharging crude oil and loading refined products.
STEVEDORES: Require 24/48 hours advance notice of ETA and stowage of cargo. Rate of Discharge and Loading: General cargo, 5–10 tons per hook per hour. Bagged cargo, 15–20 tons per hook per hour.
Exports. Main exports, cotton, cottonseed, gum Arabic, oilcakes, MOP shells, trocas shells, senna, beans, domnuts, oilseed, hides, skins, salt, beeswax, durra, wheat bran, chick peas, karkadeh and castor seed.
Tea. Following exports should not be stowed with tea: castorseed, hides, linseed, edible oil, oilcake. Cottonseed may be stowed with tea with separation of 3 ft. but it is preferable to stow in separate compartment from tea.
Cotton. Gum should never be stowed with cotton.
Transhipment cargo. Is normally not accepted at Port Sudan without prior permission, except in very small quantities.
Weight. Deadweight of cargo is expressed per ton of 1,000 kilos.
MEDICAL: Advance notice advisable. Hospital facilities available. Crew and passengers must have International Health books valid.
DENSITY: 1025.
FRESH WATER: Available ex quay and ex barge.
FUEL: Marine Fuel oil (normally 1000 secs.); marine diesel oil (42/45 secs.); gas oil (35 secs.). 24/48 hours advance notice advisable Name of suppliers is required.
GANGWAY/DECK WATCHMEN: Recommended.
OPENING/CLOSING HATCHES: Normally by stevedores.
CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes per person. Wine and/or Spirit, two bottles of different kinds per person. Only personal requirements may be taken ashore.
IDENTIFICATION CARDS: Not required.
CONSULS: UAR and Nigeria.
REPAIRS: Minor deck and engine repairs.
DRY DOCKS: None.
REPATRIATION: Not recommended. Formalities take 2/3 days.
AIRPORT: 3 miles away. Flights 4 days per week Port Sudan to Khartoum. 2 days per week Port Sudan to Cairo.
TIME: GMT plus 2. In summer, GMT plus 3 hours.
HOLIDAYS: Any work done ranks as overtime: Fridays (Moslem

Sunday) (1 day); Shel El Nesim (1 day); Ramadan Bairm (4 days); Kurban Bairam (5 days); Mohammedan New Year's Day (1 day); Mulid El Nebi (1 day); Christmas Day (1 day); Independence Day (Jan. 1st, 1 day); Revolution Day (Oct. 21st, 1 day; May 25th, 1 day). No overtime will be authorised on following days although Port Authority may make exceptions in favour of black and white oil tankers discharging bulk oils, and for passengers' baggage: Mulid Nebi; Christmas Day; Second day of Ramadan Bairam; Second day of Kurban Bairam; Revolution Day.

POLICE/AMBULANCE/FIRE: Police 2424; Ambulance 2400; Fire 3001.

TELEPHONES: No arrangements exist for placing telephones on board.

GENERAL: No foreign currency allowed ashore. Crew are permitted to go ashore with any amount Sudanese Currency.

AGENT: May Working People Corporation, PO Box 17, Port Sudan. Telegraphic address: "Mayo" Portsudan. Telex: No. 6. Tel. (during office hours) 2437; 2029, 2389; after office hours 2136, 2040.

Surinam

MOENGO: 05.38 N. 54.25 W.

A bauxite mining town about 70 miles up the Cottica river, a tributary of the Commewijne river, which latter joins the Surinam river at Fort Nieuw Amsterdam.

DOCUMENTS/PILOTAGE/GENERAL INFORMATION: refer to "Paramaribo."

TUGS: Two tugs are available, the larger is 1,750 h.p.

MAX. SIZE: Ships of 525 ft. can be accommodated. Ore vessels call daily. Draft depends on bar draft Surinam river.

BERTHING: Moengo has two piers at which ore is loaded by a transporter at the rate of 800/1,000 tons per hour. One pier is 430 ft. long and has a depth of 24ft. alongside. Both will accommodate ships of 525 ft. length. Tracks are laid on the 430 ft. pier and a 25 ton crane is available.

PROVISIONS: Not available.

FUEL: Small quantities can be supplied.

FRESH WATER: Small quantities can be supplied.

AIRPORT: About 5 km. from docks.

AUTHORITY: District Commissioner acts as Harbourmaster.

AGENT: Alcoa Shipping Co.

NEW NICKERIE: 05.57 N. 56.59 W.

DOCUMENTS:

2 copies Crew List.
2 copies Passenger List.
Customs Documents; Crew Declaration Lists; for instance, souvenirs, electric apparatus, etc.
2 copies Ship's Store Lists.
3 copies Manifests of Import.
3 copies Manifests of Export.
1 copy Transit Manifest.
2 copies Manifests of Coastal Cargo.
Ship's Papers to be shown on request.

PILOTAGE: Pilotage is compulsory for the Nickerie River for ships bigger than 50 gross tons. There is always a pilot available; ETA to be sent 48 hours before arrival and 12 hours before arrival give necessary correction message to the Agent.

Ships can only enter the river at or about the time of high water.

The Pilot boards near the sea buoy (buoy No. 1). The pilot boat is a small wooden, grey and white painted vessel. The pilot boat does not use the international red-white pilot lights at night. It is not possible to make radio telephone contact with the boat. There is a signal lamp on board.

Send ETA-message to Agent who will order the Pilot. Awaiting high water the vessel can anchor about 3 miles N.N.E. of the sea buoy.

ANCHORAGES: With a draft of 15 ft. the ship can safely anchor 3 miles N.N.E. of the sea buoy. It is not advisable to anchor in the Nickerie river for a long time, the river is too narrow.

MAX SIZE: With springtide the maximum draft must not exceed 14 ft. 9 in. and at neaptide 12 ft. The vessel has to use the high-inlet while passing the bar.

Maximum permissible length of vessel is 130 metres (426 feet). At low water ships are seated in the mud without consequence to hull, rudder or propeller alongside the wharf. There are berths for oil-carriers.

HEALTH: There is no pratique-procedure. Only in the event of any suspected disease or fever on board a doctor must be called.

RADIO: Send ETA cables to Paramaribo Radio. The pilot office at Nickerie has a radio telephone transmitter. Frequency 8233,9 kHz; listening hours: 07.00, 12.00, 18.00 local time. SSB and VHF equipment also used.

TUGS: No strong tugs available.

STEVEDORES: The Agent orders the gangs (maximum three gangs available).

MEDICAL: No advance notice required for medical treatment. There is one hospital in Nickerie with a surgeon.

TANKERS: There are three piers in Nickerie: Esso, Shell and Texaco pier. Maximum permitted draft 14 ft. 9 in. at springtide.

DENSITY: In the dry season the density on the river near New-Nickerie is 1015. In the rainy-season the density is 1005 near HW, and 100 near LW. These all depend upon springtide or neaptide.

FRESH WATER: Fresh water is available alongside the wharf of New-Nickerie. It is loaded from shore by hose.

FUEL: Small quantities of fuel available from Esso or Shell, also grease and petrol.

DEVELOPMENTS: In the future a bigger and deeper port will be built in the Corentyne river, about 20 miles up the river.

GANGWAY/DECK WATCHMEN: It is recommended to have a watchmen during the night.

OPENING/CLOSING HATCHES: Patent hatches must be opened by the crew, other hatches by the stevedores.

CUSTOMS ALLOWANCES: Captain included: for every 72 hours staying in port: 15 cigars or 60 cigarettes or 30 cigarillos or 150 gm. tobacco plus ¼ bottle spirits or 5 bottles beer or 1 bottle wine.

IDENTIFICATION CARDS: Not needed.

CONSULS: No consuls in Nickerie.

REPAIRS: Small engine repairs and shaft repairs and some welding repairs can be done.

REPATRIATION: Is possible via Paramaribo.

AIRPORT: The airport is 10 miles from the port of Nickerie. Two times per day there is a flight to Paramaribo arranged by a local company, called S.L.M.

TIME: Local time is GMT minus 3.30 hours. No alteration in time.

HOLIDAYS: New Year's Day; Good Friday; Phagwa; Queen's Birthday (April 30); Ascension Day; Labour Day (May 1st); Day of Liberties (July 1st); Idul Fitre; Christmas Day and Boxing Day. On these days work can be done by paying overtime.

POLICE/AMBULANCE/FIRE: Police 356; Ambulance 241; Fire 333.

TELEPHONES: No arrangements can be made for a telephone connection on board.

SHORE LEAVE: Without reserve.

DELAYS: Delays in berthing: there are only two wharves with a total length of 700 ft. Banana ships have priority. Delays in loading and discharging: there are only three gangs of stevedores. These can be enlarged to five "small gangs".

AUTHORITY: District Commissioner acts as Harbour Master.

PARAMARIBO: 05.49 N. 55.09 W.

PORT LIMITS: The seaward boundaries of the port, within which a vessel is considered to be "arrived" is the entrance of the Surinam, Matowijne, Coppename, Corantijn and Nickerie rivers. Laytime commences to count after vessel has anchored or berthed.

On the left bank of the Surinam river about 8 miles above New Amsterdam and 21 miles from light-vessel at river entrance.

DOCUMENTS:

5 Incoming Cargo Manifests (if any cargo), otherwise three copies.
1 Cargo Transit Manifest.
4 Outward-going Manifests.

These above-mentioned must be sent ahead to the Agent so that they can be translated into Dutch.

4 Crew Lists.
2 Store Lists.
2 Crew Declaration Lists.
6 Passengers Lists.

PILOTAGE: Compulsory. All ships are requested to amend their estimated time of arrival in local time, at least twelve hours in advance by special message through the wireless station to their Agents or to the Harbour Master. Arrival message should include draft of vessel and other requirements. As there is no shipping but in the Surinam river, the Commenwijned river, the Cottica river and the Nickerie river, all Pilots except one for Nickerie are stationed at Paramaribo. Paramaribo Pilots board the vessels at the light-vessel of the Surinam river. All vessels have to stop off the light-vessel.

ANCHORAGE: Anchorage off town in 18–35 ft. of water at LWS. Government officials board vessels immediately on arrival for inward clearance. Vessels which are required to anchor off the port to wait for berths may be boarded at the anchorage.

RESTRICTIONS: Bar has minimum depth of 15 ft. 5 in. Rise neaptide 6 ft. 7 in. springtide 8 ft. 10 in. Due to the fact that the bar consists of very soft mud, vessels regularly leave the ports with a draft of 25 ft. (by springtide).

RADIO: There is a 24 hours radio telephone service at the Harbour Department on SSB and VHF. The coast station also maintains a 24-hour radio telegraph (500 kc.) and telephone service in the 2182 kc. band.

HEALTH: Port doctor will visit an arriving ship only if there is a case of contagious disease aboard, or if one of the preceeding ports of call has been declared to harbour contagious disease. No bill of health is required. A ship with an infection on board must advise the Harbourmaster by special message through the wireless station before arrival.

BERTHING: *O.G.E.M. wharf*, 120 ft. long least depth 14 ft. Oil/gas discharge for public undertakings.

B.E.M. wharf, 110 ft. long, least depth 14 ft. Private cement and gravel discharge wharf, Moorings 450 ft. apart.

Banana export pier, 297 ft. long, least depth 18 ft. Fresh water can be supplied.

New Oil terminal, Moorings 570 ft. apart. Least depth 18 ft.

Flour pier, Long 36 ft. Moorings 160 ft. apart. Least depth 16 ft. Only possible to discharge flour with a grain elevator.

Vensur Cement wharf, 180 ft. long, least depth 14 ft. Moorings 600 ft. apart.

New Wharf Ltd., 1,815 ft. long. Least depth 15 ft. Fresh water can be supplied.

Belwaarde: 3 miles above Fort Nieuw Amsterdam on the right bank of the Surinam river. Length of pier: 279 ft., least depth 18–20 ft. Loading sugar.

Shell Oil Terminal: Moorings 540 ft. apart. Least depth at LWS 21 ft. exclusively for oil and gas.

MEDICAL: Excellent medical and dental attention is available to crew members of all vessels.

FRESH WATER: The water is of excellent quality. Available at most berths as mentioned above.

FUEL: Ship's bunkers are available in most ports of Surinam in limited quantities. Advice regarding quantities and specifications of oil should be given to Agent's representative immediately after docking.

CUSTOMS ALLOWANCES: 60 cigarettes or 15 cigars or ½ pound of tobacco. ⅕ litre of spirits, ⅓ litre of wine, 2 litre of beer, for each crew member. All quantities in excess of the above, will be put under seal.

REPAIRS: No facilities for major ship repairs. Local workshops can do repairs of minor nature. There are two floating dry docks and one floating derrick owned and operated by the Surinam Drydock Co. Lifting capacities dry docks: 400–650 tons.

WATCHMEN: The customs board the vessel while riding at anchor or alongside one of the docks. All vessels are required to make a proper gangway available to the custom boarding officer.

The local authorities assign one or more custom guards to each vessel during its stay in port. The charges for guarding are for the account of the vessel. These officials must be provided with meals on board at regular meal hours, and rooms if necessary.

REPATRIATION: Under special circumstances vessels may sail without all crew members on board (sickness, etc.). The Master furnishes a letter to his Agent authorising him to accept responsibility for the missing seaman or seamen.

CONSULS:

U.S.A.	Belgium	Ecuador
Britain	Denmark	France
Norway	Dominican Republic	Austria
Venezuela	West Germany	Portugal
Brazil	Indonesia	Sweden

TIME: Local time is 3 h. 30 m. slow of GMT. Vessels are required to use local time in ETA messages and when dealing with Agents.

HOLIDAYS: 1st January; Easter Sunday; 1st May; 1st July (Freedom Day); 25th and 26th December; Holy Pagwha and Id ul Fitre.

SHORE LEAVE: Under normal circumstances no restrictions are imposed by the Government Immigration Authorities on shore leave.

GENERAL: While alongside vessels must maintain engines and propulsion machinery in readiness to leave the pier under full power on short notice. No repairs are permitted which should interfere with this requirement. While alongside, oil tankers should have their offshore anchor out about 50 ft.

All vessels except ships of war, must furnish a statement, of the amount and character of explosives carried, also a certificate to show how they are stored and manner of packing.

Special anchorage areas are provided in the harbour for vessels with dangerous cargo.

All fire-arms and ammunition must be manifested on store lists and must remain in bond on board during vessel's entire stay in territorial waters of Surinam. Any violation of this regulation renders the vessel subject to fines and confiscation of fire-arms and ammunition.

BALLAST: Vessels must arrive with sufficient ballast to permit safe handling. All vessels should enter port with clean ballast water that may be pumped overboard while in the harbour, as it is prohibited to pump dirty ballast water or oil residue or sweepings into the harbour.

AUTHORITY: Harbourmaster, Paramaribo.

AGENT: Alcoa Steamship Co., PO Box 1842, Paramaribo. Tel. 72941. Cables: "Alcoaship Paramaribo".

PARANAM: 05.38 N. 55.05 W.

A bauxite mining town, located on the left bank of the Surinam river, about 40 miles from the entrance.

DOCUMENTS/PILOTAGE: and all General Information: refer to "Paramaribo".

MAX. SIZE: Vessels can load to outer bar draft and usually top off at Trinidad.

HEALTH: Health officer does not board unless there are quarantinable diseases aboard.

TUGS: Not available.

BERTHING: There is a concrete dock of about 350 ft. Mooring 660 ft. apart. Least depth 30 ft.

New Pier: Least depth 30 ft. length 680 ft. Capable of handling ore carriers up to 40,000 tons.

Equipment: 75-ton crane..

Loading Capacity: Bauxite 2,000 tons per hour. Alumina 850 tons per hour. Loading by conveyor.

FUEL: Small quantities can be supplied.

FRESH WATER: Can be supplied.

REPAIRS: None can be effected.

AIRPORT: At Zanderij 45 km. from dock.

AUTHORITY: District Commissioner acts as Harbourmaster.

SMALKALDEN: 05.38 N. 55.05 W.

A bauxite mining town on the left bank of the Surinam river about 20 miles upstream from Paramaribo.

DOCUMENTS/PILOTAGE and all General Information; refer to "Paramaribo".

TUGS: None available.

BERTHING: Wharf with length of 218 ft. Moorings, 535 ft. apart, least depth 30 ft. Ships can load to outer bar draft. Bauxite loaded by two conveyors with an average of 800 tons per hour.

DEVELOPMENTS: New wharf under construction capable of handling ore ships up to 40,000 tons deadweight. Moorings 680 ft. apart.

FUEL: None available.

FRESH WATER: Small quantities can be delivered by trucks.

REPAIRS: None.

AIRPORT: At Zanderij, 45 km. from dock.

AUTHORITY: District Commissioner acts as Harbour Master.

Sweden

ÅHUS: 55.56 N. 14.19 E.

DOCUMENTS: See "Stockholm".

PILOTAGE: Pilots meet vessels at Pållagrund. Telegraphic address: "Sjöfartsstyrelsen, Åhus". Tel. 044–240027. VHF. Channel 16 call sign: "Pilot station, Åhus." Awaiting Pilot, anchor outside "Pållagrund". Depth 15–20 metres. (Also see "Stockholm".)

ANCHORAGE: Anchorage forbidden in dredged entrance channel.

RESTRICTIONS: No special regulations.

MAX. SIZE: Maximum length 150 metres, maximum draft 7·6 metres.

HEALTH: No special regulations.

RADIO: Karlskrona Radio, call sign SAA.

TUGS: Tugs only used in harbour basin, when turning.

STEVEDORES: Åhus Stevedore A/B.

RADAR/VHF: Radar on pilot station. VHF call sign: Pilot station, Åhus. Channel 16.

FRESH WATER: Delivered from pipe-line.

FUEL: Available day and night.

FIRE PRECAUTIONS: No special regulations.

GANGWAY/DECK WATCHMEN: If wanted, watchmen available.

OPENING/CLOSING HATCHES: Normally by the crew.

CUSTOMS ALLOWANCES: See "Stockholm".

CARGO GEAR: Normally loading or discharging with cranes.

IDENTIFICATION CARDS: Crew list needed. No cards.

CONSULS: Danish Vice-Consul: Vasagatan 17B, 29100 Kristianstad. Tel. 044–114841. Norwegian Vice-Consul Mast. Bonggatan 2, 29100 Kristianstad. Tel. 044–115605.

REPAIRS: Minor repairs only.

DRY DOCKS: No dry dock. Nearest dry dock Sölvesborg.

AIRPORT: Nearest airport about 10 miles away. Two flights per day.

TIME: GMT plus one. Permanent.

HOLIDAYS: See "Stockholm".

POLICE/AMBULANCE/FIRE: Police 240950; Ambulance 90000; Fire 90000.

TELEPHONES: No arrangements for placing telephone on board. Two public telephones on quays.

AUTHORITY: Harbour Office, 290 20 Åhus. Tel. 044–240014.

GÄVLE: 60.41 N. 17.11 E.

PORT LIMITS: A line from Utvalnäs (approx. 60° 45.2 N. 17° 21.4 E.) over Båkharen to Långharen (approx. 60° 41.0 N. 17° 17.5 E.).

DOCUMENTS:

4 Crew Lists (for European vessels).
2 Crew Lists (for other vessels).
2 Manifests.
2 Bills of Lading.
1 Tobacco List.
1 Stores List.

Following documents supplied by Agent and signed by Master:

On arrival from foreign port:
1 Maritime Declaration of Health.
4 Report of Arrival (customs).
1 Declaration of Master (of persons on board).
1 Declaration of living animals (if any).

On arrival from any port:
1 Report of Arrival (Harbour Office).
1 Report of Receivers (Harbour Office).
1 Cargo List (or Manifest).
1 Transfer.

On departure to foreign port:
4 Report of Departure.
1 Declaration of Master (of persons on board).

On departure to any port:
1 Report of Shippers (Harbour Office).
1 Declaration by foreign Master.

PILOTAGE: (*a*) Sea Pilots: Pilot station: Bönan Telephone Nos. 991 10 and 992 20. Telegraphic address: Pilotstation, Gävle. Five hours advance notice of ETA pilot station. Notice of ETA can be given over any Swedish coastal radio station or free of charge on VHF over any Swedish pilot station or Grundkallen lighthouse.

VHF: Channels 16: Calling and Safety } Pilot station and Pilot
13: Pilotage traffic } boats.

All pilot boats orange. International signals for calling pilot. Pilot boards: South-east of Gråsjälsbådan 60° 43′ N., 17° 27′ E., and on request South of Eggegrund Lighthouse, 60° 43′ N., 17 34′ E. In° case of bad weather closer to pilot station. Anchorages: Gråberget roadstead North-east of Bönan Lighthouse (approx. 60° 44.8′ N. 17° 20.5′ E.), about 350 metres (0·2 m.) from shore and in 18–21 metres (10–13 fathoms) deep. Open for easterly winds. (*b*) Harbour Pilots: Available for moving within harbour area on application to Port Administration, Telephone Nos. 12 49 10 or 11 31 56 or by VHF to Gävle Port Radio, channels 16, 14 and 13.

ANCHORAGES: See "Pilotage". Outer roadstead situated inside of Northern entrance and in red sector of Fredriksskans light. Outer roadstead well protected, depth of 15–11 metres (8–6 fathoms). Anchoring forbidden:

(*a*) In dredged channel between lights in Northern channel and to a point 800 metres (875 yds.) West-south-west of Light No. 4.

(*b*) In white sector of Fredriksskans light East-north-eastward within a distance of 2,000 metres (2,190 yds.) from same.

(*c*) In navigable channel from Fredriksskans Light to Gävle Dolphin Light.

(*d*)In Fredriksskans Harbour basins.

(*e*) In Gävle River from berth No. 18 to berth No. 10.

RESTRICTIONS: Two fairways lead to harbour. Northern fairway is 11, 1 m. (36 ft. 5 in.) deep and has bottom width of 60 m. (196 ft. 11 in.) Day-time: maximum draft 10·6 m. (34 ft. 9 in.); maximum length 210 m. (689 ft.); maximum breadth 28 m. (91 ft. 10 in.). Night-time: maximum draft 7·55 m. (24 ft. 9 in.); maximum length 170 m. (558 ft.). Southern fairway (daylight only) permits draft of 3·1 m. (10 ft. 2 in.). All depths are referred to mean water level. Ships on way from outer roadstead or passing from Fredriksskans Harbour to Inner Harbour shall give way to vessels proceeding in opposite direction. This shall not apply to vessels with tow unless vessel approaching also has tow.

MAX. SIZE: Maximum permissible draft (at mean water) as follows:

Fredriksskans Harbour

	Maximum metres	*Draft feet*	*Real depth metres*	*Allowance metres*
Oil berth No. 21	10·6	34′09″	11·0	0·4 Maximum length 210 m. (689 ft.)

HEALTH: Pratique always automatic. If any suspected disease or fever on board, notify ship's Agent.

RADIO: Stockholm Radio (SDH) or Härnösand Radio (SAH).

RADAR/VHF: No port radar service, but Bönan pilot station, Eggegrund Lighthouse, and one pilot cutter equipped with both radar and VHF and assists any ship approaching pilot station on request. After calling pilot station on VHF Channel 16, ships will be given assistance on Channel 13, 12, or 6.

TUGS: Join vessel outside Fredriksskans Lighthouse or outside Korsnäs Works for berthing, and outside Northern entrance channel for passage through same. Ship's lines always used.

CARGO HANDLING: Container berth, maximum draft 9·1 metres. One crane with 30-ton capacity.

Roll-on/roll-off berth, maximum draft 4·8 metres.

STEVEDORES: 24 hours notice (if possible) order arrange gangs.

MEDICAL: Notice of medical attention to Agent as early as possible. All kinds of medical and hospital facilities available. Smallpox vaccination required on arrival from non-European ports. Other vaccinations necessary on arrival from diseased areas. (Common for all Swedish ports.) Quarantine station established at Gävle with quarantine anchorage on outer roadstead.

TANKERS: Tanker berth No. 21 Maximum length: 210 metres (689 ft.). Maximum draft (at mean water) 10·6 m. (34 ft 09 in.). Discharge lines for all products diameter 200 mm. (8 in.) at ships' connections. Pipelines connecting berth with oil depots have diameters as follows: Heavy fuel oils, 450 mm. (18 in.); gas oil, 400 mm. (16 in.); gasoline, 350 mm. (14 in.); kerosine, 250 mm. (10 in.). Tanker berth No. 1: Maximum length 200 metres (656 ft.). Maximum draft (at mean water): 7·55 m. (24 ft. 09 in.). Discharge lines for different products have diameter at ships connections as follows: All fuel oils, 250 mm. (10 in.); gasoline, 200 mm. (8 in.); kerosine, 200 mm. (8 in.). Pipelines connecting berth with oil depots diameters as follows: All fuel oils, 350 mm. (14 in.); gasoline, 300 mm. (12 in.); kerosine, 250 mm. (10 in.). Tanker berth No. 2 and 3: Maximum length: 125 metres (407 ft.). Maximum draft (at mean water): 5·4 m. (17 ft. 09 in.). Discharge lines for all products 150 mm. (6 in.) at ships connections. Pipelines connecting berth with oil depots 150 mm. (6 in.). Tanker berth No. 105–106 (or 107–108)/if the draft is more than 6·7 m. (22 ft.)/at Karskär (Korsnäs Works). No. 105–106: Maximum length: 195 m. (640 ft.). Maximum draft (at mean water) 6·7 m. (22 ft.). Discharge lines for all products: 200 mm. (8 in.) at ships connections. Pipelines connecting berth with oil depots 250 mm. (10 in.). No. 107–108- Maximum length: 195 m. (640 ft.). Maximum draft (at mean water): 8·0 m. (26 ft. 3 in.). Same dimensions as above.

DENSITY: Fresh water.

FRESH WATER: Delivered from water posts at all quays in Fredriksskans Harbour. Inner Harbour, at Korsnäs Works and on roads fresh water delivered by water boat.

FUEL: All kinds of fuel oils available either from pipelines at oil berths or by lorries at all other quays. Following viscosities (Redwood I) normally in stock: 35, 225, 650, 1500, and 3500 secs. Other viscosities can also be delivered. Notice of delivery is required day before.

DEVELOPMENTS: New shipping terminal for coal and coke where discharging capacity will be very high.

GANGWAY/DECK WATCHMEN: Available, but not compulsory.

OPENING/CLOSING HATCHES: Can be done by either crew or stevedores. Only patent hatches have to be opened by crew.

CERTIFICATES:

Tonnage Certificate.
Rat Certificate (Not older than 6 months).
Certificate of Nationality (for Swedish ships only).

Wine and spirit: Each crew member 1 bottle (75 centilitres) of spirit and moderate quantities of wine and beer out of bond. After a week in Sweden the same quantity may be taken out on request to Customs Office.

IDENTIFICATION CARDS: Not needed.

CONSULS:

Denmark	Netherlands
Finland	Norway
France	Portugal
Great Britain	

REPAIRS: The former shipyard Gävle Varv carries out all types of deck and engine repairs along fitting-out quay 200 m. (656 ft.) long, with water depth 3·9 m. (12 ft. 10 in.) and with maximum draft 3·75 m. (12 ft. 03 in.) at mean water. One 10-ton luffing crane. Another berth along South side of former slip-way with water depth 6·0 m. (19 ft. 08 in.) and maximum draft 4·8 m. (15 ft. 09 in.) at mean water also available. Repairs can also be carried out in all parts of harbour.

DRY DOCKS: None.

REPATRIATION: Crew changes and repatriations arranged by Agent.

AIRPORT: Stockholm Airport (Arlanda) 145 kilometres (90 miles) served by regular airlines. Rörberg airport 16 km. (10 miles). Regular traffic to Swedish airports.

TIME: GMT plus one hour. Permanent.

HOLIDAYS: New Year's Day (Jan. 1); Twelfth Day (Jan 6); Good Friday; Easter Day; Easter Monday; First May (May 1); Whit Sunday; Whit Monday; Midsummer Day (Saturday nearest to June 24); All Saints' Day (first Saturday in Nov.); Christmas Day (Dec. 25); Boxing Day (Dec. 26).

POLICE/AMBULANCE/FIRE: Police 11 53 00; Ambulance 12 90 90; Fire 12 90 90. Emergency 90 000.

TELEPHONES: Fredriksskans and Inner Harbour: Telephones can be placed on board at all berths in Fredriksskans Harbour and at three berths in Inner Harbour. At Korsnas Works: Telephones can be placed on board at two berths in Karskär and one at Kastet Pier.

SERVICES: (*a*) Minor quantities of oil and other liquid residues can be discharged into tank lorries with special suction equipment

(approx. 6 cubic metres = 210 cubic ft. per lorry). (*b*) Compass adjusting by licensed adjusters. (*c*) An area for compass adjusting is established on outer roadstead. (*d*) Speed trials can be made on measured mile between Eggegrund Lighthouse and island of Limo
DELAYS: Normally no delays in berthing, loading, discharging or bunkering.
AUTHORITY: Gävle Hamn (Gefle Port Authority). Address: Drottninggatan 56, 803 50 Gävle. Tel. 026–11 58 30 (No Telex).

GOTHENBURG: 57.42 N. 11.57 E.

DOCUMENTS:
4 Crew Lists.
3 Passenger Lists.
2 Tobacco Lists (must be signed by each crew member).
1 Stores List.
1 Health Document.
Ship's Papers.
Nationality Certificate.
If stay more than 48 hours, Articles to Consulate.
Manifests, Bills of Lading.
PILOTAGE: Cable address: 404 47 Vinga. Vessels with VHF equipment may contact on international call frequencies 156.8 Mc/s (Channel 16). Working frequencies for Sea Pilots 156·65 Mc/s (Channel 13) and for Harbour Pilots 156·6 Mc/s (Channel 12). Pilot station located at Vinga Lighthouse. Sound or light signal G towards Vinga lookout. Pilot boat located outside Trubaduren Lighthouse, where Pilot taken on board. Approved pilot ladder, if rail is high accommodation ladder, heaving line, and a man standing-by to receive Pilot. (also see "Stockholm".)
ANCHORAGE: At Rivö Fiord.
MAX. SIZE: Torshamnen, water depth 65 ft. (19·8 m.). Tankers of 225,000 tons d.w. received. Skarvik Harbour, water depth 39 ft. (12 m.). Tankers up to 50,000 tons d.w. General cargo harbours: for container vessels water depth up to 36 ft. (11 m.), other cargo and passenger vessels 33 ft. (10 m.). Water depths at MWL. Tide of no importance.
HEALTH: The Master of every ship, whose voyage has touched lands outside Europe (excepting U.S.A., Canada, Azores, Canaries, Maderia and Morocco), and who within 28 days arrives at Gothenburg from a port in any such land, shall submit to customs on demand a Declaration of Health for the ship in the prescribed form. If ship arrives within 14 days of calling at any such port she must not touch land until inspected by the Quarantine Medical Officer and permission to land granted. Master must be prepared to state whether all persons on board possess internationally valid evidence of innoculation for smallpox. Compulsory medical examination not required where a ship liable to inspection has undergone an approved Quarantine Inspection in either a Danish, a Norwegian or a Finnish port, and all questions in the Declaration of Health have been answered negatively. Exemption may also be granted any other ship which would otherwise be liable for examination, if Master, pursuant to Article 21 of Quarantine Regulations for Sweden, has previously radioed all information regarding state of health on board to Health Authorities (radio-pratique). Telegraphic address: "Portsan, Gothenburg". Messages must be made not less than 4 hours prior to estimated time of arrival. (Preferably, messages should not be made during night.) Free-pratique messages should include: Name of the ship; estimated time and day of arrival; number of crew; number of passengers; information as to whether all persons on board possess valid certificates of vaccination for smallpox (issued within the last 3 years); names of the last two ports called at outside Europe, and dates of departure therefrom; replies to the 6 questions contained in Declaration of Health. The decision of Quarantine Authority can be obtained from Customs at Klippan.
RADIO: Göteborgs Radio, call sign SAG.
TUGS: Tugs normally join vessel between the island Nya Ålvsborg and Rya Nabbe. Vessels use their own lines.
BERTHING: No restrictions at any time of day and night.
BRIDGES: Älvsborg Bridge (suspension bridge) in Western part of city, clearance 147·5 ft. (45 m.). Götaälv Bridge in centre of city, clearance 64 ft. (19·5 m.). Ships should give three long blasts with whistle for bridge to be opened. If opening not required they have to give one long and one short blast. It is possible to contact Götaälv Bridge on frequency 156·80 Mc/s. (Channel 16). Working frequencies are 156·70 Mc/s. (Channel 14)and 156·60 Mc/s. (Channel 12).
STEVEDORES: Göteborgs Hamnarbetskontor provides dock workers.
CONTAINERS: The Skandia Harbour for container handling with four terminals including fourteen berths and six ferry ramps. Depths up to 36 ft. (11 metres).
TANKERS:

		Permitted draft	*Lines diameter*
Tors Harbour	2 berths for disch. crude oil.	62′6″ at MWL	12 & 16″
Skarvik Harbour	5 berths for disch. and loading.	37′6″ at MWL	10″
Rya Harbour	4 berths for disch.	31′6″ at MWL	8″
In Oil Harbour	13 berths for coast-distribution.		

Reducing pieces available in oil ports.
DENSITY: Average density 1.030 Tide of no importance.
FRESH WATER: Available from quay or water boats.
FUEL: All grades available at short notice.
GANGWAY/DECK WATCHMEN: Watchmen accepted by Harbour and Fire Authorities on tankers and vessels loaded with explosives. On other vessels not necessary.
OPENING/CLOSING HATCHES: By crew or stevedores.
CUSTOMS ALLOWANCES: Tobacco, per week 200 cigarettes or 250 gram other tobaccos. Wine and/or Spirits, per week 1 bottle of spirits and 1 litre of wine, alternatively 2 litre of wine.

Also give estimated time for taking Pilot on board and route. If this procedure not followed, the Maritime Service cannot guarantee to supply a Pilot without considerable delay to vessel.
Preferable make application by telephone or by radio via a coastal station or by some other method direct to pilot station. Also possible request Pilot by VHF.
Pilot Station at Harnoklubb.
ANCHORAGES: In port approaches in depth of 20 to 40 metres.
RESTRICTIONS: Harbour can be closed by ice some time during winter but assistance given by State Ice-breakers as long as possible.
MAX. SIZE: Up to 33 ft. draft.
RADIO: Cable Agents to give ETA, draft and cash required via either Hernosand Radio SAH or Stockholm Radio SDJ.
HEALTH: Vessels arriving from ports outside Europe must, for inward clearance, provide Customs Office with written declaration of freedom from infection. Further instructions will be issued by Customs Office where such a declaration cannot be given.
TUGS: Tug assistance is available.
BERTHING: Depth alongside main quays from 7 to 8 metres.
TANKERS: Oil pier, depth alongside 10·50 metres.
DENSITY: Nearly fresh water.
FRESH WATER: Available from the quays or by barge.
FUEL: Can be supplied.
GANGWAY/DECK WATCHMEN: Available for gangway. Not compulsory.
OPENING/CLOSING HATCHES: Normally done by crew.
CUSTOMS ALLOWANCES: 200 cigarettes and one bottle of 75 centilitre per man/week. Extra granted on request.
SHIP'S CERTIFICATES: See "Stockholm".
IDENTIFICATION CARDS: Not necessary.
REPAIRS: Most repairs possible.
DRY DOCK: At Gustavsvik.
TIME: GMT plus one hour permanent.
HOLIDAYS: New Year's Day; Epiphany; Good Friday; Easter Monday; Labour Day; Ascension Day; Whit Monday; Midsummers Day; All Saint's Day; Christmas Day; Second Christmas Day.
Working ceases at 11.30 on the following eves of holidays and is voluntary and paid with 100 per cent overtime: Easter Eve; Whitsun Eve; Midsummer's Eve; Christmas Eve and New Year's Eve.
POLICE/AMBULANCE/FIRE: Telephone numbers: Accidents, Police, 90000; Fire: ask for alarm 90000.
AUTHORITY: Härnösands Hamn, Box 200, Härnösand.

HELSINGBORG: 56.03 N. 12.41 E.

DOCUMENTS: See "Stockholm".
PILOTAGE: Pilot usually applied for through ETA notice to ship's Agent at least 24 hours in advance. ETA to be corrected if necessary by using VHF (Channel 16). Pilots board from yellow, wooden boat flying international signal. Pilot taken on board about ½ nautical mile off piers of Helsingborg Northern Harbour. Good anchorage within area of about ½ nautical mile radius off piers. (Also see "Stockholm.")
ANCHORAGES: Areas as above, depths of water 50–70 ft.
RESTRICTIONS: Tankers not berthed during darkness.
MAX. SIZE: Permissible length about 220 metres; breadth unlimited; draft 34 ft. on MLW. No tides but certain variations following prevailing winds.
HEALTH: Pratique automatic for all vessels arriving from non-infected ports. In cases where pratique should be obtained, notice to be given through ship's Agent. Further directions given by Pilot.
RADIO: For communication – Göteborgs Radio.
TUGS: Join vessel outside entrances. Vessel's lines used.
Four tugs available, up to 1,700 h.p.
BERTHING: Basin No. 1, depth 6 to 7 metres.
Basin No. 2, depth 5 metres. At Ocean Pier Transverse Quay, depth 7·30 metres.
Basin No. 3, depths 5 to 6 metres, with 7 metres depth at West quay.
Basin No. 4 (Ocean Harbour), depths up to 10 metres.
Basin No. 5 (Oil Harbour), see "Tankers".
Basin No. 6 and 7 (Bulk Goods Harbour), depth 8 metres.
Skane Terminal (equipped for container handling), depths of 8 and 11·50 metres.
Copper Mill Harbour (Basin No. 8), depth up to 10·50 metres.
MEDICAL: For attention, application to be made through ship's Agent. Hospital facilities available.
TANKERS: Dimensions of pipe-lines – for oils, 14 in., 12 in., 8 in., petrol, 12 in., 10 in., 6 in., slops, 6 in. Discharge facilities for slops through pipe-lines from berths numbers 504 and 601. Tankers berth at quay numbers 503 and 504 with depth of water alongside 36 ft. MLW, and quay number 601 depth of water alongside 26 ft. MLW.
DENSITY: 1·007. No tides, but slight variations in accordance with prevailing currents.
FRESH WATER: Any quantity delivered from quay connections at a rate of about 30 tons per hour.
FUEL: Bunker fuel delivered from pipelines. No advance notice required. Any grade available.
DEVELOPMENTS: Quay extension for dry cargo vessels of about 350 metres length. Depth alongside 38 ft. at MLW. Also areas and facilities for handling container cargo.
WATCHMEN: Watchmen generally at Master's option.
OPENING/CLOSING HATCHES: By shore gang or ship's crew at Master's option.
SHIP CERTIFICATES:
Certificate of Nationality.
Bill of Measurements.
Bill of Health.
Deratification Certificate.
Crew List.
CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes or equivalent quantities for each person on board. Wine and/or Spirit, one bottle of each kind for every crew member to be held out of bond.
CARGO GEAR: Usual Board of Trade Regulations valid.
IDENTIFICATION CARDS: Not needed.
CONSULS:

AUTHORITY: Norrlands Skogsägares Cellulosa AB, 910 20 Hörnefors. Tel. 0930/20900.

HUDIKSVALL (including Iggesund and Stocka): 61.44 N. 17.07 E.

PORT LIMITS: Vessel is considered to be an "arrived vessel" when berthed alongside quays in port or if berths not available, at anchor in inner roads, outside berths, but not when vessels, owing to darkness, etc., are anchored outside pilot stations or in outer fairways.
DOCUMENTS: If arriving direct from foreign port, following documents presented to customs officer who embarks during office times (0800–1700).
3 Crew Lists.
2 Tobacco Lists.
Deratification Certificate (not over 6 months old.)
Certificate of Nationality.
Certificate of Tonnage.
2 Manifests covering incoming cargo.
Receipts of Light Dues, paid to Swedish authorities during year.
PILOTAGE: Hoelick Pilot Station 61° 37′ N.; 17° 28′ E. Open for ordering pilots every day 0530–2100 local time. VHF Channel 16, after contact – working channel VHF: 13. Pilot to be ordered 5 hours before arrival. If ordered before 2100, vessel can obtain pilot also during hours between 2100–0530. Pilot boat: orange painted cutter. International pilot signals. Pilot boards near "Myran" lightbuoy: 61° 36′ N., 17° 29′ E. Telegraphic address of pilot station at Hoelick: "Pilotstation Hudiksvall." (Also see "Stockholm".)
ANCHORAGE: Anchorage places for vessels awaiting pilot or anchoring owing to weather conditions: 61° 37.5′ N. 17° 25.0′ E.; 61° 37.0′ N. 17° 22.0′ E.; 61° 37.7′ N. 17° 21.3′ E. depending upon prevailing winds etc. Bottom mud and/or sand. Depth 10–30 metres.
RESTRICTIONS: No tidal water at Hudiksvall. Vessels of more than 100 metres in length between p.p. not during darkness because of narrow channel with some curves.
MAX. SIZE: Maximum length 180 metres, maximum beam 25 metres, maximum draught 9·3 metres at mean water. Low water between 0·2–0·5 metres may occur often, some times as much as 0·7 metres below mean water level. Low water periods may occur when North-westerly winds blowing over Northern Sweden.
HEALTH: Pratique automatic. No doctor visits incoming vessels if not specially ordered for treatment on board, etc.
RADIO: Vessels coming from South and having not yet passed the Stockholm area recommended call Stockholm Radio – SDJ 500 Kc. VHF 25, 27, plus 26, 28, 23. Channel 25 outside Gotland, 27 outside Stockholm South, 26 outside Stockholm East, 28 Aalands Sea, 23 North of Aalands Sea. VHF 28, 23, 26, 28 near Piteå or Örnsköldsvik, 23 near Sundsvall, 26 near Hudiksvall. Agents calling vessels use same radio stations as above.
TUGS: Tug compulsory for tankers over 6,000 tons d.w. and for other vessels over 8,000 tons d.w. in fairway. Vessels met near isle of "Enbärsskär" at 61° 39.5′ N.; 17° 17.0′ E. For mooring purposes tug compulsory for tankers over 6,000 tons d.w. and for other vessels exceeding 5,000 tons d.w. Ship's lines used. Tugs available at Hudiksvall during winter season only (December–April). In summer must be ordered in good time (24 hours before vessel's arrival) as tug comes from Soederhamn 30 miles South of Hudiksvall (May–November).
STEVEDORES: Ordered 1600 on day preceding vessel's arrival. For loading starting Monday morning, gangs to be ordered before 1100 local time Saturday. 4–6 gangs available at Hudiksvall and Iggesund; Stocka 3 gangs. Working hours: Monday–Friday, 0700–1600; Meal hours: 0030–0900, 1230–1300. 2 hours overtime at extra cost of 50% Monday, Tuesday, Thursday, Friday (1600–1800). For completing vessel, further 3 hours Monday, Tuesday, Thursday, Friday (1800–2100). Extra cost of 1000%. For completing vessel 5 hours' overtime can be obtained on Wednesdays (1600–2100), 2 hours at 50% and 3 at 100% extra.
On Saturdays no normal work, but stevedores available for maximum eight hours work, but 100 per cent overtime has to be paid and for minimum five hours even if vessel working less than five hours on Saturdays.
BERTHING: New berths in outer part of the Hudiksvall Harbour Basin. Draft allowed 5·5 metres and 8·7 metres at mean water.
Roll-on/roll-off berths at Iggesund and Hudiksvall. Draft allowed at Iggesund (MW), 7·4 metres – same as for other berths on same pier. Draft allowed at Hudiksvall (MW), 8·7 metres – situated on the new quay in outer basin.
At Stocka no roll-on/roll-off berth. Draft allowed on North side of pier, 5·5 metres: on South side, 3·9 metres.
No facilities for special cargoes as bulk, ore, coal, fertilisers; even some salt and other bulk cargoes are discharged for the factory at Stocka by usual shore crane or at the normal loading berth.
TANKERS: One berth only. Draught allowed: 9·2 metres at mean water. Pipe diameter for fuel: 10 in.; light oils: 8 in. Connecting hoses between pipes and vessel: 8 in. diameter, both types. Shore tanks lie about 100–200 metres from berth, 5–8 metres above sea. Surface of jetty about 2 metres above sea level.
DENSITY: Average 1,002–1,001.
FRESH WATER: Fresh water available all berths. Delivery capacity about 15–20 tons per hour. At Huvall and Stocka water delivered from shore by hoses. During winter difficult to arrange hoses, vessels assist with own hoses. At Iggesund water delivered by lorries.
FUEL: Available all berths. Delivered by tank-lorries from Sundsvall 50 miles North of Hudiksvall. 24 hours' notice required.
FIRE PRECAUTIONS: No special precautions. Within bounded area oil jetty smoking prohibited. Also on new quay outside sawmill.
DEVELOPMENTS: New berth taken into use in outer part of the Hudiksvall harbour basin. Draught allowed 6·0 metres and 9·3 metres at mean water.
GANGWAY/DECK WATCHMEN: Available in all ports, not necessary if not required by vessel.
OPENING/CLOSING HATCHES: By crew.
CUSTOMS ALLOWANCE: Crew over 18 allowed 200 cigarettes; one bottle of spirits out of bond. If vessel stays in Swedish ports but still in foreign traffic, above quantities obtained from bond once a week (every 7 days). Instead of spirits one bottle wine or 6 bottles export beer.
IDENTIFICATION CARDS: Not needed. If crew going to doctor or to hospital preferable has passport.
CONSULS:

For Stocka: as Hudiksvall.

TELEPHONES: At Stocka and Iggesund: no telephones available for connecting onboard. At Hudiksvall telephones available. Skr 25 per day plus cost of calls.
GENERAL: Hudiksvall port is very near town. Railway station, bus station, etc., very near port. Oil port about 700 metres from town.
SERVICES: No tank cleaning or discharge of tank washings. Compass adjusting: 0650/10 339 (Pilot office). Ordered through Agent.
PORT REGULATIONS: Speed limit: max. 5 knots within the harbour basin. As plastic pipe is laid out on the bottom around the oil berth, anchoring during berthing is prohibited. Pipe filled with compressed air after vessel's mooring, comes up to the surface forming ring around vessel and oil jetty as shelter against oil leakage.
DELAYS: During winter (December–April) delays on berthing/sailing owing to ice in fairways and alongside quays. Special mooring delays will occur owing to ice between vessel and quay.

AGENT: Main office, Hudiksvall. Aktiebolaget, J. E. Arndt, Godsgatan 5, PO Box 7, S–824 01 Hudiksvall, Sweden. Telegrams: Arndtbolaget Hudiksvall. Telex: 8225. Answer back: Arntds. Tel. (office): 0650/15 330. 0650/15 338. Tel. (private): 0650/13 097, 0650/10 036. Office time 0830–1200, 1300–1700.

KALMAR: 56.40 N. 16.20 E.

DOCUMENTS: See "Stockholm".
PILOTAGE: Not compulsory. If required, ordered by telephone 0480/107 19. Approaching from North, Pilot boards at Skäggenäs or Krongrundet, from the South at Trädgardsgrundet. Round-the-clock service provided. (Also see "Stockholm".)
ANCHORAGE: Good anchorage outside port available.
MAX. SIZE: Largest vessel 25,000 tons deadweight, draft 24 ft. Channel and harbour depth 26 ft.
TUGS: Available, order by tel. 15775.
STEVEDORES: Available weekdays 7 a.m.–4.30 p.m. Saturdays and eves of public holidays 7 a.m.–10.30 p.m. The operations comprise work on board, work ashore and rough sorting.
TANKERS: Oil dock has depth of 26 ft. alongside and has dealt with partly loaded ships of 25,000 tons. Discharge capacity about 28,000 cubic ft. an hour.
FRESH WATER: Available, from wharves.
FUEL: Available.
DEVELOPMENTS: In connection with a scheme to build a new harbour pier Southwards, a new entry channel will be provided West of Grimskar right up to the oil dock. It is planned to make the depth of water there about 36 ft.
GANGWAY/DECK WATCHMEN: Available.
OPENING/CLOSING HATCHES: Crew or stevedores.
CUSTOMS ALLOWANCE: 200 cigarettes plus 1 bottle spirits.
CONSULS:
Danish Vice-Consulate.
Finnish Consulate.
Icelandic Vice-Consulate.

KÖPING: 59.31 N. 16.00 E.

DOCUMENTS: See "Stockholm".
PILOTAGE: Via Södertälje: Pilots obtainable for inward bound vessels from Landsort to Södertälje and from Södertälje to Köping; for outward bound vessels from Köping and Södertälje. Via Stockholm: Pilots obtainable for inward bound vessels from Simpnäs, Furusund, Sandhamn, Dalarö and Landsort to Stockholm and from Stockholm to Köping; for ourward bound vessels from Köping and

Stockholm. (Also see "Stockholm".) Harbour pilotage obtainable but not compulsory in harbour area.

Distances: Landsort – Södertälje (nautical miles), 34; Södertälje – Köping, (nautical miles) 69; Landsort – Dalarö, (nautical miles), 32; Dalarö – Stockholm, (nautical miles), 46; Sandhamn – Stockholm, (nautical miles), 36; Stockholm – Köping, (nautical miles), 78; Västerås – Köping, (nautical miles), 27; Harbour Pilotage, (nautical miles), 2.

ANCHORAGES: At the "Broken" light buoy, clay bottom.

RESTRICTIONS: Ice is prevalent in Lake Mälaren and the inlet from the Baltic from January to March, but the entrance channel is usually kept open during a normal winter season with the aid of ice-breaking tugs. No current.

MAX. SIZE: The pilot station on Lake Mälaren, tel. Södertälje 30467, will give information on the max. admissible sizes of vessels. In general the following applies:

Max. Admissible	*Via Södertälje*	*Via Stockholm*
Length	120 metres	110 metres
Breadth	18 metres	15 metres
Draught	6 metres	5.65 metres
Height of masts above water level	35 metres	26 metres

The figures stated for the draught are subject to variation according to the water level. The entrance fairway to the port has been dredged to a depth of 6·2 metres, the width of the bottom being 40 metres.

VHF: Work freq. Channel 14. Call Köping Port Radio, Channel 16.

TUGS: Available day/night.

BERTHING: Deep-water harbour. Has 529 metres of quayage with depth of 6·2 metres alongside and is equipped with three 6-tons portal cranes and four 7-tons level-luffiing jib cranes, two having max. lifting capacity 10 tons. Also 80 metres cross-quay – without cranes – loading/unloading with vessels own winches. Quays are rail-connected and equipped with electricity, telephone and fresh water. About 10,000 m.2 of concrete stockyards within reach of cranes and outside this area at short distance from cranes, space of about 25,000 m.2 available for storage of goods. Also about 18,000 m.2 sheds of different types in connection to quays.

Cranes well equipped with lifting devices such as grabs of different types, etc. Conveyor belts of varying length, fork trucks, trimming and other cargo handling equipment also available.

Old Harbour: Has 400 metres of quayage with depth varying from 3·6 to 4·5 metres alongside, is equipped with one stationary 2-ton crane and one travelling 3·5-ton crane. Quays are rail connected.

Oil Harbour: A special oil harbour on the mouth of the river Köpingsån. Two Berths available, with depth of 6·2 and 5·7 metres.

STEVEDORES: Available 07.00–0900, 09.30–13.00 and 14.00–16.30 (Monday to Friday), 07.00–09.00 and 09.30–10.30 (Saturdays). Special conditions on Christmas Eve, New Year's Eve, Easter Eve, Whitsun Eve and Midsummer Eve. Overtime work can normally be executed on Mondays, Tuesdays, Thursdays and Fridays for two hours daily. Overtime on day of departure can be extended to five hours totally.

GANGWAY/DECK WATCHMEN: Always available.

FUEL: Water, provisions, coal and oil obtainable.

REPAIRS: Minor mechanical, electrical and other repairs can be carried out by different local firms. Diver available.

AUTHORITY: Port is owned by town of Köping and administered by a Harbour Board. Harbour Office (close to quay), tel. 0221/18315. Cables: Midlandport.

LANDSKRONA: 55.52 N. 12.48 E.

DOCUMENTS: See Stockholm.

PILOTAGE: Pilot available on request from Helsingborg pilot station or from Landskrona pilot station in daytime. Five hours' notice required. Pilot stations and boats equipped with VHF. (Also see "Stockholm".)

ANCHORAGE: Vessels of up to 10m. draft can safely anchor North of Staffans Bank.

MAX. SIZE: Depth in channel and harbour 11 metres (36 ft.) Max. draft 10 metres. Vessels up to 253 metres length have sailed from harbour.

HEALTH: See "Stockholm".

RADIO: Gothenburg Radio call sign SAG; Malmö Radio call sign SDP. The harbour office, pilot station, pilot boats and tug boats equipped with VHF.

TUGS: Tugs usually meet off Pilhaken lightbouy. Ship's lines to be used.

BERTHING: Terminal for handling bulk cargoes. Rock phosphate can be discharged with a capacity of 8,000 tons per 24 hours.

MEDICAL: Medical attention and hospital facilities available.

TANKERS: No oil berth in Landskrona.

DENSITY: Density of water changes with currents.

FRESH WATER: Available from quay.

FUEL: Small quantities of fuel oil can be obtained from quay.

WATCHMEN: Available.

OPENING/CLOSING HATCHES: Usually carried out by ship's crew.

CERTIFICATES: See "Stockholm".

CUSTOMS ALLOWANCES: See "Stockholm".

IDENTIFICATION CARDS: Not needed.

MALMÖ: 55.37 N. 13.01 E.

DOCUMENTS:
2 Crew Lists.
1 Passenger List.
2 Lists of Personal Effects (Tobacco List).
1 Declaration of Health.
2 Stores Lists.
3 Cargo Manifests.
1 Bill of Measurement.
1 Certificate of Nationality.
1 Deratisation Certificate.

PILOTAGE: Vessel applies for Pilot by telegram, by telephone or VHF (telegraphic address, Pilotstation, Malmö; tel. 186470; VHF Channel 16 and 6). Advance notice required 5 hours before pilotage to commence. Pilot boat orange-coloured cutter equipped VHF and radar. Pilot boards at Malmö roadstead. In case of bad weather vessel awaits Pilot at roadstead. (Also see "Stockholm".)
ANCHORAGE: Vessels anchor about five cables North of fairway buoy "Roder Prick" and East of leading lights Centralhamnsrannan Nedre and Ovre, and South-west of leading lights Malmo Oljehamn and Malmo Oljehamn Ovre. Depth 12 to 14 metres and bottom hard clay.
RESTRICTIONS: Speed must be reduced inside breakwaters. When red flag hoisted (red lantern at night) at the North Eastern Dry dock pier head, indicating dock gates open, vessels may pass breakwater at minimum speed. Bridge opening signal for passing from South Wharf Basin two long blasts, followed by one short.
MAX. SIZE: Maximum length recommended in Oil Harbour 740 ft. on draft not exceeding 33 ft., or 650 ft. on draft not exceeding 34 ft. Maximum length recommended at Oil Jetty in Free Port 650 ft. on draft not exceeding 24 ft., or 600 ft. on draft not exceeding 26 ft. maximum draft 21 ft. and in Industrial Harbour 550 ft. on maximum draft 26 ft. No tides.
HEALTH: Free pratique automatically granted arriving from non-infested areas. If arriving from infested areas health declaration must be presented immediately on arrival. If diseases on board suspected, vessel allowed to enter after approval City Medical Adviser, but nobody allowed on board until vessel's crew examined by doctor and after approval of medical adviser.
RADIO: Vessel can route ETA cables to Malmö Radio (call sign SDP or Channel 27 on VHF), open GMT 06.00–22.00, or to Gothenburg Radio (call sign SAG or Channel 26 on VHF), open all hours. Radio stations can also be called by radio-telephone on 2182 kHz.
VHF: Port Control Office equipped with VHF (Channel 16, 12 and 14), open 24 hours a day. Masters can receive information about berthing place, present traffic and existing hazards to navigation in harbour area.
TUGS: Tugs usually meet vessels at roadstead. Ship's lines used. Four tugs, supplied at all hours, also carry out ice-breaking.
BRIDGE: Will be opened with certain exceptions 07.00–17.00 weekdays. May be opened other hours on request Harbourmasters Office.
STEVEDORES: Work in shifts from 0500 through to 0200.
BULK HANDLING FACILITIES: In Free Port, two container berths with 40 tons capacity container crane. Also in Free Port a berth for roll-on/roll-off traffic, where is 36 tons capacity side loader.
MEDICAL: No advance notice required for medical attention. Good hospital facilities available. See also "Health".
TANKERS: The two jetties for ocean-going vessels equipped with Mannesmann transfer equipment enables quick coupling to ship's manifold. Nominal size 12 in., reducing pieces down to 10 in. provided. Depth, 36 ft. can accommodate tankers 32,000 tons d.w. fully loaded. Pipeline system can transfer 2,000 tons/hour. See also 'Maximum Size".
DENSITY: Average density 1·010. No tide experienced.
FRESH WATER: Fresh water available all berths and delivered by private company (AB Malmö Skeppshjälp, tel. 970470, 978789). Rate of delivery 60 tons/hour.
FUEL: All normal grades available. No special advance notice required.
FIRE PRECAUTIONS: Apart from usual non-smoking precautions, vessel discharging or loading dangerous goods of Class I in IMCO code required to have a fireguard on board at all times.
In Oil Harbour the shore-valve watchman also serves as fireguard.
GANGWAY/DECK WATCHMEN: Not considered necessary. Decision to be made by Master.
OPENING/CLOSING HATCHES: Normally carried out by stevedores on ocean-going vessels.
CERTIFICATES:
International Bill or Measurement.
Certificate of Nationality.
Deratisation Certificate.
Load-line Certificate.
Radio Certificate.
Safety Equipment Certificate.
Gear Certificate.
CUSTOMS ALLOWANCE: Tobacco, 200 cigarettes or 40 cigars or 150 grams of smoking tobacco per week out of bond. Spirits, 0·7 litre spirits per week out of bond.
CARGO GEAR: No additional requirements.
IDENTIFICATION CARDS: Not needed.

OXELÖSUND: 58.40 N. 17.07 E.

PORT LIMITS: The seaward boundaries of the port is a line between the Eastern point of Ljungholmen and the ore quay. However, for ore-loading ships, a vessel is considered to be an "arrived vessel" when at anchor at the roads West of Vinterklassen.
DOCUMENTS:
4 Crew Lists (3 for Customs and 1 for Ship's Agent).
4 Passenger Lists, if passengers are not inserted in Crew List.
2 Customs Documents, showing all alcoholic liquors and tobacco, belonging to officers, crew and passengers.
2 Customs Documents, showing ship's store of alcoholic liquors and tobacco.
Health Documents, not necessary.
Manifests, at least 4 copies, normally only for general cargoes.
Bills of Lading, at least a copy if not otherwise stipulated.
Ship's Paper, Ship's Register and Deratisation Certificate, not older than 6 months.
PILOTAGE: (See "Stockholm".) Pilot station located at Hävringe Lighthouse, tel. 0155/32920 or 30200. ETA required 5 hours in advance in order to avoid charge for waiting. When ships in open sea inform pilot station over telephone, transfer over Stockholm Radio, call sign SDJ or Gothenburg Radio, call sign SAG, will be recommended. VHF Channel 16 can be used for contacting pilot station or pilot boat. Approaching vessel applies for Pilot when daylight with flag signal G and when dark with pilot-light or Morse Code PT. Pilot boats orange. Ships advised to proceed by Northern inlet, where Pilot will board at Norra Kränkan Lighthouse, lat. N. 58° 37′, long. E. 17° 27′. International requirements with respect to boarding and safety measures. Vessels awaiting for Pilot are prohibited to ride at anchor North of Lighthouse "Gustaf Dalén".
ANCHORAGES: Suitable anchorages West of Vinterklasen; clay-holding ground, depth 30–40 metres, and between Beten Lighthouse and Harbour, clay-holding ground, depth 20 metres. Ships are not allowed to berth until receive orders and in the meantime they must anchor and await orders.
RESTRICTIONS: No tides. Draft not over 44 ft. 4 in. at mean water level. No other special restrictions with exception of berthing ships of and over 30,000 tons d.w.
MAX. SIZE: Ore loading berth: No restriction regarding length of ship. Vessels between 3,000 and 65,000 tons d.w. can be loaded. Depth at quay 45 ft. Berth for unloading coal, iron ore: Ships of up to 40,000 tons d.w. can be discharged. Depth at quay 39 ft. 4 in. Berth for general cargo: Depth at quay 32 ft. 10 in. Container terminal: Depth at quay 32 ft. 10 in. Oil pier: Oil carrier up to 65,000 tons d.w. berthed. Depth at quay 45 ft.
HEALTH: No special regulations.
RADIO: Stockholm Radio, call sign SDJ, or Gothenburg Radio, call sign SAG.
VHF: Harbour authorities and Clearance Department for ore loading ships has VHF Channel 16.
TUGS: Two modern combined tugs and ice-breakers of 1,680 and 1,260 IHP. Ship's lines to be used. Tugs normally join vessel near Beten Lighthouse, just near harbour.
BERTHING: Harbour Pilot compulsory and normally ordered by ship's Agent. No tides. Depths in harbour can vary occasionally from minus 1 ft. 6 in. to plus 1 ft. according to temporary alterations of mean water level. Ships of and over 30,000 tons d.w. cannot be berthed when dark.
CARGO-HANDLING FACILITIES: The port has, among other things, one ore quay equipped with a travelling ore-loader with a maximum capacity of 400 tons per hour. One quay for unloading coal, iron ore and similar equipped with two travelling cranes with a capacity of 600 tons per hour. One quay equipped for container-handling with a 35-ton travelling container crane of Paceco type. In connection with the container quay there is a 25-metre traverse ferry ramp equipped to accommodate roll-on/roll-off traffic.
STEVEDORES: No special ETA advice required. Master of ship with general cargo has to inform Agent in advance number of gangs required.
MEDICAL: Necessary for Agents to receive advance notice of required medical attention, informing Agent if doctor should meet upon ship's arrival, if ambulance is required for transport to hospital and promptness required. No special vaccination/fever certificates necessary. Hospital at Nyköping, about 8 miles from Oxelösund.
TANKERS: One tanker berth, depth at quay 45 ft. Connection to load/discharge lines, have diameter of 12 in. for products and 14 in. for heavy products. Almost all types of oils. No slop/residue/facilities.
DENSITY: About 1,025. No tides.
FRESH WATER: Always available. Delivery through lines from quays at a rate of 10 tons/hour. Fresh water can also be delivered by tugs which have fresh-water tanks.
FUEL: All grades of heavy fuels can be delivered. At least one day's notice.
FIRE PRECAUTIONS: Watchman necessary loading/discharging gasoline.
GANGWAY/DECK WATCHMEN: When ship berthed, reliable gangway must be arranged to quay. Tankers discharging/loading gasoline must have watchmen, arranged through ship's Agent.
OPENING/CLOSING HATCHES: Normally carried out by crew.
CERTIFICATES: Usual international certificates. In order not to delay despatch, important that following certificates are available and valid: Measurement, Life-boat, Radio and Deratisation (not older than 6 months).
CUSTOMS ALLOWANCES: (Tobacco), each crew member permitted out of bond about 200 grams tobacco and 5 packets of cigarette-paper. (Wine and/or spirits), each crew member is permitted to have out of bond 1 bottle spirits or 2 bottles of wine, if he is over 20.
CARGO GEAR: International certificates necessary. No additional requirements.
IDENTIFICATION CARDS: Not needed.
CONSULS: Denmark, Percy Tham AB, tel. 0155/30600; Finland, Percy Tham AB, tel. 0155/30600; Norway, Harbour Office, tel. 0155/31940.
REPAIRS: Minor repairs can be undertaken at workshop on No. 1 quay. Tel. 0155/30547.
DRY DOCKS: None.
REPATRIATION: Crew changes can be effected and necessary repatriation arranged.
AIRPORT: Arlanda 40·4 miles outside Stockholm. Distance Oxelösund–Stockholm 92·8 miles. Total distance 133·2 miles. Served by regular airlines.
TIME: GMT plus one hour. No alterations during year.
HOLIDAYS: General holidays on which no cargo work can be arranged: New Year's Day; Epiphany; Good Friday; Easter Monday; Labour Day; Ascension Day; Whit Monday; Midsummer Day; All Saints' Day; Christmas Day; Second Christmas Day.
On the following eves of holidays cargo work ceases for general

cargoes at 11.00 and for loading iron ore and for discharging coal, coke breeze, limestone and special ores at 14.50 with maximum 2 hour's overtime to complete vessel: New Year's Eve; Whitsun Eve; Midsummer Eve; Christmas Eve.
POLICE/AMBULANCE/FIRE: Dial tel. 90 000 and ask for "Police-alarm", "Ambulance" or "Brandalarm" (Fire alarm).
TELEPHONES: Arrangements for placing telephones on board exist at berth No. 9, 9½ and 10. Approximate cost for connection is charged per day.
SERVICES: Licensed compass adjuster. No tank-cleaning equipment or facilities for discharge of tank-washings.
PORT REGULATIONS: Ice-breaking dues equal to harbour dues are charged 21st December–20th March each year.
DELAYS: Normally no delays. Modern installations for loading and discharge.
AUTHORITY: Port is owned by Gränges AB, Stockholm, and administered by the railway company, Gränges, TGOJ, Eskilstuna. Tel. 016/137585. Local Authority: Gränges, TGOJ, Harbour Office, S–613 01 Oxelösund .Tel. 0155/31940. Telex Portox 64025.

PITEA: inc., Pitsundet. 65.19 N. 21.29 E.

RESTRICTIONS: No tides or tidal current.
MAX. SIZE: Maximum permissible length of tanker 590 ft. in accordance to dredged basins length.
HEALTH: In case of disease or suspected disease, ship should call for medical assistance in common Swedish order.
RADIO: Stockholm Radio or Härnösand Radio. When in reach of VHF station of harbour office, at 08.30–12.00 and 13.00–17.00, or else through pilot station VHF. Call signals "Skellefteå Hamnradio" or "Skelleftea Pilot Station".
RADAR/VHF: Radar service available when entering or leaving port. Contact pilot station (Channel 16).
TUGS: Normally meet at passage of Gåsören Lighthouse. Ship's lines should be used. Tug of 3,000 h.p. also acts as local icebreaker.
BERTHING: No special requirements. *Bureå.* Good anchorage but somewhat narrow loading place. Depth inner harbour 16 ft., depth outer harbour 16/21 ft. Depth in roads 21/26 ft. *Kåge.* Depth in harbour at quay 23/20 ft.; length 609 ft. *Rönnskärsverken.* Southern quay

(jetty), depth 30·5 ft.; length 394 ft. Northern quay, depth 39/19·4 ft. and length 1,814 ft. *Skelleftehamn.* North quay, depth 26/21 ft. and length of 1300 ft. Oil Terminal, (jetty), depth 34 ft. and length 300 ft. with dredged basin of 656 ft. Örviken, depth of 12 ft. along a wooden wharf of a length of 200 ft. Siporex, quay depth 19·7 ft. and a length of 150 ft.
STEVEDORES: No stipulated ETA regulations.
MEDICAL: Available at short notice. Government hospital in town.
TANKERS: One tanker berth. Max. draft 33 ft. Diameter of discharge lines 8 in. and 10 in. Flanges Din 2633.
FRESH WATER: At oil terminal 25 tons/hour. Elsewhere 15 tons/hour except at Rönnskärsverken, where fresh water delivered by tanker.
FUEL: All usual grades available.
FIRE PRECAUTIONS: Standard.
DEVELOPMENTS: Planned to build jetty for drafts of about 42·5 ft., 1974.
GANGWAY/DECK WATCHMEN: Watchmen recommended.
OPENING/CLOSING HATCHES: Carried out by crew.
CERTIFICATES: See "Stockholm".
CUSTOMS ALLOWANCES: (Tobacco): 200 cigarettes. (Wine Spirits), 1 bottle of wine and one bottle of spirits.
CARGO GEAR: No additional requirements.
IDENTIFICATION CARDS: Not needed.
CONSULS: Denmark, Norway, Finland and Netherlands.
REPAIRS: Minor repairs only.
REPATRIATION: Every kind of facility for effecting changes of crew.
AIRPORT: 18 km. Regular airlines, two flights a day.
TIME: GMT plus one hour. Permanent.
HOLIDAYS: New Year's Day; Good Friday; 1st and 2nd Day of Easter; Ascension Day; 1st and 2nd Day of Whitsuntide; 1 May; Midsummer Day; and 1st and 2nd Day of Christmas. Cargo work cannot be arranged.
POLICE/AMBULANCE/FIRE: 14070, 31080; 90000; 17200.
TELEPHONES: Available for placing on board at the Northern quay in Skelleftehamn.
GENERAL: All waste to be taken to special waste containers ashore.
SERVICE: Small amounts of tank-washings can be taken ashore. Compass adjusting carried out. Tug stationed in harbour.
DELAYS: In exceptionally bad weather.
AUTHORITY: Harbour Board of Skellefteå, S:a Hamngatan 35, 932 00 Skelleftehamn. 31006.

SLITE, Gotland Is.: 57.42 N. 18.50 E.

DOCUMENTS:
Crew Lists.
Customs Documents.
Health Documents.
Bills of Lading.
Measurement Bill
National Certificate.
Valid Derat Certificate.
All compulsory (also see "Stockholm".)
PILOTAGE: Service centralised to main station at Visby. Service day and night. Tel. 0498/10138. 5 hours notice required VHF Channel 16 (also see "Stockholm").
ANCHORAGE: Sheltered anchorage on Inner Road with up to 8 m. depth of water.
RESTRICTIONS: No restrictions. Entrance possible day and night.
MAX. SIZE: Draft not to exceed 21 ft. 6 in.
HEALTH: Restrictions only if fever on board or vessel coming from a port where disease or fever in existence.
RADIO/VHF: Tingstade Radio Station, call sign SAE, VHF see "Pilotage".
TUGS: No tug available.
BERTHING: No restrictions if due notice to Port Authority given.
STEVEDORES: Notice to be given latest noon on day before arrival, order to make start next morning (unless special arrangements or agreements made).
MEDICAL: Attention by doctors-in-charge. Central hospital at Visby.
TANKERS: Pipe-line connection flange 8 in.
FRESHWATER: Available alongside quay.
FUEL: Practically all grades bunker oil available subject prior notice.
DEVELOPMENTS: No developments presently contemplated.
WATCHMEN: Not compulsory but available.
HATCHES: Ship's crew to open or close.
CUSTOMS ALLOWANCES: Presently 200 cigarettes per head/week. Practically no spirits allowed out of bond.
IDENTITY CARDS: Seamen's book or passport if travelling outside port area.
CONSULS: No consul representations at Slite. Nearest consuls (for Denmark, Norway, Finland, West Germany) at Visby.
REPAIRS: Only minor repairs possible.
DRY DOCKS: None.
REPATRIATION: Good possibilities for changing crew.
AIRPORT: About 40 km. to Visby Airport.
TIME: GMT plus 1 hour. Permanent.
TELEPHONE: Alarm central tel. nr. 90 000.
SERVICES: No services for tank-cleaning tank washing, or compass adjusting.
SHORE LEAVE: Permitted.
AUTHORITY: AB Cementa, Storgatan 90, Slite.
AGENT: Aktiebolaget Rob. Myrsten, 620 30 Slite, Telex 4137 – A/S Myrsten. Cables: "Myrsten – Slite." Tel. 0498/20001/02/03. After hours 0498/20102/20021/20014.

SÖDERHAMN: (includes Stugsund, Langror oilberth and Sandarne factory berth) 61.18 N. 17.05 E.

DOCUMENTS:
2 Crew Lists.
3 Bills of Lading.
3 Manifests.
1 Tobacco List.
PILOTAGE: Pilot must have 5 hours notice. Telegraphic address "Soderhamn Pilot Station", Ljusne. VHF Channel 16 for calling pilot boat and pilot station (frequency 156·8 m/Hz). and 13 (frequency 156·656 m/Hz). Pilot boat is orange. International signals to be used. Vessels can normally receive Pilot between Hallgrund and Storjungfrun. In case of bad weather or ice, Master consults Pilot for advice (also see "Stockholm").
ANCHORAGE: Lilljungfru anchorage S.W. Lilljungfrun, where depths are 15–20 m., is W. or S.W. of Norrutharet. Branthälls anchorage W. Branthäll isl., depths 10–15 m.
MAX. SIZE: Långrör oil berth. Breadth of entrance fairway 55–60 m. and depth 8·5 m. at mean level. Max. ship length about 170 m. at the quay.
Sandarne. Breadth 30 m., depth 7·2 m. m.l. 55–60 m. in unlit fairway.
Stugsund. Breadth 30 m., depth 6·2 m. m.l.
Soderhamn. Breadth 10–15 m., depth 3·7 m. m.l.
Depth varies about one foot below and one foot above m.l. Breadth given at narrowest point in fairway.
HEALTH: No special action except for suspected disease. In case of disease contact Agent for information.
RADIO: Stockholm Radio when vessels come from South and Härnösand Radio from North. Within reach Master may call Söderhamn Port Radio. Tug station is Stugsund. Tug fitted VHF, Channels 16, 13, 12.
There is a radar station at Soderhamn. Pilot station, Ljusne, and some of the pilot boats are fitted with radar.
TUGS: Normally meet large vessels at Otterhällans Lighthouse and others off quays on request. Ship's lines to be used.
BERTHING: Boatmen can be ordered by Pilots or Agents. Large ships berth oil berth only in daylight because channel not lit.
STEVEDORES: Gangs to be ordered by Agent usually at 3 p.m. for starting next morning at 7 a.m.
MEDICAL: Medical attendant available day and night.
TANKERS: 6-or 8-in. connections. Only one berth and maximum depth at quay 8·5 m.
DENSITY: Practically fresh water.
FRESH WATER: Available in all ports. Delivered through pipelines on wharf. Rate: 10 tons/hour.
FUEL OIL: Any normally used grade on request to oil company with few hours' notice.
DEVELOPMENTS: A new quay at Långrör berth for general cargo will be established in a few year's time.
GANGWAY/DECK WATCHMEN: Watchmen available.
OPENING/CLOSING HATCHES: Normally carried out by crew.
SHIP'S CERTIFICATES: Traffic permission (not necessary for ports within the custom district boundaries), Nationality and Reg. Certificate (or interim Nationality Certificate, Bill of Measurement, Swedish Sailor's Roll (only Swedish ships), Foreign Nation Crew Passport, Derat-Certificate (6 month), Certificate of Health.
CUSTOMS ALLOWANCE: (Tobacco), out of bond, 200 cigarettes or 100 gr. tobacco and 100 cigarettes. (Wine/Spirits), out of bond, 1 bottle of spirits, 75 cl.
CARGO GEAR: Valid cargo gear certificates.
IDENTIFICATION CARDS: Not needed.
CONSULS: Danish, French and Dutch.
REPAIRS: Minor plate-work and welding can be carried out.
REPATRIATION: Facilities exist for effecting crew changes.
AIRPORT: Nearest international airport. Stockholm.
TIME: GMT plus 1. Permanent.
HOLIDAYS: No work on official holidays, but may be possible on special request. New Year's Day (1st January); Twelfth Day (6th January); Good Friday; Easter Sunday and Easter Monday; 1st May; Whit Sunday and Whit Monday; Midsummer Day; All Saints' Day; 25th December and 26th December; New Year's Eve; Easter Eve; Whitsun Eve; Midsummer Eve; Christmas Eve.
POLICE/AMBULANCE/FIRE: Police 90000 or 0270/10020; Ambulance 90000; and Fire 90000 or 0270/12249.
TELEPHONES: In Sandarne, quay telephones can be placed on board. Two telephones.
GENERAL: There is a VHF port radio at the Port Office, Söderhamn. Working time 0800–1700. Channel 16 for call and working channel. During the ice-breaking season the tug may be out even at night. Tug has same channels. Söderhamn custom district includes only Stugsund. Illjungfrun Pilot also serves ports of Ala, Ljusne and Vallvik.
SERVICES: Facilities for discharge of tank-washings max. 20 tons. Tank-cleaning and facilities for discharge of tank-washings of great extent are Stockholm and Sundsvall. Compass adjusting in Stugsund berth.

PORT REGULATIONS: Port regulations available from Agent or Port Office.
DELAYS: Fog, ice and bad weather may delay berthing. Rain and snow can delay loading and discharging of dry cargo.
AUTHORITY: Hamnforvaltningen, Soderhamn, tel. 0270/14828 or 11311.

SÖLVESBORG: 56.03 N. 14.35 E.

DOCUMENTS: See "Stockholm".
PILOTAGE: Pilot station at Åhus, tel. 044/240027, needs five hours' notice. Pilot station and pilot boat can be ordered by VHF Channel 16 (156, 80 MHZ). Harbour office in Sölvesborg can be called on same frequency. (Also see "Stockholm".)
ANCHORAGE: Roadstead to S. of harbour 25 ft. deep with good holding ground.
MAX. SIZE: Depth in outer harbour 8·2 metres (27 ft.) and in inner harbour 7·5 metres (25 ft.) Recommended for ships to have 1 ft. 6 in. of water under keel. Maximum length 200 m. (656 ft.) Breadth 30 m. (98 ft.). Draft 7·7 m. (25 ft.) for vessel entering harbour. Largest ship to enter harbour was 20,000 tons oil tanker with load of 9000 tons. That is, however, not the upper limit. Harbour entrance has bottom breadth of 65 metres (213 ft.).
HEALTH: See "Stockholm".
RADIO: Malmö Radio and Gothenburg Radio.
VHF: Harbour Office can be reached by VHF, Channel 16 (156.80 MHZ). Working frequency Channel 14 (15.70 MHZ).
TUGS: Available. Ordered through Agent or directly to Harbour Office.
STEVEDORES: Need notice before 1500 if loading/discharging shall start at 0730 hours following morning, or notice before 1000 hours if loading/discharging shall start 1300 hours the same day.
TANKERS: 3 Shore-lines for oil products from oil jetty to depots. 1. 250 mm. for bunker C (2nd fuel); 2. 200 mm. for paraffin oil; 3. 200 mm. for petrol. For discharge coasters use ship's equipment. Bigger ships discharging bunker C oil use harbour's 8 in. rubber hose.
FRESH WATER: Fresh water available.
FUEL: Ordered from oil companies by ship's Agents.
GANGWAY/DECK WATCHMEN: Watchmen normally not needed. Can be ordered by ship's agents.
OPENING/CLOSING HATCHES: Normally opened/closed by crew.
SHIP CERTIFICATES: See "Stockholm".
TOBACCO ALLOWANCE: Basis for forming an estimate is ship's stay in Swedish ports. Normally 200 cigarettes/week.
WINE/SPIRIT ALLOWANCE: Normally 1 bottle/week.
IDENTIFICATION CARDS: Not needed.
CONSULS: Royal Danish Vice-Consulate. Railway Station Building. Tel. 0456/10115.
REPAIRS: Carried out by Solvesborgs Shipyard. Tel. 0456/10950.
DRY DOCKS: Dry dock in ship yard, 341 ft. long, 51 ft. wide at entrance, 14½ ft. deep on sill HWOST.
REPATRIATION: No facilities.
AIRPORT: 50 km. to Kristianstad Airport and 60 km. to Ronneby Airport. Served by regular inland airlines.
TIME: Local time = GMT plus 1 hour. Permanent.
HOLIDAYS: See "Stockholm".
POLICE/AMBULANCE/FIRE: Dial 90 000 and ask for Police, Ambulance or Fire Department.
TELEPHONES: Telephones available in Agent's offices at quay and telephone boxes.
DELAYS: Normally no delays.
AUTHORITY: Chairman of the Harbour Board, Valjegatan 17, 294 00 Sölvesborg. Tel. 0456/10247. Harbour Office, Box 49, 294 00 Sölvesborg.

STENUNGSUND 58.04 N. 11.49 E.

DOCUMENTS:
3 Crew Lists.
2 Passenger Lists.
1 Tobacco and/or Stores List.
1 Manifest.
1 List of Animals on Board (if any).
Access to the usual ship's papers (measurement, register, certificate, etc.).
If away from Sweden more than 15 days: Bill of Health.
PILOTAGE: Pilots board West of Skallen Lighthouse outside Marstrand. Pilots will not take big ships during darkness. Those ships must anchor and await daylight. Calling for Pilot can be made in usual manner and on VHF, Channel 16. Give twenty-four hours notice of ETA through Agents. (Also see "Stockholm".)
ANCHORAGE: While awaiting berth vessels anchor outside harbour N.W. of jetty. Safe anchorages everywhere, but fairway South of Galterön Lighthouse has to be avoided.
RESTRICTIONS: Large vessels daylight entry only.
MAX. SIZE: 65,000 d.w. Draft at berth is only limit, 12·7 m. at North side, and 11 m. at South side of jetty at mean water level.
HEALTH: No special pratique necessary. If any disease or fever suspected on board, doctor must be called on arrival. Pratique automatically granted when entering from another port in Sweden.
RADIO: Gothenburg radio.
TUGS: Tugs from Gothenburg will join at bridge South of harbour. Ship's lines always used.
STEVEDORES: None. Tanker port only.
VHF: Channel 16.
MEDICAL: Doctors and dentists available at short notice. Hospitals situated at Uddevalla and Kungälv, ambulances at Stenungsund.
TANKERS: 8 in. hoses at jetty. At North side of jetty tankers berth starboard side to, and at South side port side to. 4-ton crane situated on jetty but ship's derrick also used for hoses.
FRESH WATER: Supplied by hose at a rate of 25 tons/hour.
FUEL: Only available by barge from other places (i.e. Gothenburg) Bunkering only during daylight. Can be ordered at short notice.
FIRE PRECAUTIONS: Normal.
GANGWAY/DECK WATCHMEN: Watchmen from ashore necessary when telephone connected.
CUSTOMS ALLOWANCES: 200 cigarettes. One bottle of spirits.
IDENTIFICATION CARDS: Not required.
CONSULS: None at Stenungsund, but at Gothenburg.
REPAIRS: Some minor repairs may be effected.
REPATRIATION: All facilities exist. Consuls at Gothenburg
AIRPORT: Gothenburg 50 km. away. Regular airlines.
TIME: GMT plus 1 hour. Permanent.
HOLIDAYS: Tankers load and discharge all year round.
TELEPHONES: Connected on board if wanted. Watchmen attend calls. Fireman and alarm on jetty during whole operation.
AUTHORITY: Statens Vattenfallsverk, Varmekraftverken, 444–00 Stenungsund, Sweden. Cables "Kraftverket". Tel. 0303–70670.

STOCKHOLM: 59.19 N. 18.03 E.

DOCUMENTS:
(*a*) Crew List; normally 2 copies; for oil harbour at Loudden and Free Port, 3 copies
(*b*) Passenger List: regular passenger services 2 copies; cruise ships (lists for cruise ships must be sent in advance to Agent for forwarding to Immigration Authorities), 2 copies.
(*c*) Customs Documents: arrival report (form can be obtained on arrival), 4 copies.
(*d*) Quarantine Certificate or Bill of Health: Deratisation Certificate not more than six months old to be shown. *Note:* Additional quarantine regulations may be imposed in special circumstances.
(*e*) Manifest: 3 copies.
(*f*) Bills of Lading: 1 copy of each. Liners may be subject to other regulations with regard to (*e*) and (*f*) above.
(*g*) Ship's documents: Tonnage Certificate. Certificate of nationality.
PILOTAGE: (*Sweden general*). Applications for licensed Pilots should be made at least five hours before pilotage is due to commence. When making application specify name of vessel, tonnage, draft and destination. Also give estimated time for taking pilot on board and route. If this procedure not followed, the Maritime Service cannot guarantee to supply a Pilot without considerable delay to vessel.

Preferable make application by telephone, or by radio via a coastal station or by some other method direct to pilot station nearest point where pilotage is to begin. Also possible request Pilot by VHF (ultra shortwave) telephone to any Maritime Service pilot station, Pilot waiting point or lighthouse which is equipped with VHF.

The Maritime Service's network of permanent VHF telephone stations has been extended to give almost complete coverage of all pilot stations and waiting points and is also operative for a number of lighthouses. The radio stations can operate on different channels and are equipped for frequency modulation. During hours when pilot stations are open, a constant watch is kept on frequency 156·80 mc/s (Channel 16). This frequency should be used for all signals and replies – and for distress traffic. Outside these hours, normal traffic transmissions, i.e. applications for Pilots, etc. should be made on frequency of 156·65 mc/s (Channel 13) or on reserve operating frequency of 156·60 mc/s (Channel 12).

When making VHF telephone call, the type of call signal that should be sent is "Lotsarna (or pilot station) plus the name of the pilot station or the pilotage attendance".

RESTRICTIONS: Very large passenger vessels and fully-loaded tankers of approx. 15,000 tons dwt or over not allowed pass through Skerries during darkness. Via Landsort 40 ft. draft; via Sandhamn 36 ft. draft; via Simpnäs 30 ft. draft.

Ships with gross tonnage exceeding 400 tons must proceed only with an Easterly course in Lindalssundet. Ships with gross tonnage exceeding 400 tons must not proceed through Kodjupet and Sandhamnssundet (between Sandon and Korso).

Tankers with gross tonnage exceeding 22,000 tons must be accompanied by a tug from the narrows at Dalaro and Sandhamn through the Archipelago to Stockholm and nearby ports.

Ships with a gross tonnage exceeding 400 tons, not using a Pilot, must be equipped with VHF telephone which must be continuously watched on Channel 16.

Ships with gross tonnage exceeding 1,000 tons must report entry to and exit out of the Archipelago as well as arrival to, and departure from the port, to the nearest manned pilot station.

Tankships with gross tonnage exceeding 1,200 tons carrying crude oil products, mineral oil and certain chemicals must have licensed Pilot in the passages Arholma–Stockholm; Soderhamn–Stockholm; Sandhamn–Stockholm; Landsort–Stockholm; Landsort–Nynashamn; Landsort–Sodertalje and in the Lake of Malaren.

MAX. SIZE:

Via Sandhamn:
Overall length = approx. 820 ft.
Beam = ,, 100 ft.
Draft = ,, 36 ft.
Via Landsort:
Overall length = approx. 820 ft.
Beam = ,, 100 ft.
Draft = ,, 40 ft.
Via Simpnäs:
Overall length = approx. 650 ft.
Beam = ,, 100 ft.
Draft = ,, 29 ft.
There are no tides.

HEALTH: Vessels arriving from ports outside Europe must for inward clearance provide Customs Office with written declaration of freedom from infection. Further instructions will be issued by Customs Office where such a declaration cannot be given.

RADIO: Stockholm Radio, call sign: SDJ.

RADAR/VHF: All three pilot stations have radar for internal use. No harbour radar service. VHF Channels 16 and 12.

TUGS: Very large vessels may be met by tugs by special arrangement at pilot boarding point. Tugs available to special order to assist with berthing; the rendezvous usually near berth.

Rates: According to fixed tariff.

BERTHING: Special harbour Pilots available round clock to assist arrival, departure and warping. Use of harbour pilot services is optional. Services of boatmen available to order at any time of day or night.

BRIDGES:

RULES CONCERNING VESSELS CROSSING SEALANE AT LIDINGÖ BRIDGE

In force as from 1st May 1970 until further notice. Movable part of Lidingö Bridge is opened after request for letting vessels pass through 5 minutes before full- and half-hour, in accordance with following table.

For vessels in regular traffic: Weekdays excepting day before Sunday or Holiday, 5.55–6.55 hrs., 9.25–11.25 hrs. and 18.55–20.55 hrs. Day before Sunday or Holiday, 5.55–6.55 hrs., 9.25–11.25 hrs. and 15.55–20.55 hrs.

For pleasure crafts not passing at same time as vessels in regular traffic: Weekdays excepting day before Sunday or Holiday, 5.55–6.55 hrs., 10.25–15.55 hrs. and 19.55–20.55 hrs. Day before Sunday or Holiday, 5.55–6.55 hrs., 9.25–11.25 hrs. and 16.55–20.55 hrs.

For all types of vessels: Sundays and Holidays, 5.55–20.55 hrs. If opening of bridge required between 20.55–5.55 hrs., application to be given to bridge watchman stating time for opening, latest 17.00 hrs. previous evening.

HOURS OF OPENING ÅRSTA BRIDGE

Årsta bridge is opened after request to Train Controller, Stockholm Central, tel. 22 60 00, extension 2171, for vessels passing until firther notice on following hours: Monday and day after holiday, 01.09–01.25 hrs., 02,25–02.40, 03.00–03.40 hrs. Other weekday,s Tuesday–Saturday, 02.25–02.40 hrs. Sundays and Holidays, 01.40–03.35, 04.00–04.30 hrs. Applications regarding opening of bridge must be lodged latest 16.00 hrs. (Satirdays 12.00 hrs.) on previous day. Oepning of bridge subject to train traffic condition not causing any obstruction.

HOURS FOR OPENING FOR MOVABLE ROAD BRIDGES OVER HAMMARBY SEALANE

Movable parts of road bridges over sealane of Hammarby opened on request for vessel unable freely to pass under the bridges, all through the year at regular hours.

STEVEDORES: Stevedores available at 7.00, 9.30, 11.00 and 13.30 hrs., Stevedores required for 7.00 hrs. must be booked previous day: otherwise can be booked for next starting time. A pricelist can be obtained from Stockholms Förenade Stuveriaktiebolag, Stockholm.

MEDICAL: Duty medical officer available all hours day or night. Tel. Stockholm 21 55 49, 11 83 31 or 20 30 91. Seamen admitted to hospital with note from Medical Officer for Seamen, but not necessary for emergency admissions. Valid certificates of vaccination must be produced. Any necessary vaccinations carried out by Medical Officer for Seamen.

TANKERS:

Tanker discharge quay	*Diameter of discharge pipelines*	*No. of tanker berths*	*Depth of water at quayside*
Bergs oil harbour	12″–20″	1	40′ 0″
Flaxenvik	12″	1	36′ 0″

REPAIRS: All types of deck and machinery repairs can be carried out.
DRY DOCKS: Gustav V Dock, length 598 ft., width 79 ft., depth 31 ft. Also three other dry docks and five floating docks.
REPATRIATION: Crewmen may be signed-on and paid-of. Whether paid-off crewmen will be allowed to remain in the country and seek new employment, depends on existing bilateral agreements between countries. Generally, only a citizen of a Scandinavian country may seek work in Sweden without a special labour permit.
AIRPORT: Arlanda, approx. 22 miles from central Stockholm. Served by regular airlines.
TIME: GMT plus 1 hour. Unchanged throughout year.
HOLIDAYS: New Year's Day (January 1st); Epiphany (January 6th); Good Friday (variable Friday in March/April); Easter Monday (variable Monday in March/April); May 1st; Ascension Day (variable Thursday in May/June); Whit Monday (variable Monday in May/June); Midsummer Day (variable Saturday in June); All Saint's Day (first Saturday in November); Christmas Day (December 25th); Boxing Day (December 26th). No work is normally done on these days.
POLICE/AMBULANCE/FIRE: Tel. 90 000.
TELEPHONES: Ship-to-shore telephone connections can be provided at most quays.
GENERAL: Degaussing station available.
SERVICES: Electric current can be laid on at some quays. Port has a special barge for collection of oil residues. Licensed compass adjusters available.
SHORE LEAVE: No restrictions.
DELAYS: Occasionally shortage of stevedores. Some delay may be caused by ice, but port kept permanently open by ice-breakers.
AUTHORITY: Stockholms Hamn, Sandhamnsgatan 57, S–115 28, Stockholm, Sweden. Tel. 63 55 00 (routing code 08). Telex 10 612. Cables: Capitalport.

STORUGNS, Gotland Is.: 57.50 N. 18.49 E.

Situated on Eastside of Bay of Kappelshamn on the North coast of Gotland and about 18 km. North of Slite.
DOCUMENTS:
Crew Lists.
Customs Documents.
Health Certificate.
Bills of Lading.
Measurement Certificate.
Valid Derat Certificate.
All compulsory. (Also see "Stockholm".)
ANCHORAGE: Good anchorage. N.W. of quays. Sand and clay bottom.
PILOTAGE: Service centralised to main station at Visby. Service day and night. Tel. 0498–10138. 5 hours notice required. VHF Channel 16 (also see "Stockholm").
ANCHORAGE: Good anchorage available.
RESTRICTIONS: None. Entry day or night.
MAX. SIZE: Depth at entrance and at quay 10 m. Vessels up to 20,000 tons have loaded to full draft.
HEALTH: No restrictions provided no disease or fever or board and vessel not arriving from port where disease or fever in existence.
RADIO/VHF: Tingstade Radio Station – SAE. VHF see "Pilotage".
TUGS: None.
BERTHING: Main harbour for loading limestone. Modern loading facilities. Load rate about 500 tons/hour in two shifts. Up to 10 metres depths at quays.
MEDICAL: Central hospital at Visby.
FRESH WATER: Not available.
FUEL: Most grades available from Visby subject prior notice.
WATCHMEN: Not compulsory but available.
HATCHES: Ship's crew open and close.
CUSTOMS ALLOWANCES: Presently 200 cigarettes per head/week. Practically no spirit allowed out of bond.
IDENTITY CARDS: Seamen's book or passport if travelling outside port area.
CONSULS: No consul representations at Slite. Nearest consuls (for Denmark, Norway, Finland, West Germany) at Visby.
REPAIRS: Only minor repairs possible.
DRY DOCKS: None.
REPATRIATION: Good possibilities for changing crew.
AIRPORT: Visby.
TIME: GMT plus 1 hour. Permanent.
SHORE LEAVE: Permitted.
AUTHORITY: AB Gotlands Förenade Kalkbrott.
AGENT: Aktiebolaget Rob. Myrsten, 620 30 Slite. Telex 4137 – A/S Myrsten. Cables "Myrsten – Slite." Tel. 0498/20001/02/03, After hours: 0498/20102/20021/20014.

STROMSTAD: 58.56 N. 11.10 E.

DOCUMENTS/PILOTAGE: See "Stockholm".
ANCHORAGE: Available within port to vessels up to and including 3,000 d.w.
MAX. SIZE: Cargo ships (not tankers), max. 3,000 d.w.
BERTHING: No particular restrictions for berthing within the port.
FRESH WATER: Available.
FUEL: None available.
GANGWAY/DECK WATCHMEN: Necessary.
OPENING/CLOSING HATCHES: Carried out by crew.
IDENTIFICATION CARDS: Needed.
CONSULS: Norwegian Consul: Karl Krohn, Adr: Karlsgatan 2.
REPAIRS: No repairs possible.
REPATRIATION: Facilities exist for effecting crew changes.
AIRPORT: Torslanda (Gothenburg). Distance: 200 km.
HOLIDAYS: Cargo work can not be arranged on holidays.
POLICE/AMBULANCE/FIRE: Police 12530; Ambulance 90000 (ask for ambulance); Fire 11160.
TELEPHONES: Arrangements exist for placing telephones on board.
TIME: GMT plus 1. Permanent.
DELAYS: No delays in load or discharge.
AUTHORITY: Hamnförvaltningen Stromstad.

SUNDSVALL: 62.25 N. 17.20 E.

DOCUMENTS:
2 Crew Lists and/or 2 Passenger Lists, also stating what tobacco, cigarettes or spirits each man has.
Deratification Certificate.
Manifest and/or Bills of Lading.
Register, and if vessel has been before in Sweden same year, bills for light dues paid.
PORT LIMITS: The seaward boundaries of the port is a line between the following points: Kubikenborg (62° 22′ 42″ N. 17° 22′ 30″ E.); Eastern Point of Tjuvholmen Isle; Korsta (62° 23′ 54″ N. 17° 23′ 48″ E.).
PILOTAGE: There are two main entrances to Sundsvall.
From Bremo Island in white sector to Draghallan Light. Depth in the passage 10·4 metres.
From Bremo Island via Gubben Light and Spikarna Light to Draghallan Light. Depth in the passage 14·0 metres. Pilot in both cases obtainable at Gubben Lighthouse.
Pilot station at Spikaren South point of Alnö island. Pilot obtainable at position North 62.21 East 17.39. Pilot VHF frequency 16 but possibility to shift to another wavelength when ships calling on other length. Signals made either by sound or light and by hoisting G or PT flag during daytime. If very bad weather ship can steer from Bremö island on white sector of the Draghällan Lighthouse in entrance of Sundsvall, but only ships less than 25 ft. draft. 5 hours' notice of ETA to ship's Agents and any change of position must be given at least 2 hours before ETA Pilot. (Also see "Stockholm".)
ANCHORAGE: Between islands of Tjufholmen and Alnö and also in Svartvik bay.
MAX. SIZE: There are no restrictions on length and breadth. Maximum draft for vessels bound to Sundsvall is about 12 metres. Depth alongside at the oil terminal is 40 ft.
HEALTH: See "Documents".

RADIO: Cable Agents giving ETA, draft and cash required via either Hernösand Radio SAH or Stockholm Radio SDJ.
TUGS: Must be ordered by Agents in very good time before arrival.
BERTHING: Any time. No restrictions except draft. Sundsvalls Terminalen, 33 ft.; Sundsvalls Town, 27 ft.; Kubikenborg, 32 ft.; Ostrand, 32 ft.; Ortviken, 30 ft.; Stockvik, 22 ft.
Soraker, loading and discharging berths for bulk and general cargo, max. draft 23 ft.
Svartvik, max. draft 24 ft.
Ostrand, max. draft 24 ft.
STEVEDORES: Ordered by Agents, but if vessel to load various parcels for different destinations, this must be stated to Agents, and also if possible to work with trucks on board.
TANKERS: *Essvik*, stern mooring terminal for vessels up to 21 ft. draft.
Wifstavarf, suitable for tankers up to 29 ft. draft.
Fagervik, for tankers up to 22 ft. draft.
Sundsvall Town oil terminal, equipped with marine swinging arm for loading discharging oil products, for vessels up to 39 ft. draft.
DENSITY: Nearly fresh water.
FRESH WATER: Nearly all berths supply water by own installations.
FUEL: All grades, but if delivery on Saturday or holidays, notice must be given in good time, otherwise all installations are closed over weekend.
FIRE PRECAUTIONS: Tankers discharging, smoking only allowed in special rooms on board, not on deck or on quay.
GANGWAY/DECK WATCHMEN: Available for gangway. Not compulsory.
OPENING/CLOSING HATCHES: Normally done by the crew.
MEDICAL: Yellow fever, cholera and smallpox inoculations obtainable only in hospital.
CUSTOMS ALLOWANCE: 200 cigarettes and 1 bottle of 75 centilitre per man/week. Extra granted on request.
CERTIFICATES: See "Stockholm".
IDENTIFICATION CARDS: Not necessary.
CONSULS: Finland, Norway, Denmark, Germany, Holland, Belgium, Great Britain, France, Iceland.
CARGO GEAR: No additional requirements.
REPAIRS: Most repairs possible.
TIME: GMT plus 1 Permanent.
DRY DOCK: At Hernösand or Gävle.
HOLIDAYS: New Year's Day; Epiphany; Good Friday; Easter Monday; Labour Day; Ascension Day; Whit Monday; Midsummer Day; All Saints' Day; Christmas Day; Second Christmas Day. Work ceases at 11.30 on the following eves of holidays and is voluntary and paid with 100% overtime, Easter Eve; Whitsun Eve; Midsummer Eve; Christmas Eve; and New Year's Eve.
POLICE/AMBULANCE/FIRE: Telephone numbers: Accidents, Police 90000; Fire, ask for alarm 90000. Foreign call 001. Ambulance 12 32 00. Taxi 15 72 00. Pilot station 86000. Board of Trade 11 32 91.
DEVELOPMENTS: Harbour can be closed by ice some time during winter but assistance given by State ice-breakers as long as possible.
AUTHORITY: Sundsvalls Kommun, Hamnforvaltning.

AGENTS: Chartering, Tramp & Liner Agents. Aktiebolaget Emil Bredenberg, Sjögatan 1, 851 02 Sundsvall. Tel. 060/11 11 47. Telex. 710 43. Bankers: Svenska Handelsbanken, Sundsvall, A 0.11 38 11 Sundsvall.

TRELLEBORG: 55.21 N. 13.09 E.

DOCUMENTS: See "Stockholm".
PILOTAGE: Available day and night. Meet inward-bound ships on roads with motor boat. Outward-bound pilot obtained from pilot station of Trelleborg. Tel. 10141. Pilots also attend warpings and hawser-moorings. Pilot boats provided with short-wave radio telephone, and in pilot station an up-to-date radar set is installed. Also see "Stockholm".
ANCHORAGE: Recommended West of entrance fairway between fairway buoy and No. 1 light buoy. Depth varies from 23 ft. to 46 ft. Anchor ground good – clay and sand.
RESTRICTIONS: Entrance a straight, perch-buoyed fairway of about 5,415 ft. length, having measured depth of 28 ft., and a bottom width of 328 ft. Distance between moles 282 ft.
HEALTH: See "Stockholm".
TUGS: Tug-boats can be promptly obtained from Malmo.
BERTHING: New Harbour has depth of 26 ft. with quay on Northern side of basin. It is 1,640 ft. long and served by two bridges cranes and two gantry cranes. Western harbour basin has depth of 23 ft. in Western and Northern part and 26 ft. in Eastern Part. Eastern harbour basin has depth of 21 ft. in Eastern and Northern part and 26 ft. in Western part. Oil quay 230 ft. long has depth at quay of 26 ft. is situated on Southern side of New Harbour. Tankers of maximum length 570 ft. can approach this quay. From oil harbour area direct importation of oils is made to Svenska Fina, Statens Järnvagär (the Swedish State's Railway Company), the Trelleborgs Gummifabriks AB (Trelleborg Rubber Factory Ltd.). Five berths equipped for Ro/Ro traffic.
STEVEDORES: Available (tel. 112 66, 112 69).
FRESH WATER: Available on all quays at request in Harbour Office.
FUEL: All grades bunker oils supplied at oil quay through direct pipe-line from sea depot. Orders on phone Trelleborg 107 76. Bunker coal can be ordered.
REPAIRS: Available through private firms. Tel. Trelleborg 150 60, 109 66 or 124 50. Diver available.
TIME: GMT plus 1 hour. Permanent.
TELEPHONES: Ship's telephone available at oil quay, tel. 148 28, and at the Harbour Bridge, tel. 147 67. Order is made through Harbour Administration.
AUTHORITY: Trelleborgs Hamnförvaltning.

UDDEVALLA: 58.21 N. 11.56 E.

DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
Health document. Derat. Certificate when ship arrives from abroad, except from Denmark and Norway.
8 Manifests.
2 copies of Bills of Lading.
Tonnage Certificate.
Nationality Certificate.
PILOTAGE: Pilotage at Marstrand. Address "Marstrand Pilotstation". Required ETA five hours. VHF 16 and 6. Pilot boat South of Pater Noster Lighthouse. (Also see "Stockholm".)
MAX. SIZE: Draft 10·5 m.

1 Report of Arrival, with double net tons, if applicable (Harbour Office).
1 Passenger List (if any in transit).
1 Crew List.

On departure to a Foreign Port:
5 Reports of Departure.

PILOTAGE: Umea Pilot Station: Bredskar. Tel. 090–45021 and 090–45544. Telegraphic address "Pilotstation Umea".

At least 5 hour's advance notice of ETA at pilot station, stating time and pilot station and destination, can be given over any Swedish coastal radio station or free of charge on VHF over any Swedish pilot station and some lighthouses.

Pilot station and pilot boats fitted with VHF Channel 16 – calling and safety; Channel 13 – pilotage and traffic; Channel 12 – spare channel.

All pilot boats orange with flag "H" and equipped with radar.

Boarding point, 63° 36.5′ N. 20° 25.5′ E., 0·5 nautical miles South of Vaktaren Lighthouse. In case of bad weather, in the fairway, closer to the pilot station.

Anchorage for vessels awaiting Pilot: 63° 36′ N. 20° 28′ E., 1·5 nautical miles South East of Vaktaren Lighthouse. Depth 18 to 30 metres.

ANCHORAGES: See "Pilotage".

Osterfjarden roadstead between Umea Uthamn and Obbola. Length about 2,800 metres and about 400 metres wide, midstream in River Umea. To the North and South of 63° 42.3′ N. 20° 21.0′ E. and with a depth of 12 to 22 metres.

Anchorage is forbidden around position 63° 40.5′ N. 20° 20.0′ E.

Cables and fresh water pipe-line on Osterfjarden roadstead passing East–West around lat. 63° 42.5′ N.

RESTRICTIONS: Entry permitted during darkness, for tankers, not more than 13,000 tons dwt. and a maximum draft of 7.62 metres, and dry cargo vessels with a draft not exceeding 8·53 metres.

During unsuitable weather conditions, according to the Pilot on duty.

Tankers, exceeding 1,600 grt., and with a cargo of mineral oil products and other dangerous cargoes, must take a Pilot.

MAX. SIZE: Maximum depth and maximum permissible draft (at MW) in the fairway as follows:

The fairway to:	*Maximum draft metres*
Ferry Station No. 1–2	8·0
Ferry Station No. 3 Oil Berth, Stormskar Berth No. 1–10 and Obbla	10·2
Holmsund Oil Jetty	5·5
Umea Inner Harbour and Gimonas Oil Jetty	3·0

No tide.

PRATIQUE: Free pratique automatically for ships arriving from non-infected areas. In event of any suspected disease or fever on board notify the Agent, who will give necessary directions. It is possible to send a telegraphic message to "Sanitary Authority, Umea" containing state of health on board, in ordinary items or code. (Also see "Documents".)

RADIO: Harnosands Radio (SAH) on 2182 k/Hz or on VHF Channel 23–26 or 28 (depending on ship's position).

Port radio: Umea port radio keeps watch, Monday to Friday, 0830 to 1630 hours on VHF Channel 16. Working Channels 11 and 13. At other times Umea pilot station. No port radar service, but Umea pilot station and the pilot boats are equipped with VHF and can assist on request.

TUGS: Normally necessary only for larger tankers when berthing Tugs join vessels just off the oil jetty. Ship's lines always used.

BERTHING: Depth alongside (at MW) as follows:

Umea Outport:	*Depth in metres*
Ferry Stations:	
No. 1 Hillskar	6·0
No. 2 Hillskar	7·0
No. 3 Truthallan	7·0
No. 4 (see the South Quay)	
Oil Berth, Stormskar	11·0
Pilot Berth	5·3
South Quay, Berth Nos. 9 to 10	9·0
Pier Quay, Berth Nos. 7 to 8	9·0
Pier Quay, Berth No. 7	7·0
North Quay, Berth Nos. 2 to 6	7·0
North Quay, Berth Nos. 1 to 2	6·0

TANKERS: Oil berth at Umea Outport.

Stormskar, depth 11 metres. Reducing pieces for all diameters between 6 in. and 12 in., and all types of flanges available. One crane for handling hoses.

Obbala: Oil Jetty, depth 7·1 metres. Max. draft with one timber raft between 6·7 metres. Max. draft with two timber rafts between 7·1 metres.

Holmsund: Oil Jetty, depth 5·5 metres. Max. draft with two timber rafts between 4·57 metres.

DENSITY: Nearly fresh water.

STEVEDORES: Holmsunds Stuveri AB. Tel. 090–40970. To be ordered before 1300 local time, day before gangs required. For work on Saturdays, Sundays, and holidays, special regulations.

Working hours: Monday–Friday 0600 to 1500, meal hour 1000 to 1100. Coffee breaks 0800–0810; 1300–1310.

MEDICAL: All kinds of medical attention and hospital facilities available. Notify Agent as soon as possible.

FRESH WATER: Delivered from water posts in Umea Outport at Ferry Station No. 1, oil berth, Berth Nos. 1–10 and in Umea Inner Harbour.

FUEL: All kinds and grades of fuel oil available in Umea Outport. Bunkering at Berths 1–10 possible during normal loading or unloading from pipe-line. At ferry station Nos. 1 and 2 and the oil berth also bunkering from pipe-line. Fuel can also be delivered from lorries. Notice as soon as possible.

FIRE PRECAUTIONS: Security watchmen from port of Umea while alongside the oil berth. Alarm regulations in writing will be delivered on arrival.

GANGWAY/DECK WATCHMAN: Available but not compulsory except for tankers.

OPENING HATCHES: Can be done by stevedores if necessary, except patent hatches.

CUSTOMS ALLOWANCES: *Tobacco:* 200 cigarettes or 250 grammes of tobacco (7 oz.)

Spirits and Wine: One bottle of each (75 centilitres), minimum age 21 years.

Above mentioned quantities are per crew member and per week in Sweden. After a week quantities are taken out after request to the Customs Office.

IDENTIFICATION CARDS: Not required, Seaman's book sufficient.

CONSULS: Following countries have representatives in Umea: Denmark, Finland, Netherland, Norway.

REPAIRS: Most deck and engine repairs.

REPATRIATION: Facilities exist for effecting crew changes and arranging repatriations.

AIRPORT: Umea, approx. 20 km. away, served by regulat airlines.

TIME: GMT plus one hour. Permanent.

HOLIDAYS: New Year's Day (1st Jan.);rTwelfth Day (6th Jan.); Good Friday; Easter Monday; May Day (1st May); Whit-Sunday; Whit-Monday; Midsummer's Day (nearest Sat. to 24th June); All Saints' Day (1st Sat. in November); Christmas Day; Boxing Day.

POLICE/AMBULANCE/FIRE: Alarm central 90–000 and ask for service required.

TELEPHONES: Available for placing on board at berths 1–10, and oil berth at Stormskar.

AUTHORITY: Port of Umea, Umea uthamn, S 913 00 Holmsund. Tel. 090–41230.

VALLVIK: 61.11 N. 17.10 E.

DOCUMENTS: See "Stockholm".

PILOTAGE: Pilot station at Lilljungfrun. For further information, see "Port of Söderhamn". (Also see "Stockholm".)

ANCHORAGE: (*a*) Ljusne bight sheltering for W., N. to N.E. winds, depths 6 to 8 fathoms. (*b*) North side of Storjungfrun island sheltering for S. to S.W. winds, depths 10 to 12 fathoms.

RESTRICTIONS: No direct restrictions. Ships of about 5,000 tons d.w. or more are recommended not to enter or leave the harbour in darkness (due to pilot and weather conditions).

MAX. SIZE: Maximum draft in fairway 25 ft. 6 in. Loading pier 650 ft., available on both sides (West side up to 320 ft. only). *Depths:* East side, from 28 ft. at the outer end to 18 ft. at the inner, with max. breadth 50 ft., breadths more than 50 ft. allow only 23 ft. 5 in. abreast of the pier. West side, from 28 ft. at the outer end to 20 ft. at the inner, max. breadth 50 ft.

HEALTH: No special action except if suspected disease. In that case contact Agent.

RADIO: Northward bound ships contact Stockholm Radio, Southward bound Härnösand Radio.

RADAR/VHF: No port radar service. There is a radar station at Lilljungfrun. Pilot station and some of the pilot boats are fitted with radar. Master may contact Pilot by means of VHF Channel 16 (frequency 156.8 MHq) and 13 (frequency 156.656 MHq).

TUGS: Usually only needed when ships are leaving. Ship's lines always used.

BERTHING: Ship's Agent keeps contact with port authorities.

STEVEDORES: Agent arranges needed or available gangs according to the Shipmasters wishes.

TANKERS: 10 in. diameter discharging hoses and pipeline. Tanker berth at loading pier, 3 different connecting points.

FRESH WATER: Delivered by hose from quay. Rate about 8 tons per hour.

FUEL: Tanker lorries ordered through Agent, available with a few hours' notice.

GANGWAY/DECK WATCHMEN: Not necessary. If wanted, can be arranged.

OPENING/CLOSING HATCHES: Normally carried out by crew. Can be done by stevedores.

CARGO GEAR: Cargo gear certificates valid.

IDENTIFICATION CARDS: Not needed.

CONSULS: Danish, Dutch, and French Consuls in Söderhamn.

REPAIRS: Machinery repairs, plate-work and welding can be carried out to a certain extent.

DRY DOCKS: None.

REPATRIATION: Facilities for crew changes available.

AIRPORT: Nearest airport Arlanda, about 15 miles North of Stockholm.

TIME: Local time GMT plus 1. Permanent.

HOLIDAYS: See "Söderhamn".

POLICE/AMBULANCE/FIRE: See "Soderhamn".

TELEPHONES: No arrangements for placing telephones on board. Telephone for ship's use, available in Harbourmaster's Office.

PORT AUTHORITY: Hamnkontoret, Vallviks fabriker, 820 21 Vallvik. Tel. 0270/69050. Telex 81011.

VARBERG: 57.07 N. 12.15 E.

DOCUMENTS:
Crew List.
Passenger List.
Maritime Declaration of Health (incl. Certificate of Deratting).
Ship's Certificate of Registry.
Manifests and B/L copies.
PILOTAGE: Application for sea pilot through ship's Agent. Telephone to pilot station 0340/10300. Pilot to board vessel on the road about ½ nautical miles off Varberg. (Also see "Stockholm".)
ANCHORAGE: On the roads 33 ft. depth.
RESTRICTIONS: No tide or other entry restrictions.
MAX. SIZE: Length 170 metres, breadth 25 metres, draft 23 ft. No tide.
HEALTH: Vessel to be kept in quarantine if disease on board suspected.
RADIO: Gothenburg Radio, SAG. VHF Channels 16 and 26.
TUGS: One tug boat of 500 h.p. available. Additional tugs to be ordered 12 hours in advance.
STEVEDORES: Gangs to be ordered in advance through ship's Agent.
MEDICAL: Hospital facilities available. Desirable to give advance notice.
TANKERS: Two tanker berths, maximum draft 23 ft.
FRESH WATER: Available all docks 35 tons/hour.
FUEL OIL: Nr. 1–5 available from tank trucks.
FIRE PRECAUTIONS: Oil no. 1 and petrol to be discharged under supervision of watchman.
DEVELOPMENTS: Planned increases of draft at the entrance to 9 metres = 29 ft. and in the harbour to 8 metres = 26 ft.
GANGWAY/DECK WATCHMEN: Recommended.
OPENING/CLOSING HATCHES: Generally done by stevedores.
SHIP'S CERTIFICATES: Certificates of Registry and Deratting and also Crew List.
CUSTOMS ALLOWANCE: (Tobacco), 200 cigarettes per man. (Wine/Spirits), 1 bottle per man.
IDENTIFICATION CARDS: Not needed.
CONSULS:
Vice-Consul of Finland, tel. 0340/16000
Vice-Consul of Netherland, tel. 0340/16270
Vice-Consul of Denmark, tel. 0340/16190
REPAIRS: Only minor repairs.
REPATRIATION: Can be effected.
AIRPORT: Nearest airport with regular airlines, Torslanda/Gothenburg, 50 miles North Varberg.
TIME: Local time GMT plus 1 hour. Permanent.
HOLIDAYS: Principle Swedish Holidays – when no cargo work is obtainable: New Year's Day; Good Friday; Easter Day; 2nd Easter Day; Labour Day (May 1st); Whitsun Day; 2nd Whitsun Day; Midsummer Day; All Saints's Day (November); Christmas Day; 2nd Christmas Day.
POLICE/AMBULANCE/FIRE: Tel. 90 000.
TELEPHONES: Available on dock but not for placing on board.
PORT AUTHORITY: Port Authority of Varberg, Hamnkontoret, S 432 00, Varberg/Sweden. Tel. 0340/10120.

VÄSTERÅS: 59.37 N. 16.33 E.

DOCUMENTS:
Ship's Register.
2 Crew Lists.
1 Tobacco List, signed by all hands on board.
1 Valid Deratting Certificate.
1 copy of Manifest or Bill of Lading for each Swedish port of call.
Light dues receipts, if on board.
PILOTAGE: Incoming ships receive Pilot from Landsort. Pilot ordered by VHF Channel 16 (=165·80 m/c) or by RT. Pilot boats fitted with VHF. Give order 3 hours before Pilot required. Pilots meet ships about 2 nautical miles outside Landsort. Light and signals in accordance with the international rules. (Also see "Stockholm".)
ANCHORAGE: Within harbour area. Depths 9–10 m.
RESTRICTIONS: None. No tides.
MAX. SIZE: Vessels reach port through two deep navigable channels – through Södertälje Ship Channel or via Stockholm through Hammarby Ship Canal. Lowest depth of channels at average water level is 6·2 m. (20 ft. 4 in.).
Sizes of Locks:

	Length	*Width*	*Depth*
Södertälje	136 m.	20 m.	8·3 m.
Hammarby	115 m.	17·4 m.	7·0 m.

HEALTH: No special requirements or health documents, only valid deratting certificate. Disease or fever on board must be declared before entering port.
RADIO: Stockholm Radio.
VHF: The harbour office. VHF Channels 16 and 14.
TUGS: One tug for unberthing. Ship's lines.
BERTHING: *Deep Harbour:* 730 metres quay length, depth alongside 6·5 metres. Roll-on/roll-off ramp. Container handling cranes up to 55 tons.
Old Harbour: 1,100 metres quay length, depth 4·5 metres to 6·5 metres.
Little River Harbour: Quay 120 metres length, 6·5 metres depth alongside.
Power Plant Harbour: Quay 200 metres length, 6·5 metres depth alongside.
Oil Harbour: Quay 125 metres length, 6·5 metres depth alongside.
BRIDGES: Four bridges. All of them to be opened at passage except bridge at Södertälje which closed from 16.30 until 18.30 weekdays and 13.00–15.00 Saturday or day before a holiday.
STEVEDORES: Stevedores for next working day ordered at least 15.00 hours day before and ETA to be given in due time.
MEDICAL: Necessary service given by local hospital and private doctors. Vaccinations carried out.
FRESH WATER: Ordered through port administration.
FUEL: Bunkering of all grades of oil can be carried out at all quays from trucks.
FIRE PRECAUTIONS: Accordance harbour regulations.
DEVELOPMENT: Constant new development and extensions. Additional room for extension in old harbour, deep harbour and oil harbour.
GANGWAY/DECK WATCHMEN: Can be obtained from shorewatch companies at different rates for night/day work.
OPENING/CLOSING HATCHES: Crew. Can be carried out by Stevedores.
SHIP'S CERTIFICATES: Measurement certificate and all gear-test certificates required, if ships gear to be used.
CUSTOMS ALLOWANCES: (Tobacco), 200 cigarettes or 200 gr. tobacco. Additional allowance depending on expected stay in port and size of vessel. (Spirits), 1 bottle of 0·75 c.l. for each crew member over 21. Additional allowance on request.
IDENTIFICATION CARDS: None required.
CONSULS: Norwegian and Danish.
REPAIRS: Most deck and engine repairs, as well as electrical.
DRY DOCKS: None.
REPATRIATION: Yes. Accommodation to be ordered in good time.
AIRPORT: Arlanda, 120 kilometers. International lines.
TIME: GMT plus 1 hour.
HOLIDAYS: See "Stockholm".
POLICE/AMBULANCE/FIRE: Tel. 90000.
TELEPHONES: In oil and deep-water harbour, most quays fitted with telephones.
SERVICES: Compass adjusting. Small radio repairs by local radio men.
SHORE LEAVE: Crew can leave vessel after customs clearance and immigration control.
AUTHORITY: Västeräs Harbour Board, Sigurdsgatan 2, 722 10 Västeräs. Tel. 021–180100.

VASTERVIK: 57.46 N. 16.38 E.

PILOTAGE: Pilot boards at Ido, available day and night.
BERTHING: *Outer Harbour:* Djuphamnskajen, length 200 metres, depth 8 metres.
Oil Quay: depth 8 metres, equipped with three 8 in. pipe-lines.
Ferry Harbour: quay length 100 metres, depth 5·5 metres.
Inner Harbour: quay length 900 metres, depth alongside from 4 to 6 metres.
Oil berth: depth alongside 6 metres.
FRESH WATER: Can be obtained from all quays.
AUTHORITY: Vasterviks Hamn, Box 73 593 01 Vastervik.

VISBY: 57.38 N. 18. 17 E.

DOCUMENTS: See "Stockholm".
PILOTAGE: Tel. 0498–10138 at 0600–2200, if possible five hours before arrival. Pilotage day or night. Embark/disembark outside port entrance. Radar–VHF on pilot station. (Also see "Stockholm".)
ANCHORAGE: Outside harbour, water depth 30 to 50 m. Clay bottom. No mooring buoys anywhere.
RESTRICTIONS: No tide in harbour. Currents outside harbour up to 4–5 knots running along coast. Prevailing winds, Summer time mostly S.W., Winter between N.W. and N.E. Harbour open to winds between S.W.–W., which with strong winds will make swell along the piers.
MAX. SIZE: Largest vessel, 2,500–3,000 d.w. Max. length about 100 m., turning in harbour.
TUGS: None available.
BERTHING: Four roll-off/roll-on berths. Oil Quay. Depth at all quays 5 to 6 metres. No mooring buoys inside harbour. Prohibited anchor in inner basin.
BRIDGES: No bridges or overhead cables.
STEVEDORES: Working hours, Monday–Friday 0700–1700. Overtime possible.
FRESH WATER: Available.
FUEL: Coal, oil.
REPAIRS: Only small repairs are possible.
AUTHORITY: Visby Harbour Office. Tel. 0498–10427, 0498–10162.

WALLHAMN, 50.81 N. 11.42 E.

DOCUMENTS:
3 Crew Lists.
2 Passenger Lists.
1 Tobacco and/or Stores List.
1 Manifest.
PILOTAGE: Pilots board West of Skallen Lighthouse outside Marstrand. No pilotage of big ships during darkness. Big ships will have to anchor and await daylight. Address: "Marstrand Pilot Station", tel. 0303–60004, VHF channel 16. Twenty-four hours' notice to be given through Agents.

ANCHORAGE: Whilst awaiting berth, vessels can anchor South of the entrance.
RESTRICTIONS: Large vessels entry only in daylight.
MAX. SIZE: About 35,000 dwt. Draft not to exceed 25 ft. (20 ft. at the inner quay for stone-loading).
HEALTH: No special action except for suspected disease, in which case Agent should be contacted for further information.
RADIO: Gothenburg Radio.
TUGS: Tugs from Gothenburg will join at entrance.
BERTHING: Two berths for roll-on/roll-off; 200 metres of quay for conventional handling; 50 metres of quay for loading of stone-products.
STEVEDORES: ETA given to Agents is sufficient.
MEDICAL: Doctors and dentists available at short notice. Nearest hospital in Kungaelv, 45 km.
FRESH WATER: Supplied from quay.
FUEL: Most grades of bunker oil available with short notice.
GANGWAY/DECK WATCHMEN: Available and recommended at least when connecting ship's telephone (0304–60383).
OPENING/CLOSING HATCHES: By crew or by stevedores.
CUSTOMS ALLOWANCES: 200 cigarettes, 1 bottle of spirits allowed each man.
IDENTIFICATION CARDS: Not necessary. Seamen's Book or Passports should be carried.
CONSULS: In Gothenburg, 55 km. away.
REPAIRS: Smaller repairs performed by own workshop. More complicated repairs by experts from Skaerhamn, 30 km. away.
REPATRIATION: All facilities available.
AIRPORT: Torslanda International Airport, Gothenburg, 55 km. away.
TIME: GMT plus 1 hour, all the year round.
HOLIDAYS: Stevedoring and clearance of vessels can be performed every day of the year, 24 hours' service.
TELEPHONE: Connected onboard if wanted.
POLICE/AMBULANCE/FIRE: Tel. 90 000.
SHORE LEAVE: No restrictions.
AUTHORITY: Wallhamn AB Port Authority, S–444 01 Stenungsund, Sweden. Tel. 0304–60250. Cables: "Wallhamn".

AGENTS: Wallhamn AB – Roto Line, POB 103, S–444 01 Stenungsund, Sweden. Tel. 0304–60250. Telex 2429.

YSTAD: 55.26 N. 13.50 E.

DOCUMENTS:
Crew List.
Passenger List.
Custom Documents.
Manifests.
Bills of Lading.
Ship's Papers, etc.

PILOTAGE: Vessels approaching Ystad's Harbour must apply for Pilot at Trelleborg at least 5 hours before pilotage due to commence. Tel. 10141 or VHF (Channel 16), stating tonnage, draft and distination. VHF tel. call sign "Lotsarna plus name of pilot's station". (Also see "Stockholm".)
ANCHORAGE: Inner road: 0·5 n.m. S.W. harbour entrance, 7–9 metres depth; sand and clay. Outer road: 1·0 n.m. S.W. harbour entrance, 9–10 metres depth; sand and clay, good anchorage ground. The road is open for winds between S.S.W. Spanska redden: 1·5 n.m. S.W. to S. harbour entrance, 13–16 metres depth. The road is open for winds between S.E. to S.W.
RESTRICTIONS: Vessels draft. 20 ft. can enter harbour during darkness, and during day draft of 22 ft. 6 in.
BERTHING: Vessels of 160 metres length and 20 metres breadth can enter harbour.
MAX. SIZE: Largest fully loaded vessel that can enter harbour about 5,000 d.w.
RADIO: Göteborg, Malmö and Karlskrona.
VHF: Between 0500–1900 possible contact pilot station by VHF Channel 16. Outside these hours frequency 156·65 mc/s (Channel 13) or operating frequency 156·50 mc/s (Channel 12).
TUGS: Tug usually meets vessel about 1 mile S.S.W. harbour entrance. Ship's lines used. Tugs not compulsory.
STEVEDORES: Stevedores must be ordered from Ystads Stuveri AB. working hours Monday–Friday 0700–1630. Meal intervals 0900–0930 and 1200–1300.
MEDICAL: Agents to be notified in advance if medical attention wanted.
TANKERS: Load/discharge lines 8 in. diameter, but reducing pieces for 6 in. and 10 in. diameter.
FRESH WATER: Available from quays. About 20 tons/hour.
FUEL: Coal and oil can be obtained.
GANGWAY/DECK WATCHMEN: Can be arranged.
OPENING/CLOSING HATCHES: Crew.
CERTIFICATES: See "Stockholm".
CUSTOMS ALLOWANCES: (Tobacco), about 200 cigarettes or 200 gram of tobacco for each member of crew. (Spirits), one bottle for each member of crew.
CARGO GEAR: Loading/discharging with shore cranes.
IDENTIFICATION CARDS: Not needed.
CONSULS: Danish Consul, tel. 13800. Finnish Consul, tel. 13940. Norwegian Consul, tel. 13930.
REPAIRS: Slipway for vessels up to about 500 d.w.
AIRPORT: 40 km. distant and served by regular airlines.
TIME: GMT plus 1 hour. Permanent.
HOLIDAYS: Christmas; New Year; Easter; Whitsun and Midsummer. No cargo work.
POLICE/AMBULANCE/FIRE: Police tel. 13620; Ambulance 90000; Fire 96000.
SHORE LEAVE: Permitted.
AUTHORITY: Ystads Hamnförvaltning, Ystad. Tel. 10005, 10389.

Syria

BANIAS 35.14 N. 35.56 E.

PILOTAGE: Pilots board all tankers approaching the Terminals. These Pilots act in the same capacity as Mooring Masters in the berthing of vessels, after which they supervise the raising of the flexible hoses and their connection to the ship's manifold. During loading operation they act as the Company's Representatives. The Company's Mooring Masters will meet tankers in the vicinity of Marqab Light Buoy.

It is requested that tankers of 40,000 dwt. and over should have rigged, when in light condition, an accommodation ladder lowered to about 12 ft., above the water. This can be adjusted to suit conditions. A pilot ladder should be rigged immediately abaft the accommodation ladder, to within 2 ft. above the water. This will enable the Pilot to ascend the pilot ladder clear of the launch and then step on to the lower platform of the accommodation ladder. United Kingdom Merchant Shipping (Pilot Ladders) Rules 1965 is relevant.
APPROACHES: Vessels approaching the port should keep to the authorised passsage, defined by the following co-ordinates:
(*a*) Lat. 35° 13′ 00″ N. Long. 35° 42′ 00″ E.
(*b*) Lat. 35° 13′ 00″ N. Long. 35° 56′ 56″ E.
(*c*) Lat. 35° 16′ 00″ N. Long. 35° 55′ 24″ E.
(*d*) Lat. 35° 16′ 00″ N. Long. 35° 40′ 34″ E.
ANCHORAGE: In the event of a berth not being available, or suspension of mooring operations on arrival, a good anchorage is to be used South of the berths in the vicinity of the Marqab Light Buoy.

Shore control will keep you advised of expected time of berthing, etc. It is important and in your own interests to maintain a listening watch on Channel 16 R/T or visual on the shore signal station to avoid delays.

On being advised of expected time Mooring Master will board, heave short your anchor before his arrival.
MAX. SIZE: No. 2 Berth – draft 50 ft.
No. 3 Berth – draft 51 ft.
No. 4 Berth – draft 42 ft.
No. 6 Berth – draft 40 ft.

The approximate draft limits quoted above are based on an underkeel clearance in the berths of 6 ft.

With Master's approval during the period 1st April to 31st October, an underkeel clearance of 4 ft. may be used in berths No. 2 and 3.
NOTICE OF READINESS: Time of your Notice of Readiness tendered will be considered when vessel arrives in the very near vicinity of the Marqab Light Buoy (position Lat. 35° 12′ 7″ N. Long. 35° 54′ 46″ E.), where the Mooring Master, who is the Company's Representative, will board and receive ship and remain on board throughout the entire operation.
HEALTH: Masters of tankers due may obtain free pratique by addressing the usual quarantine message to their Agents through commercial radio channels.
RADIO: The Iraq Petroleum Company Limited must be informed 48 hours prior to arrival of a vessel's ETA, quantity of cargo required if in a state to load and maximum loading rate required. All times to be given in GMT or local time clearly stating which time is being used.

Banias Terminal Radio Station. Call sign: "YKM 5". Frequency: 442 kc/s.

Tanker VHF Radio Communications. Vessels approaching Banias can communicate with the Terminal by FM, VHF, Channel 16. Range 30 to 40 miles. Frequency 156·8 Mc/s. Simplex Operation. Call sign: Banias. On arrival, ships radio installations will be sealed off according to normal practice and the boarding Mooring Master will put his own portable equipment on board. Communications will then be as follows:
Banias. Equipment: Fixed station sited in the Terminal. Call sign: "Banias". Frequency: Transmitting 163·6 Mc/s. Receiving 159·1 Mc/s. Range: 8 miles. Watches: Continuous whilst vessels are in port or immediate vicinity.

Mobile Station. Equipment: Placed aboard vessel on arrival at Banias. Call sign: Ship's name. Frequency: Transmitting 159·1 Mc/s. Receiving 163·6 Mc/s. Range: 5 miles. Watches: Mutually agreed between ship and the Terminal on first establishing contact.

Note: The radio telephone circuit is connected with the main Company Communications network in Banias Terminal.

Communication with the Iraq Petroleum Company should be through the Agent, by cable addressed "Petriraq, Tripoli, Lebanon' or direct to Tripoli Radio Station, ODC–8.

It is essential that tankers bound Banias communicate with station ODC–8 at least 48 hours before arrival and thereafter maintain contact.
MOORING REQUIREMENTS: For tankers loading at Banias are as follows:
Forward
Anchors to be fitted with marker buoys with 20 fathoms of line.

2×120 fathom mooring lines.
2 rope stoppers.
1 suitable wire stopper (preferably carpenter patent) for use with 4¾ in. to 5½ in. mooring lines.
Aft
4 × 120 fathom mooring lines.
4 rope stoppers.
2 suitable wire stoppers (preferably carpenter patent) for use with 4¾ in. to 5½ in. mooring lines.
Boat Ropes
To be rigged on either side of ship, and of not less than 4½ in. circumference.

BERTHING: At all berths vessels moor using both anchors forward, with wires to a buoy on the port bow, one buoy astern and one on each quarter. Hoses are lifted on the port side.
Berth No. 1: Out of commission.
Berth No. 2: depth 56 ft., three 16 in. hoses.
Berth No. 3: ,, 57 ft., three 16 in. hoses.
Berth No. 4: ,, 48 ft., one 16 in., one 12 in. hose.
Berth No. 5: ,, 40 ft., two 12 in. hoses.
Berth No. 6: ,, 46 ft., two 12 in. hoses.
Loading rates up to 8,000 tons per hour.

HOSES: A SWL of 10 tons is recommended. Must be capable of plumbing overside abreast of Loading Manifold.
Loading Manifold: Two suitable reducers already fitted and to be connected to our hose connections (12 in. series 150 flanges).
Two spanners ⅜ in. of non-sparking metal; two spanners ⅞ in. non-sparking metal; two hammers 7 lb. of non-sparking metal. One axe 2½ lb. Four sets of hoses clamps complete with bolts. Gaskets for the 12-in. hose connections. Four slings Terylene rope, 1¾-in. diameter, 9 ft. from end to end. Four stoppers Terylene rope, 1¾-in. diameter, 18 ft. long with one 12-in. eye at the end. Two stop-lines Terylene rope, 2-in. diameter, 50 ft. long, complete with a hook, spliced at one end. Hook tested to 8 tons. Two Terylene ropes, 1¼-in. diameter, 120 ft. long, to be ready on stoppage loading. Two rubber mattresses to be used under stop-lines to protect them from chaffing.
Ship's crew with an officer in charge to assist all operations, as advised by the Mooring Master. This includes lifting, connecting, disconnecting, lowering of hoses and tending anchor cables and moorings.

FRESH WATER: Facilities are not available for the supply of potable or boiler water.

FUEL: Bunkers are not available at Banias.

BALLAST: All tankers should ensure ballast is clean. Authorities are most strict and impose heavy fines for the slightest contravention. Ballast quantity should be kept to the minimum required to ensure safe manoeuvring. No facilities for disposal of ballast ashore.
Banias is an open roadstead and sudden changes in weather can be experienced especially during the winter months. It is good practice to commence loading as soon as hoses are connected and whilst ballast discharge is still in progress, always providing this can be achieved safely and with no danger of contamination.

LOADING: Ships' Personnel are solely responsible for the loading operation, i.e. starting, loading rate, tank switching, topping off, stopping, etc. The Mooring Master will pass requirements to the shore control. It is in vessel's interest to advise loading rate required, also to give 30 minutes' notice of expected time of commencing loading. Order to start will be taken as final.
The Mooring Master must be advised when ship estimates 1,100 tons to go for completion of loading.
Ensure scuppers are effectively plugged. On no account are plugs to be removed.
A complete watch on deck must be maintained throughout the operation, especially towards the shore signal station, to ensure safe loading and avoid delays.

REGULATIONS: *Vessel in berth:* Ships are not allowed to remain in berth for any reason when loading operation stopped. Hoses disconnected and dropped to sea unless stay authorised by Terminal Superintendent.
Lighting: During hours of darkness the manifold and poop mooring area of the sea in vicinity of ship should be adequately lit.
Main Engines: Must be kept on shore notice. Repairs which will immobilise must not be carried out in berth.
Deck Machinery: Must be ready for immediate use at all times.
Whistle or Siren: To be available at all times.
Signalling: An "Aldis" type lamp to be readily available.
Stores, provisions, etc.: It is strictly forbidden for provisions, stores or other items to be received or discharged whilst loading is in progress. Launches or other craft must not lie alongside during the same period.
Tanker Safety Regulations: Tanker Safety Requirements must be strictly adhered to at all times. The Mooring Master is authorised to stop all operations should he consider the safety regulations are not being complied with.
Boarding: The boarding of a vessel whilst in mooring should be restricted to persons holding valid passes which are issued by the IPC on application to ship's Agents and authorised chandlers.
This restriction is carried out in conjunction with the Syrian Harbour and Security Authorities.

SERVICES: In the event of tankers requiring assistance to lift loading hoses, recover lost anchors, and cables, etc., limited aid may be given during normal working hours. Current charges are available on application from Agent.

AUTHORITY: Iraq Petroleum Co. Ltd.

AGENT: Gulf Agency Co. (Syria) Ltd., Banias, Syria. Cables "Gacship", Banias. Tel. 455. Telex 20906 Beirut.

LATTAKIA: 35.31 N. 35.46 E.

PORT LIMITS: *Anchorage:* Within a circle of 1 mile in diameter centred in position 35° 31′ 6″ N. 35° 45′ 0″ E.
A vessel is considered to be an "arrived ship" when moored at anchor in the above-mentioned area, and announced her arrival to the Pilot Station.
Free pratique is granted between 0700 to sunset. Passenger ships at any time.
Laytime commences to count according to Charter Party Terms or Genweight C1 or if not mentioned from the time of nomination to work after granting free pratique.

DOCUMENTS:
4 Arrival Declarations.
4 Crew Lists (with Passports).
4 Lists of Transit Passengers (with Passports).
4 Lists of Landing Passengers (with Passports).
1 List of Cargo in Transit.
2 Cargo Manifests for Discharging.
1 List of Cigarettes and Spirits.
1 Stores List.

APPROACHES: Vessels approaching the port should keep to the authorised passage defined by the following co-ordinates:

Lat. 35° 32′ 30″ N.	Long. 35° 31′ 00″ E.
Lat. 35° 32′ 30″ N.	Long. 35° 45′ 06″ E.
Lat. 35° 30′ 36″ N.	Long. 35° 45′ 24″ E.
Lat. 35° 30′ 36″ N.	Long. 35° 30′ 30″ E.

PILOTAGE: Advise ETA 24 hours in advance. Pilot boards at anchorage.

ANCHORAGE: Within a circle of one mile diameter centred in position 35° 31′ 6″ N., 35° 45′ 0″ E.

MAX. SIZE: Harbour draft maximum 31 ft. for cargo vessels and 23 ft. passenger vessels. Oil terminal draft 52 ft., length 600 ft.

HEALTH: Free pratique granted by Authorities who board vessel at entrance. Certificate of Health signed by Master required. If coming from another port in same country, pratique granted immediately, free of charge.

RADIO: Call sign YKM7 continuous watch on 2182 kc/s and 500 kc/s.

TUGS: 800 h.p. tugs always ready with pilot boat. Ship's lines usually used.

SPECIALIZED CARGO-HANDLING FACILITIES: Silos for grain export capacity 4,500 tons with three loading ways with full capacity of 500 tons per hour.
Silos quay length: 180 metres with 9·5 metres depth. Import of grain only for bagging.
No berths for handling liquid chemicals or LPG carriers only two berths for fuel, benzine and light fuel.
In accordance with the five-year Development Plan (1971 to 1975) the Lattakia Harbour will be enlarged and container quays fully equipped will be constructed.

MEDICAL: Several hospitals available.

TANKERS: One berth, max. size of vessel 600 ft. length, 52 ft. draft. Hose connections 10 in.

DENSITY: 1.025.

FRESH WATER: Available by barge in basin and from pipeline on quay.

GANGWAY/DECK WATCHMEN: Can be supplied at Master's request.

OPENING/CLOSING HATCHES: Performed by crew.

CUSTOMS ALLOWANCES: 2 packets cigarettes per man per day. One bottle of spirits per man. No control on beers or wines.

CREW IDENTIFICATION CARDS: Only Passports required.

REPAIRS: Engine and deck repairs available.

TIME: Local time: GMT plus 2 hours. Summer time (1st May – 30th September): GMT plus 3 hours.

TELEPHONES: At present available only at passengers' quay. Facilities will eventually extend to all ships.

GENERAL: No vessels allowed to cross line from end of breakwater up to shore at following point: 35° 32′ 30″ N. 35° 31′ 30″ E.

SHORE LEAVE: Permitted within regulated limits.

HOLIDAYS: New Year's Day (January 1st); Ramadan; Revolution Day (March 8th); Adha; Mohammedan New Year; Easter Sunday; Evacuation Day (April 17th); Labour Day (May 1st); Birthday of the Prophet; Ramadan; Christmas Day (December 25th).
The dates of the Mohammedan holidays are stated approximately. Friday: weekly day of rest. Arrangements for work on Fridays must be made at least 24 hours in advance. Working hours: 07.00–14.00. With the exception of the first 3 days of both the Ramadan and Adha holidays, May 1st and Revolution Day, the port operates all the year round, weather permitting, against payment of the prescribed overtime fees outside ordinary working hours.

PORT AUTHORITY: Directorate of Lattakia Port.

AGENT: Gulf Agency Co. (Syria) Ltd., POB 210, Lattakia, Syria. Cables "Gacship", Lattakia, Tel. 12214, 12670. Telex 20906 Beirut.

TARTOUS: 34.53 N. 35.45 E.

DOCUMENTS: Bill of Health – The usual International form should be filled in on arrival and the Agent will deliver on board the Bill of Health and Port Clearance upon departure.
Manifests – Should be certified by the Syrian Consulate at port of loading in four copies.
Ship's Registry – To be presented to the Port Authorities upon request.
Crew List – In four copies should be handed over to the Agent along with passenger or transit manifests.

Store List – Two copies required by Customs who will allow 40 cigarettes to be retained by each person on board, the balance of slop chest and stores shall be sealed during ship's stay in port. Customs officers are at liberty to search crew quarters.

Deratisation Certificate – Valid certificate required and no extension can be obtained.

APPROACHES: Vessels approaching the port should keep to the authorised passage defined by the following co-ordinates:

Lat. 34° 56′ 24″ N.	Long. 35° 38′ 00″ E.
Lat. 34° 56′ 24″ N.	Long. 35° 48′ 36″ E.

Lat. 34° 54′ 24″ N.	Long. 35° 37′ 48″ E.

ANCHORAGE: Vessels proceeding to Tartous pick up Pilot at the Anchorage which is ½ mile South-west of the main breakwater. The rocky bottom constitutes good holding ground with a depth of up to 20 metres of water.

MAX. SIZE: At present minimum depths are at the entrance of the harbour about 2 cables seaward of the green light on the South-west Breakwater. Depth about 33 ft. Maximum draft 32 ft. dependent on swell.

Tankers: See below.

RADIO: Tartous Radio, call sign YKO, continuous watch on 2182 kHz from 0600 to 2400.

BERTHING: Mooring Masters are temporarily supplied by Lattakia port and vessels should therefore contact Agents at Lattakia giving them their ETA and requirements. Vessels berth heading to the predominant South-western winds, i.e. stb. side alongside unless contrary winds prevail at the time of the berthing.

Southern breakwater – 2,650 metres long called Main breakwater
Northern breakwater – 1,650 ,, ,, ,, Lee breakwater

The distance between the two heads of these breakwaters is 250 metres with a depth of 10½ metres, which is being dredged in order to bring it up to 13 metres.

The harbour is divided into three basins which are protected by the two breakwaters: (1) The North basin; (2) The Middle basin; (3) The Southern basin. The Southern basin is the only one used presently, for the discharge of cargo.

Twelve vessels can be moored at anchor inside the breakwater of this basin, the depth being between 8–13 metres. The turning circle at the entrance is 450 metres diameter with a depth of 11–13 metres.

The main quay which is 150 metres wide offers on its southern side from the shore side 300 metres of jetty with a depth alongside of 2–4 metres, 300 metres with 8 metres and 200 metres with 9 to 10·5 metres depth. A standard gauge railway line is installed on the entire length of the quay.

TANKERS: Tartous Sealine Terminal:

Maximum safe length of tankers acceptable – 1,500 ft.
Maximum safe draft of tankers acceptable – 68 ft.
Maximum deadweight of tankers acceptable – 100,000 tons.

This is a one-berth Terminal that offers the same approaches used to reach the port of Tartous. Vessels await pilot 1·6 miles West of berth and the loading capacity is 4,000 tons per hour. Mooring, daylight only.

This operation performed without tug assistance but should there be a situation necessitating the help of a tug, same can be ordered from nearby Tartous port where 300 h.p. tugs stationed.

There are two breast buoys, two aft buoys and one astern, the vessel holding on its two anchors forward. In view of the rather sudden South-westerly winds, it may be decided to supplement the mooring lines with steel wires to assist in holding vessel in moorings.

The two flexible 10 in. hoses forming a "Y" will be connected to ship's manifold for side loading and the Terminal will supply the necessary standard flanges for the connection if required.

The Berthing Master will also supervise the loading and will keep in close contact with the control room by portable VHF radio since the vessel's own equipment has to be sealed during the ship's stay in port.

FRESH WATER: Unlimited supplies available to vessels berthed alongside the main pier.

FUEL: Only available in very limited quantities by tanker truck.

MEDICAL: Medical facilities are available, but serious cases may involve transportation to Lattakia or Damascus.

DEVELOPMENTS: A new quay for phosphate is now under construction 300 metres long and 4 metres depth and will be prolonged by a quay of 250 metres long and 11 metres depth for vessels loading phosphate up to 25,000 tons capacity.

A dry dock will be soon under construction for repairing vessels and tankers with a capacity varying between 40 and 60,000 tons. Also two slip-ways for general overhaul for small vessels of 1,000 tons and less.

FLOATING CRANE: A floating crane of 100 tons lifting capacity available.

SHORE LEAVE: No amenities for the crew exist in the town of Tartous but crew may, if required, proceed ashore with a landing permit issued by the local security services.

AUTHORITY: Harbour Master.

AGENT: See Lattakia.

Taiwan

HUALIEN: 23.59 N. 121.38 E.

PORT LIMITS: Radius of 1 mile from the centre of Hualien Kan Breakwater Beacon (23° 59′ 11.3″ N. 121° 38′ 35″ E.).

DOCUMENTS:

Ship's Register.
De-rat Certificate.
Last Port Clearance.
Taiwan Tonnage Dues Certificate.
Pratique.
8 copies Crew List.
1 copy Crew List visaed by office of China Mission (applicable to American and Philippine vessels.)
8 copies Passenger List – Landing and transit.
1 list showing dates of vaccination (within 3 years) of all crew and any landing passengers. WHO "yellow Books" may be examined.
1 Chinese Maritime Customs Stores List.
1 list Foreign Currency in safe.
1 list Narcotics in safe.
1 list Arms and Ammunition.
1 set of copy Bills of Lading.
2 Manifests of Inward Cargo.
3 Manifests of Through Cargo.
2 lists of Unmanifested Inward Parcels.
2 lists of Mail for landing.
Vessel's Log Book.

PILOTAGE: Compulsory. At anchorage hoist G flag.

ANCHORAGE: Bearing of Hualien Kan Lighthouse (23° 58′ 40″ N. 21° 36′ 20″ E. is 315° distant about 3/4 miles.

RESTRICTIONS: Hualien Harbour closed to all ships at 0000 until 0500. Large ships not allowed to enter after sunset.

MAX. SIZE: Draft not exceeding 23 ft. and length 450 ft. may enter Hualien Harbour at present time.

HEALTH: At anchorage hoist Q flag.

RADIO: Hualien Radio XSY; ETA reported 24 hours at least before arrival.

TUGS: Normally used in harbour. Ship's lines should be used.

STEVEDORES: Stevedores will be assessed against ships except otherwise agreed between ships and consignees or shippers.

MEDICAL: Hospitalization can be arranged through Agent.

FRESH WATER: Hoses from water-lines to tanks.

FUEL: Fuel viscosity, SUS at 122°F, max. 225; SUS at 85°F, min. 225; SUS at 122°F, max. 200; Diesel fuel viscosity, SUS, 100°F 35–45. Fuel line 6 in connection, otherwise notify in advance.

DEVELOPMENTS: The second stage of harbour extension will be completed in 1973. This will increase harbour capacity by three ship berths.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CERTIFICATES:

Ship's Nationality Certificate.
Load Line Certificate.
Tonnage Certificate.
Certificate of Inspection of Ship.
Ship Safety Equipment Certificates.

IDENTIFICATION CARDS: Required.

AIRPORT: Domestic airport connected to Taipei and Kaohsiung International Airport (4 flights daily).

TIME: GMT plus 8 hours.

AUTHORITY: Hualien Harbour Bureau.

AGENT: (see Keelung). Recommended Owners contact their Taiwan Agents before sending vessel to Hualien as berthing facilities very limited.

KAOHSIUNG: 22.37 N. 120.16 E.

PORT LIMITS: Ship considered to be an "arrived vessel" when anchored at a location within 2 miles distance from the harbour lighthouse.

DOCUMENTS:

10 Crew Lists.
1 Customs Stores List.
1 Narcotic List.
1 Foreign Currency List.
1 Crew's Declaration List.
1 Arms and Ammunition List.
1 Parcel, Passenger and Mail List (all nil items may be put in one statement).
1 set of Bills of Lading and Manifests.

PILOTAGE: Compulsory. Agents will arrange for pilot to board vessel at anchorage outside breakwater about 1½–2 miles West of Kaohsiung Lighthouse. Pilot boat flies code flag "H".

ANCHORAGE: Depth 15 metres, or anywhere clear of dredged channel.

RESTRICTIONS: Port closed for entry after sunset; vessels can sail at 2300 hours latest. Tankers with maximum draft 34 ft. must await high tide.

MAX. SIZE: Length and breadth no restriction (maximum size ever entered: 849′ 08″ loa and 131′ 06″ b). Draft for dry cargo or bulk carriers 32 ft.; tankers 34 ft. during high tide. Tankers with draft over 34 ft. up to 55 ft. discharge at Monobuoy outside main port area, position: 22° 30′ N. 120° 18′ E.

HEALTH: Free pratique granted at anchorage after Master's com-

pleting Quarantine Declaration Form furnished by Quarantine doctors. No quarantine necessary if second port in Taiwan. Quarantine doctor will attend only in case any suspected contagious disease on board.

RADIO: Kaohsiung Radio (XSW). Normally used by Agents when cabling vessels.

Contact with the Agent and Port Authorities may be made via Kaoh Siung Radio on VHF Channel 16.

CARGO-HANDLING FACILITIES: *Container Terminals:* The first container terminal includes the piers No. 40, 41 and 42. The second container terminal includes the piers No. 63, 64 and 65. Container handling equipment includes: two straddle carriers for handling 20 ft. to 24 ft. containers, another seven straddle carriers for 30 ft., 35 ft. and 40 ft. containers. One side loader for handling 20 ft. containers. One lateral straddle carrier for loading 20 ft. containers. One truck weigher, another two weighers for handling 20ft. and 40 ft. containers.

Grain, and other bulk handling equipment: One silo, 40,000 tons capacity, unloading 300 tons per hour. 35 grabs for unloading grain and 15 grabs for other cargo.

Sulphur unloaded by hoist with nets, 25 tons can be discharged per hoist per hour.

TUGS: Harbour tugs usually join vessel after entry and while berthing. Ship's lines always used.

BERTHING: No specific requirement except tankers with maximum draft of 34 ft. must berth high tide. *Wharves:* There are at present 40 wharves (including one shallow water wharf) with a total length of 6,925 metres, capable of accommodating 49 vessels – 32 ships of 10,000 ton or over and 16 of 3,000 ton or over simultaneously. *Buoys:* The harbour has in all 24 mooring buoys, including 4 sets of 20,000–ton class, 15 sets of 10,000 ton class and 5 sets of under 10,000-ton class, capable of berthing 20 vessels.

STEVEDORES: All Government stevedores ordered by Agents as required.

RADAR/VHF: No radar service. VHF will be used soon.

MEDICAL: No advance notice required unless emergency case. Vaccination Certificates against smallpox (3 years) and Cholera inoculation (6 month) required.

TANKERS: Discharge lines at oil terminal inside harbour 8 in. (two berths), and 12 in. at Monobuoy outside with necessary reducers supplied from ashore. In latter case, Master must inform Agents size of ship's manifold.

A single buoy mooring Chinese Petroleum Corp terminal is situated in position 22° 30′ 17″ N. and 120° 17′ 56″ E. A white flashing signal light is mounted at the centre of the buoy with a range in excess of five miles. The light appears for one second and goes off for three, it then appears for one second and goes off for twelve. This cycle is repeated.

The area around the mooring buoy has a depth of 68 feet and can accommodate tankers up to 140,000 dwt. The current runs at a maximum of 2½ knots.

A second monobuoy installed in the position of 22° 29′ 45.1″ N. 120° 16′ 40.8″ E., capable of discharging tankers up to 250,000 dw tons.

The buoy mooring has facilities for two 12″ hose connections and one 10″ bunker line. Fresh water is not obtainable. Stores can be arranged for delivery by boat under police escort. Other services available to tankers at the buoy are confined to those of an emergency nature.

Vessels programmed to use the Talinpou SBM Terminal are required to anchor off Kaoh Siung Harbour for quarantine and immigration clearance, then to proceed to the SBM about 7 miles S.S.E. of the harbour anchorage.

Should the berths be occupied, the vessel is required to anchor 1·5 nautical miles North of the SBM in 14 fathoms. The Pilot/Cargo Supervisor and his hose-handling party board in this vicinity from a tug.

After the discharge of cargo, the vessel is required to return to Kaoh Siung harbour anchorage for inspection and outward clearance.

DENSITY: Average 1015 in summer, 1023 in winter.

FRESH WATER: Most berths supply from shore lines, otherwise from barge.

FUEL: All grades, mostly received from barge. Owners must contact suppliers for nomination through Chinese Petroleum Corp. before ship's arrival.

FIRE PRECAUTIONS: No specific regulations, but routine precautions should be enforced.

DEVELOPMENTS: Three new berths have just been completed. No. 45 will handle general cargo vessels; No. 46 will be specifically for sugar loading; and No. 47 will be equipped with a silo of 40,000 tons capacity as a grain berth. In addition, one berth (Wharf No. 62) to handle chemical liquid cargo is under construction. A second entrance now being cut. When completed 1975, port will accommodate o.b.o. carriers of 75,000 tons, and later 100,000 tons.

GANGWAY/DECK WATCHMEN: Recommended to meet local security requirements.

OPENING/CLOSING HATCHES: Mostly handled by stevedores except steel hinged covers, which are to be done by crew.

CERTIFICATES: Ship's Registry, Load-line Certificate and Safety Equipment Certificate must be inspected by Customs/Harbour Authorities.

CUSTOMS ALLOWANCES: 200 cigarettes or 1 box cigars and 1 bottle of wine or spirit allowed each.

CARGO GEAR: No additional requirements, but Cargo Gear Certificate must be valid.

IDENTIFICATION CARDS: Not required.

CONSULS: Japanese General Consulate, tel. 226620. Others in capital city Taipei, 230 miles North of Kaohsiung.

REPAIRS: Good for minor repairs. The Bureau's two ship repairs yard are separately located at pier No. 10 and Basin No. 6 in Chi-hou. Pier No. 10 yard includes a main office, a dry dock, vehicle repair plant etc. Chi-hou yard: repair workshops, slipways, etc., complete with appliances and equipment. Offers repair service to various types of ships under 4,000 tons.

DRY DOCK: Only small one: 116×17·0 metres takes vessel under 4,000 GT and draft less than 12 ft. 6 in.

REPATRIATION: Crew changes arrangeable.

AIRPORT: 7 miles from main port area. Open for international flights.

TIME: Local: GMT plus 8 hours. No alterations during the year.

HOLIDAYS: New Year's Day (Jan. 1–2); Yough Day (Mar. 29); Labour Day (May 1); Confucius' Birthday (Sept. 28); National Day (Oct. 10); Taiwan Restoration Day (Oct. 25); Dr. Sun's Birthday (Nov. 12); Constitution Day (Dec. 25); and Chinese Lunar New Year's Day (2 days mostly in Feb.). No work on New Year's Day (Jan. 1), Labour Day and Chinese Lunar New Year's Eve and New Year's Day. Double stevedoring rates for rest of holidays.

POLICE/AMBULANCE/FIRE: Police and ambulance: call 555183; Fire: 555183 or 226119.

TELEPHONE: Telephone on board.

SERVICES: Competent technicians available for repairs of radar, radio, compass adjusting and other navigational aids. Tank cleaning equipment and facilities not available.

SHORE LEAVE: Normally granted.

PORT REGULATIONS: A curfew exists in the port area between 0100–0400 hours daily. No traffic is allowed during this period. Anybody going aboard must obtain a boarding pass.

DELAYS: Generally about one day's berthing delay for general cargo liners and 2–3 days for bulk cargo ships, especially during typhoon season in the months of July to Sept.

AUTHORITY: Ministry of Communications, Taipei, Taiwan.

AGENTS: Jardine, Matheson & Co. Ltd., 36 Kwei Teh Street, PO Box 81, Taipei, Taiwan. Shipping Agents, Lloyd's Agents, Cargo Surveyor. Tel. 571281 (10 lines). Telex TP391. Cables: "Jarocean".

Sub-Agent: Loong Gon Co. Ltd., 65 Lin Hai Yit Road, Kaohsiung. Tel. 553757, 555023. Cables "Loonggon", "Jarocean".

KEELUNG: 25.09 N. 121.44 E.

PORT LIMITS: It is considered to be an "arrived vessel" when a vessel is anchored at a location 2 nautical miles distance from the lighthouse of this harbour.

DOCUMENTS:

Ship's Registry.
Last Port Clearance.
Crew List.
Fumigation Certificate.
Import Manifests.
Through Cargo List.
Store List.
Arms and Ammunition List.
Narcotics List.
Foreign Currency List.
Parcel List.
Passenger List.
Yellow-book for every person on board. (Vaccination Certificate).

PILOTAGE: Compulsory from anchorage to dock and any other movements in port. Pilot may also meet ship within one mile outside breakwater upon ship's/Agent's request. VHF and Signal Station 25° 09′ 27″ N. 121° 44′ 23″ E. VHF radio listening on Channel 16, records arrival time and passes information to Agents or Pilots.

ANCHORAGES: Area is in Outer Harbour depth 8 to 16 metres but can only take eight ocean-going vessels, ship may also anchor/remain outside breakwater waiting for Pilot or entry instructions.

RESTRICTIONS: Permission must be granted from Naval Signal Station located at Lat. 25° 09′ 43″ N. Long 121° 45′ 08″ E. for entering breakwater. Ship's agent should declare ship's ETA to Port Authorities 24 hours ahead. Port closes from 0001 to 0500 hours daily.

MAX. SIZE: Maximum draft 35 ft. and length overall preferably less than 700 ft. Navigation Channel-length 2 kilometres, breadth 150 to 350 metres.

HEALTH: Radio pratique not acceptable. Quarantine will clear vessel at anchorage area. Stool test will be conducted if vessel arrives from an affected area within five days.

RADIO: Radio Keelung. Send cables to "Harbour Master Keelung" report ETA, draft, etc. Channel 16–156·8 mc/s for safety and calling purposes. Channel 14–156·7 mc/s for harbour control after contact and identified.

TUGS: Three main tugs with more than 1,000 h.p. each assist mooring and unmooring. Join at any point within breakwater. Ship's lines used.

BERTHING: Docking during day only. Pilot compulsory. Vessels usually anchor in outer harbour first for pratique and inspection.

SPECIALIZED CARGO-HANDLING FACILITIES: *Container Terminals:* The container terminals include wharves No. 21, 22, 23 24, 25 and 26. Handling equipment includes four straddle carriers for handling 20 to 40 ft. containers. One side-loader for handling 30 ft. containers. Two sets of quayside container cranes. One berth is reserved for fuel-oil tankers. One berth is reserved for handling liquid chemicals. Several berths are reserved for handling Bulk cargo.

Sulphur: is unloaded by hoist with nets; 35 tons can be discharged per hoist per hour.

STEVEDORES: Owned and operated by Harbour Bureau, a government organization. Stevedores paid by tonnage instead of hours. Stowage plan and cargo details must be presented to concerned offices 24 hours prior operation.
RADAR/VHF: No radar service to assist navigation in port. VHF only used on ship's arrival. However, pilots carry pocket walky-talky to communicate with tugs and line-men on dock. Also see "Pilotage" and "Radio".
MEDICAL: Clinics with English-speaking doctors available at Keelung and modern hospitals available in Taipei, 30 kilometres from port.
TANKERS: Wharf No. 33 specially reserved for tankers, draft limited to 34 ft. For other procedures in port tankers are treated same as other carriers.
DENSITY: 1002 to 1023.
FRESH WATER: Available subject 24 hours advance notice. Usually delivered by barges. No limitation on quantity.
FUEL: Ordinary bunkers available but require 3–5 days advance notice. Fuel barge operated by C.P.C.
FIRE PRECAUTIONS: Red flags will be flown on dock and fire-fighting automobile and tug will be standing by while tanker in operation.
DEVELOPMENT: A proposed five-year development plan being carried out. After completion, which is expected in 1973, another 10 deep-water berths will be added to this port. Container berth to be completed 1973.
GANGWAY/DECK WATCHMEN: Harbour policeman always assigned by authorities at gangway free of charge. Other gangway/deck watchmen are recommended.
OPENING/CLOSING HATCHES: Normally carried out by stevedores, excepting new designs on modern vessels.
CERTIFICATE: International certificates, Safety Equipment, Load Line, Cargo Gear, etc.
CUSTOMS ALLOWANCES: Each crew member allowed 10 packs cigarettes for own use. Master enjoys some privileges and can keep several cartons if he thinks necessary. Wine and/or Spirit, no restrictions but slopchest will be sealed on arrival.
IDENTIFICATION CARDS: Passport or other identification papers are needed.
CONSULS: None. Mostly stationed at Taipei.
REPAIRS: All types of deck and engine repairs can be carried out in port.
DRY DOCK: One for vessels under 100,000 tons and the other for 25,000 tons.
REPATRIATION: Crew repatriation usually carried out through International Airport in Taipei, and immigration prefer either individual or group visa for landing crew from ship.
AIRPORT: International airport in Taipei only 30 minutes by car.
TIME: GMT plus 8 hours. No alterations.
HOLIDAYS: New Year's Day (1–2 Jan); Lunar New Year's Day (2 days in Feb.); Youth Day (29 Mar.); Labour Day (not a national holiday but only for labourers) (1 May); Confucius Birthday (Teachers' Day) (28th Sept.); National Day (10 Oct.); Taiwan Restoration Day (25 Oct.); Dr. Sun's Birthday (12 Nov.); Constitution Day (25 Dec.).
POLICE/AMBULANCE/FIRE: The gangway guard assigned by Harbour Police or ship's Agent will act in emergencies.
TELEPHONE: Local telephones available to be placed on board,
GENERAL: Shore pass issued by Immigration for each crew member on ship's arrival and will be collected on ship's departure. Any one who loses a shore pass is subject to fine.
SERVICE: Harbour Master prohibits discharge of tank washing, etc., in port.
SHORE-LEAVE: Crew allowed ashore except for crew members from Communist countries.
REGULATIONS: Searching for stowaways is strictly carried out on arrival and departure.
DELAYS: Keelung has rainfall on about 240 days in a year, port is sometimes congested after continuous rain.
AUTHORITY: Ministry of Communications. Taipei, Taiwan.

AGENTS: Jardine Matheson & Co. Ltd., 36 Kwei Teh Street, PO Box 81, Taipei, Taiwan. Shipping Agents, Lloyd's Agents, Cargo Surveyors. Tel. 571281 (10 lines). Telex TP391. Cables: "Jarocean". Sub-Agent: Loong Gon Co. Ltd., 10 Chung Yit Road, Keelung. Tel. 22443, 22444. Cables "Loonggon" "Jarocean".

Tanzania

CHAKE CHAKE: 05.14 S. 39.46 E.

DOCUMENTS, HEALTH: Refer to "Zanzibar", where vessel required call for clearance by Port Officials.
PILOTAGE: Not compulsory, but restricted to daylight only.
RESTRICTIONS: Entrance approached through Owen Channel or through passage between Mesale Island South and Ras Kingojelin. Depths from 10 to 22 fathoms but there are patches of 2½ fathoms. Narrowest part of channel is 1·5 cables wide.

Vessels may enter and leave at any state of the tide, but in daylight hours only.
ANCHORAGE: No mooring buoys. Vessel's work cargo to lighters Depth decreases to 3 fathoms for coastal anchorage off Ras Banani.
MAX. SIZE: 170 ft. length; 15 ft. draft.
TUGS: Not available and not required.
FRESH WATER: Not available.
FUEL: Not available.
AUTHORITY: See Zanzibar.

DAR-ES-SALAAM: 06.50 S. 39.17 E.

PORT LIMITS: The port of Dar-es-Salaam includes all tidal waters enclosed by a boundary which, commencing at high water mark at a point South East of Ras Koronja (approximately 9·66 km. East of the city of Dar-es-Salaam), follows a straight line due North to the West tip of the Outer Sinda Island. Thence a straight line to Makatumbe Lighthouse, thence a straight line drawn to South tip of Mbudya Island, thence a straight line drawn 254° to the high water, mark at a point on the mainland South of the entrance to Mto Peremji. Thence following the high water mark around Msansani Bay, Dar-es-Salaam Inner Harbours to the first point due South of Outer Sinda Island.
DOCUMENTS:
Health Certificates (forms supplied by Pilot).
6 Crew Lists.
10 Passenger lists.
Ships Manifest.
Heavy Lift List.
Dangerous Cargo List.
Ship's Register.
PILOTAGE: Compulsory South of Makatumbe lighthouse, for all vessels over 200 NRT. The pilot launch is painted white and shows the conventional day and night signals. Vessels wishing to enter must await the arrival of the pilot launch at the Outer Anchorage, and, if necessary, must anchor clear of the leading marks. During the hours of darkness ships entering or leaving the port are limited to 485 ft. OA on tides not exceeding 9 ft. range.
RESTRICTIONS: Movements in and out of the basin are subject to restrictions depending on drafts and state of the tide at spring tides. Tankers and vessels carrying explosives are not allowed to leave or enter during hours of darkness.

There is a signal station (with tower, flagstaff and red roof) on East Ferry Point (lat. 6° 50′ S, long 39° 18′ E.). Entry prohibited signals are: day signal – black flag is masthead; night signal – three red lights disposed vertically, and distant signals – black square on white background.

The entrance channel at North end of the basin is about 1¼ miles in length from its outer entrance between the edges of the banks fronting North and South Reefs to the Inner Harbour, South of West Ferry Point.

There is a sharp bend in the channel at West Ferry Point. Minimum depth of 24 ft. LWOST, and minimum width of 420 ft. between the 4 fathoms contour lines. A very strong ebb and flood runs through the channel at periods of spring tides. Maximum current at spring tides – 3½ knots. During period of S.E. monsoon strong winds and heavy seas may make entry difficult, but in Inner Harbour port working is normally unaffected by weather.
MAX. SIZE: Twin-screw vessels not exceeding 600 ft. and single-screw vessels not exceeding 575 ft., 28–33 ft. depending tide. Tankers 575 ft. 32 ft. draft. Also refer to Mjimwema.
HEALTH: Radio Port Health officer giving ETA, name last port and health condition of passengers and crew. Q Flag to be displayed until free pratique given.
BERTHING: In the Inner Harbour there are mooring and anchorage berths for up to 9 deep-sea ships ranging from 350 ft. to 600 ft. in length and from 23 ft. to 30 ft. in draft. Deep-water quays total length 3,024 ft. giving 5×600 ft. (Berths 1 to 8) with 35 ft. depth at LWOST.

In addition there are 2 coaster anchorages. The Southern Creek, at the South-east corner of the basin has a navigable distance of 1¾ miles for ships drawing up to 30 ft. of water.
CARGO-HANDLING FACILITIES: The port has no special facilities for bulk handling cargoes but, subject to advance notice being given, vacuvators and grabs can be made available.

Two berths, Nos. 7 and 8, are capable of accommodating container vessels, but the port has no handling facilities.
TANKERS: Bulk Oil Jetty at which tankers up to 575 ft. OA, and 32 ft. draft can discharge to tanks ashore. Depth alongside of 35 ft. There is a refinery on the opposite side of the creek to the Bulk Oil Jetty; the tankers serving the refinery are not to exceed 20,000 dwt capacity for the time being. Also refer to Mjimwema.
STEVEDORES: Week days (except Saturdays) 0700 – 1500 (45 minutes break, 1500–2200 hours (no break), 2200–0600 hours (no break). Saturdays 0700–1345 hrs. (no break), 1400–2100 hours (no break). Sundays and public holidays 0700–1500 hours (45 minutes break), 1500–2200 hours (no break).
FRESH WATER: Available at deep-water berths, and a water barge supplies water to ships at anchorage. All water is chlorinated but should be boiled and filtered. Water for boiler requires feed treatment (formal solutions adequate).
FUEL: Not generally available.
MEDICAL: Doctors and good modern hospital facilities exist.
DEVELOPMENTS: Three more deep-water berths are under construction with an option of two more.
REPAIRS: Several light engineering workshops. There is an East African Harbours Corporation Dockyard for construction and maintenance of East African Harbours Corporation's lighters and other small craft. This has a slipway for vessels up to 100 ft., lifting power 100 tons. The Port Administration employs a skin diver.
REPATRIATION: Can be arranged.
AIRPORT: International airport with daily connections to all parts of the world.
TIME: GMT plus 3 hours. No alterations.

HOLIDAYS: Christmas Day and International Workers' Day are the only holidays on which no work is performed. Other holidays on which restricted working may be carried out are: Zanzibar Revolutionary Day (12th January); Id-el-Fitr (two days); Id-el-Haj; Good Friday; Easter Monday; Union Day (26th April); Maulidi Day; Saba Saba Day (7th July); Tanganyika Independence and Republic Day (9th December).
SHORE LEAVE: Allowed.
AUTHORITY: East African Harbours Corporation, Port Manager, Box 1130, Dar-es-Salaam. Cables "Harbours Dar-es-Salaam".

AGENT: NOTCO (Tanzania) Ltd., Deep Water Berth Kurasini, PO Box 1683, Dar es Salaam. Tel. 23 815. Telex 41075. Cables: "Notco Dar es Salaam".

MJIMWEMA TERMINAL: 06.49 S. 39.22 E.

DOCUMENTS and all General Information; refer to "Dar-es-Salaam".
LOCATION: The position of the Mono Buoy is Lat. 6° 49′ 20″ South, Long., 39° 22′ 00″ East, lying approximately 1½ miles offshore in Mjimwema Bay. The buoy lies in 24 metres depth of water. The currents are up to about one knot and the direction varies.
PILOTAGE: Mooring Master/Pilot boards in an approximate position Makatumbe Island lighthouse bearing 240°. True distance 3½ miles. Should the Pilot not be available on arrival, vessels are advised to keep underway and await the Pilot rather than anchor.

After mooring operations a Mooring Master/Pilot will remain on board.

Vessels must provide adequate means of boarding for Pilot, Customs and other officials. A pilot ladder with spreaders 4 ft. from the water and manropes are required.

The Mooring Master shall be provided with meals and accommodation comparable to a senior officer on board. The crew of the mooring launch will be provided with food comparable with ratings on board. No special foods need be provided.
RESTRICTIONS: Initially, berthing and unberthing will be in daylight hours only. It is expected after experience is gained that there will be no pilotage restrictions. It is anticipated that after the first few departures, night departures will be allowed and night arrivals may later be allowed at the discretion of the Harbour Master.
MAX. SIZE: The Mono Buoy accommodates tankers up to 100,000 tons dwt. Minimum length allowed, 650ft. Maximum draft allowed, 55 ft.
PRATIQUE: Customs, Port Health and Immigration will board vessels on arrival.
RADIO: Within six hours of clearing the loading port, each tanker shall provide the Agent with the following information:

(*a*) Name of Ship.
(*b*) Name of last port from which the vessel cleared and the loading port if different from above.
(*c*) Estimated date and time of arrival at Dar-es-Salaam (Mjimwema).
(*d*) Cargo loaded.
(*e*) API gravity.
(*f*) Arrival draft, fore and aft.
(*g*) Lifting capacity of derricks.
(*h*) Size of manifolds.
(*i*) Personnel requirements.

72 hours from the pilot station, a second cable should be sent to Agent with following information:

(*a*) Name of ship.
(*b*) Amended time of arrival.
(*c*) Names of crew leaving the vessel (if any).
(*d*) Requirements of doctor and dentist.
(*e*) Any other requirements.

A final cable should be sent about 36 hours from the pilot station giving finally amended ETA.

When within 20 miles of Dar-es-Salaam Signal Station vessel should call the Signal Station on either Channel 12 or 16. A continuous watch is kept on both channels. Call sign is Dar-es-Salaam Signal Station.

VHF Channels 16 calling, 12 berthing. VHF Channel whilst discharging to be decided.

Portable radios can be provided for vessels not having a VHF set and the Agent should be so informed in order to allow time to dispatch a portable radio on arrival. A vessel arriving without suitable means of communication and not having informed the Agent of the fact could occur delays which would be to ship's account.

The Mooring Master will be in direct control of all radio communications on the vessel while in the terminal area. Any unauthorised communications may result in the immediate cessation of all operations and removal from the berth.
READINESS: Notice of readiness will only be accepted by the Pilot/Mooring Master on behalf of the Harbour's Corporation, when the ship is berthed and connected.

Any vessel which is not, in the opinion of the berth controller, ready in all aspects to discharge, may be rejected until corrections are made. The Harbour Master's decisions are final.
BERTH: The Mono Buoy is a single point mooring buoy. The body of the buoy being secured in a fixed position with 6 moorings and the top of the buoy is in the form of a turntable allowing the ship, moorings and hoses to take up the position the vessel lies naturally due to tide, wind and current conditions.
MOORING: The following equipment is required to moor with safety: Two 10-in. nylon circumference ropes. 100 ft. in length. Four end joining shackles.

The vessel approaches the Mono Buoy head to wind and tide or the resultant of these forces, and should have two mooring ropes lowered to the water, each having a 15 ft. lashing of 3-in. rope on it.

As the vessel nears the mooring, a launch will take the port rope from the ship and connect it to the port pick-up rope and return to the ship to take the starboard rope and repeat the operation on that side.

The vessel should heave on the ropes as soon as they are inboard and heave herself to the buoy until the chain is on the fairlead. The ship wire should then be shackled to the chain and turned up on bits. This applies to both sets of moorings.
HOSES: Raising and lowering of, connecting and disconnecting of hoses as well as other shipboard duties will be performed by the ship's crew under the advice of the Mooring Master. The ship should be capable of lifting 10 tons on her derrick, with a minimum of 7½ tons.

When the vessel is securely moored, the launch will bring the hoses alongside on the port side. The vessel will lower the cargo hook to the boatman who will hook it on to the lifting ring on the forward hose. The hose will then be lifted to full height on the boom and secured on the "Hang off Chains" supplied. The hose is then lowered to the deck and the operation repeated with the after hose.

After completion of discharge the hoses will be filled with sea water by the ship. The hoses can then be disconnected from the manifold and lifted over the side of the ship and hung there on the slip ropes to be slipped off simultaneously with the morrings. This last operation will be carried out on the advice of the Mooring Master.
UNMOORING: On sailing, hoses will already have been disconnected and ready to be slipped at the direction of the Mooring Master.

The weight will be taken on the two approach ropes by heaving slowly with the winch. The shackles will then be released and the ropes slacked away until they are finally paid out through the fairlead and dropped into the sea.

The shore equipment should then be collected together under the derrick and returned to the boat.
BALLAST: Ballasting will be allowed during discharge but only with the express permission of the berthing controller, and in the case of ballasting in dirty tanks a dry certificate must be issued. Vessels will not be allowed to tank clean. There are no sludge tanks ashore.
FUEL: No bunkers available.
FRESH WATER: Only very limited quantities of fresh water in the region of about 50 tons can be provided.
STORES: Stores are available in Dar-es-Salaam, but the East African Harbours Corporation cannot undertake to transport stores to the Mono Buoy. Transport of stores to the buoy will be the responsibility of the Agent.
REPAIRS: During periods of calm and the fact that there is little current, it is foreseen that the problem of riding up on the buoy may occur. The vessel's engines shall therefore be available at all times and the telegraph shall be on stand-by while the vessel is in the berth. Engine repairs are not permitted. Should a vessel not be able to use her engines the cargo will be stopped and the vessel towed to a safe anchorage at the vessel's cost, until she can safely return to the berth.
SHORE LEAVE: Shore leave will not be permitted. Should any of the crew require to be landed for medical or relief reasons, the Agent will be responsible for providing transport to the Inner Harbour. East African Harbours Corporation craft will on no account be available to ferry crew members to and from the passenger pontoon. The Mono Buoy lies 4½ miles from the passenger landing pontoon, which is situated in the Inner Harbour.
POLLUTION: It is the Master's responsibility to see that no oil of any kind is pumped or spilled overboard from his vessel. This includes oily water from bilges, crude residues from the previous voyages or any other matter that may result in the pollution of the area. Owners and Masters should comply with any international regulations and recommendations concerning the prevention of pollution of the sea.

Serious consequences will arise if the above rule is broken. All costs and expenses involved will be for the account of the vessel concerned and the Master may be prosecuted under the Tanzania Merchant Shipping Act.
REGULATIONS: While in the berth the vessel should provide a pilot ladder on the opposite side of the vessel to the gangway, secured at the rail and ready for use.

No boats of any kind shall be lowered without permission from the Customs, Immigration and Harbour Master, except in an emergency.

East African Harbours Corporation maintains vessels to assist in berthing. These vessels are under the direct supervision of the Mooring Master/Pilot. Any service or facility provided by the East African Harbours Corporation, including the services of the Mooring Master/Pilot and boats are the vessel's risk. The furnishing of Mooring Master/Pilot and launches or other services and facilities shall not be construed to be or give rise to a personal contract.
AUTHORITY: Harbour Master, Dar-es-Salaam, for Port Manager.

MKOANI (KOHANI): 05.21 S. 39.38 E.

DOCUMENTS, HEALTH: Refer to "Zanzibar."
PILOTAGE: No pilot available.
RESTRICTIONS: Vessels passing through channel between Zanzibar and Pemba should inform Port Authorities 24 hours in advance.

Entrance through Mkoani leading marks, buoyed and well-lit channel, depth of 11 fathoms. Vessels may enter and sail any time night and day.

ANCHORAGE: No mooring buoys. Minimum depth 6 fathoms. Vessels work cargo to lighters. Sandy bottom with mud close inshore.
MAX. SIZE: Length 250 ft.
TUGS: Not available and not required.
FRESH WATER: Not available.
FUEL: Not available.
AUTHORITY: See Zanzibar.

MTWARA: 10.16 S. 40.12 E.

DOCUMENTS, HEALTH: Refer to "Dar-es-Salaam".
PILOTAGE: Compulsory. Pilot boards half mile North of Shangani Reef buoy. Pilot can be contacted by VHF Channels 16 and 12. Radio operating only between 0800 and 1600 hours.
ANCHORAGE: No safe anchorage outside port. Anchorage for six vessels inside harbour.
RESTRICTIONS: Port closed from 1800 to 0600 hours. Buoyed entrance channel 1·5 cables wide at narrowest point. No tidal restrictions.
MAX. SIZE: Length 575 ft., draft 32 ft.
RADIO: Dar-es-Salaam or Mombasa Radio.
TUGS: Join vessel off Signal Station. Tug's lines used.
BERTHING: Deep-water Quay; 1,248 ft. length; 32 ft. depth alongside. Two berths available at quay.
CARGO GEAR: Vessels load/discharge using ship's gear.
STEVEDORES: Stowage plan required preferably before ship's arrival.
MEDICAL: Doctor available. All crew require valid smallpox vaccination and yellow fever inoculation certificates.
DENSITY: 1025
FRESH WATER: May be available in emergency but only between 2100 and 0500 hours. 20–30 tons per hour.
FUEL: Not available.
GANGWAY/DECK WATCHMEN: Arranged by Agents.
IDENTIFICATION CARDS: Required.
REPATRIATION: Possible.
AIRPORT: 7 miles distant. Daily service to international airport.
TIME: GMT plus 3 hours.
HOLIDAYS: All holidays worked as Sunday except following when no work done: Christmas Day and 1st May.
TELEPHONES: Direct connection on board not possible.
SHORE LEAVE: Crew allowed ashore.
AUTHORITY: East African Harbours Corporation, PO Box 9184, Dar-es-Salaam.

TANGA: 05.04 S. 39.08 E.

PORT LIMITS: From high water mark at Ras Kwawa 090° to the meridian of 39° 15′ E., thence 180° to the parallel of Lat. 5° 05′ S., thence 270° to the mainland at high water mark. Time of anchorage within port limits to constitute an "arrived vessel".
DOCUMENTS, HEALTH: Refer to Dar-es-Salaam.
PILOTAGE: ETA required via Mombasa Radio, if not given by Agents at previous port of call. Pilot embarks from white launch in vicinity of Ulenge Beacon on Ras Kazone leading line. Pilot ladder required on port side in North-east monsoon, and on starboard side in South-west monsoon.

Vessels wishing to enter must await the arrival of the Pilot at the outer anchorage and, if anchored, must anchor well clear of the leading lines.
APPROACHES: Tanga is approached from the South-east through channel on line of Ulenge leading marks bearing 319° T. A 3-fathom bank to starboard is marked by ship channel buoy. Care should be taken in this vicinity as there is frequently a strong set to the North-east. On the port hand, Niule Reef is marked on Northern tip by a buoy. After passing Niule Reef Beacon it is necessary to turn to port on to Ras Kazone leading marks bearing 266° T. until Ulenge Beacon is sighted.

A signal Station is situated immediately below Ras Kazone High light. Signals are exhibited to indicate if inner channel to harbour is clear. Morse lamp messages may be exchanged with incoming vessels.

Late afternoon arrivals to Tanga may encounter poor visibility of land marks due to haze from setting sun, but a chimney on the fertiliser factory site on Ras Kazone with three vertical red lights at a height of 100 metres is conspicuous.
RADIO: Mombasa Radio. Ras Kazone Signal Station keeps 24-hour VHF watch on Channel 16, working on Channel 12.
ANCHORAGES: Inner Harbour provides safe anchorage for seven vessels up to 600 ft. length and 27 ft. maximum draft. In addition there are six anchorages in Outer Harbour for vessels of draft greater than 27 ft., least depth of water being 45 ft. LWOST. Incoming vessels without Pilot should not anchor within one mile of Ras Kazone.
BERTHING: All except bulk cargo work is carried out at anchor. Vessels are not berthed in Inner Harbour during hours of darkness except by special request in cases of urgency. 30 lighters available, capacity up to 250 tons each.
CARGO-HANDLING FACILITIES: One 20-ton fixed crane is available on lighterage wharf for heavy lifts. A jetty on the Eastern side of Ras Kazone provides one berth for vessels of 20,000 dwt. equipped for the discharge of bulk cargoes and liquid ammonia. Two portal cranes of 7 tons capacity fitted with grabs. Jetty currently handling bulk products for fertiliser factory.
PASSENGER FACILITIES: All passengers and visitors to ships pass through the customs passenger terminal at the Eastern end of the new lighter wharf, and embark or disembark from the pontoon landing stage. Private hire launches available.
FRESH WATER: Not available.
FUEL: Not available.
GENERAL: Refer to "Dar-es-Salaam" for all general information.
AUTHORITY: Tanga Port Manager.

WETE (Pemba): 05.14 S. 39.43 E.

DOCUMENTS, HEALTH: Refer to Zanzibar.
PILOTAGE: Not compulsory, but restricted to daylight only. Vessels passing through channel between Zanzibar and Pemba should inform Port Authorities 24 hours in advance.
RESTRICTIONS: Entrance through Uvinje Cap, channel depth decreasing to 11 fathoms, with shallow patches to be avoided, Narrowest part of channel is 1·5 cables wide. Vessels may enter and leave at any state of tide but in daylight only.
ANCHORAGE: No mooring buoys. Vessels work cargo to lighters. Depth decreases to $2\frac{1}{2}$ fathoms. Mud bottom.
MAX. SIZE: 240 ft. length; 25 ft. draft.
TUGS: Not available and not required.
FRESH WATER: Not available.
FUEL: Not available.
AUTHORITY: See Zanzibar.

ZANZIBAR: 06.09 S. 39.11 E.

DOCUMENTS:
Bill of Health.
3 Crew Lists.
6 Passenger Lists.
3 Cargo Manifests.
3 Customs Manifests.
PILOTAGE: Compulsory. Vessels approaching from English pass embark Pilot at Seagull Buoy, and vessels approaching from South pass meet Pilot at Penford Buoys. Pilot takes vessel in and out, day and night. Notice of ETA required 6 hours in advance.
ANCHORAGE: Six anchorages to accommodate vessels drawing up to 32 ft. Additional anchorage provided for vessels carrying explosives.
RESTRICTIONS: Two entrances, English pass and South pass. The former is approximately 1 mile wide and has minimum depth of 6 fathoms and 4 ft. and a very narrow angular turning corner of 1·7 cables width. South pass wider and deeper than English pass. Passes are well buoyed and lighted. In English pass, tidal stream runs North and is stronger on ebb than on rising tide. South pass, tidal stream runs N.N.W. and stronger on flood than on ebb-tide. Vessel may enter or leave at any state of tide at any time.
MAX. SIZE: (Anchorage) Length 1100 ft., beam 110 ft., draft 32 ft.
HEALTH: Pratique given by Quarantine Officer who boards on arrival. All crew required to be in possession of valid smallpox vaccination and yellow fever inoculation certificates.
TUGS: Two tugs of 88 h.p. and one of 176 h.p. employed for towage of lighters. No tugs for berthing vessels.
BERTHING: Concrete pile wharf 800 ft. long to North of Ras Shangani used mainly for lighterage purposes and for berthing Government coasters. Under special circumstances, upon prior request to Port Officer, vessels of less than 375 ft. length and drawing less than 20 ft. may be permitted to berth alongside, but due prevailing onshore winds this practice not encouraged.
STEVEDORES: Normal working hours 0700 to 1500 Monday to Friday, and 0700 to 1200 Saturdays. Overtime may be worked up to 2200 on Mondays to Saturdays with one hour extension to 2300 for finishing ships only. All work on Sundays and public holidays is overtime, and may be either from 0700 to 1600 with two hours extension to 1800 for finishing ship, or 1200 to 2000 with 2 hours extension to 2200 for finishing ship.

Average rates: bagged cargoes 15 tons per gang hour, general cargo 8 tons per gang hour.
LIGHTERS: 18 lighters, capacities from 150 tons to 261 tons, total capacity 3,674.
FRESH WATER: Water at wharf, and can also be supplied to vessels at anchorage by one water boat total capacity 240 tons.
FUEL: Not available.
AUTHORITY: Serikali ya Zanzibar, Port and Marine Dept., Sanduku la Posta, 263, Zanzibar.

Territoire Francaise d'Afars et Issas

DJIBOUTI: 11.36 N. 43.08 E.

DOCUMENTS: Crew List for ship's agent. Crew Manifests and Manifests of Passengers in transit or for disembarkation, for whom disembarkation cards are to be completed. Presentation of Health Declaration and verification of compulsory immunisations by the health representative. Cargo Manifest, required in five copies prior to any discharging operations, also deposit of one copy at port operation office.
PILOTAGE: Is compulsory. Pilot boards in vicinity of buoy No. 2 of the Heron Bank, where all vessels must wait. Call signals are

regulated by International Code. Vessels at the quay wishing to put to sea must call Pilot half an hour beforehand by three long blasts (in addition to the "G" flag). VHF radiotelephony station to liaise with ships. Ships must ensure a permanent watch on Channel 12, at the latest after clearing parallel of Muskali beacon.

MAX. SIZE: Entrance to inner roads dredged to 11 metres depth.

ANCHORAGE: Anchorage zone is within following limits:

1. Eastern limit: a line parallel to and 0·25 miles West of the North passage.
2. Southern limit: Latitude 11° 37′ N.
3. Western limit: a bearing with the Western extremities of Penguin and Ambouli Banks in alignment.

It is forbidden to anchor within 5 miles on each side of the alignment of Ambouli and d'Ayabele lights.

Average depth is of 15 to 20 metres. Anchor hold is excellent, even with a strong South-west monsoon when there is often a heavy swell.

RESTRICTIONS: Entry during the day or night. Highest tide 2 metres 90. Mean tide is approximately 1 metre 60, and lowest are 0 metre 20. Tidal currents are very weak in bay and rarely exceed 1 knot.

HEALTH: Generally free pratique by radio can be granted to all ships applying through Coastwise Station Djibouti Radio. Ships must radio in plain or international code, a maximum of 12 hours and a minimum of 4 hours prior to arrival in port. In all cases, when Pilot boards vessel he gives Captain a copy of Maritime Health Declaration which must be filled in by Captain and countersigned by ship's doctor, if the crew includes one. An examining official comes on board when vessel arrives to receive the Maritime Health Declaration. Smallpox certificate required from all travellers coming from all countries. Cholera certificate required from all travellers coming from an infected area, excepting children of under six months of age.

RADIO: For short distance communications, ships contact shore by radio telephone VHF through Harbour Master's office. Port office is equipped with a VHF station transmission and reception: Channel 12 (156·6 MHz). For medium or long distance communications, ships contact shore by radiotelegraphy and radiotelephony through Djibouti coastwise station, call sign: TXZ; call frequency: 8·682 and 500 kc/s; working frequency 8·682 and 464 kc/s.

TUGS: In winter (slight Easterly monsoon), a single tug is generally sufficient for manoeuvring. In summer during the Khamsin period, berthing or sailing often requires two tugs. There is a 1,320 h.p. diesel tug "Henri Lambert", a 1,000 h.p. tug "Administrateur Bernard" and two auxiliary 600 h.p. tugs.

BERTHING: Exterior docks comprise:

Dock 11	depth of 11 m.
Dock 12	depth of 12 m.
Dock 10	depth of 11 m.
Dock 13	depth of 10.80 m.
Dock 9	depth of 9 m.

Average depth of remaining roadstead is between 15 and 20 m.

STEVEDORES: Available three companies, hours from 7 to 17.30 hours.

MEDICAL: Port Medical Service directed by medical practitioner specialised in industrial medicine is situated in a building neighbouring the port offices. It operates a dispensary. Passengers and sailors in transit are treated by private doctors from town who may visit the ships. Serious cases can be hospitalised in Djibouti's civil or military hospitals.

TANKERS: Reception lines: berths 12 to 13 specially equipped for reception of bunkering products are linked with installations of the petroleum companies by a 16-in. dock-line and 12-in. (FO) and another of 12-in. (DO). Pier No. 10 is connected to the installation with a dock-line of 12-in. Rate of discharging can reach between 2,000 and 2,500 tons per hour. Reception of white products is assured from quay No. 13 by an 8-in. line; for gas there is a 4-in. line.

FRESH WATER: Each quay provided with three to five 200 mm. water-hydrants. Delivery of 40 cubic metres of water per hour. Regardless of the season, there is never any shortage of fresh water.

FUEL: A complete range of different viscosities and products is available. Meet all the usual requirement of bunkering vessels. Ample supplies of fuel and diesel oil are always available.

GANGWAY/DECK WATCHMEN: Available.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

IDENTIFICATION CARDS: Required.

CONSULS:

REPAIRS: Small repairs available.

REPATRIATION: Good facilities exist.

AIRPORT: Local airport with regular flights.

HOLIDAYS: *Section A:* New Year's Day (1 January); Aid Seghir (El Fithir) and the following day; Labour Day (1 May); Ascension Day; Aid El Kebir and the following day; Muslim New Year (1st Mouharam); National Holiday (14 July); Mouloud El Nabi; Armistice Day (11 November); Christmas Day (25 December).

Section B: Easter Sunday; Easter Monday; Whit Sunday; Whit Monday; Assumption (15 August); All Saints (1 November).

Dates referring to religious holidays vary every year, particularly where Muslim holidays are concerned. Loading and discharging operations as well as bunkering can be carried out during all of above holidays when other services are also available. Where loading and discharging are concerned, days in Section B are paid as ordinary working days but if work is carried out on days in Section A then special tariffs will apply to hourly and daily wages which are increased by 100%.

TELEPHONES: Available on every berth.

SHORE LEAVE: Allowed.

PORT AUTHORITY: Directeur, Port de Commerce de Djibouti, P.O.B. 7, Djibouti. T.F.A.I.

Thailand

BANGKOK: 13.42 N. 100.34 E.

KOHSICHANG:

North-east Monsoon 13.09 N. 100.50 E.
South-west Monsoon 13.11 N. 100.50 E.

SATTAHIP: 12.36 N. 100.55 E.

PORT LIMITS: A vessel is normally considered to be an "arrived ship" on passing the Paknam Customs Station.

DOCUMENTS: Ship's forms: Crew List; Passenger List; Store List; List of arms and ammunitions for ship's use; List of Arms and Ammunitions in possession of passengers; List of opium and harmful habit-forming drugs; List of crew private belongings (cigarettes, radio, gramophone, camera, etc., including foreign currencies and liquors); Dangerous Cargo List; List of heavy lifts; Stowage plan; Inward cargo manifest; Transit cargo manifest; Through Cargo manifest.

Documents to obtain from officials and agents: Immigration forms No. 3, 4 and 35, obtainable from Agents. International Maritime Declaration, obtainable from Quarantine Officer.

PILOTAGE: Compulsory at Bangkok; Kohsichang and Sattahip not required; however recommended at Sattahip. Advance notice required 48 hours prior to arrival.

Location pilot vessel Bangkok: lat. 13° 23′ 33″ N., long. 100° 35′ 12″ E. Area waiting pick-up Pilot will be anchorage close to pilot vessel, preferably 500 to 600 metres from pilot vessel, enabling pilot boat to get alongside safely. Pilot vessel marked by white flashing light, every two seconds. Area awaiting pilot at Sattahip will be lat. 12° 25′ N., long. 100° 52′ 55″ E.

ANCHORAGE: (Map/DeLong Pier site). Capacity – Ten deep draft ships. Location – North-east of Ko Khram Yai Island between 12. 43 N. and 12. 44 N. Minimum depth 7½ fathoms. Good holding ground. (Deep water port site.) Capacity unlimited. Location – South and South-west of Channel entrance between 12. 34 N. and 12. 35 N. Minimum depth 9 fathoms. Good holding ground. No protection from weather.

RESTRICTIONS: *Bangkok:* No restrictions, able enter day and night, dependent tide at Bar Channel. *Sattahip:* Day time only. *Kohsichang:* No restrictions, able enter day and night.

MAX. SIZE: Bangkok: not exceeding 565 ft. LOA. Kohsichang/Sittahip: See "Berthing".

HEALTH: If vessel arriving from foreign port, cable required 48 hours prior to arrival of Quarantine Bangkok stating, number of crew and passengers, ETA, last port of call and date of sailing, any sickness or death arising during the voyage, otherwise confirming all well.

Vessel shall have deratting certificates valid on arrival as well as all passengers and crew members valid vaccination certificates against cholera and smallpox.

RADIO:

Name of Station	*Frequencies*	*Remarks*
Bangkok Radio:		
HSA Long Wave	500 kc/s (for calling) 554,512 480,468 (for traffic)	operate 24 hours
HSA Short Wave	8686 kc/s (for calling) 8450, 8420, 8400, 8380, 8360, 8330, 8320 kc/s (for traffic)	operate 5 times a day every day beginning hours of 0900, 1200, 1500, 1800 and 2100.

in addition to above, communication can be made through the Port Radio and Pilot Radio; however these two stations can be reached within steaming time of less than 24 hours prior to arrival at Bangkok, their particulars as follows:

Port Radio		
HSC 61	500 kc/s	operate 24 hours
Port Radio		
HSC 60	500 kc/s	operate during office hours

VHF: VHF communication with port radio and pilot radio through Channel 16 (24 hours service). Also VHF communication with shore for International Maritime Mobile Service under following:

Channel 24
For ship transmitting frequencies 157.20) } (for calling)
For shore " " 161.80) }
Channel 26
For ship transmitting frequencies 157.30) } (for traffic) service 24 hours
For shore " " 161.90) }
Channel 28
For ship transmitting frequencies 157.40) } (for traffic)
For shore " " 162.00) }

TUGS: Will join when vessel approaches berth, using tug's line without extra charges.

BERTHING: No difficulties in approaching berth. Agents will cable to Master to inform when Pilot has been ordered to board vessel.

BRIDGES: Bangkok port has one bridge only. However, as bridge up river, vessel permitted to pass bridge with LOA not exceeding 280 ft.

STEVEDORES: Vessel to advise Agents 48 hours prior arrival, text required in this cable to be ETA, Drafts, Tonnage of cargo aboard for Bangkok, number of Crew/passengers, Dangerous cargo/Heavy lifts, Gangs required.

MEDICAL: Hospital facilities available, advance notice of ETA required.

TANKERS: Diameter of shore line various from 6 in. to 20 in. All terminals able provide reducers.

DENSITY: Bangkok: Minimum 1000, maximum 1011; Kohsichang/Sattahip: 1021.

FRESH WATER: Available, supply can be made through barges and shore line, capacity of barges from 120 to 250 tons, rate of supply approximately 30 tons per hour. Advance notice 24 hours.

FUEL: Available. Supply can be made by barge and alongside terminals, no delay on bunkering, advance notice 48 hours.

DEVELOPMENTS: *East Quay wall expansion at Klongtoi Wharf:* This project will provide 6 more berths for ocean-going vessels, consisting of 4 berths for conventional freighters, 2 berths for special container ships. The construction work is now being carried out and expected to be completed in 1976.

New alignment for Bangkok Bar Channel: This project is the result of a study on the siltation in the Bangkok Bar Channel aimed at reducing the expensive maintenance dredging cost. It is also proposed to widen the existing channel from 100 m. to 150 m. for safety of Navigation. A project for the new alignment of the Bangkok Bar Channel is now under consideration.

Laem Krabang deep sea port: The location of this deep sea port is expected to be at Laem Krabang on the Eastern side of the Gulf of Thailand near the town of Sriracha and about 120 kilometres South East of Bangkok. A Dutch engineering firm has been appointed to make the initial survey and final design under the financial assistance of the Dutch Government.

GANGWAY/DECK WATCHMEN: Necessary.

OPENING/CLOSING HATCHES: In general carried out by stevedores without extra charges. (Ordinary hatch covers, not new hatch cover system.)

TOBACCO ALLOWANCE: 200 cigarettes for officers, while crew member only 100 for 3 days.

WINE/SPIRIT ALLOWANCE: One bottle each, opened.

CARGO GEAR: Supplied by stevedores except cargo tent and fork-lift truck.

IDENTIFICATION CARDS: Required for all crew and officers.

CONSULS:

Argentina	36911–3	Korea	31940
Australia	35970	Laos	32010
Austria	58327	Malaysia	36927
Belgium	30840	Netherlands	53368

REPAIRS: Only minor repairs.

DRY DOCKS: One for vessels up to 360 ft. LOA.

REPATRIATION: Possible; however, no facilities for crew changes.

AIRPORT: About 25 kms. from Bangkok, regular services by airlines.

TIME: GMT plus 7. No change of clock during the year.

HOLIDAYS: Able work all around the year except December 31st and January 1st.

POLICE/AMBULANCE/FIRE: Police 810810; Ambulance 811544; Fire 816666.

TELEPHONE: Available when alongside PAT berths.

SERVICES: No tank cleaning equipment. No facilities for discharge of tank washings. Compass adjusting, but spare parts unavailable. Radar/VHF/radio repairs. Lloyd's/ABS/Veritas/Nippon Kaiji Kentei Kyokai, Surveyors available.

SHORE LEAVE: Permitted.

DELAYS: Occasionally congestion, delay 1 to 2 days.

AUTHORITY: Director General, Maj. Gen. Prachuab Suntharangkul. 861021 912229; Deputy Director, Capt. Lapoh Israngkul Na Ayudhya, 861021 72306.

SRIRACHA: 13.07 N. 100.51 E.

DOCUMENTS: *Ship's forms:*
Crew List.
Passenger List.
Store List.
List of arms and ammunition for the ship's use.
List of arms and ammunition in possession of passengers.
List of opium and harmful habit-forming drugs.
List of crew private belongings (cigarettes, radio, gramophone, camera, etc., including foreign currencies and liquors).
Dangerous Cargo List.
List of heavy lifts.
Stowage plan.
Inward Cargo Manifest.
Transit Cargo Manifest.
Through Cargo Manifest.
Documents to obtain from officials and agents:
Immigration forms No. 3, 4, and 35, obtainable from Agent.
International Maritime Declaration, obtainable from Quarantine Officer.

PILOTAGE: Not compulsory. The terminal will provide a Mooring Master to give assistance in berthing. Advance notice required 48 hours prior to arrival. No VHF communications between ship and terminal.

The Mooring Master boards off the berth in approx. position 13° 07′ N., 100° 50.5′ E.

It is reported that, when crossing the Bar with Ko Nok Islet abeam, distance 1·5 miles, vessel steering 048T, least recorded depth approximately 56 ft. LW.

The Mooring Master acts as supervisor and liaison between ship and shore and remains on board until clear of berth.

Accommodation ladder required.

RESTRICTIONS: Tankers berth in daytime only.

MAX. SIZE: Length 900 ft., max. draft 50 ft.

HEALTH: If vessel arriving from foreign port, cable required 48 hours prior to arrival at Quarantine Bangkok, stating number of crew and passengers, ETA, last port of call and date of sailing, any sickness or death arising during the voyage, otherwise confirming all well.

Vessels shall have deratting certificates valid on arrival as well as all passengers' and crew members' valid vaccination certificates against cholera and smallpox.

RADIO:

Name of Station	*Frequencies*	*Remarks*
Bangkok Radio:		
HSA Long Wave	500 kc/s (for calling) 554, 512 480,468 (for traffic)	operate 24 hours.
HSA Short Wave	8686 kc/s (for calling) 8450,8420,8400 8380,8360,8330, 8320 kc/s (for traffic)	operate 5 times a day every day beginning hours of 0900, 1200, 1500, 1800 and 2100.

BERTHING: One buoy berth for tankers up to 50 ft. draft. Other berths where draft 43 ft. 6 ins. and 32 ft. 6 ins. Reducers available. No facilities for discharge of tank washing.

Each berth consists of six buoys – one at either bow and quarters, and inshore beam buoys abreast of focsle and poop breaks. The main berth is arranged to accommodate a tanker of 90,000 dwt. The required moorings are two ropes and a wire to each bow and quarter buoy, and one wire to each breast buoy. The offshore anchor is

used (1½ to 2 shackles) but only for purposes of dredging in to the berth, and holding the vessel's bow whilst moorings are run out.

The discharge hoses connected to the vessels manifold are 2×12 in. being in turn connected to 2×16 in. hoses which leads into a common manifold on the sea bed. The submarine line to the shore is of 32 in. diameter and of about 1 mile in length.

Maximum permissible discharge pressure at ships rail, approx. 110 PSI.

Upon completion of discharge and clearing berth, vessels proceed to an anchorage off the berths, in order to carry out the Immigration Clearance, which necessitates the signing of an Immigration Form by every crew member in the presence of the Immigration Officer. After signing the form the vessel is free to sail.

MEDICAL: Hospital facilities available, advance notice of ETA preferred.

DENSITY: About 1021.

FRESH WATER: Can be supplied by barge. 24 hours notice required.

FUEL: Can be supplied by barge. 48 hours notice required.

DEVELOPMENTS: A project for a new deep-sea port at Sriracha has been approved and is under survey.

CUSTOMS ALLOWANCES: 200 cigarettes for each officer, 100 for each crew member for three days.

Each man allowed one opened bottle wine/spirits.

IDENTIFICATION CARDS: Required for all officers and crew.

CONSULS: At Bangkok:

Argentina	36911–3	Korea	31940

AIRPORT: Situated about 25 km. from Bangkok, regular international services.

TIME: GMT plus 7 hours. No changes during the year.

AUTHORITY: Director General, Maj. Gen. Prachuab Suntharangkul. 861021 912229. Deputy Director, Captain Lapoh Israngkul Na Audhya, 862021 72306.

Togo Republic

KPEME: 06.12 N. 01.30 E.

DOCUMENTS:

2 Crew Lists.
2 Stores Lists.
2 Private Property Declaration Lists.
2 Lists of last two Ports of Call.
2 Passenger Lists (if no passengers, 2 lists stating same).
2 Cargo Manifests (if no cargo for Kpeme, 2 lists stating same).

PILOTAGE: The limits of the port of Kpeme are fixed at 1 mile from all points of the jetty. Pilot boards out of the above limits. The Company Pilot remains on board while ship is berthed and disembarks when vessel cleared port limits. International code pilot signal used. At night, vessel should anchor between 110° and 180° at least 1 mile from the end of jetty.

RESTRICTIONS: Vessels should signal twice the date and probable time of her arrival. The first time 72 hours and the second time 24 hours prior arrival. Vessels berth in daylight only from 0530 to 1530 GMT. Unmooring can be effected day and night. Water approaches are clear. Any ship should have both fore anchor cables in perfect order and capable of being used in their entirety. Any ship should be able to leave immediately if she receives order to do so from Harbour Master. With this in mind, engines must be on standby. Ships are not authorised to cross port entrance without a Pilot on board.

MAX. SIZE: Tankers up to 31 ft. draft on arrival. Bulk carriers up to 38 ft. draft on sailing.

PRATIQUE: Send message for free pratique within 24 hours of arrival to Port Health Officer, Kpeme.

RADIO: Until vessel within 600 miles, communicate through Portishead. Within 500 to 300 miles via Abidjan Radio TUA 487 kHz. and within 300 miles via Lome Radio 5VA 472 kHz.

VHF: VHF radio station, call "Kpeme Port" on Channel 16.

TUGS: No tugs available. Two mooring launches of 150 h.p. each are at vessel's disposal.

BERTHING: Loading facility comprised of three artificial islands carrying conveyor belts for loading phosphate only. They are breasted by a row of four dolphins. Vessel moors using port anchor and wires to four buoys which hold the ship parallel to the dolphins and about 20 metres off. Springs are run to the dolphins. Each loader delivers at a rate of 1,250 tons per hour and two holds can be loaded at same time.

TANKERS: Moor at a special berth situated to the East at 0·4 miles away from the extremity of the phosphate pier. Submarine lines 12½ in. diameter, hose connections 8 in. diameter.

FRESH WATER: Not available.

FUEL: Not available.

MEDICAL: No facilities at Kpeme. In emergency, doctor obtained from Lome, about 25 miles away, or from Anecho, 7 miles away.

CONSULS: Nearest at Lomé.

REPAIRS: No facilities available.

CUSTOMS ALLOWANCES: 200 cigarettes or 2 oz. tobacco; one bottle of spirits. No Customs Authorities board the vessels or seal bonded stores.

REPATRIATION: No facilities exist for effecting crew changes. However, in emergencies repatriation can be arranged.

AIRPORT: Nearest Lome – four flights a week to Europe.

TIME: GMT.

TELEPHONES: Placed on board, charges included in stay-in-port tax.

SHORE LEAVE: Not allowed.

GENERAL: In the rainy season, high winds and swell may delay berthing operation.

AUTHORITY: Compagnie Togolaise des Mines du Benin, PO Box 379, Lome. Telex Phosphates Lome 5214. Cables: Phosphat Lome Togo.

LOME: 06.08 N. 01.17 E.

DOCUMENTS:

5 Crew Lists.
5 Kru-boy Lists.
5 Passenger Lists.
4 lists Previous Port of Call.
1 Maritime Declaration of Health.
1 List of arms and ammunition.

APPROACH: The approach to the port, by night, is assisted by three lights:

(1) *Baguida* (pos. 06° 09·5′ N. and 01° 19·5′ E.), occulting white and red. Lt. 2·5 sec., occ. 0·5 sec., period 3 sec. Vis. 17 miles. Sector: red 042°, covers the breakwater as well as the old Lomé Wharf (pos. 6° 07′ N. and 1° 13·5′ E.).

(2) *Lomé Togo-Port* situated on head of West breakwater (pos. 06° 08′ N. and 01° 17·5′ E.). Qk. Fl. (4) white and red every 10 sec. Vis. 5 miles. Red light sector covers only old wharf and is not visible seawards.

(3) *Lomé Light* situated near town of Lomé (pos. 06° 07′ N. and 01° 13′ E.). Group Fl. (2) white every 10 sec. Vis. 15 miles all around horizon.

By day, large, light-coloured transit sheds and a high, grey water tower (pos. 06° 08·5′ N. and 01° 16·5′ E.) are the first indications of port from seawards.

PILOTAGE: Pilots available seven days a week from 0600 to 1800 only. Pilot station equipped VHF radio and works 24 hours per day on Channel 16. Pilot boat green motorboat with orange superstructure and international flag "H". Pilot boards half a mile to one mile South-east of breakwater.

ANCHORAGE: Vessels which arrive during darkness should anchor about a half to one mile South to South-east of breakwater, in white sector of Baguida light in 8 fathoms, where good holding ground (sand) obtained. Northern boundary of anchorage is red sector of Baguida light.

MAX. SIZE: Maximum length 900 ft. (270 m.) and max. draft 31 ft. (9·5 m.).

HEALTH: Health Inspector will board on arrival alongside and examine for cases of infectious diseases, after which will declare vessel free or not. Vessels entering must fly international quarantine signal "Q". Large hospital situated in Lomé with European doctors in attendance.

RADIO: Lomé radio station can be contacted on 472 and 500 kHz, call sign "5VA". Port operations carried out on VHF Channel 16, with range of approximately 30 miles. Aero beacon (pos. 06° 10·7′ N. and 01° 16·3′ E.) call sign "LME" on 379 kHz.

TUGS: One tug 960 h.p. available. For vessels of more than 500 GRT tug is obligatory when berthing or unberthing.

STEVEDORES: Agent should be informed as soon as possible of ships' ETA, length, maximum draught, tonnage to load and/or discharge and number of gangs required. Agents should advise pilot station of vessel's ETA.

TANKERS: Togo-Port has sea pipe-line belonging to the Société Togolaise d'Entreposage. Tankers should moor at three large mooring buoys inside breakwater. Diameter of pipeline 8 in. Discharging about 230 tons per hour (depending on ship-pumps). Maximum length which can be handled at buoys is 720 ft. (220 m.) maximum draught 31 ft. (9·5 m.).

DENSITY: Density 1025. Harbour open to sea.

FRESH WATER: Available at every berth except tanker berth Delivery rate 45 tons/hour. Fresh water examined monthly for purity by Sanitary Authority.

FUEL: Diesel fuel only available for small craft, such as fishing vessels, small motor-ships and tugs.

FIRE PRECAUTIONS: No extraordinary precautions are required. Vessels with hazardous cargo should declare this on ETA telegram to Agent. During time in port these vessels should take necessary precautions themselves, and all fire hoses should be ready rigged on deck. By day international code signal "B" should be displayed and by night a red light should be shown at masthead or at an all-round visible place.

Smoking on berths and within sheds *strictly* prohibited. Infringements of fire regulations punishable by fine.

DEVELOPMENTS: A second quay, a fishing harbour, a slip for small vessels and a tanker berth are projected for the Eastern section.

GANGWAY/DECK WATCHMEN: Gangway watchmen and hatch security watchmen available; they wear a distinctive uniform.

OPENING/CLOSING HATCHES: Either ship's crew or dockworkers.

CERTIFICATES: All normal ship certificates should be available for inspection.

CUSTOMS ALLOWANCES: Because Togo-Port is a Free Port, no individual declaration by crew members necessary.

CARGO GEAR: No extraordinary regulations. No cranes available and ships' own gear used for discharging and loading.
IDENTIFICATION CARDS: Shore landing passes issued by port police and should be supplemented by personal ID-Cards.
CONSULS: Ambassadors or Consuls from nearly all major maritime nations at Lomé
REPAIRS: Minor repairs only.
DRY DOCKS: Not available at present, but a slip for small vessels is included in future development.
AIRPORT: Lomé airport with daily flights to Europe.
SEAMEN'S CLUB: A modern Seamen's Club with swimming-pool, bar and library situated ½ mile from port.
LOCAL TIME: GMT throughout year.
PUBLIC HOLIDAYS: New Year's Day (1 January); Independence Day (27 April); Labour Day (1 May); Christmas Day (25 December). All other holidays will be worked in port with supplementary labour charges.
POLICE/AMBULANCE/FIRE: Push-button fire alarms situated in every shed and on exterior South wall of shed "B". Telephone for contacting Police, Fire-Station or Hospital available day and night in Harbour Masters office.
TELEPHONES: Three public telephones within the port limits. No telephones on board.
SERVICES: No tank cleaning or compass adjusting available.
DELAYS: Ships berth in rotation of arrival at anchorage. Priority given to passenger ships as well as to vessels having less than 50 tons of cargo for discharge.
GENERAL: Distance from port to Lomé city-centre is 4 miles. Taxis available at entrance of port.
AUTHORITY: Port Autonome de Lomé, BP 1225, Lomé/Togo, West Africa. Cables: "Togoport". Telex. 243.
AGENT: Socopao Togo, B.P. 821, Lome. Tel. 55 88/89; Telex 205. Cables, "Freight Lome".

Tonga (Friendly Islands)

NUKU'ALOFA: 21.08 S. 175.12 W.

DOCUMENTS: *Immigration Dept.*
2 Crew Lists.
2 Passenger Lists.
Customs Dept.
2 Crew Lists.
2 Passenger Lists.
1 Bond List.
3 Cargo Manifests.
Agents
1 Crew List.
1 Passenger List.
3 Cargo Manifests.
PILOTAGE: Order through Agents at least 24 hours prior to arrival. Pilot boat may be contacted on R/T one hour before arrival at pilot station. This position is indicated on B.A. Chart (approaches to Nuku'alofa). There are two approaches, namely the Ava Lahi Passage and the Piha Passage.
Vessels may anchor in the vicinity of No. 1 Buoy if required to await Pilot, but this is not normally necessary as the Pilot is available as requested. Pilot boat carries usual signals.
ANCHORAGES: Vessels may anchor wherever they wish within the port, subject to the approval of the Harbour Master.
MAX. SIZE: length unlimited, beam unlimited, draft 40 ft.
HEALTH: Radio pratique may be requested from Tongamed, Nuku'alofa. Any suspected disease or fever must be reported by radio.
TUGS: No tug is required for berthing, but a tug is available in case of breakdown.
STEVEDORES: There is a Master Porter employed by the Queen Salote Wharf Administration, who will supply whatever gangs are required. The number of hatches to be worked and the tonnage of cargo must be passed by the Agent to the Harbour Master at least 24 hours before vessel arrives.
MEDICAL: It is advisable to inform Agent in advance should medical attention be required. Hospital facilities are available. Vaccination certificates are required for visitors who are staying. Ship's crew do not require them generally.
DENSITY: 1025 at all states of tide.
FRESH WATER: Available ex Queen Salote Wharf at 25 tons per hour delivery.
FUEL: A small quantity of light diesel fuel could be supplied, sufficient to enable a vessel to make the port of Suva.
DEVELOPMENTS: Will be of minor nature only during the next 5 years.
GANGWAY/DECK WATCHMEN: Not necessary as entry to wharf is restricted.
OPENING/CLOSING HATCHES: This work is completely optional.
CERTIFICATES: Normal requirements. Harbour Master may require to inspect cargo gear record.
CUSTOMS ALLOWANCE: A reasonable quantity is allowed by Customs according to expected stay in port. There are heavy penalties for smuggling.
CARGO GEAR: Valid certificates issued by competent authorities are recognised.
IDENTIFICATION CARDS: Not necessary.
CONSULS: None.
REPAIRS: Repairs can be carried out in the Marine workshop.
REPATRIATION: No facilities.
AIRPORT: 14 miles from town. Flights to and from Suva on Tuesdays, Thursdays and Saturdays.
TIME: Local time 13 hours fast on Greenwich.
HOLIDAYS: *No work of any description is permitted on the Sabbath. This is strictly enforced.* Official Holidays are: Christmas Day; Boxing Day; Good Friday; New Year's Day; Easter Monday; Anzac Day; Emancipation Day (June 4th); Constitution Day (4th November); H.M. Queen Elizabeth Birthday; King's Birthday (July 4th).
POLICE/AMBULANCE/FIRE: Telephone numbers not necessary. Just ask for the Department required.
AUTHORITY: Harbour Master, Queen Salote Wharf, Nuku'alofa. Tel. 264. Telegraphic address: "Marine, Nuku'alofa."
OTHER PORTS: Panga, Ha'api Group; Neiafu, Vava'u Group; both these ports are suitable for any size of vessel at anchor. Service is by lighter. Vessels of 400 ft. in length with a maximum draft of 22 ft. may berth at Neiafu.

Trinidad

BRIGHTON: (Texaco Oil Terminal): 10.15 N. 61.38 W.

DOCUMENTS/HEALTH/CONSULS, etc.: Refer to "Port of Spain".
PILOTAGE: Compulsory.
ANCHORAGE: Good holding ground in roadstead. Loading pier situated 10° 15′ N. – 61° 38′ W., extending in a N.W. direction for 2010′.
RESTRICTIONS/MAX. SIZE: Outer Berth East, 29 ft. 6 in. MLWST; Outer Berth West, 24 ft. 6 in. MLWST; Centre Berth East, 21 ft. 6 in. MLWST; Centre Berth West, 21 ft. 6 in. MLWST; Inner Berth West, 21 ft. 6 in. MLWST.
TUGS: Not used. Launch assists with lines.
STEVEDORES: Supplied by Agent if necessary for loading Asphalt in drums only.
FRESH WATER: Available only at berth. Pumping rate 15 to 20 tons per hour.
FUEL: All grades of fuel alongside or by barge. Fresh water.
WATCHMEN: Customs guard on 24 hours duty at ship's side.
CUSTOMS ALLOWANCES: 200 cigarettes and moderate amount of spirits.
IDENTIFICATION CARDS: Not required.
REPAIRS AND DRY DOCKS: At Chaguaramas.
MEDICAL: All facilities available.
REPATRIATIONS: Can be arranged.
AIRPORT: See Port of Spain.
TIME: GMT minus 4 hours.
TELEPHONES: No facilities for telephones on board.
SHORE LEAVE: No restrictions.
DELAYS: Not usual.
AGENT: See "Port of Spain".

CHAGUARAMAS (Bauxite Transhipment Station): 10.40 N. 61.39 W.

DOCUMENTS/HEALTH/CONSULS, etc.: Refer to "Port of Spain".
PILOTAGE: Compulsory. Pilots board in Chaguaramas Bay – 10° 46′ N. – 61° 43′ W.
ANCHORAGE: Safe anchorage in Chaguaramas Bay between mainland and Gaspar Grande Island about ½ mile off the dock.
RESTRICTIONS/MAX. SIZE: No restrictions night operation. Two docks – main wharf with overhead cranes for loading and discharging bauxite – 960 ft. long, maximum draft 32 ft. Smaller wharf – 400 ft., draft 25 ft.
TUGS: Not used. Launch assists in mooring.
STEVEDORES: Not necessary. All loading/discharging done by Chaguaramas Terminals employees.
FRESH WATER: Available from dock, 40 tons per hour. Also supplied by barge.
FUEL: Can be delivered from dock or supplied by barge.
WATCHMEN: Customs guards on duty at ships side.
CUSTOMS ALLOWANCES: 200 cigarettes and a moderate amount of spirits.
IDENTIFICATION CARDS: Not required.
CARGO GEAR: Loading – carried out with travelling tower rate 1,000 tons per hour. Conveyor system. Discharging – carried out with travelling rig of two 4 ton grabs. Conveyor system.
REPAIRS/FLOATING DOCK: Operated by Furness Smiths Dock (Trinidad) Ltd. Displacing up to 11,380 tons, 560 ft. long vessels. Also good berthing alongside, draft to 35 ft., and a safe close anchorage, draft 50 ft. General extensive repairs undertaken.
MEDICAL: All facilities available.
REPATRIATION: Can be arranged.
AIRPORT: See Port of Spain.
TIME: GMT minus 4 hours.
TELEPHONES: No facilities for telephones on board.
SHORE LEAVE: No restrictions.
AGENT: See "Port of Spain".

CRONSTADT ISLAND: 10.39 N. 61.38 W.

Terminal owned and operated by Barytes and Minerals Ltd., handling bulk barytes.

Vessels from abroad calling at Cronstadt are required to proceed first to Chaguaramas for clearance formalities.

DOCUMENTS/HEALTH/CONSULS, etc.: Refer to "Port of Spain".

PILOTAGE: Compulsory.

TUGS: One tug used for berthing if required.

RESTRICTIONS: Berthing/unberthing in daylight only.

MAX. SIZE: 400 ft. length. This size vessel would overhang wharf approx. 100 ft. fore and aft. Draft not limited as depth of water alongside is 60 ft.

BERTHING: Vessel moored with 2 springs, 3 head and stern lines to dock. Discharging carried out with shore crane grab bucket 3 tons capacity.

FRESH WATER: available by barge.

FUEL: Available by barge.

AGENT: See "Port of Spain".

GALEOTA POINT: 10.05 N. 61.00 W.

LOCATION: Galeota Single Buoy Mooring Terminal is located 3 miles on a bearing of 192° from Galeota Point Lighthouse, and is an open, unsheltered roadstead. Galeota Point is a narrow headland about 210 ft. high and located in lat. 10° 08′ 00″ N. and long. 60° 59′ 30″ W. The lighthouse, situated on top of the point, exhibits a light 240 ft. above sea level which flashes white every five seconds, and is seen for 22 miles. The buoy itself exhibits a quick flashing (one flash per second) red light, 10 ft. high, and visible for four miles through 360°.

DOCUMENTS:

Health Declaration, International Health Form to be filled out by Master on arrival.
De-rat Certificate/De-rat Exemption.
4 Crew Lists.
Ship's Register.
2 Stores Lists, signed by Master.
2 Passenger Manifests, if any passengers on board.
Bonded-stores List, each crew member is allowed to retain in his possession 200 cigarettes and one bottle of spirits. The balance must be listed and will be sealed in a locker by the Customs.
Clearance from last port of call.
Manifest, or if no cargo a statement that vessel is in ballast.

PILOTAGE: Vessels arriving should approach to within three to four miles of Galeota lighthouse, on a bearing of 220/230° and will be met by the Amoco Mooring Master and a Trinidad/Tobago Pilot. The Pilot will be stationed on the bridge and will advise the vessel on the approach to the buoy. The Amoco Representative will be positioned in the bow to advise the ship's crew in picking-up and making fast the floating nylon mooring lines.

Vessels are requested to have a pilot ladder safely and securely rigged, ready for immediate use, and long enough to reach the Mooring Master's launch. If at night, adequate lighting must be rigged overside for the Mooring Master to approach the side of the ship and climb the safety ladder.

ANCHORAGE: Approaching vessels should never anchor to the East or North-east of Galeota Point. A submarine pipe-line from a platform in lat. 10° 10′ 24″ N. and long. 60° 39′ 56″ W. enters the Galeota Point area about ½ mile Northward of the lighthouse. Vessels should approach from the South-westward, and never anchor in the vicinity of the SBM or between the buoy and the coastline.

RESTRICTIONS: The Galeota Terminal operates twenty-four hours per day, seven days a week. Ships are loaded and unmoored at any hour, weather and other circumstances permitting. Vessels are moored during daylight hours only; however an exception to this rule may be made at the discretion of the Terminal.

NOTICE OF READINESS: The company will make every effort to load vessels upon arrival or as promptly as berth is available, weather permitting.

Notice of Readiness will not be accepted as at time of arrival, unless the vessel is in all respects ready to load. Arrival time will be considered as the time the Mooring Master boards the vessel or the time that the vessel anchor, whichever occurs first.

In the event that the berthing is delayed on account of weather, vessels will keep their position in line. Vessels required to leave the port area on account of weather (port closed) should keep in contact with the Terminal via radio in order that they will be available when the weather moderates.

RADIO: Incoming tankers must send ETA via commercial radio station 9YL three days before arrival, on the marine HF frequencies. Galeota Point listens on 2182 kc/s and operates with Amoco's marine units on 2398 kc/s.

Ships equipped with FM/VHF radio may call Galeota Point on 156·8 Mc/s, Channel 16.

The first ETA messages should also include a definite statement of the details of any equipment required from shore for connecting submarine hoses to ship's manifold. Further ETA messages should be sent to Amoco when the vessel is 24 and 12 hours distant from Galeota Point and at any other time any appreciable change occurs in the original ETA or those subsequent thereto. The 12 hours ETA should include a positive statement regarding ship's readiness to load on arrival and the number of hours that will be required to discharge ballast after ship is berthed in mooring.

Ship-to-shore communications while ships are in moorings will be by portable VHF radio telephone units. The Mooring Master will advise Masters and Officers regarding the emergency whistle signals set up for use in event VHF radio telephone units become inoperative. The use of the ship's radio station and/or battery-charging equipment is prohibited during cargo transfer operations.

CLEARANCE: Trinidad and Tobago Customs Officials will be stationed at Galeota and in most instances the Customs Officer will also handle the duties of the Quarantine and Immigration Officers. Should Customs guards be stationed on board vessel while in the moorings, it is expected that ship will provide foods for these guards and other officials. All vessels calling at Galeota Terminal must provide an accommodation ladder for the officials.

SINGLE-BUOY MOORING: The tankers load by means of a 42-in. pipe-line from shore to SBM which is 3 miles offshore. The ballast water is pumped ashore through a 16-in. submarine line. The buoy piping consists of two 20-in. diameter for crude and one 16-in. diameter for deballasting with a by-pass. The loading hoses from the buoy to the tanker consist of two 20-in. floating hoses, 770 ft. long ending in 12-in. hoses of 105 ft. length.

This SBM is designed for maximum tanker size of 250,000 dwt. and is located in 95 ft. water depth. Amoco maintains launches to assist in mooring and unmooring vessel.

Tankers to have ready two nylon or manila messenger lines of not less than 6 in. circumference and at least 300 ft. long.

HOSE CONNECTIONS: After the tanker is securely moored the floating loading/deballasting hoses must be lifted to the rail with ship's equipment. The two 12-in. hose lifts weigh about 5 tons each. The flange connection on each hose is for a 12-in. manifold. Hoses are lifted individually by the ship's gear, and may be connected on either the port or starboard side. The 12-in. hoses are connected direct to the manifold and tankers should have their manifold fittings available.

The Mooring Master and the hose crew will sling and connect the hoses to the vessel's manifold. The ship's personnel are expected to operate the winch and assist where necessary. A deck officer should be present at all times.

BALLAST: No dirty ballast will be pumped overboard. A separate ballast disposal line (16 in.) is available at the terminal to pump ballast to a pit on shore where oil and water can be separated, and disposal made.

A vessel must have sufficient ballast for safe manoeuvring, and usually one-third of its tonnage is adequate. However, by a careful watch of the weather information and berthing instructions and by a knowledge of the behaviour of his own vessel a Master may desire to come to the terminal with minimum ballast.

In addition to the lights usually displayed, vessels discharging ballast or loading cargo during darkness will illuminate the area around the ship to the satisfaction of the Mooring Master, in order that any oil on the surface of the sea may readily be detected, and appropriate action taken. Vessels unable to illuminate the sea satisfactorily may not discharge ballast during darkness. Vessels should provide suitable flood-lights for working on deck during night operation.

Vessels equipped with a separate system of ballast tanks will be allowed to discharge ballast and load oil simultaneously, providing approval is received from the Terminal Superintendent.

All precautions shall be taken to prevent any loss of oil overboard, drip pans must be in place, and used when disconnecting oil hose from manifold. The waters in and adjacent to the Galeota Terminal must never be polluted.

LOADING: Maximum crude oil loading rate through two 12-in. deck hoses is about 25,000 b.h.b. The flow is by pump and the line pressure will not exceed 60 psi.

Tankers valves must not be closed against incoming oil stream. At least three minutes is required to shut down pumps and stop flow of oil.

If ship-to-shore communications fail, the emergency signal is a continuous blast on the tanker's whistle.

MEDICAL: Vessels requiring emergency medical assistance should immediately contact the terminal by Marine VHF radio, and supply the necessary pertinent information which will be passed to the Agent.

Neither medical nor hospital facilities are available at Galeota or provided by Amoco. Limited facilities are available in Mayaro, which is about 30 min. drive, and unlimited service is available in Port of Spain, which is 2 hours drive.

FRESH WATER: Only available by barge from Port of Spain.

FUEL: Only available by barge from Port of Spain.

REPAIRS: Masters of vessels loading or discharging at Galeota Terminal are advised that this port is considered an "open roadstead" and under no circumstances may engines be shut down for repairs while their ships are moored in the SBM system. There are no facilities for making vessel repairs, but arrangements may be made through vessel's Agent to utilize the Port of Spain facilities.

It is emphasized that all vessels in the SBM system must be in readiness to clear immediately on instructions to do so.

CONSULS: Nearest at Port of Spain.

TIME: GMT minus 4 hours, and daylight saving (summer time) is not applicable.

SHORE LEAVE: Shore leave for personnel of vessels loading or unloading at the terminal arranged through the vessel's Agent. All personnel going ashore must land at the Amoco small-boat harbour. Sufficient crew must be aboard at all times for letting go lines in order to clear the mooring immediately if necessary.

All vessels are required to fly the Trinidad and Tobago ensign on the foremast during daylight hours. Flags may be obtained from Agent.

The presence of unauthorized craft alongside is extremely hazardous. Ship's Masters are requested to require all non-Amoco craft to clear ship's side as soon as personnel have been embarked or disembarked.

No stores may be handled on the weather deck while ship is loading cargo, discharging dirty ballast, or while any ullage hatches, loading hose, or tank tops open.

A safety check-off list and terminal rules for safety will be delivered by the Mooring Master.

TERMINAL OPERATORS: Amoco Trinidad Company, POB 714, Trinidad, West Indies. Cables "Amocotri Trinidad". Telex "Amoco WG 287.

POINTE-A-PIERRE (Texaco Oil Terminal and Refinery): 10.19 N. 61.28 W.

DOCUMENTS/HEALTH, etc.: As for "Port of Spain".

Officials require accommodation ladder to be rigged, usually on port side, for boarding and clearance.

PILOTAGE: Compulsory. Pilot ordered by Agent after receipt of ETA. Pilot ladder conforming to International Safety Regulations to be supplied by vessel.

ANCHORAGE: Safe anchorage and good holding ground in the roadstead. On account of Pierre Shoal, a 21 ft. patch about 1¾ cables South-west of the head of the main viaduct, vessels of moderate draft should approach with the main viaduct bearing more than 075°. The main viaduct consists of pipe-lines supported by reinforced concrete piling, located at 10° 20′ N. – 61° 30′ W. and extends in a W.S.W. direction for 6,190 ft.

RADIO: Texaco Trinidad Inc. maintains their own radio station on frequency 2638 Mc/s. and VHF Channels 16, 13, 12, 11, 8 and 6.

MAX. SIZE:

No. 1 berth North: 40 ft. MLWST; 720 ft. LOA.
No. 2 Berth North: 40 ft. MLWST; 775 ft. LOA.
No. 2 berth South: 35 ft. MLWSTe 330 ft. LOA.
No. 3 berth North: 35 ft. MLWST; 640 ft. LOA.
No. 3 berth South: 20½ ft. MLWST; 350 ft. LOA.
No. 4 berth North: 21 ft. MLWST; 350 ft. LOA.
No. 5 sea berth: 40 ft. MLWST; 900 ft. LOA.
No. 6 sea berth North: 48 ft. MLWST; no limit.
No. 6 sea berth South: 48 ft. MLWST; no limit.
No. 7 berth: 35 ft. MLWST; 700 ft. LOA.
No. 8 berth: 33 ft. MLWST; 570 ft. LOA.

TUGS: Texaco Trinidad Inc. maintains three tugs to assist in berthing.

FRESH WATER: Available alongside or by barge (if available and adequate notice given prior arrival).

FUEL: All grades supplied alongside or by barge.

SPECIAL PRECAUTIONS: Tankers loading or discharging.

Bonding: When a ship has docked, the bonding cable and hose shall be connected.

Weather: Loading and discharging of dangerous petroleum may be stopped during an electrical storm and ullage screens or ullage plugs must be put in place.

Emergency alarm: This safety device is conveniently placed on all docks and is under the control of the jetty personnel. This is used only in cases of emergency and has the effect of stopping all shore pumps immediately it is used. Owing to the size of vessels using No. 6 Berths, loud-sounding horns are situated on the hose structures and are sounded by the jetty attendant when urgent attention from the ship is required.

Hose pressure: The maximum discharge pressure allowed on the jetty hose is 130 pounds. Pressure of jetty hose for loading shall not exceed 130 pounds.

Hot work: No burning, welding or major repairs can be carried out in the harbour without permission. Repairs involving hot work may be started only if a permit has been issued and the necessary gas-free certificate granted by the Company's qualified inspector.

Hoses: Loading hoses are connected up by dock personnel, but must be supported by ship's tackle at the rail during loading or discharging. Ship's officers should keep a close watch on the hose during operations and stop loading and/or discharging operations if anything untoward happens to the hoses. A drip pan is to be placed under all hose connections in use. After loading fuel oil, Marine diesel or NOR, air is used for displacing hose contents into the vessel before being disconnected. For all other products the hose is drained into ship's tanks or jetty slop tank.

Towing wires: On completion of mooring on arrival, a suitable wire shall be hung over the bow and stern on the side away from the dock so that, in an emergency a tug can tow the ship off. The wire should be properly secured on board and it should be long enough to reach the water's edge at the ship's lightest draft.

No Smoking: Smoking is prohibited on all the piers and launches. Smoking on board ship is permitted only in those enclosed spaces that are specifically designated by the Master as "Smoking Areas".

Tank lids: Tank lids must be closed while handling cargo, and at all other times if tanks are not free of gas. Flame screens must be in position on all open ullage plug holes.

GANGWAY/DECK WATCHMEN: An efficient watch must be maintained on deck and in the engine room of all ships in port, and a sufficient number of men must be on board at all times to move the vessel either for harbour operations or in emergency situations.

CUSTOMS ALLOWANCES: 200 cigarettes and moderate amount of spirits.

IDENTIFICATION CARDS: Not required.

MEDICAL: Advance notice of medical attention preferred. Modern hospital facilities.

TELEPHONES: On dockside and at all sea berths.

SHORE LEAVE: Crew not allowed ashore at Pointe a Pierre. Regular launch service from ship to San Fernando, 3 miles away.

AGENT: See "Port of Spain"

POINT FORTIN (Shell Oil Terminal): 10.12 N. 61.42 W.

DOCUMENTS/HEALTH/CONSULS, etc.: Refer to "Port of Spain".

PILOTAGE: Pilotage is compulsory. Pilots board ½ mile off main jetty (Lat. 10° 12′ N. – Long. 61° 42′ W.).

ANCHORAGE: There is safe anchorage ½ mile off the head of the jetty.

MAX. SIZE: Jetty 2 miles long with "T" head providing two outer berths of 700 ft. length and a depth of 38 ft. One inner berth of 300 ft. length and a depth of 35 ft. and other inner berths of 300 ft. length with a depth of 15 ft. 6 in.

One conventional buoy mooring (six-buoy mooring) of 850 ft. length and a depth of 53 ft. situated 4,819 ft. North off jetty head.

TUGS: Required for berthing at outer berths for vessels of 30,000 dwt. and over and for unberthing vessels with a draft of 36 ft. or deeper. Also required for berthing and unberthing at conventional buoy mooring. Launch assists in berthing and unberthing.

BERTHING: Bottom alongside, mud; back pressure (hose), 100 lb; Current, flood South-westerly, ebb North-easterly 2 to 5 knots; rise and fall tide, 4 ft.

FRESH WATER: Not available at CBM.

FUEL: Not available at CBM.

DIRTY BALLAST: No facilities available. Only small amount (approx. 200 tons) tank drainings acceptable on jetty and only if fluid at ambient temperature.

PRECAUTIONS: Normal oil terminal safety precautions applicable.

WATCHMEN: Customs guards on duty at ship's side.

CUSTOMS ALLOWANCES: 200 cigarettes, and a moderate amount of spirits.

IDENTIFICATION CARDS: Not required.

REPAIRS AND DRY DOCKS: At Chaguaramas.

MEDICAL: All facilities available.

REPATRIATIONS: Can be arranged.

AIRPORT: See Port of Spain.

TIME: GMT minus 4 hours.

TELEPHONES: No facilities for telephones on board.

SHORE LEAVE: No restrictions.

AGENT: See "Port of Spain".

POINT LISAS: 10.22 N. 61.29 W.

DOCUMENTS:

7 Copies Crew List.
2 Copies Ship's Stores List.
1 Copy Crew Stores List.
4 Copies Immigration arrival Report (supplied on arrival).
1 Declaration of Health (supplied on arrival)
Ship's Register.

PILOTAGE: Pilots ordered through Agent; 48/24/12 hour ETA needed. Pilotage is compulsory. Pilots board at Head of Pt. Lisas Channel (10° 22′ 37″ N., 61° 39′ 38″ W.); Pilot ladder conforming to International Safety Regulations to be supplied by vessel.

Launch hire arranged by Dock Master to take out Pilot to vessels on arrival, and again take off Pilots from vessels on departure.

CLEARANCE: Point Lisas being a port of entry is equipped with resident Customs Officer and Guard. Ships arriving from abroad could proceed directly to Point Lisas as Customs officer acts for Harbour Master/Immigration/Port Health. Tel. 659 2221.

ANCHORAGE: Safe anchorage ¼ mile off head of channel. On occasions, when port congested, vessels may be requested to anchor Port of Spain Roads (10° 41′ N. – 61° 33′ W.) before proceeding Pt. Lisas.

RESTRICTIONS: No restrictions on night entry – departure.

MAX. SIZE: Point Lisas "Liquid Pier" (vessels handling bulk sugar, molasses and liquid petroleum gases). Maximum LOA: 600 ft. Maximum draft: 28 ft. LW.

Point Lisas "Solids Pier" (vessels discharging sulphur, and loading bagged and bulk fertiliser). Maximum LOA: 280 ft. Maximum draft: 18 ft. LW.

HEALTH: Crews of vessels arriving must have valid Vaccination Certificates, covering smallpox. If not in possession, Master should advise when giving ETA and Port Health Officer will vaccinate on arrival.

For quarantine if required, or authentication of vaccination certificate, Honorary Port Health Officer could be in attendance at short notice. Tel. 656 2311.

TUGS: Molasses, bulk sugar and LPG carriers use a tug to assist in berthing and unberthing at Pt. Lisas "Liquid Pier". Tug will be ordered by the Agent.

STEVEDORES: If necessary will be ordered by Agents. No ETA to stevedores necessary.

FRESH WATER: Supplied at both piers. Also by barge.

FUEL: All grades supplied by barge. At "Solids Pier" gas oil only can be supplied ex shore installation.

PRECAUTIONS: When loading LPG – no smoking on pier or on ship's deck.

WATCHMEN: Customs guards on 24 hours duty at ship's side.
OPENING/CLOSING HATCHES: Normally by crew.
CUSTOMS ALLOWANCES: 200 cigarettes and a moderate amount of spirits.
IDENTIFICATION CARDS: Not required.
CONSULS: At Port of Spain.
REPAIRS AND DRY DOCKS: At Chaguaramas, 20 miles North of Pt. Lisas.
HOLIDAYS: New Year's Day (January 1st); Good Friday; Easter Monday; May Day (May 1st); Whit Monday; Corpus Christi; Discovery Day (August 5th); Independence Day (August 31st); Diwali Day (late October/early November); Eid-ul-Fitr (December 21st–22nd, approximately); Christmas Day (December 25th); Boxing Day (December 26th). Work is possible, except for May Day, on these holidays.
POLICE/FIRE/AMBULANCE: Accidents – Police – Help, 62999; Fire – First Aid, 62998; Foreign Calls, 6216.
VHF SERVICE: Pt. Lisas Dockmaster can be contacted on VHF Channels 16, 14 and 12.
MEDICAL: Advance notice of attention required will assist. Modern hospital facilities available.
REPATRIATIONS: Crew changes and repatriation can be arranged.
AIRPORT: Piarco International Airport – 30 miles from Point Lisas. Daily flights to world-wide destinations.
TIME: GMT minus 4 hours.
TELEPHONES: No facilities for telephones on board.
SERVICES: Efficient maintenance gang available for normal work, tank cleaning, painting, etc.
SHORE LEAVE: No restrictions.
DELAYS: Due to congestion, sometimes delays are unavoidable, usually not more than 24 hours.
AUTHORITY: Federation Chemicals Ltd.

AGENT: Melville Shipping and Trading Ltd., Steamship Operators and Agents, 72/74 South Quay, Port of Spain. Tel. 34365, 38972, 32174, 32175. Telex: POS 36395. Cables: MELTRA. Code: New Boe. Bankers: Royal Bank of Canada. AO Tel. 43149, 44119, 41950, 22212.

PORT OF SPAIN: 10.39 N. 61.32 W.

DOCUMENTS:
For Immigration. On boarding, 3 Crew Lists and 3 Passengers Lists if passengers on board. Inspection of Derat. Certificate. Health Declaration and arrival report forms supplied by Immigration on boarding to be made up. Passengers and Crew must have valid smallpox certificates.
For Customs. 2 Crew Lists and 1 Passengers List if passengers on board, 2 Customs Ship's Stores Lists, 1 Crew's Stores List. Forms supplied on boarding.
Port doctor will board if calling from quarantine port. No forms required other than inspecting smallpox certificates of crew and passengers.
PILOTAGE: Not compulsory to Port of Spain anchorage but if required will attend from outside Bocas or where required through Agents in ETA message. Calling Pilot International Code Flag "H" by day and white light over red at night or International Code signal "G" on whistle.
Gangway or standard type pilot ladder with spreaders about 10 ft. apart. Ladder must be clean. It is desirable that 1 stanchion be securely fitted in the bulwark at the top of the ladder.
Pilot station is situated on Port of Spain Wharf.
ANCHORAGE: Depends entirely on draft but should not be nearer than ½ mile from Grier Channel entrance. except in cases of vessels loaded with explosives; this anchorage is clearly defined on Chart.
Open roadstead in Gulf of Paria but can be considered as sheltered with choppy seas at times. Bottom shelves gradually from shoreline to 7 fathoms at Western end of harbour limits, increasing to 20 fathoms outside harbour limits Westward. Type of bottom, mud. Swinging area unlimited. No mooring buoy. Distance from anchorage to shore 2¼ miles at 5 fathoms to 5 miles at 7 fathoms, vessel will swing to the tide if loaded, and to the wind if light.
Currents ½ to 1½ knots flood and ebb rise and fall of tides, variable minimum 1 ft. 5 in. maximum 4 ft. Rainy season June–December. Dry season December–June not always predictable. Rain squalls occur during months of July, August and September up to 30 to 40 knots unpredictable hurricane most unusual. Prevailing winds are mostly Easterly. Normally stronger during daylight.
RADIO: Advise through North Post wireless or telephone, call sign 9 YL. ETA 48 hours and 24 hours with other requirements.
RESTRICTIONS/MAX. SIZE: The Grier Channel, 350 ft. wide, leads to a dredged basin in which are the docks. No restrictions length, but maximum draft in channel, in basin and alongside is 30 ft. There is 4,600 ft. of docking area.
HEALTH: Crews of vessels arriving must have valid Vaccination Certificates, covering smallpox. If not in possession, Master should advise when giving ETA and Port Health Officer will vaccinate on arrival.
TUGS: There are 3 tugs in Port of Spain to assist in docking operations.
BERTHING: Eight berths with 32 ft. depth. Length of wharf 4,500 ft. Width of apron: King's Wharf 50 ft., extension 75 ft. Warehouses: Seven on wharf face, 254,250 sq. ft. Nine other warehouses, 136,147 sq. ft.
STEVEDORES: Labour on Docks and labour on ships: Controlled by Port Contractors Ltd. Ordered by Agents. Gang size on Docks: 14 to 18 men. Gang size on vessels: 13 men, 1 gangman, 2 winch drivers, 8 hold men, 1 cooper, and 1 hatch foreman.
CARGO HANDLING: One berth on the Eastern side is an open wharf without a seafront warehouse. This berth is strictly used for containerised and passenger (cruise) vessels. The Eastern wharf is 3,300 ft. with five seafront warehouses. On the Western side the wharf is 1,200 ft. long with two seafront warehouses for general cargo, but at these two berths there are also facilities for receiving bulk cargo, i.e. grain, liquid oil, fats and molasses. These cargoes are usually discharged by vessel's equipment, but grain can be discharged by shore equipment at a slower rate.
There are now one floating crane, 60 tons capacity, one crawler crane of 160 tons capacity and also one 125-ton fork lift for handling 20 ft. containers. There is also a trailer service for 20 ft. containers from dock to consignee's warehouse.
FRESH WATER: Supplied alongside all berths.
FUEL: All grades supplied by barge.
WATCHMEN: Customs guards on 24 hours duty at ship's side.
OPENING/CLOSING HATCHES: This is handled by stevedores.
CUSTOMS ALLOWANCES: 200 cigarettes and a moderate amount of spirits.
CARGO GEAR: Vessels normally load and discharge with their own gear but shore cranes and heavy lift cranes available on the dock.
IDENTIFICATION CARDS: Not required.
CONSULS:

Tunisia

BIZERTE: 37.17 N. 09.54 E.

DOCUMENTS:
3 Crew Lists.
3 Passenger Lists.
4 Crew Personal Effects Lists.
Health Declaration.
Manifest of provisions on board.
2 copies vessel's particulars declaration.
PILOTAGE: International Code signals are used to call Pilot. The pilot station can be contacted by VHF or radio/telephone via. Goulette Radio, call sign 3VW. Pilot's telephone number 02.31.139. Vessels awaiting Pilot may anchor outside the port entrance 50 m. from the breakwaters in depths of 13 m.
RESTRICTIONS: Entry at night is forbidden for tankers, which must complete their berthing operations one hour before sunset.
MAX. SIZE:

Petrol Harbour	Berth A maximum length 225 m., Draft 40 ft.
	Berth B maximum length 130 m., Draft 27 ft.
Commercial Harbour	3 berths maximum length 220 m. Draft 30 ft.
Cement Wharf	Maximum length 150 m., draft 25 ft.
Douaria Quay	Maximum length 150 m., draft 27 ft. 6 in.
Melasse Pier	Maximum length 130 m., draft 30 ft.
Coal Quay	Maximum length 150 m., draft 16 ft.

HEALTH: Free pratique normally given at the quays after mooring. Pratique is automatic for vessels coming from another Tunisian port. In case of suspected disease on board vessel will be ordered to quarantine anchorage.
RADIO: Messages for the port authorities can be sent by VHF Bizerte Radio call sign 3 VW 3. Other messages to Agent should be sent through Tunis Radio call sign 3 VT.
TUGS: Tugs normally join vessel about 100 m. outside the entrance channel and if requested will come further out. Ship's lines always used.
BERTHING: Can be carried out at any time.
STEVEDORES: Minimum of 24 hours advance notice of ETA to Agent is required.
MEDICAL: Doctor available to board vessel. Hospital, private clinics and all facilities available. 48 Hours notice required for Smallpox, Cholera, and Yellow Fever inoculations.
TANKERS: *Berth A.* Loading arms for fuel, gas-oil and petroleum products all 10 in. diameter. Ballast line 12 in. diameter.
Berth B. Loading arms for all products except LPG are 8 in. dia. L.P.G. two loading arms of 4 in. diameter.
S.I.T.R. are equipped with an oil/water separator for ballast only. They are not able to accept residues from tankers.
FRESH WATER: Available from the quay at most berths. Rate 10/15 cubic metres per hour.
FUEL: Can be supplied subject to 48 hours notice.
FIRE PRECAUTIONS: The Petrol Harbour is equipped with fire hydrants. A tug of 1,200 h.p. is required to be permanently standing by when tankers are moored alongside the quay.
WATCHMEN: It is recommended to employ shore watchmen.
OPENING/CLOSING HATCHES: Carried out by stevedores at the request of Masters.
CUSTOMS ALLOWANCES: Each crew member is allowed one carton of cigarettes and one opened bottle of wine or spirits. In case of a prolonged stay in port, Customs may renew these quantities.
IDENTIFICATION CARDS: Crew members' identification cards will be collected by the Immigration service and exchanged for shore passes while vessel is in port.
CONSULS: France Tel 02.31.466. Italy Tel. 02.31.747.
REPAIRS: All hull, deck and engine repairs can be effected.
DRY DOCKS: 4 dry docks available the largest of which has a length of 247/50 m. and is 40/60 m. wide.
REPATRIATION: Can be arranged.
AIRPORT: Tunis and Carthage airport is situated 70 km. from Bizerte. Served by international airlines.
TIME: GMT plus 1 hour all year round.
HOLIDAYS: There are 17 days official holiday during the year. Work can be carried out on all holidays except 1st May on payment of 100% overtime.
POLICE/FIRE/AMBULANCE: Police Tel. 02.31.200; Fire 02.31.022; Ambulance 02.31.422.
SHORE LEAVE: Allowed.
AUTHORITY: Direction du Port de Bizerte, Rue Tanak bn Ziada, Bizerte. Tel. 02.31.139–02.31.412.

LA GOULETTE (including Tunis): 36.49 N. 10.18 E.

DOCUMENTS: *Required by Police:*
2 Crew Lists.
2 Passenger Lists.
Required by Customs:
1 Crew List.
2 Passenger Lists.
2 Crew Manifests.
Required by Port Health:
1 Crew List.
1 Passenger List.
PILOTAGE: To call Pilot contact Goulette Radio station, call sign 3VW, 24 hour watch on 2182 kc/s. Pilot boats are in permanent direct contact with Goulette Radio. International code visual and sound pilot signals may be used on arrival at the sea buoy.
Pilot launches are stationed inside the port, and proceed on call to meet vessels about a ¼ mile beyond the sea buoy, i.e. the buoy No. 1 in the entrance channel to the port.
ANCHORAGE: Anchorages in the port roads are safe except during strong winds and heavy seas from the North or North-east; good holding ground.
Larger vessels anchor about ½ mile North-east of the sea buoy in depths of 12–14 m. Small vessels may anchor either North or South of the approach channel in depths of 7–9 m. in the vicinity of buoys Nos. 4 and 5 provided that they do not obstruct navigation in the entrance channel.
RESTRICTIONS: Tankers and ore carriers are not allowed to enter and leave port during the hours of darkness. Depth of water at low water is 27 ft. 6 in.
MAX. SIZE: *La Goulette:* up to maximum draft 27 ft. 6 in. Max. length 200 m. *Tunis:* up to maximum draft 21 ft. 6 in.
HEALTH: Master is required to complete Declaration of Health on arrival. Vessels which have previously called at another Tunisian port are given automatic free pratique except in time of epidemic.
RADIO: Tunis Radio 24 hour watch on 2182 kc/s, radio-telephone watch from 0600 to 2200 on 500 kc/s. Goulette Radio call sign 3VW 24 hour watch on 2182 kc/s.
TUGS: Are available to assist berthing as directed by the Pilot. Tugs join vessels in the vicinity of buoys Nos. 4 and 6, that is 400 or 500 m. from the berths. Vessels lines always used.
STEVEDORES: Gangs are ordered before 0600 for morning work; before 1300 for the afternoon and before 2000 for night work.
MEDICAL: Preferable to advise Agent in advance if doctor required on board. Crew members should possess international vaccination certificates.
TANKERS: One berth is reserved for tankers with a maximum draft of 27 ft. 6 in.
FRESH WATER: Hydrants are situated on the quays supplying fresh water at a rate of 12–15 cub. metres per hour. A water barge of 50 tons capacity can supply vessels at anchor.
FIRE PRECAUTIONS: A watchman has to be permanently employed on board tankers when alongside. A tug equipped with fire-fighting equipment is required to stand by tankers discharging.
DEVELOPMENTS: Dredging is being carried out to provide a depth of 11.60 m. in the entrance channel, and a depth of 11 m. at the oil berth. When dredging is completed the maximum allowable draft will be 32 ft.
WATCHMEN: The employment of gangway watchmen is necessary.
OPENING/CLOSING HATCHES: Are performed by ship's crew.
CUSTOMS ALLOWANCES: Each crewman is allowed two packets of cigarettes or 4 cigars or 50 gr. of tobacco and one opened bottle of alcohol.
CONSULS: Following countries are represented in Tunisia:

Australia	Italy	Panama
Denmark	Morocco	Algeria
France	Norway	Venezuela

REPAIRS: Machinery and boiler repairs can be effected on board. For large repairs it is necessary to send part to the Shipyards of Soconema at Menzel Bourguiba – 70 miles away.
DRY DOCKS: at Menzel Bourguiba 4 dry docks, the largest of which is 253 m. long 41 m. wide, 10.5 m. depth.
REPATRIATION: Can be arranged.

AIRPORT: Situated 10 km. from the port. Regular daily flights to Europe and N. Africa.
TIME: GMT plus 1 hour. No alterations during the year.
HOLIDAYS: 20th March (Independence Day); 1st May (Labour Day); 25th July (Republic Day); 15th October(Evacuation Day). In addition there are 13 other holidays on which work is carried out on payment of overtime.
POLICE/FIRE/AMBULANCE: Tunis Police, tel. 5389; Goulette Police, tel. 275.028; Fire. 198; Ambulance 260.022.
Telephones can be connected on board vessels and are compulsory for tankers.
SHORE LEAVE: Crew members are permitted to go ashore obtaining a pass from the Port Police.
AUTHORITY: Office des Ports Nationaux Tunisiens, Port de la Goulette. Tel. 275.300. Telegram "Ofpornatu". Telex 386.

AGENT: Compagnie Tunisienne de Navigation, Head Office: 5, Avenue Dag Hammarskjoeld, Tunis/Tunisia. Cables "Cotunav-Tunis"; Teleprinter 475 & 479. Tel. 242.999.

LA SKHIRRA: 34.17 N. 10.05 E.

DOCUMENTS:
5 Crew Lists.
2 Lists of Crew Personal Effects.
2 Stores Lists.
5 Passenger Lists, if passengers carried.
Manifest of cargo on board.
Manifest of cargo in transit.
PILOTAGE: Compulsory for berthing alongside. Pilot employed by TRAPSA. ETA required 48 hours and 24 hours before arrival. Call pilot by international code signals on arrival, or by VHF Channel 16. TRAPSA will advise if vessel required to anchor, or berth immediately. Pilot boards one mile off the terminal by black and white motor launch.
ANCHORAGE: Vessels should anchor outside the prohibited zone which is limited to the South by the parallel of Buoy No. 5 and to the East by bearing 350° from the terminal platform light.
MAX. SIZE: Length 300 metres. Draft 47 ft. 6 in. or up to 51 ft. at high water.
HEALTH: International Quarantine signals to be shown on arrival. Vessels normally receive free pratique at the quay after berthing. Suspect vessels must wait at anchor until pratique is given.
RADIO: TRAPSA operate coastal station Laskhirra Radio, (3VP). Messages for TRAPSA passed by other stations should be addressed Rapetrol Laskhirra.
VHF: The harbour office and loading terminal are equipped with VHF on the following channels: 156.8 Mc/s (calling), 156.6 Mc/s. 156.7 Mc/s. 156.55 Mc/s. Contact with tugs can be made on all four channels.
TUGS: Two tugs normally used for berthing. Lines provided by tugs.
BERTHING: Two loading berths situated one each side of terminal platform connected by a jetty to the shore. For safe manoeuvring tankers are recommended to arrive with ballast up to 30% of summer deadweight. Mooring may need to be doubled during months of December to April, when sudden violent squalls sometimes occur. A vessel alongside requiring tug assistance may sound one long blast at frequent short intervals.
Depth alongside loading berths is 15 to 16 metres. Loading platform is served by three 30 in. oil pipe-lines and two 24 in. ballast lines. Each berth equipped with four 12 in. flexible hoses.
MEDICAL: Advance notice required of any medical assistance needed. Hospital facilities available. Crew members require valid vaccination certificates.
BALLAST: Facilities available for reception of dirty ballast.
FRESH WATER: Not available.
FUEL: Not available.
CUSTOMS ALLOWANCES: Two packets cigarettes allowed each crew man. No alcohol allowed.
CONSULS: Following countries are represented at Sfax: France, Sweden, Great Britain, Netherlands and Italy.
REPAIRS: There are no facilities for repairs. Nearest at Sfax.
REPATRIATION: Can be arranged.
AIRPORT: Nearest at Tunis 350 km. away.
TIME: GMT plus 1 hour all year round.
SHORE LEAVE: Not allowed.
AUTHORITY: T.R.A.P.S.A., BP B, Sfax. Telex 511, La Skhirra. Cables "Rapetrol Laskhirra".

SFAX: 34.44 N. 10.46 E.

DOCUMENTS: Within 24 hours of arrival Masters must submit a written declaration giving the name of ship and of the Master, Owner or Charterer, vessel's tonnage, draft, cargo, port of origin and destination, number of crew on board. Also required:
Customs Manifest.
Crew List for Police.
List of Dangerous Cargo.
Health Declaration.
PILOTAGE: Compulsory for all vessels over 100 gross tons. Pilotage commences at the outer buoys of the entrance channel. Day signals for Pilot, International Code Signal "P.T." or Code flag "S" hoisted alone or below code pennant. Night signals according to international rules. For entry at night, vessels must radio Harbour Master at the latest one hour before sunset to confirm their intention. Before boarding, Pilot will check that vessel does not exceed the maximum authorised draft. If the "Entry Prohibited" signal is not hoisted at the port signal mast, vessel may await Pilot in the channel axis about 1 mile off the outer buoys. Pilot boards from a launch 11 metres long, displaying international pilot signals. Pilot may be contacted by radio through Radio Port de Sfax. Agent must give advance notice of vessels arrival to Harbour Master 24 or 48 hours beforehand.
ANCHORAGE: In immediate vicinity of the port, depths up to 15 metres, good holding ground.
MAX. SIZE: Length 192 metres, beam 26 metres, draft 33 ft.
HEALTH: To request free pratique, hoist "Q" flag on arrival, or radio to Port Health Service. Pratique normally given at the berth after mooring. Suspect vessels are required to wait at anchor until pratique is given.
RADIO: Sfax Port Call—call sign 3VW2, operating from 05.00–09.00 and 15.00–19.00. GMT.
Calling frequency 2182 kc/s., working frequency 1743 kc/s. CR3. Used only for communications with port services. Meteorological information provided on request.
TUGS: Join vessel at outer buoys or according to circumstances in the outer port.
BERTHING: North-east Quay 820 m. long phosphate berth.
West Quay 150 m. long phosphate berth.
Petrol Pier 180 m. long depth alongside 33 ft.
Salicole Pier salt loading berth.
STEVEDORES: Available, arranged by Agent basis vessel's ETA.
MEDICAL: Advance notice preferred if medical attention required. Hospital facilities available. Vaccination certificates required for all crew.
DENSITY: 1025.
FRESH WATER: Hydrants fitted on all quays. Written request for replenishing water is required by Harbour Master.
FUEL: Available by barge.
DEVELOPMENTS: Entrance channel to be widened to 60 metres. Dredging to 12·50 metres of channel and principal quays. These projects are under study.
WATCHMEN: Normally ship's crew. Available from shore if required.
OPENING/CLOSING HATCHES: Normally performed by stevedores.
IDENTIFICATION CARDS: Required by all crew.
CONSULS: Local representatives for France, Great Britain, Netherlands, Norway, Sweden, Denmark, Spain, Italy, Greece, Portugal and Belgium.
REPAIRS: Small engine repairs can be effected. Floating dock for vessels up to 500 tons.
REPATRIATION: Can be arranged.
AIRPORT: There is an airfield 7 km. from the city. No regular services.
TIME: GMT plus 1 hour.
HOLIDAYS: 1st January; 18th January; Aid El Kebir; Hegirian New Year; 20th March; 9th April; 1st May; Mouled; 1st and 2nd June; 25th July; 3rd August; 13th August; 3rd September; 15th October; Aid Es Seghir.
POLICE: Tel. 21–700.
SHORE LEAVE: Allowed.
AUTHORITY: Direction du Port de Sfax. Tel. 21644, 21532, 21486.

SOUSSE (Suza): 35.50 N. 10.38 E.

DOCUMENTS:
3 Crew Lists.
3 Passenger Lists.
4 Crew Personal Effects Lists.
Health Declaration.
Manifest of Provisions on Board.
2 copies vessel's particulars declaration.
PILOTAGE: Contact Pilot Station. Tel. 03.20.401.
RESTRICTIONS: Entrance to the port coming from the sea is East to West. Channel 820 m. long, dredged to 10 m. depth. Depth in port area 9·50 m., height of tide 0·60 m.
BERTHING: One basin for ocean-going ships, yacht basin and fishing vessel harbour.
Length of quays 830 m. 8 berths.
HEALTH: Free pratique normally given at the quays after mooring. Pratique is automatic for vessels coming from another Tunisian port. In case of suspected disease on board vessel will be ordered to quarantine anchorage.
STEVEDORES: Minimum of 24 hours advance notice of ETA to Agent is required.
MEDICAL: Doctor available to board vessel. Hospital, private clinics and all facilities available.
REPAIRS: No facilities.
WATCHMEN: It is recommended to employ shore watchmen.
OPENING/CLOSING HATCHES: Carried out by stevedores at the request of Masters.
CUSTOMS ALLOWANCES: Each crew member is allowed one carton of cigarettes and one opened bottle of wine or spirits. In case of a prolonged stay in port, Customs may renew these quantities.
IDENTIFICATION CARDS: Crew member's identification cards will be collected by the Immigration service and exchanged for shore passes while vessel is in port.

TIME: GMT plus 1 hour all year round.
HOLIDAYS: There are 17 days official holiday during the year. Work can be carried out on all holidays except 1st May on payment of 100% overtime.
AIRPORT: Skanes Monastir – 13 km. from the port.
AUTHORITY: Direction du Port, Rue Assad Ibn. E. Fourst, Sousse Tunisia.

Turkey

ALIAGA: 38.50 N. 26.57 E.

Aliaga Refinery Terminal.
LOCATION: *Northern Point:* Lat. 38° 50′ N. Long. 26° 57′ 36″ E.
Southern Point: Lat. 38° 50′ 10″ N. Long. 26° 46′ 33″ E.
DOCUMENTS: See "Izmir".
PILOTAGE: Pilot boards 1 to 2 miles N.W. of Tasli Burnu Light.
ANCHORAGE: The port itself is situated about 40 miles N.N.W. of Izmir on the Southern arm of the Gulf of Candarli and the anchorage is considered safe for large ships.
RESTRICTIONS: Water depth at entrance about 14 fathoms. Water depth at crude oil wharf 15 metres.
MAX. SIZE: Crude oil berth designed for up to 100,000 dwt. Products berth designed for up to 40,000 dwt.
PRATIQUE: *Customs:* Customs post at refinery.
Immigration: None locally. Incoming and outgoing personnel have to be processed at Izmir and escorted under guard to and fro.
Health: No office locally. Officials have to be brought from Izmir.
RADIO: Cable address of Aliaga Refinery: "Petrol Izmir".
Four days prior arrival, Agents require notice of ETA (time and date) followed by any subsequent change.
TUGS: Two 2,000 h.p. tugs are on order. Meanwhile tug can be obtained, if free, from Port Monopoly Izmir at additional cost. Mooring boat also on order, meanwhile local boat available for hire.
BERTHING: Incoming tankers discharge at a "T"-type oil jetty just South of Tasli Burnu Light. The jetty runs parallel to the coastline and is situated 39° 49′ 30″ N. 26° 57′ 30″ E. approximately. The outer arm of the jetty, 317 metres long, is designed for crude oil tankers of 75/100,000 dwt. on the outer side and for tankers of 40,000 dwt. on the inner. The outer S.E. arm is designed for products tankers of up to 22,000 dwt. and the inner berth for small tankers of up to 8,000 dwt.
The crude oil berth is roughly in the centre of the N.W. arm and has four loading arms. The jetty is protected by four pivotal concrete buffers.
The products berth is similarly in the centre of the arm and is equipped with flexible hoses. Crude oil pumping rate up to about 3,000 tons per hour.
FRESH WATER: Not available.
FUEL: Not available.
AIRPORT: Izmir is not an international airport and cargo is nearly always transhipped leading to unforeseen delays.
SUPPLIES: From local towns; adequate fresh fruit and vegetables and meat.
AUTHORITY: See "Izmir".
AGENT: See "Izmir".

CANAKKALE 40.08 N. 26.24 E.

DOCUMENTS: Vessels in transit through the Dardanelles must stop at Canakkale and produce following documents to boarding Officer:
Certificate of Registry.
Derat. Certificate.
Crew List.
Name of Agent in Istanbul.
Vessels proceeding to a Turkish port will require in addition:
4 Crew Lists.
2 Personal Effects Lists.
2 Currency Lists.
2 Stores Lists.
PILOTAGE: Not compulsory for vessels proceeding to Istanbul. Compulsory for vessels over 1,500 GRT proceeding to Canakkale. Vessels requiring a Pilot use International Code signals, or signal "G" by light or whistle. No advance notice required. Telegraphic address of Pilot Station, Kilavuzluk Canakkale, via radio station TAM 7. Pilot boards off Khepez lighthouse, where vessel should slow down but no need to anchor. In bad weather pilot boat will anchor in Gulf of Kilya.
ANCHORAGE: Vessels may anchor in position 40° 09′ 00″ N., 26° 23′ 09″ E. in depths of 12 to 16 fathoms.
MAX. SIZE: Vessels of any size may navigate Canakkale Strait.
HEALTH: All vessels bound for a Turkish port must stop for Sanitary Clearance at Canakkale. Any suspected disease on board must be declared. Sick crew members may be landed for hospitalisation.
RADIO: Radio Station TAM 7 situated at local Post Office.
TUGS: One tug available, belonging to pilot station. Ship's tow lines always used.
BERTHING: Agents require at least 24 hours notice to arrange berthing at Canakkale Pier. Vessel may be required to shift to anchorage to give place to Turkish passenger vessels which have priority.
STEVEDORES: Arranged by Agent on basis of Master's ETA.
MEDICAL: 12 hours notice required to arrange medical assistance. Hospital facilities available.
DENSITY: Salt water. No tide.
FRESH WATER: Only available from the pier, rate approx. 10 tons per hour.
FUEL: Marine grades not available.
DEVELOPMENTS: New installations and berths under construction.
WATCHMEN: Customs guard compulsory for vessels at the pier.
HATCHES: May be operated by crew or stevedores according to Charter Party.
CUSTOMS ALLOWANCES: Crew allowed retain only quantities for personal consumption.
IDENTIFICATION CARDS: Required for crew members going ashore.
CONSULS: Italy, tel. 1008.
REPAIRS: Minor repairs can be effected.
REPATRIATION: Can be arranged if visa requirements are satisfactory.
AIRPORT: Situated 2 km. from Canakkale, internal services only.
TIME: GMT plus 2 hours all year round.
HOLIDAYS: Cargo work can be arranged on all holidays by agreement.
POLICE/FIRE/AMBULANCE: Police tel. 1181; Fire 00; Ambulance 1098.
SHORE LEAVE: Allowed at all times.
AUTHORITY: Canakkale Liman Baskanligi, Tel. 1121.

DERINCE: 40.45 N. 24.49 E.

PILOTAGE: Pilotage in the Gulf of Izmit is compulsory for foreign flag vessels. The Izmit Gulf Pilot will disembark at harbour limits. Harbour Pilot also compulsory for all foreign flag vessels.
ANCHORAGE: Suitable anchorage at harbour entrance.
TUGS: Tugs are available.
BERTHING: Pier length 280 metres, depths alongside vary from 2·5 metres up to 7·35 metres.
BULK HANDLING FACILITIES: Two silos with storage capacity 8,500 tons. Loading capacity 160 tons per hour, discharging capacity 120 tons per hour.
AUTHORITY: General Directorate of Turkish State Railways.

EREGLI (Karadeniz Eregli), including Usunkum: 41.18 N. 31.27 E.

DOCUMENTS:
5 Crew Lists.
5 Passenger Lists.
3 Provisions Lists, including Bonded Stores.
3 Cargo Manifests.
3 sets Bills of Lading.
PILOTAGE: Pilotage available night and day for use in port under all weather conditions. Pilotage is carried out by qualified and experienced Pilots.
Compulsory for ships over 500 tons to have pilot service, and for ships over 1,000 gross tons to have pilot and tug-boat service.
Ships will take Pilots on board at a reasonable distance off the breakwater's red light. It is strongly advised that ships awaiting Pilot should avoid drifting South of the transit line of the green light on the breakwater ruin (Boshane Mendiregi) and the Citadel ruin which can be seen on top of the hill. (Transit direction is approximately 041° true.) The distance from the entrance of the port to the dock is approximately 4·6 cables, and the depth gradually decreases from 10 fathoms to 5 fathoms at the dock side.
In stormy weather, if the Pilots are unable to board, ships will proceed to a point in the Inner Port enabling the Pilots to board.
ANCHORAGE: Vessel waiting Pilot may anchor about 1 mile West of breakwater red light. The bottom of the port is muddy and sandy, and therefore ships can lay at anchor in any weather without fear of drifting.
RESTRICTIONS: *Eregli:* The depth of water in Outer Harbour is 15 metres (49·2 ft.) and Inner Harbour has 10 metres (35 ft.)
Usunkum: The length of Usunkum breakwater is 1,250 metres. The depth of water is 42 ft. Under normal weather conditions ships up to 34 ft. (inclusive) can enter into the Inner Harbour and berth alongside the dock safely. Average tide is about 1 ft. The width of channel is 200 metres but safe lane is 144 metres wide.
MAX. SIZE: *Eregli:* Under normal weather conditions ships up to 28 ft. draft can enter Inner Harbour and dock safely.
Usunkum: Up to 34 ft. draft can be berthed.
HEALTH: Pratique given after port doctor's visit on vessel's arrival. Crew vaccination certificates should be presented if required. Sanitary certificate required for any live animals on board.
RADIO: Istanbul Radio, TAH.
TUGS: Available. Normally join vessel outside the breakwater. Ships lines always used. Towing is done by one or two 600 h.p. diesel tugs. Towage is required for entering, leaving, berthing and shifting according to the size of the ship. Ships having a draft of over 20 ft. shall not use their own propellers in the Inner Harbour except in case of danger or absolute necessity.
BERTHING: *Eregli:* Inner quay is about 400 metres long for general cargo and 135 metres for coal loading.
The normal depth alongside quay is 30 ft. The docks have loading and unloading facilities, a railway track and open and closed warehouses at a very short distance. The railroad is a local system and

is not connected to the Turkish railroad network. It has a length of approximately 16 km. for coalmine operations.

Buoys: There are four mooring buoys in the port 105 metres apart and at a distance of 170 metres from the breakwater at an average depth of 8 fathoms, buoys anchored with 50 tons concrete blocks and marked I, II, III and IV starting from the main breakwater head.

It is possible and safe to moor to the buoys with or without anchor and to moor to the breakwater by the stern (if the ship's length is adequate).

Usunkum: Usunkum has one loadout dock of about 172 metres length and one ore unloading dock about 195 metres length and a small general-purpose quay for small ships.

STEVEDORES: At least 24 hours notice required to order gangs.
MEDICAL: All details of any medical assistance required to be given to Agent with one hours notice. Hospital facilities available. Vaccinations can be arranged.
FRESH WATER: Can be delivered at 40 tons per hour.
REPAIRS: Small repairs such as lathing, levelling, welding, blacksmith work and woodwork can be effected ashore.
HATCHES: Opened and closed by either stevedores or crew according to Charter Party.
CUSTOMS ALLOWANCES: 200 grams tobacco and two bottles wine/spirits allowed each man per week.
IDENTIFICATION CARDS: Needed for crew going ashore.
CONSULS: No local representatives.
REPATRIATION: No facilities exist.
TIME: GMT plus 2 hours all year round.
HOLIDAYS: Cargo work can be arranged on all holidays.
POLICE/FIRE/AMBULANCE: Police tel. 28; Fire tel. 00; Ambulance tel. 500.
TELEPHONES: Cannot be connected on board.
SHORE LEAVE: Crew permitted to go ashore at all times.
AUTHORITY: Karadeniz Eregli Liman Baskanligi, Eregli-Karadeniz. Tel. 7.

GIRESUN (KERASUNDA): 40.56 N. 38.24 E.

PILOTAGE: Pilot ordered by Agent who requires 24 hours notice in advance of vessel's arrival. Compulsory for all foreign flag vessels.
ANCHORAGE: Good anchorage in Outer Harbour. Vessels should keep the entrance channel clear.
TUGS: Available in the harbour, but normally not required for vessels entering and leaving.
BERTHING: Entrance between breakwaters with width 275 metres depth 14 metres.

Berth A for passenger vessels, berth length 150 metres, depth alongside up to 8·5 metres.

Berth B for cargo vessels, berth length 275 metres, depth alongside up to 8·5 metres.

Berth C length 135 metres, depth alongside up to 8 metres.
Other berths for Port Administration vessels.
STEVEDORES: Working hours normally from 0800 to 1200 and from 1300 to 1700.
FRESH WATER: Not available.
FUEL: Not available.
REPAIRS: No repairing facilities.

GOLLUK: 37.14 N. 27.38 E.

DOCUMENTS: The following documents have to be prepared by Masters before arrival:
4 copies of Crew Lists.
2 copies of Store Lists.
1 copy Health Document.
4 copies of Passenger Lists.
3 copies of Customs Documents.
3 copies of Manifests for cargo destined to port.
1 copy of Manifest for all transit cargo aboard.
N.B. Ship's particulars Form is to be filled by Masters upon arrival and remitted to the Port Authorities.
RESTRICTIONS: Golluk is a well-protected natural harbour, not affected by winds from any direction. Deep water approaches to pier.
PILOTAGE: Pilot unavailable.
HEALTH: Vessels to show their Sanitary Certificate if available aboard and also their Registry. Presentation also of Vaccination Certificate of all the crew, if required by sanitary officials. Pratique is necessary on arrival even if vessel has called at another port in the same country. Sanitary Certificate is required for live animals aboard.
RADIO: Izmir radio station, call letters TAN2. Istanbul radio station, call letters TAH.
TUGS: Not available.
BERTHING: One pier 170 metres long used for handling emery ore in bulk. Depths alongside 39 ft. shelving to 20 ft. at ninety metres from seaward end.
CUSTOMS ALLOWANCES: 50 cigarettes for each member of crew going ashore. Aboard the vessel each member of the crew is permitted to have one carton out of Bond. One litre wine/spirits for each member of the crew in opened bottle is permitted out of Bond. However, this allowance is to be kept aboard the vessel.
TIME: Local time GMT plus 2 hours. No alterations during the year.
HOLIDAYS: New Year's Day (from December 31st 1200 hrs. to January 1st 2400 hours); National Sovereignty Day (from April 22nd 1200 hrs. to April 23rd 2400 hours); Spring Day (1st May); Constitution Day (27th May); Sports Day (19th May); Victory Day (30th August); National Holiday (28th October 1200 hrs. to 30th October 2400 hrs.); Sheker Bayram (3 days movable); Kurban Bayram (4 days, movable).

ISKENDERUN: 36.35 N. 36.10 E.

DOCUMENTS:
5 Crew Lists.
4 Passenger Lists.
2 copies Transit Cargo Manifest.
3 copies Inward Cargo Manifest, of which one must be legalised by Turkish Consulate at loading port. If no consulate existing same to be certified by local Customs Officer or Authorities.
1 set Bills of Lading.
2 copies Cargo Stowage Plans.
Health Documents.
2 Stores Lists.
Ship's Certificates.
PILOTAGE: Compulsory. Ordered by Agent on basis of Master's ETA. International Code signals used to call Pilot who boards at harbour entrance. Two pilot boats available.
ANCHORAGE: Safe anchorage in open roadstead at ½ to ¾ mile from shore. Vessels over 30,000 tons dwt. work cargo at anchorage using ship's gear to lighters and pontoons. Vessels loading/discharging to lighter should anchor as close as possible to harbour entrance but not less than 800 metres from the pier.
MAX. SIZE: At anchorage, no limitations. Alongside pier, length 166 metres, draft up to 30 ft. Also see 'Tankers'.
HEALTH: Pratique obtained on arrival. Master required to show vessel's Health Declaration and Certificate of Registry. Crew vaccination certificates to be produced if required. Sanitary certificate required if live animals on board.
RADIO: Istanbul Radio, call sign TAH. Izmir Radio, call sign TAN2.
TUGS: Four tugs available of 300, 700, 970, and 1,200 h.p. respectively.
BERTHING: Jetty 509 metres long can accommodate two large vessels and several small vessels simultaneously.
Berth No. 1 at jetty head, 48 metres length, 35 ft. depth.
Berth No. 2, South side, 166 metres length, 28–32 ft. depth.
Berths 3 and 4, suitable only for tugs and small vessels.
Berth No. 5, North side, 166 metres length, 29–34 ft. depth.
Due to shelving depths vessels of 20,000 to 30,000 dwt. berth partly alongside and lighten cargo then shift once or twice further in.

The T.M.O. have a silo of 20,000 tons capacity which can deliver up to 300 tons per hour. Loading capacity of ore, 200 tons per hour, Unloading capacity for coal, 150 tons per hour.

Inner Port, used only by pontoons, lighters and tugs.
Priority given to Army, food relief and passenger ships.
STEVEDORES: Two consecutive shifts of 8 hours each day. At anchor, approximately 100 tons can be handled each shift, for general cargo. Baled cargo, 125 tons per shift. Bagged cargo, 150 tons per shift.

Gangs secured by Agent through the Port Monopoly, 24 hours prior arrival.
MEDICAL: Master to inform Agent by cable if urgent medical assistance required on arrival, also indicating, if possible, seriousness of case in order to take adequate steps.
TANKERS: Two buoy mooring berths operated by Mobil Oil and Petrol Ofisi, suitable for vessels up to 50,000 tons dwt.

No slop reception facilities.
FRESH WATER: Supplied only by barge, two available each of 250 tons capacity.
FUEL: Not available.
DEVELOPMENTS: A new port complex is under construction in prolongation of the inner port area. Quays to be completed 1973.
WATCHMEN: Services of watchmen recommended. Three shifts of 8 hours each. Extra tariff for Sundays and holidays.
HATCHES: May be opened/closed by ship's crew. May be performed by stevedores at tariff rates.
CUSTOMS ALLOWANCES: 50 cigarettes for each man going ashore. On board the vessel each man may hold 200 cigarettes and one open bottle wine/spirits out of bond.
IDENTIFICATION CARDS: Seamen's Book is sufficient.
CONSULS: Vice-consulates of Sweden, Norway, Netherlands, France, Greece, Great Britain, Italy, and Iran.
REPAIRS: Welding and other minor types of repairs are possible.
REPATRIATION: Can be arranged.
AIRPORT: Adana Airport, served only by domestic lines with routes to Beirut and Istanbul. Airport situated 140 km. from Iskenderun. Twice daily service to international airport Istanbul.
POLICE/AMBULANCE/FIRE: Police 1044; Ambulance 1443; Fire 1000.
TIME: GMT plus 2 hours all year round.
HOLIDAYS: New Year's Day (commencing 1200 Dec. 31st); National Sovereignty Day (April 23rd, half day April 22nd); Spring Day (May 1st); Constitution Day (May 27th); Sports Day (May 19th); Victory Day (August 30th); October 28th (half day); October 29th and 30th; Sheker Bayram (3 days, movable); Kurban Bayram (4 days, movable).
AUTHORITY: Harbour Master, Iskenderun.

AGENT: Gulf Agency Company (Turkey) Limited, POB 277, Iskenderun. Tel. 1277, 2277, 3290. Telex 4 ISK MAKZUME. Cables: "GACSHIP Iskenderun."

ISTANBUL: 41.01 N. 28.58 E.

DOCUMENTS: *Operating Vessels*

5 Crew Lists.
6 Passenger Lists.
3 Stores Lists.
1 Transit Cargo Manifest.
2 Inward Freighted Manifests.
2 Inward Non-freighted Manifests.
Copies of relevant Bills of Lading accompanying Inward Manifests, Ship's Certificates (Deratisation, Tonnage, Safety, Safety Radio, Class or Freeboard).
3 ships safe money lists. (If there is no money on board, please issue three lists as follows: THERE IS NO MONEY ON BOARD).
Harbour Masters Sailing Permit (which must be exchanged at each Turkish port and kept on board).

Transiting Vessels

Master to present only Tonnage and Deratisation Certificates during Sanitary Control at both Straits (Canakkale and Buyukdere).

PILOTAGE: For both operating and transiting vessels, Pilot secured by the Agent through the Port Monopoly Administration. Master to wire ETA notices 48 and 24 hours prior to arrival. Pilot boarding vessel with service boat hoisting red and white flag. Pilot boarding vessel off Haydarpasa and Seraglio or off Kavak. Pilotage for entering and berthing in harbour areas is compulsory. Pilotage through Bosphorus is optional. All Pilots can be contacted by VHF Channel 16.

ANCHORAGE: Free and safe anchorage in roads off Marmara coast approach to Instanbul. It is however recommended to anchor the nearest possible to the harbour. Anchoring at other anchorage areas is subject to special permission via Harbour Mastorate. Good anchorage off Haydarpasa and off Yenikapi, Ahirkapi for large vessels and for smaller vessels there is a good anchorage between Dolmabahce Palace and Kurucesme.

RESTRICTIONS: Ships carrying hazardous cargoes (inflammable, explosives, corrosives, etc.) are not allowed to enter the harbours. Ships can anchor in roads outside the harbour at any time without Pilot. Ships to operate upon arrival at night can enter the harbours with Pilot and with special permission through the Port Monopoly Administration. Forty-eight hours' notice has to be given to the Harbour Master of Istanbul for vessels calling at Istanbul and/or passing in transit through Bosphorus.

Vessels entering the Black Sea must keep to the European side and those leaving the Black Sea must keep to the Asiatic side of the fairway.

MAX. SIZE: No limitation of draft in open roadstead, at anchor. Maximum draft in port alongside quay: 10 metres for dry cargo ships. Tankers up to 48 ft. draft can berth at Haramidere oil port.

HEALTH: Sanitary control of both transiting and operating vessels performed at the Straits entrance (Canakkale and Buyukdere). Ships entering from South must slow down at Canakkale and ships arriving from North must slow down at Buyukdere for Sanitary Control. In case of non-performance of such control due to bad weather, Master has to inform Agent in time and have to stop and wait at South Entrance of the Bosphorus until Sanitary Control is performed otherwise heavy fine would be levied.

RADIO: Wirelesses to be routed to Agent via Istanbul Radio. Call sign ot Istanbul Radio Station is THA. Frequency MW 500 m. Ships can also communicate with Agent by radio telephone on frequency 2182 kc/s. It is recommended that ships be on watch for any radio telephone call by Agent for any berthing and operation arrangement.

TUGS: Many available up to 1,200 h.p. Arranged by Agent. Tugboat compulsory for vessels over 2,000 grt, charged per hour or fraction of each operation.

BERTHING: Priority to Army, food relief and passenger ships. If no berth available then ships to wait for turn in roads at anchor.

WHARVES:	*Length in metres*	*Depth of Water in metres*
Karakoy (ex Galata) exclusively for passenger vessels	520	7–10
Salipazari	600	10
Sarayburnu	240	6
Camialti and Haskoy (Golden Horn)	168	3–7

Haydarpasa. This port, protected by two breakwaters of an overall length of 1,709 metres, has quays of 1,200 metres total length, that simultaneously may accommodate six medium-sized vessels and where cargo operations may be made direct to and from wharves or railway trucks.

The depth of water at the quays varies between 6 and 10 metres.

BULK HANDLING: Three grain silos are available:

One of 34,500 ton capacity with 200 ton delivery/100 ton intake per hour.

One of 10,800 ton capacity with 120–150 ton delivery, 90–100 ton intake per hour.

One of 5,280 ton capacity with 120–150 ton delivery, 90–100 ton intake per hour.

TANKERS: The oil port called Haramidere is a small bay open to Southern winds and 60 km. distant from Istanbul in the Sea of Marmara. There are buoys and oil pumping platform in this bay. Tankers can berth by dropping two anchors and mooring by stern at these buoys or at platform. Average sea depth is 48 ft.

BRIDGES: There are two bridges: Galata Bridge is between Eminonu and Karakoy: Ataturk bridge is between Unkapani and Azapkapi. Both bridges are opened in the morning for vessels entering the Inner Harbour (Golden Horn). Vessels wanting to pass through the bridges have to give notice in due time to the Harbour Master of Istanbul.

STEVEDORES: Gangs of stevedores secured by the Agent through the Port Monopoly, 24 hours prior arrival. Average loading and discharging rates of about 150–200 tons per gang per shift depending also on the kind of goods. Discharging operations are generally performed alongside the wharves and loading operations at buoys; however, as stated above, can also be effected alongside simultaneously with discharging. Working hours: Monday to Friday 0800/1200 and 1300/1700 hours; Saturday 0800/1200 hours.

MEDICAL: Master to inform Agent by cable if urgent medical assistance is required upon arrival, also indicating if possible seriousness of case in order to take adequate steps.

DENSITY: Always variable due to strong currents, however, can be reckoned as 1015.

FRESH WATER: Supplied by barge and shore installation at the rate of 30–60 tons per hour.

FUEL: Diesel oil, gas oil and bunker fuel can be supplied by barge at transit cost, subject 48 hours pre-advice. Fuel supplied only against advance payment in foreign exchange (dollars, sterling or Swiss francs).

GANGWAY/DECK WATCHMEN: Recommended.

OPENING/CLOSING HATCHES: Owners or Master to decide whether this work should be undertaken by the stevedores or by the crew.

CERTIFICATES: Safety, Safety Equipment, Safety Radio, Class and Freeboard documents.

CUSTOMS ALLOWANCE: 40 cigarettes and one bottle wine/spirits per crew member.

CARGO GEAR: Generally shore cranes operating. However, ship using own means when such cranes are not available. Full lights to be supplied by ship.

IDENTIFICATION CARDS: Seaman's book is sufficient.

CONSULS:

Argentina	Greece	Pakistan
Austria	Holland	Panama
Belgium	Hungary	Poland
Brazil	Iceland	Portugal
Bulgaria	India	Romania
Czechoslavakia	Iraq	Spain
Chile	Iran	Sweden
Denmark	Israel	Switzerland
Dominican Rep.	Italy	Syria
Finland	Japan	Tunisia
France	Yugoslavia	U.A.R.
West Germany	Lebanon	U.S.A.
Great Britain	Mexico	U.S.S.R.
	Norway	

REPAIRS: At the Golden Horn are three graving-docks:

One	388 ft.	length,	72 ft.	width at entrance
Two	279 ft.	,,	62 ft.	,,
Three	600 ft.	,,	63 ft.	,,

At Istinye (in the Bosphorus) are:
1 floating dock 137·50 m. length, 21·25 m. width with 8,500 tons lifting capacity. 1 floating dock 67·82 m. length, 30·40 m. width with 5,000 tons lifting capacity. 1 floating dock 126·14 m. length, 34·0 m. width with 10,000 tons lifting capacity. In cases of necessity floating docks of 5,000 and 10,000 tons capacity can be united and be put in operation as single floating dock with 15,000 tons lifting capacity. Every kind of repair can be effected at Istinye docks.

At Fener (Golden Horn) is a dry dock for vessels up to 600 tons, and at Kaskoy (Golden Horn) is a dry dock for vessels up to 176 tons, length 176 ft. and 176 ft. respectively. There are also some privately owned. All kinds of repairs can be effected.

REPATRIATION: Crew exchange and repatriation is possible for citizens of Italy, Great Britain, Benelux, Sweden, Norway, West Germany, Austria, Switzerland, France, Ireland, U.S.A., Iceland, Pakistan, Monaco, Australia, Canada, Japan, New Zealand, Spain, Cyprus, Portugal, Tunis, Kenya, Iran, Yugoslavia, Romania, Morocco. Citizens of other states not specified above are subject to a Turkish visa.

AIRPORT: Yesilkoy Airport is an international airport with daily connection to everywhere. Airport distant 15 km. from Istanbul.

TIME: GMT plus 2 hours all year round.

HOLIDAYS: New Year's Day (Dec. 31st p.m. and January 1st); National Sovereignty (April 22nd p.m. and April 23rd); Spring Day (May 1st); Sports and Youth Day (May 19th); Sheker Bayram (3 days) (movable); Courban Bayram (4 days) (movable); Liberty/Constitution Day (May 26th p.m. and May 27th); Victory Day (August 30th); Proclamation of the Republic (Oct. 28th p.m. to Oct. 30th).
In the event of a holiday ending on a Friday, the Saturday that follows is considered also as a holiday in full, and normal working starts as of Monday morning 0800 hours.

POLICE/AMBULANCE/FIRE: Fire Istanbul 21 42 22, Uskudar 33 20 30; Police 27 45 00; Ambulance Istanbul 21 15 95, Beyoglu 44 49 98, Uskudar 33 04 01.

TELEPHONES: No installation for connection facility on board.

SERVICES: Tank cleaning (gas-free service), deratisation, compass adjusting carried out by experts of shipyards or Turkish Maritime Lines.

SHORE LEAVE: Crew members are allowed ashore at all times.

AUTHORITY: Marmara Bulgesi Liman ve Denizisleri Mudurlugu. Tel. 44.21.97; Director 44.23.91; Harbour Master 44.23.74.

AGENT: Gulf Agency Co. (Turkey) Ltd., POB 1230–Karakoy,

Istanbul/Turkey. Cables: "Gacshipping – Istanbul". Telex 213 1st Mayou. Tel. 44 29 80.

IZMIR: 38.25 N. 27.09 E.

DOCUMENTS:
5 Crew Lists.
4 Passenger Lists.
2 Manifests of Transit Cargo.
3 Manifests of Inward Cargo, one of which must be legalized before arrival by Turkish Consulate at loading port.
1 set Bills of Lading.
2 sets Cargo Stowage Plans.
2 Stores Lists.
Health Documents.
Ships Certificates.

N.B. Ship's particulars form is to be filled in by Masters upon arrival at Izmir, and remitted to the Port Authorities.

PILOTAGE: Vessels are permitted to arrive and sail from Izmir by day and night. After entering the Gulf of Izmir, Masters who are not familiar with the waters, require a pilot at Pelican Spit. The pilotage from Pelican Spit to Izmir is not compulsory and Masters must notify their Agents at least 12 hours in advance giving their ETA at Pelican Spit and ask for a Pilot.

Pilot can be contacted on VHF Channel 16.

ANCHORAGE: In the Outer Harbour, 300 metres outside Old Port breakwater, ample space for vessels to anchor. Cargo operations cannot be performed at anchor unless vessels have red label cargoes aboard for Izmir or in transit.

RESTRICTIONS: Docking of ships at the old port is not permitted during night, but ships can sail any time during night. At the new port, docking is permitted during night (weather permitting) also ships can sail any time during night. There are no tides at Izmir.

MAX. SIZE: Vessels of any size with a maximum of 33 ft. draft can operate at Izmir. There is a pipe-line for oil-carriers in the Gulf of Izmir where tankers with a maximum draft of 33 ft. can operate.

In Old Port, length restricted to 165 metres, max. draft 8 metres.

HEALTH: Vessels to show their Sanitary Certificate – if available aboard – also their Registry. Presentation also of Vaccination Certificate of all the crew, if required by sanitary officials. Pratique is necessary on arrival even if the vessel has called at another port in the same country. Sanitary Certificate is required for live animals aboard. If quarantine (fumigation) of the vessel is necessary, very considerable time is lost for vessel to proceed to Fumigation Station at Klazomene, located at about 20 miles from Izmir (in the Gulf of Izmir) where fumigation can be effected and bad cases hospitalised. Very costly and loss of time caused.

RADIO: Izmir Radio Station: call letters TAN2. Istanbul Radio Station: call letters TAH.

TUGS: Tugs are compulsory for vessels of more than 2,000 GRT. At Harbour's Master's estimation, two tugs will be used for vessels over 4,000 GRT in case of bad weather. Dues will be collected for each tug.

Four tugs of 200, 300, 970 and 1200 h.p. continuously available.

BERTHING: *Old Port:* Location Lat. 38° 25′ N. Long. 27° 10′ E. Harbour entrance to port 130 ft. wide, depth 40 ft., harbour length 1,200 metres, harbour width 700 metres. (Pilot boards $\frac{1}{4}$ mile off entrance).

Precaution to be taken against North-east and South winds. Mooring stern to quay. Operations effected by means of lighters. Altogether 8 vessels can berth in Inner Harbour with a draft of 24 to 30 ft.

Alsancak – New Port: Located at a distance of about 2 miles from the old port. Depth alongside berths 22 to 33 ft. Pilot's boarding vessels outside breakwater of old port. Presently 9 cargo vessels of various sizes (mainly medium and small sizes) otherwise 5 to 6 vessels of big size can operate at the new port. There is also a berth for one big size passenger vessel or 2 small size vessels.

BULK HANDLING FACILITIES: Grain silo has capacity 40,000 tons. The conveyor can deliver between 2,500 and 3,000 tons in 24 hours

Bulk ore loaded by grabs. Daily loading capacity per shift of 8 hours is between 750 to 1,000 tons.

STEVEDORES: Straight time 08.00/12.00, 13.00/17.00. Overtime 18.00/02.00, 13.00/17.00 (Saturdays). Sundays and holidays as well as Saturdays from 13.00: overtime changes 50% increase on S.T. charges.

For overtime discharging operations at the new port handling charges (overtime) from ship's tackle to the Custom's warehouse, are for account of the ship.

9 men per gang aboard (6 labourers, 2 winchmen, 1 hatch tender) 3 lightermen or men on the Dock.

Extra men used to reinforce regular gangs and in hatches congested with cargo to be discharged thus securing a quick despatch.

MEDICAL: Advance notice optional. There is a local English-speaking doctor for service on board vessels.

Hospitals: U.S. Military Hospital, French Hospital, Government Hospital (Memleket). Doctors available to board ships or patient to proceed to their clinics.

U.S. Military Hospital for emergency cases but not accepting regular patients.

TANKERS: Izmir is a discharging port for tankers. Socony Mobil Oil receives petroleum products in bulk through a pipeline at a distance of about 1 mile from their shore installations. Depth at the end of the pipeline is 33 ft. The pipeline is of 12 in. and the pumping is effected through a flexible of 10 in. at an average of about 450/500 tons per hour.

British Petroleum, receives petroleum products at a Jetty where the tankers berth stern to with a draft of maximum 23 ft. Pumping is effected by the vessel from her stern with a flexible hose of 6 in.

Petrol Ofisi receives petroleum products at their jetty. Vessels berthed stern to with a draft of 17 ft. Same procedure for pumping as for British Petroleum. The above three installations are located in the Gulf of Izmir opposite to the new port of Alsancak.

FRESH WATER: Fresh water is available for drinking. The water is given both from dock or by barge. Water is supplied by Port Monopoly. Delivery at the dock about 20 tons per hour. By barge about 40 tons per hour.

Two barges each of 200 tons capacity available.

FUEL: All kinds of fuel available subject to 24 hours' advance notice. Fuel supplied only against advance payment in free foreign exchange direct to Agent of the vessel.

DEVELOPMENTS: New port of Alsancak to be extended during the next five years by the construction of a breakwater, docks, warehouses totalling a berthing capacity of additional 5 to 6 cargo vessels.

GANGWAY/DECK WATCHMEN: Services of watchmen recommended. Three shifts of 8 hours per day.

OPENING/CLOSING HATCHES: This work can be carried out by crew. If carried out by stevedores the cost is charged to vessel.

CERTIFICATES:
Deratisation Certificate.
Registry.
Vaccination Certificates (if required).
Health Certificate.

CUSTOMS ALLOWANCES: 50 cigarettes for each member of the crew going ashore. Aboard the vessel each member of the crew is permitted to have one carton out of Bond. Wine and/or spirits: One litre for each member of the crew in an open bottle is permitted out of Bond. However, this allowance is to be kept aboard the vessel.

IDENTIFICATION CARDS: Seamen's Book is sufficient.

CONSULS:

U.K. General Consulate	tel. 32501
West Germany Consulate	,, 34916
U.S. Consulate General	,, 32137
Italian Consulate	,, 33882
Greek Consulate	,, 32622

Swedish Consulate (Hononary)	,, 24878
Netherlands Consulate (Honorary)	,, 32064
Finland Consulate (Hononary)	,, 24930
Spanish Consulate (Honorary)	,, 33689

REPAIRS: Ship's repair shops available: Denizcilik Bankasi (Turkish State-owned), Lui Tius (private). Deck and engine repairs are possible.

DRY DOCKS: No dry docks available.

REPATRIATION: All facilities available for crew changes and arranging necessary repatriations.

AIRPORT: Airport from dock – distance 30 kilometres. Airport is served by Turkish Airlines with 5 flights per day (local flights in connection with Istanbul International flights). Also one daily flight from Izmir to Athens (Greece) and back by Turkish Airlines.

TIME: Local time 2 hours ahead of GMT. No alterations made to clocks during the year.

HOLIDAYS: New Year's Day (from December 31st 12.00 hrs. to January 1st, 24.00 hours); National Sovereignty Day (from 22nd April, 12.00 hours to April 23rd, 24.00 hours); Spring Day (May 1st); Constitution Day (May 27th); Sports Day (May 19th); Victory Day (August 30th); National Holiday (October 28th, 12.00 hours to October 30th, 24.00 hours); Sheker Bayram (3 days) movable; Kurban Bayram (4 days) movable.

On these days offices are closed. Work in port is allowed by paying 50% overtime to the S.T. wages. The overtime for the National Holiday (Oct. 29th) is paid 100% on the total regular overtime, which makes 300%. On the first days for Sheker and Kurban Bayram work aboard is doubtful.

POLICE/AMBULANCE/FIRE: Police, tel. 22771; Ambulance, tel. 22319; Fire, tel. 22222.

TELEPHONES: It is possible to place telephones aboard vessels at the new port of Alsancak.

SHORE LEAVE: Crew members are allowed to go ashore.

REGULATIONS: Berths at the new port of Alsancak are obtained on basis of the time and date of arrival of each vessel. If the port is congested, vessels wait for their turn at anchor.

DELAYS: During the active export season, some delays occur varying one or two days.

AUTHORITY: Izmir Harbour Master, Ataturk Caddesi 178, Izmir, Turkey. Tel. 23693.

AGENT: Gulf Agency Company (Turkey) Limited, POB 857, Izmir. Tel. 32755 and 32864. Telex 71 IZR Makzume. Cables: "GACSHIP Izmir."

DOCUMENTS:
5 Crew Lists.
4 Passenger Lists.
2 Transit Cargo Manifests.
3 Inward Cargo Manifests, one of which must be legalised prior arrival by Turkish Consulate at loading port; if no Turkish Consulate, same to be certified by local Customs Authorities.
1 eaoh of the Bills of Lading accompanying Manifests.
2 Cargo Stowage Plans.
Health Documents.
Ship's Certificates (Safety Equipment, Safety Radio, Class and Freeboard Documents).
2 Store Lists.

PILOTAGE: Agent orders Pilot through Port Monopoly Administration. Master to wire ETA notices 48 and 24 hours prior to arrival. Pilot boards vessel with service boat hoisting red and white flag. Sound signals: two long and one short blast. Pilot boards vessel outside main breakwater. Shipmaster can use VHF station according existing international frequencies.
ANCHORAGE: Safe anchorage in open roads outside main breakwater.
RESTRICTIONS: No particular restrictions. Ships can anchor in roads outside main breakwater at any time without Pilot.
MAX. SIZE: No limitation of draft in open roadstead, at anchor. Maximum draft in port alongside quay: 14 metres for tankers, 10 metres for other ships.
HEALTH: Clearance is effected on arrival. Vaccination Certificates to be presented if required. If suspected disease on board radio Agents full details before arrival.
RADIO: Istanbul Radio, call sign TAH, Izmir Radio, call sign TAN2, Mersin Radio TAM5. Wireless messages to be routed to Agent, preferably via Istanbul Radio. Port VHF service in operation.
TUGS: Tug boat compulsory for vessels over 1,000 grt. charged per hour or fraction of each operation. Four tugs available up to 1,200 h.p.
BERTHING: Priority to Army, food relief and passenger ships. If no berth available then ships to wait for turn in roads at anchor.

	Length metres	*Depth metres*
Quay No. 1 (Passenger Quay)	175	10
Quay Nos. 2 and 3	274	10
Quay No. 4	150	10
Quay Nos. 5, 6 and 7	493	10
Quay Nos. 8 and 9	275 each side	10
Quay Nos. 10, 11, 12 and 13	577	6 to 8
Quay Nos. 18 and and 19 (ore and coal)		10

BULK HANDLING FACILITIES: At Quay Nos. 8 and 9 there is conveyor system which can deliver 600 tons per hour from each spout Discharging rate 100 tons per hour from each of the two suckers.
STEVEDORES: Gangs of stevedores secured by the Agent through the Port Monopoly, to be ordered 24 hours prior to arrival.
Generally two consecutive shifts of 8 hours per day. Discharging/loading rates average:
100 tons per shift general cargo.
200 tons per shift bagged cargo
150 tons per shift baled cargo
175 tons per shift bulk ore
Max. rate for ore 400 tons per shift if grab loading.
MEDICAL: Master to inform Agent by cable if urgent medical aid is required upon arrival, also indicating if possible seriousness of case in order to take adequate steps.
TANKERS: Quays No. 20 and 21, 350 metres long, berths on each side with depth of 14 metres.
ATAS Refinery Terminal: Depth in harbour channel, 41 ft. and, in approaches to channel, 46 ft. Turning basin 1,148 ft. diameter, depth 42 ft. 8 in. Depth alongside berths 48 ft. 6 in.
Maximum length 350 metres, draft 39 ft. Tankers up to 40 ft. draft have berthed.
Tankers in ballast up to 15,000 dwt. may berth/unberth at any time, day or night. Other vessels manoeuvre in daylight hours only.
One finger pier, berths for two tankers, 10-in. hose connections to 26-in. shore line. No facilities for slop disposal ashore.
Fresh water available from barge 100 tons each load.
DENSITY: Salt water 1025.
FRESH WATER: Fresh water supplied to tankers by barge but otherwise by shore installation at the rate of 30/35 tons per hour.
FUEL: Almost all kinds of fuel available in transit and facilities for delivery to ships. Fuel supplied only against exchange in advance.
GANGWAY/DECK WATCHMEN: Available and recommended.
OPENING/CLOSING HATCHES: Owners or Masters to decide whether this work should be undertaken by the stevedores or by the crew.
CUSTOMS ALLOWANCES: 40 cigarettes and one bottle wine/spirits per crew member.
CARGO GEAR: Generally shore cranes operating. However, ship using her own means when such cranes are not available. Full lights to be supplied by ship.
IDENTIFICATION CARDS: Seamen's Book is sufficient.
CONSULS: Lebanon, Italy, Norway and Sweden.
REPAIRS: Welding and other minor types of repairs are possible.
REPATRIATION: Repatriation can be arranged by air.
AIRPORT: Adana Airport served only by domestic line THY (Turkish Airlines) with routes to Beirut and Istanbul. Distance is 75 km. from Mersin. Twice per week to Beirut in winter and thrice during spring summer. Twice daily to Ankara and Istanbul.
TIME: GMT plus 2 hours all year round.
HOLIDAYS: New Year's Day (6th February); Kurban Bayrami (23rd April); Labour Day (27th May); Constitution Day (30th August); Victory Day (29th October); Republic Day (20th November); Ramazan Day; and other minor holidays.
POLICE/AMBULANCE/FIRE: Telephone numbers: Police 3439; Ambulance 3555; Fire 0000.
TELEPHONES: No installation for connection on board.
GENERAL: Two consecutive shifts every day, the first one starting 0800/1700 and the second one at 1700/2400/0100. Agent may provide extra men if necessary to help ship's despatch. Ships have to hoist a Turkish flag.
SHORE LEAVE: Crew allowed shore leave.
AGENTS: Gulf Agency Company (Turkey) Limited, PO Box 328, Mersin, Turkey. Cable address: GACShip. Telex: 11. Telephones: 1080–3731.

SAMSUN: 41.19 N. 36.21 E.

PILOTAGE: Refer to "Canakkale" and "Istanbul."
Harbour Pilot compulsory for all foreign vessels. Ordered by Agent subject to vessel's advance notice of ETA.
ANCHORAGE: Good anchorage in the Outer Harbour.
TUGS: Tugs are available.
BERTHING: Harbour protected by two breakwaters, entrance width 300 metres, depth 11·9 metres.
One quay, 956 metres long, depth alongside from 6·5 to 11 metres, providing 4 deep-water berths.
FRESH WATER: Available from the quay.
FUEL: Not available.
STEVEDORES: Working hours for general cargo: From 0800 to 2400 hours in two shifts.
For bulk cargo: 24 hours operations in three shifts.

TRABZON: 41.01 N. 39.46 E.

PILOTAGE: Refer to "Canakkale" and "Istanbul".
Harbour Pilot compulsory for all foreign flag vessels. Arranged by Agent subject to vessel's notice of ETA in advance.
ANCHORAGE: In the Outer Harbour off the breakwater.
MAX. SIZE: Vessels up to 29 ft. draft.
TUGS: Two tugs available. Towage compulsory for vessels over 550 tons.
BERTHING: Main wharf 410 metres long, depth alongside 10 metres. Vessels may be loaded and discharged while moored stern to the breakwater.
FRESH WATER: Obtainable from the quay.
FUEL: Fuel oil obtainable in limited quantities.
STEVEDORES: Working hours from 0800 to 1200 and from 1300 to 1700. Overtime can be arranged.
REPAIRS: There are no repair facilities.

ZONGULDAK: 41.28 N. 31.49 E.

PILOTAGE: Refer to "Canakkale" and "Istanbul".
Harbour Pilots obtainable from Coaling Company, Pilot boards off port entrance by launch. Ordered by Agent subject to vessel's ETA given at least 24 hours before arrival.
ANCHORAGE: Good anchorage off the harbour in depth of 13 fathoms, sand and mud bottom.
Anchorage prohibited South of a line drawn in direction 292.5° distance 7·5 cables from head of the Northern breakwater. The Southern limit of this area is a line drawn in direction 262° from the head of the Northern breakwater to the shore.
RESTRICTIONS: Harbour entrance between breakwaters. Entrance width 600 ft.
Traffic signals displayed from signal mast on Northern breakwater, as follows:
Two black balls or two red lights, meaning "Harbour closed."
Two black cones or two green lights, meaning "Harbour open."
A black ball over black cone or red light over green light, meaning "Do not attempt to enter".
A black cone over a black ball or green light over a red light, meaning "No tug available."
A black ball between two black cones or red light between two green lights, meaning "Wait. You will be piloted into the harbour."
Three black balls, or three red lights, meaning "Because of unfavourable weather you cannot be piloted into the harbour."
TUGS: Available.
BERTHING: Coal quays length 1,650 ft. depth alongside 10 metres.
Cargo quay length 500 ft. depth alongside 10 metres.
Northern Breakwater, two berths, at inner end with depth of 7 metres alongside.
FRESH WATER: Available from the quays.
FUEL: Only coal bunkers available.

Union of Soviet Socialist Republics

ALL PORTS:—

DOCUMENTS:
6 Crew Lists.
6 Passenger Manifests.
2 Provisions Lists.
6 List of money and valuables (for crew and passengers separately) with totals of each currency stated.
6 Cargo Documents.

The six copies of the Crew List include those used for Departure Formalities (i.e. no additional Crew List is necessary on departure of vessel). The Master has also to produce to Port Authorities for checking:
Ship's Documents (Measurement Certificate, Radio-Telephone Certificate, etc.).
Deratisation Certificate.
Main Ship's Articles Book (Musteroll).
Passports (Seamen's Books).
Vaccination Certificates of the crew and passengers.

The Master must complete the Master's Declaration (total cargo on board, full name and address of shipowners, cases of infectious diseases on board during the voyage, and some other data).

POLLUTION: To prevent sewage pollution and spreading of infectious diseases in Soviet ports, the U.S.S.R. Medical Authorities enforce sanitary requirements regarding ports and vessels.

Cargo vessels arriving from ports subject to cholera at Azov and Black Sea ports of U.S.S.R., and not equipped with retention tank for sewage should have all toilets sealed whilst at the U.S.S.R. ports, passengers and crew being obliged to use the shore toilets.

According to the requirements of the U.S.S.R. Medical Authorities dumping of sanitary wastes from vessels equipped with retention tanks is allowed at sea, not less than 50 miles off the U.S.S.R. shore line.

ARCHANGEL: 64.32 N. 40.31 E.

Port open for navigation from May to October.

DOCUMENTS: Refer to beginning of U.S.S.R. section.

PILOTAGE: Compulsory. Notices of ETA in accordance Soviet Wood Charter Party. Pilot boat located in area 64° 57′ N., 40° 05′ E. VHF Channel 16. Pilot boat is tug-boat with word "Pilot" on wheelhouse. Vessels awaiting Pilot may anchor at safe distance to North from pilot boat location. In event bad weather pilot boat goes to shelter, being available by VHF radio.

ANCHORAGES: Anchorages in port area usually indicated by Pilot, depending upon draft, etc.

MAX. SIZE: Vessels longer than 150 m. not recommended enter port. Draft not to exceed 26 ft.

HEALTH: All vessels coming from foreign countries inspected by Sanitary Office. If no diseases vessel obtains free pratique. If vessel entering after calling at another U.S.S.R. port, pratique automatic.

RADIO: All information from sea may be routed through Murmansk Radio (UMN) and Archangel Radio (UGE), A1 500 kc/s, A3 2182 kc/s.

TUGS: If necessary ordered two hours before arrival and normally join vessel near berth. Usually use ship's lines.

BERTHING: To certain extent depends upon tides. 37 berths available with depths alongside up to 8·25 m.

BRIDGES: Vessels proceeding to load cargo at sawmills 2 and 3 have to pass under bridge which is opened twice a day.

STEVEDORES: No particular ETA advices to stevedores/shippers required except those mentioned in Soviet Wood C/P. Loading rates, etc., also stipulated by Charter Party.

MEDICAL: If any medical attention or prompt assistance required, Master has to contact Agent. No advance notice required. Clinic and hospital available.

DENSITY: Fresh water practically throughout port.

FRESH WATER: Usually delivered by lighters (minimum charge for 15 tons). A few berths equipped with shore water lines.

FUEL: Some grades available.

FIRE PRECAUTIONS: While lying alongside timber berth vessel to take maximum fire precautions.

DEVELOPMENTS: For the immediate future no draft increase expected. Some berths under reconstruction and cranes being installed to load timber.

GANGWAY/DECK WATCHMEN: Not available from shore. Usual watch kept by ship's crew.

OPENING/CLOSING HATCHES: Normally carried out by ship's crew.

SHIP'S CERTIFICATES:
Seaworthiness.
Measurement.
Loading Line.
Cargo Equipment.
Safety Equipment Certificates.
Deratisation Certificate.

CUSTOMS ALLOWANCES: Tobacco/wine: No quantity limits, but not allowed to be brought ashore.

IDENTIFICATION CARDS: Only Seamen's Books required.

CONSULS: No Consuls in Archangel.

REPAIRS: All types of repairs possible.

DRY DOCKS: Largest dry dock 140 m. max. length; length at coping level 126 m.; suitable for ships not exceeding 5,000 tons and 18 m. beam. There are other smaller docks.

REPATRIATION: Repatriation and crew changes require visa formalities.

AIRPORT: Airport near town. Served by regular airlines.

TIME: GMT plus 3 hours.

HOLIDAYS: General holidays: all Sundays and Saturdays: January 1st (New Year's Day); March 8th (World Women's Day); May 1st, 2nd (World Labour Day); May 9th (Victory Day); November 7th, 8th (Great October Socialist Revolution Day); December 5th (U.S.S.R. Constitution Day). Cargo work on these days at shippers' discretion.

POLICE/AMBULANCE/FIRE: Police 02; Ambulance 03; Frie 01.

TELEPHONES: Can be arranged on board.

SERVICES: Compass adjusting, radar and radio repairs, etc.

SHORE LEAVE: Each crew member properly signed in Ship's Articles and having valid Seamen's Book allowed ashore.

DELAYS: On account of rain when loading timber.

AUTHORITY: Harbour Master, Nab. Lenina, 69, tel. 3-90-40. Deputy Harbour Master, tel. 2-16-55.

AGENT: Shipping Agency "Inflot", Archangel. Tel. 39874, 38573, 94040.

BATUMI: 41.39 N. 41.38 E.

DOCUMENTS: Refer to beginning of U.S.S.R. section.

PILOTAGE: Compulsory. Batumi situated in South of Black Sea Caucasian coast, at head of Batumijsky Bay. Navigation is year round. Navigational range marks to note when approaching port are: Batumijsky beacon, Burun-Tabia light, Batumijsky light buoy with siren and Batumijsky leading light marks. When proceeding Batumi, Master should give 96 hours notice prior arrival, advising Port Controller and "Inflot" Agency: time of arrival, description and quantity of cargo brought in, location, ship's draft and length, as well as declare services required. Four hours prior to approaching port, Master shall advise more precise time of arrival. Inflot will arrange Pilot.

ANCHORAGES: A mole protects port from seaward; safe anchorage provided except during periods of winds blowing from S.W., W. and N.W. when "Tyagun" is formed at port (strong variable current with surge). At time of "Tyagun" ships recommended stop loading/discharging operations and to head out of berth using anchor or mooring buoy, or to put to sea. S.W. wind is particularly troublesome.

Outer roads, some 5 cable's lengths wide and with depths up to 20 m., stretch for about 1½ miles N.E. from Batumijsky light buoy along shoal's border. Roads' bottom is mud and sand.

Inner roads situated between Western shore Batumijsky Bay and shoal stretching from Bay's Southern and Eastern shores. Depths over 11·5 m. at roads. Roads open to N. winds, but with other winds blowing strongly, anchorage not safe on roads; ship must take precautions not to lose her anchors. In case of stormy weather, in autumn and in winter particularly, ships without cargo must enter port with sufficient ballast on board.

MAX. SIZE: For oil carriers: Berth No. 1, 175 m. LOA 31·6 ft. draft; Berth No. 2, 165 m. LOA 30·5 ft. draft; Berth No. 3 165 m. LOA 30·5 ft. draft; Berth No. 4, 150 m. LOA 29·5 ft. draft; Berth No. 5, 212 m. LOA 29·5 ft. draft. For Cargo ships: Two berths where vessels may discharge. Maximum draft 32·5 ft.

MEDICAL: Medical attendance in local seamen's hospital. Masters to advise by radio prior arrival of medical attendance required on board.

RADIO:

Call letters	*Frequencies*	*Type*	*Transm.*	*Time*
UFA	484 and 500	A1 A2	CP.	H24
	17.190	A1		HX
	15.680	A3		H24

DENSITY: 1018·5.

FRESH WATER: Supplied ex-shore to ship directly. Maximum pressure 20 tons per hour. Also supplied ex water barge. Maximum quantity delivered by barge is 650 tons. Pressure about 60–80 tons per hour.

FUEL: Ships can be supplied with bunkers: heavy fuel oil, light fuel oil, diesel oil.

FIRE PRECAUTIONS: No special precautions. There is one fire-fighting boat.

OPENING/CLOSING HATCHES: According to Charter Party and contract.

CUSTOMS ALLOWANCES: Tobacco. No restrictions. Wine and/or spirits. No restrictions.

IDENTIFICATION CARDS: Not required.

CONSULS: Turkey.

REPAIRS: Only light hull repairs, machinery and gear.

AIRPORT: Batumi connected by airlines with different towns in Soviet Union. Airport situated about 5 km. from port.

TIME: GMT plus 4 hours.

HOLIDAYS: New Year's Day; 8th March (Women's Day); 1st May; 7th–8th November; 5th December; but port works those days.

SHORE LEAVE: Crew members allowed ashore till midnight.

AGENTS: Shipping Agency "Inflot".

IGARKA: 67.24 N. 86.30 E.

DOCUMENTS: refer to beginning of U.S.S.R. section.

PILOTAGE: Compulsory for Yenisei River and entering port. Pilot vessel *Meridian* is located in the following positions: 71° 45′ N., 83° 0′ 0″ E., and 71° 37′ N., 83° 30′ E. Pilot radio station OEFV, operates on 500 kc/s at the following times (Moscow time): from 00.00–03.00, 07.00–13.00, 15.00–17.00, 19.00–21.00 and 23.00–24.00. Master to give notice 96 hours before arrival at the pilot station and confirm ETA

5 hours before arrival. Within 15 miles of the pilot station, communication is made through "Akatsia" radio, OKV on 132 Mc/s or VHF Channel 16.

On approaching pilot boat, vessel should reduce speed to dead slow, or stop engines if requested. In the event of bad weather, Pilot is embarked or disembarked at a place as directed by the pilot boat.

Distance of pilotage from the pilot station to Igarka is 360 miles, and 2 Pilots together are usually required.

If pilot not available, vessel should anchor in vicinity of pilot station. Berthing Pilots and Pilots for departing vessels are arranged by "Inflot".

ANCHORAGE: Information on best location of anchorage, if required, will be given by the pilot boat.

RESTRICTIONS: Entry into port and berthing is carried out 24 hours per day. No tidal restrictions.

MAX. SIZE: Length 160 metres, draft is limited by river depths, maximum 24 ft.

HEALTH: Not later than 4 hours before arrival, Master to radio "Inflot" advising health condition on board. International code quarantine signals to be shown on arrival at port limits. No one, except Pilot and Port Authorities, may board or leave the ship until free pratique is given after port health inspection.

RADIO: Communications with Agent through Igarka radio, sign UFR, operating 24 hours on 500 kc/s and 470 kc/s. Ship's radio station must not be operated when vessel is at anchor.

TUGS: Normally join vessel with Harbour Pilot on approaching port. Vessels at anchor order tugs through "Inflot". Ship's tow lines used.

BERTHING: Usually effected with tug assistance. Vessel moors using both anchors forward and mooring stern to the quay. Three or four ships may berth simultaneously by these means.

MEDICAL: Medical assistance is free, hospital facilities available – all arrangements made by "Inflot".

DENSITY: Fresh water.

FRESH WATER: May be taken from the river.

FUEL: Available.

WATCHMEN: Ship's crew to provide watchmen services.

HATCHES: Mechanical hatches operated by crew, otherwise handled by stevedores.

IDENTIFICATION CARDS: Required for crewmen going ashore.

CUSTOMS ALLOWANCES: Only reasonable quantities for personal consumption may be taken ashore.

REPATRIATION: No facilities.

AIRPORT: Situated 1·5 km. away, one daily flight to Krasnogarsk.

TIME: GMT plus 7 hours.

HOLIDAYS: No official holidays are observed during the navigation season.

POLICE/AMBULANCE/FIRE: Police, tel. 0–02; Ambulance, tel. 0–04; Fire, tel. 0–01.

TELEPHONES: Telephones cannot be connected on board vessel.

SHORE LEAVE: Permitted during 06.00–24.00 subject to police control.

GENERAL: It is forbidden for crew to swim in the harbour.

AUTHORITY: Port Office, 47 Gorky Street, Igarka. Tel. 4–10. Cables: Morport, Igarka.

AGENT: "Inflot". Cables: "Inflot" Igarka.

ILYICHEVSK: 46.19 N. 30.40 E.

DOCUMENTS: Refer to beginning of U.S.S.R. section.

PILOTAGE: Compulsory. Master shall give agent preliminary information not less tha 96 hours prior arrival stating: Vessel's name and E.T.A., type and quantity cargo on board (or required), draft, length and beam, number and weight of each heavy lift and where stowed (if any), number of passengers, service required, In case of delay, Master shall advise agent accordingly. Approaching port communication can be established by radio-telephone on international frequencies. Vessels which have entered inner roads are prohibited to broadcast except in emergency. Call sign of port Radio Station UEH-2. Inwards and outwards pilotage of all foreign vessels is compulsory. Pilot and Boarding Officials embark or disembark in outer roads near Pilot Buoy. Position of embarkation or disembarkation may be changed as agreed upon with Master when weather conditions unfavourable. Embarkation and disembarkation of Pilot and Boarding Officials shall be effected in compliance with Regulation 17 Chapter V of "International Convention for Safety of Life at Sea" 1960. Position of Pilot buoy 46° 18′ N.; 30° 45′ E.

ANCHORAGES: When vessel not boarded by Pilot immediately on arrival it shall anchor in anchorage area specially designated in outer roads south of Pilot buoy and await boarding of officials or Pilot. The leading entrance line extending from Harbour gates to Pilot buoy and further seawards, marks northern limit of anchorage area. No vessel shall anchor north of or on this line.

RESTRICTIONS: Vessels entering Channel shall make way for vessels leaving. Passage in and out governed by shore Signal Station located on Port Radar Building. If no signals exhibited on signal mast, both in and out simultaneous navigation is permitted. Speed of vessel shall not exceed 5 knots except for emergency cases to improve manoeuvrability. Vessels prohibited anchor in Channel except in emergency when necessary prevent immediate danger of drifting aground, or engine or rudder damage, or other justifiable reasons. Such cases shall be immediately reported to Harbour Master.

MAX. SIZE: Vessels admitted with draft up to 9.7 metres. No tide.

HEALTH: Foreign vessels granted free pratique when berthed alongside and all arrival formalities accomplished by the boarding officials, irrespective whether day or night. If berthing delayed, under certain circumstances vessel may be granted free pratique at roads where anchored. Event suspected disease Master shall inform Agent by radio. When arriving from another Soviet Black Sea port, free pratique automatic.

RADIO: Channel 16 (156, 80 m.c/s.) for radio-telephone used for calling only, with subsequent switch to any other Channel. All information addressed to ship's Agent, Cable address "Inflot Ilyichevsk", Telex No. 232448. Port Radio UEH.2.

TUGS: Normally join vessel when approaching mooring berth. Ship's lines used.

BERTHING: When mooring, attention should be paid to shore cranes running very close to edge of pier.

STEVEDORES: No particular ETA advices required.

RADAR: Port Radar Station gives all possible technical information to any vessel navigating within Station's broadcast zone, if requested. Navigation in channel controlled by Port Radar Station. Communication between Station and vessels established by radio-telephone on international frequencies.

MEDICAL: Medical assistance rendered immediately when requested. Hospital facilities available. Particular inoculations required prescribed by International Sanitary Regulations.

DENSITY: Average density 1.010.

FRESH WATER: Available. Delivered from berth or appliances.

FUEL: Following grades available: (*a*) Fuel Oil Redwood viscosity at 50°C 1250–1500. (*b*) Marine Fuel Oil Redwood, viscosity at 50°C 187–360. Diesel Oil Redwood, viscosity at 20°C 32–47. Orders for bunkers preferably 3 days prior arrival in port.

DEVELOPMENTS: Presently port only partially constructed. Work of further development being carried out.

GANGWAY DECK WATCHMEN: Watch carried out by crew.

OPENING-CLOSING HATCHES: By crew.

CUSTOMS ALLOWANCES: No restrictions. Free use on board.

CARGO GEAR: No additional requirements. Cargo work usually carried out by means of shore cranes.

IDENTIFICATION CARDS: Required.

CONSULS: None.

REPAIRS: Good facilities.

DRYDOCKS: Docking arrangements settled with Black Sea Steamship Co. of Odessa, Lastochkina 1 Street. A floating dock, 250 metres length, 18 metres depth.

AIRPORT: The distance from Odessa Airport about 30 km.

TIME: GMT plus 3 hours.

HOLIDAYS: Official Holidays are Sundays and following Calendar dates: January 1st, March 8th, May 1st, 2nd, 9th, November 7th, 8th, December 5th.

POLICE-AMBULANCE-FIRE: All mentioned services easily obtained through agent.

TELEPHONES: Can be placed on board.

GENERAL: Shipowners recommended deposit funds for disbursements prior to arrival. All bank operations carried out by Vneshtorgbank of Moscow.

SERVICES: Shipchandler's supplies, Technical equipment supplies, Laundry, Car Hire.

SHORE-LEAVE: Permitted.

DELAYS: Vessels berthed at specialised berths depending upon cargo. Delays if berths occupied. Normally no delays in bunkering.

AUTHORITY: Odessa-18, Management of the Ilyichevsk Merchant Sea Port, USSR.

AGENT: Messrs. Inflot, Ilyichevsk, USSR. Cables: "Inflot".

IZMAIL: (including Reni): 45.20 N. 28.51 E.

DOCUMENTS: Refer to beginning of U.S.S.R. section.

PILOTAGE: Compulsory. Pilot should be ordered through "Inflot" before leaving the port of Sulina giving vessels ETA at Izmail. Alterations in ETA whilst vessel is navigating the Sulinsky channel should be advised to "Inflot". Also refer to Sulina, Romania.

RESTRICTIONS: Izmail port is situated on the left bank of the Kilia channel, channel depths are 10–20 metres. Reni port is situated on the left bank of the Danube, channel depths are 10–20 metres. Ice-breakers assistance is available during periods when the Danube is frozen.

HEALTH: International code quarantine signals are to be shown on arrival and free pratique is given by the quarantine doctor who will board the vessel to examine Master's Health Declaration.

RADIO: Radio station UJO operating 24 hours on all main frequencies.

TUGS: Vessels normally berth and unberth without tug assistance. A tug can be made available if particularly requested.

FRESH WATER: Available in unlimited quantity.

FUEL: Heavy fuel oil available.

WATCHMEN: Gangway watchmen compulsory, carried out by ship's crew.

HATCHES: Normally opened and closed by ship's crew. Stevedores can perform this work at special request.

CUSTOMS ALLOWANCES: No restrictions on crew consumption tobacco and alcohol on board. It is prohibited to take these items ashore.

IDENTIFICATION CARDS: Required for crewmen going ashore.

REPAIRS: Hull and machine repairs can be effected.

REPATRIATION: Can be arranged.

AIRPORT: Regular connections with internal services.

TIME: GMT plus 3 hours all the year round.
HOLIDAYS: New Year's Day (1st January), National Women's Day (8th March); Workers' Day (1st and 2nd May); Victory Day (9th May); Anniversary of October Revolution (7th and 8th November); Soviet Constitution Day (5th December).
POLICE/FIRE/AMBULANCE: Izmail – Police, tel. 316; Fire, tel. 524; Ambulance, tel. 600. Reni – Police, tel. 205; Fire, tel. 210; Ambulance, tel. 203.
SHORE LEAVE: Allowed up to midnight.
AUTHORITY: Parokhodnaja Ul. 1. Tel.: 9–04–06; 9–04–71.

AGENT: Portovaya Ul., 14. Tel. 9–01–81. Cables: "Inflot", Izmail.

KHERSON: 46.37 N. 32.37 E.

DOCUMENTS: Refer to beginning of U.S.S.R. section
PILOTAGE: Compulsory. Navigational range marks, leading marks of Stanislov, Adjigolsky beacons, Verbchansky and Maliy Kasperovsky leading light buoys, and spar buoys. Master advises Port Controller and Inflot Agency ETA minimum of 96 hours prior notice.
ANCHORAGES: Good safe anchorages.
RESTRICTIONS: Maximum draft in channel 7 m. 60 cm. In hard winter ice breaker necessary.
HEALTH: No automatic pratique.
RADIO: Kherson Radio – call letters UHZ frequency 487,500, or US1 frequency 7890, 2099, 156, 80, 156, 45.
BERTHING: Nine berths, depths up to 8 m. 40 cm.
MEDICAL: Hospital facilities available.
FRESH WATER: Available.
FUEL: Fuel oil, diesel oil of certain viscosities, also coal.
OPENING/CLOSING HATCHES: By shore workmen.
AUTHORITY: Ul Ushakova, 4 Kherson, Ukrainian S.S.R., U.S.S.R. Tel. 291402. Telegraphic address, Morflot Kherson.

AGENTS: Main Maritime Agency "Inflot". Telex. 132. Te.l 291 351.

KLAIPEDA: 55.43 N. 21.07 E.

DOCUMENTS: Refer to beginning of U.S.S.R. section.
PILOTAGE: Report 96 hours, then 24 hours prior arrival by radio giving ETA, name vessel, fresh water draft. Pilot compulsory inward/outward and shifting. Pilot meets vessel at buoy No. 1 unless wind force above 5 Beaufort or fog. In such cases pilot station instructs Master by radio-telephone and fixes meeting with Pilot.
ENTRY RESTRICTIONS: Day and night entrance. Maximum permissible draft 8 m. Anchorage at inner roads limited to vessels under 100 m. length.
MAX. SIZE: Length and breadth unlimited. Maximum permissible draft for all vessels entering the port, 8 m.; and for tankers loading at installations outside main port area, 9 m.
BERTHING: No specific requirements. Vessels allocated berth according kind of cargo to be loaded/discharged and their turn.
RADIO: "Klaipeda-Radio" port radio station. Call letters UMN–2. Cable Agents giving ETA, draft, cash required.
TUGS: Ordered by Pilot if necessary.
STEVEDORES: Report 48 hours, then 12 hours prior arrival giving ETA, and 72 hours then 12 hours prior arrival advising perishable goods, characteristics of vessel, gross capacity, number and measurement of hatches, tween-decks, shelter-decks, description and quantity of cargo, stowage plan, heavy lifts, pieces of above 3 tons each especially indicated. Day and night loading/discharging operation, Sundays and holidays included.
MEDICAL: Master to advise by radio prior arrival if medical attendance required onboard.
TANKERS: Three berths. Maximum draft 9 m. Shore facilities for discharge of ballast.
FRESH WATER: Most berths supply by shore installations, otherwise barge. Quantities under 15 tons from barge charged as 15 tons.
FUEL: Deliveries only by bunker barge.
WATCHMEN: Compulsory for gangway checking. Guard net and life buoy required.
OPENING/CLOSING HATCHES: Normally by crew. Possible by shore workers.
CONSULS: No Consuls at Klaipeda.
REPATRIATION: No facilities for crew changes. Arranging any necessary repatriation at Captain's request effected by Immigration Authorities.
AIRPORT: At Palanga (25 km. from Klaipeda), served by regular lines: Palanga–Moscow, Palanga–Leningrad, Palanga–Riga. Airport at Klaipeda – some regular flights per day: Klaipeda–Vilnius, Klaipeda–Kaunas, Klaipeda–Kaliningrad.
POLICE/AMBULANCE/FIRE: Tel. Police, 02; Ambulance, 03; Fire, 01.
GENERAL: In case of stormy weather or dense fog vessels are lying at Outer Roads until entering permitted by Harbour Master. In such cases vessels lying alongside berth to be shifted to Inner Road.
CERTIFICATES: All ship certificates required on every call.
CUSTOMS ALLOWANCES: Cigarettes and wine/spirits on board limited by personal requirements; take ashore maximum 2 packets cigarettes, no wine/spirits.
REPAIRS: Urgent repairs possible. Pre-advise 2 days. Dry dock 6,500 t. Ordered only on special agreement with Lithauen Steamship Company.
TIME: Moscow time, GMT plus 3 hours.
TELEPHONES: May be arranged on board.
SHORE LEAVE: Crew members allowed ashore with shore-pass obtainable from Immigration Authorities.
AGENTS: "Inflot" Agency. Address: Klaipeda, ul. Platchioy 18. Tel. 6–42–70, 6–32–36. Cables: Inflot, Klaipeda. Telex: 179.

LENINGRAD: 59.54 N. 30.15 E.

DOCUMENTS: Refer to beginning of U.S.S.R. section.
PILOTAGE: Compulsory, ship shall inform Agent before approaching Leningrad entrance buoy, 60° 02′ N. 29° 26′ E. 96, 48 and 24 hours prior arrival. VHF with pilot boat, Channel 16, call signal "pilot Leninets"; if bad weather pilot boat leads ships to Kronstadt road where Pilot comes aboard.
RESTRICTIONS: No restrictions night entry, no tide in Leningrad.
MAX. SIZE: Draft restriction 9·8 metres.
HEALTH: Master of vessel coming from foreign port shall report every sick passenger or crewman; Health Authorities board together with Customs and Immigration and if find all in order grant free pratique. Each vessel shall produce Deratization Certificate and Sanitary Patent.
RADIO: Cable Agent "Inflot" ETA, draft and other data, information required via Leningrad Radio Station.
TUGS: Normally join incoming vessels at Inner Road. Ships lines usually used.
STEVEDORES: Ordered by Agent.
RADAR: Pilot in contact with radar service.
MEDICAL: Masters to advise Agent prior arrival if medical attendance required aboard.
DENSITY: Fresh water in port area.
FRESH WATER: Most berths supplied by shore installations, otherwise barges.
FUEL: All grades available.
FIRE PRECAUTIONS: No smoking allowed in port area, except in places specially allocated.
WATCHMEN: Not compulsory.
OPENING/CLOSING HATCHES: According to charter party.
CERTIFICATES:
Passenger Ship Safety.
Safety Equipment.
Safety Radiotelephony.
Safety Radiotelegraphy.
Exemption Certificate.
CUSTOMS ALLOWANCES: No restrictions on board.
IDENTIFICATION CARDS: Needed, will be given on arrival.
REPAIRS: All repairs possible.
DRY DOCKS: Available.
TIME: GMT plus 3 hours, no alterations during year.
POLICE/FIRE/AMBULANCE: Police 9692; First-Aid from Port 503; from Town 03; Port Fire 8509, 8536, 8973; Town Fire 01.
AUTHORITY: Leningrad Merchant Port 9994, 9761; Leningrad Timber Port 9775.

AGENT: "Main Maritime Agency Inflot", Post – "Inflot", Leningrad L–35 U.S.S.R. Tel. 164812, 169921. Telex 505.

MESANE, (Mezen): 65.53 N. 44.07 E.

Open for navigation about six months per year with ice breaker assistance.
DOCUMENTS: Refer to beginning of U.S.S.R. section.
PILOTAGE: Compulsory. Vessels met by pilot boat in area of pilot buoy (66° 12′ N., 44° 04′ E.) about 22 miles from port. No direct connection between ships and pilot station. Alternative area in event of bad weather Outer Roads of Mesane, entering direction 183°. These Roads used for boarding Pilot only on Pilot's option. Information to be in accordance with Soviet Wood Charter Party. Pilot boat equipped radio telephone (2182 kc/s, call name "Petchoretz Dva"), word "Pilot" painted on wheel house. Pilot boat to be given a good lee.
ANCHORAGE: Depths at anchorages 5–7 metres.
RESTRICTIONS: Vessels may enter port only in daytime on high water. Masters have to pay full attention to Pilot's advice as river has varying bends.
MAX. SIZE: Draft declared by Port Authorities after being checked in beginning of season; about 13–14 ft. Maximum length about 70 metres.
HEALTH: As for "Archangel".
RADIO: Besides Murmansk and Archangel, messages may be routed through Mesane Radio (UZT, A1 500 kc/s, VHF Channel 16).
GENERAL: For further details refer to "Archangel".
AGENT: See "Archangel".

MURMANSK: 69.00 N. 33.03 E.

DOCUMENTS: Refer to beginning of U.S.S.R. section.
PILOTAGE: Compulsory. Pilot station is situated at Tuva-Goobay in Kilsky Bay, position 69° 11′ 09″ N., 33° 34′ 08″ E. ETA to be given to Agents 96, 48, 24 and 12 hours before arrival. Pilot launch is distinguished by word "Pilot" in black letters on both sides. Pilots can be contacted on VHF Channel 16.
ANCHORAGE: At the pilot station depths are too great to permit anchorage, but there is sufficient sea room for vessel to await Pilot with engines stopped.
MAX. SIZE: Vessels up to 32 ft. maximum draft for berthing.
HEALTH: International quarantine signals to be used on arrival No later than 6 hours before arrival at the inner area Master should

radio Agents giving full details of state of health on board, and requesting pratique which will be given on arrival.
RADIO: Murmansk Radio operating 24 hours on 2182 khz. Coastal radio station UMN operating 24 hours on 500 and 472 khz. Coastal radio station UMV operating 24 hours on 13080 khz.
VHF: Port VHF maintains contact between Pilots and ship within harbour limits, and between ship and shore. Calling on Channel 16 working channel will be according to instructions from shore.
TUGS: Normally join vessel in the inner area of the port. Tug's lines are used.
BERTHING: Main berths, depth alongside 32 ft. at low water. Average height of tide about 3·9 metres. Vessels berth port or starboard side alongside at Master's and Pilot's discretion.
STEVEDORES: Arranged by Agent on basis of Masters ETA Loading and unloading is carried on throughout 24 hours a day including holidays.
MEDICAL: Hospital and medical facilities available. Vaccination can be arranged. If doctor required on board Master should inform Agents by radio or VHF.
DENSITY: At the berth varies between 1006 and 1025.
FRESH WATER: Available from most berths, otherwise supplied by barge. To avoid delay recommended to order before arrival.
FUEL: All grades available. Delivered by barge. Advance notice required.
DEVELOPMENTS: Reconstruction is being carried out in order to speed up loading of iron-ore and other cargoes.
WATCHMEN: Not obligatory.
HATCHES: Opening and closing of hatches is usually performed by ship's crew.
CERTIFICATES: At first Russian port of call certificates of tonnage and those required by International Convention will be required for examination.
CUSTOMS ALLOWANCES: No restrictions on crew's consumption of tobacco and alcohol on board. It is forbidden to take these items ashore.
CONSULS: There is no local representation.
REPAIRS: Temporary repairs to hull, deck and machinery can be effected.
DRY DOCKS: Large dock; length 173 metres, width 45 metres. Small dock; length 141 metres, width 30 metres.
TELEPHONES: Ambulance, tel. 003, 395 and 442; Fire service, tel. 252 and 524.
AUTHORITY: Murmansk Sea Trade Port, 19 Port Settlement, Murmansk. Tel. 25177 and 25627. Telex: 128. Cables: Mortorgport, Murmansk.
AGENT: "Inflot". Tel. 256–66. Cables: "Inflot", Murmansk.

NAKHODKA: 42.48 N. 132.54 E.

DOCUMENTS: Refer to beginning of U.S.S.R. section.
PILOTAGE: Compulsory. Radio "Inflot" 96, 48 and 24 hours before arrival, advising ETA, ship's dimensions, cargo details, number of passengers and any other requirements. 4 hours before arrival an accurate confirmation of ETA is required to order Pilot. Vessels approaching port should first make for position 42° 27.2′ N., 132° 56.3′ E. Approach to this area is indicated by radio signals "Gannov" and "Povorotny". On arrival in this position Master should again report to the Harbour Master via "Inflot".

From this position vessel should follow course No. 1 along the 2 mile wide fairway. As soon as the light at the entrance of America Bay is visible vessel should steer towards that light as far as quarantine anchorage "A" where the Pilot boards. Tankers proceeding to the oil terminal should approach port along parallel 42° 47′ N. and enter anchorage area "D" on course 270°. Further movement to berths from anchorage areas may only be carried out with a Pilot on board. Pilots are ordered by radio via "Inflot". Pilot boards from a white motor boat with the word "Pilot" in black letters painted on the wheelhouse. International Code Pilot Signals are used. The Pilot boat is normally located near the entrance to the port. In winter the pilot launch may be replaced by a powerful tug.
ANCHORAGE: Depths in anchorage area "A" are from 13–20 metres. Anchorage area "D" has depths of from 18–28 metres.
RESTRICTIONS: Vessel may not enter port without first obtaining permission of port control. Anchorage of oil tankers is only allowed in area "D".
MAX. SIZE: Maximum permissible draft in the main port is 9·6 metres.
HEALTH: Advise "Inflot" by radio in advance if there is any case of quarantine illness on board the ship. Smallpox vaccination is compulsory for all crew members. If vessel is arriving from a cholera area, then cholera inoculations are also required.
RADIO: Nakhodka Radio, call sign UKI, operating 24 hours on frequencies 500, 532 and 8475 khz.
TUGS: Tug and mooring launch assistance available. Tugs join the vessel in America Bay as directed by Master or Pilot. Ship's tow lines are used.
BERTHING: May be effected at any time of day or night. In daytime vessels mooring position will be marked by a flag and at night by a red lantern. These signals mark the point where the ship's bow should be at the mooring.
STEVEDORES: Arranged through "Inflot".
MEDICAL: Medical service is free. All requirements should be ordered in advance through "Inflot".
FRESH WATER: Can be supplied at the berth or by barge.
FUEL: Available subject to advance notice. If fuel required by barge at the anchorage a written request to the Agent is required at least 24 hours in advance.
TANKERS: Slop reception facilities are available.
DEVELOPMENTS: Constructing new port at Urangel, 8 miles from Nakhodka, having: Coal pier, annual capacity 10 million tons. Coal conveyor, annual capacity 5 million tons. Wood chip conveyor system, annual capacity 800,000 tons. Container system.
HATCHES: May be opened and closed by stevedores at Masters request.
CUSTOMS ALLOWANCES: No restrictions on tobacco and alcohol on board ship. Only tobacco required for personal consumption may be taken ashore.
CONSULS: North Korea, tel. 5310. Japan, tel. 7519.
REPAIRS: Deck machinery and diesel repairs can be effected.
REPATRIATION: Can be arranged provided passport and documentation is in order.
AIRPORT: Nearest international airport situated 120 kms away.
TIME: GMT plus 10 hours all the year round.
SHORE LEAVE: Permitted subject to police control.
AUTHORITY: Port Office, ul Portovaya 22, Nakhodka, Primorsky Krai U.S.S.R. Telephone: 62–98. Cables: Torgport, Nakhodka.
AGENT: "Inflot", Leninskaya, ul 2. Telephones: 54–05, 56–13. Cables "Inflot", Nakhodka.

NARIAN-MAR: 67.38 N. 53.00 E.

Open to navigation about three to four months in the year.
DOCUMENTS: Refer to beginning of U.S.S.R. section.
PILOTAGE: Compulsory. Besides information stipulated in Soviet Wood Charter Party, vessels approaching pilot buoy may contact Port Authorities or Pilot in first fifteen minutes of any odd hour from 0700 till 2300 (Moscow time), frequency 2182 kc/s. Signals for Pilot to be given in accordance with International Code. Pilot boat wooden, standard type, white painted, with word "Pilot" in black letters on wheel-house. Vessels met by pilot boat in area of 69° 30′ N. and 54° 33′ E. Pilots do not board in rough weather. Recommended anchorage in same area.
ANCHORAGE: Depths at anchorage 18–21 ft. Also Inner Roads where anchorage will be indicated by Pilot.
MAX. SIZE: Draft declared by Port Authorities after being checked in the beginning of the season, and is about 15 ft.
HEALTH: Vessels inspected by sanitary officer. If no diseases, vessel obtains free pratique. Pratique automatic when vessel arrives from another Russian port.
RADIO: Archangel and Narian-Mar Radio (UOY, A, 500 kc/s.).
BERTHING: Vessel alongside is not always afloat but safe aground.
STEVEDORES: As per Soviet Wood Charter Party.
MEDICAL: No advance notice required. Clinic and hospital available.
DENSITY: Fresh water irrespective of tide.
FRESH WATER: Delivered by tanker.
FUEL: Not available.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Normally carried out by crew.
SHIP CERTIFICATES:
Seaworthiness.
Measurement.
Load line.
Cargo Equipment.
Safety Equipment.
Deratisation Certificates.
CUSTOMS ALLOWANCES: Tobacco/Wine. No quantity limits.
IDENTIFICATION CARDS: Only Seamen's Books.
CONSULS: No Consuls.
REPAIRS: Small repairs only.
DRY DOCKS: None.
REPATRIATION: Repatriation and crew changes require visa formalities.
AIRPORT: Airport served by regular lines and situated near town.
TIME: GMT plus three hours. No seasonal alterations.
HOLIDAYS: See "Archangel".
POLICE/AMBULANCE/FIRE: Police 02; Ambulance 03; Fire 01.
TELEPHONES: Can be arranged on board.
SHORE LEAVE: Each crew member properly signed in ship's Articles and having valid Seaman's Book is allowed ashore.
DELAYS: Caused by rains, when vessel loading cargo of sawn goods.
AUTHORITY: Chief Harbour Master, tel. 2–01; Harbour Master, tel. 5–54 or 2–43.
AGENT: See "Archangel".

NOVOROSSIJSK: 44.43 N. 37.48 E.

DOCUMENTS: Refer to beginning of U.S.S.R. section.
PILOTAGE: Compulsory: 96 hours prior arrival cable Inflot giving ETA, name vessel, gross tonnage, exact draft, type of engine. Flag, sound and Morse signal G. Pilot meets vessel at 44° 37′ N.; 37° 52′ E. Movement of vessel within inner harbour – only under Pilot guidance.
ANCHORAGES: 44° 37′ 7″ N.; 37° 52′ E.; depth up to 22 m.; Outer Roads anchorage unsafe during N.E. winds (gales). Master must keep engine ready or proceed for anchorage to S. Ozereika Roads under these sea conditions. Vessels obliged to receive daily weather message at 15.00 LT on 420 kc/s.
RESTRICTIONS: No restrictions on night entry.
MAX. SIZE: Draft 11·2 m. for dry cargo vessels and 14·2 m. for tankers; length/breadth no restrictions.

HEALTH: Free pratique automatic for vessels coming direct from U.S.S.R. port. From other countries, usual procedure of sanitary inspection applies.
RADIO: Within Outer Roads through Novorossijsk shore r/s, call sign "Novorossijsk-Radio" from 08.00 to 22.00 LT, Sundays and holidays excepted; watch on 2182 and 3180 kc/s, answers and transmits on 450 kc/s.
TUGS: As decided by Pilot. Vessels' lines usually used.
BERTHING: When proceeding in inner harbour vessels must keep both anchors ready to let go; ships to be moored by safe ropes which to be kept tight at all times. Also be ready to use anchor chain over bollard according to Pilot's recommendation. Strictly prohibited to work with propellers lying alongside berth. All mooring ropes must be fitted with rat-guard plates.
STEVEDORES: All necessary services including stevedoring work available under Port Authority guidance. Port cargo-handling regions where ships berth managed by Port Authority and used for stevedoring, tallymen service, storage, etc. On the matters connected with services available, foreign vessels have to apply to Port Authority through Maritime Agency "Inflot".
MEDICAL: In case of accident (emergency), medical attendance rendered at any time. Hospital facilities available. Also inoculation, vaccination, etc.
TANKERS: Bearing in mind N.E. gales, oil carriers lying alongside oil pier must have boat-ropes lowered to water and illuminate them at night. All scupper holes on main deck must be closed tightly. Master responsible for overflow of oil in the vicinity of harbour and has to bear harbour cleaning costs. No repair work can be done on tankers lying alongside oil pier. No ballast water may be pumped out, no garbage or refuse thrown overboard. Ballast water to be pumped into shore slop tank.
DENSITY: About 1,010–1,014.
FRESH WATER: Available from shore; minimum quantity invoiced at 15 tons.
FUEL: Most grades available.
FIRE PRECAUTIONS: All operations involving open fire and sparks are prohibited on oil pier. Two fire-extinguishers, thick felt and sand must be ready beside hose connection.
WATCHMEN: Gangway watch compulsory and carried out by crew.
OPENING/CLOSING HATCHES: Normally by crew, otherwise according Charter Party.
CUSTOMS ALLOWANCES: No quantity limits but nothing allowed to be taken ashore.
IDENTIFICATION CARDS: Crew members get shore passes.
CONSULS: No Consulates in port or its vicinities.
REPAIRS: For radio, radar and navigational equipment only.
DRY DOCKS: None.
REPATRIATION: No facilities exist for effecting crew changes. A crew member may be repatriated due to family reasons or sickness but repatriation requires visa formalities.
AIRPORT: Nearest airport (Krasnodar) served by regular inner lines is situated at 150 km. from port.
TIME: GMT plus 3 hours; no alterations during year.
HOLIDAYS: New Year's Day, 8th March (Worlds Women's Day); May 1st, 2nd (Labour Day); May 9th (Victory Day); November 7th, 8th (Great October Socialist Revolution Day); December 5th (U.S.S.R. Constitution Day). Cargo work can be arranged on those days.
POLICE/AMBULANCE/FIRE: Police, 02; Ambulance, 03; Fire, 01.
TELEPHONES: Can be arranged to be fitted on board.
SHORE LEAVE: Crew members are allowed ashore.
AUTHORITY: Postal Address: Portovaja 14, Novorossijsk, Krasnodarsky Krai, U.S.S.R. Cable: Morport Novorossijsk. Tel. 23–08, 28–58, 99–5–94. Telex: 829.

AGENT: Main Shipping Agency "Inflot", 13 Portovaja Str., Tel. 99–2–49, 99–2–85, 99–2–60. Cables: "Inflot" Novorossijsk. Telex: 827.

ODESSA: 46.29 N. 30.47 E.

DOCUMENTS: Refer to beginning of U.S.S.R. section.
PILOTAGE: Compulsory. Arranged through Inflot, but vessel to give 96, 24 hours and 6 hours notice through Odessa radio. Pilot boat recognised by international pilot flag. Vessel requiring Pilot shows international flag "G". Pilot boards vessel in region 1 mile from Vorontzov lighthouse. In bad weather vessel enters Inner Roads according to instructions given by radio. Fenders should be on side where Pilot boards.
ANCHORAGES: The Outer Roads, between the port and Severny Odessky Cape, depths up to 14 m. Open to winds from N.E. to S.S.E. Good holding ground.
RESTRICTIONS: Vessels enter only with Pilot and should have lights according to Pilot's instructions. Vessels berthed depending on kind of cargo carrying or loading.
HEALTH: Free pratique given on berthing. In case of suspected disease Master must inform Inflot by cable. Free pratique cannot be granted automatically.
RADIO: Odessa radio operates on LW–MW, calling signal UDE 447 and 432 k/cs. Vessel should stand by on 454 or 480 kc/s and 65·10 kc/s on short wave.
TUGS: Tugs meet vessel in place indicated by Master through Pilot.
BERTHING: Thirty eight berths available with depths alongside up to 12·0 m.
RADAR: Vessel's radar not to be used in Outer Roads.
MEDICAL: Advance notice for medical attendance required. Notice should be given to Inflot. Hospital facilities available in case of emergency.
TANKERS: No reducing pieces necessary. Oil slop facilities available.
DENSITY: Average density 1.0012 varying with season.
FRESH WATER: Fresh water may be supplied ex shore or ex water barge. Minimum quantity ex barge 15 tons.
FUEL: Bunkers can be supplied, and to be ordered 72 hours before arrival.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: By stevedores.
CUSTOMS ALLOWANCES: Tobacco. No limits on board vessel, but when going ashore not more than 1 or 2 packs. Wine and/or spirits not to be taken ashore.
CARGO GEAR: All cargo gear must have certificates for maximum weight capacity.
IDENTIFICATION CARDS: Necessary.
CONSULS:
Bulgarian Consulate tel. 2–45–72
Indian Consulate tel. 2–37–10
Cuban Consulate tel. 5–14–69
REPAIRS: All types of deck and engine repairs can be carried out.
DRY DOCKS: Available.
REPATRIATION: Can be arranged.
AIRPORT: Distance to airport 10 miles. Direct airlines with several socialist countries and with the rest of the world through Moscow. Planes fly to Moscow 3 times a day.
TIME: Local time GMT plus 3 hours.
HOLIDAYS: Work can be arranged on below mentioned holidays through Sovfracht, Moscow, at special rates. Holidays: 1st January, 8th March, 1st and 2nd May, 9th May, 7th and 8th November, 5th December.
POLICE/AMBULANCE/FIRE: Police (Militia), 02 from town; 902 from port.
TELEPHONES: Telephones may be installed on board.
SERVICES: Tank-cleaning equipment available.
SHORE LEAVE: Crew members allowed to stay ashore till midnight. Master without limitation.
DELAYS: Vessels berthed in turn.
AUTHORITY: The Port of Odessa, Pl. Vackulenchuka 1, contacted through Inflot.

AGENT: Main Maritime Agency "Inflot". Telex 1185. Tel. 933781.

ONEGA: 63.54 N. 38.06 E.

Open for navigation about four months a year with ice breaker assistance.
DOCUMENTS: Refer to beginning of U.S.S.R. section.
PILOTAGE: Compulsory. Pilot station can be called on 500 kc/s (call signal UQQ, watch hours 0400–0600, 0800–1000, 1200–1400, 1800–2000 GMT) and on 2182 kc/s. Information to be given in accordance with Soviet Wood Charter Party. Pilot boat wooden standard type, white painted with word "Pilot" in black letters on wheel-house. Signals to be made in accordance with International Code. Pilot taken on board near Letnij Orlov East light buoy (64° 55′ N., 36° 25′ E.). In case of moderate sea vessel to proceed one or two cable's lengths to South, keeping distance of one mile off shore. In respect of safe boarding Pilots require vessel to make a lee for pilot boat. Vessel awaiting Pilot may anchor to the South of the East light buoy at distance of one mile off shore.
ANCHORAGE: When sea is moderate or rough and winds are from N.W. quarter, recommended anchorage is in area of Solovetzky island under point Petchak, where vessel may approach shore as close as one mile and anchor at depths of 33 ft. Vessels lying on Karesky Roads recommended anchorage in event of storm from N.W. quarter is at Purnema area where a light anchorage buoy installed (64° 20′ N., 37° 27′ E.), depths are 6–10 m.
RESTRICTIONS: Vessels having draft not more than 3 metres may enter port at any time, but with draft more than 3 m. only one hour before high water.
MAX. SIZE: Length 120 m., no breadth limits. Draft usually declared by Harbour Master after being checked in beginning of season, is between 17 and 21 ft. (21 ft. is declared after dredging).
HEALTH: Alongside or on the Roads all vessels coming from abroad inspected by Sanitary Office representative. If no diseases, vessel obtains free pratique. If vessel enters directly after calling at another Russian port, pratique automatic.
RADIO: Besides Murmansk and Archangel, Onega Radio (UZS), 500 kc/s; VHF of pilot office at port of Onega (Channel 16).
TUGS: If necessary, ordered by Pilot or Master and join vessel near berth. Usually ship's lines used.
STEVEDORES: No particular ETA advices to stevedores/shippers. Loading of timber usually carried out by ship's winches at average rate of 24 stds. per hatch per working day.
MEDICAL: Doctor and hospital facilities available.
FRESH WATER: Available. Usually delivered by tankers.
FUEL: Availability not guaranteed.
GANGWAY/DECK WATCHMEN: Usually by ship's crew.
OPENING/CLOSING HATCHES: Usually by ship's crew.
CUSTOMS ALLOWANCES: No restriction on quantity, but nothing to be taken ashore.
IDENTIFICATION CARDS: Only Seamens Books required.
REPAIRS: Small repairs only.
REPATRIATION: Subject to visa formalities.
AIRPORT: Nearest at Archangel.
TIME: GMT plus 3 hours.
HOLIDAYS: See "Archangel".

SHORE LEAVE: Allowed up to midnight.

AGENTS: See "Archangel".

POTI: 42.09 N. 41.39 E.

DOCUMENTS: Refer to beginning of U.S.S.R. section.
PILOTAGE: Compulsory. Radio 96, 48 hours prior arrival to Port Controller and Inflot Agency advising ETA, description and quantity of cargo, location and weight of heavy lifts, if any, number of passengers, ship's length and draft, as well as any services required. Confirmation of ETA required 4 hours prior arrival. Inflot will arrange Pilot basis above information.
ANCHORAGE: In outer port which protected by Novy Severny, Yuzhny, and Zapadny Moles, and by Zapadny Breakwater. Safe anchorage for deep drafted vessels, except in periods when "Tyagun", a strong variable current with surge, occurs, with winds from N.W., W., and S.W.
RESTRICTIONS: Strong winds from W., S.W. and E. can make it difficult to enter port. At least 25 cm. keel clearance required to enter or leave port.
MAX. SIZE: Depending on berth depth.
HEALTH: Free pratique automatic for vessels from another U.S.S.R. port. Other vessels are boarded on arrival.
RADIO: Poti Radio operates 24 hours daily on following frequencies: Call sign UVB 421 and 500 kc/s. Call sign UFC 8546, 4413·8, and 156·80 kc/s.
BERTHING: The port of Poti comprises three harbours: the Yuzhnaya (Southern), Severnaya (Northern) and Vnutrenniaya (inner) harbours. Fifteen berths in port, with depths up to 8·35 m. alongside.
MEDICAL: Qualified medical service is available free of charge, including dispensary and hospital treatment.
STEVEDORES: Arranged by Inflot.
DENSITY: About 1015, variable with season.
FRESH WATER: Fresh water supplied ex shore to ship directly or ex water barge in boundaries of port. Minimum quantity delivered by barge is 15 tons.
FUEL: All types of fuel available except marine diesel for bunkering. Quantities over 500 tons supplied only subject 4 to 5 days advance notice.
CUSTOMS ALLOWANCES: No restriction on quantities but nothing to be taken ashore.
CONSULS: See "Odessa".
REPAIRS: Floating cranes up to 100 tons capacity available.
AIRPORT: Nearest at Odessa.
TIME: GMT plus 3 hours.
HOLIDAYS: 1st January (New Years Day); 8th March (International Women's Day); 1st, 2nd May (Workers' International Solidarity Day); 9th May (Victory Day); 7th 8th November (Anniversary of October Revolution); 5th December (U.S.S.R. Constitution Day).
POLICE/FIRE/AMBULANCE: Police service, tel. 0–2; Ambulance, tel. 0–3; Fire Service, tel. 0–1.
SHORE LEAVE: Crew members allowed ashore up to midnight.
AUTHORITY: Address: ul. Lenina, 50 Poti, Georgian S.S.R. Tel. 9 32 02, 9 32 05. Cables, Morport Poti.

AGENTS: Main Maritime Agents, Inflot, ul. Lenina, 50, Poti. Tel. 9 32 27. Cables, "Inflot" Poti.

RIGA: 56.57 N. 24.05 E.

Open for navigation all year round with icebreaker assistance.
DOCUMENTS: Refer to beginning of U.S.S.R. section.
PILOTAGE: Compulsory. Inflot will arrange Pilot on receipt of ETA at Daugavgriva Buoy, which to be given 96, 48, 24 and 4 hours prior arrival. Also advise with ETA details of cargo, last port of call, passengers if any, ship's draft and length.
ANCHORAGE: In Riga Roads, depths of 15 to 30 m., good holding ground. Anchorage is not protected against winds veering from S.W. through N. to N.E. Anchorage not recommended in strong Northerly winds.
RESTRICTIONS: Entry through entrance channel past river bar.
MAX. SIZE: Maximum draft allowable is between 7·5 m. to 8·25 m.
HEALTH: Pratique obtainable after vessels mooring when Health Officials visit vessel with Immigration and Customs Officers. Health Inspector to be informed of any medical assistance required.
RADIO: Riga port radio station operates 24 hours daily on following frequencies: Call sign UKB 489 and 500 kc/s; Call sign UDH 156·80 and 161·90 kc/s; 2182, 4415·8, and 8783·1 kc/s.
BERTHING: Sixteen berths in port accommodate general cargo, bulk carriers, tankers and passenger vessels. Depth alongside quays up to 9·75 m.
MEDICAL: All medical assistance available.
STEVEDORES: Arranged by Inflot who should be given necessary information in advance.
DENSITY: About 1002.
FRESH WATER: Available at quays.
FUEL: Only thin fuel oil and gas oil available.
GANGWAY/DECK WATCHMEN: Recommended. These duties normally performed by crew.
OPEN/CLOSE HATCHES: Normally by ship's crew.
CUSTOMS ALLOWANCES: No restriction on quantities, but nothing may be taken ashore.
IDENTIFICATION CARDS: Seaman's Book required.
CONSULS: None.
REPAIRS: Repairs possible for hull, machinery, radio and navigational equipment. Floating crane available, capacity 100 tons.
REPATRIATION: Only subject to visa restrictions.
TIME: GMT plus 3 hours all year round.
HOLIDAYS: 1st January, 8th March, 1st and 2nd May, 9th May, 7th and 8th November, 5th December.
POLICE/FIRE/AMBULANCE: Advise Inflot.
SHORE LEAVE: Crew allowed ashore.
AUTHORITY: Address: ul. V. Latsisa 6, Riga 33. Tel. 33 92 24, 33 92 54. Cables: Morport Riga.

AGENT: Main Maritime Agents Inflot, ul. V. Latsisa 6. Telex 157. Tel. 33 97 00, 33 97 03. Cables, "Inflot Riga".

TALLINN: 59.27 N. 24.45 E.

DOCUMENTS: Refer to beginning of U.S.S.R. section.
PILOTAGE: Compulsory. Advise Agent of vessel's ETA 96, 48 and 24 hours before arrival. If the time of passage to the port is less than 48 hours, ETA should be given no later than one hour after departure from previous port.

Radio Agent 4 hours before arrival requesting a Pilot. Pilotage is compulsory, 24 hour service. Pilot boards at Western Tallinamadal bank, approximate position 59° 42.5′ N., 24° 38.0′ E.

International code signals may be used to call Pilot who will come out in a motor-boat as ordered by Agents on basis of Masters ETA. Pilot boat can be contacted on VHF Channel 16.

N.B. Vessels should proceed to Tallinsky Bay through the Northern Passage. The Straits of Sooripy are temporarily closed to navigation.
ANCHORAGE: Vessel awaiting Pilot may anchor in pilot boarding zone. The main anchorage for Tallinsky bay is situated to the East of Tallinsky light and limited by a line connecting the following positions: 59° 28.5′ N., 24° 47.1′ E. 50° 28.7′ N., 24° 48.8′ E. 59° 28.5′ N., 24° 49.1′ E. 59° 27.8′ N., 24° 47.7′ E.

Anchorage is not protected from the seaward side, depths from 12·5 to 26 metres. Anchorage is forbidden in other parts of Tallinsky Bay.
RESTRICTIONS: Entrance to the harbour inside the breakwaters is through the North or the South entrance. Maximum permitted draft for both entrances is 23 ft. At South entrance depths vary according to current and tide. Pilot will advise regarding depth available. At the Northern entrance a submarine cable is laid, and vessels passing through are required to have both anchors secured. Entry and departure can be effected by day and night. Movement of ships through both entrances is controlled by a signal exhibited at the head of the north pier.
MAX. SIZE: Vessels up to 23 ft. draft can enter harbour. Tankers with cargo to discharge are limited to maximum length 100 metres Vessels arriving for bunkering or supplies are not required to enter harbour.
HEALTH: International quarantine signals to be used on arrival. No later than 6 hours before arrival at the inner area Master should radio Agents giving full details of state of health on board, and requesting pratique which will be given on arrival.
RADIO: Tallinn Radio, call sign UNC, operating 24 hours, Radiotelephone frequencies 2182 khz and 500 khz calling "Tallinradio", VHF Channel 16, calling "Tallinport". Coastal station UNS, radiotelegraph on 500 khz.
TUGS: Tugs assistance available for berthing subject to Pilots advice. Tugs can be ordered through Agents. Ship's lines normally used. When tugs are ordered in advance the cost will be charged to the vessel whether tugs are used or not.
BERTHING: Vessel will not be allowed to berth unless main engines and steering mechanism are in good working order. All vessels in port are required to fly their national flags between 0800 and sunset. On holidays and special occasions vessels may be requested to dress their ships if requested by Port Authorities.
STEVEDORES: Arranged by Agent on basis of Master's ETA Loading and unloading is carried on throughout 24 hours a day including holidays.
TANKERS: Tankers moor at berth No. 19, length 207 metres, depth alongside 9 metres. No slop facilities available. Tankers are normally required by the charter party to reserve a slop tank on board Discharge of tank washings is prohibited within 100 miles of the coast.
FRESH WATER: Supplied by pipe-lines at all berths.
FUEL: Only diesel fuel available, to be ordered in advance through Agents.
FIRE PRECAUTIONS: Masters of tankers are presented with a copy of Safety Regulations by the Agent on arrival.
WATCHMEN: Compulsory to maintain a gangway watch by ship's crew.
HATCHES: Normally opened and closed by ship's crew. In bad weather hatch covers are put on by stevedores.
CERTIFICATES: At first Russian port of call, certificates of tonnage and those required by international convention will be required for examination.
CUSTOMS ALLOWANCES: No restrictions on crew's consumption of tobacco and alcohol on board. It is forbidden to take these items ashore.
CONSULS: No local representation.
REPAIRS: Only minor repairs may be effected at machine shop ashore.
TIME: GMT plus 3 hours all the year round.
HOLIDAYS: All holidays are worked by stevedores.
TELEPHONES: Connection on board vessels can be made free of charge at berths number 7, 8, 9, 10, 13, 14, 15 and 16.

AUTHORITY: Tallinn Sea Port, 25, Uus-Sadama Street, Tallinn Cables: Morport Tallinn.

AGENT: "Inflot," 7, ul. Uus-Sadama. Telephone: 48825, 48512. Telex: 107. Cables: "Inflot", Tallinn.

TUAPSE: 44.06 N. 39.04 E.

DOCUMENTS: Refer to beginning of U.S.S.R. section.
PILOTAGE: Vessels wait for pilot at anchorage. Compulsory in and out. Master to advise Port Controller and Inflot Agency ETA, 96 hours in advance (confirmed 4 hours before arrival; 2 hours before, apply for entry permit), description of cargo, location and weight of heavy lifts, number of passengers, ships draft, length and services required.
ANCHORAGES: Available in depths up to 23 m. Vessel arriving at anchorage should inform time anchored, time required for deballasting ashore, overall length, deepest draft as per seasonal marks, and await berthing orders. Despite jetties and breakwater, anchorage not always secure since S.W. winds bring confused swell or variable current with surge called "Tyagun", during which vessels sometimes swept from moorings. Advisable put to sea during strong S.W. winds and "Tyagun".
HEALTH: Sanitary officer boards on arrival or when berthed. No automatic pratique.
RADIO: Tuapse Radio/UVW or any European R/Station.
TUGS: Compulsory. Ship's lines.
BERTHING: Berthing at any time. 14 berths with depths up to 10·8 metres.
RADAR/VHF: VHF only. Channel 16. Communication with Inflot on VHF available. Business radio messages from vessels at anchorage also permitted. International radio watch should be kept by vessels at anchorage for business purposes.
MEDICAL: All patients to visit polyclinic on weekdays only, to be reported by Masters to sanitary doctor on arrival.
DENSITY: 1010/1015.
FRESH WATER: Available from any berth.
FUEL: Only heavy fuel oil and gas oil. Available at oil berths. Also available ex-lighters. Masters giving 48 or at least 24 hours notice.
FIRE PRECAUTIONS: Smoking strictly prohibited on all decks of any vessels moored to oil piers. Naked lights and flashlights strictly prohibited. No work that can produce a spark is allowed

During bad weather essential shore leave should be granted only to limited part of staff and crew to ensure that sufficient crew on board at all times to shift vessel at short notice in case of emergency.

Plug holes. Flame arresters must be placed in all plug holes during loading; and all scuppers must be plugged.

When receiving bunkers remember that in all cases orders to stop pumping oil upon completion of bunkering should be given from ship with 5 or 10 minutes standby notice to pier workmen.
GANGWAY/DECK WATCHMEN: Not required.
CUSTOMS ALLOWANCE: No restrictions.
IDENTIFICATION CARDS: Not required.
CONSULS: None.
REPAIRS: Emergency only. Main engine should not be immobilised when alongside berth without special permission by Harbour Master through Agent. Minor ship repair facilities offered by ship repair yard.
REPATRIATION: Possible in emergency.
AIRPORT: 5 hours by train.
TIME: GMT plus 3.
HOLIDAYS: 1st January, 8th March, 1st, 2nd May, 9th May, 7th, 8th November, 5th December.
TELEPHONES: Only available for tankers.
GENERAL: Ballast: No ballast water, clean or dirty, to be pumped overside in Roads and in harbour. Deballasting into shore storage compulsory and cost and time for ship's account.

Photographing: Photography within harbour or installations, railway bridges, etc., except regular views in town, prohibited.

Ratguards: All mooring lines should be provided with ratguards immediately upon mooring, otherwise fine is imposed without notice.

Smoke: The emission of dense smoke from vessel's funnel in harbour is prohibited and subject to fine without notice, as well as sparking from funnel.

Boats: Vessels not allowed to use their boats, while at anchorage, and swimming prohibited. Gangways should be lowered only for officials.

Intoxicated seamen not allowed on oil piers and medical attendance to them is rendered by Sobering Station for special charge.

No articles should be taken from and to ship without Custom's permission. No import or export of Soviet currency is allowed.

Painting of shell plating is allowed in daytime and only from quay.

No garbage or refuse should be thrown overboard, and all outlets facing quay to be closed or protected by shields.
SERVICES: Compass adjusting.
SHORE LEAVE: Crew allowed ashore to midnight. Master no restrictions.
AUTHORITY: Ul. Maxima Gorkogo 2, Tuapse, Krasnodarskykrai, U.S.S.R. Tel. 0–79, 2–15. Telegraphic address Morport Tuapse.

AGENT: Maritime Agency "Inflot". Telex: 865. Tel. 322, 427.

VENTSPILS: 57.24 N. 21.31 E.

DOCUMENTS: Refer to beginning of U.S.S.R. section.
PILOTAGE: Vessels approaching port apply for Pilot through Maritime Agency "Inflot" (Telegr. Inflot Ventspils, Telex 86122, Tel. 6213, 51369 or by R/T on 2182 k/cs., or on Channel 16 short range VHF), reporting 96 hours, 48 hours and 24 hours and 4 hours ETA. Pilotage compulsory for all merchant vessels. Pilot boat has word "Pilot" painted in large letters on each side and carries a pilot flag or signal at masthead. Sound signal for Pilot is "G". Pilot boat has radio telephone, Channel 16 short range VHF. Pilot taken on board in area of anchorage. In bad weather Pilot can board inside of breakwater by prior arrangment with Harbour Master through Inflot.
ANCHORAGES: Tanker anchorage (Northward of Buoy No. 1) bounded by following points: 57° 28′ 08″ N. 21° 27′ 15″ E., 57° 29′ 04″ N. 21° 28′ 82″ E., 57° 27′ 09″ N. 21° 30′ 08″ E., 57° 27′ 00″ N. 27° 28′ 07″ E. Other ships anchorage (Southward of Buoy No. 1) is bounded by the following points: 57° 25′ 03″ N. 21° 26′ 08″ E., 57° 28′ 00″ N. 21° 26′ 04″ E., 57° 26′ 01″ N. 21° 29′ 00″ E., 57° 26′ 07″ N. 21° 25′ 08″ E. Depth 45 ft.
RESTRICTIONS: Vessels exceeding 140 metres length and 25 ft. draft enter harbour with Pilot on board only in daytime.
MAX. SIZE: Length 220 metres and draft 36 ft. for Tankers, and 180 metres length and 29 ft. draft for other ships. Breadth not limited.
HEALTH: Pratique obtainable after mooring. Sanitary Inspector visits vessel after mooring together with Immigration and Custom House Officers. If medical care required the Sanitary Inspector has to be informed.
RADIO: Coast radio station: Ventspils Radio, call sign UNI, watch round o'clock. Continuous radio watch on 2182 k/cs. by R/T and on Channel 16 short range VHF.
TUGS: Tugs normally join vessel inside breakwater using ship's lines only.
STEVEDORES: Master's and/or shipowner's information of cargo details, stowage – especially for ships with inward general cargoes – is required in proper time. Information has to be addressed to Inflot Ventspils.
MEDICAL: Hospital facilities available. Advance notice desirable, however depends on kind of sickness. Particular innoculations, vaccination/fever certificates etc. not required.
TANKERS: All grades oil loaded by shore loading hoses in diameter of 200, 250, 280, 300 and 350 mm. Total 4 berths all fitted with deballasting installation for slops. Maximum draft from 30 up to 36 ft.
DENSITY: In port about 1,002.
FRESH WATER: Fresh water available, delivered from shore or by barge. Minimum for 15 tons vessels are charged if supplied by barge.
FUEL: All grades available subject to prior inquiry.
GANGWAY/DECK WATCHMEN: Service of watchmen recommended; however, Captain's option.
OPENING/CLOSING HATCHES: Opening and closing of hatches normally is carried out by crew; however, at the Master's request may be carried out by shore men.
SHIP CERTIFICATES: Required to be on board:
Intern. Tonnage.
Intern. Class.
Load-line.
Safety Equipment.
Intern. Radio.
Certificates of Deratisation.
CUSTOMS ALLOWANCES: There is no restriction for crew use and bond locker is not sealed.
IDENTIFICATION CARDS: Seaman's Book required.
CONSULS: No Consulates.
REPAIRS: Small deck and engine repairs can be carried out.
DRY DOCKS: None.
REPATRIATION: Repatriation of crew left behind a vessel in hospital is arranged by other tramp-ships with Captain's consent. No facilities exist for effecting crew changes.
TIME: GMT plus 3 hours. No alterations during year.
HOLIDAYS: 1st January (New Year's Day); 8th March (International Women's Day); 1st and 2nd May (May Day Holidays); 9th May (Victory Day); 7th and 8th November (The Great October Socialist Revolution Day); 5th December (The U.S.S.R. Constitution Day). Cargo work never stopped on Holidays.
POLICE/AMBULANCE/FIRE: If required have to be ordered through Maritime Agency "Inflot".
TELEPHONES: No arrangements exist for placing telephones on board.
SERVICES AVAILABLE: Tankers' deballasting installation for slops; service for radar and VHF repairs; compass adjusting; workshop for ordinary deck and engine repairs; ship chandler service; bunker supply.
SHORE LEAVE: Crew members allowed ashore.
AUTHORITY: Ventspils Maritime Commercial Port, Dzintary 22, Ventspils, U.S.S.R. Telegr. Morflot Ventspils. Tel. 51222, 51430, 51212.

AGENT: "Inflot" Ventspils. Telex 86122. Tel. 6213.

VYBORG: 60.43 N. 28.44 E.

DOCUMENTS: Refer to beginning of U.S.S.R. section.
PILOTAGE: Compulsory. Pilot is ordered through "Inflot". Notice of arrival to be given 96 hours in advance and confirmed four hours before arrival. Pilot station "Vikrevoz" can be contacted on VHF Channel 16. Pilot boards in position 60° 34′ 1″ North, 28° 23′ 8″ East. International code signals used to call Pilot. In case of bad weather pilot station will instruct Master by Radio.

ANCHORAGE: A suitable location will be indicated by the pilot station if required.
MAX. SIZE: Length 124 metres, draft 6·5 metres. For *Saimaa Canal* Length, 82m., daft 4.35m.
HEALTH: International code quarantine signals to be shown on arrival. Vessels placed in quarantine will be instructed where to anchor by the pilot station.
RADIO: Vyborg Radio, call sign UNN, operating 24 hours on 500 kc/s.
TUGS: Available, ordered through "Inflot".
BERTHING: Can only be effected with Pilot on board.
MEDICAL: "Inflot" to be advised in advance if any medical attention required.
DENSITY: Salinity 5%.
FRESH WATER: Available.
FUEL: Not available.
WATCHMEN: Not required.
HATCHES: Usually opened and closed by crew. Can be operated by stevedores on request.
CUSTOMS ALLOWANCES: No control on board the vessel. It is forbidden to take alcohol off the ship.
REPAIRS: Minor repairs can be effected.
TIME: GMT plus one hour.
HOLIDAYS: Cargo operations can be carried out on all holidays.
TELEPHONE: Connection to vessels is not possible.
SHORE LEAVE: Permitted subject to police control.
AUTHORITY: Harbour Masters Office. Telephone 12–50, 12–44, or 12–34. Cables: Morport Vyborg.

AGENT: "Inflot", Vyborg. Telex: 84521. Telephones: 37–33, 12–85, 12–86. Cables: "Inflot", Vyborg.

ZHDANOV: 47.06 N. 37.35 E.

DOCUMENTS: Refer to beginning of U.S.S.R. section.
PILOTAGE: Compulsory. Inform Kerch Harbour Master ETA 96 hours 24 hours and 6 hours, off Kerch Strait. On arrival Kerch Pilot Buoy No. 21 (Lat. 45° 13′ 62″ N. Long. 36° 27′ 75″ E.), drop anchor and await Pilot; also keep continuous radio watch. 48 hours prior arrival advise Port Controller and "Inflot" Agency, ETA description and quantity of cargo, location and weights of heavy lifts (if any), number of passengers, draft and length, and declare services required, 24 hours at latest but giving more precise information 4 hours prior to arrival at mouth Zhdanov canal. Entering and sailing day and night.
ANCHORAGE: With protection from seaward by moles, the port is a safe anchorage. Outer Zhdanov Roads depth up to 8·2 m. Limits of Roads on Eastern side are meridian of Kosa Liapina (headland), on Northern side – the five metre isobath. At anchor in Roads Master should bear in mind that Roads are open to winds veering from N.E. via S. to S.W. and in autumn the water level is subject to falls and rises on account of winds. The bottom holds anchors well. Inner Roads are within port's aquatorium and protected by dike erections.
MAX. SIZE: Draft 7·7 m., length/breadth no restrictions.
HEALTH: After presenting Vaccination Certificates free pratique obtained. After proceeding from one port of U.S.S.R. to another free pratique obtained automatically.
RADIO: Within Azov and Black seas, "Zhdanov Radio".
TUGS: Available. Use ship's lines.
RADAR: Port radar station available VHF Channel 16.
MEDICAL: Masters to advise by radio prior arrival of medical attendance required on board. Hospital facilities available. Vaccination Certificates to be presented.
DENSITY: About 1005.
FRESH WATER: Delivered at berth.
FUEL: Only heavy fuel and gas oil available.
OPENING/CLOSING HATCHES: Crew allowed open and close, stevedores placing beams.
CERTIFICATES: Registered Tonnage Certificates required.
CUSTOMS ALLOWANCES: No quantity restrictions. Nothing to be taken ashore.
IDENTIFICATION CARDS: Not required.
CONSULS: None.
REPAIRS: All kinds of repairs available.
DRY DOCKS: 2,500 and 5,000 tons.
REPATRIATION: All facilities for repatriation subject to visa formalities.
AIRPORT: 15 km. from port with regular airlines.
TIME: Local time GMT plus three hours.
HOLIDAYS: 1st January; 1st, 2nd, 9th May; 7th, 8th November; 5th December.
AMBULANCE/FIRE: Ambulance 025; Fire 01.
TELEPHONES: Can be placed on board.
AUTHORITY: Manager of Sea Trading Port Zhdanov, tel. 3–95–2–34.

AGENTS: Zhdanov Main Maritime Agency "Inflot" head office in port Zhdanov, branches in port Berdjansk and Kerch. Post address: Portovaya 99, Zhdanov, U.S.S.R. Tel. 3–95–271, 3–95–415. Cables: Inflot.

United Arab Emirates

ABU DHABI (MINA A ZAID): 24.29 N. 54.20 E.

COURTESY FLAG: Abu Dhabi flag is all red except for top hoist corner which contains white rectangle covering about one sixth of total area.
DOCUMENTS: Eight copies of Cargo Manifest are required, with full cargo particulars, such as Bill of Lading number, marks/numbers, description, weight and measurement. It is essential that all this information is given on the manifest for each consignment, and the manifests should reach the Agent prior to arrival of vessel in order to be submitted to the Port/Customs Authorites before the ship is berthed.

Also stowage particulars should be given in full in order for Agent to advise the Port Authorities the equipment and labour required for efficient handling of the vessels.
PILOTAGE: Pilotage into Mina-a-Zaid compulsory, but not to the outer anchorage situated in the area around position 24° 34′ N. 54° 19′ E.

Ships should wait for Pilots in the area stated above and not enter the channel unless instructions to the contrary are given, and hoist the international pilot signal.

Ships should have ready an efficient pilot ladder complying with the international convention of safety of life at sea and properly lit at night. Ships should afford the Pilot a good lee.
RESTRICTIONS: Port and starboard hand buoys have been established marking the new channel approaches to Abu Dhabi Harbour. The channel is dredged to 32 ft. and is 500 ft. wide.

In the first instance and until further notice, ships will only enter or leave during daylight hours. Max. draft 27 ft. 6 ins.
ANCHORAGE: Marked by buoy in (approx.) position 24.27 N., 54.17.6 E., 4½ miles off shore. Depth at anchorage about 5–6 fathoms. Holding ground good but anchorage exposed to North and Westerly winds when precautions to be taken against anchor dragging.
RADIO: Ships should inform their Agents, 48 hours prior to arrival, of their ETA and draft, and confirm 12 hours before arrival. They should also contact "Abu Dhabi Pilots" on VHF Channel 16 earliest possible, with the above information.
TUGS: It is a requirement that two tugs are required on every ship when berthing and unberthing at this port. Any reduction in this number will be solely at the discretion of the Pilot.
BERTHING: Anchors and mooring ropes and wires should be ready for making fast before entering.

There are three berths each of 600 ft. length with depth of 31 ft. alongside. Further three berths under construction.

Tower crane for discharging to be available in 1973.

Presently there are 15 mobile cranes of sizes varying from 5 tons capacity to approx. 40 tons capacity and these are now used on the lighterage wharf as well as in the storage area.

For moving of cargo from the jetty to the storage area there are 13 trailers and 5 fork lifts of 3 tons capacity. The port is considering purchasing additional fork lifts, trailers and tractor units.
STEVEDORING: Arranged through Agent. Labourers work under direct supervision of vessel and her officers. Stevedores do not accept any responsibility for loss or damage to cargo, nor for stevedores' damages to vessel. One gang consists of 2 Serangs, 1 Tindal, 2 winchmen and 15 labourers. Local custom proclaims that ship's responsibility for cargo ceases only after cargo landed ashore. No special regulations for dangerous cargoes but vessels having such cargoes aboard expected anchor at safe distance from other ships at anchorage. Vessels carrying cement must lighter cargo from anchorage. No floating-cranes for heavy lifts but mobile crane of 45 tons capacity available for hire on shore work.
MEDICAL: Fully equipped Government Hospital. Qualified personnel, and most medicines available.
TANKERS: See "Das Island" and "Jebel Dhanna".
FRESH WATER/FUEL/REPAIRS: None available.
LAUNDRY: Reasonably good laundries available at moderate rates.
PROVISIONS: May be arranged subject 48 hours notice to Agent.
AIRPORT: Regular scheduled international flights, also domestic flights within Gulf area.
TIME: GMT plus 4 hours.
HOLIDAYS: Friday is weekly holiday. Otherwise usual Muslim holidays observed. Cargo work generally not affected by holidays.
SHORE LEAVE: Not generally encouraged, but if Masters notify Agent names of crew wishing to go ashore a permit can be obtained from Immigration Department. Absolutely necessary that every crew member be in possession of valid seaman's book.
CLEARANCE: Port clearance must be obtained prior to departure.
AUTHORITY: Govt. of Abu Dhabi, Port Department.

AGENT: National Shipping, Gulf Agency Co. (Abu Dhabi) Ltd. POB 377, Abu Dhabi, Trucial States. Cables "Confidence", Abu Dhabi. Tel. 22667. Radio: Marine VHF radio, stand-by on Channel 16 (156,8 MHz). Call sign "Confidence, Abu Dhabi". Telex, AH–248–Gacship.

DAS ISLAND: Abu Dhabi, 25.09 N. 52.52 E.

Note: Shipping operations Das Island governed by Abu Dhabi (Port of Das Island) Regulation, 1963 (Queen's Regulation No. 2 of 1963). Owners recommended provide Masters in advance with copies Regulations obtainable from H.M. Stationery Office.
DESCRIPTION: Das Island some 160 miles south-east of Bahrain and is part of State of Abu Dhabi, largest of Arab Emirates.

Island is base for off-shore drilling and export of crude oil by Abu Dhabi Marine Areas Limited – ADMA.

DOCUMENTS:
Bills of Health for Ports visited on voyage.
2 Crew Lists.
3 Manifests (1 original and 2 copies).
1 International Maritime Declaration of Health.

APPROACHES AND PROHIBITED ANCHORAGES: Umm Shaif and Zakum drilling areas situated some 20 miles East and 48 miles South-east of Das Island together with pipeline to Das Island from Zakum field are marked on Admiralty Charts. Only selected towers equipped with lights, all other wellheads, drilling rigs and towers within drilling areas are unlighted. Wellheads in Umm Shaif field telemetered and controlled by microwave radio beams transmitted from radio tower on Das Island. Unburied pipelines from wellheads to Island also in this area and it *is essential* that vessels do *not* steam into or anchor in it. Cautions have been issued in Notices to Mariners warning vessels against entering both Umm Shaif and Zakum areas and against anchoring in vicinity of Zakum Pipeline.

Southern Route. Vessels should normally approach port from South and must pass not less than 3 miles South of drilling rigs and towers in Umm Shaif area, thence towards South-east corner of Island. Vessels must leave port by this route unless they have to use Northern buoyed channel.

Northern Route. Is via buoyed channel which primarily intended for use of deep draughted vessels sailing from port. Vessels arriving should normally use the channel only if their draught is such that Southern Route cannot be used with safety. Prior radio advice of vessel's intention to use channel to enter port should be given to ADMA. When using Northern Route vessels should not pass at greater distance than 1½ miles East of shore of Das Island when negotiating area between No. 2 berth and channel entrance buoys.

PILOTAGE: Berthing Master will undertake pilotage, berthing and unberthing of tankers save that Master shall remain solely responsible, on behalf of owners for safety and proper navigation. Berthing Master will normally board vessels approaching Das Island by Southern Route approximately 2 miles South-east of southern extremity of Das Island. When approaching Das Island by Northern Route via buoyed channel Berthing Master will board from position 030° 3 miles from Das Island Light. If adverse weather prevents boarding in this position Berthing Master will board in lee of Das Island. Vessels requested not to navigate at greater distance than 1½ miles off Das Island when passing through cautioned area Eastwards of Das Island where anchoring is prohibited.

ANCHORAGES: Main anchorage for dry-cargo vessels is in about 40 ft. of water, approximately ½ mile from Harbour South of tanker loading berth. Other anchorages for dry-cargo vessels lie to Southwest and West of the Island. Tankers should normally anchor approximately 1½ to 2 miles South-east of the Southern loading platform, should a berth not be immediately available.

Vessels should avoid anchoring in vicinity of submarine pipelines established to Eastward of Das Island.

Sea bed all round Island is rock, covered with a few inches of loose sand. Holding is poor and vessels are advised to pay out at leat 60 fathoms of chain. Vessels at anchor, awaiting berths, lighters or any services provided by the port must at all times keep a listening watch using Channel 16 where possible. If a vessel is not equipped to operate on this Channel then any of the frequencies may be used by arrangement.

MAX. SIZE: No. 1 Tanker Berth is suitable for berthing tankers in ballast condition up to 90,000 tons summer dwt. or 65,000 tons displacement (approx. 50,000 tons summer dwt.) if in part loaded or loaded condition. Minimum depth of water alongside the berth is 55 ft. Berth No. 1 is suitable for vessels up to 850 ft. length with loading draft restriction 52 ft.

No. 2 Tanker Berth is suitable for berthing tankers in ballast condition up to 260,000 tons summer dwt., fully loaded tankers up to 130,000 tons summer dwt., or partly loaded tankers up to 165,000 tons displacement.

Minimum depth alongside is 67 ft. Berth No. 2 is suitable for tankers up to 1,150 ft. length, and 65 ft. draft.

No. 3 berth, a single buoy mooring. This berth will be suitable for vessels up to 300,000 tons.

WEATHER AND TIDE: Prevailing winds are from the North-west. The rise of the tide can be up to 5 ft., usual variation is 3 ft.

HEALTH: Vessels arriving at Das must carry the usual Bills of Health for ports visited on the voyage. Masters of vessels are requested to inform ADMA if there is any person ill on board or if there has been sickness within the week prior to arrival. Pratique is granted by the Port Medical Officer through the Berthing Master or Agency Clerk.

RADIO: *Das Radio Station.* Position: 25° 08′ 43″ N. 52° 52′ 38″ E. Call sign: 2AI 15.

Details of Transmission:

Service	*Frequencies* kc/s	*Transmission*	*Radiated Power kw*
(i)	500 and 420	A1	0·5
(ii)	8,666 and 13,026	A1	0·5
(iii)	4,325	A1	0·3
(iv)	3,270	A3	0·3
(v)	156,600 and 156,800	F3	0·01
(vi)	161,600 and 161,700	F3	0·01

Procedure:

Service — *Traffic List Transmission*

(i) On 420 kc/s after call on 500 kc/s at 0500, 0900, 1300 and 1700 hours GMT – half hour periods.
(ii) On 8,66 kc/s at 0530, 1530, 1330 and 1730 hours GMT. Listens 8,354–8,374 kc/s.
On 13,026 kc/s at 0930. Listens 12,531–12,561 kc/s. Watch kept for 15 minutes after each traffic list.
(iii) On 4,325 kc/s by arrangement.
(iv) On 3,270 kc/s radio telephone for ADMA Project shipping only.
(v) Continuous watch kept on 156·8 mc/s International VHF (Channel 16).
Port operations on 156·6 mc/s (Channel 12).
(iv) Continuous watch kept on 157·1 mc/s – reply on 161·7 mc/s (Channel 22). Watch kept on 157 mc/s – reply on 161·6 mc/s (Channel 20) by arrangement.

Arrival Messages. All vessels bound for Das Island should contact ADMA Radio Station and give 72 hours notice of ETA. Where this is not practicable they should give at least 48 hours notice. In the event of difficulties this information should be transmitted to Das via the Cable Wireless Station at Bahrain. As soon as direct contact is established between a vessel and ADMA Radio Station, the latter will advise the route to be followed in approaching the Island.

TUGS: Tugs provided by ADMA must be used by all tankers when berthing and unberthing.

BERTHING: Full power must be available on main engines during berthing operations. Berthing Masters will not berth vessels if not properly equipped with satisfactory mooring lines, or if deck appliances inoperable, or if steering gear, telegraphs and whistles not in an efficient condition. Master should notify Berthing Master of any defects or peculiarities of vessel. No. 1 Tanker Berth approximately ¾ mile off east coast of Das Island is served by submarine pipeline from tankage on Island. Tankers berth against four flexible dolphins which protect berth operating platform. Six mooring dolphins each provided with twin bollards. Each dolphin carries permanent mooring wire secured to Senhouse slip enabling quick release in emergencies. Hooks for backsprings located on operating platform are each equipped with 48 ft. length of 18-in. cable-laid manilla spring. Loading installation comprises four booms each equipped with 10-in. bore flexible hose for loading crude oil. Two similar booms available for loading and discharging bunkers. Fittings available to connect these hoses to 8-in., 10-in. and 12-in. manifolds to ASA 150 or BS 1560–1968, ASA 300 or B S. "H" details. Berths cannot be occupied during adverse easterly weather. Loaded tankers only berthed at discretion of Port Officer and delays from tidal conditions, awaiting daylight, etc., may be incurred. Minimum acceptable length overall 525 ft. Vessels other than craft must not approach nearer than 2 miles to premises without a Berthing Master on board unless otherwise instructed by Port Officer. In approaching and leaving berths it is essential to avoid anchoring in area of submarine pipelines which run in approximately east and west direction some 2,500 ft. north of No. 2 berth. Weather and other conditions permitting, tankers can berth and unberth at all times. Every vessel berthing must fit adequate rat guards to all mooring ropes and wires.

LOADING: Two grades of crude are available on each berth. Zakum Crude average API 40·5 and Umm Shaif Crude with average API 37·5.

Maximum permissible loading rates are: Berth No. 1: 6,500 tons per hour, and Berth No. 2: 12,000 tons per hour.

BALLAST: There are no facilities for receiving vessels ballast ashore for treatment. All vessels must have clean ballast for overboard discharge.

MEDICAL: Medical Officer resident on Island and ADMA maintain small hospital. Medical attention only available in case of serious illness or emergency.

FRESH WATER: Not available.

FUEL: Medium fuel oils available from shore storage. Average API 17·5 and maximum viscosity 1,500 seconds Redwood. Diesel available.

FIRE PRECAUTIONS: Three fire-fighting tugs available.

GANGWAY: Ship's gangway required on No. 1 tanker berth.

TOBACCO ALLOWANCE: No restrictions.

WINE/SPIRIT ALLOWANCE: Conveyance of alcoholic liquor from any vessel to the shore or from the shore to any vessel, or from one vessel to another, is prohibited without the appropriate written permits from the Political Agent and the Port Officer.

CONSULS: HBM Hon. Consul, Marine Department, ADMA Ltd., Das Island, Abu Dhabi, Arabian Gulf – Tel. 546, Cables, Admarine Das Bahrain.

REPAIRS: Not available.

DRY DOCKS: None.

REPATRIATION: Limited.

AIRPORT: ADMA operated private Airport. 5 flights per week. Limited capacity, seats subject to availability.

TIME: GMT plus 4 hours.

HOLIDAYS: 1st January; Easter Sunday; 25th December and Moslem holidays.

POLICE/AMBULANCE/FIRE: Tel. Police 258; Ambulance 333; Fire 353.

SHORE LEAVE: Not permitted.

AUTHORITY: Marine Superintendent, ADMA Ltd., Das Island, Abu Dhabi. Tel: Das Island 546, 412 or 331.

AGENT: (Protecting only) See "Abu Dhabi".

DUBAI: 25.16 N. 55.18 E.

Also see Port Rashid

COURTESY FLAG: Dubai flag resembles an "H" or pilot flag, and this could be shown until Agent's representative brings one on board.

DOCUMENTS: Following should be airmailed to Agent prior ship's arrival: 6 copies Dangerous Cargo List, Stowage plan in

duplicate, Hatch list in duplicate, 7 copies of cargo manifests, 1 copy of each Bill of Lading. On arrival, 3 crew Lists required.
APPROACHES: Open roadstead. Cargo discharged into barges.
ANCHORAGE: Marked by light buoy in position 310°, 1·06 miles from Nayif Tower. Recommended anchor to N.E. of light buoy in approx. position 25° 17′ 4″ N., 55° 16′ 16″ E. Depth 36 to 40 ft., holding-ground considered poor, bottom sand and coral. The closer ships are able to anchor to the buoy, the faster turn-around on barges will be attained. *Warning:* Occasional strong N.W. winds, known as "Shamal" will make discharging impossible and *it is very important* that ships have engines on "stand-by" during such times. Ships allowed enter and leave anchorage at any time of day or night. Launch service through Agent's ship to shore from anchorage, and ship's own boats can also be used without Authorities' permission.
PILOTAGE: None.
RESTRICTIONS: All cargo discharged into barges at anchorage. Coasters with drafts of 11 ft. 6 in. or less can enter creek and discharge alongside. Such vessels usually require a tug boat to pilot them into the creek. Tugs available through Agent. Importation of artificial pearls is prohibited. Purchase of liquor forbidden except by permit.
HEALTH: Radio Agent for Free Pratique subject no suspicious illness or disease on board.

Arrival: Ships boarded immediately upon arrival weather permitting, and Masters then have to complete a short Arrival Report. No formalities of any kind with Port Authorities and ships allowed to arrive and sail at any time.

Departure: No port clearance is issued in Dubai. A letter will be issued by Agent which may be produced at next port of call instead of usual departure clearance.

Health department can be contacted during office hours at cable address: "Quarantine Municipality Dubai".
RADIO: No port radio station. Cables from vessels outside Gulf may be routed through Muscat Radio, and from inside Gulf through Bahrain Radio. Vessels should advise Agent of ETA 72, 48 and 24 hours prior arrival. Some Agents also equipped with VHF calling Channel 16. Ship's radio station may be operated at anchorage.

Nearing Dubai and approximately 8–10 hours prior to arrival vessel should switch on VHF Channel 16 and call Agent. On contact, change to one of Channels 14, 13, 12, 9 or 6 for further communication. Regular contact then maintained until departure from Dubai.
DISCHARGE TURN: Priority of discharge given to ships carrying mail and/or passengers for Dubai. Ships carrying less than 100 weight or measurement tons have priority and are supplied with one barge for discharge of cargo immediately on arrival, whether turn is in force or not. Should there be congestion, Agents require Stowage Plan showing clearly that all Dubai cargo is freely available and Master's signature on a request for discharge turn. Based on this, vessels will be registered for turn. Registration can only performed during office hours.

After confirmed registration, at which will be given a deadline for turn, ships may proceed to other ports for discharge, but must return Dubai prior time and date given, otherwise turn is lost. Particular cargoes for H.H. The Ruler have priority. This should be evidenced by Manifests which will be produced to Customs Authorities in Dubai for approval. The cargoes must be accessible for immediate discharge, which should be verified by stowage plan.
STEVEDORES: Loading/Discharging Rates: Stevedores, tally clerks, supervisors, etc., will be supplied from shore at the same time as ships are supplied with barges. These people working under vessels' supervision and reponsibility.

First Shift: from 0800 hours to 1800 hours. Second shift: from 1800 hours to 2400 hours. Third Shift: from 0000 hours to 0800 hours. Very difficult to get stevedores to work third shift unless ship will complete within a reasonable time into the third shift. First two shifts always worked.

Drinking water must be supplied by ship free of charge to all men from shore but food to supervisors, tally clerks, watchmen and foremen.

Expected outturn working three hooks:

Bagged cargo	400–500 tons
Cased cargo	150–200 ,,
Timber on deck	300–350 ,,
Timber in hatches	200–250 ,,

Usually five ships can work at one time.
MEDICAL: Qualified doctors available ashore and also a hospital. Most medicines available at fairly low prices. Dentist also available. Walking cases should be brought ashore *in the morning* for treatment, but in emergency, a doctor will board the ship.
TANKERS: See "Port Rashid".
FRESH WATER: Can be supplied at Dubai anchorage at following rates (approx.): quantities 600 tons, 75 tons, or 25 tons at one time.
FUEL: Bunkers not available and closest bunker ports are Das Island, Bahrain or Ras Tanura.
FIRE FIGHTING: No facilities available at anchorage.
DEVELOPMENTS: Two drydocks for tankers up to 500,000 dwt. under construction. Completion planned for 1976.
CUSTOMS ALLOWANCES: *Tobacco:* 1,000 cigarettes or 200 cigars or one kilo of tobacco. *Perfumes:* One litre of toilet water (Eau de Cologne) and not more than 150 grams of perfume. *Currency:* Unlimited. *Alcoholic Liquor:* 1½ litres of wine and 1½ litres of other alcoholic beverages provided that the arriving passenger is a non-Muslim.
CONSULS: The British Embassy, the Kuwait Embassy, the Indian Consulate and the Pakistan Consulate.
REPAIRS: Fully equipped engineering workshops capable of carrying out fairly extensive repairs available.
DRY DOCK: See "Developments".
REPATRIATION: Official signing-off and signing-on can be made only for British flag vessels as no other country represented in Dubai. However, crew change can be effected through Agent. Arriving or departing crew do not require visas but must hold valid Seaman Books. The Seaman Book will substitute the visa which otherwise is compulsory.
AIRPORT: Regular international scheduled flights. Also domestic flights within Gulf area.
TIME: GMT plus 4 hours.
HOLIDAYS: Every Friday which is Muslim Sabbath. Banks closed on this day. During the year there are the following Idd Holidays: Idd al Adha (about end February); New Year's Day (19 March); Idd al Fitr (about beginning December). Holidays shift according to the Muslim Year.
SHORE LEAVE: Officers and crew may come ashore during daylight hours for shopping and recreation. They shall then carry a valid passport, ID-card or Seaman Book, which will be placed at the Immigration Office when landing. The passport, ID-card or Seaman Book will be returned upon returning to ship. No alcoholic beverages allowed to be brought ashore.
GENERAL: Dunnage – not available. Heavy lifts – not available at anchorage. Shore cranes have lifting capacity up to 30 tons.
LAUNDRY: Available but about two–three days required.
PROVISIONS: Fresh vegetables, frozen stuff, bonded stores, etc., available. Requirements should be given immediately on arrival. (The liquor and beer prices are low.)
SURVEYORS: Lloyds.
AUTHORITY: Port and Customs Dept. Dubai Port Authority.
AGENT: Gulf Agency Co. (Dubai) Ltd. POB 2404, Dubai, Trucial States. Cables: "Confidence", Dubai. Tel: 31300. After office hours: 31549, 31367. Telex DB 448 (answer-back: "Confidence DB 448") Radio: Marine VHF radio, stand-by on Channel 16 (156,8 MHz) Callsign "Confidence, Dubai".

Operators of ship-servicing and supply organisation: Crew-changes, mail spares and/or delivery of provisions undertaken at sea without deviation to serviced vessel.

FATEH TERMINAL (offshore Dubai).

Oil Loading Terminal of the Dubai Petroleum Company.

Note: All tankers loading Fateh Terminal cleared by Dubai Petroleum Company, taking care of all necessary documentation concerning cargo. DPC does not charge owners/operators for this service. However, for all other agency services DPC refers owners/operators to regular shipping agents in Dubai.

According present oil company regulations vessels not allowed receive any deliveries or any launch alongside while loading at Terminal. Deliveries of mail, spare parts and performance of crew changes will, therefore, take place at Terminal anchorage, Dubai anchorage, or at a rendezvous point.

Weather permitting. Fateh Terminal operates 24 hours a day, 7 days a week and provided berth not occupied, tankers will be berthed upon arrival, day or night.
LOCATION OF TERMINAL: Fateh Terminal consists of crude oil production and export facilities of Fateh Field, offshore Dubai, Trucial States. Terminal limits are:

25° 41′ N., 54° 21′ E.	25° 41′ N., 54° 30′ E.
25° 31′ N., 54° 21′ E.	25° 31′ N., 54° 30′ E.

Within this area anchoring prohibited and Terminal Safety Regulations have effect.

For loading crude oil a Single Point Mooring (SPM) Buoy in position: 25° 35′ 12.6″ N., 54° 25′ 46.3″ E.

SPM bears approximately 292°, 50.1 nautical miles from Port Rashid, Dubai Light (F1, 3 sec. 10M) and approximately 202°, 19.5 nautical miles from Jazirat Sirri Light. It is anchored in approximately 130 ft. of water.
NAVIGATIONAL AIDS: SPM fitted with five-mile white flashing light; one 1-second flash every 10 seconds. Two oil-storage vessels, "Majmaa No. 1" and "Majmaa No. 2" show lights and shapes as prescribed in International Regulations for Preventing Collisions at Sea for vessels engaged in underwater operations.

Each vessel is equipped with a continuously operating foghorn, one 2-second blast every 20 seconds.

Submerged storage tank shows one white flash every second, also equipped with continuously operating foghorn, one 2-second blast every 20 seconds.

Central production and "A" platforms show one white flash every second and also operate a foghorn during fog. Various working lights also shown.

Well platforms "B", "C" and "D" show in white flashes the letters B, C and D respectively in morse code one every ten seconds. Each platform also equipped with a continuously operating foghorn, one 2-second blast every 20 seconds.

A flare when showing, gives an orange light, which may be visible a great distance. In addition, on the flare structure a light shows one white flash every second.
APPROACHES: On approaching Terminal, Masters of incoming tankers should head for anchorage area (see "Anchorage") where, under normal conditions, their vessel will be boarded by a DPC Mooring Master.
ANCHORAGE: Position 25° 36′ N. 54° 31′ E. represents centre of a

circle with radius approximately one mile, which must be used by vessels required to wait at anchor. Anchoring within Terminal Limits prohibited. If tanker not scheduled berth on arrival (e.g. another vessel is already in berth, or port closed on account adverse weather, etc), Masters will be advised by radio and requested to anchor.

NOTICE OF READINESS: After arrival Anchorage Area and in every respect ready to load, Master may tender Notice of Readiness, which will be accepted, provided Mooring Master on board or dropped anchor in anchorage area.

Port Closed. Notices of Readiness will not be accepted during periods when the port closed. Port "closed" when weather such that it is too rough for incoming tankers to berth. Decision regarding opening and closing of port will rest with Fateh Terminal Superintendent or his deputy.

DOCUMENTS: At present, there are no regulations requiring the tendering of any documents at Fateh Terminal. However vessels may be advised to tender to Dubai Petroleum Company, following documents:

Declaration of Health, in duplicate.
Declaration of Stores, including bonded stores.
Notice of Readiness.

PILOTAGE: Pilotage compulsory within Terminal Limits (see "Location"). Vessels to be moored Fateh Terminal will be boarded by DPC Mooring Master in anchorage area. Mooring Master will advise ship's Master on approaches to SPM mooring, unmooring, connecting and disconnecting hoses and all other operations within Terminal area. All manoeuvring of ships within Terminal area shall be done only in accordance with advice of DPC Mooring Master, subject to the understanding that in all cases and circumstances the Master shall remain solely responsible for safety and proper manoeuvring of vessel. Master or one of his qualified deck officers must be on bridge at all times while tanker being manoeuvred.

MOORING: Vessels requested have pilot ladder safely and securely rigged ready for immediate use and long enough to meet Mooring Master's launch. Vessels will provide a lee for the Mooring Masters both when boarding and leaving. Tankers requested to have ready on forecastle head the following: 2 mooring ropes, polypropylene if possible; 2 mooring wires, on winches if available; 1 messenger rope minimum length 300 ft. rope and chain stoppers and on port side amidships: derrick rigged and ready to pick up from a launch, mooring shackles, nylon strops and hose connection gear.

On near approach to buoy a launch will attach a ship's line to one of Terminal's floating nylon ropes. This will be hove aboard and secured to the towing bracket, if the ship is so fitted, or otherwise secured by a ship's mooring wire and a nylon strop previously passed aboard. Same operation will be repeated with second nylon rope.

LOADING: Maximum loading rate 40,000 barrels per hour. Two 16-in. diameter hoses will be lifted by ship's gear on port side. Each lift is five tons. Hoses shall be hoisted and connected by ship's crew. Mooring Master will advise the ship's officer in charge concerning lifting techniques. 16 in. – 12 in. reducers are fitted on the ends of the crude oil hoses thus enabling tankers with either 16 in. or 12 in. ASA 150-lb. flanges to connect directly to the Terminal hoses.

All communications relative to loading routed through Mooring Master, who will remain in contact with production platform constantly via portable VHF units.

RADIO: When within 72 hours of arrival Fateh Terminal Master should notify DPC by cable via Bahrain Radio (call sign GOU), which operates on a 24-hour service giving following information: Name of tanker, ETA in GMT (Dubai time is GMT plus 4 hours throughout the year). If ship's hose connections are different from 16 in. or 12-in. standard ASA 150 lb type, the size should be stated. Sections 1 and 2 of the above message should be repeated via Bahrain Radio when within 24 hours and again when within 12 hours of arrival at Terminal.

Within about 60 miles of Terminal communication may be established by radio telephone on International Marine VHF Channel 16 (156·8 mHz). This frequency is monitored continuously. Once contact has been made on Channel 16 further conversation should be conducted on either Channel 14 (156·7 mHz) or Channel 8 (156·4 mHz). A DPC Mooring Master will board incoming tankers in anchorage area with portable VHF radio telephone units. All communications between ship and platform will be conducted by mooring Master via portable VHF units.

DIRTY BALLAST: No slop tanks or facilities for receiving dirty ballast. Tankers must arrive with clean ballast. In event tanker does have dirty ballast, it will not be allowed to be pumped overboard. Dirty ballast will be collected into one tank, measured and left aboard.

GENERAL: Bunkers, Fresh water, Stores, Boats for hire, Repair facilities, not available. There is no shore leave.

MEDICAL: Medical and dental services not available. In emergency requiring hospitalisation, patient will be taken by boat from tanker to production platform, hoisted to upper deck of platform, and flown by helicopter to Dubai. Shipowner will be charged for all expenses incurred.

AGENT: Gulf Agency Co (Dubai) Ltd., POB 2404, Dubai, Trucial States. Cables: "Confidence", Dubai. Tel. 31300, after office hours 31549, 31367. Telex: 448 (answerback: "Confidence DB448").

VHF Radio: standing by on Channel 16 (156·8 MHz) communicating on Channels 14, 12 or 6, call sign "Confidence Dubai".

SSB Radio: standing by on 6910 MHz lower side band, communicating on frequencies 3539, 6910 and 7010 MHz. Call sign "Confidence Dubai".

JEBEL DHANNA, Abu Dhabi: 24.11 N. 52.38 E.

Abu Dhabi National Flag must be flown on foremast when in Abu Dhabi territorial water. Flags available through ship's Agent.

APPROACHES: (*Inward Passage*).

Outer Route between Jazirat az Zarqa and Ghasha Tower Beacon marked by two light floats and four buoys. The two light floats are both port hand marks, and the buoys starboard hand, as indicated by shape, colour and light characteristics. Depths along route vary and shown on chart.

Inner Channel, from Ghasha Tower to berths at Jebel Dhanna marked by 21 light buoys. Least depth in this channel is 46 ft. and minimum width of 800 ft. between Nos. 7 and 10 buoys.

(*Outward Passage*)

After clearing berth an outward bound vessel should steer to pass midway between Nos. 13 and 20 buoys, leaving Alaq Island to starboard. From Nos. 13 and 20 buoys the same track is followed as for inward passage.

DOCUMENTS:

2 Crew Lists.
2 Passenger Lists.
2 Manifests.
1 International Maritime Declaration of Health.

PILOTAGE: Give 48 hours notice of ETA, etc., to Agent via Cable and Wireless, Bahrain. On confirmation of ETA on VHF Channel 16 either to "Jebel Dhanna Radio" or "Jebel Dhanna Pilots", Pilot will meet and board inward bound ship to West of Gasha Tower Beacon on request and will conduct through Inner channel to berth. Pilots act in same capacity as Mooring Masters in berthing vessels, after which they supervise raising of flexible hoses and connection to ship's manifold. Pilots disembark off Ghasha Tower outwards.

TIDES: In outer approaches, i.e. from Zarqa to Ghasha Tower, tides almost purely diurnal, but semi-dirunal effect becomes more evident as Dalma is approached and is (comparatively) most marked at Jebel Dhanna. However, this semi-diurnal effect not of great significance and for all practical purposes it can be taken that there is only one high water and one low water per day throughout length of approach and at Jebel Dhanna, but times of high and low water at various control points are not coincident.

High water at 01 buoy occurs on average about 1½ hours before high water at Jebel Dhanna, but differences may be from about ½ hour up to 2½ hours.

Tidal Streams. In berth area, streams generally do not exceed ¼ knot and are predominantly confined to S.E. and S.W. quadrants. In outer approaches, streams appear to attain a maximum of 1 knot approximately along line of route, but this information should be regarded with caution as it depends on limited observation.

ANCHORAGES: If berth not available, or if ships cannot sail immediately after loading, they can anchor in an area South of Buoys Nos. 13 and 20 and North of Berths. This area marked by No. 15 buoy to West, No. 22 buoy to East and by berths to South. Alaq Island lies in the middle of this area and is marked by two buoys No. 17 and N. Alaq and by S. Alaq Beacon.

RESTRICTIONS: Vessels must receive clearance from Jebel Dhanna Terminal to enter channel. This is to ensure that all outward-bound vessels are aware of traffic movements in channel. Mooring, loading and unmooring carried out by day and night.

MAX. SIZE: (Also see "Berthing"). Maximum length: 1,100 ft.; Maximum breadth: 180 ft.

Note: Draught of laden tankers leaving Jebel Dhanna controlled by depth in Inner Channel between Nos. 7 and 10 Buoys. This is 46 ft. below Chart Datum and Zero of predictions. An allowance of 3 ft. under keel is considered sufficient for vessels to up 100,000 tons. 4 ft. required for vessels in excess of 100,000 dwt., and 5 ft. for vessels over 225,000 dwt.

EQUIPMENT: Port and Starboard anchors to be fitted with anchor buoys and sufficient line to facilitate recovery of anchor in the event of loss.

Four good mooring lines of not less than 150 fathoms each and of a suitable size for the vessel. Two additional 150 fathoms lines securely tailed to the first lines for occasions where 150 fathoms may not reach the stern buoys initially.

For vessels of 50,000 dwt and larger, powered mooring winches with 200 fathoms wire mooring rope are recommended.

Suitable new rope stoppers to be available forward and aft.

Two good stoppers for use on 5½ in. circumference wires. Preferably patent carpenter's stoppers.

Two good boat ropes 4½ in. circumference of at least 200 ft. long.

A clean, safe pilot ladder of adequate length battened so as to prevent turning. A suitable line to be ready for hauling gear on board, such as hose clamps, reducers and elbows. A lifebuoy should be placed handy to this ladder.

Tankers of 40,000 dwt and over should have rigged, when in ballast, an accommodation ladder lowered to about 12 ft. above water This can be adjusted to suit the conditions. A pilot ladder should be rigged immediately abaft the accommodation ladder, to within 2 ft. of the water. This will enable the Pilot and others when the vessel is moored to ascend the pilot ladder clear of the launch and then step on to the lower platform of the accommodation ladder.

HEALTH: International Maritime Declaration of Health. In case of suspected disease Agent to be informed on VHF Channel 16. Smallpox and cholera inoculation required.

RADIO: Cables to Agent, Receivers, etc., should be sent via "Bahrain Radio". When vessels within range they should confirm ETA on Channel 16, 156·8 mc/s to either Jebel Dhanna Terminal Call Sign "Jebel Dhanna" or Jebel Dhanna Pilots call sign "Jebel

Dhanna Pilots"; ship's Agent in Jebel Dhanna also equipped with Channel 16.

TUGS: No tugs available.

BERTHING: Berthing is by mooring to 2 anchors and stern buoys. Arrangements in advance by contacting Jebel Dhanna Pilots on Channel 16.

Berths are approached on W.S.W. course passing S.E. of Alaq Island. Leading lights have been established which will lead ships on the line of the two anchors when in berth. A small marker buoy has been established to assist the Mooring Master in placing starboard anchor in correct position. Vessels berth heading N.W. Holding ground good. Bottom consists of clayey silt.

Sea Line Loading Berths. Three sea line berths Nos. 1, 2 and 3 numbered from N. W. to S.E. Nos. 1 and 2 supplied by single 36 in. lines and No. 3 by a 42″ line, each terminating in a header which passes under vessel in berth.

Berth Specifications:

Berth	*Draught acceptable*	*Approximate deadweight acceptable*	*Maximum loading rate*	*Strings of flexible hoses*	*Length of sea line*
No. 1	45′	83,000	6,000 t.p.h.	Two 12″	16,269′
No. 2	46′	85,000	6,000 t.p.h.	Two 16″	16,427′
No. 3	49′	90,000	7,400 t.p.h.	Four 16″	19,000′

* Deadweights shown for vessels loading full cargoes. Part Cargoes may be greater. Nos. 2 and 3 Berth can accommodate 250,000 d.w.t. tankers.

Depth of water available in berth, and swinging circle, after deducting 6 ft. for height above sea bed of sea line end cradle is as follows: No. 1 Berth, 51 ft.; No. 2 Berth, 52 ft.; No. 3 Berth, 55 ft.

Swinging circle defined as 1½ ship's lengths from dropping position of ship's inshore anchor.

With 3 ft. under keel general limitations as follows:

(*a*) Ships drawing 44 ft. may sail at any time on any day.
(*b*) Ships drawing 45 ft. will rarely have to use tides.
(*c*) Ships drawing 46 ft. will usually have to use tides.
(*d*) Ships drawing 47 ft. will *always* have to use tides.
(*e*) Ships drawing 48 ft. will *occasionally be neaped.*
(*f*) Ships drawing 49 ft. will be neaped 276 days ± per year. The best months are June, July and August.

Seaward ends of pipelines, terminate in 12 in. or 16 in. flexible hoses, there being four such strings of hoses at each berth. Two taken up on each side of vessel.

Additional information obtainable from Jebel Dhanna Pilots on Channel 16 prior to vessel's arrival.

HOSES: Derricks or cranes must be capable of lifting a string of hoses from the sea-bed to a height of 30 ft. above the deck. For lifting 16 in. diameter hoses, the lifting gear should have a SWL of not less than 10 tons and for 12 in. diameter hoses a SWL of not less than 5 tons.

Gear should be rigged on both sides of the vessel in order to lift hoses on either side or both sides simultaneously as required.

It may be convenient to handle blank flanges, reducers, etc., with the derrick or crane. Reducers or adaptors should be bolted to the ships flanges, so as to take 12 in. or 16 in. hose as may be necessary.

Note: Where a vessel has two or more loading connections, those used should not be less than 7 ft. apart.

Hose Hang off bitts are required at about 10 ft. from the ship's rail at the loading manifold to secure the submarine hoses on both sides.

LOADING: Crude oil SG 0·8250/0·8340. API 38/40. The oil loading stream of the ship is controlled on shore and it is extremely dangerous if a ship's valve is closed against the flow of oil.

Particular care must be exercised by ship's personnel, towards completion of loading, in the "topping off" tanks to ensure that the Terminal is given timely advice of any reduction in loading rate required. Adequate "stand-by" notice should be given before the final "stop". To prevent excessive pressure from surge on ship/shore connections, ship valves should be closed slowly.

The Terminal facilities at Jebel Dhanna have been designed so that tankers can be loaded by gravity at rates up to 6,000 tons per hour in Berths 1 and 2 and 7,400 tons per hour in Berth 3.

BALLAST: No facilities for disposal of slops or dirty ballast.

When a vessel enters port waters in ballast, the ballast water for overside discharge must be clean and a declaration signed by the Master and delivered to the representative of the Terminal to this effect. Ashes, oil, oily water or other refuse must not be discharged overboard in port waters. Vessel's scuppers must be effectively plugged and leakage or spillage of oil aboard ship must not be swept or washed overboard whilst in port waters.

It is essential that vessel is adequately ballasted to ensure safe handling and manoeuvring. Please comply with the Mooring Master's requests as to ballast quantity and disposition.

Jebel Dhanna is an open roadstead and subject to sudden changes in weather. On occasions it is of great advantage to commence loading whilst discharging ballast or prior to completely deballasting to avoid having the vessel in a flying light condition.

DEVELOPMENTS: The pumps for loading have been installed and commissioned towards the end of 1972. Also, one Production Station will be commissioned during the next year.

During 1973 a fourth berth will be constructed in addition to the existing three, and is scheduled to be in operation on 1st January 1974.

DENSITY: Specific gravity 1·031.

FRESH WATER: Not available.

FUEL: Not available.

FIRE PRECAUTIONS: As laid down in the Abu Dhabi (Port of Jebel Dhanna) Regulations 1967. Also IOTTSG Safety Guide.

GANGWAY/DECK WATCHMEN: Not necessary.

CUSTOMS ALLOWANCES: Tobacco: No restrictions in quantity on board but must not be conveyed ashore or from one vessel to another without appropriate written permit from Customs Authorities and Port Officer. Wine and/or Spirit: Conveyance of alcoholic liquor from any vessel to the shore or from the shore to any vessel, or from one vessel to another, prohibited without appropriate written permits from Port Officer and Customs Authorities.

IDENTIFICATION CARDS: Not required.

CONSULS: None.

REPAIRS/DRY DOCKS: No facilities.

REPATRIATION: With sufficient notice, Agents will assist in any repatriation. Valid Seamans Book essential. If urgent, via Abu Dhabi, but facilities are limited and if possible crew changes should be made at other ports.

AIRPORT: One mile distant, small air strip owned by Abu Dhabi Petroleum Company for private use. Nearest International Airport is Abu Dhabi the capital of the State.

TIME: Local time GMT plus 4 hours. No alterations made to clocks during year.

MEDICAL: A male nurse can occasionally be obtained from LAMNALCO, the piloting company, upon request of ship's Agent, but in case of extreme emergency an aeroplane can be chartered from Bahrain or Abu Dhabi to pick up the patient at Jebel Dhanna for transfer and treatment in Abu Dhabi, Bahrain or Dubai.

POLICE/AMBULANCE/FIRE: No Fire or Ambulance facilities available.

The Abu Dhabi Defence Force, Oilfield Security Section maintains a police post at Jebel Dhanna and is responsible to act in case of accident or other emergency, whether ashore or in territorial waters.

TELEPHONES: None.

SERVICES: None.

SHORE LEAVE: Crews not allowed ashore.

PORT REGULATIONS: The Abu Dhabi (Port of Jebel Dhanna) Regulation 1967.

AUTHORITY: Port Officer, Jebel Dhanna, c/o Abu Dhabi Petroleum Company Ltd., PO Box 270, Abu Dhabi, Arabian Gulf.

AGENT: National Shipping Gulf Agency Co. (Abu Dhabi) Ltd., Jebel Dhanna. Cables: "Confidence Abu Dhabi". Tel.: Jebel Dhanna Hotel. Radio: Marine VHF radio, stand-by Channel 16 (156·8 mHz) call sign "Confidence Jebel Dhanna".

MUBARRAS ISLAND, Abu Dhabi: 24.26 N. 53.22 E.

APPROACHES: Buoys have been laid to mark the channel leading to the oil loading terminal. Mubarras approach buoy, situated in position 25° 01′ N. 53° 38′ E. flashing white every five seconds.

In the section of the channel from the Approach Buoy to No. 5 Buoy, the depth reduces from 85 ft. to 55 ft. Between No. 5 Buoy and No. 14 Buoy the channel requires to be navigated with care, the least depth being about 48 ft. with a least width between the paired buoys of about three cables. After passing Nos. 13 and 14 Buoys, the channel deepens to 55 ft. (Refer to M.E.N.A.S. Navigation Notices).

DEVELOPMENTS: An oil exporting terminal under construction which will become operational in 1973.

AUTHORITY: Abu Dhabi Oil Company (Japan) Limited.

PORT RASHID, Dubai: 25.16 N. 55.16 E.

DOCUMENTS: The following should be airmailed to Agent prior to ship's arrival.

6 Dangerous Cargo Lists.
2 Stowage Plans.
2 Hatch Lists.
7 Cargo Manifests.
1 each Bill of Lading.
3 Crew Lists required (on arrival).

APPROACHES: Fairway Buoy Black spherical, flash white, every 1½ seconds in position Lat. 25° 16.8′ N. 55° 16.2′ E.

Vessels should await Pilot to seaward and East of this buoy, anchoring if necessary.

PILOTAGE: Compulsory. Pilot may board from launch or by tug, and in all cases a pilot ladder should be provided and a lee given. Pilot boards from 0600 hours to 2359 hours, though generally vessels not wishing to work cargo will not enter port outside of daylight hours. Vessels may leave up to 2359 hours, or later, by arrangement with the Harbour Master in special cases.

RESTRICTIONS: Vessels permitted to leave Port Rashid up to midnight under pilotage control, subject to weather conditions and restrictions imposed by the Construction Company.

Vessels will not be allowed to remain alongside the berths when not working cargo if other vessels are waiting.

MAX. SIZE: Berth No. 1, 35 ft. depth alongside. Berth No. 2, 32 ft. depth alongside. All other berths, 30 ft. depth alongside.

TUGS: Two 1,300 h.p. tugs are available, the practice being to secure alongside; therefore, derricks should be swung in and gangways hoisted.

Tugs are fitted with VHF and contact should be made on Channel 16, changing to Channels 14 or 6.

RADIO: The Port Signal Station, fully equipped with VHF and height approximately 57 ft. above sea level, is situated at the seaward end of No. 1 Berth, Port Rashid. Vessels should contact the

Signal Station by VHF Channel 16 and request berthing instructions, etc.

Vessels should advise their Agents the arrival time, LOA and draft, and advise amended ETA where possible by VHF. They in turn will pass the information on to the Port Authority.

PRATIQUE: Normal quarantine regulations apply and pratique can be given by the Pilot on cargo vessels always subject to the Health Authorities approval. Health Authorities only board when the vessel is alongside, except in the case of a suspected ship. Passenger ships are always boarded by the Port Health Authorities.

BERTHING: All berths alongside quays in enclosed harbour.

Quay No. 1 at root of Main Breakwater comprises three berths: Berth No. 1 for passenger and mail traffic, depth 35 ft. alongside. Berth No. 2 for dry cargo, depth 32 ft. alongside. Berth No. 3 for dry cargo, depth 30 ft. alongside.

Quay No. 2 five dry cargo berths.

Quay No. 3 five dry cargo berths.

Oil Berth at Main Breakwater just inside harbour entrance.

FRESH WATER: Good fresh water is available at each berth, loading rate approximately 30 tons per hour per hose. Agents should be asked to make arrangements, stating tonnage before arrival.

FUEL: Shell Gas Oil bunkers are currently available at berths 1 to 4 and 6 to 9, and include marine diesel and marine fuel oil, up to 1.500 second viscosity (Red No. 1 at 100°F). Request for bunkers should be routed via local Agents or made to Shell Markets (M.E.) Limited, POB 207, Dubai. Cable: "Shell Markets Dubai". Tel. 22521 – giving 48 hours notice of requirements if possible.

TANKERS: A tanker berth operated by Shell Markets (M.E.) Ltd., who have exclusive bunkering rights in Port Rashid, is capable of taking vessels up to 850 ft. in length and draft not exceeding 33 ft. Vessels in excess of 33 ft. and not exceeding 35 ft. draft may be berthed by arrangement with the Harbour Master, at or near high water, subject to weather conditions.

CARGO HANDLING: *Shore:* Normal port working hours: 1st shift: 0800 to 1300 hours (winter), 0700 to 1200 hours (summer), 1500 to 1800 hours; 2nd shift: 1900 hours to 2359 hours; 3rd shift: 0001 hours to 0600 hours (on request). Not Fridays, or public holidays.

The Port Manager may request full night working in the interest of the port.

Each berth is provided with fork-lift trucks and trailers. Pallets to assist cargo handling are available without charge. Cargo is discharged direct to sheds (400 ft. by 200 ft.) or to storage areas where mobile cranes varying from 5 to 40 tons lift operate.

Ship: Ships gangs are available for distribution to vessels through Agents, vessels should advise their requirements before arrival. The gangs board and operate under the supervision of ship's officers. No quay cranes are provided, so ship's derricks/cranes must be used, together with cargo handling equipment. A close liaison should be maintained with the Cargo Superintendent or Shed Supervisor at all times.

Lighterage: When berths are fully occupied, vessels may discharge/load ex-lighters at anchorage.

STEVEDORES: Gangs available, ordered by Agent before vessel's arrival. Gangs board and operate under supervision of ship's officer. Ship's gear used.

Normal working hours: first shift 0700 to 1200 hours, and 1500 to 1800 hours. Second shift 1900 to 2359 hours. Third shift (on request) 0001 to 0600 hours.

MEDICAL: Qualified doctors and hospital available at Dubai. New Government Hospital to be available in 1973.

TELEPHONES: Situated on the quays, no connection made to vessels.

SHORE LEAVE: Passports must be left with Immigration Officer and collected on return.

GENERAL: Refer to "Dubai" for all general information.

AUTHORITY: Dubai Port Services, Port Manager, POB 2149 Dubai (U.A.E.)

AGENT: See "Dubai".

SHARJAH: (Mina Khalid) 25.22 N. 55.24 E.

DOCUMENTS: See "Dubai".

PILOTAGE: Compulsory for all vessels.

ANCHORAGE: (See "Restrictions"): Vessels with draft in excess of berthing maximum, required to discharge into barges at anchorage approx. one mile off pier. Barges arranged by Agent. It is understood that an anchorage buoy has been established as follows: Black Pillar Buoy showing white light every 1·5 seconds in position 25° 22′ 41″ North, 55° 21′ 35″ East. Vessels should anchor in vicinity of buoy. Depth 38 ft.

RESTRICTIONS: Vessels with draft up to 29 ft. able to enter near time of high water (HTL 32 ft.).

Vessels of less than 25 ft. draft may generally enter slack tides and may leave at any state of tide. Night berthing is avoided but vessels can leave the harbour during dark hours at any time.

HEALTH: Quarantine clearance by cable through Agent. Health Certificate with valid smallpox inoculation is compulsory and cholera inoculation (if coming from cholera-infected areas).

RADIO: Vessels should advise their Agents ETA, draft, hatch distribution and any other requirements, giving as much notice as possible.

VHF: Sharjah Harbour Office can be contacted on Channels 16, 12, 9 and 6.

TUGS: Arranged by Agent. At least one tug recommended.

BERTHING: Arrangements made with Harbour Master by ship's Agent for necessary berthing as required. Pier has two berths:

Distance of pier (middle) from sea shore 600 m. (2000 ft.), length of pier (platform) 81,20 m. (270 ft.), breadth of pier (platform) 31·20m. (104 ft.), depth of water L.T.L. 9/00 m. (30 ft.), depth of water H.T.L. 10/20 m. (34 ft.), height of pier above sea ground 13·50 m. (45 ft.).

MEDICAL: Upon application to ship's Agent, medical examination of crew members can be arranged. Personnel will either be sent to private Doctor or to Public Health Department, as circumstances dictate. Serious cases will be referred to Government Hospital doctor.

TANKERS: No facilities.

DENSITY: 1025/1028.

FRESH WATER: Available and can be delivered on berths at jetty.

FUEL: All types of oil bunkers can be obtained from major oil companies and from other suppliers, by barge.

REPAIRS: Good facilities for repairs.

DRY DOCKS: None.

REPATRIATION: Crew members joining ships at Sharjah may enter or transit via Sharjah or Dubai without visa, provided they carry valid Seaman Book or Seaman ID Card. In absence of such documents Non-Objection Certificate must be obtained from Agent, against which visa will be issued. Cable Agent of seamen's full names and flight details preferably 24 hours in advance.

AIRPORTS: Dubai. International flights. Distance 20 minutes by car. Also local airport at Sharjah.

TIME: GMT plus 4 hours. Permanent.

AUTHORITY: Director of Ports and Customs, Sharjah.

AGENT: Gulf Agency Company (Sharjah) Ltd., POB 435, Sharjah, Trucial States. Cables: "Confidence" Sharjah, Tel.: 8353. Telex DB 448, Dubai. Radio: Marine VHF radio, stand-by on Channel 16 (156/8 MHz). Call sign: "Confidence" Sharjah.

Air-freighted spare parts and ships' mail to Sharjah should be addressed to GAC Sharjah, but sent to Dubai Airport marked "In Transit for M/S . . . " Certificate of Origin should follow the airway bill or in cases of emergency be sent to GAC Sharjah, soonest after shipment. Cable "Confidence" Sharjah, of flight details and airway bill number.

United Arab Republic (Egypt)

ALEXANDRIA: 31.09 N. 29.53 E.

DOCUMENTS:

4 copies of Crew List.

Complete set of Manifests covering all cargo on board showing names of shippers and consignees.

4 copies List of passengers in transit.

Landing cards for passengers landing finally in U.A.R. and for those landing in U.A.R. in transit.

4 copies List of passengers finally landing in U.A.R. (if any) together with their addresses in U.A.R.

Deck log books showing date of last call at a U.A.R. port, completed up to the time of arrival.

For Quarantine: Quarantine Questionnaire in duplicate (Form No. 15 Q.A.) showing all ports of call, as well as dates of sailings for the last 30 days, nature of cargo on board, destination, as well as sickness among crew or passengers, if any, specially when it is presumed that the sick will be hospitalised. These forms can be filled on arrival if not available on board before arrival.

One Crew List and one Passenger List.

Deratisation Certificate should be handy for inspection.

Clearance from Last Port.

For Immigration Officer:

Arrival Immigration form, duly completed.

One Passenger List.

List of Passengers finally landing, in duplicate.

Crew List.

Valid passport with entry visa is required for landing in U.A.R. for passengers landing. Emergency visa can be granted on arrival if so required.

For Customs Use:

Bonded Store List, in duplicate.

Crew List and passengers' List in duplicate, showing rate of consumption of each.

PILOTAGE: Compulsory. Pilot boards off harbour entrance. International code signals used.

RESTRICTIONS: Entrance channels 36 ft. depth, being dredged to 50 ft. Arriving vessels should keep 50 miles offshore between sunset and sunrise.

MAX. SIZE: Up to 35 ft. draft.

RADIO: Alexandria Radio, call sign SUH, operating 24 hours daily on 444, 500 and 8578 kHz and between 0600 to 1800 GMT on 12,974 kHz.

HEALTH: On entering, vessels must hoist the International Quarantine Signal for compulsory quarantine. Any sickness must be reported to the doctor. The Quarantine Doctor meets ships whilst entering the port and ships are boarded in turn.

In the event of a vessel arriving from a port that has been internationally declared infectious and the incubation period has not yet expired at the time of the ship's arrival at a U.A.R. port, the vessel is

put under compulsory Quarantine, moored at an isolated berth and no shore contact is allowed. Nevertheless the ship can still carry out her normal operations on condition that all shore personnel are holding valid vaccination and/or inoculation certificates issued by the Quarantine Administration. The ship's personnel should also carry International Vaccination and/or Inoculation Certificates. Final landing passengers, not carrying such certificates, will be landed under Quarantine supervision and will be kept isolated at the lazarette until incubation period is over.

Pratique may be granted prior to ship's arrival provided the following conditions are adhered to:

(1) The vessel must be a regular liner known to the Quarantine Authorities and have a doctor on board.
(2) Details shown on the Quarantine Statement should be wirelessed to the Quarantine Authorities 24 hours prior to ship's arrival.
(3) Captains of vessels must declare before their arrival any accidents, which might have taken place on board prior to the arrival in port.
(4) The ship must not have called at any infected port.

TUGS: Five tugs available up to 600 h.p.
BERTHING: Alongside quays in depths up to 35 ft.
TANKERS: New Petroleum Basin: in West part of outer harbour, Berths 3 and 4, depth alongside 38 ft., max. length 700 ft., draft 35 ft. Berths 3 and 4: in East part of outer harbour. Stern to moorings.
FRESH WATER: Available by barge.
FUEL: Available by barge.
MEDICAL: All facilities available. International vaccination certificates required.
TIME: Winter: from 1st October to 30th April, local time 2 hours ahead GMT. Summer: from 1st May to 30th September, local time 3 hours ahead GMT.
HOLIDAYS: The following are the public holidays in U.A.R.:

1st and 2nd Day of Ramadan Bairam } changeable dates
Courban Bairam Eve }
1st and end day of Courban Bairam } as based on Moslem Calendar
Mohamedan New Year's day }
Prophet's Birthday (Mewlid El-Nabi) }

Eastern Monday (Sham El Nassim) (changeable); Evacuation Day (18th June); Revolution Day (23rd July); Victory Day (23rd December).
AUTHORITY: Alexandria Port Authority.

MARSA AL HAMRA (El Alamein): 30.59 N. 28.52 E.

WEPCO Terminal

The Mono Mooring Buoy is in an open and unsheltered roadstead. The mooring buoy is located at latitude 30° 58.7′ North, longitude 28° 52.2′ East. It is 53 miles on a bearing of 255° from Ras-el-Tin lighthouse, Alexandria, and three miles off shore in approximately 66 ft. of water.
DOCUMENTS:
4 copies Crew List.
Deck log books showing date of last call at a U.A.R. port, completed up to the time of arrival.
Quarantine Questionnaire in duplicate (Form No. 15 Q.A.) showing all ports of call, as well as dates of sailings for the last 30 days, nature of cargo on board, destination, as well as sickness among crew or passengers, if any, specially when it is presumed that the sick will be hospitalised. These forms can be filled on arrival if not available on board before arrival.
Deratisation Certificate should be handy for inspection.
Clearance from Last Port.
Bonded Store List, in duplicate.
Crew List and Passengers' List in duplicate, showing rate of consumption of each.
PILOTAGE: The S.-S.W.-W. quadrant from the buoy is prohibited anchorage area, Gebisa Reef is at latitude 30° 58′ 30″ North, longitude 28° 49′ 10″ East, at 2·7 miles on a bearing of 260° from the buoy.

The mooring buoy carries a light, flashing six times per minute, and visible all round to a distance of 4½–5 miles in clear tropical weather.

Surface current sets East at 10 miles offshore at the rate of one knot. Maximum rise and fall of tide in the mooring area is 2 ft.

Vessel arriving should approach to within 2 miles North of the buoy, where they will be met by the Harbour Master or Pilot who will advise the ship's Master on approaches to the mooring buoy, mooring and unmooring.
RESTRICTIONS: Normally vessels are moored during daylight hours only, but permission can be obtained to sail at night. Arriving vessels should keep 50 miles off shore between sunset and sunrise.
HEALTH: Hoist International Code Quarantine signals when entering. Any sickness must be reported to local authorities.
RADIO: The commercial radio station at Alexandria will handle WEPCO radio traffic. Alexandria Coast Radio Station (call sign SUH) operates 24 hours a day on 444,500 and 8,578 kHz, and between 06.00 hours and 18.00 hours GMT on 12,974 kHz.

Ships nearing Al Hamra Terminal may contact the terminal by FM/VHF radio on 156.70 MHz or 2182 kHz.

While at the mooring, ship-to-shore communication is by portable VHF radio-telephone units, under the direct charge of the Mooring Master.
TUGS: Not available and not required.
BERTHING: Two good lines must be ready on the forecastle to be sent to the buoy plus a further two lines for use as messengers. Ship's lifting gear must be ready near the port manifold for lifting and connecting two 12-in. hoses, with proper reducers if the manifold does not fit 12 in. hose with 150 ASA standard flanges. The total weight per hose assembly is approximately five tons. Maximum loading rate is 3,700 t.p.h.

A pilot ladder must be safely rigged for immediate use and long enough to reach the Mooring Master's launch. At night adequate lighting must be rigged overside to enable the Mooring Master to approach and board the ship safely, and searchlights should be rigged on both sides of the bridge to assist in running lines to the buoy.
BALLAST: No dirty ballast may be pumped overboard, and it is the ship's Master's responsibility to ensure that no oil – whether crude, diesel bunker or bilge – is pumped or spilled into the waters of and surrounding the Terminal. Ballast can be pumped ashore through one or both of the floating hoses direct to disposal facilities on shore.
CUSTOMS ALLOWANCES: Present regulations at El Alamein allow each seaman to retain in his possession a maximum of 50 cigarettes or one ounce of tobacco or five cigars. All other smoking items must be collected and listed before arrival. The list will be checked by Customs before sealing the locker, and any discrepancies will be subject to fines. There must be no items aboard of Israeli origin.
FRESH WATER: Not available.
FUEL: Not available.
MEDICAL: Nearest hospital facilities are at Alexandria, at least 90 minutes drive from the terminal.
TIME: From 1st October to 30th April, local time 2 hours ahead of GMT. From 1st May to 30th September, local time 3 hours ahead of GMT.
AUTHORITY: Western Desert Petroleum Company.

RAS GHARIB: 28.21 N. 33.06 E.

A natural port at the Western side of Suez Gulf sheltered by the Cape and a chain of reefs.
DOCUMENTS:
4 copies Crew List.
Deck log books showing date of last call at a U.A.R. port, completed up to the time of arrival.
Deratisation Certificate should be handy for inspection.
Clearance from Last Port.
Bonded Store List, in duplicate.
Crew List and Passengers' List in duplicate, showing rate of consumption of each.
Quarantine Questionnaire in duplicate (Form No. 15 Q.A.) showing all ports of call, as well as dates of sailings for the last 30 days, nature of cargo on board, destination, as well as sickness among crew or passengers, if any, specially when it is presumed that the sick will be hospitalised. These forms can be filled on arrival if not available on board before arrival.
PILOTAGE: Vessels should approach the anchorage from South-eastward and wait Southward of the prohibited anchorage until boarded by the Harbour Master who will pilot them either to moorings or to an anchorage clear of the prohibited area of the pipelines.

Two pairs of leading beacons stand about 4 and 5½ cables, beside three others that stand about 12 cables Southward of Ras Gharib light-structure. About 2 cables further Southward are two leading beacons. All the above beacons are difficult to identify until close inshore.
ANCHORAGE: Ras Gharib anchorage, South-westward of the cape, affords some shelter, but a moderate swell round the cape is experienced on most days. Vessels can obtain anchorage in depths of about 5 fathoms.

During most of the year there are Northerly winds, force 3–5, but in December and January there are occasionally calms. On very rare occasions, there are Southerly gales of short duration which make the anchorage untenable.

The Northerly wind causes some swell in the anchorage, but it is not normally severe enough to interfere with the working of lighters or boats of moderate size. It is, however, unpleasant for small boats, except alongside the piers, which are well protected.

Except in the vicinity of the piers, there is usually some swell on the beaches. There is practically no rainfall and sand storms occur only very occasionally and they do not interfere with work in the anchorage.

Anchorage is prohibited, owing to the existence of pipe lines, within an area indicated by pecked lines on the chart.
HEALTH: On entering, vessels must hoist the International Quarantine Signal for compulsory quarantine. Any sickness must be reported to the doctor, specially when it is presumed that the sick will be hospitalised.
MAX. SIZE:

	Crude Oil North Pier	*South Pier No. 1*	*South Pier No. 2*
Depth of water	22 ft.	37 ft.	78 ft.
Max. permitted draft	18 ft.	32 ft.	55 ft.
Max. permitted length	420 ft.	560 ft.	960 ft.
Max. permitted width	55 ft.	70 ft.	any width
Loading rate	200 t.p.h.	400 t.p.h.	1,500 t.p.h.
Loading capacity	5,000 tons	29,000 tons	100,000 tons
Diameter of crude oil line	18 in.	18 in.	30 in.
Diameter of ballast water line	10 in.	12 in.	18 in.

SUPPLIES: Transit and fresh provisions as well as deck and engine stores provided by the United Arab Contracting and Marine Supply Company.
FRESH WATER: Not available.
FUEL: Not available.
CUSTOMS ALLOWANCES: Present regulations allow each seaman to retain in his possession a maximum of 50 cigarettes or one ounce of tobacco or five cigars. All other smoking items must be collected and listed before arrival. The list will be checked by Customs before sealing the locker, and any discrepancies will be subject to fines. There must be no items aboard of Israeli origin.
TIME: *Winter:* from 1st October to 30th April, local time 2 hours ahead GMT. *Summer:* from 1st May to 30th September, local time 3 hours ahead GMT.

AGENT: Canal Shipping Agencies Co.

RAS SHUKHEIR: 28.08 N. 33.17 E.

ADVICE OF ARRIVAL: It is important that ships establish radio contact with "GUPCO" (Gulf of Suez Petroleum Co.) when three days distant from Terminal and maintain this contact until just previous to arrival at the Terminal. All ships should send a 72-hour ETA message to "Panintoil Cairo" giving the best estimate of ship's arrival time at the Terminal. This ETA message should also include a definite statement of the details of any equipment required from shore for connecting submarine hoses to ship's manifold. Further ETA messages should be sent to "Panintoil Cairo" when the vessel is 24 hours and 12 hours distant from Ras Shukheir and at any other time any appreciable change occurs in the original ETA or those subsequent thereto. The 12 hour ETA should include a positive statement regarding ship's readiness to load on arrival and the number of hours that will be required to discharge ballast after ship is berthed in mooring.
DOCUMENTS:
4 copies Crew List.
Deck log books showing date of last call at a U.A.R. port, completed up to the time of arrival.
Deratisation Certificate should be handy for inspection.
Clearance from Last Port.
Bonded Store List, in duplicate.
Crew List and Passengers' List in duplicate, showing rate of consumption of each.
Quarantine Questionnaire in duplicate (Form No. 15 Q.A.) showing all ports of call, as well as dates of sailings for the last 30 days, nature of cargo on board, destination, as well as sickness among crew or passengers, if any, specially when it is presumed that the sick will be hospitalised. These forms can be filled on arrival if not available on board before arrival.
PILOTAGE: Ras Shukheir lighthouse is located in Lat. 28° 08′ 15″ North, and Long. 33° 16′ 20″ East. It is a white flashing light, flashing every 3 seconds and visible for 10 miles.

Gebal Gharib, situated about 18 miles South-westward, 5,742 ft. high. It makes a nearly perfect equilateral triangle with Ras Shukheir and Ras Gharib Lighthouses. Ras Gharib Lighthouse is an excellent landmark whether by day or night for vessels approaching from North, but caution should be exercised since this Light is obscured from 308 degrees to the Westward. The sea-berth buoys are unlighted.

The company's Mooring Master will meet all incoming tankers about two miles from Ras Shukheir Terminal on a bearing of 290/300 degrees from Ras Shukheir Lighthouse and will advise ship's personnel in mooring and unmooring, raising and lowering of hoses.

Vessels are requested to have a pilot ladder safely and securely rigged, ready for immediate use, and long enough to reach the Mooring Master's launch. If at night, adequate lighting must be rigged overside for the Mooring Master to approach the side and climb the ladder safely.
ANCHORAGE: There are a number of oil well installations, structures and submarine pipelines located in the Gulf of Suez opposite to Ras Shukheir Terminal and approaching vessels are warned of these obstacles in manoeuvring and anchoring. Vessels should approach from the Eastward and if necessary anchor Southeast of the sea berth. *Never anchor north of the sea berth.*
RESTRICTIONS: The Ras Shukheir Terminal operates 24 hours per day, seven days a week. Ships are loaded and unmoored at any hour, weather and other circumstances permitting. Vessels are moored during daylight hours only, however, an exception may be made at the discretion of the Terminal.
RADIO: The Alexandria or Port Said coast radio stations will handle GUPCO radio traffic. Ships may contact GUPCO through their cable address "Panintoil Cairo". The message will be received on their Cairo Radio Telegraph Office local teleprinter circuit. Tape perforated and relayed to the Ras Shukheir Terminal.

Cables from Ras Shukheir Terminal to the ships would be handled in the same manner. The Alexandria or Port Said coast radio stations transmit traffic lists at regular intervals listing the call signs of all ships for which they have traffic on hand. Thus any ship hearing its call sign in the traffic list of the coast station would call the coast station immediately after the traffic list.
FM/VHF RADIO TELEPHONE: When ships are near Ras Shukheir Terminal, they may use their FM/VHF radios to contact the Terminal using 160.70 mc/s or 160.80 mc/s.

MAX. SIZE:

	Pier for 60,000 dwt.	*Pier for 100,000* dwt.	*Pier for 150,000* dwt.
Max. permitted draft	45 ft.	55 ft.	58 ft.
Max. permitted length	1,000 ft.	1,200 ft.	1,200 ft.
Min. permitted length	600 ft.	750 ft.	600 ft.
Diameter of load line	46 in.	36 in.	30 in.
Min. lifting capacity of tanker deck winch	5 tons	5 tons	5 tons
Loading capacity	3,500 t.p.h.	3,500 t.p.h.	3,500 t.p.h.

SUPPLIES: Transit and fresh provisions as well as deck and engine stores provided by United Arab Contracting and Marine Supply Co.
SUBMARINE HOSE LOADING BERTH: Tanker is loaded by means of submarine pipelines to which are attached two hoses for oil loading and one hose for discharging ballast water. A 36 in. line transports the oil and a 16 in. line, the ballast water. The loading berth is located approximately 940 metres (3080 ft.) offshore in a water depth of approximately 60 feet (10 fathoms). The loading and ballast lines are laid in the same trench and run in a direction N. 55° 00′ E. The mooring buoys are numbered 1, 2, 3, 4 and 5 starting with 1 North of the mooring and running consecutively in a clockwise direction.
LOADING READINESS AND ARRIVAL TIME: The company will make every effort to load vessels upon arrival or as promptly as berth is available, weather permitting. Notice of Readiness will not be accepted as at time of arrival unless the vessel is in all respects ready to load. Arrival time will be considered as the time the Mooring Master boards the vessel or the time that vessel anchors, whichever occurs first.
FRESH WATER: Not available.
FUEL: Not available.
REPATRIATION: Not recommended.
CUSTOMS ALLOWANCES: Present regulations allow each seaman to retain in his possession a maximum of 50 cigarettes or one ounce of tobacco or five cigars. All other smoking items must be collected and listed before arrival. The list will be checked by Customs before sealing the locker, and any discrepancies will be subject to fines. There must be no items aboard of Israeli origin.
TIME: Winter: from 1st October to 30th April, local time 2 hours ahead GMT. Summer: from 1st May to 30th September, local time 3 hours ahead GMT.

AGENT: Canal Shipping Agencies Co.

SAFAGA: 26.46 N. 34.00 E.

DOCUMENTS: The following documents are required on arrival
Quarantine Questionnaire in duplicate (Form No. 15 Q.A.) showing all ports of call, as well as dates of sailings for the last 30 days nature of cargo on board, destination, as well as sickness among crew or passengers, if any, specially when it is presumed that the sick will be hospitalised. These forms can be filled on arrival if not available on board before arrival.
One Crew List and one Passenger List.
Deratisation Certificate should be handy for inspection.
Clearance from Last Port.
Complete set of Manifests covering all cargo on board showing names of shippers and consignees.
4 copies List of Passengers in Transit.
4 copies Crew List.
Deck log books showing date of last call at a U.A.R. port, completed up to the time of arrival at Port Said or Suez.
PILOTAGE: Masters should endeavour to arrive at the N. end of the island by sunrise, at Safaga Port by early morning; the light behind them will show up the reefs clearly. Wind, light in the morning, gains strength during the day, making tying up more difficult. A beacon (Morewood Beacon), visible a mile off, is erected on the southern spit of the island. After rounding the spit, masters keep five cables clear of visible reefs and enter the harbour keeping the two large beacons to the North of the pier in line. Anchorage is then indicated by a small red or white flag. The Manager or his representative, of the Safaga Phosphate Company will meet ships in launch with instructions on berthing.
MAX. SIZE: Safe draft in the fairway, over reefs and alongside pier: 27 ft. 6 in.
HEALTH: On entering, vessels must hoist the International Quarantine Signal for compulsory quarantine. Any sickness must be reported to the doctor especially when it is presumed that the sick will be hospitalised.
BERTHING: There are two mooring buoys marked B and C and two mooring posts marked A and D.

(1) The anchor position is marked by a small red or white flag. When mooring, manilla ropes only should be used, as wire ropes can be run out afterwards when ship is alongside.

(2) Due to rocky nature of sea bottom, it is very desirable that ship in coming into berth, does not override her anchor, as, if this happens, chain is apt to foul coral bottom and cause trouble later on.

(3) Endeavour to have all way off ship when anchor position is reached. Drop anchor as close to flag as convenient and go astern. If necessary check cable when two shackles have been paid out.

(4) Run rope to Buoy C, run rope to Buoy B, run rope to Post D, then run rope to Post A. Run Spring to S1, S2, S3, and pull alongside. Company's launches will run all ropes.

(5) If wind is blowing strongly off shore, a Spring to S3, may be run immediately a good rope to Buoy B is made fast.

(6) The best way, to reach the anchor position is to steer straight for same, keeping Buoy C on port side. This will keep vessel clear of Buoy C and when anchor is dropped, the stern should swing clear of this Buoy. If it does not, a rope can be run to S3 and the stern pulled in before falling back on pier.

(7) With anchor dropped as shown, six shackles should see No. 1 hatch at the pier, but if chain is slackened carelessly, it may foul bottom and be insufficient to reach pier.

If visibility is very good, a course can be made between the Hyndman and Cannon Reefs, and altered to bring the beacons referred to into line. Rock phosphate and ground phosphate are loaded at this port for shipment all over the world. The mines are situated some 30 km. away and are connected by company's own railway. Rock phosphate loaded (200 tons per hour) from elevator and phosphate in bags by ship's gear. No water or stores.

TIME: *Winter:* from 1st October to 30th April, local time 2 hours ahead GMT. *Summer:* from 1st May to 30th September, local time 3 hours ahead GMT.

HOLIDAYS: The following are the public holidays in U.A.R.:

1st and 2nd Day of Ramadan
Bairam
Courban Bairam Eve
} changeable dates

1st and end day of Courban Bairam
Mohamedan New Year's day
Prophet's Birthday (Mewlid El-Nabi)
} as based on Moslem Calendar

Eastern Monday (Sham El Nassim (changeable); Evacuation Day (18th June); Revolution Day (23rd July); Victory Day (23rd December). Friday is the Sabbath day.

AUTHORITY: Safaga Phosphate Co. S.A.E., PO Box 1421,1, 26th of July Street, Cairo. Cables: "Safasco Cairo."

SUEZ CANAL: (including Port Said and Suez)

Information will be published when facilities are available.

United Kingdom

ABERDEEN: 57.09 N. 02.03 W.

DOCUMENTS:
1 Maritime Declaration of Health.
1 Crew's Effects List.
2 Ship's Report by Master.
1 Home Office Form 1B6.
1 Stores List.
1 Certificate of Deck Cargo Tonnage.
1 Light Certificate.
1 Port Dues Certificate.
Ship's Certificate of Registry.
Mercantile Marine Office Certificate – for British ships only.
Load-line Certificate.
Safety Equipment Certificate.
Lloyds Certificate.
De-rat Certificate.
Ship's Register.
Light Bills.
Safety Radio Certificate.

In addition, Manifests and Bills of Lading are usually sent to Agent direct from loading port.

PILOTAGE: Aberdeen has a compulsory pilotage district and there are eight licensed Pilots. Boatage service, although not compulsory, is available. There are eight licensed boatmen.

RESTRICTIONS: Navigation channel. max. designed width 110 ft., max. designed depth at HWOST 34 ft. Traffic signals regulate the movement of vessels in the Navigation Channel.

Entrance to Victoria Dock, depth at HWOST 26 ft., clear width at entrance 62½ ft.

Entrance to Upper Dock, width of entrance 67 ft.

MAX. SIZE: The port can accommodate a vessel of up to 525 ft. in length, 80 ft. in beam and drawing 30½ ft. of water, and at the various berths in tidal and non-tidal waters can handle expeditiously bulk and general cargoes.

HEALTH: Foreign arrivals to complete Maritime Declaration of Health. They are cleared immediately on arrival by either a port doctor or an officer of H.M. Customs depending on where the ship comes from and whether there is sickness on board.

Vessels arriving from ports within accepted area (N. European ports) and coastal arrivals need not present Declaration in all cases; when there is sickness on board the Port Health Authority must be informed preferably not more than 12 hours and not less than 3 hours before arrival.

RADIO: There is a VHF radio communications system which operates on Channels 6, 11, 12 and 16.

BERTHING: Tidal:

Tidal Harbour	length	3,461 ft.	Depth	26–34 ft.	HWOST
Albert Basin	,,	5,586 ft.	,,	25–29	,,
River Dee (Navigable)	,,	1,884 ft.	,,	25–28	,,
River Dee Dock	,,	1,398 ft.	,,	28–31	,,
Non-Tidal:					
Upper Dock	,,	1,950 ft.	,,	18–30	,,
Victoria Dock	,,	4,326 ft.	,,	22–28	,,

Deep-water Berths:

No. 1 Atlantic Wharf. This is 480 ft. long with 30 ft. water at low tide and 42¾ ft. at HWOST. Two-storey transit shed. Two 3-ton electric portal cranes. Excellent road and rail connection.

No. 2 Pacific Wharf. This is 525 ft. long with 32 ft. of water at low tide and 44¾ ft. at HWOST. Open quay.

FRESH WATER: This service is provided by the Corporation of Aberdeen and is available at all quays.

REPAIRS: Ship-repairing facilities and shipping supplies are offered by a number of private firms and individuals with premises beside the harbour.

DRY DOCKS:

	Overall length (ft.)	*Breadth at entrance (ft.)*	*Depth on blocks (ft.)*	*Lifting capacity*
No. 1	180	29	16	700 tons
No. 4	180	38	18	1,000 tons

There are also two privately owned slipways.

MEDICAL: Doctors and hospital facilities available. Agents should be advised in advance of any medical attention required.

CUSTOMS ALLOWANCES: At the discretion of Local Customs Inspector. Normal allowances are equivalent to ½ lb. of tobacco per man and equivalent to 1 bottle of wine per man. Allowances may be halved for home trade vessels. Vessels in port for more than three or four days may receive extra allowances.

CONSULS:

Belgium	G. D. G. Mackinnon, 23 Market Street
Denmark	Wm. Repper, 62 Marischal Street
Finland	D. G. R. Stroud, 62 Marischal Street
France	G. D. G. Mackinnon, 23 Market Street

TIME: BST is GMT plus one hour. GMT during winter months.

HOLIDAYS: 1st and 2nd January; Spring Holiday (variable date); Summer Holiday (variable date); September Holiday (variable date); Christmas Day (25th December).

POLICE/AMBULANCE/FIRE: Dial 999 from any telephone and ask for service required.

TELEPHONES: There are berths at which GPO telephone service can be made available to vessels. All operational posts are linked by telephone network.

AUTHORITY: Aberdeen Harbour Board, Harbour Office, 16 Regent Quay. Telephone: Aberdeen 52571.

ARDROSSAN: 55.38 N. 04.49 W.

DOCUMENTS: Normal documents required:
Customs Documents.
Health Documents.
Crew List.
Passenger List.
Ship's Papers, etc.

PILOTAGE: Telegraphic address – "Harbour" Ardrossan. VHF Channels 16 and 12. Pilot boat "Crinan" (30 ft. length). Signals for Pilot – flag, lamp or sound letter "G". Pilot taken on board approximately ¾ mile S.W. of Breakwater Light.

ANCHORAGE: 12 to 15 fathoms 1 mile S.W.

RESTRICTIONS: Two balls by day, or two red lights vertically by night, from a flagstaff at Montgomerie Pier, at elevations of 66 ft. and, 60 ft. indicate that vessels must not enter.

MAX. SIZE: Eglinton Dock approximately 420 ft. by 57 ft. by 23 ft./25 ft. (depending on tide). North Montgomerie Pier Tanker Berth – maximum length 575 ft., maximum draft, up to 70 ft. beam, 23 ft./26 ft.; over 70 ft. beam, 22 ft./25 ft.

HEALTH: All vessels requiring attention of Medical Officer shall show flag signal ZW by day,or between sunset and sunrise, either morse signal ZW by lamp, or a red light over a white light, not more than 6 ft. apart. Other vessels shall show flag signal "Q" by day, or between sunset and sunrise either morse signal Q by lamp or a red over a white light, not more than 6 ft. apart.

Certificate of Pratique will be issued by Customs Boarding Officer on receiving a satisfactory and fuily completed Maritime Declaration of Health. No further formalities required at subsequent ports of call in the U.K.

RADIO: VHF Channels 12 and 16. Radio telephone per Portpatrick.

TUGS: As for Pilotage. (If second tug required orders to be given not later than 1600 hrs. and by 1600 hrs. on Friday for week-end work.) Tug's lines used – no additional charge.

BERTHING: No special requirements except with draft over 16 ft. when vessel may be delayed waiting for tide.

STEVEDORES: Orders to be given by 1130 hrs. previous day.

MEDICAL: No advance notice required unless medical attention is necessary immediately on vessel's arrival. No hospital facilities in Ardrossan, nearest hospital being at Irvine, 6 miles and Kilmarnock 16 miles.

TANKERS: Hoses 8 in. Berths (1) Up to 3,000 d.w. (2) Up to approximately 18,000 d.w. Maximum draft 22 ft./26 ft. depending on beam and tide.

DENSITY: Sea water 1025

FRESH WATER: Available continually at all berths.

FUEL: Marine oils available ex pipeline, or by road tanker.

FIRE PRECAUTIONS: Patrolman required for hazardous cargoes.

DEVELOPMENTS: Roll-on/roll-off berth for specialised traffic.

GANGWAY/DECK WATCHMEN: Recommended.

OPENING/CLOSING HATCHES: Opened and closed by crew.

CERTIFICATES: Following Certificates are requested: Load

Line, safety radio, safety equipment, safety construction, deratisation, and Current Trinity House Light Bills.
CUSTOMS ALLOWANCE: Standard U.K. allowances.
IDENTIFICATION CARDS: Not required.
CONSULS: Norwegian Vice Consulate, Danish Vice Consulate: R. L. Alpine & Co. Ltd., Winton Buildings, Ardrossan. Tel. Ardrossan 3065.
REPAIRS: Limited repair facilities.
REPATRIATION: Customs Boarding Officer acts for Immigration Dept. and arrangements for repatriation can be arranged in conjunction with ship's Agent.
AIRPORTS: Prestwick 18 miles. Glasgow 25 miles.
TIME: BST, that is GMT plus one hour. GMT in winter months.
HOLIDAYS: 1st and 2nd January; Easter Monday; Third Monday in July; First Monday in October; and Christmas Day. Cargo work may be available on certain holidays by special arrangement.
POLICE/AMBULANCE/FIRE: Police tel. Ardrossan 3013; Ambulance, Fire: Ask telephone operator.
SHORE LEAVE: No restriction.
AUTHORITY: Ardrossan Harbour Company Limited, Harbour Office, Ardrossan. Tel. Ardrossan 3972/4. Telex 77654.

AYR: 55.28 N. 04.38 W. (including Troon)

DOCUMENTS: *Customs Require:*
2 copies Form XS1.
Ship's Register.
Load-line Certificate.
Safety Radio Certificate.
Passenger List.
Pratique.
Crew List.
Port Health require:
De-ratting Certificate.
Agents require:
1 copy Form XS4.
Bills of Lading.
2 copies Manifest.
PILOTAGE: 24 hours notice of ETA required for Pilot via Agent or Dock Authority.
ANCHORAGE: To Pilot's advice.
RESTRICTIONS: Draft restriction at LW. Enter on Pilot's advice.
MAX. SIZE: 300 ft. in length and 18 ft. draft – depending on berth.
HEALTH: Pratique granted by Customs on arrival.
RADIO: Local station, call sign GPK on 2381 kc/s. VHF radio only, operating on Channel 14 and listening on Channel 16.
TUGS: No tugs available.
STEVEDORES: 24 hours notice of ETA should be given to stevedores.
MEDICAL: Hospital facilities nearby in town.
DENSITY: Varies according to weather.
FRESH WATER: Available at all berths, rates upon application.
FUEL: All grades available, 24 hours notice.
GANGWAY/DECK WATCHMEN: Deck watchman required; may be supplied by arrangement with stevedores.
OPENING/CLOSING HATCHES: Performed by ship's crew.
CUSTOMS ALLOWANCES: ¼ lb of tobacco or equivalent cigarettes, and 1/6th gallon wine/spirits per man.
IDENTIFICATION CARDS: Seamen's identity cards should be carried.
REPAIRS: Most engine and deck repairs available.
DRY DOCKS: Two at Troon, max. length 400 ft., breadth 50 ft.
AIRPORT: Nearest at Prestwick, 7 miles away, mostly international flights.
TIME: GMT plus 1 hour, reverting to GMT in winter months.
HOLIDAYS: Official holidays: First two working days in January; first Monday in April; Ayr Races (2 days in third week in September); Christmas Day. No work at all on these days.
POLICE/AMBULANCE/FIRE: Dial 999, and ask for service required.
TELEPHONES: No connection on board vessel.
SERVICES: Special arrangements can be made for tank washing and compass adjusting through Glasgow.
SHORE LEAVE: No restrictions on shore leave.
AUTHORITY: British Transport Docks Board, Dock Office, North Harbour Street, Ayr. Tel. Ayr 67261.

BARROW-IN-FURNESS: 54.07 N. 03.14 W.

DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
Health Declaration.
Ship's Certificates and Cargo Documents.
PILOTAGE: Pilot boards at Lightening Knoll Buoy, using pilot cutter, usually 2 or 3 hours before high water.
Vessels ETA required 12 hours before arrival. Contact Pilot by radio 2182 kHz or VHF Channels 6, 12, 14 and 16.
ANCHORAGE: At Lightening Knoll Buoy, depth of 5 fathoms at LW. In adverse weather conditions vessels proceed to Ramsay Bay, 10 miles away, for shelter.
RESTRICTIONS: No docking after HW. Tidal range 21 to 32 ft. Deduct 2 ft. 6 in. from height of high water to allow for invert at dock entrance. Access to the port, which is protected from the prevailing Westerly winds by Walney Island, is gained from the Irish Sea through the harbour along the well-defined Walney Channel. The depth of water on the Ramsden Dock entrance sill can range from 33 ft. at high water springs to 21 ft. at high water neaps.
MAX. SIZE: Length 600 ft. Beam 75 ft. Draft according to tide.
HEALTH: Vessels arriving from abroad are given pratique by Customs Boarding Officers. In case of suspected disease or fever on board notify Agent prior arrival. Agent will advise Port Health Authorities.
RADIO: Local stations: Anglesea Radio, and/or Port Patrick Radio. Port VHF service in operation, call Ramsden Radio Channel 16.
TUGS: Two tugs available, each 1,100 h.p. Normally join vessel in Walney Channel. Tug's lines are used.
BERTHING:

Docks	*Water area in acres*	*Width of entrance*
Ramsden	62	100 ft.
Buccleuch	31½	100 ft.
Devonshire	30	80 ft.

Walney Channel Deep-water Berth: 850 ft. long × 100 ft. wide × 33 ft. deep.
Ramsden includes: Ramsden Dock Basin with three berths equipped for handling bulk cargoes with a total quayage of 1,240 ft., taking vessels of up to 30 ft. draft, and Anchor Line Basin with three berths 840 ft., 500 ft., and 900 ft. long respectively, taking vessels of up to 24 ft. draft. Equipped for Ro/Ro traffic.
STEVEDORES: All quayside labour and stevedoring is undertaken by the British Transport Docks Board. Handling woodpulp – 200/300 tons per gang per day.
DENSITY: Salt water 1025.
FRESH WATER: Available from quayside hydrants.
FUEL: No stocks at Barrow. Can be supplied by road or coastal tanker.
WATCHMEN: Not compulsory.
OPENING/CLOSING HATCHES: Handled by ship's crew.
IDENTIFICATION CARDS: Seamen's Book or Passport required by non-British crew.
CONSULS: Norway, Portugal, Spain. Tel. Barrow 22323.
AIRPORT: Nearest at Manchester, 100 miles distant. Flights to all parts.
HOLIDAYS: As for other ports in England, plus New Year's Day (1st January).
POLICE/AMBULANCE/FIRE: Police: Tel. Barrow 24532; Ambulance: Tel. Barrow 24201; Fire: Tel. Barrow 20050.
AUTHORITY: Docks Manager, British Transport Docks Board, Barrow and Silloth, Ramsden Dock Road. Dock Office: Barrow-in-Furness, Lancashire. Tel. 22911.

BARRY: 51.24 N. 03.16 W.

DOCUMENTS: See "Cardiff".
PILOTAGE: Telegraphic address of pilot station: Barry Pilots, Pier Head, Barry Docks. Amount of advance notice of ETA required: 24 hours. Final confirmation to be given by VHF or RT when within 2 hours of pilot station. VHF channel or frequency to be used when contacting pilot boat or pilot station: VHF Channel 16 thence working channels 6, 8, 10, 11.
Pilot boat: motor launch black hull with "Barry Pilot" in white on same. Brown superstructure. Light or sound signals to be made by vessels requiring a Pilot: flag G over numeral 6 flown by day, or 6 sounded on whistle or siren; flashed by lamp at night.
Exact area where pilot boat is located normally between Nash Point and Breaksea L.V. Smaller vessels may be boarded in Barry Roads.
ANCHORAGE: Barry Roads, 10 fathoms, safe anchorage. Large vessels should anchor West of Breaksea L.V. Small vessels ¾ of a mile S.E. of Barry Dock Entrance.
RESTRICTIONS: Entrance only before HW to 4 hours after HW.
MAX. SIZE: 575 ft. × 75 ft. × 31 ft. draft.
HEALTH: Pratique granted by Customs on arrival.
RADIO: Barry Docks Radio, Channel 22.
TUGS: Join vessel at Barry Road. Tug's or ship's lines utilized.
BERTHING: The port is fully equipped to receive all types of oil chemicals, including LPG. Also modern facilities exist for handling all types of bulk as well as conventional cargoes. A roll-on/roll-off berth is available. Container traffic is not a feature of the port.
BRIDGES: Bridge swung to vessel's requirements.
STEVEDORES: An early ETA essential. Enables planning to be effected in conjunction with other work in port.
VHF: Channel 22, frequencies 157·10–161·70.
MEDICAL: Hospital facilities available. Advance notice desirable.
TANKERS: Six tanker berths, maximum draft 31 ft.
DENSITY: Density 1020.
FRESH WATER: 15/20 tons per hour per hose.
FUEL: All grades ex stock.
GANGWAY/DECK WATCHMEN: The services of watchmen provided at discretion of Shipowner or Agent.
OPENING/CLOSING HATCHES: Work normally undertaken by ship's crew but the port will, if requested, provide a crane to assist in this work on completion of a "Hatch beam form". Riggers may be employed on this work at request of shipowner.
CUSTOMS ALLOWANCES: 1 oz. tobacco per day per man, ¼ pt. wine or spirits per day per man.
IDENTITY CARDS: Not needed by Port Authority.
CONSULS: None. Majority located at Cardiff 8 miles East of Barry.

REPAIRS: All types of repair undertaken by private ship repairers.
DRY DOCKS: One 940 ft. × 78½ ft.
REPATRIATION: All facilities available.
AIRPORT: Glamorgan (Rhoose) Airport, 4 miles, served by regular airlines.
TIME: British Standard Time, GMT plus one hour. Reverting to GMT in winter months.
HOLIDAYS: Bank Holidays. Arrangements made to work if essential.
POLICE/AMBULANCE/FIRE: Call operator by dialling 999.
TELEPHONES: At main berths.
AUTHORITY: British Transport Docks Board, Dock Office, Barry. Tel. Barry 2311 (STD 04462). Telex 49421.
AGENT: Cory Brothers Shipping Ltd., Corys' Buildings, 57 Bute Street, Cardiff, CF1 1SZ. Cables: "Cory Cardiff." Telex: 49300. Tel: Cardiff 31141.

BELFAST: 54.36 N. 05.56 W.

DOCUMENTS:
1 Passenger and Crew List for Immigration.
1 Crew Declaration C142 (for HM Customs).
1 List of Ship's Stores (for HM Customs).
1 Maritime Declaration of Health.
1 Cargo Manifest.

PILOTAGE: Pilot station is situated on end of East pier at Carrickfergus. It is manned continuously. Vessels requiring a pilot should give as much advance notice as possible of ETA, but in any case not less than 1 hour. Pilots may be ordered through:
(i) Pilot Station Carrickfergus, tel. Carrickfergus 2329.
(ii) Port Operations Station, tel. Belfast 34422 Ext. 330, or Belfast 59107.
(iii) Belfast Harbour Office, tel. Belfast 34422 Ext. 225, 0900–1700 hrs. Monday–Friday. 0900–1200 hrs. Saturday.

There are two motor launches servicing pilots. "Eleanor Laura" is 51 ft. 6 in. long and "Mabel Helen" is 46 ft 8 in. long. Both vessels are painted black with word Pilot in white letters on each side.

Pilot launches may be contacted on VHF Channel 16 and working frequency Channel 6. Listening watch is kept from 40 to 50 minutes past each hour on 2182 kc/s. MF with working frequencies of 2246 and 2301 kc/s.

Usual international signals should be made for a Pilot. Pilots board from 1½ to 2 miles South-east of Carrickfergus. In poor visibility the pilot launch makes a sound signal of 4 short blasts. Vessels may be led into calm water before boarding.

ANCHORAGES: Safe anchorages, according to draught and size of vessel are available through Belfast Lough East of a line from Carrickfergus to Grey Point.

RESTRICTIONS:
Intended depths in the entrance channels: Victoria Channel, sea to Refinery berths – 30 ft. below datum. Refinery to Thomson wharf – 26 ft. below datum.
Musgrave Channel, 21 ft. below datum.
Herdman Channel, 21 ft. below datum.

MAX. SIZE: Vessels' size is restricted only by depth of water available. See "Restrictions", "Berthing", and "Tankers".

HEALTH: Use International Code quarantine signals. Master of a ship approaching a port in Northern Ireland from a foreign port other than an excepted port must ascertain state of health of all persons on board, and must fill in and sign Declaration of Health. It should be completed and ready to deliver to the Customs Officer, or authorized officer of the Port Health Authority, whichever first boards the ship.

If any suspected diseases on board, free pratique will not be granted by Her Majesty's Customs until the ship has been visited by the Port Medical Officer. Therefore in these cases notify PORTELTH BELFAST by radio in advance.

RADIO: The best station for messages, cables, etc., is Port Patrick, call signal GPK.

TUGS: Tugs are owned by Cory Ship Towage Ltd., Tel. No. Belfast 743278. They are fitted with VHF Channels 16, 12, 8 and 6. Tugs normally meet inward bound vessels in vicinity of number 20 beacon. Use of tugs' lines is optional. Charge for use of each tug line is £1.

BERTHING: The following berths are equipped for handling containers or drive-on, drive-off traffic:

Berth	*Max. draft (feet)*
Donegall Quay 4	
(2–7½-ton portal cranes)	14
Donegall Quay 5	
(No cranes)	14
Donegall Quay 6	
(No cranes)	14
Albert Quay	
(2–25-ton derrick cranes)	18
Herdman Channel West	
(30-ton transporter crane)	18
Gotto Wharf	
(2–30-ton transporter cranes)	21
York Dock 2	
(No cranes)	24
Pollock Basin 3	
(6-ton portal crane)	21
Stormont Wharf 2	
(200-ton cantilever crane)	28
Albert Quay 6	
(30-ton crane)	18

Paktank Storage Co. Ltd. have constructed a bulk liquids terminal for the storage of petroleum, chemical products, etc. Special tankers ship liquid gas to the storage installation of Kosangas (Northern Ireland) Ltd. at Musgrave Channel.

STEVEDORES: Two schooling times per day for stevedoring gangs – 8.00 a.m. 1.00 p.m. Gangs for all week-end work are schooled at 1.00 p.m. on Fridays.

VHF: Belfast Port Operation and Information service is situated at Northwest corner of East Twin dock. A continuous watch is maintained on VHF R/T on Channel 16. Working Channel is 12. Call sign is Belfast Harbour Radio.

MEDICAL: All kinds of medical treatment are available. Agent should be given as much notice as possible for arrangements to be made. International vaccination certificates for smallpox are required.

TANKERS: Tankers have to observe (i) Belfast Harbour Commissioners By-Laws for loading, discharging, etc., of petroleum spirit. (ii) Chamber of Shipping Tanker Safety Code.

Capacity for 6,000 tons of tank washings to be processed at B.P Refinery.

Tanker berths: B.P. oil refinery 35 ft. No. 1 oil jetty 28 ft. No. 2 oil jetty 28 ft. 6 in.

DENSITY: Average density of water in Inner Harbour is about 1012, and Outer Harbour is about 1024.

FRESH WATER: Available at almost all berths. Delivery is by hose at a rate of appxoximately 35 tons per hour. Arrangements can be made through Belfast Water Commissioners (ship's water), tel. 749402.

FUEL: All grades of fuel oil are available. Forty-eight hours advance notice of requirements should be given.

FIRE PRECAUTIONS: Ships have to observe (i) Belfast Harbour Commissioners By-Laws for regulating the use of fires, lights and electrical apparatus. (ii) Chamber of Shipping Tanker Safety Code.

Special precautions for vessels carrying petroleum, explosives, calcium carbide and dangerous goods are set out in the appropriate by-laws. A copy of general port fire notice, delivered to all ships on arrival.

GANGWAY/DECK WATCHMEN: Normally, a member of ship's company acts as watchman. Shore watchmen may be obtained through Agent.

OPENING/CLOSING HATCHES: Conventional beams and hatches and slab hatches are opened and closed by stevedores. McGregor or patent steel hatches are worked by ship's personnel. Ship's personnel are required to work all types of hatches at grain silos.

CERTIFICATES:
Register. Radio Certificate. Load Line Certificate. Safety Equipment Certificate. Safety Construction Certificate. Light Bills. Passenger Certificate if applicable. Chain Register. De-rat station Certificate.

CUSTOMS ALLOWANCE: Tobacco: 8 oz. tobacco are permitted per man and issues are made at 8 day intervals. Wine and/or Spirits: Wine, beer and spirit issues are made, in moderation, at 4 day intervals.

IDENTIFICATION CARDS: Seamen's identity cards required.

CONSULS:

Belgium	Belfast	21644	Netherlands	Belfast	43126

Germany	,,	76164	Sweden	,,	29281
Greece	,,	76164	U.S.A.	,,	28239
Italy	,,	76164			

REPAIRS: All types of deck and engine repairs are possible.

DRY DOCKS: East Twin dry dock, length of floor 1,100 ft., breadth of floor 167 ft., breadth of entrance 165 ft., level of sill 26 ft. 6 in. below datum.

Harland and Wolff building dock, length of floor 1,825 ft., breadth of floor and entrance 305 ft., level of sill 16 ft. 10 in. below datum.

Five other dry docks available.

REPATRIATIONS: Crews may be changed and repatriations arranged. Immigration must be informed.

AIRPORT: Aldergrove airport is approximately 17 miles from Belfast. There are daily flights to all parts of United Kingdom.

TIME: British Standard Time is kept, that is GMT plus 1 hour. Reverting to GMT in winter months.

HOLIDAYS: Stevedore holidays are 17th March, Easter Monday and Easter Tuesday, 12th and 13th July and 25th and 26th December. Cargo can be worked on these days except 25th December, at double time rates.

POLICE/AMBULANCE/FIRE: All can be contacted by phoning 999 and ask for services required. Additionally: Fire Brigade Belfast 22222; Ambulance Belfast 41212; Harbour Police Belfast 23555; *or* through Belfast Harbour Radio on VHF/RT Channels 16 and 12.

TELEPHONE: Telephone can be placed on board at certain berths. GPO charge for connecting is £30.

SERVICES: All principal makes of radio, radar and gyro equipment can be serviced. Compass adjusting and D/F calibration can be carried out.

SHORE LEAVE: Normally no restrictions on shore leave.

AUTHORITY: Belfast Harbour Commissioners, Harbour Office, Corporation Square, Belfast, BT1 3AL. Tel. Belfast 34422. Telex 74204.

BLYTH, Northumberland: 55.08 N. 01.30 W

DOCUMENTS:
Certificate of Registry.
Load Line Certificate.
Wireless Telegraphy and/or Safety Radio Certificate.
Safety Equipment.
Ship Construction.
Light Dues Payments.
Bills of Lading, Manifest and Stowage Plan usually sent in advance of vessel.
List of members of crew (of ship arriving in U.K.) who are aliens or were engaged outside U.K. (Home Office Form I.B.6A). Passenger form to be completed when reporting vessel's arrival from foreign ports.

PILOTAGE: Call by R/T when within 50 miles of port, and VHF when approx. one hour off port. Pilot boats black hull with words "Pilot" on Hull or Superstructure. Letters in white. Fly international Pilot Flag at masthead and at night show international light signals for pilot boat on station.

Vessel requiring Pilot sounds two short and three long blasts or exhibits international Code Flag "G". By night flashes international Code Signal "G" or "PT". Pilot boats operate and will board within radius of two miles of East Pier Lighthouse, or further weather permitting. Pilots board at Pier end area during adverse weather.

ANCHORAGES: No anchorages within harbour – in good weather vessels can anchor off port east of Fairway Buoy.

RESTRICTIONS: No night restrictions. Entry according to draft. Channel dredged to 27 ft. MLWST and approaches 30 ft. MLWST. Upper River and South Harbour 24 ft. MLWS. Rise of tide 14 ft springs, 7 ft. neaps.

MAX. SIZE: Bulk carriers up to 22,500 dwt. discharge at Alcan (U.K.) Limited Terminal. Max. draft 32 ft.

For other berths max. length 625 ft., draft 28 ft.

HEALTH: International quarantine signals to be used. Pratique will be granted by Customs or Port Health officer if Maritime Health Declaration is clean. If suspected diseases on board radio "PORTELTH BLYTH" in advance advising details.

RADIO: Cullercoats Radio.

VHF: Details of movements within port given over VHF from port control office. Calling Chanel 16, working Channel 12.

TUGS: Normally join vessel at harbour entrance. Extra charge for use of tugs lines.

BERTHING: Alcan Bulk Alumina Terminal, depth alongside 36 ft. MLWST.

North Quay, South Harbour, depth alongside 24 ft. MLWST. Coal-loading berths and waiting berths, 19 ft. to 30 ft. MLWS. West Quay, dredged depth 19 ft. MLWS. South Side Berths, dredged depth 30 ft. MLWS. Wimbourne Quay dredged depth 24 ft. MLWS.

STEVEDORES: Blyth Harbour Commission, Traffic Department. South Harbour, Blyth. Tel. Blyth 3611/2. ETA requested day before arrival.

MEDICAL: Notice not necessary but advisable. Hospital facilities available. Inoculation, vaccinations and/or certificates not specifically required.

DENSITY: Sea water. Fresh water effect negligible.

FRESH WATER: Obtainable from shore hydrants. Rate of delivery approximately 20 tons per hour.

FUEL: BHC operate a bunkering Agency on behalf of Shell Mex & B.P. Ltd. 24 hours notice usually required. Grades gas oil and marine diesel.

GANGWAY/DECK WATCHMEN: Not usually employed as these duties are carried out by the crews.

OPENING/CLOSING HATCHES: Normally carried out by crew

CUSTOMS ALLOWANCES: Tobacco: 50/250 grammes. Wine/Spirit: Wine up to 0·75 litres. Spirits up to 0·375 litres.

IDENTIFICATION CARDS: Seaman's book or Passport desirable.

CONSULS: Denmark, Norway, Netherlands.

REPAIRS: All types of deck and engine repairs possible.

DRY DOCKS: Three dry docks available No. 1 L 467 ft. 10 in. × B 60 ft. 9 in., No. 2 L 338 ft. 9 in. × B 44 ft. 10 in. No. 3 L 311 ft. × B 46 ft

REPATRIATION: Can be arranged by H.M. Immigration Office, Blyth.

AIRPORT: 15 miles. Served by regular airlines.

TIME: BST is GMT plus one hour. GMT in winter months.

HOLIDAYS: Christmas Day; New Year's Day; Good Friday; Easter Monday; Spring Bank Holiday and Late Summer Holiday. Cargo work can be arranged on these days by request.

POLICE/AMBULANCE/FIRE: Tel. 999.

TELEPHONES: Can be fixed aboard by arrangement.

AUTHORITY: Blyth Harbour Commission, 79 Bridge Street, Blyth. Tel. Blyth 2066. Telex 536567.

BRIDLINGTON: 54.05 N. 00.12 W.

DOCUMENTS:
Crew List.
Passengers List.
Ship's Register.
Customs Documents.
Manifests.
Bills of Lading.
Ship's papers.

PILOTAGE: Vessels approach within ¼ mile, flying G Flag. Local fishermen act as Pilots and board approximately 1 hour prior to berthing time.

ANCHORAGES: For small vessels of not more than 12 ft. draft, 1 mile South-east of harbour. Deeper-drafted vessels 3 miles East of Harbour. Good holding grounds except in heavy weather from East to South.

RESTRICTIONS: In accordance with state of tide and draft restrictions.

MAX. SIZE: Maximum permissible length 149 ft. Draft 13 ft. on spring tides.

HEALTH: Pratique required from all vessels other than from a British port. Q Flag to be flown.

RADIO: Humber Radio Station is the best for a vessel to route ETA, etc.

TUGS: None available.

MEDICAL: Agents require advance notice of required medical attention. Hospital facilities available. Relevant medical information, i.e. fever, etc., required.

DENSITY: Sea water.

FRESH WATER: Unlimited quantity available. Delivery from shore pipe-line at the rate of 10 ton per hour.

FUEL: All grades available. Delivery by road tankers.

OPENING/CLOSING HATCHES: Normally carried out by crew.

IDENTIFICATION CARDS: Not required.

CONSULS: No local Consuls. Nearest port of availability, Hull, Yorks.

REPAIRS: Limited engine and deck repairs.

REPATRIATION: No facilities exist for crew change.

AIRPORT: Yeadon, 45 miles, served by regular airlines.

HOLIDAYS: Normal Bank Holidays cargo can be worked on these days.

POLICE/AMBULANCE/FIRE: Police Bridlington 2222; Ambulance 2421; Fire 3585.

TELEPHONES: No arrangements exist for placing telephones aboard.

SHORE LEAVE: Crew members allowed ashore.

AUTHORITY: Bridlington Harbour Master: Harbour Commissioners. Tel. 3022. Telex 537567.

BRISTOL: 51.27 N. 02.35 W.

DOCUMENTS:
1 Maritime Declaration of Health.
1 Crew's Effects List.
2 Ship's Report by Master.
1 Home Office form I.B.6.
1 Stores List.
1 Certificate of Deck Cargo tonnage.
1 Grain Certificate.
1 Light Certificate.
1 Port Dues Certificate.
1 Passenger List.
1 Landing Card for each passenger.
Ship's Certificate of Registry.
Mercantile Marine Office Certificate (British ships only).
In addition, Manifests and Bills of Lading are usually sent to Agent direct from loading port.

PILOTAGE: Telegraphic address, Brispilot Avonmouth. Notice required, not less than 12 hours (preferably more) before arrival Breaksea Light Vessel. VHF Channel, calling 16, working 6. A 58 ft. motor pilot boat, black hull, "Bristol Pilot" in large white letters amidships.

Position: Two pilotage stations. Western station at Breaksea extends from a line drawn 180° from Sully Island. Weather and other circumstances permitting the motor pilot boat operates from Barry Harbour to board vessels expected to dock at Bristol. Eastern station at Avonmouth or in King Road. A motor pilot boat operates from Avonmouth from 3 hours before until 3 hours after high water, for boarding and landing pilots Eastward of Walton Bay. This pilot boat also equipped with VHF and radio-telephone.

Pilot boats in Bristol Channel have adopted distinctive pilot signals, made audibly during foggy weather when the fog signal for a vessel is heard, and by morse lamp at night in clear weather. The distinctive signal for Bristol pilots is the International Morse Code Numeral 2, viz · · – – – Vessels desiring to embark or disembark a pilot are invited to adopt a similar procedure.

ANCHORAGES: Barry Road affords good anchorage in moderate weather for vessels awaiting a Pilot. Walton Bay affords good anchorage within 6 miles of Avonmouth.

RESTRICTIONS: Avonmouth Docks. No restrictions at night. Sill clearance of 4 ft. for all vessels with a maximum draft of 34 ft. 6 in. salt water. There are restrictions on draft during neap tides to possible 28 ft. Range of high water – 33 ft. to 48 ft.

Portishead Docks. Sill clearance of 5 ft. for vessels up to 55 ft. beam. Sill clearance of 6 ft. for vessels up to 60 ft. beam.

MAX. SIZE: Avonmouth Docks. Maximum length 690 ft., beam 95 ft., draft 34 ft. 6 in. salt water.

Portishead Docks. Maximum length 415 ft., beam 60 ft., draft 26 ft. (normal tides).

HEALTH: Foreign arrivals to complete Maritime Declaration of Health. They are cleared immediately on arrival by either the Port Doctor or an officer of HM Customs depending on where the ship comes from and whether there is sickness on board.

Vessels arriving from ports within accepted area and coastal

arrivals need not present Declaration, but when there is sickness on board Port Health Authority must be informed.
RADAR/VHF: No port radar service, but an extensive VHF coverage exists from West of Barry Roads, to all dock entrances.
RADIO: Niton Radio, Lands End Radio, Portishead Radio.
TUGS: Vessels docking on flood tide normally join at old oil jetty to Northward of the entrance lock. Vessels docking on ebb tide, tugs join between Firefly and Cockburn Buoys. Ship's line always used.
BRIDGES: Avonmouth Docks. Junction between Avonmouth Dock and Royal Edward available at all times if necessary by arrangement with Dock Master.
STEVEDORES: At least 24 hours notice required in order that necessary labour may be allocated.
MEDICAL: Absolutely necessary for Agent to have as much notice as possible of any medical attention required. All facilities available.
DENSITY: Avonmouth Docks: Average density 1,012 to 1,015; in the river fluctuates according to tides. Portishead Docks: The density is 1,015.
FRESH WATER: Avonmouth and Portishead Docks: available at all berths, 24 hours a day from hoses connected to standpipe. Delivery rate 25–30 tons per hour.
FUEL: Most grades available – 24 hours notice required.
FIRE PRECAUTIONS: According to local laws, available on request.
DEVELOPMENTS: A new 70-acre dock, West Dock II, is under construction on land directly opposite Avonmouth Docks. The new dock will have a lock 1,200 ft.×140 ft. wide, a turning circle for ships of 1,400 ft. with 45 ft. of water along the three×2,000 ft. of developed quays. Ships of up to 70,000 tons dwt. will be accommodated. The dock should be operational in 1975.

At the Oil Basin, a bulk liquid storage installation for petroleum, molasses and chemicals is also under construction. Two major development schemes now operational are the Ocean Container Terminal at "T" berth, equipped with a 30-ton capacity gantry container crane, and the reconstructed and modernised grain discharging berths at the Royal Edward Dock.
GANGWAY/DECK WATCHMEN: Not absolutely necessary – Available if required.
OPENING/CLOSING HATCHES: If crew open hatches on the first day then they must continue to do so whilst vessel is discharging/loading, otherwise dockers attend to this.
CERTIFICATES:
Load Line Certificate.
Safety Equipment Certificate.
Lloyd's Construction Certificate.
Derat Certificate.
Ship's Register.
Light Bills.
Safety Radio Certificate.
CUSTOMS ALLOWANCE: Tobacco: Home trade – equivalent of ¼ lb. tobacco. Foreign trade – equivalent of ½ lb. tobacco. Wine and/or Spirits: Officer – equivalent of 1 quart of wine per day. Crew – equivalent of 1 bottle of wine in 4 days.
IDENTIFICATION CARDS: Not necessary unless being repatriated.
CONSULS:
Belgian Consul
Danish Consul
Frensh Consular Agent
Finnish Vice Consul
German Consul
Icelandic Consul
Italian Consular Agent
Netherlands Vice Consul
Norwegian Vice Consul
Portuguese Vice Consul
Spanish Vice Consul
Swedish Vice Consul
REPAIRS: All types of repairs are carried out.
DRY DOCK:

	Total length	*Length over blocks*	*Width of Entrance*	*Depth of water on sill*
Avonmouth Docks	875 ft.	850 ft.	100 ft.	32 ft.

REPATRIATION: Repatriation can be effected to all parts of world.
AIRPORT: Local airport approximately 12 miles away. London can be reached in 2 hours by train.
TIME: BST is GMT plus 1 hour. GMT in winter months.
HOLIDAYS: Easter (varies); Spring Bank Holiday (last Monday in May); August Bank Holiday (varies, usually last Monday in August); Christmas Day (25th December); Boxing Day (26th December). Work can be arranged on these holidays, although unusual to work 25th/26th December.
POLICE/AMBULANCE/FIRE: Avonmouth Docks. A fire pillar system is installed giving direct contact to Authority's police for all emergency services. Can also be contacted by telephoning Avonmouth 2591.

Portishead Docks. Emergency services obtained through Authority's Police, tel. Portishead 2381.
TELEPHONES: Can be put on board at most berths.
AUTHORITY: Port of Bristol Authority, Queen's Square, Bristol. Tel. Bristol 25381, Avonmouth 3681, Portishead 8601.

AGENT: Cory Brothers Shipping Ltd., Portview Road, Avonmouth, Bristol, BS11 9YX. Cables: "Cory Bristol". Tel. Avonmouth 5081. Telex 44129.

BRIXHAM: 50.24 N. 03.30 W.

DOCUMENTS: See "London".
PILOTAGE: Trinity House Pilot, tel. Brixham 2214.
DEEP SEA AND COASTAL PILOTAGE: Pilots for Channel, North Sea, British Coast and Baltic. 48 hours before arrival radio "HUTCHINSON GRAVESEND" stating ETA off Brixham and port(s) of destination. On approaching Brixham contact Brixham Pilots on VHF Channel 16. Pilots board by motor-launch 1 mile N.E. of Berry Head. Pilots can also board at any British or Continental port as required.
ANCHORAGES: At Torbay in deep water.
MAX. SIZE: Inner harbour; length, 231 ft. At jetty; 400 to 500 ft.; draft 24 ft.
RADIO: Berryhead Coastguard, tel. Brixham 2156.
TUGS: None. In emergency may use fishing boats.
BERTHS: Jetty any time. Inner Harbour with arrangement with Harbour Master, tel. 3321.
MEDICAL: MOH advises.
DENSITY: Salt water. 1025.
FRESH WATER: Available.
FUEL: Available at jetty.
REPAIRS: Engine welding, plumbing by local firms.
REPATRIATION: No facilities.
AIRPORT: Exeter, 35 miles away.
POLICE/AMBULANCE/FIRE: Brixham 2231 or 3065 or 999.
SERVICES: No tank cleaning. Compass adjusting with arrangement with Harbour Master.
SHORE LEAVE: Allowed.
AUTHORITY: Harbour's Administrator, T.C.B. Council, Town Hall, Brixham, tel. Brixham 2828.

CARDIFF: 51.29 N. 03.10 W.

PORT LIMITS: A vessel is considered as "arrived" when it is in the lock.
DOCUMENTS:
1 Crew List.
1 Health Form.
1 Port Immigration, i.e. Crew List, and where applicable, a passenger list.
Pratique issued by Customs.
1 List of Consumable Stores (tobacco, snuff, alcohol, etc.).
3 Bills of Lading (one original and two copies).
PILOTAGE: Channel pilotage and dock pilotage not compulsory except for vessels carrying passengers. Pilots embark from pilot cutters operating from Barry Harbour.

Pilot Cutters are marked on each side "Cardiff Pilots" and operate radio continuous watch on 2182 kc with working frequency of 2246 kc and 2301. Signal for pilot cutter – numeral 7 on whistle or siren. Telegraphic address Carpil Barry. Minimum of 24 hours notice required of ETA.
ANCHORAGE: Barry Roads: afford good anchorages in moderate weather in depths from 5 to 6 fathoms (9·1 to 11 metres) about ½ mile South-west of the entrance to Barry Docks. Clay bottom.
RESTRICTIONS: Entry to docks restricted to a period of 4 hours before and 3 hours after high tide, according to size and draft of vessel.

Entrance lock 850 ft. length, 90 ft. wide.
MAX. SIZE:
Queen Alexandra Dock. LOA 660 ft., beam 86 ft., max. draft 33 ft.
Roath Dock. LOA 650 ft., beam 84 ft., max. draft 32 ft.

Vessels near maximum dimensions may be accepted on certain tides after consultation with the Dock Master.
HEALTH: Maritime Declaration of Health to be made to Port Authority or Customs Officer, whoever boards ship first. In event of contagious fever on board, Port Health Authority must be advised by radio before arrival. No pratique necessary if vessel is entering port from another port in U.K.
RADIO: Ilfracombe Radio and Portishead Radio.
VHF: A port operation VHF service maintained at dock entrance during tidal hours. Call sign "Cardiff Radio" calling on Channel 16 and operating on Channel 14.
TUGS: Tugs normally join vessel ½ mile to seaward of OuterWrach Channel Buoy, and arrangements for attendance of tugs should be made through ship's Agent.
BERTHING: Arranged through Dockmaster, and berths within docks are flat quays. Rise and fall usually varies between 3 and 4 ft.
SPECIALISED CARGO HANDLING FACILITIES:

Grain: Spillers berth, 2 Suction Plants. Average discharge 900 tons per day (450 tons per 8 hours per gang).

Iron and Non-ferrous Ores: Dowlais Wharf (British Steel Corporation). 5 kangaroo cranes. Average discharge 10,000 tons per day (2,500 tons per 8 hours per gang).

Coal (Imports): Pontoon berth, Roath Dock. Self-discharging vessels. Average discharge 4,000–5,000 tons per day (2,000–2,500 tons per 8 hours per gang).

Crushed Bones: Bone Suction Plant, Roath Dock. Average discharge 300–400 tons per day (150–200 tons per 8 hours per gang).

Petroleum Products: 5 Petroleum berths (2 in Roath Dock; 2 in Queen Alexandra Dock and 1 in Penarth Harbour). Average discharge approximately 448 M^3 per hour.

There are no specialised berths equipped for containers, roll-on/roll-off traffic, liquid chemicals, LPG carriers, fertilisers, sulphur, etc.
BRIDGES: Bridges throughout the port can be operated at any time.

STEVEDORES: Arrangements for employment of stevedores undertaken by Docks Board through ship's Agent.
MEDICAL: All facilities available. Agents should be advised in advance if medical services required.
TANKERS: Three tanker berths available, one in Queen Alexandra Dock, two in Roath Dock where there is also a tanker-cleaning berth. Special instructions are issued to Master on arrival at port.
Penarth. One berth, 500 ft. long.
DENSITY: Full salt water.
FRESH WATER: Available 24 hours daily from quayside, delivery 20 tons per hour maximum.
FUEL: Fuel of all grades available.
FIRE PRECAUTIONS: For tankers, strict fire precautions required in accordance with latest safety procedures.
Emergency Action – Fire: In the event of an outbreak of fire (no matter how small) immediately dial 999 on the ship-to-shore telephone. When the operator answers, say "Fire", and wait until you are connected to the Fire Station Control. Then repeat: "Fire at the Petroleum Berth, Roath Dock". In event of the ship-to-shore telephone being inaccessible or out of order, use GPO call box situated on dockside road to stern of the vessel.
GANGWAY/DECK WATCHMEN: Performed by ship's crew and necessary for tankers.
OPENING/CLOSING HATCHES: Carried out by ship's crew.
CUSTOMS ALLOWANCE: Tobacco, 1 oz. per day per man, maximum 8 days. Wine/Spirits, $\frac{1}{4}$ pint spirits per man per day every 4 days.
IDENTIFICATION CARDS: Not needed.
CONSULS: Ships should contact Agent.
REPAIRS: All types of repairs possible.
DRY DOCKS: Dimension of largest dry dock 635 ft. × 75 ft. Dimension of smallest dry dock 600 ft. × 71½ ft.
REPATRIATION: Facilities exist to exchange crews and repatriate to any part of world.
AIRPORT: Airport 8 miles from Cardiff, serving other airports to all parts of world.
TIME: Local time is British Standard Time, GMT plus 1 hour. GMT in winter months.
HOLIDAYS: Good Friday; Easter Monday; Whit Monday (Spring Holiday); August (Summer Holiday) one day; Christmas Day; Boxing Day.
POLICE/AMBULANCE/FIRE: Dial 999 on public telephone service and ask for service required.
TELEPHONES: Ship/Shore telephone supplied at certain berths – service organized through ship's agent.
GENERAL: Cardiff is a port which has very big range of tides and important that accurate ETA's and maximum drafts supplied by ship's Master in order that Agent may place orders for tugs and Pilots in sufficient time to be in attendance when required
AUTHORITY: British Transport Docks Board, Cardiff Docks. Tel. 42544, extension 8410. Telex, 49542.

AGENT: Lambert Brothers (Shipping) Ltd. The Exchange, Cardiff. Tel. 25201. Telex: 49348. Cables: "Lambert Cardiff".

COWES: (including Newport, Isle of Wight): 50.46 N. 01.18 W.

DOCUMENTS: As for "Portsmouth".
PILOTAGE: See Southampton entry for sea pilotage. As Cowes is within the Isle of Wight Pilotage District, a Sea Pilot must be employed by all vessels subject to compulsory pilotage. Trinity House Cowes Pilots conduct vessels between the anchorage area and berths in Cowes Harbour and Newport, 5 miles further up the River Medina. Pilots board from launches *Thosbro* or *Tantalus*, which are equipped with VHF, Channels 16, 12, 9 and 6. A Pilot can always be obtained by making a link-call to Cowes 3812 (24 hours service).
ANCHORAGES: Vessels waiting to proceed to Cowes or Newport should anchor within the area bounded by Old Castle Point, "Prince Consort" light-buoy and the harbour entrance light-buoy. The prohibited anchorage on either side of the leading line must be respected, and vessels must not obstruct the fairway into Cowes, nor the deep water channel used by large vessels bound for Southampton. The mooring buoys are reserved for hovercraft and the Trinity House lighthouse tender. Mooring chains run East and West for 500 ft. from each of these mooring buoys. Tidal streams in the anchorage are strong. Cowes is an international yachting centre, and the anchorage is often crowded with small craft, especially during July, August and September.
Cowes Roads anchorage, North of the deep water channel, is used by large vessels waiting to berth in Southampton Water, taking bunkers or changing crews.
MAX. SIZE: Cowes – 300 ft. long, 17 ft. draft at high water springs. Vessels must expect to take the bottom in soft mud at low water. Newport – 150 ft. long, 8 ft. draft. Newport Harbour practically dries out at low water.
RESTRICTIONS: Tankers may load and discharge at all times, subject to the Petroleum Acts.
A channel marked by small orange buoys is reserved for the use of hovercraft. Other vessels using the area should do so with caution.
Overhead cables at Kingston; 115 ft. above MHWS.
FLOATING BRIDGE: A chain ferry plies between East and West Cowes. An all-round amber light is shown from the leading end of the bridge when under way. Approaching vessels should sound one prolonged blast on the whistle when not less than ½ mile away. The bridge gives way to all river traffic. The chains of the ferry are at least 2 ft. above the river bottom in mid-channel at all times.
HEALTH: See "Portsmouth".
RADIO: See "Southampton" entry for Sea Pilot communications. See 'Pilotage' entry for local communications.
Southampton Port Radio, the port operations and radar station for the port of Southampton, will often help out in cases of difficulty, although there is no obligation for them to do so and they accept no responsibility. Southampton Port Radio VHF Channels 16, 14, 12, 11, 10, 18, 20 and 22. Medium frequency through Nitonradio.
TUGS: Tow-boat launches are available to assist vessels.
BERTHING: *Shepards Wharf.* Vessels up to 150 ft. length, bulk cargoes of stone, grain, bagged fertilisers.
Medina Wharf. Vessels 17 ft., spring draft, length 270 ft. OAL. Loading and unloading bulk cargoes of stone, coal, fertilisers, grain, etc.
Kingston Wharf. As for Medina Wharf, above.
STEVEDORES: By arrangement with Agent and wharf owners. Normal working hours: 0800–1700 Monday to Friday. Overtime on Saturdays, etc., by arrangement. No work on public holidays.
MEDICAL: All medical facilities are available. Agent should be given advance notice of requirements. If call is solely to land sick personnel, see "Southampton" entry.
DENSITY: Cowes – 1025 salt water.
Newport – varies according to amount of recent rainfall and state of tide.
FRESH WATER: Available on all commercial wharves.
FUEL AND DIESEL OIL: Available by arrangement with Agent.
CRANAGE: Hammerhead crane at J. S. Whites, 50 tons. Shepards Wharf: mobile cranes, 1½ tons. Medina Wharf: 2 grabbing cranes of 4½ tons for bulk cargoes.
HATCHES: Opened and closed by ship's crew.
REPAIRS: All hull and engine repairs undertaken to vessels capable of Cowes entry. Graving dock for ships up to 200 ft. in length and 14 ft. draft.
SERVICES: Compass adjuster, radar and radio mechanics available from Southampton. Charts and general stores available locally.
OIL POLLUTION: Cowes and the Solent are world-famous yachting centres. Pollution is dealt with severely.
AUTHORITY: Cowes Harbour Commissioners. Harbour Master: Tel. Cowes 3952.

DARTMOUTH: 50.21 N. 03.34 W.

PORT LIMITS: A line from Inner Froward Point to Combe Point.
DOCUMENTS: Normal documents for U.K. ports.
PILOTAGE: No direct radio contact with Pilots. To obtain services of a Pilot, Master must advise his Agent by cable, giving ETA and draft. Pilots can be available at short notice but Agents only operate normal office hours. In emergency Harbour Master may be contacted by telephone at any time. Anchorage when awaiting Pilot: 5 cables E.S.E. Castle Ledge buoy in 12 fathoms.
ANCHORAGE: Vessels can anchor in 5 fathoms, 7 cables 150(T) from Kingswear Lighthouse. Or in a position as above, for Pilot.
RESTRICTIONS: Vessels up to 27 ft. draft can enter at any time.
MAX. SIZE: Maximum length 600 ft., maximum draft 27 ft.
HEALTH: Pratique granted by Customs on arrival.
RADIO: Route cables, etc., through Niton or Lands End Radio Stations.
TUGS: Tugs are not normally available.
BERTHING: All berthing on midstream buoys.
MEDICAL: All medical services are available; if possible give notice of requirement.
DENSITY: Normally salt. 1025.
FRESH WATER: Available only for small vessels.
FUEL: Not available.
GANGWAY/DECK WATCHMEN: It is advisable to have watchmen.
REPAIRS: All repairs unless of a major or underwater type can be carried out.
REPATRIATION: Facilities exist.
AIRPORT: 35 miles from Exeter airport. Internal and short range Continental flights.
TELEPHONES: Not normally available, except for HM ships.
GENERAL: Dartmouth does not now operate as a commercial port except for small vessels up to about 800 tons deadweight en route to Totnes, although the harbour is suitable for ships of 10,000 tons deadweight, and mooring buoys are available for such vessels.
AUTHORITY: Dartmouth Harbour Commission, Lloyds Bank Chambers, Dartmouth. Tel. Dartmouth 2337.

DOVER: 51.07 N. 01.18 E.

DOCUMENTS: Required on arrival:
Declaration of Health (one copy) for H.M. Waterguard.
Crew List H.O. Form I.B.6. for H.M. Immigration.
Crew Declaration Form C.142 for H.M. Waterguard.
Deratisation Certificate.
It is required to report and clear a vessel at Customs House if remaining in port more than 24 hours. or loading and discharging cargo or embarking and disembarking passengers, with following:

Passenger List. Cargo Manifests. Ship's documents.

PILOTAGE: Requests for Pilot normally made by local Agent.

Vessels from Westward obtain Pilot from cutter stationed off Folkestone.

Vessels from Eastward obtain Pilot from position approx. 1 mile South East of Dover Harbour Eastern Arm Head.

Vessels approaching Dover Harbour Entrances should do so with caution in accordance with instructions from Port Control. Masters are warned of the high frequency of cross channel vessels and hovercraft entering and leaving by both entrances.

Port Control: Signal Station situated at end of Eastern arm operates VHF Channels 6, 12 and 16. Motor launches serving Pilots are also fitted with VHF Channels 6, 12 and 16.

DEEP SEA AND COASTAL PILOTS: For Channel, North Sea, British Coast and Baltic.

Contact agency 36 hours before arrival by radio, giving ETA Dover and destination port(s).

Agencies are: "Hutchinson Gravesend" and "Hammond Dover".

On approaching Dover contact Port Control by VHF for instructions and: For "Hutchinson" Pilot – hoist, flash or sound No 1. For "Hammond" Pilot – hoist, flash or sound "B".

Pilots will also board at any UK or continental port as required.

ANCHORAGE: Limited space available in Outer Harbour. Contact Port Control in advance for instructions.

RESTRICTIONS: Attention is drawn to the strict requirement of obtaining permission to enter or leave the harbour. It will be noted that although the traffic control signal may be exhibited for entry/departure, every vessel manoeuvring to enter or leave the port is required to obtain specific permission to enter or leave, as the case may be.

Vessels awaiting permission to proceed should keep at a safe distance and clear of the entrance until so authorised. Responsibility for entering or leaving with caution and the safe navigation of each vessel subsequent to the receipt of permission to proceed continues to remain the responsibility of the Master.

Explosives – dangerous cargo: Declaration to be made and permission obtained prior to entering the harbour. Board not compellable to receive within the harbour any articles which in their opinion would endanger safety of harbour or vessels or goods.

HEALTH: Vessels arriving in Dover Outer Harbour are boarded by Water guard who grant pratique on arrival. Coastwise vessels from U.K. ports have automatic pratique.

RADIO: Vessels from East use North Foreland Radio call sign GNF and vessels from Westward use Niton Radio call sign GNI.

RADAR/VHF: Port Control is fitted with radar and VHF, and Masters can make initial contact with Port Control VHF Channels 12, 6, and 16.

TUGS: Tugs normally join vessels inside Dover harbour, but meet vessels outside by arrangement. Tug's ropes normally used at a charge of £1. per rope.

BERTHING: All berths in Outer Harbour can be reached at all times. Those in dock can be reached 2 hours before until 1 hour after each high water. All berthing requirements are allocated by Port Control.

CARGO-HANDLING FACILITIES: Four berths equipped for handling roll-on/roll-off traffic. Additional berth under construction.

STEVEDORES: No particular ETA required as ship's Agent makes all necessary arrangements. *Packaged Goods.* Approximately 25 tons per gang per hour average discharging rate.

MEDICAL: Medical assistance can be arranged by Agent to vessels passing Dover Harbour. Doctor will board a vessel in English Channel or on arrival at anchorage in Outer Harbour. Hospital facilities are available.

DENSITY: 1016.

FRESH WATER: Available to all vessels by pipe-line 20 tons per hour.

FUEL: Gas oil, marine diesel available from Shell Mex & B.P. Ltd., and Esso. 12 hours notice required.

GANGWAY/DECK WATCHMEN: Supplied on request.

OPENING/CLOSING HATCHES: By crew.

CETIFICATES: Certificates to be obtained for foreign clearance, Load Line, Safety, Radio and Passenger.

CONSULS:

Belgium	Dover	800	Netherlands	Dover	1201
Denmark	,,	1201	Norway	,,	1201
Finland	,,	1201	Portugal	,,	1201
France	Folkstone	52561	Spain	,,	1201
Germany	Dover	1201	Sweden	,,	207
Italy	Folkstone	53962			

REPAIRS: Minor temporary repairs can be effected.

REPATRIATION: All facilities exist.

AIRPORT: Most repatriations by air through London Airport.

TIME: Local time BST one hour in advance of GMT. Reverting to GMT in winter months.

HOLIDAYS: Official holidays: Good Friday; Easter Monday; Spring Holiday (end May); August Bank Holiday; Christmas Day; Boxing Day.

POLICE/AMBULANCE/FIRE: Dover 999.

TELEPHONES: Not available.

SERVICES: Repairs to radar equipment, compass adjusting, supply of charts and crew changes can be arranged outside Dover Harbour in the English Channel at all times.

SHORE LEAVE: Yes, allowed.

AUTHORITY: Dover Harbour Board, Harbour House, Dover. Tel. 2381.

AGENT: George Hammond & Co (Shipping) Limited, 134–135 Snargate Street, Dover. Telex 96213. Cables: "Hammond Dover".

DUNDEE: 56.28 N. 02.57 W.

DOCUMENTS:

3 Crew Lists.
3 Passenger Lists.
1 Tobacco Manifest.
1 Health Declaration.
Cargo Manifests.
Bills of Lading.
Derat.
Lights Certificate.

PILOTAGE/VHF: Port Control Service, call sign "Dundee Harbour Radio", maintains a 24 hour listening watch on VHF Channel 16 (156·8 mc/s and also operates on Channels 12 and 11 156·6 mc/s and 156·5 mc/s).

Pilotage is compulsory in Dundee Pilotage District. Pilots board incoming vessels within a 3-mile radius seaward of Tay Fairway Buoy or as close to as weather permits. The pilot boat is only on sea station when shipping is expected and accurate ETAs are essential.

ETA should be given 6 hours before arrival either by radiotelephone link call to Dundee Port Control 24121 or by radiotelegram to "Port Control" Dundee. Amendments may be made up to 2 hours before the original ETA. When within VHF range (approximately 25 miles from Tay Fairway Buoy) ETAs may be confirmed by contacting "Dundee Port Control" on Channel 16 and transferring to Channel 12 to pass messages.

Pilot boats, when on station, keep a listening watch on Channel 16 and transfer to Channel 6 (156·3 mc/s) to pass messages.

ANCHORAGES: Pilots are instructed where to anchor vessels. There are three deep-water anchorages to accommodate vessels up to 28 ft. draught. Two to accommodate vessels up to 22 ft. draught, and other minor anchorages.

RESTRICTIONS: Tide and draught 28 ft. at MHWS. Vessels enter 2 hours before HW. 24 ft. at MHWN. Vessels enter 2 hours before HW.

MAX. SIZE: Length 600/700 ft., beam 80/85 ft., draught 28 ft.

HEALTH: Health declaration on arrival – if clean, automatic pratique. Suspect disease as per international requirements. Pratique automatic if already called at another port.

RADIO: Any UK coast station. Nearest stations – Stonehaven and Cullercoats.

TUGS: Tugs join vessel in vicinity of West Ferry. Tug lines optional, charge made if tugs line used.

BERTHING: Deep-drafted vessels must arrive fairway buoy at least two hours before HW to berth on same tide.

King George V Wharf: grabbing cranes (fertilisers, coal). General cargo and tanker berths. 28 ft. MLWS.

Eastern Wharf: roll-on/roll-off berth – construction commences this year. General cargo. 20 ft. MLWS.

Camperdown Dock/Victoria Dock: general cargo, live cattle quarantine station. 16 ft. draft.

No container or liquid chemical facilities.

STEVEDORES: One ETA to Agent or port suffices for all services.

MEDICAL: If vessel arrives from a suspect port (e.g. India/Pakistan) doctor will board and request smallpox certificates. Advance notice required for ordinary medication for arrivals week-ends. Hospitals and casualty stations available.

TANKERS: Diameter of hoses – 8 in. Slop discharge facilities not available. Two tanker berths – 28 ft. draft. Discharge only.

DENSITY: 1005 oz. at MLWS. 1002 oz. at MHWS.

FRESH WATER: Available, 24 hour service. Delivery, Hose from quays. Rate, 40 tons per hour.

FUEL: Small quantities gas oil by road tanker. Large quantities any type by coastal tanker, subject 3 or 4 days notice.

FIRE PRECAUTIONS: Regulations are handed to Master on arrival.

GANGWAY/DECK WATCHMEN: Recommended for large vessels.

OPENING/CLOSING HATCHES: Stevedores will give weather cover only.

CERTIFICATES: As required by Board of Trade (Lifesaving, Radio, Registry, Medicines, Crew Agreement, Load Line) also derat.

CUSTOMS ALLOWANCE: Foreign-going, 25 cigs. or 1 oz. tobacco per day. 8 days allowance granted. Home trade, same as for foreign-going but only 4 days allowance granted. Spirits, ¼ pint per day for 4 days, further issue granted after 4 days for foreign-going only.

IDENTIFICATION CARDS: Not required.

CONSULS:

REPAIRS: Engine and deck repairs by Robb/Caledon Shipyard.

DRY DOCK: Dry dock available for vessels of up to 500 ft. length, 46 ft. beam, draft 13 ft. 6 in. springs.

REPATRIATIONS: Yes, facilities exist.

AIRPORT: Only U.K. flights available.

TIME: British Standard Time (GMT plus 1 hour). GMT in winter months.

HOLIDAYS: 1st and 2nd January; 2nd Monday April; Last Monday July; 1st Monday October; Christmas Day. Cargo can be arranged for all days except Christmas Day.

POLICE/AMBULANCE/FIRE: Tel. 999.
TELEPHONES: Quay telephones installed.
AUTHORITY: Dundee Harbour Trust, Dock Street, Dundee. Tel. 24121.

FALMOUTH: 50.09 N. 05.04 W.

DOCUMENTS:
1 Maritime Declaration of Health.
1 Crew's Effects List.
2 Ship's Report by Master, or Authority X S 4.
1 Home Office Form 1B6.
1 Stores List.
1 Certificate of Deck Cargo Tonnage.
1 Light Certificate.
1 Port Dues Certificate.
Ship's Certificate of Registry.
Mercantile Marine Office Certificate – for British ships Only.
Load-line Certificate.
Safety Equipment and Construction Certificates.
Lloyds Certificate.
De-rat Certificate.
Ship's Register.
Light Bills.

PILOTAGE: This is a compulsory pilotage district. The Pilot will board from a cutter which cruises 2 miles South of St. Anthony's Lighthouse. In poor visibility a ship requiring a Pilot uses the distinguishing signal of "G" to which Pilot Cutter will reply with "5". Pilots operate R/T on Channel 16.

HEALTH: Foreign arrivals to complete Maritime Declaration of Health. They are cleared immediately on arrival by either a port doctor or an officer of H.M. Customs depending on where the ship comes from and whether there is sickness on board.

Vessels arriving from ports within accepted area (N. European ports) and coastal arrivals need not present Declaration in all cases; when there is sickness on board the Port Health Authority must be informed preferably not more than 12 hours and not less than 3 hours before arrival.

BERTHS: There is a large and three smaller dry docks and in addition, Shell Mex and B.P. maintain a bulk storage plant.

TANKERS: Tankers berth at Eastern Breakwater provided draft not more than 27 ft. berthing at H.W. Max. length 550 ft. Coast Lines Berth: Max. draft 16 ft. There is a tank-cleaning installation available.

BUNKERS AND WATER: All classes of fuel oil and diesel oil are available and water is piped on the Dock Company wharves. At the repair berths, or in Carrick Roads, bunkers and water must be delivered by barge. There are no facilities for delivering gas-oil by barge.

MEDICAL: Doctors and hospital facilities available. Agents should be advised in advance of any medical attention required.

CUSTOMS ALLOWANCES: At the discretion of Local Customs Inspector. Normal allowances are equivalent to ½ lb. tobacco per man and equivalent to 1 bottle of wine per man. Allowances may be halved for home trade vessels. Vessels in port for more than three or four days may receive extra allowances.

REPAIRS: All ship repairs can be carried out by local repair yards.

DRY DOCKS: Falmouth Docks and Engineering Co.
Queen Elizabeth Dock: length 850 ft. width 130 ft.
Falmouth Docks, No. 1: ,, 555 ft. ,, 75 ft.
Falmouth Docks, No. 3: ,, 750 ft. ,, 88 ft.
Falmouth Docks, No. 4: ,, 648 ft. ,, 86 ft.

HOLIDAYS: Good Friday (varaible date); Easter Monday (variable date); Spring Bank Holiday (variable date); August Bank Holiday (variable date); Christmas Day (25th December); Boxing Day (26th December).

POLICE/AMBULANCE/FIRE: Dial 999 from any telephone and ask for service required.

AUTHORITY: Falmouth Harbour Commissioners.

AGENT: G C Fox & Company, 48 Arwenack Street, Falmouth. Tel: 311300. Telex: 45-237. Cables: "Fox Falmouth".

FELIXSTOWE: 51.57 N. 01.21 E.

DOCUMENTS:
Stores List.
Crew List.
Health Declaration.
Manifests.
Bills of Lading.
Ship's papers, including Register, Load-line Certificate, Safety Equipment Certificate, Radio Certificate, U.K. Light Dues, if any.

PILOTAGE: Cork or Sunk Pilot station, Master's option. 12 hours notice ETA vessel Cork or Sunk Pilot Cutters to be given via G.P.O. Coastal Station (Northforeland, Humber Radio) stating GRT, max. draft, and port of destination. Cables: "Sunk Pilot Vessel" – Northforeland Radio within MF range. Sunk Pilot Cutter 2182 kilocycles, VHF range 156·8 megacycles, VHF Channel 16 then transfer to 156·3 megacycles, VHF Channel 6.

ANCHORAGES: At Cork Light Vessel; Quarantine anchorage off Harwich Road; "Northshelve" off Harwich; and in River Stour.

RESTRICTIONS: All vessels up to 25 ft. draft can enter Harwich Roads day and night on any state of tide. Max. draft for Container Quays and Oil Terminal 30/33 ft. depending on tides. At least 3 ft. keel clearance required at all times between channel bed and keel of vessel.

MAX. SIZE
(*a*) General cargo vessels: Dock Basin 145 ft. wide entrance. Depth 18 ft. LWOST. No lock gates. Suitable vessels able to leave on any state of tide.
North Quay: 640 ft. in length.
South Quay: 610 ft. in length.
East Quay: 430 ft. in length.
(*b*) Container vessels. Container Quay depth: 33 ft. LWOST. Approach Channel Harwich Harbour Estuary: 23·5 ft. LWOST.
(*c*) Roll-on, roll-off vessels: Terminal: Vessels up to 450 ft. overall. Depth 22 ft. LWOST.
(*d*) Tankers. Oil Terminal: Vessels 600 ft. overall. Depth 33 ft. LWOST.

HEALTH: Pratique flag in daylight and lighted signals in darkness to be displayed by vessel on arrival. Health Declaration to be given in writing or verbally by Master on arrival. If disease suspected, then report to pilot station who will advise Health Authorities.

RADIO: Northforeland, Humber, Niton (or any other radio station convenient to vessel's position).

RADAR/VHF: No port radar service. VHF only on dock tug. Channel 16.

TUGS: Stationed at Felixstowe, join vessels Harwich approaches or where ordered by Pilots. Vessels to use tug lines at additional cost.

BERTHING: Regulated by Harbour Master through pilot stations and tugs. Vessels able berth within restrictions of individual berths.

	Depth of water at LWOST	*Length of quay in feet*
Transatlantic Container Terminal	33 ft.	1,330. Two container berths and one roll-on/roll-off berth.
Dock Basin	18 ft.	East Quay 430; North Quay 640, South Quay 610. Vessels up to 350 ft. in length are accepted.
Ferry Terminal	22 ft.	310. Vessels up to 450 ft. in length are accepted.

STEVEDORES: 24 hours notice required by Agent to advise stevedores of vessel's ETA, in order to arrange berthing and allocation of labour. All stevedoring arranged between Dock Company and vessel's agent.

MEDICAL: Prior notice desirable through Agent to arrange attention. All services available.

TANKERS: 4-inch and 6-inch connections. No slop facilities. No facilities for gas freeing alongside or in harbour.

One tanker berth available. Vessels up to 600 ft. overall, maximum draft 31 ft.

DENSITY: 1025 salt water.

FRESH WATER: Pipe-line connections to all quays. Delivery approximately 50 tons per hour. Barge service available for supplies to vessels at anchor.

FUEL: Only gas oil available, 35 secs. pipe-line and barge delivery. 24 hours notice required.

FIRE PRECAUTIONS: Standard precautions at all berths.

DEVELOPMENTS: To be completed mid 1974. (*a*) North extension beyond Oil Jetty. 60 acres land to be reclaimed from sea; new quays will exist of 2 roll-on/roll-off berths and 1,000 ft. quay for handling of unitised cargoes. Maximum draft 25/30 ft. (approx.).
(*b*) S.E. extension of present container quay by 600 ft., draft 30/31 ft.

GANGWAY/DECK WATCHMEN: Not compulsory. If required, cost negotiable.

OPENING/CLOSING HATCHES: Work undertaken by crew.

CERTIFICATES:
Valid Derrick and Rigging Certificates.
Ship's Register.
Load-line.
Safety Equipment.
Radio.
De-Rat.
Construction.
(Light Dues Receipts).

CUSTOMS ALLOWANCES: 100 cigarettes or equivalent in tobacco or cigars per man. 1 bottle spirits.

IDENTIFICATION CARDS: Not necessary if in possession of Seaman's Book or Passport.

CONSULS: Royal Norwegian and Royal Swedish Vice-Consul, Ipswich 59281.

REPAIRS: Facilities exist for small repairs only.

DRY DOCKS: None available.

REPATRIATION: All facilities available.

AIRPORTS: Southend – 70 miles; Heathrow – 90 miles. International flights.

TIME: GMT. In summer months, April to October, time advanced 1 hour.

HOLIDAYS: All normal Bank Holidays, but official notification of port closures for such holidays is given well in advance of relevant dates.

POLICE/FIRE/AMBULANCE: Emergency points on all quays. Tel. 300 or, outside dock area, 999.

TELEPHONES: Shore connections available by prior arrangement for vessels on regular trades.

GENERAL: ETA to Agent required 72 hours, 48 hours, and 24 hours prior arrival.
SERVICES: Most services available for dry cargo vessels, but no special tank cleaning or tank washing facilities for tankers.
SHORE LEAVE: No restrictions.
AUTHORITY: Felixstowe Dock & Railway Co., Felixstowe Dock, Felixstowe, Suffolk. Tel. 4433 or 2134. Telex 98277. Cables: "Docks Felixstowe".

AGENT: Cory Brothers Shipping Ltd., Powell Duffryn House, Dock Estate, Felixstowe, Suffolk. Tel. 5671. After office hours: Felixstowe 2508; Ipswich 59117; Needham Market 523. Telex 98434. Cables: "Cory Felixstowe".

FISHGUARD: 52.01 N. 04.58 W.

DOCUMENTS: as for "Cardiff".
PILOTAGE: Local Pilot available on request. Pilotage compulsory under Milford Haven Authority.
ANCHORAGES: Eastward of a line joining N. and E. breakwaters.
MAX. SIZE: Any length, any beam, 18 ft. draft alongside quay.
RADIO: Fishguard Radio, VHF Channel 16.
RADAR/VHF: VHF Channel 16.
TUGS: None.
STEVEDORES: Nostevedores – vessels loaded and discharged by British Railway dock porters.
MEDICAL: Doctors available. Hospital facilities 16 miles away.
DENSITY: 1025.
FRESH WATER: Available alongside quay.
FUEL: Available with prior warning.
DEVELOPMENTS: Stern loading, car ferry port.
GANGWAY/DECK WATCHMEN: No watchmen available; not required.
OPENING/CLOSING HATCHES: Crew.
REPAIRS: Minor repairs by BR workshops and contractors.
AIRPORT: Cardiff is the nearest.
GENERAL: Coastguard and lifeboat facilities are available.
SHORE LEAVE: Allowed.
AUTHORITY: Shipping and Port Manager. Tel. Fishguard 2881.

FLEETWOOD 53·55 N. 03·00 W.

DOCUMENTS:
Manifests.
Bills of Lading.
Ship's papers.
Crew Lists.
Customs Documents.
Health Documents.
PILOTAGE: Pilot to be picked up off No. 1 Fairway Buoy. Ordered through ship's Agent giving 24 hours notice of ETA.
ANCHORAGES: Good anchorage in outer limits of harbour in Lune Deeps in 14 fms.
RESTRICTIONS: Vessels under power must not navigate any portion of this harbour above No. 9 Buoy at a greater rate of speed than *five knots*, also on passing other vessels, either steam or sail, hopper barges, pontoons in tow, etc. in the channels outside the above-mentioned No. 9 Buoy, and within harbour limits due care must be taken to pass them at a rate of speed that will not cause risk from displacement, or what is commonly called "backwash", and that all vessels must be navigated in this harbour strictly in conformity to the Collision Regulations and Signals of Distress.

Vessels bound into Fleetwood must not enter the river without being sure they have sufficient depth of water to ensure their getting to the quays or piers to which they are bound.

In the event of any vessel grounding on the "Tiger's Tail" or in any other part of the Fleetwood Harbour, the Master shall not attempt to refloat the vessel by reversing the engines, or by any other means whatsoever, until all incoming vessels following have passed the stranded vessel and the channel is clear of shipping.
MAX. SIZE: (Within enclosed docks): 350 ft. LOA; 46 ft. 6 in. beam.

So far as draft is concerned, allowances have to be made for clearing the lock invert. These allowances vary according to the beam of the ship and the following scale may be taken as a guide:

Beam of Vessel		*Clearance Required*	
ft.	in.	ft.	in.
37	0	2	3
44	0	4	0
45	6	6	0
46	0	7	3
46	4	9	3
46	6 maximum	10	3

HEALTH: Pratique is automatic.
RADIO: VHF Port Operations and Information Service. Call sign: Fleetwood Docks Radio. Channel 16 (156.80 Mc/s): Calling and Safety. Channel 12 (156.60 Mc/s): Port Operations.

All movements of vessels arriving for and sailing from the docks are controlled by the Dock Master using the VHF Port Operations and Information Service located in the Dock Master's office at the entrance to Fleetwood Docks (Lat. 53° 55′ 6″ N., Long. 3° 00′ 30″ W.). This service is operated during the tidal period of two hours each side of high water, and vessels must maintain a listening watch when approaching or leaving the port. Messages must be restricted to matters appertaining to general navigation, berthing instructions, and the safety of ships or persons within the port area. Messages of any other nature will not be accepted.
TUGS: Tug service operated by FFVOA Ltd., 190/192 Dock Street, Fleetwood.
BERTHING: Under normal conditions the lock gates operate for two hours each side of high water.

There are no berths equipped for containers or roll-on/roll-off traffic at present. The General Cargo berths can be used for handling liquid chemicals and bulk cargoes.
STEVEDORES: Arranged through ship's Agent.
MEDICAL: Ship's Agent will organise medical attention if required.
DENSITY: 1015 at half tide; 1025 at high water.
FRESH WATER: Fresh water available through stand pipes. Charge according to consumption (sliding scale).
FUEL: All grades of fuel available.
FIRE PRECAUTIONS: No specific requirement outside usual "No smoking" precautions.
GANGWAY/DOCK WATCHMEN: Ship's watchmen required.
OPENING/CLOSING HATCHES: Normally carried out by crew.
REPAIRS: Two slipways located in Fish Dock with lifting capacities of 1,050 and 650 tons respectively.
REPATRIATION: Arranged through ship's Agent.
AIRPORT: Squires Gate, Blackpool, 10 miles away.
TIME: GMT in winter. GMT plus one hour in summer months.
HOLIDAYS: Christmas Day and Boxing Day; Good Friday and Easter Monday; Spring Bank Holiday; Autumn Bank Holiday.

Cargo working can be arranged on any of these days upon request.
POLICE/AMBULANCE/FIRE: British Transport Police available on Docks Estate. Ambulance 999; Fire 999.
TELEPHONES: Can be arranged through Post Office.
SERVICES: Compass adjusting.
SHORE LEAVE: Crew members are allowed ashore.
AUTHORITY: British Transport Docks Board, Fleetwood Docks, Fleetwood. Tel. 2323.

FOWEY: 50.20 N. 04.39 W.

PORT LIMITS: The whole of the Fowey river to a line across the entrance to the harbour. A vessel is considered to have arrived on entering the harbour unless she is anchored just outside by the Pilot to await suitable conditions for entering, in which case she is considered to have arrived on being so anchored.
DOCUMENTS:
Crew and Passenger Lists are helpful, but not essential.
Aliens List is essential.
List of Bonded Stores, including beer.
List of Personal Dutiable Articles owned by Crew.
Bill of Health, if available.
De-Ratisation Certificate.
Manifest of all cargo on board.
Copies of Bills of Lading.
Stowage plan, if available.
Normal Ship's Papers.
PILOTAGE: Vessel requiring Pilot gives ETA as far in advance as possible to Agent. Vessel displays normal signals off port. VHF calling channel 16, working channel 9. Pilot boats are black. The Pilot boards off entrance. Vessels can anchor South of entrance if necessary.
RESTRICTIONS: Vessels can enter at any time, if their draft is less than 18 ft. Otherwise according to tide.
MAX. SIZE: 460 ft. in length. Loaded draft of 28 ft. Vessels of this draft have to be handled at or near high water.
HEALTH: Vessel is boarded on entering port by Port Health Officer, who gives his Pratique.
RADIO: Land's End Radio, Niton, or Portishead.
TUGS: Two diesel tugs are available and normally join vessels on entering entrance. Ship's lines usually used. Only one tug required for vessels under 350 ft. length.
BERTHING: Vessels waiting for berths are normally moored, using their own anchor with their stern to a buoy. On the berth, vessels require long ropes.
CARGO FACILITIES: The port is specially equipped to handle china clay and ball clay in bulk and in bags. No other commodity passes through the port either inwards or outwards. There are three berths each with a 3-ton crane and a bulk conveyor capable of handling up to about 330 tons per hour. A new berth is also now under construction.
STEVEDORES: Earliest ETA possible is required, especially when a vessel arrives over week-end.
MEDICAL: If medical Officer is required on arrival, advise Agent earliest opportunity. Hospital facilities are available.
DENSITY: River fully salt at all states of the tide.
FRESH WATER: Available at all jetties, delivered by hose and rate very variable.
FUEL: Gas/Oil only available. As much notice as possible is advisable.
DEVELOPMENTS: Port being developed at present, due to be completed in about two years, which will give a new berth of 500 ft. in length.
GANGWAY/DECK WATCHMEN: Not normally employed.
OPENING/CLOSING HATCHES: Carried out by crew.
CUSTOMS ALLOWANCE: 200 cigarettes or ½ lb. tobacco, if foreign-going. Wine and/or Spirits. ½ pt. if foreign-going.
IDENTIFICATION CARDS: Not needed.

CONSULS:
Belgium J. H. Samuel, Trafalgar Square, Fowey. Tel. 3414
Finland " " " "
France " " " "
Sweden " " " "
Denmark Ross Carter, Albert Quay, Fowey. Tel. 3274
Netherland Ross Carter, Albert Quay, Fowey. Tel. 3274.
REPAIRS: Not possible. Minor repairs only.
REPATRIATION: Yes, facilities exist.
HOLIDAYS: Saturdays, Sundays, and all Public Holidays.
POLICE/AMBULANCE/FIRE: Telephone 999.
TELEPHONES: No arrangements made for connection on board.
SERVICES: Compass adjusting can be arranged.
SHORE LEAVE: Allowed.
DELAYS: As clay can only be loaded when it is not raining, delays are mainly due to weather.
AUTHORITY: Fowey Harbour Commissioners, Albert Quay, Fowey, Cornwall. Tel. 2471.
AGENT: Toyne Carter & Co., Fowey, Cornwall. Tel. Fowey (072683) 3274. Telegraphic address: "Toyne Fowey". Telex: 45331 – AB: "Toyne Fowey". After hours tel. Fowey 3428; 3238; 2370 or 2525. Ship's Agents and Shipbrokers.

GARSTON: 53.21 N. 02.54 W.

DOCUMENTS: HEALTH: and all general information, refer to "Liverpool".
RESTRICTIONS: Locking into/out of Garston commences 3 hours before HW and ceases 3 hours after for vessels of 250 ft. in length or under. Vessels over this length must enter when the river and dock are level – about one hour before HW to half an hour after.
MAX. SIZE: 500 ft. length, 63 ft. beam, draft about 6 ft. less than HW Liverpool.
RADIO: As Liverpool. VHF Channel 20.
BERTHING: *Stalbridge Dock:*

Width of entrance	65 ft.
Depth on sill	26 ft. 8 in.
Lock length	276 ft.
Total water area	14½ acres
Length of quays	3,200 ft.

Old and North Docks: entered from Stalbridge Dock

Total water area	14 acres
Length of quays	4,610 ft.

DENSITY: 1025.
FRESH WATER: Available Monday to Friday 8.00 a.m. to 4.00 p.m. All watering required outside of these hours is by arrangement and must be paid for at overtime rates. Rate of delivery, 10 tons per hour.
DEVELOPMENTS: Modernization of coaling facilities and further adaptation to containers under consideration.
OPENING/CLOSING HATCHES: Hatches to be opened and closed by the crew except on request.
AIRPORT: Liverpool airport, 1 mile distant.
HOLIDAYS: Normal English Bank Holidays. Vessels can be worked on these days but this involves additional payment.
POLICE/FIRE/AMBULANCE: Dial 999 and ask for service required.
TELEPHONES: No connection can be made to vessels.
GENERAL: Vessels are required to "stem" on entering the dock; that is, to send an Officer to the Pierhead Office to enter the vessel into the Stemming Book giving all details regarding the vessel and cargo and to sign the sheet.
AUTHORITY: British Transport Docks Board, Dock Road, Garston, Liverpool L19.2JW. Tel. 051–427 5971.

GLASGOW and Clyde District: 55.51 N. 04.16 W.

DOCUMENTS: For Customs Clearance and to meet Immigration Authorities requirements, the following valid documents are required:
Ship's Crew List.
Port Health Declaration.
Register, Load-line Certificate.
Safety Equipment, Safety Construction and Safety Radio Certificates.
Derat Exemption or Fumigation Certificate.
British Tonnage Certificate.
Copy Manifests and Bills of Lading.
Grain Form (No. S/107) if bulk grain.
Completed Customs Form C.142.
PILOTAGE: Compulsory pilotage from and to Kempock Point (Gourock pilot station) tel. Gourock 31331. "Gourock Pilots Radio" Channel 14 – frequency 156.7 Mc/s.
Optional pilotage is available to and from Cumbrae Island.
Vessel to advise Agent 72, 48 and 24 hours before arrival with subsequent advice of any changes to ETA, stating where Pilot required to board, ETA and draft.
Normal ladder, etc., for Pilot boarding.
ANCHORAGES: As defined by Clyde Port Authority and in special circumstances (e.g. draft, condition of ship, hazardous cargo, etc.) under advice of Pilot.
Anchorages are available for vessels of all drafts in the Tail of the Bank area (off Greenock) and lower Firth of Clyde.
RESTRICTIONS: As defined by Clyde Port Authority and under Clyde Pilotage Authority requirements.
MAX. SIZE: As defined by Clyde Port Authority for berths in Glasgow and Greenock and subject to consideration of particular circumstances prevailing in each case.
HEALTH: The Master of a foreign-going vessel proceeding direct from a foreign port to the port of Glasgow must send wireless message to "PORTELTH GLASGOW". This message must be sent off not more than 12 hours and not less than 4 hours before the arrival of the ship and state:
(*a*) The name of ship.
(*b*) The time on the 24-hour clock it is expected to arrive at the Tail of the Bank, Greenock.
(*c*) The port of departure and last port of call.
(*d*) The number of crew, and passengers, if any.
(*e*) The state of health or any circumstances on board which are likely to lead to infection or the spread of infectious disease.
The Master must fill in and sign the Declaration of Health on pages 1 and 2. It should be completed and ready to deliver to the Officer of Her Majesty's Customs or Officer of the Port Health Authority, whichever shall first board the vessel.
If the answer to any of the health questions on page 1 is "Yes" free pratique will not be granted by Her Majesty's Customs until the ship has been visited by the Port Medical Officer.
The Master must therefore: 1. When the ship comes, whether by day or night, within the district, show or give the following signals:
(*a*) the international signal "ZW" flown at the masthead or where it can best be seen from the shore, and
(*b*) Between sunset and sunrise, either: (i) the signal "ZW" flashed in the Morse code by lamp, or (ii) a signal consisting of a red light over a white light, the lights being not more than 6 ft. apart, shown at the peak or where the signal can best be seen from the shore.
2. If the answer to all of the health questions on page 1 is "No" the Master must show or give the following signals when the ship comes, whether by day or night, within the district:
(*a*) the international flag signal "Q" flown at the masthead or where it can best be seen be from the shore: and
(*b*) between sunset and sunrise, either (i) the signal "Q" flashed in the Morse code by lamp, or (ii) a signal consisting of a red light over a white light, the lights being not more than 6 ft. apart, shown at the peak or where the signal can best be seen from the shore.
3. Article 17 of the Public Health (Ship) (Scotland) Regulations 1966 states:
If, within four weeks after the Master of a ship has delivered a Maritime Declaration of Health pursuant to regulation 16 or a corresponding provision in force in England, Wales or Northern Ireland, the ship arrives in a district or calls at another district, as the case may be, the Master shall report to the Customs Officer or authorised officer, whoever first boards the ship, any case or suspected case of infectious disease which has occurred on board since the Declaration was delivered and which has not already been reported.
4. Article 18 of the Public Health (Ships) (Scotland) Regulations 1966 states:
On arrival of a ship from any foreign port or from any infected area which is not a foreign port, no person other than a Pilot, a customs officer, an immigration officer or an authorised officer shall, without the permission of the medical officer, board or leave the ship until it is free from control under these regulations and the Master shall take all steps necessary to secure compliance with this provision.
5. The maximum penalty for breach of the Public Health (Ships) (Scotland) Regulations 1966 is £100, and in the case of a continued offence, a further penalty not exceeding £50 for every day during which the offence continues.
RADIO: Any GPO radio station.
There is a Port Operations VHF/FM system in operation utilising Channels 12, 14 and 16 in the International Maritime Band as under: West of Bowling, Channel 12; East of Bowling, Channel 14; calling up, Channel 16.
TUGS: As required by Master and under advice of the Pilot. Tug's lines only are used.
TANKERS: Agents will advise Master by radio to prepare appropriate manifold connections. No slop facilities at Old Kilpatrick, Bowling, Faslane, Finnart. In Glasgow a small vessel is equipped for removal of sludge, tank washing, etc.
Oil installations:
Bowling (ESSO): Private berth. Maximum length of vessels swinging off Bowling Basin is 550 ft. under suitable conditions. Berthing and unberthing is permitted day and night, according to state of tide.
A port regulation prohibits ships which are not gas free and have on board or have carried cargo with a flash-point of below 73 degrees from navigating the river East of Bowling.
Old Kilpatrick: Admiralty oil installation. Canting facilities in the river off Rothesay Dock, maximum length of vessels permitted is 630 ft. during daylight and under suitable weather conditions. Admiralty, Old Kilpatrick, advise maximum length at the berth is 570 ft., draft 30 ft.
Berthing and unberthing is permitted day and night, according to state of tide. Fully loaded vessels are berthed port side to at high water and must be capable of discharging over the tide. Light or partly loaded vessels may swing on arrival and berth starboard side to.
No low flash-point cargo may be discharged and vessels having low flash-point on board are not permitted at this berth.
Vessels which have carried crude oil as previous cargo are not permitted to load at this berth unless all tanks have been cleansed. There are no facilities for receiving dirty ballast.
Finnart: B. P. Installation. Maximum permissible size of vessel 300,000 tons deadweight – maximum draft 90 ft. salt water.

Faslane: Esso Petroleum. Maximum permissible size of vessel 40,000 tons deadweight.

CONTAINER HANDLING FACILITIES: Container terminal at Greenock for two container ships to berth and work simultaneously. Two straddle carriers and three transporter cranes available.

STEVEDORES: Arranged by Agent in accordance with Master's advice of ETA.

RADAR/VHF: Radar service not available. Port Radio service.

MEDICAL: Full medical and hospital facilities available.

DENSITY: Port of Glasgow – fresh water.

FRESH WATER: Available at all berths by shore hose.

FUEL: All major oil companies represented in Glasgow. As much notice as possible required, all grades can be supplied.

FIRE PRECAUTIONS: As per Clyde Port Authority Regulations. Tanker berths – as per B.P., Esso and Admiralty Regulations.

GANGWAY/DECK WATCHMEN: At Master's discretion.

OPENING/CLOSING HATCHES: To be carried out by ship's crew.

CUSTOMS ALLOWANCES: On arrival from a foreign port with foreign cargo an allowance of 100 cigarettes per man for each four days in port, whilst discharging foreign cargo, and an allowance of a quarter of one pint of spirits is allowed for each man per day in port up to four days.

CARGO GEAR: Valid test certificates required for all cargo gear.

IDENTIFICATION CARDS: Not required.

REPAIRS: All types of deck and engine repairs can be effected in the Clyde Area.

DRY DOCKS: Size of largest dry dock in Clyde area: Scott Lithgow dry dock, Greenock: 1,000 ft. long clear from gate to head of dock; 156 ft. cope to cope; 150 ft. clear width between altars; 145 ft. clear width at entrance; 45 ft. top of keel blocks to cope; 37 ft. draft on sill HWOST; 27 ft. draft on sill LWOST.

In addition, there are eight other dry docks in Glasgow/Greenock area.

REPATRIATION: Facilities for crew changes, and full repatriation services are available.

AIRPORT: Glasgow Airport (12 miles from city centre) and Prestwick Airport (30 miles from city centre) are served by most major domestic and international airlines.

TIME: BST (1 hour ahead of GMT) in operation. GMT in winter months.

HOLIDAYS: Official dock holidays on which cargo work can not be arranged. Easter Monday; Whit Monday; Autumn Bank Holiday; 27th December.

POLICE/AMBULANCE/FIRE: These services can be called by telephone by dialling 999 or contacting Clyde Port Harbour by VHF.

TELEPHONES: Telephones can be placed on board at most docks, charges vary according to berth, type of service and whether prepay call-box type or linked to exchange.

SERVICES: Tank cleaning. Facilities are available for service to ship's radio, navigation aids, etc.

SHORE LEAVE: Crew allowed ashore at Master's discretion and subject to compliance with Immigration and any other interested Authorities' requirements.

AUTHORITY: Clyde Port Authority, 16 Robertson St. Glasgow C2.

GOOLE: 53·42 N. 00·50 W.

PORT LIMITS: Goole is a river port with conservancy jurisdiction to the junction of rivers Humber, Ouse, Trent. However, laytime commences from commencement of next normal working shift after ship is on berth and ship's Agent has issued "Notice of Readiness". This may be 0800 hours or 1300 hours dependent on time of issue of notice.

Precedence of order of arrival of vessels is determined by arrival time at Ocean Lock Entrance, Goole Docks.

DOCUMENTS:

Bills of Lading/Manifests (prepared by Agents at port of origination).
"Imperfect" Customs Entry.
Request (to work vessel).
*Request for Immigration Officer to be in attandance – if carrying passengers.
*Crew List to Immigration Officer (for foreign personnel).
Ship's Register.

*Agent will normally notify Immigration Officer.

PILOTAGE: Compulsory from Spurn to Goole, two stages.

1st stage: Spurn Light Vessel to Hull Roads.

Pilot vessel usually cruising around Spurn Light Vessel in fine weather. In bad weather pilot boat shifts to Bull Light Vessel area or inside Spurn during northerly gales. Vessels for Goole should inform pilot vessel by radio on normal channel, or by VHF on Channel 16. On approaching cutter by day exhibit international code flag "G". By night "PT" by flashing or exhibit blue flare. In fog sound "G" on whistle or siren. Preferably 12 hours prior notice of arrival should be given, through "Humber Radio" to Pilot Officer, Hull.

2nd stage: Hull Roads to Goole. Pilot will board vessel in Hull Roads.

ANCHORAGES: Bull Anchorage on chart of Humber Estuary, or in Hull Roads, otherwise only on advice of Pilot.

RESTRICTIONS: State of tide, springs or neaps. Port entered during tidal hours, $3\frac{1}{2}$ hours before high water to $\frac{1}{2}$ hour after high water, according to draft. Pilots will advise.

MAX. SIZE: Vessels should be within following measurements: 300 ft. overall length, 46 ft. beam and 17/18 ft. draft. Vessels exceeding any of these measurements should seek advice before arranging to visit the port.

HEALTH: Pratique issued by H.M. Customs Waterguard (in absence of Port Health Official). Pratique accepted when entering after calling at another port in the U.K.

RADIO: Via Humber Radio, call sign GKZ – call on Channel 16. Give ship's name and call sign and pass message.

TUGS: Tugs available but not normally used. If required, to be arranged through Agent.

BERTHING: Berthing instructions given to vessel on arrival at entrance locks. No specific requirements.

SPECIALISED CARGO HANDLING FACILITIES: Four appliances for loading of rail-borne bulk cargoes, e.g. coal, coke, pitch, fluorspar, etc.

Two appliances for loading of canal-borne bulk cargoes (coal, coke, pitch, etc.).

Discharging of bulk cargoes by $12 \times 7\frac{1}{2}$-ton modern quay cranes, equipped with suitable grabs for sand, ores, fertilisers, coal, grain, sulphur, scrap iron, etc.

Road-borne bulk cargoes loaded by same grabs.

32-ton Scotch derrick crane for container handling.

50-ton and 40-ton electric travelling cranes for heavy lifts.

Roll-on/roll-off traffic (cars, etc.) accommodated at various berths. The docks are maintained at a constant level and specialised link span berths are not necessary.

No bulk liquid berths.

STEVEDORES: Arrangements made by Agent who should be given ample notice of time of arrival of vessel.

MEDICAL: Agents will arrange for attendance of doctor on notification. Doctor, dentists and hospital services available. Agents can arrange service required.

DENSITY: Water in Goole Docks is fresh water and is maintained at constant level. Entry is by locks. Density 1·000.

FRESH WATER: Delivery by water-boat through hosepipes. Rate 30 tons per hour.

FUEL: All grades available on reasonable notice being given to ship's Agent.

FIRE PRECAUTIONS: No specific precautions unless there are exceptional circumstances, when special arrangements can be made with local Fire Service.

GANGWAY/DECK WATCHMEN: Necessary. Usually provided from crew. Otherwise by negotiation locally.

OPENING/CLOSING HATCHES: Responsibility of crew.

SHIP CERTIFICATES:

Ship's Register (including load-line).
Radio Safety.
Life-Saving.
Light Dues.
Change of Articles.
Deratisation Certificates.

CARGO GEAR: Normally not required, as ample port facilities available.

IDENTIFICATION CARDS: May be required to be produced to Immigration Officer or H.M. Customs official, especially in the case of foreign flags.

CONSULS: France, Netherlands.

REPAIRS: All types of deck and engine repairs possible by local ship repairers.

DRY DOCKS: No. 2 Dry Dock: 301 ft. length, 50 ft. width at entrance, 15 ft. depth on sill. Two other dry docks. The water in the wet docks at Goole is maintained at a constant level and all dry docks are entered direct from the wet docks.

REPATRIATION: Arranged by ship's Agent.

AIRPORT: Yeadon (Leeds–Bradford), 45 miles. Regular services.

TIME: GMT in winter; GMT plus one hour in summer months.

HOLIDAYS: Good Friday; Easter Monday; Spring Bank Holiday (last Monday in May); Late Summer Bank Holiday (last Monday in August); Christmas Day; Boxing Day. No cargo working on these days.

POLICE/AMBULANCE/FIRE: Dial 999 and ask for service required.

TELEPHONES: No arrangements for ship connection.

SHORE LEAVE: No restrictions.

PORT REGULATIONS: Visitors to vessels require permits from Port Authority and Master or Agent. Smoking not permitted ashore in dock area.

AUTHORITY: British Transport Docks Board, Dock Offices, Goole, Yorkshire. Tel. 2691 (STD 0405). Telex 57626.

AGENT: Cutting & Company (Hull) Limited, 33 Aire Street, Goole. Tel. Goole 2656 (0405). Telex 57628 (AB GOOLESHIP Goole). Cables: "CULCUT Goole."

GRANGEMOUTH: 56.01 N. 03.43 W.

PORT LIMITS: At Grangemouth a vessel is not considered to be an "arrived vessel" until she is tied up at the allocated berth.
DOCUMENTS:
1 Crew List.
1 Passenger List.
1 List of all high duty goods in crew's possession.
1 Cargo Manifest.
All Valid Certificates.
PILOTAGE: Compulsory in river. Pilot boards at Inchkeith. Pilot boat on VHF, see Radio below.
ANCHORAGES: North of Grangemouth West Buoy, 2 fathoms. Charleston Roads 5 fathoms. East of Inchkeith, up to 8 fathoms.
ENTRY RESTRICTIONS: Vessels are allowed to enter and depart in the period three hours before high water to one hour after high water Monday to Saturday. This period is reduced to two hours, before high water to one hour after high water on Sundays. The height of the tide must always be taken into account when dealing with larger vessels. See "Development."
MAX. SIZE: 570 ft. length. 75 ft. beam. Draft according to state of tide. Vessels other than tankers maximum draft 25 ft 6 in. Tankers, up to 32 ft. 6 in. maximum draft.
HEALTH: Foreign arrivals to complete Maritime Declaration of Health. They are cleared immediately on arrival by either a Port Doctor or an Officer of H.M. Customs depending on where the ship comes from and whether there is sickness on board.

Vessels arriving from ports within accepted area (N. European ports) and coastal arrivals need not present Declaration. In all cases, when there is sickness on board the Port Health Authority must be informed preferably not more than 12 hours and not less than 4 hours before arrival.
RADIO: Wick – Stonehaven – Cullercoats, coastal stations.

Port VHF (FM) Communications: Station: Dock Foreman's Office, Lock Entrance, Grangemouth. This centre will maintain a continuous watch. Call sign: Grangemouth Docks.

156·8 Mc/s. Channel 16 calling and safety. All vessels should maintain a listening watch on this channel and use it to establish contact with Grangemouth Docks. Once contact is established the Duty Operator will request vessels to shift to the Port Operations Channel.

156·7 Mc/s. Channel 14, Port Operations. A working channel restricted to messages relating to the movement and safety of ships, and in emergency, to the safety of persons.

156·6 Mc/s. Channel 10, Inter-ship. A working channel for tug-to-tug and tug-to-bridge communications.

156·3 Mc/s. Channel 6, Inter-ship. A working channel for communication with other vessels.

No message of a personal character or messages of any other nature than those pertaining to the general navigation and safety of ships and persons within the Port Area can be accepted.
TUGS: Can join vessel at Hen and Chicken Buoy or Lock Gates. Optional use of towage lines. Cost for tug's line £8 per hawser.
BERTHING: The water in Grangemouth Docks is maintained at the same level by impounding pumps. On passing through the lock entrance berthing is allocated according to the nature of the cargo and draft of vessel.

The depth of water available at the berths varies in each dock, the maximum depths being approximately: Grange Dock 26 ft.; Carron Dock 23 ft.; Old Dock 18 ft. 9 in.
CARGO HANDLING FACILITIES: Bulk cargoes can be handled at most berths within the port. The East Wall berth has four 10-ton grabbing cranes. Other berths have 7½, 6, 5, 3 and 2-ton cranes. One 40-ton heavy lift crane. Container berth is 1,000 ft. long and has two 32-ton transporter cranes.

A roll-on/roll-off berth in operation. Liquid chemicals and LPG. Carriers are handled at the BP jetties or No. 1 North Jetty, which is a common user jetty.
STEVEDORES: No particular advice necessary to stevedores. Essential, however, advise Agent 24 hours prior arrival, who will advise Stevedores.
CUSTOMS ALLOWANCES: At the discretion of Local Customs Inspector. Normal allowances are equivalent of 5 ounces tobacco per man and equivalent of 1 bottle of wine per man. Allowances may be halved for home trade vessels. Vessels in port more than three or four days may receive extra allowances.
MEDICAL: No advance notice necessary. Hospital facilities available in immediate district.
TANKERS: B.P. Refinery (Grangemouth) Limited. Private jetties in Eastern Channel: Nos. 2 and 3, 32 ft. 6 in.; Nos 4 and 5, 18 ft. draft No. 1 North Side Jetty, pipelines connected to Ross Chemical and Storage Co. are 1½ in. nitrogen line, 6 in. chemical line, 10 in. heavy fuel line, 2 in. fresh water supply, 8 in. motor spirit line, 8 in. gas oil line.
DENSITY: 1019 average.
FRESH WATER: Available in most berths. Watermen supervise delivery on request. Delivery rate varies depending on berth.
FUEL: All grades available from oil installations.
DEVELOPMENTS: New lock entrance 780×101 ft. with a depth of 38 ft. 6 in. at MHWST – 1973.
GANGWAY/DECK WATCHMEN: Not necessary but can be done by ship's personnel.
OPENING/CLOSING HATCHES: Custom of port crew open and close hatches but stevedores will do so if required.
CERTIFICATES: For Customs Clearance valid Certificates in respect of radio, load-line, construction, safety equipment, deratisation, necessary.
CONSULS: Norwegian, Danish and Swedish consuls available locally.
REPAIRS: All types of repairs can be carried out afloat.
DRY DOCKS: Carron dry dock length 350 ft., breadth 50 ft., depth 22 ft. Middle dry dock length 335 ft., breadth 50 ft., depth 19 ft.
REPATRIATION: All facilities exist.
AIRPORT: One hour from Glasgow and Edinburgh airports where numerous connections for London thence world wide travel.
TIME: British Standard Time (1 hour ahead of GMT). GMT during winter months.
HOLIDAYS: 1st and 2nd January; 1st Monday May; 3rd Monday July; 2nd Monday September; Christmas Day.
POLICE/AMBULANCE/FIRE: In public telephone dial 999 and ask for appropriate service. With dock circuit telephone dial 34 for Police or dial 51 and ask for Fire/Ambulance.
TELEPHONES: Telephones available at A, B, and C sheds for placing on board.
SERVICES: Compass adjusting, calibrating, etc., can be done in river. No equipment for tank cleaning but can accept tank washings ashore.
SHORE LEAVE: Allowed.
AUTHORITY: Forth Ports Authority.

GRANTON: 55.59 N. 03.13 W.

DOCUMENTS:
Health Declaration.
1 Crew Declaration Form C.142 (Tobacco List).
1 Crew List.
1 Passenger List.
(Also see "Glasgow").
PILOTAGE: Pilot station in Firth of Forth located at Inchkeith Island. Contact can be made with pilot cutters *Panther* and *Gazelle* on VHF Channels 16/14/12 and radio-telephone 2182 kHz. Pilot cutters – black hull with white superstructure.
ANCHORAGES: Good holding ground at Inchkeith Island and Leith roadstead 10–17 fathoms.
RESTRICTIONS: The entrance between the breakwaters is 340 ft. in width. The rise of tide, 17 ft. at Springs and 12 ft. at Neaps, permits the entry or exit of vessels up to 30 ft. draft at high water.

A red flag bearing St. George's Cross exhibited at the Middle Pier Head signifies that vessels should not enter the harbour until the flag is lowered. A green light takes the place of the flag during hours of darkness.
HEALTH: Vessel boarded immediately alongside berth and pratique granted provided no contagious diseases reported on board, otherwise quarantine restrictions imposed.

Foreign arrivals to complete Maritime Declaration of Health. They are cleared immediately upon arrival by either a port doctor or an officer of H.M. Customs, depending on where the ship comes from, and whether there is sickness on board.

Vessels arriving from ports within accepted area (N. European ports) and coastal arrivals need not present Declaration. In all cases where there is sickness on board the Port Health Authority must be informed, preferable not more than 12 hours and not less than 4 hours before arrival,
RADIO: Stonehaven and Cullercoats radio stations.
TUGS: Sound signal for vessels requiring tug services is four long blasts. Tugs, if required, join the vessel in the roads. Ship's lines normally used. Tugs towing gear available, not compulsory.
BERTHING: *Middle Pier:* 1,700 ft. in length with depth shelving from the shore to 17 ft. LWOST. In addition, there is a 450 ft. cross-piece at the end of the pier where depth of water is 25 ft. LWOST.

West Pier: 2,000 ft. of quay. Depth of water varies from 15 to 23 ft. LWOST.
TANKERS: Tankers up to 18,000 dwt. are accommodated at the end of the West Pier, adjoining port entrance.
MEDICAL: No advance notice of medical attention required. All hospital facilities available.
FRESH WATER: Available alongside at all berths.
FUEL: All grades available subject 24 hours notice in advance.
REPAIRS: Facilities available for all minor repairs.
DRY DOCK: Floating dock, length 160 ft., beam 30 ft., depth 15 ft.
AIRPORT: Edinburgh Airport, served by regular airlines, situated about 10 miles away.
HOLIDAYS: Public holidays observed annually: third Monday in April; first Monday in June; third Monday in September; Christmas Day (25th December); 1st and 2nd January. Cargo work can be arranged on all public holidays except 1st and 2nd January.
AUTHORITY: Forth Ports Authority, Tower Place, Leith. Tel. 031–554 6473.

GRIMSBY: 53.34 N. 00.04 W.

DOCUMENTS:
1 Crew List form H.O. IB6.
1 List of Crew's private dutiable stores Form C.142.
1 Health declaration.
Also see "Hull".
PILOTAGE: Contact direct by Radio telephone on 2182 kc/s. or on VHF Channel 16 to "Spurn Pilot" at least 6 hrs before arrival (2 hrs required to order Pilot for vessel leaving port). Steam cutter with "Pilots" along the black hull. Either flash G, or fly G Flag.

Cutter is usually in the vicinity of Spurn light-vessel but for vessels having a draft of 36 ft. and over Pilot boards at Humber light-vessel by special arrangements between Pilot and Master. In bad weather contact either the pilot cutter direct or Humber or Hull radio on VHF Channel 12 and they will advise location of cutter. The usual International standards are required for the ladders, etc., used on boarding. If vessels have to await Pilot the pilot cutter will advise where the vessel is to wait. Portable VHF units are available on request by the Master to the Pilots.

ANCHORAGES: Hawk and Sunk Roads, Hale, Spurn and Bull Anchorages. See "Hull". The Pilots will advise where to proceed to anchor and also provide Pilot.

MAX. SIZE: Maximum breadth 65 ft., maximum length of vessel that can be locked 268 ft. but vessels of greater length can enter docks on high water when all lock gates are open. 3 ft. clearance under the keel is required. Vessels having a draft of 19 ft. can normally enter the docks on any tide when the height of water is sufficient to allow 3 ft. clearance. Vessels with 21 ft. draft can be taken on Spring Tides. Vessels can enter usually approx. 3 hrs before and 2½ hrs after high water.

HEALTH: A pratique is issued by the Customs Officers on boarding for all vessels arriving from a port outside the U.K. but this is only done at the first U.K. port of call. If disease is suspected, the master must advise the Customs Officers on boarding and it is advisable that the Agent be informed prior to vessel's arrival.

RADIO: Humber Radio. 2182 kc/s, or VHF Channel 16. Also see 'Hull'.

TUGS: Normally join in Grimsby roads. Optional whether use ship's or tug's lines, the cost for using the tug's lines is between £3 and £6.

BERTHING: Vessels are restricted from passing through the Union Dock into the Alexandra Dock by a set of lock gates in the Union Dock which are closed when the height of water in the Royal Dock reaches 24 ft. and also a restriction on the beam of 42 ft. 6 in.

STEVEDORES: Vessels are allocated labour in order of arrival so it is only necessary to give the Agent the ETA preferably before noon on the previous day. Normal working hours 0800 to 1700. Overtime can be worked 1700 to 1900 Monday to Thursday. On Saturdays and Sundays as required.

MEDICAL: Hospitals and all other medical facilities are readily available. If immediate attention is required on arrival please advise agent by radio or telegram.

FRESH WATER: Available at all quays. Rate approx. 20 tons per hr.

FUEL: Normal gas and diesel oils available by both road and barge with at least 24 hrs. notice.

GANGWAY/DECK WATCHMEN: Not necessary, but the service is available if Master requires it.

OPENING/CLOSING HATCHES: Responsibility of the crew. The hatch beams can be removed and replaced by the shore cranes but there is an extra charge for this operation.

CUSTOMS ALLOWANCES: 200 cigarettes per 8 days. 1 bottle wine and 1 bottle spirits per 4 days. All seals to be broken.

CARGO GEAR: In accordance with the regulations laid down by H.M. Factories Inspector.

CREW IDENTIFICATION CARDS: Some sort of identification whilst crew are ashore is advisable.

CONSULS:

Belgium, Vice-Consul	Grimsby	59101
Denmark, Vice-Consul	,,	3063
Dominican Republic	,,	59101
Finland, Vice-Consul	Immingham	2387
France Consular Agent	Grimsby	55176
Germany (F.R.) Consul	,,	77830
Greece, Vice-Consul	Immingham	2166
Iceland, Consul	Grimsby	58881
Netherlands, Vice-Consul	,,	3177
Norway, Vice-Consul	,,	3177
Sweden, Vice-Consul	Immingham	2387

REPAIRS: Facilities are available for all deck and engine repairs.

DRY DOCKS: Nearest at Immingham.

REPATRIATION: Can be arranged if required.

AIRPORT: No civil airport in the vicinity. Easy access to all major airports via rail, etc.

HOLIDAYS: Christmas Day; Boxing Day; Good Friday; Easter Sunday and Monday; Spring Bank Holiday (end May); Late Summer Bank Holiday (end August). All except Christmas Day and Good Friday can be worked on overtime.

POLICE/AMBULANCE/FIRE: Docks Police – Grimsby 59171; Grimsby Police – Grimsby 57571. Emergency – Police/Fire/Ambulance 999.

TELEPHONES: Not available for connection on board.

GENERAL: The Grimsby Dock Master can be contacted on VHF Channel 16 and then change to Channel 18 for speaking.

SERVICES: Compass adjusting, tank cleaning, etc., are available.

SHORE LEAVE: Crew are allowed ashore.

AUTHORITY: British Transport Docks Board, Grimsby.

AGENT: Cory Brothers Shipping Limited, 8 Cleethorpe Road, Grimsby, Lincs. Tel: 0472-58266/8. Telex: 527113. Cables: "Spurnship Grimsby."

HARWICH (Parkeston Quay): 51.56 N. 01.15 E.

DOCUMENTS:

1 Home Officer Form 1.B.6 may be obtained from HM Customs Boarding Officer.
1 C.142 Crew Declaration List.
1 Maritime Declaration of Health (Q Flag procedure).
2 Ship's report by Master.
1 Stores List.
1 Certificate of Deck Cargo Tonnage (if carried).
1 Grain Certificate (if carried).
1 Light Certificate.
1 Port Dues Certificate.
1 Passenger List required by vessels other than packet vessels.
1 Landing Card for each passenger.
1 Ship's Certificate of Registry.
1 Mercantile Marine Office Certificate – for British vessels only.
1 Load Line Certificate.
1 Safety Equipment Certificate.
1 Lloyd's Certificate.
1 Deratting Exemption Certificate.
1 Ship's Register.
1 Lights Bill.
1 Radio Safety Certificate.

In addition Manifests and Bills of Lading are usually sent to Agent direct from loading port.

PILOTAGE: Pilotage into the harbour is compulsory for all ships of 50 tons and over, with the exception of vessels of not more than 3,500 tons gross regularly employed in the Home and Coasting trades and not carrying passengers.

Pilots can be embarked at the Cork or Sunk Pilot Stations, Master's option.

Twelve hours notice of ETA of vessel at the Cork or Sunk Cutters to be given via GPO Coastal Stations (North Foreland or Humber Radios) stating gross registered tonnage, maximum draft, etc. Cables "Sunk Pilot Cutter". North Foreland within MF range.

Sunk Pilot Cutter works on 2182 kc/s., VHF range 156·8 Mc/s., VHF Channel 16 then transfer to 156·3 Mc/s. VHF Channel 6.

There is a Harwich pilot station ashore, which keeps a continuous listening watch on VHF Channel 16 and works on VHF Channel 9. This station is mostly used for passing information regarding ship movements in the harbour.

ANCHORAGES:

Ewarton: Situated to the North and West of Parkeston Quay with an average depth of 2½ fathoms at low water.

Parkeston: Situated to the North of Parkeston Quay, with an average depth of 3 fathoms at low water.

Quarantine: Situated on the Eastern side of the junction of the Rivers Stour and Orwell. Depth on outer edge 5 fathoms; or the inner side 1½ fathoms at low water.

Shelf: Situated on the Western side of the main Channel between the North and South Shelf Buoys. Average depth of 2½ fathoms at low water.

Inner: Situated at the Pitching Ground. Average depth 4½ fathoms at low water.

Cork: Situated to the Westward of the Cork Light Vessel. Area approximately 2 miles × 1 mile. Average depth 4 fathoms.

RESTRICTIONS: Normal maximum draft allowed alongside the berths at Parkeston Quay is 18 ft.; a deeper draft may be allowed by special arrangement.

Normal cargo working at Parkeston Quay ceases at 2200 hours, but berthing and night work by arrangement at any time.

MAX. SIZE: Normal maximum permissible length 500 ft. arrangements for larger vessels can be made. Normal maximum permissible breadth for roll-on/roll-off is 75 ft. Normal maximum permissible draft – 18 ft. The height of the tide does not restrict a vessel berthing alongside the quay if her draft is within 18 ft.

PRATIQUE: Maritime Declaration of Health required (Q Flag procedure). Obtain Pratique through HM Customs Boarding Officer if no sickness on board.

If there is sickness on board the Customs Official will notify the Duty Port Medical Officer.

If the vessel is from another port in the U.K. Pratique is automatic.

RADIO: North Foreland Radio (call sign GNF) or Humber Radio (call sign GKZ) are the most convenient stations to pass ETA cables, etc., to Agents or receivers. The Pilot Land Station has a Surveillance Radar.

British Rail at Parkeston Quay keep a 24-hour listening watch on VHF Channel 16 and work on VHF Channel 18.

TUGS: No tugs are based at Parkeston Quay, but two are available at nearby Felixstowe for use in the Port's complex (MT *Sauria* 1,600 h.p. and MT *Ionia* 1,200 h.p.) 24-hour service, 7 days per week. Constant watch on 2182 kc/s. and Channel 16 VHF Additional tugs up to 2,250 h.p. can be obtained from London at 24 hours notice.

BERTHING: There are 8 berths at Parkeston Quay, of which 2 are Portal Roll-on/Roll-off berths and 1 is a Pontoon Roll-on/Roll-off berth. Normally maximum draft permissible alongside is 18 ft., but special arrangements as in (4) can be made.

Berthing, etc., by arrangement. Applications for berths must be made through the Marine Superintendent. British Rail. Parkeston Quay, giving as much advance notice as possible.

STEVEDORES: All labour at Parkeston Quay are members of National Union of Railwaymen, and arrangements for their use must be made through the Shipping and Port Manager, British Rail, Parkeston Quay.

MEDICAL: Prior notice through British Rail, Parkeston Quay, desirable to arrange attention. All services are available.

TANKERS: A berth is available for tankers for the purpose of discharging and loading to the local oil refinery.
DENSITY: 1025 (sea water).
FRESH WATER: Fresh water can be supplied from quayside hydrants.
FUEL: Can be arranged by either barge or road tanker.
DEVELOPMENTS: Eastern end of Parkeston Quay to be lengthened in due course to provide more container berths.
GANGWAY/DECK WATCHMAN: Watchmen are not provided or required by the port, but ships may use their own watchmen.
HATCHES: Opening and closing of hatches to be carried out by ship's crew.
CARGO GEAR: There are 10 level luffing cranes, safe working load averaging from 30 cwt. to 10 tons, which can be used for discharging and loading. There are also 2 transporter cranes, 30 tons SWL.
IDENTIFICATION CARDS: Seamen's Identity Cards sufficient.
CONSULS: Dutch, German, Danish, Belgian.
REPAIRS: Minor repairs can be carried out by British Rail workshops at Parkeston Quay. As much advance notice as possible required.
REPATRIATION: All facilities available.
AIRPORT: Nearest is Ipswich, 22 miles; Southend, 70 miles.
HOLIDAYS: All normal Bank Holidays. Only passengers and car travellers are dealt with at Parkeston Quay on these days. Freightliners sail only if loaded before the holiday. Train ferries operate normal services.
POLICE/FIRE/AMBULANCE: Dial 999 and ask for service required.
TELEPHONES: Arrangements can be made, with advance notice given.
AUTHORITY: Shipping and Port Manager, British Rail, Parkeston Quay.

HEYSHAM: 54.02 N. 02.55 W.

DOCUMENTS: As for other British ports plus Walney Light Dues.
PILOTAGE: Trinity House Pilotage Service, Barrow District. Compulsory for all vessels of 50 tons gross tonnage and over with the exception of vessels of not more than 1,500 tons gross regularly employed in the home and coasting trades and not carrying passengers.
RADIO: Portpatrick Radio and Anglesey Radio. Heysham Harbour Radio, VHF Channels 16 and 14.
MAX. SIZE: 400 ft. length, draft 17 ft. At Tanker pontoon, draft 21 ft.
TUGS: None available.
ANCHORAGES: Heysham Lake. ½ mile N.W. of No. 1 Buoy. Position: 53° 59.4′ N., 3° 00.0′ W. Depth: 40 ft. at low water.
RESTRICTIONS: Entry possible at all states of tide.
BERTHING: Vessels may be berthed at any time.
DENSITY: Salt water.
FRESH WATER: Available from the quays.
FUEL: Diesel and furnace by pipe-line – any quantity. Gas oil by road vehicle.
WATCHMEN: Ship's watchmen required.
CREW: No restrictions on landing.
AIRPORT: Nearest, Liverpool and Manchester; 60 miles.
REPAIRS: Small repairs possible, no docking facilities.
POLICE/AMBULANCE/FIRE: Telephone 999 in emergency.
AUTHORITY: Shipping and Port Manager, British Rail. Tel. Heysham 52373.

HOLYHEAD: 53.19 N. 04.41 W.

DOCUMENTS:
1 Crew List and where applicable a Passenger List.
1 Pratique issued by Customs.
1 Crew Declaration (C.142 for HM Customs).
1 List of Consumable Stores (tobacco, snuff, alcohol).
1 Declaration of Health.
1 Cargo Manifest.
1 Ships Report.

PILOTAGE: Pilotage compulsory under Trinity House Authority. Local Pilot available on request.
ANCHORAGES – PROHIBITED ANCHORAGE: The breakwater affords partial shelter to the outer anchorage and complete protection to New Harbour; there are depths of from 19 to 42 ft. in the former and of from 17 to 40 ft. in the latter.

The accommodation for vessels of deep draught in New Harbour is limited. Small vessels should always proceed into New Harbour and anchor in the South-Western part, leaving the outer part and the roadstead for large vessels. The bottom is hard, overlaid with mud but the holding ground is sufficiently good if an adequate amount of cable is veered. During Easterly winds an uncomfortable sea is raised; vessels may then obtain shelter in the Eastern part of outer anchorage. Anchorage is prohibited within 1½ cables on either side of the track followed by Mail Steamers from the head of the breakwater to the entrance to Old Harbour; the limits of this area are shown on charts.
MAX. SIZE:
Inner Harbour is restricted to vessels of 15 ft. draft and vessels exceeding this draft will only be accepted after consultation with the Harbour Master.
Outer Harbour: Vessels of approximately 60,000 tons can be accepted alongside the Anglesey Aluminium Jetty where the berth is dredged to 46 ft. at MLWS.
TUGS: Available through Agents. Tugs up to 1,375 h.p.
RADIO: Holyhead Radio, VHF Channel 16. No Port Radar.
BERTHING: By prior arrangement with Harbour Master.
STEVEDORES: No stevedores. Vessels loaded and discharged by British Railways dock porters. Outside vessels berthing at Public Quay can be discharged and loaded by making prior arrangements with Agent.
MEDICAL: Medical Officer available. Stanley Sailors Hospital situated in close proximity to Harbour.
DENSITY: Salt water (1025).
FRESH WATER: Available at all berths within the Inner Harbour and alongside Anglesey Aluminium Jetty.
FUEL: Fuel oil and diesel oil available provided that adequate warning is given to Agent.
GANGWAY/DECK WATCHMEN: Required at all times when vessels are in port.
REPAIRS: Repairs can be carried out by the British Rail (SISD) workshops and there are two dry docks available:
No. 1 Dry dock: Length 412 ft., breadth 70¼ ft., depth on sill 20 ft. at spring tides.
No. 2 Dry dock: Length 307 ft., breadth 62¾ ft., depth on sill 14 ft at spring tides. (Spring Rise 16 ft., Neap Rise 12½ ft., neap range 8¼ ft.)
AIRPORT: RAF Station Valley, Anglesey (6 miles away).
HOLIDAYS: Saturdays, Sundays and all public holidays.
POLICE/AMBULANCE/FIRE: Tel. 999.
TELEPHONES: No telephone connection for outside vessels. Public telephone within port limits.
SERVICES: Compass adjusting can be arranged.
SHORE LEAVE: Allowed.
AUTHORITY: British Rail Shipping and International Services Division.

HULL: 53.44 N. 00.14 W.

DOCUMENTS:
1 Maritime Declaration of Health.
1 Crew's Effects List.
2 Ships Report by Master.
1 Home Office Form 1B6.
1 Stores List.
1 Certificate of Deck Cargo Tonnage.
1 Grain Certificate.
1 Light Certificate.
1 Port Dues Certificate.
1 Passenger List.
1 Landing card for each passenger.
Ships Certificate of Registry.
Mercantile Marine Office Certificate – for British Ships only.
Load Line Certificate.
Safety Equipment Certificate.
Lloyds Certificate.
De-rat Certificate.
Ships Register.
Light Bills.
Safety Radio Certificate.

In addition Manifests and Bills of Lading are usually sent to Agents direct from the loading Port.
PILOTAGE: A steam pilot cutter, having a black hull and buff funnel and with the word "Pilots" painted in large white letters on her sides, cruises in the neighbourhood of the Spurn Lightship. In bad weather conditions, the pilot cutter carries out her duties inside the river in the vicinity of the Bull Lightship or the No. 5 (Gate) light buoy.

Vessels bound to the Humber and requiring services of a Humber Pilot must give advance notice by signal through a GPO Coast Station to the Pilot Office, Hull, giving estimated time of arrival at Spurn, draft and destination preferably twelve hours in advance. Any adjustment to the time should be given at least two hours before arrival.

Vessels wishing to communicate with the Pilot Cutter by radiotelephone direct may:
(*a*) If within M.F. range (approximately 50 miles), call "Spurn Pilot" on 2182 kilocycles. As soon as contact has been established the Pilot Cutter will transfer to 2241, 2246 or 2301 or another licensed inter-ship frequency for passing messages; or
(*b*) If within VHF range (approximately 20 miles), call "Spurn Pilot" on VHF Channel 16 (156.80 megacycles) and then transfer to Channel 6 (156.30 megacycles) for passing messages.

ANCHORAGES: The undermentioned anchorages have been designated for the use of sea-going vessels. Masters are asked to co-operate by using these anchorages and to avoid anchoring in the Fairway or elsewhere.

Spurn anchorage should normally be used by inward-bound vessels and Bull anchorage by outward-bound vessels and vessels awaiting a berth.
Spurn Anchorage. From position "A" 121° distant 3·65 miles from Spurn Lighthouse, in a 125° direction 1·60 miles; thence in a 020° direction 0·60 mile; thence in a 077° direction 1·00 mile; thence in a 347° direction 0·70 mile; and thence in a direction 257° 2·40 miles to position "A".
Bull Anchorage. From Position A, 193° distance 2·1 miles from Spurn High Lighthouse, in a 090° direction 1·96 miles thence in a 294° direction 1·76 miles, thence in a 274° direction 0·93 miles, thence in a 206° direction 1·0 miles, thence in a 116° direction 0·88 miles, thence in a 026° direction 0·55 miles to Position A.

AIRPORT: Nearest is Leeds/Bradford, approx. 60 miles from docks.
RESTRICTIONS: Vessels may be accepted through the day and night, the only restrictions being influence of tides, together with the undermentioned physical limitations. Although vessels may occasionally be penned into or out of the docks outside the high water period it is more usual for them to be handled during the period immediately prior to and following high water.
MAX. SIZE: The maximum permissible dimensions for a general cargo/bulk carrier vessel (excluding tankers) requiring a berth in the enclosed docks are as follows: King George & Queen Elizabeth Docks, length 630 ft., beam 80 ft., draft 33 ft. 6 in.
HEALTH: Pratique granted by Customs Authorities after berthing. If vessel from non-infected area pratique given after Master declares all well on board. If from infected area pratique given after Port Health Authorities doctor has examined crew and given health clearance to Customs Officer. In case of suspected illness Master can send radio to Port Health Authority – telegraphic address "Portealth" Hull. Pratique is automatic when entering after calling at another port or ports in the U.K. and being granted pratique there, unless of course, illness has developed whilst on passage from previous U.K. port.
RADIO: Portishead Radio – call sign GKL but when within 200 miles of the Humber can go through Humber Radio – call sign GKZ.

Humber Ports Operation and Information Service operates a VHF (FM) radio telephone service available to all vessels navigating the River Humber, from the Humber Pilot Office Building, Queen Street, Hull.

A continuous watch is maintained on Channels 16 and 12. The call sign is "Hull Radio". The telephone number is Hull 0482–35599. Telegraphic address "Humerops".

The service provides information regarding the arrival, berthing, anchoring and departure of vessels and also information on navigational aids, navigation generally, visibility, and the safety of vessels and persons. Tidal information, including the height of tide at Bull Sand Fort in the Lower Humber, is also available on request. A general broadcast giving weather reports, tidal information and navigational warnings is made by the Humber Ports operation and Information Service on Channel 12 every 2 hours commencing at 0103 hours, prior notification being given on Channel 16.

VHF:

Saltend Jetties
Callsign, Saltend Radio
Continuous watch maintained
Channel 16, Calling and Safety
Channel 19, Berthing Instructions for Tankers.

King George Dock
Callsign, King George Dock Radio
Continuous watch maintained
Channel 16, Calling and Safety
Channel 20, Docking Instructions.

Alexandra Dock
Callsign, Alexandra Dock Radio
Operating 5 hours before HW Hull until 3 hours after HW Hull
Channel 16, Calling and Safety
Channel 5, Docking Instructions.

TUGS: Head boat normally joins vessel in vicinity of Saltend, about 2 miles from dock, and the other tug or tugs connect with vessel when approaching the dock. Where vessel supplies own ropes for towage these to be good stout hawsers. Wire ropes will not be accepted. There is a charge for use of tug's hawsers.

BULK HANDLING FACILITIES: Container terminal at Queen Elizabeth Dock equipped with 40-ton transporter crane.

Roll-on/roll-off container services operated from King George and Alexandra Docks. Grain Silo of 60,000 tons capacity.

STEVEDORES: Enable Agent order gangs important receive accurate ETA particularly when week-end work involved. Latest time to order gangs: Normal day work 0730 hrs. same morning. Saturday & Sunday 1100 hrs. Friday.

MEDICAL: Necessary for Agents to be advised of any urgent cases of illness in order that they can arrange for a doctor or if necessary an ambulance to be available immediately on berthing. Hospital facilities available.

If vessel required to remain in river awaiting berth arrangements can be made for any serious case to be taken from vessel by lifeboat and conveyed to Grimsby for immediate Hospital treatment.

TANKERS: The Oil terminal at Salt End handles refined or semi-refined chemical and petroleum products which are transferred from the vessel along the oil jetties through a series of chemical and service pipes which range from 4 in. for chemicals, 8 in. and 12 in. for spirit and 16 in. for fuel oils and molasses. Facilities available for the discharge of Slop residue.

There are 3 tanker berths at Salt End and maximum dimensions of vessels are length 670 ft., draft 34 ft.

DENSITY: 1013/1015.
FRESH WATER: King George & Queen Elizabeth Docks. Available at any time. Ex Quay. Rate of delivery – 15 tons per hour.

All other Docks. Available at any time. Ex Water Boat. Rate of delivery – 100 tons per hour.

If water required urgently after 1700 hours weekdays or on Saturdays or Sundays Agents must be notified in good time to enable them order men out.
FUEL: Fuel oil available, viscosity up to 3,500 secs. Redwood. Gas oil and diesel also available. At least 24 hours notice required.
FIRE PRECAUTIONS: Copy of Handbook "Emergency Arrangements" is handed to Masters of Tankers.
GANGWAY/DECK WATCHMEN: Watchmen available if required by Master.
OPENING/CLOSING HATCHES: Can be carried out by stevedores when ordered. Ship charged with actual cost, but ship's crew may do so if required.
CUSTOMS ALLOWANCES: Foreign trade – max. allowance ½ lb cigarettes or cigars or tobacco. Home Trade – (Elbe/Brest limits) half the above Wine and/or Spirits. Foreign Trade – 1 pint – opened. Home Trade – (Elbe/Brest limits) half the above allowance.
CARGO GEAR: When working with ship's gear a Register of Machinery, Chains and Wire Ropes, etc., with all Test Certificates and record of inspections to be produced to the Stevedore before work commences.

CONSULS:

1 copy Declaration of Goods obtained abroad or during a voyage, Form C.142. Supplied by H.M. Customs.
1 copy Cargo Manifest.
1 copy Dangerous cargo List.

PILOTAGE: Contact direct by R.T. on 2182 kc/s. or on VHF Channel 16 to Spurn Pilot at least 6 hours before arrival. Steam cutter with 'Pilots' painted on black hull. Cutter is usually in the vicinity of Spurn Light-vessel, but for vessel having a draft of 36 ft. and over the pilot boards at the Humber light-vessel by special arrangements between the Pilots and the Master. In bad weather contact either the pilot cutter direct or Humber or Hull Radio on VHF Channel 12, and they will advise location of pilot cutter. The usual international standards are required for the ladder, etc., for use for boarding. If vessel has to await Pilot, the pilot cutter will advise where vessel

is to anchor. Portable VHF units are available on request by the Master to the Pilots.
ANCHORAGES: Hawk and Sunk roads – Spurn and Bull anchorages. The pilot station will advise where to proceed to anchor and also provide Pilot. See "Hull".
RESTRICTIONS: No restrictions, vessels may enter the harbour day or night. Maximum draft for entering harbour 34 ft. H.W. Compulsory Pilots boarding Spurn Light-vessel, decide whether vessel shall proceed up river or anchor and await suitable state of tide.
MAX. SIZE: Tankers over 100,000 dwt., see "Tetney Terminal".
Immingham Dock max. length 650 ft., breadth 86 ft., draft 34 ft. 6 in.
National Coal Terminal, length no restriction, beam no restriction, draft average 30 ft.
HEALTH: Pratique obtained by Master from H.M. Customs Waterguard on arrival. Any suspected disease or fever must be reported by radio to Agent and Dock Master who will arrange for Port Health doctor on arrival. Pratique is granted on arrival if no contagious disease on bpard.
RADIO: Humber Radio – 2182 kc/s. or VHF Channel 16. Dock Master – VHF Channel 16. Tankers use Channel 19. Also see "Hull".
TUGS: Will join vessel off dock entrance, optional use of tow lines. If using tug's tow lines, charge for this service £3 to £6, depending on vessel's length.
BERTHING: Unless Master or Agent indicates preference, the Port Authorities will decide which side alongside. River Pilot deciding in conjunction with Dock Master most suitable berthing time for harbour and river installations.
STEVEDORES: Firm ETA to Agent required if possible before noon on previous day before arrival.
MEDICAL: No advance notice necessary for medical treatment as all hospital facilities available.
TANKERS: Also see "Tetney Terminal".
Immingham Oil Terminal. Length up to 1,200 ft., breadth, no restriction, draft depends on height of water in channel, average 43 ft. Three 12 in. lines for crude oil. Two lines 12 in and 10 in. all other products. One 8 in. line for bunkers.
Eastern Jetty. Length, no restriction, breadth, no restriction, draft depends on low water, average around 33 ft. 10 in., 8 in., 6 in. lines, depends on Receivers. Bunker line available.
Western Jetty. Length, no restriction, breadth, no restriction, draft depends on low water, average around 31 ft.
Killingholme North. Length 580 ft. max., beam, no restriction, draft 30 ft. 6 in. One 8 in. line. One 4 in. bunker line.
Killingholme South. Length 565 ft. max., beam, no restriction, draft 31 ft. One 8 in. line. Bunker line available. No slop tanks available
DENSITY: In harbour 1019.
FRESH WATER: Available all berths by hose. Rate of delivery 20 tons per hour.
FUEL: 24 hours notice required. All grades available.
FIRE PRECAUTIONS: Copy of these regulations handed to the Master on arrival.
GANGWAY/DECK WATCHMEN: Watchmen not usually employed, but left to the discretion of the Master.
OPENING/CLOSING HATCHES: Normally carried out by stevedores.
CERTIFICATES:
Ship's Register.
Load Line.
Safety Radio.
Safety Equipment.
Safety Construction and any British Light Dues Receipts.
Derat Certificate.
CUSTOMS ALLOWANCES: 8 days – 200 cigarettes per person approx. Wine/spirits, 4 days – ¼ pt. per day; this depends on the Customs Officer's discretion.
CARGO GEAR: This must comply with the Department of Employment and Productivity regulations. Normally discharge carried out by shore cranes, although overside berths available.
IDENTIFICATION CARDS: Seaman's book or passport sufficient for crew members going ashore.
CONSULS:
Finland – Immingham 2387 Norway – Immingham 2387
Greece – Immingham 2166 Sweden – Immingham 2387
REPAIRS: All major repairs possible.
DRY DOCKS: 1. Length 740 ft., width at entrance 56 ft.
2. Length 600 ft., width at entrance 90 ft.
REPATRIATION: All facilities exist for dealing with crews and passengers.
AIRPORTS: Leeds/Bradford. Manchester/Ringway. Daily flights to London for international connections.
TIME: GMT. Summertime, GMT plus 1 hour.
HOLIDAYS: Good Friday, Christmas Day, Boxing Day are regarded as closed holidays. All other holidays work will be carried out.
POLICE/AMBULANCE/FIRE: Police; Docks – Immingham 3441, 2068, 2067; County – Immingham 2222. Ambulance; Docks – Immingham 3441; County – Cleethorpes 62912. Fire; 999 ask for Fire.
TELEPHONES: Arrangements for ship's telephone on most quays. Jetty's have public and company telephones available.
AUTHORITY: British Transport Docks Board.

AGENT: Cory Brothers Shipping Limited, Immingham Dock, Grimsby, Lincs. Tel: 04692-2341/3. Telex: 52309. Cables: "Coryton Imminghamdock," "Coryship Imminghamdock."

INVERGORDON: 57.41 N. 04.10 W.

DOCUMENTS: *At Boarding on arrival:*
1 copy Maritime Health Declaration and De-ratization Exemption.
Lists C.142 – Crew's declaration of dutiable and prohibited goods obtained abroad or during the voyage.
Form I.B.6 – List of members of the crew who are aliens or who were engaged outside the United Kingdom.
List 142.A – Parcels list – small packages of merchandise and addressed packages not borne on the ship's report.
List of ship's surplus stores and live animals on board.
Account of cargo in unregistered spaces (deck cargo) if arriving from a port outside Home Trade limits.
At Customs House when making report:
Form XS1.3 (in duplicate) – Master's report inwards. (A third copy is required if the vessel is carrying cargo for another United Kingdom port or for export.)
Surveys 107 – grain-laden ships only.
Surveys 104 – if carrying deck cargo from outside Home Trade limits.
Forms PR.4, PR.8 or PR.10 – passenger returns in duplicate (one copy for Customs one copy for Immigration). Vessels with passengers only.
Certificate of Registry.
Certificate of British Tonnage.
Light Dues Certificate relating to the vessel.
Certificate of Pratique; Form C.101 – these forms are issued by the Customs Officer who first boards the ship.
To the Agent:
Bills of lading.
Cargo Manifests.
PILOTAGE: Pilotage compulsory except when under 300 tons gross. Cruising station of pilot boat is the Cromarty Lighthouse where Pilot will board. Pilot boat painted black hull, buff upper structure.
Approaching vessels may give their ETA to pilot station via VHF Channel 16, when in the vicinity of 30 miles, but a 24-hour notice will be required. In the event of bad weather, vessels will be guided by pilot launch to safety where Pilot will board.
ANCHORAGES: In vicinity of Cromarty Bank Buoy and Cromarty Ness Light.
RESTRICTIONS: Vessels may enter between the hours 0600 and 2200 hours when Pilot will be available.
MAX. SIZE: Maximum permissible length 800 ft., draught 35 ft.
HEALTH: International quarantine signals to be used. Advise PORTELTH DINGWALL in advance if any suspected diseases on board.
RADIO: Vessels approaching from North should pass their ETA cable via Wick Radio GKR 431, and vessels approaching from East via Stonehaven Radio GND 458 to their Agents.
TUGS: Tugs are not stationed at port. For vessels 20,000 tons dead weight and over, use of a tug is compulsory, advance notice required. Use of ship's lines or tug lines optional. No separate charge.
STEVEDORES: None. Local labour employed.
MEDICAL: Medical cases can be dealt with at short notice through local Agent. Hospital facilities available.
DENSITY: 1022.
FRESH WATER: Obtainable alongside quay. Rate of delivery. 50 tons per hour, each hydrant.
FUEL: This can be ordered through local Agent, delivery by road tanker, small quantities, notice required.
GANGWAY/DECK WATCHMEN: Gangways supplied free of charge with vessel responsible while on board. Watchmen supplied by ship's personnel.
OPENING/CLOSING HATCHES: Normally carried out by crew.
CERTIFICATES: The following Certificates are required to be held on board for production when required:
International Load Line Certificate.
Safety Construction Certificate.
Safety Equipment Certificate.
Safety Radio Certificate.
CUSTOMS ALLOWANCE: Following quantities are generally left out for use on board by each member of the crew:
Ships arriving from foreign ports within Home Trade limits: Tobacco 125 gms. (4 oz. or 100 cigarettes). Spirits 0·185 litre (¼ bottle), wine 0·375 litre (½ bottle).
All other ships from foreign: Tobacco 250 gms. (8 oz. or 200 cigarettes). Spirits 0·375 litre (½ bottle), wine 0·75 litre (1 bottle).
IDENTIFICATION CARDS: Not required.
REPAIRS: None, small repairs carried out, advance notice required.
REPATRIATION: Can be arranged.
AIRPORT: Dalcross Airport, operated by BEA, distance from Invergordon 45 miles.
TIME: British Summer Time, 1 hour advanced on GMT. GMT in winter months.
HOLIDAYS: 1st and 2nd January; 2nd Monday April; Last Monday July; 1st Monday October; Christmas Day.
POLICE/AMBULANCE/FIRE: Police, tel. Invergordon 222 or dial 999; Ambulance, arrangements through local doctor, tel. Invergordon 522; Fire Station, dial 999 and ask for their service.
TELEPHONES: H.M. ships only.
SHORE LEAVE: Allowed.
AUTHORITY: Ministry of Defence (Naval)Bath. Admiralty Harbour Master, Invergordon.

INVERNESS: 57.29 N. 04.14 W.

DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
Customs and Excise and Health Documents.
Manifest.
Bills of Lading, etc.
PILOTAGE: Apply direct to Agent or to Pilot, telephone Kessock 217. ETA 24 hours. Pilot equipped with VHF. Pilot cutter blue launch with letter P. Pilot station Munlochy Buoy. Location of anchorage while awaiting Pilot – Munlochy Buoy.
ANCHORAGES: Munlochy Buoy in 5/8 fathoms. Beauly Basin in 15 fathoms. Munlochy Bay in 5 fathoms.
RESTRICTIONS: 24 hours entry at high water.
MAX. SIZE: Ship maximum 280 ft. length, 20 ft. draft, high water springs. 17 ft. draft high water neaps.
HEALTH: Pratique as per U.K. procedure.
RADIO: Wick Radio
TUGS: None.
STEVEDORES: Arrange through Agent. 24 hours notice required.
MEDICAL: Doctor available.
DENSITY: 1012.
FRESH WATER: Available on demand, 20 tons per hour, ex hose on quay.
FUEL: Marine diesel and petroleum on request.
GANGWAY/DECK WATCHMEN: Supplied by ship.
OPENING/CLOSING HATCHES: Done by crew.
CUSTOMS ALLOWANCES: Tobacco/Wines/Spirits. Usual amount allowed by Customs and Excise.
IDENTIFICATION CARDS: None.
CONSULS: Netherlands, tel. Inverness 31171.
REPAIRS: Possible.
REPATRIATION: Facilities available.
AIRPORT: Dalcross, 7 miles from Inverness.
HOLIDAYS: 1st and 2nd January; Easter Monday; July Bank holiday; First Monday in October; and Christmas Day. All official holidays, cargo work can be arranged on these days.
POLICE/AMBULANCE/FIRE: Police Inverness 36111; Fire Brigade Inverness 34633; Ambulance Inverness 31511.
TELEPHONES: On Quay.
SHORE LEAVE: Unrestricted.
AUTHORITY: Inverness Harbour Trust, Harbour Master, Harbour Office, Shore Street, Inverness. Tel. 33291.

IPSWICH: 52.02 N. 01.10 E.

DOCUMENTS: Masters can conclude all documentation in port. Ship's Agent will give the necessary advice.
PILOTAGE: Normal International signals for "I require Pilot", VHF Channel 16 call, Channel 9 talk. 30 ft. launch painted black, with word "Pilot" in white on side, available at Sunk and Cork Light Vessels or Harwich Harbour. Desirable that Agents are advised of vessel's ETA at least two hours prior to vessel's arrival at Harwich Roads or, in the Master's option, at either the Sunk or Cork Pilot Stations.
ANCHORAGES: No anchorages within port. All vessels will proceed direct to berth, otherwise anchorage provided in Harwich Harbour.
RESTRICTIONS: Vessels up to 1,500 GRT taken up at night, draught not exceeding 16 ft. Maximum length of vessel 460 ft. Maximum draught 25 ft. 6 in. Large vessels navigate on flood tide only.
MAX. SIZE: 460 ft. overall length and 25 ft. 6 in. draft.
HEALTH: International signals. Master to contact ship's Agent when disease or fever is suspected on board. Pratique automatic for vessels calling at another port in the U.K.
RADIO: Masters to contact ship's Agent through North Foreland, Humber, Niton or Portishead depending on position of vessel. All these radio stations hold cable addresses and staff telephone numbers of Agents.
A 24 hour VHF radio facility has been established. Vessels arriving should contact "Ipswich Port Radio" on VHF Channel 16 on entering the River Orwell and report and/or maintain a listening watch as instructed. Channels 14 and 12 will be used for the passing of messages which should be restricted to the safety of navigation or persons.
TUGS: Tugs available in Harwich Roads and it is customary for tugs' lines to be used, for which there is, of course, an additional charge on the towage. It is advisable for vessels to give 4/6 hours' notice of arrival at Harwich Roads.
BERTHING: Vessels bound for berths in the Wet Dock should arrive off the lock two hours before high water.
STEVEDORES: Ship's Master normally advises his Agent of his ETA, disposal of cargo on board, and all relevant details. The Agent passes this information to Stevedores.
MEDICAL: All medical facilities available in port. Vessels requiring medical assistance on arrival should advise all details by radio telephone or on their ETA cables.
TANKERS: It is desirable that when Master of a tanker gives an ETA he also indicates the size of pipe-line, size of connection and discharging point in order that necessary arrangements can be made at discharging point of receiving oil terminal. There are no slop facilities at port of Ipswich, and all cleaning and gas-free operations must be carried out outside precincts of the Harwich Harbour Conservancy Board. Only one tanker berth at Ipswich but there are six intake points on quay and it is usual for four coastal tankers to be accommodated, depending on the overall length and berth availability. A maximum draft on the berth of 25 ft. 6 in.
DENSITY: Approx. 1020 oz. depending on the amount of fresh water in river due to heavy rain.
FRESH WATER: Available at all quays. Delivery by hose through meter at 10 tph.
FUEL:
Gas oil 35 secs. Redwood.
Light fuel oil 200 secs. Redwood.
Medium fuel oil heated 950 secs. Redwood.
Heavy fuel oil heated 3,500 secs. Redwood.
At least 24 hours' notice required.
DEVELOPMENTS: The following berths are under construction on the West Bank of the River Orwell:
(i) Break bulk general cargo berth 400 ft. in length dredged to 20 ft. alongside and backed by 3 acres of land including a transit shed with a floor area of 30,000 sq. ft.
(ii) Open berth of 400 ft. with roll-on/roll-off ramp and dredged to 20 ft. alongside, backed by 8 acres of hardstanding with the necessary Customs examination and administrative buildings.
GANGWAY/DECK WATCHMEN: No watchmen required by Port Authority, but sufficient men available at all times to move vessels, if necessary.
OPENING/CLOSING HATCHES: Hatches opened by ship's crew.
CERTIFICATES: Following certificates are required by Agents in order to arrange Customs clearance:
Ship's Register.
Radio Certificate.
Load Line Certificate.
Safety Equipment Certificate.
Derat Certificate.
British Tonnage Certificate, if required.
CUSTOMS ALLOWANCE: Tobacco, 200 cigarettes, or equivalent in tobacco, per man. Wine and/or Spirits, One bottle per man.
CARGO GEAR: Cargo working gear is supplied by stevedores. Normally, quayside cranes are used for discharging and loading. In event of cargo gear being used in port, ship's gear certificate, duly certifying that all gear has been examined and is in every way workable and suitable for discharge and/or loading of cargo, is to be produced.
IDENTIFICATION CARDS: Not required as long as each crew member has in his possession a seaman's book and/or passport.
CONSULS: Vice-Consul for Sweden and Vice-Consul for Norway. Tel. 59281.
REPAIRS: Only small repairs on board.
REPATRIATION: Facilities exist at port for effecting crew changing and arranging repatriation.
AIRPORT: A non-customed airport.
HOLIDAYS: Normal holidays for English ports.
TIME: GMT in winter months. Summer time, GMT plus one hour.
POLICE/AMBULANCE/FIRE: In emergency dial 999. Otherwise, Police – Ipswich 55811; Ambulance – Ipswich 56407; Fire – Ipswich 75345.
SHORE LEAVE: Yes, allowed.
AUTHORITY: Ipswich Dock Commission, Old Custom House, Key Street, Ipswich, Suffolk. Tel. Ipswich 56011.
AGENT: Cory Brothers Shipping Ltd., Powell Duffryn House, Cliff Quay, Ipswich, Suffolk. Cables: "Cory Ipswich". Telex: 98147. Tel: Ipswich 59285.

ISLE OF GRAIN: 51.26 N. 00.43 E.

DOCUMENTS:
1 Maritime Declaration of Health.
1 Crew's Effects List.
2 Ships Report by Master.
1 Home Office Form 1.B.6.
1 Stores List.
1 Port Dues Certificate.
Ship's Certificate of Registry.
Mercantile Marine Office Certificate – for British Ships only.
Load-line Certificate.
Safety Equipment Certificate.
Lloyds Certificate.
De-rat Certificate.
Ship's Register.
Light Bills.
Safety Radio Certificate.
Safety Construction Certificate.
PILOTAGE: See "Medway".
VLCC vessels enter and leave by North Channel. Special pilotage and entry arrangements apply.
ANCHORAGES: Vessels proceeding to Isle of Grain must contact Medway Ports Operations Centre (VHF Channels 16 and 14) when a designated anchorage will be allocated appropriate to the size of vessel.
RESTRICTIONS: Tidal port. 24 hour movements (except for vessels over 130,000 dwt. daylight only at present), subject to tidal conditions and under-keel clearance appropriate to size of vessel. Minimum depth of approach channel 28 ft. L W. at present
MAX. SIZE: Largest size of vessel accepted to date, 230,000 dwt. part loaded.
HEALTH: Foreign arrivals to complete Maritime Declaration of Health. They are cleared immediately on arrival by either a port

doctor or an officer of H.M. Customs depending on where the ship comes from and whether there is sickness on board.

Vessels arriving from ports within accepted area (N. European ports) and coastal arrivals need not present Declaration. In all cases when there is sickness on board the Port Health Authority must be informed preferably not more than 12 hours and not less than 4 hours before arrival.

RADAR/VHF: See "Medway".

RADIO:

Notice of 72 hours and over – Portishead Radio.
Notice of 12–72 hours – Landsend Radio.
Notice up to 12 hours – from South, Northforeland Radio. from North, Humber Radio.

TUGS: Six tugs available. Three of them equipped for fire-fighting. Tugs join and leave vessels at Garrison Point, Sheerness. Normally use tug lines, cost included in tug hire.

BERTHING: There are eight main jetties, 1 to 8, and three coaster jetties viz. No. 1 Barge (No. 1 coaster incorporating No. 2 Barge) and No. 9 lub. oil jetty.

The distance between the centre of jetties is as follows: Jetties Nos. 1–7, 815 ft. Between Nos. 7 and 8 jetties, 1,200 ft.

There is strictly no maximum length for any vessel using a B.P. jetty berth, being dependent upon length of vessel on adjacent jetties.

Large crude and black oil ships usually use North-east and jetties i.e., 4, 5, 6, 7, 8. Very large ships (super-tankers) generally moor to No. 8 jetty on the first of ebb tide.

Refinery stocks all sizes of connections and reducing pieces, etc. Slop facilities available at all main-line jetties.

DENSITY: Approx. 1019.

FRESH WATER: Available all jetties by pipeline.

FUEL: All grades available on all jetties. Advance notice advisable.

MEDICAL: Advance notice of medical attention and inoculations required is advisable. Hospital facilities available in surrounding areas.

FIRE PRECAUTIONS: No immobilisation or repairs allowed without prior authorisation. No hot-work allowed alongside jetties. Standard B.P. terminal regulations apply.

GANGWAY/DECK WATCHMEN: Services of shore watchmen not necessary. Vessels' own gangway used.

REPAIRS: Local marine repair company can undertake repairs of general nature. No drilling or hot-work permitted alongside jetties.

REPATRIATION: All facilities for repatriation by land, sea and air, through London and Dover. Attendance of British Ministry and Foreign Consulate officials arranged through Agent.

POLICE/AMBULANCE/FIRE: Dial following extensions on refinery internal system: Police 221; Ambulance and Fire 222. Medway Ports Operations Centre can be alerted on Channels 16 and 14 to call these services.

TELEPHONES: Telephones (coin box) placed on board at Master's request. No charge for connection.

GENERAL: Agents have difficulty in providing most services at week-ends, therefore, requests for Bond, cash, consular officials, etc., should be radioed as soon as possible.

CUSTOMS ALLOWANCES: At the discretion of Local Customs Inspector. Normal allowances are equivalent of ½ lb tobacco per man and equivalent of 1 bottle of wine per man. Allowances may be halved for home trade vessels. Vessels in port more than three or four days may receive extra allowances.

TIME: British Standard Time is GMT plus 1 hour. GMT in winter months.

AGENT: William Hurst Limited, Foreshore Marine Offices, B.P. Refinery (Kent) Limited, Isle of Grain, Nr. Rochester, Kent. Tel. 0634–29 235. Telex 96187 Hurst Grain.

KING'S LYNN: 52·53 N. 00·15 E.

DOCUMENTS:

Pilot Note to be filled in and signed by the Master on completion of pilotage services both inwards and outwards.

Cargo tonnage return to be completed by the ship's Agent.

PILOTAGE: Pilotage is compulsory between an East-to-West line through Bar Flat Buoy in the Wash and the Freebridge at King's Lynn.

Vessels may be boarded and unboarded by pilot cutter in the Wash from approximately 2½ hours before high water between Daseley Sled, the Sunk Buoy and Roaring Middle Light Float. Unless prevented by weather or breakdown a pilot cutter cruises between King's Lynn No. 1 Light Buoy and the Sunk Light Buoy approximately 2½ hours before high water until such time as it is too late for a vessel to transit the Approach Channel on that tide.

Requests for a Pilot sent at least 24 hours before the service is required (with amendments if necessary up to 12 hours before) to the Pilot Office, Common Staith, King's Lynn (tel. King's Lynn 3411, telegrams "Conservator" King's Lynn) or through local Agent. The Pilot Office is at the Harbour Office and maintains VHF R/T watch on Channels 16 and 12 from 0900 to 1700 hours Monday to Friday and from 4 hours before high water until 1 hour after high water on each tide after 1700 and before 0900 hours. The Pilot Cutter listens on Channel 16 when on station and is fitted with Channels 14, 12, 11 and 6 as working channels.

No. 1 Pilot Cutter *Gore Point* is a 50-ft. steel craft with a blue hull and white superstructure. No. 2 Pilot Cutter *Valnic* is a 50-ft. wooden craft with black hull and a buff superstructure. In the event of bad weather the pilot cutter on duty will fore-run vessels into Daseley Sled (52° 53″ N. 0° 21″ 5′ S.) before boarding Pilots.

Requests for pilots for ships in port, should be made to the Pilot Office at least 2 hours before the Pilot is required to attend the ship. The signals to be used or displayed where the services of a pilot are required are in accordance with the provisions of the Merchant Shipping (Pilot Signals) Order, 1970. Pilots are boarded and unboarded directly to and from the Pilot Cutter as conditions allow.

ANCHORAGE: In the Wash vessels anchor within an area bounded by the Roaring Middle Light Float and the King's Lynn No. 1 Light Buoy and the Sunk Light Buoy. Anchoring close to No. 1 buoy in sufficient depth of water assists early boarding of Pilots. Depths of water minimum of 20 ft.

RESTRICTIONS: King's Lynn Harbour is situated on the River Great Ouse about 2 miles inland from its mouth, at the South-East corner of the Wash.

The shipping channel in the approaches to King's Lynn and its approaches in the Wash is subject to changes in depth and direction as published on Admiralty Charts.

Harbour Master will advise in advance upon the suitability of vessels and tides. To navigate the approach channel with sufficient under-keel clearance over shoal areas, the vessel's max. draft plus 6 ft. should not exceed the height of the tide above dock sill.

All ship movements are at high water, times in accordance with a position list maintained at the Harbour Office on the basis of information supplied in advance from Masters of vessels and their Agents.

At the Docks entrance lock docking signals are exhibited from a signal mast. Gale warnings are exhibited from a signal mast on Common Staith.

MAX. SIZE: Max. dimension for vessels entering the Harbour: length 260 ft., beam 45 ft., draft 11 ft., on lowest neap tides, and 17 ft. on highest spring tides. Access over high tide only. Harbour Master to be consulted for vessels approaching these limits.

RADIO: The King's Lynn Conservancy Board operates in the River Great Ouse and its approaches in the Wash a VHF (FM) port operations and information radio-telephone service in the International Maritime Band, call signs: "King's Lynn Harbour Radio" (Channels 16, 12 and 11); "King's Lynn Pilots" (Channels 16, 14, 12, 11 and 6).

British Transport Docks Board operates a docks operations and information service, call sign: "King's Lynn Docks Radio (Channels 16, 14 and 11).

TUGS: Controlled by King's Lynn Conservancy Board and in attendance at the discretion of the Board's Harbour Master. Vessels joined in the Wash Approaches and/or lower reach of River Great Ouse (Marsh Cut). Vessels should provide own hawsers. If ordered, tug hawser available at £2 plus cost of damage in excess of normal wear and tear.

Harbour Master may require any vessel to use and employ a tugboat.

BERTHING:

Alexandra Dock: Size 780 ft.×440 ft. Approached from the River Great Ouse and Kings Lynn Harbour by a lock 50 ft. wide and 200 ft. between gates. The depth of water on sill is 22 ft. to 26 ft. (springs) and 18 ft. (neaps).

Bentinck Dock: Size 1,000 ft.×400 ft. Connected with the Alexandra Dock by a passage and gates over which pass two swing bridges. Double-sided jetty 235 ft. long.

The quays of the two docks have a water frontage of approximately one mile and provide a total of 18 berths.

STEVEDORES: Gangs usually can be provided at minimum notice. Main commodities and handling rates: timber (60 tons pre-pack, pre-slung, per gang-hour), steel rods (70 tons per gang-hour), tinplate (90 tons per gang-hour), coal (75 tons per gang-hour), also roll-on/roll-off and container handling.

TANKERS: Four tanker berths in enclosed docks. Discharge from vessels is to 6-in. connecting pipes feeding 8-in. pipes to storage tanks.

MEDICAL: It is advisable to give advance notice of required medical attendance via Agent. In emergency the Harbour Office will pass on requests received over the VHF R/T Port Operations and Information Service. For other medical information, refer to the Port Medical Officer of Health and H.M. Customs.

FUEL: Available at berths alongside King's Lynn Harbour on 24 hours previous notice. Light-grade fuel oil, gas oil, petrol and paraffin only.

FRESH WATER: Available on all berths through 4-in. pipes off hydrants from public supply.

OPENING/CLOSING HATCHES: Done by crew. Cranes available for heavy beams.

GANGWAY/DECK WATCHMEN: Vessels responsible for providing own gangways at King's Lynn Harbour berths, where the Regulations require the Master or other person having the care of any ship or other craft to have a proper number of hands on board to attend moorings and to comply with all the requirements and directions of the Harbour Master or his Deputy or Assistants.

CONSULS: Vice-Consul for the Netherlands and German F.R. Vice-Consul for Sweden and Denmark.

REPAIRS: Limited facilities only available locally for hull and engine repairs.

AIRPORT: Charter flights from Cambridge and Norwich airports about 45 miles from King's Lynn. Regular flights from London (Heathrow) about 100 miles from King's Lynn.

POLICE/AMBULANCE/FIRE: In emergency dial 999 and ask for the service required. Normal service: Police – King's Lynn 61311; Ambulance – King's Lynn 3503 or 3910; Fire Service – King's Lynn 5163.

HOLIDAYS: Cargo work usually available at overtime rates on Saturday and Sundays and on all public holidays.

AUTHORITY: The King's Lynn Conservancy Board, Harbour

Office, Common Staith, King's Lynn, Norfolk. Tel. King's Lynn 3411 and 3412. Cables: "Conservator" King's Lynn.

KINGSNORTH: 51.25 N. 00.36 E.

DOCUMENTS: See "London".
PILOTAGE: See "Medway."
ANCHORAGES: Vessels proceeding to Kingsnorth must contact Medway Ports Operations Centre (VHF Channels 16 and 14) when a designated anchorage will be allocated appropriate to the size of the vessel.
RESTRICTIONS: Tidal port. 24 hour movements, subject to tidal conditions and under keel clearance appropriate to size of vessel. Minimum depth of approach channel 28 ft. LW at present.
MAX. SIZE: Max. lengths: 750 ft. No breadth restriction. Draft: 38 ft. alongside jetty.
RADIO: Notice of 72 hours and over, Portishead Radio. Notice of 12–72 hours, Landsend Radio. Notice of up to 12 hours, from South Northforeland Radio, and from North, Humber Radio.
RADAR/VHF: See "Medway".
TUGS: Six tugs available. Three of them equipped for fire fighting. Tugs join and leave vessels at Garrison Point, Sheerness. Normally use tug lines, cost included in tug hire.
BERTHING: *Oakhamness Jetty:* One tanker berth situated at the end of a 1-mile long jetty with T-head cargo handling platform. Vessels moor alongside dolphins abreast of cargo handling platform which is equipped with Chicksan rigid loading/discharge arms each of 12-in. diameter. Depth alongside berth is 44 ft. below chart datum.
MEDICAL: Advance notice of medical attention and inoculations required is advisable. Hospital facilities available in surrounding areas.
TANKERS: Advisable radio Agents connection sizes required. No slop tank available. One large tanker berth only.
DENSITY: Approx. 1018.
FRESH WATER: Available by pipe-line on jetty.
FUEL: Bunkers not usually available on jetty, but may be delivered by barge. Advance notice essential.
FIRE PRECAUTIONS: No immobilisation or repairs allowed without prior authorisation. No hot-work allowed alongside jetty.
GANGWAY/DECK WATCHMEN: Services of shore watchmen not necessary. Shore gangway may be used.
REPAIRS: Local marine repair company can undertake repairs of general nature. No drilling or hot-work permitted alongside jetty.
REPATRIATION: All facilities for repatriation by land, sea and air, through London and Dover. Attendance of British Ministry and Foreign Consulate officials arranged through Agent.
POLICE/AMBULANCE/FIRE: Dial 999 from public call box. Medway Ports Operations Centre can be alerted on Channel 16 and 14 to call these services.
TELEPHONES: No facilities exist for placing telephones onboard.
GENERAL: Agents have difficulty in providing most services at week-ends, therefore, requests for bond, cash, consular officials, etc., should be radioed as soon as possible.

AGENT: William Hurst Limited, Foreshore Marine Offices, BP Refinery (Kent) Limited, Isle of Grain, Nr. Rochester, Kent. Telephone No. 0634–29 235. Telex No. 96187 Hurst Grain.

LARNE, Co. Antrim, Northern Ireland: 54.51 N. 05.48 W.

DOCUMENTS: See "Belfast".
PILOTAGE: Not compulsory, though private pilots operate who are engaged by ship's Agent. Pilots board off Fairway Buoy. Port VHF. Channels 16 and 14.
ANCHORAGES: Inner anchorage in Larne depth up to 5 fathoms. Anchorage outside Fairway Buoy exposed in N.E. winds.
MAX. SIZE: Draught dependent on berth but maximum 19 ft. at MLWS, and 20 ft. at MLWN. Oil tankers proceed to Ballylumford Power Station which lies across Larne Lough directly opposite Larne Harbour. Approach channel has depth of 30 ft. at MLWS and berth has 35 ft. at MLWS.
HEALTH: See "Belfast".
RADIO: Portpatrick.
TUGS: Not based at Larne, only heavy-duty motor launches, suitable for small vessels. As a rule tugs are not required for vessels using Larne Harbour.
BERTHING: Two berths are equipped with two 5-ton cranes for grabbing and general cargo work. Five berths are equipped with cranes from 25 to 35-ton capacity for handling containers. Three berths are equipped with roll-on/roll-off ramps, capable of taking loads up to 160 tons and ships up to 70 ft. beam.
STEVEDORES: Larne Harbour Ltd. carry out all the stevedoring. Twenty-four hours notice required for arrangements.
MEDICAL: No advance notice required for medical attention, a hospital being situated ¾ mile from harbour. No special inoculations or certificates required.
TANKERS: One tanker berth in Larne Harbour. Depth alongside, 14 ft. below datum. Maximum length of vessel 260 ft. Pipe diameter 6 in. Discharging only. For Ballylumford, see Max. Size.
DENSITY: 1025.
FRESH WATER: Unlimited by shore hose. Rate 7 to 10 tons per hour.
FUEL: Fueling carried out by road tanker. Arrangements to be made through ship's Agent.
GANGWAY/DECK WATCHMEN: Agents arrange watchmen.
OPENING/CLOSING HATCHES: Performed by crew.
CUSTOMS ALLOWANCES: Agents arrange with Customs.
IDENTIFICATION CARDS: Not required.
CONSULS: Norwegian Vice-Consul (C. S. Brown, F.I.C.S.) – Larne 2227. Other consuls in Belfast can be contacted through ship's Agent.
REPAIRS: Limited repairs by local firms. Major repairs by Belfast firms.
REPATRIATION: Yes.
AIRPORT: Twenty miles. Regular flights.
HOLIDAYS: 12th and 13th July, Easter Monday and Tuesday, Christmas Day and Boxing Day. No cargo worked on these days.
POLICE/FIRE/AMBULANCE: Dial 999 and ask for Emergency service required.
TELEPHONES: Only on Cross Channel vessels.
AUTHORITY: Larne Harbour Ltd., Larne Co. Antrim, N. Ireland. Tel. Larne 2604, 3110.

LEITH: 55.59 N. 03.10 W.

DOCUMENTS:
Health Declaration.
1 Crew Declaration Form C.142 (Tobacco List).
1 Crew List.
1 Passenger List.
(Also see "Glasgow".)
PILOTAGE: Pilot station in Firth of Forth located at Inchkeith Island. Contact can be made with pilot cutters "Panther" and "Gazelle" on VHF Channels 16/14/12 and radio-telephone 2182. Pilot cutters – black hull with white superstructure.
ANCHORAGES: Good holding ground at Inchkeith Island and Leith roadstead depths 10–17 fathoms.
RESTRICTIONS: None. Vessels can enter harbour day or night.
MAX. SIZE: Governed by draft of vessels. Maximum permissible draft alongside in Imperial Dock 30 ft. and in Western Harbour 32 ft.
HEALTH: Vessel boarded immediately alongside berth and pratique granted provided no contagious diseases reported on board, otherwise quarantine restrictions imposed.

Foreign arrivals to complete Maritime Declaration of Health. They are cleared immediately on arrival by either a port doctor or an officer of H.M. Customs, depending on where the ship comes from and whether there is sickness on board.

Vessels arriving from ports within accepted area (N. European ports) and coastal arrivals need not present Declaration. In all cases when there is sickness on board the Port Health Authority must be informed preferably not more than 12 hours and not less than 4 hours before arrival.
RADIO: Stonehaven and Cullercoats Radio Stations.
TUGS: Attend inward-bound vessels in Leith roads. Tug's towline available but not compulsory.
BERTHING: Vessels arriving on maximum permissible drafts of 30 and 32 ft. normally docked by Pilots 1½ hours before high water.
STEVEDORES: ETA advices given by Master to ship's Agent and conveyed by them to stevedores.
RADAR/VHF: No port radar service. VHF contact can be made with Leith Harbour Radio on Channels 16 and 12.
MEDICAL: No advance notice of medical attention required. All hospital facilities available.
TANKERS: One tanker berth available – maximum permissible draft 30–31 ft. Discharge lines 6 in. and 8 in. No slop discharge facilities.
DENSITY: 1015.
FRESH WATER: Available alongside at all berths.
FUEL: All grades available subject 24 hours notice in advance.
DEVELOPMENTS: None envisaged at present.
GANGWAY/DECK WATCHMEN: Usually supplied by ship but shore watchmen arrangeable by special agreement.
OPENING/CLOSING HATCHES: Custom of the port is that this work is normally carried out by ship's crew.
CERTIFICATES:
Ship's Register.
Load-line.
Safety Radio.
Safety Equipment.
Cargo Construction.
De-Ratisation Certificates.
Light Dues receipt.
CUSTOMS ALLOWANCES: Two hundred cigarettes in an opened carton or ½ lb cigars or ½ lb tobacco and one pint spirits.
CARGO GEAR: No additional requirements necessary to comply fully with local safety regulations as all gear supplied by stevedores.
IDENTIFICATION CARDS: Not required.
CONSULS:
U.S.A.: 3 Regent Terrace, Edinburgh. Tel. 031–556–2061.
West Germany: 16 Eglinton Crescent, Edinburgh. Tel. 031–337–2323.
Netherlands: 64 Commercial Street,. Leith. Tel. 031–554–1621.
Spain: 100 Constitution Street, Leith. Tel. 031–554–5641.
Finland: 29 Bernard Street, Leith. Tel. 031–554–4311.
Greece: 7 Regent Terrace, Edinburgh. Tel. 031–556–1701.
REPAIRS: Facilities available to carry out all types of deck and engine repairs.

DRY DOCKS: Largest dry dock "Imperial", length 550 ft., width of entrance 70 ft., depth over blocks at MHWS 23 ft. 9 in. also three smaller dry docks.
REPATRIATION: All facilities available for effecting crew changes and repatriation by sea, air and rail.
AIRPORT: Edinburgh Airport served by regular airlines and located approximately 9 miles from Leith.
TIME: British Standard Time, GMT plus 1 hour. GMT in winter months.
HOLIDAYS: Public holidays observed annually: third Monday in April; first Monday in June; third Monday in September; Christmas Day (25th December); 1st and 2nd January. Cargo work can be arranged on all public holidays except 1st and 2nd January.
POLICE/AMBULANCE/FIRE: Tel. 999 and ask for service required.
TELEPHONES: No facilities available for placing telephones on board vessels.
SERVICES: Compass adjusting facilities available.
SHORE LEAVE: No restrictions.
DELAYS: Minimal delays in berthing, loading and discharging.
AUTHORITY: Forth Ports Authority.

LERWICK: 60.09 N. 01.11 W.

PORT LIMITS: Line drawn from Knab Point to Ham, Bressay.
DOCUMENTS: See "London".
PILOTAGE: Pilotage compulsory for passenger vessels only. International Pilot signals in use. Telegraphic address, Harbour Master's Office, Lerwick, tel. Lerwick 462. Pilot boat black with white bulwarks and masts, green boot-topping, flying Pilot flag by day and International Pilot lights at night. Pilotage station, South entrance to Lerwick Harbour, at or near Kirkabister Ness lighthouse. If Pilot not immediately available, good anchorage in harbour roads. Pilot boat has VHF.
ANCHORAGE: Ample anchorages in harbour roads.
MAX. SIZE: Vessels up to 20 ft. draft and 320 ft. long alongside berth; much larger vessels at anchorage.
RADIO: Wick Radio. Lerwick harbour radio VHF operating in office hours.
BERTHING: Berths are available for the discharge of bulk cargoes, such as coal, grain, fertiliser, etc., by grab. At present no container or roll-on/roll-off facilities exist, but these are planned and it is hoped will be in operation by 1975. No berths available for handling liquid chemicals. Mobile cranes available with lifting capacity up to 30 tons.
TUGS: No tugs available.
STEVEDORES: Arranged through Agent.
MEDICAL: Medical aid can be arranged through Agent or Harbour Master at any time day or night.
TANKERS: Shell Oil have their own discharging berth.
DENSITY: Density 1025 at all states of tide.
FRESH WATER: Available at all berths, 65 to 100 tons delivery per hour. No water boat.
FUEL: Gas oil available on demand.
FIRE PRECAUTIONS: Non-smoking regulations in operation inside all transit sheds and at oil berth.
GANGWAY/DECK WATCHMEN: Ships usually supply own watchmen. No fixed sum if shore watchman is employed.
OPENING/CLOSING HATCHES: Crew opens hatches.
CUSTOMS ALLOWANCE: Tobacco, wine/spirits; at the discretion of the Customs and Excise.
IDENTIFICATION CARDS: Foreign seamen have to supply same if left behind, i.e. hospital, etc.

CONSULS:

Denmark,	Lerwick 34
Finland (Vice),	Lerwick 1057
France (Consular Agent),	Lerwick 1057 House 1060
Germany	Lerwick 191
Iceland	Lerwick 34
Netherlands (Vice),	Lerwick 1057 House 57
Norway,	Lerwick 1057 House 57
Sweden (Vice),	Lerwick 56

REPAIRS: Repairs to fishing vessels and other small craft.
DRY DOCKS: No dry dock available, slip available to take small vessels up to 100 tons d.w.
REPATRIATION: Facilities exist.
AIRPORT: 25 miles to airport. Two services per day in summer, one in winter, operated by BEA.
HOLIDAYS: Scottish holidays. Working can be arranged on these days if so desired.
POLICE/AMBULANCE/FIRE: Police, Lerwick 10; Ambulance, Lerwick 751; Fire, Lerwick 318.
TELEPHONE: Ships telephones can be arranged.
SERVICES: No tank-cleaning equipment. Compass adjuster can be procured if necessary.
SHORE LEAVE: No restrictions.
AUTHORITY: Lerwick Harbour Trust, 1 and 2 Alexandra Buildings, Lerwick. Tel. Lerwick 191, or Harbour Master, Lerwick 462; nigh or day.

LIVERPOOL: 53.32 N. 03.19 W.

DOCUMENTS: Required on arrival, Crew List Form I.B.6 to be completed; this list to include all passengers and any British subjects who joined vessel outside of U.K. If any person falling into this category should be on board they must not leave until permission to land is granted by Immigration Officer.

Customs Form C.142, Declaration of goods obtained abroad or during a voyage, must be completed and signed by Master, and each crew member. Health Declaration must be completed. Above forms should be obtained from Pilot.

Manifest and Bills of Lading should be forwarded to vessel's Agent so as to be available before vessels arrival.

Ship's Papers Required:
Ship's Register.
Certificate for British Tonnage (if issued).
Safety Equipment Certificate.
Safety Radio Certificate.
Safety Construction Certificate.
International Load-line Certificate.
Deratting Exemption Certificate.

PILOTAGE: At least 48 hours before arrival, inward vessels should give ETA Lynas/Mersey Bar to Agent. Agent will then arrange docking and advise Pilot Office, the Master will receive radio giving final docking instructions.

Pilot Station. Vessels arriving from South should take Pilot on board at Point Lynas, Pilot Station 1, which shall extend between imaginary lines drawn on the true bearing of North and South from Middle Mouse Island and on the true bearing of North from the Great Ormes Head.

Vessels arriving from North should take Pilot at Mersey Bar Pilot Station 2, which shall extend between imaginary lines drawn on the true bearing of North from the Great Ormes Head on the true bearing of North and South from the Bar Light-ship, at the entrance to the principal buoyed channel leading to the Mersey.

VHF Channel	*Call Sign*	*Channel*	*Frequency M/cs*
Point Lynas Station	Lynas Pilot	16	156.80
Mersey Bar Station	Bar Pilot	6	156.30

Description of Pilot Boats. Black top sides with 2 in. yellow ribbon and white boot topping to water line. Yellow funnel with black top. The name "Liverpool Pilot" painted on each side.

In heavy weather if Master of the pilot boat considers it imprudent to send a launch to put a Pilot on board an incoming vessel, he will hoist signals to that effect. At night he will signal, viz. a red pyrotechnic light shown simultaneously with the flare-up light.
ANCHORAGES: In the event of berths not being readily available for vessels, normally they must wait at the Mersey Bar Anchorage which is in the open roadstead. There are river anchorages, but these are only usually for vessels about to enter the dock system.
RESTRICTIONS: No restrictions on night entry, tidal restrictions depend on vessel's draft and to which berth vessel proceeding, larger vessels usually have to wait for high water.
MAX. SIZE: Tranmere: up to 48 ft. draft dependent on tide. Birkenhead: up to 29 ft. draft. Liverpool Docks: up to 40 ft. draft.

Seaforth Dock: 50 ft. of water depth, up to 75,000 tons dwt.
HEALTH: Maritime Declaration of Health Form must be completed and handed to Customs Officer or Port Health Officer, whoever first boards ship. This form is obtainable from Pilot. In event of any suspected disease or fever on board, or if ship has called during last 4 weeks at any port in Brazil, China, Indo-China, India, Pakistan, Burma, Columbia and the port of Dar-es-Salaam, West African ports between latitude 20° North and 20° South, the Master should, prior to entering port, make radio contact with Liverpool Port Health Authority, via Anglesey Radio or port radar station (Signal "PORTELTH LIVERPOOL") giving them following information:

1. Name of Ship. 2. Date of departure from and name of last infected port. 3. Number, ages and sex of any cases of infectious diseases or other relevant information. 4. Expected time of arrival at Rock Light. Before reaching the Rock Light if medical clearance has not been obtained the following signal must be displayed: by day – fly the flag signal "Z W". By night – show red light over white light.

When medical clearance is obtained pratique will be issued at discretion of Customs Officer.

If there is no suspected disease on board and vessel has not called at any of the above ports listed, Master can radio for Free Pratique. Unless otherwise instructed, Customs Officer will again issue pratique.

Vessels arriving from another U.K. port do not require pratique or health clearance.
RADIO STATION: Portishead Radio, call sign: GKL; Landsend Radio, call sign: GLD; Wick Radio, call sign: GKR; but on approaching Liverpool, the local radio station is Anglesey Radio, call sign: GLV.
RADAR/VHF: The port radar service extends seaward over Liverpool Bay for radius of 20 miles from the station and in the River Mersey as far South as New Ferry. Continuous RT watch is maintained. Calling Channels:

Station	Call Sign	Hague Channel Number	Frequency M/cs.	Remarks
Liverpool Port Radar Station	Mersey Radio	16	156·80	Calling and safety
		12	156·60	Port operations, general
		18	156·90	
			161·50	
		22	157·10	Port operations, radar information and general
			161·70	

A continuous watch is maintained on all channels at Port Radar Station.

TUGS: Join vessel after passing Rock Light. Normally use tug's lines but optional. Charge for tug's hawsers.

STEVEDORES: Earliest possible ETA to be given to arrange gangs.

MEDICAL: If doctor is required to attend immediately on arrival of vessel, prior notice will be required, but generally doctor is arranged for most convenient time after vessel's arrival. All seamen should be vaccinated against smallpox.

Hospitalisation is available, but seamen will only be admitted if immediate treatment is required. It is preferred for foreign seamen requiring hospital treatment to be repatriated, if able to travel.

Dentist available by appointment only.

BULK HANDLING FACILITIES: Seaforth Grain Terminal designed to accommodate up to 75,000 tons dwt. vessels, length 850 ft. Discharge capacity up to 2,000 tons per hour.

Four berths equipped for container handling provided on North side of Seaforth Dock. Each length 900 ft. depth 42 ft.

Bulk handling of sugar at North side, Huskisson Branch Dock No. 3. Two berths each equipped with four grab cranes delivering direct to conveyors.

Iron ore is handled at North Bidston Dock. This berth has a quay frontage of over 1,000 ft. and can accommodate vessels of 28½ ft. draft. There are three transporters, each with an hourly free digging capacity of 350 tons which discharge either into road or rail vehicles via 175-ton hoppers, or into coasters or barges.

At Cavendish Quay there are two 20-ton cargo level luffing jib cranes with a grabbing capacity of 15 tons. Each crane is designed to handle up to 450 tons per hour. The loading of bulk materials into either road or rail wagons is speeded up by the use of two 100-ton capacity mobile weigh hoppers.

Duke Street Wharf also has specialised facilities for the handling of these commodities. There are four 7½-ton electric level luffing cranes, each with a lifting speed of 250 ft. per minute. There is good road access to this berth where vessels drawing up to 28½ ft. can be accommodated.

At the present time, packaged forest products are handled at North 3 Canada Dock. However, Seaforth will provide two adjacent berths with a combined quay length of 1,400 ft. for handling these commodities and the operations will be transferred there once the berths at Seaforth have been completed. The berths at Seaforth will have a back-up area of 18 acres – which includes approximately 15 acres for timber stacking with a timber storage barn.

Meat is handled at the following berths: North 2 Alexandra, South West Canada, and South No. 2 Seaforth. Seaforth meat terminal, with an 800 ft. quay, can handle the largest refrigerated ships in commission.

There are six berths in the port with roll-on/roll-off facilities, namely South No. 3 Seaforth, North Carriers Dock, the B and I Terminal, Princes Dock, Nelson Dock and North 3 Canada.

Birkenhead: East Tower grain berth can accommodate vessels up to 630 ft. length, max. draft 29 ft. 6 in.

Buchanans Mill, max. length 475 ft.* draft 28 ft. 6 in.; Ranks Mill, max. length 475 ft.* draft 28 ft. 6 in.; Spillers Mill, max. length 450 ft.* draft 28 ft. 6 in.

* Up to 500 ft. by special arrangement.

TANKERS: Oil tanker cleaning and slops discharging may be carried out at Rock Ferry Tanker Cleaning Jetty.

Tranmere South Stage – Capable of accommodating tankers up to 100,000 tons deadweight, maximum draft 40–48 ft., depending on height of tide.

Tranmere North Stage – Capable of accommodating tankers up to 200,000 tons deadweight after lightening to 140,000 tons, maximum 48 ft. at high water.

Dingle Tanker Buoys – River mooring for tankers of 20,000 tons deadweight.

Queen Elizabeth II Dock, Eastham – 4 berths – can take vessels of 28,000 tonnage dependent on height tide and vessels dimensions. (See "Manchester".)

DENSITY: River Mersey salt water. Docks density approximately 1020.

FRESH WATER: Available at all berths, ex quay. No water barges available. Rate of delivery 15–20 tons per hour.

FUEL: Most major oil companies are represented and can supply range of fuels of various viscosities. Notice required depends on the berth at which vessel is lying as bunkers are supplied ex lighter at most berths. Notice required can vary depending on availability of barges, but generally at least three to four days notice is required.

FIRE PRECAUTIONS: Tankers may not carry out repairs whilst at discharging berth unless permission is obtained from Harbour Authorities. Fire precautions notice is placed on board by Harbour Authorities.

GANGWAY/DECK WATCHMEN: Watchmen not necessary but available if required.

OPENING/CLOSING HATCHES: Carried out by ship's crew for bulk cargoes and by stevedores for general cargoes.

SHIP'S CERTIFICATES

Register/Certificate of Measurement.
Certificate of British Tonnage (if issued).
Safety Radio Certificate.
Safety Construction Certificate.
Safety Equipment Certificate.
Load-line Certificate.
Deratting Certificate.
Cargo Gear Test Certificates.

CUSTOMS ALLOWANCES: Crew members who remain on vessel during vessel's stay in port may be allowed, under certain conditions, to keep for their own use on board small quantities of any tobacco, spirits and other goods declared on Customs Form C.142. The amount allowed depends on the number of days the vessel is in port.

CARGO GEAR: Cargo Gear Certificates must be produced with the necessary up-to-date endorsement.

IDENTIFICATION CARDS: Not required.

CONSULS: The following countries have representatives in Liverpool:

Argentina	France	Paraguay
Belgium	Germany	Peru
Bolivia	Greece	Philippines
Brazil	Haiti	Portugal
Chile	Iceland	Spain
Colombia	Italy	Sweden
Denmark	Japan	Thailand
Dominican Republic	Liberia	Uruguay
Ecuador	Netherlands	U.S.A.
El Salvador	Norway	Venezuela
Finland	Panama	

REPAIRS: All types of deck and engine repairs can be carried out.

DRY DOCKS: Largest – length 950 ft.×140 ft. Also 27 smaller dry docks.

REPATRIATION: Can be effected, but must be arranged through Agent, so that Immigration clearance can be arranged.

AIRPORT: City Centre to Airport approximately 7 miles, regular service to London for international connections.

TIME: British Standard Time, which is one hour in advance of Greenwich Mean Time, reverting to GMT in winter months.

HOLIDAYS: Good Friday; Easter Monday (alterable); first Monday in June; last Monday in August or first Monday in September, whichever may be closest to August 31st. December 25th–26th, Weekly holidays Saturday, Sunday. Cargo can be worked on official holidays, other than 25th–26th December, also arrangements can be made for cargo to be worked on Sundays.

POLICE/AMBULANCE/FIRE: Telephone 999, ask for service required.

TELEPHONES: A temporary telephone can be placed on board a vessel, at most berths, whilst in port.

SERVICES: Tanker cleaning and slops services at Rock Ferry Tanker Cleaning Berth. Compass adjusting, D.F. Calibration can be arranged.

SHORE LEAVE: All bona vide crew members may be granted temporary shore leave during the vessel's stay in port, on condition that they leave in the same ship. This permission does not apply to any alien member of the crew who is refused leave to land by an Immigration Officer, or to whom an Immigration Officer has given notice prohibiting him from landing without leave.

AUTHORITY: Mersey Docks and Harbour Company.

AGENT: Lambert Brothers (Shipping) Ltd., Peel House, 5 Harrington Street, Liverpool, L2, OQQ. Tel. 051–236 7206 and 051–236 3644. Telex: 62510. Cables "Lambert Liverpool".

LONDON and Thames District: 51.30 N. 0.05 W.

DOCUMENTS:

1 copy of HM Customs and Excise form C.142 to be completed showing each crew members declaration as to the amount of cigarettes, tobacco, spirits, wine, radios, lighters, etc, belonging to them on board the ship to enable Customs to ascertain if in conformity or excess of requirements.
1 copy of HM Immigration Office (pink form) showing Master's declaration of crew members on board.
1 copy of List of Passengers on board, showing names, place of joining vessel, passport details.
Ship's Register to be available for inspection on arrival.
List of space occupied by cargo in unregistered space.
Chief Engineer's declaration as to the quantity of fuel carried in double bottom tanks.
Details of any livestock on board.
List of bonded stores in bond locker.
Details of previous ports of call.

PORT LIMITS: An arrived ship is considered (subject to Charter Party terms) to have arrived when vessel is instructed to anchor at a designated anchorage, as ordered by the Port Authority, if berth where vessel's operations are to be carried out is not available. Otherwise when vessel is alongside. Usual anchorage for larger vessels is below Southend, which is allocated to vessels by the Port Authority.

PILOTAGE: Pilotage by licensed Pilots in London pilotage district is compulsory unless previous exemption is granted.

Vessels approaching from South enter the pilotage area off

Folkestone Harbour position (Lat. 51° 04′ 37″ N. Long 01° 11′ 21″ E.). VHF Channel 16 (156·80 Mc/s.) calling, switch to Channel (156·45 Mc/s.) for working traffic. Range about 20 miles.

Vessels approaching from the North collect the Pilot at Sunk Pilot Cutter which operates in the vicinity of the Sunk Light Vessel off Harwich.

Vessels can also pick up and land Pilots at Margate Roads, VHF Channels 16 and 9.

Deep-drafted vessels can be provided with Pilots in deep water by arranging to be met by the Sunk Pilot Vessel in a suitable position about 3 miles East of Sunk Light Vessel.

Radio links: MF range 50 miles, call 2182 kc/s. Pilot transmits, listens 2241 kc/s. VHF range 20 miles, call sign Channel 16 (156·8 Mc/s.), switch Channel 6 (156·3 Mc/s.) for traffic.

Cable "Pilots Folkestone" or "Pilots Sunk Northforeland Radio" at least 12 hours before arrival, giving ETA, gross tonnage, deepest draft, destination. Advise any change at least 2 hours before ETA. Vessels for Sunk to keep in radio link with Pilot Cutter when in range. Fly "G" flag visual or Aldis lamp when making approach to pilot station. Pilot boats are black hull with "Pilot" shown in white.

If "Sunk Pilot" boat not operating in position due weather, move inshore to calmer waters; check "Northforeland" and "Scheveningen" radio for position.

Sea Pilot leaves vessel at Gravesend when River Pilot boards for final river passage.

Pilot ladders to conform to BOT approved plans.

RESTRICTIONS: No tanker carrying products with Flash-point 73° F or below is allowed to navigate, or empty tankers which have carried products below 73° F not gas-free are permitted to navigate above Coal House Point between 1 hour after sunset to 1 hour before sunrise, April to September; otherwise ½ hour. If in any doubt check with Thames Navigation Service.

Certain bulk chemical vessels are subject to this restriction also. Vessels with explosives on board to ascertain before arrival navigation restrictions with Thames Navigation Service, Gravesend, or local Agents.

The tides at London have a rise and fall of about 18 to 20 ft. above LAT (datum) depending on the tidal conditions.

The sea approach to Shellhaven is dredged to allow the passage of vessels to 48 ft. at mean neap tides. The depth to Gravesend Reach is about 26 to 28 ft. below MLWS, varying on tides.

THAMES NAVIGATION SERVICE:

Traffic Co-ordination Centre, Gravesend: This centre programmes all movements with the port, including the docks. All information required by the Authority regarding ETA, ETD, etc., should be passed through this centre. Also deals with all matters concerning provision of tugs in docks, floating derricks, dummy pontoons, or other services for vessels in dock, moorings in the river and any enquiry reference bye-laws, regulations, etc.

Gravesend Radio: VHF R/T Channel 16, Working Channels 12 and 20 – Port Health and Duty Pilot, Channel 18.

Radar coverage – Southend to Erith. Information supplied on request.

All vessels to report to this station on entering the port or before leaving the berth and whilst manoeuvring in the area below Crayford. Also report position at stated intervals.

Tidal heights – Tilbury to Estuary given on request.

Gallions Radio: VHF Channel 16; Working Channels 14 and 22.

Radar coverage (proposed) – London Reach to Blackwall Reach. Information on request. All vessels entering the area above Crayfordness, leaving the berth, manoeuvring, and whilst on passage, report to this station.

Tidal heights at Royals given on request.

Warden Point Radar: (proposed) VHF and radar coverage for Thames Estuary from Southend to outer limits.

Patrol Service: 24-hour patrol by launches fitted VHF Channels 16, 14, 12, 6, and radar. Can be contacted through Gravesend or Gallions Radio.

Liaison is maintained through the Thames Navigation Service with Owners, Agents, Pilots, Watermen and all emergency services.

For help, advice, assistance or any matter affecting ships and shipping, contact: Thames Navigation Service: Traffic Co-ordinator; Duty Officer, Gravesend, 0474–6811; Duty Office, Gallions, 01 476–7801.

ANCHORAGES: Southend, Warps Deep Water, Great Nore. Little Nore, Higham Bight (check with Thames Navigation if anchorage available), unrestricted time limit; Thameshaven (for oil tankers only); Gravesend, 12 hr. time limit. Depth's, boundaries vary. Sea Pilot is aware of safe anchorages depending size, type draft of vessel.

SIZE OF VESSEL: Maximum, oil carriers.

Berth	*Depth at low water*	*Size–length*
Coryton	46 ft. maximum	1,100 ft.
Shellhaven	48 ft. maximum	1,200 ft.
Holehaven	37 ft. maximum	720 ft.
Purfleet	28–37 ft. maximum	700 ft.
Grays	37 ft. maximum	620–750 ft.
Enclosed docks	*Maximum*	*Maximum length*
Royals/K.G. V	26–35 ft. depth	720 ft.
Tilbury	37 ft. depth	850 ft.
West India	26–29 ft. depth	565ft.

Other river and tanker berths restrictions apply according to tides and berth.

Deep-draft tankers for berthing at Shellhaven is sometimes over a period of 2 tides. Passage on the 1st tide to deep water anchorage, vessel to leave anchorage on make of 2nd tide and arrive off the installation ½ hour before high water of this tide.

HEALTH: No automatic pratique, or radio pratique given. The London Maritime Declaration of Health Form which is normally handed to the ship by the Pilot boarding vessel is to be completed and strictly complied to. Any doubts can be clarified by VHF to Thames Navigation, Gravesend, who will connect to the Port Doctor, or to "Northforeland Radio". Pratique is issued by the Customs at the berth after health requirements adhered to, and must be retained on board.

RADIO: Outside UK waters from the South call long range station "Portishead Radio"; approaching London, "Niton Radio" or "Northforeland Radio" giving agents draft and ETA.

TUGS: Tugs usually pick up vessels for Shellhaven and Holehaven in reaches approaching berth, or Gravesend for berths/docks up river. Tug lines can be hired to ships.

BRIDGES: No bridges below Tower Bridge which opens for shipping on request.

STEVEDORES: Ordered by the Agents; no ETA to stevedores from vessel necessary; labour to be ordered by 1500 hrs. day before required.

MEDICAL: Not necessary to contact Agents once port health requirements satisfied unless urgent medical treatment required on board on arrival. All medical treatment, vaccinations available.

DENSITY: Varies according to position and tides.

FRESH WATER: Available at all berths either from shore or barge.

FUEL: All types, grades available by barge, or from terminals.

FIRE PRECAUTIONS: Tankers – no smoking on open decks, only cabins. Deck fire hoses to be connected. Explosive workings at Chapman anchorage, same precautions. Red flag to be flown by these vessels. Fire tug to be in attendance when explosives being worked. Smoking not permitted in the docks or berths.

GANGWAY/DECK WATCHMEN: Available but not compulsory, Master's discretion.

OPENING/CLOSING HATCHES: Liner vessels by crew, with stevedore assistance. Tramp vessels according to the charter party.

CERTIFICATES: These certificates to be on board.
Ship's Register.
Load Line.
Safety Radio.
Safety Equipment.
Safety Construction.
Derat. Exemption.
Previous U.K. Light Due Bills.
Cargo Gear and Chain Register complying to U.K. Factory Acts.
British Tonnage Certificate if available.

CUSTOMS ALLOWANCES: Customs usually permit 200 cigarettes or ¼ lb. tobacco per person on board for 4 days. They can refuse to issue duty free or amount allowed at their discretion. Usually permit 1/6th gallon or 1 bottle spirits per person for 4 days, They can issue less or refuse allow as duty free at their discretion.

CARGO GEAR: To comply with U.K. Factory Acts, valid chain and Cargo Gear Register to be on board. Stevedores usually supply cargo slings, etc.

IDENTIFICATION CARDS: Seamen's identity book required to be retained on board in port.

CONSULS: All British Commonwealth countries are represented in London by a High Commissioner's Office.

All foreign countries maintain embassies or a consular representative in London.

REPAIRS: All repairs, gas freeing possible; pre-advice recommended.

DRY DOCKS: Largest dry docks at Tilbury, 752 ft. length, 133 ft. breadth; King George Docks, 750 ft. length 128 ft. breadth. There are smaller dry docks available.

REPATRIATIONS: All facilities exist for changing crews, repatriations.

AIRPORTS: All flights serve London Airport, about 18 miles from centre of London. Gatwick and Southend Airports serve local and Continental services also.

TIME: British Standard Time which is one hour in advance of GMT. GMT during winter months.

HOLIDAYS: No work is available on official holidays usually. Official Days: Good Friday; Easter Monday; Whit. Monday; August Monday; Christmas Day; Boxing Day. Some weekend work is possible at certain berths only, at overtime rates.

POLICE/AMBULANCE/FIRE: Contact by telephone; dial 999 and ask for service needed.

TELEPHONES: Ship to shore connections available at most berths.

SERVICE REPAIRS: All types of service for navigational aids, radar, compass adjusting, nautical instruments repaired, slop discharge barges available. Tank-cleaning, gas-freeing services available.

SHORE LEAVE: Crew members allowed ashore but must rejoin on sailing.

PORT REGULATIONS: No livestock allowed ashore without permission Customs and Port Health Authorities.

AUTHORITY: Port of London Authority, World Trade Centre, London.

AGENT: Lambert Brothers Shipping Limited, 193–207 High Road, Ilford, Essex. Telegrams: "Lambert Ilford" and "Lambert London EC3". Telex: 897147. Tel.: 01 553–3311.

LONDONDERRY (incl. Moville): 55.00 N. 07.20 W.

The main port of Londonderry is situated about 21 miles from the sea on the River Foyle.

PORT LIMITS: Extend from Lifford Bridge to a line drawn from Greencastle Fort in the County of Donegal to the Tower on Magilligan Point in the City and County of Londonderry.

DOCUMENTS: For Londonderry see "Belfast". For Moville see "Dublin".

Since the Port of Londonderry falls within the Republic of Ireland and the United Kingdom, both Governments are concerned in regard to Customs documents. Moville, which is situated down river from Londonderry, is located in the Republic of Ireland and is the anchorage where deep-sea vessels lie prior to proceeding to Londonderry. Should vessels discharge cargo or load cargo at this anchorage, Irish documents are required. The port is under the control of the Londonderry Port and Harbour Commissioners who are recognised by both Governments.

PILOTAGE: The Londonderry Port and Harbour Commissioners are the Pilotage Authority for the Londonderry Pilotage District. For information regarding pilotage application should be made to The Secretary, Harbour Office, Londonderry, Northern Ireland.

Pilotage is compulsory, vessels taking the Pilot at the Foyle Buoy or Fairway Buoy, about 2½ miles N.E. from Dunagree Point, Innisshowen Head.

The pilot station is located at Carrickarory Pier, Moville, 55° 10′ 57″ N.; 07° 03′ 27″ W.

Deep-sea vessels usually take Pilot 2 hours before High water time Londonderry, so as to arrive at Londonderry on the top of High Water.

Pilotage service may be obtained in response to following signals:

Inward-bound vessels: By day. 1. The International Code Signal G; 2. The International Code Signal P.T.; 3. The Pilot Jack hoisted at the fore; 4. By daylight signalling lamp to the pilot station.

By night. 1. The pyrotechnic light, commonly known as a blue light; 2. A bright white light flashed or shown at short or frequent intervals just above the bulwarks for about a minute at a time; 3. The International Code Signal P.T. by flashing; 4. By signalling lamp to the Pilot Station.

By day or night. 1. By VHF (FM) radiotelephony to the pilot station at Carrickarory Pier. 2. By VHF (FM) radiotelephony to the pilot launch "Foyle Leader." 3. By I.F. radiotelephony to the pilot launch "Foyle Leader."

In poor visibility. By sounding the letter G in Morse Code on the steam whistle or siren.

As visibility to seaward from Carrickarory Pier is restricted it is important that Owners, Masters or Agents notify the Harbour Master (tel. Londonderry 3680) or outside Office hours the pilot station (tel. Moville 92) of the name of vessel; estimated time of arrival at the Fairway Buoy; draft of water of the vessel. It is also important that VHF (FM) communication be established with pilot station or pilot launch "Foyle Leader" or IF R/T communication with the pilot launch "Foyle Leader" as early as possible before arrival in Lough Foyle. Call signs, frequencies and procedure are as follows:

VHF (FM) and R/T Communications:

1. Pilot Station at Carrickarory Pier, Moville: Callsi gn "Foyle Pilots". Equipment VHF (FM) R/T single frequency working. A continuous listening watch is kept on Channel 16 (156.80 megacycles) except when pilot launch is operating, when watch is transferred to the launch. When communication has been established on Channel 16 (calling and safety channel) operators should switch to Channel 12 (156.60 megacycles.)

2. Pilot launch: Name of vessel "Foyle Leader". Call sign MIBC Equipment VHF (FM) R/T single frequency working and IF R/T When launch is operating a listening watch is kept on Channel 16 (158.80 megacycles). When communication has been established on Channel 16 (calling and safety Channel) operators should switch to Channel 6 (156.30 megacycles).

When arrival of vessels not yet fitted with VHF (FM) R/T is expected a listening watch on IF R/T will be kept on the pilot launch on frequency 2182 kilocycles per second (calling and distress frequency). When communication has been established on this frequency operators should switch to 2246 or 2301 kilocycles per second.

3. Harbour Office, Londonderry: Call sign "Harbour Office" Equipment VHF (FM) R/T single frequency working. All vessels fitted with VHF (FM) R/T while navigating in the river or at anchor in Moville Bay should keep a listening watch on Channel 16 (156.80 megacycles). When communication has been established on Channel 16 (calling and safety channel) Operators should switch to Channel 12 (156.60 megacycles).

Messages must be restricted to those related to the movement of vessels and safety of vessels and persons. Messages of any other nature and messages of a personal character cannot be accepted.

Outward-bound vessels and vessels shifting:

When the services of a Pilot are required for an outward-bound vessel or for shifting a vessel, notification should be given to Harbour Master (tel. Londonderry 3680) during office hours, of name of vessel; time of departure; draft of water of vessel; where bound. Early notification should be given to enable Pilot to board vessel in good time.

ANCHORAGES: The only anchorage at Londonderry is located at Moville.

MAX. SIZE: For vessels using main port of Londonderry, overall length 500 ft., draft (salt water) 23 ft. 6 in., beam 60 ft.

For vessels using E.B.N.I. Oil Jetty, Coolkeeragh, Londonderry, overall length 600 ft., draft (salt water) 23 ft. 6 in.

HEALTH: Pratique is automatic except in the case where the Master suspects one of the dangerous diseases on board when he should notify the Agent.

RADIO: Malin Head Radio Station, Republic of Ireland, covers WT transmissions and Portpatrick Radio Station, Scotland, covers RT transmissions.

TUGS: One tug is available which is under the control of the Londonderry Port and Harbour Commissioners.

BERTHING: Vessels of deep draft or large dimensions can only

berth at Londonderry to arrive on top of high water. Decisions in this matter are taken by the Pilots in conjunction with the Harbour Master.

The reconstruction in ferro-concrete of 300 feet of existing wharf at Coal Cranes Berth, Queen's Quay, made a total length of ferro-concrete wharves of approximately 2,000 ft. All berths have been dredged to give depth of 25 ft. at LWOST.

The Commissioners have also completed reconstruction in ferro-concrete of 15 Berth which is used by Anglo-Irish Transport Limited for a container service between Londonderry and Preston.

The port is especially adapted for shipment of live stock on large scale. The pens for reception of cattle, sheep and pigs for inspection by Government veterinary officers before shipment are situated close to shipping berths, and are completely roofed over for protection of animals.

STEVEDORES: ETA advices should be given before 1600 hours on week-days to arrange work for the next morning and before 1100 hours on Saturday to arrange work for Monday morning. Bagged cargoes at Londonderry are discharged by the ship's winches/derricks.

MEDICAL: Doctors and hospital facilities available. Agents should be advised in advance of any medical attention required.

TANKERS: No slop facilities available. Deep-sea tankers discharge heavy fuel oil for electricity power station at E.B.N.I. Jetty, Coolkeeragh, diameter of pipes 8 in. Crew are required to connect and disconnect hoses under port conditions.

DENSITY: Water at Londonderry is brackish and average density 1015 to 1018.

FRESH WATER: Available at all berths direct from shore lines.

FUEL: Gas-oil and light marine diesel available from road tankers and, in the case of Shell Mex and B.P., from their jetty which can accommodate vessels up to 1,200 DW.

GANGWAY/DECK WATCHMEN: Can be covered by crew; shore watchmen available if required.

OPENING/CLOSING HATCHES: This is required to be carried out by ship's crew under local port labour conditions.

CARGO GEAR: Ship's winches and derricks should be in good working order and have BOT Certificates or equivalent. Winches are also required to plough grain on grain vessels. Cluster lighting is required for night work.

IDENTIFICATION CARDS: Not obligatory but should be carried.

CONSULS:

Portugal Vice-consul – A. Mackenzie, Esq., 8 Foyle Street, Londonderry. Tel. 2033.

Norway Vice-consul – A. Mackenzie, Esq. 8 Foyle Street, Londonderry. Tel. 2033.

Norway – Under the Nordic Treaty, Norway also acts for Denmark, Finland, Iceland and Sweden.

REPAIRS: Deck and engine repairs are carried out by a local engineering works. No major repairs available.

DRY DOCKS: A small dry dock owned by the Harbour is available when harbour equipment is not being serviced. Size: 345 ft. long on floor, 50 ft. wide at entrance, depth of water on sill HWOST., 14 ft. 6 in.

REPATRIATION: Can be arranged by ship's Agent on request.

AIRPORT: The nearest airport to Londonderry is Aldergrove (Belfast) Airport, which is 80 miles from Londonderry.

HOLIDAYS: Port Holidays at Londonderry are: St. Patrick's Day (17th March); Easter Monday; 1st Monday and Tuesday in August; Christmas Day and Boxing Day.

POLICE/AMBULANCE/FIRE: Dial 999 and ask for service required, or Police 2244; Ambulance 5171; Fire 2222.

TELEPHONES: No telephones available for connecting on board.

SERVICES: No tank cleaning available or facilities for discharging of tank-washings. Compass adjusters available from Glasgow.

REGULATIONS: Copies of Port Bye-Laws may be obtained through Agent.

AUTHORITY: The Londonderry Port and Harbour Commissioners.

LOWESTOFT: 52.29 N. 01.45 E.

DOCUMENTS:

Crew List (at least two copies).
Passenger List (at least 2 copies).
Manifest (at least 3 copies).
Customs & Health Documents (normal U.K. regulations).
Ship's Papers (to be presented to Customs or Port Authorities).

PILOTAGE: Pilots on standby at all times. Pilot launch fitted with VHF and maintains listening watch on Channel 16. Pilots can also be ordered by RT via Humber and North Foreland Radio, hence by phone.

Pilot's private telephone no. Lowestoft 4970 or Lowestoft 61976, or at the Lowestoft Harbour Masters Office, tel. Lowestoft 2286 (this number manned 24 hours). Pilot boat, black hull, white upper work with "Pilot" painted on each side. Light and sound signals as laid down in the International Code of Signals.

Pilot boards vessel at West Holm buoy or East Newcome buoy. Vessel should not approach harbour closer than these limits when awaiting Pilot.

ANCHORAGES: Pilotage anchorage North of a line joining West Holm buoy and Lowestoft Lighthouse.

RESTRICTIONS: No specific restrictions provided the height of tide is sufficient for draft of vessel. Large vessels normally enter on high water slack tide due to cross currents at entrance.

There are regulations governing the passage of vessels through the harbour entrance. Masters of vessels shall observe the Harbour Control Light which is a white flashing light situated below the fixed red light on the South Pier Lighthouse. This light is visible except between 232 degrees to 286 degrees true from the light. When this light is flashing vessels may proceed to sea, but no vessel shall enter the harbour. At all other times vessels may enter the harbour, but no vessel shall proceed to sea.

A green light is shown on the North Pier head and a red light on the South Pier Head, from sunset to sunrise. A green light is shown from sunset to sunrise on each of the Inner Pier Heads. These lights will become visible to the person in charge upon his vessel entering the harbour. A reed signal is fixed on the South Pier Head for use in foggy weather, four blasts of two seconds each will be given every minute.

MAX. SIZE: Maximum length approx. 300 ft. Draft 16½ ft. MHS.

HEALTH: U.K. Regulations.

TUGS: Two tugs are available; tugs' lines normally used.

BERTHING: *Outer Harbour* (comprising Hamilton and Waveney Docks and Trawl and Yacht Basins). Used largely for fish traffic:

Width at entrance	150 ft.
Depth at entrance	22 ft. MHWS
Water area	40 acres
Length of quays	4,500 ft.
Depth of water at quays	18 ft. MHWS
	12 ft. MLWS

Inner Harbour. Used for general cargo and grain traffic.

Water area	70 acres
Length of quay	6,500 ft.
Depth of water at quays	20 ft. MHWS
	14 ft. MLWS

STEVEDORES: Shipping Agent should be advised of ETA, etc., to enable gangs to be available.

MEDICAL: Advance notice desirable of medical attention required on arrival. Hospital facilities available in Lowestoft.

FRESH WATER: Can be supplied at various points on quays from hydrants with waterman in attendance. Normal hours 8.00 a.m. to 5.00 p.m. Monday to Friday, outside those hours overtime rates payable. Approx. flow 15 tons an hour.

FUEL: Marine diesel available from road tankers or fueling points within the docks. Twenty-four hours notice is normally required for supplying gas oil or boiler fuel; this comes from road tankers.

FIRE PRECAUTIONS: Local fire services available in an emergency. Special arrangements can be made for taking fire-fighting equipment to sea. Normal harbour fire-prevention regulations apply to all berths.

OPENING/CLOSING HATCHES: Carried out by crew.

CONSULS: Belgium tel. Lowestoft 2301
Denmark " " "
France " " "
Netherlands " " "
Norway " " "

REPAIRS: All types of deck and engine repairs are possible in the port.

DRY DOCKS: One dry dock. Length 248 ft. Width at entrance 48 ft. Depth of water on sill 13½ ft. MHWS.

AIRPORTS: Nearest international airport served by regular airlines is London (Heathrow). Smaller airport at Norwich (27 miles) not served by regular airlines.

POLICE/AMBULANCE/FIRE: In an emergency dial 999 and ask for service required. For normal enquiries: Police Lowestoft 2121; Ambulance Lowestoft 2572; Fire Lowestoft 2227.

GENERAL: Helipad on Dock Estate, also Heliport at Beccles (8 miles away).

Air/Sea Rescue Services at R.A.F. Cottishall (35 miles).
Royal National Lifeboat Institution, lifeboat berthed at Lowestoft.
200-ton crane available for heavy lifts.
Modern transit sheds, cattle lairage facilities.

SERVICES: Compass adjusting. VHF, Radar, radio repairs. All ships' provisions are available by arrangements with the shipping Agencies.

SHORE LEAVE: Leave is permitted.

AUTHORITY: British Transport Docks Board, Custom House, Lowestoft, Suffolk. Tel. Lowestoft 2286.

MANCHESTER: 53.29 N. 02.14 W.

GENERAL: The port of Manchester includes the whole of the Manchester Ship Canal and Queen Elizabeth II Dock. The Canal is approximately 36 miles long from its entrance at Eastham on River Mersey to the Manchester Docks.

DOCUMENTS:

1 Maritime Declaration of Health.
1 Crew Effects List.
2 Ship's Report by Master.
1 Home Office Form 1B6.
1 Stores List.
1 Certificate of Deck Cargo Tonnage.
1 Grain Certificate.
1 Light Certificate.

1 Port Dues Certificate.
1 Passenger List.
1 Landing Card for each Passenger.
Ship's Certificate of Registry.
Mercantile Marine Office Certificate – for British ships only.
Load-Line Certificate.
Safety Equipment Certificate.
Lloyds Certificate.
De-rat Certificate.
Ship's Register.
Light Bills.
Safety Radio Certificate.

In addition, Manifests and Bill of Lading are usually sent to Agent direct from loading port.

PILOTAGE: Non-compulsory. Orders for Pilots may be lodged with the Pilotage Office at Eastham (Tel. Eastham 1242) or at Dock Office at Manchester (Tel. Trafford Park 2411). As much notice as possible should be given, particularly in the case of inward-bound vessels due to arrive at Eastham. Helmsmen can be obtained in same manner.

RESTRICTIONS: Eastham Locks. The main entrance to the Canal is at Eastham where there are two locks side by side, one 600 ft. by 80ft., and the other 350 ft. by 50 ft. The outer or lower sill of each lock is 13 ft. below Liverpool Bay Datum. The levels of upper sills of the 80 ft. and 50 ft. locks are 32 ft. and 29 ft. respectively below statutory water level in Canal.

Both locks are operated for incoming and outgoing vessels of suitable draft during a period of 8 hours on each tide, i.e. from 4 hours before high water to 4 hours after high water.

The Canal is constructed to give an available depth of water of 30 ft. from Eastham to Ince Oil Berth (5⅜ miles) and of 28 ft. from Ince to Manchester Docks.

The size of vessel which can navigate the Canal is governed by dimensions of locks, the height of fixed bridges and limitations for the draft of vessel.

Maximum length: The greatest length measured between perpendiculars drawn at the foreside of the foremost extremity and at the afterside of the aftermost extremity of the hull or any attachments to the hull shall not exceed 560 ft.

The length measured between perpendiculars drawn at the foreside of the stem and at the afterside of the rudder post, or through centre of the rudder stock if there is no rudder post, on the summer load water-line shall not exceed 535 ft.

The length measured between perpendiculars drawn at the afterside of the rudder plate and at the foreside of the foremost extremity of any part of the hull which is below a horizontal line drawn through the top of the rudder plate shall not exceed 544 ft.

Maximum beam: Vessels not proceeding beyond Ince Oil Berth: 72 ft. overall. Vessels proceeding beyond Ince Oil Berth: 63 ft. 6 in. overall.

Provided the height of masts and/or funnels or other structures is not more than 71 ft. 6 in. from water-line, vessels can pass under all fixed bridges under normal conditions. As, however, the headroom is less during periods of high-water levels, a vessel, in order to avoid possible detention, should reduce masts and funnels or other structures to 70 ft. above the water-line. The restriction as regards height does not apply to vessels proceeding only as far as Runcorn Bridge.

Facilities are available at Eastham for removing and replacing tops of masts and funnels.

MAX. SIZE: When vessels are Loading inwards for the canal Master should take these facts in to their calculations and have regard to the following limitations, all of which are expressed as maximum draft in fresh water:

Vessels inward bound to a berth	*Arrival draft at Eastham not to be such as would exceed:*
Between Eastham Locks and Ince Oil Berth	28 ft. 10 in.
Between Ince Oil Berth and Manchester Docks (other than Pomona Docks)	26 ft. 6 in.
To or from Pomona Docks (for coastwise shipping)	16 ft. 0 in.

in fresh water

Vessels loading outwards at any point between Eastham Locks and Ince Oil Berth should not have a draft exceeding 28 ft. 6 in. upon completion of their loading in this section.

Vessels loading outwards at any point between Ince Oil Berth and Manchester Docks (other than Pomona Docks) should not have a draft exceeding 26 ft. 6 in. upon completion of their loading in this section.

Large vessels can swing in the basins at Stanlow and Manchester Docks. Small vessels can swing at certain other points on the Canal.

HEALTH: Foreign arrivals to complete Maritime Declaration of Health. They are cleared immediately on arrival by either a port doctor or an officer of H.M. Customs depending on where ship comes from and whether there is sickness on board.

Vessels arriving from ports within accepted area (N. European ports) and coastal arrivals need not present Declaration in all cases; when there is sickness on board the Port Health Authority must be informed preferably not more than 12 hours and not less than 3 hours before arrival.

RADIO: A VHF radio-telephone service is available for communication between ships and shore and vice versa for exchange of information of a navigational character. The Canal Company's Control Station, which operate on channels allocated by the General Post Office are:

Eastham	Hague Channel 2
Latchford	Hague Channel 2 and 20
Manchester Docks	Hague Channel 2 and 18

A continuous watch on Channel 2 is maintained.

TUGS: The Canal Company maintains a fleet of high-powered tugs which may be hired to assist vessels.

BERTHING:

TANKERS: *Queen Elizabeth II Dock.* This dock is adjacent to the locks at Eastham which give access to the Canal, and is approached from River Mersey through its own entrance lock. This lock is 807 ft. long by 100 ft. wide. The level of outer sill is 20 ft. below Liverpool Bay Datum. The dock covers an area of 19 acres in the form of a square and has four berths designed to accommodate large tankers, the dimensions of berths being as follows:

Berth No. 1 800 ft.	Berth No. 3 900 ft.
Berth No. 2 725 ft.	Berth No. 4 730 ft.

The dock is directly connected to oil installations by pipelines.

Stanlow Oil Docks. No. 1 & 2 (5 berths) 45 miles above Eastham Lock. Length 560 ft., draft 28 ft., beam 72 ft.

Ince Oil Berth. 55 miles above Eastham Lock. Length 560 ft., draft 28 ft., beam 72 ft.

Barton. 32 miles above Eastham Lock. Length 560 ft., draft 26 ft., beam 63 ft. 6 in. Daylight movements only. Max. height above water-line 70 ft.

DENSITY: The water in lower section of the Canal between Eastham Locks and Latchford Locks is brackish. In all sections above Latchford Locks the water is fresh.

MEDICAL: Doctors and hospital facilities available. Agent should be advised in advance of any medical attention required.

FUEL: At Partington, coal tips are available for the loading of cargo coal, etc., and bunkers to vessels. Oil bunkers may be taken by arrangement with oil companies either from craft alongside or at various oil berths along the Canal.

DRY DOCKS: The Manchester Dry Docks Company Limited operates three graving docks at Manchester Docks:

No. 1 Dock–length 535 ft., width 65 ft., depth of water on blocks 20 ft, 3 in.
No. 2 Dock–length 500 ft., width 65 ft., depth of water on blocks 18 ft.
No. 3 Dock–length 450 ft. width 65 ft., depth of water on blocks 19 ft.

There is also a pontoon dock 260 ft. long and 45 ft. wide with a lifting capacity of 2,000 tons. The same Company operates a Pontoon Dock at Ellesmere Port of 300 ft. length and 58 ft. width with a lifting capacity of 4,000 tons.

CUSTOMS ALLOWANCES: At discretion of local Customs Inspector. Normal allowances are equivalent to ½ lb. tobacco per man and equivalent to 1 bottle of wine per man. Allowances may be halved for home trade vessels. Vessels in port for more than three or four days may receive extra allowances.

TIME: British Standard Time is GMT plus 1 hour. Reverting to GMT during winter months.

HOLIDAYS: Good Friday (variable date); Easter Monday (variable date); Spring Bank Holiday (variable date); August Bank Holiday (variable date); Christmas Day (25th December); Boxing Day (26th December).

POLICE/AMBULANCE/FIRE: Dial 999 from any telephone and ask for service required.

AUTHORITY: The Manchester Ship Canal Company is the Authority for Port of Manchester, and also controls pilotage, towage and labour services of Port.

Ship Canal House, King Street, Manchester 2. Telegrams: Canal Manchester. Tel. Deansgate 2244.

AGENT: Cory Brothers Shipping Ltd., Royal London House, 196 Deansgate, Manchester, M3 3WF. Cables "Cory Manchester". Telex: 667207. Tel. 061 834 1167/8.

MEDWAY

PILOTAGE: *Folkestone.* Vessels for River Medway that are approaching from the South obtain Inward Sea Pilot at Folkestone Pilot Station. Telex: 96381. Tel. Folkestone 56766. Telegraphic Address: "Pilots, Folkestone". Notice required: preferably 24 hours notice ETA, then confirmation 12 hours prior arrival with ETA, draft, gross tonnage and destination.

Pilot boards from launch 1 mile South of Folkestone Pier. Contact Pilots by VHF Channel 16, then 9, two hours before arrival (call sign "Folkestone Pilots Radio").

Sunk Light Vessel: Vessels for River Medway that are approaching from the North, obtain Inward Sea Pilot at Sunk Pilot Station. Telegraphic address: "Pilots Harwich". Telex: 98472. Tel. Harwich 3129. Notice required: 12 hours prior to arrival. Cutter cruises in vicinity of Sunk Light Vessel, but in bad weather usually moves to Barrow Deep. Contact cutter on VHF Channel 16, then 9 or RT 2182 kHz (call sign "Sunk Pilot").

Deep drafted vessels can be provided with Pilots in deeper water by arranging to be met by the Sunk Pilot Vessel in a suitable position about 3 miles East of the Sunk Light Vessel.

Margate: Vessels approaching within the range Dieppe/Amsterdam obtain inward ISP at North East Spit Buoy. Telegraphic address: "Pilots, Folkestone". Telex: 96381. Tel. Folkestone 56766. Advance notice essential as Pilots not always on station. Notice required: preferably six hours, giving ETA, draft, gross tonnage and destination, confirming two hours prior to arrival. Contact Pilots by VHF Channel 9 (call sign "Margate Pilot"). Light or sound signals as per International Code. Pilot boat works from Margate Pier Head and boards in vicinity of North East Spit Buoy, but often has difficulty working in bad weather. Contact Pilots by VHF Channel 9 (call sign "Margate Pilots Radio") or call pilot boat on MF 2182 kHz (call sign "Margate Pilot"). Light or sound signals as per International Code.

Medway: Medway Pilots join ships at Little Nore Sheerness for all Medway ports, i.e. Isle of Grain, Sheerness, Beeness, Oakham Ness, Otterham, Rochester, Queensborough and Ridham. Telegraphic Address: "Pilot Sheerness". Tel. Sheerness 2276. Notice required: minimum two hours. Pilot boat keeps watch on VHF Channel 16, then 14. Call sign "Medway Radio" or Medway Patrol Launch on RT 2182 kHz. Call sign "Medway Patrol". Lights and sound signals as per International Code.

VHF/RADAR: Medway Port Operations and Information Service (Medway Ports Authority) is situated at Garrison Point, Sheerness. Tel. Sheerness 2035. Telex: 96435 (call sign "Medway Radio"). Fitted with VHF, Channels 16, 14, 9 and 22. The station has radar service surveillance of Inner Estuary, Sea Reach, Medway Approach Channel and Lower Reaches of River Medway. Pilot launch maintains watch on RT 2182 kHz (call sign "Medway Patrol") and is also fitted with VHF and radar.

PORT REGULATIONS: All vessels required to proceed in accordance with instructions of Port Authority. Vessels are requested to advise Medway Ports Authority – Medway Port Operations Service (call sign "Medway Radio") VHF Channels 16, 14, 9 and 22, or Medway Ports Authority Launch (call sign "Medway Patrol") on 2182 kc/s of ETA, shifting or sailing movements.

MILFORD HAVEN: 51.42 N. 04.56 W.

DOCUMENTS:
Port Health Form.
Immigration Form.
Customs Forms (Crew Declaration, List of Stores.)
3 Crew Lists.

PILOTAGE: Call Milford Haven Signal Station on VHF Channel 16. For link call with signal station telephone Milford Haven 2343.

ETAs normally required at 12 hours notice. In exceptional circumstances an ETA of two hours notice will be sufficient, but ships giving only 2 hours notice may be delayed in receiving a Pilot.

Pilot launch, green hull, white wheelhouse, keeps continuous watch on VHF Channels 16 and 12 with facilities for operating on Channels 14, 8 and 6.

The pilot launch does not cruise continuously at St. Ann's Head, and early ETA to signal station necessary to avoid delay. If contact not made with pilot boat it should be made through signal station.

PORT VHF: It is important to maintain continuous radio telephone contact with Signal Station when within one hour's steaming of St. Ann's Head, and at all times when in Haven and not safely moored to an alongside berth, including times spent at anchor or at buoys. All vessels equipped with F/M, VHF, R/T should adopt following procedures:

Entering the Harbour: Contact Signal Station on Channel 16 (156·8 m/cs) when within one hour's steaming of St. Ann's Head. After making contact ship will be requested to maintain watch on Channel 12 (156·6 m/cs) until vessel safely moored alongside or at anchor.

Going to anchor or to a buoy mooring: report to Signal Station when secured and then maintain a continuous listening watch on Channel 16.

Berthing alongside: report to Signal Station when safely moored and may then shut down.

Leaving the Haven: Maintain continuous listening watch on Channel 12 (156·6 m/cs) until Pilot has disembarked, when Signal Station should be informed and vessel should maintain a continuous watch on Channel 16 (156·8 m/cs) until one hour after passing St. Ann's Head.

Navigating within the Haven: Maintaining a continuous watch on Channel 12. When radio telephone is used between vessel and tugs during berthing operation Channel 6 or 8 will be used and Signal Station will be informed before vessel comes off Channel 12.

Signal Station will answer calls on Channel 16 for any ship in the port which has been instructed to move off international calling frequency.

ANCHORAGES: Anchorage normally available for vessels up to 40 ft. draught in Dale Roads. Anchorage for smaller vessels normally available in Dale Shelf. Signal Station will advise mariners on the availability of these anchorages.

RESTRICTIONS: The "West Channel" with minimum depth of 55 ft. at the entrance and 54 ft. inside is the channel used by the largest tankers. The "East Channel" with minimum depth of 32 ft. is available to all vessels of suitable size and vessels able to do so are requested to use it when the largest tankers are entering or leaving in the "West Channel".

MAX. SIZE: Vessels of 65 ft. draft can be handled on virtually all high waters, but draft restriction always dependent on tide, e.g. 63 ft. at worst HW neaps, or up to 67 ft. in favourable conditions. Contact Milford Haven Signal Station on VHF Channel 12 for latest information.

HEALTH: All vessels from endemic areas are boarded by Port Health Officials on arrival. Any suspected disease or fever on board radio Port Health, Milford Haven not more than 18 hours before arrival and not less than 4 hours before arrival.

RADIO: Lands End Radio, Ilfracombe Radio.

TUGS: Tugs normally join vessels to Westward of Esso Jetty, but master will be advised by Pilot. Tug's lines used, cost of lines inclusive of towage charge.

BERTHING: VLCCs enter at HW and berth heading East. Vessel will be required to swing after unloading and prior to departure.

STEVEDORES: Ordered prior to arrival with at least 3 days notice.

MEDICAL: Advance notice to Agent not necessary. Local hospital facilities available. Smallpox and yellow fever certificates required.

TANKER TERMINALS:

Esso No. 1 Berth depth 57 ft. five 12-in. cargo lines
No. 2 Berth: depth 65 ft. four 16-in. and one 10-in. cargo lines
No. 5 Berth: depth 20 ft. for small coastal vessels
Esso swinging ground dredged to 37 ft. Also see "Developments".

B.P. Angle Bay
No. 1 Berth: depth 54 ft. five 10-in. cargo lines; one 8-in. fuel line
No. 2 Berth: depth 54 ft. five 10-in. cargo lines; one 8-in. fuel line
No. 3 Berth: depth 66 ft. five 16-in. cargo lines; one 10-in. fuel line
B.P. swinging ground dredged to 32 ft.

Texaco, Pembroke
No. 1 Berth: depth 68 ft. 16-in. crude lines
No. 2 Berth: depth 52 ft. 8-in. crude lines
No. 3 Berth: depth 36 ft. 8-in. product lines
No. 4 Berth: depth 18 ft. 6-in. product lines
No. 5 Berth: depth 21 ft. 6-in. product lines
Texaco swinging ground dredged to 32 ft.

Gulf Oil
No. 1 Berth: depth 42 ft. three 10-in. and two 12-in cargo lines
No. 2 Berth: depth 55 ft. six 12-in. cargo lines
No. 3 Berth: depth 34 ft. six 8-in. and one 4-in. cargo lines
Gulf swinging ground dredged to 42 ft.

DENSITY: 1025.

FUEL: All terminals Gulf, Texaco, B.P. and Esso supply all grades of bunkers.

FIRE PRECAUTIONS: Fire wires to be rigged fore and aft.

DEVELOPMENTS: *Esso:* Two new berths under construction, each to be fitted with two 10-in. and three 12-in. hydraulically controlled loading arms.

Amoco: A new refinery and associated marine terminal under construction for Amoco, situated on north shore, close east of Esso terminal.

GANGWAY/DECK WATCHMEN: Supplied if necessary – very rarely.

CERTIFICATES:
Register.
Load Line.
Safety Radio.
Safety Equipment.
Light Dues, etc.

CUSTOMS ALLOWANCE: Tobacco, ½ oz. per man per day. Wine/Spirit, ¼ pint per man per day.

IDENTIFICATION CARDS: Not necessary.

CONSULS:

Norway	tel. Milford Haven 2313
France	,, Milford Haven 2313
Belgium	,, Milford Haven 2313
Spain	,, Pembroke Dock 2603
Italy	,, Milford Haven 2473

REPAIRS: All types of deck and engine voyage repairs carried out.

DRY DOCKS: One dry dock at Milford, 600 ft. × 63 ft.

REPATRIATION: Crew changes frequently carried out and repatriation arranged.

AIRPORT: Nearest airport at Rhoose (near Cardiff) distance approximately 100 miles. Flights to London, etc., for onward connections.

TIME: Local Time is BST (GMT plus 1 hour). GMT during winter months.

HOLIDAYS: Standard U.K. Holidays. Cargo work can be arranged on these days.

POLICE/AMBULANCE/FIRE: Police Milford Haven 2351, Pembroke Dock 2121; Ambulance Haverfordwest 3347; Fire Haverfordwest 2131.

TELEPHONES: No telephones on board. Public call boxes exist on all jetties.
GENERAL: Anti-oil Pollution plan in force with facilities for dealing with any oil pollution.
SERVICES: Compass adjusting. D.F. calibration. A "Scamp" underwater hull cleaning service is available.
N.B. Crew and stores directed by rail to vessels at Angle Bay (B.P.) or Pembroke (Texaco) should be directed to Pembroke Station. For vessels at Esso and Gulf Terminals, stores should be directed to Milford Haven.
SHORE LEAVE: Shore leave allowed.
PORT AUTHORITY: Milford Haven Conservancy Board, PO Box 14 Milford Haven Pembrokeshire. Tel. Milford Haven 2341 2343 and 2342.

AGENT: Cory Brothers Shipping Ltd., 5, Victoria Road, Milford Haven, Pembs. Cables: "Cory Milfordhaven". Telex: 48338. Tel. Milford Haven 2473.

NEWHAVEN: 50.47 N. 00.04 E.

PORT LIMITS: A line drawn from a position 300 ft. South of the breakwater in a 075° direction to Seaford Bay.
DOCUMENTS: See "London".
PILOTAGE: Trinity House Pilots, Newhaven District: VHF "Newhaven Radio" Channels 16 and 12. Tel. Newhaven 4822 and Neptune 580. Pilot boats are small fast launches painted red and white. Light and sound signals for a Pilot is "G". Notice of ETA 12 hours before arrival, if possible. Anchorage for a vessel awaiting a Pilot is ½ to 1 mile S.W. of the breakwater, depending on weather conditions. Pilots normally board S. to S.W. of the breakwater, but in severe gale conditions they keep station 100 metres from breakwater end. and guide vessels in with VHF or lamp. Notice should also be given to the red and green signal lights at the West Pier end lighthouse, and on no account should vessels pass breakwater end if signal is at red. In normal weather, pilot ladder should be on lee side about 1 m. above water. In Southerly gales Pilots prefer a ladder on each side, if available.
RESTRICTIONS: Three fathoms through entrance to port LWOST through to inner harbour then dredged depth of 13 ft. in accordance with new chart datum 11·40 ft. above OD Newlyn.
MAX. SIZE: 450 ft. length, 21 ft. 6 in. draft taking bottom on soft mud at low water. Vessels greater than 350 ft. LOA length must either be towed into or out of port. Vessels for North Quay must not exceed 250 ft., length, draft 17 ft.
RADIO: Radio Station Niton Radio, call sign Niton Radio.
RADAR/VHF: No radar service. Ship's may contact West Pier control point on Channel 16, working on Channel 12.
TUGS: Available upon request.
BERTHING: Vessels may be berthed at any time, with prior notice given.
BRIDGES: Vessels requiring to berth at North Quay must arrive within 2 hours either side of high water in order to pass through swing bridge which governs access to this quay.
STEVEDORES: ETA should be given as far in advance as possible and not less than 24 hours before ETA.
DENSITY: Salt water.
FRESH WATER: Available on request. Supplied by shore hosepipe.
FUEL: Available.
FIRE PRECAUTIONS: Usual no-smoking precautions on quayside in port area.
GANGWAY/DECK WATCHMEN: Not provided by Port Authorities but recommended at discretion of Ship's Master.
CONSULS: Norwegian Vice-Consul and French Consular Agency,
REPAIRS: Repairs of a temporary nature only may be carried out by B.R. workshops.
AIRPORT: Nearest airport Gatwick, distance 30 miles. Served by regular airlines.
POLICE/AMBULANCE/FIRE: Police: Civil, Newhaven 5219; Port, Newhaven 4131 (extension: 29). Ambulance: 0830–1700 hours, Lewes 5400; 1700–0830 hours, Lewes 2819; Fire: 999.
SHORE LEAVE: Allowed.
AUTHORITY: Shipping and Port Manager, British Railway Board, Newhaven Harbour, Newhaven, Sussex. Tel: Newhaven 4131. Telex: 87151.

NEWPORT, Mon.: 51.35 N. 02.59 W.

PORT LIMITS: The seaward boundary of the port within which a vessel is considered to be an "arrived vessel" and laytime commences to count is Barry Roads.
DOCUMENTS:
Crew List.
List of stores for individual crew members.
Cargo Manifest.
Cargo Plan.
Ship's Register.
Loading Certificate.
Safety Equipment Certificate.
Safety Construction Certificate.
United Kingdom Light Bills.
PILOTAGE: Telegraphic address – "Newpilots Barry". Advance notice required – 24 hours. VHF Channel – Channel 16 for contact, thence Channel 6 for conversation. Description of pilot boat – diesel launch, black hull, white superstructure, buff funnel and "Newport Pilots" painted in white on bulwarks. Particular light or sound signals to be made by vessels requiring a Pilot – Code Signal 8, i.e. 3 longs 2 shorts. Pilot boat is located in vicinity of Breaksea Lightvessel, or in vicinity of Mercur Buoy, for small vessels. Maintain VHF contact (if possible) with pilot cutter and obey instructions with reference to positioning of vessel to facilitate boarding of Pilots.
ANCHORAGES: Large vessel should anchor in deep water to North of one Fathom banks. Deeper water anchorage (10–14 fathoms) in area between Breaksea Lightvessel and East one Fathom Bank Buoys to the South, and shallow water off Barry Roads to the North. Small vessels will find safe anchorage in Barry Roads in varying depth, depending on weather conditions and draft.
RESTRICTIONS: Entrance to Newport Docks is by means of a sea lock 1,000 ft. long, 100 ft. wide.
MAX. SIZE: Maximum size of vessels accepted at Newport is 800 ft. long, 96 ft. beam, 33½ ft. draft.
HEALTH: Port Health Authority Board vessel at entrance lock and pratique is automatic.
RADIO: At sea – Land's End radio station, call sign GIL. Within Bristol Channel radio station Portishead, call sign GK– (last letter according to frequency).
VHF: Vessels requiring entry can contact port on VHF radio Channels 16 and 11.
TUGS: Normally join at Newport Deeps. Ship's line used.
BRIDGES: Junction passage connecting South and North Dock restricts vessels to a maximum size of 56 ft. 6 in. beam and 25 ft. draft.
BERTHING: South Dock, normal depth of water 35 ft. North Dock, normal depth of water 27 ft.
BULK HANDLING FACILITIES: Container terminal on sight of former East Lock equipped with derrick crane of 32 tons capacity.
New container terminal in South Dock equipped with container crane of 35 tons capacity.
Two side loaders each of 35 tons capacity.
One floating crane of 50 tons capacity.
STEVEDORES: Labour is allocated to vessels on arrival.
MEDICAL: No advance notice of medical attention for crew members is required and hospital facilities are available.
DENSITY: Average density of water in docks is 1016.
FRESH WATER: Available at all berths.
FUEL: All classes of fuel available.
GANGWAY/DECK WATCHMEN: Available but not compulsory.
OPENING/CLOSING HATCHES: Normally carried out by crew.
CUSTOMS ALLOWANCES: Tobacco, ½ lb. per crew member, reduced by 50% on coastal trade. 1 pint of spirit and 1 pint wine per crew member, reduced by 50% on coastal trade.
IDENTIFICATION CARDS: Not required.
REPAIRS: All wet dock and engine repairs possible.
DRY DOCK: 454 ft. × 64 ft.
REPATRIATION: All facilities for the changing of crew and repatriation are available.
AIRPORT: Glamorgan Rhoose Airport terminal 28 miles from Newport. Regular connection planes to London Airport.
TIME: BST, GMT plus 1 hour. GMT in winter months.
HOLIDAYS: Work not undertaken on Christmas, Easter, Spring and Summer Bank holidays. With the exception of Christmas holiday (25 and 26 December) dates on other holidays vary.
POLICE/AMBULANCE/FIRE: Telephone number 999 stating which service is required.
TELEPHONES: Telephone facilities are available aboard vessels.
SERVICES: Tank cleaning equipment. Facilities for tank washing, compass adjusting are available.
SHORE LEAVE: No restrictions to crew members.
AUTHORITY: British Transport Docks Board, Alexandra Docks, Newport, Mon. Newport 65411. Telex 49585.

AGENT: Cory Brothers Shipping Ltd., 66 Dock Street, Newport, Mon. Cables: "Corship Newportmon". Telex: 49429. Tel. Newport 66351.

PLYMOUTH: 50.22 N. 04.90 W.

DOCUMENTS: Importer to supply Agent with Customs documentation, e.g. original B/L with cheque to cover various details; plus copies of Invoice and Forms C.105 with packing lists. Deratting or Exemption Certificate required.
PILOTAGE: Compulsory for merchant vessels. Call sign FSG, or 4 short blasts on whistle. Vessels not subject to compulsory pilotage may obtain docking Pilot in Plymouth Sound otherwise Pilot Station off Penlee Point.
Pilot boat is motor boat with white upperworks, black hull. "Pilot" in black on wheelhouse.
RADIO: Station PQIS fitted VHF. Continuous watch. Pilot cutter has FM.RT – C 2182 kc/s (Channel 16). W. 2301, 2246 (Channels 6, 8 and 12). Continuous watch kept. Shore based Trinity House Pilots call Cattewater Harbour Radio, keeps continuous watch on Channel 16 and is fitted with Channel 12 (first choice PQIS).
ANCHORAGES: In Plymouth Sound.
MAX. SIZE: Maximum depth of water 30 ft. Vessel drawing 26 ft. would leave anchorage two hours before High Water.
HEALTH: Pratique. Apply to Customs Waterguard. Pratique issued when requirements satisfied.
TUGS: Available in Sound.
BERTHING: The Outer Basin is tidal and enters directly from Plymouth Sound. West wharf, 750 ft. length, depth 30 ft. LWOST.
Trinity Pier, 500 ft. length
Mill Bay Pier, 450 ft. length.

The Inner Basin, general depth of water 20 ft., with 25 ft. depth alongside a 600 ft. length of wharf quay.

CARGO HANDLING FACILITIES: Silo for grain imports owned by Spillers Ltd. Calor Gas plant on North Quay for imports of butane and propane gas. Bulk coal imports and processing for the Plymouth Co-operative Society is situated on South Quay.

A roll-on/roll-off ferry terminal will commence operations in January 1973.

STEVEDORES: British Transport Docks Board: Commodities regularly handled include fresh fruit and vegetables, timber, coal, scrap metal and general cargoes.

MEDICAL: No advance notice required; hospital facilities in Plymouth.

FRESH WATER: Available from shore at all berths.

FUEL: All normal grades available at short notice.

OPENING/CLOSING HATCHES: Performed by ship's crew or by stevedores at request of ship.

CERTIFICATES: Tonnage registration.

CONSULS:

Norwegian	65154	Greece	60604

REPAIRS: Ship repairing facilities available.

HOLIDAYS: Cargo work can often be arranged on Public Holidays subject to prior notice.

POLICE/AMBULANCE/FIRE: Telephone 999.

TELEPHONES: By special arrangement with the GPO, can be placed on aboard.

AUTHORITY: British Transport Docks Board, Millbay Docks, Plymouth. Tel. Plymouth 62191.

POOLE, Dorset: 50.43 N. 01.59 W.

DOCUMENTS: As for other British ports.

PILOTAGE: Pilots board ½ mile South of Poole Bar Buoy from cutter. Prefer ladder 2 ft. from water and a good lee. R/T watch kept on 2182 k/cs working frequency 2241 k/cs. As much notice as possible. Address: Pilots, Poole.

ANCHORAGE: Vessels can anchor anywhere in Poole Bay and Studland Bay. Good holding ground and protected in all but Easterly gale.

RESTRICTIONS: Vessels drawing up to 13 ft. can enter at any state of tide. Draughts of 16 ft. must wait to within 2 hours of high water.

MAX. SIZE: Maximum length 350 ft., beam – no limit, draft 17 ft.

RADIO: Niton.

TUGS: Join off North Haven. Ship's lines. No difference in charges.

BERTHING: Berthing time depends on draft at some private quays. No restriction at New Quay, Ro/Ro berths in operation Jan. 1973. 25 ton container crane available. Pneumatic bulk grain and fertiliser loading/discharging equipment in operation.

BRIDGES: Poole Bridge at West end of Poole Quay. Will open at any time on request by commercial vessel.

STEVEDORES: Normal notice for gangs. No Sunday work.

MEDICAL: Advance notice required for ambulance services. Normal medical and hospital services available.

TANKERS: Three oil berths. Diameter of load/discharge lines 6 in.

DENSITY: 1021.

FRESH WATER: Delivery 25 tph by 2 in. hose.

FUEL: Gas oil only.

GANGWAY/DECK WATCHMEN: Not required.

OPENING/CLOSING HATCHES: Work carried out by crew.

IDENTITY CARDS: Not required.

CONSULS: None.

REPAIRS: All types deck and engine repairs can be carried out. Slipways (2) available for vessels up to 220 ft. LOA by 40 ft. beam and 120 ft. LOA by 30 ft. beam.

AIRPORT: Charter flights for crew changes can be carried out from Poole/Bournemouth Airport 7 miles away from port.

POLICE/AMBULANCE/FIRE: Call 999 and ask for service required.

AUTHORITY: Poole Harbour Commissioners: Harbour Master and Collector of Dues, Harbour Office, The Quay, Poole, Dorset. Tel. Poole (020 13) 3845.

AGENT: John Carter (Poole) Ltd. The Quay, Poole. Tel. Poole 4102. Telex 41176. Cables: Maritime Poole.

PORTSMOUTH: 50·48 N. 01·07 W.

DOCUMENTS: (Those marked* to be produced to H.M. Customs Boarding Officer.)

*1 Maritime Declaration of Health.
*1 Crew's Effects List C142.
2 Ship's Reports by Master.
*1 Home Office Form 1B6.
*1 Stores List.
*1 Certificate of Deck Cargo Tonnage.
*1 Grain Certificate.
1 Light Dues Certificate.
1 Port Dues Certificate.
*1 Passenger List.
*1 Landing Card for each non-British passenger.
*Ship's Certificate of Registry.
Mercantile Marine Office Certificate (British ships only).
*Load Line Certificate.
*Safety Equipment Certificate.
Lloyds Certificate.
*De-rat Certificate.
Ship's Register.
Light Bills.
Safety Radio Certificate.
*List C143 for packages not cargo or crew/passenger effects.
*Danish Tollpass for ships arriving from Denmark.
XS4 (Authority for Agent to make Report and clear vessel outwards for Master).

Note: Where cargo is to remain on board for unloading at another port after Portsmouth, 3 copies of Ship's Report are required by the Custom House.

PILOTAGE: See "Southampton" entry for sea pilotage. As Portsmouth is within the Isle of Wight Pilotage District, a Sea Pilot must be employed by vessels subject to compulsory pilotage. Trinity House Portsmouth Pilots conduct vessels to and from the commercial berths. (Admiralty Pilots must also be employed by commercial vessels making use of any Admiralty berth or tugs.) Harbour Pilots put to sea only as required. Pilot boat "Spit Sand" (call sign "Portsmouth Pilots") is equipped with VHF, Channels 16, 11, 9 and 6, and shows international signals by day and night. In most cases, vessels bound to and from the Westward will find it more convenient to use the Nab or Eastern approach to Portsmouth.

ANCHORAGES: Small vessels may anchor close Westward of the "Outer Spit" buoy, unless prohibition signal flying – see "Restrictions". Larger vessels will be allocated a numbered anchor berth in the Spithead Man-of-War anchorage by the Queen's Harbour Master; Sea Pilots will be fully informed before vessel's arrival. If anchorage is prohibited in Spithead, St. Helen's Roads or Cowes Roads are the nearest safe anchorages. Mooring buoys inside the harbour are occasionally used.

MAXIMUM SIZE: Commercial berths: Camber – length 260 ft., draft 16 ft. Flathouse – length 280 ft., draft 18 ft. Albert Johnson Quay – length 340 ft., depth at Spring low water, 14 ft.

Draft refers to arrival at spring tides. Vessels at all these berths must expect to take the bottom in soft mud at low water springs.

Admiralty berths used by commercial vessels: South Railway Jetty, Portsmouth, and Admiralty Oil Jetties at Gosport; regular use; maximum length 648 ft., maximum draft 36 ft. These figures may occasionally be exceeded in special cases.

RESTRICTIONS: The following traffic signals are exhibited and must be complied with by all vessels. Shown by Central Signal Station (C), Blockhouse (B), Gilkicker (G), Dolphin Pier (D) and H.M. ships concerned (S).

Day	*Night*	*Meaning*	*Shown by*
Red flag with white diagonal.	Red	No vessel to enter or leave harbour or enter approach channel	C
	Green		B
	Green	North of Outer Spit Buoy.	G
Red flag with white diagonal over black ball.		No vessel to enter harbour or approach channel. Outward shipping may proceed.	C B G
Black ball over red flag with white diagonal.		No vessel to leave harbour. Inward-bound shipping may proceed.	C B G
Black pendant.	White Red Red	No merchant or private vessel to anchor in man-of-war anchorage in Spithead.	G
Answg. Pendant over Pt 0.		All vessels North of Outer Spit keep clear of warship flying this signal.	S
Answg. Pendant over Pt. 9.	Green Green Green	All vessels and boats keep clear of H.M. ships under way.	C B G
Answg. Pendant over flags N E	Green Red	Proceed with great caution, ships leaving Camber (Not ferries).	B
Answg. Pendant over flag A.	Red Red	Divers down, keep clear.	Diving boat.
Flag E	Orange	Submarine entering or leaving Haslar Lake. At night, light flashes when sub. under way. All vessels keep clear of submarines.	B D

Speed limit of 7 knots in harbour and when within 1,000 yards of shore; 12 knots within 1,000 yards of any of H.M. ships and anywhere within the Dockyard Port not covered by the 7 knots limit. Dockyard Port boundaries are shown on Admiralty charts.

Time of entry is restricted by the vessel's draft and state of tide. Enter Camber only at 4 hours before high water or at high water slack. Vessels do not berth at South Railway Jetty from 2 hours before high water until high water.

HEALTH: Foreign arrivals to complete Maritime Declaration of Health. They are cleared immediately on arrival by either a Port Doctor or an officer of H.M. Customs, depending on where ship comes from and whether there is sickness on board.

Vessels arriving from ports within accepted area (North European ports) and coastal arrivals need not present Declaration in all cases; when there is sickness on board, Port Health Authority must be

informed, preferably not more than 12 nor less than 3 hours before arrival.
RADIO: See "Southampton" entry for Sea Pilot Communications. "Portsmouth Harbour Radio" keeps continuous watch during normal office hours and from 00 minutes until +15 minutes of every hour when office is closed. VHF only. Channel 16 for calling and Channel 11 working frequency.
Gilkicker Signal Station is equipped with VHF Channels 16, 13, 12, 11, 10 and 6 with limited range, and is also equipped for visual signalling. Medium frequency radio-telephone only by link call through Nitonradio.
TUGS: 200-ton tug with bollard pull of 2 tons and several two-boat launches are available for commercial vessels at commercial berths. Two 1,600 hp diesel paddle tugs and five screw tugs are available for larger vessels using Admiralty berths.
STEVEDORES: Registered dock workers and cranes must be ordered by 1500 hours on the day previous to commencement of discharge or loading, depending upon receipt of exact ETA from Master.
MEDICAL: All medical facilities available. Agent should be advised in advance. (See "Southampton" entry if arrival is solely to land sick personnel.)
CUSTOMS ALLOWANCES: As for "Southampton".
DENSITY: 1025 salt water.
FRESH WATER: Available.
FUEL AND DIESEL OILS: Available by road tanker or bunker barge from Fawley.
FIRE PRECAUTIONS: Notices will be delivered to Master if berthing at any jetty where special precautions apply.
HATCHES: Opened and closed by ship's crew.
CRANAGE: Two mobile cranes of 15 tons, 1 mobile crane of 10 tons and 13 mobile cranes of 2 tons capacity are provided by the Port Authority.
CONSULS:

Belgium	Norway	Sweden
Denmark	France	
Finland	Netherlands	

REPAIRS: Minor deck and engine repairs can be carried out locally. Larger repairs and dry dock facilities at Southampton.
AIRPORT: Fast train service from Portsmouth to London Airport. Portsmouth and Eastleigh airports are local, but mainly short flights to Channel Islands and feeder services.
SERVICES: All marine, radio and radar services can be obtained from Southampton.
REPATRIATION: All facilities exist.
TELEPHONES ON BOARD: No.
AUTHORITY: Admiralty acting through Queen's Harbour Master. City of Portsmouth for Commercial berths.

PORT TALBOT: 51.35 N. 03.49 W.

DOCUMENTS:
Ship's Register.
Test Certificate for ship's gear.
Manifest.
Master's Report to be completed on arrival.
Customs and Health Documents as required by H.M. Customs and Port Health Authorities, to be completed on arrival.
PILOTAGE: Station – Swansea Bay. Usual International signals. VHF Channels 16 and 12.
ANCHORAGES: Swansea Bay.
RESTRICTIONS: *Ore terminal* in New Harbour, entrance channel 1½ miles long, 550 ft. wide. Depth 60 ft. MHWS, 53 ft. MHWN.
MAX. SIZE: *Ore terminal* – 100,000 tons dw ore carriers – draft 49 ft.
TUGS: Off Breakwater.
BERTHING:
New Harbour. British Steel Corporation provide two unloading appliances on the jetty and also a conveyor-belt system to carry the iron ore to the stocking ground close to harbour and steel works. Grabs on the unloading appliances weigh 22 tons each, and each have a pay-load of 22 tons. The two discharging appliances together have an unloading rate of 3,600 tons per hour. Average rate throughout discharge from start to finish of the two discharging appliances together is 1,800 tons per hour.
STEVEDORES: ETA advices sent by vessels to local Agent and then advised to British Steel Corp. as stevedores. Labour ordered by Agent from B.S.C.
DENSITY: Ore Terminal 1025.
FRESH WATER: By gravity 10 tons per hr. Harbour pumping 100 tons per hr.
FUEL: By barge or road tanker. Any grade available.
GANGWAY/DECK WATCHMEN: None, But by-laws state that vessel must be manned.
OPENING/CLOSING HATCHES: Performed by crew.
CUSTOMS ALLOWANCES: Tobacco, 1 oz. per day per man, maximum 8 days. Wine/Spirits, ¼ pint per day per man, every 4 days.
IDENTIFICATION CARDS: Docks Police would require identification to be available.
CONSULS: None at Port Talbot; contact Swansea.
REPAIRS: Facilities exist.
DRY DOCKS: 460 ft. × 58 ft.
REPATRIATION: All facilities exist.
AIRPORT: Rhoose Airport 25 miles away. Mainly short trips connecting with main airports.
TIME: GMT plus 1. GMT in winter months.
HOLIDAYS: It is the custom, at the Tidal Harbour, to work on Bank Holidays.
POLICE/AMBULANCE/FIRE: Dial 999 and ask for service required.
TELEPHONES: Can be connected on board.
AUTHORITY: Docks Manager, Swansea & Port Talbot, Swansea.
AGENT: Cory Brothers Shipping Ltd., Commercial Buildings, Station Road, Port Talbot. Cables: "Cory Port Talbot". Telex: 48295. Tel. Port Talbot 2292.

ROCHESTER: 51.23 N. 0.30 E. (including Chatham, Strood, Upnor, Gillingham, Otterham Quay, Snodland, Halling & New Hythe)

DOCUMENTS: See "London".
PILOTAGE: See "Medway".
ANCHORAGES: See "Sheerness".
RESTRICTIONS: No entry restrictions only as to state of tide and draft and as directed by Medway Radio (Medway Port Control Authority). Station keeps watch on Channel 14. Medway patrol launch on RT 2182 kc/s. For vessels exceeding 350 ft. in length, daylight navigation on river only.
MAX. SIZE: For Rochester ship berths maximum length 400 ft. and 25 ft. draft. River berths available 160/500 ft. in length, with depths of water HWST 14/25 ft. and HWNT 9/20 ft. All wharves are NAABSA.
HEALTH: Pratique obtained on arrival at Sheerness where Port Medical Officer is available if required.
RADIO: From South: Lands End, Niton, North Foreland. From North: Cullercoats, Humber, North Foreland.
TUGS: Compulsory for vessels over 300 ft. in length.
MEDICAL: Port Medical Officer available if necessary on arrival at Sheerness with 24 hours notice to Agents. Doctor and hospital facilities available at Rochester.
DENSITY: 1020 unless excessive land water coming down river.
FRESH WATER: Quantities up to 200 tons available for delivery by water barge.
FUEL: Oil bunkers may be obtained at the main installation at the Isle of Grain Oil Refinery, or by barge or by road tanker. The last two methods require minimum 48 hours notice, similarly with supplying lubricating oil which is not available at the Isle of Grain.
HATCHES: Opening/Closing to be carried out by crew.
CARGO GEAR: Discharge by ship's gear at ship berth and by mobile cranes up to 5 tons at all river berths.
CONSULS:
Vice-Consul Netherlands, tel. Medway 43256.
Vice-Consul Sweden, tel. Medway 44632.
Vice-Consul Finland, tel. Medway 44632.
REPAIRS: All types deck and engine repairs possible.
DRY DOCKS: All repair facilities available on river berths for vessels up to 200 ft. in length; on a grid for up to 250 ft., and a slipway for up to 140 ft.
AIRPORT: London Airport (Heathrow), Southend Airport.
POLICE/AMBULANCE/FIRE: Police, Medway 41566; Ambulance, Medway 52201; Fire, Medway 50005 or Maidstone 54207.
SERVICES: Compass adjustors available.
PORT REGULATIONS: See "Medway".
AUTHORITY: Medway Ports Authority.
AGENT: George Watson & Gill Ltd., 276 High Street, Rochester, Kent. Tel. Medway 43256 and 43257. Telex: 96125. Cable: Tug Rochester.

SHEERNESS: 51.27 N. 00.44 E.

Situated on Isle of Sheppey at junctions of Thames and Medway Rivers.
DOCUMENTS: See "London".
PILOTAGE: See "Medway".
ANCHORAGES: For vessels entering River Medway up to 350 ft. length, Little Nore Anchorage, Sheerness. Over 350 ft. length – As directed by Medway Port Authority (Medway Radio) or Thames Navigation to Great Nore, Sea Reach or Warps.
RESTRICTIONS: Entry restrictions only to state of tide and draft and as directed by Medway Radio (Medway Port Control Authority). Station keeps watch on Channel 14, Medway Patrol launch on R/T 2182 kc/s. Occasional restriction for entering approaching channel when Navy claim priority.
MAX. SIZE: Sheerness. Max. length of vessel 600 ft., draft 38 ft. deep water berth. 12 berths in docks for vessels up to 300 ft. in length and 16–18 ft. draft dependent on tides.
Queenborough: Max. length of vessel 335 ft., draft of 22 ft.
Ridham Dock: Max. length of vessel 335 ft., beam 50 ft., draft of 22 ft.
RADIO: Portishead. Local Stations: From South – Lands End. Niton. North Foreland. From North. Cullercoats. Humber. North Foreland.
TUGS: River Medway – For Sheerness, Ridham Dock, Isle of Grain, Bee Ness, Oakham Ness – Tugs usually meet vessels at Garrison Point Sheerness – 7 tugs available with BHP range from 900 to 3,000 BHP. Tug's lines used, no extra charge.
BERTHING: Sheerness, deep water berth – no restriction. Dock berths – limited to 2 hours before and 1 hour after high water.
Queenborough: Berthing restricted to daylight only.

Ridham Dock: Berthing restricted to daylight only.

Berths equipped mainly for handling fresh fruit and vegetables, general cargo, wines in cask and bulk.

Storage facilities available for bulk wine.

No facilities exist for handling bulk cargoes at present.

Containers can be handled in Inner Docks where a 30-ton crane is available.

Sheerness Deep Water Berths – No. 1 – suitable for vessels up to 560 ft. length and 29 to 30 ft. draft.

No. 2. Suitable for vessels up to 550 ft. length and 38 ft. draft.

No. 3. Suitable for vessels up to 650 ft. length and 38 ft. draft.

Roll-on/roll-off ferry berth. Suitable for either bow or stern door vessels of up to 450 ft. length and 18 ft. draft. Present service daily Sheerness/Ostend and vice versa.

Inner Docks. Twelve berths suitable for vessels up to 260 ft. length and 16 to 18 ft. draft, dependent on tides. Berths in Inner docks are n.a.a.b.s.a. berths, there being about 8 ft. of water on berths at LW.

STEVEDORES: ETA's of vessels passed to Stevedores in daily consultation with Agents – minimum notice of arrival required being 24 hours for arranging gangs. (Main commodity handled at Sheerness is canned or fresh fruit with average discharge rate of 18 tons per gang hour.)

VHF/RADAR: See "Medway".

MEDICAL: 24 hours notice to Agents so that Port Medical Officer can be advised. Normal boarding point – Garrison Point Sheerness – smallpox vaccination certificate required for sighting. All usual hospital facilities available within 15 mile range of Sheerness.

DENSITY: Average density 1021/22.

FRESH WATER: Available alongside all berths at Sheerness. Otherwise available anywhere in River by barge.

FUEL: All grades available at BP Refinery Isle of Grain – or available by barge or lorry given 48 hours notice.

GANGWAY/DECK WATCHMEN: Gangway watchmen – services recommended as all berths at Sheerness are tidal with average rise and fall of 16 ft.

OPENING/CLOSING HATCHES: In the River Medway Ports this always has to be performed by crew as local regulations do not permit stevedoring gangs to undertake this work.

REPAIRS: All types of deck and engine repairs can be carried out either in berth, in dry dock or at river buoys.

DRY DOCKS: Sheerness: 4 dry docks available. Largest for vessels up to 280 ft., otherwise only small slipways available.

REPATRIATION: Usual facilities available for crew changes – repatriation can be arranged by various air/sea routes.

TELEPHONES: Police: Sheerness 2261; Fire: Sheerness 2382 or dial 999 and ask for Fire Service; Ambulance: Sheerness 2028. At Sheerness coin boxes are available for placing on board.

GENERAL: All shipping movements co-ordinated by Medway Port Control Authority, tel. Sheerness 3025, all arrangements being made after notification of arrival or departure by vessel's Agent.

PORT REGULATIONS: See "Medway".

AUTHORITY: Medway Ports Authority.

AGENT: Wm. Hurst Ltd., 19 West Street, Sheerness. Tel. 0795–6–2356. Telex 96116. Cables "Hurst Sheerness".

SHOREHAM: 50.50 N. 00.15 W.

DOCUMENTS and all general information, refer to "London". Distance from London, 50 miles.

PILOTAGE: Trinity House Pilotage Service. Pilotage Cutter equipped with VHF.

ANCHORAGE: Off Harbour. Depths as per English Channel Charts.

RESTRICTIONS: No night restrictions. Port normally accessible 4 hours before and 2 hours 40 minutes after High water. According to size and draft these times can be extended.

Main entrance channel, 400 ft. wide, leads into a 300 ft. channel for the Eastern arm, and a 135 ft. wide channel for the Western arm.

Dimensions of Prince Philip Lock: 374 ft. length, 57 ft. width.

MAX. SIZE: Length 350 ft. Draft 21 ft. subject tide.

RADIO: Niton Radio/North Foreland Radio.

Port operation and information service manned continuously, contact by VHF calling Channel 16, working Channel 14. Station is situated on the middle pier.

TUGS: One tug available if required. Tug lines used for which no extra charge.

BERTHING: Vessels passing lock gates have locking period of 4½ hours before High water to 2 hours 40 minutes after – both according draft. Heavy lift crane, 32 tons capacity for container handling.

STEVEDORES: Reasonable ETA is sufficient for gangs to be called.

MEDICAL: All facilities available.

DENSITY: Approx. 1025.

FRESH WATER: Available at Lock Gates and most berths.

CONSULS: Danish – P. D. Wharfage & Transport Ltd.

AUTHORITY: Shoreham Port Authority.

AGENT: P. D. Wharfage & Transport Ltd., 31, High Street, Shoreham-by-Sea, Sussex, BN4 5EG. Tel. Shoreham-by-Sea 2345. Telex: 87187. Cables: "Shipbroker Shoreham-by-Sea".

SOUTHAMPTON: 50.54 N. 01.24 W.

DOCUMENTS:

1 Maritime Declaration of Health.
1 Crew's Effects List.
2 Ship's Report by Master.
1 Home Office Form 1B6.
1 Stores List.
1 Certificate of Deck Cargo Tonnage.
1 Grain Certificate.
1 Light Certificate.
1 Port Dues Certificate.
1 Passenger List.
1 Landing Card for each Passenger.
Ship's Certificate of Registry.
Mercantile Marine Office Certificate – for British ships only.
Load-line Certificate.
Safety Equipment and Safety Construction Certificate.
Lloyds Certificate.
De-rat Certificate.
Ship's Register.
Light Bills.
Safety Radio Certificate.

In addition, Manifests and Bills of Lading are usually sent to Agent direct from loading port.

PILOTAGE: Compulsory, with usual regular Home Trade and other small exemptions. In addition to 48 hours notice to local Agent, advise Nab or Needles Pilot as appropriate, ETA 48 hours and again 2 to 3 hours immediately prior to arrival. The Nab and Needles stations are maintained by fast launches under the control of the Duty Pilot at Ryde Pier Pilot Station. Duty Pilot keeps a continuous watch on VHF Channel 16; call sign NABPILOT or NEEDLESPILOT as appropriate. Working frequency: Channel 9 only, but can listen on Channels 6, 12 and 14. No medium frequency: M/F and R/T messages via NITONRADIO. Duty Pilot's GPO telephone numbers: Ryde 3192 and 3228.

The launches only put to sea when required. *Failure to send an accurate ETA 2 to 3 hours before arrival could cause delay to the offending vessel.*

The Nab and Needles Pilots also act as sea Pilots for vessels bound for Portsmouth, Cowes and other small ports within the Trinity House Isle of Wight Pilotage District. The limits of the District are defined by a line drawn from a point 180°–1 mile from Selsey Bill to a position in latitude 50° 40′ N., longitude 0° 57′ W (Nab Tower), thence to a point 180°–1 miles from Culver Cliff, thence to a position 180°–1 mile from St. Catherine's Point and thence direct to Peveril Point.

Strict compliance with the requirements of the Merchant Shipping (Pilot Ladders) Safety Rules is requested by the Pilots, who may refuse to board vessels with unsatisfactory and dangerous ladders. Man ropes are not required. Ladders should reach to approximately 3 ft. from the water and a good lee provided whilst making approximately 5 to 7 knots headway.

Eastern Approaches or Nab Tower. The station is maintained by 40-ft. fast launches, black hulls, white wheelhouses, showing international signals. VHF Channels 6, 9, 12 and 16. Vessels under 40 ft. draft are normally boarded between the "New Grounds" and "Dean Tail" light buoys, although in bad weather, boarding at the "Warner" buoy or St. Helen's Roads might be advised by the Duty Pilot. Launches operate from Ryde pier.

Vessels over 35 ft. draft are restricted by tide for time of entry, and will be advised by the Duty Pilot. Vessels of 40 ft. draft and over use the Nab Channel and a message advising Tanker Master of transit times will be sent by Essoship Fawley and confirmed prior to arrival by Duty Pilot on VHF.

The Nab Channel has a limiting depth of 42 ft. below Chart Datum (June 1971). Pilot will board all vessels of 40 ft. draft and over in a position 2 to 3 miles South of the Nab Tower. Masters of such vessels are strongly recommended not to approach closer than 2 miles to the Nab Tower without a Pilot, owing to strong tidal streams. It is advisable for a deep-drafted ship to anchor 3 miles South of the Nab Tower if waiting for the tide. Advice will always be given on request to the Duty Pilot by VHF.

Pilot *will not* board vessels under 40 ft. draft outside the defined pilotage district unless specifically requested by the Master to do so. The additional "Out of District" charge for boarding beyond the normal limits will be debited to Owners.

Western Approach – Needles: Vessels drawing more than 31 ft. are advised to enter via the Nab. Masters are strongly urged not to proceed beyond the Fairway Buoy without a Pilot, especially on the flood tide. Safe anchorage in vicinity of Fairway Buoy.

Station maintained by 40 ft. fast launch with black hull and white wheelhouse, showing international signals. Launch operates from Yarmouth pier or Totland Bay Pier. Needles pilot launch is fitted with VHF Channel 6, 9, 12 and 16. No medium frequency.

When it is considered that the weather is deteriorating to the extent that the boarding and landing of Pilots could in the near future become dangerous, a message will be sent to all ships through Nitonradio, as follows:

> "Needles Pilot operating bad weather routine. Vessels should ascertain at least three hours before their ETA Needles whether a Pilot will be available. This information can be obtained either through Niton Radio or direct from Needles Pilot on VHF."

If it is not safe to ship or land the Pilot at the Needles, Masters will be advised to proceed to the Nab.

In poor visibility a vessel requiring Pilot at either Nab or Needles

uses a distinguishing signal of "G" to which the pilot launch will reply with "H".

Vessels (*a*) drawing more than 35 ft. (*b*) more than 1,000 ft. in length or (*c*) of more than 100,000 tons deadweight exhibit a large black cylinder by day and three vertical red lights by night. Vessels showing these signals are not to be passed or overtaken within channel limits between the "West Bramble" and "Hook" light buoys and may not be able to comply with the Collision Regulations at other times. Will indicate inability by five short blasts on the whistle. "Clear channel" control is exercised by the Operations Officer at Southampton Port Radar Station.

Information on movements of other vessels can be obtained on VHF from this station, which also controls the movements of the Patrol Launch (Harbour Master flag by day; all-round blue light at night) used for pollution detection and keeping yachts and small craft clear of large vessels navigating in the channels of the port. The Thorn Channel has a limiting depth of 40½ ft. (June 1971) at low water datum.

Up to seven vessels of under 300 ft. in length are permitted to anchor out of the channel to the East of the Hook Buoy in the designated Small Ship Anchorage, the limits of which must be strictly observed. Three numbered anchor berths are available in the Fawley Reach Controlled Anchorage, where vessels must moor to two anchors. Permission to use the Small Ship and Controlled Anchorages must be obtained from the Operations Officer, Southampton Port Radio.

MAX. SIZE: The largest passenger and container vessels call regularly at Southampton. Tankers: Fawley can accept partly loaded 200,000 dwt. up to 49 ft. draft.

HEALTH: Foreign arrivals to complete Maritime Declaration of Health. They are cleared immediately on arrival by either a port doctor or an officer of H.M. Customs depending on where ship comes from and whether there is sickness on board.

Vessels arriving from ports within accepted area (N. European ports) and coastal arrivals need not present Declaration in all cases: when there is sickness on board the Port Health Authority must be informed preferably not more than 12 hours and not less than 3 hours before arrival.

RADIO: A Duty Port Operations Officer, responsible to the Southampton Dock and Harbour Master, maintains a continuous watch at 37 Berth Port Communications and Radar Station: call sign "Southampton Port Radio". He is to be informed prior to any movement to, from or within the port area. The following VHF Channels are operated within the port:

Southampton Port Radio: Channels 16, 14, 12, 11, 10, 18, 20 and 22.
B.T.D.B. Patrol Launch: Channels 16, 14, 12, 11, 10, 8 and 6.
Nab and Needles Pilot Launches: Channels 16, 14, 12, 9 and 6.
Berthing Pilot's Launch: Channels 16, 12, 9, 8 and 6.
Tugs: Channels 16, 12, 10 and 8.
Esso Petroleum Terminal, Fawley: Channels 16, 14 and 19. Private frequencies: 163.0/158.5 Mc/s. am and fm.
Shell-Mex-B.P., Hamble Jetty: Channels 16 and 14.
Duty Pilot, Ryde Pier and Berthing Pilots, Southampton Docks: Channels 16 and 9: can listen on Channels 14, 12 and 6.

TUGS: Two tugs are permanently stationed at Fawley; if more than 2 tugs are required it should be noted that week-end requirements have to be advised to the tug operators not later than 1600 hours on Friday of each week.

If a vessel requires more than 2 tugs and is due to arrive at Fawley between 0000 hours Saturday and 0900 hours Monday, ETAs must be submitted well in advance of 1600 hours on the Friday prior to arrival. It is usual to use the wires provided by the tugs for towing.

TANKERS: Esso Marine Terminal, Fawley. There are 9 berths at Fawley, all running parallel to the main channel. The 5 berths on the outside of the jetty facing the main channel are for ocean-going vessels, No. 1 berth being the most Northerly. The 4 berths on inside of jetty are for small coastal craft. No. 6 berth being the most Northerly.

The following LWD depths are dredged and subject to alteration:

	Alongside	*Approaches*
Berth No. 1	33·5 ft.	33·5 ft.
,, No. 2	37·5 ft.	35·5 ft.
,, No. 3	41·5 ft.	45·0 ft.
,, No. 4	49·0 ft.	45·0 ft.
,, No. 5	49·0 ft.	45·0 ft.
Berth Nos. 69	18·5 ft.	18·5 ft.

Shore gangways are available on Berths 4 and 5 for vessels of 47,000 DWT and over.

Dirty Ballast Facilities: Dirty ballast facilities are on all berths with maximum storage of 14,000 tons.

Shell Terminal, Hamble. Situated immediately opposite Fawley; has two main berths running parallel to main channel, No. 1 being the Northern berth and also a small inside coaster berth. Depths 32 ft. alongside and approaches 29 ft. at LW.

Facilities and services as for Fawley with the exception of transport facilities, no transport being available within the depot. Ship's personnel are permitted to walk through the depot to Hamble Village where public transport to Southampton is frequent.

All grades of fuel and diesel bunkers and fresh water available on all berths.

BUNKERS AND WATER: All grades of fuel oil and diesel oil are available and water is piped on all berths.

REPAIRS: All ship repairs can be effected.

OIL POLLUTION: Southampton Water is an international yachting centre and has many holiday beaches on its shores. Consequently, oil pollution is treated very severely and heavy fines are imposed on offenders.

The Refinery operates a clean-up service, the cost of which is billed to the offending ship.

MEDICAL: Doctors and hospital facilities available. Agent should be advised in advance of any medical attention required.

An organisation exists for hospitalisation of sick seamen from vessels off Cowes, Isle of Wight. Arrange through Nitonradio, Duty Pilot, Ryde, or local Agent. Minimum delay to vessel.

CUSTOMS ALLOWANCES: At the discretion of local Customs Inspector. Normal allowances are equivalent to ½ lb. tobacco per man and equivalent to 1 bottle of wine per man. Allowances may be halved for home trade vessels. Vessels in port for more than three or four days may receive extra allowances.

DEVELOPMENTS: The limits of the port of Southampton have been extended to join up in the East with the westward limit of the dockyard port of Portsmouth. Legislation is in hand to designate a main shipping channel serving the combined port areas, with priority given to vessels using it.

Plans are well advanced for an amalgamated pilot service for Southampton, thus abolishing the need to change Pilots off Netley.

TIME: British Standard Time is GMT plus 1 hour. GMT in winter months.

HOLIDAYS: Good Friday (variable date); Easter Monday (variable date); Spring Bank Holiday (variable date); Autumn Bank Holiday (variable date); Christmas Day (25th December); Boxing Day (26th December).

POLICE/AMBULANCE/FIRE: Dial 999 from any telephone and ask for service required.

AUTHORITY: British Transport Docks Board, Southampton.

AGENT: P. D. Wharfage & Transport Ltd., Dibles Wharf, Belvidere Road, Southampton, SO1 1QY. Cables: "Shipbroker Southampton". Telex: 47373. Tel. Southampton 24682.

STORNOWAY: 58.12 N. 06.22 W.

PORT LIMITS: An imaginary line from Helen Head to Arnish Point. Any vessel anchored inside the line would be normally considered an arrived vessel.

PILOTAGE: Pilotage not compulsory. Vessels requesting Pilot request same with ETA. Boarding off Arnish Point lighthouse.

ANCHORAGES: Anchorage in harbour between Goat Island and mouth of Creed River, 8 fathoms.

RESTRICTIONS: Entry night or day and at any state of tide. No bar on entrance.

MAX. SIZE: 400 ft. by 60 ft. by 22 ft. draft to berth alongside, 600 ft. length by 35 ft. draft for anchorage in bay.

HEALTH: The customary flying of "Q" flag.

RADIO: Wick Radio or alternatively Oban Radio.

RADAR/VHF: No port radar or radio service but emergency messages may be passed through Stornoway Coastguard on 181·8 metres.

TUGS: No tugs available at port. Fishing vessels have been used, when necessary, for this purpose.

BERTHING: Vessels can be berthed at any time, provided berth is free.

Roll-on/roll-off ferry terminal for Stornoway/Ullapool service to be inaugurated spring 1973.

STEVEDORES: Arranged by Agents on receipt of ETA.

MEDICAL: Advance notice desirable. Hospital facilities available in the town.

TANKERS: Normal safety requirements. One tanker berth only 15 ft. mean draught, maximum length 220 ft.

DENSITY: Pratically always dead salt; 1025 density.

FRESH WATER: Fresh water available by hose at 15 tons per hour.

FUEL: 24 hours notice required.

GANGWAY/DECK WATCHMEN: Service of watchmen not necessary. Watchmen from shore may be employed if required.

OPENING/CLOSING HATCHES: Normally crew.

IDENTIFICATION CARDS: Not required.

CONSULS: French, Swedish, Norwegian; tel. Stornoway 12 55, and 367, 73.

REPAIRS: Minor deck and engine repairs can be carried out locally.

DRY DOCKS: No dry dock but one slipway of 750 tons displacement.

REPATRIATION: Facilities exist for this service.

AIRPORT: 3 miles from port, served regularly by BEA from Glasgow, Aberdeen and Inverness.

HOLIDAYS: New Year's Day, Christmas Day and all other local Bank Holidays. Cargo work can be arranged except New Year's Day. (No Sunday work.)

POLICE/AMBULANCE/FIRE: Police, Stornoway 222 (can deal with all three).

TELEPHONES: Can be arranged by prior application through Aberdeen office.

GENERAL: ETA to be sent 24 hours beforehand so that necessary arrangements can be made.

AUTHORITY: Stornoway Pier and Harbour Commission, Harbour Office, Stornoway. Tel: Stornoway 3285.

STRANRAER: 54.55 N. 05.02 W.

DOCUMENTS: As for other British ports.
PILOTAGE: Not compulsory—no Pilot available.
MAX. SIZE: Largest vessel handled 375 ft. long. Working draft 12 ft. 6 in.
BERTHING: Three berths dredged to 14 ft. One with vehicular ramp. Deep water anchorage at Lady Bay.
CARGO GEAR: Portable crane of 10 tons capacity.
TUGS: Not available.
RADIO: VHF watch kept on Channel 16 at Ferry Terminal.
MEDICAL: Hospital in town.
FRESH WATER: Available at Railway Pier.
FUEL OIL: Limited quantities of fuel can be supplied from road tankers.
REPAIRS: Small repairs can be carried out by local engineering firm.
AUTHORITY: Stranraer East Pier is controlled by the British Rail Shipping and Port Manager, tel. 2262; telex 778125.
Stranraer West Pier is controlled by the Town Council Harbour Master, tel. 2460.

SUNDERLAND, Durham: 54.55 N. 01.21 W.

DOCUMENTS:
Crew List. One form I.B.6A to be delivered to an Immigration Officer within 12 hours of arrival.
Passenger Lists. Form P.R.4. in duplicate and Form P.R.10. in duplicate.
Customs Documents. Crew Declaration Form C.142 in duplicate.
Cargo Manifests, triplicate.
Ship's Papers:
Register.
Load Line Certificate.
Safety Radio Certificate.
Safety Equipment Certificate.
Safety Construction Certificate.
De-ratisation Certificate.
Customs Light Bills.
PILOTAGE: Call Sunderland Harbour Radio, Channel 16, working Channel for port is 14. Pilotage not compulsory, but advisable for all but small vessels. Pilots maintaining continuous watch on VHF Sound signals for vessel requiring Pilot is Morse Code number 6. Pilot boards ½ to ¾ mile off piers. In bad weather pilot cutter leads vessel into inner harbour, and Pilot boards there.
ANCHORAGES: ½ to ¾ miles North-east of Roker Pier Lighthouse.
ENTRY RESTRICTIONS: Vessels enter two hours before high-water for entry into South Dock. For Corporation Quay only restriction is on draft.
MAX. SIZE: South Dock – length 465 ft. beam 62 ft., draft 26 ft. 6 in. with spring tides, 23 ft. 6 in. with neap tides.
River – length 600 ft., beam – no restriction, draft 27 ft. 6 in. subject to siltage.
HEALTH: Pratique procedure: pratique granted by Port Health Authority on arrival.
Suspected disease or fever: all ships from suspected areas must radio Port Health Authority 24 hours in advance of arrival, stating general condition of crew members. Pratique is automatic when ships arrive from other U.K. ports.
RADIO: Cullercoats.
RADAR/VHF: Radar based in Pilot House on Old North Pier and is used by Pilots in conjunction with VHF.
TUGS: Join vessel at or outside harbour entrance. Ship's ropes normally used.
BERTHING: In South Dock vessel must arrive from two hours before up to a half an hour after high water. At Corporation Quay small vessels berth at any time. Large vessels usually berth at same time as mentioned for South Dock.
BRIDGES: In South Dock bridges operated at tide time two hours before to a half hour after high water. Railway Bridge clearance, 82 ft. 4 ins. MHWS.
STEVEDORES: River Wear Commissioners carry out all stevedoring. Agents should advise as early as possible in order to arrange berthing and gangs, 5 to 6 days notice if possible. ETA from ship 2–3 days in advance. Working rates of principal commodities are:

Bagged cargoes	15 tons per hour
Sisal	20 ,, ,, ,,
Scrap – heavy	30 ,, ,, ,,
Scrap – light	17 ,, ,, ,,
Chrome and heavy ores	30 ,, ,, ,,
Wood Pulp	30 ,, ,, ,,

MEDICAL: Well served with General Practitioners and hospital facilities, and attention can be arranged at very short notice. However, unless urgent, 24 hours notice desirable.
TANKERS: Four installations – lines either 6 in. or 8 in. Three installations in South Dock and two berths, the South-east oil berth 320 ft., the South-west oil berth 290 ft. One vessel of maximum length 465 ft. can use this berth, draft 26 ft. 6 in. spring tides; 23 ft. 6 in. neap tides. At Corporation Quay vessel 600 ft. long, draft 27 ft. 6 ins.
DENSITY: Salt water density 1025.
FRESH WATER: Available. Arrangements can be made to supply water at any time.
FUEL: Bunkers supplied at Corporation Quay by pipe-line from Petrofina Ltd. All grades available – Corporation Quay and Hendon Dock. Viscosities range from 32 seconds to 3,500 seconds, and can be blended to any requirement in this range. 12 hours notice necessary.
GANGWAY/DECK WATCHMEN: Services of watchmen recommended.
OPENING/CLOSING/HATCHES: This work is normally carried out by ship's crew, otherwise shore riggers.
SHIP CERTIFICATES:
Register.
Load Line Certificate.
Safety Radio Certificate.
Safety Equipment Certificate.
Safety Construction Certificate.
De-ratization Certificate.
CUSTOMS ALLOWANCES: As per HM Customs and Excise Regulations. Approx. ½ lb. tobacco and approx. 1 pint wine/spirits.
IDENTIFICATION CARDS: Not required. Must possess valid Seaman's Book and/or Passport.
CONSULS:

Belgium	tel. Sunderland	72846
Denmark,		
Iceland	,, ,,	70811
Finland		72846
France	,, ,,	73694
Norway	,, ,,	70101

REPAIRS: All repairs possible.
DRY DOCKS: Large dry dock, length 675 ft., breadth 87 ft. 6 in. 2 smaller dry docks.
REPATRIATION: Facilities available for effecting repatriations, with good rail, road and air communications.
AIRPORT: Approximately 20 miles. Airport served by regular airlines, all the year round, to all parts of the world. Also chartered flights by Britannia.
HOLIDAYS: Official Holidays for General Cargo ships: New Year's Day (no work except by special agreement); Good Friday; Easter Monday; Summer Bank Holiday; Christmas Day (no work except by special agreement); Boxing Day (no work except by special agreement). For colliers, substitute Spring Bank Holiday for Boxing Day.
POLICE/AMBULANCE/FIRE: Police Station tel. Sunderland 76155; Ambulance Control tel. Sunderland 72875; Fire Station tel. Sunderland 56456. Or call 999 from any telephone and ask for service required.
TELEPHONES: Permanent arrangements do not exist, but a temporary arrangement can be made at any time.
AUTHORITY: Sunderland Corporation.

SWANSEA: 51.37 N. 03.56 W.

DOCUMENTS:
Light Bill receipt.
Ship's Register.
Crew List.
Manifests.
Bill of Lading copies.
Customs and Health.
PILOTAGE: Request for Swansea Pilots by International Signal Code for Sea Pilots, by telephone call for Dock Pilots. Telegraphic address for Swansea Pilots is "Pilority, Swansea".
Advance notice of ETA required at least 12 hours. VHF Channels 16 and 6. Pilot boat has bright yellow hull with red boot-topping; superstructure painted white. Pilot cutter's sound signal is SM. three shorts and two long blasts. The area of boarding is usually one mile South-east of Mumbles Lighthouse in all weathers. Usual requirements for ladders are in force, and Pilots require ladder to be about four to five feet above water.
ANCHORAGE: About 1 mile South-east of the Mumbles Lighthouse.
RESTRICTIONS: Berthing is in accordance with tide. King's Dock Lock operates for a minimum of 8 hours each tide. River-side berths and Swansea Ferryport Terminal operate over a greater period.
No night-time restriction of entry.
MAX. SIZE: Maximum size for entry is 655 ft. long, 86 ft. beam, 32 ft. 6 in. draft.
These vessels are docked over high water period. Any vessel whose dimensions are approaching maximum for port should advise Docks Manager well in advance.
HEALTH: Usual international health regulations are to be observed. Any vessel which is suspect should inform Port Medical Officer of Health.
RADIO: All communications for ship movements through "Swansea Dock Radio" Channels 16 and 14 VHF. Agents, receivers, etc., can be called through usual coastal radio stations – this includes Ilfracombe Radio.
TUGS: Towage undertaken by private operators. The Alexandra Towing Co. Ltd., at present use a modern fleet of tugs at Swansea and Port Talbot. It is optional whose lines are used, but if tugs line is taken, an extra charge will be made.
BRIDGES: Two in-dock bridges are under direction of duty Assistant Dock Master. A vessel which has to pass them will be informed by the Assistant Dock Master as to their availability.
BERTHING: Normal depths of water:

Queen's Dock 35 ft.
King's Dock 33 ft.
Prince of Wales' dock 24 ft. 6 in.

BULK HANDLING FACILITIES: *Petro Chemicals.* One jetty in Queen's Dock operated by BP Chemicals International Ltd.

Coal. Five coal hoists in the King's Dock, operated by the British Transport Docks Board.

Bulk Cargoes (Sulphur, ores, etc.). Two berths in King's Dock equipped with five 7½-ton and five 10-ton grabbing cranes. Operated by British Transport Docks Board.

Ferryport: On East bank of River Tawe, used by the B & I Line for its fast service between Swansea and Cork for passengers, cars and wheeled freight.

STEVEDORES: Stevedoring services are provided wholly by British Transport Docks Board. Advice of labour requirements must be received by the following times:

General Cargo: By 07.00 hours to start work at 07.00 hours. By 10.30 hours to start work at 11.30, 1400 or 2200 hours same day.

Coal Shipping: By 1530 hours for work at 0600 hours next day. By 1030 hours for work at 1400 hours same day.

MEDICAL: Port Medical Officer of Health has an office on King's Dock Lock. Medical attention can be obtained at short notice. In emergencies, the duty Assistant Dock Master can be communicated with, to obtain medical help. Hospital facilities available, and there is a first-class medical centre on the Prince of Wales Dock. Vaccination and fever certificates will be examined when receiving pratique.

TANKERS: All tankers arriving, working cargo, and departing are required to observe port's Petroleum By-laws and Oil in Navigable Waters Act. British Petroleum Company has further private directives for oil tankers. Five main tanker berths in the Queen's Dock, and three main lay-byes. Also several coastal berths. One tanker/general cargo berth in King's Dock. Deepest draft permitted is 32 ft. 6 in. A special fire-float to deal with tanker casualties is maintained in the Queen's Dock by the B.P. Company Ltd.

DENSITY: King's Dock Lock density is 1025.

FRESH WATER: Fresh water supplied from hydrants on quays by watermen. Rate of delivery is 2,000 gallons per hydrant, approximately, depending on the demand.

FUEL: Various grades of gas oils and diesels can be supplied by barge or road vehicles, or it can be delivered ex-pipeline at Queen's Dock.

FIRE PRECAUTIONS: All matches and lighters must be declared at entrance to oil installation. There are arrangements at the Queen's Dock depot for shore cooking and eating. There is an oil boom between the King's Dock and Queen's Dock to serve as an oil fire break between two docks. A 24 hours observation is kept at Scherzer Bridge for oil pollution and fires.

GANGWAY/DECK WATCHMEN: Under Port Regulations, there shall always be on board sufficient men to move or take care of the vessel. Some vessels employ watchmen. Cost is a tariff charge.

OPENING/CLOSING HATCHES: Normally done by the ship's crew, but if riggers are employed by vessel for general duties they open up hatches.

CERTIFICATES:
Certificate of Freeboard.
Certificate of Registry.
Certificate of Pratique.
Light Bill.
Manifest.
Bill of Health.
Bills of Lading.
AA (1) Certificate.

CUSTOMS ALLOWANCES: At discretion of local H.M. Customs inspectors.

IDENTIFICATION CARDS: Not compulsory, but they are helpful if a crew member has to identify himself to Authorities.

CONSULS:

France	tel. Swansea 55274	Norway	tel. Swansea 50564

Vice-Consuls:

Belgium	tel. Swansea 50021	Netherlands	tel. Swansea 53921
Finland	,, ,, 53921	Portugal	,, ,, 57757
Greece	,, ,, 50957	Spain	,, ,, 25121
Italy	,, ,, 55146	Sweden	,, ,, 55146

REPAIRS: All types of deck and engine-room repairs are possible.

DRY DOCK: Two dry docks in port are entered from King's Dock. Dry docks: "Duke of Edinburgh" 670 ft. × 92 ft.; "Palmers" 560 ft. × 75 ft.

REPATRIATION: Mercantile Marine Office in Swansea where ship's crews are paid-off before Superintendent of Shipping. Necessary arrangements can be made for repatriation through the Consular Channels.

AIRPORT: Nearest airport at Swansea, 8 miles from Docks. Next are Rhoose (Cardiff) and Bristol airports where regular scheduled flights are handled.

TIME: Local time is British Standard Time which is plus one hour to Greenwich Time. Reverting to GMT during winter months.

HOLIDAYS: Christmas (25th December); Boxing Day (26th December); Easter, Good Friday and Monday (movable dates); Spring Holiday, Summer Bank Holiday (both movable dates). No cargo is worked on these days.

POLICE/AMBULANCE/FIRE: Call 999 from any telephone, and ask for service required.

TELEPHONES: Arrangements at most berths for placing telephones on board ships in port.

GENERAL: Entrance lock is 875 ft. in length, 90 ft. across at cope level. The inner sill is 7 ft. higher than the outer sill. The outer sill is 11·4 ft. below Admiralty Chart datum.

Tugs are available at the port for in-dock as well as sea towage.

A diver can usually be obtained by enquiry to the British Transport Docks Engineer, Swansea.

Docks Manager: Tel. 50855/200. Dock Engineer: Tel. 50855/275. Dock Master and Fire Officer: Tel. 50855/260.

PORT AUTHORITY: The British Transport Docks Board, Adelaide Street, Swansea. Tel. Swansea 50855.

AGENT: Cory Brothers Shipping Ltd., Powell Duffryn House, Adelaide Street, Swansea. Cables: "Cory, Swansea". Telex: 48186. Tel. Swansea 55146.

TEES and HARTLEPOOL: 54.42 N. 01.11 W.

DOCUMENTS: Ship's official papers including Register, Load-line Certificate, Derat, Safety Certificates.
Immigration Crew List (one copy).
Manifest (normally sent in advance from last port).
Bill of Lading (if any).

On arrival Master signs X.S4 giving Agent right to sign all documents on his behalf. Pratique, Surplus Stores Lists X.51, Z.5, 25 and 35 and other documents are completed by H.M. Customs on arrival.

PILOTAGE: Official Address: The Tees Pilotage Authority, 13–14 Bridge Street East, Middlesbrough, Teesside. Tel. Middlesbrough 2924/5 office hours; Middlesbrough 85255 after hours.
Radio telegraphic address: "Tees Pilots Middlesbrough".

Pilot station is situated at South Gare and Pilot cutter on duty is moored there. Pilot cutter is of MFV type painted black with cream structure, flies pilot flag by day and lights as per International Regulations at night.

The Cutter is equipped with R/T, VHF MHF. VHF call sign "Tees Pilots" on Channel 16. MHF call sign "Tees Pilots" last 10 minutes of every hour on 2182 kc/s. Cutter is also equipped with radar.

As much advance notice of a vessel's arrival as possible should be given to Pilots; this is normally passed from Agent about 24 hours before a ship arrives; minimum requirement for vessels arriving is one hour, and one hour fifteen minutes for sailing.

Pilots will board in vicinity of Tees Fairway Buoy, smaller vessels are occasionally boarded at the South Gare. During severe gales pilot cutter moves to Tees Dock and will board ship when possible at South Gare at No. 11 Light Buoy.

Pilotage is not compulsory.

ANCHORAGES: Vessels prohibited from anchoring inside dredged channel and within a ½ mile radius of Tees Fairway Buoy and within area bounded by lines projected through 3 and 1, and 4 and 2 light buoys towards the Fairway Buoy.

Small vessels can anchor close N.E. of No. 4 light buoy; larger vessels are advised to anchor in an area about 1 mile N.E. of the Tees Fairway Buoy and in all cases outside the 10 fathoms line. Vessels awaiting Pilots anchor in these areas.

RESTRICTIONS: Vessels over 650 ft. length can only arrive and sail during periods of Traffic Control operated by the Harbour Master. During this period only vessels having Harbour Master's permission may move. Control of traffic on the River Tees for periods of up to approximately one hour may be necessary at any time, at short notice during the passage of large vessels.

Vessels entering the River Tees. Masters should, before entering contact Harbour Master's Office by VHF R/T on Channels 16, 14 or 12, call sign "Tees Harbour Radio".

Vessels moving within or sailing from the River Tees. Masters should first obtain permission to do so from the Harbour Master's Office by any available means, e.g. telephone Eston Grange 2541 (3 lines); VHF R/T on Channels 16, 14 and 12.

Harbour Master will endeavour to give at least six hours notice of traffic control to all those who are likely to be involved during the period.

Vessels bound for Middlesbrough Dock can only enter dock during a period of 2½ hours before to 1½ hours after high water.

Dock Sill, 16 ft. LWOST. Draft formula for entry 14 ft. plus height of tide.

Vessels bound for Tees Dock. Nominal dredged depth in dock, 25 ft. Nominal dredged depth in berths, 32 ft. These depths subject to siltation.

MAX. SIZE: Max. length accepted is 900 ft., with a max. draft of 45 ft. Vessels in excess of this max. draft may enter after consultation with Harbour Master.

Middlesbrough Dock. Max. size 580 ft. by 76 ft.

HEALTH: Pratique procedure is handled on arrival by HM Customs Boarding Officer. No other notice is required except in case of sickness when Agent can advise Port Health and information can also be passed to Tees Harbour Radio via VHF R/T when within 2 hours of the port.

RADIO: Ships approaching from North use Cullercoats Radio. Ships approaching from South use Humber Radio.

VHF: Frequencies and channels in use in the Tees and Hartlepool are as follows:

Channel	*Frequency*	*Use*
16	156·80 mc/s	Calling and Safety
14	156·70 mc/s	Port Operations
12	156·60 mc/s	Port Operations
11	156·55 mc/s	Port Operations (Domestic)
10	156·50 mc/s	Intership (3rd choice)
8	156·40 mc/s	Intership (2nd choice)
6	156·30 mc/s	Intership (1st choice)

Station	*Call Sign*	*Channels*
Harbour Master's Office (Tees)	"Tees Harbour Radio"	16, 14, 12, 11, 8
Harbour Master's Launch	"Tees Harbour launch"	16, 14, 12, 11, 8, 6

Hartlepool Pilot Cutter	"Name"	16, 14, 12, 6
Tees & Hartlepool Port Authority, Maintenance Craft.	"Name"	16, 11, 6

Whenever practicable ship/tug operations within the port should be conducted on Channel 8.

TUGS: Official Address: Tees Towing & Co. Ltd., Cleveland Buildings, Queen's Square, Middlesbrough. Tel. Middlesbrough 47277 day and night.

Fleet of seven tugs between 750 and 3,000 horsepower. Tugs join vessel in Redcar Reach between No. 9 and No. 17 buoys depending on size, draft and destination. Tug's lines may be used at Master's discretion. Tugs are on duty daily and only available on four hours notice for sailing and arriving after normal office hours.

BERTHING: Small vessels can usually berth at any state of the tide. Middlesbrough Dock is tidal, 2½ hours before to 1½ hours after high water. Deep-drafted vessels enter in accordance to tide.

STEVEDORES: In order to prepare for loading/discharging, i.e. ordering of gangs, transport, etc., it is necessary to give ETA through their Agents not less than 24 hours before arrival.

In Tees berths the port works two shifts daily, i.e. 0600–1400 hr. and 1400–2200 hr. Mondays to Fridays, with voluntary overtime at weekends.

BULK HANDLING FACILITIES: Three berths at South Bank Wharf, suitable for vessels up to 660 ft. length and max. draft 32 ft. 6 in., at high water. No. 6 berth is a lay-by berth. No. 5 berth a discharging berth equipped with two unloaders. No. 4 berth is a completion berth equipped with tubbing cranes.

Iron Ore Terminal: On the site of Redcar Wharf, a terminal which will handle all iron ore imports for British Steel Corporation plants in the region, berth dredged to 17·63 metres (57 ft. 10 in.) and able to accommodate ships of up to 120,000 dwt. and 150,000 dwt. on suitable sites. Two ore dischargers each able to handle 2,000 tons an hour

Potash Terminal: A terminal for the export of potash mined near Boulby in the North Yorks National Park is being built on the East side of Tees Dock. Ships of up to 30,000 dwt. will be accommodated at the 365·8 metres (1,200 ft.) quay. Two ship loaders will each be able to handle 1,000 tons per hour. The terminal will have a storage silo for 56,898·6 tons capacity. Throughput is expected to reach 100,000,000 tons. The terminal is scheduled to open in March 1973.

Roll-on/roll-off: Berth at Tees Dock can accommodate vessels up to 525 ft. length and 78 ft. beam. Berth dredged to 25 ft. LWOST:

TANKER BERTHS:

Name	*Vessel's Length*	*Depth at Low Water*	*Remarks*
Teesport No. 1 Jetty (Queen Elizabeth II)	650 ft.	37 ft.	Port Authority berth used by ICI & Shell/B.P.
Teesport No. 2 (West Byng)	650 ft.	34 ft.	
North Tees No. 1	300 ft.	21 ft.	Owned by I.C.I./ Phillips
North Tees No. 2	700 ft.	37 ft.	Owned by I.C.I./ Phillips
North Tees No. 4	890 ft.	43 ft.	Used by Phillips for import of crude oil
Shell Crude Oil Jetty	875 ft.	45 ft.	Used exclusively by Shell for import of crude oil
Billingham Oil Wharf	265 ft.	16 ft.	Used by I.C.I.
Middlesbrough South Wharf	270 ft.	14 ft.	Movements subject to tide
Middlesbrough No. 2 Quay	600 ft.	(Max. draft up to 28 ft. depending upon state of tide)	
Middlesbrough No. 11 Quay	300 ft.	25 ft.	

Slop/oily residue facilities available at most berths.

DENSITY: At Teesport 1015 at LW to 1025 at HW.

FRESH WATER: Plentiful from wharf and small quantities available from tug in emergency approx. 20 tons per hour.

FUEL: All grades available, 48 hours maximum if by barge.

DEVELOPMENTS: Port Authority plans to deepen the channel to 47 ft. 6 in. at LWOST in order to accommodate on all tides vessels of 100,000 dwt. drawing up to 50 ft.

MEDICAL: Notice of medical attention required in advance, as much notice as possible if emergency expected. All medical facilities available.

GANGWAY/DECK WATCHMEN: Recommended (tidal berth and spring range 17 ft.). Travel allowance usually charged.

OPENING/CLOSING HATCHES: Always by crew. Riggers available.

CUSTOMS ALLOWANCE: ½ lb. tobacco or 200 cigarettes. (¼ lb. tobacco for coasters). 1 spirit and 1 wine bottle. (½ bottle spirit and ½ bottle wine for coasters).

IDENTIFICATION CARDS: Not used in Tees.

REPAIRS: All types of repairs deck and engine available.

DRY DOCKS: Largest dock 575 ft. × 73 ft. sill 26 ft. Four other dry docks of smaller dimensions.

REPATRIATION: All facilities exist.

AIRPORT: Teesside Airport 12 miles from port. Regular flights to London, etc.

TIME: BST is GMT plus 1 hour. GMT in winter months.

HOLIDAYS: New Year's Day; Good Friday; Easter Monday; Whit Monday; Autumn Bank Holiday (Monday); Christmas Day. Work can be arranged if suitable notice is given and at overtime rates.

POLICE/AMBULANCE/FIRE: Telephone 999 in emergency will result in quick action or VHF call to Control Room, Harbour Office (24 hour manning).

TELEPHONES: Most berths can be connected to telephone system (coin boxes); small connection charge is made.

PORT AUTHORITY: Tees and Hartlepool Port Authority, Queens Square, Middlesbrough, Teesside. Tel. Middlesbrough 48321. Telex 58675 Teesbay, Middlesbrough.

TETNEY MARINE TERMINAL: 53.32 N. 00.07 E.

DOCUMENTS, and all General Information: Refer to "Immingham and Killingholme".

LOCATION: *Tetney Marine Terminal* is the deep water crude oil terminal of Crude Oil Terminals (Humber) Limited, operated by Conoco Limited.

The position of the mono-buoy is Lat. 53° 32′ 20″ N., Long. 00° 06′ 51″ E., lying in approximately 65 ft. of water at low water and about 2½ miles offshore.

Tetney is an open roadstead in the entrance of the river Humber on the East coast of England. The currents are particularly strong in the area, at times as much as 6 knots, and 4½ knots is common in spring tides. The currents run, generally, parallel to the Southern coastline. The tides have a rise and fall of about 18 ft.

PILOTAGE: Vessels are requested to send ETA to Hull Pilots about 72 hours before arrival.

Pilotage is by the Humber Pilots whose vessel is usually stationed near the Humber Light Vessel, and vessels are recommended to anchor in this area and await instructions. Such vessels may contact "Tetney Base" and request any information.

The Berthing Controller will board as the vessel approaches the buoy and will assist the Pilot in the mooring operation by advising the ship's officers. He will also advise on the hose connection, which will be carried out by the ship's crew and will act as Company representative throughout the discharge.

Vessels must provide adequate means of boarding for Pilots and Berthing Controllers, Customs and Agents. A pilot ladder with spreaders and grab lines for the Pilot and Berthing Controller, or alternatively a mechanised pilot hoist.

While in the berth the vessel should provide a suitable gangway with a pilot ladder near the end in order to board from a small boat.

COMMUNICATIONS: There is a VHF station at Tetney which is manned 24 hours a day and has the call sign "Tetney Base".

VHF Channels 16 calling 19 (161.55/156.95) for berthing and communication. 48 (163.00/158.40) for port operations.

UHF. 467.725 mc/s. for berthing emergency.

Portable radios can be provided for vessels not having a VHF set and the Agent should be so informed in order to allow time to despatch a portable to the ship on her arrival. A vessel arriving without suitable means of communication and not having informed the Agent of the fact could incur delays which would be to the ship's account.

MOORING: The following equipment is required to moor with safety:

4 each 50-ton SWL alloy steel screw-type bow shackles.

2 each 1½ diameter slip wires, with a soft eye in one end and the other end plain, overall length being not less than 100 ft.; some vessels may need a greater length depending on the distance from the forward fairlead to the bitts.

The vessel approaches the mono-buoy head to wind and tide or the resultant of these forces, and should have two mooring ropes lowered to the water, each having a 15-ft. lashing of 3-in. rope on it.

As the vessel nears the moorings a launch will take the port rope from the ship and connect it to the port pick-up rope and return to the ship to take the starboard rope and repeat the operation on that side.

The vessel should have on these ropes as soon as they are inboard and heave herself to the buoy until the chain is in the fairlead. The slip wire should then be shackled to the chain and turned up

on a convenient set of bitts. This applies to both sets of moorings. When the vessel is in the berth, additional moorings can be shackled to the chain as required, dependent on the expected weather conditions.

HOSES: The ship should be capable of lifting up to 10 tons on her derrick with a minimum of 7½ tons.

Tankers manifolds should be 16-in. 150 ASA. The following sizes can also be accommodated; 10-in. and 12-in. 150 ASA. Should a vessel have any other than these sizes, or be unable to find adaptors to suit one of these sizes, Tetney Terminal will need to be notified at least 72 hours before arrival.

When both hoses are on deck they may be connected to the ship's manifold by the ship's crew under the supervision of the Berthing Controller.

After completion of discharge the hoses will be filled with sea water by the ship. The hoses can then be disconnected from the manifold and lifted over the side of the ship and hung there on slip ropes to be slipped simultaneously with the moorings. This last operation will be carried out on the advice of the Berthing Controller and will depend on weather conditions at the time.

POLLUTION: It is the Master's responsibility to see that no oil of any kind is pumped or spilled overboard from his vessel. This includes oil water from the bilges, crude residues from previous voyages or any other matter that may result in the pollution of the sea. Owners and Masters should comply with any international regulations and recommendations concerning the prevention of pollution of the sea, especially in regard to the river Humber.

SHORE LEAVE: None of the officers or crew shall be allowed shore leave and no boats of any kind, except in an emergency, shall be lowered during the vessel's stay in the berth.

TYNE DISTRICT: 55.01 N. 01.24 W.

(Including Newcastle, North and South Shields, Jarrow, Tynemouth and Gateshead).

DOCUMENTS:

1 Crew List for H.M. Immigration Office.
1 Form C.142 (Tobacco List) supplied by H. M. Customs.
1 Health Declaration Form supplied by H.M. Customs.
1 List of Private Addressed Packages not manifested (C.143) supplied by H.M. Customs.
Details of Oil in DBT, also measurement in cu. ft. of cargo in non-registered spaces.

PILOTAGE: Pilots normally stationed outside Harbour entrance within 1 mile radius. In bad weather Pilots will advise concerning entering. Twelve hours advance notice via Agent requested. Frequency medium wave 2182 kHz. Call "Tyne Pilots". VHF – Call on Channel 16, working Channel 6. Cutter – 55 ft. in length painted black with white lettering "Pilots" – displaying pilot's flag. Efficient pilot ladder required as per Board of Trade regulations.

ANCHORAGE: Off entrance River Tyne, recommended 1½ mile N.E. of North Pier. Minimum 12 fathoms.

RESTRICTIONS: Depths below Chart Datum:
From sea to Jarrow Oil Jetty (West end) 30 ft.
From Jarrow Oil Jetty (West end) to Newcastle Bridges (except in main channels of Swing Bridge and High Level Bridge, Newcastle) 23 ft.
From Newcastle Bridges to West end of Dunston Flour Mills 20 ft.

MAX. SIZE: Harbour entrance, length and breadth: no limit. Draft 30 ft. any state of tide: up to 36 ft. at high water.
Iron Ore Quay, draft up to 36 ft.
Esso Oil Terminal, draft up to 32 ft.
Newcastle Quay, 25–30 berths – 28 ft.
Ranks Mill, 28 ft.

HEALTH: Foreign arrivals to complete Maritime Declaration of Health. They are cleared immediately on arrival by either a port doctor or an officer of H.M. Customs depending on where the ship comes from and whether there is sickness on board. Vessels arriving from ports within accepted area (N. European ports) and coastal arrivals need not present declaration. In all cases, when there is sickness on board, the Port Health Authority must be informed preferably not more than 12 hours and not less than 4 hours before arrival.

RADIO: Cullercoats Radio WT "GCC." Cullercoats Radio On RT.

VHF: Call sign "Tyne Harbour Radio" on Channel 16, frequency 156·80 mHz and on Channel 12, frequency 156·60 mHz. A VHF Radio Port Operations and Information Service on 24-hour coverage is provided for use by vessels approaching the port, for movement of vessels in the port and for giving information to Shipowners and Agents.

TUGS: Normally join inside piers, tow ropes optional except manufactured of man-made fibres. Towing hawsers £6.60 per rope. Orders for week-end arrivals must be given before 10.30 am. Saturdays.

BERTHING: Albert Edward Dock – Warehouse Quay: 1,170 ft. long, depth of water 26 ft.
East Dock Wall: 530 ft. long, depth of water 25 ft.
Tyne Commission Quay: 1,100 ft. long, depth of water 25 ft.
Tyne Commission Quay Extension: 390 ft. long, depth of water 22 ft.
Car Ferry Terminal: 25 ft. depth.
Tyne Dock – North-west Quay: 800 ft. long, depth of water 28 ft.
Factory Quay: 645 ft. long, depth of water 23 ft.
Sutherland Quay: 450 ft. long, depth of water 22 ft.
Iron Ore Quay: 867 ft. long, depth of water 36 ft.
Newcastle Corporation Quay: 7,920 ft. long, depth of water 15 ft. to 30 ft.
Spillers' Tyne Mill, Newcastle: berth 570 ft. long, depth of water 30 ft. discharge rate 200 tons per hour.
Baltic Flour Mill, Gateshead: berth 650 ft. long, depth of water 28 ft. discharge rate 200 tons per hour.
Coal Staiths – Whitehill Point Staith – 1 berth rate of shipment 1,000 tons per hour depth of water 25 ft.
Jarrow Staith – 2 berths, rate of shipment 1,000 tons per hour, East berth, 500 tons per hour West berth, depth of water 25 ft.
Harton Staith – 1 berth, depth of water 21 ft. 6 in.
Dunston Staith – 3 berths, depth of water 21 ft. to 25 ft.

TANKERS: Jarrow – (Shell Mex & B.P. Ltd.) Jarrow Oil Jetty, 600 ft. in length with a depth of 30 ft. below Chart Datum and New Berth 620 ft. length with a depth of 34 ft. below Chart Datum.

Tynemouth – (Esso Petroleum Co. Ltd.) 1 tanker berth 900 ft. in length with a depth of 32 ft. below Chart Datum and 1 Coaster Berth 550 ft. in length with a depth of 22 ft. below Chart Datum.

Tynemouth – Tanker Cleaning River Berth, 700 ft. length with a depth of 25 ft. below Chart Datum.

The Lawe, South Shields – Velva Liquids Ltd. Berth 560 ft. length with a depth of water 27 ft. below Chart Datum.

BRIDGES: At Newcastle 10 miles from entrance for proceeding to CWS Flour Mill and Dunston Staiths, Swing Bridge negotiated against tide; other bridges, max. mast height 80 ft. above MHWS.

STEVEDORES: All arrangements through Agent. Stowage plan required prior to arrival.

MEDICAL: Hospitals available, Advise Agent in advance if medical attention required on arrival.

DENSITY: Entrance/Tyne Dock – 1025; Tyne Dock/Jarrow 1020; Newcastle Quay 1005/1010.

FRESH WATER: Available ex Water Boat, rate of delivery up to 150 tons per hour.

FUEL: All grades ex installation, or by barge, 24 hours notice required.

GANGWAY/DECK WATCHMEN: Available if required.

OPENING/CLOSING HATCHES: Crew allowed open and close.

CERTIFICATES:
Register.
Load-line.
Safety Construction.
Safety Equipment.
Safety Radio.
Trinity Light Bills.

CUSTOMS ALLOWANCE: At the discretion of Local Customs Inspector. Normal allowances are equivalent of ½ lb. tobacco per man and equivalent to 1 bottle wine per man. Allowances may be halved for home trade vessels. Vessels in port more than 3 or 4 days may receive extra allowances.

IDENTIFICATION CARDS: Not required.

REPATRIATION: All facilities available.
AIRPORT: Newcastle Airport, served by regular airlines.
TIME: British Standard Time, GMT plus 1 hour. GMT in winter months.
HOLIDAYS: New Year's Day; Good Friday; Easter Monday; Whit Monday; Autumn Holiday Monday; Christmas Day.
POLICE/AMBULANCE/FIRE: Dial 999, and ask for service required.
TELEPHONES: Can be arranged on board at certain berths.
SERVICES: The tanker-cleaning berth at North Shields provides accommodation for vessels about 800 ft. length, depth alongside 25 ft. below Chart Datum. The shore installation, which is owned and operated by the Tyne Tanker Cleaning Co. Ltd., includes large reception capacity for tank washing and oily sludge, separators of the latest type which can deal with oily water at the rate of 1,000 tons per hour and various treatment and storage tanks; together with boilers and steam and pumping plant. Expert staff and modern equipment for carrying out tank washing, cleaning and gas-freeing of vessels at the berth, and for other essential duties are also available, making it possible for tanker crews to be paid off immediately on arrival. The whole installation is protected by a most complete system of fire precautions and fire-fighting equipment. Also available is compass adjusting, etc.
SHORE LEAVE: Allowed.
AUTHORITY: Port of Tyne Authority, Head Office, Bewick Street, Newcastle-upon-Tyne, NE1 5HS. Tel. Newcastle 25541.
AGENT: Lambert Brothers (Shipping) Ltd., 'B' Floor, Milburn House, Newcastle-upon-Tyne, NE1.1LY. Tel. Newcastle 27314. Telex: 53405. Cable address: "Lambros."

WHITEHAVEN: 54.33 N. 03.36 W.

DOCUMENTS: Usual required for clearing a vessel from foreign, i.e. Crew list, Passenger list, Customs Documents, Ships Register, Manifest and Bills of Lading.
PILOTAGE: Request for Pilot is made by International Code signal G, sound and visual. ETA should be sent twelve hours in advance either to ship's Agent or Harbour Master or both. Area for taking Pilot on board 4 to 5 cables West of Harbour. Pilot boat is a 36 ft. varnished boat, name "J. T. Pears". RT frequency 2241 and 2182. VHF to be installed shortly.
ANCHORAGE: Same area as for boarding Pilot according to draft.
RESTRICTIONS: Vessels may dock from one and a half hours before high water till one hour after high water according to draft.
MAX. SIZE: 270 ft. length, 40 ft. beam and 17 ft. draft (deepest) on spring tides, 14 ft. draft (deepest) on neap tides.
HEALTH: Usual pratique procedure.
RADIO: Port Patrick and Anglesey Radio Stations.
TUGS: No tugs
MEDICAL: Agent should receive notice in advance of any medical treatment required. Hospital services are readily available.
DENSITY: Any state of tide density is 1025.
FRESH WATER: Fresh water is available on all berths, any quantity on request to ship's Agent.
FUEL: Most grades and types available.
FIRE PRECAUTIONS: Usual precautions are taken when inflammable cargo is being loaded or discharged.
GANGWAY/DECK WATCHMEN: Advisable to have a watch man but not absolutely necessary.
OPENING/CLOSING HATCHES: Always opened and closed by crew members.
CERTIFICATES: Derat certificate, Load Line certificate, Radio RT certificate, etc.
CUSTOMS ALLOWANCE: 200 cigarettes. 1 bottle spirits.
IDENTIFICATION CARDS: None required.
CONSULS: Norway, Sweden, Denmark and the Netherlands.
REPAIRS: All types of deck and engine repairs carried out.
REPATRIATION: Facilities exist for effecting crew changes and arranging any necessary repatriations.
AIRPORTS: Nearest airports are at Manchester, Newcastle and Prestwick, all approx. 130 miles away.
HOLIDAYS: Cargo may be worked on following days: New Year's Day, Good Friday, Easter Monday, Whit Monday, August Monday, Christmas Day and Boxing Day.
POLICE/AMBULANCE/FIRE: Telephone numbers of these services in order are: Whitehaven 2616, 3181 and 2151.
TELEPHONES: No special arrangements exist for placing telephones on board vessels.
SHORE LEAVE: Crew members may come and go at all times.
DELAYS: There are very seldom any delays in berthing and none in load or discharge or bunkering.
AUTHORITY: The Whitehaven Harbour Commissioners, 1 Duke Street, Whitehaven, Cumberland. Tel. Whitehaven 2435.

United States of America

ALBANY, New York: 42.40 N. 73.45 W.

DOCUMENTS: If first port of call in U.S., 2 complete Custom's Manifests describing all cargo on board and ports of discharge. Also 1 Cargo List for Albany cargo; 3 Crew Lists; 3 Store Lists, 3 Curio Lists, the Ship's Register, Load Line Certificate and Tonnage Tax Certificate.
PILOTAGE: Hudson River Pilot boards vessel off Yonkers, N.Y. Cable address: "Hudpilots, Yonkers, N.Y."
ANCHORAGES: Several anchorage areas in Hudson River en route to Albany if required due to weather. Vessels cannot anchor at Port of Albany.
RESTRICTION: Hudson River Channel to Albany has controlling depth of 32 ft. MLW. Vessels with draft in excess of 28 ft. will be required to transit river on favourable tide as directed by Pilot.
MAX. SIZE: Maximum permissible length 750 ft.; breadth 110 ft., draft 30 ft. Turning basin at Albany 1,100 ft. in width.
HEALTH: Free health pratique only when vessel is arriving from another U.S. port. If Albany is first port in U.S., Master should radio vessel's Agent prior to arrival and arrangements will be made for granting pratique at New York based on information available.
TUGS: One 2,500-h.p. tug stationed at port at all times; additional tugs available upon advance request. Normally one tug is sufficient for turning and docking. Tug's lines are used.
BERTHING: 4,000 linear ft. of marginal wharf available at APDC terminal for general cargo, grain, lumber, etc , 32 ft. alongside wharf. Various privately operated deep-water petroleum terminals in port area.
BRIDGES: Minimum vertical clearance of bridges on Hudson River en route to Albany is 135 ft.
STEVEDORES: Rates and information can be obtained from John W. McGrath Corporation; seven gangs available.
FRESH WATER: Supplied during regular working hours daily except Saturdays, Sundays, and holidays at $1.00 per 100 cubic ft. plus $10.00 service charge per daily delivery on straight time. Additional charge if supplied during other periods.
GANGWAY/DECK WATCHMEN: Available via ship chandler not required but recommended.
CONSULS: Italian Vice-Consulate located at Albany, other consulates available at New York City.
REPAIRS: Minor deck and engine repairs can be handled.
AIRPORT: Seven miles distant from port; served by Allegheny, America, Altair and Executive Airlines.
TIME: Eastern Standard and Eastern Daylight Saving, 5 hours minus GMT.
HOLIDAYS: Standard U.S. holidays; cargo work can be arranged on all holidays at overtime rates, except July 4th, Labour Day and Christmas Day.
SHORE LEAVE: Crew members allowed ashore unless restricted by Customs or Immigration requirements.
AUTHORITY: Albany Port District Commission, Administration Building, Port of Albany, Albany, N.Y., 12202, Tel. 518–463–1103.

ALEXANDRIA, Virginia: 38.48 N. 77.03 W.

DOCUMENTS/PILOTAGE/HEALTH: Refer to "Hampton Roads".
RESTRICTIONS: Anchoring necessary between 2200 to 0600. Berthing daylight only.
MAX. SIZE: Governed by draft only – maximum 22 ft. 6 in. all times.
RADIO: WMH Baltimore, Md.
TUGS: None required.
BERTHING: Berthing 0600 to 2200.
BRIDGES: One bridge, closed Monday through Friday 1600–1830 and 0630–0900.
STEVEDORES: Informally arranged through Receivers or Shipper's Agents.
MEDICAL: Hospital available.
FRESH WATER: Available at berth – 10 tons per hour.
FUEL: Not available.
GANGWAY/DECK WATCHMEN: Shore watchman provided.
OPENING/CLOSING HATCHES: Stevedores. Vessel – depending on understanding.
IDENTIFICATION CARDS: Required by Immigration.
REPAIRS: Minimal facilities.
REPATRIATION: Facilities exist.
AIRPORT: 3 miles. Washington National – multiple flights.
TIME: GMT minus 6 hours.
POLICE/AMBULANCE/FIRE: Agents arrange. Watchmen on duty.
SHORE LEAVE: Allowed.
DELAYS: No unusual delays.
AUTHORITY: Virginia Port Authority, Norfolk, Va.

ANACORTES, Washington: 48.31 N. 122.36 W.

DOCUMENTS, PILOTAGE, HEALTH, etc.: Refer to "Tacoma".
ANCHORAGES: East End Guemes Channel, 54 ft. min. depth.
MAX. SIZE: Length, open. Draft, 54 ft.
TUGS: Join vessel in Guemes Channel at Anacortes – lines optional.
BERTHING: Pier no. 1, depth 31 ft.; Pier no. 2, depth 33 ft.
STEVEDORES: Request 24 hours notice.
FRESH WATER: Available from city water system.
FUEL: Available from Shell and Texaco.
GANGWAY/DECK WATCHMEN: Not required by port.
OPENING/CLOSING HATCHES: Stevedores.
CUSTOMS ALLOWANCES: No definite quantities prescribed; reasonable allowance at discretion of Customs Inspector.
CARGO GEAR: ILWU requirements.
IDENTIFICATION CARDS: Required.
REPAIRS: Minor repairs only.
AIRPORT: 75 miles Seattle International.
TIME: GMT minus 8 hours. From end April to end October, Pacific Daylight Saving Time, GMT minus 7 hours.
HOLIDAYS: See "Tacoma".
POLICE/AMBULANCE/FIRE: Police 293–3157; Ambulance 293–3183; Fire 293–3155.
TELEPHONES: Available at Pier 2 and at Pier 1 by Phone Co.
SHORE LEAVE: Allowed.
AUTHORITY: Port of Anacortes, Robert D. Keller, MGR. 293–3134.

ANCHORAGE, Alaska: 61.12 N. 150.00 W.

DOCUMENTS:
3 copies Cargo Manifest (Forms 7527.A or 7527.B), the original showing all cargo on board, and 2 copies showing only cargo for this port.
2 copies Crew Manifest (curio list).
2 copies Stores List.
2 copies Passenger List (Form I.418).
2 copies Crew List (Form I.418).
Customs boarding Officer will also examine Ship's Register and Load-line Certificate. In addition, the following documents will be required for formal entry to be made within 48 hours of arrival from abroad, or 24 hours from arrival from a United States port:
Health Pratique.
Master's Oath (Customs Form 3255).
All foreign clearances.
U.S. Certificates of payment of tonnage tax (Customs Form 1002)
Certified Crew List.
PILOTAGE: The pilot station for Anchorage is at Homer, Alaska Vessels may contact Pilot by radio telephone. Telegraphic address "Almarrpilot", ETA notice requested 24 hours. Guards VHF Channel 10. Pilot boat green and white. Pilot flag by day, pilot light at night. Pilot boat 1 mile South of Homer Spit (Coal Point) Homer Alaska. In bad weather, wait inside Homer Spit and advise via radio-telephone.
ANCHORAGES: The best anchorage for deep-draft vessels is West of Anchorage in depth of 10 to 12 fathoms, silt bottom. Holding ground is good.
TIDES AND CURRENTS: The diurnal range of tide is 29·6 ft, Currents from 1·7 to 6 knots or more in mid-channel.
RESTRICTIONS: Flow and pan ice is encountered in the Cook Inlet from approximately the end of November until the end of February. This ice does not freeze solid due to the tidal action. The port is in year-round use and expert information on winter conditions may be obtained from any of the highly qualified licensed ship pilots available in the area.
MAX. SIZE: All berths 35 ft. MLLW.
HEALTH: Vessels subject to quarantine are usually boarded at the wharves. There are several hospitals at Anchorage. Radio pratique may be granted basis information received prior to arrival of vessel provided no communicable diseases on board.
Normally, vessels are boarded by Medical Officers on arrival unless free pratique previously given at U.S. port in the same voyage. If granted free pratique, vessel may enter port and discharge passengers and cargo. If given provisional pratique, vessel may enter port but must take any additional measures specified in connection with discharging passengers and cargo, until free pratique is given.
RADIO: Port of Anchorage KBT 42, HF–AM, VHF–FM. Guards 2182, VHF Channel 16.
TUGS: Join vessel 1½ miles South-west of docks.
BERTHING: 600 ft. general cargo Terminal No. 1, apron width 47 ft., live load limit 600 lb. per sq. ft.
General cargo Terminal No. 2, 610 ft., apron width 69 ft. Depth alongside face at MLLW 35 ft.
Shore Cranes: Level luffing gantry and PACECO container cranes. Capacity: Level luffing gantry 7½ tons and 40 tons (5 ton high-speed whip lines). Container cranes 27½ tons.
Outreach from fender face is 70 ft. for the gantries and 81 ft. on the PACECO. Clear height above MLLW is 132 ft.
TANKERS: The Petroleum Terminal at the port of Anchorage is contiguous to the general cargo docks. The POL Dock is 612 ft, long and contains multiple petroleum manifolds in addition to those on Terminal No. 1. Depth 35 ft. alongside.
STEVEDORES: Working Hours: Stevedores do not work on January 1, September 6, November 25 and December 25. The first six hours of any shift between 8.00 a.m. and 3.00 p.m. is at the straight time rate. Work performed on Saturdays, Sundays, holidays and between 5.00 p.m. and midnight is at overtime rate. Meal breaks are 11.45 a.m. to 1.00 p.m.and 4.45 p.m. to 6.00 p.m. Stevedores do not normally work between midnight and 7.00 a.m.
SPECIALISED CARGO HANDLING FACILITIES: Two 27½-ton PACECO container cranes servicing general cargo Terminal No. 2; private bulk cement pipe-lines to shore silos.
DENSITY: From 1.0098 to 1.0102.
MEDICAL: All facilities available. Three local hospitals.
FUEL: All grades available.
FRESH WATER: Public Health Service certified watering station.
WATCHMEN: Gangway/Dock Watchmen required shipside.
HATCHES: Opening/closing hatches by stevedores.
AIRPORT: Five miles; served by regular foreign and domestic airlines.
CUSTOMS ALLOWANCES: At the discretion of customs officer Normal allowance is 200 cigarettes or 2 lb. tobacco and one quart wine or spirits per man. Additional allowances may be given if considered necessary, due to length of vessel's stay in port.
IDENTIFICATION CARDS: Standard U.S. Immigration Forms I.–95 to be made up for each crew member on arrival. Not necessary for crew men already holding Form I.–95, issued for the same vessel
HOLIDAYS: New Year's Day (January 1st); Lincoln's Birthday Washington's Birthday; Seward's Day (March 30th); Memorial Day; Independence Day (July 4th); Labour Day; Columbus Day; Alaska Day (October 19th); Veterans' Day; Thanksgiving Day; Christmas Day (December 15th).
POLICE/FIRE/AMBULANCE: Police 272–1414; Ambulance/Fire 272–1515.
TELEPHONES: Telephones available shipside.
AUTHORITY: Port Director, 2000 Anchorage Port Road, Anchorage, Alaska 99501. Tel. 272–1531.

ASHTABULA, Ohio: 41.53 N. 80.48 W.

Refer to "St. Lawrence Seaway" for important general information.
PILOTAGE: Nearest pilot station is the Welland Canal, Canada.
ANCHORAGES: No anchorage inside boundaries. Good anchorage outside to East of the entrance, depth approximately 20 fathoms,
MAX. SIZE: The Pinney Dock and Transport Company stevedoring dock handling overseas cargoes located just East of entrance to the port. Channel depth of 28 ft. Four berths, 27 ft. alongside; length of facilities up to 700 ft. by 75 ft. beam. No facilities for oil carriers.
RADIO: Contact Lorain, Ohio ship-to-shore station for local connections.
TUGS: Tugs normally join vessels just inside harbour entrance. Use ship's or tug's lines optional; tug lines used at additional charge of 10% of the tons will be added. For tug service call ship-to-shore tug Idaho, FM Channel 51.
STEVEDORES: Work gangs for loading and unloading provided by the Pinney Dock and Transport Company.
MEDICAL: Vessels requiring medical attention call U.S. Coast Guard station located in the main river by calling AM Channel 20. Ambulance and hospital service available. No inoculation, vaccinations, or fever certificates required.
DENSITY: Fresh water.
FRESH WATER: Available at stevedoring dock.
FUEL: Available on 24-hour notice.
FIRE PRECAUTIONS: City fire department. Also water line on face of the dock available.
GANGWAY/DECK WATCHMEN: Overseas stevedoring dock enclosed wire fence, watchmen on dock at all times, guard at main gate.
OPENING/CLOSING HATCHES: Optional by crew or stevedores.
CUSTOMS ALLOWANCES: Only allotments per person consumed aboard allowed.
IDENTIFICATION CARDS: Required.
CONSULS: Nearest at Cleveland.
REPAIRS: All types of deck and engine repairs available; also topside shell repairs.
REPATRIATION: Can be arranged.
AIRPORT: Nearest airport approximately 10 miles South with commuter services to Cleveland Hopkins Airport. Cleveland Hopkins Airport approximately 70 miles West.
TIME: Local Eastern Standard Time except from May to October – Daylight Saving Time.
HOLIDAYS: Stevedoring docks double time on holidays and time plus one-half on Sundays.
POLICE/AMBULANCE/FIRE: Police, 993–8281; Ambulance, 964–3121; Fire, 964–7123.
TELEPHONES: No provisions for placing telephones aboard vessels.
SHORE LEAVE: Crew allowed ashore.
AUTHORITY: Ashtabula Port Authority, 4400 Main Avenue, Ashtabula.

ATRECO, Texas: 29.59 N. 93.53 W.

DOCUMENTS, PILOTAGE, HEALTH, RADIO, etc.: Refer to "Port Arthur".

BALTIMORE, Maryland: 39.17 N. 76.35 W.

DOCUMENTS:
3 copies Cargo Manifest (Forms 7527–A or 7527–B), the original showing all cargo on board, and 2 copies showing only cargo for this port.
2 copies Crew Manifest (curio list).
2 copies Stores Lists.
2 copies Passenger List (Form I.–418).
2 copies Crew List (Form I.–418).
Customs boarding officer will also examine Ship's Register and Load-line Certificate. In addition, the following documents will be required for formal entry to be made within 48 hours of arrival from abroad, or 24 hours from arrival from a United States port.
Health Pratique.
Master's Oath (Customs Form 3255).
All foreign clearances.
U.S. Certificates of payment of tonnage tax (Customs Form 1002).
Certificate Crew List.

PILOTAGE: Each vessel entering the Chesapeake Capes under foreign flag or carrying foreign cargo is required to employ a Pilot of the Association of Maryland Pilots. The Association maintains a pilot boat which is anchored at the entrance of the Chesapeake Capes. Pilots will be furnished with a small transistorized portable radio unit, which provide ships bridge to bridge communication system to ensure navigational safety while traversing the waters of Chesapeake Bay. It is a positive means of communication to ensure ship's position reporting, the safety and movement of vessels, as well as messages related to the operational needs of vessels proceeding to the port, and provide the Pilots communications instructions expediting operations of vessels when they are aboard.

ANCHORAGE: Numerous anchorages located within harbour limits for ocean-going vessels. Seven such areas are available for vessels of light and heavy draft. Four of these anchorages are located on the East side of the main ship channel between the entrance channel to the Central Soya Company Grain Elevator and Fort Carroll. Two are on the West side of the main ship channel, and one on the North side of Curtis Bay channel.

At Sandy Point, approximately 22 miles South of Baltimore, there is an emergency anchorage in natural deep water with depth of 50 ft or more.

RESTRICTIONS: There are two different approaches and exits to the sea lanes. The principal route is by way of the Southerly course through the Chesapeake Bay and Cape Henry to the ocean. The distance by this route is approximately 150 nautical miles. There is a main ship channel 20 miles long from Baltimore to the Chesapeake Bay; this channel is 800 ft. wide and 42 ft. deep.

The other route to the sea lanes is via the Chesapeake and Delaware Ship Canal. This offers a short protected route between Baltimore and other leading North Atlantic ports by way of Delaware Bay and allows ships serving North Atlantic European ports to save about 115 miles sailing distance.

Entrance to the Chesapeake and Delaware Ship Canal is located about 50 miles North of Baltimore. The width of the channel is 450 ft. and the depth is maintained at 35 ft. The canal itself is 15 miles in length, and from the Delaware Bay side the distance to sea lanes is about 60 miles. Navigation lights are maintained so the canal is open to navigation day and night.

MAX. SIZE: Length 1250 ft., draft 42 ft. at Canton Ore pier.

HEALTH: Radio pratique may be granted basis information received prior to arrival of vessel, provided no communicable diseases on board.

Normally, vessels are boarded by Medical Officers on arrival unless Free Pratique previously given at U.S. port in the same voyage. If granted free pratique, vessel may enter port and discharge passengers and cargo. If given provisional pratique, vessel may enter port, but must take any additional measures specified in connection with discharging passengers and cargo, until free pratique is given.

Quarantine office is located in the U.S. Custom House. Immigration and Quarantine board vessels at dockside. In the event of vessels not docking launch arrangements must be made by Agent.

TUGS: The port has an efficient fleet of tug-boats in operation The tugs usually take vessel in tow at Quarantine Station.

BERTHING: There are approximately forty-five important piers and terminals some of which are listed below.

Dundalk Marine Terminal, 12 berths, depth alongside 34 ft. LW.

Berth	*Length*	*Max. Beam*	*Max. Draft*
Canton R.R. Ore Pier (Cottman's)	1250 ft.	105 ft.	42 ft.
C & O/B & O Ore Pier	650 ft.	100 ft.	35 ft. 6 in.
Western Maryland Railway Ore Pier	1200 ft.	105 ft.	36 ft.
Sparrows Point Ore Pier (Beth. Steel Co.)	1500 ft.	105 ft.	40 ft.
C.S.Y. Grain Elevator	800 ft.	105 ft.	32 ft.
Indiana Grain Elevator (C & O/B & O)	850 ft.	100 ft.	38 ft.
Louis Dreyfus Co. Elevator	1200 ft.	105 ft.	36 ft.
Hawkins Point Terminal (Eastalco Aluminium Co.)	850 ft.	100 ft.	37 ft.
C & O/B & O Railway Coal Pier	850 ft.	105 ft.	38 ft. 6 in.
Western Maryland Railway Coal Pier	470 ft.	98 ft.	40 ft.
Penn–Central Coal Pier	600 ft.	90 ft.	35 ft.

Clinton Street Terminal, four berths, draft 32 ft.
Locust Point Marine Terminal, 20 berths, draft 27 to 34 ft.
Port Covington Terminal, 17 berths, draft 30 to 38 ft.
Rukert Terminals Corp., one berth, draft 32 ft.
The Terminal Corp., one berth, draft 28 ft.

BRIDGES: The Chesapeake Bay Bridge-Tunnel is located across the entrance to the Bay, between Cape Henry and Cape Charles. This vehicular crossing consists of fixed causeways and bridges, and 2 tunnels – one under the Chesapeake Channel and one under the Thimble Shoal Channel.

No bridges cross the main ship channel in Baltimore Harbour. Vessels en route to the harbour from the ocean via the Chesapeake Bay pass under the Chesapeake Bay Bridge, about 151 statute miles above the ocean entrance to the bay. This bridge is 3·7 miles long from shore to shore; its western end is 0·5 miles South-west of Sandy Point and its Eastern end is on Kent Island, 4·0 miles South-west of Love Point. The Curtis Creek and Middle Branch sections of harbour are each crossed by a highway and a railroad bridge.

DENSITY: The salinity of Baltimore harbour waters requires full fresh water draft allowance.

TANKERS:
American Oil Co: max. length 580 ft. draft 30 ft.
Cities Service: ,, 665 ft. ,, 34 ft.
Humble Oil Co: ,, 680 ft. ,, 33 ft.
Hess Oil Co: ,, 560 ft. ,, 32 ft.
and others. Slop disposal facilities available at Humble Oil Terminal.

MEDICAL: All facilities available.

FRESH WATER: Can be supplied at all berths. Water barges available.

FUEL: All grades supplied by numerous oil companies by barge or ex-wharf at the oil berths.

REPAIRS: *Bethlehem Steel Corporation.* At the Sparrows Point Shipyard vessels up to 300,000 tons dwt. are constructed, and the facilities include all the necessary equipment for the construction of large and small vessels.

Two other marine yards, one of which is located at Key Highway, while the second is located on the Eastern end of Locust Point adjacent to Fort McHenry. The facilities of these plants include three dry docks, two graving docks and nine outfitting piers. These facilities handle all types of dry docking and ship repairs.

Maryland Shipbuilding and Dry-dock Company. This large marine shipyard is located on the water front at Fairfield. Plant facilities include four dry docks, five outfitting piers and one side launch way. All types of ship repairs are handled in this yard.

In addition to the above mentioned facilities there are numerous companies specialising in minor ship's repairs.

CUSTOMS ALLOWANCES: At the discretion of customs officers. Normal allowance is 200 cigarettes or 2 lb. tobacco and one quart wine or spirits per man. Additional allowances may be given if considered necessary, due to length of vessel's stay in port.

DEVELOPMENTS: Chesapeake and Delaware Canal to be dredged to 35 ft. depth by mid 1973.

IDENTIFICATION CARDS: Standard U.S. Immigration Forms I.–95 to be made up for each crew member on arrival. Not necessary for crew man already holding Form I.–95, issued for the same vessel.

CONSULS:

Argentina	France
Belgium	Great Britain
Bolivia	Guatemala
Columbia	Honduras
Costa Rica	Italy
Denmark	Luxembourg
Dominican Republic	Netherlands
Equador	Norway
El Salvador	Panama
Finland	Sweden

TIME: Eastern Standard Time, GMT minus 5 hours. Daylight saving time, GMT minus 4 hours from April to October.

AUTHORITY: Maryland Port Administration, 19 St. Charles St., Baltimore. Tel. (301) 383 5700.

BANGOR, Maine: 44.49 N. 68.47 W.

DOCUMENTS:
1 copy of Crew List.
1 copy of Passenger List.
2 copies of Stores Lists.
2 copies of Foreign Purchase Lists.
2 copies of Inward Foreign Manifest.
1 form 3251 (Master's Oath on entry of vessel).
2 forms 1374 outward foreign Manifest

PILOTAGE: Cable PENBAY via Chatham Radio. Ship's Agent usually notifies Pilot 48 hours and 24 hours before arrival at the pilot station. Pilot boat usually stands by on their radio one hour before ETA on RT 2182 and the VHF Channel 16 (156·8). Pilot boards at Monhegan Is, lat. 43°45′ N., long. 69° 22′ 5″ W. Pilot uses a white boat 36 ft. long and displays "H" by day and the pilot signals at night. Vessels awaiting Pilot in bad weather must heave-to outside.

ANCHORAGES: No restrictions on anchoring at Searsport and the Fort Point area.

RESTRICTIONS: Large ships are restricted to daylight navigation and high water. Small coastal ships of 14–15 ft. draft run day and

night. South Brewer has a controlling depth of 16 ft. at low water. Lower Bangor has controlling depth of 15 ft. and upper harbour has depth of 11 ft. Average rise of tide is 13 ft.
MAX. SIZE: At present ships of 560 ft. are taken up the river two hours before high water during daylight. Size and draft of ship depend on the berth.
HEALTH: It is the practice of the Agent to notify the U.S. Public Health and arrange for an inspection at the pier. If any disease is found the vessel is quarantined. When vessel has once cleared U.S, quarantine and proceeds to other U.S. ports, the clearance is still valid. Contact Agents for radio pratique.
RADIO: Vessels arriving Bangor use radio station at Chatham Mass., or call on the RT through station WOU at Boston, Mass.
TUGS: Usually meet ship at Bucksport, and use ship's lines.
BRIDGES: One suspension bridge with a height of 135 ft. at high water. Horizontal clearance is 750 ft.
MEDICAL: No advance notice required. There are three large hospitals. Seamen required to have certificate for smallpox vaccination during past three years.
TANKERS: One berth for ocean-going vessels. One 8 in. hose with a 10 in. line. Twenty-two ft. at low water.
DENSITY: Nearly fresh water.
FRESH WATER: Supplied at ocean-going berth at the rate of 50 tons per hour.
FUEL: Only available at oil berth.
CERTIFICATES:
Load-line.
Foreign Clearance.
Safety Certificate.
Radio Operator's Licence.
CUSTOMS ALLOWANCES: 200 cigarettes per man, 1 bottle wine/spirits per man.
IDENTIFICATION CARDS: Form I.–95 must be filled out upon arriving unless seaman has made one out before on a previous trip.
CONSULS: None.
REPAIRS: Only machinery repairs.
REPATRIATION: Arrangements must be made ahead of time by telegram.
TIME: GMT minus 5 hours in the winter and minus 4 hours in the summer.
AIRPORT: Bangor International is 2 miles from the city.
POLICE/AMBULANCE/FIRE: Police 9427377; Ambulance 9893311 Fire 9422293.
TELEPHONES: None put aboard. One pay phone on ocean-going berth.
SHORE LEAVE: Allowed subject to Immigration approval.
AUTHORITY: City of Bangor, Dept. of Harbour and Wharves, Harbour Master.

BATON ROUGE, Louisiana: 30.28 N. 91.12 W.

DOCUMENTS:
Original and 3 Crew Lists.
Original and 3 Passenger Lists.
Clearance from last foreign port.
Original and 3 copies Inward Manifest.
Certified Derat Certificate.
Load-line Certificate.
Safety Certificate.
Ship's Register.
3 copies Curio List.
PILOTAGE: Advise Agents ETA sea-buoy 48 hours in advance. Agent then makes arrangements for pilots. Seven 46 ft pilot boats—red hulls white cabins, flying white and blue pilot flags. Suggest pilot ladder 6 ft. above water level, no life-line. Call channel 2738 or VHF channel 9, 30 to 40 miles out. Safe anchorage within two miles Southpass or South-west pass entrance.
ANCHORAGES: General anchorage Baton Rouge as directed by Pilots.
RESTRICTIONS: No night-time restriction for entry or clearance, docking or undocking.
MAX. SIZE: Humble Oil Docks can accommodate 1000 ft. vessels—unlimited breath; draft governed by South-west pass—project depth 40 ft. usually restricted from 37 ft. to 30 ft. draft May through August, due to low water and silting.
HEALTH: Vessels en route Baton Rouge from foreign port rig accommodation ladder and anchor off quarantine station New Orleans for pratique and immigration inspection. Infectious diseases referred to Agent for handling with U.S. Public Health Doctor. No pratique required for vessels arriving from another U.S. port. Radio free pratique may be requested through Agents about 36 hours prior arrival by advising no sickness, no animals, no passengers, etc.
RADIO CALLS: ETA cables can be routed through Tropical Radio WNU New Orleans.
TUGS: Available at Baton Rouge for docking and undocking. Ship's lines used.
BERTHING: No time restrictions on berthing.
CARGO HANDLING FACILITIES: Two general cargo docks with total 280,000 sq. ft. transit shed and 2,265 ft. long, 40 ft. wide apron with double marginal tracks; grain elevator and bulk terminal at Burnside, for handling ores, concentrates, etc.; container marshalling yard adjacent cargo docks; also 20-acre paved staging area for import automobiles. Dock equipped for roll-on/roll-off. One dock equipped handle liquid chemicals.
BRIDGES: Sufficient clearance for all stages of river at all times; two bridges cross at New Orleans, one at Baton Rouge and one at Donaldsonville.
STEVEDORES: May be obtained by Agent with 4 hours notice.
MEDICAL: Agents should receive 24 hours notice when medical attention is required. Two excellent hospitals at Baton Rouge, U.S. Public Health Hospital at New Orleans.
TANKERS: Oil tankers load various petroleum and chemical products at Humble Oil Docks with sufficient hose, reducers, etc., available. Oil residue slop facilities available.
DENSITY: No tide—fresh water at all times.
FRESH WATER: At public docks. At Humble Oil Terminal simultaneous with loading or discharging at no cost. Ship's crew to make water connections.
FUEL: All grades subject inquiry. Barging essential.
FIRE PRECAUTIONS: Usual fire lines and sprinkler systems.
GANGWAY/DECK WATCHMEN: Only if Master requires.
OPENING/CLOSING HATCHES: Depending on terms of charter, usually by ship's crew.
CUSTOMS ALLOWANCES: Tobacco, each crew member allowed 300 cigarettes. Master allowed reasonable quantity. Wine and/or Spirit, each crew member allowed one bottle each of wine and spirits. Master allowed reasonable quantity.
CARGO GEAR: Safety certificate required for ships gear in handling. Pkg. cargo, etc.
IDENTIFICATION CARDS: Usual passports.
CONSULS: Norwegian only, all other consuls at New Orleans – 80 miles distant.
REPAIRS: All types of deck and engine repairs may be carried out.
REPATRIATION: Crew repatriation and crew changes may be made.
AIRPORT: Six miles to Ryan Airport, served by regular airlines.
TIME: Local time is Central Standard Time—6 hours later than GMT; from April through October local time is CS daylight saving time, 5 hours later than GMT.
POLICE/AMBULANCE/FIRE: Tel. Nos. Public Dock: Police 343–5525; Ambulance 344–0566; Fire 343–4140.
TELEPHONES: No arrangements for placing telephones aboard.
GENERAL: Tankers in ballast advised of drift wood conditions in river and ballast their vessels accordingly so as to avoid propeller damage.
SERVICES: Because of restricted river inadvisable adjust compasses. This is usually accomplished below New Orleans where river of sufficient width to permit large vessels to swing. Two firms engaged in tank cleaning, namely, Two Twenty Eight Terminals Inc. and Port Allen Marine Cleaning Plant. Slop facilities available at the Humble Oil & Refining Co. dock.
SHORE LEAVE: Shore leave permitted except when detained aboard by U.S. immigration.
DELAYS: Normally no delays at Humble Oil docks in berthing except when vessel's tanks unsuitable for loading. Normal delay at city wharf is one day awaiting berth.
AUTHORITY: Greater Baton Rouge Port Commission, PO Box 380, Port Allen, Louisiana 70767.

BAYTOWN, Texas: 29.44 N. 95.01 W.

DOCUMENTS, PILOTAGE, HEALTH, etc.: Refer to "Houston".
TUGS: Available if required.
BERTHING: Humble Oil & Refinery Co. Terminal, depth alongside 35 ft.
MEDICAL: All medical assistance available.
DENSITY: Brackish.
FRESH WATER: Available ex wharf.
FUEL: All grades available ex wharf.
GANGWAY/DECK WATCHMEN: Required only if crew detained by Immigration.
CUSTOMS ALLOWANCES: Each man 300 cigarettes or 100 cigars or 1 lb. tobacco; 1 quart wine/spirits.
AUTHORITY: Harris County Houston Ship Channel Navigation District, 1519 Capitol Avenue, Houston, Texas.

BEAUMONT, Texas: 30.05 N. 94.05 W.

DOCUMENTS, PILOTAGE, HEALTH, RADIO, etc.: Refer to "Port Arthur".
TUGS: Meet vessel in Neches River before arriving at berth. Normally two tugs used for docking, one for undocking.
BERTHING: Beaumont Elevator, distance from sea 50 m., depth alongside 38 ft. Texas Gulf Sulphur Co., distance from sea 47 m., depth alongside 34 ft.
STEVEDORES: Normal working hours 0800/1200 and 1300/1700. Monday to Friday.
HOLIDAYS: Longshore holidays are: Armistice Day; Thanksgiving Day; Christmas Day; New Year's Day; Washington's Birthday; Texas Independence Day (June 19th); Fourth of July; Labour Day; Decoration Day (May 30th). No work performed on Labour Day or Christmas Day.
TANKERS: Mobil Oil Co., distance from sea 49 m., depth alongside 36 ft. Pan American Pet. Co., distance from sea 45 m., depth alongside 38 ft.
MEDICAL: All facilities available.
DENSITY: Fresh water.
FRESH WATER: Available at berths, or by barge.
FUEL: Available ex-wharf at Mobil terminal. All grades available by barge to other locations.

GANGWAY/DECK WATCHMEN: Not required unless crewmen detained by immigration.
CUSTOMS ALLOWANCES: 300 cigarettes and one quart wine/spirits for each man.
IDENTIFICATION CARDS: Foreign crew require only Immigration landing permit.
CONSULS: Nearest at Houston.
REPAIRS, DRY DOCKS: See "Port Arthur".
AUTHORITY: Port Director, Port of Beaumont, PO Drawer 3626, Beaumont.

BELLINGHAM, Washington: 48.45 N. 122.31 W.

DOCUMENTS, PILOTAGE, HEALTH, etc.: Refer to "Tacoma".
TUGS: Available, join vessel in Bellingham Bay.
ANCHORAGE: Deep water available, but not good holding ground.
BERTHING: North Terminal, Berthing length 1,350 ft., depth alongside 35 ft. MLLW. South Terminal, Berthing length 450 ft., depth alongside 30 ft. MLLW. Georgia Pacific Dock, Berthing length 600 ft., depth alongside 30 ft. MLLW.
STEVEDORES: Eight local gangs. Additional gangs imported if required.
HOLIDAYS: See "Tacoma".
MEDICAL: All medical facilities available. Local hospital.
DENSITY: Salt water.
FRESH WATER: Available at all wharves.
FUEL: Available. Barge delivery only.
GANGWAY/DECK WATCHMEN: Required only if detainees aboard.
CUSTOMS ALLOWANCES: No definite quantities prescribed; reasonable allowance at discretion of Customs Inspector.
AUTHORITY: Port Manager, Port Bellingham, Washington.

BENICIA, California: 38.03 N. 122.10 W.

DOCUMENTS: Health and all General Information: refer to "San Francisco".
PILOTAGE: Port located about 25 miles above Golden Gate Bridge. River pilot joins at San Francisco, using VHF for traffic information. Passage includes passing under two bridges, Carquinez Strait Bridge having the least clearance, with 146 ft. (HW) and 151 ft. (LW) (using North Channel). River passage is timed to arrive at Benicia at the first of ebb tide; this is approximately 2½ hours after HW at Fort Point (Golden Gate).
ANCHORAGE: At San Francisco.
RESTRICTIONS: Tankers must lighten to 36 ft. fresh-water draft. This is done at No. 7 anchorage, 1½ miles East of Alcatraz Island. This cargo will later be pumped back to the tanker as barges cannot overcome shore back pressure. Turning basin off the berths, radius 1,800 ft.
TUGS: One small tug assists berthing. Only one normally required for unberthing.
BERTHING: Continuous wharf 2,404 ft. long with berth for three vessels. Depth alongside 39 ft. The North berth used for crude oil discharge and the South berth for petroleum products. The centre berth is equipped for handling general and bulk cargoes.
MOORINGS: Berths equipped with quick-release hooks and bollards. Two head wires, four breasts and two springs forward. This necessary because of current off the bank during ebb tide. Two stern lines, two breast lines and two springs aft.
BULK HANDLING FACILITIES: Waterside silos capacity 26,000 tons. With loading conveyor belt capacity 1,000 tons per hour.
TANKERS: Crude oil discharge through two 12-in. Chiksan arms and 36-in. shoreline, 2½ miles long. Shore tanks are situated 164 ft. above sea level, initial back pressure 65/70 p.s.i.
FRESH WATER: Available from shore lines.
FUEL: Can only be delivered by barge. Average rate 300 t.p.h.
DEVELOPMENTS: Current plans call for: (1) enlargement to 9 berths; (2) deepening of water alongside, including channels to 45 ft.; (3) installation of bulk handling equipment for wood chips; (4) for bulk iron ore and (5) development of a complete container terminal.
AUTHORITY: Benicia Port Terminal Company.

BOSTON, Massachusetts: 42.21 N. 21.05 W.

DOCUMENTS:
3 copies Cargo Manifest (Forms 7527–A or 7527–B), two copies showing all cargo on board, and 1 copy showing only cargo for this port.
3 copies Crew manifest (curio list).
3 copies Stores List.
3 copies Passenger List (Form I.–418).
3 copies Crew List (Form I.–418).
Customs boarding officer will also examine Ship's register and Load-line Certificate. In addition, the following documents will be required for formal entry to be made within 48 hours of arrival from abroad, or 24 hours from arrival from a United States Port:
Health Pratique.
Master's Oath (Customs Form 3255).
All foreign clearances.
U.S. Certificates of payment of tonnage tax (Customs Form 1002).
Certified Crew List.
PILOTAGE: Is compulsory. Pilots cruise in boats which are designated by numbers painted in black figures 4 ft. high on sails. The outer boat cruises outside the Graves.
ANCHORAGES: ANCHORAGE NO. 1.

Upper Harbour Anchorage: Steam and motor vessels permitted to anchor in this basin anchor within the following area: South-easterly of a line bearing 205 degrees true from North-easterly corner of Boston and Albany Pier No. 5, East Boston; North-easterly of a line bearing 122 degrees true from South-easterly corner of Lewis Wharf, North Pier; South-westerly of a line bearing 392 degrees true from North-easterly corner of Southernmost Airport Approach Pier; North-westerly of a line bearing 025 degrees true from Buoy No. 12, F1.R.6 sec.

ANCHORAGE No. 2. *President RoadsAnchorage* (40 ft. anchorage): All vessels anchoring in this basin anchor within an area beginning at a point bearing 237 degrees, 522 yards from Deer Island Light; thence to a point bearing 254 degrees, 2280 yards from Deer Island Light; thence to a point bearing 261 degrees, 2290 yards from Deer Island Light; thence to a point bearing 279 degrees, 2438 yards from Deer Island Light; thence to a point bearing 319 degrees. 933 yards from Deer Island Light; thence to a point bearing 319 degrees, 666 yards from Deer Island Light; and thence to point of beginning.

President Roads Anchorage (35 ft. anchorage): All vessels anchoring in this basin anchor within an area beginning at a point bearing 256 degrees, 2603 yards from Deer Island Light; thence to a point bearing 258 degrees, 3315 yards from Deer Island Light; thence to a point bearing 264 degrees, 3967 yards from Deer Island Light; thence to a point bearing 261 degrees, 2290 yards from Deer Island Light; and thence to point of beginning.

ANCHORAGE No. 3. *Nantasket Roads Anchorage:* Vessels anchoring in this anchorage basin anchor within following area; Westerly of a line bearing 143 degrees from wharf at Gallups Island to Bell Buoy No. 2, South-west of Georges Island; Northerly of a line bearing 260 degrees from Bell Buoy No. 2, Georges Island, to the Northerly end of Rainsford Island; Northerly of a line bearing 273 degrees from the Northerly end of Rainsford Island to Bass Point, Long Island; Southerly of a line bearing 270 degrees from the wharf at Gallups Island to Long Island.

ANCHORAGE No. 5. *Peddocks Island and Explosive Anchorage:* Vessels anchoring in this anchorage basin anchor within following area; South-westerly of a line bearing 122 degrees true from the Easterly end of Rainsford Island to the North-easterly end of Rainsford Island to the North-easterly end of Peddocks Island, North-easterly of a line bearing 165 degrees true from the Westerly end of Rainsford Island to the South-easterly end of Peddocks Island.
RESTRICTIONS: There are three main channels of entrance from sea to President Roads.

Broad Sound North Channel from Broad Sound to President Roads from North-eastward. Dredged 35 ft. deep and 1,500 ft. wide and is deepened to 40 ft. in a width of 900 to 1,100 ft. This channel well marked by lighted buoys.

Broad Sound South Channel from Broad Sound South-westerly and Westerly to President Roads. Dredged 30 ft. deep and 1,200 ft. wide. This channel is well marked by buoys and ranges but most aids to navigation are not lighted.

The Narrows is channel leading into Boston Harbour from South-eastward between Boston Lighthouse and Lovells Island on the North-east and Point Allerton, Georges Island and Gallups Island on South-west. Depth is 27 ft. Width is generally 1,000 ft. except in a section between Narrows Light and Georges Island where shoaling on North-easterly side limits is to 700 ft. Channel is well marked.

The Main Ship Channel of Boston Harbour extends from President Roads to the mouths of the Chelsea and Mystic Rivers and to Charlestown Bridge on the Charles River. Channel has been dredged 35 ft. deep and 1,200 ft. wide to the inner end where widths decrease near the river mouths. It has been deepened to 40 ft. for 600 ft. width from President Roads to the mouth of the Mystic River, with a widening to 1,200 ft. at the bend just Northerly of Commonwealth Pier No. 5, South Boston.

Charles River is the approach by water to Cambridge and Watertown. About half a mile above the lower bridge there is a dam with a lock 45 by 350 ft. with depth of 17 ft. over the lower sill. Depths above dam decrease gradually to 9 ft., basin level, at head of navigation. *Mystic River* is approach by water to Everett, Malden and Medford. Controlling depths are 35 ft, from Mystic River bridge to approximately 1 mile above, thence 20 ft. from the 35 ft. Channel to 800 ft. above the Malden Bridge to a point abreast Monsanto Chemical Company plant. *Chelsea River* is approach to city of Revere. Channel from entrance to a point opposite the Tenneco Oil Co. terminal has a controlling depth of 35 ft. *Weymouth Fore River* is approach by water to Quincy and Weymouth. Controlling depth is 30 ft. to Fore River Bridge. Controlling depth for a distance of 2,800 ft. above Fore River Bridge is 30 ft. *Town River* extends North-westward from Weymouth Fore River at Quincy point. River has a controlling depth of 27 ft. from deep water in Weymouth Fore River to a point opposite the Quincy Oil Co. terminal. Opposite Quincy Oil Co. terminal there is a turning basin 18 ft. deep, 400 ft. wide and 1,000 ft. long.
HEALTH: Radio pratique may be granted basis information received prior to arrival of vessel, provided no communicable diseases on board. Normally vessels boarded by Medical officers on arrival unless free pratique previously given at U.S. port in same voyage. If granted free pratique, vessel may enter port and discharge passengers and cargo. If given provisional pratique, vessel may enter port, but must take any additional measures specified in connection with discharging passengers and cargo, until free pratique is given.
TUGS: Steamers can proceed from the sea to Boston Upper Harbour under own power. They are usually met by tow-boats, for docking while in the stream. Barges usually left by the outside tow-boats at the anchorage grounds, to be docked later by harbour tugs
BERTHING: There are 259 piers or wharves in the port of Boston providing 158,646 lineal ft. or 30 miles of berthing space measured

along the sides and ends of piers and along bulkheads or shore wharves. Many of them have railroad connections. The depths of water available alongside these terminals range up to a maximum of 40 ft. at mean low water. Practically all terminals fronting on main ship channel are in close proximity to storage warehouses, both cold and dry which greatly facilitates transfer of cargo between vessel and warehouse.

Main Terminals:

Hoosac Pier, three berths,	depth alongside		35 ft.
Mystic Pier, four berths	,,	,,	35 ft.
Commonwealth Pier, five berths	,,	,,	40 ft.
South Boston, ten berths	,,	,,	35 ft.
Castle Island, seven berths	,,	,,	35 ft.
East Boston, five berths	,,	,,	32 to 35 ft.
Public Container Terminal, two berths	,,	,,	36 ft.

SPECIALISED CARGO HANDLING FACILITIES:

STEVEDORES: Available at various rates.

FRESH WATER: Plentiful supply of excellent water in Boston, It is supplied by terminal at prevailing rates.

FUEL: All grades available in various viscosities. Normally supplied by barge subject to advance notices.

CUSTOMS ALLOWANCES: At the discretion of customs officers. Normal allowance is 200 cigarettes or 2 lb. of tobacco and one quart wine or spirits per man. Additional allowances may be given if considered necessary, due to length of vessel's stay in port.

IDENTIFICATION CARDS: Standard U.S. Immigration Forms I.-95 to be made up for each crew member on arrival. Not necessary for crew man already holding Form I.-95, issued for the same vessel.

GANGWAY/DECK WATCHMEN: Available. Usual charge is $24.89 per 8 hours shift Monday to Friday inclusive, and $34.12 per 8-hour shift Saturdays, Sundays and holidays.

OPENING/CLOSING HATCHES: Performed by stevedores.

CONSULS:

Australia	Finland	Lebanon
Argentina	France	Mexico
Austria	W. Germany	Netherlands
Belgium	Great Britain	Norway
Bolivia	Greece	Panama
Canada	Guatemala	Paraguay
Cyprus	Haiti	Peru
Colombia	Iceland	Portugal
Costa Rica	Ireland	Spain
Denmark	Israel	Sweden
Ecuador	Italy	Switzerland
El Salvador	Japan	Thailand
		Venezuela

REPAIRS: Any type of repair undertaken.

DRY DOCKS:

Naval Dry Docks are not generally available for use of private parties. However, it may be possible at times, depending on Naval needs, to make arrangements with Navy Department for docking services for private parties if no privately-owned facilities are available. Naval needs govern and Navy does not enter into competition with privately-owned facilities if such services are available.

Bethlehem Steel Co., Shipbuilding

Division, East Boston, Massachusetts	*Length*	*Capacity*
Floating Dry Dock No. 1	622 ft.	18,000 tons
Floating Dry Dock No. 2	479 ft.	20,000 tons
Graving Dry Dock No. 4	256 ft.	

Modern facilities for repair, overhaul, and conversion of vessels of all sizes:

(*a*) A 10,000 ton capacity floating dry dock serviced by two 150 ton overhead cranes with a yoked capacity of 350 tons. The five-section dock is 415 ft. long, 120 ft. wide, and has an inside dimension of 85 ft. 7 in.

(*b*) 3 building basins (actually a three-positioned graving dock), 2 are 132 ft. wide, 867 ft. long; 1 is 150 ft. wide, 938 ft. long Each basin serviced by two whirley type cranes of 75 and 50 ton capacity.

(*c*) Four outfitting piers capable of handling up to 10 ships simultaneously provide adequate space for dockside work and for mooring personnel or service barges.

(*d*) Three conventional "sliding" ways capable of handling ships up to 1,000 ft. in length.

Major Shops: Two-bay fabricating shop served by 17 bridge cranes. Machine shop equipped with large vertical and horizontal mills planers, lathes and a complete small machine complement. Fully equipped sheet metal, joiner, boiler, blacksmith, pattern, foundry galvanizing, pipe and copper, and electrical shops. Complete facilities for inspection of all types including nondestructive testing such as radiography, magnetic particle, liquid penetrant and ultrasonic.

REPATRIATION: Good facilities exist.

HOLIDAYS: New Year's Day (1st January); Washington's Birthday (22nd February); Patriots' Day (19th April); Memorial Day (30th May); Bunker Hill Day (17th June); Independence Day (4th July); Labour Day (first Monday in September); Columbus Day (12th October); Veteran's Day (11th November); Thanksgiving (fourth Thursday in November); Christmas Day (25th December). *Note:* "Or any day celebrated in lieu thereof".

TIME: Eastern Standard Time, GMT minus 5 hours. Daylight saving time, GMT minus 4 hours from April to October.

AUTHORITY: Massachusetts Port Authority, 470 Atlantic Avenue, Boston.

BROWNSVILLE, Texas: 25.54 N. 97.28 W.

DOCUMENTS: See "Houston".

PILOTAGE: When a vessel is scheduled to arrive at the port of Brownsville the vessel's Agent notifies the Harbour Master's office of the approximate ETA. Later, when a firm ETA is received, the Harbour Master's office notifies the pilot office that the vessel is expected on the bar at a certain time and also gives the time which she would like to enter.

The telegraphic address of the pilot office is: Brazos-Santiago Pilots, 411 First National Bank Bldg., Brownsville, Texas.

If possible, it is desired that the pilot office be notified two hours in advance of the ETA of any vessel.

The VHF Channel to be used when contacting the pilot boat is 16. When contact is made, this will be switched to Channel 13.

The pilot boat is an oil screw vessel, powered by a Caterpillar diesel engine. Her gross tonnage is 1,782, length 45 ft., beam 12 ft. 7 in. and draft 6 ft.

No light or sound signals are necessary from vessels requiring a Pilot, although light signals may sometimes be used at night – ordinarily a vessel is picked up by visual sighting.

The pilot boat is located on the South tip of Padre Island – the pilot station is adjacent to the entrance to ship channel with a clear view of the approach to the jetties.

The Pilot is taken on board an incoming vessel at the sea buoy which is located 2 miles off shore.

The anchorage for a vessel awaiting Pilot is 1½ miles North of sea buoy.

ANCHORAGES: Anchorages are marked on charts.
MAX. SIZE: The maximum permissible: Length 800 ft., beam 100 ft., draft 35 ft.
RADIO: ETA cables to Agent, etc., should be addressed to the Agent via Mackay Radio at Galveston or RCA in Port Arthur. When within a 60 miles range of the port, calls may be made through the Harbour Master's office on VHF Channel 16 or 26 and the calls will then be transferred to land lines to any point.
VHF: A vessel approaching the port of Brownsville may contact the Harbour Master's office on VHF Channel 16 or 26.
TUGS: Tugs normally join an incoming vessel 1¼ miles before she enters the turning basin. The tug's lines are used for which there is no charge.
STEVEDORES: To arrange for gangs the vessel needs to notify the ship's Agent of ETA; the Agent will in turn notify the stevedore. It is necessary that the Agent be advised of an ETA before 1900 for an 0800 start.

Main commodities and average load and discharge rates:

Grain	Bulk carrier 1,200 tons per hour
,,	between deck 600 tons per hour
Cotton	100 bales per hour per gang
Lead and zinc pigs	25 tons per hour per gang
Citrus in boxes	18 tons per hour per gang
Onions and carrots in bags	18 tons per hour per gang
General cargo	15 tons per gang per hour

MEDICAL: When medical attention is required, advance notice should be given the Agent by ship's radio. U.S. Public Health radio pratique questionnaire should be complied with to expedite vessel's clearance on arrival from a foreign port.
TANKERS: Ballast facilities are available up to 6,000 barrels per hour. The port loads residual crude only – about 13·2 API. The port has three tankers berths, with 34 ft. 7 in. maximum draft.
DENSITY: The average density is 32 parts per 1,000.
FRESH WATER: Fresh water is available and can be delivered to a vessel through hose or pipe line at 150 gallons per minute.
FUEL: No fuel is available locally. It must be barged in from Corpus Christi – advance arrangements are necessary.
FIRE PRECAUTIONS: Tankers are required to berth head out.
DEVELOPMENTS: The Federal Government has made an appropriation to initiate a study on deepening ship channel from 36 ft. to 45 ft. and to widen the channel from 200 ft. to 400 ft., bottom width. Plans are being made to build another grain elevator/bulk materials dock, a bulk liquid cargo dock, and another chemicals dock within two years.
GANGWAY/DECK WATCHMEN: Such services are necessary only when detainees are held on board.
OPENING/CLOSING HATCHES: This work is done by the stevedores.
IDENTIFICATION CARDS: Immigration requires form No. 1–95 Landing Permit.
CONSULS: Mexico: tel. 542–4431; Guatemala, Costa Rica and Honduras, tel. 542–3506; Nicaragua, tel. 546–6861.
REPAIRS: Howard Iron Works, located at the port, is equipped to handle all normal temporary ship repairs.
DRY DOCKS: None available.
REPATRIATION: There are facilities for this service.
AIRPORT: The local airport is located 2 miles from the port. Braniff Airways operates two flights daily.
TIME: Local Time is 6 hours behind GMT.
HOLIDAYS: The following holidays are observed here: Veterans Day (Nov. 11); Thanksgiving; Christmas; New Year; Washington's Birthday (Feb. 22); Texas Independence Day (March 2); Emancipation Day (June 19); July 4th; Labour Day (first Monday in September) Decoration Day (last Monday in May).

No work shall be performed on Labour Day or Christmas Day except in case of fire or where property is in danger. When holidays come on Sunday, the following day will be recognised as the holiday. Also, no work will be performed between 4 p.m. and 7 p.m. on election days.
POLICE/AMBULANCE/FIRE: Brownsville Police 546–3751; Brownsville Fire Dept. 542–4375; Ambulance Service 542–2121.
TELEPHONES: Telephones are not available for placing on ships.
SERVICES: Tank cleaning service is available through the Howard Iron Works at the port. Ballast facilities are available at oil docks 1, 2 and 3. The Gulf Radio Electronics Company can take care of compass adjusting, etc.
DELAYS: There are no delays unless an incoming ship has been assigned to a berth now occupied. Bunkers must be barged in; arrangements may be made ahead of time to avoid delay.
AUTHORITY: Port Director, PO Box 3070, Brownsville, Texas. Tel. 542–4351.

BRUNSWICK, Georgia: 31.09 N. 81.30 W.

DOCUMENTS:
Crew Lists: 1 certified copy for Immigration; 2 copies uncertified for Customs.
1 copy Pratique.
3 copies Inward Customs Manifests.
3 copies each Stores, Curio & Narcotics List.

PILOTAGE: Compulsory. 24-hour pilot service arranged by Agent with 48–24 hour prior notice from ship. Pilot station at Buoy "St. S." Pilot reached through UHF Channels 12, 14, 16 on voice radio (R/T). Pilot boat is 35 ft. white hull. No special signals required to pilot other than International code flag "G" if desired.
ANCHORAGES: 3 miles S.E. of buoy "St. S." sand and mud bottom. In event deep draft (30 ft.) and high winds, anchorage near Ocean Buoy 2B and inform pilot as in "Pilotage". Vessels in need or for other good reason, may anchor in St. Simon's Sound.
RESTRICTIONS: No restrictions unless vessel drawing 30 ft. or more, then must await high tide to cross bar.
MAX. SIZE: 650 ft. length maximum permissible.
HEALTH: Pratique obtained from Boarding Officer upon mooring alongside.
RADIO: Prior arrival, use commercial Lantana, Chatham Radio for advices to Agent, 48–24 hours in advance.
TUGS: 2 tugs, 500 h.p. each. Join vessel in St. Simon's Sound after passing lighthouse. Tug lines used.
BERTHING: 1,600 ft. continuous marginal wharf; steel & concrete construction, 57 ft. wide apron. Vessels normally turned to moor port side alongside unless deck cargo or other vessel obstruction means cargo may not be worked over port side.
BRIDGES: One: Lanier Bridge draw bridge; 250 ft. horizontal clearance, 139 ft. vertical clearance, up position, high water. Vessels under pilot and tugs when passing through.
STEVEDORES: Wireless to Agent 48–24 hours prior arrival with number of gangs, working hatches and space in hatch, and special factors, e.g., pilferable cargo, autos, heavy-lifts, etc.
MEDICAL: Advance notice to Agent, or notify on arrival.
TANKERS: Petroleum tankers do not now call at Brunswick. Liquid bulk cargo is pine oil distillates loading.
DENSITY: Average 1.0166 (high) to 1.0141 (low). Water inside considered brackish.
FRESH WATER: From shore connections at 20 tons per hour.
FUEL: Not available locally. Must be delivered from Jacksonville, Florida. If required, 72 hour advance notice to Agent, giving type & quantity.
DEVELOPMENTS: Tanker and solid-bulk facility, 1974.
GANGWAY/DECK WATCHMEN: Not required but available.
OPENING/CLOSING HATCHES: "MacGregor" hatches must be opened by vessel prior working. All others may open at discretion to save turn-around time.
CERTIFICATES: Registry, U.S. tonnage tax.
CUSTOMS ALLOWANCES: Tobacco, 2 cartons. Customs will open bonded stores on request. Spirits, reasonable amount.
IDENTIFICATION CARDS: U.S. Immigration Landing Permits.
CONSULS: None, consulates at Savannah, Ga., and Jacksonville, Fla., may be used as required by vessel.
REPAIRS: Limited to minor replacement parts to engine, radio, radar of standard makes. Major repairs may be arranged with shipyards of Savannah or Jacksonville.
DRY DOCKS: None.
REPATRIATION: Through Agent.
AIRPORT: 20 minutes drive from quays; 4 flights daily.
TIME: GMT minus 5. Daylight Saving Time, 15 April through last Sunday October. April: advance; October: retard.
HOLIDAYS: 1 Jan., 15 Jan., 12 Feb., 22 Feb., 30 May., 4 July, 1st Monday in September, 12 October, 11 November, 4th Thursday in November, 25 December.
POLICE/FIRE/AMBULANCE: Numbers given in Boarding Brochure.
TELEPHONES: None placed aboard. Public pay (coin) telephones on quay clearly marked.
GENERAL: Brunswick, Georgia, is a small port specialising in export of woodpulp in bales, pine-tree products in drums. Imports bulk salt, salt-cake, and gypsum, little break-bulk general cargo. Vessel requirements handled by Agent in residence, communication by wireless or R/T essential in advance.
AUTHORITY: Manager, Georgia Ports Authority.

AGENT: Southern Shipping Company, State Port Bldg. Tel. 912/256/7588. Cables: Soshipco.

BURNSIDE, Louisiana: 30.08 N. 90.55 W.

East bank of Mississippi River, about 200 miles from sea.
DOCUMENTS/HEALTH/PILOTAGE: For all general information refer to "New Orleans".
TUGS: Not normally required.
BERTHING: Bulk Marine Terminal: berth 800 ft. long, 40 ft. depth; Ormet Corporation berth 825 ft. long, 50 ft. depth.
FRESH WATER: Available ex-berth.
FUEL: Not available.
DENSITY: Fresh water, 1000.

CAPE COD CANAL, Massachusetts

The Cape Cod Canal is a sea-level canal, extending from a point on Cape Cod Bay about 50 miles South-east of Boston Harbour, Mass., to the head of Buzzards Bay, Mass. In general direction the canal trends from Cape Cod Bay Westerly to Buzzards Bay.
PILOTAGE: The Corps of Engineers, Department of the Army, does not maintain pilot service but independent Pilots, licensed by the U.S. Coast Guard, are usually available at the canal. Messages will be transmitted to Pilots with the understanding that the Government will assume no responsibility in connection therewith.

RESTRICTIONS:

	Width bottom Feet	*Length Miles*
Easterly Entrance to Station 430	480*	8·4
Station 430 to Wings Neck (Hog Island Channel)	500	4·3
Wings Neck to Cleveland Ledge (Cleveland Ledge Channel)	700	4·7

* Except narrows to 450 ft. opposite State Pier.

The canal and approach channels have been dredged to the project depth of 32 ft. below mean low water.

RADIO: Direct communication with the Cape Cod Canal Sub-office, New England Division, Corps of Engineers, is available at all hours by means of telegraph, telephone or radio. The tel. number is 759 4431. The nearest ship-to-shore telephone station is at Scituate (call letters WOU). Bridge to Bridge radio-telephone facilities are available on 156·65 Mc.

TUGS: Not available.

BERTHING: Mooring basins are located at the East and West ends of the canal. The East Mooring Basin, located on the North side of the canal is 3,000 ft. in length, 550 ft. in width and has been dredged to a depth of 25 ft. at mean low water. The West Mooring Basin, located on the South-east side of the Hog Island Channel is 4,000 ft. in length, 350 ft. in width and has been dredged to a depth of 32 ft. at mean low water. Mooring dolphins are provided in both mooring basins.

BRIDGES: Two fixed span high-level highway bridges and one vertical lift railroad bridge cross the canal.

COAST GUARD STATION AND WEATHER SIGNALS: A U.S. Coast Guard Station is located near the Eastern entrance. U.S. Weather Bureau Signals are displayed at the eastern entrance and at Wings Neck.

TRAFFIC LIGHTS: Red, green and amber electric lights, visible for a distance of about 2 miles in clear weather, day or night, are located at the following points:

(*a*) Eastern or Cape Cod Bay entrance, on South side of entrance at an elevation of about 55 ft. above high water.

(*b*) Supplemental traffic lights at a mean elevation of 28 ft. above MHW are installed at the Easterly side of the Sandwich Control Station, South side of canal, canal station 35+00 and will be energised at such times as power failures and/or other conditions make the regular traffic lights at the Easterly canal entrance inoperative.

(*c*) Western or Buzzards Bay entrance, (1) Wings Neck, near Wings Neck Light at an elevation of about 48 ft. above high water.

(*d*) Station 389 – on North side, near the U.S. Engineer Sub-office, elevation of about 37 ft. above high water, for East-bound traffic only.

AUTHORITY: Corps of Engineers, Dept. of the Army, Waltham, Massachusetts.

CASTLE ISLAND, Alaska

Located in Duncan Canal off Kupreanof Island between Wrangell and Petersburg. Open all year.

DOCUMENTS: See "Anchorage, Alaska".

PILOTAGE: (From sea via Dixon Entrance up Clarence Strait to Guard Island.) Under pilotage from Guard Island.

MAX. SIZE: Harbour depth 45 ft.

TIDES: Diurnal range 16 ft. Also see "Berthing".

ANCHORAGE: Fair weather anchorage only.

CUSTOMS: Quarantine and Immigration available from Guard Island. Customs available from Petersburg or Guard Island.

BERTHING: Alaska Barite facility: dolphins and two floats. Present facilities limited to about 22,000-ton ships. Loading equipment consists of one loading spout for bulk cargo. Production average of 1,000 tons per hour.

TUGS: From Wrangell three available 500 h.p. each.

STEVEDORES: Sufficient to work ore loading facility 24 hours a day when necessary.

REPAIRS/WATER/FUEL: None.

MEDICAL: Facilities available in Petersburg or Wrangell.

AIRPORT: Charter airplane only.

CHARLESTON, South Carolina: 32.47 N. 79.56 W.

DOCUMENTS:

3 Crew Lists.
3 Curio Lists.
3 Stores Lists.
3 Manifests.
At least 1 copy of Bill of Lading, if provided by shipper, and 1 copy of Parting Crew List.

PILOTAGE: Shipmasters to notify Agent 48, 24 and 12 hours prior arrival at C-2 Buoy. Pilot may be contacted by VHF Channels 16 and 18. Pilot boards on lee side from black-painted launch with "PILOT" painted in white letters on the side. Normally vessel is berthed by Docking Master from tug company.

ANCHORAGES: Rarely required.

RESTRICTIONS: Only restriction affecting operation relates to channel depth of 35 ft. at low tide.

MAX. SIZE: Can handle vessels 950 ft. long. Present facilities measure 475 ft. from centre of discharge pipeline to end of dock.

HEALTH: Recommend shipmaster's use of free radio pratique request when arriving direct from a foreign port. If Master fails to radio for pratique, automatically arranged for boarding of vessel by proper Health authority. No pratique necessary if foreign vessel is arriving from another U.S. port.

RADIO: Normal procedure. No special or unusual procedures required.

TUGS: Tugs usually join tankers between Cooper River Bridge and Coal Pier, approximately ½ mile from dock. Tug lines used. No charge made for this service.

BERTHING: No specific requirements exist other than 35 ft. deep draft at low tide.

STEVEDORES: *Working hours:* Labour may be ordered for work to start at the following times: 0800, 1000, 1200 and 1900. Labour will usually work as long as necessary; shift system not used in this port.

RADAR/VHF: Services required are handled through Agent.

MEDICAL: Advance notice when possible.

TANKERS: Discharge lines all 8 in. dia. and 1 solvent line 8 in. Adapter to conform to ship's discharge lines supplied. Draft not to exceed 35 ft. low tide. Tanker berths operated by Humble Oil, Shell Oil, Hess Oil, BPT, and Phillips Petroleum, all suitable for 35 ft. draft. Gulf Oil berth, max. draft 30 ft. Texaco berth, max. draft 32 ft.

FRESH WATER: Available via 2½ in. hose at a rate of 500 bbls. per hour.

FUEL: Bunker "C", at API of 14.4 to 16.6 (approx.) and blended Bonded Intermediate grades from 1 to 30.

FIRE PRECAUTIONS: Normal precautions.

DEVELOPMENTS: No changes planned in present facilities until channel depth is increased.

GANGWAY/DECK WATCHMEN: Supplied by Agent upon request from Shipmaster only.

CERTIFICATES: Normal International certificates.

CUSTOMS ALLOWANCES: Tobacco, Wine and/or Spirits, governed by length of time in port and existing Customs regulations.

CONSULS:

Danish Vice-Consulate 722–7016
Norwegian Vice-Consulate 723–9241

REPAIRS: Available.

DRY DOCKS: One 10,000-ton floating dock, one 1,500-ton, and two 1,000-ton floating docks.

REPATRIATION: Facilities available.

AIRPORT: Ten miles from Terminal, served by regular airlines.

HOLIDAYS: Work continues on holidays.

POLICE/AMBULANCE/FIRE: Contact dockmaster at any time.

TELEPHONES: No arrangements exist for placing phones aboard vessels. Phone facilities are situated within 100 ft. of vessel at dock.

SERVICES: No tank cleaning/washing facilities available at dock. Can be arranged and handled at local shipyard. Practically any other service available at dockside.

SHORE LEAVE: Subject Shipmaster's permission and existing Immigration regulations.

DELAYS: Normally, no delays beyond normal time required to connect/disconnect hoses.

AUTHORITY: South Carolina State Ports Authority.

CHICAGO, Illinois: 41.50 N. 87.45 W.

DOCUMENTS:

For Agent in Montreal:
3 unfreighted copies of Complete Manifest for Seaway Toll purposes covering all cargo to be discharged in the Great Lakes.

In first U.S. port: a "Traveller" is made up by the Customs Inspector with the following documents:
2 complete sets of U.S. Cargo Manifests, plus 6 copies for Agents.
1 set Manifest of Cargo for first U.S. port.
4 Stores Lists.
4 Personal Effects Lists.
4 Firearms and Ammunition Lists.
4 Crew Lists, Form I418.
4 Narcotics Lists.
4 Vessel's Itinerary Lists.
Vessel's Registry and copies of Paid Tonnage Tax Certificates.
Health Pratique.
Clearance from previous port.
2 sets Bills of Lading.
3 copies Stowage Plan.

In subsequent U.S. ports the following are required:
5 sets Manifest of Cargo for that port.
The "Traveller" and Permit to Proceed issued in previous port.
2 Stores Lists.
2 Personal Effects Lists.
2 Firearms and Ammunition Lists.
2 Crew Lists.
2 Narcotics Lists.
2 sets Bills of Lading.
3 copies Stowage Plan.

PILOTAGE: Compulsory unless Master holds exemption "B" license. 24 hours notice of arrival required by Agents who arrange Pilot.

ANCHORAGE: In Chicago Harbour, anchorages A, B and F designated for merchant ships and marked on charts. In Calumet Harbour vessels should not anchor within 1,000 ft. of the breakwaters.

RESTRICTIONS: St. Lawrence Seaway navigation season approximately from April 15th to November 15th. Controlling depth 27 ft.

MAX. SIZE: Limited at Seaway Locks. 730 ft. length, 26 ft. draft.

RADIO: Port can be contacted by Illinois telephone station WAY.

Notice of arrival; Master must give at least 24 hours notice to Commander 9th Coast Guard District, Cleveland, Ohio, of the vessel's ETA at Snell Lock. Also at least 24 hours notice of ETA at first U.S. discharge port is required.
HEALTH: All ocean-going vessels must obtain a free pratique before entering the Seaway. Vessels may obtain quarantine inspection and clearance from the Canadian Authorities at Montreal while awaiting entrance to the Seaway.
TUGS: Available, not compulsory but recommended.
BERTHING:
Navy Pier: 5 berths, 2,900 ft. length; 27 ft. depth alongside.
Calumet Harbour: 9,775 ft. berthing length; 17 berths up to 27 ft. alongside; 4 grain elevators up to 40,000 bushels per hr. capacity.
Lake Calumet: 13 berths up to 27 ft. depth alongside; 2 grain elevators up to 40,000 bushels per hr. capacity.
Indiana Harbour: Located about 7 miles South-east of Calumet Harbour and has 2 miles of waterfront along Indiana Harbour Canal. Depth of water alongside 22–29 ft. depending on berth.
Buffington Harbour: Private harbour owned by Universal Atlas Cement. Located about 9·5 miles South-east of Calumet Harbour. A concrete dock 1,755 ft. long, enclosed by a breakwater with entrance 880 ft. wide. Exposed to heavy North-easterly swell. Depth alongside from 25 to 31 ft.
DENSITY: Fresh water.
MEDICAL: Doctors, hospital and all facilities available.
FRESH WATER: Available at most berths.
FUEL: All grades available, ex-wharf, or delivered by barge.
REPAIRS: All marine repairs can be effected.
DRY DOCKS: No. 1, 570 ft. length, 71 ft. 8 in. wide, 16 ft. sill depth. No. 2, 727 ft. length, 90 ft. 2 in. wide, 16 ft. 3 in. sill depth.
GENERAL: Refer to "St. Lawrence Seaway" for important general information.
AUTHORITY: Department of Port of Chicago, Navy Pier, Chicago.
AGENT: Nordship Agencies Inc, One East Wacker Drive, Chicago Tel: 312–321–0980. Telex: 25–41–21. Twx: 910–221–1352. Cables: Nordship Chicago. After Hours Tel: Capt. D. Patterson 312–627–7437. Mr. P. D. Gjertsen 312–248–2300. Mr. J. F. Dresen 312–534–0347.

DOCUMENTS:
For Agent in Montreal:
3 unfreighted copies of Complete Manifest for Seaway Toll purposes covering all cargo to be discharged in the Great Lakes.
In first U.S. port: a "Traveller" is made up by the Customs Inspector with the following documents:
2 complete sets of U.S. Cargo Manifests, plus 6 copies for Agents.
1 set Manifest of Cargo for first U.S. port.
4 Stores Lists.
4 Personal Effects Lists.
4 Firearms and Ammunition Lists.
4 Crew Lists, Form I418.
4 Narcotics Lists.
4 Vessel's Itinerary Lists.
Vessel's Registry and copies of Paid Tonnage Tax Certificates.
Health Pratique.
Clearance from previous port.
2 sets Bills of Lading.
3 copies Stowage Plan.
In subsequent U.S. ports the following are required:
5 sets Manifest of Cargo for that port.
The "Traveller" and Permit to Proceed issued in previous port.
2 Stores Lists.
2 Personal Effects Lists.
2 Firearms and Ammunition Lists.
2 Crew Lists.
2 Narcotics Lists.
2 sets Bills of Lading.
3 copies Stowage Plan.
PILOTAGE: Not compulsory. Seaway Pilots will assist if required.
ANCHORAGE: In the outer harbour, 28 ft. depth, mud and sand bottom.
RESTRICTIONS: St. Lawrence Seaway navigation season approximately from April 15th to December 15th. Controlling depth 25 to 27 ft. Access to berths in the River is limited by height restriction of 97 ft. above waterline.
MAX. SIZE: Limited at Seaway Locks. 730 ft. length, 26 ft. draft.
HEALTH: All ocean-going vessels must obtain a free pratique before entering the Seaway. Vessels may obtain quarantine inspection and clearance from the Canadian Authorities at Montreal while awaiting entrance to the Seaway.
TUGS: Available and use is compulsory in Cuyahoga River and Old River channel.
RADIO: U.S. Coast Guard can be contacted by R/T on 2182 kc/s.
Notice of arrival: Master must give at least 24 hours notice to Commander 9th Coast Guard District, Cleveland, Ohio, of the vessel's ETA at Snell Lock. Also at least 24 hours notice of ETA at first U.S. discharge port is required.
BERTHING:
Outer Harbour: West 3rd. St. Pier, 5 berths, 29 ft. depth. Dock 26, 2 berths, 680 ft. long, 27 ft. depth. Nicholson Cleveland Terminal, 574 ft. long 23 ft. depth. Lederer Terminal, 2 berths, 720 ft. long 27 ft. depth. Ore Dock, 1,800 ft. long, 27 ft. depth.
Cuyahoga River: Dock 20, 900 ft. long, 27 ft. depth. Riverfront Terminal, 1,227 ft. long, 23 ft. depth. Sycamore Dock, 425 ft. long, 23 ft. depth.
Old River: Dock 1, 450 ft. long, 23 ft. depth. Ore Dock, 2,000 ft. long, 23 ft. depth.
DENSITY: Fresh water.
MEDICAL: Doctors, hospital and all facilities available.
FRESH WATER: Available at most berths.
FUEL: All grades available, ex-wharf, or delivered by barge.
REPAIRS: All marine repairs can be effected. Dry dock 730 ft. length at Lorain, Ohio.
GENERAL: Refer to "St. Lawrence Seaway" for important general information.
AUTHORITY: Cleveland–Cuyahoga County Port Authority.
AGENT: Nordship Agencies Inc, 408 Williamson Bldg., Cleveland, Tel: 216–241–0476. Telex: 98–55–47. Cables: Nordship Cleveland. After Hours Tel: Mr. M. A. Allen, 216–221–1457. Mr. A. Jones 216–835–1433.

COOS BAY, Oregon: 43.22 N. 124.13 W.

DOCUMENTS: Local Port Authority does not require any documents from merchant vessels entering this harbour. This does not preclude United States Customs requirements for documents.
PILOTAGE: No specified amount of advanced notice of ETA required. Radio contact may be made on frequency 8182, also on frequency 2182. Pilot will be taken on board at entrance of Coos Bay channel. No designated anchorages for vessels awaiting a Pilot.
ANCHORAGES: Only anchorage in Coos Bay is South of buoy 23. Limiting draft 30 ft.
RESTRICTIONS: Only entry restriction is vessel's draft which is normally acceptable at 28½ ft. maximum flood tide, depths of 30 ft. to 33 ft. have been accommodated.
MAX. SIZE: Maximum permissable length is 650 ft. Breadth 100 ft. and draft normally 28½ ft. with above-mentioned exceptions. A 2 ft. clearance under keel is considered necessary for safe navigation. Vessels entering Coos Bay from sea draw down about ⅛″ per foot of draft because of difference of density.
HEALTH: International code of signals are used as prescribed in code book. Pilot vessel will advise any local public health requirement. Radio pratique available on request to Agent.
RADIO: Independent Stevedore Co. KOK 495, Radio frequency 156.9 MEG.
TUGS: Pilot vessel acts as Tug. Emergency small harbour tugs available and ship's lines generally used.
BRIDGES: Only one bridge, which remains open unless train approaching, which may be almost any time of day.
STEVEDORES: Should have minimum of 48 hours to arrange gangs. Also see "Radio".
MEDICAL: Advance notice of required medical attention is desirable, in order to expedite use of ambulance, if necessary.
TANKERS: No discharge facilities available. One tanker berth with 30 ft. draft. Union Oil Co. bunkering agent.
FRESH WATER: Available. Cost per ton is negotiable.
FUEL: Twenty-four hours advance notice desirable, both bunker and diesel fuel available.
DEVELOPMENTS: Depth of channel at entrance 40 ft. Inner channel, to head of channel 30 ft. It is expected entrance channel to be dredged to 45 ft., inner channel to depth of 35 ft. An additional anchorage will be installed, directly East of beacon 17.
GANGWAY/DECK WATCHMEN: Service of watchman at discretion of ship's master.
OPENING/CLOSING HATCHES: Normally by stevedores.
IDENTIFICATION CARDS: Not required by local authorities.
CONSULS: None.
REPAIRS: Only minor deck and engine repairs possible.
DRY DOCKS: Largest dry dock handles vessels not exceeding 125 ft.
REPATRIATION: All repatriation handled in Portland, Oregon.
AIRPORT: All docks within 5 miles of airport. Airport served by regular airlines.
TIME: GMT minus 8 hours, clocks advanced 1 hour on 1st May, clocks retarded 1 hour, 1st November.
HOLIDAYS: Only legal holidays observed. Cargo work through negotiations with longshore unions, with premium wages.
POLICE/AMBULANCE/FIRE: Police: Coos Bay 269–1181, North Bend 756–3161; Ambulance 756–3234; Fire Coos Bay 267–4123, North Bend 756–6111.
SHORE LEAVE: Crew members allowed ashore except when Federal directives may be applied to a specific vessel.
DELAYS: No delays in berthing, loading or discharging, or bunkering can normally be expected.
AUTHORITY: General Manager, Port of Coos Bay, PO Box 787, Coos Bay, Oregon 97420. Tel. 269–1131.

CORDOVA, Alaska: 60.33 N. 145.46 W.

Located at South-east side of Prince William Sound. Open all year.
APPROACHES: Via Prince William Sound to pilot station.
DOCUMENTS: See "Anchorage, Alaska".
PILOTAGE: Pick-up point is Sheep's Point.
MAX. SIZE: Recommend max. draft 25 ft. Tides: diurnal range 12·4 ft. Tide runs parallel to dock. Also see "Berthing".
ANCHORAGE: Good holding ground. Mud bottom between Spike Island and City dock.
CUSTOMS: Quarantine, local. Immigration and Customs from Anchorage, Alaska.
BERTHING: City Dock: 18 ft. deep, 400 ft. long, 72 ft. wide. Open storage – 300 ft. by 45 ft. One 140-ton mobile crane.
TUGS: Limited availability.

STEVEDORES: One gang.
REPAIRS: Minor repairs only.
WATER: Available.
FUEL: No bunker "C" available.
MEDICAL: 22-bed hospital and a medical clinic, 1 doctor, 1 dentist.
TRANSPORTATION: Ferry service to Whittier and Valdez, air.

CORPUS CHRISTI, Texas: 27.48 N. 97.23 W.

DOCUMENTS:
3 copies Cargo Manifest (Forms 7527–A or 7527–B), the original showing all cargo on board, and 2 copies showing only cargo for this port.
2 copies Crew Manifest (curio list).
2 copies Stores List.
2 copies Passenger List (Form I.–418).
2 copies Crew List (Form I.–418).
Customs boarding Officer will also examine Ship's Register and Load-line Certificate. In addition, the following documents will be required for formal entry to be made within 48 hours of arrival from abroad, or 24 hours from arrival from a United States port:
Health Pratique.
Master's Oath (Customs Form 3255).
All Foreign clearances.
U.S. Certificates of payment of tonnage tax (Customs Form 1002).
Certified Crew List.
PILOTAGE: Pilot boards off Port Aransas.
PORT LIMITS: Corpus Christi's port limits include all of Nueces County, which has been officially designated as Nueces County Navigation District No. 1. The Corpus Christi turning basin, Avery Point turning basin, Chemical turning basin, Tule Lake turning basin and the Viola turning basin are interconnected by the Industrial Canal, the Tule Lake Channel and the Viola Channel and constitute the Corpus Christi Main Harbour. Other Bay points included in the port of Corpus Christi area are: Harbour Island, the North end of Mustang Island, near the inner end of the Aransas Pass entrance, and Port Ingleside and La Quinta along the route of dredged deep-water channels on North side of Corpus Christi Bay.
RESTRICTIONS: The port of Corpus Christi is situated on the West side of Corpus Christi Bay, in South-western Texas. Port facilities at Corpus Christi lie along a 9½ miles stretch of dredged channels and basins about 18 miles from Aransas Pass entrance at the Gulf of Mexico, Channel depth 40 ft., width 400 ft.
Turning Basins: 3 turning basins in Main Harbour are each 1,000 ft. wide and more than 1,000 ft. in length.
MAX. SIZE: Cargo vessels: 39 ft. draft. Tankers: 39 ft. draft.
HEALTH: Radio pratique may be granted basis information received prior to arrival of vessel provided no communicable diseases on board. Normally, vessels are boarded by Medical Officers on arrival unless free pratique previously given at U.S. port in same voyage. If granted free pratique, vessel may enter port and discharge passengers and cargo. If given provisional pratique, vessel may enter port, but must take any additional measures specified in connection with discharging passengers and cargo, until free pratique is given.
TUGS: Tug assistance available.
BERTHING: The main basin is over a mile long and 1,000 ft. wide. There are four additional basins in main harbour, which extends Westward from Corpus Christi Harbour Bridge for 9½ miles. The water in all basins, channels and canals is 40 ft. deep, enabling port to handle largest merchant ships operating in Gulf trade. Depth alongside docks:

Southside Docks 1–8	32 ft.	Northside Docks 9, 10 & 11	36 ft.
Southside Docks 14 & 15	36 ft.	Bulk Materials Dock	38 ft.

Note: Staging area back of cargo docks 14–15 for storing containers, vehicles, etc.
TANKERS: Between Main Basin and Viola Basin are 12 public and 5 private Oil Docks, some capable of berthing tankers of 67,000 DWT capacity.
Oil Docks:

No. 1	depth alongside		36 ft.	No. 7	depth alongside		40 ft.
2	,,	,,	33 ft.	8	,,	,,	40 ft.
4	,,	,,	40 ft.	9	,,	,,	34 ft.
5	,,	,,	36 ft.	11	,,	,,	40 ft.

CARGO GEAR: *Heavy Lift facilities:* Derrick at Cargo Dock 14 has 100 tons capacity at 53 ft. radius, can handle containers, 40 ft. or larger. Locomotive cranes (5) 30 tons capacity.
Facilities are available for all types of liquid cargo, dry bulk and general cargo, except cannot handle restricted cargo such as ammunition and explosives.
IDENTIFICATION CARDS: Standard U.S. Immigration Forms I.–95 to be made up for each crew member on arrival. Not necessary for crew man already holding Form I.–95, issued for same vessel.
DEVELOPMENTS: Channel to be deepened to 45 ft.
CUSTOMS ALLOWANCES: At the discretion of customs officers. Normal allowance is 200 cigarettes or 2 lb. tobacco and one quart wine or spirits per man. Additional allowances may be given if considered necessary, due to length of vessel's stay in port.
GENERAL: Refer to Houston for all general information.
AUTHORITY: The Nueces County Navigation Commission, Port Director, PO Box 1541, Corpus Christi, Texas 78403.

DEER PARK, Texas: 29.44 N. 95.08 W. Refer to "Houston.

DESTREHAN, Louisiana: 29.56 N. 90.21 W.

East bank of Mississippi River about 135 miles from sea.
DOCUMENTS/PILOTAGE/HEALTH: For all general information refer to "New Orleans".
TUGS: At least one tug required for mooring/unmooring.
BERTHING: St. Charles Elevator, berth 800 ft. length, 45 ft. depth. Loading rate, 70,000 bushels per hour; two loading belts. Bunge Grain Elevator, berth 600 ft. length, 40 ft. depth. Loading rate, 50,000 bushels per hour; two loading belts.
FRESH WATER: Available ex-berth.
FUEL: Not available. Barge not permitted alongside at Bunge Elevator.
DENSITY: Fresh (1000).

DETROIT, Michigan: 42.19 N. 83.05 W.

Refer to "St Lawrence Seaway" for important general information.
PILOTAGE: Compulsory unless Master holds exemption "B" license. 24 hours notice of arrival required by Agents who arrange Pilot.
ANCHORAGE: In depths from 29–51 ft. in the Detroit River off the marine terminals and away from main channel.
RESTRICTIONS: St. Lawrence Seaway navigation season approximately from April 15th to November 15th. Controlling depth 27 ft. Minimum depth of 25 ft. in the Detroit River. The Amherstburg Channel has a depth of 27 ft. 6 in. for up bound traffic.
MAX. SIZE: Limited at Seaway Locks. 730 ft. length, 26 ft. draft.
HEALTH: All ocean-going vessels must obtain a free pratique before entering the Seaway. Vessels may obtain quarantine inspection and clearance from the Canadian Authorities at Montreal while awaiting entrance to the Seaway.
TUGS: Available, not compulsory but recommended.
BERTHING: Detroit Harbour Terminals: 2,120 ft. length, 25 ft. depth. Nicholson Terminal: 3,055 ft. length, 27 ft. depth. Detroit Marine Terminal: 3,000 ft. length, 25–26 ft. depth. Detroit Processing Terminal: 25 ft. 6 in. depth alongside. Federal Marine Terminal: 25 ft. 6 in. depth alongside. Grain Elevator: Unloading capacity 20,000 bushels per hour; loading capacity 10,000 bushels per hour.
DENSITY: Fresh water.
MEDICAL: Doctors, hospital and all facilities available.
FRESH WATER: Available at most berths.
FUEL: All grades available, ex-wharf, or delivered by barge.
REPAIRS: All marine repairs can be effected.
AUTHORITY: Detroit-Wayne County Port Commission.
AGENT: Nordship Agencies Inc., Room 400, Detroit Harbor Terminal Bldg., 4461 West Jefferson Ave., Detroit, Tel: 313–826–1461. Telex: 23–01–27. Cables: Nordship Detroit. After Hours Tel: Mr. D. E. Smith 313–284–7571. Mr. H. Fleisch 519–948–7436.

DULUTH-SUPERIOR, Minnesota: 46.49 N. 92.09 W.

Refer to "St. Lawrence Seaway" for important general information.
PILOTAGE: U.S. or Canadian Pilot compulsory except when Master or officer specially qualified to navigate waters concerned. Pilots obtained from Upper Great Lakes Pilots Inc., Clure Marine Terminal, Duluth. Duluth entry – Pilots picked up at point 2 miles due East of pierhead lights. Superior entry – pick up Pilot 2 miles North North-east of lighthouse. Advise Agents 24 hours in advance of ETA for scheduling Pilot, Customs, Immigration, and agricultural inspection. Masters should hold to the South of convergence of shipping lanes at the Duluth Entry and to North of this convergence at Superior Entry when approaching to embark a Pilot.
ANCHORAGES: Anchorage areas near Duluth and Superior entries are South and Eastward and North and Eastward respectively of main channel through harbour. Marked by anchorage buoys. Vessels must only anchor clear of channels at all times.
RESTRICTIONS: Because of varying conditions of wind and current, no restriction placed on speed passing through entry piers at either Duluth or Superior entry. Speed throughout harbour limited to 7 knots. Speed through bridges other than the Aerial Bridge at Duluth entry limited under normal conditions to 6 miles per hour. Because of current conditions at inner end of Duluth entry, both inbound and outbound vessels must leave vertical black/white striped mid-channel or traffic buoy on starboard hand. This gives outbound ships maximum straight run.
MAX. SIZE: Draft 26 ft. Duluth Harbour Entry: Duluth ship's canal, minimum width 300 ft. Superior Entry: Minimum width 500 ft. minimum depth at inner end of 27 ft.
RADIO: Prior to entering harbour vessels must make 'Security Call' on Channel 51 (2185 kc/s) from 10 to 20 minutes in advance advising intended movement. All vessels should monitor Channel 51 all times when under way to determine position and intent of other vessels moving in constricted areas within harbour and approaches.
TUGS: Available, not compulsory.
BRIDGES: Aerial bridge spanning Duluth entry vertical clearance of 138 ft. Signal for opening bridge shall be given by vessels approaching from lakes, in all circumstances, when not less than 1 mile from bridge. A flashing amber light on harbour side of Aerial bridge warns outbound vessel of approach of inbound vessel in lake.
BERTHING: *Clure Marine Terminal.*
Length of dock: 6,600 lineal ft., nine ship berths, five for unloading/loading, four for fitting, cleaning, standby, etc. Water depth: 30 ft. Two 90-ton Clyde gantry cranes for container handling. One 35-ton mobile crane.
Duluth Iron & Metal – length of berth 1,586 ft. – water depth 26 ft.

Great Lakes Storage & Contracting – length of berth 1,059 ft. – water depth 22 ft.
Hallet 3 – length of berth 2,080 ft. – water depth 23 ft.
Hallet 5 – length of berth 2,373 ft. – water depth 23 ft.
Hallet 6 – length of berth 2,060 ft. – water depth 23 ft.
Northern Pacific No. 2 – length of berth 2,415 ft. – water depth 22 ft.
Paper Calmenson–Duluth – length of berth 853 ft. – water depth 21 ft.
Paper Calmenson–Superior – length of berth 700 ft. – water depth 20 ft.

MEDICAL: All medical assistance available.
DENSITY: Fresh water.
FRESH WATER: Available at most docks in both ports.
FUEL: Available from dock or by barge.
FIRE PRECAUTIONS: No open fire permitted on deck of any vessel while in harbour. This restriction does not apply to a vessel at a shipyard which will be governed by this shipyard's local rules, nor to vessels in lay-up or fit-out status at ore docks.

Ocean vessels, upon docking, shall put on off-shore side of vessel, wire rope lines fore and aft as tow lines for use in pulling ship off dock face in case of fire. Such tow line shall be securely made fast to bitts with eye about 1 ft. above the water.

CERTIFICATES: Masters are required to present Safety Inspection Certificate of cargo handling equipment and gangways to stevedoring companies and other employers of harbour labour upon request.
IDENTIFICATION CARDS: Required by Immigration.
REPAIRS: All ship repairs can be effected.
DRY DOCKS: At Superior, one 831 ft. by 95 ft. and one 628 ft. by 76 ft.
SHORE LEAVE: Allowed.
AUTHORITY: Seaway Port Authority of Duluth, Superior Board of Harbour Commissioners.
AGENT: Nordship Agencies Inc., 600 Board of Trade Bldg., Duluth. Tel: 218–727–5011. Telex: 29–44–10. Twx. 910–561–2491. Cables: Nordship Duluth.

ERIE, Pennsylvania: 42.10 N. 80.05 W.

Refer to "St. Lawrence Seaway" for important general information.
PILOTAGE: Not compulsory. Seaway Pilots will assist if required.
RESTRICTIONS: Navigation season from mid-April to end-December approx. The port is connected to Lake Erie by an entrance channel, depth 27 ft. Vessels size restricted by Seaway locks.
MAX. SIZE: 730 ft. length; 26 ft. draft.
HEALTH: All ocean-going vessels must obtain a free pratique before entering Seaway. Vessels may obtain quarantine inspection and clearance from the Canadian Authorities at Montreal while awaiting entrance to the Seaway.
RADIO: Master must give at least 24 hours notice to Commander 9th Coast Guard District, Cleveland, Ohio, of the vessel's ETA at Snell Lock. Also, at least 24 hours notice of ETA at first U.S. discharge port is required.
TUGS: Available. Not compulsory, but sometimes necessary in bad weather.
BERTHING: Duquesne Marine Terminal: berth 600 ft. length, 27 ft. depth; berth 600 ft. length, 18ft. depth; berth 1,000 ft. length, 22 ft. depth; berth 1,500 ft. length, 28 ft. depth.

Ore and Coal Docks: berth 1,100 ft. length, 26–17 ft. depth.

Grain Elevator: berth 980 ft. length, 22 ft depth. Average capacity: 16,000 bushels per hour.

DENSITY: Fresh water.
MEDICAL: All facilities available.
FRESH WATER: Obtainable by pipe-line at all docks.
FUEL: All grades available by pipeline at all docks.
REPAIRS: Local shipbuilding company can handle most repairs. Dry dock available.
AUTHORITY: City of Erie, Port Commission.

EUREKA, California: 40.48 N. 124.10 W.

DOCUMENTS: In addition to the documents detailed below, Agent will present to Master normal Customs forms to be signed, such as Master's Oath, Permit to Lade, Inward & Outward Manifest, etc. These forms will be filled out by local Agent and Customs Broker and presented to local Customs house when entering and clearing vessel:

Foreign Flag Vessels: I. Entering from another U.S. port:
3 Crew Lists.
3 Passenger Lists (only if passengers on board).
3 Curio Lists.
3 Store Lists.
Permit to Proceed (issued at last U.S. port).
Travelling Manifest (only if there is foreign cargo on board).
Ship's Register.

II. Entering from a foreign port:
3 Crew Lists.
3 Passenger Lists (only if passengers are on board).
3 Curio Lists.
3 Store Lists.
Travelling Manifest.
Permit to Proceed.
Ship's Register.
Ship's tonnage tax Certificate.
Clearance from a foreign port.

PILOTAGE: Telegraphic address of pilot station "Humbar". 24 hours advance notice of ETA; in case of change in ETA give minimum 4 hour notice. Contact pilot boat on VHF 156.8 (Channel 16) or Radio Watch on 2182.

No pilot boat on station. Local Pilots use tug "Thor" length 65 ft. horsepower 800. Tug colours: black funnel, red and white superstructure and black hull. As no pilot boat on station, sound signals not required. Visual international flag and light signals observed. Pilot will board vessel within 1 mile radius North, South and West of sea-buoy. Sea-buoy located 1.4 miles from end of North jetty lined up with range lights bearing 105 degrees true.

Specific requirements: (*a*) Pilot ladder with spreaders in accordance with Solas regulations, and 9 ft. above water. (*b*) At night – brilliant light to illuminate ladder. (*c*) Recommended anchorage outside Humboldt Bay located 1 mile South of sea-buoy in 15 fathoms of water.

ANCHORAGES: Inside harbour, weather permitting. Light draft vessel (22 ft or less) South of Fairhaven Dock (Crown Simpson) and West of Standard Oil Dock. Deep draft vessels (22 ft. to 32 ft.) will anchor North of Union Oil Terminal and South of Samoa Channel entrance buoys.
RESTRICTIONS: Humboldt Bay is a 24-hour port; restrictions if any would depend upon manoeuvrability and horsepower of vessel during peak tide. Range of tide normally 8 ft. extreme cases 10 ft. At present vessels normally limited to a deep draft of 30 ft. at zero tide.
MAX. SIZE: Largest vessel to enter Humboldt Bay to date had LOA 657 ft. and beam 90 ft. Draft limitation 30 ft. at zero tide. Vessels of this size and draft normally enter and depart about 1½ hours before high water.
HEALTH: No specific health or quarantine requirements for vessels coming from another U.S. port; *unless vessel is under Public Health remand* (example: Derat Certificate expired). If this is the case, it would be necessary for Public Health Officer to board and inspect vessel. Same regulations apply in Eureka as in other major U.S. West Coast ports when pratique required. Radio pratique may be granted through the Quarantine officials in San Francisco. For details contact Agent.
RADIO: Send cables through one of following stations:

ITT World Communications, Inc.—San Francisco Marine Radio Station KFS.

RCA Global Communications—San Francisco Marine Radio Station KPH.

TUGS: Two 800 h.p. tugs available, one tug acts as pilot boat, other tug joins vessel when in harbour. Tug lines are normally used, occasionally a ship's line is used. No extra charge assessed for use of tug's line. Depending upon size of vessel and weather conditions, Pilots will use one or two tugs.
BERTHING: No specific requirements relating to berthing; normal procedures prevail. Vessel normally docks stemming the tide.

Presently available berths at Eureka as follows:
Crown-Simpson Pulp Co.
Eureka Forest Products
Georgia-Pacific Corporation
Humboldt Dock & Shipping Co.
Kramer Lumber Sales
Olson Terminal
Standard Oil of California
Union Oil of California

Harbour channels maintained to 30 ft. zero tide. Most of berths at above-mentioned docks also maintained at 30 ft. zero tide; however, some occasionally fill in and recommended check with Agent as to depth available at specific dock which vessel intends moor and load.
STEVEDORES: Groups ordered at 0630 in the morning for both day and night gangs. Therefore essential that local Agent or stevedore company receives accurate ETA by 0600 in the morning. Normally, vessel will advise arrival sea-buoy with a 24-hour ETA and correct ETA at a later time if necessary. The basic commodities exported from Eureka are woodpulp, logs and lumber.

Westfall Stevedore Co. Cable Address: Westfall, Eureka. Tel. (707) 443–5688.

MEDICAL: Not necessary for Agent to receive advance notice of required medical attention unless ambulance and doctor are required on arrival. Three hospitals in immediate area. Inoculation and vaccination certificates should be up-dated.
TANKERS: Two tanker berths available: Standard Oil of California – deepest draft 25 ft. at zero tide. Union Oil – deepest draft 30 ft. at zero tide. Normally only Company tankers use own facilities. Facilities privately owned and are not available for bunkering other vessels.
DENSITY: Pure salt water. No fresh water allowance on any tide.
FRESH WATER: Available all berths. Delivery by hose. Rate of delivery: 10 tons per hour.
FUEL: If bunkers required, Agent must go through major contractors, who in turn will inform their local supplier of requirements. Generally speaking bunkers are only supplied to vessels on an emergency basis in limited quantities. The bunkers usually diesel grade and delivered by truck on a prearranged schedule.
DEVELOPMENTS: Deepen North bay channel to 35 ft. and widen bends in channel at channel miles 0·74 and 2·6. Deepen Samoa channel and outer reach of the Eureka channel to 35 ft. Provide an anchorage area in North bay, at a suitable location between jettied entrance channel and Gunther Island, 35 ft. deep, 1,200 ft. wide and 1,200 ft. long.
GANGWAY/DECK WATCHMEN: Services of gangway guards available if required by ship.
OPENING/CLOSING HATCHES: Normally stevedores' work.

Vessel's crew may assist in opening and closing hatches, if hatches require special attention.
CERTIFICATES:
Ship's Register.
Load-line Certificate.
valid Derat Certificate.
Cargo Gear Certificate.
Tonnage Tax Certificate and all other usual certificates required.
CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes and one pound of tobacco. Wine and/or Spirit, one bottle (approx. one quart).
CARGO GEAR: Must be in good order and safe operating condition and all cargo gear certificates must be valid.
IDENTIFICATION CARDS: Alien seamen require Crewman Landing Pass (U.S. Form I-95).
CONSULS: None. Nearest consuls at San Francisco.
REPAIRS: Small welding jobs, and minor machine work only. Major repairs normally carried out in San Francisco.
DRY DOCKS: None.
REPATRIATION: Normally done in conjunction with San Francisco, Portland, Los Angeles or Seattle Agent.
AIRPORT: Airport located approximately 20 miles North of Eureka. Limousine service available. Major airlines. Air West and Golden Pacific Airlines. At present 8 flights per day to San Francisco and 2 flights per day to Portland.
TIME: Eureka local time is Pacific Standard Time and is GMT minus 8 hours. However, from the last Sunday in April to the last Sunday in October, Eureka is on Daylight Saving Time.
HOLIDAYS: No work performed on following holidays: New Year's Day (January 1); Independence Day (July 4); Bloody Thursday (July 5); Labor Day (first Monday in September); Thanksgiving Day (last Thursday in November); Christmas Day (December 25).
POLICE/AMBULANCE/FIRE: Eureka City Police 442–4545; Eureka City Ambulance 442–4551; Eureka Fire Department 443–5656; Humboldt County Sheriff Department 443–5671; Arcata Fire District 822–2424; Humboldt Fire District No. 1 442–1212.
TELEPHONES: No arrangements for placing telephones on board; however, there are pay phones nearby at each dock as well as phones in nearby offices.
SERVICES: Specific services such as tank cleaning, compass adjusting, tank washing, etc., are not normally performed in the port of Eureka and are usually performed in one of the close major ports such as San Francisco; however, there are facilities available for minor repair.
SHORE LEAVE: Crew members allowed ashore unless restricted for customs or immigration reasons.
DELAYS: Berthing delays seldom incurred primarily due to the fact that the prime Agents are always in contact with the local Agent at Eureka informing them of vessel's ETA and prime Agent is always advised with regard to all arrivals and possible berth conflicts at this port.
AUTHORITY: State of California, Board of Harbor Commissioners for Humboldt Bay, Foot of Washington Street, PO Box A, Eureka, California. Tel. (707) 443–5680. Teletype 510–742–6015.

EVERETT, Washington: 47.59 N. 122.13 W.

DOCUMENTS, PILOTAGE, HEALTH, etc.: Refer to "Tacoma".
PILOT: Boards off Port Angeles pilot station.
TUGS: Available, join vessel off berth.
ANCHORAGE: Unlimited deep water anchorage in Possession Sound.
BERTHING:
Pier 1. North berth, 45 ft. MLLW; South berth, 35 ft. MLLW.
Pier 3. North and South berths, 35 ft. MLLW; West berth, barge dock, 15 ft. MLLW.
Scott Paper Co. berth, 29 ft. MLLW.
Weyerhauser Berth, 32 ft. MLLW.
STEVEDORES: Eleven local gangs, additional gangs may be imported if required.
HOLIDAYS: See "Tacoma".
MEDICAL: Doctors and local hospital available.
DENSITY: Salt water.
FRESH WATER: Available at wharves.
FUEL: Available by barge.
GANGWAY/DECK WATCHMEN: Required only if detainees aboard.
CUSTOMS ALLOWANCES: No definite quantities prescribed;; reasonable allowance at discretion of Customs Inspector.
AIRPORT: Seattle–Tacoma International Airport is 45 miles South of city of Everett on excellent highway. Driving time is approx. 45 minutes.
POLICE/AMBULANCE/FIRE: Port of Everett Security: 259–3164; Everett City Police: 259–8711; Everett City Fire Dept.: 252–1111; Ambulance Service: 252–1234.
TELEPHONES: Will be placed on board vessel on request. Charges are made only for calls made. Arrangements should be made through ships Agent.
SHORE LEAVE: Crew members are able to visit Everett at all times.
AUTHORITY: Port of Everett, Pier 1, Everett, Washington. Tel. 259–3164.

FALL RIVER, Mass.: 71.10 W. 41.42 N.

DOCUMENTS: If first port of call in U.S., 2 complete Custom's Manifests describing all cargo on board and ports of discharge. Also 1 Cargo List for Fall River cargo; 3 crew's lists; 3 store lists; 3 curios list; the Ship's Register, Load-line Certificate and Tonnage Tax Certificate.
PILOTAGE: Vessel first contact ship's Agents for Pilot and tug arrangements. R.I. State Pilots Association radio call letters KDF-375 on frequency 156.9 kc/s., Channel 18. Usual Pilot pick-up is at Brenton Reef Light Tower off Newport, R.I.
RADIO: Chatham Radio or Amagansett Radio.
HEALTH: Free Health pratique only when vessel is arriving from another U.S. port. Master should radio to vessel's Agent prior to arrival at Fall River if it is first port, and pratique will be granted by Health office in Boston, based on information available at the time.
TUGS: Tugs for N.E. Power Station met at Buoy 6; all other berths north, meet tugs at Buoy 10. Tugs provide own lines at no extra charge. Coastline Towing Corp., Fall River, Mass. has 5 tugs available for 24-hour operation.
BERTHING: Vessels berth at State Pier. Depth alongside 35 ft.
BRIDGES: All bridges have 135-ft. clearance with exception of Brightman Street Bridge at approach to Montaup Electric Co. and Shell Oil docks. This bridge has a draw clearance of 97·5 ft. and passage allowed for vessels with less than 75 ft. beam. No unusual requirements. Practice is to depart on flood tide. (See "Developments".)
TANKERS: Berth at Shell Oil Docks, Depth alongside 32 ft.
FRESH WATER: Available at most berths. State Pier delivery is at 125-pounds pressure.
OPENING/CLOSING HATCHES: Usually performed by stevedores.
SHIP CERTIFICATES: All certification of vessel, safety conditions and radio facilities should be available for U.S. Coast Guard.
CARGO GEAR: No additional safety requirements.
TELEPHONES: Available at most berths. Contact Agents.
DEVELOPMENTS: Plans for construction of a new 300-ft. wide draw bridge to replace the existing Brightman Street Bridge. Completion not expected before 1975. This will mean unobstructed use of the entire port area. Channel deepening work under way with depths to 40-ft. MLW.
SHORE LEAVE: Permitted, but consult Agents.
IDENTIFICATION CARDS: Standard U.S. Immigration Forms I.95 to be made up for each crew member on arrival. Not necessary for crew man already holding Form I.95. issued for the same vessel.
TIME: Eastern Standard Time, GMT minus 5 hours. Daylight Saving Time, GMT minus 4 hours from April to October.
HOLIDAYS: New Year's Day (January 1); Washington's Birthday (February 22); Patriots' Day (April 19); Memorial Day (May 30); Independence Day (July 4); Labour Day (first Monday in September); Columbus Day (October 12); Veterans' Day (November 11); Thanksgiving Day (last Thursday in November); Christmas Day (December 25); or any day celebrated in lieu thereof.
AUTHORITY: Fall River Port Authority, State Pier, Fall River.

FERNDALE, Washington: 48.59 N. 122.43 W.

Mobil Oil Tanker Terminal
DOCUMENTS/HEALTH/ETC.: Refer to "Seattle".
PILOTAGE: Compulsory. Pilot boards at Port Angeles.
TUGS: Available up to 1,200 h.p. Additional tugs ordered from Seattle if required.
RESTRICTIONS: Vessels enter any hour day or night, 4 ft. keel clearance required. Deep water channel.
MAX. SIZE: 850 ft. length, 42 ft. maximum draft depending weather and tides.
BERTHING: Terminal used for crude and product discharging. Vessels berth alongside finger pier, lines to bollards. Inner berth 700 ft. long, depth alongside 35 ft. Outer berth 700 ft. long, depth alongside 42 ft. Slop discharge facilities available, capacity 40,000 barrels.

FREEPORT, Texas: 28.57 N. 95.21 W.

DOCUMENTS: Refer to "HOUSTON".
PILOTAGE: VHF Channels 6, 8, 12, 14, 16 – at sea buoy – Pilot Office (tel. 233–1120) – 304 West Park, Freeport, Texas; – Pilot boards ¼ mile North of sea buoy. Anchor one mile from end of sea buoy if awaiting Pilot.
ANCHORAGES: One to two miles from end of sea buoy.
RESTRICTIONS: Depth 36 ft. at bar.
MAX. SIZE: Length 650 ft., draft 35 ft. Tide governing these dimensions – plus or minus 3 ft.
HEALTH: Agent notifies Department of Health and U.S. Department of Agriculture.
RADIO: Galveston Marine Operator.
TUGS: Join vessel at shore line. Tug's lines to be used, and no charge for use.
BERTHING: One hour to reach berth. Deep water terminals consist of 1,250 linear ft. of deep water bulkhead wharf. Two very modern transit sheds each 400 ft. long, 150 ft. wide with no obstructions. A new and modern warehouse is now complete. The railroad tracks at the terminal transit sheds are under cover, permitting all-weather work and preventing cargo damage.
The Navigation District owns a total of 1,285.30 acres of land for future port and industrial development. 2,400 ft. of this land is situated on the Brazos River which has a controlling depth of 36 ft.

STEVEDORES: Obtained through Agent.
MEDICAL: Obtained through Agent and advance notice required. Doctors, hospital available.
DENSITY: 1020.
FRESH WATER: Available ex wharf at Brazos Harbor.
FUEL: All grades available.
GANGWAY/DECK WATCHMEN: Special watchman required for certain commodities.
OPENING/CLOSING HATCHES: Stevedore contract.
CUSTOMS ALLOWANCE: See "Port Arthur".
IDENTIFICATION CARDS: None needed.
CONSULS: None. Nearest at Port Arthur or Houston.
REPAIRS: Available.
DRY DOCKS: None.
REPATRIATION: All changes made through Houston, Texas.
AIRPORT: Hobby International Airport at Houston, Texas – 60 miles to Brazos Harbor.
TIME: GMT minus 6 hours. Daylight saving time starts last Sunday in April and ends the last Sunday in October – GMT minus 5 hours.
HOLIDAYS: New Year's Day (January 1); Washington's Birthday (February 22); Texas Independence Day (March 2); Memorial Day (Decoration Day) (May 30); Independence Day (July 4); Labour Day (First Monday in September); Veterans' Day (November 11); Thanksgiving Day (Fourth Thursday in November); Christmas Day (December 25).

If any of the above holidays fall on Sunday the following Monday will be observed as a holiday.
POLICE/AMBULANCE/FIRE: Police 233–5434; Fire 233–6161; Ambulance Service 233–4700.
TELEPHONES: Arrangements exist for placing telephones on board through Southwestern Bell Telephone Co.
SERVICES: Tank-cleaning facilities available locally. Compass adjusting available from Houston, Texas.
SHORE LEAVE: Crew members allowed ashore.
AUTHORITY: Brazos River Harbor Navigation District, Brazoria County, Brazosport, Texas.

GALENA PARK, Texas: 29.44 N. 95.14 W. Refer to "Houston".

GALVESTON, Texas: 29.17 N. 94.50 W.

DOCUMENTS:
1 visaed Crew List.
3 Passenger Lists.
3 or more copies of complete Manifests of Cargo for discharge at all United States ports.
2 or more copies of Manifest of Cargo for each United States port.
1 Souvenir List.
1 Stores List.
Ship's Register.
Tonnage Tax.
Load Line Certificate.
Nationality Certificate.
No health document required.

PILOTAGE: Radio to local agent who arranges Pilot and specifies boarding time. United States Coast Guard require 24 hours notice of arrival at Galveston Bar. Contact pilot boats and pilot station on VHF Channel 12. Pilot boats marked HP No. 1, 53 ft. long; HP No. 2, 61 ft. long; HP No. 3, 106 ft. long. Pilot boats can be signalled by light in international code. Pilot taken on board at sea buoy No. 1 located 6·7 miles from Galveston.
ANCHORAGE: In Bolivar Roads, 6·7 miles inwards from sea buoy No. 1. Depths 32–34 ft.
RESTRICTIONS: Prolonged North winds can reduce water level as much as 4 ft. in winter. Channel depth 38 ft.
MAX. SIZE: No length restrictions. Draft according to berth depth.
HEALTH: Vessel is boarded by quarantine officers when alongside in dock. Radio pratique available on request to Agent.
RADIO: International Telephone and Telegraph station Galveston, call sign KLC.
TUGS: Available if required.
BERTHING:

Grain elevators	Continental Grain Co.	depth alongside		34 ft.
	Port Richmond El. Co.	,,	,,	35 ft.

AUTHORITY: Galveston Wharves (The Port of Galveston), P.O.B. 328 Galveston, Texas 77550.

GEISMAR, Louisiana: 30.13 N. 91.01 W.

East bank of Mississippi River, about 187 miles from sea.
DOCUMENTS/PILOTAGE/HEALTH: For all general information, refer to "New Orleans".
TUGS: Available if required; normally not used.
BERTHING: Wyandotte Chemical Co: berth 620 ft. long, 32 ft. depth.
FRESH WATER: Available ex-wharf.
FUEL: Not available.
DENSITY: Fresh water (1000).

GOOD HOPE, Louisiana: 29.59 N. 90.24 W.

East bank of Mississippi River, about 140 miles from sea.
DOCUMENTS/HEALTH: For all general information, refer to "New Orleans".
ANCHORAGE: South of berth in river for unlimited number of ships.
TUGS: One tug used for mooring/unmooring.
BERTHING: General American tank storage terminal; tanker berth, 40 ft. depth alongside. Two 8-in. hoses. Loading 17,000 bbls. per hour. No ballast facilities.

Norco: Shell Oil Co. two tanker berths 45 ft. alongside. Two 8-in. hoses, loading 10,000 bbls. per hour. Ballast line 12-in., max. capacity 20,000 barrels.
FRESH WATER: Available ex-wharf.
FUEL: Bunker "C" available ex-wharf.
DENSITY: Fresh water, 1000.

GRAMERCY, Louisiana: 30.03 N. 90.41 W.

East bank of Mississippi, about 144 miles from sea.
DOCUMENTS/HEALTH/PILOTAGE: For all general information, refer to "New Orleans."
TUGS: Available if required; normally not used.
BERTHING: Colonial Sugar Refinery: berth 600 ft. long, 40 ft. depth. Kaiser Aluminium and Chemical Corp: berth, 40 ft. depth.
FRESH WATER: Available ex-wharf.
FUEL: Not available.
DENSITY: Fresh water, 1000.

GRAYS HARBOR, Washington: 46.55 N. 124.08 W.

DOCUMENTS, HEALTH, etc.: Refer to "Tacoma".
PILOTAGE: A vessel approaching requested to give 24 hours advance notice of arrival to Grays and Willapa Pilots through Everett Radio, KLB which runs on a calling frequency of 500 kc/s. and VHF channels 6, 8, 12 and 16. Pilot boat, "Mercury", 65 ft. long, with an 18 ft. beam, powered by a 330 h.p. GM diesel engine. "Mercury" moored at Westport Fishing Basin, and delivers Pilots to vessels outside Grays Harbor bar.
ARRIVED VESSEL: Vessels must be inside Grays Harbor bar to be considered an "arrived vessel".
ANCHORAGE: No specific areas in Grays Harbor have been designated as anchorage grounds. The best area is southward of Sand Island Shoal in depths of 35 to 40 ft.; the holding ground is good.
RESTRICTIONS: Bar Channel and Approach Channel, depth 30 ft. MLLW. Mean tidal range, about 10 ft.
BERTHING: Seven wharves in port dock. Depths alongside from 20–35 ft.
BULK CARGO FACILITIES: One berth in port dock for petroleum discharge and/or bunkering. No other bulk cargo berths. No liquid chemical or LPG berths. No roll-on/roll-off berths. One berth with container capability.
STEVEDORES: Twelve local gangs. Additional gangs imported if required.
HOLIDAYS: See "Tacoma".
MEDICAL: All medical facilities available. Local hospital.
DENSITY: Salt water.
FRESH WATER: Available at all wharves.
FUEL: Available.
GANGWAY/DECK WATCHMEN: Required only if detainees aboard.

CUSTOMS ALLOWANCES: No definite quantities prescribed; reasonable allowance at discretion of Customs Inspector.
AUTHORITY: Port of Grays Harbor, PO Box 660, Aberdeen, Washington 98520. Tel. Area Code 206 533–3620.

GREEN BAY, Wisconsin 44.32 N. 88.02 W.

For important general information refer to St. Lawrence Seaway.
DOCUMENTS: No special port documents required. All U.S. customs, immigration and St. Lawrence Seaway documentation should be accomplished prior arrival.
PILOTAGE: Pilot not compulsory although some masters prefer Pilot aboard.
CHANNEL: From Grassy Island, at mouth of Fox River, to just upriver of the C. & N. W. railroad bridge, channel is maintained at 24 ft. below low water datum (576.8 ft. above Father Point, Quebec) and 300 ft. width. Upriver to DePere, channel maintained at 18 ft., and 150 ft. width. From Grassy Island lakeward, deepening to 26 ft. This portion of channel will vary from 300 to 500 ft. width for approximately 8 miles. Turning basins maintained at 24 ft. depth opposite Fort Howard Paper Company and at confluence of Fox and East Rivers. Currents will flow up and down river and will influence water depth at times.
MAX. SIZE: Subject water depths and width of bridge openings.
HEALTH: No particular port regulations. St. Lawrence Seaway and U.S. Immigration procedures.
RADIO: Ships' Agents located at Milwaukee and Chicago, ETA should be directed accordingly.
TUGS: Join vessel lakeward of Grassy Island or at any designated point. Charges should be obtained from tug operators.
BERTHING: No particular arrival times necessary. Docks for general cargo operated by Leicht Transfer and Storage Co. who assign berths.

Port has capacity for the movement of bulk commodities such as coal, ore, fertiliser, chemicals, etc. that may be stored or handled in the open.

There is available a 100-ton stiff-leg derrick that has sufficient reach to move cargo to and from ship's deck and hold.
BRIDGES: No bridge opening restrictions for railroad bridges. City bridges permit vessels of 300 tons or over to transit at any time. However, heavy land traffic occurs about 7.30–8.30 a.m., 11.45 a.m.–1.15 p.m. and 4.30–5.30 p.m., and co-operation of Masters is urged during these times so that city bridges may remain closed.
STEVEDORES: Services performed by Leicht Transfer and Storage Co. and arrangements should be handled by ship's Agent or directly with Leicht's.
MEDICAL: Subject to regulations of U.S. Customs and Immigration and St. Lawrence Seaway authorities. Three excellent hospitals.
CURRENTS: Atmospheric conditions cause currents to flow upriver as well as downriver.
FRESH WATER: Available in any quantity.
FUEL: Coal and oil available in any quantity.
DEVELOPMENTS: No definite plans at this time.
GANGWAY/DECK WATCHMEN: May be engaged at Master's option. Ship's Agent can make arrangements with Sheriff's department.
OPENING/CLOSING HATCHES: Can be performed by ship's crew or stevedores (per contract).
IDENTIFICATION CARDS: Not required.
CONSULS: No consuls. Nearest are at Milwaukee, Chicago, Minneapolis.
REPAIRS: Topside and engine repairs available. Complete repair service available at Sturgeon Bay, 45 miles North.
DRY DOCKS: No local facilities. Available at Sturgeon Bay, Wisconsin.
REPATRIATION: Available subject Immigration laws.
AIRPORT: 8 miles from port. Served by regular airlines with over 30 flights daily.
TIME: Central standard time. Central daylight saving time in effect from the last Sunday in April to the last Sunday in October each year.
AUTHORITY: Brown County Board of Harbor Commissioners, Office of the Port Director, Brown County Courthouse Annexe, Green Bay, Wisconsin 54301.

GULFPORT, Mississippi: 30.21 N. 89.05 W.

DOCUMENTS: See "New Orleans".
PILOTAGE: Compulsory from outer sea buoy to docks, provided by Gulfport Pilots Association, arranged through Agent. Pilot boards at Sea buoy

Pilot boat has red hull, white superstructure with "PILOT" in black lettering. When pilot boat is underway, contact can be made by VHF Channel 16.
RESTRICTIONS: The Gulfport Channel is 12 miles long running between Ship Island and Cat Island. Channel is 225 ft. wide and has a minimum depth throughout of 30 ft. at MLW. Harbour is dredged rectangular basin about a quarter of a mile wide and half a mile long, this area being protected by piers. Depth in harbour and along wharves is 30 ft. with a 2½ ft. tide variation. No entry restrictions as to time.
MAXIMUM SIZE: Length of vessel is restricted to approximately 900 ft. by turning basin, no breadth restrictions.
RADIO: Gulfport Radio KKM 650 – VHF Channel 16 (26 safety only). Continuous service.
CARGO HANDLING: Four gantry banana terminal capable of unloading 16,000 boxes per hour. 35,000 sq. ft. transit shed refrigerated facility.
TUGS: Two tugs available but not required unless requested to assist in berthing.
STEVEDORES: Must have 12 hours' notice to arrange stevedore gangs. Normal work day 0800–1200, and then 1300–1700. Monday through Friday.
MEDICAL: No advance notice required for medical attention, doctor and hospital care readily available.
FRESH WATER: Fresh water is available.
FUEL: Only on advance notice.
DENSITY: Brackish.
WATCHMAN: Port guards or Dubuisson Detective Agency.
CONSULS: Many countries have consuls within a 100 mile radius of Gulfport.
REPAIRS: Most deck and engine repairs could be arranged within port facilities.
AIRPORT: Gulfport Municipal Airport is approximately 4 miles from the port and served by regularly scheduled airlines.
REPATRIATION: Can be arranged.
TIME: The Port of Gulfport is on Central Standard Time, GMT minus 6 hours; clocks are moved ahead 1 hour during summer months.
HOLIDAYS: United States national holidays are observed, cargo work can be arranged on these days at a penalty time.
POLICE/FIRE/AMBULANCE: Telephone numbers for emergency services are; Fire 863-1212; Police 863–4211; Ambulance 863–1441.
TELEPHONE: Can be placed aboard only by special arrangement not normally available.
AUTHORITY: Mississippi State Port Authority at Gulfport, POB 40, Gulfport, Mississippi 39501.

HAINES, Alaska

(Lutak Inlet) Located 5 miles North-west of Haines. Open all year.
APPROACHES: Lynn Canal to Lutak Inlet.
DOCUMENTS: See "Anchorage, Alaska".
PILOTAGE: Pilot pick-up point located in vicinity of Point Retreat.
MAX. SIZE: Harbour depth 36 ft. from 0 tide. Tides: diurnal range 16 ft. Also see "Berthing".
ANCHORAGE: Lutak Inlet.
CUSTOMS: Quarantine, immigration and Customs, local.
BERTHING: 1. U.S. Government Dock: can be secured by request through proper channels of the U.S. Army and South-east Stevedore Company Use permit. Berthing length – 1,000 ft. and a clear surface of over 300 ft. in depth. Depth at face of dock – 36 ft. MLLW. No covered sheds. Large open staging area. Adjacent to Alaska State Ferry Terminal with facilities for roll-on, roll-off cargo for barges or ferries (by special arrangement). One berth only as remainder of dock is required for Alaska state ferries.

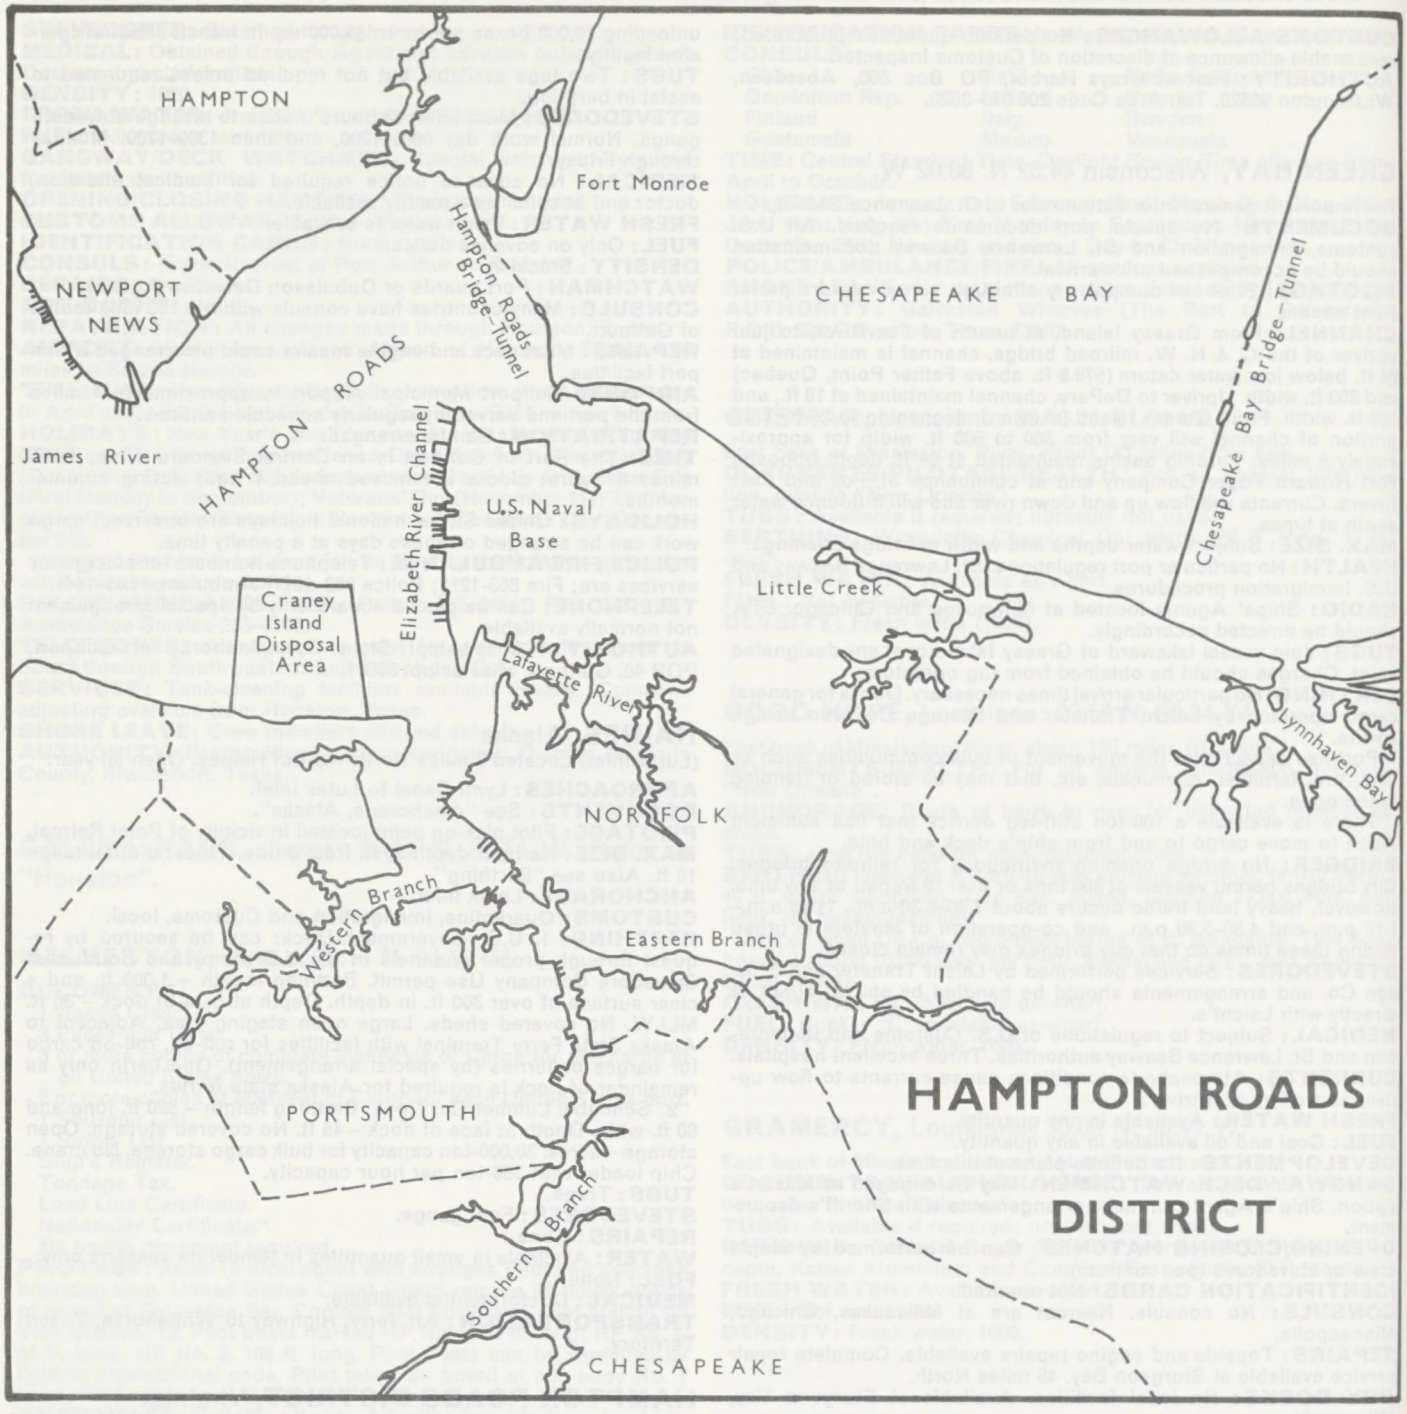
2. Schnabel Lumber Co. Dock: Berthing length – 520 ft. long and 80 ft. wide. Depth at face of dock – 45 ft. No covered storage. Open storage – acres. 30,000-ton capacity for bulk cargo storage. No crane. Chip loader with 350-ton per hour capacity.
TUGS: Three.
STEVEDORES: Four gangs.
REPAIRS: None.
WATER: Available in small quantities in temperate seasons only.
FUEL: None.
MEDICAL: Doctor/dentist available.
TRANSPORTATION: Air, ferry. Highway to Whitehorse, Yukon Territory.

HAMPTON ROADS DISTRICT, Virginia:
NORFOLK, 36.51 N. 76.19 W.
NEWPORT NEWS, 36.59 N. 76.26 W.
PORTSMOUTH, 36.50 N. 76.17 W.

DOCUMENTS:
3 copies Cargo Manifest (Forms 7527–A or 7527–B), the original showing all cargo on board, and 2 copies showing only cargo for this port.
2 copies Crew Manifest (curio list).
2 copies Stores List.
2 copies Passenger List (Form I–418).
2 copies Crew List.

Customs boarding officer will also examine ship's register and load line Certificate. In addition, the following documents will be required for formal entry to be made within 48 hours of arrival from abroad, or 24 hours of arrival from a United States port:
Health Pratique.
Master's Oath (Customs Form 3255).
All foreign clearances.
U.S. Certificates of payment of Tonnage Tax (Customs Form 1002).
Certified Crew List.

PILOTAGE: Compulsory; is generally arranged through port Agent. Vessels approaching port may use VHF telephone, Channel No. 16, radio telephone 2738 k/cs. Advance notice of 24 hours is required of ETA. Pilot boat is 165 ft. long, black steel hull, with "VA Pilot" painted on hull, white superstructure, and buff funnel. Long and short light or sound signals are used by vessels requiring a Pilot. Location of pilot boat is 1 mile north of Cape Henry Lighthouse. Pilot boat will issue instructions in event of bad weather or when pilot boat is off station and information on anchorage for vessel awaiting a Pilot.



Based on map supplied by Hampton Roads Maritime Association.

ANCHORAGE: In Hampton Roads, depth 45 ft.

RESTRICTIONS: Channels to Norfolk and Newport News – 45 ft. depth. Elizabeth River Channel – 40 ft. depth to Norfolk and Western Railway Bridge, then 35 ft. to Chesapeake.

HEALTH: Radio pratique may be granted basis information received prior to arrival of vessel, provided no communicable diseases on board. Normally, vessels are boarded by medical officers on arrival unless free pratique previously given at U.S. port in same voyage. If granted free pratique, vessel may enter port and discharge passengers and cargo. If given provisional pratique, vessel may enter port, but must take any additional measures specified in connection with discharging passengers and cargo, until free pratique is given.

RADIO: Radio-telephone communications in the Hampton Roads area are furnished by the Chesapeake and Potomac Telephone Company of Virginia. A regular ship-to-shore channel transmits to ship on 2538 kHz and the ship returns the call on 2142 kHz. A "daytime" ship-to-shore channel transmits to ship on 2450 kHz and the ship returns the call on 2366 kHz. In the very high frequency band, "XY" ship-to-shore is available which transmits to the ship on 161·9 mHz and the ship returns the call on 157·3 mHz.

BERTHING:

Norfolk: Elizabeth River Terminal, berth 1,000 ft. long, 35 ft. depth; Imperial Tobacco Piers, Nos. 2 and 3, 27 ft. depth; Lamberts Point Piers, 12 general cargo berths, 32 ft. depth; Norfolk International Terminals, 8 general cargo berths, 2 container berths, 35 ft. depth; Southgate Warehouse Terminal, 3 general cargo berths, 18–25ft depth; N.B. & C. Line Piers, 4 general cargo berths, 20 ft. depth. Coal: Pier No. 5, 1 berth 1,000 ft. long, 36 ft. depth; Pier No. 6, 2 berths 1,800 ft. long, 45 ft. depth. Grain: Cargill Grain Elevator, 1 berth 35 ft. depth, loading rate 30,000 bushels per hour. Continental Grain Elevator, 1 berth 35 ft. depth, loading rate 45,000 bushels per hour.

Sewells Point: Humble Oil Terminal, 2 tanker berths, 38 ft. depth.

Newport News: Chesapeake and Ohio Piers, 9 general cargo berths up to 35 ft. depth. Coal: Pier No. 14, 2 berths, 1,090 ft. long, 38 ft. and 41 ft. depth; Pier No. 15, 2 berths, 1,000 ft. long and 38 ft. depth. Ore: Pier No. 9, 2 berths, 707 ft. long, 35 ft. and 42 ft. depth. Tankers: Humble Oil Terminal, 3 tanker berths, 27 ft. and 35 ft. depth.

Portsmouth: Marine Terminal, container and general cargo berths, 35 ft. depth. Lumber: One berth, 400 ft. long, 32 ft. depth. Tankers: Sinclair Ref. Co., two tanker berths, 30 ft. depth.

Elizabeth River, *Lower Norfolk:* Tankers: American Oil Company, one berth, 31 ft. depth; Crown Central, one berth, 31 ft. depth; Gulf Oil two berths, 32 ft. depth; Mobil Oil, one berth, 36 ft. depth; Philips Petroleum one berth, 32 ft. depth; Union Oil Company, one berth, 36 ft. depth; Shell Oil Company, one berth, 38 ft. depth; Tenneco/Cities Service, one berth, 32 ft. depth; Texaco Inc. one berth, 35 ft. depth.

TUGS: Compulsory, normally join the vessel in Elizabeth River.

BRIDGES: Sufficient clearance at all times.

STEVEDORES: Labour arranged through International Longshoremen's Association.

1. Straight Time – work between the hours of 8.00 a.m. and noon and between the hours of 1.00 p.m. and 5.00 p.m. daily except Saturdays, Sundays and holidays.

2. Double Time – hours daily between 6.00 a.m. to 7.00 a.m. and noon to 1.00 p.m., 6.00 p.m. to 7.00 p.m., midnight to 1.00 a.m. and all Sundays.

3. Time and one-half – shall be all those hours not included above, except holidays.

DENSITY: Average 40% fresh.

FRESH WATER: Available at all berths. Barge service available if required.

FUEL: All grades available at oil company berths. Delivery by barge to all other locations.

GANGWAY/DECK WATCHMEN: Not required unless crew members detained by Immigration.

SHIP CERTIFICATES: Cargo Gear Certificate, Derat, Radio, Safety Equipment, and Ship's Register.

CUSTOMS ALLOWANCES: At the discretion of Customs Officers. Normal allowance is 200 cigarettes or 2 lb. tobacco and 1qt. wine/spirits per man. Additional allowances may be given if considered necessary, due to length of vessel's stay in port.

IDENTIFICATION CARDS: Identification required by Immigration for shore passes.

CONSULS: The following countries are represented at Norfolk:

Belgium	Germany	Mexico
Brazil	Great Britain	Netherlands
Denmark	Iceland	Norway
Finland	Italy	Sweden
France		

REPAIRS: Newport News Ship Building and Dry Dock Company in James River; eight outfitting piers up to 1,050 ft. length. Floating cranes up to 67 tons capacity.

Norfolk Ship Building and Dry Dock Corporation, situated on East Branch of Elizabeth River. Channel depth 25 ft.; seven piers equipped for ship's repairs. Floating crane 25 tons capacity. Other repair companies in addition.

DRY DOCKS: Norfolk: one dry dock 450 ft. long, 57 ft. beam; floating dock 360 ft. long, 64 ft. beam.

Newport News: Dry docks:

	Length inside gate	*Width of entrance*	*Depth of water over sill MHW*
No. 1	649 ft.	92 ft.	33 ft.
No. 2	862 ft.	118 ft.	32 ft. 3 in.
No. 3	536 ft.	78 ft.	24 ft.

Slipways: The shipyard has 3 inclining slipways with lengths up to 715 ft. and capacities up to 15,000 tons.

AIRPORT: Norfolk Airport, and Patrick Henry Airport at Newport News, over 100 flights daily.

TIME: Eastern standard time, GMT minus 5 hours. Daylight saving time, GMT minus 4 hours, from April to October.

HOLIDAYS: New Year's Day; Lee's Birthday (January 19th); Washington's Birthday (February 22nd); Good Friday; Memorial Day (May 30th); Jefferson Davis Day (June 3rd); Independence Day (July 4th); Labour Day; Election Day (1st Tuesday after 1st Monday in November); Armistice Day (November 11th); Thanksgiving Day; Christmas Day. No work can be arranged on New Year's Day, Labour Day or Christmas Day.

TELEPHONES: On board telephones only available at shipyards.

AUTHORITY: Virginia Port Authority, Maritime Tower, Norfolk, Virginia 23510. Tel. 622–1671.

HILO: Hawaii 19.46 N. 155.06 W. (including Kawaihae 20.02 N. 155.50 W.):

DOCUMENTS:
4 Crew Lists.
4 Passenger Lists.
Customs Documents.
Clearance, Travelling Manifest.
Local Manifests.
Health Documents.
Bill of Health and Vaccination Certificates.
4 Manifests.
4 Bills of Lading.
Ship's Papers.
Certificate of Registration or Enrolment.
Annual Inspection Certificate.
Load-line Certificate.
De-Rat Certificate.
Drinking Water Certificate.
Radio Certificate and Licence.
4 Store Lists.

PILOTAGE: Pilot boats have VHF and Radio telephone Channels 2182, 2638, 2738. Pilot service is provided on a 24-hour basis upon suitable advance notice.

At Hilo, Pilot boards on starboard side in position ¾ mile due East of Paukaa light. In picking up Pilot, vessels should be on Southerly course with enough speed for steerageway. Special instructions will be given by radio telephone.

At Kawaihae pilot station in position 1 mile 287° true from No. 2 buoy. Pilot usually boards on port side with vessel on course for the entrance at dead slow speed.

ANCHORAGES: No safe anchorages either Hilo or Kawaihae for vessels awaiting Pilot. In this situation, a vessel should heave to or steam. Under good weather conditions, safe anchorage can be had in Hilo Bay. Anchorage is inside pilotage waters and requires local knowledge for safety; vessels should not anchor without Pilot.

RESTRICTIONS: At Hilo, under good weather conditions, vessels up to 600 ft. with draft up to 32 ft. 6 in. can be handled at any time. Vessels over 600 ft. length are restricted to daylight hours entering and leaving.

At Kawaihae, vessels of T-2 size are restricted to daylight for entering. No restrictions for leaving. Max. allowable draft 33 ft.

HEALTH: Usual quarantine regulations, doctor and Customs and Immigration and Agriculture and meat inspectors board at dock for vessels arriving from foreign ports. Serious or contagious diseases should be reported by radio. No quarantine for vessels from United States or Canadian ports.

RADIO: Communicate through RCA or ITT stations in Honolulu.

TUGS: Tugs join vessels at entrance at Kawaihae and at Coconut Island at Hilo. Tugs lines are usually used at no extra charge.

BERTHING: There are many factors which affect berthing at Hawaii Island ports, the most important of which are surge and wind. Vessels should be well equipped with long mooring lines and sufficient additional line to make up two 900 ft. buoy lines. In all instances, berthing instructions will be given after details concerning vessel and her cargo are received.

MEDICAL: All facilities available.

DENSITY: Variable in Hawaii area due to fresh water run-off.

FRESH WATER: Available from county of Hawaii by pipe-line.

FUEL: Can be supplied subject advance notice.

GANGWAY/DECK WATCHMEN: Required for tankers. Other ships as may be necessary due to special circumstances.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CUSTOMS ALLOWANCES: 200 cigarettes, 50 cigars per man, and one bottle U.S. quart, wine or spirits.

IDENTIFICATION CARDS: Seamen's passports only required.

REPAIRS: Limited repair service available; almost any type of machine work, welding and ordinary electrical repairs can be handled.

REPATRIATION: Direct air service to Continental United States and to Honolulu International Airport.

AIRPORT: About 1 mile from Port of Hilo and is served by regular airlines.

POLICE/AMBULANCE/FIRE: *Hilo:* Police 9353311; Ambulance 9354841; Fire 9351300.

Kawaihae: Police 8857334; Ambulance 7757211 or 889699 or 8896211; Fire 9351300.

TIME: GMT minus 10 hours all year round.

TELEPHONES: Special arrangements may be made with Hawaiian Telephone Co.

SHORE LEAVE: Allowed.

AUTHORITY: State of Hawaii, Department of Transportation, Harbours Division, PO Box 1555, Hilo, Hawaii 96720. Tel. 935–4877.

HOMER, Alaska: 59.36 N. 151.25 W.

APPROACHES: Via Cook Inlet. Port located at mouth of Kachemak Bay on Kenai Peninsula.

DOCUMENTS: See "Anchorage – Alaska".

PILOTAGE: Homer Pilots Association, Radio KTE 21, tel. 235–8526. Pilot boards one mile South of Homer Spit Light on Coal Point.

MAX. SIZE: Harbour depth 40 ft. MLLW. Tidal range 18 ft. Max. draft for bething 24 ft.

HEALTH: Quarantine, Immigration and Customs Officers come from port of Anchorage.

ANCHORAGE: Kachemak Bay is excellent anchorage for vessels of any size. Foreign vessels may enter bay to anchor, but must have a Pilot aboard to come to dock.

BERTH: 410 ft. face sloping bottom suitable for vessels with 20 ft. draft or less at chine. Inside and outside storage is available for holding and staging. Water, gasoline and diesel are available on dock

RADIO: Homer Port Radio – WJU 71 on 5195 Khz and WKD 32 on 2182 Khz.

BERTHING: Homer City Dock, 480 ft. long and 50 ft. wide. Limited to draft of 24 ft. Three-ton mobile crane.

TUGS: One tug available.

FRESH WATER: Available from the berth.

FUEL: Available for small craft only.

REPAIRS: No facilities for repairs.

MEDICAL: Homer Hospital is a nine-bed hospital with 2 full-time doctors.

EMERGENCIES: Police department and a volunteer fire department are available plus a rescue truck.

AIRPORT: Daily air service.

AUTHORITY: City of Homer, Box 335, Homer, Alaska 99603, tel. 235–8597/8767/8756, manager tel. 235–8767, Harbour Master tel. 235–8959.

HONOLULU: Hawaii (including Barbers Point and Pearl Harbour): 21.19 N. 157.52 W.

PILOTAGE: Pilot requested by Agent. Pilot station telegraphic address on VHF (only) Channel 16, call KFQ 907. Pilot boat, 36 ft. cabin cruiser, white house, black hull. Only "G" flag necessary for vessel requiring Pilot. Pilot station, latitude 21° 16′ 12″ N., longitude 157° 53′ 24″ W., no alternative.

4 Crew Lists.
4 Passenger Lists.
Customs Documents.
Clearance, Travelling Manifest.

Local Manifests.
Health Documents.
Bill of Health and Vaccination Certificates.
4 Manifests.
4 Bills of Lading.
Ship's Papers.
Certificate of Registry.
Annual Inspection Certificate.
Load-line Certificate.
De-Rat Certificate.
Radio Certificate and Licence.
4 Stores Lists.

Vessels scheduled to call at Pearl Harbour are required to furnish six copies of crew lists and passenger lists, if applicable, at least one working day prior to arrival, for Naval security requirement.

The United States Immigration Service require that the Master of vessels manned by alien crew members arriving from a foreign port present the United States Immigration and Naturalization Service's Officer with a current crew list (Form I. 418) properly visaed in their possession. An I. 94 should be prepared for each passenger prior to vessel's arrival.

U.S. Immigration Department representatives are not stationed at any Hawaiian outports. Customs officials, however, are stationed at all entry ports and accomplish both Customs examination and Immigration.

The United States Agriculture Service examines and seals ship's stores from restricted ports. Special arrangements for garbage disposal may also be required by this agency, if for example meat aboard has been purchased in a port where there is a high incidence of "hoof and mouth" disease. All garbage should be disposed of prior to arrival in port.

All regulatory bodies assess overtime charges for services of their personnel if rendered on Saturdays, Sundays, holidays or after hours on week-days.

RESTRICTIONS: Entry at any time subject to harbour control signals. 24 hours notice of arrival is obligatory.

MAX. SIZE: Controlling depth 33 ft. MLLW. Length depends on availability of berths.

HEALTH: Pratique given at berth in accordance with U.S. Public Health Regulations. If suspected of disease, U.S. Department of Health will board vessel at pilot station. Pratique is not automatic except for vessels coming from Canada or U.S. East Coast ports and not having any transactions in the Panama Canal zone.

RADIO: Call KHK, HF—8 Mc/s., 12 Mc/s., 16 Mc/s.; LF–500. VHF Channel 16, call KFQ907, Aloha Tower Harbour Control Station.

TUGS: Tugs normally join vessel within harbour limits. Both ship's lines and tug's lines used depending on conditions.

BERTHING: Berthing given on a first-come-first-served basis according to type of vessel and particular requirements as to cargo bunkering, etc.

STEVEDORES: Gangs must be ordered 24 hours in advance. General cargo, average load per hour: 15 L/tons; average discharge per hour: 15 L/tons.

MEDICAL: Agents would like as much advance notice as possible. Complete medical facilities available. Vaccinations in accordance with U.S. Public Health requirements.

TANKERS: Four tanker berths, maximum draft 35 ft. No slop discharge facilities.

Barber's Point: Tanker berths, tugs not normally required. Mooring Master attends berthing procedure. Fresh water not available. Fuel available ex pipe-line.

Pearl Harbour: U.S. Navy Terminal. Max. LOA 800 ft. Max. draft 38 ft. 6 in.

DENSITY: Pure salt water, no fresh water allowance.

FRESH WATER: Delivered via 2½ in. fire hose with meter on pier. Rate of delivery between 30 and 60 tons per hour, depending on the berth.

FUEL: All U.S. grades available, no advance notice other than establishment of credit.

FIRE PRECAUTIONS: Fire wires required by tankers berthed alongside.

DEVELOPMENTS: Container facilities being developed at Sank Island. One 800-ft. berth for tankers and containers under construction.

GANGWAY/DECK WATCHMAN: Services of watchman recommended, usually arranged by Agent.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CUSTOMS ALLOWANCES: 200 cigarettes, 50 cigars per man, and one bottle, U.S. quart, wine or spirits.

IDENTIFICATION CARDS: Seamen's passports needed.

CONSULS: The following countries are represented in Honolulu:

Belgium	India	Netherlands
Britain	Norway	Philippines
China	Panama	Portugal
Japan	France	Sweden
Denmark	Germany	Thailand
Finland	Korea	

REPAIRS: All types of deck and engine repairs possible. Hull repairs below water-line in accordance with dry dock capacities.

DRY DOCKS: Commercial within Honolulu Harbour. Dry dock: 2,800 L/Ton lifting capacity, 385 ft. long, 56 ft. wide. Marine railway: 1,400 L/Ton lifiting capacity, 223 ft. long, 65 ft. wide.

REPATRIATION: All facilities, crews generally leave State within 24-hour period.

AIRPORT: International airport, served by all major airlines, 5 miles from harbour.

HOLIDAYS: New Year's Day (January 1); President's Day (February 21); Kuhio Day (March 26th); Good Friday; Memorial Day (May 30); Kamehameha Day (June 11); Independence Day (July 4); Labour Day (September 1); Veterans' Day (November 10); Thanksgiving Day (November 27); Christmas Day (December 25th).

Admission Day (August 20th) and Colombus Day (October 11th).

POLICE/FIRE/AMBULANCE: Police 944–1212; Ambulance 955–2633; Fire 955–1212.

TIME: G.M.T. minus 10 hours all year round.

TELEPHONES: Telephones can be placed on board at any dock.

SERVICES: All services found in major U.S. ports are available.

SHORE LEAVE: No restrictions if papers are in order.

AUTHORITY: State of Hawaii, Department of Transportations, Harbours Division, 700 Fort Street, Honolulu, Hawaii 96813; Tel. 5486255.

HOUSTON, Texas: 29.45 N. 95.20 W.

DOCUMENTS:
1 visaed Crew List.
3 Passenger Lists.
3 or more copies of complete Manifests of Cargo for discharge at all U.S. ports.
2 or more copies of Manifest of Cargo for each individual U.S. port
1 Souvenir List.
1 Stores List.
Ship's Register.
Tonnage Tax.
Load-line Certificate.
Nationality Certificate.
No health document required.

PILOTAGE: Radio to local Agent who arranges Pilot and specifies boarding time. U.S. Coast Guard requires 24 hours notice in advance of arrival Galveston Bar. Pilot boats and station on VHF Channel 12, Bridge to Bridge is Channel 13 and tugs for docking and off-docking on Channel 14. 3 Pilot boats marked HP No. 1–53 ft., HP. No. 2 – 61 ft. and HP No. 3 – 106 ft. in length. Pilot boats contacted by light in International Morse code; No sound signal. Pilot taken on board at Sea Buoy No. 1, located 6·7 miles from Galveston. Seldom, if ever, is water too rough for boarding at above location. Anchorage located in Bolivar Roads, 6·7 miles inward from Sea Buoy No. 1.

ANCHORAGES: Anchorage for Houston is only in Bolivar Roads in Galveston, Texas, which has ample space and depth for all Houston bound vessels.

RESTRICTIONS: None with respect to time of day or night, or with state of tide.

MAX. SIZE: Maximum 850 ft. long, 115 ft. breadth and 40 ft. draft. Tide minimal, effected primarily by wind only.

HEALTH: Dock boarding by quarantine officers.

RADIO: International Telephone and Telegraph – ITT – Galveston call letters KLC.

TUGS: Tugs come alongside just off dock or immediately prior to entering turning basin if vessel is to turn, or at Pilot's discretion.

BERTHING: No special requirements other than authority from terminal operator local Agent.

The Port Authority has a public grain elevator capable of storing 6 million bushels. There are four private grain terminals, one with a 10-million bushel capacity, two with 5-million bushel capacity and one with 2-million bushel capacity. This latter specialises in rice while the others handle (principally) wheat and milo. Bulk materials handling plant owned by the Port of Houston Authority, capable of loading or discharging at the rate of 1,000 tons an hour.

Private facilities include a steel plant, five refineries, a paper mill, two fertiliser plants, two cement plants and several petroleum or liquid gas storage farms, all with their own docks. In addition to the Port Authorities 40 docks for public hire, there are four private terminals with a total of ten berths for public hire.

A new facility owned by the Port Authority has been opened at Barbours Cut, 25 miles across Galveston Bay from Bolivar Roads, where the ship channel moves inland at Morgans Point. This is a 500 ft. pier with mooring dolphins for handling the new, large barge-carrying vessels (LASH).

BRIDGES: One bridge to be opened 1973 to cross channel immediately East of Public Wharf 31 will have clearance of 139 ft.

STEVEDORES: Stevedore, on advice from representative of local Agent, must order labour prior to 1900 for 0700 or 0800 start the following day. Can order at 0800 for 1000, 1100 a.m. for 1300 and 1700 for 1900 start. Gangs must be ordered prior to 1900 on Saturday for Sunday or holiday.

MEDICAL: Give sufficient notice to order doctor or ambulance. Numerous hospitals available. Seaman's health certificate required.

TANKERS: No specific requirements for oil carriers with respect to load/discharge lines. Tankers must be gas free to enter turning basin area. Approximately 12 tanker berths, excluding Humble Oil & Refining Co. in Baytown, Texas.

DENSITY: Classed as full fresh but varies with rainfall and tide, usually 4 to 5 in. allowance on full draft.

FRESH WATER: Available at all terminals through pipe and hose.

FUEL: All grades and viscosities available.

FIRE PRECAUTIONS: All standard precautions per code of Federal Regulations plus local ordinances. Tankers, unless gas free, not permitted at wharves in the immediate turning basin area.

DEVELOPMENTS: Channel depths to be maintained at 40 ft. Bayport development East and South of Morgans Point to have deep draft berths for liquid bulk and general cargo.

GANGWAY/DECK WATCHMEN: Not required, but are available and can be arranged by local Agent at Master's request.
OPENING/CLOSING HATCHES: By stevedores only—vessel will be charged for this work if done by crew.
CUSTOMS ALLOWANCES: Tobacco, 300 cigarettes, 100 cigars, 1 lb. of tobacco or combination for each man. Wine and/or Spirit, one quart for each crew member.
CARGO GEAR: Cargo gear safety certificate required.
IDENTIFICATION CARDS: Immigration Form I-95 card required.
CONSULS:

Argentina	Germany	Netherlands
Belgium	Great Britain	Nicaragua
Bolivia	Guatemala	Norway
Brazil	Haiti	Panama
Chile	Honduras	Paraguay
China	Israel	Peru
Columbia	Iceland	Portugal
Costa Rica	Italy	South Africa
Denmark	Japan	Spain
Dominican Republic	Jordan	Sweden
Ecuador	Korea	Uruguay
El Salvador	Netherlands	Venezuela
Finland	Luxembourg	
France	Mexico	

REPAIRS: All types available.
DRY DOCKS: Todd Shipyard, 485 ft. long, 17 ft. draft, 8,200 long tons.
REPATRIATION: Danner Guard Service can handle all phases.
AIRPORT: Approximately ½ hour by car; served by regular airlines.
TIME: Central Standard with daylight saving time effective from April to October.
HOLIDAYS: January 1; February 22; March 2; May 30; June 19; July 4; First Monday in September; November 11; December 25. No work performed on first Monday in September and December 25 except in emergency.
POLICE/AMBULANCE/FIRE: All services provided or available.
TELEPHONES: Currently no arrangements for placing telephones aboard but easily accessable on wharves.
SERVICES: All services available.
SHORE LEAVE: Shore leave granted except when individual not qualified.
AUTHORITY: Port of Houston Authority, 1519 Capital Avenue, PO Box 2562, Houston, Texas 77002. Tel. 225–0671.

HUENEME, California: 34.09 N. 119.12 W.

DOCUMENTS: See "San Francisco".
PILOTAGE: It is requested that ships entering port stand by one mile off harbour entrance and await port Pilot who will board from a tug. The U.S. Coast Guard Station at the harbour entrance maintains a radio beacon.

All vessels 300 gross registered tons and over entering, leaving and shifting within the Port of Hueneme, including area of the Oxnard Harbor District, must be piloted by a port Pilot duly licensed to perform the services of piloting vessels within the Port of Hueneme. The Oxnard Harbour District does not maintain Pilots; licensed pilots are available on a 24-hour-a-day basis from the Commanding Officer, Naval Construction Battalion Center. As a service to all vessels, requests for Pilots may be made by Agent or ship to General Manager of Oxnard Harbor District, who will act for ship in obtaining necessary Pilots. They can also be obtained by an electronic message request addressed to "CO, CBCEN, PORHUE" or by direct request to the Port Services Officer, U.S. Naval Construction Battalion Center. It is not necessary to change Pilots at this port.
ANCHORAGE: If there is a wait for Pilot caused by weather, visibility, congestion in harbour, or any other reason, the best anchorage area is West-south-west of the harbour entrance where there are no hazards and there is some protection afforded by the natural curve of the coastline.
RESTRICTIONS: The length of entrance channel is 2300 ft. The narrowest width of harbour entrance channel is 330 ft. However, because of prevailing fresh winds, this is a one-way channel; thus, deep-draft ships not able to manoeuvre easily in a restricted channel have precedence over smaller craft.
RADIO: The U.S. Coast Guard Station, Port Hueneme, located at the entrance to harbour, guards the following frequencies: 2182 kc/s., 156·8 Mc., 157·1 Mc. After initial call up the Coast Guard can shift to 2670 kc/s., 2694 kc/s., 5080 kc/s. The Naval Construction Battalion Center (Port Hueneme Control) guards, 2150 kc/s. and 2716 kc/s. The harbour tugs guard 2150 kc/s. voice continuously. The harbour pilots, when expecting a commercial merchant vessel guard 2716 kc/s. voice circuit and voice call "Port Hueneme Control Three".
HEALTH: Ships required to pass quarantine may enter port and moor. "Q" Flag is to be flown. Upon mooring, ship must post gangway watch until ship has passed quarantine. A local physician has the authority of U.S. Public Health Officer and conducts the check. When port of Hueneme is its port of first arrival in the United States from foreign ports or from states other than California, a ship must be inspected by the Department of Agriculture. There is a local representative in Oxnard. The Oxnard Harbor District will order officials if requested by ship or Agent.
TUGS: Tug services for port of Hueneme are furnished by the Commanding Officer, Naval Construction Battalion Center, Port Hueneme, California. Requests for tug services may be made to the General Manager of the Oxnard Harbor District, who will act as Agent for ship in forwarding them. Two tugs are available on a 24-hour basis. They are Class YTM, with 1,000 shaft horsepower. The number of tugs to be used on any movement is determined by port Pilot in charge of the movement. Tugs are not available for deep-sea towing, except in case of emergency to save life or property. As a service to all vessels, the Oxnard Harbour District, acting as Agent for vessel, will pay all necessary tug fees to United States Government, subject to reimbursement conditions as arragned between the vessel, her owners, or Agents, and the General Manager, Oxnard Harbour District. Seldom are tug charges more than the minimum due to the short transit time to berths.
BERTHING: Berthing arrangements should be made with the General Manager by Agent as far in advance of arrival date as possible, specifying dates of arrival and sailing, and nature and quantity of cargo to be handled. The Oxnard Harbor District also has a licence agreement with the U.S. Naval Construction Battalion Center, Port Hueneme, for the use of additional berths and terminal facilities on an "as available" basis. Prior arrangements must be made, should use of these additional facilities be desired or necessary. The Port of Hueneme has three 600 ft. berths with depth 35 ft. MLW and appropriate terminal facilities. At the present time there are 10 deep-draft berths within the entire port area.

Bottom is sand and mud. Mean low water is + 1.5 ft. Height of wharf above MLLW is 13 ft.
STEVEDORES: All stevedore work is presently performed by resident stevedores, the Marine Terminals Corporation, who also have offices in San Francisco, Long Beach, etc. They maintain an office at 111 Ponoma Street, Port Hueneme. They provide modern handling equipment to suit cargo's need. There is no special fixed bulk handling equipment available as yet. Longshoremen are members of the International Longshoremen's and Warehousemen's Union and conform to the Pacific Coast Longshore Agreement. Hours of work are as outlined in this agreement. Longshoremen at this port do all covering and uncovering of hatches and rig the gear. There are eight gangs available in the port. Day and night gangs for Tuesday through Saturday (except Monday through Saturday, 7 p.m. initial start) must be ordered by 3.30 p.m. the previous day. Night gangs required Monday for a 7 p.m. initial start, and Sunday and Monday gangs must be ordered by 11 a.m. Saturday. Cancellation time is same as ordering time, if gangs which have been ordered are cancelled after the aforementioned deadlines, the agreement's four-hour minimum applies. Normal day shifts begin at 8 a.m. and normal night shifts at 6. p.m. Each shift consists of 8 hours and on sailing day 10 hours may be worked by the final shift. There are no obstructions on the wharf to keep all hatches from being worked concurrently.
MEDICAL ATTENTION: Patients are provided medical attention at the Medical Center, Port Hueneme, or St. John's Hospital, Oxnard California. Temporary visa must be obtained from Department of Immigration and Transportation if a crew man or passenger must remain after the ship sails.
FRESH WATER: Fresh water is available. There are hydrants along the wharf and delivery to ship is effected by hose. Water is good to taste but is hard. It is suitable for boilers. Contact wharfinger on duty for delivery of water.
FUEL: Fuel and diesel oil are obtainable from a local port-based tenant. Quantities beyond the capability of that tenant's ability can be delivered by tank truck direct to ship's tanks. In an emergency, the Navy will make Navy special black oil available.
REPAIRS: Minor repairs may be made in port. Machine shops in Ventura and Oxnard are qualified for normal voyage repair work.
WATCHMEN: Gangway or special wharf watchmen are available upon request.
TELEPHONES: Two pay-telephone booths are located at the South-west corner of Wharf 1 adjacent to the wharfinger's office and maintained for the convenience of ships berthed at Wharf 1. The wharfinger's office has a telephone which may be used by people calling in to contact the ship. This phone is manned 24 hours a day for convenience. Its number is (805) 488–4615. The Port of Hueneme office telephones are available to ship's officers and Agents for local calls or collect long distance calls. Wharf lines permit a telephone to be installed at a nominal charge if desired by Agent.
HEAVY LIFT EQUIPMENT: The U.S. Navy, in special circumstances, makes available a 100-ton floating derrick barge, subject to its prior needs. The General Manager of the Oxnard Harbor District will assist those desiring derrick barge services. Typical rental cost is about $150.00 per hour on a straight time basis (8 a.m.–4.30 p.m. on week-days) and $185.00 per hour on an overtime basis (4.30 p.m.–8 a.m. during week-days and all hours on Saturdays, Sundays and holidays). This includes equipment costs, mobilisation time, man-power, fuel and use of required slings.
HOLIDAYS: U.S. Federal holidays are observed by the Port and Terminal management. If stevedoring is required on holiday it is performed in accordance with the International Longshoremen's and Warehousemen's Union-Pacific Coast Longshore Agreement.
AUTHORITY: The U.S. Navy (Commanding Officer, U.S. Naval Construction Battalion Center) exercises overall Port Control Authority; the Oxnard Harbor District is solely responsible for its commercial operations.

Oxnard Harbor District Board of Harbor Commissioners 105, Port Hueneme Road, Port Hueneme Cal. Tel. (805) 488–3677.

HURON, Ohio: 41.24 N. 82.35 W.

Refer to "St. Lawrence Seaway" for important general information.
PILOTAGE: None required other than what is required for Great Lakes.
ANCHORAGE: Depth 3 to 10 fathoms.
MAX. SIZE: Length 716 ft., breadth 75 ft., draft 26 ft.
RADIO: WMI Lorain.
TUGS: Meet vessel at the Pier Head. Use ship's lines.
BERTHING: Norfolk and Western Ore Dock, operated by the Lake Erie Dock Co., can handle 15,000 tons of ore in eight hours. Ore slip is 1,400 ft. long with 26 ft. of water.

Limestone Dock, 700 ft. length with 26 ft. of water.

Grain loading facilities operated by the Pillsbury Company. Load speed, 20,000; unload speed, 15,000; berthing space, 832 ft.; max. length, 610 ft.
STEVEDORES: None available.
FRESH WATER: Available.
FUEL: None available.
IDENTIFICATION CARDS: Required by Immigration.
CONSULS: Nearest at Cleveland.
REPAIRS: No facilities.
REPATRIATION: No facilities.
AIRPORT: 50 miles from port (Cleveland International Airport).
POLICE/AMBULANCE/FIRE: 433–4114.
SHORE LEAVE: Allowed.
AUTHORITY: The Huron Joint Port Authority, 107 Wall Street, Huron, Erie County, Ohio, 44839, U.S.A.

JACKSONVILLE, Florida: 30.20 N. 81.40 W.

DOCUMENTS:
Public Health:
Maritime Quarantine Declaration Form HSM 13.19.
Customs:
3 U.S. Customs Manifests for cargo to be discharged at first port of entry.
2 U.S. Customs Manifests covering all other cargo on board vessel for discharge at other than first port of entry.
3 Stores Lists.
3 Crew Lists.
3 Passenger Lists.
3 Curio and Crew Personal Items Lists.
Vessel's Clearance from last port.
Vessel's Register and Load Line Certificate.
Vessel Utilization and Performance Report.
Form MA.578 for dry cargo vessels.
Immigration:
1 Certified Crew List and Landing Permit form I–95A for each crew member.
Valid passport for each crew member.
PILOTAGE: Vessels approach Pilot Entrance Buoy STJ No. 2 (Red) approximately six miles at sea off jetty entrance to St. John's River. Pilot station located just inside jetty on river channel at Mayport Naval Station. Pilot station operates both VHF and UHF frequencies, VHF Channels 16 and 18A. UHF Frequencies 2738 and 2182. Pilot cable address "Jaxpilot". Pilot boards from pilot boat Jaxpilot just east of sea buoy STJ No. 2. Pilot boat does not maintain station at sea but answers call or is dispatched on information by vessels' agents. Vessels anchoring awaiting Pilot should anchor as near entrance buoy as safely possible.
ANCHORAGES: Two anchorages located inside harbour near dock sites with depth of about 31 ft.
RESTRICTION: For vessel drawing not more than 30 ft. water no restrictions and vessel can enter and clear harbour on 24 hour basis. Pilots and tug assistance available all hours day or night. Vessels drawing more than 30 ft. required to await tide.
MAX. SIZE: Draft should not exceed 31 ft. for dry cargo vessels and 34 ft. for tankers.
HEALTH: Vessels boarded on arrival at piers by Health Officials. Vessel may obtain radio free pratique by making request at least 48 hours prior to arrival. Request is made to local Agent who obtains clearance from Public Health Service and replies to Master that request has either been granted or denied. In request for free pratique Master must indicate nature of any illness on board vessel. In the event of communicable diseases vessel can proceed in harbour but must give advance notice of disease either in suspect or actually existing.
RADIO: Tropical Radio, Miami, Fla. Call letters WAX. Lantana Radio, Boynton Beach, Fla. Call letters WOE.
TUGS: Under normal conditions with vessels able to proceed under own power, tugs approach vessel in vicinity of pier at which vessel is to dock. Tugs use own lines but no charge made.
BERTHING: Vessels can dock day or night. Transit time from pilot station to berths about two hours.
BRIDGES: Only one bridge that vessel would have to negotiate and that only if docking at Commodore Point terminal.
STEVEDORES: Master should keep Agents closely advised by radio of ETA and any amendments to first ETA given. Recommended that Master give ETA 72–48–24 hours in advance to arrival. Enables ordering gangs or cancelling gangs ordered in event of delayed ETA.
MEDICAL: Hospital facilities available. International Vaccination Certificates required by all crew members.
TANKERS: All petroleum terminals provide own hose ranging from 8 in. to 12 in. Prior to arrival, Master should request information from Terminal Company size of connection required. Three berths available. Depth alongside 34 ft.
DENSITY: Varies from fresh water 1·000 density to mixed salt water 1·0075 density. St Johns River is fed from fresh water sources and for most practical purposes may be considered fresh.
FRESH WATER: Fresh water supplied by barge delivery with minimum 100 tons.
FUEL: Most grades marine fuels available ranging from bunker "C" to light marine diesels with intermediate blends in between. Most major oil companies have bunkering facilities.
FIRE PRECAUTIONS: No smoking except in officers' lounge and crew's lounge. No open flames. No sparking from funnel.
DEVELOPMENTS: New marginal wharves with marginal tracks and supporting warehouses now under construction. Also planned deepening of river channel from sea buoy to dock area from present 34 ft. to 38 ft. Container berth presently under construction at Blount Island which will be equipped with 45 tons Paceco type crane.
GANGWAY/DECK WATCHMEN: Watchmen services available but not necessary.
OPENING/CLOSING HATCHES: Crew may open hatches prior to vessel's arrival at dock. After arrival at dockside this work reserved for longshoremen. Vessels equipped with McGregor type of other automatic opening devices, crew may open hatches at any time. Longshoremen do not open and close these type hatches.
CERTIFICATES: Vessel Register, Load Line, Gear Certificate, De-rat.
CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes per man. If vessel remains in port over extended period of time, sea stores can be opened under customs supervision and additional allowances made. Wine/Spirits: No specific limits as to quantity allowed per man; customs accept Masters' recommendations for allowances so long as they are reasonable. This applies to beers, wines and spirits.
IDENTIFICATION CARDS: Form I–95A only.
CONSULS: Vice-Consulates – Norway, Denmark, Sweden, Finland, Italy, France, Venezuela, Guatemala, Uruguay, Dominican Republic.
REPAIRS: All types engine and deck repairs possible. Two well equipped shipyards.
DRY DOCKS: Three large dry docks of 16,000 to 20,000 tons capacity and three smaller dry docks of 6,000 to 10,000 tons capacity.
REPATRIATION: Facilities available to effect crew changes and repatriation.
AIRPORT: Airport 20 miles. Daily flights to all major U.S. cities.
TIME: Eastern Standard Time and Daylight Saving Time during summer months late April through October.
HOLIDAYS: Holidays observed by Stevedores: New Year's Day (Jan. 1st); Martin Luther King's Birthday (Jan. 15th); Lincoln's Birthday (Feb. 12th); Geo. Washington's Birthday (Feb. 22nd); Memorial Day (May 30th); Independence Day (July 4th); Labor Day (First Monday September); Columbus Day (October 12th); Armistice Day (Nov. 11th); Thanksgiving (Fourth Thursday November); Christmas (December 25th).

When holidays fall on Sunday, the following Monday observed to the extent of paying overtime and eight hour minimum pay period shall apply. No work performed on the following holidays: New Year's Day, Independence Day, Labor Day, Christmas Day.
POLICE/AMBULANCE/FIRE: Police 356–7392; Ambulance 355–8833; Fire 355–8833.
TELEPHONES: No facilities available for placing phones on board vessels except in shipyards.
SERVICES: Compass-Adjusting, radar, navigational equipment. No tank-washing or tank-cleaning services available.
SHORE LEAVE: No restriction on shore leave if not detained by immigration.
PORT REGULATIONS: No garbage to be disposed overside, no pumping of dirty ballast into river. Smoke emissions must be controlled to minimum.
AGENT: Southern Shipping Company, PO Box 4668, Jacksonville, Fla. 32201. Telephone Area 904 355–4751. Cable address "Soshipco" After hours contact: C. R. Opper (Area 904 388–4374); J. Miller (Area 904 742–4516). Nature of business: Steamship Agents, Stevedores, Foreign Freight Forwarders.

JUNEAU, Alaska: 58.18 N. 134.24 W.

Located at North-easterly side of Gastineau Channel, eight miles from Stephens Passage. Juneau is the capital of Alaska. Open all year.
APPROACHES: Via Chatham Straits, Lynn Canal and Stephens Passage.
DOCUMENTS: See "Anchorage, Alaska".
PILOTAGE: Pick-up point is Guard Island.
ANCHORAGE: 16 fathoms in centre of Juneau Harbour.
MAX. SIZE: Harbour depth 15/19 fathoms. Tides: diurnal range 16·4 ft. Also see "Berthing".
CUSTOMS: Quarantine, Immigration and Customs, local.
BERTHING: 1. Foss Alaska Line Dock: berthing length 550 ft. 36 ft. LW. No cranes.

2. Juneau Cold Storage (capacity 8,000,000 lb.): berthing length 250 ft., 36 ft. LW. Cranes, 2 electric hoists, 3 lift trucks, 40,000 sq. ft. covered shed space. Fresh water.

3. Juneau Ferry Terminal: berthing length 350 ft. 32 ft LW. No cranes. This is a roll-on, roll-off facility for wheeled vehicles and self-propelled or towed. 35 tons capacity. No covered shed space. Fresh water.

4. Coast Guard Dock: 750 ft. long, 31 ft. deep at face. No storage.
STEVEDORES: One gang.
REPAIRS: Minor engine repairs only.

WATER: Available.
FUEL: Not available.
MEDICAL: Hospital available.
TRANSPORTATION: Air and ferry.
DEVELOPMENTS: Berner's Bay under construction 40 miles north, will produce pulp and lumber for export.

KAHULUI: Hawaii 20.53 N. 156.28 W.

DOCUMENTS:
4 Crew Lists.
4 Passenger Lists.
Customs Documents.
Clearance, Travelling Manifest.
Local Manifests.
Health Documents.
Bill of Health and Vaccination Certificates.
4 Manifests.
4 Bills of Lading.
Certificate of Registry.
Annual Inspection Certificate.
Load-line Certificate.
De-rat Certificate.
Radio Certificate and Licence.
4 Store Lists.
PILOTAGE: Request for Pilot normally made through Agent or through Harbour Master's office. Contact Pilot on VHF Channel 16. 36 ft. pilot boat, black hull, white cabin. Pilot boards ¼ mile East of Waihee Reef lighted buoy No. 2. Anchorage ½ mile East of buoy.
ANCHORAGE: No anchorage inside breakwaters. Only anchorage ½ mile East of Waihee Reef lighted buoy No. 2 in 9 to 12 fathoms.
RESTRICTIONS: 24 hours notice of arrival is obligatory. No entry at night time for vessels over 600 ft. long. No tide restrictions.
MAX. SIZE: Maximum length about 700 ft. Maximum draft 32 ft. 6 in.
HEALTH: Usual quarantine regulations, doctor and Customs and Immigration and agriculture and meat inspectors board at dock for vessels arriving from foreign ports. Serious or contagious diseases should be reported by radio. No quarantine for vessels from United States or Canadian ports.
RADIO: Communicate through RCA or ITT stations in Honolulu.
TUGS: One 1,500 h.p. tug stationed at Kahului. Additional tugs dispatched from Honolulu if necessary. Tug joins vessel between breakwater and Waihee Reef lighted buoy No. 2. Tug's lines normally used. No extra charge.
CARGO HANDLING: Kahului has one berth specially equipped to load bulk sugar. Matson Navigation Company operates a straddler to move Matson containers. Other containers are normally barged to Kahului on roll-off chassis.
STEVEDORES: To be ordered by 1500 of day prior to operations.
MEDICAL: Hospital facilities available.
TANKERS: Discharge only. 8 in. line for heavy fuel oil, 6 in. lines for light fuel oils. No slop discharge facilities. Two berths available for tankers, maximum draft 32 ft. 6 in.
FRESH WATER: Available from water line at each berth. Rate of delivery about 150 gallons per minute.
FUEL: Small amount of diesel fuel and heavy fuel available in an emergency only.
GANGWAY/DECK WATCHMEN: Services of watchman recommended, usually arranged by Agent.
OPENING/CLOSING HATCHES: Normally carried out by stevedores.
CUSTOMS ALLOWANCES: 200 cigarettes, 50 cigars per man, and one bottle wine or spirits.
REPAIRS: Minor deck and engine repairs only.
AIRPORT: Distance to airport 1 mile. Served by regular airlines.
TELEPHONES: Arrangements made with Hawaiian Telephone Co., to install on board.
DELAYS: Occasional delays due to limited berthing space and shortage of stevedore gangs.
POLICE/FIRE/AMBULANCE: Police 244–3911; Ambulance 244–9056; Fire 244–4860.
TIME: G.M.T. minus 10 hours all year round.
AUTHORITY: State of Hawaii, Dept. of Transportation, Harbors Division. PO Box 201, Kahului, Maui 96732. Tel. 877–6051.

KETCHIKAN, Alaska: 55.20 N. 131.38 W.

DOCUMENTS: See "Anchorage, Alaska."
APPROACHES: Port located on Revillagigedo Island. Open all year round. Ships coming from Hecate Straits or outside Graham Island proceed into Dixon Entrance to vicinity of Guard Island where the Pilot will meet them.

Vessels coming up the inside passage from Vancouver BC, are met at Lucy Island pilot station.
PILOTAGE: South eastern Alaska Pilots Association, Box 1539, Ketchikan Alaska 99901. Telegraphic address; Alaska Pilots Ketchikan.

The Alaska Pilot Service requires 5 days, 48 hours, and 12 hours advance notice of ETA and can be contacted on Channel 16 VHF or 2182 kHz.

The pilot boat "Magdalene" (WA 7513) normally rendezvous with the vessel ¾ mile from Guard Islands.
ANCHORAGE: Safe anchorage can be obtained in the area for deep-draft vessels; however there are no specified anchorage areas.
MAX. SIZE: The largest vessel to be berthed to date is a 26,000 ton freighter; however larger vessels could be accommodated.
RADIO: Cables to Agent, Receivers, and Pilots can best be routed through AKM Juneau.
TUGS: Tugs can be arranged through the ship's Agent. Lines from tug are normally used with no additional charge.
BERTHING: Alaska Line Dock: berthing length 400 ft., depth 26 ft. at North end, 39 ft. at South end at low water, no cranes.

Talbots' Inc: private berth length 300 ft., depth 35 ft. low water.

Ketchikan Spruce Mill: berthing length 450 ft., depth 33 ft. low water. Height of pier at low water 22 ft.

Ketchikan Pulp Company (at Wards Cove, 6 miles North of Ketchikan): private dock, berthing length 800 ft., depth 33 ft. at low water.
STEVEDORES: Stevedores obtained through shipping Agent. 24 hours notice normally required.

Four or possibly five gangs available dependent on obtaining casual labour.
MEDICAL: Medical matters may be referred to shipping Agent. Excellent hospital and out-patient treatment facilities are available.
FRESH WATER: Ample fresh water available at no cost.
FUEL: Fuel available for deep-draft vessels: PS–300. Vis. 33.5 Pour Pt. –15 to –20.
TANKERS: Tow-away lines required fore and aft.
WATCHMEN: Recommend security watch for passenger vessels. Watchmen can be arranged through the shipping Agent.
HATCHES: Opening/closing of hatches done by longshoremen.
IDENTIFICATION CARDS: Crew identification cards are required by Immigration officials.
CONSULS: The nearest Consul is in Anchorage, Alaska.
REPAIRS: Repair facilities are limited. Excellent welding and machine-shop services are available, however.
REPATRIATION: Repatriation matters can be handled through the shipping Agent and Immigration officials.
AIRPORT: Daily flights to and from Seattle as well as points North may be obtained.
TIME: Ketchikan is on GMT minus 8 hours during the winter and GMT minus 7 during the summer. Time changes the third Sunday in April through the third Sunday in October.
AUTHORITY: Captain of the Port, c/o U.S. Coast Guard Base, Ketchikan, Alaska.

KINGS BAY, Georgia: 30.49 N. 81.31 W.

DOCUMENTS:
Crew List, from foreign, 1 Crew List visaed by American Consul in or near foreign port of departure; Coastwise, U.S.A., three copies, one for Customs, one for Immigration and one for the Agents' office.
Curio List, three copies, both from foreign and coastwise movements.
Stores List, three copies, both from foreign and coastwise movements.
Five copies of Foreign Manifest.
Five copies of Bill of Ladings.
Permit to sail from foreign.
International Vaccination Certificates and/or other health certificates.
PILOTAGE: Channel entrance is between Cumberland and Amelia Islands, and is approximately 11 miles in length, 200 ft. wide and 32 ft. deep at MLW. Kings Bay Pilot usually boards vessels at the St. Mary's Entrance Sea Buoy No. 1 or 1 mile East of St. Mary's Entrance Buoy No. 2. Pilot may be reached by marine phone (ship-to-shore), Fernandina Beach, Florida, tel. 261–3824 or 261–3495. There are two turning basins, one 2,400 ft. long by 800 ft. wide and 32 ft. deep at MLW, and the other is 1,996 ft. long by 800 ft. wide and 32 ft. deep at MLW.
ANCHORAGE: Two, capable handling deep draft vessels. Pilot handles this phase.
MAX. SIZE: 650 ft. in length, 32 ft. in depth.
HEALTH: Boarding physician. New modern hospital located in St. Mary's, Ga.
RADIO: Kings Bay has only marine ship-to-shore telephone facilities. Cables arrive through R.C.A. Communications via Lantana, Fla., Radio, and Chatham, Mass., Radio and via Western Union.
TUGS: Available.
BERTHING: Berthing at any time, except when draft requires to come in on high tide, rise and fall of tide is 6 ft.
STEVEDORES: All stevedoring performed by St. Mary's Stevedoring Company, St. Mary's, Ga., on high explosives. General cargo outside stevedores permitted.
FRESH WATER: Plenty of fresh water available, pumped into ship's tanks via hose.
FIRE PRECAUTIONS: Smoking in the warehouses, on wharf or on any vessel while loading or discharging any inflammable or explosive cargo is strictly prohibited. In the event of a fire occurring on board any vessel berthed at the Kings Bay Marine Terminal, except vessels under way, such vessel may sound five prolonged blasts of the whistle or siren as an alarm indicating fire on board or at the dock to which the vessel is moored. Fire hose on dock and water running therefrom when loading plus fire extinguishers placed at various intervals.
GANGWAY/DECK WATCHMEN: Not required.
OPENING/CLOSING HATCHES: Crew open, stevedores close.
CUSTOMS ALLOWANCES: Tobacco and wine/spirits – reasonable quantities for personal use.
IDENTIFICATION CARDS: Immigration issues landing permit.
REPATRIATION: Via airlines at Jacksonville, Florida, 41 miles away.

TIME: Eastern Standard Time.
HOLIDAYS: New Years' Day (1st January); Lincoln's Birthday (12th February); Washington's Birthday (22nd February); National Memorial Day (30th May); Independence Day (4th July); Labor Day (first Monday in September); Columbus Day (12th October); Thanksgiving Day (fourth Thursday in November); Armistice Day (11th November); Christmas Day (25th December)' In the event of one of above holidays falling on a Sunday, the following Monday will be observed.
POLICE/AMBULANCE/FIRE: Police Departments St. Mary's and Kingsland, Ga., plus County Sheriffs. Ambulance, Kingsland. Fire, both Kings Bay and St. Mary's, Ga.
TELEPHONES: Only three lines and all in office of Blue Star Shipping Co. No telephone service to be placed on board vessel.
SHORE LEAVE: Only via Immigration landing permit. No taxi service, no bus lines operate from Kings Bay, Ga. Since nearest town is 11 miles away, crew as a rule remain aboard vessel.
AUTHORITY: None. Blue Star Shipping Corporation, St. Mary's, Ga., operates the port.

AGENTS: Blue Star Shipping Corporation, PO Box 487, St. Marys, Georgia. Zip Code: 31558.

KODIAK, Alaska: 57.47 N. 152.24 W.

Located near the North-eastern tip of Kodiak Island in the Gulf of Alaska, South of Anchorage and East of the Alaska Peninsula.

APPROACHES: South of Trinity Islands then North-west to Cape Chiniak and meet Pilot.
DOCUMENTS: Also see "Anchorage, Alaska".
PILOTAGE: Pick-up point in the vicinity of Cape Chiniak.
MAX. SIZE: Harbour depth in excess of 30 ft. Tides: diurnal range approximately 10 ft. Also see "Berthing".
ANCHORAGE: Fair weather anchorage only.
CUSTOMS: Quarantine, Immigration and Customs, local.
BERTHING: 1. Kodiak City Dock: made of timber, pile and steel deck. One berth only. 350 ft. by 50 ft. Covered warehouse on half of pier 200 ft. by 150 ft. 35 ft. MLLW. Heated space available.
2. Woman's Bay Naval Base: Finger Pier 600 ft. operated by U.S. Navy. Depth of water in excess 40 ft. U.S. Navy permission required for commercial use.
TUGS: From Anchorage.
STEVEDORES: Two gangs.
REPAIRS: Limited. Divers available.
WATER: Available.
FUEL: Light fuels only.
MEDICAL: 26-bed hospital, 3 doctors, 2 dentists, 1 optometrist.
TRANSPORTATION: Air and ferry.

LAKE CHARLES, Louisiana: 30.13 N. 93.15 W.

PORT LIMITS: Buoy No. 26, in Calcasieu Ship Channel, 3 miles off Cameron, Louisiana.
DOCUMENTS:
3 copies Cargo Manifest (Forms 7527–A or 7527–B), the original showing all cargo on board, and 2 copies showing only cargo for this port.
2 copies Crew Manifest (curio list).
2 copies Stores List.
2 copies Passenger List (Form I–418).
2 copies Crew List (Form I–418).
Customs boarding officer will also examine Ship's Register and Load Line Certificate. In addition, the following documents will be required for formal entry to be made within 48 hours of arrival from abroad, or 24 hours from arrival from a United States port:
Health Pratique.
Master's Oath (Customs Form 3255).
All foreign clearances.
U.S. Certificates of payment of Tonnage Tax (Customs Form 1002).
Certified Crew List.
PILOTAGE: Radio Agent ETA., who will arrange Pilot board at Calcasieu Bar.
ANCHORAGE: At Calcasieu Bar only.
RESTRICTIONS: Entrance channel 40 ft. depth. Distance 40 miles.
MAX. SIZE: 1,000 ft. length, 38 ft. draft.
HEALTH: Radio pratique may be granted basis information received prior to arrival of vessel, provided no communicable diseases on board. Normally, vessels are boarded by medical officers on arrival unless free pratique previously given at U.S. port in the same voyage. If granted free pratique, vessel may enter port and discharge passengers and cargo. If given provisional pratique, vessel may enter port, but must take any additional measures specified in connection with discharging passengers and cargo until free pratique is given.
RADIO: Tropical – New Orleans, WNU.
TUGS: Meet vessel thirty minutes away from berth. Use tugs' own lines. Two for berthing, one for unberthing.
BERTHING: Three bulk-loading berths: No. 1, West bank of Calcasieu River, 8 miles below main port facilities, 800 ft. length, 35 ft. depth, loading rate 1,250 tons per hour.
No. 2, Contraband Bayou Section, main port, 850 ft. length, 35 ft. depth, loading 480 tons per hour. 1,600 tons storage facilities.
No. 3, Contraband Bayou Section, main port, 600 ft. length, 35 ft. depth, loading rate (bulk rice) 180 tons per hour from stationary tower. Twin 1,250 tons storage tanks adjacent.
Cities Service Oil Co. B-Dock, 673 ft. length, 40 ft. depth; C-Dock, 660 ft. length, 40 ft. depth; C-Dock 665 ft. length, 40 ft. depth.
Continental Oil Co. Berth 1, 1,000 ft length, 40 ft. depth; Berth 3, 1,000 ft. length, 40 ft. depth,
Columbia Southern Dock, 650 ft. length, 30 ft. depth.
Olin Mathieson Dock, 400 ft. length, 28 ft. depth.
DENSITY: Saltwater in summer, fresh in winter. Allow density 1000 for drafts.
FRESH WATER: Available at all berths.
FUEL: Bunker "C" and diesel available at Cities Service berths; other berths none available except light marine diesel delivered by tank truck.
DEVELOPMENTS: Under construction: forest products berth, specialising in volume handling of wood pulp, newsprint and liner board.
CUSTOMS ALLOWANCES: At the discretion of Customs officers. Normal allowance is 200 cigarettes or 2 lb. tobacco and one quart wine or spirits per man. Additional allowances may be given if considered necessary, due to length of vessel's stay in port.
IDENTIFICATION CARDS: Standard U.S. Immigration Forms I–95 to be made up for each crew member on arrival. Not necessary for crew man already holding Form I–95, issued for the same vessel.
REPAIRS: Small repairs carried out only; very limited facilities.
REPATRIATION: Facilities exist. Arrange through Agent.
AIRPORT: Seven miles from port. One line (TI) nine flights per day.
TIME: On CST, that is GMT minus 6 hours.
HOLIDAYS: Only two days affected on which no work carried out – Labour Day and Christmas Day.
POLICE/AMBULANCE/FIRE: Police, 439–4511; Ambulance, 477–5530; Fire, 433–4633.
TELEPHONES: None on board ship.
SHORE LEAVE: Allowed if not detained by immigration.
AUTHORITY: Lake Charles Harbor and Terminal District, H. M. Neely, Director of Port, PO Box AAA, Lake Charles, Louisiana 70601. Tel. 318–439–3661.

LONG BEACH, California: 33.45 N. 118.13 W.

DOCUMENTS:
Certificate of Registry.
Foreign Clearance Pratique – White or Yellow.
International Loadline Certificate – Tonnage Certificate (Admeasurement).
Inspection Certificate.
De-rat Certificate.
Radio Safety Certificate.
Inbound cargo for discharge – United States must have a Travellers' Manifest (Form 7527), original manifest, and dock inspection copy covering cargo to be discharged at first U.S. port of entry Custom's Utilization Form 7801 (Inbound), Form 7802 (Outbound) must be filed within 10 working days after vessel's entry at first U.S. port. Landing permits must be made out prior to arrival (Form I-95-A) for each crewman of alien origin for the U.S. Department of Immigration (and Form I-94 for each passenger of alien origin). Three sets of crew lists (Form I-418) must be presented to U.S. Customs, plus two sets to the Immigration Inspector, and One for the U.S. Public Health Service (Quarantine), and three sets stores lists plus three sets curio purchases list for U.S. Customs.
American Ships from Foreign:
Safety Equipment Certificate.
Cargo Ship Safety Construction Certificate.
Customs Form 3415 Affidavit of Repairs Abroad.
Certified Crew List.
Foreign Ships:
1 copy of Visaed Crew List for Immigration (Form I-418 & 5 copies).
Other forms may be necessary under certain circumstances, but normally can be taken care of after the vessel's arrival.
If a foreign vessel from a foreign port departs for a foreign port, two copies of (Form I 418) covering crew changes in the United States must be submitted to the Department of Immigration upon sailing of the vessel.
(*a*) Number of copies required: all single except as noted.
(*b*) The reports mentioned above are all government laws, requested by U.S. Customs, U.S. Immigration, Department of Agriculture, Public Health Service, and B.I.A.
(*c*) Purpose of documents: to record all vessel movements such as cargo, crew changes, health standards, etc.
(*d*) Procedure of presenting documents: documents must be presented to Quarantine Boarding Officer and Customs Broker and/or Agent, during or immediately after Quarantine.
PILOTAGE: Pilots ordered by local Agents. Order placed by telephone to 435–6354. Local tariff requires at least 1 hour notice prior to arrival. Pilot station contacted on VHF radio/Channel 12 (156·6 Khz) or Channel 16 (156·8 Khz). Pilot boats motor cruisers, light grey, fly International Flag "H". Local whistle signal for a Pilot on ship's whistle, one short and one long blast. Pilot boat normally meets vessels in vicinity Long Beach Sea Buoy or approximately 1 mile South of breakwater entrance. Vessels should have Pilot ladder on starboard side, weather permitting. In bad weather vessels may be required to proceed inside breakwater entrance prior to Pilot boarding.
ANCHORAGE: Preferable outside anchorage approximately ½ mile South-east of Long Beach Sea Buoy in 66 ft. of water. Inside anchorage available North-east of channel in outer harbour at approximately 8 fathoms of water depth. Special explosive anchor-

ages available by request, on both sides of entrance channel in 48 ft. of water.

RESTRICTIONS: Vessels with dangerous cargoes aboard or loading or discharging such cargo within port district shall obtain permit from U.S. Coast Guard, countersigned by Long Beach Fire Prevention Bureau and Long Beach Port Authority, subject to safety inspection prior entry to assigned anchorage or berth. (Application for entry or handling dangerous cargoes must be requested by Steamship Company or authorized Agent and approved prior entry.)

MAX. SIZE: (1) Average depth of water at general cargo berths is 37 ft. at mean-lower-low-water.

The Entrance Channel is maintained at 60 ft. MLLW.

(2) No restriction as to length or breadth of vessel at general cargo berths.

(3) Dry bulk facility berths average depth at mean-lower-low-water is 42 ft. No restriction on length. However, ships with over 130 ft. beam might experience some difficulty in loading without turning ship.

There are five bulk oil facilities, two with 55 ft. of water at mean-lower-low-water and three with 49 to 37 ft. of water at mean-lower-low-water alongside berths. It is feasible that vessels over 1,000 ft. in length could use our deep-water oil facilities. There are no restrictions as to beam. A sixth bulk oil terminal is being constructed which will accommodate vessels in the 200,000 dwt. class, drawing up to 62 ft.

HEALTH: Pratique is a certificate issued by Quarantine Office of U.S. Public Health Service releasing a vessel from Quarantine.

(1) Radio Pratique may be granted by medical officer, by radio, basis information regarding vessel, cargo and personnel aboard, received prior to arrival of ship, when in the judgement, and in accordance with instructions by Surgeon General, U.S. Health Department, entry of vessel will not result in introduction, transmission or spread of communicable diseases.

(2) In general a vessel arriving in port under control of United States shall undergo Quarantine Inspection prior entry unless in current voyage vessel has not touched any port other than ports under control of United States. Exception: Inspection required if vessel has aboard person infected or suspected of being infected with any infectious communicable diseases or arrives directly from port where at time of departure were present or suspected of being present cholera, plague or yellow fever, or where there was significant increase in prevalence of smallpox or typhus at time vessel touched there.

(3) Notwithstanding above, a vessel receiving pratique at a port under control of United States, or Possessions, a duplicate pratique from Canada or the Canal Zone, shall comply with any conditions and carry out any additional measures specified in pratique.

(*a*) Free pratique shall signify that vessel and Master may enter, discharge cargo and land passengers.

(*b*) Provisional pratique shall signify that vessel may enter, but additional measures as specified in such certificate must be taken in connection with discharge of cargo or landing of passengers, or sanitary conditions of the vessel. Free pratique shall be issued after such additional measures have been completed.

RADIO: Station KOU Marine Operator, San Pedro.

Channel 1 – ship transmit on 2009 kHz, receive on 2566 kHz.

Channel 2 – ship transmit on 2382 kHz, receive on 2455 kHz.

Station KOU also monitors Channel 16 (1568 mHz) for distress, safety and calling.

RADAR/VHF: Radar service provided to vessels only if Pilot aboard, in which case radar advisory information will be fed from shore-based radar at pilot station. VHF see "Pilotage".

TUGS: Tugs will meet vessel inside breakwater prior reaching inner harbour area. Pilot and tugs are in communication.

BERTHING: No requirement as to time of entry providing berthing arrangements have been made with Port Authority. Assignments classified as follows:

Preferential Assignments. Secondary Assignments, Subordinate Right granted for use of Preferential Assigned Berth. Temporary Assignment—temporary permission granted to use certain berth.

Note: All berth assignments shall be held by Assignee subject provisions of Port of Longbeach Tariff No. 3 as to charges, rates, rules and regulations applicable thereto, and to all of terms, conditions and provisions contained in such assignment.

BRIDGES: No restrictions into port of Long Beach. The Gerald Desmond Bridge over Back Channel has vertical clearance of 155 ft. Cerritos Channel which connects Long Beach through back channel to Port of Los Angeles has two bridges which must be opened for passage of vessels.

Signal for Opening: Three long blasts on horn or whistle. During inclement weather, call through a megaphone or loud and distinct stroke of bell.

MEDICAL: Advance notice preferable. Adequate hospital and medical facilities available for providing necessary or emergency care. From information available, Public Health Department may, if required, request certain information prior to granting free pratique for inoculations, Vaccination/Fever Certificates.

TANKERS: There are four tanker berths available, operated by private companies, in addition to the seven municipal tanker berths now in operation and one under construction. Berths have 55 to 37 ft. of water alongside at mean-lower-low-water. The range between MLLW and mean-high-water is about 3·7 feet. Extreme range of about 9 ft. may occur at times of maximum tide. Chicksan loading and discharge arms are used and adapters available for various size fittings. Tanks available for discharge of ship's residue and SG and API local type oil (loading or discharging).

DENSITY: Local water density 1.025 or pure sea water at all stages of tide.

FRESH WATER: Potable fresh water available all Municipal berths through 2 in. lines. Rental charge for use of each 50 ft. length water hose when furnished.

FUEL: All grades (viscosities) of bunker fuels available in any amount through pipelines at most Municipal berths, and by barge at anchor or at berths if desired. Notify quantity and type desired to local Steamship Company or Agent.

FIRE PRECAUTIONS: Two fire boats and one fire station; in addition City fire service available.

Special fire precautions required at all berths handling petroleum products or dangerous cargoes. In addition to all applicable provisions of Long Beach Municipal Code, flammable and combustible liquids and flammable gases shall be handled and stored at Marine Petroleum Terminals in accordance with minimum fire safety requirements promulgated by Chief, Department of Fire, City of Long Beach.

DEVELOPMENT:

(1) Under construction, four container berths on Pier G, the terminals will each have a travelling gantry crane and backup parking for 750 containers as well as office spaces, and warehouses for less than container lots. Available 1973.

(2) The complete containerization complex will consist of 12 berths and nearly 300 acres. Eight berths in operation 1972.

(3) A new bulk oil terminal is being constructed to accommodate vessels up to 200,000 dwt., drawing 62 ft.

GANGWAY/DECK WATCHMEN: Normally used, but only compulsory when detainees aboard.

OPENING/CLOSING HATCHES: Crew can open or close hatches at sea or at anchor. If closed or opened at dockside, the use of longshoremen compulsory.

CUSTOMS ALLOWANCES: Tobacco, each crew member entitled to 300 cigarettes, 50 cigars and 3 pounds of tobacco or combination of above. If stay in port is such that additional tobacco is required, Customs will so issue. Wine and/or Spirit, not to exceed 1 quart of alcholic beverage each adult non-resident. This exemption for alcoholic beverages may be applied to more than one kind but not to an aggregate volume of more than one quart for each adult crew member.

Note: Upon arrival of vessel from foreign port, or vessel engaged in foreign trade from a domestic port, sea stores and ship's stores not required for immediate use or consumption on board while vessel in port, and articles acquired abroad by officers and members of crew, for which no permit to land has been issued, shall be placed under seal, unless Customs Officer is of the opinion that circumstances do not require such action.

CARGO GEAR: Employer shall not use ship's cargo handling gear until he has ascertained that vessel has a current and valid Cargo Gear Register and Certificate indicating that cargo gear has been tested, examined and annealed in accordance with requirements of International Labor Organization Convention No. 32.

IDENTIFICATION CARDS: U.S. Department of Justice Immigration and Naturalization Service Form I-95-A (Form I-94 for passengers) must be completed.

CONSULS:

REPAIRS: Within greater port area facilities to accomplish all types of deck and engine repairs.

DRY DOCKS: Within greater port area three large private commercial dock yards, Bethlehem Shipbuilding and Repair, and Todd Shipyard Corporation, and California Shipbuilding and Drydock Co. with large floating dry docks and repair facilities. Also, three large capacity graving docks located at Naval Shipyard available for emergency use by merchant vessels when not occupied by naval vessels.

REPATRIATION: Through U.S. Department of Justice Immigration and Naturalization Service, and clearance of personal effects by U.S. Customs.

AIRPORT: Los Angeles International Airport approximately 18

miles from port, and provides regular scheduled and international airline service.
TIME: GMT minus 8 hours. United States observes Daylight Saving Time, begins at 2 a.m. (0200) on last Sunday of April each year and ends at 2 a.m. (0200) on last Sunday of October of each year.
HOLIDAYS: "Legal holidays" shall mean and include the 1st day of January, the 12th day of February, the 22nd day of February, the 30th day of May, the 4th day of July, the 1st Monday in September, the 9th day of September, the 12th day of October, the 11th day of November, Thanksgiving Day in November, the 25th day of December, and every day on which an election is held throughout the state of California, and every day appointed by the President of the United States or by the Governor of the State of California for a public fast, thanksgiving or holiday, excepting those appointed by the President or Governor as special or limited holidays. If any of the days enumerated falls upon a Sunday, the Monday following shall be deemed to be a legal holiday.
POLICE/AMBULANCE/FIRE: Port of Long Beach—Police 436–9811; Ambulance 436–9811 or 436–8211. Fire 436–8211; Harbour Security Officer 437–0041; U.S. Customs 436–3916
In an emergency and unable to dial direct – dial operator giving telephone number and exact location where emergency exists.
TELEPHONE: Installation of telephone aboard ship at Municipal berths.
GENERAL: For information regarding various social organisations, call 436–9041. Long Beach Recreation Department, for information.
SERVICES: All services from tank cleaning to compass and instrument repair available at various locations within greater port area.
SHORE LEAVE: Crewmen allowed shore-leave providing necessary application presented to U.S. Immigration Officer and approved and Crewmen's Landing Permit issued (Form I-95A). Customs declaration required for articles to be landed by crew members (one quart of alcoholic beverage with seal broken is allowed).
DELAYS: Arrival at berths are normally on time as scheduled. However, there are times of inclement weather or lack of cargo at a berth which might create a short delay. Shortage of longshoremen can also cause a delay in discharging or loading cargo. No delay experienced in bunkering.
AUTHORITY: Board of Harbor Commissioners, Port of Long Beach, 925 Harbor Plaza, PO Box 570, Long Beach, California 90801. Tel. 437–0041 (Area Code 213). Cable Portobeach.

LONGVIEW, Washington: 46.08 N. 122.55 W.

DOCUMENTS:
3 Complete Cargo Manifests.
3 Store Lists.
3 Possession Lists.
3 Crew Lists on Immigration forms.
Vessel Documents.
Tonnage Tax Statement.
Quarantine Form completed.
At first port of arrival, ship is boarded and inspected by Customs, Immigration, Public Health and Agriculture officials. At each subsequent port only a Customs Agent will board prior to docking.
PILOTAGE: See "Portland, Oregon".
ANCHORAGE: Safe anchorages indicated by Columbia River Pilots.
RESTRICTIONS: None in regard to arrival time or state of tide. Channel depth 35 ft. at mean low water and tidal range varies between 2½ and 4 ft.
MAX. SIZE: No limitation on length or breadth. Draft limited to 35 ft.
HEALTH: Pratique automatic after vessel is inspected by Public Health doctor at first port of entry. See "Portland, Oregon".
TUGS: Columbia River Pilots have knowledge of tug positions and other knowledge pertaining to tugs aiding a vessel.
BRIDGES: One bridge crossing Columbia River at Longview has sufficient clearance so as not to present a problem.
BULK HANDLING FACILITIES: In addition to the Berth 6–7 area, containers are being handled by two gantry cranes at Berths 1 and 2. There is also considerable backland storage area available near these berths for storage of containers.
A facility for unloading aluminium ore from Reynolds Metals Company's custom-built vessels is located at Berth 5. The alumina discharge equipment consists of two travelling hoppers with boom conveyors which extend over the face of the wharf to the side of the self-unloading vessel. These hoppers feed alumina on to a 60-in. electric belt conveyor located along the lower 451 ft. section of the wharf.
The Continental Grain Company operates a 700,000 to 800,000 bushel elevator at the Port of Longview Terminal. An overhead grain gallery equipped with two 36-in. electric belt conveyors extends from the elevator to the grain berth and then for 225 ft. along the rear of the wharf where it serves five vessel-loading spouts located on the face of the berth. Vessels can be loaded with grain through any two of the given spouts at a combined rate of 29,040 bushels per hour.
STEVEDORES: At least 24 hours notice necessary to arrange gangs before ETA. Arrange through port Office via Ship's Agent.
MEDICAL: Hospital facilities available.
TANKERS: Petroleum discharge lines consist of one 12-in. and three 8-in. pipelines. One tanker berth available.
DENSITY: Columbia River is fresh water at Longview.
FRESH WATER: Available through 8-in. line with 2½ in. connections. Rate of delivery approximately 14½ tons per hour.
FUEL: Bunker C fuel available through 12-in. line at 850 barrels per hour, and light diesel fuel through 9-in. line at 1,200 barrels per hour.
DEVELOPMENTS: Channel depth to be increased from 35 to 40 ft.
GANGWAY/DECK WATCHMEN: Not needed, but arrangements can be made if necessary.
OPENING/CLOSING HATCHES: Work carried out normally by stevedores.
CUSTOMS ALLOWANCES: See "Portland Oregon".
IDENTIFICATION CARDS: Advisable but not necessary.
CONSULS: At Portland, Oregon.
REPAIRS: Some deck and minor engine repairs are possible at Longview.
REPATRIATION: No facilities for effecting crew changes or repatriations.
AIRPORT: Nearest airport served by regular airlines is in Portland. Charter flights may be arranged from a small local airport.
TIME: GMT minus 8 hours. In addition, clocks are moved ahead one hour on the last Sunday in April and returned back one hour on the last Sunday in October, at 2 a.m. local time on those two days.
HOLIDAYS: New Year's Day (Jan. 1); Washington's Birthday (Feb. 22); Memorial Day (May 30); Independence Day (July 4); Labor Day (first Monday in September); Veteran's Day (Nov. 11); Thanksgiving Day (fourth Thursday in November); Christmas Day (Dec. 25). Cargo work can be arranged on most of these holidays.
POLICE/FIRE/AMBULANCE: Police 423–1424; Fire 423–3212; Ambulance 425–3820.
TELEPHONES: Available at dockside.
SHORE LEAVE: Crews allowed ashore if papers are in order.
AUTHORITY: Port of Longview, PO Box 1258, Longview, Washington 98632, U.S.A. Tel. (206) 425–3305. Telex (910) 473–8615.

LOS ANGELES, California: 33.43 N. 118.17 W.

PORT LIMITS: The seaward boundary of the port of Los Angeles is, for most purposes, the breakwater through which arriving vessels pass at Angels Gate Light.
DOCUMENTS: First Port of Arrival.
1 Complete Manifest deposited with customs, original and traveller.
1 Complete Manifest returned to vessel.
1 Manifest of first port cargo deposited with customs broker.
2 Quarantine Declarations (Form PHS 43).
2 Agriculture Declarations (Form AIQ 43).
1 Visaed Crew List (Form I-418) 5 additional copies.
1 Crewman's Landing Permit (Form 1-95A) for each crew member and (Form I-94) for each passenger.
1 Dangerous Cargo Manifest deposited with Captain of the port. 1 copy in hands of Chief Officer for review by the Fire Department.
The Coast Guard Captain of the Port must be informed of vessel's ETA 24 hours prior to vessel's arrival.
Second and each subsequent Port of Call in U.S.
2 Manifests of Cargo for second U.S. port left with customs.
1 Travelling manifest returned to Master.
(*Note:* Travelling Manifest is carried and deposited with customs at final port of discharge in U.S.—in addition to above required documents 4 additional copies should be available.)
PILOTAGE: Request made through Agent. Contact can be made through VHF Channels 14 (156·7 MHz) or 16 (156·8 mHz). Not less than 1 hour notice of arrival or departure. One long and one short blast on ship's whistle or siren, or international signal. Pilot will board in vicinity of sea-buoy (LA entrance buoy, lighted bell buoy "L.A." black and white vertical stripes. Radar reflector).
ANCHORAGES: Anchorages defined on charts. No permit required to anchor less than 10 days. Permit for over 10 days obtained from Captain of the port, USCG. Permit is required for Explosive anchorage.
MAX. SIZE: Restrictions on draft only. Main channel and inner harbour 35 ft. Super tanker terminal in outer harbour has fairway of 51 ft.
HEALTH: Immunisation certificates for crew and/or passengers. Deratting certificate or deratting exemption certificate. Report of cargo aboard in general, if any rats have been trapped. Report to the effect of a rat control programme.
Tons of cargo and tons to be discharged. Report of any illnesses. Report of ports touched last 60 days or last port of call. U.S. Public Health to be notified 4 hours in advance of arrival. All foreign ships arriving will be inspected – cleared at first port of entry. Radio pratique available on request to Agent.
RADIO: International Telephone and Telegraph, call letters "KOK" Los Angeles radio.
RADAR/VHF: The Los Angeles harbour pilot's station equipped with radar for use of Pilots. The Pilots also monitor VHF channels 14 (156·7 mHz) and 16 (156·8 mHz).
TUGS: on stand-by 24 hours a day. However, should be ordered prior arrival. Tugs join vessel in main channel, tug lines used, except when towing astern.
BERTHING: Generally arranged through Agent. Berthing under control of Port of Los Angeles' Chief Wharfinger.
BRIDGES: Highway suspension bridge (Vincent Thomas) crosses main channel between berth 95 and berth 225; overhead clearance of 185 ft. in centre. Two bridges on Cerritos channel separating Los Angeles and Long Beach harbours, one a double leaf-bascule (Badger Avenue Bridge) the other is a lift bridge (Schuyler F. Heim), as these bridges are less than 50 ft. apart they will be treated as one, overhead clearance 155 ft. at centre of Heim bridge.
SPECIALISED CARGO-HANDLING: The port of Los Angeles has four major container terminals. Depth alongside berths, 35 ft.

There are at least seven terminals capable of handling the port's roll-on/roll-off traffic.

The bulk loading facility, expecially designed to handle iron ore and iron ore pellets, also handles other commodities such as coal and other dry bulk materials. Wharf length 800 ft. Depth alongside 51 ft. Loading rates up to 2,700 tons per hour.

The grain and tallow terminals at berth 174 have 13 silos that hold 410,000 bushels. Vessels can be loaded at a rate of up to 400 tons per hour. Accommodating vessels up to 35 ft. draft, any length.

Other specialised facilities include the McGuire Petro Chemical Terminal, designed especially to receive petro chemicals; the Hugo Neu Corporation installation, where old automobiles are reduced to scrap metal for export; Coos Head and Sun Lumber Terminals; Cargill and National Molasses Terminals; United Fruit Company's Banana Terminal and the processing and shipping plant of the U.S. Borox Company.

STEVEDORES: Agents make necessary arrangements.

MEDICAL: Necessary to notify Agents of required medical attention: this can be done when final ETA is determined. Hospital facilities available (private).

Vaccinations/fever certificates, etc., shall conform with rules and models prescribed by the International Sanitary Regulations.

TANKERS: Load and discharge lines have 6- and 8-in. standard flanges (super-tanker terminal has 12-in. lines with standard flanges). If not so equipped ship must furnish its own "C" clamps. Recommend ship have reducers on board to handle 6- and 8-in. flanges. Residue discharge facilities available for limited quantities. All types and grades of petroleum available. Twenty tanker berths available in inner harbour, 35-ft. draft at MLLW, two are available outer harbour 51 ft. draft at MLLW.

DENSITY: Average density 0·026 (exception during or after heavy rain).

FRESH WATER: Availability unlimited, delivery universal, rate of delivery 100 tons an hour.

FUEL: Unlimited fuel, all grades at attractive rates. 48 hours advance notice generally required.

FIRE PRECAUTIONS: Whenever vessel bunkering, sufficient serviceable fire hose with suitable nozzles attached to reach all parts of vessel shall be connected to fire main on vessel and made ready for instant use at all times during bunkering operations. If no adequate water pressure available on board, connections shall be made to shore lines to obtain adequate pressure. All Tank Ships shall be moored bow seaward and have wire towing pendants rigged fore and aft readily available for emergency use, fire hoses shall be connected as above at all times while vessel in port.

International fire signals will be used in case of fire (5 prolonged blasts of ship's whistle or siren of 4 to 6 seconds duration).

DEVELOPMENTS: Depths at Los Angeles will be increased in the Inner Harbour from 35 ft. to 45 ft. by 1975, and from 50 ft. to 80 ft. in the Outer Harbour by 1978.

GANGWAY/DECK WATCHMEN: Gangway watch recommended. Tankships and vessels handling dangerous cargo required to have gangway and deck watch.

OPENING/CLOSING HATCHES: Automatic hatches may be opened and closed by crew, manual hatches opened and closed by stevedores.

CERTIFICATES: *Passenger Vessels:*

Safety Certificate, with 50 or more passengers must comply with 1966 amendment (fire safety amendment) to Solas 60.
Load-line Certificate.
Radio Certificate.
Radio Telephone Certificate, if aboard.

Cargo Vessels:

Safety Equipment Certificate.
Load-line Certificate.
Certificate of Inspection/home Certificate.
Trading Certificate
Cargo Gear Certificate.
Radio Certificate, Radio Telephone Certificate, if aboard.
If carrying passengers from U.S. ports, vessels must have PAC (Persons in Addition to Crew) Certificate issued by USCG.

Tank Vessels:

Same as cargo. Exception: if carrying exotic cargo, required to have cargo facilities plan, reviewed and approved by USCG, Washington, D.C. On vessel's first visit it will be inspected and receive a letter of compliance.

CUSTOMS ALLOWANCES: Tobacco, either 300 cigarettes, 50 cigars, or 3 pounds of smoking tobacco, for the personal use of crew member. Wine and/or Spirit, 1 quart for personal use of crew member.

CARGO GEAR: Gangway net attached between ship and dock; extending 5 ft. beyond turntable in one direction and 5 ft. beyond point of intersection of gangway and stringpiece in the other direction. Preventer guy must be rigged separately to head of boom from working guy. Exception if cast head of boom is capable of withstanding the stress of all the lines attached thereto. (This is a West-Coast requirement).

IDENTIFICATION CARDS: 1 crewmans landing permit (Form I-95A) or immigration card (Form D-1).

CONSULS:

REPAIRS: All types of deck and engine repairs possible.

DRY DOCKS: Largest dry dock 659 ft. by 97 ft., 22,000 displacement tons. 3 smaller dry docks (17,500, 15,000, 10,000 tons).

REPATRIATION: Arrangements can be made through immigration on request of agent to have crewman change ship or return to home port.

AIRPORT: Approximately 20 miles to International Airport which serves all major airlines.

TIME: Standard Time, GMT minus 8 hours. Daylight saving time GMT minus 7 hours (April through October).

HOLIDAYS: Cargo may be worked on holidays with holiday pay scale. Exception: the first Thursday in July, at which time it is almost impossible to find working crews, although there are now exceptions to this practice.

POLICE/AMBULANCE/FIRE: The telephone numbers are all the same (area code 213) 831–9211, simply ask for Police, Ambulance or Fire. Fire Alarm boxes adjacent to all cargo sheds.

TELEPHONES: Connections for passenger vessels at passenger terminals only.

SERVICES: A ship-reporting service "The Marine Exchange" located at entrance to main channel, Los Angeles harbour. They monitor Channels 14 (156·7 mHz) and 16 (156·8 mHz) VHF and have Channel 9 (156·45 mHz) VHF as their own. Primary duties are reporting arrivals, departures and locations of vessels.

SHORE LEAVE: Crew members are allowed ashore.

PORT REGULATIONS: Permits required for hot work (welding, cutting etc.) Permit required for any dangerous cargo. Permit to discharge ballast (clean water) required. Restrictions on bunkering operations (scuppers plugged, valves closed).

DELAYS: No delays in berthing, load or discharge or bunkering can be expected.

AUTHORITY: The Harbor Department, City of Los Angeles, 255 W. 5th Street – Pacific Trade Center Building, San Pedro, California 9073. Tel. (213) 832–7241.

MAGPETCO, Texas: 30.02 N. 93.59 W.

DOCUMENTS, PILOTAGE, HEALTH, RADIO, etc.: Refer to "Port Arthur". Also see "Port Neches".

METLAKATLA, Alaska: 55.08 N. 131.35 W.

Located on Annette Island. Open all year.

DOCUMENTS: See "Anchorage, Alaska".

PILOTAGE: Ships coming up from the Hecate Straits or outside of Graham Island proceed into Dixon Entrance to the vicinity of Point McCartey where the Pilot will meet them. Vessels coming up the inside passage from Vancouver, B.C. are met at Lucy Island Pilot Station.

MAX. SIZE: Depths in harbour 120 ft. Tides: diurnal range – 14·7 ft. Also see "Berthing".

ANCHORAGE: Good anchorage in gravel and mud.

CUSTOMS: Quarantine, Immigration and Customs, from Ketchikan.

BERTHING: Two berths: 1. City Dock: 400 ft. long and 60 ft. wide. More than 35 ft. deep. Due to shallow water at East end, a starboard landing is usually made. No covered storage, temporary open storage. Four fork-lifts, two of 20,000 lb capacity.

2. Annette Island Canning Co.; 200 ft. long and 23 ft. deep. 15-ton crane and 2 fork-lifts. One 25-ton fork-lift.

TUGS: Available in Ketchikan.

STEVEDORES: Four gangs available.

REPAIRS: Facilities at Ketchikan.

SUPPLIES: Bonded and unbonded stores from Ketchikan.

WATER: Available.

FUEL: Not available.

MEDICAL: Hospital available in Ketchikan; small clinic in Metlakatla.

AIRPORT: Small charter plane only. Jet to Juneau and Seattle from nearby Annette. (Water transportation to Ketchikan.)

MIAMI, Florida: 25.46 N. 80.11 W.

DOCUMENTS: See "Jacksonville".
PILOTAGE: Address: Biscayne Bay Pilots, PO Box 134, Miami Beach, Florida.

Advance notice, 1 hour. To call pilot office: call on VHF Channel 16 and switch to 12. Pilot boat can be called on 2182 kc/s or 2738 kc/s. Pilot boat black hull with orange deck. 36 ft. long. Fly code flag G for a pilot. Pilot boat flies code flag H. Pilot boat moors at pilot station at Government Cut, 2 miles west of sea buoy.
ANCHORAGE: Vessel can anchor near sea buoy. Anchorage area located Eastward of a line about 1·5 nautical miles offshore and Northward of a line about 0·5 nautical miles North of sea buoy at the entrance to the ship channel. Area marked by spar buoys to North and South. Depth of water is 26ft. at MLW to over 100 ft.
ENTRY RESTRICTIONS: Pilots available 24 hours per day. Channel, turning basin and main channel have 30 ft. MLW. Mean range of tide at harbour entrance 2·5 ft. and in bay 2 ft. Tidal current average velocity of 2 knots. Extreme tidal range at entrance of 4·5 ft. Main ship channel can have tidal current velocity of 3 to 4 knots through main ship channel.
MAX. SIZE: Recommend draft restriction of 27 ft. at MLW. Size restricted by size of turning basin which has 30 ft. at MLW, is 1,700 ft. North and South; 1,650 ft. East and West. No limit to length at new port which has 9,000 ft. of straight bulkheading and 31 ft. at MLW. A 1,000 ft. ship can be handled in turning basin if draft under 27 ft.
HEALTH: See "Jacksonville".
RADIO: The Coastguard can be raised on 2182 kc/s (distress and calling). Pilot station can be raised on VHF Channel No. 16. Telephone contact to Agents, receivers, etc., can be made via Miami Marine Operator.
TUGS: Large tugs up to 2,000 h.p. available 24 hours per day. Request tug service via pilot station. Big tugs privately owned by Belcher Oil Company who work closely with Pilots. Smaller tugs available on Miami River and operated by Backus Towing Inc.
BERTHING: All berths assigned on a basis of first come first served. Request for a berth must be made by Ship's Agent on a port form. This request should be made as far in advance as possible, but at least 7 days when possible. Three roll-on roll-off ramps available, 100 ft. by 40 ft. each and 7½ ft. above MLW. A berth will be held about 4 hours then reassigned if necessary.
BRIDGES: There are no bridges between the open sea and the port. To enter Miami River requires passage through a highway and railroad bridge. This bridge manned 24 hours per day. Only smaller ships enter Miami River which is dredged to 15 ft. at high water and is 150 ft. wide for a distance of 3 miles above entrance. A bridge about ½ mile from entrance is closed from 7 a.m. to 9 a.m. and 4 p.m. to 6 p.m.
TANKERS: No slop (residue) discharge facilities. One tanker berth (1,000 ft.) available. Maximum draft 30 ft. at MLW. No special fittings required.
FRESH WATER: Available every 240 ft. at new port on Dodge Island. Delivered via hose.
FUEL: All grades; bunker, intermediate and marine gas oil, Diesel, bunker C. Ships fuelled at dockside from Belcher Oil Co. barges.
FIRE PRECAUTIONS: Usual safety precautions on smoking, flying baker, mooring pendant available, ample persons aboard to fight fires, fire hose led out, etc.
DEVELOPMENTS: A passenger terminal to serve seven ships simultaneously on main approach channel where ships may turn at berth site in the 900 ft. width provided. Completed in last two years. Additional dredging of all main channels and turning basin approved to 36 ft. MLW started 1972.
GANGWAY/DECK WATCHMEN: Usual shipboard watches to tend lines. Special guards (security) through Wackenhut, Burns Security, etc.
OPENING/CLOSING HATCHES: Work normally done by longshoremen.
CUSTOMS ALLOWANCES: See "Jacksonville".
IDENTIFICATION CARDS: Definitely needed in order to return to ship at night. A security guard at new port will check.
CONSULS:

Argentine	tel. 373–7794	France	tel. 374–2626

Finland	,, 374–5111	Sweden	,, 667–8816

REPAIRS: All deck and engine dockside repairs available.
DRY DOCKS: To 1,000 tons plus two small facilities.
AIRPORT: Eight miles or 15 minutes from airport by expressway. Serviced by 24 foreign and 10 United States scheduled air carriers.
TIME: Eastern Standard Time, GMT minus 4 hours. Daylight Saving Time in effect from first Sunday in April to first Sunday in October and adds one hour to Eastern Standard Time.
HOLIDAYS: Official holidays are New Year's Day (January 1); Memorial Day (May 30th) Independence Day (July 4th); Labor Day (first Monday in September); Columbus Day (October 12th); Thanksgiving Day (last Thursday in November); Christmas (December 25th). Cargo can be worked on holidays by advance arrangement and payment of double time.
POLICE/AMBULANCE/FIRE: Police Department, tel. 377–7011; Fire Department 377–6231 (Rescue Squad 377–6231).
TELEPHONES: Telephone jacks available at every other bay which places the jacks 240 ft. apart.
SERVICES: All types of special services such as tank cleaning, compass adjusting, admeasurement, radar/radio repairs, rathometer repairs, etc. available.
SHORE LEAVE: Crew members are allowed ashore after clearance by customs, immigration and quarantine.
AUTHORITY: Port of Miami. Bills are to Dade County Seaport Department. Tel. 377–5841. No Telex. Address: 1015 North American Way, Room 210, Miami, Florida 33132.

MILWAUKEE, Wisconsin: 43.01 N. 87.53 W.

PORT LIMITS: The port of Milwaukee limits are generally considered to be the harbour breakwall housing the harbour entrance lighthouse. However, unless specifically declared to the contrary in the covering charter party, a vessel will be considered an "arrived ship" upon anchoring outside the harbour breakwall, in the event that a proper berth and/or anchoring space inside the harbour breakwall is not available.
DOCUMENTS:
Vessels from Canadian ports
Dominion clearance and Public Health Pratique (both issued at Montreal).
Vessels from all other nations (Required only at first port of call)
Inward Foreign Manifest(s)
Stores Lists, over master's oath.
Curio Lists, over master's oath.
Permit to Lade and Unlade.
Discharge Manifest.
Inspection by U.S. Dept. of Immigration (Crew List).
Inspection by U.S. Dept of Agriculture.
Receipt of Entrance fee.
Receipt of Tonnage Tax.
Additional documents may be required, dependent on commodity involved in the carriage, point of origin, flag, or any unusual circumstances existing.
PILOTAGE: Pilot boards at Montreal and at several other stations along St. Lawrence Seaway route.
ANCHORAGES: The chart does not delineate anchorage area for large vessels but shows the 28 ft. depth just East of South Piers 1, 2, and Liquid Cargo Pier. This deep area, about 2,400 ft.×5,400 ft., used by large vessels for anchorage.
MAX. SIZE: 739 ft.×75 ft. with 26 ft. draft. No tidal effect, although lake levels vary seasonally. Minimum depth above low water level 27 ft.
HEALTH: U.S. regulations.
RADIO: Radio station at City Heavy Lift Dock. Harbour Master and Dock Superintendent can be reached at this facility Monday through Friday between 0800 and 1630; 156·8 megacycles and 156·5 megacycles
TUGS: Normally pick up vessel inside breakwater. Tugs optional at discretion of ship's Master. Fee for use of tug's lines.
BERTHING: The time of passing harbour entrance lighthouse establishes order of berthing, provided vessel is ready to work.
BRIDGES: Bridges closed between 0730 and 0830 and 1630 and 1730 except on Sundays and eight legal holidays. In addition, two hours' notice required for opening bridges across Milwaukee River North of and including Buffalo Street.
SPECIALISED CARGO HANDLING FACILITIES: In addition to the four general cargo terminals of approx. 400,000 sq. ft. covered area (11 berths), the port is served by two refrigerated warehouses of 2,500 and 10,000 sq. ft. respectively; one open dock area (2 berths) for handling bulk commodities such as pig iron; one open dock (3 berths) for heavy lifts and equipped with a 200-ton stiff leg crane and two gantry cranes of 70 and 50 tons; one liquid cargo pier for edible and inedible fats, greases and tallow; two grain elevators of 3·5 million and 2·5 million bushel capacity and two scrap iron loading facilities. The port is also equipped with a mobile heavy crane lift/container crane capable of serving all berths.
STEVEDORES: Vessel should provide a stowage plan, manifest of inbound cargo and exceptions list (unusual vessel or cargo characteristics effecting facilitation of cargoes). Vessel should comply with the U.S. Dept. of Labor's safety regulations.
MEDICAL: Advance notice desirable. Hospitalisation available.
TANKERS: Diameter of load lines and discharge lines 8 in. and 10 in. No slop residue facilities. Four berths available, with draft to seaway depth.
FRESH WATER: Potable water available at most berthing areas.
FUEL: All grades of fuel oil available by truck delivery at shipside.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: At the option of ship, if terminal stevedores perform operation, it is based on cost plus 20%.
CERTIFICATES:
Registry of Ship.
Master's Licence.
1st, 2nd and 3rd Officer's Licences.
Radio Licence.
Wireless Operator's Licence.
Ratification Certificate (done each year).
(Additional certificates may be required, dependent upon Registry, cargo, trade route engaged in, nationality of crew, etc.).
CUSTOMS ALLOWANCES: Tobacco, 10 packages or 200 cigarettes in possession at any time. Wine and/or Spirits, one bottle per officer.
IDENTIFICATION CARDS: U.S. Immigration rules.
CONSULS: The following countries are represented:

Costa Rica	Germany	Pakistan
Dominican Rep.	Nicaragua	Sweden
Ecuador	Norway	Yugoslavia

REPAIRS: Limited to above water line, and boiler repairs.
REPATRIATION: Local Agents effect repatriation.
AIRPORT: 5 miles distant.
TIME: U.S.A. Central Time. Central Daylight Time from late April to late October—5 hours behind GMT. Central Standard Time from late October to late April—6 hours behind GMT.
HOLIDAYS: Easter Sunday; May 30 (if on a Saturday, previous day is a holiday); July 4 (if on a Sunday, Monday is a holiday); First Monday in September; Fourth Thursday in November and following day; Christmas Day; New Year's Day. Cargo can be worked on these days at holiday pay.
POLICE/AMBULANCE/FIRE: Police – non-emergencies 273–8660; Emergency, including emergency ambulance service 765–2323; Fire, including rescue squad service 347–2323.
TELEPHONES: Can be arranged, but unnecessary because sufficient phones available in dockside offices.
GENERAL: Chandlery services for foodstuffs, ship complements and laundry services available. Garbage and waste disposal are available through private operators, chandler usually making the arrangements.

The Liquid Cargo Pier is also available for non-petroleum liquid cargoes.
SERVICES: Tank cleaning. Tank-washing. Compass adjusting, none, but can be arranged from out of town by Agent.
SHORE LEAVE: Crew allowed ashore.
DELAYS: Little or no delay.
AUTHORITY: Board of Harbor Commissioners, City of Milwaukee, 606 City Hall, Milwaukee, Wisconsin 53202.
AGENT: Nordship Agencies Inc., 647 West Virginia Street, Milwaukee, Tel: 414–276–2740. Telex: 26–94–21. Cables: Nordship Milwaukee. After Hours Tel: Mr. M. W. Schafer 414–251–8022. Mr. J. Trinitapoli 414–482–0602.

MOBILE, Alabama: 30.40 N. 88.02 W.

DOCUMENTS:
3 copies Cargo Manifest (Forms 7527-A or 7527-B), the original showing all cargo on board, and 2 copies showing only cargo for this port.
2 copies Crew Manifest (curio list).
2 copies Stores List.
2 copies Passenger List (Form I.418).
2 copies Crew List (Form I.418).

Customs boarding Officer will also examine Ship's Register and Load-line Certificate. In addition, the following documents will be required for formal entry to be made within 48 hours of arrival from abroad, or 24 hours from arrival from a United States port:
Health Pratique.
Master's Oath (Customs Form 3255).
All foreign clearances.
U.S. Certificates of payment of tonnage tax (Customs Form 1002).
Certified crew list.

PILOTAGE: Pilotage is compulsory.
ANCHORAGE: If berth is congested, vessel may anchor at the bar (35 miles from harbour) or three (3) anchorages in Mobile River. At river anchorages, vessel is secured to shoreside clusters and most services are obtainable via launch.
RESTRICTIONS: Controlling depth: 40 ft. for entrance, channel and anchorages. Mean tidal range 1½ ft. Nature of bottom: soft mud. Vessel can dock and sail at any hour at any stage of the tide.
HEALTH: Radio pratique may be granted basis information received prior to arrival of vessel, provided no communicable diseases on board.

Normally, vessels are boarded by medical officers on arrival unless free pratique previously given at U.S. port in the same voyage. If granted free pratique, vessel may enter port and discharge passengers and cargo. If given provisional pratique, vessel may enter port, but must take any additional measures specified in connection with discharging passengers and cargo, until free pratique is given.
TUGS: There are five tugs available 24 hours with maximum horsepower of 1,800.
BERTHING: There are 34 berths at most of which, direct loading or unloading can be effected from quayside tracks.

Public Grain Elevator, depth alongside 42 ft. Two berths, each with 5 loading spouts.

Bulk Handling Plant, three berths, depth alongside 40 ft. Total quay length 1,600 ft.

Depth alongside other public berths as follows:

Pier 2	38 ft. MLW	Pier River End B	38 ft. MLW
Pier 3	38 ft. MLW	North Pier B 1	40 ft. MLW
Pier 4	38 ft. MLW	Pier North B 2	40 ft. MLW
Pier 5	38 ft. MLW	Pier North B 3	40 ft. MLW
Pier 6	38 ft. MLW	Pier South C 1	41 ft. MLW
Pier 7	38 ft. MLW	Pier South C 2	41 ft. MLW
Pier 8	38 ft. MLW	Pier South C 3	41 ft. MLW
Pier South A	37 ft. MLW	Pier River End C	33 ft. MLW
Pier River End A	30 ft. MLW	Pier North C 1	39 ft. MLW
Pier North A 1	38 ft. MLW	Pier North C 2	37 ft. MLW
Pier North A 2	38 ft. MLW	Pier D Cold Storage	37 ft. MLW
Pier North A 33	38 ft. MLW	Berth 1 tipple	Under repairs
Pier South B 1	41 ft. MLW		
Pier South B 2	41 ft. MLW	Berth 2 tipple	44 ft. MLW
Pier South B 3	41 ft. MLW	Berth 3 tipple	40 ft. MLW

TANKERS: Maximum length 950 ft. restricted by turning basin. American Bituminals & Asphalt Co. – Jetty berth dredged to 38 ft. *Magazine Point:* Hess Terminal: Jetty berth dredged to 43 ft.
FRESH WATER: Available ex wharf at all berths.
FUEL: Most grades fuel/diesel available via pipeline, barge or truck.
STEVEDORES: Normal working hours for the port are 0800/1700 Monday through Friday.
REPAIRS: *Alabama Dry Dock & Shipbuilding Company* – Dry Docks ranging from 5,000 to 18.000 tons displacement all serviced by 51-ton gantries. Dock length range from 380 ft. to 620 ft. Also available is a 70-ton floating crane. Any type of repair can be effected.

Bender Ship Repair. One Dry Dock of 2,500 tons displacement. Majority of repair work is top-side. 100-ton floating crane available.
DENSITY: 1,000 (Fresh Water).
DEVELOPMENTS: Improving the present bulk material handling plant, construction of the container yard, and development of the new bulk material handling plant on McDuffie Island, where rotary wheel reclaimers will remove the coal from the vast storage pads on to fast-moving conveyors that will load the ships at a rate of up to 4,000 tons per hour.
CUSTOMS ALLOWANCES: At the discretion of customs officers. Normal allowance is 200 cigarettes or 2 lb. tobacco and one quart wine or spirits per man. Additional allowances may be given if considered necessary, due to length of vessel's stay in port.
IDENTIFICATION CARDS: Standard U.S. Immigration Forms I.95 to be made up for each crew member on arrival. Not necessary for crew man already holding Form I.95, issued for the same vessel.
HOLIDAYS: Absolutely no work is performed on New Year's Day, Easter, July 4th, Labour Day and Christmas Day. Working holidays are Mardi Gras Day, Veteran's Day and Thanksgiving Day.
AUTHORITY: Alabama State Docks Dept.

MOREHEAD CITY, N. Carolina: 34.43 N. 76.42 W.

DOCUMENTS:
3 copies Cargo Manifest (Form 7527–A or 7527–B), the original showing all cargo on board, and 2 copies showing only cargo for this port.
2 copies Crew Manifest (curio list).
2 copies Passenger List (Form 1418).
2 copies Crew List (Form 1418).

Customs Boarding Officer will also examine Ship's Register and Load-line Certificate. In addition, the following documents will be required for formal entry to be made within 48 hrs. of arrival from abroad, or 24 hrs. from arrival from a United States port:
Health Pratique.
Master's Oath (Customs Form 3255).
All Foreign Clearances.
U.S. Certificates of Payment of Tonnage Tax (Customs Form 1002).
Certified Crew List.

PILOTAGE: Pilots obtained from Morehead City Pilots' Association, Morehead City, North Carolina 28557. Tel. 726–6134.

The Port Terminal at Morehead City is 3·5 miles from the sea buoy. The port is located on the Intracoastal Waterway and is situated 75 miles S.W. of Cape Hatteras and 14 miles W. of Cape Lookout.

Pilots should be given 24 hours notice and then contacted by VHF Channel 16 about two hours before arrival at sea buoy R "2BI".

Pilot boat is about 40 ft. long, with white hull and superstructure; the hull is marked with "PILOT" in black letters on both sides.
RESTRICTIONS: The channel and basin at Morehead City are maintained at a controlled depth of 40 ft. – mean low water.

The wharf is constructed of concrete and steel and has marginal tracks and crossovers for full length. Truck ramps are located at various points for easy roll-on roll-off access.
HEALTH: Radio pratique may be granted basis information received prior to arrival of vessel, provided no communicable diseases on board. Normally, vessels are boarded by Medical Officers on arrival unless free pratique previously given at U.S. port on the same voyage. If granted free pratique, vessel may enter port and discharge passengers and cargo. If given provisional pratique, vessel may enter port, but must take any additional measures specified in connection with discharging passengers and cargo, until free pratique is given.
TUGS: Available. Service provided by Carteret Towing Co. Inc., Radio Island, Morehead City, North Carolina 28557. Tel. 919–726–5440.
BERTHING: The wharf is 3,720 ft. long. This length enables the port to provide berths for six 500 ft. general cargo ships and one petroleum tanker at any given time. Immediate expansion plans provide for a 1,470 ft. addition to the existing wharf.

Adjacent to the general cargo dock area is a 1,000 ft. deep-water berth for out-loading through the bulk handling facility.

Morehead City also provides a barge terminal with 1,200 ft. of modern berths. This terminal was developed as a part of the bulk handling facilities, but is also used for the loading or off-loading of a variety of cargoes.

The bulk handling facilities of the port terminal at Morehead City are designed to out-load bulk and aggregate cargoes at a rate of 3,000 tons per hour.

The out-loader is served by a 1,200 ft. gallery which feeds from a 106,000 ton storage warehouse, and in turn is fed by a portable conveyor system from the barge terminal. The entire system is automated.

Wharf: 3,165 ft. of continuous concrete wharf. 1,000/ft. deep-water berth for bulk-handling facility. Additional 2,000 ft. projected.

Barge Terminal: 1,200 ft. of dock space providing four 300 ft. berths.
Bulk Handling Facilities: 3,000,000 ton annual capacity bulk facility for receipt, conveyance, storage and shipment of bulk cargoes. Loading capacity 3,000 tons per hour, storage capacity 106,000 tons.
FUEL: Available from Blue Ridge Fuel Company, Esso Oil Company, and Texaco Inc.
CONSULS: Finnish Vice-Consul, Wilmington, N. Carolina 28401. Tel. 763–5451.
Royal Norwegian Consulate, Wilmington, North Carolina 28401. Tel. 763–8271.
IDENTIFICATION CARDS: Standard U.S. Immigration Forms 195 to be made up for each crew member on arrival. Not necessary for crew man already holding Form 195, issued for the same vessel.
SERVICES: There are no shipyards in the port. Service on any kind of electronic equipment is not available.
REPATRIATION: This is possible but should be avoided as there is no Immigration Office. Closest airport is about one hour's drive from the town.
TIME: Eastern Standard Time, GMT minus 5 hrs. Daylight Saving Time, GMT minus 4 hrs. from April to October.
AUTHORITY: Manager, State Port Terminal, PO Drawer 648, Morehead City, North Carolina 28557. Tel. 919–726–3158. Telex: 510–924–2983.

MYRTLE GROVE, Louisiana: 29.38 N. 89.57 W.

West Bank of Mississippi River, about 62 miles from sea.
DOCUMENTS/PILOTAGE/HEALTH: For all general information refer to "New Orleans".
TUGS: Two tugs required for vessels under 25,000 dwt. Three tugs for vessels over 25,000 dwt.
BERTHING: Mississippi River Grain Elevator Co. berths: distance between buoys 900 ft., alongside 400 ft. dock, depth 40 ft. Loading rates, 80,000 to 120,000 bushels per hour.
FRESH WATER: Not available.
FUEL: Not available.
DENSITY: Fresh Water (1000).

NAWILIWILI, Hawaii (including Port Allen): 21.57 N. 159.21 W.

DOCUMENTS:
4 Crew Lists.
4 Passenger Lists.
Customs Documents.
Clearance, Travelling Manifest.
Local Manifests.
Health Documents.
Bill of Health and Vaccination Certificates.
4 Manifests.
4 Bills of Lading.
Ship's Papers.
Certificate of Registration or Enrolment.
Annual Inspection Certificate.
Load-line Certificate.
De-Rat Certificate.
Drinking Water Certificate.
Radio Certificate and Licence.
4 Store Lists.

PILOTAGE: Vessel's Agent orders Pilot 48 hours in advance by telephone, correcting ETA as necessary with 4 hours final notice if a last-minute change occurs. Tug-boat Lihue III serves as pilot boat for Nawiliwili and Port Allen, 64 ft. long, hull black, house white, topsides orange. Radio telephone and VHF communication within 1 hour of arrival and while tug is working. 2638 and 2738 kc/s. and Channels 6, 12 and 16 on VHF. Pilot boards 1 mile East of Nawiliwili and ½ mile South of Port Allen. Signals in accordance with International Code.
ANCHORAGES: Nawiliwili: between Nawiliwili Light and Carters Point in 5–9 fathoms. Not good in strong trade-wind weather. Fair holding ground. Not recommended.
Port Allen: half mile South of Port Allen breakwater light in 5–10 fathoms. Fair holding ground. Untenable in Kona or South-west storms which occur from November to March.
RESTRICTIONS: 24 hours notice of arrival is obligatory. Nawiliwili: no entry at night. From October 21 to March 21 Pilot boards at 0630. Balance of year 0600. Port Allen: no time restrictions.
MAX. SIZE: Nawiliwili: Length 600 ft., beam 90 ft., draft 32 ft. 6 in.
Port Allen: Length 650 ft., beam 90 ft., draft 32 ft. on north side and 28 ft. on south side. Pier is 600 ft. long, so larger vessels overhang.
HEALTH: Usual quarantine regulations, doctor and Customs and Immigration and Agriculture and meat inspectors board at dock for vessels arriving from foreign ports. Serious or contagious diseases should be reported by radio. No quarantine for vessels from United States or Canadian ports.
RADIO: Communicate through RCA or ITT stations in Honolulu. Also KQM marine operator for radio telephone and telephone to Kauai.
TUGS: One 1,100 horsepower tug meets vessels off port and in outer harbour. Both ship's lines and/or tug's line may be used. No charge for tug's line. Tug has bow fender and is used for pushing. Has radio telephone, WP 4371 and VHF with Channel 12 usually used. Extra tugs available from Honolulu.
BERTHING: Limited to two large vessels at Nawiliwili and two at Port Allen. Considerable barge traffic. Prior reservations by Agent necessary with District Manager. Berth conflicts usually solved in Honolulu by rerouting of Island ports.
CARGO HANDLING FACILITIES: Nawiliwili has two sugar loading gantries on Pier 2; no equipment or storage to handle grain, ore, coal, sulphur. Fertiliser is discharged by self-unloading barge, and the bulk hauled away via truck. There is a container yard but no facilities to off-load containers. Weekly service is by a self-unloader. Roll-on/roll-off cargo is moved on ramps furnished by barges. LPG and petroleum product lines are privately owned.
STEVEDORES: All stevedoring by McCabe Hamilton and Renny Co. Ltd., with headquarters in Honolulu and branches in outports. 48 hours notice by Agent for labour and equipment. Inward cargo is containers, general, bulk fertiliser, petroleum products, and building and construction materials. Outward is raw sugar, canned pineapple, general and molasses. Foreign vessels are subject to heavy fines for carrying stevedore gear inter-island without Customs clearance.
MEDICAL: Two hospitals on Kauai with two doctors under contract to United States Public Health Service. Standard international inoculations and vaccination required. Advance notice by Agent desirable but not necessary.
TANKERS: All piers have pipe-line connections for incoming cargo and outgoing molasses. Fuel oil 10 in., molasses 10 in., water line 6 in., gasoline, kerosene and diesel 8 in. These are the main lines under the wharves. Hose connections to ships vary with the type of riser and hose so size of fittings should be checked with Agent. No slop discharge facilities available. Four tanker berths available.
DENSITY: Varies from full salt to brackish in periods of heavy rainfall with freshets in the streams. No specifics available.
FRESH WATER: Available from 2 in. dock hydrants via ship's hose. About 100 gallons per minute.
FUEL: Bunker C not available for large vessels. Diesel fuel available via tank truck with 6 hours notice. Weekend and holidays order previous day.
DEVELOPMENTS: Turning basin may be enlarged to handle liners and large bulkers. Project depth 35 ft.
GANGWAY/DECK WATCHMAN: Tankers discharging gasoline required to have uniformed dock watchman. Usually off duty policeman. All ships provide own gangway and deck watch.
OPENING/CLOSING HATCHES: Normally done by stevedores. A few foreign ships prefer doing it with own crew.
CUSTOMS ALLOWANCES: 200 cigarettes, 50 cigars per man, and one bottle, U.S. quart, wine or spirits.
IDENTITY CARDS: Desirable but not required by law.
CONSULS: All in Honolulu.
REPAIRS: Light machine shop, welding and burning and pipe work available. Plantations may do some heavy repairs if part can be sent to their shop. Their engineers are helpful in emergencies. Heavy or technical repairs must be done in Honolulu.
REPATRIATION: Agent can arrange by air via Honolulu. Immigration clearance necessary.
AIRPORT: Lihue is 3 miles from Nawiliwili and 20 miles from Port Allen; served by inter-island regular carriers. Numerous lines, and charter flights available.
TIME: GMT minus 10 hours ,all year round.
HOLIDAYS: National: New Year's Day (Jan. 1); President's Day (Feb. 22nd); Memorial Day (May 30th); July 4th; Labor Day (first Monday in September); Election Day (first Tuesday in November); Veterans' Day (Nov. 11th); Thanksgiving Day and Christmas Day (December 25th). Cargo can be worked but at penalty rates.
POLICE/AMBULANCE/FIRE: Nawiliwili: Police 245–6721; Ambulance 2721; Fire 245–2222. Port Allen: Police 382–311; Ambulance 338–8311; Fire 335–5444, or call "O" for operator.
TELEPHONES: Arrangements by Agent.
SHORE LEAVE: Permitted after immigration check. Iron Curtain or Communist visitors may be restricted.
AUTHORITY: Department of Transportation, Harbors Division, administered by the District Manager. Honolulu Pilots.

NEW BEDFORD, Massachusetts, 41.38 N. 70.55 W.

DOCUMENTS: See "Boston".
PILOTAGE: 3 Massachusetts State pilots available, ordered through Agent. VHF monitored Channel 16. Pilot on station only after 12 hours notice. Small pilot vessel with basic communication equipment. Pilots board all vessels at Buzzards Bay Buoy at the entrance to New Bedford outer harbour situated at long. 70° 50′ 7″ W. and lat. 41° 30′ 42″ N.
ANCHORAGE: It is recommended that vessels delayed due to weather, etc., anchor ½ mile South of Buzzard's Bay Bell Buoy.
RESTRICTIONS: A modern harbour approach begins at Buzzard's Bay Buoy and runs a straight course of 7½ miles direct to the pier facilities. The channel is 350 ft. wide and has a depth of 30 ft. MLW. The channel leads into a moderate size (1,000 yd.) turning basin.
MAX. SIZE: 700 ft. length. Vessels over 30 ft. draft restricted by tides.
HEALTH: Radio Pratique and doctor arranged through Agent.
RADIO: RCA Chatham Radio, New Bedford Marine Operator for VHF, and Boston Marine Operator for ship to shore frequencies.
TUGS: Tugs join vessel in inner harbour. Tug lines used. Two tugs available. Tugs are not normally used at the State Pier in docking and undocking of deep-water vessels. The large turning harbour basin, the wind-sheltered position of the pier and lack of tidal current minimise use of tugs. In extreme weather conditions tugs are used.

BERTHING: At State Pier, berthing space for three ships: North side 600 ft. length, South side 775 ft. length, East side 450 ft. length.
Depth of water at all berths is 30 ft. MLW.
Maritime Terminal, depth 27 ft.
BRIDGES: Passage to upper reaches of harbour to Maritime Terminal requires navigation through the New Bedford and Fairhaven bridge only in daylight for larger vessels over 250 ft. length,
STEVEDORES: 24 hour notice required for New Bedford Stevedoring Corporation to prepare gear. 25 tons discharged or loaded per hour as average production per gang. Nearly all cargoes handled.
MEDICAL: 24 hours notice required. Excellent hospital facilities available.
TANKERS: Hurricane dike barrier gate 150 ft. wide with depth of 30 ft. MLW.
DENSITY: Static, since tidal variations light. Density same as ocean water.
FRESH WATER: Fresh water available.
FUEL: All types available, to be ordered in advance.
GANGWAY/DECK WATCHMEN: Watchmen available. Non police or police.
OPENING/CLOSING HATCHES: Depends on negotiated contract and cargo handled.
CUSTOMS ALLOWANCES: Designated by U.S. Customs with regard to particular circumstances.
CONSULS: Most Consuls available in Boston, 50 miles or 1 hour away.
REPAIRS: All types of minor ship repairs available.
REPATRIATION: Agent can handle formalities.
AIRPORT: Three airports within one hour drive. All international services.
TIME: Shift from Standard to Eastern Daylight Saving Time. Local time GMT minus 6 hours.
HOLIDAYS: New Year's Day (January 1st); Washington's Birthday (February 22nd); Patriots' Day (April 19th); Memorial Day (May 30th); Independence Day (July 4th); Labor Day (first Monday in September); Columbus Day (October 12th); Veterans' Day (November 11th); Thanksgiving Day (last Thursday in November); Christmas Day (December 25th).
TELEPHONES: No telephones on board, but exist adjacent to pier.
SERVICES: All services can be obtained if required.
SHORE LEAVE: If U.S. Immigration has cleared crew member, he is allowed ashore.
AUTHORITY: Harbor Development Commission.

AGENT: New Bedford Stevedoring Corporation, PO Box A. 2090, 10 William Street, New Bedford, Massachusetts 02740. Tel. 617–9934522 (24 hours), 617–9979893 (home), 617–44264. Cable address: "NEBCO", New Bedford, Mass. U.S.A.

NEW HAVEN, Connecticut: 41.14 N. 72.55 W.

DOCUMENTS: Refer to "New York".
PILOTAGE: The Pilot will board the vessel within the vicinity of the Block Island S.E. Buoy.

48 hours prior to vessel's arrival at Block Island S.E. Lighted Whistle Buoy, the Master should radio Long Island Sound Pilots' Association, radio address: "Lispaso-Providence", the vessel's date and time of arrival at Block Island S.E. Lighted Whistle Buoy.

The pilot boat is equipped with a 35-watt radio-telephone, having the following frequencies: 2638 kHz, 2738 kHz, and the Boston Marine Operator (WOU) ship-to-shore (2506 kHz).

In the event that a Pilot does not meet the vessel promptly on arrival at the buoy, Master should immediately notify "Lispaso-Providence" by radio that the vessel is awaiting a Pilot.

RESTRICTIONS: Vessels can proceed to and from berths in New Haven Harbour at any hour during the day or night, weather and tide permitting. Entrance channel dredged to 34 ft. MLW.
MAX. SIZE: Draft up to 35 ft. subject weather and tides.
HEALTH: Radio pratique may be granted basis information received prior arrival of vessel, provided no communicable diseases on board. Normally vessel boarded by Medical Officers on arrival unless free pratique previously given at U.S. port in same voyage. If granted free pratique, vessel may enter port and discharge passengers and cargo. If given provisional pratique, vessel may enter port, but must take any additional measures specified in connection with discharging passengers and cargo, until free pratique is given. Quarantine inspection is carried out at the dock.
RADIO: Vessels arriving from North use Chatham Radio. Vessels from South use Amagansett Radio on Long Island.
TUGS: Assistance is available.
TANKERS: *Atlantic Refining Company:* is on the Eastern side of New Haven Harbour about 0·3 mile South of Tomlinson Bridge.

Humble Oil & Refining Company is on the eastern side of New Haven Harbour about 0·6 mile South of Tomlinson Bridge.

T.A.D. Jones Coal Company is on the Eastern side of New Haven Harbour about 0·2 miles South of Tomlinson Bridge. At times this terminal is also used by the Texas Company.

Texas Company uses the North side of the New Haven Terminal Pier located on the Eastern side of the New Haven Harbour about 0·4 miles South of Tomlinson Bridge.

Wyatt Coal Sales Company Inc. is on the North-West side of New Haven Harbour about 0·2 miles South of Tomlinson Bridge.

BALLAST: There are no slop lines available.
FUEL: Available from oil terminals or delivered by barge.
FRESH WATER: Available at all terminals.
MEDICAL: All facilities available.
CUSTOMS ALLOWANCES: At the discretion of Customs Officers. Normal allowance is 200 cigarettes or 2 lb. of tobacco and one quart wine/spirits per man. Additional allowances may be given if considered necessary, due length of vessel's stay in port.
AIRPORT: New Haven Airport 1 mile distant. New York International Airport 70 miles distant.
CONSULS: All countries represented in New York.
HOLIDAYS: New Year's Day (1st January); Washington's Birthday (22nd February); Patriot's Day (19th April); Memorial Day (30th May); Bunker Hill Day (17th June); Independence Day (4th July); Labor Day (first Monday in September); Columbus Day (12th October); Veteran's Day (11th November); Thanksgiving (fourth Thursday in November); Christmas Day (25th December).
TIME: Eastern Standard Time, GMT minus 5 hours. Daylight Saving Time, GMT minus 4 hours from April to October.
AUTHORITY: State of Connecticut, Commissioners of Steamship Terminals.

NEW LONDON: Connecticut: 41.21 N. 72.06 W.

DOCUMENTS: Refer to "New York".
PILOTAGE: Vessel usually notifies Agent 48 hours before arrival, who will arrange Pilot boarding. Pilot boards at Sarah's Ledge, which is close to anchorage at harbour entrance.
ANCHORAGE: In Thames River, and in Long Island Sound, approx. 2 miles West South-west of New London Ledge Light, bounded by lines connecting points which are following bearings and distances from New London Ledge Light: 246°, 2·6 miles; 247°, 2·1 miles; 233°, 2·1 miles; and 235°, 2·6 miles.
RESTRICTIONS: Pilots recommend daylight docking but can dock at night if necessary. Entrance channel 33 ft. deep.
MAX. SIZE: Dry cargo vessels and tankers 700 ft. long are using the harbour. Facilities for larger vessels will be available when proposed dredging to 40 ft. is completed about 1974.
HEALTH: Quarantine inspections are made either at pier or quarantine anchorage opposite White Rock, usually during daylight hours. Off-hour inspections can be arranged with Medical Officer in Charge. Radio Pratique available.
RADIO: Vessels arriving from North use Chatham Radio on Cape Cod. Vessels from South use Amagansett Radio on Long Island. However, either one may serve the purpose.
TUGS: Usually join vessel at Ledge light if a dry cargo vessel, and off Sarah's Ledge if a tanker. Tugs use ship's lines; if tug's lines are used this is part of charge.
BERTHING: Advance ETA must be made for berthing, and it is suggested to dock during daylight hours when possible.
State Pier No. 1: depth, 28 to 36 ft. MLW.
Dow Chemical Co. Wharf: depth, 22 ft. MLW.
City Wharf Ferry Terminal: depth, 22 ft. MLW.
BRIDGES: There are no bridges across Main Ship Channel. However, at New London, at the head of the Main Harbour, the Thames River is crossed by one drawbridge and a twin fixed bridge: the New York, New Haven and Hartford Railroad bascule bridge with a horizontal clearance of 151·5 ft. and a vertical clearance of 30·9 ft. at high water and a fixed highway bridge with a horizontal clearance of 200 ft. and a vertical clearance of 135 ft. at high water.
STEVEDORES: ETA of 72, 48 and 24 hours is required, as gangs must be requested by 15.00 hours on weekdays. Average discharge, about 20 tons per gang per hour.
TANKERS: Discharge at Hess Oil Co. berth, 12 in. and 10 in. lines.
Hess Oil Dock: depth alongside 36 ft.
Texaco Wharf: depth alongside 18 ft.
Pfizer Wharf: depth alongside 18 ft.
MEDICAL: All facilities available.
FRESH WATER: Available at pier side through 2½-in. and 1½-in. hoses.
FUEL: Available at tanker berths or by barge.
GANGWAY/DECK WATCHMEN: Not required and not recommended.
OPENING/CLOSING HATCHES: Performed by stevedores.
IDENTIFICATION CARDS: Not required.
CONSULS: Nearest at New York.
REPAIRS: Three waterfront marine repair plants are equipped to repair vessels at the port. The Nelseco Navigation Co. and Thames Shipyard Inc. each owns and operates a plant at New London on the right bank of the Thames River; the General Dynamics Corp., Electric Boat Division owns and operates a shipyard and marine repair plant at Groton on the left bank of the river.
DRY DOCKS: One floating dry dock, one graving dock and three marine railways are available to the public at two of the marine repair plants.

One floating dry dock, steel construction, with a lifting capacity of 6,500 tons, located on the West side of the pier E, has an overall length of 448 ft. length of 435 ft. 6 in. on the keel blocks, overall width of 97 ft. inside clear width of 70 ft. and depth of 26 ft. of water over the keel block when submerged.

One graving dock, located South of Piers A, B, C, and E, has length of 515 ft., width of 70 ft., and 35½ ft. depth of water over the sill and 34½ ft. over the keel blocks at MHW.
REPATRIATION: Facilities exist.
AIRPORT: Nearest airport is Trumbull Airport, situated about 3 miles East of Groton, Connecticut. There are scheduled commercial airlines serving this field. Allegheny Airlines and Pilgrim Airlines run frequent connecting flights to Bradley and Kennedy International Airports.

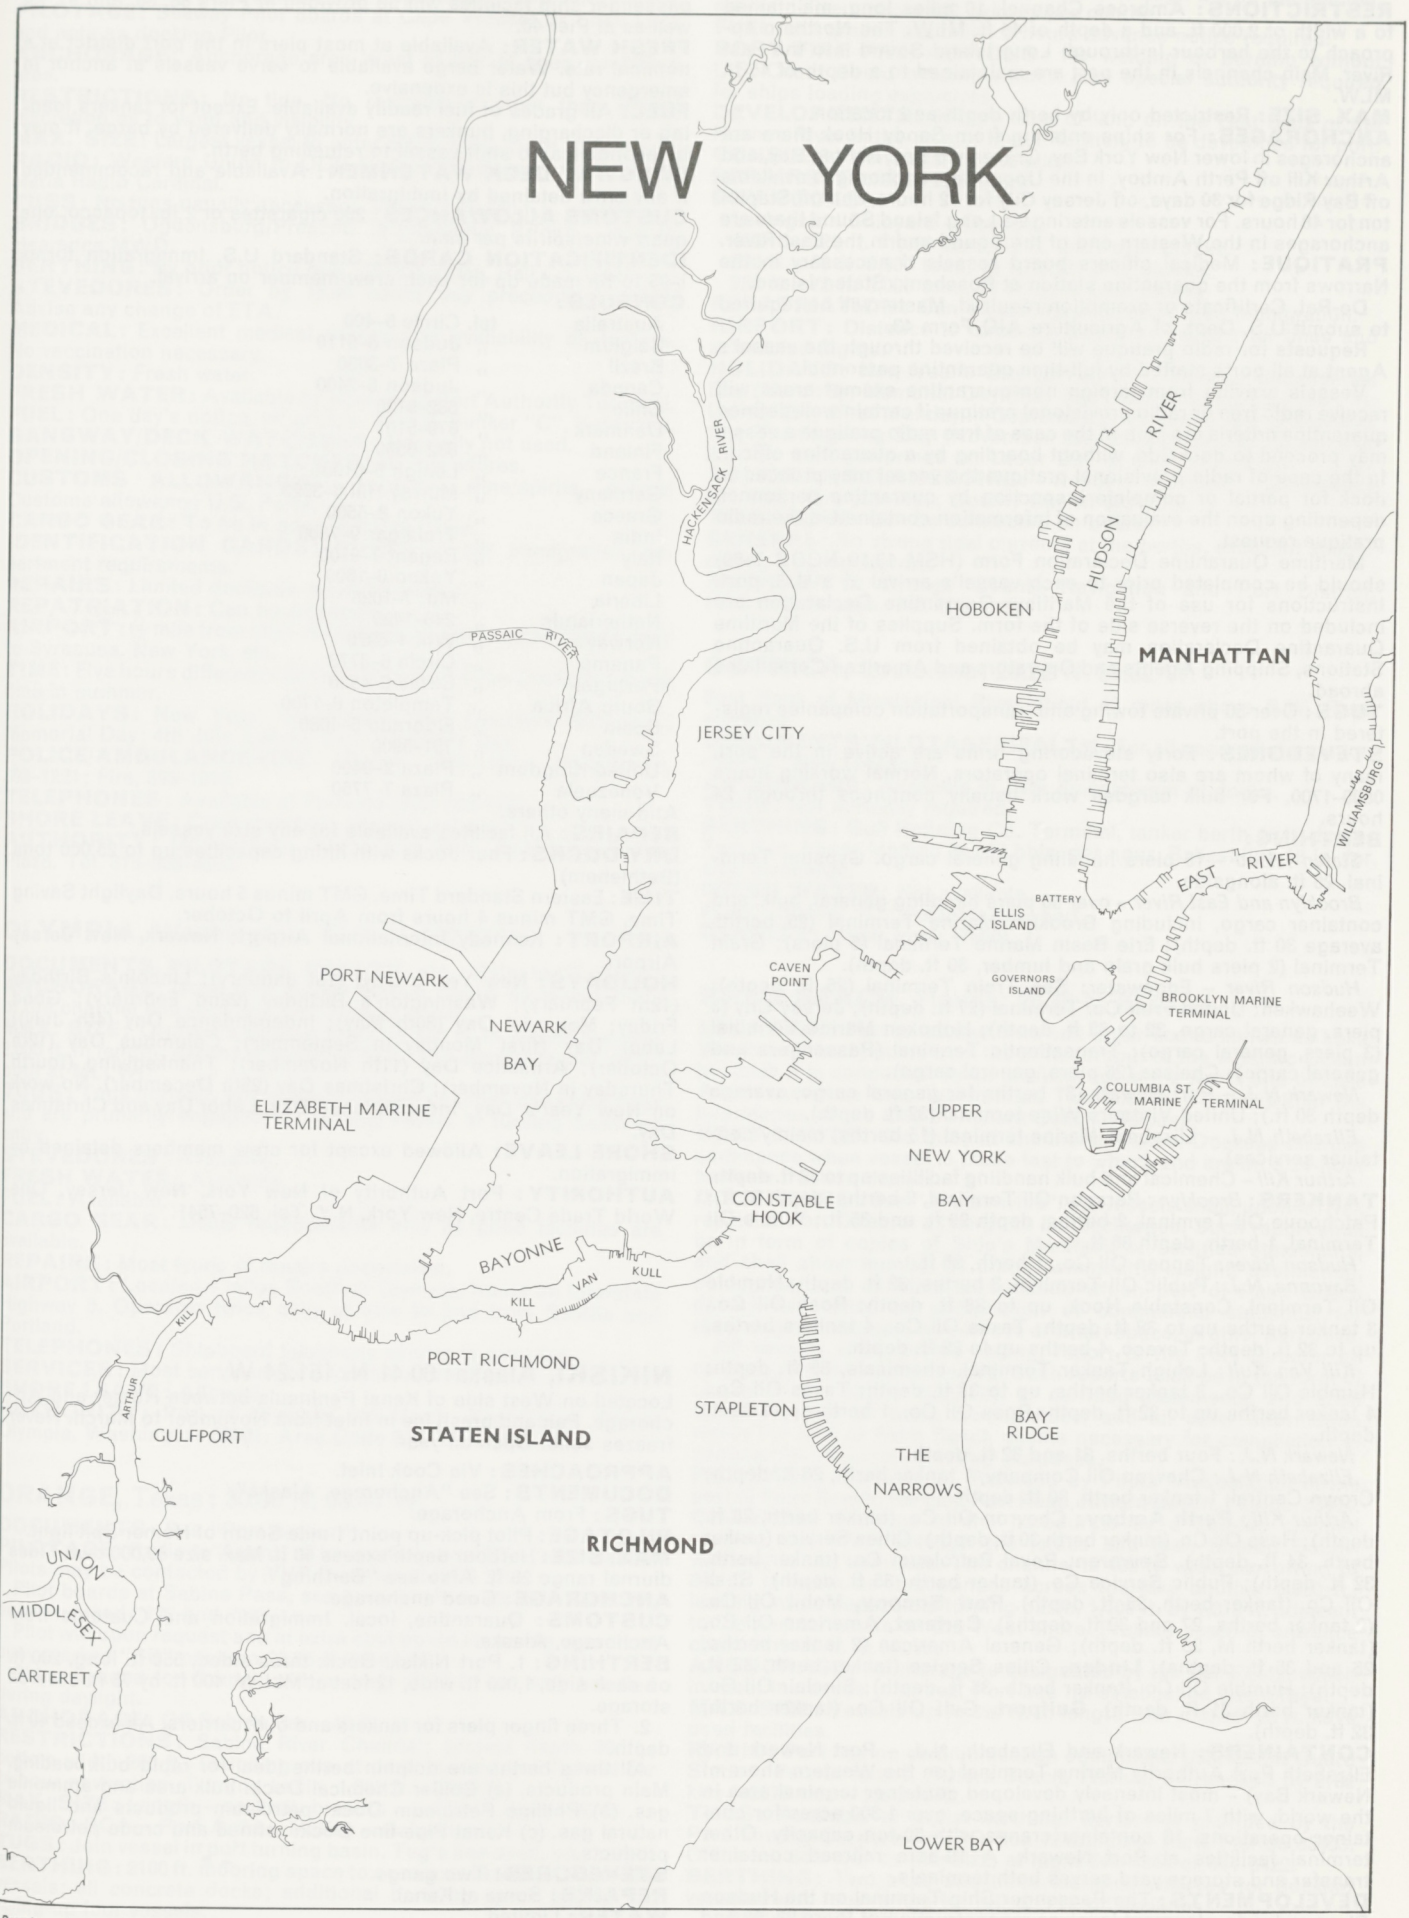
TIME: Eastern Standard Time, GMT minus 5 hours. Daylight Saving Time, GMT minus 4 hours, from April to October.
HOLIDAYS: New Year's Day (1st January); Lincoln's Birthday (12th February); Washington's Birthday (22nd February); Good Friday; Memorial Day (30th May); Independence Day (4th July); Labour Day; Columbus Day (12th October); Veteran's Day; Thanksgiving Day; Christmas Day (25th December). Cargo work can be arranged on holidays.
POLICE/AMBULANCE/FIRE: Police, 443–4315; Ambulance, 443–4388; Fire, 443–4381.
TELEPHONES: Available if required.
SHORE LEAVE: Allowed.
DELAYS: Availability of berthing might cause some delay.
PORT AUTHORITY: State of Connecticut, Dept. of Transportation, Bureau of Waterways, State Pier, New London, Connecticut 06320. Tel. area code 203 443–4338.

NEW ORLEANS, Louisiana: 29.56 N. 90.04 W.

DOCUMENTS:
3 copies Cargo Manifest (Forms 7527–A or 7527–B), the original showing all cargo on board, and 2 copies showing only cargo for this port.
2 copies Crew Manifest (curio list).
2 copies Stores List.
2 copies Passenger List (Form I–418).
2 copies Crew List (Form I–418).
Customs boarding officer will also examine Ship's Register and Load Line Certificate. In addition, the following documents will be required for formal entry to be made within 48 hours of arrival from abroad, or 24 hours from arrival from a United States Port:
Health Pratique.
Master's Oath (Customs Form 3255).
All foreign clearances.
U.S. Certificates of payment of Tonnage Tax (Customs Form 1022).
Certified Crew List.
The Bureau of Customs at New Orleans, Louisiana, will not, regardless of the circumstances, accept Customs Entry Papers from vessels unless they are on the proper U.S. Custom Forms and properly prepared.
Specially referred to are Customs Forms 1303 (Ship's Stores Declaration), 1304 (Crew Effects Declaration) and 7527 (Inward Foreign Manifest).
U.S. Customs at New Orleans require that the 1303 be completed, that is all stores (deck, engine, etc.) be listed on the form; it must also include fire-arms and medicines. They will not accept "as per attached list".
Form 1304, Crew Effects List, must likewise be properly completed. All effects and curios will have to be listed on the form. The term "souvenirs" is not sufficient and may not be used. All values have to be listed. Attachments to the 1304 are not permitted. (This does not apply to American Flag vessels using the form I 418 Crew List with Crew Declaration numbers listed for their souvenir list.)
The Inward Foreign Manifest must be customs forms 7527–A, 7527–B, or a manifest form approved by the Bureau of Customs, Washington D.C. Should the latter be used it must have the Bureau's approval number printed on the form.
PILOTAGE: Advise Agents ETA at sea buoy 48 hours in advance. Agent will arrange for Pilot. Pilot boat 46 ft. long, red hull, white cabin, flying blue and white pilot flag. Pilot boards at sea buoy, requires pilot ladder 6 ft. above water level. Pilot boats can be contacted by VHF, Channel 9 when 30 to 40 miles off, or ship-to-ship Channel 2738. Bar Pilot is exchanged for river Pilot at Pilot town, Head of Passes.
ANCHORAGE: Safe anchorage within 2 miles South pass or South West pass entrance. At the Point, below New Orleans, vessels may anchor without tug assistance.
RESTRICTIONS: Draft governed by South West pass, project depth 40 ft. Draft usually restricted from 37 ft. to 30 ft. in May to August due to low water and silting. Entrance day and night. New Orleans is 115 miles up-river.
HEALTH: Radio pratique may be granted basis information received prior to arrival of vessel, provided no communicable diseases on board. Normally, vessels are boarded by medical officers on arrival at New Orleans unless free pratique previously given at U.S. port in the same voyage. If granted free pratique, vessel may enter port and discharge passengers and cargo. If given provisional pratique, vessel may enter port, but must take any additional measures specified in connection with discharging passengers and cargo until free pratique is given.
RADIO: Tropical Radio WNU, New Orleans.
TUGS: Available, and join vessel off berth if required. One tug normally used for berthing/unberthing at New Orleans.
BRIDGES: Two bridges cross river at New Orleans, one at Baton Rouge and one at Donaldsonville. Sufficient clearance at all times.
BERTHING: *Public Grain Elevator.* No. 2 berth, 670 ft. long, 40 ft. depth; No. 3 berth, 650 ft. long, 40 ft. depth; No. 4 berth, 635 ft. long, 40 ft. depth.
Loading Rates 20,000 bushels per hour per belt, in berths 2 and 3; up to 40,000 bushels per hour per belt, in berth 4. Each berth has 2 loading belts.
Dockside Commodity Terminals: berth 1,200 ft. long, 38 ft. depth, Loading/discharge rates about 200 tons per hour. Bulk handling facility: No. 1 berth, 600 ft. long, 36 ft. depth; No. 2 berth, 600 ft. long, 36 ft. depth; No. 3 berth, 600 ft. long, 42 ft. depth. Loading/discharge rates about 600 tons per hour.
Southern Scrap Material Co: Berth 550 ft. long, 32 ft. depth. Loading 200 tons per hour with cranes.
Chalmette: Humble Oil Terminal: tanker berth 30 ft. depth; Tenneco Oil Terminal: tanker berth 35 ft. depth.
Terminals on West Bank of Mississippi:
Amesville: Texaco tanker loading berth, 34 ft. alongside. Two 8-in. hoses loading up to 12,000 barrels per hour. No ballast facilities.
Avondale: American Liberty Tank Terminals berth, 60 ft. alongside. Four 6-in. hoses loading up to 18,000 barrels per hour. No ballast facilities. International Tank Terminals berth, 45 ft. alongside. 12-in. hoses loading 150 tons per hour.
Gretna: Publicker Chemical Corp: berth 30 ft. alongside. Southern Pacific Company: berth 600 ft. long, 35 ft. depth; dry cargo discharging only. Industrial Molasses Corp: berth 27 ft. depth; 2–10-in. pipelines, loading 200 tons per hour.
Marrero: Hess Terminal Corp: tanker berth 38 ft. depth; 6–12-in. hoses loading 500 tons per hour. Texaco: tanker berth 35 ft. depth; 6–16 in. lines loading 250 tons per hour. No ballast facilities.
St. Rose: Cities Service: tanker berth 35 ft. depth; International Tank Terminals: berth 35 ft. depth; no fresh water available.
Westwego: Continental Grain Elevator: berth 600 ft. long, 40ft. depth; loading 1,000 tons per hour, 2 loading belts. Louisiana Dock: 28 ft. alongside, bulk oil products loaded 200 tons per hour. Pacific Molasses Co: berth 35 ft. alongside.
STEVEDORES: Working hours 0800–1200 and 1300–1700, Monday to Friday.
MEDICAL: All facilities available.
DENSITY: Fresh water (1000).
FRESH WATER: Available ex-wharf.
FUEL: Only available by barge. Oil companies can supply Bunker "C" ex-terminals at Amesville and Marrero.
GANGWAY/DECK WATCHMEN: Recommended if any crew detained by Immigration.
DEVELOPMENTS: A second container berth under construction at France Road Container Terminal. Wharf will be 700 ft. long with crane capacity 40 tons.
CUSTOMS ALLOWANCES: At the discretion of Customs officers. Normal allowance is 200 cigarettes or 2 lb. tobacco and one quart wine or spirits per man. Additional allowances may be given if considered necessary, due to length of vessel's stay in port.
IDENTIFICATION CARDS: Standard U.S. Immigration Forms I–95 to be made up for each crew member on arrival. Not necessary for crew man already holding Form I–95, issued for the same vessel.
AIRPORT: New Orleans International Airport, served by most airlines.
TIME: Central Standard Time. Daylight Saving Time from May to October.
HOLIDAYS: New Year's Day (1st January); Lincoln's Birthday (12th February); Washington's Birthday (22nd February); Good Friday; Memorial Day (30th May); Independence Day (4th July); First Monday in September (Labor Day); Columbus Day (12th October); Armistice Day (11th November); Fourth Thursday in November (Thanksgiving); Christmas Day (25th December). No work on New Year's Day, Independence Day, Labor Day and Christmas Day.
SHORE LEAVE: Allowed for any crew member not detained by Immigration.
AUTHORITY: Port of New Orleans, Board of Commissioners, 2 Canal Street, New Orleans La. 70160. Tel. 504–522–2551.

NEW YORK, New York and New Jersey: 40.43 N. 74.00 W.

DOCUMENTS:
3 copies Cargo Manifest (Forms 7527–A or 7527–B), the original showing all cargo on board, and 2 copies showing only cargo for this port.
2 copies Crew Manifest (Curio List).
2 copies Stores List.
2 copies Passenger List (Form I–418).
2 copies Crew List (Form I–418).
Customs boarding officer will also examine Ship's Register and Load Line Certificate.
In addition the following documents will be required for formal entry, to be made within 48 hours of arrival from abroad:
Health Pratique.
Master's Oath (Customs form 3255).
All Foreign Clearances.
U.S. Certificates of payment of Tonnage Tax (Customs Form 1002).
Certified Crew List.
PILOTAGE: Compulsory for foreign flag ships, and U.S. ships bound to and from foreign ports.
24 hours notice of ETA required. Pilot boat should be contacted on VHF Channel 16, or ship-to-ship Channel 2638 or 2738. Vessels requiring Pilot should hoist signal letter "G" in daytime. In foggy weather the letter "X" should be sounded on the whistle.
Pilot boat is generally found about 1½ miles West of Ambrose Light Tower. In bad weather pilot tries to stay to windward of normal pilot station.
In poor visibility an inbound ship should make Ambrose Tower and then proceed at slow speed to the Ambrose Channel sea buoy while blowing the letter "X" on her whistle. If no Pilot is obtained by the time she is in the vicinity of the sea buoy she should then anchor



Based on plan supplied by Port Authority of New York/New Jersey.

about a ½ mile to a mile North of the line from Ambrose Tower to the sea buoy and await Pilot.

RESTRICTIONS: Ambrose Channel, 10 miles long, maintained to a width of 2,000 ft. and a depth of 45 ft. MLW. The Northern approach to the harbour is through Long Island Sound into the East River. Main channels in the port are maintained to a depth of 45 ft. MLW.

MAX. SIZE: Restricted only by berth depth and location.

ANCHORAGES: For ships entering from Sandy Hook there are anchorages in lower New York Bay, Gravesend Bay, Raritan Bay, and Arthur Kill off Perth Amboy. In the Upper Bay, anchorages available off Bay Ridge for 30 days, off Jersey City for 72 hours, and off Stapleton for 48 hours. For vessels entering via Long Island Sound there are anchorages in the Western end of the Sound and in the East River.

PRATIQUE: Medical officers board vessels if necessary in the Narrows from the quarantine station at Rosebank, Staten Island.

De-Rat. Certificate or exemption required. Master will be required to submit U.S. Dept. of Agriculture AIQ Form 43.

Requests for radio pratique will be received through the vessel's Agent at all ports staffed by full-time quarantine personnel.

Vessels arriving from foreign non-quarantine exempt areas will receive radio free or radio provisional pratique if certain well-defined quarantine criteria are met. In the case of free radio pratique a vessel may proceed to dockside, without boarding by a quarantine officer. In the case of radio provisional pratique the vessel may proceed to dock for partial or complete inspection by quarantine personnel, depending upon the evaluation of information contained in the radio pratique request.

Maritime Quarantine Declaration Form (HSM 13.19 NCDC 7–69) should be completed prior to each vessel's arrival at a U.S. port. Instructions for use of the Maritime Quarantine Declaration are included on the reverse side of the form. Supplies of the Maritime Quarantine Declaration may be obtained from U.S. Quarantine Stations, Shipping Agents and Operators and American Consulates abroad.

TUGS: Over 50 private towing and transportation companies registered in the port.

STEVEDORES: Forty stevedoring firms are active in the port, many of whom are also terminal operators. Normal working hours 0800–1700. For bulk cargoes work usually continues through 24 hours.

BERTHING:

Staten Island – 15 piers handling general cargo. Gypsum Terminal, 25 ft. alongside.

Brooklyn and East River – over 50 piers handling general, bulk, and container cargo, including Brooklyn Marine Terminal (25 berths average 30 ft. depth); Erie Basin Marine Terminal (5 piers); Grain Terminal (2 piers bulk grain and lumber, 30 ft. depth).

Hudson River – Edgewater: Sea Train Terminal (26 ft. depth); Weehawken: United Fruit Co. Terminal (27 ft. depth); Jersey City (3 piers, general cargo, 32 to 35 ft. depth); Hoboken Marine Terminal (3 piers, general cargo); Transatlantic Terminal (Passengers and general cargo); Chelsea (26 piers, general cargo).

Newark N.J. – Port Newark (31 berths for general cargo, average depth 30 ft.); United Vintners Wine terminal (32 ft. depth).

Elizabeth N.J. – Elizabeth Marine terminal (15 berths, mainly container services).

Arthur Kill – Chemical and bulk handling facilities up to 32 ft. depth.

TANKERS: *Brooklyn:* Paragon Oil Terminal, 2 berths, depth 37 ft.; Patchoque Oil Terminal, 2 berths, depth 29 ft. and 35 ft.; Whale Oil Terminal, 1 berth, depth 36 ft.

Hudson River: Tappan Oil Co., 1 berth, 35 ft.

Bayonne, N.J.: Public Oil Terminal, 3 berths, 32 ft. depth; Humble Oil Terminal, Constable Hook, up to 38 ft. depth; Ross Oil Co., 3 tanker berths up to 38 ft. depth; Texas Oil Co., 4 tankers berths, up to 32 ft. depth; Texaco, 4 berths up to 32 ft. depth.

Kill Van Kull: Lehigh Tanker Terminal, chemicals, 35 ft. depth; Humble Oil Co., 3 tanker berths, up to 38 ft. depth; Texas Oil Co., 4 tanker berths up to 32 ft. depth; Ross Oil Co., 1 berth up to 32 ft. depth.

Newark N.J.: Four berths, 31 and 32 ft. depth.

Elizabeth N.J.: Chevron Oil Company, 1 tanker berth, 26 ft. depth; Crown Central, 1 tanker berth, 30 ft. depth.

Arthur Kill: **Perth Amboy:** Chevron Oil Co. (tanker berth, 26 ft. depth); Hess Oil Co. (tanker berth 30 ft. depth); Cities Service (tanker berth, 34 ft. depth). **Sewaren,** Royal Petroleum Co. (tanker berth, 32 ft. depth); Public Service Co. (tanker berth, 35 ft. depth); Shell Oil Co. (tanker berth, 35 ft. depth). **Port Socony,** Mobil Oil Co. (2 tanker berths, 27 and 30 ft. depths). **Carteret,** American Oil Co. (tanker berth M, 25 ft. depth); General American (2 tanker berths, 25 and 35 ft. depths). **Linden,** Cities Service (tanker berth, 32 ft. depth); Humble Oil Co. (tanker berth, 35 ft. depth); Sinclair Oil Co. (tanker berth 31 ft. depth). **Gulfport,** Gulf Oil Co. (tanker berth, 32 ft. depth).

CONTAINERS: Newark and Elizabeth, N.J. – Port Newark and Elizabeth Port Authority Marine Terminal (on the Western shore of Newark Bay) – most intensely developed container terminal area in the world, with 7 miles of berthing space, over 1,300 acres for container operations, 18 container cranes with 50-ton capacity. Other terminal facilities at Port Newark. A 10-acre railroad container transfer and storage yard serves both terminals.

DEVELOPMENTS: The Passenger Ship Terminal on the Hudson River under development involves reconstruction of Piers 88, 90 and 92 between 48th and 52nd Streets to provide six ship berths with the most modern passenger facilities. In addition, Pier 40 at Houston Street will be improved as a companion three-berth facility, thus providing a total of nine steamship berths to accommodate transatlantic and cruise liners. To be completed 1974.

During construction of the Passenger Ship Terminal, temporary passenger ship facilities will be provided at Piers 88, 86, and 97, as well as at Pier 40.

FRESH WATER: Available at most piers in the port district at a nominal rate. Water barge available to serve vessels at anchor in emergency but this is expensive.

FUEL: All grades of fuel readily available. Except for tankers loading or discharging, bunkers are normally delivered by barge. It may be economical to shift vessel to refuelling berth.

GANGWAY/DECK WATCHMEN: Available and recommended if any crew detained by Immigration.

CUSTOMS ALLOWANCES: 200 cigarettes or 2 lb. tobacco, one quart wine/spirits per man.

IDENTIFICATION CARDS: Standard U.S. Immigration forms I–95 to be made up for each crew member on arrival.

REPAIRS: All facilites available for any size vessels.

DRY DOCKS: Four docks with lifting capacities up to 25,000 tons (Bethlehem).

TIME: Eastern Standard Time, GMT minus 5 hours. Daylight Saving Time, GMT minus 4 hours from April to October.

AIRPORT: Kennedy International Airport; Newark, New Jersey Airport.

HOLIDAYS: New Year's Day; (1st January); Lincoln's Birthday (12th February); Washington's Birthday (22nd February); Good Friday; Memorial Day (30th May); Independence Day (4th July); Labor Day (first Monday in September); Columbus Day (12th October); Armistice Day (11th November); Thanksgiving (fourth Thursday in November); Christmas Day (25th December). No work on New Year's Day, Independence Day, Labor Day and Christmas Day.

SHORE LEAVE: Allowed except for crew members detained by immigration.

AUTHORITY: Port Authority of New York, New Jersey, One World Trade Centre, New York, N.Y. Tel. 520–7541.

NIKISKI, Alaska: 60.41 N. 151.24 W.

Located on West side of Kenai Peninsula between Homer and Anchorage. Pan and brash ice in Inlet from November to March. Never freezes solid. Open all year.

APPROACHES: Via Cook Inlet.

DOCUMENTS: See "Anchorage, Alaska".

TUGS: From Anchorage.

PILOTAGE: Pilot pick-up point 1 mile South of Homer Spit light.

MAX. SIZE: Harbour depth excess 40 ft. Max. size 80,000 dwt. Tides diurnal range 28 ft. Also see "Berthing".

ANCHORAGE: Good anchorage.

CUSTOMS: Quarantine, local. Immigration and Customs from Anchorage, Alaska.

BERTHING: 1. Port Nikiski Dock: three sided, 550 ft. long, 200 ft. on each side, 1,000 ft. wide, 12 feet at MLLW. 400 ft. by 75 ft. covered storage.

2. Three finger piers for tankers and bulk carriers. All exceed 40 ft. depth.

All three berths are dolphin berths ideal for rapid bulk loading. Main products, (*a*) Collier Chemical Dock: bulk area and ammonia gas. (*b*) Phillips Petroleum Dock: petroleum products and liquid natural gas. (*c*) Kenai Pipe-line Dock: refined and crude petroleum products.

STEVEDORES: Two gangs.

REPAIRS: Some at Kenai.

WATER: Limited.

FUEL: Not available.

MEDICAL: Health Centre, 3 doctors, 3 dentists.

TRANSPORTATION: Highway to Anchorage and Homer. Air transport available.

OGDENSBURG, New York: 44.42 N. 75.30 W.

Refer to "St. Lawrence Seaway" for important general information.
PILOTAGE: Seaway Pilot boards at Cape Vincent or Snell Lock and acts as docking Pilot.
ANCHORAGE: Anchorage area West of city at open roadstead area.
RESTRICTIONS: No tide. No restrictions other than Pilots' discretion as to wind and visibility.
MAX. SIZE: Largest vessel to enter 600 ft. long. Draft 27 ft.
RADIO: Western Union to OCN Corp. VHF Seaway Channel via Maria Radio Cardinal.
TUGS: No tugs usually necessary. Tugs up to 400 h.p. available.
BRIDGES: Ogdensburg/Prescott International Bridge – 126 ft. clearance MWD.
BERTHING: By prior notice only. OBPA Dock, Hall Co. Dock.
STEVEDORES: Order by 18.00 hours day preceeding arrival. Advise any change of ETA.
MEDICAL: Excellent medical service and availability of doctors. No vaccination necessary.
DENSITY: Fresh water.
FRESH WATER: Available by pipeline at Port Authority Terminal.
FUEL: One day's notice, all grades. Diesel, Bunker "C", Kerosene.
GANGWAY/DECK WATCHMEN: Normally not used.
OPENING/CLOSING HATCHES: By stevedores.
CUSTOMS ALLOWANCES: Tobacco, wine/spirits, normal Customs allowance U.S. Ports.
CARGO GEAR: To be in good working order.
IDENTIFICATION CARDS: Needed as per immigration department requirements.
REPAIRS: Limited dockside repairs available.
REPATRIATION: Can be arranged.
AIRPORT: (½ mile from city). Allegheny Airport – three flights daily to Syracuse, New York, etc.
TIME: Five hours difference Eastern Standard Time. Daylight Saving time in summer.
HOLIDAYS: New Year; Washington and Lincoln's Birthdays; Memorial Day; 4th July. Labour Day, Veteran's Day.
POLICE/AMBULANCE/FIRE: Police, 393–1551; Ambulance, 393–1221; Fire, 393–1010.
TELEPHONES: Available at Pierside (315) 393–1781.
SHORE LEAVE: Crew members allowed ashore.
AUTHORITY: Ogdensburg Bridge and Port Authority, Bridge Plaza. Tel. 315–393–4080.

OLYMPIA, Washington: 47.00 N. 122.53 W.

DOCUMENTS, PILOTAGE, HEALTH, etc.: Refer to "Tacoma".
ANCHORAGE: Good with muddy bottom found anywhere north of the channel entrance and the Olympia shoal.
MAX. SIZE: Olympia's turning basin is 800 ft. in width; the pier, 2,000 ft. in length; depths in channel, 30 ft., and alongside pier, 35 ft.; both at MLLW.
TUGS: Tugs normally join vessels in outer channel, use ships lines and are primarily engaged for turning vessel in turning basin on entry.
STEVEDORES: Available.
FRESH WATER: Available.
FUEL: Available.
CARGO GEAR: Usual requirements only as good facilities are available.
REPAIRS: Most types of repairs undertaken.
AIRPORT: Located 4 miles South of Olympia, fronts on Interstate Highway 5. Operates twice daily service to and from Seattle and Portland.
TELEPHONES: Shipboard telephone service is provided..
SERVICES: Most services are available upon request.
SHORE LEAVE: Allowed.
AUTHORITY: Port of Olympia, 915 North Washington Street, Olympia, Washington 98501. Area Code 206, 357–4433.

ORANGE, Texas: 30.06 N. 93.44 W.

DOCUMENTS: See "Port Arthur."
PILOTAGE: Radio to Agent, 12 hour advance of ETA, also Sabine Pilots may be contacted by VHF Channel 12 KKB 150.
Pilot boards at Sabine Pass, sea buoy position 29.36 N. 93.48 W., buoys marked "17" and "18".
Pilot will upon request and at extra cost board incoming vessels at buoy marked "SB" position 29.25 N. 93.40 W.
Ships headed for Orange with a draft of 30 ft. are only handled during daylight.
ANCHORAGE: Off Sabine bar – 40 ft.
RESTRICTIONS: Sabine River Channel; project depth 30 ft.; bottom width 200 ft., including slip at port; marked and lighted for 24-hour navigation. Turning basin, 1,000 ft.×3,000 ft.
MAX. SIZE: Length – no limit, breadth – no limit, draft – 30 ft.
RADIO: RCA – Port Arthur, McKay – Galveston.
TUGS: Join vessel in port turning basin. Tug's line used, no charge.
BERTHING: 2100 ft. mooring space to accommodate four deep-sea vessels; all concrete docks; additional berthing space in slip for laying-up four vessels.
STEVEDORES: Five stevedore companies – handled through Agent.
MEDICAL: Local facilities – complete.
TANKERS: Limited to 30 ft. draft.
DENSITY: Brackish.
FRESH WATER: Ample fresh water, through 2 ½ in. connection, rate of delivery about 500 gallons per minute.
FUEL: All grades available; 8 hours advance notice required.
PORT FIRE PRECAUTIONS: No welding or burning without U.S. Coast Guard welding permit; also special authority required for ships loading explosives.
DEVELOPMENTS: 50-acre tract of land on the East bank of the Neches River in the area of Mobil Refinery to be developed for port.
CONSULS: None available locally.
REPAIRS: Facilities available.
DRY DOCKS:
Levingston Shipyard – Orange.
400 ft.×126 ft. 11,000 tons, 17 ft. draft over blocks.
350 ft.×60 ft. 3,000 tons, 15 ft. draft over blocks.
250 ft.×72 ft. 3,000 tons, 11 ft. draft over blocks.
REPATRIATION: Can be arranged through area immigration.
AIRPORT: Distance to airport 2 miles; no regular air lines and scheduled flights.
HOLIDAYS: New Year's Day (January 1); Texas Independence Day (March 2); Memorial Day (May 30); Independence Day (July 4); Labour Day (first Monday in September); Veterans' Day (November 11); Thanksgiving Day (November 26); Christmas Day (December 25); No work performed on Labor Day or Christmas Day.
POLICE/AMBULANCE/FIRE: Police 883–5654; Ambulance 886–4445; Fire 886–7431; County Sheriff 883–2612.
TELEPHONE: Can be connected on board.
GENERAL: No strong tidal currents at the berths, excellent shelter during tropical storms.
AUTHORITY: Orange County Navigation and Port District, POB 516, Orange. Tel. 883–4363.

OSTRICA, Louisiana: 29.22 N. 89.32 W.

East Bank of Mississippi River about 42 miles above S.W. Pass entrance.
DOCUMENTS/PILOTAGE/HEALTH: For all general information refer to "New Orleans".
ANCHORAGE: Available in river downstream of docks.
TUGS: Not normally required.
BERTHING: Gulf Refining Co. Terminal, tanker berth 45 ft. depth. Two 8-in. hoses loading 34,000 bbls. per hour. Ballast line 18 in. for slop discharge.
FRESH WATER: Not available.
FUEL: Bunker "C" available ex-wharf.
DENSITY: Fresh water (1000).

PALM BEACH, Florida: 26.46 N. 83.03 W.

LOCATION: Port is located on a salt water sound known as Lake Worth and lies 1⅛ miles from the 27 ft. contour of the Atlantic Ocean to which it is connected by an artificial cut at the North end of Lake Worth known as Lake Worth Inlet. The Inlet is located within the boundaries of the City of Riviera Beach, Florida.
PORT LIMITS: Sea buoy at channel entrance. Dockage charges commence when vessel is made fast to wharf, and are on a 24-hour basis or fraction thereof.
DOCUMENTS: See "Jacksonville". All vessels shall, upon arrival, report to Port Director all cargo to be discharged. Such report shall be in form of copies of Ship's Manifest, or certified statements, and shall show number of units, commodity, weight, destination, consignee, and all other information which port of Palm Beach deems necessary for compilation of commercial statistics, for reserving of necessary warehouse or wharf space, or other purposes.
All vessels shall, before sailing, report to the Port Director all cargo loaded into such vessels. Such reports shall be in the form of copies of the ship's manifest, or certified statements, and shall show numbers of units, commodities, and all other information which the port of Palm Beach deems necessary for compilation of commercial statistics, or other purposes.
PILOTAGE: Compulsory. Provided by Pilots' Association of the port of Palm Beach, 130 East Port Road, Riviera Beach, Florida, 33404.
CHANNEL: Entrance to the harbour is by a dog-leg channel running due West through the jetties and then turning Southwesterly to the terminals. The channel is 400 ft. wide, narrowing to 300 ft. in width as it continues across the lake another 3,000 ft., leading into a trapezoidal turning basin, 1,400 ft. by 1,310 ft. adjacent to the port terminals on the West shore. Present depth of entrance channel is 35 ft. at MLW.
ANCHORAGE: Anchorage is designated by the Bar Pilots, which in most instances is at sea. Port has no established anchorage.
MAX. SIZE: Vessels up to 620 ft. in length with draft of 34 ft. have used facilities.
RADIO: Port has no communication equipment. U.S. Coast Guard Station, Peanut Island, Riviera Beach, Florida, be reached by 2182 kHz – 2678 kHz – 156·8 MHz.
TUGS: Available to assist berthing. Service is provided by the Port Towing Corporation, PO Box 12425, Lake Park, Florida 33403. Office tel. 844–4781 or 844–6422, at night 844–4244 or 844–6422.
BERTHING: Two slips and three marginal wharves for docking vessels; with four ramps for roll-on/roll-off facilities:

Ramp 1	North side of port	
Pier 1	North marginal	470 ft. water depth 27 ft.
Pier 2	North side slip 1	690 ft. water depth 25 ft.
Ramps 2–3–4	West end slip 1	
Pier 3	South side slip 1	690 ft. water depth 25 ft.

Pier	4	Middle marginal	170 ft. water depth 35 ft.
Pier	5	North side slip 2	650 ft. water depth 35 ft.
Pier	6	South side slip 2	650 ft. water depth 35 ft.
Pier	7	South marginal	190 ft. water depth 35 ft.

Supplementing the berths are 157,400 sq. ft. of warehousing space. Open storage area is within easy reach of all berths.

All vessels, their Owners or Agents, desiring a berth at wharves, shall, as far in advance of date of docking as possible, make application to port specifying date of docking, sailing, nature and quantity of cargo to be handled, and name of the vessel.

SPECIALISED CARGO HANDLING FACILITIES: Ramps for roll-on/roll-off cargo and wharfside accommodation for equipment to handle containerised cargo only.

STEVEDORES: The recognised working hours of port shall be from 08.00 until 12.00 and from 13.00 until 17.00, Monday through Friday, holidays excepted. During the recognised working hours services will be charged for on a straight time basis.

When vessels are loading or discharging cargo the port may furnish checker-foremen to supervise release of cargo being loaded and/or check cargo being discharged. The charge for each man furnished will be based on labour-furnished rates for foremen, with the Port reserving right to furnish as many men as they deem necessary to protect their interests. Charges for this service will be rendered against the vessels, their Owners, or Agents.

TANKERS: The port receives tankers each month in the 15 to 18 thousand gross ton limit.

FRESH WATER: Fresh water delivered to vessels at wharves or docks.

FIRE PRECAUTIONS: Smoking is strictly prohibited in transit sheds, warehouses, or on apron of wharves and on vessels, handling dangerous, hazardous, or inflammable cargo. Smoking is also strictly prohibited in any areas where gasoline or like materials are being handled or serviced to equipment.

Explosives and hazardous or highly inflammable commodities or materials may be handled over, or received on, the wharves or other facilities of port of Palm Beach by special arrangements with and at the option of the Port Director, and the receiving, handling, or storage of such commodities shall be subject to Federal and State laws, rules and regulations.

In all cases where explosives and hazardous or highly inflammable commodities or materials are to be handled, prior consent by the U.S. Coast Guard must be received and a copy of the consent filed with the Port Director. Responsibility for safeguarding of life and property will be the duty of the shipper. Proof of sufficient liability insurance must be presented to Port Director prior to arrival of such materials.

DEVELOPMENTS: Plans for the development of acreage adjacent to Highway I–95 as a liquid storage area, and development of Peanut Island as an Oceanographic Centre.

CARGO GEAR: Crane capacity can accommodate single lifts up to 300 tons. Also available are two 150 ton cranes, one 40 tonner, and one 23 ton fork lift.

HOLIDAYS: New Year's Day; Washington's Birthday; Decoration (Memorial) Day; Independence Day; Labour Day; Veteran's (Armistice) Day; Thanksgiving Day; Christmas Day. When any one of these falls on Sunday, the following Monday is observed as a holiday. When any one of these falls on Saturday, the preceding Friday is observed.

GENERAL: Marine terminal 1·3 miles from the open sea, served by U.S. Highway 1 and is directly connected by port-owned beltline railroad to the Florida Coast Railway.

Broad aprons (80 ft.) with ship-side rail, and warehouses backed by open storage areas. The slips and wharves are located on a salt water sound, fully protected from the sea by barrier islands; departures from the slips average only 15 minutes through inlet to open sea.

AUTHORITY: Port of Palm Beach. Tel. 842–4201, PO Box 9935, Riviera Beach, Florida 33404.

PANAMA CITY, Florida: 30.10 N. 85.40 W.

DOCUMENTS:
2 Passenger Lists.
2 Crew Lists.
2 Curio Lists.
2 Stores Lists.
Register.
Load-line Certificate.
Tonnage Tax Certificate.

PILOTAGE: Compulsory. Pilots board at sea-buoy. Guard Channel 16 VHF. Safe anchorage at sea-buoy if waiting for Pilot. Pilot boat black hull with white lettering.

ANCHORAGE: Several safe anchorages inside bay with 32 or more ft. depth.

RESTRICTIONS: Maximum safe draft over bar is 32 ft. No other restrictions except in case of bad weather.

HEALTH: Vessels arriving from ports outside U.S.A. boarded on arrival by Public Health. Vessels arriving from other U.S.A. ports will not have to be boarded by Public Health. If sickness suspected, Agent should be advised by radio.

RADIO: Preferably WLO Radio, Mobile, Alabama, U.S.A. Also good service from RCA. Vessel should radio ETA and cash requirements.

TUGS: Only one tug, Tug is used only to assist in berthing. Always uses ship's lines.

BERTHING: Anytime, except for unusual weather. Good safe port. Berths are about 1 hour from pilot station.

STEVEDORES: Must have ETA by 1500 hours local time in order commence loading 0800 next day. Normal work day 0800–1200, and then from 1300–1700, Monday through Friday.

MEDICAL: Medical and hospital service available.

TANKERS: No slop discharge facilities. One tanker berth – 29ft. maximum draft.

DENSITY: Salt water. 18 ft. tide range.

FRESH WATER: Available all berths but ships must supply hose.

FUEL: Only on advance notice – limited supplies.

GANGWAY/DECK WATCHMEN: Only if required by ship's Owners or Master.

OPENING/CLOSING HATCHES: Normally done by stevedores. In some cases, is done by ship's crew.

CUSTOMS ALLOWANCES: Tobacco, one carton 200 cigarettes. Wine/Spirits, reasonable quantity – one or two bottles.

CARGO GEAR: Must show safety inspection if requested.

IDENTIFICATION CARDS: All crew must have U.S. Immigration Landing Permit.

CONSULS: None.

REPAIRS: Limited deck and engine repairs can be effected.

REPATRIATION: Available.

AIRPORT: Approximately 12 miles from port. Served by two scheduled air lines.

TIME: Central Standard Time (GMT – 6 hours or 90° Meridian). Central Daylight time in summer (minus five or 75° Meridian time).

HOLIDAYS: No work holidays: New Year's Day; Easter; Fourth of July; Labour Day; Christmas Day; Working holidays: Veteran's Day; Thanksgiving Day; (time and-a-half).

POLICE/AMBULANCE/FIRE: Dial operator, or 785–6161.

TELEPHONES: Placed aboard only by very special arrangement – not normally available.

SERVICES: Most repairs to radio, radar and other such equipment. Advance notice required.

SHORE LEAVE: Any time—any berth.

DELAYS: Normally, delays infrequent and for short durations.

AUTHORITY: Panama City Ports Authority.

AGENTS: Fillette, Green & Co., Inc., PO Box 1640, Panama City, Florida 32401 U.S.A. Address: 432-a Magnolia Avenue. Tel. 904–763–7675–6–7. Teletype 510–738–7897. Office phone answered 24 hours a day, 7 days a week.

Steamship Agents & Brokers – Freight Forwarders – Stevedoring Arrangement Personnel. Phones: Vice-President and Manager 904–763–1916. Operations 904–785–8798. Dock Superintendent 904–763–1912.

PASADENA, Texas: 29.43 N. 95.13 W. Refer to "Houston" for all general information.

PASCAGOULA, Mississippi: 30.21 N. 88.34 W.

DOCUMENTS: See "New Orleans".

PILOTAGE: Pascagoula Bar Pilots' Association (no code address). Pilot boat to be contacted on VHF Channel 16, pilot boat has black hull with white house, International light and sound signals to be made by vessel requiring a Pilot. Pilot to be taken aboard vessel in vicinity of Horn Island sea buoy. Usual safety measures are required, with respect to boarding. Vessels may anchor in this area while awaiting Pilot, there is a 35 to 50 ft. depth with good holding bottom.

RESTRICTIONS: The Pascagoula channel and turning basin dimensions are: through Horn Island Pass, 350 ft. wide by 40 ft. deep; from Horn Island Pass to the Pascagoula River turning basin, 350 ft. by 38 ft. deep with a turning basin 950 ft. wide by 38 ft. deep; into Bayou Casotte (East Harbor) from Beacon "A" into the mouth of the harbour channel, 225 ft. wide by 38 ft. deep; thence an inner harbour 300 ft. wide by 38 ft. deep to a turning basin 1,000 ft. wide by 38 ft. deep.

No entry restrictions as to time or state of tide.

MAX. SIZE: Length of vessel is restricted to approximately 900 ft. by turning basin, no breadth restriction, draft 38 ft.

RADIO: Mobile Marine operator, Station WLO best for vessels to route ETA cables to Agent.

RADAR/VHF: Radar and VHF radio on pilot boat, Channel 16.

TUGS: Tugs will join vessels in harbour or off docks. No escort required.

BRIDGES: Two bridges cross the Pascagoula River above the turning basin, not passed through between channel and harbour.

BERTHING: All berths have 38 ft. water depth.
West Harbour: Grain elevator with 3,100,000 bushels capacity.
Terminal "A": One pier 500 ft. length. Terminal "B" 544 ft. length.
East Harbour: H. K. Porter dock 650 ft. length.
Standard Oil Co. dock 650 ft. length.
Coastal Chemical bulk handling plant, four berths.
Terminal "E" 540 ft. length, Terminal "F" 650 ft. length.
Terminal "G" 516 ft. length. Terminal "H" 555 ft. length.

STEVEDORES: 12 hours notice requested to arrange stevedore gangs.

MEDICAL: No advance notice required for medical attention, doctor and hospital care readily available.

TANKERS: The Standard Oil Co. owns and operates three wharves on East side of Bayou Cosotte harbour. Facilities have 6, 8 and 12 in. lines with adaptors, discharge tanks with a capacity of 60,000 barrels, three tanker berths with a 38 ft. draft.

FRESH WATER: Fresh water is available.

DENSITY: Density varies with the state of tide and wind, from fresh to salt water.
FUEL: Large vessels are bunkered at berth in the harbour by two tank barges, operated by Fuel Services, Inc. All grades fuel are available.
WATCHMEN: Port guards are furnished for the general cargo terminals at the port's expense. At least one watchman must be on duty aboard vessel.
CARGO GEAR: No requirements for cargo gear other than it be certified by a recognised International organisation.
IDENTIFICATION CARDS: Crew Identification Cards are recommended.
CONSULS: Many countries have consuls within a 100-mile radius of Pascagoula.
REPAIRS: Most deck and engine repairs could be arranged within port facilities.
DRY DOCKS: Two floating dry docks, five marine railways, and a graving dock are located at four of the marine repair plants within this area. Lifting capacities of the floating dry docks are 800 and 600 tons and haul-out capacities of the marine railways range from 20 to 425 tons.
REPATRIATION: The city of Pascagoula is served by regularly scheduled transportation.
AIRPORT: An airport is available approximately five miles from the city and is served by regularly scheduled airlines.
TIME: The port of Pascagoula is on Central Standard Time, GMT minus 6 hours; clocks are moved ahead 1 hour during summer months.
HOLIDAYS: United States national holidays are observed, cargo work can be arranged on these days at penalty time.
POLICE/FIRE/AMBULANCE: Telephone numbers for emergency services are; Fire 762–1133; Police 762–2211; Ambulance 762–6332.
TELEPHONES: Telephones can be installed aboard vessels at a nominal charge.
SERVICES: Facilities are available for fuel service, compass adjusting, and many other special services that may be required.
AUTHORITY: Jackson County Port Authority, Chancery Court Building, Room 211 235 Canty Street (PO Box 878), Pascagoula, Miss. 39567.

PETERSBURG, Alaska: 56.49 N. 132.57 W.

Located on Mitkof Island, Northern end of Wrangell Narrows. Open all year.

DOCUMENTS: See "Anchorage, Alaska".
PILOTAGE: (From sea via Dixon Entrance up Clarence Strait to Guard Island.) Under pilotage from Guard Island.
MAX. SIZE: Harbour depth 24 ft. MLLW. Tides: diurnal range 15·7 ft. Also see "Berthing".
ANCHORAGE: Good anchorage in Scow Bay, mud bottom.
CUSTOMS: Immigration, Guard Island. Quarantine and Customs, local.
BERTHING: Pacific American Fisheries Inc.: 75 ft. long, 65 ft. wide. Should dock at slack water. Strong current.
TUGS: One 320 h.p.
STEVEDORES: One gang.
REPAIRS: Marine Ways to 35 tons.
WATER: State approved water available.
FUEL: Diesel and Gasoline available.
MEDICAL: 21 bed hospital.
TRANSPORTATION: Scheduled and Charter Airlines and ferry.

PHILADELPHIA, Pa.: 39.57 N. 75.10 W.

AMERIPORT (Ports of Philadelphia)
DOCUMENTS:
3 Crew Lists Form I.418 (suggest 6 be made).
3 Passenger Lists Form I.418 (suggest 6 be made).
3 Customs Stores Lists (suggest 6 be made).
3 Curio Lists (own ship Form) (suggest 6 be made).
3 Narcotics Lists (own ship Form) (suggest 6 be made).
Manifest (Ship Cargo List). If Philadelphia first port of call, require 1 copy for Customs and 1 copy to be used as "traveller" surrendered last port of call. If Philadelphia not first port of call, required 2 copies, all cargo to be discharged at Philadelphia.
For Immigration Service:
Visaed Crew List.
Valid passport or Seaman's Book for each person on board.
Crewman's landing card (Form I.95) for each crew member.
PILOTAGE: The pilot boat serving the Delaware River and ports of Philadelphia is a 165 ft., 1,000 gross ton steam vessel, painted light blue with letter "P" on stack. All pilots carry portable radios for bridge-to-bridge traffic to facilitate movement of vessel (VHF 156·7). Pilot boat is on permanent station in Cape Henlopen on a 24-hour basis and guards following frequencies: 156·65 VHF and 2738 and 2182 Khz. Telegraphic address is Del. Riv. Pilots, 214 S. 11th St., Phila., Pa. 19107. Arrangements for Pilot are normally made by ship's Agent but can be made direct by vessel.
No particular advance notice is required and incoming vessels are served as they arrive. Normally no delays are encountered. There are no particular boarding or safety measures required, other than the usual practice of good seamanship. In event of an unscheduled delay in berth availability, a deep-water anchorage is readily available in the bay adjacent to pilot boat. There are 18 anchorage areas available along the Delaware.
RESTRICTIONS: There are no restrictions imposed upon entry except those dictated by vessel draft. Throughout most of its length, the Delaware River is dredged to 40 ft. at MLW. In addition there is a mean tidal range of about 5·7 ft. Vessels of 38 ft. draft can readily navigate the river.
MAX. SIZE: Deep-draft vessels (oil-carriers) can off-load to barge in the lower Bay in water capable of handling vessels up to 60 ft draft.
HEALTH: Pratique procedures required for first port of entry. Pratique is automatic for subsequent port calls. Vessels can request "radio pratique" clearance at all ports in the U.S. The Maritime Quarantine Declaration is usually delivered by Pilot, and the Master, after completion of the Declaration, may then send the radio request to ship's Agent via ship's radio.
RADIO: RCA Global Communication. "WSC" Tuckerton, N.J.
TUGS: Tugs normally join vessels adjacent to berth. Ship's lines are used.
BERTHING:

Northern Metal Co. Terminal	9 berths depth 25 ft. to 32 ft.
Tioga Terminal	7 ,, ,, 35 ft.
Delaware River Terminal	4 ,, ,, 29 ft. ,, 32 ft.
Port Richmond	10 piers depth alongside 26 ft. to 36 ft.
Delaware River	21 ,, ,, ,, 26 ft. ,, 35 ft.
Greenwich Point Tide-water Ore Terminal	2 berths 850 ft. length, depth 37 ft. and 42 ft.
Girard Point	3 piers depth alongside 28 ft. to 36 ft.
Camden	3 ,, ,, ,, 30 ft. ,, 40 ft.
Gloucester	Ore Pier, depth alongside 25 ft. and 31 ft.

Packer Avenue Terminal, 5 berths, depth alongside 35 ft.
Port of Wilmington, 5 berths, depth alongside 35 ft.

STEVEDORES: Ship's Agents make arrangements for stevedore gangs. Agents should be kept advised of any change in ETA.
MEDICAL: Advance notice of requirements desirable to the extent possible. Hospital facilities are available. Smallpox vaccination certificate required (see Quarantine Declaration Form).
TANKERS: There are 83 petroleum handling berths along the Delaware River. All terminals are equipped with reducers. There are slop (residue) facilities at most terminals. Some main terminals listed below:

Fort Mifflin	Atlantic-Richfield	40 ft. depth
Point Breeze	Atlantic Richfield	32 ,, ,,
	Ballast Wharf	32 ,, ,,
Hog Island	Gulf Oil Terminal	40 ,, ,,
Paulsboro	Mobil Oil Terminal	30 ft. and 40 ft. depth
	Patterson Oil Terminal	36 ft. depth
Marcus Hook	Sinclair Refining Co.	35 ,, ,,
	Sun Oil Co.	33 ,, ,,
Westville (Eagle Point)	Texas Oil Terminal	40 ,, ,,
Pennsauken	Greater Valley Oil Co.	34 ,, ,,
Girard Point	Gulf Oil Co.	33 ,, ,,
Delair	Hess Oil Co.	31 ,, ,,

DENSITY: Philadelphia ports are fresh-water ports.
FRESH WATER: Fresh water normally not available directly at berth. Fresh water available by tank truck or through Fire Department. No water barges available.
FUEL: Bunker C and diesel fuel available most oil terminals. Vessel's Agent should confirm berthing space at least 24 hours in advance.
WATCHMEN: These services are left to the discretion of the master. It is often recommended by ship's P & I Club that watchmen be engaged when seamen are detained by U.S. Immigration. Ship is subject to heavy fines by U.S. Government if any detained seaman deserts vessel.
HATCHES: Normally opened/closed by stevedores.
CERTIFICATES: Ship's Register and Load-line Certificate are mandatory. If vessel is carrying passengers from the U.S. they will require a U.S. Coast Guard Certificate. This can easily be obtained in about one or two days subject to meeting the requirement for life-saving equipment.
CUSTOMS ALLOWANCES: No set rule. Reasonable amount allowed for personal use.
CARGO GEAR: For exceptionally heavy lifts, Philadelphia Naval Shipyard has a 350-ton crane. Special permission is required to use this machine when there are no commercial facilities available.
CONSULS: The following countries are represented in Philadelphia:

Belgium	Guatemala	Norway
Brazil	Haiti	Panama
Canada	Honduras	Paraguay
Chile	Iceland	Peru
Colombia	Israel	Portugal
Costa Rica	Italy	Sweden
Denmark	Japan	Switzerland
Ecuador	Liberia	Thailand
Germany	Mexico	Uruguay
Great Britain	Netherlands	Venezuela

REPAIRS: All types of ship repairs can be effected.
AIRPORT: Philadelphia International Airport is located approximately 6 miles from central harbour area.

TIME: Standard time GMT minus 5. Daylight Saving Time (minus 4) is usually implemented about the last week-end in April.
HOLIDAYS: New Year's Day (1st January); Lincoln's Birthday (12th February); Washington's Birthday (22nd February); Good Friday; Decoration Day (May 30th); Flag Day 14th June); Independence Day (4th July); Labor Day (1st Monday in September); Colombus Day (12th October); November Election Day (1st Tuesday in November); Armistice or Veteran's Day (11th November); Thanksgiving Day; Christmas Day; and any other national holiday as may be provided by executive authority.
POLICE/FIRE/AMBULANCE: Fire LO 3-6700; Police 231-3131; Port Disaster 609-WO 3-6420, WA 5-8780.
GENERAL: If garbage removal is required while in port, it must be done under supervision of the plant quarantine service.
AUTHORITY: Delaware River Port Authority, Public Ledger Building, Independence Square, Philadelphia, 19106. Cable address: "Delripva."

PINEY POINT, Maryland: 38.08 N. 76.32 W.

Steuart Petroleum Company Terminal on East bank of Potomac River, 82 miles from sea.
DOCUMENTS/PILOTAGE/HEALTH: Refer to "Baltimore".
ANCHORAGE: Unlimited, available in Chesapeake Bay.
RESTRICTIONS: Berthing 24 hours a day with maximum draft of 38 ft. Vessels exceeding 725 ft. or 37 ft. draft, 2 tugs required docking – 1 sailing. Vessels under, 1 tug docking, none sailing.
MAX. SIZE: Limited by depth at berth, 38 ft.
RADIO: WMH Baltimore Radio. VHF channel 26.
TUGS: Two tugs available for berthing, join vessel off berth.
BERTHING: One tanker berth only. Long lines required for first ashore.
FRESH WATER: Available at berth.
FUEL: Bunker "C" only, available ex-berth.
GENERAL: Nearest city with full services is Washington, 65 miles distance.
AIRPORT: Washington National or Friendship International.
TIME: GMT minus 6 hours.
SHORE LEAVE: Allowed.
AUTHORITY: Maryland Ports Authority.

PORT ADAMS, Texas: 29.45 N. 95.11 W. Refer to "Houston" for all general information.

PORT ANGELES, Washington: 48.08 N. 123.25 W.

DOCUMENTS, HEALTH, etc.: Refer to "Tacoma".
PILOTAGE: Compulsory for all vessels except those in coasting trade. Pilot station at Ediz Hook serves all vessels bound for Puget Sound ports. Pilot boards off Port Angeles.
ANCHORAGE: In harbour, depth at least 42 ft. MLLW.
BERTHING: Four principal wharves, depth alongside 28-38 ft. MLLW.
STEVEDORES: Eight local gangs, additional gangs may be imported if required.
HOLIDAYS: See "Tacoma".
MEDICAL: All medical facilities available. Local hospital.
DENSITY: Salt water.
FRESH WATER: Available at all wharves.
FUEL: Barge delivery only.
GANGWAY/DECK WATCHMEN: Required only if detainees aboard.
CUSTOMS ALLOWANCES: No definite quantities specified; reasonable allowance at discretion of Customs Inspector.

PORT ARTHUR, Texas: 29.53 N. 93.57 W.

DOCUMENTS:
Entrance Direct from a Foreign port:
Master's Oath on Entry, CF.3251 (signed by Master and notarised).
Quarantine Pratique.
Master's Certificate on Preliminary Entry, CF 3255 (soon to be abolished, at which time this certificate will be made on the reverse of the last page of the manifest.)
Oath on Repairs, CF.3415 (American vessels only).
Clearance from last port.
Store List.
Crew List on Form I. 418 (including the certified copy from last American port).
Passenger List on Form I. 418.
Manifest of Cargo on CF.7527A or 7527B in the order of ports of discharge, or if in ballast use the same form and state that the vessel is in ballast.
Entrance from another Domestic Port with residue cargo, American or Foreign vessel:
Master's Oath on Entry, CF.3251 (signed by Master and notarised).
Master's Certificate on Preliminary Entry CF.3255 (if vessel boarded).
CF.1385 from latest port, Master signs sub-div. 3.
Store List.
Crew Curios List.
Passenger List (Form 1.418) but only if passengers are disembarking.
Cargo Manifest for cargo to be discharged at this port. If there is no cargo for this port it will consist of a "pro-forma manifest".
In addition to the customs forms needed, as shown in the above, Master will also need to present the following ship's papers to customs on arrival: (*a*) Certificate of Nationality; (*b*) Ship's Registration; (*c*) Safety Equipment Certificate; (*d*) Load Line Certificate; (*e*) Tonnage Tax Certificate. These papers are returned to the vessel upon filing clearance. Every vessel must have these papers onboard on arrival and on departure.
PILOTAGE: Come up in vicinity of the sea buoy. Twenty-four hours notice of ETA should be given and revised if ship is delayed one hour or more. Telegraphic address is Sabine Pilots, Port Arthur, Texas. Pilot station stands 24 hour continuous watch on VHF Channel 12 – 156·6 mc/s. and on Channel 2738 kc/s. Pilot boat is motor vessel with black hull, white housing flying pilot insignia by day and pilot light by night. Location of pilot boat is in general vicinity of Sabine Pass sea buoy. Pilot ladder only on lee side of vessel.
Pilot will, upon request and at extra cost, board incoming vessels at buoy marked "SB" in position 29.25 N. 93.40 W.
RESTRICTIONS: Port Arthur ship channel is in operation 24 hours a day. Only restriction that might hamper traffic would be draft of vessel. Able to handle vessels taking up to 40 ft. draft. Extremely bad weather conditions, such as fog or high winds, may delay entry.
MAX. SIZE: Port Arthur ship channel authorised to 40 ft. in depth and will vary from 400 to 800 ft. in width. Turning basin, which is located at mile 19 (only about ½ mile upstream from existing port facility) will be 900 ft. in width. Bulk carriers going to grain elevator at Port Arthur or to one of the oil refineries would only be restricted by draft which would vary from 30 ft. to 40 ft. depending on load/discharge berth. See 'Berthing'.
HEALTH: Vessel arriving directly from a foreign port must be boarded by Public Health Department representative, immediately if possible. Until vessel is boarded and granted free pratique, no one is allowed on or off vessel (including customs, immigration, etc.). Upon receiving free pratique, vessel may lower yellow flag, which must be flown upon entering from a foreign port, and only then may anyone board or disembark from vessel. In event there is any suspected disease on board, the vessel is quarantined until a doctor has made an examination and diagnosis. Pratique is automatic anytime a vessel comes coastwise and has already been boarded in United States and granted free pratique.
RADIO: For a vessel in Gulf of Mexico, and *en route* to Port Arthur, radio "Port Arthur Radio" (Radio Marine Corporation of America) whose call sign is WPA. Also radio stations located in Galveston, Texas (Mackay Radio, call sign KLC) and in Mobile, Alabama (call sign WLO).
TUGS: Exact position that the tug meets vessel varies with each vessel, but usually they meet just below Texaco Island. In some cases they meet as far up as Great Lakes Carbon (when vessel is in ballast and going to Gulf Oil Docks). The tugs usually use ship's lines. Port of Port Arthur is served by two towing companies (1) D.M. Picton Towing Company and (2) Sabine Towing Company, Inc.
BERTHING:

	distance from sea	*depth alongside*
Atlantic Refining Co.	30 m.	38 ft.
Cargil Grain Elevator	17 m.	32 ft.
Great Lakes Carbon Corp.	17 m.	30 ft.
Gulf Oil Terminal	18 m.	38 ft.
Texaco Terminal	17 m.	35 ft.

Public Ocean Terminal, 19 miles from sea, 40 ft. depth alongside. Three berths, six more to be added in future. Equipped with gantry crane, 75 tons capacity.
Topco Terminal, 26 miles from sea, 40 ft. depth alongside. Can accommodate bulk carriers up to 100,000 dwt. Discharge rates up to 3,000 tons per hour. Shiploader capacity also 3,000 tons per hour.
See also "Beaumont", "Magpetco", "Port Neches", "Smiths Bluff".
STEVEDORES: Advance order for longshore gangs varies as to contract held by ILA (International Longshoremen's Association). In Port Arthur, gangs have to be ordered as follows: Order by 7 p.m. for the next morning (either 7 a.m. or 8 a.m.); order by 5 p.m. for 7 p.m. Order by 8 a.m. for 10 a.m.
MEDICAL: Port Arthur is served by two hospitals: (1) St. Mary's Hospital and (2) Park Place Hospital, both of which are very well staffed and have adequate facilities for almost any emergency. Also, advanced notice is helpful when vessel is scheduled to dock late in evening or during night, as doctors have to be located.
TANKERS: There are three major oil companies, Gulf Oil Corporation; Texaco Oil Company, Inc.; and Atlantic Richfield Company. Gulf Oil Corporation and Texaco Oil Co., Inc. are two of largest oil refineries in the country. The diameter of load/discharge lines range anywhere from 4 in. to 12 in. depending on the grade of the petroleum product being loaded. As far as slop discharge facilities are concerned, ballast tanks are sure at all major oil companies. Tank cleaning in port must be done by longshore labour. Gulf Oil has 3,400 linear ft. of berth accommodations and Texaco Oil Co. has 5,299 linear ft. of berth accommodations, together enough to accommodate 11 supertankers plus barges. Atlantic Richfield Co., being the smallest of the three oil companies, has berth accommodation for three vessels.
DENSITY: Varies from almost fresh water (1000) to pure salt water (1025) depending on amount of rainfall and tide variations. According

to figures obtained from the National Cargo Bureau, average density is 50% salt water or (1012·5).

FRESH WATER: Available at wharves, or by barge.

FUEL: Almost any grade of fuel or marine diesel is available. In some instances there are fuel lines running directly to docks, but if not a bunkering barge is available. An advance notice is usually required by bunkering barge depending on number of vessels awaiting bunkering.

GANGWAY/DECK WATCHMEN: Under normal conditions a watchman is not necessary on most vessels. Under certain conditions such as a communicable disease or a malafide crewman a watchman would be feasible but the decision is left to Master. There is a $1,000 fine if a malifide crewman disembarks from vessel.

OPENING/CLOSING HATCHES: Paragraph 2, Rule 1 of the Deep Sea Longshore and Cotton Agreement for Texas ports and Port of Lake Charles, Louisiana, states as follows: "When vessel is in loading or unloading berth, loading and laying of dunnage and the opening and closing of hatches, when in connection with the handling of general cargo and/or cotton, is longshore work and will not be done by ship's crew."

CUSTOMS ALLOWANCES: Tobacco: Each crewman is allowed to keep 300 cigarettes out of bond while in port. Wine and/or Spirits: Each crewman is allowed to keep one quart of spirits out of bond while in port.

CARGO GEAR: A current certified Gear Certificate is required to be on board at all times and is to be kept up to date.

IDENTIFICATION CARDS: American crewmen do not need any identification card. Foreign crewmen need only the landing permit from Immigration Department in order to go ashore.

CONSULS: The nearest Consul-Generals are in Houston, Texas. Port Arthur has only 5 honorary Vice-Consuls, which are: Norwegian, Spanish, Panamanian and Honduran. Houston is approximately 90 miles from Port Arthur.

REPAIRS: All types of deck and engine repairs can be accomplished. Main ship repairers are; Gulfport Shipbuilding Corp., Burton Ship Yards, Inc., Sabine Propeller Company and Sabine Neches Shipbuilding Corporation.

DRY DOCKS: Two dry docks, largest being Gulfport shipbuilding Co., which occupies 50 acres with 3,300 ft. of frontage on Port Arthur Ship Channel. Yard designs, constructs and repairs barges, tugs and other vessels. It has fully equipped shops and four floating dry docks with lifting capacities of 500, 1,800, 4,000, and 4,200 tons. Smaller dry dock is Burton Shipyards, Inc., which occupies 60 acres with 3,200 linear ft. of frontage on Port Arthur Ship Channel. This yard also designs, constructs and repairs barges, tugs and other vessels. It has fully equipped shops, two marine railways with haul-out capacities of 1,000 and 1,500 tons and one floating dry dock of 3,000 ton capacity.

REPATRIATION: There are facilities for effecting crew changes and repatriation.

AIRPORT: Is located approximately 10 miles north of port on Highway 69. The Mid-Jefferson County Airport is served by TI (Texas International) and Delta Airlines and offers 16 arrivals and 16 departures daily.

TIME: Central Standard Time during winter. Beginning April 28th until October 27th Central Daylight Time (clocks are moved ahead one hour). Central Standard Time is GMT minus 6 hours.

HOLIDAYS: Longshore holidays are: Armistice Day or Veterans' Day (Nov. 11th); Thanksgiving Day; Christmas Day; New Year's Day; Washington's Birthday; Texas Independence Day (June 19th); Fourth of July; Labor Day; Decoration Day (May 30th). No work shall be performed on Labour Day or Christmas Day, except in case of fire or where property is in danger. When holidays come on Sunday, the following day is to be recognised as the holiday. No work to be performed between 4 p.m. and 7 p.m. on election days.

POLICE/AMBULANCE/FIRE: Police Department 983–5101; Fire Department 985–5511; Ambulance Service 985–5504 or 983–5666.

TELEPHONES: No facilities for placing a telephone on a vessel. However, a coin-operated telephone on the dock for anyone's use.

SHORE LEAVE: Shore leave is allowed. Only requirements being; each crewman on shore leave must have a landing permit issued by Immigration Department and no malafide crewman may be granted shore leave.

DELAYS: Delays in berthing usually arise from vessels ETA being delayed and thereby causing a berth conflict. The port of Port Arthur is on a first come first serve basis.

AUTHORITY: Port of Port Arthur Navigation District of Jefferson County, Texas, 500 World Trade Building, PO Box 1428, Port Arthur, Texas 77640.

PORT CANAVERAL, Florida: 28.25 N. 80.35 W.

DOCUMENTS: Vessels arriving in the Customs Territory of the United States, Bureau of Customs Documentary Requirements:

1. The vessel's Register, Load-line International Certificate, Tonnage Tax Certificates, Clearance from last Foreign Port, and Public Health Pratique (if applicable) must be available for the Boarding Customs Inspector and later for entry at the Customhouse.

2. Additional Documents required:

(*a*) Original Manifest (lists) of:
All Cargo on Board.
All Passengers on Board.
Stores List.
Crew Purchase List.
Crew List.
Narcotic List.

(*b*) All items listed in Nos. 1 and 2 (*a*) must be presented to the boarding Customs Inspector and later at the Customhouse for entry. In addition a Customs Form 1300 (Masters Oath) must be presented at the Customhouse.

(*c*) Duplicate Manifest (lists) of:
1. All Cargo to discharge at this port.
2. All Passengers for discharge at this port.
3. Stores List.
4. Crew Purchase List.
5. Crew List.
6. Narcotic List.
7. CF3171 – Permit to Lade or Unlade (this will usually be furnished by the vessels agent prior to the arrival of the vessel.

(*d*) If vessel is proceeding coastwise from Port Canaveral with residue foreign cargo on board, prepare a Traveling Manifest which is a true copy of everything listed in the Original Manifest (2(*a*)). This must be presented to the boarding Customs Inspector and later at the Customhouse.

3. Other Documentary requirements: The Immigration Officer will require the original certificate crew list on form I–418. The same for passengers. He will also require the presentation of all passports and documents of seamen and pax as to their immigration status for entry into the United States. A supply of Seaman's Landing Permit Form No. I–95A and passenger Permit No. I–94 should be maintained and they should be typed and ready for landing.

The Public Health Officer will require a copy of the crew and the stores lists and the Quarantine Declaration Form PHS 43 already executed by the Master of the vessel. The Immigration and Quarantine Officers will want to inspect the entire crew. The Customs and Agriculture Officers will want to inspect the food storage areas and the quarters of the crew. The Agriculture Officer will also require a stores list. The Customs Officer will place a seal on the Bonded Stores Locker.

PILOTAGE: Pilotage is compulsory for all foreign vessels and for United States vessels under register in the foreign trade. Pilotage is optional for United States coastwise vessels who have on board a Pilot licensed by the Federal Government. Vessel applies for Pilot through Agent or Port Authority. May also call Pilot Office direct, 305–783–4645. Pilot will board at buoys 7 and 8 (28° 23.8′ N. 80° 33.4′ W.). Pilot boat is 30 ft. long with grey hull, white house and buff deck, has "Pilot" painted on sides. There is no particular signal for Pilot. Pilot boat stations itself one mile S.E. of buoys 7 and 8 ½ hour before ETA of vessel. Vessels may anchor anywhere in area. Pilot boat is equipped with VHF Channels 12 (156.60 mHz) and 16 (156.80 mHz), but no continuous radio watch is maintained. Advance notice of at least 24 hours should be given.

ANCHORAGES: Within harbour itself, none. Vessels may anchor anywhere in the area of the pilot station, buoys 7 and 8.

RESTRICTIONS: Docking and undocking carried on day and night. Draft restrictions – if vessel draft exceeds 33·6 ft. must await rising tide to enter port.

MAX. SIZE: Length and draft at Tanker Berth No. 1 and No. 2 600 ft., with 32 ft. draft. Cargo dock length unlimited – 30 ft. draft.

HEALTH: Radio pratique can now be granted to any vessel requiring quarantine clearance. Requests for radio pratique can be made at Port Canaveral by the ship's Agent, directly to U.S. Public Health Service, Division of Foreign Quarantine, Miami, Florida, and if granted the vessel need not be boarded by a quarantine officer at arrival. If there is any illness on board the vessel should radio this immediately to the nearest quarantine station (it may be necessary in some cases to request the U.S. Coast Guard to relay this information) even if a radio pratique has already been granted.

If a vessel has been granted free pratique already and is proceeding to another U.S. port another pratique is not necessary. Vessels arriving from the following countries need not apply for pratique – Aruba, Bahamas, Bermuda, British Virgin Islands, Canada, Curacao, Greenland, Iceland, Jamaica, Miquelon, Panama Canal Zone (U.S.), St. Pierre, U.S. and its' possessions, West Coast of Lower California (Baja).

RADIO: Pilot boat is equipped with VHF Channels 12 (156.60 mHz) and 16 (156.80 mHz) but no continuous radio watch is maintained. Advance notice of at least 24 hours should be given. Best to route ETA cables through Western Union Telegraph. Port Canaveral is equipped with VHF Port Operations frequency 156.6.

TUGS: There are two 1,800 h.p. tugs at Port Canaveral; most ships use the tugs for docking and undocking. Tugs normally join vessel inside jetties and tugs lines are used.

BERTHING: All vessels unless prevented by conditions will be turned around upon entering turning basin and will be berthed headed seaward. No berthing permitted without Port Pilot aboard.

STEVEDORES: Important vessel gives accurate ETA at least 24 hours in advance to enable Agent to order gangs.

MEDICAL: Advance notice for Agents not required, but if available is appreciated. No Public Health Clinic in area, but there are good hospital facilities available. A contract physician's office of the U.S. Public Health Service is in Cocoa Beach, just South of the port.

TANKERS: Two Tanker Berths available, 32 ft. draft at these berths. No oil to be pumped overboard. Heavy fines imposed for oil pollution, however slight. The ship or ship's Agent will immediately report any spillage of oil on the wharf or on the water and the extent of the spill to the Port Manager and the Harbour Master. If spillage is considerable all cargo operations must stop and vessel prepare to undock.

FRESH WATER: All wharves have facilities for supplying fresh water, delivered by 4-in. water line.

FUEL: The general cargo wharf, and Tanker Berth No. 1 has facilities for supplying fuel. 24 hours notice requested.

FIRE: Ships discovering fire on board or close by on shore will sound repeated long whistle blast signals and use every other available means to report the fire. Gasoline Tankers: All deck scuppers must be plugged before starting to discharge cargo. Supply of sand or sawdust must be on hand near the discharge headers. Static cable must be connected to wharf. Minimum 100 lb. pressure must be on water main and fire hose connected. Discharging must be stopped during severe lightning. Deck Officers must keep close check on hose connections for gasket leaks. Emergency Ship Movement Policy of Port Canaveral must be observed.
GANGWAY/DECK WATCHMEN: Not usually employed, this service left to discretion of Master.
OPENING/CLOSING HATCHES: Usually done by stevedores.
SHIP CERTIFICATES:
Ship's Register.
Load Line Certificate.
Tonnage Tax Certificate.
Deratting Certificate or Deratting Exemption Certificate.
CUSTOMS ALLOWANCES: 300 cigarettes per crew member. Wine and/or spirits: One quart per crew member.
CREW IDENTIFICATION CARDS: Required.
CONSULS: None.
REPAIRS: None – nearest port would be Jacksonville.
REPATRIATION: All facilities available for effecting crew changes and arranging any necessary repatriations.
AIRPORT: Two airports available, serviced by regular airlines, McCoy Airport, Orlando, Florida approximately 50 miles from the Port, Cape Kennedy Regional Airport at Melbourne, Florida approximately 35 miles from Port and Ti-Co Airport approximately 25 miles from the Port, but this airport has only limited service.
TIME: GMT minus 5 hours normal, GMT minus 4 hours Daylight Saving Time.
HOLIDAYS: Numerous holidays do not affect operation of port, which operates 24 hours a day, seven days a week.
POLICE/AMBULANCE/FIRE: Police/Fire, tel. 783 8203; Ambulance, tel. 632 1444 and 636 2929.
TELEPHONES: Arrangements are not available for placing on board.
GENERAL: All vessels, civilian and military, will provide wire ropes from the bow and stern with eyes that can be reached by tugs coming alongside. Pilots will make sure wires are in proper position before leaving vessel. All vessels will undock and proceed to outer anchorage when so ordered by Port Manager and/or Harbour Master in the event of: (*a*) a severe oil spillage; (*b*) fire is discovered on board a vessel laden with petroleum, explosives or a quantity of dangerous cargo; (*c*) vessel is in jeopardy due to conditions on shore. Emergency movement of ships will be made with an able sea watch without awaiting for return of other ships personnel.
SHORE LEAVE: Crew allowed ashore.
PORT REGULATIONS: All radio frequency radiations from ships in Port Canaveral must be scheduled to prevent any possible interference to missile tests conducted on the Cape Canaveral Missile Test Annex. The only exception is standard ship/shore HF harbour control frequencies. Vessels desiring to radiate will request permission from the Port Manager and/or Harbour Master.
AUTHORITY: Canaveral Port Authority, PO Box 267, Port Canaveral Station, Cape Canaveral, Florida 32920. Telephone number 305–783–7831.

PORT EVERGLADES (including Fort Lauderdale), Florida: 26.05 N. 80.05W.

DOCUMENTS:
3 copies Cargo Manifest (Forms 7527-A or 7527-B), the original showing all cargo on board, and 2 copies showing only cargo for this port.
2 copies Crew Manifest (curio list).
2 copies Stores List.
2 copies Passenger List (Form I.418).
2 copies Crew List (Form I.418).
Customs boarding Officer will also examine Ship's Register and Load-line Certificate. In addition, the following documents will be required for formal entry to be made within 48 hours of arrival from abroad, or 24 hours from arrival from a United States port:
Health Pratique.
Master's Oath (Customs Form 3255).
All foreign clearances.
U.S. Certificates of payment of tonnage tax (Customs Form 1002).
Certified Crew List.
PILOTAGE: Pilot boards at Port Everglades sea buoy, located 26° 05′ 30″ North latitude, 80° 04′ 45″ West longitude.
ANCHORAGE: The prescribed anchorage area at Port Everglades is outside the harbour and North of the channel. Vessels desiring to anchor off harbour of Port Everglades are required to do so in this area to avoid possible damage to cables laid on ocean floor South of the channel.
South of the channel, immediately offshore, there is a Government Restricted Area.
North of the channel, immediately offshore, there is a spoil bank visible at low water.
RESTRICTIONS: Entrance to Port Everglades is by a straight channel running in a due Westerly direction for a distance of 1·7 miles from the 50 ft. contour of the ocean to the turning basin. The channel is 500 ft. wide at its seaward end, narrowing to 300 ft. wide from jetty entrance to turning basin. The water depth is 39 ft. including the turning basin. All depths are at Mean Low Water.
BASIN: The main turning basin is 1,200 ft. East and West and 2,450 ft. North and South with a depth of 39 ft. The North extension of turning basin is 620 ft. wide East and West on the North limits and 900 ft. wide East and West on the South limits and 1150 ft. North and South, with a depth of 33 ft. The South extension of turning basin is 1,300 ft. wide East and West by 1,300 ft. North and South, with a depth of 32 ft., except Berths 17 and 18, which have a depth of 37 ft. All depths are at Mean Low Water.
HEALTH: Radio pratique may be granted basis information received prior to arrival of vessel, provided no communicable diseases on board. Normally, vessels are boarded by medical officers on arrival unless free pratique previously given at U.S. port in the same voyage. If granted free pratique, vessel may enter port and discharge passengers and cargo. If given provisional pratique, vessel may enter port, but must take any additional measures specified in connection with discharging passengers and cargo, until free pratique is given.
RADIO: The following radio channels are available to communicate with facilities at Port Everglades:
Ship calling and safety: Channel 16, 156·8 Mc.
Business and operation: Channels 14, 156·7 Mc; 7A, 156·35 Mc; 18A; 156·9 Mc.
Port Everglades Bar Pilot: Channels 16, 13, 14, 18A, 19A.
Port Everglades Towing Co.: Channels 16, 13.
TUGS: Three tugs available to assist berthing.
BERTHING: Port Everglades has 16,200 linear ft. of berthing facilities, as follows:

Berth	*Length in feet*	*31 ft. depth*	*32 ft. depth*	*37 ft. depth*	*38 ft depth*
1–2–3	1,601	1,300		301	
4	700			700	
5	700			700	
6	378			378	
7–8	1,200			1,200	
8A	300			300	
9–10	1,200			1,200	
11	500			500	
12–13	1,201			1,201	
14–15	1,201			1,201	
16*–17–18	1,648			1,648	
19–20	1,300		1,100	200	
21–22	1,325		1,325		
23	240				240
24–25	1,369				1,369
26–27	1,337				1,337
Total	16,200	1,300	2,425	9,529	2,946

* Berth 16 has a depth of 39 ft.
STEVEDORES: These services are provided by licensed stevedoring firms. Arranged by Agent.
BUNKERING: All berthing facilities are provided with facilities for furnishing fuel oils and fresh water.
REPAIRS: Shipyard equipped with a 350 ft. Syncrolift dry dock with a capacity of 4,200 tons, one 1,000 ton floating dry dock, complete machine-shop and all supporting facilities.
IDENTIFICATION CARDS: Standard U.S. Immigration Forms I.95 to be made up for each crew member on arrival. Not necessary for crew man already holding Form I.95, issued for the same vessel.
CUSTOMS ALLOWANCES: At the discretion of customs officers. Normal allowance is 200 cigarettes or 2 lb. tobacco and one quart wine or spirits per man. Additional allowances may be given if considered necessary, due to length of vessel's stay in port.
HOLIDAYS: New Year's Day (January 1); Martin Luther King's Birthday (January 15); Lincoln's Birthday (February 12); Washington's Birthday (February 22); Good Friday; Memorial Day (May 30); Independence Day (July 4); Labor Day; Columbus Day (October 12); Veteran's Day (November 11); Thanksgiving Day; Christmas (December 25). When any of the above holidays fall on a Sunday, they will be observed on the Monday following. Work on these holidays is by special arrangement only.
TIME: Eastern Standard Time, GMT minus 5 hours. Daylight saving time, GMT minus 4 hours, from April to October.
AUTHORITY: Port Everglades Authority, Port Everglades, Florida 33316.

PORT HURON, Michigan: 42.59 N. 82.26 W.

Refer to St. Lawrence for important general information.
PILOTAGE: Compulsory, by Seaway Pilots.
ANCHORAGES: Near head of St. Clair River at Sarnia. Vessels should anchor as close to shore as safely possible to keep channel clear for passing vessels.
RESTRICTIONS: Navigation season from mid-March to end-December approx. Dock channel depth – 25 ft. Vessels size restricted by Seaway locks.
MAX. SIZE: 730 ft. length; 26 ft. draft.
HEALTH: All ocean-going vessels must obtain a free pratique before entering the Seaway. Vessels may obtain quarantine inspection and clearance from the Canadian Authorities at Montreal while awaiting entrance to the Seaway.
RADIO: Master must give at least 24 hours notice to Commander 9th Coast Guard District, Cleveland, Ohio, of the vessel's ETA at Snell Lock. Also, at least 24 hours notice of ETA at first U.S. discharge port is required. Port can be contacted through Marine Operator, Sarnia.
TUGS: Available. Not compulsory, but sometimes necessary in bad weather.

BERTHING: Port Terminal Co. Dock: 700 ft. long 26–31 ft. depth.
DENSITY: Fresh water.
MEDICAL: All facilities available.
FRESH WATER: Obtainable by pipe-line at all docks.
FUEL: All grades available by pipe-line at all docks.
REPAIRS: Machine shops available for limited deck and machinery repairs.
AUTHORITY: Port Huron Maritime Commission, PO Box 289, Port Huron.

PORTLAND, Maine: 43.39 N. 70.14 W.

DOCUMENTS:
1 Crew list.
1 Passenger list.
2 Stores lists.
2 Foreign purchases lists.
2 Inward foreign manifests uniform cargo.
Original bill of lading.
1 form 3251 Masters oath on entry of vessel.
2 form 1374 outward foreign manifest.

PILOTAGE: Ship's Agents usually notify pilot approximately 48 hours in advance of arrival then changes are made at 24 and 12 hours. Pilot boat usually called on Channel 16 and then switched to Channel 11 to continue conversation. Pilot goes aboard ship in vicinity of lightship using ladder on lee side. When weather bad suggest vessel anchor approximately 1 mile North of lightship.

ANCHORAGES:

Anchorage A (general)

Beginning at Eastern corner of Grand Trunk Railway Company Pier No. 3; thence approximately 90°, 1,700 yd. to Brooklyn Ledge Buoy 16; thence 330°, 350 yd.; thence 25°, 780 yd.; thence 303°, 750 yd.; thence 254°, 560 yd.; thence 186°, 750 yd.; and thence to the point of beginning.

Anchorage B (general and quarantine)

Beginning at Brooklyn Ledge Buoy 16, thence 58° to Little Diamond Island thence along the South-western shore to the pier on the Southern end of Little Diamond Island; thence 143°, 1,200 yd.; thence 270¼° to House Island Light; thence along the western shore of House Island to Fort Scammel Point Light; and thence 329°, 1,620 yd. to the point of beginning. Anchorage B is intended for general purposes, but especially for use by oil tankers and other deep-draft ships entering the harbour at night and intending to proceed to the dock allotted at daylight the following morning, or as soon as practicable. This area also is to be used for quarantine anchorage. Any vessel anchored in this area shall be ready to move on short notice.

Anchorage C

Bounded on the North-west by House Island; on the North by a line running 90° from House Island Light to Peaks Island; on the East by the Western shore of Peaks Island, by a line running 198° from the Westernmost point on Peaks Island to Cushing Island, and by the shore of Cushing Island to its Westernmost point; and on the South-west by a line running from the Westernmost point on Cushing Island to Fort Scammel Point Light. Anchorage C is intended for use only by small vessels and for temporary anchorage.

Anchorage D

Southerly and Westerly of a line beginning at Lighthouse Channel Buoy 1; thence 35° to Anchorage Buoy E; and thence 145° to the mainland. Anchorage D is for use only by small yachts and pleasure craft, and small, light draft coastwise freighters.

RESTRICTIONS: No entry restrictions at night. Deep draft vessels brought in on high water only.
MAX. SIZE: Size of vessel restricted to 45 ft. draft in harbour area. No outside installations at port yet.
HEALTH: Agent notifies Public Health Service and arranges for inspection at pier. If any disease or fever suspected, vessel quarantined. When vessel once cleared at U.S. port and proceeds to another, clearance still valid. Radio pratique available on request to Agent.
RADIO: Tugs in Portland Harbour use Channel 07. Vessels arriving Portland go through radio station in Chatham, Mass., RCA installations, or call station WOU via radio-telephone. VHF Harbour Control at Portland.
TUGS: Tugs join vessel at Spring Point in Portland Harbour. Tugs use own lines at no additional charge. Docking Pilots not supplied by Company but are available.
BERTHING: Tidal conditions govern arrivals and departures.
BRIDGES: No undocking on ebb tide through bridge.
STEVEDORES: Four hours notice on ordering gangs.
MEDICAL: No advance notice required by Agent. Two hospitals, Maine Medical Center and Mercy Hospital, who take bed patients. All seamen require certificate showing they have had a smallpox vaccination during last three years.
TANKERS: Tankers arriving at Portland Pipe Line, Pier 2, make preparations for two 10 in. and 12 in. hoses.

Berth	*Depth Alongside*
American Oil Terminal	30 ft. MLW
Chevron Terminal	32 ft. MLW
Portland Pipeline Pier No. 1	35 ft. MLW
Portland Pipeline Pier No. 2	48 ft. MLW
Texaco Terminal	30 ft. MLW

DENSITY: Average density 1.024.
FRESH WATER: Available by tug for boilers only at rate of tug hire. Drinking water available at piers.
FUEL: No. 6 diesel oil and blended interfuel oils. Delivery is via barge only and 24 hours notice required.
FIRE PRECAUTIONS: None—except at certain oil piers where information given to Shipmaster upon arrival at pier. Ample fire protection, salt water lines, sprinkler system on pier, local fire department.
DEVELOPMENTS: Plans under way for redevelopment of waterfront. Plans call for deepening Fore River from 35 ft. to 45 ft. and studies also under-way to provide offshore unloading of giant super-tankers. Plans to construct a $140 million oil transfer facility. In order to complete project, existing 40 ft. ledge will be removed to 90 ft. and dredging in the inner harbour of Hussey Sound will be done. No date set for final completion.
GANGWAY/DECK WATCHMEN: Not required.
OPENING/CLOSING HATCHES: Ship's crew open hatches.
CERTIFICATES:
Load-line certificate.
Certificate of Foreign Clearance.
Ship's Safety Certificate.
U.S. tonnage tax certificate of previous trip if have them.
Radio Operator Licence.
CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes per man. Wine and/or Spirits, 1 bottle per person.
CARGO GEAR: No additional cargo gear necessary.
IDENTIFICATION CARDS: Form 1-95 must be filled-out on arriving unless seaman has had a prior one made out for a previous arrival on same ship.
CONSULS:
Norwegian: Allan Kjos-Hanse, 30 Mayer Road, Portland, Maine, Vice-Consul.
French: Dr. Paul O. Proudian, 776 Main Street, Westbrook, Maine.
Finnish: Frank W. Bjorklund, 163 Main Street, Norway, Maine.
Italian: Dr. Domenico A. Santoro, 43 Deering Street, Portland, Maine.
Panamanian: Mary Navarro de Cerrillo, Lafayette Town House, Portland.
Swedish: Martin Johnson, Vice Consul, 443 Congress Street, Portland.
REPAIRS: Repair facilities for all types of machinery available.
DRY DOCKS: Three basins divided into 7 berths which can handle a vessel up to 455 ft. long and 62 ft. wide (not currently activated). Also three other smaller marine slipways.
REPATRIATION: Arrangements must be made with Agent in advance by telegram.
AIRPORT: Portland Municipal Airport 3½ to 4 miles distant. Served by Northeast Airlines and Executive Airlines.
HOLIDAYS: New Year's Day; Washington's Birthday; Patriots Day; Memorial Day: Independence Day; Labor Day; Thanksgiving Day; Christmas and Veterans Day. Possible to get gangs to work all days except Labor Day and Christmas.
POLICE/AMBULANCE/FIRE: Police 773–5651; Ambulance 772–5463; Fire 772–6531.
TELEPHONE: Arrangements can be made to have phone put on ship, but most docks have pay phones.
GENERAL: Discussions underway with Coast Guard and other officials to install fixed lighthouse stations to replace lightships at entrance.
AUTHORITY: Maine Dept. of Transportation Bureau of Waterways, Maine State Pier, Portland, Maine 04111, (207 773–5608).

PORTLAND, Oregon: 45.30 N. 122.40 W.

PORT LIMITS: The seaward boundary of the Port of Portland is Astoria, 96 miles North West of Portland.
DOCUMENTS:
3 Cargo Manifests.
3 Store Lists.
3 Crew Curio Lists.
3 Crew Lists.
1 Clearance from Last Port.
1 Tonnage Tax Certificate.
1 Copy of vessel's Register.
1 Itinerary of Vessel, port by port.

PILOTAGE: When entering from sea (without service of bar Pilot) vessels or Agents must give notice between 0800 and 1700 and at least 12 hours prior ETA at Astoria. Calls may be placed with Astoria office (325–4532) or Portland office (228–9325) or by radio to "Colrip Astoriaore". River Pilots board at Astoria in channel in vicinity Astoria Crossing Lighted Buoy No. 37. Signal for river Pilot one long, three short whistles. When ordering bar Pilots, request by radio via KLB, Seattle, Wash., about 12 hours before arrival. Address Bar Pilots, Astoria, Ore.," giving date and time of arrival at lightship. When "Peacock" on station Pilot boards from small power boat; when "Columbia" on station. Pilot boards directly from "Columbia". When Pilot boarding from small boat, maintain reduced speed about 4 knots. Do not change course or speed until signalled by pilot vessel. Vessels having radio telephone contact pilot vessels for instructions on following frequencies: radio phone watch Channel 16 VHF (156·8 mgc/s) also 2182 and 2738 kc/s. Pilot boat "Peacock" call WS 7217; pilot boat "Columbia" WZU 7337; Astoria bar pilots' office (Channel 16) KOK 360.
ANCHORAGES: The only designated anchorages are at Tongue Point (Astoria), Oregon. Two anchorages at No. 1 Lower Tongue Point, and No. 2 Upper Tongue Point. Additional locations on Columbia and Williamette Rivers where safe anchorages can be

made upon advice of Columbia River pilots. Anchorage in Portland harbour by permission of Harbour Master.

RESTRICTIONS: No restrictions on night entry. State of tide and draft restrictions not applicable to vessels drawing less than 40 ft.

MAX. SIZE: No restrictions length and breadth. Depth at Columbia River entry 48 ft. River channel to Portland/Vancouver maintained at 45 ft. by 600 ft. Seasonal tidal effect up to 3 ft. at Portland.

HEALTH: Radio pratique procedure extended to all vessels requiring quarantine clearance.Vessels requiring clearance must complete Maritime Quarantine Declaration HSM 13.19 available from U.S. Consular Offices abroad, from steamship agents, custom house brokers, and U.S. Quarantine stations.

RADIO: Route ETA cables through KLBITT Seattle, Wash.

TUGS: Tugs normally join vessel at designated berth. Tugs lines used at no charge.

BERTHING: Present depths alongside berths at new facilities 45 ft. minimum at mean low water. Older piers 35 ft. minimum at mean low water. A 1,342-ft. container/general cargo pier with a 140 ton and a 150 ton straight line crane and two 65-ton gantry cranes. Pier has a 25-acre open storage yard with rail and truck service. Pierside warehouse about 80,000 sq. ft.

BRIDGES: No arrival times designated if coming from sea and in excess of 750 tons gross. Departures regulated, with bridge closures during peak traffic flow (0700 to 0900 hours and 1615 to 1815 hours) unless permission granted by Harbour Master.

SPECIALISED CARGO HANDLING FACILITIES: The port operates three public ocean cargo terminals containing 24 deep-water berths, including two container berths with three high-speed container cranes. At terminal two, a 90,000 sq. ft. transit shed handles break-bulk cargo. Four straddle carriers, capable of stacking 20-foot containers three high, or 40-foot two high, serve the yard.

At Terminal four there is an 8,000,000 bushel capacity grain elevator, a box car tripper, truck and dumper and eight storage tanks capable of storing 5 million bushels of grain. Log dock is equipped with three whirley cranes. There is a Dravo bulk unloader with digging capacity of 900 tons per hour for unloaded ores. Tank farms are available for special cargoes such as petroleum, molasses, tallow and ore concentrates.

There are general cargo berths and berths for commodities which require special handling. Terminal two contains a roll-on/roll-off berth. Port facilities include 19 transit sheds, and four warehouses with almost 1·3 million sq. ft. of sprinkled storage area.

As well as six whirley cranes and a 150-ton capacity sheer leg crane, there is a 175-ton mobile crane, largest of its kind on the Pacific Coast.

STEVEDORES: Allocation for gangs Monday to Saturday must be confirmed at 1100 to longshore hiring hall. Allocation for gangs Sunday and Monday made at 1100 Saturday for both day and night gangs. Same procedure applies to allocation of night gangs, but night gangs may be cancelled by 1400 in afternoon of night gangs are to work.

MEDICAL: Any type medical treatment provided and hospital facilities available. Only inoculation requirements for entry to U.S. is smallpox, except when vessels have called at an area infected by another disease.

TANKERS:

	Max. Size Vessel	
Berth	*Length*	*Draft*
Shell Oil Company	575 ft.	32 ft.
Standard Oil	660 ft. – 700 ft.	35 ft.
Texaco Inc.	650 ft.	30 ft.
Phillips Petroleum Co.	No maximum	30 ft.
Time Oil Co.	600 ft.	40 ft.
Mobil Oil Corp.	550 ft.	31 ft.
Richfield	600 ft.	30 ft.
Union Oil Co.	550 ft.	30 ft.

DENSITY: Fresh water at all times.

FRESH WATER: Available at all berths delivered through pier-side connections.

FUEL: Viscosity grades of B and lower. No advance notice required. Barging essential.

FIRE PRECAUTIONS: Fire precautions respecting tankers administered by U.S. Coast Guard, which enforces shipboard regulations under the Code of Federal Regulations, Part 46, Sub-Part D, Sections 20 to 40; the Police Harbour Patrol, which controls port movements, boards vessels to warn Master regarding harbour regulations, including spilling of oil, etc.; Fire Marshal exercises jurisdiction regarding fire regulations at shoreside facilities serving tankers.

GANGWAY/DECK WATCHMEN: Option of vessel owner/agent and available through private firms.

OPENING/CLOSING HATCHES: While ship at dock, opening and closing is work of longshoremen. Ship may open or close own hatches while underway.

CERTIFICATES: Registered tonnage certificate.

CARGO GEAR: Valid cargo gear certificate required, acceptable to U.S. Bureau of Labor Standards.

IDENTIFICATION CARDS: Immigration Dept. requires form No. 595 and No. 31 (Repatriation). Changes can be effected at any U.S. Consulate.

DEVELOPMENTS: Construction of a two-berth container facility at the North Rivergate area on the Colombia River. These berths, each 900 ft. long, will be supported by 10 acres of paved back-up area to allow a transfer capacity of 3,000 containers a month.

CONSULS: The following countries are represented in Portland:

Austria	Germany	Nicaragua
Belgium	Great Britain	Norway
Costa Rica	Iceland	Panama
Denmark	Italy	Peru
El Salvador	Japan	Senegal
Finland	Lebanon	Sweden
France	Netherlands	Venezuela

REPAIRS: All types of deck and engine repairs possible.

DRY DOCKS: Three floating docks, largest 661 ft. long by 114 ft. wide.

REPATRIATION: Arrangements possible for crew changes or other repatriation.

AIRPORT: Airport 10 miles distant, served by eight regularly scheduled airlines with direct service and/or connections domestically and world wide.

TIME: GMT minus 8 hours. Daylight saving time becomes effective annually on the last Sunday in April through the last Saturday in October.

HOLIDAYS: *New Year's Day; President's Day (Feb. 21); Memorial Day (May 30); *Independence Day (July 4); *Labor Day (First Monday in September); Veterans' Day (Nov. 11), Thanksgiving Day, *Christmas Day (Dec. 25), State-wide Election Days. Other legal holidays may be proclaimed by state or national authority. When holiday falls on Sunday, the following Monday is observed as holiday. Longshore work performed on any of above listed days is overtime, which is one and a half time rate. Days marked (*) are stop-work days, i.e. no ships will be worked. This also applies to July 5, which observed locally on unilateral basis.

POLICE/AMBULANCE/FIRE: Police 226–7551; Fire 232–2111; Ambulance: provided by several private firms, but can be obtained through police or fire number.

TELEPHONES: Available by order from terminal superintendents at $5.00 connection charge.

SERVICES: All services available such as compass adjusting, major or minor repairs either with work barges or at ship repair berths; lay berths available; charts available from private companies; all chandlery supplies available.

SHORE LEAVE: Crew members permitted ashore except where vessel has made first arrival from Communist-controlled port.

AUTHORITY: Port of Portland, POB 3529, Portland, Oregon 97208. Tel. (503) 233–8331. Twx: 910–464–6151 FAX/FDH.

PORT LAVACA/POINT COMFORT, Texas: 28.40 N. 96.35 W.

DOCUMENTS:
2 Cargo Manifests.
2 Stores Lists CF1303.
2 Crew's Effects Declaration CF1304.
1 Clearance from last Port.
Vessel's Register, tonnage, tax receipts, etc.
2 Copies Crew List.
2 Copies Passenger List.

PILOTAGE: Ship's Agents usually notify Matagorda Bay Pilots as to vessel's ETA. Pilot boat can be contacted on VHF Channel 16, then switch to Channel 26 to continue conversation. Pilot boards at buoy 1-A at position 28° 23′ N. 96° 17′ W.

ANCHORAGES: Marked on chart of Matagorda Bay and approaches.

RESTRICTIONS: Vessels may enter any time day or night. Entrance channel depth 38 ft. Bay Channel depth 36 ft.

MAX. SIZE: Alcoa Dock – size restricted only by channel depth of 38 ft. Public Dock – max. length approximately 600 ft. Draft controlled by channel depth of 38 ft.

HEALTH: Vessel may request radio pratique in accordance with USPH Form 13.19 or may be boarded by contract physician.

RADIO: Galveston Radio (ITT Mackay Marine) and Port Lavaca Marine operator can be contacted on VHF Channel 16, then switch to channel 26 for continued conversation.

TUGS: One tug available joining vessel shortly before arriving at berth.

BERTHING: Ore carriers berth at Alcoa private dock. All other vessels berth at Public Dock.

STEVEDORES: Richard Bugg & Co. Inc., PO Box 457, Corpus Christi, Texas. At Alcoa's Dock all plant labour is used.

MEDICAL: No advance notice required. Several clinics and one hospital available in Port Lavaca.

DENSITY: Average density is 1·010/1·012.

FRESH WATER: Fresh water available alongside berth.

FUEL: Not readily available, must be barged or trucked from either Houston or Corpus Christi. Very expensive.

DEVELOPMENTS: Plans for lengthening dock and another warehouse are now being considered.

OPENING/CLOSING HATCHES: At public Dock this is done by stevedores. At Alcoa Dock this is done by ship's crew.

CERTIFICATES: Load line, foreign clearance, safety equipment, financial responsibility (oil pollution), tonnage tax receipts, will be required.

IDENTIFICATION CARDS: Immigration Crew Landing Permit I–95 required for each man.

CONSULS: Only Norwegian Vice-Consul Tel. 512–987–2311.

REPAIRS: Only minor repairs possible. No dry docks.

REPATRIATION: Arrangements are possible but preferably should be accomplished in larger ports.
AIRPORT: Nearest airport 20 miles at Victoria, Texas, served by Texas International only, Corpus Christi airport about 90 miles; Houston airport about 150 miles.
TIME: Central Standard Time during winter. Beginning last Sunday in April until last Sunday in October, Daylight Saving Time (clocks are moved ahead one hour).
HOLIDAYS: All holidays observed by contract with ILA. See "Houston".
POLICE/AMBULANCE/FIRE: Police Department, 552–6767; Fire Department, 552–2222; Ambulance Service, 552–2988.
TELEPHONES: Telephones are available ashore only. Telephone booth on Public Dock.
AUTHORITY: The Calhoun County Navigation District, PO Box 107, Port Lavaca, Texas 77979. Telephone number: Area Code 512 – 987/2813.

Private Dock owned by Aluminium Company of America with its Agent being Alcoa Steamship Company Inc., PO Box 646, Point Comfort, Texas 77978. Telephone number: Area Code 512 – 987/2311.

PORT NECHES, Texas: 30.00 N. 93.57 W.

DOCUMENTS, PILOTAGE, HEALTH, RADIO, etc.: Refer to "Port Arthur".
TUGS: Meet vessel in Neches River before arriving at berth. Normally two tugs used for docking, one for undocking.
BERTHING: Jefferson Chemical Co.: distance from sea 30 m., depth at berth 36 ft. Texaco terminal: distance from sea 34 m., depth at berth 32 ft.
MEDICAL: All facilities available.
DENSITY: Fresh water.
FRESH WATER: Available by barge.
FUEL: Bunker C available ex wharf at Texaco terminal. Otherwise by barge from Port Arthur or Beaumont.
GANGWAY/DECK WATCHMEN: Not required unless crewmen detained by immigration.
CUSTOMS ALLOWANCES: 300 cigarettes and one quart wine or spirits for each man.
IDENTIFICATION CARDS: Foreign crew require only Immigration Landing Permit.
CONSULS: Nearest at Houston
REPAIRS, DRY DOCKS: See "Port Arthur".

PORT ST. JOE, Florida: 28.49 N. 85.19 W.

DOCUMENTS:
All documentation must be on United States forms. At least:
3 Passenger Lists.
3 Crew Lists (1 for visa crew list).
3 Curio Lists.
3 Stores Lists.
2 Complete Manifests.
Clearance Papers from last port.
PILOTAGE: Apply for Pilot through ship's Agent – address is "Port St. Joe, Pilots" and advance ETA 18 hours. "VHF – Channel 16." Pilot boat station is at Sea Buoy, Port St. Joe only and location of anchorage for vessel awaiting a Pilot is 1 mile West of Sea Buoy.
ANCHORAGES: Local harbour charts indicate safe anchorages.
MAX. SIZE: Draft 32 ft.
HEALTH: Quarantine inspection pratique on all ships entering from foreign port. Contagious disease kept under watch on board. Persons critically ill transferred to Municipal Hospital. All ships that have previously, on this voyage, docked at another United States port enter without inspection. Radio pratique granted under certain circumstances as per Maritime Quarantine Declaration.
RADIO: Call sign WLO, Mobile, Alabama.
TUGS: None presently available.
STEVEDORES: ETA must be received by 1800 in order to have gangs at 0800 following day.
MEDICAL: No notice required. Hospital facilities available. Inoculations required same as public health U.S. Government requirements.
TANKERS: Discharge lines 8 in. No residue discharge allowed. Two tanker berths 32 ft. draft.
DENSITY: Salt water – heavy concentration.
FRESH WATER: Available in unlimited quantities by hose connection from dock to ship, 1½ in. to 2½ in. size at 60 psi.
FUEL: Fueling facilities limited. Tanker trucks only. Two days advance notice advisable. Two grades of fuel oil available: (*a*) grade 6 – Bunker C – 156SSF at 122 degrees Fahrenheit; (*b*) Diesel oil – 36.5 SSU at 100 degrees Fahrenheit; (*c*) Gasoline, kerosene and motor oils available.
GANGWAY/DECK WATCHMEN: Only when requested by ship.
OPENING/CLOSING HATCHES: Work can be performed by either stevedores or crew.
CUSTOMS ALLOWANCES: one carton of cigarettes per week per crew member permitted. Further allowances would depend on circumstances. Wine and/or Spirits one bottle per crew member as allocated by Customs.
CARGO GEAR: Must be in compliance with "U.S. Government Longshoremen Safety Codes".
CONSULS: None.
REPAIRS: None.
DRY DOCKS: None.
REPATRIATION: Can be accomplished by Agent and Immigration but should be accomplished in larger ports if possible.
AIRPORT: Served by regular airlines. (Southern Airways, National Airways). Six combined flights a day. Distance 40 miles.
TIME: Saving time from first Sunday in May to last Sunday in October. GMT minus 5 hours Standard Time. GMT minus 4 hours daylight saving time.
HOLIDAYS: No Work Holidays—No work performed New Year's Day, Fourth of July, Labor Day, Christmas Day, or December 24 & December 26, and Easter Sunday, except handling of mail, baggage and perishables (except bananas) or unless a ship is in distress, such as fire or leaking bottom, or, other causes that would damage cargo or vessel. In event work done on New Year's Day, Fourth of July, Labour Day, Christmas Day, December 24 & December 26, or Easter Sunday, rate of pay for such ship work shall be double the normal time rate. Should above holidays fall on Sunday, double time will be paid. Following Monday will be paid at time and one-half.

Working Holidays—Armistice Day, Thanksgiving Day and Memorial Day are to be paid for at overtime rate – one and one-half times straight-time rate. Should any of above holidays, except Sunday fall on Sunday, the following Monday will be observed.
POLICE/AMBULANCE/FIRE: Police 227–3181; 227–4526; Ambulance 227–3511 (Comforter), 227–2491 (Prevatt), 227–4011; Fire 227–4011.
TELEPHONES: None available for placing aboard.
GENERAL: In sending ETA when ship is going to arrive over weekends (Saturday and Sunday), a notice wire should be placed and notice ETA should arrive prior to 1700 Friday.
SHORE LEAVE: Shore leave allowed when cleared by Immigration.
PORT REGULATIONS: Normal working hours of longshoremen from 0800 to 2230 seven days a week only.
DELAYS: Only when due to port congestion.
AUTHORITY: Port St. Joe Port Authority, PO Box E, Port St. Joe, Florida. 32456.

PORT SAN LUIS: California, 35.10 N. 120.45 W.

TERMINAL OPERATORS: Union Oil Company, Avila Beach, California. Tel. 805 595 2069.
MAX. SIZE: Tankers up to 750 ft. length and 26 ft. draft.
RADIO: Vessels should contact Union Oil Company through Marine Operator. Walke-talkie sets used for communication with terminal. VHF station KTD 411, Channels 10 and 16.
BERTHING: Tanker berths only at Union Oil Company Pier. Vessels tie off pier at berths No. 4 and 5. Depth alongside 36 ft. MLW.

Two 12-in. and one 16-in. load/discharge lines. Ballast discharge available through one 8-in. line to ballast tank of 20,000 barrels max. capacity.
DENSITY: Salt water, 1025.
FRESH WATER: Limited amounts only available from the pier.
FUEL: Not available.
CONSULS: Nearest consuls situated at Los Angeles and San Francisco.
AIRPORT: County Airport, San Luis Obispo, situated 12 miles distant. Two flights daily to Los Angeles and to San Francisco.
AUTHORITY: Port San Luis Harbor District, PO Box 248, Avila Beach, California.

PORT SULPHUR, Louisiana: 29.28 N. 89.41 W.

DOCUMENTS/HEALTH ETC: Refer to "New Orleans".
PILOTAGE: A vessel coming into port from sea can arrange to pick up a Bar Pilot (Associated Branch Pilots) by furnishing ETA to the ship's Agents, radio contact by VHF Channel 9 and AM Channels 2738 and 2183. Bar Pilot is exchanged for river Pilot at head of Passes, Pilot town, Louisiana. River Pilot (Crescent River Port Pilot's Association) can be arranged through ship's Agent in New Orleans and radio contact as above. Vessel awaiting Pilot for departure may remain at dock until Pilot arrives. Advance notice of three hours is required for departing Pilots. This can be arranged by the ship's Master with our shipping foreman.
ANCHORAGES: Anchorage is available on East bank of river opposite to Freeport Sulphur Company dock. Depth of water at anchorage is 40 ft, the controlling depth in the river.
RESTRICTIONS: No restrictions for entry because of time of day, nor conditions of tide or draft except the controlling depth of Mississippi River to Port Sulphur (35–40 ft. as published in reports by U.S. Army Corps of Engineers).
MAX. SIZE: Maximum permissible length – 560 ft., breadth not limited, draft equal to controlling depth of river.
RADIO: Tropical Radio WNU New Orleans.
TUGS: Tugs not normally required. Shore crews usually handle ship's lines. Tug may join the vessel opposite the dock. Charges for handling ship's lines.
STEVEDORES: Not normally required. When requested, stevedoring services can be obtained from port of New Orleans; contact ship's Agents for particulars.
MEDICAL: Advance notice for personnel requiring medical service is required through ship's Agents. Hospital facilities are available.
TANKERS: One tanker berth, permitted draft equal to or greater than controlling depth of Mississippi River. Diameter of loading/discharge lines is 12 in. and 16 in. respectively.
DENSITY: Density in port not affected by tide. Fresh water.

FRESH WATER: Fresh water is available, can be loaded with 1½ in. fire line.
FUEL: Fuel may be loaded by barge with vessel at anchor. Fuel transfer is not permitted at dock.
FIRE PRECAUTIONS: No welding repair permitted at dockside. Fuel transfer is not permitted. No other specific precautions observed except for "no smoking" precautions, etc.
GANGWAY/DECK WATCHMEN: Services of watchmen desirable but not required. Port does not furnish this service.
CERTIFICATES: Certificate of condition of cargo handling gear required when use of gear is necessary.
IDENTIFICATION CARDS: Immigration form I–95.
CONSULS: Consuls offices are located in New Orleans, Louisiana.
REPAIRS: Engine and deck repairs are possible when the dock is not otherwise occupied.
AIRPORT: New Orleans International Airport, served by most major airlines. 55 miles from Port Sulphur.
TIME: Local time is Central Standard Time, except from May/October, Daylight Saving Time is in effect.
HOLIDAYS: Vessels are loaded on all holidays except Christmas Day.
POLICE/AMBULANCE/FIRE: Port Sulphur, Louisiana, 564–2525; 564–2525; 564–3231, respectively.
TELEPHONES: Jacks for telephones are provided at no additional cost to tankers loading at port.
SHORE LEAVE: Crew members are allowed ashore.
DELAYS: Loading will not commence until all holds are clean of scale and other foreign matter.
AUTHORITY: Private port, Freeport Sulphur Company, Port Sulphur, La., tel. 564–3341; New Orleans Office, Freeport Sulphur Company, New Orleans, La., tel. 529–4393; teletype 810–951–5386.

REDWOOD CITY, California: 37.50 N. 122.28 W.

DOCUMENTS, PILOTAGE and all general information refer to "San Francisco".
RESTRICTIONS: Though a natural deep water channel extends down the bay to Redwood City there is controlled depth channel 500 ft. wide and 30 ft. deep across San Bruno Shoal. The entrance channel to the port is 2 miles long and 30 ft. deep (all depths are at MLLW) and 300 to 350 ft. wide. There are two large turning basins at either end of the port harbour channel.
BRIDGES: The San Mateo Hayward Highway Bridge with a vertical clearance of 138·5 ft. and horizontal of 500 ft. crosses the ship channel.
BERTHING: *Wharf No. 1*, 500 ft. of berth space, and *Wharf No. 2*, 355 ft. of berth space, are dredged to a depth of 32 ft. alongside. Wharf No. 1 has 32,000 sq. ft. There are pipe-line connections for petroleum products and bulk cement.

Wharf No. 3 is an open wharf, 450 ft. long, and is used primarily for handling lumber and gypsum rock. It also has petroleum pipe-lines.

Wharf No. 5 has 500 ft. of berthing space with a depth of 33 ft. alongside. It was designed to accommodate large oil tankers and freighters, and for handling heavy lifts.

Capabilities include complete facilities to handle LASH (Lighter Aboard Ship) system.
AUTHORITY: Port of Redwood City, 775 Harbor Boulevard, Redwood City.

RICHMOND, California: 37.56 N. 122.25 W.

Standard Oil Company of California Terminal.

DOCUMENTS and all general information, refer to "San Francisco".
LOCATION: Richmond Long Wharf and Point Orient Wharf are situated on North East side of San Francisco Bay, a protected harbour. The refinery and storage tanks are near the wharves.

The exact position of the Long Wharf is Lat. 37° 55′ 20″ N. Long. 122° 24′ 35″ W. Wharf heading is 324° to 144° .

The exact position of the Point Orient Wharf is Lat. 37° 57′ 20″ Long. 122° 25′ 39″ W. Wharf heading is 356° to 176°.

There is adequate anchorage and room for manoeuvring in the bay.
MAX. SIZE: The main ship channel into San Francisco has a project depth of 50 ft. However, the 35 ft. depth of the Southampton Shoal channel restricts the size of ships to wharves.
LIGHTENING: When a lightening operation is necessary the terminal management will direct the ship to anchorage nine. The ship to be lightened will install fenders before the lighter ties alongside. The terminal will provide the fenders. The lightening supervisor and ship's officer will hold a meeting to discuss the cargo transfer. During transfer, follow the same precautions and safety regulations that apply to cargo transfer at the wharf. The transfer rate will be regulated by the lightening vessel. The lightening supervisor will observe all the lightening operations. The terminal will provide oil spill recovery equipment during lightening.
RADIO: San Francisco harbour advisory radar system, designated bridge-to-bridge frequency: VHF Channel 18a (156·9 mHz).

Federal communication regulations require that at any time VHF radio is in operation, Channel 16 must be monitored (156·8 mHz distress and calling frequency).

The 2–3 mc. radio telephone call letters for the San Francisco Bay area are KLH.

Richmond Long Wharf (radio call – Chevron Shipping) is equipped with VHF radio, manned 24 hours per day. Channel 10 (156·5 mHz) is the operating frequency. While at anchor, in San Francisco Bay, vessels should maintain normal listening watches of VHF Channel 10.

The Master of a vessel bound for San Francisco Bay is requested to advise Chevron Shipping (Cables address: Chevronship Richmond Sanfrancisco) of ETA, seven days, three days and again one day (24 hours) before arrival at the wharf. First ETA message should include:

Estimated time of arrival at the wharf (local time).
Last port of call.
Estimated deep draft at arrival.
Quantity of ballast to be discharged.
Quantity and grade of cargo to be transferred.
Distance from bow to cargo and bunker manifolds.
Size and type of cargo and bunker connections.
Quantity and grade of bunkers and lubes required.
Quantity of fresh water required.
Number of crew replacements expected.
Amount of provisions and stores to be loaded.
Repair work anticipated.
Make 24-hour ETA as accurate as possible and whenever arrival time changes, by one hour or more, send a correcting message promptly.

BERTHING: At least one hour before docking contact Chevron Shipping, in Richmond, by VHF radio (Channel 10, 156·5 mHz) and request a berth assignment. They will try to berth as soon as you arrive. However, if no berth is available, anchor in the prescribed anchorage (as directed by the captain of the port) and maintain radio contact with Chevron Shipping, Richmond.

There are two piers that accommodate oil transfers. They are referred to as Richmond Long Wharf and Point Orient Wharf.

Long Wharf: Richmond Long Wharf, a "T"-head pier, has an overall length of 2,464 ft. It consists of concrete and wooden piles and a concrete superstructure connected to the shore, 4,200 ft. away by a piled causeway. The fender-to-fender width is 114·5 ft.

There are four deep water berths on the West side, each approximately 600 ft. long. They are numbered 1 to 4 from South to North. Water depth is 38 ft. at MLLW. Carefully observe deep draft during periods of low water. There is an inner berth, No. 5, that may be used for bunkering small ships; water depth is 18 ft. at MLLW. The other inner berths, Nos. 6 to 12, are used primarily for barge loading.

Point Orient: The Point Orient wharf, an "L"-head pier, is 2¼ miles North of the long wharf. It is 504 ft. long and 60 ft. wide. It is supported on wooden piles and has a causeway that extends 1,200 ft. to the shore.

There is one ship berth, No. 1, where the water depth is 34 ft. at MLLW. There is also one barge berth No. 2.
LOADING AND UNLOADING: All berths are fitted with 4-, 6- and 8-in. hoses for cargo transfer. Berth No. 4 is fitted with one 8-in. and two 12-in. Chiksan loading arms. By 1973, Berth 1, at the Long Wharf, will have a similar Chiksan system – two 12-in. arms. All flange facings are ANSI 150-pound rating.

Several products can be loaded at each berth.
BALLAST: The terminal has facilities to receive some ballast (maximum capacity 25,000 bbl/s – normal capacity 15,000 bbl/s). However, arrangements for this to be made through Agent before arriving at the wharf. All ballast to be discharged must be pumped to shore while berthed at wharves.
POLLUTION: The Federal Water Pollution Control Act prohibits the discharge of oil or oily waste in the waters of San Francisco Bay which causes a film or sheen on the water or discolours it or causes a sludge or emulsion beneath the surface of the water.

Regulations enforced by the Bay Area Pollution Control District also prohibit the emission of smoke and soot. Vessel can be fined if it emits visible smoke (Ringelmann 1) for more than three minutes in one hour, or blows its boiler tubes enough to create a soot nuisance on shore.

In addition, the terminal has certain regulations designated to eliminate obnoxious odours. Vessel may, therefore, be required to follow special procedures before tank cleaning, loading or ballasting. If, in spite of precautions, vessel does cause such odours, loading or unloading operations may be stopped.
MEDICAL: No facilities at wharves. Local ambulance may be reached at: Cadillac Ambulance Service (415) 234–3242; Alhambra Air-ground Ambulance Service (air) (415) 228–1096; California Aviation Service Inc. (air) (415) 569–3855.
FUEL: Many grades of bunkers, diesel and lubricating oils are available in bulk or drum quantities. Agents order them from Traffic and Distribution or Chevron International at least 48 hours before vessel arrives, otherwise, vessel may be delayed.

To take on bunkers and diesel, vessels must be able to connect to terminal's 3-in., 4-in. or 6-in. 150-lb. ANIS flanges.
PROVISIONS: Provisions and stores will be loaded only at Richmond Long Wharf, and only when loading does not interfere with cargo or ballast transfer. If vessel is large and not equipped with booms, Agent need to supply a crane for the loading. Stores will not be handled by wharf personnel.
FRESH WATER: Potable water provided. Make arrangements through Agent.
REPAIRS: Terminal Management approval required for any repairs, hot work or maintenance work at the piers. No repairs will be allowed that delay cargo transfer or lengthen the time it takes.
SHORE LEAVE: Ship's personnel are not permitted ashore and shore personnel are not permitted aboard for any purpose whatsoever until pratique has been granted. Once it is granted, no one may walk to shore on the Long Wharf causeway.
AUTHORITY: Standard Oil Co. of California, Richmond, California.

RICHMOND, Virginia: 37.32 N. 77.25 W.

DOCUMENTS: See "Hampton Roads".
PILOTAGE: Entrance through Hampton Roads. Virginia Pilots Assn. original contact same as for Norfolk, Virginia. Pilots will arrange for change of pilots to proceed up the James River.
ANCHORAGE: Hampton Roads anchorage, also river anchorage approximately 40 miles up river, shown as "Upper Brandon" on charts.
RESTRICTIONS: Navigation of river above Upper Brandon recommended in daylight hours, except vessels under 250 ft. length.
MAX. SIZE: Maximum length recommended by pilots 550 ft., draft 21 ft. 6 in. any tide, depth of channel 25 ft. mean low water tide, change 3 ft. 5 in.
HEALTH: See Hampton Roads.
RADIO: See Hampton Roads.
TUGS: Not needed for berthing unless vessel is to be turned around on arrival. Tug available at Terminal on reasonable notice.
BERTHING: Vessels berth alongside wharf 1,200 ft. long.
BRIDGES: Two bridges across river between Hampton Roads and Richmond. No specific time or notice required.
STEVEDORES: Arrangements to be made through Agents. 48 hours notice requested.
MEDICAL: Vessels cleared by U.S. Health officials at Hampton Roads before proceeding up river.
DENSITY: Water considered as 100% fresh.
FRESH WATER: Available at pier.
FUEL: Bunkers available only at Hampton Roads.
GANGWAY/DECK WATCHMEN: None required, unless crew detained by U.S. Immigration.
OPENING/CLOSING HATCHES: On bulk cargo usually opened and closed by ship crew, also steel hatches handled by ship crew, sometimes determined by terms of Charter.
CERTIFICATES:
Ship's register.
Load-line Certificate.
Safety Certificate.
Tonnage tax receipts.
Certificate of nationality.
Passenger Certificate.
CUSTOMS ALLOWANCE: Tobacco, 200 cigarettes (1 carton for 2/3 days) if further allowance is needed Customs Officer will return on request of Master. Wine and Spirit, 1 bottle per officer, Customs Officer will return on request of Master.
IDENTIFICATION CARDS: Immigration landing permit required.
CONSULS: No consuls in Richmond, handled through Hampton Roads if needed.
REPAIRS: Only minor repairs, no shipyards.
REPATRIATION: Handled through Norfolk, Virginia.
AIRPORT: Approximately 10 miles from port, regular airline service.
TIME: Eastern time GMT minus 5 hours. Daylight saving time from first Sunday in May to last Sunday in October.
HOLIDAYS: January 1, May 30, July 4, Labour Day (first Monday in September), Thanksgiving Day, Christmas Day.
POLICE/AMBULANCE/FIRE: Police 644–9461; Ambulance 644–9404; Fire 649–9191.
TELEPHONES: No arrangements for placing aboard vessels.
SHORE LEAVE: Allowed. Proper papers should be available.
AUTHORITY: Port of Richmond Advisory Commission, 217 Governor Street, Richmond, Virginia 23219.

RIVERHEAD, Long Is., New York, Petroleum fuel storage terminal operated by Northville Industries Corporation.

DOCUMENTS: See New York.
LOCATION: Mooring area latitude 41° 00′ 00″ North, longitude 72° 38′ 52″ West. One and two-tenths nautical miles off shore from Long Island and 4·0 miles, 256.5° True, from Mattituck Inlet Light. A white flashing bell buoy, just West of berth, marks mooring area.
PILOT: Pilot arranged by ship's Agent. Generally Pilot boards off Brenton Reef Lightship or at South-east buoy, Block Island. Distance from Brenton Reef 65 miles and 69 miles from Block Island.
ANCHORAGE: Vessels arriving at night or at times not suitable for mooring should anchor 1 to 1½ miles North-east of lighted bell-buoy marking area. Holding ground good and 75 fathoms of chain in the water is considered safe. Mooring Master and crew will board about one hour prior scheduled mooring time. Generally launch does not arrive before this time except for emergency.
MAX. SIZE: Length 1,000 ft. LOA, max. draft 55 ft.
TUG SERVICE: Arranged by ship's Agent. Tug boats generally come from New Haven. When ordering tug, sufficient time should be allowed for tug to cross Sound, a distance of approximately 18 miles.
RESTRICTIONS: Vessels moored during daylight hours only and during slack water before ebb tide current commences and during first four hours of ebb tide. Tide current periods substantially same as The Race, Long Island Sound. Undocking accomplished at any time subject to unusual adverse tide currents and weather conditions.
COMMUNICATION: Telephone at Riverhead PArk 7–5600 (Code for station to station: dial 516 PArk 7–5600). Cable Address Northville Riverhead New York. Radio I.T.T. Amagansett.
BALLAST: No ballast disposal facilities. Long Island Sound is inland water and United States Anti-pollution Regulations rigidly enforced. No bilge water, oil-contaminated water, garbage or any waste matter which may pollute sea water is to be discharged overboard while vessel within Long Island Sound and approaches.
STORES/FRESH WATER/FUEL: No fresh water facilities. Small quantities provisions may be purchased at local stores in Riverhead, 4 miles inland. All services contingent upon Mooring Master's approval and on weather conditions. No fuel available except by barge from New York.
QUARANTINE, CUSTOMS AND IMMIGRATION: New York City is port of entry for Northville. Entry and clearance must be arranged by ship's Agent. Boarding officers board in the anchorage prior to arrival within mooring area. Pertinent Government officials should be advised in sufficient time, usually not less than 24 hours Monday through Friday and 48 hours on Saturday and Sunday. Generally, entry and clearance can be arranged by agent who should advise Customs well in advance of vessel's arrival, thus saving necessity of having Master go to Custom House in New York. When pratique granted, Mooring Master will board vessel to assist Master to moor in berth.
MEDICAL: Hospital in Riverhead. Medical attention must be arranged by ship's agent. U.S. Public Health Service not available locally. Nearest Marine Hospital in New York City 80 miles West of Riverhead.
BERTHING: Bow is secured in moorings by use of both bower anchors. Ships must have both bower anchors ready for immediate use, each with minimum 150 fathoms chain. Anchors, chains and anchor windlass must be in good condition, and capable of heaving ship ahead with chain or letting one chain go out on the run while heaving in on the other.

Vessels must be equipped with manilla or better mooring lines of not less than 8 in. circumference and not less than 90 fathoms length. Two lines required for each of six mooring buoys, five aft to secure stern in position and one on port bow.

Vessels having wire moorings secured on warping winches with surge valve and brake are very acceptable. Warping winches must be adequate to handle mooring lines under heavy strain. Efficient stopper lines must be readily available to "stop off" mooring lines for transfer from winch to bitts without loss of tension.

If, in opinion of Mooring Master, vessel's mooring facilities, lines and/or gear inadequate, he will inform Master and vessel will not be allowed enter moorings until deemed satisfactory and such delay shall not count as used laytime.

Mooring Master will pilot vessel into moorings, supervise mooring and unmooring operation and connecting and disconnecting of submarine hose.

To moor, vessel approaches mooring heading due South; when in proper position, starboard anchor dropped and chain allowed to run until vessel crosses mooring area to a point where port anchor is let go. Then engines backed and vessel, with assistance of tug, manoeuvered into mooring area where lines run to 6 mooring buoys and then anchor chains drawn tight simultaneously with securing of stern to mooring buoys. Vessel then heading due west parallel with tide current flow.
WEATHER AND TIDE: Strong winds from North and North-west experienced during winter and spring. Tide during maximum ebb and flood often reaches 3½ to 4 knots velocity.
VHF: Communication with shore and launch via portable VHF radiophone. This equipment on continuously during vessel's stay. Mooring Master's crew maintain radio watch and constant communication with shore for general purposes and emergencies.
HOSE LIFTING: Derrick on port side in way of hose connection must be rigged to lift not less than 3 tons. Topping lift shall be available to raise or lower boom as required and winch and whip shall be of a quality and nature to lift hose steadily and evenly. Hose and fittings considered to weigh 3 tons. Ship's crew required operate ship's machinery to assist in raising of 12 in. hose from seabottom and secure same to ship's side – all done under direction of Mooring Master.

Vessel must have available two U.S. Standard 8 in. flange connections on port side. Two 8 in. hoses supplied by terminal for connection from submarine hose at ship's side to ship's manifold. Terminal will supply reducers if required.
DISCHARGE: After hoses are connected, Mooring Master will, after VHF radio communication with shore terminal, advise commencement of pumping. In the beginning the rate is to be slow and Mooring Master will advise when pumping rate is to be increased to maximum. Discharge may be stopped due adverse weather conditions. In which event hoses disconnected and submarine hose lowered to sea bottom. Discharge resumed when weather moderates.

No. 2 Oil Cargoes. No. 2 oil discharged through 2–8 in. hoses thence through 200 ft. of 12 in. submarine hose thence through 12 in. check valve then into 24 in. pipe-line which is one and a quarter miles in length. Height of shore tanks above sea level is 115 ft. Pressure at ship's side must be not less than 80 lb.

No. 6 Oil (Bunker C). Temperature of 6 oil shall be not less than 125° F. Therefore those tanks with lower temperatures shall be discharged only after temperature has been increased to 125° F.

Stripping – Tank draining. To keep discharge time to minimum, tanks should be stripped into one of ship's tanks and final stripping ashore shall be from only one tank.
DENSITY: Flood tide density 1.025. Ebb tide density 1.020.
GANGWAY/DECK WATCHMEN: Not required.
CUSTOMS ALLOWANCES: Tobacco, Wine and/or Spirit Allowance: Same as permitted in New York Harbour.
IDENTIFICATION CARDS: Issued by Immigration Officer.
CONSULS: All Consuls Offices located in New York City.
REPAIRS: No repair facilities available.
DRY DOCKS: At New York Harbour.

REPATRIATION: Agent arranges all crew repatriation via New York.
AIRPORT: New York Airports 80 miles distant.
TIME: Standard time GMT minus 5 hours. Daylight Saving Time first Sunday of May to last Sunday of October GMT minus 4 hours.
POLICE/AMBULANCE/FIRE: Terminal attends Police/Ambulance and Fire services.
SHORE LEAVE: Shore leave permissible.
AUTHORITY: Northville Industries Corp., PO Box 111, Riverhead, N.Y. 11901.

ROCHESTER: New York: 43.08 N. 77.35 W.

Refer to "St. Lawrence Seaway" for important general information.
ANCHORAGE: No anchorage available within harbour limits.
MAX. SIZE: Channel depth 23 ft. (LWD). All depths in channels or alongside wharves should be checked carefully against the latest recorded elevated or lake level. This may vary from month to month. Entrance width 300 ft., turning basin depth 23 ft., 600 ft. in width.
TUGS: Available. Arrange via ship's Agent.
BERTHING: Entrance piers are parallel to each other, and about 450 ft. apart. The West Pier is 3,036 ft. long and the East Pier 2,699 ft. long. Fog horn and beacon on West Pier, East pierhead lighted. Radio beacon. Port Authority Terminal located on West bank of Genesee River at end of Lake Pier. Has a quay wall of about 1,400 ft. in length, Depth of water alongside 23 ft. (LWD). Charlotte Docks located about 2 miles upstream from mouth of river on West bank. Consists of gravity bulk coal loading facilities.
BRIDGES: New York Central Railroad swing bridge near mouth of the river and upstream from Port Authority Terminal. Traffic lift bridge about $\frac{1}{4}$ mile upstream from railroad bridge.
STEVEDORES: Available by request. Charges to suit individual commodities.
DENSITY: Fresh water.
FRESH WATER: Available at both docks.
FUEL: Available coal bunker facilities, at Charlotte Docks. Oil may be furnished direct from trucks at Port Authority Terminal.
IDENTIFICATION CARDS: Required.
CONSULS: None.
REPAIRS: Minor only.
REPATRIATION: Can be arranged.
AIRPORT: Approximately 10 miles from port.
POLICE/AMBULANCE/FIRE: Police, 232–3311; Ambulance/Fire, 232–2121.
SHORE LEAVE: Allowed.
AUTHORITY: Rochester-Monroe County Port Authority, 4664 Lake Avenue, Rochester 12, N.Y. Tel. 3–6600.

SACRAMENTO, California: 38.32 N. 121.30 W.

DOCUMENTS/HEALTH: See "San Francisco."
PILOTAGE: Pilots board vessel in San Francisco Bay.
RESTRICTIONS: *Ship Channel:* Distance, Fort Point to Sacramento, 79 nautical miles (146 kilometres). Bottom width in river reach 300 ft. (91·4 metres). Bottom width in channel reach 200 ft. (61·0 metres). Minimum depth at MLLW tide 30 ft. (9·1 metres).
Harbour: Area 60 acres (24·3 hectare). Minimum depth at MLLW tide 30 ft. (9·1 metres). Tidal variation average 5 ft. (1·5 metres).
MAX. SIZE: 750 ft. LOA and 110 ft. beam, 30 ft. deep at MLLW.
RADIO: KBA 386, 156·9 megacycles (24 hours).
TUGS: Join vessel at Light 99 (turning basin).
BERTHING: Anchor – ships will have at least one anchor ready to let go in case of emergency, when docking or undocking. Anchor will be raised immediately upon ship being made fast to wharf.
Insurance lines are required on off-shore side, fore and aft, immediately after ship is made fast to wharf.
A cargo net shall be securely placed under gangways. Save-all nets shall be rigged abreast of holds at which general cargo is being handled.
Rat guards, at least 3 ft. in diameter, shall be placed on all mooring lines immediately after docking, and shall be maintained in place until ship's departure.
Berths: 5 deep sea berths (3 wharves, 2 piers). Barge slips – 2. Berth lengths – 600 ft. (182·9 metres).
STEVEDORES: Same as San Francisco.
MEDICAL: All normal medical facilities available.
DENSITY: Full fresh.
FRESH WATER: Available at all berths.
FUEL: All grades available with 24 hours notice. Delivered by barge.
GANGWAY/DECK WATCHMEN: Each ship shall have a security detail in readiness on board at all times it is in port. The security detail shall perform tasks of an emergency nature and shall have information concerning cargoes aboard in case of need for fire fighting purposes.
OPENING/CLOSING HATCHES: Opening/closing hatches is stevedore work while docked in port.
IDENTIFICATION CARDS: A pass signed by the Master or his designated officer will be required for crew members, passengers and their personal property to leave the port's fenced area. Property may be subject to physical inspection before leaving the fenced area.
CONSULS: Nearest at San Francisco.
REPAIRS: Limited repair facilities available.
REPATRIATION: Can be arranged through local Agent.
AIRPORT: 16 miles from port and served by regular airlines.
TIME: GMT minus 8 hours.
HOLIDAYS: Only days not worked are 4th and 5th July, Labor Day, Christmas Eve and Day, New Year's Eve and Day.
POLICE/AMBULANCE/FIRE: Tel. 371–8000. Extensions 252 and 228.
TELEPHONES: Telephones available on board free of charge.
SHORE LEAVE: Crew members allowed ashore subject to Immigration clearance.
GENERAL REGULATIONS: Ships will not blow boiler tubes while in port. Bilge water or oil will not be discharged into harbour. Accidents will be reported immediately to the Terminal Superintendent. Splash boards will be placed over disposal vent-pipe openings on inboard side of vessel.
Garbage – United States and California State laws make it unlawful to dispose of ship's garbage except in approved ways. Port makes approved garbage disposal available – contact the Terminal Superintendent. Garbage retained on board must be kept in tightly closed containers.
Smoking – Smoking prohibited in and around cargo compartments, and on open decks except that it may be permitted in marked areas under sheltered portion of weather decks on offshore side. Smoking prohibited on wharfs and piers except in marked areas. Smoking prohibited on or near ship while it is bunkering.
Welding/Burning – Welding or burning will not be done until written approval is obtained from the Terminal Superintendent and the Fire Marshal. All requirements of both the Superintendent and Marshal will be strictly adhered to.
Fire Signal – Upon detection of a fire, regardless of location or size, the alarm of fire will be sounded. The alarm shall be sounded by telephone and/or whistle or siren blasts. Five each, five second blasts repeated as necessary.
AUTHORITY: Sacramento-Yolo Port District, PO Box 815, West Sacramento. Tel. 910–367–3581.

SAN DIEGO, California: 32.41 N. 117.07 W.

PORT LIMITS: The seaward boundaries of the port of San Diego at which a vessel is considered to be an "arrived vessel" is that time when the vessel is boarded by a Port Pilot at Seabuoy No. 1 and (subject to charter party terms) lay time commences when notification of readiness is tendered at berth.
DOCUMENTS:
Crew Lists.
Passenger Lists.
Customs Documents.
Manifests.
Stores Lists.
Crew Curio Declaration List.
If the vessel arrives from foreign direct, 3 copies each of the above documents are required.
If the vessel movements are between U.S. ports, 2 copies each of the above documents are required.
Health Documents. Arrival from foreign direct, 1 copy only. All crew members should be in possession of valid vaccination certificates.
Manifests. Arrival from foreign direct, 1 copy of travellers manifest which remains with vessel, and 3 copies each of U.S. Customs inward foreign manifest. Bills of lading, ship's papers carried aboard vessel varies with steamship companies.
PILOTAGE: The San Diego Pilots do not maintain Pilots on station. Service is rendered according to ETA received from vessel. If any vessel's arrival or departure is delayed over one hour, an additional charge will be made. Telegraphic address of pilot station – radio ETA to "Pilots", San Diego. Advance notice of ETA required – 24 hours prior to arrival of vessel. Pilot boat is 54 ft. in length, painted white. The exact area where pilot boards the vessel is No. 1 sea buoy.
ANCHORAGE: 3 miles South-east of Point Loma Light.
MAX. SIZE: Length, breadth – no restrictions. Maximum draft alongside face of terminal, 36 ft.
HEALTH: Vessel remains under quarantine until such time as pratique procedure is completed by an officer of the U.S. Department of Health and clearance is given to lower quarantine flag. Pratique automatic for vessels moving to another port within United States.
RADIO: All radio messages go through the Los Angeles station for relay.
TUGS: Tugs normally join vessel approximately one mile before berth. Five available with h.p. ranging from 200–1,700. There is no charge for the use of tug's lines.
SPECIALISED CARGO HANDLING FACILITIES: High-speed bulk-loading facilities exist with 800 ft. of 36-ft. deep water berthing space and bulk storage for 12,000 metric tons, plus a bulk loader boom that travels 500 ft. laterally and can be extended or raised enough to load nearly any size or type of ship.
High-speed bagging of bulk commodities is available for bagging of bulk materials from powder to pellets at the rate of 450 tons per 8-hour shift.
STEVEDORES: Advance notice of 24 hours desired in order to arrange gangs.
MEDICAL: Agents should receive notification of medical attention required 24 hours prior to ETA of vessel. Complete hospital facilities available.
TANKERS: Diameter of load/discharge line 6 to 8 in. Slop (residue) discharge facilities available upon request. Two tanker berths – maximum draft 30 ft.
DENSITY: Salt water in bay.

FRESH WATER: Fresh water available, delivery via pipeline.
FUEL: Bunker diesel, Union Bunker fuel, Union light domestic fuel oil, and MV 650 fuel available.
GANGWAY/DECK WATCHMEN: Available if considered necessary.
OPENING/CLOSING HATCHES: Carried out by stevedores.
CERTIFICATES: Registered Load-line Certificate, Certificate of Inspection, Safety Certificate.
CUSTOMS ALLOWANCE: Tobacco: Per each crew member U.S. Customs allowed two cartons of cigarettes and one box of cigars. Wine and/or Spirits: Quantity allowed per each crew member – 1 quart.
CARGO GEAR: Up-to-date certification of all cargo gear required in order to comply with Pacific Coast Marine Safety Code.
IDENTIFICATION CARDS: U.S. Immigration requires completion of Form 95, U.S. Coast Guard requires landing permits.
CONSULS:

Chile	Italy
Costa Rica	Mexico
Denmark	Netherlands
Dominican Rep.	Norway
Ecuador	Panama
El Salvador	Peru
Finland	Sweden
France	West Germany
Honduras	

REPAIRS: All types of deck and engine repairs are available.
DRY DOCKS: Largest dry dock 700 ft. length, 104 ft. width. Capability can accommodate C–2 mariner type or San Diego type hulls (600 ft. length, 85 ft. width) and up to and including 28,000 displacement tons. Four additional floating dry docks with capabilities up to and including 3,500 displacement tons.
AIRPORT: Distance from marine terminal approximately 5 miles. Airport is serviced by major airlines.
TIME: Local time GMT minus 8 hours. Daylight Saving Time becomes effective the last Sunday in April and continues to the last Sunday in October.
HOLIDAYS: Recognised holidays are: New Year's Day; Lincoln's Birthday; Washington's Birthday; Memorial Day, Independence Day, Labor Day, Columbus Day, Veteran's Day, Thanksgiving Day, Statewide Election Day, Christmas Day, or any other legal holiday that may be proclaimed by State or National Authority; when a holiday falls on a Sunday, the following Monday shall be observed as a holiday.
POLICE/AMBULANCE/FIRE: Police 232–6981; Emergency Ambulance 232–6981; Fire 232–8191.
TELEPHONES: Arrangements exist for placing telephones on board. No charge for hooking up.
SERVICES: Tank-cleaning equipment. Facilities for tank washings. Compass and radar adjustments, etc.
SHORE LEAVE: Permitted.
AUTHORITY: Port of San Diego, Unified Port District, 3165 Pacific Highway, San Diego, California. Tel. 291–3900. Mailing address PO Box 488, San Diego, California 92112. Telex Sun Harbour San Diego, California.

SAN FRANCISCO, California: 37.48 N. 122.25 W.

DOCUMENTS:
General Declaration (arrival) on Customs Form 1301.
Cargo Manifest (Customs Form 7257 A or 7527 B). One original copy indicating all the cargo on board, used for making formal entry. One copy listing all cargo on board, used as travelling manifest. One copy indicating cargo for this port only.
2 copies Crew's Effects Declaration on Customs Form 1304.
2 copies of Ship's Stores Declaration on Customs Form 1303.
2 copies Passenger List (Form I 418).
2 copies Crew List (Form I 418).

Customs boarding officer will also examine ship's register and Load-line Certificate. In addition, the following documents will be required for formal entry to be made within 48 hours of arrival from abroad, or 24 hours of arrival from abroad, or 24 hours of arrival from a U.S. port:

(*a*) Health Pratique.
(*b*) Master's Oath (Customs Form 1300).
(*c*) U.S. Certificates of Payment of Tonnage Tax (Customs Form 1002).
(*d*) Certified Crew List (U.S. vessels only).

PILOTAGE: Pilotage in and around Golden Gate Region is provided by two groups of experienced, licensed ship Pilots.

The San Francisco Bar Pilots' Association, maintains a sea station 12 miles outside the Golden Gate, in the vicinity of the lightship for vessels arriving and leaving the area.

On station around-the-clock. Pilot boats are equipped with VHF radio-telephone, and maintain continuous watch for ship traffic and operate co-operatively with the Marine Exchange communication centre and lookout station. The Bar Pilots also carry portable VHF radios.

Some 8,500 ships are piloted annually into and out of the port complex, through the Golden Gate and the 2,000-ft. wide, 50-ft. deep main ship channel across the alluvial sand bar about 9 miles outside the Gate.

Considerable summer fog is experienced on the pilot grounds. In winter months radiation or tule fogs frequently occur. The tidal prism of hundreds of square miles of inland waters cause unusually swift and changing currents in the area. Pilotage for San Francisco Bar and entrance is compulsory and available 24 hours a day. The Pilot boat is at a station 3 miles outside Main ship Bar channel about 14 miles from San Francisco, VHF Channels 18A and 10 for radio contact. Vessels with a draft of 42 ft. or more are requested to arrive at the pilot station for the inward passage about one hour before high water at the Golden Gate Bridge.

ANCHORAGE: Several anchorages available in San Francisco Bay for any type of vessel up to 50 ft. draft.

The well-protected bay affords excellent shelter and anchorage in all weather. The Captain of the Port (Coast Guard) will assign an anchorage to a vessel upon request. In San Francisco and San Pablo Bays, there are a large number of anchorages available for naval, quarantine, general and explosives.

RESTRICTIONS: The San Francisco Bay region is the first on the West Coast to have sea lanes established by the Coast Guard for greater safety in its ocean approaches. Use of the lanes is not mandatory, but is strongly recommended to reduce chance of ship collisions in congested approach and departure areas. The lanes are not intended to supersede or alter applicable rules of the road.

The lanes begin within 6 miles of the San Francisco Lightship, with each lane inbound and outbound separated by a buffer zone. The headings are: North lane outbound, 305°: north lane inbound 120°; main line outbound, 247°; main line inbound, 058½°; Southern lane outbound, 169°; Southern lane inbound 343°.

The size of the bay and the narrowness of the Golden Gate cause tricky and sometimes difficult tidal and current conditions. The flood current sets into all parts of the bay and causes swirls as far East as Alcatraz and Angel Islands. At the San Francisco–Oakland Bay Bridge there are large current eddies near the foundation piers which may require care to maintain proper course.

The bar channel is dredged to 50 ft. mean lower low water by the U.S. Army Corps of Engineers. Entrance channels to the various ports are dredged to 35 ft., with the exceptions of Sacramento, Stockton and Redwood City, which are 30 ft. Stockton, however, is approved for a 5-ft. deepening, and study of similar deepening for Redwood City is being completed.

MAX. SIZE: The maximum permissible draft for tankers at the oil installation is 35 ft., for regular freighters and passenger ships at the San Francisco piers is 30 ft. No restrictions on length or berth. The best time to dock with maximum draft is at a rising tide.

HEALTH: Radio pratique may be granted basis information received prior to arrival of vessel, provided no communicable diseases on board.

Normally, vessels are boarded by Medical Officers on arrival unless free pratique previously given at U.S. port in the same voyage. If granted free pratique, vessel may enter port and discharge passengers and cargo. If given provisional pratique, vessel may enter port, but must take any additional measures specified in connection with discharging passengers and cargo, until free pratique is given.

RADIO: Radio station via RCA – Radio Corporation of America – Station KPH ITT – World Communications – Station KFS.

Safe and efficient navigation for all bay vessel traffic is maintained through a Ship Location and Reporting Service operated by the Marine Exchange. VHF radio and radar are used to report all bay activity, 24 hours a day.

TUGS: Tugs available and normally join the vessel when approaching their pier. Always the tug's lines are used, with no extra charge.

BERTHING: No restriction on berthing other than draft limitation and preferable at slack water.

There are 42 wharves, and a number of special terminals, with over 18 miles of berthing space; they range from 500 to 1,400 ft. in length and 150 to 350 ft. in width, with a depth of 30 to 40 ft. Wharf area: 130 acres covered, 100 acres open.

Oakland: The port area extends for 19 miles along the East side of San Francisco Bay. Marine terminal facilities include 21 deep-water berths. The newest of these are four which have been constructed for container ships at the 7th Street Terminal.

Alameda: Alameda, an island and city across the Inner Harbour channel from Oakland, is the home of Encinal Terminals, the largest privately owned and operated steamship terminal in the United States. There are seven berths for vessels at Encinal.

STEVEDORES: Stevedores orders must be placed 10 a.m. for night gangs and day gangs. Two 8 hours shifts 7 days a week. Sunday and Sunday night gangs must also be ordered on Saturday 10.00.

MEDICAL: Medical, and all hospital facilities available. No advance notice required.

TANKERS: San Francisco is an oil discharging port. All major oil companies have their own oil discharging pier. Reducing pieces are available. The maximum drafts are 35 ft. Tankers arriving with a greater draft are partly discharged in the bay before docking.

Port of Oakland, Outer Harbour Terminal, Oil Pier foot of Pier Street. Operated by Mobil Oil Company and the Ashland Oil Company. Construction: Timber pile, timber-decked pier projecting diagonally from rubble stone bank. Dimensions (water depth): Face 50 ft., lower side 623 ft., upper side 683 ft., depth alongside at MLLW; face 36 ft., lower side 33 ft., upper side 35 ft.

Davis Point: Union Oil Co. Oleum Refinery Wharf, depth up to 38 ft. MLW.

Martinez: Shell Oil Co. Wharf, depth alongside 30 to 42 ft. MLW. Phillips Petroleum Co. Amorco Wharf, two berths, depth 35 ft. MLW. Phillips Petroleum Co. Avon Wharf, depth alongside 35 ft. MLW.

Ozol: Oil Wharf, depth alongside 39 ft. MLW.

Hercules: Sequoia Ref. Corp. Terminals, depth 35 ft. MLW.

DENSITY: Average density in the bay is 10.16.
FRESH WATER: Available at all piers rate between 25 and 50 tons per hour.
FUEL: Fuel available by barge or at the oil companies own pier. Special blends require some advance notice.
FIRE PRECAUTIONS: Any special instructions are given to the Master upon docking.
DEVELOPMENTS: At present a LASH terminal under construction at Pier 92 for lease to Pacific Far East Lines.
WATCHMEN: Not required but this service available at Master's request.
OPENING/CLOSING HATCHES: Normally done by stevedores. But crew may open and close before arrival at the dock or after departure.
CUSTOMS ALLOWANCES: Each crew member may land free of duty and/or taxes articles acquired abroad not exceeding $10 in value, plus 50 cigars or 300 cigarettes or 3 lb. of smoking tobacco, and not over 1 quart of alcoholic beverages.
IDENTIFICATION CARDS: Standard U.S. Immigration Forms I.–95 to be made up for each crew member on arrival. Not necessary for crew man already holding Form I.–95, issued for the same vessel.
CONSULS: All Maritime countries represented at San Francisco.
REPAIRS: The major yards in the Golden Gate region have fully equipped machine-shop facilities capable of handling virtually any job; welding, heavy plate construction, turning, boring, facing, grinding, milling and rolling.

The larger yards also have facilities for pipe, sheet metal, electrical carpentry, painting, rigging, machining and boiler work.

Pacific Ship Repair and Triple "A" Repair are both located in San Francisco and provide berth space for all types of ship repairs at plant and at any location in the San Francisco Bay area.
DRY DOCKS: Bethlehem Steel's San Francisco shipyard has three floating dry docks, one with 22,000 tons capacity and 654 ft. long, one of 11,400 tons capacity and 542 ft. long, and one of 6,500 tons capacity and 450 ft. long. With a recently completed pier, it's tie-up and outfitting space totals 4,271 ft.

Todd Shipyards Corp. has two dry docks at Alameda. Their larger dry dock is 873 ft. long with a clear width between wing-walls of 140 ft. and a lifting capacity of 40,000 tons. The smaller dry dock has a lifting capacity of 10,000 tons and is 542 ft. long with a clear width between wing-walls of 86 ft. There are 3,500 ft. of berthing space for ships undergoing in-the-water repairs. Todd has three mobile units for out-of-yard work.

Williamette Iron and Steel Company's yard in Richmond has five concrete graving docks. Four of these docks can each accommodate a vessel 600 ft. long with 83 ft. beam, and one dock can handle a vessel 750 ft. long by 83 ft.

Tonnage capacity is limited only by the above dimensions. Williamette's facilities include 1,500 ft. of concrete outfitting pier for in-the-water repairs. The graving docks are served by four gantry cranes of 60-ton capacityand two of 45-ton capacity, and the outfitting pier by three 45-ton cranes. Williamette has fully equipped shops for repair and conversion work, and mobile units for out-of-yard work at all Bay Area piers.
DEVELOPMENTS: The channel over the bar will be deepened to 55 ft. A new channel will be cut 600 ft. wide and 45 ft. deep (at low water), through the upper bay and the channel through San Pablo and Suisun Bays will be deepened to 45 ft. Manoeuvring areas near Richmond and the refinery terminals will be widened. The Stockton Deep Water Channel will be deepened to 35 ft. and the channel alignment improved.
REPATRIATION: All facilities available for crew changes by sea, air or land.
AIRPORT: Distance about 10 miles from San Francisco and is served by regular airlines.
TIME: GMT minus 8 hours, summertime from last Saturday in April till last Saturday in October GMT minus 7 hours.
HOLIDAYS: New Year's Day; Lincoln's Birthday (February 12); Washington's Birthday (February 22); Good Friday (afternoon); Memorial Day (May 30); Independence Day (July 4); Labor Day (first Monday in September); Admission Day (Calif. only Sept. 9); Columbus Day (October 12); Veteran's Day (November 11); Election Day (First Tuesday after the first Monday in November); Thanksgiving Day (last Thursday in November); Christmas Day.

When any of the holidays fall on Sunday, the holiday will be observed on Monday.

On a holiday the longshoremen are working at the overtime rate (time and one half) except on the following days when no work will be performed:

1 New Year's Day;
2 Bloody Thursday (July 5, memory of three longshoremen killed during the 1936 strike);
3 Labor Day;
4 Thanksgiving Day;
5 Christmas Day.

POLICE/FIRE/AMBULANCE: Police, tel. 533–0123; Fire, tel. 861–8020; Ambulance, tel. 431–2800.
TELEPHONES: On some piers telephone connections to ships are available, no extra cost for this service.
GENERAL: Vessels arrival has to be reported to the U.S. Coast Guard 24 hours prior arrival by agent.
SHORE LEAVE: Crew members are allowed to go ashore after passing U.S. Immigration at first U.S. Port.
AUTHORITY: San Francisco Port Commission.

AGENT: Holland America Line, 350 Sansome Street, San Francisco Tel. 362–7510. Telex 470397.

SAVANNAH, Georgia: 32.02 N. 81.07 W.

DOCUMENTS:
3 Crew Lists.
3 Store Lists.
3 Curio Lists.
3 Manifests.
3 Passenger Lists.

These documents required in order to enter vessel at U.S. Customs.
Direct Foreign Arrival—Quarantine Pratique issued by Public Health Service representative; Cargo on Inward Foreign Manifest Form 7527 A or B or substantially similar form, in duplicate with abstract manifest of Savannah only cargo; Crew list on Form I-418, in triplicate; Passenger list on Form I-418, or other acceptable form, in triplicate; Crew curio list, in triplicate, with crew declaration on Form 5123, or crew list on Form I-418, in triplicate, with numbers of attached Forms 5129 endorsed thereon; List of sea stores and ship's stores, in triplicate; for American vessels, repair declaration on Form 3415; for American vessels, certified crew list; Clearance from last foreign port, if one issued.

Coastwise arrival with Residue Foreign Cargo or Passengers—Form 1385, "Permit to Proceed", in duplicate; Travelling Manifest; Abstract Manifest, in duplicate, of cargo to be discharged in Savannah— if none, two "pro forma" manifests; Stores list, in duplicate; Crew list, in duplicate; Crew purchase list, in duplicate, and any crew declarations on Customs form 5123 for Savannah; Passenger list, in duplicate, if passengers are disembarking in Savannah.
PILOTAGE: Savannah Pilots' Association, 204 East Bay Street, Savannah, Georgia, 31401 (telegraphic); Pilot required all vessels; ETA 24 hours advance notice, change ETA 8 hours; VHF Channel 16 (monitored at all times), 18, 12, 13 – Radio telephone 2182, MG, 2738; Pilot boards vessel one mile outside fairway buoy.
ANCHORAGES: Outside fairway buoy North and North-east of fairway buoy; no anchorages in river.
RESTRICTIONS: 27 ft. at any time; over 27 ft. on incoming tide, no restrictions day or night.
MAX. SIZE: Abbreviation OT: Ocean Terminal. Vessels berthing at OT 10 A/B and OT 12 A/B should not exceed 550 ft. length and 32 ft. draft. For berths OT 14–15–16–17 vessels 550 to 600 ft. on slack water; vessels less than 550 ft. any time to berths 14 and 17; vessels docking or undocking at OT 15–16, with vessels in OT berths 14–17, can be docked or undocked during slack water. Vessels entering Stevens Terminals should not exceed 525 ft.; maximum of 550 ft. could be handled under ideal conditions, i.e. slack water and all berths clear in slip. Vessels over 500 ft. undocking from berths 35–37–41–42, Stevens Terminals, should not be undocked during strength of ebb or flood tide, but may be undocked at or near high or low water slack. Vessels berthing at river front berths: vessels up to 650 ft. will be handled any time and vessels from 650 to 800 ft. on tide conditions; vessels will be handled at whatever drafts Bar Pilots will bring them in or out. As for breadth of vessels, whatever Bar Pilots will take through Seaboard Bridge.
HEALTH: Radio Pratique in effect by U.S. Public Health Service; Captain on 4 hours notice in advance to Agent can obtain radio pratique. Also see "Documents".
RADIO: Vessels route ETA cables to agents, etc., via radio Lantana.
TUGS: Tugs join vessels at city front for berths above city; for berths below city, tugs usually meet vessels in vicinity of Fort Jackson or well below berth. Tugs' lines used all times.
BERTHING: Vessels of 27 ft. and over usually proceed and depart on flood tide. All but Continental Can and Atlantic Creosoting can dock at any time. Normally no restriction on docking or undocking, except number of tugs that will do the job safely.
BRIDGES: River crossed by two bridges in main harbour: the Seaboard Coast Line Railroad Bridge, vertical lift bridge 200 ft. wide between fenders with 135 ft. vertical clearance at mean high water; and the Eugene Talmadge Memorial Bridge, vertical clearance 135 ft. mean high water and 600 ft. width between piers. No particular arrival time required in order to pass through these bridges.
STEVEDORES: In order to order gangs agent should receive ETA from vessel no later than 1300 hours day prior to arrival, when vessel coming coastwise. When calling at Savannah from a foreign port agent normally receives ETA 72 hours and again 24 hours prior to arrival.
MEDICAL: Agent should be advised as far in advance as practicable for required medical attention. U.S. Public Health Hospital in Savannah, also other extensive medical facilities. Standard information required as to inoculations, vaccinations, etc.
TANKERS: Standard requirements on diameters of load–discharge lines. No facilities for slop (residue) discharge facilities except American Oil Company. S.G. & A.P.I. of local types of oil is 36 gravity marine diesel fuel. 6 tanker berths in port, maximum drafts 32 ft. (Draft at tanker berth will in all probability be increased to 34 ft. upon completion of the current improvement programme.)
DENSITY: Average density of water at 20 degrees Centigrade in channels of Savannah Harbour are:

	Savannah River Entrance	
	High water	*Low water*
Surface	1.0196	1.0090
Bottom	1.0196	1.0181
	Port Area	
Surface	1.0022	0.99915
Bottom	1.0120	1.0075

FRESH WATER: Available at all terminals. Charge 55c per ton.
FUEL: Light marine diesel fuel (No. 2 Fuel), heavy marine diesel fuel (No. 4 Fuel), all Intermediate grades from Intermediate 2 (equals 200 secs. Redwood 1 scale at 100° F.) through No. 30 (equals 3,000 secs.

Redwood 1 scale at 100° F.), Bunker "C" Fuel (No. 6 Fuel). All above grades available in either bonded or domestic except light marine diesel, which is domestic only. Advance notice required 24 hours.

FIRE PRECAUTIONS: No special fire precautions. All tanker berths have water and fire extinguishers on dock. Fire fighting equipment on dock. Fire fighting equipment on tugs.

DEVELOPMENTS: Currently under way is Harbour Improvement Programme to be completed in 1973. Channel depth will be improved to 40 ft. and channel width to 600 ft. from ocean bar to the jetty channel. From jetty channel to Seaboard Coast Line Terminal channel depth will be increased to 38 ft. Throughout main part of harbour (from the S.C.L. Terminal to the Garden City Terminal) depth will be increased to 38 ft. and width maintained at 400 ft. From Garden City Terminal to Savannah Sugar Refinery, channel will be deepened to 36 ft. and widened to 400 ft. Of paramount importance also are portions of the project which will enlarge the harbour's two smaller turning basins to 900 ft. by 1,000 ft. and construction of a sedimentation basin in Back River. At Garden City Terminal of Georgia Ports Authority adjacent to Berth No. 57 will be a new container facility consisting of one 992-lineal-ft. berth and one 90,000-pound container crane. Also to be constructed will be two bulk loading and unloading berths at the upper end of the Whitehall Plantation. These berths will have a total of 1,600 lineal ft. and will be able to handle all types of dry bulk cargo.

GANGWAY/DECK WATCHMEN: Garden City and Ocean Terminals of Georgia Ports Authority require that a watchman, or someone in authority, will be aboard any vessel tied to their facilities at all times. Seaboard Coast Line Terminal watchman furnished by Steamship Company if watchman required. The Stevens Shipping and Terminal does not require a watchman.

OPENING/CLOSING HATCHES: By crew if mechanical; by stevedores if not mechanical.

CERTIFICATES: See "Documents". Current Registry Papers, Load Line Certificates, Certificates of Inspection, etc., are required.

CUSTOMS ALLOWANCES: Tobacco, a crew member may take ashore 50 cigars, 300 cigarettes, or 3 pounds of smoking tobacco, or a proportionate amount of each. An appropriate amount of tobacco products may be held out of bond for use of passengers and crew members while aboard ship when in port. Wine and/or Spirit, a crew member may take ashore one quart of alcoholic beverages for his own use. Container should be opened, that is the seal should be broken. An appropriate amount of wine and/or spirits may be held out of bond for consumption by passengers and crew while aboard ship when in port.

CARGO GEAR: Certified in accordance with U.S. Department of Labor Regulations. Supplied by stevedores.

IDENTIFICATION CARDS: Identification required by crew members coming ashore. U.S. Immigration & Naturalisation Service issues landing permit, Form I-94, to any crew member of a foreign vessel who is not considered a security risk. This form must be in man's possession any time he is ashore.

CONSULS: The following countries are represented in Savannah:

Brazil	France	Norway
Costa Rica	Germany	Sweden
Dominican Rep.	Italy	Venezuela

REPAIRS: All types of deck and engine repairs possible at Savannah Machine and Foundry Company. Deck repairs from Diamond Manufacturing Company.

RADAR/VHF REPAIRS: Marine Industrial Electronics has qualified radar and RDF, also VHF men available. They can be contacted through ships' Agents or through the Pilots or Atlantic Towing if vessels should require service on arrival.

DRY DOCKS: Savannah Machine & Foundry Drydock 540 × 72 × 21 ft.

REPATRIATION: Responsibility of Owner's Agents. Can be arranged to all points.

AIRPORT: Savannah Municipal Airport regularly served by Delta Air Lines with thirteen scheduled flights daily and National Airlines with five flights daily. Charter service also available. Distance to Garden City Terminal approximately 5 miles, to Ocean Terminal approximately 7 miles, and to Stevens Terminal and SCL Terminal approximately 9 miles.

TIME: Savannah maintains Romeo or Eastern Standard Time GMT minus 5 hours, from 0200 the last Sunday in October, to 0200 the last Sunday in April. Quebec or Eastern Daylight Saving Time GMT minus 4 hours maintained from April to October.

HOLIDAYS: New Year's Day (January 1st); Martin Luther King's Birthday (January 15th); Lincoln's Birthday (February 12th); George Washington's Birthday (February 22nd); Memorial Day (May 30th); Independence Day (July 4th); Labor Day (First Monday in September); Columbus Day (October 12th); Armistice Day (November 11th); Thanksgiving Day (Fourth Thursday in November); Christmas Day (December 25th); Good Friday.

No work will be performed on New Year's Day, Independence Day, Labor Day, and Christmas Day.

POLICE/AMBULANCE/FIRE: Police, City:232–4141 and 233–9321, County: 232–8171; Ambulance: Fields and Sons Ambulance Service, 233–0191, Ambulance Service of Savannah, 236–1513; Fire: City: 232–5121.

TELEPHONES: G.P.A., Garden City and G.P.A., Ocean Terminals: telephones on board can be provided through local agents. Stevens Shipping & Terminals – not available to ship (phones on dock). S.C.L. Terminal – not available to ship (phones on dock).

SERVICES: Compass Adjusting, Coste Compass Adjusters, 121 East 63rd Street, Savannah, Georgia 31405, Tel. 355–9607.

Radar, RDF, VHF, Marine Industrial Electronics, Inc., Savannah Industrial Park, Savannah, Georgia, Tel. 232–3489.

SHORE LEAVE: Crew members are allowed ashore provided they are not detainees.

DELAYS: With reasonable advanced notice of ETA no delay anticipated in berthing, loading, discharging or bunkering.

AUTHORITY: *Georgia Ports Authority:* Garden City Terminal, Ocean Terminal, Georgia Ports Authority, PO Box 2406, Savannah, Georgia 31402. Tel. (912) 236–1561 TWX: 810–784–5634.

Seaboard Coast Line Terminal: PO Box 788, Savannah, Georgia. Tel. 232–1644, 232–3758, & 964–1721, extension 259.

Stevens Shipping & Terminal: PO Box 1468, Savannah, Georgia, Tel. 233–8131, TWX: 810–784–5625.

Savannah Port Authority: 42 East Bay Street, PO Box 128, Savannah, Georgia 31402. Tel. 233–9604. Cable Address: Savanaport.

The Savannah Port Authority does not operate terminals; however, is engaged in port and industrial development for the City of Savannah and Chatham County, Georgia. Harbour regulations, pier and bulkhead lines, etc., come under the jurisdiction of this organisation.

SEARSPORT, Maine: 44.28 N. 68.56 W.

DOCUMENTS:
1 Crew List.
1 Passenger List.
2 Stores Lists.
2 Foreign purchases Lists.
2 Inward foreign Manifest uniform cargo.
Original Bill of Lading.
1 Form 3251 Masters oath on entry of vessel.
2 Form 1374 outward foreign Manifest.

PILOTAGE: Ship's agent notifies Pilot approximately 48 hours in advance of arrival, correcting at 24 hours. Pilot's boat called on Channel 16 and 13 VHF. Pilot boards at Monhegan Island, W.B. 14 m. When weather bad, suggest vessel heaves-to at 43° 45.3 N. 69° 22.5 W.

ANCHORAGES: No restrictions on anchoring.

RESTRICTIONS: No restrictions at night. Deep draft vessels brought in only on high water. Draft in concurrence with docks, 32 ft. low water. 10 ft. rise in tide – approach to Searsport 35 ft. – Bay 60 ft. limit.

MAX. SIZE: Size of vessel restricted to 38 ft. draft in harbour area. No outside installations at the port yet.

HEALTH: Agent notifies Public Health Service and arranges inspection at pier. If any disease or fever suspected, vessel quarantined. When vessel cleared at a U.S. port and proceeds to another, clearance is still valid.

RADIO: Tugs in Searsport Harbour use Channel 16 and 2182. Vessels arriving Searsport go through radio station at Chatham, Mass., RCA installation, or call station WOU via Radio-Telephone.

TUGS: Eastern Maine Towage Company, Inc., Marshall Wharf, Belfast, Maine 04915. Cable address: Eastow. Tel. (207) 338–3000. 24-hour service. Requested that orders for tugboat service be given during normal business hours, 24 hours in advance.

Tugs: "Clyde B. Holmes", steam 1,000 h.p.
"Evelyn M. Holmes", diesel 1,200 h.p.
"Candace A. Holmes", diesel 1,200 h.p.
"Pauline H. Holmes", diesel 600 h.p.

Radio: ship to ship, VHF 2182 Channels 16–13–14, 2638, 2738; Boston Marine; Cape Cod Canal.

Sea Pilots dock ship with tug's assistance.

BERTHING: Draft conditions govern arrival and departures.

STEVEDORES: 4 hours notice on ordering gangs.

MEDICAL: No advance notice required by Agent. One hospital, Waldo County, which takes bed patients. All seamen require Certificate showing they have had smallpox vaccination during last three years.

TANKERS: Two berths at Searsport – one for No. 6 oil and one for light oil and gas. Two 8-in. hoses. 32 ft. low water.

DENSITY: Average density 1024.

FRESH WATER: Available by tug for boilers only at rate of tug hire. Drinking water available at piers.

FUEL: No. 6 oil at C.H. Sprague dock. Light oils delivered by tank truck at dock.

FIRE PRECAUTIONS: At certain oil piers information given to Shipmaster upon arrival at pier. Ample fire protection, salt-water lines, sprinkler system on pier, local fire department.

DEVELOPMENTS: Two new 40,000 bbls. tanks for liquid fertiliser.

GANGWAY/DECK WATCHMEN: Not required.

OPENING/CLOSING HATCHES: Ship's crew may open hatch after longshoremen boarded ship.

SHIP CERTIFICATES:
Load-line Certificate.
Certificate of Foreign Clearance.
Ship's Safety Certificate.
U.S. tonnage Tax Certificate of previous trip if have them.
Radio Operator Licence.

CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes per man. Wine and/or Spirit Allowance 1 bottle per person.

CARGO GEAR: No additional cargo gear necessary.

IDENTIFICATION CARDS: Form I-95 must be filled out on arriving unless seaman has had a prior one made out for a previous arrival on same ship (on a plastic card.)

CONSULS:
Norwegian: Allan Kjos-Hansen, 30 Mayer Road, Portland, Maine, Vice-Consul.
French: Dr. Paul O. Proudian, 776 Main Street, Westbrook, Maine.
Finnish: Frank W. Bjorklund, 163 Main Street, Norway, Maine.
Italian: Dr. Domenica A. Santoro, 43 Deering Street, Portland, Maine.
Panamanian: Mary Navarro de Carrillo, Lafayette Town House, Portland, Maine.
Swedish: Martin Johnson, Vice Consul, 443 Congress St., Portland, Maine.
REPAIRS: All types of machinery repairs.
DRY DOCKS: None.
REPATRIATION: Arrangements must be made with Agent in advance by telegram.
AIRPORT: Bangor International Airport, 30 miles, Northeast Airlines.
HOLIDAYS: New Year's Day; Washington's Birthday; Patriot's Day; Memorial Day; Independence Day; Labour Day; Thanksgiving Day; Christmas Day and Veteran's Day. Possible to get gangs to work all days except on Labour Day and Christmas.
POLICE/AMBULANCE/FIRE: Police 548–2256; Ambulance 548–2900; Fire 548–2900.
TELEPHONE: Arrangements can be made to have phone put on ship, but most docks have pay phones.
AUTHORITY: Maine Port Authority, Maine State Pier, Portland, Maine 04111 (207) 773–5608

SEATTLE, Washington: 47.36 N. 122.20 W.

PORT LIMITS: Port of Seattle limits are co-extensive with the boundaries of King County in which Seattle is situated. A vessel has "arrived" when it has tied-up to a berth.
DOCUMENTS (on arrival from foreign):
Clearance from Last Foreign Port.
2 Crew Lists on Form I.418.
2 Passenger Lists on Form I.418 (if applicable).
Passenger Declarations if applicable.
2 Store Lists.
2 Crew Purchase (curio) Lists.
2 Manifests of Cargo for discharge on CF.7527–A or 7527–B.
If first arrival port on an inward voyage, must also have 2 sets of Manifests of complete cargo on CF.7527–A or 7527–B, one for Customs at this port and the other for use as a "Travelling Manifest" to go forward to other discharge ports.
A – For U.S. Public Health Quarantine Boarding Officer: "Quarantine Declaration" on Form PHS.43.
B –For U.S. Dept. of Agriculture Boarding Officer: "Shipmaster's Declaration and Warning Notice" on Form AIQ.43.
C – For U.S. Immigration Boarding Officer:
1. Crew List on Form I.418 visaed by U.S. Consul abroad.
2. Passenger List on Form I.418.
3. Attachment to Passenger List on Form I.92.
4. Form I.94 for each passenger.
5. Form I.95 or ID Card (Form 184) for each crewman. (These are reusable for multiple entries, but for seamen on first trip to United States a new Form I.95 must be ready for presentation on arrival.)

D – For U.S. Customs Boarding Officer and Agent or Broker:
1. 3 copies Crew List (Form I.418).
2. 3 copies Cargo Manifest on Form 7527A or B.*
3. 3 copies Store List – no official form provided.*
4. 3 copies Crew Purchases or Curio List (no official form provided).*
5. 3 Passenger Lists on Form I.418.
6. For U.S. Ships – Declaration re foreign repairs on Form 3415.
7. For U.S. Ships – Certified Crew List from last U.S. port before going foreign.

*At subsequent U.S. ports of call two copies required of extracts Cargo Manifests of cargo for the port concerned, and two copies of lists of stores and curios remaining on board.
PILOTAGE: Compulsory for all vessels except those on coasting trade. Pilots may be obtained from Puget Sound Pilots' Association, Seattle, at short notice. Inward, Pilot boards vessel at pilot station off Port Angeles.
ANCHORAGE: Extensive anchorage in Eliott Bay, depths of 90 ft.
RESTRICTIONS: Only for Inner Harbour, entrance through Canal Locks, maximum 800 ft. ×80 ft.×29 ft. fresh water.
MAX. SIZE: Controlled by depth at berth.
HEALTH: Vessels subject to Quarantine inspection usually proceed to their docks where they are boarded by the Quarantine officer. Fumigation service is performed at the port; however advance notice of 24 hours should be given to the U.S. Public Health Service at Seattle.
TUGS: Available, but not normally required.
BERTHING: Over 44 berths for ocean-going vessels. Depths alongside, 30 to 40 ft. MLLW.
SPECIALISED HANDLING FACILITIES: Terminal 20 has among its equipment a 200-ton capacity shear-leg crane. Also has pipe-lines to carry molasses, tallow or other non-petroleum liquid cargo, and has a tank farm for storage.
Terminal 115 – two berths, capacity, Auto-Terminal.
Terminal 115 – Foss Alaska Barges, has specialised finger piers, to handle container-to-barge operations.
Terminals 5, 18, 46 and 25 – Container Terminals, equipped with large container cranes and yards to handle van shipments.
Pier 86 – fully automated, deep water, Grain Terminal. With one berth it can accommodate a vessel with up to 73 ft. draft.
Terminal 5 – Banana Terminal. One berth, fully automated and is the only one in the North West with four pocket elevators.
STEVEDORES: 58 local gangs available. Gang requirements must be made known to the contracting stevedore prior to 11.00 on day before vessel plans to dock. Order before 10.30 on Saturday for Saturday afternoon, Sunday, and Monday.
DENSITY: Salt water in Outer Port. Fresh water inside Canal Locks.
FRESH WATER: Available at all wharves.
FUEL: Available.
GANGWAY/DECK WATCHMEN: Watchmen required if detainees aboard.
OPENING/CLOSING HATCHES: Normally carried out by stevedores while vessel in port.
CERTIFICATES:
Certificate of Registry.
Certificates for any previous U.S. tonnage tax payments within the past year.
International Load Line Cert.
Safety Radio Cert.
Deratization Cert.
Cargo Gear Inspection Cert.
Cert. of Inspection (for U.S. vessels).
CUSTOMS ALLOWANCES: No definite quantities prescribed; reasonable allowance at discretion of Customs Inspector.
IDENTITY CARDS: Required.
REPAIRS: All types of repair possible.
DRY DOCKS: Ten dry docks for vessels up to 20,000 tons.
REPATRIATION: All facilities exist.
AIRPORT: Seattle International Airport.
TIME: Pacific Standard Time, GMT minus 8 hours; Pacific Daylight-saving Time, from end April to end October, is GMT minus 7 hours.
HOLIDAYS: New Years' Day (January 1) no work; Lincoln's Birthday (February 12); Washington's Birthday (February 22); Memorial Day (May 30); Independence Day (July 4) no work; Bloody Friday (July 5) no work; Labour Day (September 1) no work; Colombus's Day (October 12); Veteran's Day (November 11); Thanksgiving Day (November 27) no work; Christmas Day (December 25) no work.
SHORE LEAVE: Allowed, except for crewmen detained by Immigration.
AUTHORITY: Port of Seattle Commission.

SEWARD, Alaska: 60.06 N. 149.27 W.

DOCUMENTS:
3 copies Cargo Manifest (Forms 7527–A or 7527–B) the original showing all cargo on board, and 2 copies showing only cargo for this port.
2 copies Crew Manifest (curio list).
2 copies Stores List.
2 copies Passenger List (Form I.–418).
2 copies Crew List (Form I.–418).
Customs boarding Officer will also examine Ship's Register and Load-line Certificate. In addition, the following documents will be required for formal entry to be made within 48 hours of arrival from abroad, or 24 hours from arrival from a United States port:
Health Pratique.
Master's Oath (Customs Form 3255).
All Foreign clearances.
U.S. Certificates of payment to tonnage tax (Customs Form 1002).
Certified Crew List.
PILOTAGE: Alaska Marine Pilots' Association, Box 273, Homer, Alaska 99603. 48 hours advance notice. 2182 calling frequency KC – KTE–21. Anchorages as noted on chart. C. & G. S. 8529 Resurrection Bay.
Pilot boards at Cains Heads in Resurrection Bay.
MAX. SIZE: Harbour depth 35 ft. MLLW.
ANCHORAGE: Suitable anchorage in 30 fathoms depth available for deep draft vessels at the head of the Bay, South of marked buoy.
HEALTH: Radio pratique may be granted basis information received prior to arrival of vessel, provided no communicable diseases on board. Normally, vessels are boarded by Medical Officers on arrival unless free pratique previously given at U.S. port in the same voyage. If granted free pratique, vessel may enter port and discharge passengers and cargo. If given provisional pratique, vessel may enter port, but must take any additional measures specified in connection with discharging passengers and cargo, until free pratique is given.
RADIO: KWA 364 (AM) Alaska Railroad Dock, frequency monitored 2182 kc/s. KWA 364 (SSB) Alaska Railroad Dock, frequency monitored 4–6–8–12 Megs.
TUGS: No regular tug service available. Prior arrangements need be made with tugs from Cook Inlet. Foss Tug & Barge or Puget Sound Tug & Barge Company.
BERTHING: 24 hour berthing. Berthing permit required. Advance notice of 48 hours requested.
200 ft. by 735 ft. steel and concrete finger pier.
East Side – 600 ft. long with 35 ft. depth of water.
West Side – 600 ft. long with 35 ft. depth of water.
South End – 200 ft. long.
(East and West Berths serviced by railroad spurs).
STEVEDORES: Northern Stevedoring and Handling Corporation supply labour force.

MEDICAL: Fully staffed 30 bed hospital. All medical facilities available.
DENSITY: 1.0248 water density at Mean High Water.
FRESH WATER: Available at berths. 4 in water line; 67 lb. pressure.
FUEL: Diesel fuel available from pipeline at West Berth only. Other grades delivered by tank wagon.
HATCHES: Handled by crew, if done before berthing ship. By stevedores if tied to dock.
IDENTIFICATION CARDS: U.S.C.G. Port Security Card or Seaman's Card required.
REPAIRS: Radio, radar, welding, machining and light engine repairs can be effected.
AIRPORT: 1 mile. Charter Service. No regular air service.
TIME: Alaska Standard Time.
HOLIDAYS: All holidays are time and one half. Cargo can be worked on all except Christmas, New Year and Labour Day.
POLICE/FIRE/AMBULANCE: Police, tel. CA 4–5201; Ambulance, tel. CA 4–3042; Fire, tel. CA 4–3444.
AUTHORITY: The Alaska Railroad, Box 95, Seward, Alaska 99664. Tel. CA 4–5550.

SITKA, Alaska: 57.03 N. 135.20 W.

Located on the Western side of Sitka Sound, Baranof Island. Open all year.

APPROACHES: Three natural channels: Western, Middle and Eastern.
DOCUMENTS: See "Anchorage, Alaska".
PILOTAGE: Pilot pick-up point – close aboard vicinity Eckholm Light.
ANCHORAGE: Jamestown Bay.
MAX. SIZE: Harbour depth 22 ft. MLLW. Tides: diurnal range – 9·9 ft.
CUSTOMS: Quarantine, Immigration and Customs, local.
TUGS: 7 tugs 300 h.p. to 1,200 h.p.
BERTHING: Three wharves.

1. Conway Dock: Berthing length 160 ft., depth 30 ft. MLLW. No cranes, 3 lift-trucks; 10,000 sq. ft. covered shed space; fresh water.
2. Japonski Dock: Government dock only for limited commercial use.
3. Alaska Lumber & Pulp Co.: (Private) Berthing length 700 ft., depth 35 ft. LW. Walking cranes only. Not less than 12 lift-trucks, 30,000 sq. ft. covered shed space; fresh water. (Located at Silver Bay, Sawmill Cove, 4 miles South of Sitka). 30,000 sq. ft. open storage.

STEVEDORES: Three gangs.
REPAIRS: Light repairs only.
WATER: Available.
FUEL: Not available.
MEDICAL: Sitka Community Hospital and U.S. Public Health Service Hospital on Japonski Island.
TRANSPORTATION: Air and ferry.

SKAGWAY, Alaska: 59.27 N. 135.18 W.

Located at the Northern end of Lynn Canal, 14 miles North of Haines.

APPROACHES: Via Lynn Canal.
DOCUMENTS: See "Anchorage, Alaska".
PILOTAGE: Pick-up point located in vicinity of Point Retreat.
MAX. SIZE: Harbour depth 30 ft running out to 300 ft. Tides diurnal range 16·7 ft. Also see "Berthing".
ANCHORAGE: In Lutak Inlet, 14 miles south of Skagway.
CUSTOMS: Quarantine, and Customs, local. Immigration from Haines.
BERTHING: 1. White Pass and Yukon Railroad Dock: Containerized cargo to Vancouver and Whitehorse is the principle use, also used for tankers and cruise ships. 900 ft. long, 100 ft. wide; depth at face varies from 20 to 43 ft. Southern end in poor condition. No covered storage. Open storage 80,000 sq. ft. One fork-lift is available. Containers presently loaded and unloaded with ship's gear. Two straddle cranes for containers on dock.

2. Skagway Terminal Co.: Ore loading facility. 1,000 ft. berth, fender dolphins, and walkway. 42·5 ft deep at face. Sole use for bulk cargo ships. Adjacent to the berth is a warehouse of 108,000 sq. ft. Also available are 50 acres for open storage. Loading equipment consists of one fixed loading spout with a capacity of 1,500 tons per hour.

TUGS: Three available from Haines.
STEVEDORES: Three gangs.
REPAIRS: None.
WATER: Available in small quantities in temperate seasons only.
FUEL: None.
MEDICAL: Medical clinic and one nurse.
TRANSPORTATION: Rail, ferry and air.

SMITHS BLUFF, Texas: 30.00 N. 93.59 W.

DOCUMENTS, PILOTAGE, HEALTH, RADIO, etc.: Refer to "Port Arthur".
TUGS: Meet vessel in Neches River before arriving at berth. Normally two tugs required berthing/unberthing.
BERTHING: Pure Oil Co.: distance from sea 38 m., depth at berth 37 ft. Sun Oil Co.: distance from sea 38 m., depth at berth 36 ft.
MEDICAL: All facilities available.
DENSITY: Fresh water.
FRESH WATER: Available ex wharf at Pure Oil terminal, otherwise by barge.
FUEL: Available ex wharf at Pure Oil terminal. All grades available by barge from Port Arthur or Beaumont.
GANGWAY/DECK WATCHMEN: Not required unless crewmen detained by Immigration.
CUSTOMS ALLOWANCES: 300 cigarettes and one quart wine or spirits for each man.
IDENTIFICATION CARDS: Foreign crew require only Immigration Landing Permit.
CONSULS: Nearest at Houston.
REPAIRS: DRY DOCKS: See "Port Arthur".
AUTHORITY: Port Director, Port of Beaumont, PO Drawer 3626 Beaumont.

STOCKTON, California: 37.57 N. 121.18 W.

DOCUMENTS: See San Francisco.
PILOTAGE: Pilots commissioned by Stockton Port District. Pilots obtained by contacting Secretary of California Inland Pilots' Association, located at Marine Exchange, World Trade Center, San Francisco, California (KBP 386).
ANCHORAGE: Emergency anchorage only permitted in Turning Basin, 32 ft. depth.
RESTRICTIONS: Restrictions only in effect if water at flood stage. See San Francisco.
MAX. SIZE: No restrictions to length or breadth; draft restrictions of 30 ft. at low tide, 32 ft. at high tide.
HEALTH: Clearance through San Francisco. No further clearance necessary for Stockton.
RADIO: Ship to shore Radio (KBP 376) enables constant contact with Pilots who therefore aware of any problem that may develop up or down river. Arrangements also may be made for readiness of ordered gangs within 15 minutes of ship's arrival.
TUGS: Tugs join vessel one-half mile up river from Main Channel; generally, ship lines used, however, tug lines may also be utilised.
BERTHING: Berthing facilities available for 15 vessels with depth 32 ft. alongside. Facilities consist of 8 general covered cargo berths and one open cargo berth with adjacent open area consisting of 106,000 sq. ft. One berth for loading bulk grain at Stockton Elevators. One berth for handling bulk fertilisers and phosphate rock at wharf No. 4. Also two berths for loading of bulk materials such as coal, coke, iron ore, and magnesite clinkers. Three berths for receipt of bulk molasses at three separate terminals. Other facilities include bulk wine delivery berth and storage tanks capable of storing 2½ million gallons of bulk wine. Pipe-line facilities available for receipt of bulk petroleum products from deep draft tankers to tank farm storage.
BRIDGES: Fixed-span high-level toll bridge across Carquinez Strait, with minimum clearance of 135 ft. above mean higher high water. Southern Pacific Railroad lift span bridge crosses Suisun Bay 6.5 miles upstream from Carquinez bridge, with minimum clearance above mean higher high water of 70 ft. when closed and 135 ft. when open. Horizontal clearance on lift span 290 ft. A third bridge, 22 miles above Southern Pacific bridge, near Antioch, has minimum clearance 70 ft. when closed and 135 ft. when open. Horizontal clearance of span 265 ft.
STEVEDORES: *General Cargo* – For gang start at 0800, orders must be placed at 1600 of previous day; night gangs must be ordered by 1100. These times pertain to week-day gangs. For week-end gangs, 1100 Saturday for Saturday night, Sunday morning, Sunday night and Monday morning. Day shifts run from 0800 to 1700. Night shifts 1700 to 0300. Arrangements can be made for a special third shift from 0300 to 0800. Rates quoted on request.

Bulk Ore and Grain Cargoes—Orders for gangs must be placed at same time as for general cargo. This operation on 24 hour basis; day shift, 0800 to 1600, night shift 1600 to midnight, swing shift, midnight to 0800. Also see "Radio".

MEDICAL: Arrangements with San Joaquin Medical Society for physicians, surgeons and dentists. Five hospitals within radius of 6 miles from port. Ambulance service readily available. Telephone number for this service is 466–9535 (day or night).
TANKERS: Two berths, 32 ft. depth available.
FRESH WATER: Available through pipelines.
FUEL: All grades of fuel available with one day's advance notice.
DEVELOPMENTS: Deepening of channel to 37 ft. authorised.
GANGWAY/DECK WATCHMEN: Services of watchmen not necessary. Available if requested.
OPENING/CLOSING HATCHES: Hatches may be opened prior arrival and closed after ship sailed from port; any opening or closing of hatches at dockside must be performed by stevedores.
CERTIFICATES: See San Francisco.
CUSTOMS ALLOWANCES: Tobacco, Wine and/or Spirit, see San Francisco.
CARGO GEAR: Safety regulations require strict adherence to maximum loading or unloading weight capacity of ship's gear.
IDENTIFICATION CARDS: Not required.
CONSULS: See San Francisco.
REPAIRS: Minor types of repairs carried out.
DRY DOCKS: Nearest dry docks, San Francisco.
REPATRIATION: No facilities in Stockton for effecting crew changes and arranging any necessary repatriations. Special arrangements may be made through Customs.
AIRPORT: Stockton Metropolitan Airport located approximately 6 miles from port. Serviced by United Air Lines and Air West.
TIME: Pacific Standard Time in effect from last Sunday in October to last Sunday in April; Pacific Daylight Time goes into effect on

last Sunday of April until last Sunday in October, when clocks are advanced one hour.

HOLIDAYS: Labor Day, Christmas Day, New Year's Day. No work can be arranged for above holidays. Lincoln's Birthday, Washington's Birthday, Memorial Day, Admission Day, Columbus Day, Veteran's Day, Thanksgiving Day are all holidays. In addition to above, General Election Day, both State and National, as well as any day proclaimed by Governor of California or President of United States shall be observed as holiday.

POLICE/AMBULANCE/FIRE: Security Force on duty 24 hours a day and can be reached by dialling extension 246 for any emergency that might arise. Stockton Police Department's emergency telephone number (209) 466–6843. Stockton Fire Department (209) 464–4646. Ambulances may be secured by telephoning (209) 466–6869; 464–4846; 463–3202; 466–1601; 464–4611; 464–1546.

TELEPHONES: Telephones placed aboard on request.

ELECTRIC CURRENT: At wharves where current available for ship's use, it is 110 volt, single phase, 60 cycle for lighting and 440 volt, 3 phase, 60 cyle for power.

SHORE LEAVE: Permitted.

REGULATIONS: Port of Stockton requests notice of ship's intent to come into port at least seven days prior to arrival; vessels, who have made prior arrangements will have precedence over vessels who sail into port without previous notice.

AUTHORITY: Stockton Port District, PO Box 2089, 2201 West Washington Street, Stockton, California, 95201. Tel. (209) 466–6011. Telex 510–765–6661.

TACOMA, Washington: 47.14 N. 122.28 W.

DOCUMENTS (on arrival from foreign):

Ship's document.
Clearance from Last Foreign Port.
2 Crew Lists on Form I.418
2 Passanger lists on Form I.418 (if applicable)
Passenger declarations if applicable.
2 Store Lists.
2 Crew Purchase (curio) Lists.
2 Manifests of cargo for discharge on C.F. 7527–A or 7527–B.

If first arrival port on an inward voyage, must also have 2 sets of Manifests of complete cargo on CF.7527-A or 7527-B, one for customs at this port and the other for use as a "Travelling Manifest" to go forward to other discharge ports.

A – For U.S. Public Health Quarantine Boarding Officer: "Quarantine Declaration" on Form PHS.43.

B – For U.S. Department of Agriculture Boarding Officer: "Shipmaster's Declaration and Warning Notice" on Form A1Q.43.

C – For U.S. Immigration Boarding Officer:
1. Crew List on Form I.418 visaed by U.S. Consul abroad.
2. Passenger List on Form I.418.
3. Attachment to Passanger List on Form I.92.
4. Form I.94 for each passenger.
5. Form I.95 of ID Card (Form 184) for each crewmen. (These are reusable for multiple entries, but for seamen on first trip to United States a new Form I.95 must be ready for presentation on arrival.)

D – For U.S. Customs Boarding Officer and Agent or Broker:
1. 3 copies Crew List (Form I.418).
2. 3 copies Cargo Manifest on Form 7527A or B.*0*
3. 3 copies Store List – no official form provided.*0*
4. 3 copies Crew Purchases or Curio List (no official form provided).*
5. 3 Passenger Lists on Form I.418.
6. For U.S. Ships – Declaration re foreign repairs on Form 3415.
7. For U.S. Ships – Certified Crew List for last U.S. port before going foreign.

* At subsequent U.S. ports of call two copies required of extracts Cargo Manifests of cargo for the port concerned, and two copies of lists of stores and curios remaining on board.

PILOTAGE: Is compulsory for all vessels except those under coasting trade on West coast of the United States, including Alaska and British Columbia. Pilots board off Port Angeles Pilot Station.

ANCHORAGE: The depths as a rule are too great for convenient anchorage, but vessels occasionally anchor under the Northern shore about 1 mile Eastward of Brown's Point. Vessels may anchor in about 60 ft. 450 yd. North-north-westward of the outer end of Puyallup Waterway West jetty.

City regulations permit anchorage in any part of the bay outside harbour lines so as not to interfere with vessels arriving or departing from their docks.

MAX. SIZE: Length over 1000 ft. (centre to centre dimensions of mooring dolphins), draft subject to berth depth.

HEALTH: Vessels subject to quarantine inspection usually proceed to their docks, where they are boarded by Quarantine Officer. Fumigation service is performed at the port; however advance notice of 24 hours should be given to Quarantine officer at Tacoma or the U.S. Public Health Service at Seattle.

TUGS: Available, join vessel in Commencement Bay, approximately half way between Brown's Point and the designated Dock. Tug's lines are used and there is a charge for tug's lines.

BERTHING: 21 Deep water berths.

General Cargo: 260,000 sq. ft. of warehouse space, 60 acres of open storage area serving all piers.

Water depths: 30 to 50 ft. below MLLW.

BULK HANDLING FACILITIES: 1,800-ft. pier with 40 to 50 ft. water depth. Five heavy lift whirley cranes and bulk unloading crane with 750 to 1,500 tons per hour capacity; 50,000 tons capacity alumina storage structure with load-out facility; 30-acre stockpile area including holding area for 300 rail cars.

Bulk grain elevator: 4,500,000 bushel capacity; loading rate: 600 tons per hour; 700 ft. dock; 45 ft. water depth.

BRIDGES: The Port Industrial Bridge and the 11th Street Bridge; all ships are required to notify for opening two hours in advance. The Puyallup River Bridge on 11th Street has been deactivated. The Hylebos Bridge. There are no restrictions on the Hylebos Bridge. Closed periods apply to the 11th Street Bridge and the hours are as follows: 6.45 a.m. to 7.45 a.m., 3.30 p.m. to 5.30 p.m.

STEVEDORES: Seattle Stevedoring Company, Rothschild International Stevedores, Crescent Wharf and Warehouse Co.

Gang requirements must be made known to contracting stevedore prior to 11.00 a.m. on day before the vessel plans to dock. (10.30 on Saturdays for gangs on Saturday p.m., Sunday and Monday.)

Stowage of cargo for discharge or load determines the gang size requirements. Sufficient information for intelligent gang orders is a necessity – i.e. advance cargo plans, unusual size and/or weight, etc.

TANKERS: Loading/discharge lines 8 in. and 10 in. 150 ASA flanged connections. Slop discharge facilities not available. Fresh water available. Coast Guard regulations strictly enforced.

DENSITY: The average density in the port is 16·8 at 15°C.

FRESH WATER: Available. Delivers to vessel through portable meter hose.

FUEL: Available.

Grade	*Viscosity at 122° SSF*
Bunker "C"	165–175
PS–400	112–116
Bunker Special	50–60
PS–300	32–35

Advance notice required

FIRE PRECAUTIONS: Very strict precautions in force.

GANGWAY/DECK WATCHMEN: Watchmen required if detainees are aboard.

OPENING/CLOSING HATCHES: Normally carried out by stevedores. In practice, however, the crew can perform this task while in transit.

CERTIFICATES:

Certificate of Registry.
Certificates for any previous U.S. tonnage tax payments within the past year.
International Load-line Certificate.
Safety Radio Certificate.
Deratization Certificate.
Cargo Gear Inspection Certificate.
Certificate of Inspection (U.S. vessels).

CUSTOMS ALLOWANCE: Tobacco: Wine/Spirit: No definite quantities prescribed; reasonable allowance at discretion of Customs Inspector.

IDENTIFICATION CARDS: Required.

REPAIRS: The largest repair yard in Tacoma can haul out vessels up to 1,000 tons for all kinds of repairs, including electronics, welding, painting and machining; shafts up to 30 ft. in length are machined here. Another plant does shipbuilding exclusively, but will perform topside repairs if needed. Wreckage and salvage facilities are available. Larger vessels go to Seattle for dry-docking. Minor repairs and services for small craft are available at marinas on the City Waterway and the North-eastern shore of Commencement Bay.

AIRPORT: Seattle – Tacoma Inter Airport is 16 miles North from port and Tacoma Industrial Airport 8 miles West.

TIME: Local time reference is GMT minus 8 hours. In Summer time it is GMT minus 7, or Pacific Daylight Saving Time, started the last week-end in April and finished the last week-end in October.

HOLIDAYS: New Year's Day (January 1st) no work; Lincoln's Birthday (February 12th); Washington's Birthday (February 22nd); Memorial Day (May 30th); Independence Day (July 4th) no work; Bloody Friday (July 5th) no work; Labour Day (September 1st) no work; Columbus Day (October 12th); Veterans' Day (November 11th); Thanksgiving Day (November 27th) no work; Christmas Day (December 25th) no work.

POLICE/AMBULANCE/FIRE: Emergency tel. numbers: Police MA 7–6141; Fire MA 7–0151; Ambulance MA 7–4118 or FU 3–1555.

TELEPHONES: Pay telephones available at Piers 1, 2, 4 and 7. There is no charge for this service.

SHORE LEAVE: Allowed.

AUTHORITY: Manager, Terminal Division, Port of Tacoma, Box 1837, Tacoma, Washington.

TAMPA, Florida: 27.57 N. 82.28 W.

DOCUMENTS:

Passports & Seamen's Books.
Vaccination Certificate for each Seaman.
Certified Crew List: must be on American form and certified by American consular office at foreign country from which departed.
U.S. Customs requires Inward Foreign Manifest (original and 3 copies). This must describe cargo which is to be discharged this port and/or any other port in vessel's itinerary. It must show:
Vessel's name and flag.
Master's name.
Last foreign port of departure.
Net registered tons of vessel.

When and where vessel built.
Consigned to Agent.
Bill of Lading Number.
Marks and numbers (on cargo).
Complete description of merchandise.
Weight in kilos or pounds.
Port of loading.
Port of discharge.
Stores Lists (original and 3 copies)
Crew Curio List (original and 3 copies)
Narcotic List (original and 3 copies)
*Dangerous Cargo List (original and 3 copies)
*This should be filled out even if nothing dangerous aboard.
Health officials will board vessel first. Bills of Lading not needed for Customs purposes.

PILOTAGE: Vessel applies for Pilot through radio station WPD and through Agent. Telegraphic address for Pilots is: Tam-pilot. Advance notice is not necessary. However, U.S. Coast Guard requires a 24-hour notice of the vessel's ETA. VHF Channel in Tampa is Channel 12.

Five pilot boats – each are different. All 40–45-ft. motor launches flying "H" flag and carrying prescribed red and white pilot lights. No light or sound signals necessary by vessels requiring Pilots.

Normally pilot boat located between sea buoy and No. 2 Buoy in main channel. During bad weather they are located off lighthouse at Egmont Key. Anchorage within 1 mile area of sea-buoy.

ANCHORAGES: Vessels with good ground tackle can anchor anywhere outside Egmont Bar in depths of 35 to 50 ft. Inside anchorages Southward of Mullet Key in depths of 30 to 35 ft.; and Southwestward of Gadsden Point in depths of 29 to 36 ft.

Explosives and quarantine anchorages East of Mullet Key and South of Interbay Peninsula.

(1) Explosives anchorage East of Mulled Key. A rectangular area in Tampa Bay, approximately 4,459 yd. long and 1,419 yd. wide, beginning at latitude 27° 38′ 30″, longitude 82° 39′ 09″, and extending North-easterly to latitude 27° 39′ 48″, longitude 82° 37′ 15″; thence South-easterly to latitude 27° 39′ 17″, longitude 82° 36′ 46″; thence South-westerly to latitude 27° 37′ 52″, longitude 82° 38′ 38″; thence North-westerly to point of beginning. Anchorage is used by vessels awaiting loading or unloading at Port Tampa where duration of anchorage will exceed 72 hours.

(2) Temporary explosives anchorage South of Interbay Peninsula. Beginning at a point bearing 107°, 1,750 yd. from Cut F Range Front Light; thence to a point bearing 125°, 2,050 yd., from Cut F Range Front Light; thence to a point bearing 180°, 1,725 yd., from Cut F Range Front Light; thence to a point bearing 222°, 2,180 yd., from Cut F Range Front Light; thence to a point bearing 251°, 1,540 yd., from Cut F Range Front Light; and thence to the point of beginning. Anchorage is used for vessels engaged in loading explosives when duration of the anchorage is less than 72 hours.

(3) Temporary explosives anchorage off Port Tampa. A circular area with a radius of 200 yd. with the point at latitude 27° 50′ 22″, longitude 82° 34′ 15″.

(4) Quarantine anchorage. South-east of the temporary explosives anchorage, beginning at a point bearing 97° true, 4,370 yd., from Cut F Range Front Light; thence to a point bearing 113° 30′, 5,370 yd., from Cut F Range Front Light; thence to a point bearing 161° 30′, 3,770 yd., from Cut F Range Front Light; thence to a point bearing 163° 30′ 2,070 yd., from Cut F Range Front Light; thence to the point of beginning.

RESTRICTIONS: Draft recommendation is 33 ft. 6 in. No tidal restrictions with exception of loaded vessels into Port Tampa.

MAX. SIZE: Maximum draft 34 ft. MLW. No limit on length and breadth.

HEALTH: (*a*) Any vessel from foreign port boarded on arrival and pratique issued if vessel and crew pass inspection. "Radio pratique service" whereby ship radios Agent and Agent contacts Quarantine Station; i.e. if coming from another U.S. port no boarding is necessary unless they have animals, etc., aboard for inspection.

(*b*) Vessel to notify Quarantine Station by radio if any communicable disease is suspected to be on board. This is to be done prior to arrival in port so that medical officer can check ship and take necessary control measures such as isolation for persons involved or hospitalization.

RADIO: Radio station "WPD" should be used by vessel to route ETA cables to Agents, receivers, etc.

TUGS: Positions are:
Main port area – right past Beacon No. 35
Port Sutton & East Bay – Beacon No. 29
Port Tampa – Cut "K"
East Tampa – Beacon No. 16
Tug's lines only.

BERTHING: Vessels generally berth on arrival and sail any time day or night. Overtime must be paid to boarding officials when applicable.

Phosphate berths:
Port Sutton: Max. length 700 ft. draft 33 ft. 6 ins., Waterline to hatchcoaming 38 ft.
Rockport Berth: Max. length 600 ft. draft 33 ft. 6 ins., Waterline to hatchcoaming 36 ft.
Eastern Associated Terminal: draft 33 ft. 6 ins.

STEVEDORES: Stevedoring gangs must be ordered approximately 24 hours in advance (before 1700 on day before needed).

MEDICAL: Advance notice for medical attention not required, but is preferable. All U.S. ports require valid certificate of vaccination (renewable every three years) for smallpox.

TANKERS:

Warren Petroleum Co.	(1) 4″	325 ft.	14–12 ft.

Note that part of above terminals use same piers. Most terminals have residue discharge facilities.

DENSITY: Density is affected by local rains due to Hillsborough River. At slack water: Port Sutton 1,024; Garrison Channel 1,014; Seddon Island 1,009; Port Tampa 1,014.

FRESH WATER: Available all over port and delivered through hoses and meters. Rates of delivery various.

FUEL: All grades and types available, including all types of blended fuel and Bunker "C". 24 hour notice required. All types of lube-oil available with delivery in bulk or drums – 24 hour notice is required. Major oil companies (i.e. Shell, American Oil, Texaco, Gulf, Standard, etc.) represented in Tampa. Delivery ex pipeline, barge or truck.

PRECAUTIONS: No specific precautions other than usual.

DEVELOPMENTS: U.S. Army Corps of Engineers conducted feasibility study to deepen Tampa's channels to 44 ft. Building of new general cargo berths in area East of present facilities is under proposal.

GANGWAY/DECK WATCHMEN: Watchmen not necessary, but available when required.

OPENING/CLOSING HATCHES: Longshoremen open and close hatches.

SHIP CERTIFICATES:
Documentation Papers.
Load-line Certificate.
Certificate of Safety at Sea (when carrying passengers).
Certificate of Safety Equipment.

CUSTOMS ALLOWANCES: Tobacco, two packs of cigarettes per day per man. Wine and/or Spirit, no set amount. Each boarding officer has different views (i.e. German and Scandinavian vessels allowed two bottles of beer per day per man). Allowances made within reasonable bounds at Master's discretion subject to boarding officer's approval.

CARGO GEAR: No local special safety requirements. Longshoremen and U.S. Department of Labor requirements are uniform over the U.S.

IDENTIFICATION CARDS: Passports required.

CONSULS: The following countries are represented in Tampa:

Belgium	France	Netherlands
Colombia	Germany	Nicaragua
Costa Rica	Guatemala	Norway
Ecuador	Honduras	Peru
El Salvador	Italy	Sweden
Finland		

REPAIRS: All types are possible.

DRY DOCKS: Graving dock: 525 ft. long on bottom × 80 ft. wide, and depth over keel blocks 16–18 ft. at MHW; Dry dock: 200 ft. long × 65 ft. wide. There are two other dry docks besides those listed above.

REPATRIATION: No foreign crew pools in Tampa (located in New Orleans, San Francisco and New York). But crew changes can be made when Master radios requirements to Agent who arranges with local consul or through crew pool in nearest city named above for applicable country (if no consul is available in Tampa). American crew pools for all unions in Tampa.

Repatriation available at Tampa International Airport and is handled by consul or Master.

AIRPORT: Tampa International Airport served by regular airlines and located approximately 5 miles from main port area; 5 miles from Port Tampa and 16 miles from East Tampa.

TIME: Tampa normally on Eastern Standard Time with Daylight Saving Time in effect from April 30 through October 15.

HOLIDAYS: New Year's Day (January 1); Jan. 15th; Gasparilla

Day (2nd Monday in February, local holiday); Lincoln's Birthday (February 12); Memorial Day; Independence Day (July 4); Labor Day (1st Monday in September); Columbus Day; Veterans Day; Thanksgiving Day (last Thursday in November); Christmas (December 25).

When any of these holidays fall on a Sunday, they will be observed on Monday following. Work on these holidays by special arrangement only.

POLICE/AMBULANCE/FIRE: Police 223–8181; Ambulance 223–1551; Fire 223–4211.

TELEPHONES: Installation of Telephone aboard can be arranged.

SERVICES: Compass adjustments available; radio direction finder; radar repairs; tank cleaning.

SHORE LEAVE: Immigration authorities grant clearance after examination of passport or bona fide seaman's papers.

DELAYS: Delay can be expected in loading phosphate rock (one to two days), and same delay applicable for berthing at elevators. No delays in general cargo loading or berthing and bunkering.

AUTHORITY: Tampa Port Authority, PO Box 2192, Tampa, Florida 33601. Tel. (813) 248–1924.

TEXAS CITY, Texas: 29.22 N. 94.53 W.

DOCUMENTS, PILOTAGE, HEALTH, ETC., refer to "GALVESTON".

RESTRICTIONS: Controlling depth in entrance channel 40 ft. Otherwise restricted by depth available at berth. Vessels enter day and night.

TUGS: Available if required.

BERTHING:

American Oil Tanker Docks	depth	36 ft.
Monsanto Tanker Dock	,,	32 ft.
Texas City Oil Docks	,,	36 ft.
Union Carbide Terminal	,,	33 ft.

MEDICAL: All medical assistance available.

DENSITY: Brackish.

FRESH WATER: Available at all wharves except Union Carbide Terminal.

FUEL: Bunker C available to tankers loading/discharging. All grades available by barge from Houston.

GANGWAY/DECK WATCHMEN: Required only if crewmen detained by Immigration.

CUSTOMS ALLOWANCES: Each man 300 cigarettes or 100 cigars or 1 lb. tobacco. 1 qt. wine/spirits.

CONSULS: See "Houston".

TIME: Central Standard Time. Daylight saving time effective from April to October.

SHORE LEAVE: No restrictions unless detained by Immigration.

AUTHORITY: Texas City Terminal Railway Co.

TOLEDO, Ohio: 41.42 N. 83.28 W.

Refer to "St. Lawrence Seaway" for important general information.

PILOTAGE: By Seaway Pilots.

RESTRICTIONS: Navigation season from mid-March to end-December, approx. The port is connected to Lake Erie by an entrance channel, depth 27 ft. Vessels size restricted by Seaway locks.

MAX. SIZE: 730 ft. length; 26 ft. draft. Height restriction of 104 ft. above water-line which applies to grain berths only.

HEALTH: All ocean-going vessels must obtain a free pratique before entering the Seaway. Vessels may obtain quarantine inspection and clearance from the Canadian Authorities at Montreal while awaiting entrance to the Seaway.

RADIO: Master must give at least 24 hours notice to Commander 9th Coast Guard District, Cleveland, Ohio, of the vessel's ETA at Snell Lock. Also, at least 24 hours notice of ETA at first U.S. discharge port is required. Toledo Port can be contacted through Lorain, Ohio, or Port Colborne, Ontario.

TUGS: Available. Not compulsory, but sometimes necessary in bad weather.

BERTHING:

C & O Railway Dock: 2,000 ft. long, 26 ft. depth alongside.
Lake Front Dock: 1,200 ft. long, 26 ft. depth alongside.
Interlake Steel Corporation: 23 ft. depth alongside.
Mid States Terminals: 27 ft. depth alongside.
East Side Iron Elevator: 27 ft. depth alongside.
Port Authority Facility: 4,000 ft. long, 27 ft. depth alongside.
Anderson Elevator: 27 ft. depth alongside.

CARGO HANDLING FACILITIES: Three grain elevators at Toledo load vessels at 50,000 bushels per hour. There are six coal-loading machines, each of which can dump one 100-ton car per minute, also one machine which dumps two cars simultaneously, for a maximum of 6,000 tons per hour. There are seven Hulett ore machines; unload lake vessels at a rate of 4,000 tons per hour. Bulk liquids handled include petroleum products, industrial molasses, palm kernel oil, liquid sugar, trichlorethylene and perchlorethylene.

TANKERS:

Hocking Valley Pier: 22 ft. depth alongside.
Ashland Oil Company: 22 ft. depth alongside.
Standard Oil Company: 23 ft. depth alongside.
Gulf Refining Co.: 21 ft. depth alongside.

DENSITY: Fresh water.

MEDICAL: All facilities available.

FRESH WATER: Obtainable by pipe-line at all general cargo docks.

FUEL: All grades available at oil piers, and by harbour fuel barge.

REPAIRS: Major repair facilities available.

DRY DOCKS: No. 1: 510 ft.×72 ft. 6 in.; No. 2: 641 ft.×78 ft.

AUTHORITY: Toledo – Lucas County Port Authority, 241 Superior Street, Toledo.

AGENT: Nordship Agencies Inc., Board of Trade Bldg., Toledo. Tel: 419–241–2231. Telex: 28–64–78. Cables: Nordship Toledo. After Hours Tel: Mr. C. L. Adkins 419–242–2774. Mr. T. L. Dugan 313–847–6909.

VALDEZ, Alaska: 61.07 N. 146.21 W.

Located at head of Valdez Arm in Prince William Sound.

APPROACHES: Via Prince William Sound to the Valdez pilot station.

DOCUMENTS: See "Anchorage, Alaska".

PILOTAGE: Pilots board approx. 2 miles North of Busby Light.

MAX. SIZE: Harbour depth over 300 ft. Tides: diurnal range 12 ft. Also see "Berthing".

ANCHORAGE: Excellent, close by dock. Bay is too deep.

CUSTOMS: Quarantine, local. Immigration and Customs from Anchorage.

BERTHING: 1. Valdez City Dock: 36 ft. MLLW. 600 ft. long by 40 ft. wide. Two warehouses, one heated, one unheated. Stevedore provides equipment which includes fork-lifts and two 100-ton mobile cranes and one 150-ton mobile crane. Dock operated by North Star Stevedoring Co.

TUGS: Limited availability.

STEVEDORES: Three gangs.

REPAIRS: Minor repairs only.

WATER: Available in temperate seasons.

FUEL: Not available.

MEDICAL: 150-bed mental patient hospital; 15 beds for local use; 1 doctor, 1 dentist regularly from Anchorage.

TRANSPORTATION: Air; highway to Fairbanks and Anchorage.

DEVELOPMENTS: Valdez is the projected terminus of the Trans-Alaska Pipe-line and construction of tanks and oil dock facilities is anticipated across Valdez Arm from City Dock.

VANCOUVER, Washington: 45.36 N. 122.40 W.

DOCUMENTS: Three copies of following:

Cargo Manifest.
Store List.
Crew Cargo List.
Crew List.

One copy of following:

Clearance from Last Port.
Tonnage Tax Certificate.
Copy of Vessel Register and itinerary of vessel port by port.

PILOTAGE: When entering from sea (without service of a bar pilot) vessel or Agent must give notice between hours of 0800 and 1700 and at least 12 hours prior to ETA Astoria. Calls may be placed with Astoria office (325–4532) or at Portland office (228–9325) or by radio to "Colrip Astoriaore". River Pilots board at Astoria in channel in vicinity of Astoria Crossing Lighted Buoy No. 37. Signal for river Pilot is one long and three short whistles. When ordering bar Pilots, request radio via KLB, Seattle, Wash., about 12 hours before arrival. Address "Bar Pilots, Astoria, Ore.", giving date and time of arrival at lightship. When "Peacock" is on station Pilot boards from small power boat; when "Columbia" is on station, Pilot boards directly from "Columbia". When pilot is boarding from small boat keep engines at about 4 knots speed. Do not change course or speed until signalled by Pilot vessel. Vessels having radio telephone contact pilot vessel for instructions on following frequencies: radio phone watch on Channel 16 VHF (156·8 mgc/s) also 2182 and 2738 kc/s. Pilot boat "Peacock" call WS 7217; pilot boat "Columbia" WJ 8200; Astoria bar Pilots' office (Channel 16) KOK 360.

ANCHORAGES: Only designated anchorages on U.S. Coast and Geodetic Charts are at Tongue Point (Astoria), Oreg. Two in number and designated on Chart 6151 Columbia River, Pacific Ocean to Harrington Point, as 1 Lower Tongue Point and 2 Upper Tongue Point. Additional locations on Columbia and Willamette Rivers where safe anchorages can be made upon advice of Columbia River pilots. Anchorage in Vancouver harbour by permission of Harbour Master.

RESTRICTIONS: No restrictions on night entry. State of tide and draft restrictions not applicable to vessels drawing less than 40 ft.

MAX. SIZE: No restrictions length and breadth. Depth at Columbia River entry 48 ft. River channel to Vancouver maintained at 45 ft. by 600 ft. Seasonal tidal effect up to 3 ft. at Vancouver.

HEALTH: Radio pratique procedure extended to all vessels requiring quarantine clearance. Vessels requiring clearance must complete Maritime Quarantine Declaration HSM 13.19 available from U.S. Consular Offices abroad, from steamship agents, custom house brokers, and U.S. Quarantine stations.

RADIO: Route ETA cables through KLBITT Seattle, Wash.

TUGS: Normally join vessel at designated berth. Tug lines used at no charge.

BERTHING: No special requirements for berthing and no special arrival times required except under particular circumstances.

STEVEDORES: Allocation for gangs Monday through Saturday must be confirmed at 1100 to the longshore hiring hall. Allocation for gangs Sunday and Monday are made at 1100 Saturday for both day and night gangs. Same procedure applies to allocation of night gangs, but night gangs may be cancelled by 1400 afternoon of night gangs are to work.

MEDICAL: Any type of medical treatment can be provided and hospital facilities available. Only inoculation requirement for entry to U.S. is smallpox, except when vessels have called at an area infected by another disease.
DENSITY: Fresh water at all times.
FRESH WATER: Available at all berths delivered through pier-side connections.
FUEL: Viscosity grades of B and lower. No advance notice required. Barging essential.
FIRE PRECAUTIONS: Port fire precautions respecting tankers are administered by U.S. Coast Guard, which enforces shipboard regulations under Code of Federal Regulations, Part 46, Sub-part D, Sections 20 to 40; Police Harbour Patrol, which controls port movements, boards vessels to warn Master regarding harbour regulations, including spilling of oil, etc.; and Fire Marshal, who exercises jurisdiction regarding fire regulations at shoreside facilities serving tankers.
DEVELOPMENTS: Will continue building new cargo warehouses, additions to dock facilities, three 50-ton gantry cranes available, berths for four cargo vessels, container yard and lumber yard.
GANGWAY/DECK WATCHMEN: Services at option of vessel Owner/Agent and available through private firms.
OPENING/CLOSING HATCHES: While ship is at dock, opening and closing hatches is work of longshoremen. Ship may open or close own hatches while under way.
CERTIFICATES: Registered tonnage certificate.
CUSTOMS ALLOWANCES: Tobacco, reasonable quantity. Wine and/or Spirit, reasonable quantity.
CARGO GEAR: Valid cargo gear certificate required, acceptable to U.S. Bureau of Labor Standards.
IDENTIFICATION CARDS: Immigration Dept. requires forms No. 595 and No. 31 (Repatriation). Changes can be effected at any U.S. Consulate and are honoured here.
CONSULS:

Austria	Italy
Belgium	Japan
Costa Rica	Lebanon
Denmark	Mexico
Dominican Republic	The Netherlands
El Salvador	Norway
Finland	Republic of Panama
France	Peru
Federal Republic of Germany	Sweden
Great Britain	Venezuela
Iceland	

REPAIRS: All types of deck and engine repairs possible.
DRY DOCKS: See Portland, Oregon.
REPATRIATION: Any arrangements possible for crew changes or other repatriation.
AIRPORT: Airport 10 miles from town, served by seven regularly scheduled airlines with direct service and/or connections domestically and world-wide.
TIME: GMT minus 8 hours. Daylight saving time becomes effective annually on last Sunday in April through last Saturday in October.
HOLIDAYS: Following holidays are recognised: *New Year's Day; Lincoln's Birthday (Feb. 12); Washington's Birthday (Feb. 22); Memorial Day (May 30); *Independence Day (July 4); *Labor Day (First Monday in September); Columbus Day (Oct. 12); Veteran's Day (Nov. 11); Thanksgiving Day; *Christmas Day (Dec. 25); Statewide Election Days. Other legal holidays may be proclaimed by State or national authority. When holiday falls on Sunday, following Monday observed as holiday. Longshore work performed on any of above-listed days is at overtime, which is one-and-a-half time rate. Days marked (*) are stop-work days, viz., no ships will be worked. This also applies to July 5, which observed locally on unilateral basis.
POLICE/AMBULANCE/FIRE: Police 693–2555; Fire 693–1441; Ambulance provided by several private firms, but can be obtained through police or fire number.
TELEPHONES: Available by order from terminal superintendents at $5.00 connection charge.
SERVICES: All services available such as compass adjusting, major or minor repairs either with work barges or at ship repair berths; lay berths available; charts available from private companies; all chandlery supplies available.
SHORE LEAVE: Crew members permitted ashore except where vessel has made first arrival from Communist-controlled port.
AUTHORITY: Port of Vancouver, Washington, Foot of West 16th Street and Lower River Road, Vancouver, Washington 98660. Tel. Vancouver 693–3611, Portland 289–8324. Telex 910–474–8673.

WILMINGTON, Delaware: 39.44 N. 75.32 W.

DOCUMENTS/PILOTAGE: See "Philadelphia."
ANCHORAGE: At Cherry Island.
MAX. SIZE: Length unlimited, breadth unlimited, draft 40 ft. MLW, tide rise and fall 5½ ft.
HEALTH: U.S. Public Health Service requirements.
RADIO: Station W.S.C., Tuckerton, N.J.
TUGS: Normally, tugs are not required. A docking Pilot is available. If tugs are required, they must be ordered from Philadelphia, Pa.
BERTHING: 3,000 ft. marginal berth, 25 to 140 ton crane capacity. 600 tons per hour bulk unloader. Covered bulk storage of 725 cubic feet. Dockside freezer capability for liquid import and export.
DENSITY: Fresh water port. Normal 12 hour tide.
FRESH WATER: Hose connection from dock.
FUEL: Available.
GANGWAY/DECK WATCHMEN: Required.
OPENING/CLOSING HATCHES: Optional.
IDENTIFICATION CARDS: See New York.
CONSULS: All Consuls are located in Philadelphia, Pa.
REPAIRS: Engine and other repairs at Wilson Ship Yard, Wilmington, Del.
DRY DOCKS: Major repairs and dry dock facilities – Sun Ship Yard, Chester, Pa.
REPATRIATION: Facilities are available and arranged by Agent.
AIRPORT: Philadelphia International Airport, regular service.
TIME: U.S. Eastern Standard and Daylight Time.
POLICE/AMBULANCE/FIRE: Police, tel. 302; Ambulance, tel. 654; Fire, tel. 5151.
TELEPHONES: Dock-side pay phones.
SERVICES: All services available.
SHORE LEAVE: Allowed unless restricted by Immigration.
AUTHORITY: Port of Wilmington, Board of Harbour Commissioners, PO Box 1191, Wilmington, Delaware. Tel. 302–656–8566. TWX: 510–666 2181.

WILMINGTON, N. Carolina: 34.14 N. 77.57 W.

PORT LIMITS: A ship is considered an "arrived vessel" upon arrival at Buoy 2CF.
DOCUMENTS:
3 copies Cargo Manifest (Forms 7527-A or 7527-B), the original showing all cargo on board, and 2 copies showing only cargo for this port.
3 copies Crew Manifest (curio list).
3 copies Stores List.
3 copies Passenger List (Form I.418).
3 copies Crew List (Form I.418).
Customs boarding Officer will also examine ship's Register and Load-line Certificate. In addition, the following documents will be required for formal entry to be made within 48 hours of arrival from abroad, or 24 hours from arrival from a United States port:
Health Pratique.
Master's oath (Customs Form 3255).
All foreign clearances.
U.S. Certificates of payment of tonnage tax (Customs Form 1002).
Certified Crew List.
Oil Pollution Cert.
PILOTAGE: Pilots board vessels at Buoy 2CF off the mouth of the Cape Fear River. Masters should notify local Agents by radio of their ETA's at Buoy 2CF in order that the Pilots may be on station in advance of arrival. Additionally, Masters may communicate with Pilots by radio telephone on 2738 frequency and by VHF Channel 18A. Pilots remain on board until harbour limits of Wilmington, where docking masters normally board vessels for purposes of docking.
APPROACHES: The port terminal at Wilmington is located on the East bank of Cape Fear River, approximately 26 miles from the sea buoy at the mouth of the river. Wilmington is 150 miles South-West of Cape Hattaras and 26 miles North of Cape Fear.
RESTRICTIONS: The approach channel and basins adjacent to the port are maintained at a depth of 38 ft. MLW.
ANCHORAGE: Vessels awaiting Pilots normally anchor in area off Buoy 2CF. There is no safe anchorage in the port of Wilmington for large vessels to be accommodated. Small vessels can be accommodated for brief periods in anchorage basin, although it is necessary to swing with the tide in order to avoid blocking channel.
MAX. SIZE: No limit on length, breadth, and draft limit is present channel project depth of 38 ft. Master should communicate with local Agent regarding stage of tide for passage of vessels drawing 36 ft. or above.
HEALTH: Radio pratique may be granted basis information received prior to arrival of vessel, provided no communicable diseases on board. Normally, vessels are boarded by Medical Officers on arrival unless free pratique previously given at U.S. port in the same voyage. If granted free pratique, vessel may enter port and discharge passengers and cargo. If given provisional pratique, vessel may enter port, but must take any additional measures specified in connection with discharging passengers and cargo, until free pratique is given.
TUGS: Two towing companies operate at Wilmington.
BERTHING: A continuous marginal wharf, 6,000 ft. long. Docking at any hour, day or night.
SPECIALISED CARGO HANDLING FACILITIES: State Port Terminal: fully equipped to serve cellular type container ships, for bulk handling; equipped with 6 yard rehandler buckets, receiving hoppers, and paved open storage areas, two 45-ton and one 115-ton cranes; one berth with tank farm for handling liquid chemicals;
Almont Shipping Company: three berths, open and covered bulk storage, two 25-ton cranes and one 85-ton derrick. No facilities for LPG carriers.
TANKERS: Ten tanker berths with drafts from 30 to 40 ft. MLW. Night berthing at all berths. Fresh water available.
FRESH WATER: Available from shore connections at rates up to 50 tons per hour.
FUEL: Bunker "C" and diesel fuels available locally.
FIRE PRECAUTIONS: Normal precautions observed.
DEVELOPMENTS: One 225-ton gantry crane, nine additional acres paved open storage and dockside sewage facilities to receive waste from ships to be available 1973.
REPAIRS: Minor ship repairs available.
DRY DOCKS: One 1,000-ton lift floating dry dock.
AIRPORT: New Hanover Country Airport, 7 miles from N.C. State Port Terminal. Served by Piedmont Airlines.

IDENTIFICATION CARDS: Standard U.S. Immigration Forms I.95 to be made up for each crew member on arrival. Not necessary for crew man already holding Form I.95, issued for the same vessel.
TIME: Eastern Standard Time, GMT minus 5 hours. Daylight Saving Time, GMT minus 4 hours from April to October.
AUTHORITY: North Carolina State Port Authority.

AGENT: Wilmington Shipping Company, North Carolina State Terminals, POB 1809, Wilmington, North Carolina. Tel. 763–7333, Cables "Wilshipco."

WRANGELL, Alaska: 56.28 N. 132.22 W.

Located on Wrangell Island. Open all year.

DOCUMENTS: See "Anchorage, Alaska".
PILOTAGE: (From sea via Dixon Entrance up Clarence Strait to Guard Island.) Under pilotage from Guard Island.
MAX. SIZE: Harbour depth 32 ft. MLLW. Tides: mean range 13·7 ft., diurnal range 16·1 ft. Also see "Berthing".
ANCHORAGE: Good anchorage North-east of Woronofski Island in 22 fathoms of water.
CUSTOMS: Immigration, Guard Island or local Customs office. Quarantine and Customs, local.
BERTHING: Three wharves. 1. Wrangell Wharf Co. Berthing length 220 ft., East end depth 24 ft., West end depth 38 ft. Two lift-trucks; 4,800 sq. ft. covered shed space.

2. Wrangell Lumber Co. Dock; Berthing length 320 ft., 150 ft. wide, depth South end 32 ft. North end 40 ft. LW. Height of pier from 0 tide 23½ ft. Crane – 1 mobile, 8 ton, 6 lift-trucks. No shed space. Three acres open storage.

3. Alaska Wood Products: Berthing length 300 ft., 50 ft. wide. Depth at LW 32 ft. Height of pier from 0 tide 23 ft. No shed space.

TUGS: Three available, 500 h.p. each.
DEVELOPMENTS: Possible mineral potential for future development from Iskut River and Stikine River lodes.
STEVEDORES: Four gangs available.
REPAIRS: None.
WATER: Available.
FUEL: None.
MEDICAL: Small but new hospital.
TRANSPORTATION: Air and ferry.

Uruguay

FRAY BENTOS: 33.06 S. 58.18 W.

Situated on East bank of Uruguay River, 213 miles above Montevideo.
DOCUMENTS: See "Montevideo".
PILOTAGE: River Pilot boards in Montevideo roads. Radio request for Pilot to Agents in Montevideo stating accurate ETA well before arrival. At Fray Bentos, vessels are berthed by the Uruguayan River Pilot. If vessel arrives with Argentine Pilot on board from an Argentine port, then Port Pilot will board for berthing.
RESTRICTIONS: Vessels loading should pay particular attention to the daily river and draft forecast issued by local authorities. Draft depends on depth at Martin Garcia Bar.
ANCHORAGE: See "Montevideo".
MAX. SIZE: For berthing maximum draft 26 ft. fresh water, depending on river conditions.
HEALTH: Radio Agents in Montevideo requesting free pratique and stating health condition on board. If satisfactory, free pratique will be brought on board by River Pilot at Montevideo.
TUGS: Not required.
BERTHING: Official Pier: 325 metres long, depth in deepest berths 26 ft. Grain and general cargo handling. Railway Pier: One berth, depth 26 ft., used principally for discharging coal. Anglo Pier: Depth alongside 26 ft., used for loading frozen meat and products.
STEVEDORES: Working hours: 0700–1100 and 1300–1700. Saturdays: 0700–1100.
MEDICAL: Doctors and hospital facilities available.
FRESH WATER: Obtainable from berth at Official and Anglo Piers.
FUEL: Not available.
REPAIRS: Only minor repairs can be effected.
CONSULS: Argentina is represented locally. All others at Montevideo.
GENERAL: Refer to "Montevideo" for all general information.

MONTEVIDEO: 34.55 S. 56.13 W.

DOCUMENTS:
Maritime Declaration of Health.
Manifest of Cargo, with 2 sets Bills of Lading.
Consular Invoice for each loading port.
Ballast Certificate (if no cargo for Uruguay).
6 Crew Lists.
6 Passenger Lists or No Passengers Declaration.
Stores List, including Crew Personal Effects.
Passengers' Luggage Forms for each passenger.
Cargo Manifest, Crew List and Passenger list must be legalised by Uruguayan Consul at loading port or any intermediate port where there is a Consul. If no Consul at loading port, the Consular Invoice is legalised at Montevideo on payment of appropriate dues.

PILOTAGE: Compulsory. Pilot boards in anchorage of Montevideo roads. It is important that an accurate ETA is given to Agents well in advance as Pilots can be ordered at certain times only, and vessel may be charged for Pilot's waiting time.

Pilot can be contacted by VHF Channels 16 and 12. Pilot boards from white- or red-coloured launch.
ANCHORAGE: In Montevideo outer or inner roads. Vessels must not anchor within half a mile of the entrance channel to the Ante port, not in the area bounded by latitudes 35° S. and 35° 15′ S. and longitudes 55° 66′ 30″ W. and 56° W. where there are submarine cables. Outer roads and inner roads are separated by the Western breakwater. Both anchorages are exposed in bad weather.
RESTRICTIONS: Entrance channel is dredged to 33 ft. for a distance of 5 miles out of the port. Channel to Ancap Basin dredged to 30 ft.
HEALTH: Vessels receive free pratique in turn as they enter port either in the anteport or when berthed alongside. Masters should have Maritime Declaration of Health ready for presentation, otherwise vessel may be obliged to wait until other vessels cleared before receiving pratique. Radio International Quarantine messages should be sent before arrival to facilitate receiving pratique on arrival.
MAX. SIZE: Up to 30 ft. fresh-water draft.
RADIO: Montevideo, stations CX6, 650 Khz and CXA4, 612.50 Khz. Transmit meteorological information at 1300 daily.
TUGS: Compulsory for vessels berthing in the harbour basins. Two tugs normally used, join vessel in the anteport.
BERTHING: Anteport: 7 anchorage berths in 27 ft. depth. Muelle de Escala: 288 metres long, 28 ft. depth. Basin No. 1: 7 berths, 28 to 33 ft. depth alongside. Basin No. 2: 4 berths, 28 to 33 ft. depth alongside. La Teja: Ancap basin with berths for two tankers 30 ft. depth in basin and entrance channel.
STEVEDORES: Working Hours: 1st shift, 0700 to 1300 hours; 2nd shift, 1300 to 1900 hours; 3rd shift, 1900 to 0100 hours; 4th shift, 0100 to 0700 hours.

Normal capacity per gang per hour: (*a*) Rice – about 80/90 tons per gang/hour. (*b*) Meat – about 60/100 tons per gang/hour.

Overtime is compulsory if port congested.
FRESH WATER: Supplied by pipe-line at all berths. Water barges available for vessels at anchor.
FUEL: All grades available by barges during loading/discharging. Vessels calling for bunkers only are refulled in the anteport.
TANKERS: Apart from La Teja Basin, mentioned above, tankers discharge in Basin No. 2 at Muelle Florida. Distance to oil tanks is considerable and discharge rate is about 80/100 tons per hour. Heavy grades of cargo require high heating to facilitate discharge.
GANGWAY/DECK WATCHMEN: Shore watchmen compulsory. Arranged by Agents. One required on deck and one for each gangway. Vessels carrying dangerous cargo must also employ a guard of the Prefectura.
REPAIRS: All repairs possible.
DRY DOCKS: Two dry docks available: Nacional, length 463 ft., width 61 ft. Maua, length 260 ft., width 28 ft. Also a floating dock, lifting capacity 12,000 tons, 545 ft. long and 93 ft. wide.
CONSULS: All maritime countries are represented at Montevideo.
HOLIDAYS: 1st and 6th January, Carnival Monday, Shrove Tuesday, Easter (six days), 19th April, 1st and 18th May, 19th June, 18th July, 25th August, 12th October, 2nd November, 8th and 25th December.
AIRPORT: International airport with world-wide connections.
TIME: April to October: GMT minus 4 hours; October to April: GMT minus 3 hours.
SHORE LEAVE: Allowed.
TELEPHONES: Can be connected on board vessels berthed at the quays.
AUTHORITY: Administracion Nacional de Puertos.

NUEVA PALMIRA: 33.53 S. 58.25 W.

Situated on East bank of Uruguay River, 155 miles above Montevideo.
DOCUMENTS: See "Montevideo".
PILOTAGE: River Pilot boards in Montevideo roads. Radio request for Pilot to Agents in Montevideo stating accurate ETA well before arrival. At Nueva Palmira, vessels are berthed by the Uruguayan River Pilot. If vessel arrives from Argentina with an Argentine Pilot, then Port Pilot will board for berthing.
RESTRICTIONS: Vessels loading should pay particular attention to the daily river draft forecast, issued by local authorities. Draft controlled by depth of Martin Garcia Bar.
ANCHORAGE: Off Montevideo.
MAX. SIZE: Up to 25 ft. draft fresh water depending on river conditions.
HEALTH: Radio Agents in Montevideo requesting free pratique and stating health condition on board. If satisfactory, free pratique will be brought on board by River Pilot at Montevideo.
TUGS: Not required. Mooring launches available.
BERTHING: Manganese Pier: Depth alongside 25 ft. Loading rate: 600 tons per hour. Pier Head Berth: Depth alongside 21 ft. Grain loading.
STEVEDORES: Working hours: 0700–1100 and 1300–1700 hours. Saturdays: 0700–1100.
MEDICAL: Doctor and hospital facilities available.
FRESH WATER: Obtainable from berths.
FUEL: Not available.
REPAIRS: Only minor repairs can be effected.
GENERAL: Refer to "Montevideo" for all general information.

PAYSANDU: 32.18 S. 58.02 W.

Situated on the East bank of Uruguay River, 300 kms. above Montevideo.
DOCUMENTS: See "Montevideo".
PILOTAGE: River Pilot boards in Montevideo roads. Radio request for Pilot to Agents in Montevideo, stating accurate ETA well before arrival.
RESTRICTIONS: River navigation controlled by depth on Martin Garcia Bar, and in the passes at Almiron, Vera and Urquiza. Since river conditions vary from season to season, Agents should be consulted beforehand regarding available draft at any particular time.
ANCHORAGE: Off Montevideo.
MAX. SIZE: Up to 20 ft. draft fresh water, depending on river conditions.
HEALTH: Radio Agents in Montevideo requesting free pratique and stating health condition on board. If satisfactory, free pratique will be brought on board by River Pilot at Montevideo.
TUGS: Available.
BERTHING: Grain Elevator Berth: 30 ft. depth alongside. General Cargo Berth: 30 ft. depth alongside, 100 metres long. Ancap Pier: One berth for tankers, 22 ft. depth.
STEVEDORES: Working hours: 0700–1100 and 1300–1700 hours. Saturdays: 0700–1100 hours.
MEDICAL: All assistance available.
FRESH WATER: Available at all berths.
FUEL: Not available.
REPAIRS: Minor repairs can be effected.
CONSULS: Local representation for Argentina, Brazil, Italy and Paraguay. All other Consuls at Montevideo.
GENERAL: Refer to "Montevideo" for all general information.

Venezuela

AMUAY BAY: 11.46 N. 70.15 W.

OPERATORS: Creole Petroleum Corporation. Cable address, Creole Judibana.
ESSENTIAL REQUIREMENTS:
1. Incoming vessels must send ETA at least three days before arrival at Amuay Bay.
2. If a ship originally cleared for another port (including some other Venezuelan port) is diverted at sea to Amuay Bay, certain information must be radioed prior to arrival to avoid heavy fine and/or delays. See "Radio".
3. No dirty ballast may be pumped overside in port or in Venezuelan coastal waters. Ballast disposal facilities are available at Amuay Terminal.
4. The use of Venezuelan Government Pilots is compulsory for docking and for movements inside the bay.
5. The Venezuelan flag should be displayed at the mast-head during daylight hours by ships anchored and berthed in Venezuelan waters.
6. In addition to other clearance documents, two copies of an itemised list of articles in the ship's slop chest must be presented to Authorities on arrival.
7. Emergency fire signal is five long blasts on ship's whistle or siren. No other signal is to be given in the case of emergency.
8. Ratguards must be in place on all mooring lines.

LOCATION: The port of Amuay Bay is located on the Gulf of Venezuela, on the West Coast of the Paraguana Peninsula, Venezuela. The seabuoy marking the entrance to the bay is located in Latitude 11° 44′ 25″ N., Longitude 70° 14′ 53″ W.
DOCUMENTS: Inward clearance is effected on board immediately after docking by Government Port Officials and a representative of the Marine Department. It is necessary that the following documents be ready on arrival:
Clearance from last port (1 copy).
Ballast Manifest from last port (1 copy, visaed according to paragraph (a) if there is no Venezuelan Consul).
Crew Lists (6 copies).
Passenger and Baggage Lists (5 copies visaed, 2 copies not visaed).
Lists of Passenger in Transit, if any (4 copies not visaed).
Lists of Personnel Effects (3 copies not visaed).
Store Lists (3 copies, see note below).
Lists of Slop Chest (3 copies not visaed).
Sailing Permit (issued by Maritime Authority of last port).
Vessels arriving with cargo to discharge, will also require:
Manifest (Sobordo) (one original visaed and 2 copies not visaed from each loading port).
Consular Mail (one sealed envelope from each loading port).
Bills of Lading, one original and 1 copy visaed, and 4 copies not visaed from each loading port.
Tally Books (6 from each loading port).
Consular Invoice (3 originals visaed and 3 copies not visaed from each loading port).
Commercial Invoices (3 from each loading port).
Store Lists prepared should indicate separately all deck, engine and cabin stores.
The store lists may be prepared on board prior to arrival unless the ship is coming from the Islands of Aruba, Curacao, Barbados, Jamaica, Trinidad and the Guianas, in which case they must be visaed by the Venezuelan Consul at the port of departure.

(a) Cargo and clearance documents should be visaed by the Venezuelan Consul at the last port of call. In the absence of a Venezuelan Consul, they may be visaed by the Consul of a friendly nation, by the Chamber of Commerce, or by two reputable merchants, the latter's signatures to be notarised. In the absence of a Venezuelan Consul the following notation should be written on each document, in Spanish, and signed by the alternates designated above:
"Por no existir en la localidad Agente Consular Venezolano y a petición de los embarcadores, certifico el presente documento."

(Signature).....
Although vessels proceed directly to Amuay Bay, clearance documents should be prepared showing the port as Las Piedras, Paraguana (Amuay Bay). Failure to observe this requirement may result in penalties up to a maximum of Bs.2.000.
All ships calling at a Venezuelan port for the first time must be measured for tonnage by the Captain of the Port. It is the usual practice to take ashore the ship's Panama Canal or Suez Canal Certificate, which is used as a basis for recalculating tonnage under the Venezuelan Regulations, and is returned before sailing. The Venezuelan Admeasurement Certificate, when later issued, is forwarded to the owners. A fee is charged for this certificate, which is payable only on the ship's first call. Vessels registered in the following countries are excluded from the above regulations: Netherlands, Germany, France, Portugal, United Kingdom, Denmark, Sweden, U.S.A., Ireland and Norway.
Outward clearance and cargo documents are delivered on board by the Marine Dispatcher. However, in order to obtain the sailing permit, a special form, delivered on board on arrival, must be completed, not later than two hours before sailing time. This form gives cargo and freeboard information by the Captain of the Port.
In the event the berth is required by another vessel, a vessel having completed loading may be required to vacate the berth promptly and proceed to anchorage to await cargo documents.
PILOTAGE: Pilots are employees of the Venezuelan Government and pilotage is compulsory for vessels entering or leaving the harbour. The Marine Department will arrange for Pilots to board all vessels as necessary.
The Pilot acts in an advisory capacity; the Master retains responsibility for the ship at all times. In the event it becomes necessary to disregard the Pilot's instructions in order to ensure the safety of the ship, the Master must forward through the Marine Department a full written report of the circumstances, for delivery to the Captain of the Port.
ANCHORAGE: For vessels awaiting berth, there is a good anchorage about 1 mile N.W. of the seabuoy in 8 to 12 fathoms with a sand and mud bottom. Ship Masters are requested not to anchor at a distance greater than three miles from the seabuoy.
RESTRICTED AREA: A restricted fishing area has been established by the Venezuelan Government which is prohibited for mechanically propelled vessels drawing more than 5 ft. This zone lies within the area off the Paraguana Peninsula from Punta Macolla, Lat. 12° 5′ 32″ N., Long. 70° 12′ 55″ W., to Punta Estanques (Los Taques), Lat. 11° 48′ 45″ N., Long. 70° 16′ 45″ W., and a line connecting the positions below indicated: Latitude 12° 07′ 40″ North, Longitude 70° 14′ 25″ West; Latitude 12° 03′ 15″ North, Longitude 70° 19′ 23″ West; Latitude 11° 49′ 25″ North, Longitude 70° 21′ 50″ West.
MAX. SIZE: Length 1,000 ft.; draft 42 ft. 06 in.
BERTHING: Four finger piers provide eight berths, numbered one to eight, from South to North.

Berth	1	2	3	4	5	6	7	8
TJ-102 Crude	x	x			x	x		
All other crudes	x	x	x	x	x	x	x	x
Fuel Oils	x	x	x	x	x	x	x	x
Gas Oil	x	x			x	x	x	x
Lube Stocks			x	x				
Penetration Asphalt			x	x				
Cut back Asphalt			x	x	x	x	x	x
All other Products					x	x	x	x
General Cargo			x	x				
Safe Draft	43′	43′	40′	40′	40′	40′	41′6″	43′
Max. Length Ship	1000′	1000′	650′	700′	700′	700′	700′	700′
Max. Beam	Unl.	Unl.	Unl.	*	*	*	*	Unl.

Ballast line, fresh water and all grades bunkers at all berths.
* Maximum beam permissible varies dependent upon the beam of vessel berthed on other side of the slip.
The use of an anchor when docking is permitted at all berths. It is considered prudent to have the outboard anchor hove-out prior to entering the harbour in order to facilitate speedy release if necessary while docking. The Pilot will advise whether the ship is to be berthed port or starboard side to the dock.
LOADING: Loading rates, particularly for low-flash products loaded during the hours of darkness or when topping-off cargo tanks, will be reduced by the terminal to meet existing conditions
All loading and discharging will be stopped during the passage of an electric storm, and ullage covers must be closed and dogged down. During periods of calm, loading of gasoline or other similar low-flash products may be loaded at reduced rates or loading stopped if the heavy vapours are not being dispersed quickly enough to prevent hazards from accumulated gas pockets. Ship's officers are cautioned to be on their guard during such conditions.
Loading rates will be reduced when topping-off, if requested by the ship's officer.

Some of the fuel cargoes are loaded from fuel reservoirs through certified positive displacement meters, and shipping documents are prepared on the metered figures. All reconstituted crudes are line blended with conditions recording of component rates and quantities. Actual loading rates of both this crude and metered fuel cargoes are available at any time upon request of the standby.

Instructions as to grade or grades of cargo, and the approximate loading rate anticipated, will be given to the Master on completion of inward clearance. Supplementary information including number and size of lines and hoses will be furnished to the Chief Officer before loading commences.

If vessel's loading order from owners or charterers do not agree with the terminal's orders, either as to grades or quantity, the marine representative should be advised immediately. The terminal is authorised to load 10% more or less than the quantity nominated; if the cargo to be lifted will be more or less than this 10% limitation it is necessary to cable New York for confirmation.

A terminal employee is stationed at each pier during the entire time the ship is discharging ballast, bunkering, or loading cargo. Fifteen minutes "stand-by" notice should be given to this man prior to completion of ballast, bunkers, or cargo.

TUGS: Tug-boat assistance is considered essential and is afforded all vessels entering, leaving or shifting in the harbour by two 1,600 h.p. tugs. Disposition and manoeuvres of tug-boat are directed by the Pilot, who uses a "walkie-talkie" to convey orders to the tugs.

RADIO: The cable and telegraphic address for the Creole Petroleum Corporation at Amuay is "Creole Judibana". Radio messages to and from ships at sea are routed through the government radio station at Maiquetia (La Guaira) call letters YVG. This station operates on a 24 hour continuous watch, on the following frequencies:

Listening Frequencies: Long Wave, 500 kc/s., Short Wave, 4178, 6267, 8356, 12534, 16712, 22225 kc/s.

Transmitting Frequencies: Long Wave, 500, 472, 464, 417 kc/s. Short Wave, 17141.6, 12817.5, 8730, 8722, 6519.5, 6505·5, 4352, 4322 kc/s.

Master should call Amuay Marine, two hours before arrival, by VHF or on 2182 kHz, to conflrm the exact arrival time at the sea buoy.

Vessels that were originally cleared for another foreign port, or another Venezuelan port, and were subsequently diverted at sea, should radio the following information to "Creole–Judibana" prior to arrival:

Vessel's name	Last port of call
Master's name	Port for which originally
Vessel's flag	cleared
Number of crew	Grade and quantity of cargo
Estimated time	to be lifted.
of arrival.	

This information is required in order to make in advance special arrangements for inward clearance, to avoid payment of fine.

Radio notice of arrival should be sent 72 hours prior to arrival at Amuay.

Ship-to-shore telephone: Radio-telephone listening watches are maintained on a 24-hour basis in the Marine Office on the following frequencies: 2182 kc.; 156·3 Mc.; 8797·3 kc (single sideband).

International telephone: International telephone calls are routed through Caracas, Venezuela. Telephone number is Punto Fijo 3431. (It is usually difficult if not impossible to complete a call.)

BALLAST: Vessels should arrive with sufficient ballast to permit safe handling. The Pilots require a draft of minimum 8 ft. forward, 18 ft. aft, on a T-2 or similar size tanker, 11 ft. forward and 20 ft. aft on a 26,000 dwt. or larger vessel. Ballast should be carried in a minimum number of tanks, and all other tanks stripped, so as to minimise deballasting time.

A relatively small amount of salt water remaining in ship's tanks or lines can contaminate crude and cause operating problems for the refiners. It is important therefore to strip tanks and lines as dry as possible.

Vessels provided with completely segregated ballast system are permitted to discharge ballast and load cargo simultaneously.

Absolutely oil-free ballast may be discharged overside. All dirty ballast must be pumped ashore. A 20in. ballast line, two 60,000 barrel slop tanks and separator system are available.

A considerable number of vessels are now participating in the programme to eliminate pollution of the seas. Under this programme, vessels may arrive carrying quantities of oil/water emulsion. If it is desired to follow the "load-on-top" procedure in such instances, it is requested that the Marine Representative be informed on arrival.

MEDICAL: Medical treatment and hospitalisation, if required, is provided at a hospital located in the Creole concession, operated by the Society of Catholic Medical Missionaries. Several dentists are located in the area.

Italian crew members covered by Casa Maritime insurance receive medical attention from the appointed medical representative in Punto Fijo.

Authorisation forms for medical and dental treatment are provided, which require Master's signature. Transportation is available at the Marine Office. Please note that if the patient does not speak Spanish or English, an interpreter should accompany him.

FUEL: Ship's requirements specifying grade and quantity desired are to be given to the Marine Representative boarding the vessel on arrival. All grades of bunker fuel, intermediate fuels and Diesels are available, except Esso diesel. Bunker delivery rates average 2,500/3,500 barrels per hour. Bunkers are loaded through meters which automatically register quantities on bunker receipts. It is the responsibility of ship's engineer to give "standby" notice to the terminal employee and advise him when to shut down.

FRESH WATER: Fresh water can be supplied if necessary; however, supplies are limited to essential requirements. All fresh water is piped from distant sources. Loading rate is about 10 tons per hour.

CUSTOMS: Venezuelan laws are strict in regard to contraband and Masters are requested to instruct their crews not to take cigarettes or other articles ashore. Cigarettes in carton lots, cigars, tobacco, souvenirs, gifts (particularly items of women's apparel) should be collected prior to arrival in port, listed with the items in the slop chest and placed in the custody of the Master for deposit in the slop chest or closet which will then be sealed for the duration of the vessel's stay in port.

Firearms on board any merchant vessel calling at Venezuelan ports must not exceed one per officer, nor can the ammunition exceed 18 cartridges per officer. All firearms and ammunition must be noted on the stores list. Officers must not carry firearms while the ship is in Venezuelan waters and these sidearms and ammunition should be collected and held in the Master's safe custody. Crew members should be warned against taking knives or other weapons ashore.

While the vessel is in port, Venezuelan National Guard Officials are assigned on board to ensure compliance with Customs regulations. The law requires that meals be supplied to these officials during regular meal hours. Masters are requested to give them the privilege of eating in the officers' mess-room, to avoid difficulties.

DENSITY: The usual specific gravity of sea water at the berth is 1025, temperature ranges from 78°F. to 85°F.

CONSULS: Brazil, Great Britain, Italy, the Netherlands, and Norway have consular representatives in the area.

TIME: GMT minus 4 hours.

SHORE LEAVE: Shore leave is permitted and a representative of the Captain of the Port boards on arrival and issues the required number of passes. Shore passes are to be collected prior to sailing, and given to the Pilot undocking the vessel. Vessels are not permitted to sail until all crew members are on board, unless hospitalised or prior arrangements made for disembarking.

REGULATIONS: (i) *Pollution:* The laws of Venezuela are very strict in regard to the pollution of harbour and coastal waters by oil, and heavy fines are imposed for violations. No dirty ballast, oil or bilge slops are to be pumped or allowed to escape overboard. All overboard discharge valves from cargo tanks and bilges are to be secured before loading or discharging commences. Loading is to be conducted with the greatest care and vigilance in order that errors or delays in handling cargo valves may not result in overflows. All deck scuppers should be plugged before loading to avoid harbour contamination should an overflow occur. The Authorities require that a written report be submitted by the ship involved in the event of an oil spill.

(ii) *Gangways:* All vessels using the port of Amuay must provide a safe gangway. The use of rung ladders, pilot ladders, etc., is contrary to Port Regulations, and Port Authorities will not board except by means of a safe gangway or accommodation ladder.

(iii) *Passengers:* Passengers will not be permitted to disembark unless in possession of the required visa and documents. To facilitate clearance, if passengers are carried, the Master should include advice to this effect in his radio ETA.

(iv) *Visitors:* All visitors to ships are prohibited except those company employees, petroleum inspectors, etc., whose duties require their presence aboard.

GENERAL: (*a*) *Weather Conditions:* There is little rainfall at Amuay Bay; annual precipitation averages 12 in. The so-called rainy season usually coincides with the Caribbean hurricane season, from August to November, although Amuay lies South of the usual hurricane track. During these months calms are often experienced and winds from a Westerly direction may be expected. Normal winds are steady from the North-east, average force 4, Beaufort Scale, with a maximum of force 8. Temperatures average about 85°F., with little variation from day to night or season to season.

(*b*) *Tides:* The normal range of the tide is about 11 in.; however, a 28-in. range has been observed during spring tides.

(*c*) *Lubricating oil:* Supplies of Essomarine lubricating oils are available. Requirements should be given in vessel's radio notice of arrival.

(*d*) *Bonded Stores:* Cigarettes or other stores in bond are not obtainable in Amuay Bay.

(*e*) *Cash Advances:* The local currency is the Venezuelan Bolivar and cash advances are made only in this currency. It is requested that any requirement for cash advances be included in the vessel's ETA radio, to permit delivery on board on arrival.

(*f*) *Charts:* No supplies of charts or sailing directions are available at Amuay Bay.

(*g*) *Laundry:* A six-hour laundry service is available throughout each working day. Such service should be requested in the vessel's ETA message.

(*h*) *Mail:* Itemised lists are required for ship's mail, to be signed by the Master. Unless other instructions are given, ship's mail received after sailing, or for vessels on which no advice has been received, will be held for 30 days and then returned to Owners or Operators at ship's expense.

(*i*) *Inspection – Petroleum Products:* Chas. Martin & Co. and E. W. Saybolt, petroleum inspectors, are available if specified. Telephone numbers, Chas. Martin 44665, 44650; Saybolt 44639.

(*j*) *Norwegian Government Seamen Service:* A field representative of the above service is stationed at Amuay providing Norwegian and

Swedish film exchange and other usual services. His telephone number is 44511.

(*k*) *Personnel – Seamen Left Ashore:* In the case of seamen left ashore for hospitalisation, repatriation or other reason, all documents and personal effects are to be delivered to the Marine Office before sailing. A letter is required from the Master advising the maximum advances to be made to the seamen, if any, and instructions concerning his repatriation. All expenses incurred by seamen left ashore, including cost of repatriation, are for ship's account. It is important that Masters bear in mind that the Venezuelan law will at all time hold the vessel, her Master, Agent or owner, responsible for any seamen left behind in Venezuela.

(*l*) *Provisions and Stores:* Provisions and stores in limited quantities are available, the prices and quality of some items, such as fresh fruit, fish, shrimps, vegetables, etc. are competitive; dry stores are considerably higher than in most ports. The Port Steward will assist in filling requisitions.

(*m*) *Radar and Radio:* Radar and radio repairs can be effected in Amuay. A service repair man is available, but spare parts are limited.

(*n*) *Repairs:* Shore facilities are available only for emergency repairs of a minor nature. The nearest dry docks are those at Puerto Cabello and Curacao, N.A. Several contractors in the area provide labour for hull painting and for tank cleaning. Contracts for these services are made by the ship's Master directly with the contractor.

(*o*) *Surveyors:* There are no appointed surveyors to American Bureau of Shipping or Lloyd's in the area. However, with sufficient advance notice, arrangements can be made to have their nearest representatives come to Amuay to attend surveys.

(*p*) *Walport Film Exchange:* Subscribers to the Walport Service may exchange films at the Marine Office.

ATTENDANCE: Representatives of the Marine Department board vessels immediately on arrival, and it is particularly requested that Masters indicate at that time all ship's requirements. The Marine Office building is located at the Pierhead Trestle and personnel are available for assistance at all hours. Telephones are located on all docks and the Marine Shift Supervisor can be called on telephone No. 444475 or 444465.

CARIPITO: 10.09 N. 63.02 W.

OPERATORS: Creole Petroleum Corporation.

LOCATION: Caripito is located on the West bank of the San Juan River in latitude 10° 09′ 25″ N., longitude 63° 02′ 01″ W.

ESSENTIAL REQUIREMENTS:

1. Incoming vessels must send to Caripito their ETA Guiria at least three days in advance.

2. If a ship originally cleared for another port (including some other Venezuelan port) is diverted at sea to Caripito, certain information must be radioed to Caripito prior to arrival to avoid a heavy fine and/or delays. See "Radio".

3. No dirty ballast may be pumped overside in port or in Venezuelan coastal waters. Limited ballast facilities are available at Caripito Terminal.

4. Vessels calling at Caripito must obtain Government Pilots at Guiria.

5. The Venezuelan flag must be displayed during daylight hours while vessel is within port limits.

6. The emergency fire signal in Caripito dock area is six short and one long blasts on ship's whistle or siren. No other signal is to be given in the case of emergency.

APPROACHES: The traffic in San Juan River is restricted to one-way from Marieta Point to Caripito. Therefore, instructions are issued at Guiria to incoming vessels relative to what action to take on arrival at Marieta Point. Outbound traffic is controlled so as not to conflict with these instructions.

1. Guiria. The town of Guiria is located on South coast of Paria Peninsula on N.W. shore of Gulf of Paria. When approaching from East a signal tower will be observed on a bluff slightly to North of town.

2. Maturin Bar. Buoy E-1, marks the entrance to Maturin Bar Channel. At Punta Gorda there is a light tower located in approximare Lat. 10° 09′ 50″ N., Long, 62° 37′ 52″ W. displays a flashing red light.

3. Channel. Maturin Bar Channel is 14 miles in length and 400 ft. in width. The tidal range over the bar varies from 4 ft.-6 in. to 4 ft.-9 in. with currents up to 3 knots. The average salinity of water is 1.009; however, this may vary considerably between wet and dry seasons and spring and neap tides. Maximum draft permitted by Venezuelan regulations is 34 ft. in fresh water. There is a restriction of 6 in. less for all motor tankers. On leaving Maturin Bar Channel the San Juan River narrows from approximately 1¼ miles in width to about 0.7 miles with slight variations in width up to Marieta Point where it narrows to about 1,200 ft. and varies between 800 and 2,000 ft. up to Caripito. Marieta Point marks intersection of Caño Frances and the San Juan River. It is also at this point that course of San Juan River changes approximately 100° to starboard and it is the beginning of one-way traffic. Frequently, incoming vessels are requested to anchor below this point to await outbound traffic. There are 32 lights marking strategic points in San Juan River between Maturin Bar and Caripito terminal. These light towers are painted aluminium and are easily visible during daylight hours.

DOCUMENTS: (also see under "Radio").

1. *Clearance (inward and outward).* Inward clearance is effected at Caripito. The sanitary inspector boards vessel at anchor or at berth depending on tidal conditions and/or the availability of a berth. The Customs and other Government officials usually board at the berth. However. should there be a delay awaiting berth or tide, the entry will be granted while vessel is at anchor, in which case accommodation ladder must be rigged.

It is necessary that the following documents be ready on arrival:
Ballast List (1 original, visaed).
Passenger List (5 copies, of which none visaed).
Baggage List (5 copies, of which none visaed).
Crew List (7 copies, of which none visaed).
Sailing Permit from Last Port (1 original, visaed).
Stores List (5 copies, see *Note*).
List of Personal Effects (3 copies, of which none visaed).
List of Contents of Slop Chest (3 copies, of which none visaed).
List of Passengers in Transit (5 copies, of which none visaed).

Note: The Stores Lists may be prepared on board prior to arrival unless ship is coming from Netherlands Antilles or the Guianas, in which case they must be visaed by Venezuelan Consul at port of departure.

2. *Cargo documents.* The Port of Caripito has in force a system of cargo documentation for expediting the sailing of vessel. It is as follows:

a. Certain documentation with approximate cargo figures of unofficial nature are placed on board and official cargo documents are airmailed to discharge port.

b. Blank signed documents are placed on board to vessel's departure from Caripito and thence correct figures are radioed to sub-agency at Guiria who delivers them in writing to Master, who acknowledges its receipt by signing carbon copies of transmittal sheet.

PILOTAGE: Pilots are employees of Venezuelan Government and act in an advisory capacity. The Master retains responsibility for ship at all times. In the event it becomes necessary to disregard the Pilot's instructions in order to ensure the safety of the ship, the Master must forward through the Marine Department a full written report of the circumstances, for delivery to the Captain of the Port.

Pilots are compulsory and are embarked and disembarked at port of Guiria through a sub-agent. Vessels should proceed to the Guiria sea buoy and await instructions. If arriving during the hours of darkness, certain instructions are usually transmitted by light signals from the signal tower. Voice radio communications can be established at any time with Guiria or Creole Caripito on frequencies 2182 kc/s, 2638 kc/s and 2738 kc/s. The launch which embarks the Pilot will also deliver instructions to the Master relative to the movements of his vessel en route to Caripito, port regulations, facilities, etc. The regular pilotage fees cover the area from the entrance to Maturin channel to and from Caripito. The Pilot is to be provided sleeping quarters and food equal to that provided the officers aboard ship.

Note: Complaints or observations concerning the Pilots handling of vessel should be noted on back of pilotage ticket.

TIDES: The normal range of tide in the dock area is about 12 ft. with currents up to 3 knots during the flood and 4 knots during the ebb in rainy season (May-December). The normal current is 2½ knots during the flood and 3 knots during the ebb.

ANCHORAGE: For vessels awaiting berth, there is an anchorage about 1,000 metres up-stream from the Caripito terminal. Vessels awaiting clear channel may at times be requested to anchor at Punta Marieta. Vessels awaiting high tide anchor at Punta Marieta or off Punta Gorda.

MAX. SIZE: Vessels up to 780 ft. and 48,000 dwt. can be accommodated with a low water depth of 35 ft.

RADIO: The cable and telegraphic address for the Creole Petroleum Corporation at Caripito is "Creole – Caripito". Radio messages to and from ships at sea are routed through the Government Radio Station at Maiquetia (La Guaira), call letters "YVG". This station operates on a 24-hour continuous watch, on the following frequencies:

Listening Frequencies: low frequency, 500 kc/s; high frequency, 4178, 6267, 8356, 12534, 16712, 22225 kc/s. Transmitting Frequencies: low frequency, 500, 472, 464 417 kc/s; high frequency, 4322, 4352, 6505·5, 6519·5, 8722, 8730, 12817·5, 17141·6 kc/s. Radio notice of arrival should be sent 72 hours prior to arrival at Guiria and corrected if weather or other conditions delay the vessel.

Radio telephone listening watches are maintained on a 24-hour basis at Guiria and at Caripito on 2182 kc. The following frequencies are available for communications after contact: 2638 kc and 2738 kc.

All vessels en route to Caripito may also communicate with Amuay or La Salina Marine offices and request that message dealing with corrected ETA's, Pilots and other business be relayed to the Caripito Marine Office.

Vessels that were originally cleared for another foreign port, or another Venezuelan port, and were subsequently diverted at sea, should radio the following information to Creole Caripito prior to arrival:

Vessel's name	Last port of call
Master's name	Port for which originally cleared.
Vessel's flag	Grade and quantity of cargo to be lifted.
Number of crew	
Estimated time of arrival at Caripito	

This information is required in order to make in advance special arrangements for inward clearance, to avoid payment of a fine. It is necessary in such a case that the following documents be ready on arrival:

Crew List (original and 6 copies).
List of Personal Effects (original and 2 copies).
List of Contents of Slop Chest (3 copies).

Stores List (original and 1 copy).

Also required are the original and 2 copies of the radiogram instructing Master to proceed to Caripito. Outward clearance documents are placed on board the vessel prior to departure from the Caripito terminal.

Masters should bear in mind that while vessels are within Venezuelan territorial waters, Government authorities do not permit the use of ship's radio equipment. Cables and radiograms should be handed to the company representative for transmittal via shore radio communication system. Caripito has also radio telephone communication with North and South America and Europe. For further information contact Port Services Section in the terminal building, telephone C-335.

BALLAST: Ballast is not required when mooring. Any ballast carried should be in a minimum number of tanks, and all other tanks stripped, so as to minimize deballasting time.

A relatively small amount of salt water remaining in ship's tanks or lines can contaminate crude and cause operating problems for the refiners. It is important therefore to strip tanks and lines as dry as possible.

Vessels provided with completely segregated ballast system are permitted to discharge ballast and load cargo simultaneously. Absolutely oil-free ballast may be discharged overside. Consolidated residues may be pumped ashore, where facilities are available for receiving up to a maximum of 20,000 barrels.

A considerable number of vessels are now participating in the programme to eliminate pollution of the seas. Under this programme, vessels may arrive carrying quantities of oil/water emulsion. If it is desired to follow the "load-on-top" procedure in such instances, it is requested that the Marine Representative be informed on arrival.

BERTHING: The Marine Office Building is located on the West bank of the San Juan River upstream from the berths. Representatives of the Marine Department board vessel immediately upon arrival and it is particularly requested that Masters indicate at that time all ship's requirements. Personnel are available for assistance at all hours.

Caripito Creole maintains a deep water terminal, consisting of two ocean tanker berths, Nos. 2 and 3. These are T-type piers with breasting dolphins located approximately 10 ft. off the face of each pier.

All terminal facilities are under the control of Creole Petroleum Corporation. The port is open for navigation during day and night. All ocean tankers are moored at berths No. 2 and 3 on the flood tide only. Vessels may sail from berth No. 3 at any stage of the tide. Sailings from berth No. 2 are restricted to flood tide only when berth No. 3 is occupied.

A vessel entering or leaving port must be assisted by a Docking Master in the general employ of and furnished by Creole Petroleum Corporation. The Docking Master will board an inbound vessel at San Juan River Light Beacon No. 29 and relieve the Government Pilot of his duties. A Custom guard will board at the same time and remain with the vessel. The Docking Master will deliver to the Master his loading and docking instructions together with any other information pertinent to the vessel's call. He will also sign the Notice of Readiness if requested. The vessel will proceed to anchor to await flood tide to dock, to await berth, or will swing to the flood tide in the turning basin and proceed directly to the berth depending on circumstances.

LOADING: Loading rates, particularly for low-flash products loaded during the hours of darkness or when topping off cargo tanks, will be reduced by terminal to meet existing conditions.

All loading and discharging will be stopped during passage of an electric storm, and ullage covers must be closed and dogged down. During periods of calms, loading of gasoline or other similar low-flash products may be loaded at reduced rates or loading stopped if the heavy vapours are not being dispersed quickly enough to prevent hazard from accumulated gas pockets. Ship's officers are cautioned to be on their guard during such conditions.

Loading rates will be reduced when topping off, if requested by the ship's officer.

Instructions as to grade or grades of cargo, and the approximate loading rate anticipated, will be given to the Master. Supplementary information including number and size of lines and hoses will be furnished to the Chief Officer before loading commences.

If vessel's loading order from Owners or charterers do not agree with terminal's orders, either as to grades or quantity, the marine representative should be advised immediately. The terminal is authorised to load 10% more or less than the quantity nominated; if the cargo to be lifted will be more or less than this 10% limitation it is necessary to cable New York office for confirmation.

A terminal employee is stationed at each pier during the entire time the ship is discharging ballast, bunkering, or loading cargo. Fifteen minutes "standby" notice should be given to this man prior to completion of ballast, bunkers, or cargo.

MEDICAL: Medical treatment and hospitalisation, if required, is provided at a hospital located in the Creole concession. Several dentists are located in the town of Caripito. Authorisation forms for medical and dental treatment are provided, which require Master's signature. Transportation is available at the Marine Office. Please note that if the patient does not speak Spanish or English, an interpreter should accompany him.

FRESH WATER: Fresh water is available in any quantity. Delivery is made through 2½ in. national standard fire hose thread hydrants. Ships personnel must provide hoses and connect up.

FUEL: Bunker "C" fuel oil, marine diesel and intermediate fuels are available. It is the responsibility of ship's engineer to give "standby" notice to the terminal employee and advise him when to shut down.

CONSULS: There are no consular representatives in the area. Vessels bound for U.S.A. or British Caribbean ports will be provided with a letter stating this fact.

CERTIFICATES: All ships calling at a Venezuelan port for the first time must be measured for tonnage by Captain of the Port. It is the usual practice to take ashore the ship's Panama Canal or Suez Canal Certificate, which is used as a basis for recalculating tonnage under the Venezuelan regulations, and is returned before sailing. The Venezuelan Admeasurement Certificate, when later issued is forwarded to the Owners. A fee is charged for this certificate, which is payable only on ship's first call. Vessels registered in following countries are excluded from above regulations: Netherlands, Germany, France, Portugal, United Kingdom, Denmark, Sweden, U.S.A., Ireland and Norway.

CUSTOMS: While the vessel is in port, Venezuelan National Guard officials are assigned on board to ensure compliance with Customs regulations. The law requires that meals be supplied to these officials during regular meal hours. Masters are requested to give them the privilege of eating in the officers' messroom, to avoid difficulties.

Venezuelan laws are strict in regard to contraband and Masters are requested to instruct their crews not to take cigarettes or other articles ashore. Cigarettes in carton lots, cigars, tobacco, souvenirs, gifts (particularly items of women's apparel) should be collected prior to arrival in port, listed with the items in the slop chest and placed in the custody of the Master for deposit in the slop chest or closet which will then be sealed for the duration of the vessel's stay in port.

Firearms on board any merchant vessel calling at Venezuelan ports must not exceed one per officer, nor can ammunition exceed 18 cartridges per officer. All firearms and ammunition must be noted on the stores list. Officers must not carry firearms while ship is in Venezuelan waters and these side-arms and ammunition should be collected and held in the Master's safe custody. Crew members should be warned against taking knives or other weapons ashore.

REPAIRS: Only minor repairs of an emergency nature can be made. There are no electronic repair services available in the area.

SHORE LEAVE: Shore leave is permitted and a representative of the Captain of the Port boards on arrival and issues the required number of passes. Shore passes are to be collected prior to sailing, and given to the Docking Master undocking the vessel. Vessels are not permitted to sail until all crew members are on board, unless hospitalised or prior arrangements made for disembarking.

TIME: Local time is Greenwich Mean Time minus 4 hours.

GENERAL:

Gangways: Gangways at berths No. 2 and 3 are provided by the terminal.

Plimsoll Marks: The Captain of the Port requires that the Plimsoll marks of all vessels using the port be clearly visible. Vessels will be checked on completion of loading, and if the Plimsoll Marks are not readily legible, permission to sail may be withheld.

Surveyors: There are no appointed surveyors to the American Bureau of Shipping or Lloyd's in the area. With 48 hours notice, non-exclusive surveyors can be obtained from Caracas, or at times from Puerto La Cruz, or qualified Masters or chief engineers may be available for appointment as surveyors when required.

Bonded Stores: Cigarettes or other stores in bond are not obtainable at Caripito.

Cash Advances: The local currency is the Venezuelan Bolivar and cash advances are made only in this currency. It is requested that any requirement for cash advances be included in the vessel's ETA radio, to permit delivery on board on arrival. Cash returns can be accepted only during the normal work day – 0700 to 1600 hours. Sundays and holidays excluded.

Provisions and Stores: Provisions and stores in extremely limited varieties and quantities are available at prices considerably higher than in most other ports.

Charts: No supplies of charts or sailing directions are available at Caripito.

Personnel – Seamen Left Ashore: In the case of seamen left ashore for hospitalisation, repatriation or other reason all documents and personal effects are to be delivered to the Marine Office before sailing. A letter is required from the Master advising the maximum advances to be made to the seamen. if any, and instructions concerning his repatriation. All expenses incurred by seamen left ashore, including cost of repatriation, are for ship's account. It is important that Masters bear in mind that the Venezuelan law will at all time hold the vessel, her Master, Agent or owner, responsible for any seamen left behind in Venezuela.

Laundry: Laundry service is available.

Lubricating Oil: Supplies of Esso marine lubricating oils are available from Puerto La Cruz. Quantities required should be included in the ETA cable.

Mail: Any pending ship's mail will be delivered on board by the marine dispatcher on arrival at Caripito. At the same time he will receive any ship's mail to be dispatched. The marine despatcher will accept personal mail only if it carries the proper amount of Venezuelan postage, or if Master authorises postage by signing seven copies of the Company Post Transmittal form. Masters interested in knowing the individual postage amounts to be paid by each crew member, should provide a list, in duplicate, of the senders, and number of letters sent by each one identified by a number written on each letter. Copy of this will be returned aboard vessel when leaving this port outward bound. If not ready on time, it will be airmailed to the vessel's next port of call.

Inspection – Petroleum Products and Crude Oil: Charles Martin &

Co. and E. W. Saybolt, petroleum inspectors, are available from Puerto La Cruz if specified.

Visitors: All visitors to ships are prohibited except those company employees, petroleum inspectors, etc., whose duties require their presence aboard.

Passengers: Passengers will not be permitted to disembark unless in possession of the required visa and documents. To facilitate clearance, if passengers are carried, the Master should include advice to this effect in his radio ETA.

Pollution of Harbour and Coastal Waters: The laws of Venezuela are strict in regard to pollution of harbour and coastal waters by oil, and heavy fines are imposed for violations. No dirty ballast, oil or bilge slops are to be pumped or allowed to escape overboard. All overboard discharge valves from cargo tanks and bilges are to be secured before loading or discharging commences. Loading is to be conducted with greatest care and vigilance in order that errors or delays in handling cargo valves may not result in overflows. All deck scuppers should be plugged before loading to avoid harbour contamination should an overflow occur. The authorities require that a written report be submitted by the ship involved in the event of an oil spill.

AUTHORITY: Creole Petroleum Corporation, Marine Department, Caripito. POB 152.

Cables: "CREOLE Caripito".

EL PALITO: 10.29 N. 68.07 W.

OPERATORS: Mobil Oil Company de Venezuela.

LOCATION (of El Palito Terminal): The terminal facilities operated by Mobil de Venezuela at the port of Puerto Cabello (Punta Chávez), are situated on the Venezuelan coast, 7 miles West of Puerto Cabello. The terminal has a 2,475 ft. pier, part causeway and part trestle, extending out from Punta Chávez along a shallow reef then angling into water 45 ft. deep. Two tankers can tie up simultaneously at the berths.

WEATHER: Winds are normally from the N.E. with an average Beaufort scale force of 2–3. Average temperature about 85°. The months of January, February and March have the roughest sea and swell, and vessels may not be able to dock due to the weather.

TIDE: The normal range of the tide is 1 ft.

ESSENTIAL REQUIREMENTS:

1. Incoming vessels must send ETA 72 hours before arrival at El Palito Terminal and another 24 hours before arrival advising any change of ETA.
2. If a vessel originally cleared for another port (including some other Venezuelan port) is diverted at sea to El Palito, certain information must be received prior to arrival, to avoid heavy fine and/or delays.
3. *No ballast* may be pumped overside in port. Ballast disposal facilities are available at the El Palito Terminal.
4. The use of Venezuelan Government Pilots is compulsory for docking and undocking.
5. The Venezuelan flag should be displayed at the mast-head during daylight hours by vessels anchored and berthed in Venezuelan waters.
6. In addition to other clearance documents, two copies of an itemised list of articles in the ship's slop chest must be presented to the authorities on arrival.
7. The emergency fire signal is five long blasts on the vessel's whistle or siren. No other signal is to be given in case of emergency.
8. Rat guards must be in place on all mooring lines.

APPROACHES: The terminal pier is marked by the following lights: One occulting red light at the top of No. 1 (North-west) Hose Rack, 80 ft. above sea level. Latitude 10° 29′ 51″ N., Longitude 68° 07′ 13″ W., and one green light, flashing every 3 seconds at the top of No. 2 (South-east) Hose Rack, 80 ft. above sea level, located 275 ft. S.E. of No. 1 Hose Rack. A group of 5 crude storage tanks, painted aluminum, visible 20 miles on a clear day, are located 1.25 miles 200° from the head of the pier.

DOCUMENTS:

A. Admeasurement Certificates. All vessels calling at Venezuelan ports for the first time must be measured for tonnage by the Captain of the Port. It is the usual practice to take the ship's Panama Canal or Suez Canal Certificate, which is used as a basis of recalculating the tonnage under the Venezuelan regulations and is returned before sailing. The Venezuelan Admeasurement Certificate is forwarded to the owners at a later date. A fee is charged for the certificate which is payable only on the vessel's first call. Vessels registered in the following countries are excluded from the above regulations: Denmark, France, Germany, Ireland, Netherlands, Norway, Portugal, Sweden, United Kingdom and U.S.A.

B. Inward clearance is affected on board immediately after docking by Government Port Officials and a representative of the Marine Department. It is necessary that the following documents be ready on arrival:

Clearance from last port (1 copy).
Ballast Manifest from last port (1 copy, visaed according to paragraph (*d*) if there is no Venezuelan Consul).
Crew List (9 copies).
Passenger and Baggage Lists (5 copies, visaed; 2 copies not visaed).
List of Personal Effects (5 copies not visaed).
Store List (3 copies, see paragraph (c)).
List of Slop Chest (3 copies not visaed).
Sailing Permit (issued by maritime authority of last port).

C. Store list prepared should indicate separately all deck, engine and cabin stores. The store lists may be prepared on board prior to arrival unless the vessel is coming from the Netherland Antilles or the Guianas, in which case they must be visaed by the Venezuelan Consul at the port of departure.

D. Outward clearance and cargo documents are delivered on board by the Marine Dispatcher. However, in order to obtain the sailing permit, a special form which is delivered on board on arrival must be completed, not later than two hours before sailing time. This form gives cargo and freeboard information required by the Captain of the Port. In addition, one of the 9 copies of the crew list specified above, corrected to show any changes made while in port, should be attached to the form.

PILOTAGE: The Pilot's working hours are from 0600 to 1800 hours. There are no charges for their assistance during those hours on workdays. On Sundays and holidays they charge overtime. There is also a charge when ship has anchored in the bay as according to the pilotage law each movement (and entering the bay is one movement) requires a Pilot. By special agreement only Pilot's overtime will be charged for anchorage, as anchorage and docking is considered as one movement with respect to Government Pilotage Fee.

Pilotage is compulsory government service. The government charges the Pilot's assistance according to ship's net tonnage. Vessels under flags of Panama and Liberia are required to have their Venezuelan Tonnage Certificate. The government charges for docking and sailing.

Pilots are employees of the Venezuelan Government and pilotage is compulsory for vessels entering or leaving the harbour. The terminal will arrange for Pilots to board all vessels as necessary. Pilots meet the vessel via launch provided by the terminal. The Pilot may decline to moor the vessel if it is not equipped with satisfactory mooring equipment, lines, gear, etc., or if it is not sufficiently ballasted. It is the responsibility of the Master to notify the Pilot of any special conditions or peculiarities, such as defective navigation equipment, mooring lines, tackle, gear or lack of necessary equipment, which might impose hazards in connection with the handling, mooring, discharging or loading of vessels.

At the berths, vessels must be moored to the entire satisfaction of the Pilot and the terminal operators' Mooring Master.

The Pilot acts in an advisory capacity. The Master retains responsibility for the vessel at all times. In the event it becomes necessary to disregard the Pilot's advice in order to ensure the safety of the vessel, the Master must forward a full written report of the circumstances through the terminal for delivery to the Captain of the Port.

ANCHORAGE: Notice of Readiness can be tendered at anchorage. The suggested anchorage for El Palito Terminal is located ½ to 1 mile North or West of the seaward end of the pier. The area to the East of the pier is not recommended as an anchorage.

RESTRICTIONS: None. Vessels enter day or night and at any state of tide.

MAX. SIZE: East berth draft 38 ft. 06 in. West berth draft 40 ft. 00 in. Length 800 ft.

BALLAST: Due to the exposed location of the oil piers, vessels are required to be ballasted to the following minimum drafts for safe manoeuvring to and from the berths:

Overall Length of Vessel	*Minimum Draft Required*
400–480 ft.	forward 9 ft., aft 17 ft.
481–700 ft.	forward 12 ft., aft 20 ft.
701–800 ft.	forward 14 ft., aft 23 ft.

Two 80,000 barrel slop pits and a 20 in. ballast line are available to receive all ballast.

Vessels with separate ballast tanks, lines and pumps may discharge ballast overside. Ballast for entering the harbour should be carried in the minimum number of tanks, and all other tanks stripped dry so as to minimise the time required for discharging ballast alongside berths.

All ships in ballast from abroad are charged for Consular Ballast Certificate.

HEALTH: No radio pratique. Health officers board vessel at berth.

RADIO: Puerto Cabello, Venezuela, Coastal Station call sign YVL, makes radio contact with all vessels "CQ" on 8722 kc. at the following hours: 1130, 1330, 1530, 1830, 2130, 0030, 0200 GMT. Also "CQ" on 17.141 kc. at 1630 GMT and "CQ" on 4.322 kc. at 0430 and 0630 GMT.

Vessels originally cleared for another port, and diverted at sea to El Palito, should Radio Socony Puerto Cabello the following information as soon as the change of sailing orders are received:

Advise diverted.
Name and class of vessel.
Number of crew.
Flag of vessel.
Last port of call.
Port from which originally cleared.
Estimated time of arrival at pilot station.
Type and amount of cargo vessel will load.
Time required to discharge ballast.
Master's name in full as signature (John Jones, Master).

This information is required in order to make in advance special arrangements for inward clearance to avoid payment of fines.

TUGS: Tugs are not available at El Palito.

BERTHING:

1. The use of both anchors is required for docking at both berths. It is considered prudent to have both anchors hove-out prior to entering the harbour in order to facilitate speedy release while mooring. The Pilot will advise whether the vessel is to be moored port or starboard side to the dock.
2. In the event the berth is required by another vessel, a vessel

having completed loading may be required to vacate the berth promptly and proceed to anchorage to await cargo documents.

3. East Berth. Approach at very dead slow speed along a line parallel to a line formed by the East and the West berth at a distance from it equal to the distance of the North buoy. Drop the starboard anchor at the point of intersection of the ship's fore with a line formed by the two East shore range markers. Continue along same path at very dead slow speed until reaching with the ship's fore the East berth. Drop the port anchor. Allow the ship to drift into position alongside berth. This will be done by tying mooring lines as required by Pilot and with the help of the ship's engines.

4. West Berth. Approach at very dead slow speed along a line parallel to a line formed by the East and West berths and at a distance from it equal to the distance of the North buoy. Drop the port anchor at the point of intersection of the ship's fore with a line formed by the two West shore range markers. Continue along same path at very dead slow speed until reaching with the ship's fore the West berth. Drop the starboard anchor. Allow the ship to drift into position alongside berth. This will be done by tying mooring lines as required by the Pilot and with the help of the ship's engines.

5. General. Available hose connections, all 8 in., are as follows: Three for Fuel oil, one for diesel products and one for leaded or unleaded gasolines. All dirty ballast to be pumped ashore through the fuel oil loading hoses.

LOADING:

1. *Cargo:* On completion of inward clearance, information regarding the number of hoses and loading rate will be given to the Master and Chief Officer. During ballast discharge supplementary information will be given the Chief Officer. A 15 minute standby is required prior to finishing any grade.

2. *Contamination of Crude:* It has been established that one of the major causes of contamination of crude oil is the small amount of salt water remaining in the ship's tanks, pumps and ballast lines after discharging ballast. This small amount of salt water frequently results in costly damage and downtime to refining equipment and also presenting many other problems. Therefore all tanks and lines must be pumped as dry as possible.

3. *Draining of Hoses:* Hoses are drained by gravity on all products and crude. Ship personnel must co-operate with terminal personnel in this operation to ensure complete draining of hoses into ship tanks and adequate drip cans must be placed to catch the remaining oil in line. Sawdust or equivalent must be on standby to clean up any oil leaks.

4. *Loading Rates:*

Commodity	*Available at berths*	*Size of Line*	*Estimated Max. Barrels per Hr.*	*Hoses*
Crude Oil	1×2	30″	27,000	1–10″ & 3–8
Bunker C	1×2	24″	18,000	3–8″
Diesel	1×2	16″	8,000	1–8″ & 1–10
Unleaded Gasoline	1×2	8″	8,000	1–8
Leaded Gasoline	1×2	16″	3,000	1–8
Ships Bunkers	1×2	8″	6,000	1–8
Lube	2	8″		1–8

Loading rates will be reduced by the terminal when topping off tanks at the vessel's request.

5. *Scuppers:* Loading will not be started till all deck scuppers are properly sealed to the satisfaction of the terminal.

6. *Simultaneous Deballasting and Loading:* Vessels equipped with separate and completely segregated ballast tanks, lines and pumps and never used for oil may be permitted to discharge ballast and load simultaneously providing approval has been obtained from the terminal.

MEDICAL: Medical treatment and hospitalisation, if required, are available at the Seguros Sociales in Puerto Cabello. Several dentists are located in Puerto Cabello. Authorisation for any medical and/or dental treatment must be made by the Master. Transportation is available at the Terminal Office. If the patient does not speak Spanish an interpreter should accompany him.

FRESH WATER: Not available.

FUEL: Bunkers are available only for vessels loading cargo. Disputes as to quantity should be registered by signing the bunker receipt under protest and noting the ship's quantities thereon.

CUSTOMS: While the vessel is in port, Venezuelan National Guard officials are assigned on board to ensure compliance with Customs regulations. The law requires that meals be supplied to these officials during regular meal hours.

Venezuelan laws are strict in regard to contraband and Masters are requested to instruct their crews not to take cigarettes or other articles ashore.

Cigarettes in cartons, cigars, tobacco, souvenirs, gifts (particularly items of women's apparel), should be collected prior to arrival in port, listed with the items in the slop chest and placed in the custody of the Master for deposit in the slop chest which will be sealed for the duration of the vessel's stay in port.

CONSULS: French, Norwegian, Swedish and Panama Consulates are represented in Puerto Cabello. There is no American Consulate. It is necessary for Masters of Panamanian flag vessels to visit the Panamanian Consulate at Puerto Cabello to present documents and receive dispatch as required by law. Regular office hours are from 0800 to 1200 and from 1400 to 1700 Mondays through Fridays; any dispatch issued outside of regular office hours is billed at double fees. Terminal Office will arrange transportation to Puerto Cabello upon request.

REPAIRS: Only emergency repairs of a minor nature can be made. Prices are very high.

REPATRIATION: The documents and personal effects of seamen left ashore for hospitalisation, repatriation or other reason, must be delivered to the Terminal Office before sailing. A letter from the Master is required advising the maximum amount of advances to the seaman and any other instructions concerning his repatriation. All expenses incurred by the seaman, including the cost of repatriation, are for the vessel's account. Venezuelan law at all times holds the Master, Agent or Owner responsible for any seaman left behind in Venezuela.

AIRPORT: Distant about 4 miles.

TIME: Local time is four hours slow of Greenwich Mean Time.

SHORE LEAVE: Shore leave is permitted and a representative of the Captain of the Port boards on arrival and issues the required number of passes. Shore passes are to be collected prior to sailing and given to the National Guard watchmen on board.

Vessels are not permitted to sail until all crew members are on board, or special permission has been obtained to sail without a crew member.

REGULATIONS:

1. *Engines:* No engine repairs will be made while the ship is in dock. Engines are to be kept at standby at all times while the ship is in port.

2. *Ratguards:* Vessels must use ratguards on all mooring lines.

3. *Visitors:* All visitors to vessels are prohibited, without written permission in each case by the Port Captain or his assistant. Mooring Master, petroleum inspectors, dispatchers, and terminal employees handling hoses may board ship in performance of their duties.

4. *Pollution:* The laws of Venezuela are very strict in regard to the pollution of harbour and coastal waters by oil, and heavy fines are imposed for violations. No dirty ballast or oil is to be pumped or allowed to escape over the side. No engine-room or pump-room bilges may be pumped overboard. All pump-room sea suctions and overboard discharge valves must be secured prior to loading or discharging cargo. Loading must be conducted with the utmost care and vigilance so that errors or delays may not result in spills. All deck scuppers must be plugged tight before loading so that in the event of a spill pollution of the harbour may not result.

5. *Garbage:* No garbage is to be thrown over the side while the vessel is in port.

6. *Passengers:* Passengers will not be permitted to disembark unless in possession of the required visa and documents. To facilitate clearance, if passengers are carried, the Master should include this information in his ETA.

7. *Firearms:* Firearms on board any merchant vessel calling at Venezuelan ports must not exceed one per officer, nor can the ammunition exceed 18 cartridges per officer. All firearms and ammunitions must be noted on the store list. Officers must not carry firearms while the vessel is in Venezuelan waters and these sidearms and ammunition should be collected and held in the Master's safe custody.

GENERAL: 1. *Bonded Stores:* No cigarettes or bonded stores are available at El Palito.

2. *Cash Advances:* Cash advances are available in Venezuelan bolivares only and should be included in the vessel's ETA radio, to permit delivery on board at arrival.

3. *Charts:* No charts or sailing directions are available at El Palito.

4. *U.S.S. Club:* There is no U.S.S. Club available at El Palito nor movie film exchange service.

5. *Inspection Petroleum Products:* Chas. Martin and Company and E. W. Saybolt, petroleum inspectors, are not available at El Palito. However, if specified in sufficient time, they may be obtained from Puerto La Cruz.

6. *Laundry:* Laundry facilities are available at El Palito.

7. *Lubricating Oil:* Certain types of Mobil lube-oils only are available in small quantities. Requirements should be sent by radio with ETA.

8. *Mail:* Mail service posted from El Palito has been found to be fair.

9. *Provisions:* Provisions are available at El Palito.

10. *Radio and Radar:* No repairs made at El Palito.

11. *Gangways:* Gangways are provided by El Palito Terminal.

AUTHORITY: Mobil Oil Company de Venezuela, Apartado del Este 5373, Caracas, Venezuela.

In the absence of special arrangements, Mobil does not, as operator of the terminal, act as Agent for any vessel or for firms or agencies engaged in coastwise or international transportation operations. All services in connection with the arrival, loading or departure of vessels are performed as a Representative and for the account of the shipper in the case of cargoes loaded, and as the consignee in cases where cargo is received.

Terminal Operator, El Palito, Mobil Oil Company de Venezuela, Apartado 102, Puerto Cabello, Edo. Carabobo, Venezuela. Radio Address: "Socony Puerto Cabello" and "Mobil Puerto Cabello".

AGENT: See Puerto Cabello.

LA GUAIRA: 10.36 N. 66.56 W.

DOCUMENTS:

Sealed envelopes for Customs.
Visaed B/L and Sobordos not in envelopes.
Consular Despatch for all Venezuelan ports.
Despatch from last Venezuelan port, if any, or
Zarpe from last foreign port, if arriving directly from abroad.
Fumigation Certificate.
Vaccination Certificates of Crew.
Landing Cards for Crew and Passengers.
6 Store Lists (with arms and narcotics).
6 Lists of Personal Effects.
10 Crew Lists.

10 Lists of Passengers for La Guaira, or negative Passenger List.
10 Lists of Passengers in Transit.
2 Sets of B/L not visaed.
4 Sobordos not visaed.
14 Tally Books.

PILOTAGE: Compulsory and vessels have to wait for Pilot in the pilotage zone North-West of the port entrance.

MAX. SIZE: Berth depths as follows, (approx.):

No. 1	36 ft.
No. 2, 3, 3a (4), 5, 6	35 ft.
No. 7, 8	34 ft.
No. 9, 10	24 ft.
No. 11, 12, 13, 14, 15, 16, 17, 18, 19	36 ft.

RADIO: In order to enable Agents arrange for quick entry and berthing, Masters should give their ETA message at following intervals, via Curacao Radio (ITT): 72, 48 and 24 hours prior to arrival, indicating in the 48-hour message, the quantity of parcels (or tonnage if bulk cargo) per hatch. This is imperative for applying for the necessary personnel of the National Port Services. Also, draft, passengers, requirements for bunkers, fresh water, provisions, repairs, medical assistance, etc. This telegram the Master to sign with his full name.

TUGS: The use of tugboats within the port is compulsory, both for entering and leaving port, as well as for manoeuvres in the port basin. Ships longer than 139 metres must be assisted by two tugboats.

BERTHING: Normally a minimum of 19 ocean-going vessels can berth at a time. Berths No. 1, 2 and 3 are along the breakwater pier East-West, parallel to the coast.

Within the port is a finger pier, parallel to the breakwater pier, with two Customs warehouses alongside, with berths North and South, two each. The main pier is parallel to the coastline, East-West, with berths Nos. 10, 11, 12, 13, 14 and 15, along which piers there is ample Customs warehouse space, including outdoor space on the roofs as well as ample uncovered storage area.

The Passenger Terminal is on a finger pier, in direction North-East with its land end in the corner of berth No. 15. There are two berths each side, namely Nos. 16 and 17 in the inner basin and Nos. 18 and 19 in the outer basin.

Passenger vessels have priority for berthing and they have to leave port within 24 hours.

LOADING/DISCHARGING: Cargo is discharged into railcars alongside the piers, or directly into the transport means of the Importer and vice versa when loading. The latter, however, applies only for bulk cargo or considerable one-type commodity.

If electric shore cranes are used, the same procedure applies unless the cargo is to be stored outdoors on the roof of the warehouses. Piers Nos. 4 and 9 have no rails alongside, so the cargo is discharged on the pier, wherefrom it is immediately taken away by two-boys, fork-lifts and/or other mechanical equipment supplied by the National Port Services as per kind of cargo. The use of such equipment is included in the handling fee per weight.

STEVEDORES: Supplied exclusively by the governmental National Port Services at costs per weight of cargo in accordance with governmental decrees.

The Port Agent applies for the necessary number of gangs per ship. Each gang consists of 11 stevedoremen (estiba) and 11 longshoremen (caleta).

Switching of gangs from one hatch to another is not permitted.

There are no longshoremen costs for cargo handled during straight time, but only for cargo handled during overtime.

(a) *Straight time*

Monday–Friday	07.00–11.00
	12.30–16.30
Saturday	07.00–12.00

(b) *Overtime*

Monday–Friday	18.00–23.00

(c) *Saturday afternoon* work is not permitted, but if a vessel could terminate operation and sail within a maximum of three additional working hours, a special permit would be granted by Customs and Port Authorities. In such a case, the additional working hours are considered as overtime.

(d) *Work on Sunday* is not permitted except for passenger vessels (officially those carrying 60 passengers, but exceptionally vessels with less passengers might occasionally obtain same consideration by authorities).

EQUIPMENT:

(a) *Electric Shore Cranes:* Piers 12, 13, 14 and 15 have electric shore cranes on rails, of 6 tons capacity each. The National Port Services allow two 6 ton cranes to lift pieces up to 9 tons weight. The arms of the cranes reach the roofing of the warehouses. Use of shore cranes is not compulsory, unless the Technical Board of the National Port Services rules to use them. Other piers have no shore cranes.

(b) *Diesel – Driving Rolling Cranes:* There is a considerable number of these cranes which can lift heavy pieces of about 17 tons.

(c) *Floating Cranes:* not available.

(d) Special lumber carriers of about 20 tons capacity.

(e) Tow trucks, fork-lifts, trucks and trailers up to 10 tons capacity.

HATCHES: Opening and closing of hatches is not performed by the National Port Services but by either the ship's crew, or the assistance labour of the Agent.

FRESH WATER: Available through pipe-line on the pier, day or night, or by water trucks of up to 10 tons capacity in day time only.

OFFICIALS: Once the vessel is anchored at La Guaira, Representatives of Customs, Port Captain, National Guard, Health Service, Immigration and Agency board the vessel.

AGENTS: Head Office (Direction and Control), Victor H. Selinger, PO Box 1632, Caracas. Cables "Seltank". Local Office: PO Box 154, La Guaira. Tel. 3325 or 3754. Cables: "Selvic La Guaira".

MARACAIBO LAKE

Including, Section A – BAJO GRANDE
Section B – LA ESTACADA
Section C – LA SALINA
Section D – MARACAIBO
Section E – PUERTO MIRANDA
Section F – PUNTA DE PALMAS

(N.B. Certain information common to all Vessels entering Maracaibo Lake is given below. For specific details of ports/terminals within the Lake, see relative Section as indicated above.)

FLAG: Local authorities require that the Venezuelan ensign be flown at vessel's masthead, from the time of entering the outer channel until clear of the outer channel outbound.

DOCUMENTS: (a) *Inward Clearance for Scheduled Vessels:* Vessels arriving in ballast or with cargo in transit require following documents:

1 copy Sailing Permit from Last Port.
2 copies–1 visaed Ballast Certificate.
1 or more letters Consular Mail (in sealed envelope).
4 copies–2 visaed Passenger Lists.
4 copies–2 visaed Baggage Lists.
4 copies–2 visaed List of Passengers in Transit.
4 copies List of Slop Chest.
4 copies List of Personal Effects.
4 copies–2 visaed Store Lists.
5 copies Crew Lists.

Vessels arriving with cargo should have, in addition to the foregoing:

4 copies–2 visaed Sobordos (Venezuelan Inward Manifests).
6 copies–2 visaed Bill of Lading.
2 copies visaed Inward Manifests.

In lack of a Venezuelan Consul at discharge port, clearance documents should be signed by consul of a friendly nation, one of the Port Authorities, Notary Public, the Chamber of Commerce or by two well-known firms.

(b) *Inward Clearance for Diverted Vessels:* Vessels diverted to Maracaibo Lake Ports to load cargo, should submit all documents indicated in 1 through 10 above, except consular mail, which they will not have.

Vessels diverted at sea to Maracaibo Lake Ports which do not have a Venezuelan clearance on board, must advise loading port via radio prior to arrival, the name of vessel, master's name, vessel's flag, Venezuelan net tonnage (if available, if not, the registered net tonnage), last port of call, destination port for which originally cleared, ETA San Carlos pilot station and grade and quantity of cargo to be lifted. This information is required in order that Inward Clearance may be arranged with government officials in ample time prior to vessel's arrival. Also 3 copies of the diversion telegram received by vessel and signed by Master, together with copies of those documents listed under (a) should be presented to the Port Authorities upon arrival at Maracaibo. In the absence of this information, or of presentation of each of these documents to the Port Authorities the vessel will be subject to a fine. Please note, that the documents covered under (a) have to be presented upon arrival, regardless, if the vessel is or is not arriving with consular clearance or arriving after being diverted at sea.

(c) In Maracaibo two clearances from Custom's authorities are needed: One for proceeding from Maracaibo to loading berth, and another after loading for proceeding from Maracaibo to destination. For this reason Custom Dispatch charges may be incurred twice.

(d) *American Crew List.* All non-American vessels loading for a U.S.A. port should have the American Crew List ready on arrival in Maracaibo to be visaed by the American Consulate in Maracaibo and placed aboard ship before departure. The crew list should be prepared on Immigration and Naturalization Service form No. I.–418 (Crew List Manifest) and should contain two sections:

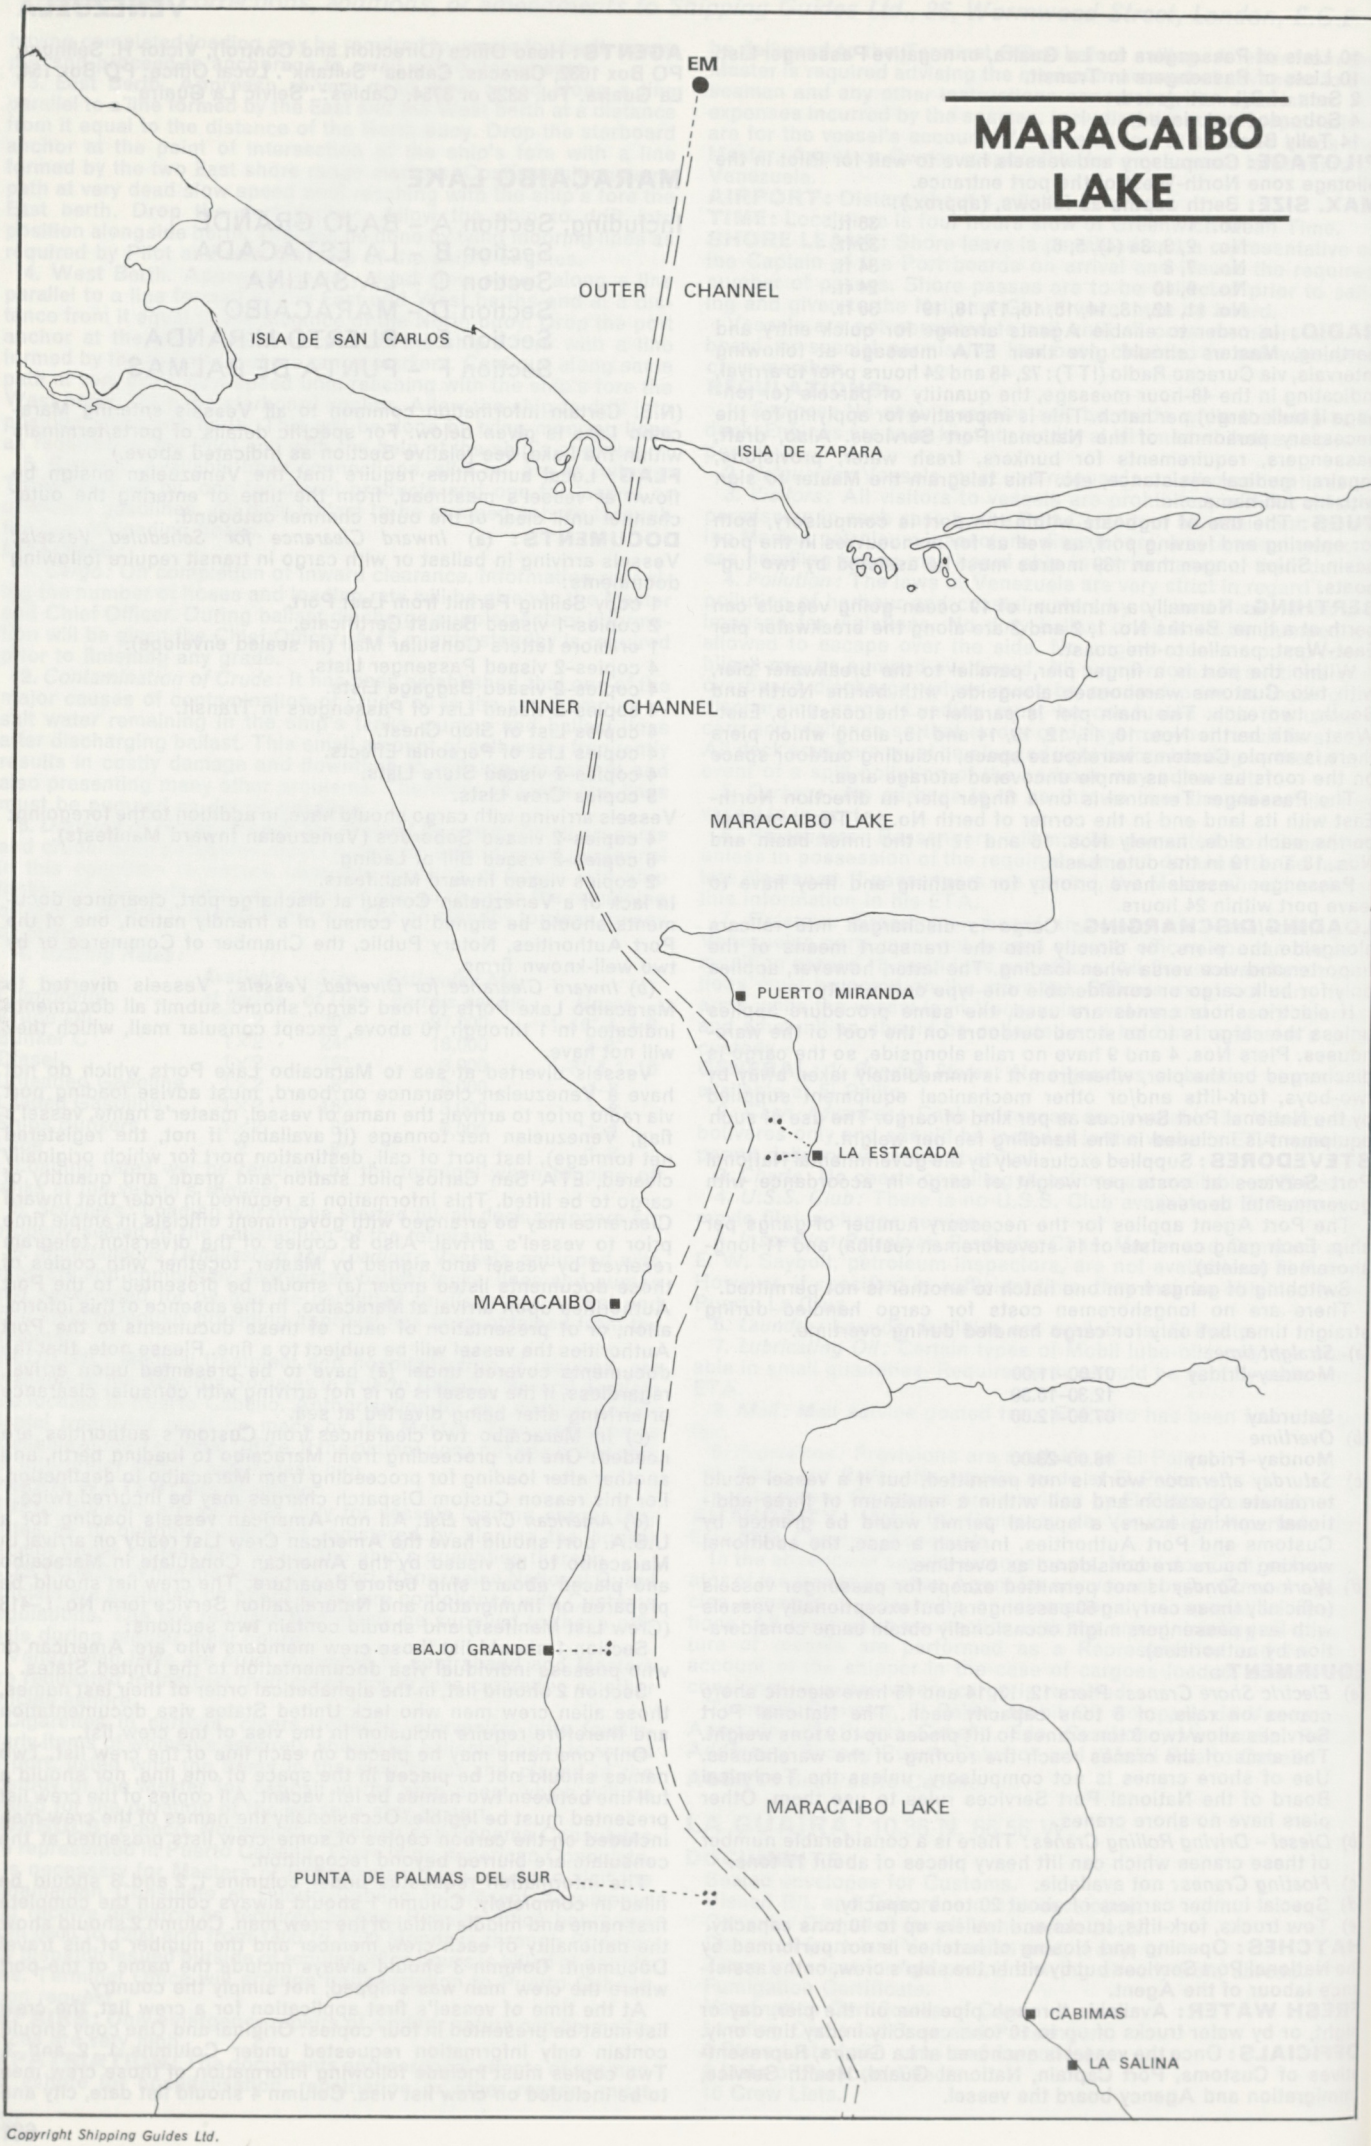
Section 1 should list those crew members who are American or who possess individual visa documentation to the United States.

Section 2 should list, in the alphabetical order of their last names, those alien crew men who lack United States visa documentation and therefore require inclusion in the visa of the crew list.

Only one name may be placed on each line of the crew list. Two names should not be placed in the space of one line, nor should a full line between two names be left vacant. All copies of the crew list presented must be legible. Occasionally the names of the crew men included on the carbon copies of some crew lists presented at the consulate are blurred beyond recognition.

The information requested under columns 1, 2 and 3 should be filled in completely. Column 1 should always contain the complete first name and middle initial of the crew man. Column 2 should show the nationality of each crew member and the number of his travel Document. Column 3 should always include the name of the port where the crew man was shipped, not simply the country.

At the time of vessel's first application for a crew list, the crew list must be presented in four copies: Original and One copy should contain only information requested under Columns 1, 2 and 3. Two copies must include following information of those crew men to be included on crew list visa. Column 4 should list date, city and



Copyright Shipping Guides Ltd.

country of each crew men's birth. Column 5 should show place of issuance of seaman's travel document and name of Government which issued travel document. (It is not necessary to list date of issuance of travel document.)

Below is a sample line correctly entered on the Master crew list.

(1)	(2)	(3)	(4)	(5)
	Z.23455	Maracaibo	December 8, 33	
Bello, Tomás E.	Venezuelan	Venezuela	Caracas, Venez.	Cabimas, Venez

Upon subsequent crew list applications by same vessel within same year, the crew list need be presented in duplicate only, and the information in Columns 4 and 5 need be provided only concerning any new crew members who require visa documentation. When twelve months have elapsed since presentation of Original crew list, a crew list should again be prepared in 4 copies and should contain all the information required in columns 1–5. Such a master crew list is required after each 12 months period.

APPROACHES: The Channels leading to the Lake of Maracaibo are called the Outer channel, the Inner Channel and the Lake Channel. The controlling depths of the Outer Channel, Inner Channel and the channel Southward to buoys M1 and M2 are normally 45 ft. At certain times the controlling depth may be less. At such times suitable notices are published advising mariners of these temporary reductions of controlling depth.

Outer Channel. The Outer Channel starts at the E.M. Buoy in position 11° 13′ 47″ North and 71° 33′ 31″ West. The light characteristics of E.M. buoy are: flashing white every five seconds, visibility approximately five miles. The distance from E.M. buoy to the Southern end of the outer Channel, marked by buoys B–27 and B–28, is approximately 15·75 miles. The channel is 1,000 ft. wide and has a normal controlling depth of 45 ft. LWS with tidal range varying about 2 ft. 3 in. This depth is maintained by periodical dredging. Tankers are required to have a keel clearance of at least 2 ft. and dry-cargo vessels a keel clearance of at least 3 ft. Vessels navigating the channel at the maximum allowable draft are confined from two hours before to two hours after high water. There are no turns in the channel and the course is 189°.

There is a breakwater 0·5 mile East of, and parallel to, the Outer Channel and extending 1·6 miles Northward from the North side of Zapara Island. The end of this breakwater is marked with a skeleton steel tower with a light 27 ft. above sea-level. Light characteristics-flashing white light every five seconds; visibility nine miles.

On Zapara Island there is a skeleton iron tower with a height of 136 ft. above sea-level.

Cross currents are sometimes encountered near Zapara, San Carlos and Pescadero Islands, especially at low water when the cross currents are strong. Overtaking at these points should be avoided.

There is one anchorage zone in the Outer Channel which is a trapezoid on the port side when navigating inbound near the Buoys B–14, B–15, B–16 and B–18. All buoys in the Outer Channel are equipped with radar reflectors.

Caution: Masters are warned to keep adequate speed in the Outer Channel even when embarking the Pilot as strong cross currents are encountered near San Carlos and Zapara Island. Pilot boats are fast and fitted with a flying bridge.

Inner Channel. The Inner Channel continues on the same course as the Outer Channel for about 10 miles, whereafter the direction changes to 150°. Entire length of the Inner Channel is about 12 miles.

The beginning of the Inner Dredged Channel is marked by buoys B–29 and B–30. Channel is marked by beacons, and terminates at beacons T–55 and T–56. The channel is 800 ft. wide and the normal controlling depth is 45 ft. LWS with tidal range varying from 1·5 ft. to 2·5 ft.

The channel from beacons T–56 to Maracaibo Harbour is a dredged channel, the end of which is marked by buoys Nos. B–73 and B–74.

About 0·2 mile South of buoys B–29 and B–30, there are located two towers – one on each side of the channel, and about 1 mile further South are two more towers. These four towers are marked E–31 and E–32 (North) and E–33 and E–34 (South). Towers No. E–31 and E–32 are of single steel pipe construction on a concrete pile base. Towers No. E–33 and E–34 are of skeleton steel construction (former oil-well derricks) each mounted on four concrete piles. The characteristics of these towers are:

		Height above water (LWS)
Tower No.	*Light*	*Light*
E–31	43′	Green – Fl.
E–32	43′	Red – Fl.
E–33	123′	Green – Fl.
E–34	128′	Red – Fl.

Vessels are not allowed to overtake each other in the Inner Channel between buoys B–29 and B–30 and light beacons T–25 and T–26. Vessels may overtake each other in the Inner Channel between light beacons T–39 and T–40 after having exchanged prescribed signals with the vesseis to be passed. This manoeuvre is, of course, allowed only if conditions are favourable and no vessel navigating in the opposite direction is in sight.

Lake Channel. The channel starting at light beacons T–39 and T–40 and leading to Maracaibo Roads is called the Lake Channel. This is a natural channel 3,000 ft. wide and 11 miles long.

The Main Channel through Maracaibo Lake is approximately 83 miles long, not less than 244 m. wide and with a greater depth than the outer channels.

The access channels to the various ports and terminals branch off from the main channel as described under Section for each port.

CHANNEL NAVIGATION:

(*a*) Inbound vessels leave to starboard side the buoys and beacons marked with even numbers and to port side the buoys and beacons marked with odd numbers.

(*b*) Outbound vessels shall leave to port side the buoys and beacons marked with even numbers and to starboard side the buoys and beacons marked with odd numbers.

(*c*) Vessels should pass as close as possible to the channel's edge on starboard side. Loaded vessels have preference.

(*d*) Approaching vessels are to reduce speed in order to minimise the suction force of the displacing waters.

(*e*) Vessels must maintain a distance of five ship's lengths by day and eight ship's lengths by night from other vessels navigating in the same direction.

(*f*) No vessel should start to manoeuvre to overtake another vessel before having received clearly the affirmative signal from the ship to be passed.

(*g*) A grounded vessel is not allowed to start any manoeuvre when another vessel is passing.

(*h*) Dredgers are frequently at work in the channels and caution should be exercised in passing them. Signals used by the dredgers are as follows:

Daytime

Black cylinder hoisted on side of yardarm: You can overtake me on the side on which the cylinder is shown.

Two black balls over the bridge: The channel is blocked.

Night

Green light on side of yardarm (a white light on mast-head helps to show on which side the green lights is placed): You can overtake me on the side on which the green light is shown.

Two red lights over the bridge: The channel is blocked.

The tidal range is 4 ft. at neaps.

(*i*) Maximum speed for vessels navigating in lake channels has been limited to 10 knots. Masters should exercise the outmost care in complying with this regulation as heavy fines may be imposed to offending vessels.

PILOTAGE: (N.B. Maracaibo Pilotage Regulations require that inbound tankers, in ballast, while crossing the Bar, shall not have greater than 8 ft. difference between the fore and aft draft. The Government pilot will not take the vessel if this requirement is not met, unless he is satisfied that the actual draft of the vessel will permit safe navigation through the Outer and Inner Channels.

Every Master of a vessel navigating in Lake Maracaibo who desires to enter the main ship channel in Pilotage Zones No. 1 or No. 2 must first ensure that said channel is free of traffic.

The limits of the Main Ship Channel in Pilotage Zone No. 1 are from buoys B1/B2 located at the entrance to the Outer Bar Channel and buoys B73/B74, of the city of Maracaibo. Pilotage Zone No. 2 begins approximately one mile below Maracaibo and extends Southward to lightfloats M36/M37. All other channels are considered as access channels to their respective port zones and subject to special local rules. Every vessel navigating to or from any port in Lake Maracaibo must follow the prescribed routes through the main and access channels leading to or from such ports, unless special permission has been granted to do otherwise.)

(*a*) Pilots are employees of the Venezuelan Government and act in an advisory capacity; The Master retains responsibility for the ship at all times. In the event it becomes necessary to disregard the Pilot's instructions in order to ensure the safety of the ship, the Master must prepare a full written report of the circumstances, for delivery to the Captain of the port.

(*b*) Inbound vessels have the option at present to embark government Pilot at the following areas:

(*i*) In the channel off San Carlos Pilot Station between buoys B–24 and B–26.

(*ii*) Anchorage area approximately 5½ miles North-east of pilot station, San Carlos Island. Position N. 11° 04′ 22″, W. 71° 33′ 48″ East of buoy B–17. This area is demarcated with green light buoy equipment with radar reflector.

(*iii*) At the E.M. Buoy.

(*c*) The Port Captaincy of Maracaibo is unable to guarantee embarking or disembarking Pilots at the E.M. buoy or at anchorage area position. For this reason Masters should communicate with San Carlos pilot station for necessary instructions as to where to pick up Pilot, who usually embarks between buoys B–24 and B–26. The communication system between San Carlos pilot station and vessels will be by Morse lamp and radio-telephone. The stand-by frequency at San Carlos is 2182 kilocycles. Other existing frequencies are 2120 and 2080 kilocycles; 156·6 and 156·8 megacycles. Each pilot launch has a radio-telephone with 2182 kilocycles frequency. The launch that leaves San Carlos pilot station with Pilot for ship, takes approximately 20 to 30 minutes to cover distance, and distance between Buoys and San Carlos is approximately 6 miles or 10 kilometres.

(*d*) Pilot Permit to navigate the Outer Channel without aid of a government Pilot will be granted to those Masters who desire to obtain same. In order to fill the application required, a blank sealed paper and three copies should be signed by Master on arrival. Copy of this solicitude duly endorsed by port Captain of Maracaibo, will serve the Master as temporary permit until the official one has been received. Masters in possession of permits to cross the Outer Channel without a Pilot, have the option to enter channel either at the E.M. buoy or between any other buoy, taking into consideration the heavy traffic of the channel. Government pilotage through the inner channel is compulsory at all times.

(*e*) Outbound vessels will receive Pilot in Maracaibo, who will pilot vessel up to San Carlos area approximately between Towers E–31 and E–33, where he will disembark. The Port Captain of Mara-

caibo has instructed that all Captains should always in ample time identify themselves with the San Carlos pilot station by radio-telephone regardless of time of day. While inbound – between buoys B–17 and B–19 and sailing outbound – between markers T–42 and T–40. These instructions are obligatory and are required in order for the pilot service to be aware, at any moment, of any emergencies which may arise, and also to avoid, especially during the night, the launch departing with an official pilot aboard believing that the ship in sight needs his services, in which case, even though the launch or pilot services are not rendered, the same will be charged to the company owning the ship, or its representative.

TONNAGE: Venezuelan Port Authorities base part of their pilotage charges on the size of the vessel, i.e.

(*a*) On Registered Net Tonnage. Venezuela will accept the tonnage of ships registered in countries with which they have a reciprocal tonnage agreement. As of this date, such countries are:

Norway	Sweden	Denmark
England	Ireland	Holland
France	Germany	Portugal
	U.S.A.	

(*b*) On Venezuelan Net Tonnage. Ships not registered in countries listed above, when calling at Venezuelan ports for the first time, must be measured for Venezuelan tonnage by the Captain of the Port. It is the usual practice to take ashore the ship's Panama Canal or Suez Canal Certificate, which is used as a basis for recalculating tonnage under the Venezuelan regulations, and return it before sailing. The Venezuelan admeasurement certificate, when later issued, is forwarded to the Owners. A fee is charged for this certificate, which is payable only on the ship's first call.

(*c*) In practice, the procedure for stating the tonnage of all ships entering the Lake of Maracaibo is as follows: The inward Pilot boarding the ship presents Master a form on which among others the Master should fill in the tonnage of ship. Pilotage charges are based on this tonnage given by the Master. Master's attention is drawn to the fact that the Venezuelan net tonnage is usually higher than the International net tonnage. Care should be taken if an old Venezuelan net tonnage certificate is on board, because the country in which the ship is registered might later have signed the reciprocal tonnage agreement with Venezuela. If the pilotage charges are made on basis of a higher tonnage than the one that should be applied, it is later very difficult, if not impossible, to get a refund.

CUSTOMS: (*a*) *Customs Watch.* While vessel is in port, Venezuelan National Guard Officials are assigned on board to ensure compliance with customs regulations. The Law requires meals be supplied to these officials during regular meal hours. Masters are requested to give them the privilege of eating in officers' messroom, to avoid difficulties.

(*b*) *Firearms and Ammunition.* Firearms must not exceed one per officer nor may the ammunition exceed eighteen cartridges per officer. All firearms and ammunition must be carefully declared on Store List and should be collected and held in Master's safe custody while vessel is in Venezuelan waters.

(*c*) *Contraband.* Strict compliance with the customs law of the country is enforced by the authorities, and Masters are strongly advised to caution crew members against attempting to smuggle cigarettes. One open package per person is allowed to be carried ashore, but greater quantity will result in fine and imprisonment of the offender as well as lost ship's time. Due to very strict enforcement of the customs regulations, it is recommended that no goods be carried which are not shown on Store List. Any new articles (clothes, shoes, etc.) should be included in Store List and marked as personal belongings. If during a check-up by Customs, articles considered as contraband are found, this will not only mean confiscation of these articles, but also hours or days of lost ship's time, while the case is handled at court.

CONSULS: The following nations maintain consular representative in Maracaibo:

Belgium	Germany (West)	Peru
Chile	Great Britain	Portugal
Colombia	Guatemala	Spain
Costa Rica	Italy	Sweden
Denmark	Netherlands	Switzerland
Ecuador	Norway	United States of America
El Salvador	Nicaragua	
France	Panama	

TIME: Local time is Greenwich Mean Time minus 4 hours.

VISITORS: All visitors to ships are prohibited except those company employees, petroleum inspectors, etc., whose duties require their presence aboard.

PASSENGERS: Passengers will not be permitted to disembark unless in possession of the required visa and documents. To facilitate clearance, if passengers are carried, the Master should include advice to this effect in his radio ETA.

POLLUTION: The Laws of Venezuela are very strict in regard to the pollution of harbour and coastal waters by oil, and heavy fines are imposed for violations. No dirty ballast, oil or bilge slops are to be pumped or allowed to escape overboard. All overboard discharge valves from cargo tanks and bilges are to be secured before loading or discharging commences. Loading is to be conducted with greatest care and vigilance in order that errors or delays in handling cargo valves may not result in overflows. All deck scuppers should be plugged before loading to avoid harbour contamination should an overflow occur. The Authorities require a written report to be submitted by the ship involved in the event of an oil spill.

SEAMAN LEFT BEHIND: Sailing may be withheld until all crew members are aboard with exception of those ashore for justified reasons. It is important that Masters bear in mind that the Venezuelan Law will at all times hold the vessel's, Master, Agent, or Owner responsible for any seamen left behind in Venezuela.

Section A

BAJO GRANDE: 10.29 N. 71.38 W.

(N.B. For important details of Documentation, Pilotage etc., see "Maracaibo Lake".)

OPERATORS: Chevron Oil Company of Venezuela.

CHANNEL: Entrance and leaving this terminal is made between buoys B.85 and B.86.

DOCUMENTS: Cargo Documents and Outward Clearance.

Captain's copy of Bill of Lading – Bill of Lading form used is usual Warshipoilvoy form. Masters wishing to use another form should Furnish twenty blanks on arrival in Maracaibo.

A Pencil copy of the Certificate of Quantity and Quality.

Customs Clearance – Duplicate of "Conocimiento de Embarque". Duplicate of "Manifiesto de Carga".

(Both stamped and signed by Customs).

Communication – A letter from Maracaibo Customs Authorities to Customs Authorities in Port of Destination.

Zarpe – Permission to sail signed by Maracaibo Port Captain. This is brought on board in Maracaibo by outbound Pilot.

PILOTAGE: Chevronmar's Mooring Master will assist in docking. It should be borne in mind that Docking Master acts as adviser only. The Master retains full responsibility at all times. Any damage incurred to vessel or loading platform which may be deemed to have been caused by Mooring Master or Docking Master's fault or negligence, may be held against the ship.

MAX. SIZE: *No. 1 berth.* Vessels up to 55,000 dwt. tons acceptable, with maximum draft of 40 ft.

No. 2 berth. Tankers at this berth should not exceed 36,000 tons dwt. or displacement on berthing of 20,000 tons, maximum draft 34 ft. 6 in.

Minimum drafts for berthing: 12 ft. forward and 18 ft. aft. Vessels over 18,000 dwt. should have deeper drafts.

RADIO: Information to be cabled to Chevronmar three days prior to arrival.

(*a*) Cable Address is: Chevronmar Maracaibo. Please send through PJC (Curacaoradio) and AAC (All America Cables). Chevronmar offices in Bajo Grande have direct teletype communication with the offices of All America Cables in Maracaibo, and Chevronmar also receive cables over the telephone from AAC until 9 p.m.

(*b*) Flag. If vessel has loaded in Bajo Grande before the nationality of the vessel need not be cabled.

(*c*) Sailing port, and at which other port vessel will call in this area. For clearing vessel in and out in Maracaibo, Chevronmar must know beforehand from where ship comes and which other port it will call in this area. Therefore, it is of importance to inform Chevronmar whether vessel will load part cargo or bunker, at which terminal, and whether inbound or outbound.

(*d*) Port for which Vessel is cleared. In case vessel was diverted en route and consequently is not cleared for Maracaibo or one of the terminals in Lake of Maracaibo, Chevronmar must obtain from authorities special permit for vessel to enter Lake of Maracaibo.

(*e*) Ballast Certificate. If vessel arrives in ballast a Ballast Certificate is mandatory. A fine against vessel will be issued by Port Authorities if vessel does not have this certificate.

(*f*) Estimated Time of Arrival. Cable ETA San Carlos pilot station Buoys 25–27, 72 and 48 hours prior to arrival there, or, if vessel is taking part cargo or bunkering inbound, cable ETA bunker or first loading port. Please use local time if possible (four hours slow of Greenwich Mean Time).

(*g*) Net Tonnage. If vessel has not loaded in Bajo Grande before, also cable net tonnage. To determine whether international or Venezuelan net tonnage should be mentioned, see "Maracaibo Lake".

(*h*) Master's full name. Please sign first message with Master's first name and surname.

(*i*) Changed ETA. An additional cable should be sent about 48 hours and 24 hours prior to arrival at pilot station buoys 25–27 if ETA is changed.

TUGS: The Venezuelan Government has ruled mandatory the use of two tugs for docking and undocking and also to have stand-by tugs during loading operations.

BERTHING: Loading Pier in position 10° 50′ North and 71° 36′ 8″ West or about 8 miles or 12·8 kilometres South of Maracaibo on Western shore of lake and about 9000 ft. offshore with its centreline North-south. Two vessels can berth simultaneously, one outside at berth number one and inside at berth number two. Bajo Grande Pier heads are 700 ft. apart. However longer ships have been tied up. Design of fenders permits berthing of vessels with a displacement of 42,000 tons.

NOTICE OF READINESS: Masters are free to tender their ships as being ready to load at any place and time which, in their opinion, conforms with the terms of the charter party. Chevronmar's personnel authorised to countersign notice of readiness have been instructed to indicate the time vessel was all fast or, if vessel anchored to wait for berth, the time vessel anchored. This does not imperil in any way the rights of the shipowner in his negotiations with the charterer and it limits Chevronmar's liability to the consignee.

BALLAST: Shore deballasting facilities are available at Bajo Grande. Deballasting facilities at Bajo Grande are subject to no special regulations and procedures. Tanker ballast water is pumped

through two 8 in. hose connections into a 24 in. line of about 9,000 ft. in length to a 120,000 bbls. receiving basin situated on shore. Contamination of Lake Maracaibo waters with only material of any nature is strictly prohibited by Venezuelan Laws. Chevron Oil Company of Venezuela is required to report to the authorities any such contamination by vessels docked at Bajo Grande. Heavy fines are then assessed against the ships. Co-operation is requested to prevent contamination from tank overflows, bilge oil, line leaks or any other source.

TANK CLEANING: (Before Loading). Precautions as are common for any heavy oil should be taken to insure that no ballast was left in any tank. If the cargo is contaminated with water, the water will not separate from the oil. The salt content of the oil will be raised approximately ten pounds per one thousand barrels for every 0·10% contamination by sea water. All cargo compartments must be stripped extremely dry. Cargo pipelines should be drained and/or purged of water. On standard T-2 type vessels, this can be done by draining the fore and aft main cargo lines, both suction and discharge sides, into the pump room bilges followed by opening of main suction valves on each individual compartment, thereby releasing water retained in dead and transverse lines. After this procedure is completed, each compartment should be restripped with stripping pumps and lines, followed by draining the stripping line to pump-room bilges. On other ships equipped with looped systems, it is possible to blow the system with air and drain water into the bilges. In other situations, fresh water might be used to flush cargo systems of salt water and in turn strip salt water and fresh water as outlined for T-2 vessels. All deck scuppers should be securely plugged and all precautions should be taken to avoid pollution of lake waters.

LOADING:

Product	*API Gravity*	*Loading Temperature °F*	*Loading Lines used*	*Loading Rate B/H*
Boscan Crude	10.3–10.4	160	2×18″	12,000
Boscan Crude Blends	18.2–31.0	120	,,	,,
Topped Boscan Crude	10.0	160	,,	,,
Topped Boscan Crude Asph Grade	8.0–11.0	160	,,	,,
Cutback Asphalt	11.0–15.0	170	2×12″	4,000
Asphalt Cement	5.0–8.0	300	1×14″	,,
Gas-oil	35.0–42.5	90	1×12″	5,000/7,000
Fuel Oil No. 6 (Bunker "C")	16.0–17.0	140	1×12″ 1×18″	3,000 14,000
Heavy Naptha (HSR)	52.5–53.5	80	1×12″	5,000/7,000
Light Naptha (LSR)	70.0–73.0	,,	1×12″	5,000/7,000
JP – 4	45.0–52.0	,,	1×12″	5,000/7,000

(*a*) Inspection of Tanks. Before loading can commence, tanks and loading system must be inspected and passed. This is usually done by Chevronmar's own cargo inspector but, if consignee so requests, third party inspection can be arranged. Both Chas. Martin and E. W. Saybolt & Company are represented in Maracaibo.

(*b*) Line Displacement. When a vessel is loading crude and products, it is usually necessary to displace lines once or twice during loading. Masters will be advised of necessary line displacements before loading starts and are requested to take note because notice has to be given by vessel when pumping should be stopped and tank changed. Once shore tanks have been changed it will not be possible to change the quantity of the product already in the ship, as shore lines will then contain a product different from the one already loaded. Ship's gauges and/or draft should be carefully checked when calculating required quantities.

(*c*) Spillage. In case spillage occurs, the port supervisor must be advised immediately, as any spillage must be reported to the Authorities without delay.

(*d*) After Loading. All butterworth plates, tank tops and ullage plugs should be inspected to insure against entry of salt water. Inspection of ullage plugs should follow on completion of temperature readings because of the necessity of taking temperatures enroute. Sea suction valves should be secured by positive means until all cargo has been discharged. This may be accomplished by numbered seals, chains and padlocks. The method of securing should be noted on the inspection documents. Regardless of which method is used, appropriate log entries should be made indicating the date, time and method used and under whose supervision, both vessel officer and/or cargo inspector, such method was applied. About one hour is required for preparation of documents.

BUNKERING:

(*a*) Advance Notice of Requirement. Owners, operators, or Agents should place their nominations with Chevron International Oil Company Inc., San Francisco, California; Chevron International Oil Company Inc., New York, N.Y., and Chevron International Oil Company, Ltd., London.

Cable addresses: "Chevronint, Sanfrancisco;" "Chevronint, New York," and "Chevronint, London".

In order to serve customers without inconvenience or delay nominations should be placed as much in advance of the delivered date as possible.

(*b*) Bunker Facilities. Bunkers available ex pipe line for vessels loading and unloading cargo at berths No. 1 and No. 2. Bunkering rate up to 10,000 barrels per hour for Bunker Fuel and Intermediate Bunker Fuel, up to 6,200 barrels per hour for Marine Diesel.

(*c*) Marine Fuels and Lubricants available: Bunker Fuel, Intermediate bunker fuels, Marine diesel, Lubricants – Full line of Chevron Marine Lubricants subject to seven day's advance notice.

(*d*) Lighterage. Bunker fuel, Intermediate bunker fuels and Marine diesel available for ships in the Maracaibo area. 72 hours advance notice is required for barge deliveries of all products.

WATER: Delivery of boiler and potable water is made by barge. Minimum quantity 80 tons. The barge holds about 160 tons and the pumping rate is about 25 tons per hour. Requirements should be cabled in advance.

REPAIRS: No major repair facilities are available in Maracaibo but small jobs can be taken care of by local machine and electric shops. Shore labour can be furnished if required. Technicians are available for minor radio repairs. Nearest dry docks are at Curacao for vessels up to 18,000 DWT and at Puerto Cabello for vessels up to 30,000 DWT. There is a submarine 2400 volt power line to the pier. Electric power can be supplied.

SHORE LEAVE: Shore Leave is permitted at the discretion of the port authorities: required number of shore passes will be brought on board on arrival in Maracaibo and have to be returned to the customs guard again before the vessel leaves Bajo Grande. Shorts may not be worn ashore.

GENERAL: (*a*) *Visitors.* According to port regulations concerning access to ships and loading terminals and in the interest of industrial safety, only persons directly concerned with loading operations will be permitted to board vessel or visit the loading platform at Bajo Grande.

(*b*) *Guards.* Two customs guards are stationed on the platform at Bajo Grande. They must be provided with sleeping quarters on the ship and seated in the officers' mess for their meals. Non-compliance may cause cargo stoppage and fines. The Customs Guard will request master to countersign his time on board the vessel. This is counted from time first hose was connected until all hoses were disconnected, regardless of whether vessel was receiving cargo or not.

(*c*) *Plimsoll Marks.* Port Captain requires that Plimsoll marks be readily visible. If they are not clearly legible, permission to sail may be withheld.

(*d*) *Marine Stores/Charts.* Marine stores are available in limited supply. Marine charts are not available.

(*e*) *Compass Adjusters.* There are no compass adjusters in Maracaibo.

(*f*) *Classification.* American Bureau of Shipping and Lloyd's Register have Agents in Maracaibo.

(*g*) *Cash Advance.* Cash advances are made only in local currency (Bolivares). In order that money be available on arrival, Masters are requested to include the amount required in the arrival message.

(*h*) *Launch Service.* The launch is primarily for the use of the port staff, but will transport crew when convenient.

(*i*) *Taxi.* Taxi service is generally available at Bajo Grande. It is recommended that the price be fixed in advance.

(*j*) *Crew in Transit.* In case a crew member is left ashore for a justified cause, as hospitalisation, repatriation, etc., his documents and personal effects are to be delivered to the port supervisor at Bajo Grande before sailing. A letter is required from the Master with detailed instructions as to maximum cash advance etc. All expenses incurred by such members are for vessel's account.

(*k*) *Gangways.* The ship is to supply a safe gangway, which allows easy access to the vessel. Chevronmar has a gangway which may be used at request with the understanding that any damage to the gangway or ship or shore personnel through its use may be held against the ship.

SAFETY: Vessel must be in readiness to move at all times. The attention of Masters of turbine steamers is called to this regulation.

Ship's fire-fighting equipment must be ready for instant use while vessel is alongside. Shore personnel will render assistance in an emergency but, since no fire-boats are stationed in the immediate area, vessels should be prepared to combat fire without outside assistance. It is necessary to obtain docking Master's approval for repairs of propelling machinery. Normal safety precautions apply, no smoking is permitted on the pier. No hotwork is permitted on vessels alongside without a written permission from the Port Supervisor. Swimming alongside pier is dangerous and absolutely prohibited.

CARGO TEMPERATURE: On short voyages, as for instance to the U.S.A., it was proved most practical to maintain the loading temperature. On longer voyages, as for instance to Europe, the temperature may be dropped to 130 °F, which does no harm as long as sufficient time is given to bring the temperature up again to that required for discharging. Masters should, however, not expect a temperature rise of more than 5°F per day, especially if the sea temperature is low. The heat transfer properties of Boscan Crude are very poor as are those of the heavy products made from this crude. Many ships have been delayed at the discharging port due to too low cargo temperature. Without exception, Boscan Crude, Topped Boscan and cutback asphalts should have at least 160°F on arrival in discharge port.

DISCHARGE: Boscan Crude has a flash point of 90–160°F and a maximum viscosity of 1400 SSF at 140°F. The viscosity at other temperatures follows the pattern of other petroleum products. Boscan Crude has been successfully handled in ships fitted with both reciprocating and centrifugal type pumps with forward and after pump rooms respectively. It is generally found that this crude can best be handled at a temperature which brings its viscosity to about 600 SSF 160°F. Vessels with forward pumproom should control stern trim so that it does not exceed about four feet while stripping the after tanks. Also a five-degree list is very helpful when stripping. Once the cargo gets below heating coils, tanks must be pumped empty as fast as possible. At times if has been found helpful to gather tanks strippings into a single tank for discharge ashore, as it is very difficult to strip against heavy back pressures. Watch re-

ciprocating pumps for vapour-lock. Because of high viscosity, proper care should be taken that no oil is left in vessel discharge lines at low temperature.

TANK CLEANING: (After Discharge). Many Masters have expressed concern over tank cleaning after discharge. Assuming that ship proceeds to sea for this operation and has sufficient time for proper execution, vessel may be cleaned quite thoroughly using the butterworth system. However, it is of vital importance that the system be used at maximum pressure, and temperature not below 160 PSI and 170°F respectively. At these readings and with two machines, it has been found that about four hours are required for each tank. It is of important to keep the tanks well stripped during the butterworthing.

Some Masters prefer to steam out the tanks before butterworthing. If this course is adopted care should be taken that the steaming does not last more than one hour as the heat will drive off the light ends of the oil and leave a rubbery residue that is very difficult to remove.

It has been found helpful to keep the machines in low position for about one hour and then high – middle and low in order, in the usual manner.

AGENT: Chevron Oil Company of Venezuela, Apartado 93, Maracaibo. Cable address: "Chevronmar".

Section B

LA ESTACADA: 10.42 N. 71.32 W.

(N.B. For important details of Documentation, Pilotage etc., see "Maracaibo Lake").

OPERATORS: Texaco Maracaibo Inc.

LOCATION: Loading terminal in the Lake of Maracaibo at La Estacada, located at 10° 42′ 30″ N. and 71° 31′ 40″ W. Entrance and leaving this terminal is made between buoys B.65 and B.66.

DOCUMENTS: As soon as vessel is safely moored Texaco's marine dispatcher will board the ship together with the port authorities.

PILOTAGE: (see "Maracaibo Lake").

1. All vessels must call Texacomar on 2182 kc when passing the E.M. buoy and when embarking the Pilot at San Carlos.
2. Reduce speed approaching inner channel buoy B–63; rig accommodation ladder starboard side properly illuminated. Company mooring master will board between B–63 and B–65.
3. Listen during transit on 2182 kc.
4. In event of unforeseen circumstances requiring vessels to anchor, area West of Estacada Northern buoy mooring outside of channel limits will be used.

Vessels proceeding to La Estacada Terminal must enter the Outer Channel and embark the Government Pilot between buoys B–25 and B–27. After vessel arrives in the vicinity of the E.M. buoy, Master must contact San Carlos Pilot Station by radio-telephone on frequency 2182 kc requesting Pilot between buoys B–25 and B–27.

Once Pilot is on board, the vessel will proceed to Estacada, reducing speed in vicinity of Inner Channel buoys B–63 and B–65 where Texaco's mooring master will board. Vessel should have a strong line ready to hoist Texaco's mariner radio on board. The official Pilot will stay on board until vessel is moored.

MAX. SIZE: Water depth in both buoy moorings is 44 ft. mean monthly observed lowest water (MMOLW). Because of the depth of the surrounding approaches, 41 ft. (MMOLW), admissable mid ship's maximum draft in both moorings is 39 ft. freshwater. Under certain tidal conditions, however, with vessels over 60,000 DWT and LOA exceeding 750 ft., it may be necessary to restrict loading to 38 ft. 6 in. Masters are requested to be guided by Mooring Masters in appropriate draft to be loaded.

Berth No. 2 will accommodate vessels up to 850 ft. LOA, and Berth No. 1 up to 720 ft. LOA. Beam in both berths is unlimited.

RADIO: Information to be cabled to Texaco Maracaibo Inc. Cable address: "Texacomar, Maracaibo".

Upon vessel's departure from the last port bound for La Estacada cable 72–48 and 24 hours ETA at San Carlos pilot station, including in this message last port, Master's name, if a.c. current on board and any requirements. If diverted, cable original destination, also have 5 copies of diversion cable ready on arrival. If the vessel is nominated to load a part cargo only at La Estacada, indicate at which port cargo will be completed. All cables should be sent via PJA (Curacao Radio) and via ITT all American Cables.

BERTHING: (*a*) *Description:* Marine Oil Loading Terminal, owned by Texaco Inc., is an off-shore installation and consists of two permanent buoy moorings, No. 1 to the South, and No. 2 to the North.

Berths No. 1 and No. 2 consist of 4 fourteen-foot cylindrical steel buoys, each fitted with a pelican hook to which ship's mooring lines are attached by Texaco's mooring launches. On each buoy there are two 1⅛ in improved plow steel wirelines to supplement mooring lines in order to provide additional security during strong winds. In berth No. 1 the plow steel wires are 520 ft. long and in berth No. 2 585 ft.

Both berths are two directional; ships moored heading North or South according to prevailing current.

(*b*) *Deballasting.* No facilities at La Estacada to receive dirty ballast, Ballast must be clean, and is discharged into the Lake.

(*c*) *Mooring.* All ships should have an adequate supply of stoppers or other special equipment necessary to handle wires attached on mooring buoys. Vessels mooring in berths must be equipped with four ropes for ward and four ropes aft. Vessels are cautioned that good quality ropes are essential and that they will be held liable for any damage occurring through improper or poor mooring ropes or inability to properly handle same.

Vessels in buoy moorings must have deck winches in readiness for use at all times. Method of berthing will be at discretion of Company's mooring master, as weather and other conditions permit. During berthing and unberthing, ship's engines, tackle and all other gear must be in operative condition and in a state of readiness for use on immediate notice.

Weather permitting, and berths being available, vessels may be berthed at any hour of the day or night. Mooring buoys are properly lighted. Texaco's mooring master will assist in mooring the vessel in berth No. 1 or 2. Loading hoses can be connected both port and starboard side, according to ship's position. The mooring master will remain on board ship to advise on connecting and disconnecting loading hoses, and loading of cargo. He will later unmoor vessel and hand over to government Pilot on departure.

Mooring Master acts as adviser only and the Master retains full responsibility at all times. When ship is in position and mooring wires tautened, mooring winches such as tension winches must have their manual brakes put on securely, and should not rely on automatic rendering devices.

During time vessel is at the berth, frequent and regular inspection of mooring is essential to ensure that mooring lines are kept taut and that movement of ship is kept to a minimum. When tugs are alongside or assisting a tanker, all cargo openings, permanent ballast tanks, lids and pump-room doors must be closed no matter what grade oil is being or has been carried, unless these spaces are gas-free.

The mooring operations are carried out by two mooring launches and two tugs.

TUGS: Use of two tugs of at least 1,600 h.p. is compulsory for mooring and unmooring at La Estacada (Government Decree). Use of two mooring launches with crew including a diver, who inspects the submarine loading hoses, is compulsory at La Estacada. These mooring launches remain alongside ship during stay in berth order act in any emergency.

TANK INSPECTION: As soon as all ballast is discharged and hoses connected, production supervisor from La Estacada boards to inspect ship's tanks. If same are dry and clean he will sign corresponding certificate.

LOADING: Berth No. 1 has two loading lines (one 24 in. and one 16 in.) with corresponding manifold, and Berth No. 2 also has two lines (one 24 in. and one 18 in.). Twelve-inch – 150 pds. marine loading hoses are used. Each berth capable of a maximum loading rate of 25,000 barrels per hour, with an appropriate reduction for topping-off.

However, maximum loading rate entirely at Company's option and will vary according to circumstances and type of tanker concerned. When completing loading, stoppage of cargo will be determined on board, and Masters are requested to inform mooring master at least 30 minutes in advance in order reduce pumping rate for topping-off. Mooring master will be in continuous contact with pumping station by means of portable radio. Should this means of communication fail, the following signals on ship's whistle will apply:

One long blast	Stand by
Two long blasts	Commence pumping
Three long blasts	Stop pumping

Upon completion of loading, marine dispatcher, together with ship's officer, will gauge ship's tanks and later prepare cargo documentation.

FUEL: Bunkers and marine fuels supplied by barge before or after loading operation at anchorage. Chevron, Creole, and Shell have bunker service in Maracaibo.

FRESH WATER: Must be ordered with first ETA cable so that arrangement can be made with supplier. A water barge and a tug must be hired. Although the water may be supplied by Texaco, the hire of tug and barge is very expensive. Recommended that Masters obtain adequate fresh water at other ports.

REPAIRS: Only smaller repairs can be effected locally; however, technicians available for radio and radar repairs.

SHORE LEAVE: Launch is primarily for use of authorities and company staff, but will effect trips for crew if required by Master. Contact mooring master who will make necessary arrangements.

GUARDS: One National Guard stationed on board. He must be provided sleeping quarters and seated in officers' mess for meals.

CLEARANCE: Immediately after termination of loading operations, hoses are disconnected and Texaco's mooring master will proceed to unmoor vessel. In the meantime, cargo documents are prepared by Agency personnel, the government Pilot is ordered, and as soon as vessel is cleared, she will proceed to her destination.

CURRENT/DENSITY/TIDE: Current velocity maximum 4 knots. Nature of bottom, mud. Salinity of water, 997–1003. The tidal range in feet for the Estacada Terminal is springs 1.5 neaps 0.5.

GENERAL: (*a*) *Cash Advance.* Cash advance will be in local currency (Bolivares). Cable in advance any such requirements.

(*b*) *Mail.* Outgoing correspondence may be given to our marine dispatcher. For personal mail (crew) a list should be made, indicating name of crew member, quantity of letters and destinations.

(*c*) *Ship Chandlers.* Two ship chandlers in Maracaibo who can supply vessels with fresh meat, fish, vegetables, fruits, etc. Requirements should be transmitted in first ETA cable.

AGENT: Texaco Maracaibo Inc.

Section C

LA SALINA: 10.22 N. 71.28 W.

(N.B. For important details of Documentation, Pilotage etc., see "Maracaibo Lake".)

OPERATORS: All terminal facilities are under the control of the Creole Petroleum Corporation.

APPROACH: Entrance and leaving this terminal is made between buoys B.97 and B.98.

LOCATION: La Salina located on Eastern shore of Lake Maracaibo, in latitude 10° 22′ 18″ N., longitude 71° 27′ 49″ W.

CARGO DOCUMENTS: These are generally placed on board prior to departure. Vessels whose Master accepts the early departure procedure may sail with documents in blank. Figures are then radioed for inclusion in blank documents. Outward clearance documents are placed on board the vessel prior to departure.

PILOTAGE: In the event that no contact can be made with San Carlos pilotage station, or if there is a language problem, contact should be made with Creole Marine at La Salina by voice radio on 2182 kc or 156·6 Mc.

A vessel entering or leaving the harbour must be assisted by a Docking Master in the general employ of area furnished by Creole Petroleum Corporation, an inbound vessel being boarded by him at the anchorage area approximately 3 miles off shore.

ANCHORAGE: For vessels awaiting berth there is an anchorage area located West of a line between rig L–175 to buoy S3 and the light buoys M1, M1A and S1 (chart No. MO-G-4-C) about 3 miles West of the loading Terminal in 6 to 7 fathoms of water with a mud bottom.

RESTRICTIONS: None. The port is open for navigation during the day and night, allowing ships to enter and sail at any hour.

MAX. SIZE: Up to 110,000 DWT. The access channel to La Salina has a least depth of 41 ft.

RADIO: The cable and telegraphic address for the Creole Petroleum Corporation at La Salina is "Creole La Salina". Radio messages to and from ships at sea are routed through the government radio station at Maiquetia (La Guaira) call letters YVG. This station operates on a 24 hour continuous watch, on the following frequencies: Listening frequencies: long wave: 500 kc/s; short wave: 4178–6267–8356–12534–16712–22225 kc/s.

Transmitting frequencies: long wave: 500–472–464–417 kc/s; short wave: 17141.6–12817.5–8730–8722–6519.5–6505.5–4352–4322 kc/s.

Radio notice of arrival should be sent 72 hours prior to arrival at La Salina and corrected if weather or other conditions delay the vessel.

La Salina Port Services section maintains radio-telephone listening watches on a 24 hour basis on following frequencies: 2182 kc/s., 156·8 Mc/s.

Frequencies 2638 kc/s, 2738 kc/s, 2120 kc/s and 156·6 Mc/s are available for use after initial contact on one of the above listening frequencies.

All vessels en route to La Salina may also communicate with Creole Amuay or Caripito Marine offices and request that messages dealing with corrected ETA's, pilots and other business be relayed to the La Salina Marine Office.

TUGS: Creole maintains one 3,000 h.p. diesel tug and one 1,600 h.p. diesel tug. Tug-boat assistance is considered essential and is afforded all vessels entering, leaving or shifting in the harbour.

BERTHING: At La Salina, Creole maintains a deep-water terminal (Lacustre) consisting of an island where are located two finger piers, each 1,100 ft. in length and 500 ft. between piers, providing four berths to accommodate tankers up to 110,000 DWT. Berths are numbered 6N, 6S, 7N and 7S, from North to South. At these berths various crudes can be loaded simultaneously. In addition there is an offshore platform (Pier No. 3) where liquefied petroleum gases (Butane and Propane) can be loaded and refined products can be loaded or discharged.

Instructions concerning berthing are given by Port Services Section by means of radio-telephone.

The use of an anchor when docking is permitted at all berths. It is considered prudent to have the outboard anchor hove-out prior to entering the harbour in order to facilitate speedy release if necessary while docking. The Pilot will advise whether the ship is to be berthed port or starboard side to the dock.

BALLAST: Vessels should arrive at La Salina with sufficient ballast to permit safe handling. Docking Master requirements in this connection under normal weather conditions are interpreted as drawing approximately 8 ft. forward, 18 ft. aft. on a T–2 or similar type tanker, and 11 ft. forward, 20 ft. aft on a 26,000 DWT, or larger type vessel.

Ballast should be carried in a minimum number of tanks, and all other tanks stripped, so as to minimize deballasting time.

It has been established that one of the major causes of contamination of crude oil is the relatively small amount of salt water remaining in the ship's tanks, pumps, and ballast lines after ballast discharge. This very small amount of salt, nevertheless, frequently results in costly damage and downtime to refining equipment, besides presenting many other processing problems.

It is therefore requested that the full co-operation of the Master and Officers of ships loading for Aruba, be given to ensure that all ballast tanks and lines are flushed with lake water and stripped as dry as possible.

Vessels equipped with a separate and completely segregated system of ballast tanks, lines and pumps, will be permitted to discharge ballast and load cargo simultaneously, providing approval of both the pier foreman and Petroleum Inspector is secured.

A pier supervisor who is in direct communication with the loading pumphouse is stationed at each pier during the entire time the vessel is discharging ballast or cargo or receiving cargo.

Absolutely oil-free ballast may be discharged overside. All dirty ballast must be pumped ashore. A 34 in. ballast line, with dirty ballast treating facilities are available.

If it is desired to follow the "load-on-top" procedure it is requested that the marine representative be informed on arrival.

LOADING: Instructions as to grade or grades of cargo, and the approximate loading rate anticipated, will be given to the Master on arrival. Supplementary information including number and size of lines and Chicksan Arms will be furnished to the Chief Officer before loading commences. Loading rates will be reduced as required when topping off.

If vessel's loading order from owners or characters do not agree with the terminal's orders, either as to grades or quantity, the marine representative should be advised immediately. The terminal is authorised to load 10% more or less than the quantity nominated; if the cargo to be lifted will be more or less than this 10% limitation it is necessary to cable Creole New York for confirmation.

A terminal employee is stationed at each pier during the entire time the ship is discharging ballast, bunkering, or loading cargo. Fifteen minutes "standby" notice should be given to this man prior to completion of ballast, bunkers, or cargo.

Shut-down controls for all crude oil pumps are available at each loading berth at ship's rail of loading vessels for use in case of emergency only.

LOADING RATES: Loading operations at La Salina Terminal are normally carried out at relatively high pumping rates; up to an average of 40,000 BPH. Ship's officer will be advised by the pier supervisor at what rate the cargo will be loaded. LPG is loaded up to an average maximum rate of 7,500 BPH at Platform No. 3.

The loading and discharging of all crude petroleum and its products will be stopped during the passage of an electric storm, and ullage covers must be closed and dogged down. During periods of calms, loading of gasoline or other similar low flash products may be at lower rates or loading stopped if the heavy vapours are not being dispersed quickly enough to prevent hazards from accumulated gas pockets. Ships' officers are cautioned to be on their guard during such conditions.

Loading rates will be reduced when topping off, if requested by the ship's officer.

MEDICAL: Complete medical, dental and hospitalisation facilities are available at La Salina. Medical treatment is provided at a Creole operated clinic.

Authorisation forms for medical treatment are provided which require the Master's signature. Transportation will be supplied by Port Services section.

If the patient does not speak Spanish or English, an interpreter should accompany him.

FRESH WATER: A limited supply of fresh and boiler water is available at La Salina Lacustre Terminal. Delivery is made through 2½ in. National Standard Fire Hose Thread hydrants. Ship's personnel must provide hoses and connect up.

FUEL: Bunker C fuel oil, marine diesel and intermediate fuels are available at La Salina Terminal Lacustre. Delivery is made alongside Piers 6 or 7 by 8 in. diameter Chicksan hose, located about midship's.

It is the responsibility of the ship's engineer to give "stand-by" notice to the terminal employee and advise him when to shut down.

Supplies of Essomarine lubricating oils are available. Delivery will be effected while loading and requirements should be incorporated in the ETA radio.

DENSITY: The average density at the berth is 1002 but varies dependent upon amount of rainfall. The temperature ranges from 82° to 86°F.

REPAIRS: The Marine Port Staff will assist with emergency repairs as may be required in each case depending upon availability of competent personnel and equipment. The company's shop facilities while not equipped for extensive ship repairs, may be made available to fabricate or repair items that are urgently required.

The nearest dry docks are those at Puerto Cabello and Curacao, N.A. Several contractors in the area provide labour for hull painting and for tank cleaning. Contracts for these services are made by the ship's Master directly with the contractor.

Radio technicians are available for minor repairs. With sufficient advance notice a radar specialist can be arranged to board the ships at La Salina.

CONSULATES: The following countries have consular representatives in the area:

Belgium	El Salvador	Nicaragua
Chile	France	Panama
Columbia	Germany (West)	Peru
Costa Rica	Great Britain	Spain
Denmark	Guatemala	Sweden
Dominican Rep.	Italy	Switzerland
Ecuador	Netherlands	U.S.A.
	Norway	

SHORE LEAVE: Shore leave is permitted and a representative of the Captain of the Port boards on arrival and issues the required number of passes. Shore passes are to be collected prior to sailing, and given to Pilot undocking the vessel. Vessels are not permitted to sail until all crew members are on board, unless hospitalised or prior arrangements made for disembarking. No launch service for liberty parties is available while vessel is anchored off La Salina awaiting berth.

GENERAL: Representatives of the Marine Department board

vessels immediately on arrival, and it is particularly requested that Masters indicate at that time all ships requirements. The Marine Office Building is located at the Pierhead Trestle and personnel are available for assistance at all hours.

(*a*) *Bonded Stores.* Cigarettes or other stores in bond are not obtainable in La Salina.

(*b*) *Cash Advances.* Cash advances are made in local currency, the Venezuelan Bolivar. Cash requirements should be included in the ETA radio.

(*c*) *Charts.* On first arrival of each tanker, the Marine Dispatcher will furnish a set of local charts if required. No supplies of U.S. Hydrographic or British Admiralty charts, or sailing directions, are available.

(*d*) *Classification Societies.* American Bureau and Lloyd's Register have non-exclusive Agents in Maracaibo, and qualified Masters and Chief Engineers are available for appointment as Surveyors when required.

(*e*) *Gangways.* All vessels using the port of La Salina must provide a safe gangway. The use of rung ladders, pilot ladders, etc., is contrary to port regulations and port authorities will not board except by means of a safe gangway or accommodation ladder.

(*f*) *Plimsoll Marks.* The Captain of the port requires that the Plimsoll Marks of all vessels using the port be clearly visible. Vessels may be checked on completion of loading, and if the Plimsoll Marks are not readily legible, permission to sail may be withheld.

(*g*) *Port Services.* On arrival at La Salina terminal, a company representative boards vessels, so it is particularly requested that Masters make known to him all ship's requirements. Master should bear in mind that while vessels are within Venezueland territorial waters, Government authorities do not permit the use of ship's radio equipment. Cables and radiograms should be handed to the company representative for transmittal via shore radio communication system. La Salina has also radio telephone communication with North and South America and Europe. For further information contact Port Services Section in the terminal building, tel. 88694 and 88695.

(*h*) *Ratguards.* By order of the Port Authorities, vessels are required to use ratguards on all mooring lines.

(*i*) *Personnel* – Seamen left ashore. In the case of seamen left ashore for hospitalisation, repatriation or other reason, his documents and personal effects are to be delivered to the Marine Office in La Salina before sailing. A letter is required from the Master advising maximum advances to be made to seaman if any, and instructions concerning his repatriation. All expenses incurred by seamen left ashore, including cost of repatriation, are for ship's account.

It is important that Masters bear in mind that the Venezuelan law will at all times hold the vessel, her Master, Agent or Owner, responsible for any seamen left behind in Venezuela.

(*j*) *Provisions and stores.* Fresh and dry provisions are supplied by various shipchandlers in Maracaibo and Cabimas (La Salina). Master should deliver his signed requisition to the Marine Department representative who boards on arrival. Provisions would then be delivered to the vessel while loading. The prices and quality of some items, such as fresh fruit, fish, shrimps, vegetables, etc., are competitive; dry stores are considerably higher than in most ports. The Fleet Steward will assist in filling requisitions. It is important that the Master sign the ship-chandlers invoice as authorisation for the Marine Department to make settlement.

(*k*) *Mail.* Any pending ship's mail will be delivered on board by the Marine Dispatcher on arrival at La Salina. At same time he will receive ship's mail to be dispatched. The Marine Dispatcher will accept personal mail only if it carries the proper amount of Venezuelan postage, or if Master authorises the postage by signing seven copies of the Company Postal Transmittal form. Masters interested in knowing the individual postage amounts to be paid by each crew member, should provide us with a list, in duplicate, of the senders, and number of letters sent by each one identified by a number written on each letter.

Copy of this list will be returned aboard the vessel when leaving this port outward bound. If not ready on time, it will be airmailed to the vessel's next port of call.

(*l*) *Inspection of Petroleum Products and Crude Oil.* Chas. Martin & Company and E. W. Saybolt petroleum inspectors are available if specified.

(*m*) *Laundry.* Laundry service is available between 0700 and 1700 on week-days. No guarantee can be given on time of delivery.

Section D

MARACAIBO: 10.42 N. 71.39 W.

On the North-western shore of the Lake Maracaibo.

Maracaibo is the capital of the State of Zulia and seat of all Government and Consular Offices, as well as the port of entry for all vessels loading at one of the Terminals in the Lake of Maracaibo.

(N.B. For information details of Documentation, Pilotage etc., see "Maracaibo Lake").

ANCHORAGE: The Pilot will not con the ship into the anchorage, but will indicate the proper location to anchor. Care should be taken because of small boats and ferry traffic.

ACCOMMODATION LADDER: Vessels must provide an accommodation ladder. The use of trunk ladders, pilot ladders, etc., is contrary to port regulations. Port authorities will board only by means of an accommodation ladder. It is recommended to rig this in advance in order to avoid unnecessary delays.

BOARDING PARTY: The boarding party usually consists of the following persons: One Quarantine Official, Two Customs Officials. One Port Captain's Representative, Two representatives (Agent and mooring master).

RADIO: "Radio Marina" transmits information of interest to navigation every day from Monday to Friday from 1000 to 1015 hours and from 1600 to 1615 hours on frequency of 4,420·7 kHz in the 60 metre band, output 1 kilowatt. All bunker, lubricating oils, water and other requirements should be included in the cable giving the ETA of the vessel.

TUGS: Service not compulsory, assistance is rendered if required by the Harbour Master. Tugs are privately owned by the companies who operate their own terminals.

BERTHING: The manoeuvring area within Maracaibo harbour has a depth of 26 ft.

Wharf No.	1	Length	106 metres	Depth alongside	17 ft.

FUEL: Heavy and medium marine diesel, intermediate fuel, and bunker C fuel oil are available at Maracaibo from Creole, Shell, Chevron and local contractors with barges. Supplied only by barge at the wharves or anchorage. Lubricating oils are also available.

FRESH WATER: All wharves supplied with fresh water by 2 in. hoses. Fresh water also available from local contractors with barges.

MEDICAL: Complete medical services are available.

CONSULS:

Germany	Tel. 76061	Netherlands	Tel. 4621
Belgium	,, 3235	Great Britain	,, 6169

STEVEDORES: Normal working hours 0700–1100; 1300–1700 and 1800–2300.

TELEPHONES: There is no service for connecting telephones on board vessels. Public telephones are situated in the warehouses adjacent to all wharves.

HOLIDAYS: All Sundays; 1st January; Good Thursday and Friday; 19th April; 1st May; 24th June; 5th July; 24th July; 12th October; 24th October; 18th November; 17th December; 25th December.

POLICE/FIRE/AMBULANCE: Police tel. 3821; Fire, tel. 6585; Ambulance, tel. 2209.

REPAIRS: No major repairs facilities are available; however, repair jobs can be done through local machine and electrical shops, and shore labour can be furnished if required. Radio and radar technicians are also available.

SHORE LEAVE: Launch service in the Maracaibo harbour is readily available for official ship business. For shore leave personnel, depends on launch availabilities on arrival.

AIRPORT: Modern International Airport "Granode Oro" situated North-west of Maracaibo City served by many national and international airlines. A second airport with cargo and passenger services is situated at Santa Barbara del Zulia, on the banks of the Escalante river.

PROVISIONS: Fresh and dry provisions are procurable through ship chandlers in Maracaibo for delivery at Maracaibo Harbour or at the terminal.

AGENT: Head Office, (Direction and Control), Brokers, chartering and tramp agents, Victor H. Selinger, PO Box 1632, Caracas, Venezuela. Cables: "Seltank". Tel. 81.25.28–81.86.38–81.28.78. Telex: 21402. New Boe Code.

Local Office: PO Box 496, Maracaibo. Tel. (061) 24960. (061) 24962. Cables: "Seltank", or "Selvik".

Section E

PUERTO MIRANDA: 10.46 N. 71.34 W.

(N.B. For important details of Documentation, Pilotage, etc., see "Maracaibo Lake".)

LOCATION: Situated at Eastern shore of entrance to lake of Maracaibo, in position lat. 10° 46′ N., long. 71° 34′ W.

OPERATORS: Compañia Shell de Venezuela Ltd.

CLEARANCE: Pratique and Custom's clearance will be granted on arrival either at the anchorage or after the vessel has been berthed. Masters therefore requested to have the accommodation ladder ready on arrival to avoid delays, since the Government Officials do not board the vessels by pilot ladder.

On arrival when pratique is requested, all vessels should fly

International flag signal "Q", or show a yellow light during hours of darkness.

PILOTAGE: On arrival Puerto Miranda under Government Pilot's advice the vessel will be boarded by company Berthing Master, who will assist Master in docking vessel. He will also assist in undocking.

CHANNEL: Channel has a leading mark formed by the towers "P" and "M" and is marked by buoys.

(1) Incoming traffic bound for Puerto Miranda must leave the main channel between the buoys B–59 and B–61 towards the anchorage.

(2) Vessels coming from the Lake in ballast or to complete cargo at Puerto Miranda must leave the main channel when passing the buoy B–63 on their starboard side and proceed in the direction of Jetty 3 towards the anchorage.

(3) All vessels on leaving Puerto Miranda should enter the main channel by the buoyed exit channel marked by the buoys numbered AP3, AP2, AP1 and B57B.

Once the ship is unmoored, the Berthing Master on duty at Puerto Miranda will emphasise to the official Pilots the route to be followed in each case.

MAX. SIZE: The maximum permissible draft is 43 ft. even keel, including the ship's sagging when taking advantage of high water. Otherwise, draft must be in accordance with depth available at time of departure, which under no circumstances can be higher than 43 ft.

RADIO: Port Services Office equipped with radio-telephone installation operating on 24 hours basis, transmitting on following frequencies (simplex press to talk system).

		Int. Channel
Approach calling and safety	156·8 Mc/s	No. 16
CSV and other tankers port operations	156·6 ,,	No. 12
Emergency calling	2·182 kc/s.	

ARRIVAL ADVICE: Vessels equipped with radio-telephone installation operating on above frequencies are requested call Puerto Miranda about three hours before arrival at port. Calls made in Spanish language will be answered promptly, since there is always a Spanish-speaking clerk on duty. Calls in English will be answered by Berthing Master on duty, except when he is occupied, in which case the call should be repeated later on, as an alternative, the Master could ask Government Pilot to report in Spanish his vessel to Puerto Miranda. During hours of darkness all vessels must identify themselves on arrival, either by radio-telephone or Aldis lamp.

TUGS: Two motor tugs of 2,800 h.p. assist all vessels in docking and undocking. Also one or two mooring launches will be standing by to take ropes.

BALLAST: Discharge of oil or water polluted by oil into lake waters is prohibited and will incur heavy fines and compensation to beach owners and fishermen for cleaning nets.

All dirty ballast must be discharged ashore. Clean ballast in cargo tanks may only be pumped overboard after prior consultation with Port Services Dept. Deballasting line pressure must not exceed 100 lb. p.s.i. Vessels equipped with a special separate and clean ballast system are to discharge their ballast into lake.

Ocean vessels should be ballasted on arrival E.M. Buoy for inward passage with minimum ballast necessary for safe handling, taking into consideration Article 31 of Maracaibo Pilotage Zone Regulations, which states all vessels entering lake Maracaibo shall have a trim of no more than 8 ft., to permit safe navigation through channels.

One of the major causes of contamination of crude oil is relatively small amount of salt water remaining in ships tanks, pumps and ballast lines after ballast discharge. This very small amount of salt, nevertheless, frequently results in costly damage and down-time to refining equipment, besides presenting many other processing problems. It is therefore requested that full co-operation of Master and officers be given to ensure that all ballast tanks and lines are stripped as dry as possible.

BERTHING:

	Maximum Permissible			
Jetties/berths Jetty No. 2	*Depth MMOLW in feet*	*Draft in feet*	*Length in feet*	*Type of vessel*
No. 1 (North Outer)	45	43	720	45,000
No. 2 (South Outer)	45	43	720	45,000
No. 3 (North Outer)	36	34	*575	23,000
No. 4 (South Outer)	36	34	†575	23,000
Jetty No. 3				
No. 5 (Inshore North Seaward)	45	43	910	90,000
No. 6 (Inshore South Seaward)	45	43	910	90,000

Under-keel clearance. Clearances recommended in still water conditions. Alongside under-keel clearance for ships up to 700 ft. OAL = 1 ft. Alongside under-keel clearance for ships over 700 ft. OAL = 2 ft.

* OAL in Berth No. 3: This can be increased up to 620 ft. whenever vessels at Berth No. 1 have OAL up to 665 ft.

† OAL in Berth No. 4: This can be increased only for LPG vessels up to 610 ft. if Berths No. 2 or 5 are empty when a vessel arrives, then Berth No. 2 has to be temporarily restricted to vessels up to 665 ft. OAL.

(1) Nature of bottom, soft mud, but near buoys VB-59 and VAP-1 is partly hard.

(2) Density of water at berths, 997–1003.

(3) Density of water outer channel 1015–1025.

(4) Least depth in exit route for loaded vessels with draft over 40 ft. is 45 ft. MMOLW.

(5) These alongside drafts are subject to reductions owing to depth in exit channels.

(6) Recommended under-keel clearance in exit channel is 2 ft.

MOORING: Vessels are to be moored to satisfaction of Pier Master. A suitable gangway will be provided by shore installation. When it is out of order vessel's gangway has to be used, which will be notified on VHF telephone before arrival at E.M. buoy.

Vessels of any deadweight must secure with at least: *Forward:* Two headlines; four breasting ropes fibre or two wires of $1\frac{1}{4}$ in. diam. minimum each connected by a $2\frac{1}{2}$ in. shackle to a $1\frac{1}{2}$ in. diam. shore wire, plus one polypropylene line from jetty in berths 1, 2, 5 or 6; one spring. *Aft:* Two sternlines; four breasting ropes fibre or two wires of $1\frac{1}{4}$ in. diam. minimum each connected by a $2\frac{1}{2}$ in. shackle to a $1\frac{1}{4}$ in. diam. shore wire plus one polypropylene line from jetty in berths 1, 2, 5 or 6; one spring.

When vessel are fitted with tension winches (forward and aft) the following ropes are required:

Forward: Two headlines; two wires from tension winches as breasting lines plus one polypropylene line from jetty in berths numbered 1, 2, 5 or 6; one spring. *Aft:* Two sternlines; two wires from tension winches as breasting lines plus one polypropylene line from jetty in berths numbered 1, 2, 5 or 6; one spring.

When vessels are nominated to load at berth 1 or 2 of Jetty 2 one extra headline and a second spring is required. Vessel's best ropes or wires should be used as breasting lines.

LOADING: Vessels should load in accordance with International Loadlines Regulations taking into account maximum permissible draft at this Terminal and also at Maracaibo bar channel.

The Captain of the Port requires that the load-line marks of all vessels using the port be clearly visible. If Harbour Authorities should refuse to pilot an out-going vessel due to being overloaded, Master will be held responsible for all delays, expenses, in connection with discharging any overloaded cargo and all further losses.

Vessels' maximum permitted loading rate should always be required. Maximum shore loading rate is 7.000 M.T. per hour, using two shore lines and four hoses.

Following ship's whistle signals should be used for loading: Two blasts = Stand by (15 minutes prior completion of cargo and or part cargo). One blast = Stop (2 minutes prior to complete cargo and or part cargo).

EMERGENCIES: In order to deal quickly and efficiently with any emergency during loading/deballasting operations, the following equipment is available:

(*a*) Control for quick closing of shore manifold valves. This is a red-painted hydraulic valve situated on the ship/shore gangway. In the event of a spillage aboard, this valve must be opened. Within ninety seconds the shore manifold valves will close against the loading pumps.

(*b*) Direct ship/shore telephone. This is a red telephone and in order to obtain instant communication with the loading supervisor in the Control Room it is only necessary to lift the receiver. An Alarm Bell will alert the supervisor and a light will advise him from which berth the call originated.

FUEL: Available ex wharf: Bunker "C", thin fuels from 200 to 3500 seconds Redwood 1 at 100 deg. F., and marine diesel. Delivery rate 400 and 80 tons respectively. Gas oil, F. oil and thin fuels may be supplied by barge ex Maracaibo delivered at anchor, at a maximum rate of 110 and 140 tons.

FRESH WATER: Available on all jetties with a loading rate between 20 and 30 tons per hour. This depends on number of vessels at the same time.

MEDICAL: Ship's personnel may visit local doctor on week-days between 0700 and 1130 hours, or 1400 and 1700. Outside these hours, or in cases which require special treatment, patients receive attention in Maracaibo. Written request for medical attendance, as well as a shore pass, is always required.

CUSTOMS: One opened packet of cigarettes allowed to be taken from vessel by each crew member when going ashore. Masters advised to strongly caution crew against attempted smuggling.

SHORE LEAVE: Not granted until shore passes are stamped and signed by Authorities. Passes must be shown to guards at gangway and gates. Crew members must be properly dressed (long trousers and shirt) before proceeding ashore. Master must collect all passes and return them to Agent before vessel's departure.

GENERAL: (*a*) *Tides:* In view of the available depth in the channels which allow navigation to vessels up to about 70,000 dwt. fully laden at high water, permanent predictions of sailing draft tables have been prepared by Shell, and they will send these on board ships of over 47,000 tons dwt.

(*b*) *Currents:* The tidal current (Lunar tide) at this port can at times be very strong and subject to changes. Usually outgoing tide runs for 7 to 8 hours against 4 to 5 hours for incoming tide. Direction approx. at right angles to jetty.

(*c*) *Movement of Passengers:* Embarkation or disembarkation of passengers through this port is not allowed by Venezuelan law, as this Terminal is only authorised by the Treasury Ministry (Ministerio de Hacienda) exclusively for exporting crude oil.

(*d*) *Short Dispatch Procedure:* This procedure is available for ships loading cargoes consigned to Shell Companies.

(*e*) *Failure to rejoin vessel:* If any member of crew is not aboard at sailing time, Authorities will not clear vessel although permission may be given to proceed to anchorage if the berth is required. If sailing permission is granted, Master is required to sign letter accepting all costs in connection with missing crew member to be for Owner's account.

(*f*) *Launch Service.* A charge will be made for a round trip to Maracaibo, but launches are only available on written request by

Master. Masters who have to go on business to Maracaibo (Agency or Consulates) can make use of public service launches.

(*g*) Proceeding to Cardon: Vessels proceeding to Cardon to load or to take bunkers, are required to have ready on arrival Cardon:

4 Lists of Deck and Engine Stores and Spares.
4 Lists of Stewards Stores.
6 Lists of Personal Effects.
6 Crew Lists.

In order to prevent delays it is imperative that these documents are presented to the port officials when they board to clear the vessel.

(*h*) *Loading for Curacao:* Unless Master requests otherwise, arrangements will be made for Government Pilot to board ship one hour after vessel has signalled "stand-by".

(*i*) *Guards:* Custom Guards (Guardia Nacional) will be posted on all vessels and Masters are reminded that these guards must be accommodated and treated in the same manner as ships' officers. Non-compliance entails not only a fine but will result in delays in clearance and cargo operations.

(*j*) *Visitors:* Only persons on business allowed on piers. Visitors, as guests of Master, allowed board vessels provided a written and signed request presented by Master to Port Services Department. Further particulars covering procedure for obtaining permits for visitors can be obtained from Port Services Office.

(*k*) *Cables and mail:* Crew mail list forms put on board all vessels when entering Puerto Miranda. Crew's private mail accepted for posting provided all letters bear the sender's name and a list in duplicate is prepared showing addresses and sender. One copy of list will be forwarded to Master showing individual charges. Cables can be dispatched at all times.

(*l*) *Norwegian Government Seamen Service:* A field representative of the above service is stationed at Puerto Miranda providing Norwegian and Swedish film exchange and other usual services.

(*m*) *Charts – Nautical publications:* On arrival of each tanker the Agency Representative will furnish a set of lake charts if required. No supplies of U.S. Hydrographic or British Admiralty charts or Sailing Directions, Nautical Almanac, etc., are available at this port.

(*n*) *American Crew List:* Vessels sailing for U.S. ports requested have American Crew List ready on arrival, so it can be forwarded to U.S. Consulate without delay.

(*o*) *Films Exchange:* Films may be exchanged at this Terminal.

(*p*) *Fire Alarm:* Each Friday morning at 1000 hours there will be a test of fire alarms including sirens at the wharves. Before the test will be a warning message in English and Spanish.

(*q*) *Cash Advances.* Local currency is Venezuelan Bolivar and cash advances are made only in this currency. It is requested that any requirement for cash advances be included in vessel's ETA radio, to permit delivery on board on arrival.

REGULATIONS: Following regulations should be strictly observed by Masters of vessels alongside jetties. Non-compliance with these instructions entails not only a fine but delays in cargo operations.

Use of rafts for painting the ship's sides is strictly prohibited.

Lifeboats should not be lowered without the special permission of the Government Port Captaincy (obtainable on request).

Swimming in the harbour is strictly prohibited.

Waste water sanitary or other must not be discharged on jetty.

It is strictly prohibited to paint ship's name or others on jetties. When this occurs the vessel will be charged for the cleaning.

Painting in ships alongside is strictly prohibited.

Before commencing loading, all dock scuppers should be securely plugged.

It is necessary to keep a close and constant watch on moorings and to adjust when necessary. When adjusting, call for assistance of harbour tugs before slackening off any mooring lines.

TELEPHONES:

Head Port Services Operations Office 228 during day.
Head PRDP Operations Office 222/310/323 during day.
Operation Supervisor (PRDP) Office 353/343/350 during day and night.
Berthing Master Office 238 during day and night.

Section F

PUNTA DE PALMAS: 10.26 N. 71.38 W.

(N.B. For important details of Documentation, Pilotage etc., see "Maracaibo Lake".)

OPERATORS: Venezuelan Sun Oil Co. Punta de Palmas Terminal is jointly owned by Venezuelan Sun Oil Company, as Terminal Operator; and Venezuelan Atlantic Refining Company, Texaco-Seaboard, Inc., Pan American Venezuela Oil Company, Signal Oil & Gas of Venezuela, Sohio Venezuela Company, Pure Oil Company of Venezuela, Inc., Hancock Venezuela Oil Company, Phillips Petroleum Company, Ashland Oil & Refining Co., El Paso Venezuela Company, Sunray DX Oil Company, Triangle Refineries Inc., Venezuelan Canadian Oils, C.A., Venezuelan Pacific Petroleum, C.A., and Murphy Oil Venezolano, S.A., as non-operators.

LOCATION: The terminal is located at Punta de Palmas del Sur, approximately 13 miles South of the port of Maracaibo on the West shore of Lake Maracaibo. The terminal proper may be identified by a 300 ft. radio tower, having two small red lights 200 ft. from base, and one large red light on top of tower. The top light flashes every two seconds.

CARGO DOCUMENTS: Vessel's clearance and cargo papers will be delivered to the Master on arrival in Maracaibo Harbour outbound. Venezuelan Sun will accept no responsibility for delay in clearing a vessel due to unavailability of personnel from offices of the Port Authorities.

CHANNEL: The channel between Punta Palmas and Maracaibo is 10 miles long with a minimum width of 244 m. and a maximum width of 305 m. Depth 45 ft.

LAKE PILOT: A government Pilot will assist each vessel from Maracaibo to Punta de Palmas, and on the outbound trip to Maracaibo. The government Pilot will also assist in the mooring and unmooring operations. The ship's Agent will inform the Master of each vessel, as well as the government Pilot, the mooring scheduled for berthing.

MAX. SIZE: The maximum permissible fresh water draft in Mooring No. 2 is 38 ft. and the maximum length vessel this mooring will accommodate, is 835 ft. in length. Vessels exceeding 785 ft. in length must be equipped with two bow and two stern tension deck winches with sufficient wire rope to run a line to each of the bow and stern buoys.

The maximum permissible fresh water draft in Mooring No. 1 is 38 ft. and the maximum length vessel this mooring will accommodate is also 835. ft in length. Deeper water exists to North-west of both moorings.

RADIO: When vessel departs from its last port bound for Punta de Palmas Terminal, the date of departure and best ETA Maracaibo should be cabled to Venezuelan Sun Oil Company in Maracaibo. At least 48 hours before arrival at pilot station the ETA should be sent by cable to Venezuelan Sun Oil Company. Vessel's nationality, Venezuelan net tonnage (if available, otherwise registered tonnage), last port, Master's name and all requirements (fuel, water, etc.) should be included in cable. The cable address for the company is "Sunoil Maracaibo". As the cable office in Maracaibo is not able to communicate directly with vessels at sea, messages to Sunoil Maracaibo, should be routed via PJC Curaçao, and prefix the message "Via AAC" (All American Cables and Radio).

MEDICAL: Emergency cases only will be transported to Maracaibo for medical treatment.

BALLAST: Since there are no disposal facilities for dirty ballast at Punta de Palmas Terminal, it is imperative that vessels arrive with clean ballast as Venezuelan laws are very strict regarding contamination of lake water.

TUGS: Tug service consisting of two tugs of not less than 1600 h.p. each is provided by the terminal operator for all vessels. Both tugs will assist all vessels in mooring and unmooring operations. Should it be deemed necessary by the terminal operator to require a tug in addition to the two terminal tugs for mooring or unmooring vessels exceeding 750 ft. in length, charges for this additional service will be for the account of vessel.

MOORING: moorings are designed as No. 1 and No. 2 and are located approximately 5½ miles off shore from the Terminal and approximately 1¼ miles due West of channel buoy B–95 and B–96 on the Maracaibo ship channel.

Mooring No. 2 is located North-east of Mooring No. 1 and is further off shore. Mooring No. 2 is equipped with two bow buoys, two stern buoys, and a starboard stern breasting piling with cable.

All vessels planning to moor in either Mooring No. 1 or Mooring No. 2 shall be equipped with mooring hawsers of sufficient length and strength to run two lines to each of the bow and stern buoys and shall use such equipment while in moorings. Vessels equipped with tension winches and cables shall utilise these in addition to mooring hawsers or alone if vessel has sufficient cables to meet minimum requirements of running two cables to each bow and stern buoy. For added security of those vessels not equipped with tension winches and/or cables, one steel cable will be furnished on each of the bow and stern buoys by Venezuelan Sun Oil Company. It should be recognised by all parties, that while use of these cables is strongly recommended, Venezuelan Sun Oil Company accepts no responsibilities for loss or damage to any vessel or to any facility or to any person that may result from failure of this equipment. Two carpenter stoppers are available with each mooring for handling the steel safety cables and their use is also recommended.

Vessels in excess of 750 ft. length are required to moor in Mooring No. 2 and must use their starboard bow anchor for mooring and starboard stern breasting cable furnished in this mooring.

For convenience and safety of all personnel boarding or unboarding while at Punta de Palmas, it is recommended that vessel's accommodation ladder be rigged on port side, this being lee side under prevailing weather conditions in this area. The ladder should be suspended after mooring master boards and during mooring operations to avoid being fouled by mooring tugs or launches.

Venezuelan Sun Oil Company's mooring master will board each vessel prior to entering mooring to establish radio contact between ship and tie-up launch as well as with terminal office. The Venezuelan Sun Oil Company's mooring master will assist in mooring and

unmooring operations. It should be understood that mooring master acts only in an advisory capacity to the Master. The vessel's Master retains full responsibility at all times. Venezuelan Sun Oil Company assumes no responsibility in connection with any acts or advice given by the mooring master.

The tie-up launch will handle all mooring or pick-up lines before and after loading. Tug service is on call 24 hours per day from the main terminal harbour. The Venezuelan Sun Oil Company tie-up crew will assist the ship's crew in lifting and connecting the cargo hoses and in removing same on completion of loading. The approximate lift required to haul cargo hoses into connecting position is 4 tons. The tie-up launch will carry connections and other equipment to facilitate hose connecting, which will be at the disposal of ship's crew, if required.

LOADING: Cargo hose position, supports, and connections must be to satisfaction of ship's personnel in charge. Upon approval from ship's personnel in charge of loading, cargo hose valves may be opened to test cargo hose connections for leaks and to commence loading.

The responsibility for and custody of cargo passes to ship's personnel when cargo reaches the connection owned by ship.

The minimum loading rate is 4,000 B.P.H. and then only when starting to load or when slowing down to trim vessel at completion of loading. The maximum loading rate to be expected under normal conditions is 15,000 B.P.H.

Under normal operation conditions it may be necessary to displace terminal sea line as cargo loading is completed. This will require ship's personnel in charge of loading to advise terminal representative when cargo is short by an amount equal to the sea-line displacement.

The sea line displacement is a *set* amount and should *not* be cut short or exceeded. Therefore, when displacements are to be made, the cargo should be carefully planned by ship and terminal personnel to eliminate the possibility of either cutting the displacement short or short loadings of cargoes.

The mooring master will be equipped with charts and drawings of both sea moorings and will make these, as well as advice, available to Captain, if so requested. The mooring master will also be available to inspect ship's tanks as required, and will act as a liaison between the ship's Captain and the Agent or Punta de Palmas Terminal to transmit any information pertinent to the ship. This person should be furnished with food and accommodation fitting a ship's officer.

FUEL: Heavy and medium marine diesel, intermediate fuel, and bunker "C" fuel oil available. Lubricating oils also available.

FRESH WATER: Available from local contractors with barges.

STORES: Fresh and dry provisions procurable through ship chandlers in Maracaibo for delivery at the terminal.

REPAIRS: No repair facilities are available, but when required, personnel from shops in Maracaibo, will travel to Punta de Palmas to effect repairs.

SHORE LEAVE: Launch service for business purposes and emergencies is readily available. Launch service for shore leave can be arranged through contract marine service and will be responsibility of ship's personnel. Arrangements for shore leave transportation can be made through loading master on board.

CUSTOMS: All vessels entering from foreign ports and bound for Punta de Palmas Terminal are required to anchor in Maracaibo harbour for formal customs clearance and visit of government port authorities prior to proceeding to destination.

The vessel's accommodation ladder should be rigged prior to the vessel's arrival at Maracaibo. A member of the National Guard will board each vessel at Punta de Palmas to observe all activities connected with loading or unloading operations. This official is authorised as the customs representative, and is referred to as Customs Watch. Food and accommodation similar to officers should be made available to him by vessel in order to avoid difficulties.

CONSULS: See "Maracaibo".

GENERAL:

(*a*) *Oil spillages:* There has been considerable discussion in Venezuela concerning oil spillages resulting in contamination of Lake Maracaibo, to the extent that a special commission has been formed by the oil companies in order to collaborate with government officials in combating and eliminating oil spillages. In addition, considerable pressure has been exerted by governmental agencies and commercial organisations to eliminate oil spillages in lake water. Venezuelan Sun is making every effort to prevent contamination of Lake Maracaibo because, if this is not done, stronger measures will be taken by government officials.

Because of the above, it is strongly recommended that Masters emphasise to the officers on deck to endeavour avoid spillages all possible and to make certain that the scupper plugs are installed prior commencement of loading operations in order to withhold on deck any spillage that might occur.

(*b*) *Mail:* Outgoing mail for ship's account may be given to the Agent's representative who boards vessel on arrival at Maracaibo inbound. Personal mail will be accepted only if carrying the correct amount of Venezuelan postage, or if postage is authorised by master for the vessel's account.

(*c*) *Classification Societies:* American Bureau and Lloyd's Register have Agents in Maracaibo. Surveyors are available by appointment from any of these agents.

(*d*) *Currency:* The Venezuelan unit of currency is the Bolivar (Bs) and is the only currency recognised as legal tender within the country. Masters desiring a cash advance should make the request when advising ETA. Payment of all invoices for disbursements shall be made in Bolivars to the Venezuelan Sun's Maracaibo office, unless other instructions are given.

ORINOCO RIVER: 08.36 N. 60.25 W.

General information, followed by:

Section A – MATANZAS
Section B – PALUA
Section C – PUERTO ORDAZ (Orinoco Mining)
Section D – PUNTA CUCHILLO
(Phillips Petroleum Terminal)

ESSENTIAL REQUIREMENTS:

1. As early as possible, advise Puerto Ordaz Radio Station, call letters YVM, giving ETA at Buoy EO of North (natural) channel, or at Buoy 0.1 of South (dredged) channel.
2. Twenty-four hours prior to arrival, send another ETA to YVM.
3. Upon arival, depending on whether Master intends to enter Orinoco waterway through North or South channel, adhere to following procedure:
   (*a*) *North Channel.* Notify Port Captain, Ciudad Bolívar, via YVM, of time of arrival at Buoy EO and give ETA at Beacon G7 (mile 27·7).
   (*b*) *South Channel.* Request permission to enter from Port Captain, Ciudad Bolívar, via YVM. *Do not enter* until notified by YVM that Port Captain has granted permission; while awaiting, lay to or anchor at least 1 mile outside of Buoy 0.1.
4. While navigating waterway, inbound or outbound, report position to YVM hourly on the hour.
5. No Pilot required nor available for navigation along North or South channel at the Boca Grande of the Orinoco River.
6. The International Rules for Preventing Collisions at Sea apply outside of Beacon G7, mile 27·7.
7. Given the case of two vessels navigating North and South channel respectively, the one navigating South channel is the privileged vessel.
8. Anchoring either in North or South channels is forbidden.
9. Throughout Orinoco waterway, the down-bound loaded vessel is the privileged vessel.
10. It is compulsory to fly Venezuelan ensign inside of Buoy EO or Buoy 0.1.
11. Vessels can only carry clean ballast within Orinoco Waterway
12. Pilotage compulsory within Pilotage Zone No. 1 of the Orinoco Pilots board at outer boundary of said pilotage zone. in upstreamward vicinities of Beacon G7.
13. Regulations for the Pilotage Zone No. 1 of the Orinoco apply inside of Beacon G7.

APPROACHES: (Also see "Radio" – paragraphs (*b*) and (*c*)).

1. *The Waterway*

A Radio Direction Finder, located at Lat. 8° 31′ 45″ N., Long. 60° 28′ 28″ W., transmits following signal continuously: YV – AYV. The transmitter has an output of 500 watts with a range of about 200 miles and operates on a frequency of 305 kc/s. While navigating the waterway, ships should favour the shore on their starboard side to the extent possible, giving preference of manoeuvre to loaded vessels in all cases. Ships navigating upstreamward (inbound), upon approaching narrow channels should await the passing and give way to downbound vessels. It follows, therefore, that downbound loaded vessels are the privileged vessels.

2. *The Boca Grande (Barima Bar) Channels*

There are two navigable channels across the Boca Grande (Barima Bar), identified as follows: North channel (or natural channel), and South channel (or dredged channel). The two channels have converging courses and meet at mile 27·7 in the vicinity of Beacon G7. Vessels navigating the South channel are privileged, regardless of the direction in which they travel.

(*a*) *The North (Natural) Channel*

This channel has a minimum depth of 12 ft., referred to Mean Low Water. The approach from the sea is marked by a battery-operated electric flashing black buoy, identified with the letters EO. This buoy is located in 46 ft. of water at Lat. 9° 00′ 10″ N., Long. 60° 18′ 20″ W. Its characteristics are: colour of light, white; flash, 1.0 seconds; eclipse, 6.0 seconds; height above water, 10·7 ft., visibility, 7 miles. From seabuoy EO, the channel develops for 7.3 miles to Buoy EOA on a course of 213° 40′ true, then for 2·8 miles to Buoy EOB on a course of 198° 57′ true. From this point the channel follows an approximate straight course of about 205° true for a distance of 17 miles to Beacon G7. Starting from EOB distances between successive navigation aids are as follows: G1 at 1·9 miles; G1A at 1·5 miles; G3 at 2·1 miles; G3A at 2·3 miles; G5 at 3 miles; EL 24 at 2·6 miles; G7 at 3·7 miles. All navigation aids are black buoys fitted with white lights, except Beacon G7 and EL 24 which is a range structure indicating the West side limit alignment of the South (dredged) channel. This structure has been fitted with a white flashing light to mark the North (natural) channel.

(*b*) *The South (Dredged) Channel*

The South channel is a 400 ft. wide dredged channel. Depths therein accommodate the maximum draft authorised by the Port Captain. The approach from the sea is marked by a battery-operated electric

flashing black buoy, identified with the number 0.1. This buoy is located in 45 ft. of water at Lat. 8° 55′ 52″ N., Long. 60° 11′ 17″ W. Its characteristics are: colour of light, white; flash, 0.5 seconds; eclipse, 11.5 seconds; height above water, 25 ft.; visibility, 11 miles. From seabuoy 0.1, the channel develops along four different courses over a total distance of 27·7 miles to Beacon G7. The course reduces by about 7° true at each of three turning points, located at miles 9, 15 and 21 respectively. The initial course of 234° 18′ true continues to mile 9 where it changes to 227° 07′ true. Upon reaching mile 15, the course again changes to 219° 51′ true to mile 21. At mile 21, the course changes to 212° 45′ true to Beacon G7 at mile 27·7. The centreline of the channel on all courses is visually marked by range structures fitted with green flashing, directionally beamed lights. The West (right ascending) side limit of the channel through mile 21 is also visually marked by range structures fitted with amber flashing, directionally beamed lights; the alignment given by the side ranges develops 200 ft. to the West and parallel to the centreline of the channel. Battery operated electric flashing navigation aids are located along both sides of the channel. All navigation aids along the East (left ascending side of the channel are located 325 ft. from centreline or 125 ft. outside of the channel lateral limit. White flashing navigation aids are located at one mile intervals through mile 25·1; all aids along this side are black buoys, except beacons 8.1, 9.1, 14.1, 15.1, 20.1, 21.1, 22.1, 23.1, 24.1, 25.1, 27.1 and 27.7 (G7). All navigation aids along the West (right ascending) side of the channel are located 200 ft. from centreline or on the exact lateral limit of the channel. Red flashing buoys painted red are located at one mile intervals from mile 1·6 to mile 11·6. From mile 11·6 to mile 27·7, there are only two aids; red buoys 13.6 and 26.0.

3. *The River Channel*

From mile 27·7, the navigable channel develops upstream. The river channel is generally deep and wide, except for the following 12 reaches which require periodic dredging: miles 27·7 to 36·5; miles 37·3 to 38·6; miles 53·1 to 54·2; miles 99·0 to 106·5; miles 109·1 to 111·0; miles 131·7 to 131·9; miles 136·6 to 139·0; miles 141·2 to 145·8; miles 146·2 to 149·4; miles 167·6 to 170·8; miles 178·4 to 182·4; miles 183·5 to 184·1. Dredged channels are normally 300 ft. in width, but occasionally can be restricted to a minimum of 250 ft. The depth maintained therein can accommodate the maximum draft authorised by the Port Captain. By notice to Mariners, the Port Captain has instructed all Masters and Pilots to reduce speed and to proceed with caution while navigating the aforesaid reaches, especially during the low water season.

4. *River Stages*

In response to the cycle of wet and dry seasons, the flow of the Orinoco River follows a relatively regular pattern of rise and fall each year. The river normally begins rising in later March or early April and continues to rise until it peaks at crest in late August. In September, the river begins a fairly steady recession until the extreme low-water stage is reached, generally in March. The amplitude of stage variation above the low water plane of reference (0.0 ft.) at Palúa (Mile 181·7) averages about 35 ft. with minimum variations of 31 ft. and maximum variations of 39 ft. The effects of the flood rise decrease progressively below Palúa and practically vanish in the upstreamward vicinities of the Boca Grande.

5. *Tides and Currents*

(*a*) The indicated mean tidal range is 5.4 ft. Tidal influence is not experienced above mile 60 during high river stages. At low river stages, a tidal effect can be observed throughout the waterway, although it progressively diminishes, moving upstreamward. However, the tidal effect is still significant at Puerto Ordaz, mile 184, where a maximum semidiurnal change of 1.7 ft. has been recorded.

(*b*) The strength of river currents is generally commensurate with flow, the strongest currents occurring at high river stages. The velocity of currents at any one time generally decreases moving downstreamward. However, in certain locations, this pattern is affected by particular characteristics of river width and shape as well as by bottom gradient. Maximum velocities of about 6 knots have been recorded.

6. *Navigation Aids*

(*a*) The navigation aids installed along the waterway consist of buoys, beacon and ranges. All aids are lighted. Identification is provided by means of numbers representing the approximate mileage of each aid, to the nearest one-tenth of a mile. The last digit of numbers identifying white lighted aids is odd, while the last digit of numbers identifying red lighted aids is even. White lighted aids mark the left ascending limit of the navigable channel, while red lighted aids mark the right ascending limit. Aids are placed as to be intervisible, to the extent that – when abreast of any one aid – the preceeding and the following ones can be sighted. Consecutive aids always carry different light characteristics. Buoys are normally placed on the exact lateral limit of the channel (except for black buoys along the South channel at the Boca Grande); beacons, instead, are located at variable distances outside of the channel.

(*b*) During the execution of dredging along any of the reaches which require periodic maintenance, buoys are generally moved 100 ft. outside of the channel lateral limits. This information is made available to ships by YVM.

(*c*) The Ministerio de Comunicaciones, Dirección de Marina Mercante, publishes semi-annually a complete list of navigation aids. Monthly lists of changes are also published so that the complete current list can be maintained up to date.

(*d*) Upon encountering damaged, inoperative, or misplaced navigation aids, vessels should immediately notify YVM.

(*e*) Vessels are forbidden to make fast to any navigation aid.

7. *Dredging Aids*

Range structures, generally located close to shore or over the bank, are normally used to mark the lateral alignments of the channel along the reaches which require periodic dredging. These ranges are generally fitted with amber flashing, directionally beamed lights. The lights are extinguished except during execution of dredging. Dredging ranges *are not* to be used for navigation.

8. *Navigation Charts*

Navigation charts of the Orinoco Waterway should be aboard vessels for use by the Master. These charts are sold by the Instituto Nacional de Canalizaciones and are also available for purchase from the Orinoco Mining Company. If requested, the Orinoco Mining Company will, if possible, arrange to make the charts and latest revisions available through the Pilot who boards at Punta Barima, provided such request is received by radio (YVM) at least 48 hours in advance of the Pilot's boarding. A set of navigation charts, corrected to latest revisions, is maintained in the office of the Traffic and Ships' Agency of the Orinoco Mining Company in Puerto Ordaz. Masters may use this facility to keep their charts up to date.

DOCUMENTS: (Clearance, documentation and other requirements).

1. *Consignment of Inbound Vessels*

The official documents of all vessels proceeding to Puerto Ordaz should show the following consignment: to: Orinoco Mining Company, Ciudad Bolívar, Zona de Puerto Ordaz. The proper consignment of vessels proceeding to Palua, on official documents, is as follows: Iron Mines Company of Venezuela, Ciudad Bolívar, Zona de San Felix.

2. *Customs Requirements*

Vessels bound for Venezuela in ballast, without passengers, from foreign ports outside the West Indies or Guianas, require the following documentation:

(*a*) Vessels must have a ballast despatch statement (Certificado de Lastre) which must consist of a note from the Venezuelan Consul, if such Consul is present at the port of departure; otherwise, in descending order of desirability, from the Consul of another friendly nation, the local Chamber of Commerce or two reputable merchants of the port of departure. The note should include the name and nationality of the vessel, name of the Captain, registration number of the vessel and tonnage, sailing date and assertion that the vessel is en route in ballast, cargo, or with passengers. The note should be given to the Captain of the vessel or his Agent in an open envelope, which the Captain can exhibit in intermediate Venezuelan ports of call and can turn over to Customs authorities in the Venezuelan ports of destination. Under no circumstances may the ballast despatch statement be signed by an Agency of the government of the country from which the vessel is departing.

(*b*) The vessel must have a clearance certificate (Certificade de Zarpe) or sailing authorisation issued by the Customs authorities of the port of departure, representing the government of the country the vessel is departing from. No consular certification need be placed upon this document.

(*c*) Stores List (Lista de Rancho) signed by Master unless vessel is dispatched from the West Indies or Guianas, then the stores list must be visaed by the Venezuelan Consul at port of departure. Stores list must indicate separately all deck, engine and cabin stores. These lists may be prepared on board prior to arrival.

(*d*) Spare Parts List (Lista de Repuestos). It must contain a note of all the spare parts and objects for the service of the vessel, including fuel. No consular certification required. To be signed by the Master and to be current as of the day of entering the Venezuelan port.

(*e*) List of Effects for use of Captain and Crewmen (Lista de efectos personales de la dotacion). No consular certification required. To be signed by the Master and to be current as of the day of entering the Venezuelan port. The Customs are very strict and will confiscate any article that appears new.

3. *Health, Immigration, and Police Requirements*

Vessels bound for Venezuela in ballast, without passengers, from foreign ports outside the West Indies or Guianas, require following documentation:

(*a*) Current individual International Vaccination Certificates for each member of the crew.

(*b*) Rat Eradication Exemption Certificate. No consular certification required.

(*c*) Crew Lists (original and seven copies). No consular certification required.

(*d*) Panama or Suez Canal or any comparable type measurement certificate.

Contraband: The Venezuelan law is very strict on this subject. It cannot be emphasised too strongly that all new articles, clothing, cigarettes, liquor, etc., must be declared and sealed-up upon arrival.

Meals for Pilots and government officials. It is requested these men be granted the privilege of eating in the officers' dining salon.

N.B. Masters of vessels calling at Trinidad for bunkers before proceeding to Venezuela must also have the documents stamped by the Venezuelan Consulate at Port of Spain.

PILOTAGE: In order to expedite the movement of shipping in the waterways, Masters are requested to establish contact with YVM station as soon as possible, giving ETA pilot station at Barima (Orinoco River entrance). At the same time a radio-telegraph message must be sent to Agents giving ETA Barima and cargo required. When vessel is 24 hours from pilot station, send another ETA via YVM.

After reporting the ETA in advance of arrival, try to contact directly, by radio, the Estacion de Pilotos when the ship approaches the sea-buoy of the bar entrance (about two hours before arrival at the pilot station).

After taking the Pilots aboard, report to Radio Marina and continue giving the ship's position according to the mile, up-river, at exactly every hour on the hour, and receive from Radio Marina the pertinent information concerning the traffic in the river waterway. If no communication can be established by voice radio aboard, comply by radio-telegraph by way of the YVM station.

Pilots are employees of the Venezuelan Government and act in an advisory capacity. The Master retains responsibility for the ship at all times.

(1) Pilotage is not required and Pilots are not available for navigation outside the pilotage zone. Masters will take charge of inbound and outbound navigation on the North or South channel outside Beacon G7 at the Boca Grande, without Pilot's assistance.

(2) Pilotage is mandatory within the Pilotage Zone No. 1 of the Orinoco. Inbound vessels will embark the government River Pilot in the upstreamward vicinities of Beacon G7. It is important that vessels pass Beacon G7 and be in sight of the pilot station at Barima in order to avoid any delay, as Pilots may not proceed until vessel is sighted. The government River Pilot will pilot the vessel while navigating the waterway; a special government Docking Pilot will generally take the vessel into and out of the Puerto Ordaz harbour.

Signals

(1) All signals used outside of the pilotage zone (that is to say. seaward of Beacon G7 – mile 27·7) shall conform to the International Rules for Prevention of Collisions at Sea.

(2) Within the pilotage zone (that is to say, inside of Beacon G7 – mile 27·7) the signals used shall be in accordance with the "Regulations for the Pilotage Zone No. 1 of the Orinoco". It should be noted that these signals are peculiar to the Orinoco Waterway, and are not necessarily in conformance with the International Rules.

(3) Within the pilotage zone, special signals are used for passing dredges at work along the waterway.

Speed

The Captain of the Port has the authority to impose speed restrictions. By means of "Notices to Mariners", the Port Captain has ordered that all vessels reduce speed while navigating by the following locations: San Felix Dock, mile 179·8; El Toro, miles 95·4 to 96·6. It is recommended that speed be also reduced while navigating by the Palúa Dock (mile 181·8), Barrancas (mile 143·2), and Curiapo (mile 60·4). At the inception of the low water season each year (generally in early January), the Port Captain has in the past issued a "Notice to Mariners" instructing all vessels to reduce speed and proceed with caution while navigating the following river reaches: (1) miles 184 to 178, (2) miles 171 to 167, (3) miles 150 to 141, (4) miles 140 to 137, (5) miles 133 to 131, (6) miles 112 to 109, (7) miles 106 to 98, (8) miles 55 to 53, (9) miles 39 to 36

ANCHORAGES:

(1) No ships are permitted to anchor either in the North or South channel at the Boca Grande. Vessels are to anchor at least one mile outside of Buoy EO or Buoy 0.1.

(2) Within the pilotage zone, no vessel is allowed to anchor in narrow channels, nor close to a turn.

(3) Between Beacon G7 – mile 27.7 and mile 137, vessels which need anchoring may do so by coming as close as possible to shore on the ship's starboard side.

(4) Between mile 137 and mile 184, the Pilotage Regulations provide for three permanent anchorages and one seasonal anchorage, as follows: Area No. 5 (permanent): miles 139.3 to 140.4. Area No. 6 (permanent): miles 150.1 to 151.7. Area No. 7 (permanent): miles 178.0 to 179.0. Area No. 8 (seasonal): at the junction of the Caroní and the Orinoco. It should be observed that Area No. 7, as determined in the Pilotage Regulations, partially encroaches on the narrow (dredged) channel and on shore. Vessels are to anchor in the naturally deep and wide part of the area.

(5) The low-water anchorage (for one ship only) previously established by the Port Captain between miles 182 and 183 is no longer in use. This area is currently used as the turning basin for vessels exiting the Palúa channel, upon sailing from the new Palúa dock at mile 181.8.

(6) If due to emergency a ship is required to anchor in places other than the designated areas, it may do so in such a way as not to obstruct the channel and by taking the necessary precautions to avoid swinging around.

(7) Upon anchoring, vessels should notify YVM.

MAX. SIZE:

(1) *Maximum permissible draft.* The Port Captain of Ciudad Bolivar can establish the permissible draft for the Orinoco waterway to a maximum of about 43 ft.

2. *Controlling Depths and Authorised Draft*

The draft authorised by the Port Captain for the Orinoco Waterway is made public by means of a "Daily Bulletin of Depths and Draft" (Boletín Diario de Profundidades y Calado). Each daily bulletin issued by the Port Captain carries the following information, in Spanish and English:

(a) Controlling (minimum) depth between miles 184 and 133, and corresponding location.

(*b*) Controlling (minimum) depth between miles 133 and 42, and corresponding location.

(c) Controlling (minimum) depth between miles 42 and 0, and corresponding location.

(*d*) Predicted high tides (heights and times) at mile 13.5.

(*e*) River stage (height of river level above low water plane) at Puerto Ordaz and Palúa.

(*f*) Authorised draft, in feet and inches.

The controlling depths given for locations comprised between miles 184 and 42 are actual depths, and reflect depth conditions as of the date of the bulletin. The controlling depth given for locations comprised between miles 42 and 0 is referred to mean low water springs and does not include the height of tide at high water.

The authorised draft may be predicated either on the controlling depth existent between miles 184 and 42 or between miles 42 and 0, dependent upon whichever is the least.

When the controlling depth between miles 184 and 42 is the significant factor, the permitted draft authorised is at least 2 ft. less than the controlling depth in this sector.

When the controlling depth between miles 42 and 0 is the significant factor, the permitted draft authorised is generally less than the mean low water springs controlling depth but occasionally can be equal to the mean low water springs controlling depth.

Whenever the MLWS controlling depth existing between miles 42 and 0 does not provide sufficient clearance under the keel of the vessel at low water, the Master is expected to navigate by the site where the controlling depth is located only at times when the height of tide will assure a safe passage.

(3) *Variations in authorised draft:*

(*a*) The authorised draft is generally increased or decreased by multiples of 6 inches.

(*b*) Throughout the year the authorised draft is susceptible to variations, according to the conditions of depth and width existing in the channel at any one time. On the basis of average river stages it is estimated that the authorised draft should be about 33 ft. in the dry season from December to May.

During the rainy season, from June to November, the maximum permissible draft may be as high as 43 ft.

HEALTH: Radio pratique may be obtained by sending a message, after picking up Pilot, to the Port Health Officer, advising that there is no sickness on board, name of last port, ETA, number of crew and nationality of vessel and name and nationality of Master.

RADIO:

(*a*) *Communications:* Communications are generally handled through the radio-telegraph station at Puerto Ordaz, call letter YVM. This station is operated on a 24 hour basis. The operating frequencies are: 440 kc/s; 472 kc/s; 4322 kc/s; 6505.5 kc/s; 8722 kc/s. The GMT – CQ times and frequencies are: 0900 hours, 4322 kc/s; 1200 hours 6505.5 kc/s; 1430 hours 8722 kc/s; 2000 hours 8722 kc/s; 0030 hours 8722 kc/s; 0300 hours 4322 kc/s.

There is no charge for messages from ship to shore or from shore to ship handled directly through YVM. A VHF frequency modulated radio system provides voice communications along the Orinoco Waterway. Master sets for the system are installed in the Puerto Ordaz radio-telegraph station (voice call: "Marine Radio"); Marine Radio handles shipping matters exclusively, The system consists of a high-band VHF frequency modulated voice radio net. To ensure a more efficient and satisfactory coverage, this system operates on dual frequencies alternating according to location, so that ships can either transmit on 161.700 megacycles receiving on 159.000 megacycles, or transmit on 161.150 megacycles receiving on 159.850 megacycles. For best results, ships should select frequencies according to the following: From sea to mile 50: transmit on 161.700 mc., receiving on 159.000 mc.; From mile 50 to mile 112: transmit on 161.150 mc., receiving on 159.850 mc.; From mile 112 to mile 159: transmit on 161.700 mc., receiving on 159.000 mc.; From mile 159 to mile 184: transmit on 161.150 mc., receiving on 159.850 mc.

Pilot station at Barima Bar, Palúa and Matanzas are equipped with this system. For the Puerto Ordaz area, ships will transmit to Marine Radio on a frequency of 43.02 megacycles and to others on a frequency of 43.18 megacycles, receiving in both cases on a frequency of 43.18 megacycles.

(b) *Control of Navigation:*

(*i*) Navigation on the North (natural) channel at the Boca Grande is free. However, vessels are requested to notify the Port Captain, Ciudad Bolívar, via YVM, upon arrival at Buoy EO, giving ETA at Beacon G7, mile 27.7.

(*ii*) Simultaneous navigation in opposite directions by two or more vessels is not permitted on the South (dredged) channel at the Boca Grande. The restriction is placed on inbound traffic, to the extent that any vessel wishing to enter the South channel requires prior authorisation from the Port Captaincy of Ciudad Bolívar. The request for permission to enter the South channel is to be addressed to the Port Captain, Ciudad Bolívar, via YVM, and is to be transmitted before the vessel reaches Buoy 0.1. Upon receipt of the request, the Port Captain will notify the vessel via YVM whether permission is or is not granted, indicating, in the latter case, the approximate waiting time. Until permitted to enter, vessels are to anchor at least 1 mile outside of Buoy 0.1. Once that authorisation has been granted, vessels are to enter the South channel at the earliest opportunity. Any vessel which has been notified to wait may elect to proceed and enter through the North (natural) channel; in this case, the vessel will have to satisfy the requirements outlined in paragraph (1) above.

(*iii*) While navigating the Orinoco Waterway inbound or outbound vessels are to report their position to YVM hourly on the hour.

(c) *Accident, Stranding, etc.*

(*i*) Should a collision, stranding or other accident occur in the waterway, or should it be found necessary to take control of the vessel away from the Pilot for any reason, the Venezuelan law requires

that a written report be made to the Captain of the Port by the Master of the vessel involved within hours. The report is to be addressed to the Captain of the Port and may be handed to the Pilot or the ship's Agent for delivery. The Master need not appear in person before the Captain of the Port unless specifically ordered to do so.

(*ii*) Slight groundings or touching of banks and bottom may simply be noted on the reverse side of the receipt for pilotage signed by the Master.

(*iii*) In case of collision, stranding, slight grounding, touching of banks and bottom, or other accidents, vessels should immediately notify YVM.

Section A

MATANZAS: 08.17 N. 62. 50 W.

N.B. See "Orinoco River" for all important entry requirements.
OPERATORS: CVG Siderurgica del Orinoco CA.
ANCHORAGES: Between miles nos. 195 and 197, Orinoco River.
MAX. SIZE: Length 600 ft., breadth 74 ft., distance between rail and hatch combing 23 ft., max. draft 30 ft. in rainy season May to November, and 26 ft. in the dry season.
RADIO: See "Orinoco River". Cable address of Matanzas terminal operators is "Sidor Matanzas – Telex 22709" and cables may be routed through Caracas, Curacao or Trinidad Radios.
TUGS: Every vessel over 2,000 registered tons is required to use a tug when berthing. Tug is 1,600 h.p.
BERTHING: Undertaken day or night. One quay 300 metres length with 5 cranes. Floating derrick 85 metres length and 100 metric tons capacity.
MEDICAL: Private hospital and several doctors available.
TIDE: 6 inches rise and fall at the berth. Current, in winter 6 knots; in summer 1·5 knots.
FRESH WATER: Available at rate of 12 metric tons/hour.
FUEL: Available in emergency.
CUSTOMS: 200 cigarettes and 1 bottle spirits allowed for crew member for personal consumption.
IDENTIFICATION CARDS: Provided by authorities, and necessary if crew going ashore.
REPAIRS: Local workshops undertake minor repairs.
AIRPORT: Distant 10 miles. Six flights a week to Caracas.
HOLIDAYS: No work on 1st January, Maunday Thursday, Good Friday, 1st May and 24th December. Work can be arranged on other holidays.

Section B

PALUA: 08.21 N. 62.41 W.

N.B. See "Orinoco River" for all important entry requirements. Specific details, relevant to Palua only, are as follows:
SUPPLIER: The ore supplier is Iron Mines company of Venezuela, cable address El Pao San Felix (Venezuela). Their Palua office is fitted with VHF radio-telephone on 161.150/159.850 megacycles and 2182 (call) kilocycles.
CLEARANCE: Agent will secure the Clearance dispatch.

Note: The Palua dock and facilities are the private property of Iron Mines Company of Venezuela. All Company regulations must be obeyed by vessels and vessels personnel.

The Bill of lading will be prepared by Iron Mines Company of Venezuela, also the Commercial Invoice on the Consular Invoice form 138. The Inward Foreign Manifest, U.S. Customs form 7527–B, should be prepared by Master after sailing from Palua.
BALLAST: To provide the best manoeuvring trim on docking, it will be at the discretion of the Master to properly ballast the vessel. But in order to lose no time on loading operations, as well as to prevent short loading, the ballast should be pumped out as soon as possible, using utmost caution not to pump oil or sludge overboard in the port area.
APPROACH AND DOCKING IN PALUA: After passing the village of San Felix, and before reaching the turn off from the main channel, a Tug and a Docking Pilot will meet the vessel and will assist in the docking manoeuvre. Although the Master will always be responsible for the vessel's movements either in the case of docking or undocking, the Docking Pilot will actually pilot the vessel to and dock the ship at Palua.

At mile 180.5 the ship should leave the main channel, turning to the left to follow the new dredged entrance channel of approach which is marked by two flashing buoys: white on the port and red on the starboard side. Diamond-shape range marks of 6 ft. side, painted white with black diagonal cross, indicate the centre line of the approach channel. The front range, fastened on the ore loading pier, shows flashing green light, and the rear range, set on a tower approximately 2,000 ft. away, has fixed green light.

The docking shall be port side to in all events; and please stow all hatch boards, or pontoons, or steel battens, etc., on the starboard side of the hatch; as this will keep the gear cleaner and lessen the work of the ore handling gang.

The dock will provide a gangway for access to the ship. Nothing should overhang the port side of the vessel on docking.

If the loading berth is not available the arriving vessel would be instructed to anchor at an anchorage just below the entrance to Palua approach channel at mile 179.
LOADING DOCK: The ore loading port is located at mile 181.5 of the Orinoco waterway, along the left bank going up-river. The new steel dock here is aligned up and down stream in the general direction of the current. It is 907 ft. long between its pointed heads, with 791 ft. of boarding side along, the deck fixed at about 6 ft. over the maximum expected rise of the river in the flood season. It has a strong fender system of steel structure covered with timber overhanging the side, down to near the lower river stage; and is fitted with 14 bollards plus two more, one on each head, for proper docking and securing the vessel.

Once the vessel is moored alongside the new ore loading dock, there shall be no further shifting necessary to load, as the loading tower moves along the dock on rails to facilitate the loading through the various hatches.
LOADING: The ore handling and loading equipment for Palua has a capacity to load 3,000 metric tons of ore per hour, for the time being. With this capacity, the vessel's mooring lines should be tended during the operation.

The boom of the loading tower is so designed as to allow free movement in any direction, fore and aft. The gantry and boom travel along the dock for a distance of 518 ft., and can place the ore at a distance horizontally out from the dock fenderline of 23 ft. minimum and 62 ft. maximum at the highest water stage, and from minimum 29 ft. to maximum 67 ft. horizontally out at the lowest stage.

Care must be taken during the course of loading to avoid piling the ore too high in the holds, as this necessitates hand trimming before the hatch covers can be properly secured, and incurs unnecessary trouble.
UNDOCKING: The Master, assisted by a Docking Pilot if required, will handle the vessel on leaving the dock, going upstream from the dock not less than ¾ mile distance to the turning basin in the same heading as when the ship moored alongside. One tug (or two tugs if required), will go alongside the ship prior to undocking and will assist the vessel until it is headed downstream in the main Orinoco channel. The amber lights at the heads of the dock form a range to mark the shoreside boundary of the local dredged channel. A red light high up on the loading gantry will come in the same range as the two amber lights. In the turning basin a tug-boat will assist the vessel swinging downstream.

When the ship is in the main channel, properly headed downstream, the Docking Pilot will leave on the tug, and the River Pilots (two of them) will assume the navigational direction. Report to Radio Marina by voice radio and give ETA at mile 31.

Report again to Radio Marina giving position every hour, and try to contact Barima pilot station sometime before arrival at mile 31, where the Pilots will disembark.

If Voice radio communication is not possible, comply by radiotelegraph by way of the YVM station.
HEALTH: The vessel will be boarded by the Public Health Doctor after docking at Palua; unless instructions to the contrary.

In the event that the Authorities have to board the vessel anchored out in the stream, an accommodation ladder should be rigged, preferably on the starboard side, to keep the port side clear for docking. Venezuelan authorities and workmen will not use pilot ladders.
REGULATIONS: The Master, members of the crew and passengers if any, are required to have in their possession individual smallpox vaccination certificates. Serious delays may result in the dispatch of the vessel if this requirement is not complied with.

The Venezuelan law is very strict on the subject of contraband. It cannot be stressed strongly enough that all *new* articles, clothing, cigarettes, liquor, etc., must be declared and sealed up on arrival.

Concerning passes, the regulation states that "members of the crew who are not officers of the vessel, in order to go ashore and return aboard, have to be supplied with an identification card to be issued by the Purser of the vessel or his substitute, which card will contain the name of the vessel, the name of the crew member and the date of issue. This card will have to be signed by the person issuing same and has to be authorised by the respective officer of the Port Captain's office for the district".
GAS-FREE CERTIFICATE: Vessels reporting to Palua to load ore should have the holds and cargo compartments swept clean and ready to receive cargo. Also, any combination ore/tanker vessel tendering to load iron ore at Palua shall present, along with the notice of readiness, a Gas-free Certificate if said vessel has in the past been employed in the carriage of petroleum products. Such certificate shall be dated subsequent to the discharge of the vessel's last petroleum cargo. But they are advised that around Palua in Venezuela there is no chemist available for granting such a Gas-free Certificate. It may be secured before arriving at Venezuela by calling at Trinidad, reporting to cable address: Harriman, Port of Spain.

In case of necessity, or for convenience, it could be arranged for the chemist to travel to Venezuela to meet the ship in Palua, advising Harriman (Port of Spain) at least three days before arrival at Palua.

If the vessel is equipped with a gas-indicating meter (explosimeter), Iron Mines Company of Venezuela will accept the Master's certification in writing that the vessel is gas-free. However, they reserve the right to check the vessel with their own equipment prior to acceptance.
RADIO: Should a vessel receive radio advice at sea to proceed to Palua, and the clearance is to another port, the Master must radio to Agents-Alcoaships Puerto Ordaz (Venezuela) and advise the name of the vessel, flag, port of embarkation, original port of destination, Captain's name and the number of members in the ship's crew including the Master. This is necessary in order to comply with the Venezuelan Customs Law.
CONSULS: At the present time there are no Consular Agents located around Palua, the nearest being in Ciudad Bolívar or Caracas.

FLOOD SEASON: The port experiences a yearly flood season from the middle of June to the middle of November, to a maximum of about 38 ft. at the last days of August, above the lowest stage (during the first days of April) in the dry season that occurs from the middle of November to the middle of June.
TIDE: The wind in the locality blows generally upstream, and on exceptional occasions during the dry or low-river season, when the current is weak, does overcome the current and cause the anchored ships to tend with stern upstream.
REPAIRS: Minor emergency repairs of mechanical, electrical and electronical types may be carried out in the shops by the personnel of the Iron Mines Company of Venezuela. The American Bureau of Shipping has a surveyor at Puerto Ordaz, near Palua.
MEDICAL: There is a medical dispensary at Palua, and a hospital of the Company at El Pao, where seamen may be admitted when requiring hospitalisation in emergency cases.
FUEL: All grades of bunker fuel are available at Palua, delivered by barge.
FRESH WATER: Drinking water is available at the dockside in limited quantity of about 100 tons every 24 hours. Small amounts of fresh provisions may be obtained in the locality.

AGENT: Alcoa Steamship Company, Cable address: Alcoaship, Puerto Ordaz.

Section C

PUERTO ORDAZ: 08.21 N. 62.43 W.

OPERATORS: Orinoco Mining Company.
LOCATION: The operations of the Orinoco Mining Company are centred in the State of Bolívar in Eastern Venezuela and iron ore is loaded into ocean-going vessels at Puerto Ordaz 8° 21′ N., 62° 43′ W.) at the junction of the Caroní and Orinoco rivers, approximately 184 nautical miles from the open sea.
GAS-FREE CERTIFICATE: Any combination ore-tanker vessel tendering to load iron ore at Puerto Ordaz shall present, along with the notice of readiness, a gas-free certificate if said vessel has in the past been employed in the transportation of petroleum products. Such certificate shall be dated subsequent to the discharge of the vessel's last petroleum cargo. Gas-free certificates can be obtained through an approved surveyor in Puerto Ordaz.
HEALTH: Vessels will be boarded by the Public Health Doctor in the stream off Puerto Ordaz. He will not come up a pilot ladder and will insist on an accommodation ladder which should be rigged and ready when he approaches. In order not to delay docking, this accommodation ladder should be rigged on the port side during low river stage, and starboard side during high river stage.
RADIO: Should a vessel receive radio advice at sea to proceed to Puerto Ordaz, and the clearance is to another port, the Master must radio station YVM Puerto Ordaz, and advise the name of the vessel, flag, port of embarkation, original port of destination, Master's name and number of members in the ship's crew. This is necessary in order to comply with article 17 of the Venezuelan Customs Law.
TUGS: All vessels touching at Puerto Ordaz will be assisted by a tug in docking and undocking manoeuvres. Line-handlers are available on the dock to secure mooring lines on vessel's arrival, and to release them on vessel's departure.
BERTHING:
1. **The Harbour:** The Puerto Ordaz Harbour extends from mile 183.5 to mile 184.1 of the waterway. The harbour consists of a natural basin formed by the mouth of the Caroni as it flows into the Orinoco. The width of the turning area within the basin varies from a minimum of about 1,600 ft. at low water to a maximum of about 2,000 ft. at high water. The lighted buoys marking the navigable limits on either side of the harbour are moved to different positions according to river stages in order to achieve full utilisation of navigable waters. The bottom of the harbour is generally rock, with scattered layers of sand overburden deposited as sediment by the river. This sand is regularly removed by dredging in order to maintain depths which will accommodate the maximum draft authorised by the Port Captain. The bottom configuration across the harbour consists of a rocky shelf extending about 900 ft. from the face of the dock. Beyond this shelf the bottom slopes steeply into a deep gorge, then rises to form a sandy beach along the opposite shore. The velocity of river currents at this site varies according to stage levels. A slower current is generally experienced over the rocky shelf adjacent to the dock, with velocities averaging about 1.5 knots at flood stages and about 0.5 knots or less at reduced river stages. The velocity of the current over and along the deep gorge averages about 3.5 knots at flood stages and 1.5 knots or less at reduced river stages. During extreme low water, the basin is subject to tidal influence and the velocity of currents is minimal, although there is no reversal of flow. The direction of the current is aimed slightly toward the face of the dock at its South-east end but deflects away from the pier about 500 ft. downstreamward. Access to the harbour is by way of a naturally deep and wide fairway which is the continuation of the gorge as it enters the Orinoco River.
2. **The Dock:** The Puerto Ordaz dock is located along the right ascending side of the harbour and extends outward from shore on a South-east by East alignment. The all-steel fixed-height dock is 1,885 ft. long; its elevation is 41 ft. above low water plane (0.0 ft. stage). This dock is fitted with a strong fender system and with a sufficient number of accessible bollards for proper docking and securing.
3. **Arrival:**
(*a*) *Notice of Readiness:* When completely ready to receive cargo, vessels will submit "Notice of Readiness" to Orinoco Mining Company. Vessels will be loaded in the order in which Notices of Readiness are accepted by Orinoco Mining Company. The Company will advise when the vessel may proceed alongside the dock.
(*b*) *Docking:* Special Docking Pilots are provided for the docking and undocking of vessels at Puerto Ordaz. These Pilots are qualified River Pilots, thoroughly familiar with local conditions. All vessels will dock starboard side to. During the low water stage, which is from the middle of November to the middle of June, no gangway should be rigged and nothing should overhang the starboard side of the vessel. When the river is sufficiently high which is from the middle of June to the middle of November vessels are requested to have starboard gangway or accommodation ladder rigged and ready to lower immediately after docking in order to expedite the commencement of loading. Venezuelan authorities and workmen will not use pilot ladders. Vessels reporting to Puerto Ordaz to load ore should have holds and cargo compartments broom clean and ready to receive cargo. Considerable time will be gained if this requirement is met prior to reporting.
(*c*) *Hatches:* On arrival at Puerto Ordaz all hatch boards or pontoons, beams, tarpaulins, steel battens, wedges, etc., should be stowed on the port side of the hatch. This will keep the hatch gear cleaner and lessen the work of the ore handling clean-up gang.
(*d*) *Ballast:* In order to lose no time with the loading operations, as well as preventing short-lifting, all ballast should be pumped out before arrival at the dock. Use utmost caution not to pump oil or sludge overboard in the port area. The Orinoco Mining Company Ships' Agency Representative will contact vessel on arrival and will assist in every way possible.
4. **Departure:** All vessels which have completed loading at Puerto Ordaz and have received the latest river information from the port officials, and are ready for their river transit in every respect, will proceed outward via the Orinoco Waterway, disembarking the Pilot at mile 31. Once the Pilot has disembarked, vessels shall proceed over the South (dredged) channel to mile 0, and exit the waterway.
TANKERS: See Punta Cuchillo.
MEDICAL: There is a hospital at Puerto Ordaz which will admit seamen requiring hospitalisation.
FRESH WATER: Drinking water is available alongside the dock.
FUEL: Bunker "C" and diesel oil is available.
CONSULS: An Italian Consulate Agent at Puerto Ordaz, nearest consuls for other countries at Cuidad Bolivar or Caracas.
REPAIRS: Minor emergency repairs may be carried out in the shops of the Orinoco Mining Company.
TIME: The legal time of Venezuela, which is four hours behind Greenwich Mean Time, shall be used in Pilotage Zone No. 1 of the Orinoco River.
SHORE LEAVE: Permitted, but it is mandatory that all crew members should report back to their respective ships before sailing time.
GENERAL: 1. *Ore Loading Equipment:* The ore handling and loading equipment installed on the pier has a speed ratio of 6,000 long tons of ore loaded per hour. Due to this great loading capacity the vessel's mooring lines must be tended at all times.
2. *Handling Facilities:* A movable 110-ton, rail mounted stiff-leg derrick is installed on the dock for the handling of general cargo.
3. *Provisions:* Small amounts of fresh provisions are available.
4. *Surveyor:* The American Bureau of Shipping has a non-exclusive surveyor in Puerto Ordaz. Lloyds has an agency in Ciudad Bolivar with a branch office in Puerto Ordaz, and will appoint surveyors upon request.

AGENTS: Mailing Address: Orinoco Mining Company, Apartado 2736, Caracas, Venezuela. Cable Address: Oconiro, Caracas.
The Orinoco Mining Company acts as ship's Agent for all vessels consigned to load iron ore at Puerto Ordaz. This function is performed by the Superintendent, Traffic & Ship's Agency and his staff, whose offices are located adjacent to the loading dock at Puerto Ordaz.

Section D

PUNTA CUCHILLO, (Puerto Ordaz Terminal): 08.20 N. 62.47 W.

N.B. See "Orinoco River" for all important entry requirements. Specific details relevant to Punta Cuchillo only are as follows:
OPERATORS: Phillips Petroleum Company.
LOCATION: Phillips Petroleum Company terminal and dock is located near Mile Post 192 on the South side of the river.
PILOTAGE: Government Pilot will pilot vessel to Puerto Ordaz. In some cases this same Pilot will act as Mooring Pilot and dock vessel at Phillips' terminal. If River Pilot does not also act as Docking Pilot, the River Pilot will disembark at mile 178 during low water, and mile 183 in high water, and a Docking Pilot will embark and take the vessel to mooring.
RADIO: The cable address for Phillips Petroleum Company, Caracas, is Filven. Messages to the Phillips Petroleum Company's Puerto Ordaz Terminal should be addressed to Alcoa Steamship Co. Inc., Puerto Ordaz. Cable address: Alcoaship, Puerto Ordaz.
Vessels diverted at sea to Puerto Ordaz (Phillips Terminal) which do not have a Venezuelan clearance on board, must advise Alcoa, Phillips Petroleum Company's Agent at Puerto Ordaz, by radio as soon as they receive their orders to change destination. The following information must be given: Master's name, vessels flag, net tonnage, last port of call, port to which originally cleared and ETA. This information is required in order that inward clearance may be arranged with government officials in ample time prior to vessel's

arrival. In absence of this information, vessel will be subject to a fine.
HEALTH: Vessel will be boarded by the Public Health Doctor in the stream off San Felix or Puerto Ordaz or occasionally at the Phillips Terminal. If he boards before docking, an accommodation ladder should be rigged and ready when he approaches, as he will not come up a pilot ladder.

All Masters, members of the ship's crew, and passengers, if any, are required to have in their possession individual smallpox vaccination certificates. If this requirement is not complied with, a serious delay may result in the dispatch of the vessel.
BERTHING: The dock at the terminal consists of a docking platform, two breasting dolphins and two mooring dolphins. The docking platform is connected to shore by a 10 ft. causeway capable of carrying a light truck.

At mean low river stage, water depth at the face of breasting structures is 40 ft. The bank rises sharply from face of dolphins toward shore. The 40 ft. depth contour extends parallel to shore for a considerable distance upstream and downstream from the dock, allowing a flat approach angle.

Current is negligible during low river stage and is approximately 6 knots at midstream at high river stage. Current runs generally parallel to the face of the dock at the dock site.

Top of dock elevation is 45 ft. above low water stage. Buffering system extends from a point below low water stage to a point immediately below top of dock. Nothing should overhang the shoreward side of the vessel when docking during the lower stages of the river. The buffering system is designed to accommodate forces exerted by a vessel of 47,000 tons displacement, approaching the dock with a velocity component perpendicular to the dock face, of ½ ft. per second.

Bollards for vessel's lines are provided at the mooring dolphins and at the breasting structures. Mooring dolphins will safely withstand 200,000 pounds of mooring line tension.

Phillips Petroleum Company facilities include a 24 in. diameter submarine pipe-line which crosses the river a short distance downstream of the dock. The crossing is marked by triangular-shaped signs on both banks of the river. Masters are cautioned against use of vessel anchors in this area.

The terminal pumps are capable of loading oil aboard ship at the rate of approximately 14,000 barrels per hour.
TUGS: Ministry of Communications Oficio No. 1387 states that, "The use of tugs is necessary in docking and undocking manoeuvres of boats at this Marine Terminal." Alcoa has a 2,100 h.p. tug available for this service. A tie-up launch will be provided to assist in the mooring of the vessel, and will handle all the mooring lines before and after loading.
LOADING: Phillips Petroleum Company Lot 9 Monagas crude is the only cargo available at the Puerto Ordaz Terminal. This crude has an API gravity of 11.9° to 12.5°F. (6.490–6.517 U.S. barrels per long ton. This cargo must be heated to approximately 140°F. in order to attain normal discharge rates.

Loading is accomplished through three 10 in. hoses provided with 10 in., 150 lb. ASA flanges. Hoisting gear is provided for handling the hoses. A dock crew will connect the cargo hoses and disconnect them on completion of loading. Some adapters and other tools are available on dock. The oil will be loaded at an elevated temperature.

Precautions, as are common for any heavy oil, should be taken to ensure that no ballast water is left in any tank to be filled with this oil. If the cargo is contaminated with water, the water will not separate from the oil. The salt content of the oil will be raised approximately 10 lb. per 1,000 barrels for very 0.10% contamination by sea water.

All cargo compartments must be stripped dry. Cargo pipe-lines should be drained and/or purged of water.

There is no provision at the Puerto Ordaz Terminal for disposal of dirty ballast or tank washings. Tankers bound for Puerto Ordaz for loading must dispose of all dirty ballast and tank washings before entering the Orinoco River.

Prior to proceeding to sea, all butterworth plates, cargo tank hatch covers and ullage plugs should be inspected to ensure against entry of salt water.

AGENCY: Phillips Petroleum Company uses Alcoa Steamship Company, Inc., Puerto Ordaz, as its Agent in the handling of all papers and documentation connected with the ship's business. Alcoa will also help the ship's Master in providing required land transportation, limited provisions, or any other assistance that may be required for the operation of the ship's normal business. Alcoa will also assure that the ship's requirements are met in regard to Sanitary Inspection, Customs Inspection and Guardia Nacional.

PERTIGALETE: 10.15 N. 64.34 W.

LOCATION: Situated in a sheltered bay about 2 miles East of the port of Guanta, or about 4 miles from the pilotage zone situated in the North.
PILOTAGE: The pilotage zone in Pozuelos Bay is the same as for Guanta, i.e. an area situated between the islands of Borracha and Chimana, in the Bay of Pozuelos (formerly called Bergantin Bay).

From the pilotage zone for the port of Guanta/Puerto La Cruz, the private pier Pertigalete is to be approached by sailing between the Isla de Plata and the island of Cachicamo. Pilotage is compulsory in and out and is performed by well-trained government Pilots. The navigation is considered very safe.
MAX. SIZE: The depth of water for ocean-going vessels alongside the Pier is 20 ft. (shore side) to 40 ft. (sea side).
BERTHING: The private pier in Pertigalete for berthing ocean-going vessels is up to 150 metres (492 ft.) long. The apron is ample and allows easy manoeuvre of trucks with cement. On the same pier the cement factory is regularly receiving raw material and machinery, but the berthing is along the West side of the pier for coastwise trade, so does not interfere with operations for ocean-going vessels. There are chutes, conveyor belts from the nearby silos, and a heavy crane.
TUGS: Available from inward clearance port at Guanta/Puerto la Cruz.
TANKERS: Berth at private wharf at Pamatacualito, operated by Baroid de Venezuela SA.

Length of berth 113·60 metres, depth alongside 10 metres.
LOADING: The cement factory is able to deliver to the pier 2,000 to 2,300 bags per hour, to be loaded simultaneously into arrived vessels. According to experience load rate is about 300 bags per hour and gang by steam winches, and about 400 bags per hour and gang by electric or hydraulic winches.
STEVEDORES: Loading operations are performed exclusively by the personnel of the cement factory. Winchmen are also supplied by the cement factory. All costs, including overtime, are for account of the cement factory, inclusive of stowing and trimming the vessel.

Under normal conditions on Saturday afternoon there is no work, but almost without exception the cement factory works overtime on Saturdays if by doing so the vessel can be despatched that day. On holidays, if circumstances call for urgent operation, the cement factory has the option to work overtime. Work on Sunday is prohibited.
AUTHORITY: Private pier of C. A. Venezolana de Cementos and is under the jurisdiction of Customs and Harbour Master of Guanta/Puerto La Cruz, Eastern Venezuela. All charter business and general administration is covered by Caracas Headquarters of C. A. Venezolana de Cementos.

AGENTS: Head Office (Direction and Control), Brokers Chartering and Tramp Agents, Victor H. Selinger, PO Box 1632, Caracas. Cables: "Selvic". Telephones: 81.25.28, 81.86.38, 81.28.78. Telex: 22859.

PUERTO CABELLO: 10.29 N. 68.07 W.

PILOTAGE: Pilotage is compulsory and vessels have to wait for Pilot in the pilotage zone, West and North West of the port entrance (South West of Punta Brava).
MAX. SIZE: Bulk Cargo Pier: up to 32 ft. draft. Inner Port: up to 28 ft. draft.
TUGS: The use of tug-boats within the port is compulsory both for entering and leaving port, as well as for manoeuvres in the port basin, for foreign flag ships over 300 tons.
BERTHING: The port entrance is 100 metres wide in direction West to East. Berth No. 1 and half of Berth No. 2 are along the same entrance channel, where ships are berthed only as an exception or when the port is rather congested. The total length of the North (main) Pier for the berthing of ocean-going vessels is 1,025 metres, room enough for six to eight vessels. For administrative reasons the pier is divided into eight berths of about 128 metres each. Between berths No. 2 and 3, the pier is bent Southwards. Along the pier there are warehouses which under normal circumstances provide sufficient indoor space.

Along the East Pier, of 350 metres length, there are no warehouses. This pier gives berthing facilities to three or four middle-sized vessels.

Along the South Pier, of 500 metres length, there are two warehouses. This pier is exclusively used for coastwise shipping, fishery and small craft in general.

The dredged channel along the East Pier is only 80 metres wide. This is the only channel which connects the main basin of the port with the South basin of the port, the latter served through the South Pier.
BULK-HANDLING FACILITIES: 400 metres long new pier, designed exclusively for the handling of bulk cargoes.

This bulk cargo pier has an apron of about 25 metres and allows ships with a draft of 10 metres at any time.

Ships moored along this new pier are not able to take water there, but have to be shifted to the general cargo piers in the port of Puerto Cabello.

There is no telephone installation on the new pier.

At a later stage there will be erected silos for grain, chemicals, fertilisers and likely also storage tanks for liquid cargo and other installations for the handling of all kinds of bulk cargo.

Tug-boat service and assistance of Pilots is compulsory to negotiate the distance to and from the bulk cargo pier.

General cargo is not allowed to be handled at this pier. There are no cargo handling facilities whatsoever and no kind of rolling equipment either. All the vessels, unless they have up-to-date discharging equipment of their own, have to provide derricks of minimum 5 tons capacity to support the SKT discharging equipment of receivers. The cargo is discharged in bulk cargo trucks, fully closed and with only rather narrow manholes for the SKT arm.
TANKERS: About 2 miles East of the port entrance, Shell has a bunker terminal called Borburata. Heavy fuel oil, gas oil and diesel oil are supplied upon prior arrangement. Borburata belongs to the jurisdiction of the Ports and Customs Authorities of Puerto Cabello. Governmental Pilot is compulsory for calling at Borburata. If the vessel is cleared outward at Borburata the governmental Pilot is to be brought back by automobile to the pilot station in Puerto Cabello.

For the time being, vessels piloted into/from Borburata only between 0500 and 0600 hours.

Ships of about maximum 425 ft. length, drawing not more than

24 ft. Vessels longer than 425 ft. may be handled provided the Captain and/or Owner's Agent are ready to assume full responsibility in writing, by letter, to be filed with the Harbour Master.

STEVEDORES: *Straight time:* Monday to Friday: 0700–1100 hours and 1300 to 1700 hours.

Overtime: Monday to Friday: 1800 to 2300 hours. Normally overtime beyond 2300 hours is not permitted.

Relief Gangs: Obtainable, if there are not too many ships working in the port at a time, for the hours from 1100 to 1300 and 1700 to 1800.

Work on Sunday: Not permitted except for passenger vessels, and considered as such are those carrying more than 60 passengers, and with a medical doctor on board.

Saturday afternoon work: Not permitted. But if a vessel can terminate operation and sail with a maximum of three additional hours' work, a special permit can be obtained from Customs and Port Authorities. In such case, the additional working hours are considered straight time work.

FRESH WATER: Water is supplied through pipe-line on the pier, day or night.

For night work, a special gratuity to watermen is customary.

The drinking water in Puerto Cabello is tropical treated, well-filtered and wholesome.

Every vessel of over 600 tons net calling at Puerto Cabello, and other ports in Venezuela, should arrange to take water only at Puerto Cabello in order to avoid double water dues.

OPENING/CLOSING HATCHES: Is not performed by the National Port Services, but instead either the ship's crew or hired assistance labour must be used. Recommended that ship's crew open and close hatches.

REPAIRS: The adjacent Naval Yard, the entrance to which is within the main ports, opposite the North Pier, is equipped for minor repairs both on engine and hull. For emergency purposes, the dry dock could be used. Its capacity is for ships up to 30,000 to 35,000 tons. All repairs on the hull are effected by a special crew transferred from the Naval Yard.

At the dry dock there is one crane of 15 tons capacity. Within the Naval Yard there are two slipways for ships of 125 ft. maximum and 210 ft. length maximum respectively.

Venezuelan Navy ships always have priority.

AGENTS: Head Office (Direction and Control). Brokers, Chartering and Tramp Agents, Victor H Selinger, POB 1632, Caracas, Venezuela. Cables "Seltank". Tel. 81–25–28, 81–86–38, 81–28–78. Telex: 21402 New Boe Code. Local Office, POB 108, Puerto Cabello T31. Tel. (042) 2866, (042) 3088. Cables: "Selvik".

PUERTO DE HIERRO: 10.38 N. 62.05 W.

DOCUMENTS:

Last Port Venezuelan Consulate Clearance.
6 Crew Lists.
6 Passenger Lists.
6 Stores Lists.
6 Narcotic Drugs Lists.
2 Health Declarations (forms provided and filled by doctor on arrival).
Smallpox Vaccination Certificates of Crew.
Derat Certificate.

PILOTAGE: Pilot boards at sea buoy 10° 37′ N., 62° 06′ W. If no pilot boat meets vessel on arrival, ship must anchor to wait orders. Send 72, 48 and 24 hour ETAs to cable address "Transterm Guiria". Vessels should anchor in the vicinity of sea buoy. No radio-telephone available.

ANCHORAGE: Vicinity of sea buoy. Good holding ground.

RESTRICTIONS: Vessels may have to wait at anchorage until slack water for docking when tide/current is strong.

MAX. SIZE: Dock, East berth: 30 ft. at low water 33 ft. at high water 690 ft. length, 90 ft. beam. Dock, West berth: 19 ft. at low water, 32 ft. at low water. 600 ft. length, 60 ft. beam.

HEALTH: Doctor boards at berth and grants pratique. Any suspected disease or fever to be reported at that time. Vessels arriving from a Venezuelan port do not require pratique.

RADIO: La Guaira, Venezuela.

TUGS: None available.

BERTHING: Berthing at times limited to slack water period depending on strength of tides. Pilot will advise.

STEVEDORES: Bulk cargoes: discharging rate 700/800 tons p/h., loading rate 800/1,000 tons p/h. No facilities available for handling general cargo.

MEDICAL: No notice required. Venezuelan Navy Hospital with limited medical assistance.

TANKERS: No oil carriers.

DENSITY: Low water – 1,020. High water – 1,023.

FRESH WATER: Available in limited quantities at berth. Rate of delivery 30 tons p/h.

FUEL: In an emergency. Esso diesel fuel medium, specific gravity at 60°F. 0.85, API gravity at 60°F. 35, viscosity SSU at 100°F. 37, viscosity engler at 20°C. 1.40.

DEVELOPMENTS: Possibility of increasing draft to 42 ft. at loading berth, and to 30 ft. at discharging berth.

CUSTOMS ALLOWANCES: Two cartons of 200 cigarettes each or equivalent in tobacco. Two ¾ litre bottles.

IDENTIFICATION CARDS: Issued locally by Navy on arrival.

REPAIRS: None. Small company workshop.

CONSULS: None.

AIRPORT: Nearest airport (one hour voyage on launch) is Guiria with two weekly flights to Caracas and the same number to Port of Spain, Trinidad. Next nearest (one hour launch plus two hours car) is Carúpano with four daily flights to Caracas.

TIME: GMT minus 4 hours. Permanent.

HOLIDAYS: Cargo worked 24 hours a day, 365 days a year.

GENERAL: The whole of Puerto de Hierro is a Venezuelan Navy Supply Base. The dock and cargo installations are operated by Puerto de Hierro, S.A., a subsidiary of Caribbean Steamship Company, S.A. Only bulk cargoes transhipped by Caribbean Steamship are handled.

AUTHORITY: Puerto de Hierro, S.A., c/o Agencia Miguel Petrosini, Campo Creole, Guiria, Estado Sucre. Cable: "Transterm Guiria" Tel. 109 of Guiria.

PUERTO LA CRUZ: 10.13 N. 64.38 W.

(PUERTO LA CRUZ TERMINAL)

OPERATORS: Mene Grande Oil Company. Postal Address, Apartado 709, Caracas, Venezuela. Radio Address, Meneg, Puerto la Cruz. (Venezuela).

FLAG: Venezuelan flag must be displayed from the foremast when entering zone as well as in docking operations. At all other times the Venezuelan flag must be displayed between sunrise and sunset.

LOCATION: Puerto La Cruz located on Pozuelos Bay on the North-east coast of Venezuela. Its harbour is well protected by numerous islands against sea currents. The hurricane path is several hundred miles to the North and has never affected the flow of navigation in the Puerto La Cruz area.

The light-house marking the entrance to Pozuelos Bay is located: Latitude 10° 18′ 18″ North, Longitude 64° 41′ 7″ West. Visibility is 20 miles.

DOCUMENTS: Arrival clearance is effected on board vessel shortly after docking by Government Officials and a representative of the Company. The following documents are required:

1. Ship's Register.
2. Dispatch issued by Venezuelan Consul at last port* (1 copy).
3. Ballast Manifest* (1 copy).
4. Crew List* (6 copies).
5. Passenger and Baggage List, if any* (5 copies).
6. List of Passengers in Transit, if any* (2 copies).
7. List of Personal Effects* (3 copies).
8. Store List** (4 copies).
9. List of Slop Chests* (4 copies).
10. Sailing Permit issued by Marine Authority at last port of call.

* Clearance documents should be visaed by Venezuelan Consular Authority at last port of call. In absence of a Venezuelan official, papers may be visaed by Consul of friendly nation, by Chamber of Commerce or by two local prominent business men. Also, in absence of Venezuelan official, the following notation in Spanish should appear on each document, with signatures:

"Por no exister en la localidad Agente Consular Venezolano y a peticion de los embarcadores, certifico el presente documento."

(Signature).....

** Store List should indicate separately all deck, engine and cabin stores. These lists may be prepared on board prior to arrival. However, if vessel is dispatched from Caribbean ports, said lists must be visaed by Venezuelan Consul at port of departure.

Please do not confuse document No. 2 with document No. 10. Both are necessary and the lack of either one subjects the vessel to an incontestable government fine.

PILOTAGE: The use of Government Pilots is compulsory for all vessels entering or leaving territorial waters. The Company will arrange for this service at all times. If it becomes necessary for the Master of the vessel to disregard Pilot's orders in order to ensure safety of the ship a written report from the Master shall be submitted promptly to the Government Port Captain in Spanish. Meneg will assist in translation, when necessary.

The zone for Pilot to board or to anchor awaiting Pilot is delineated by the following three lines: North by parallel 10° 15′ N., East by meridian 64° 40′ W., and West by an imaginary line from Punta Puinare on Isla Chimana del Oeste to the North point of Morro de Barcelona.

When ready to dock, a Pilot will be despatched by launch to ship

MAX. SIZE: No limitation is placed on width of tankers. Ships up to 1,000 ft. in length can be turned around in the inner harbour area. Max. safe draft alongside (berth No. 5) is 55 ft.

HEALTH: In theory the Government Port Doctor is to board each incoming vessel and board only outgoing vessels which carry passengers. In practice, however, the doctor boards at his discretion.

Ships cleared between the hours of 5 p.m. and 8 a.m. Mondays through Fridays and all day Saturday, Sundays and holidays are charged by Immigration Service for the issuance of shore leave passes. There is no charge for this service from 8 a.m. to 5 p.m. Mondays through Fridays. Transportation and immigration clearance fees on movement of seamen are billed at cost.

RADIO: Masters are requested to advise Meneg Puerto la Cruz by radio 48 hours in advance of estimated arrival outlining vessel's name, date and hour of arrival, bunkers and cash required, if any. In cases of *ships diverted at sea,* legal requirements also call for name of Master, number of crew, port of departure, port to which originally cleared and flag of ship. Vessels may contact the terminal by radio-telephone on any of the following frequencies: 2080 kc., 2120 kc., 2182 kc., 2638 kc., and 2738 kc and VHF channel 16. There is standby attention 24 hours a day to all frequencies mentioned.

Notice of diversion at sea, not received prior to arrival of vessel, subjects ship to incontestable fine from the government.

Ship-to-shore radios are installed on the oil dock and on both tugs. A 350-watt AM transmitter-receiver operates on the following frequencies which are monitored 24 hours a day: 2080 kc. 2120 kc., 2182 kc., and 2738 kc. VHF Channel 16 for calling.

TUGS: Two-tug service is compulsory by law in this port. The Company has available a first-class diesel-electric tug of 1,600 h.p. and a contract tug of 2,100 h.p.

Tug assistance is charged from the moment the tugs leave their mooring, after having been requested, until they have returned and made fast. In other words, time is charged during the entire period the tugs are at the service of the requesting vessel, whether or not the latter is under actual manoeuvres. Generally, the Pilot will not commence movement of the vessel until he is assured that the tugs are standing by.

BERTHING: The loading facilities consist of five berths. Products available and safe draft are as follows:

	Berth 1	*2*	*3*	*4*	*5*
Crudes	×	×	×	×	×
Heavy fuel oil			×	×	×
Refined products			×	×	
LPG		×	×		
Bunker "C" fuel	×	×	×	×	×
Diesel fuel	×	×	×	×	×
Intermediate fuels	×	×	×	×	×
Fresh water	×	×	×	×	×
Max. safe draft	38′	38′	38′	38′	55′

Upon arrival at dock the following rules must be observed:

(*a*) Masters must ensure that mooring lines are properly tended during the discharge of ballast and loading of cargo, and that sufficient personnel is on board at all times to handle same. Discharging or loading will be temporarily suspended upon infringement of this regulation.

(*b*) Masters are requested to remove the blank flanges from their vessel's loading manifold before docking, so as to expedite the connecting of the shore hoses by company personnel. Vessels using berth No. 5 are also requested to have their derrick and gangway ready for use.
Note: Vessels normally dock with starboard side to dock.

(*c*) While docked, circulating sea water, hot water or steam on starboard side of ship is prohibited. Hot water or steam may activate the automatic sprinkler system as well as damage piping located under the dock surface.

(*d*) Rat-guards must be placed on all ropes connected with the shore.

(*e*) Heavy exhaust smoke from vessel's smoke stack is not permitted. Any infringement of this rule will result in Government fine and/or removal of ship from dock.

(*f*) Meals must be provided in officers' mess-room for Venezuelan National Guard personnel who may be assigned to the vessel during stay in port.

LOADING: After the vessel has been cleared, the Company Dock Supervisor on watch will give the Master of the vessel written instructions as to grade or grades of cargo, loading rates, information on size of hoses and lines, and other information pertinent to the loading of the vessel.

During loading operations, company employees are on watch to administer to the needs of each vessel.

Upon termination of loading cargo, hoses are normally displaced with air at controlled rates prior to disconnecting. If the ship's officers request that the alternate procedure of draining hoses be effected, shore personnel will be happy to comply provided the following steps are observed by ship's officers:

1. Advice be received prior to termination of loading cargo.
2. Ship's receptacles be situated to receive oil drained on board. It should be noted that heavy fines are imposed for spills or overflows which contaminate the bay.

Shortly after completion of loading company personnel will take ship's ullages and, later, deliver cargo and sailing papers to an officer of the vessel.

Ships must vacate berth upon completion of loading and await papers at anchorage if the berth is needed for another vessel. The Dock Supervisor on duty will advise ship's officer of this matter.

MEDICAL: All requests for medical or dental treatment must be accompanied by a written request from the Master to the Company Dock Supervisor on duty. The Company makes available to ship's personnel the same clinic which has been designated for its employees. Seamen requiring medical attention should first contact the Company's Dock Supervisor who will provide them with a medical order and also provide transportation to and from the hospital.

In the event of hospitalisation, and after a seaman has been discharged, he must rejoin his vessel if it is still in port. Otherwise, he will be lodged in a hotel pending instructions as to his disposition.

Company doctors do not visit ships. If medical attention is required aboard ships, the Government Port Doctor will board and attend the patient.

BALLAST: Although climatic conditions in Puerto La Cruz are relatively mild, vessels should arrive with sufficient ballast to permit safe handling. Venezuelan regulations strictly prohibit the pumping overboard of dirty ballast while vessel is in sight of land. All ballast must be pumped ashore with the exception of vessels especially equipped with clean segregated systems which are reserved for ballast only. Vessels so equipped will be permitted to pump overboard after first being inspected and approved by shore personnel. Heavy fines are imposed for pollution of waters and industrial fishermen are quick to report any infringement. Maximum discharge pressure to shore installations is 90 psi. through the 16 in. line which dumps into ballast lakes approximately 300 metres south of dock.

FRESH WATER: Fresh chlorinated water is available at an average rate of approximately 10 tons per hour. Total volume of water that can be supplied during the normal period alongside averages about 150 tons. As water is not held in special reserve for vessels requirements but supplied from Terminal water system, availability may be limited dependent on time of year and other conditions.

FUEL: The terminal is not a general bunker station. Only ships loading petroleum may take bunkers.

Bunker "C", light and heavy diesel fuel and complete range of intermediate fuels are available in quantity. Delivery rates to the ships are approximately as follows: Bunker "C", 200 tons per hour; heavy diesel, 150 tons per hour; intermediate fuels, 150 tons per hour.

Whenever a vessel takes bunkers the Master or Chief Engineer, or whomever they may appoint, may inspect the shore tanks and meters to satisfy themselves as to quality and quantity. Meters are installed on all bunker systems with the exception of light diesel, and the master meter has been certified by E. W. Saybolt & Company.

Gas oil for galley fuel is supplied only by tank truck or in barrels through local suppliers.

The dock valves on the bunker lines will only be opened and closed upon advice from the ship's personnel.

Bunkers are delivered concurrent with the cargo.

CUSTOMS: Crew members should be warned against taking knives or other lethal weapons ashore, as this is strictly prohibited. All firearms and ammunition must be noted on stores list. They cannot exceed one per officer nor 18 cartridges per gun. No arms may be carried while ship is in Venezuelan waters or tied up at dock. Contraband of any description will be confiscated. Each man is allowed one package of cigarettes on his person and this package must be opened. No liquor is to be taken ashore. It is prohibited to carry liquor from shore to ship without authorisation from captain of vessel. It is further strictly prohibited to consume liquor in dock area.

It is normally forbidden to take photographic cameras ashore. However, upon written request to the National Guard contingent on the oil dock, special permission may be obtained. This is subject to two limitations: one, that the camera is returned to the ship; two, that no photographs are taken of the petroleum installations.

IDENTITY CARDS: Passes for shore leave are issued by the officials of the "Capitanía de Puerto", who board with the Customs authorities upon the vessel's arrival at dock. These passes are valid for the duration of the vessel's stay in port and must be returned before sailing to the guard assigned to the vessel.

In order to comply with Immigration Regulations, crews should be carefully checked before sailing, and any missing seamen reported to the Dock Supervisor. Crew members left behind when the vessel sails will be held in custody until deported at the vessel's expense.

CONSULS: The following foreign countries have consular offices in the vicinity of Puerto La Cruz:

Belgium	France	Spain
Brazil	Great Britain	Sweden
Colombia	Italy	The Netherlands
Denmark	Norway	Dominican Rep.

Dock personnel should be apprised of vessels' consular requirements promptly upon docking. Transportation, if necessary, will be furnished by the Company for this purpose.

REPAIRS: Request for repair work by local contractors must be accompanied by a written request from the Master of the vessel.

REPATRIATION: Seamen discharged from hospital for transfer to another port, seamen arriving from another port or those being repatriated are handled by company personnel without charge. However, hotel, transportation, government and handling fees are billed at cost.

In the case of seamen left ashore for any reason, Masters are requested to furnish a letter accepting responsibility for all expenses incurred, advances if any, and instructions for repatriation. Venezuelan regulations, at all times, hold the vessel responsible for a seaman during his stay in the country. Close contact is maintained by radio with ship owners regarding disposition of their seamen.

AIRPORT/MAIL: With the exception of Saturdays, Sundays and holidays there is daily airmail and airfreight service to and from Puerto La Cruz.

Mail handed to company representatives for posting shall be separated by "ship" and "crew". Separate charges will be noted on disbursement account. The Company will not, however, keep a record of postage expense of any individual. This is the responsibility of the Master.

About 75% of all ship's mail received is eventually reforwarded or returned. This is due to late receipt of mail, diversion of a vessel or cancellation of a scheduled trip. The folowing rules have been set up to eliminate any misunderstanding between the Company and interested parties:

1. Mail arriving for a ship on which *no advice whatsoever* has been received will be kept for thirty days and thence returned to its point of origin. A bill for postage will be sent to the interested party.
2. Mail arriving for a ship which has already sailed, and on which *no forwarding instructions* have been left by the Master of the vessel, will be retained for thirty days and thence returned to its point of origin. Postage costs will be charged to the disbursement account of the interested vessel.
3. When parts and machinery are received for a vessel which does not arrive within a reasonable period of time, we will advise the

sender of the material on hand. If no instructions are received from the sender of the material, we will not be responsible for disposition of material. Air express packages usually arrive through Maiquetra Airport which is 200 miles distant from Puerto La Cruz. Receipt and transshipment of air express packages to Puerto La Cruz usually take several days. Shippers should, therefore, not expect one day service within Venezuela and should time their shipments accordingly.

TIME: GMT minus 4 hours. Permanent.

REGULATIONS:

Excessive Smoke. It is absolutely prohibited to exhaust heavy smoke through a ship's funnel while tied up at the Company's docks. It is also prohibited to blow boiler tubes. Failure to comply with this regulation will result in any or all of the following actions:

1. Vessel's discharge of ballast or loading of crude or products will be immediately shut down.
2. Vessel will be subject to fine from authorities.
3. Vesel may be removed from dock.
4. Owners will be advised of infractions of this regulation.
5. Fines, time lost, and other related expenses will be charged against the vessel.

Pollution. Venezuelan laws are very strict on this subject. The escape of dirty ballast, lubricating oil or crude oil into coastal waters is considered to be pollution whether it takes place at the dock or in the harbour. All discharge valves, bilges and scuppers are to be closed before loading operations commence. Strict vigilance must be exercised in discharging ballast and loading crude and bunkers. When an oil spill occurs the Master, government officials and a company representative evaluate the quantity of the spill and make a report to the Government Petroleum Inspector. On the basis of this report a fine is imposed. This type of fine cannot be appealed. The majority of spills are due to negligence by ship's personnel supervising loading operations. Therefore, an efficient watch aboard ship should be maintained at all times.

TONNAGE CERTIFICATE: Due to reciprocal agreements between Venezuela and the following countries, ships flying the flag of any of the below-named countries exempted from Arqueo compliance and payment of fees: Denmark, England, France, Germany Holland, Ireland, Norway, Portugal, Sweden, United States.

Ships bearing the flag of any other nation shall require a Venezuelan Arqueo Certificate. The cost of measuring is contingent on the size and tonnage of vessel. The certificate is usually issued after the ship sails from port. It is then sent to the marine department of the Owners of the vessel by airmail.

GENERAL:

(*a*) *Cash.* Masters are requested to consider their cash requirements carefully, as return cannot be accepted. The local currency is the Venezuelan "Bolivar". No other currency is available from the Company. Foreign exchange may be secured from local banks by interested parties. Local banks are open Monday through Friday from 9 a.m. to noon, and from 2.30 to 4.30 p.m., excepting holidays.

(*b*) *Stores.* Foreign cigarettes or other bonded stores are not available in Puerto La Cruz. There is ample supply of national and imported products through the ship chandler. During the past several years there has been improvement in the supply of fresh and canned food items. Prices are competitive due to favourable exchange rates.

(*c*) *Laundry.* Laundry service is available during daylight hours, excepting Sundays and holidays, provided prompt notice is given to ship chandler upon arrival in port.

(*d*) *Charts.* No charts or sailing documents are available in the terminal. Same should be forwarded by airmail to the Company for delivery to the ship.

(*e*) *Launch.* Launch service in transporting Pilots to and from ships, handling lines to dock, and for other official business is supplied by an outside firm under the direction of the Dock Supervisor. In the Puerto La Cruz Terminal no government launch is available. Therefore, the service performed for transportation of government officials is for account of the vessel, at cost. The present fee is subject to change without notice.

AGENCY:

It is unnecessary to request "Agency" on vessels loading at the Company's terminal. The Company does not act as "Agent" and, also, ship's business is taken care of automatically.

Mene Grande Oil Company, as operator, charges a fixed fee for General Services. The Company does not act as Agent for a vessel, but it does render all of the services required for a prompt and efficient tanker turnaround.

PUNTA CARDON: 11.36 N. 70.15 W.

PORT LIMITS: The area enclosed by the parallels of 11° 38′ 00″ N. and 11° 36′ 38″ N. and the meridian of 70° 14′ 25″ W.

OPERATORS: Compañia Shell de Venezuela.

FLAG: It is compulsory to display a Venezuelan flag at the foremast starboard yardarm during daylight hours for ships anchored or berthed in Venezuelan waters. The ships Services will provide a Venezuelan flag at any time for ship's account.

LOCATION: The port of Punta Cardon is located on the Gulf of Venezuela, on South-west coast of Paraguaná Peninsula, Venezuela. Punta Cardon is an open sea port with practically no swell, due to the Easterly winds prevailing almost all year from the shore side.

ESSENTIAL REQUIREMENTS:

1. Incoming vessels must send ETA at least three days before arrival at Punta Cardon.
2. If a ship, originally cleared for another port (including any other Venezuelan port) is diverted at sea to Punta Cardon, certain information must be radioed prior to arrival in order to avoid heavy fine(s) and/or delays.
3. No dirty ballast may be pumped overside in port in Venezuelan coastal waters. Ballast disposal facilities are available at Punta Cardon Terminal.
4. The use of Venezuelan Government Pilots is compulsory for berthing and unberthing.
5. In addition to other clearance documents, five copies of an itemised list of articles in the ship's slop chest must be presented to the authorities on arrival.
6. The emergency fire signal is five long blasts on the ship's whistle or siren. No other signal is to be given in cases of emergency.
7. Rat-guards must be placed on all mooring lines.

DOCUMENTS: Clearance (inward pratique). Inward clearance is effected on board by Government Port and Customs Officials and a representative of the Oil Movements Department immediately after berthing. The following documents must be ready on arrival:

(1) In ballast:

*(*a*) Clearance from Last Port (1 copy).
*(*b*) Ballast Manifest from last port (1 copy).
(*c*) Crew List (7 copies).
(*d*) Steward's Store List (all foodstuff, liquors, tobacco, etc.), to be declared on a separate and independent sheet (5 copies, see note below).
(*e*) Deck and Engine Stores and Spare Parts List (paints, varnishes, chains, ropes, etc.), to be declared on a separate and independent sheet (5 copies, see note below).
(*f*) Medicine Chest Lists (including narcotics accurately itemised) (5 copies).
(*g*) Slop Chest Lists (5 copies).
(*h*) Personal Effects Lists (4 copies).
(*i*) Sailing Permit (issued by Maritime Authority at last port of call) (1 copy).
(*j*) Passenger and Baggage Lists (if any) (2 copies).
(*k*) List of Passengers in transit (if any) (4 copies).

* Documents marked with asterisk are to be visaed by Venezuelan Consular Authorities at the last port of call.

In the absence of a Venezuelan Consul the documents must be visaed by the Consul of a friendly nation, or by the Local Chamber of Commerce, or by two local reputable businessmen, whose signatures shall be notarised.

In the absence of a Venezuelan Consul the following notation should be written in Spanish on each document signed by the alternates designated above.

"Por no existir en la localidad Agente Consular Venezolano y a petición de los embarcadores, certifico el presente documento".
(Signature)

Both the Steward's Store List and the Deck and Engine Stores and Spare Parts List may be prepared on board prior to the vessel's arrival. However, if the vessel is dispatched from the colonial Antilles or Guianas, these lists as well as the Personal Effects List must be visaed by the Venezuelan Consul at the port of departure. The Steward's Stores List must be comprehensive and accurate, especially with regard to cigarettes and liquor. All new clothing, gifts, souvenirs, etc. are to be clearly marked. All personal effects of the crew are to be collected and placed in the Bonded Stores Locker, ready for sealing by the Customs Authorities on arrival.

Although vessels proceed directly to Punta Cardon, clearance documents should be made out showing the port as "Las Piedras, Paraguana (Punta Cardon)". Failure to comply with this requirement may result in fines up to a maximum of U.S. $600.00.

(3) Clearance documents out-bound: Outward clearance and cargo documents are delivered on board by the Ships Services Representative.

In the event that the berth is required by another vessel, a vessel having completed loading may be required to vacate the berth promptly and proceed to anchorage to await cargo documents and clearance.

PILOTAGE: Pilots are employees of Venezuelan Government and pilotage is compulsory for vessels entering or leaving harbour. The Ships Services Office will arrange for this service at any time. If it becomes necessary for Master of the vessel to disregard Pilot's orders in order to ensure safety to the ship, the Master must promptly submit a written report to the Harbour Master on the matter, via the Ships Services Representative, stating the reason for his action.

Pilots sustaining injuries: It is compulsory to submit a full report in cases where a Pilot is injured while performing duties on board vessels.

ANCHORAGE: The anchorage at Cardon roads within a radius of 2 miles from end of jetties has depths varying from 54 to 100 ft. (LWS) and a bottom consisting of mud with some patches of small stones, sand and shells. There are no known obstructions from West to North-west of the Piers and there is ample water for a clear approach when coming from West and North-west, but the anchorage is limited on the South by a sandspit projecting 1 mile South-west off Punta Cardon Cape. A beacon is located on this sandspit in position: Latitude 11° 36′ 03.4″ North, longitude 70° 14′ 15.6″ West. Fl.R. ev. 1 sec. 17 ft. 5 miles (U).

APPROACHES: Restricted Fishing Area. Masters when approaching coast should keep a particularly sharp lookout for fishing boats, nets and small craft.

Mechanically propelled vessels drawing more than 5 ft. are prohibited from navigating in the restricted fishing area that extends off Paraguaná Península from Punta Macolla, latitude 12° 5′ 32″ North,

longitude 7° 12′ 55″ West to Punta Estanques (Los Taques), latitude 11° 48′ 45″ North, longitude 70° 16′ 45″ West, and a line connecting the position indicated below:

(*a*) Latitude 12° 07′ 40″ North, longitude 70° 14′ 25″ West.
(*b*) Latitude 12° 03′ 15″ North, longitude 70° 19′ 23″ West.
(*c*) Latitude 11° 49′ 25″ North, longitude 70° 21′ 50″ West.

Leading Lines

	Position			*Height in Metres*
Jetty	*Latitude* N.	*Longitude* W.	*Colour*	(*LWS*)
I	11° 37′ 19.2″	70° 13′ 54.6″	Green	4.70
	11° 37′ 23.1″	70° 13′ 47.6″	Green	14.20
II	11° 37′ 32.0″	70° 14′ 02.0″	Red	4.83
	11° 37′ 35.9″	70° 13′ 55.1″	Red	14.30
III	11° 37′ 08.1″	70° 13′ 53.5″	White	3.06
	11° 37′ 09.1″	70° 13′ 50.6″	White	14.94

	11° 37′ 42.4″	70° 14′ 09.4″	Blue	21.54

Land Marks

Two radio towers, very conspicuous, with micro-wave antenna at the middle painted in aluminium white, in position, Latitude 11° 38′ 03″ North, longitude 70° 13′ 56.2″ West. Height 205 ft. (62,5 m.)

Navigation aids

A light is located on the outer radio tower.

Position: Latitude 11° 38′ 03″ North, longitude 70° 13′ 56.2″ West.

Characteristics: Fl. White and Red, ev. 10 secs. Height 205 ft. (62·5 m.) 21 miles (U).

Sectors: Red 340° – 009°, White 009° – 009°, Eclipse 202° – 340°. (All bearings are true from seaward).

Beacon: Located on sandspit of Punta Cardon.

Position: Latitude 11° 36′ 03.4″ North, Longitude 70° 14′ 15.6″ West.

Characteristics: Fl. Red. ev. 1 sec. Height 17 ft. (5·2 m.) 5 miles (U).

Two large chimneys are very conspicuous in the Refinery Area. The North chimney is situated Latitude 11° 37′ 54″.6 North, Longitude 70° 13′ 10″.8 West. Height above MLWS 399.6 ft. (121·8 m.). The South chimney is situated Latitude 11° 37′ 52″.9 North, Longitude 70° 13′ 09″.8 West. Height above MLWS 396.3 ft. (120·8 m.). For daylight distinguishing marks, both are painted with broad red and white bands and at night both have a string of all round fixed red lights at the top and the same at the middle height.

A steel tower. A commercial radio tower is situated outside the Refinery Area in position: Latitude 11° 36′ 29″ North, Longitude 70° 13′ 42″ West. Height above MLWS 164.7 ft. (50·2 m.). This is not very visible during the day, but at night it has at the top, flashing every second, an all round Red Light, visible at 12 miles.

MAX. SIZE:

Jetty/Berth			*Depth LWS*	*Draft*	*Length in feet*	*Displac. in tons*
No. 1	North Outer	(3)	43′ 00″	40′ 06″	710	25,000
	South Outer	(4)	43′ 00″	40′ 06″	710	25,000
	*North Inner	(1)	32′ 00″	30′ 06″	575	
	*South Inner	(2)	35′ 00″	33′ 06″	575	
No. 2	North Outer	(3)	44′ 06″	42′ 00″	710	25,000
	South Outer	(4)	43′ 00″	40′ 06″	710	25,000
	North Inner	(1)	22′ 06″	21′ 00″	424	
	South Inner	(2)	25′ 00″	23′ 06″	424	
No. 3	North Outer	(3)	49′ 06″	47′ 00″	900	62,000
	South Outer	(4)	49′ 06″	47′ 00″	900	62,000
No. 4	North Outer	(3)	50′ 00″	47′ 06″	900	54,000
	South Outer	(4)	49′ 00″	46′ 06″	900	54,000

BALLAST: It is suggested that vessels nominated to load at this installation arrive with the minimum of ballast on board, necessary for the safe handling of the vessel under normal conditions. In this connection experience has shown that, under normal weather conditions, vessels can be safely berthed and unberthed with a quantity of ballast of approximately 20% of their respective summer deadweights. Clean ballast can be pumped into the sea, but Masters are reminded that pollution of the sea incurs heavy fines. Dirty ballast can be received ashore. Maximum discharge pressure to shore installation is 150 psi. in the 20 in. ballast line of Jetty No. 2; Jetties Nos. 4 and 1 have a 24 in. ballast line, and Jetty No. 3 has a 16 in. line. Masters are requested to endeavour to arrive at this port with 20% SDW ballast.

TUGS: Two tugs of 1,200 h.p. and 1,600 h.p. respectively are available, and their assistance is compulsory for berthing. Number, disposition and manoeuvres of tugboats are directed by the Pilot. The following tug signals in practice in this port are listed below for Master's guidance:

Short blasts are used to give orders to the tug situated ahead.

Long blasts are used to give order to the tug situated aft.

One blast means *push* tug engine, ahead (if it is stopped); *stop* tug engine, stop (if it is moving).

Two blasts, *pull* tug engine, astern.

One long, one short, one long and one short whistle, "Calling tugs".

Two long and two short whistles, "Tugs Dismissed".

RADIO: Arrival messages (ETA). Master of vessels bound for, or diverted to Cardon are requested to radio the following information to "Shellref. Caracas" via "La Guaira Radio", call sign YVG, 72 hours in advance of estimated arrival, or as soon as possible.

(*a*) Name of vessel
(*b*) Flag
(*c*) ETA
(*d*) Last port
(*e*) Master's name
(*f*) Number of crew and passengers
(*g*) Port for which the vessel is cleared
(*h*) Quantity of clean ballast on board
(*i*) All requirements

This information is of the utmost importance to the Harbour Authorities in facilitating the entry of vessels in general, and in case of diversion.

VHF Radio Telephony. The radio and communication centre is located in the Oil Movements Office Building situated at the foot of No. 2 Pier at a height of 50 ft. above sea level. The roof of the building is painted black and the word "Marine" painted across in large white letters.

There is a RT set operating 24 hours a day on the following frequencies, and manned by English speaking operators:

156.6	Mc/sec.	FM	VHF	(Channel 12)	Range limit	25	miles
156.8	mc/sec.	FM	VHF	(Channel 16)	,,	25	,,
2120	kc/sec.	AM	HF		,,	150	,,
2182	kc/sec.	AM	HF	(Channel 1)	,,	150	,,
7620	kc/sec.	(SSB)	HF	(Channel 3)	,,	300	,,

Call sign: "Marine Cardon".

Vessels not equipped with radio telephone may call the installation by signal lamp (Aldis' lamp) whereupon the service launch will be sent out to vessel to pick up any message it may have.

BERTHING: Without exception ships always moor head-in on all berths. It is considered prudent to have the outboard anchor hove out prior to approaching piers to facilitate speedy release while socking if necessary. Vessels are to be moored to satisfaction of the Port Services Superintendent or his deputy; mooring lines must be tended regularly and kept hove taut to prevent surging and possible damage to ships, docks or hoses. When adjusting mooring lines, the assistance of harbour tugs should be requested before slackening off any mooring line.

MEDICAL: Facilities are available for medical and dental treatment, vaccination and hospitalisation in a private clinic.

The doctor's working hours for out-patient treatment are as follows: Monday to Friday, 09.00 to 11.00, 14.00 to 17.00. Saturdays, Sundays and holidays, only urgent cases will be attended to. Emergency cases will be attended to at all times.

Masters requiring medical or dental service or vaccination for their crew members should call Ships Services by dialling 2105. Our representative will make the necessary arrangements with the clinic and arrange for transportation to pick up the crew members on the pier and to take them to the clinic and back. Any crew member who is sent ashore for medical or dental treatment, and who does not speak English or Spanish, must be accompanied by a crew member who speaks one of these languages.

Doctors do not attend patients on board. In serious cases where the patient is unable to walk an ambulance will be provided to take him to the hospital.

FRESH WATER: Fresh water is available at all berths. Loading rate is 30 tons per hour.

CUSTOMS: Venezuelan National Guards are stationed at the piers to ensure that vessels in port comply with regulations.

1. *Smuggling.* Strict compliance with the Customs laws of the country is enforced by the Authorities and Masters are strongly advised to caution crew members against attempting to smuggle ashore cigarettes in carton lots cigars, tobacco, souvenirs, gifts (particularly items of women's apparel) or other articles. A maximum of twenty cigarettes per person for personal use is allowed to be carried but a greater quantity will result in the imprisonment of the offender with possible heavy fines and delay to the vessel.

2. *Bar.* On Customs Authorities instructions vessels maintaining a "Bar Service" on board for the use of officers, crew, passengers and visitors, must keep the bar closed during the vessel's stay in port.

3. *Firearms.* Firearms on board any merchant vessel calling at Venezuelan ports must not exceed one per officer, nor can the ammunition exceed 18 cartridges per officer. All firearms and ammunition must be declared on stores list. Officers must not carry firearms while ship is in Venezuelan waters. Said arms should be collected together with the ammunition and held in the Master's safe custody. Crew members should be warned against taking knives or other weapons ashore as these will be confiscated and the bearer fined.

CONSULS: Brazil, Great Britain, Italy, the Netherlands and Norway have Consular representatives in this area.

TIME: Local time is Greenwich Mean Time minus 4 hours.

CERTIFICATES: All ships arriving in Venezuelan ports for the first time must be measured by the Maritime Authorities for issuance of a Venezuelan Tonnage Certificate, known as "Certificado de Arqueo". This document gives the measurements and weight of the vessel in accordance with existing laws. The cost of measuring and issuing of the Certificate is contingent on size and tonnage of vessel.

It is usual practice to take ashore the ship's "General Arrangement" and "Capacity" plans, which are used as a basis for calculations. These plans and the Venezuelan Tonnage Certificate are later forwarded to ship's Owners.

Vessels registered in following countries are exempt from above regulations, due to existing reciprocal agreement with Venezuela: U.S.A., Great Britain, Denmark, France, Germany, Holland, Ireland, Sweden, Norway, Portugal.

The Venezuelan Tonnage Certificate is used in calculating Venezuelan Government Port charges, such as Port Captain Habilitation for entry and despatch of vessels and Pilotage Dues, for all vessels except those registered in the countries mentioned above, in which case the Lloyd's Registered Tonnage is used.

HOLIDAYS: By order of the local Port Authorities it is requested that all ships in port be fully dressed on the following national

holidays: January 1st, April 19th, July 5th, July 24th, October 12th, December 25th.

REPAIRS: Shore facilities are available for emergency repairs of a minor nature. The nearest dry docks are located at Puerto Cabello and Curacao, N.A. Request for repairs should be mentioned in ship's ETA message.

SHORE LEAVE: Shore leave is permitted and Harbour Master's representative who boards vessel on arrival issues the required number of shore passes. These passes must be shown when proceeding ashore to the Government and Company Guards at the gangway and refinery gates. They are to be collected by Master prior to sailing and handed to Pilot unberthing the vessel. Masters are reminded that in accordance with the instructions of local police, crew members be properly dressed before leaving the vessel, i.e. long trousers and shirts.

Masters are requested to have shore leave expire at least two hours before expected departure. Men then found missing should be reported to the Ships Services Office, tel. 2105, who will endeavour to locate them. An officer must accompany shore personnel in order to identify the missing crew member.

Vessels are not permitted to sail until all crew members are on board, unless said crew members are hospitalised or previously signed off by the Master through the Ships Services representative. If any crew member is missing at sailing time and cannot be found, his passport and other personal documents must be handed to the Ships Service representative, as well as written instructions as to his repatriation, when found. All costs and expenses of a crew member so left behind will be for ship's account.

GENERAL:

1. *Animals:* The importation and transit of all birds belonging to the genus parrot or parakeet is prohibited. For other birds a valid health certificate is required. For so-called "small animals" e.g. dogs, cats, monkeys, rabbits, etc. a valid health certificate and a valid rabies vaccination certificate are required.

2. *Bonded Stores:* Stores in bond are not obtainable in Punta Cardón. The nearest port with bonded stores facilities is Curacao.

3. *Board of Trade Gangway:* A safe gangway must be provided by the vessel and should be rigged as soon as possible after mooring to allow the Port Authorities to board, and should not be taken in until Pilot has boarded to unmoor vessel. The use of rung ladders, pilot ladders, etc. is contrary to Port Regulations and Port Authorities will not board except by means of a safe gangway or accommodation ladder.

4. *Damage during Manoeuvres:* When a vessel or the pier sustains damage during manoeuvres with an official Pilot on board, it is the responsibility of the Master to submit to the Ships Services representatives, immediately after the accident, a report in quintuplicate, for presentation to the Harbour Master. Such reports should give full details of the accident and of all engine movements as ordered by the Pilot, as well as a sketch in triplicate of the ship's manoeuvring position at the time. These will be translated by the Agents into Spanish and forwarded to the Harbour Master.

5. *Cash Advance to Masters:* Cash advances to Masters are made only in Venezuelan currency, which is the Bolívar. Cash requirements should be included in the vessel's ETA message. Foreign currencies are accepted in the United Seamen's Service Club.

6. *Rat-guards:* By order of the Port Authorities rat-guards must be fitted to all mooring lines. Non compliance entails a fine of 200 bolivars for each unguarded line.

7. *Kerosene, Motor Gasoline, Gas-Oil, Solvents:* Supplies for ship's purposes are available in drums. The return of empty drums ashore is prohibited by Customs regulations. therefore the cost of each drum will be billed to the vessel in the Port Disbursement Account.

8. *Lubricants, Oils and Greases:* Supplies of Shell products are available. Vessels arriving at Punta Cardon on Saturday or Sunday or on a holiday should give ample notice of their requirements by cable in order that the necessary labour arrangements for delivery can be made. This procedure also applies to the delivery of white oils mentioned under 7 above, when required outside working days.

9. *Laundry Service:* Laundry service is available throughout each working day. Such service should be requested in the vessel's ETA message.

10. *Wireless Transmitters in Port:* It is strictly prohibited to use vessel's wireless transmitters in the Port of Cardon. Non-compliance with this regulation may result in a fine being imposed on the vessel by the authorities.

11. *Mail:* On vessels' arrival, blank Mail List Forms will be handed to the Master to be completed in sextuplicate and duly signed by him, when sending ship's and crew mail ashore for posting. Ship's mail received after ship has sailed, or for vessels on which no advice has been received, will be held for 15 days and then returned by airmail to the owners or operators or senders, at ship's expense unless specific instructions have been received beforehand.

12. *Marine Surveyors:* Both the Lloyd's Agents at Maracaibo and Norsk Veritas at Caracas have a representative in Punta Cardon who acts on their behalf when a surveyor is requested. However, in the case of continuous or classification surveys, advance notice of four days should be given in order to arrange for an appointed surveyor to come from Caracas. There is also a representative of the American Bureau of Shipping in this area (Caracas).

13. *Miramar Club:* Masters, chief engineers and their wives can visit the Miramar Club. For this purpose entrance passes should be requested from the Ships Services Office, tel. 2105.

14. *Manaure Bathing Beach:* The above mentioned bathing beach is open to all ship's staff and crew members.

15. *Norwegian Government Seamen Service:* A Norwegian Vice Consul and Welfare Officer is stationed at Punta Cardon, and provides the usual services to seamen of this nationality. His telephone number is 4359.

16. *Navigation Charts:* Navigation charts are not available at this port.

17. *Passengers:* Movement of passengers over Cardon Piers is subject to restriction under terms of agreement with the government. Passengers will not be permitted to disembark unless in possession of the required Venezuelan visa and travel documents. If passengers are carried, Master should so advise in his radio ETA so that arrangements can be made for Immigration Authorities to visit vessel on arrival and thus facilitate clearance.

18. *Petroleum Inspection:* Charles Martin & Co., and E. W. Saybolt, petroleum inspectors, are available in this area. Contact can be made through the Loading Supervisor (tel. 2821).

19. *Personnel – Seamen Left Ashore:* In the case of seamen left ashore for hospitalisation, repatriation, desertion or other reasons, all documents and personal effects are to be handed to the Oil Movement Department's representative before sailing. A letter is required from the Master advising the maximum advances, if any, to be made to the seaman, and instructions concerning his repatriation. All expenses incurred by seamen left ashore, including cost of repatriation, are for ship's account. It is important that Masters bear in mind that the Venezuelan law will at all time hold the vessel, her Master, or Owner responsible for any seaman left behind in Venezuela.

20. *Photographing:* The taking of photographs within the boundary fence of the Cardon Refinery is prohibited. Taking cameras ashore is likewise prohibited.

21. *Provision and Stores:* Provisions and stores are available. Requisitions should be conducted through the Ships Services Office. Telephone number 2105 or the Ships Services representative when he calls on board with the authorities on arrival. Ships chandlers are not permitted to visit ships, unless specifically instructed to do so by the Agents.

22. *Radar and Radio Repairs:* Repair and maintenance services for radar, radio, gyro compass, radio direction finder, echo sounder, etc. are available. The repair man should be contacted through the Ships Services Office, telephone number 2105.

23. *Safety of Personnel:* It will be appreciated that persons intoxicated by alcoholic drinks can create risks of accidents; therefore we ask the Master's co-operation to ensure that these persons do not enter the refinery gates and/or board their vessel unless accompanied by sober members of their crew. In this connection we will advise the Master or one of his officers, so that measures can be taken to ensure the safety of the forementioned person(s) e.g. by sending one or more of the crew to the gate to accompany him (or them) to the ship.

24. *Visitors:* Visits to ships are prohibited except from those company employees, petroleum inspectors, etc., whose duties require their presence on board.

25. *Walport Film Exchange:* Subscribers to the Walport service may exchange films at the U.S. Seamen's Club situated at the foot of No. 2 Pier, from 7.30 a.m. to 10.00 p.m. every day, by telephoning 2803.

26. *Staff and Crew Changes:* No staff and/or crew should be engaged or discharged without consulting Ships Services (telephone 2105). In case of discharge, identification documents must be handed to the Ships Services representative or the Norwegian Consular Officer in the case of Norwegian vessels.

27. *Tank Cleaning and Mopping:* Several contractors in the area provide labour for tank cleaning and mopping. Masters in need of this service should submit their requirements to our Ships Services Office (telephone 2105), who will contact and request a contractor to go on board to discuss details and estimate costs of work to be effected. It must be pointed out that the Master of the vessel is solely responsible for the proper fitness of the ship's tanks for loading his next cargo, and will therefore be held liable for any contamination of the cargo after loading, due to inadequate tank cleaning. Therefore it is up to him to decide the degree of tank cleaning necessary. He may, of course seek advice from the installation representative in this respect, whenever there is any doubt.

28. *Turnaround:* To promote the economical operation of their vessel, Masters are requested to co-operate with installation representatives in minimising their in-port time. Any delays which are considered unnecessary or extensive should be reported to the loading Supervisor (tel. 2133) so that corrective measures can be taken.

29. *U.S.S. Club:* All seamen are welcome to the club operated by United Seamen's Service which is located at the shore end of Pier No. 2. Shore passes are required to reach this Club. Beer, soft drinks, ice-cream, candies and various souvenirs and presents can be purchased at reasonable prices. Free cinema shows are usually held twice weekly. A letter-posting service is available as well as recreational facilities, e.g. billiards, table tennis, darts, etc. A barber shop operates during daytime.

TELEPHONES:

Communications Office (General and Port Information, 24 hours service), 2604. Ships Service Office (All services to ships: mail, doctor, taxi, papers, etc., 24 hours service), 2105. Agents Office (Weekdays) (07.00 to 12.00 – 13.00 to 16.00), 2125. Loading Supervisor (Re cargo and bunkers), day, 07.00 to 16.00, 2821/2133; night, after 16.00, 2133. U.S.S. Seamen's Club, 2803.

AUTHORITY: Compañía Shell de Venezuela, Punto Fijo, Venezuela. Postal address: Compañía Shell de Venezuela, Cardon Refinery, Punto Fijo, Estado Falcon, Venezuela. Cable address: Shellref, Caracas.

Vietnam (South)

SAIGON: 10.45 N. 106.45 E.

DOCUMENTS: On arrival at Nha-Be or at Saigon Port. As usual, the examination is executed immediately by the Officers representatives of: Sanitary Service, Immigration Service, Customs Service, Police Service, Stevedoring Agencies.

Following documents are to be presented to *The Quarantine Officer* (sanitary):

1 Crew List.
1 Passengers and/or Crews Inoculation Certificates List (Cholera, Plague and Smallpox).
1 Declaration of Health (form to be supplied by the boarding Quarantine Officer).

The Boarding Immigration Officers:

1 Immigration Declaration.
2 Crew Lists.
2 Land and/or In-transit Passenger Lists.
2 Arms and Ammunitions Lists (on board) belonging to Crew and/or Passengers.

Customs:

5 Saigon Inward Cargo or In-transit Cargo Manifests.
3 Complete In-transit Cargo Manifests (cargo left on board and to be carried on to the following ports).
3 Crew Lists.
2 Arms and Ammunition Lists on board belonging to Crew or Passengers.
2 Narcotics Lists, for use on board.
2 Landing/In-transit Passenger Lists.
2 Stores Lists, in reserve on board (fuel included).
2 Ship's Funds (Ship Monetary List).
2 Saigon Mail Lists.
2 Diplomatic Mail Lists.
3 Landing Passenger Luggage Lists.
2 In-transit Passengers Lists.
4 Crew Private Goods List (cigarettes, tobacco, liquors, alcohol, radios, photo apparatus, etc).
4 Goods free of unloading taxes Lists (if no goods of this category on board, issue a Declaration stating "goods free of unloading taxes, nil").

Stevedoring Agencies:

8 Saigon Inward Cargo Manifests or In-transit Cargo Manifests at Saigon.
2 Crew Lists.
All Original Cargo Manifests.
3 Landing or In-transit Passenger Lists.
2 Landing Passengers Luggage Lists.
2 Free of Tax Goods Lists.

Saigon Port Authority:

Following Documents are to be presented to the Saigon Port Authority by the Stevedores:

1 Report, informing the arrival of the ship.
2 Cargo Plans on board.
3 Cargo Manifests.
3 Cargo Unloading Plans.
1 General Cargo Unloading Permit.
6 Requests to Sanitary Officer for sanitary examination operation.

Important Notices:

(1) Manifests of Saigon Inward Cargo are to be compiled by complete set, each set comprising original port's manifests; a recapitulation table will be added to each set indicating the total amount of pa)cels, tonnage or volume loaded on board for each port. This total amount will be repeated in all letters, stating: "This total amount has been visaed by the Customs Office."

(2) On arrival at Vung-Tau, (Cape St. Jaques), the Commandant of the ship should collect all required documents and get them ready to be presented. The Quarantine Officials may possibly come unawares on board for prior examination and would never admit mistakes.

PILOTAGE: Upon arrival at pilot station the pilot service should be informed by cable of the exact position of anchorage, draft of the vessel, and the maximum speed the ship can do in the river.

Every evening from 2000 hours to 2200 hours (local time) radio watch should be kept with Saigon XVS on the frequency of 500 kc/s. In case the vessel is to proceed up the river the next morning the pilot service will cable the Captain the exact hour of departure from Cape St. Jacques (Vung Tau).

The pilot service will not send any Pilot to ships that do not give the information as to draft, speed of vessel, and exact position at the anchorage station at Cape St. Jacques (Vung Tau).

Pilot station at Vung Tau, tel. 6. Pilot station at Saigon, tel. 21222 and 90503. Pilot boards at Vinh Dua (Gulf of Coco Trees).

RESTRICTIONS: River transits, berthing and unberthing are effected in daylight hours only. Vessels should arrive 2 hours before daylight HW. At least 1 ft. keel clearance required. Least depth in channel, 20 ft. below chart datum.

ANCHORAGE: In depths of about 24 ft.

MAX. SIZE: Length 565 ft. Max. draft 30 ft. 2 in. fresh water. Twin-screw vessels may be accepted up to 585 ft. length.

RADIO: Saigon Radio, call sign XVS.

HEALTH: Port officials board at Cape St. Jacques. Free pratique will be given if documents in order.

TUGS: Available up to 1,200 h.p. Tankers usually berth without tug assistance.

BERTHING: Depth at quays 26 ft. to 36 ft.

TANKERS: Discharge at Nha-Be: Caltex Terminal, narrow pier with mooring buoys, depth in berth 29 ft. Shell Terminal, "T" jetty with mooring buoys, depth in berth 31 ft. Stanvac Terminal, pier with mooring buoys, depth in berth 30 ft. No slop disposal facilities.

DENSITY: About 1005 at berths.

MEDICAL: Doctors and hospital facilities available.

FRESH WATER: Can be supplied by barge subject to advance notice of 24 hours.

FUEL: Diesel oil can be supplied.

REPAIRS: Machine shop facilities only.

AIRPORT: Situated about 5 miles from the city. International services.

AUTHORITY: Port Manager, Saigon.

Virgin Islands

FREDERIKSTED, St Croix: 17.43 N. 64.53 W.

DOCUMENTS: All forms are standard U.S. Government forms:

Passenger List (I–418) – 2 copies.
Crew List (I–418) – 2 copies.
Clearance from Last Port.
Inward Customs Manifest (7527–B) – 4 copies.
Stores List – 1 copy.
Personal Effects List – 1 copy.

(Also see separate headings – "Health" – "Customs" – "Immigration").

PILOTAGE: Services available day or night. Payment for pilot services is mandatory whether Master uses pilot or not. (Vessels commissioned by the U.S. or foreign government, yachts and vessels under 100 gross tons are exempt from pilotage fees, except when the services of a pilot are requested).

ANCHORAGE: Open roadstead on the lee (West) side of St. Croix, providing a good anchorage with no significant tide.

TUGS: None readily available – tugs can be arranged with 48 hours advance notice.

BERTHING: A government-owned pier with a 1,400 ft. long approachway, bridging Maritime Zone to a pier-head 240 ft. long by 60 ft. wide. Vessels 600 ft. and over with a maximum forward draft of 25 ft. have been accommodated.

RADIO: (*a*) Vessels may communicate with Island via:

Mackay Radio, Amagansett, New York	Call Letters WSL
Chatham, Massachusetts Radio	Call Letters WCC
Lantana, Florida Radio	Call Letters WOE
Barbados Radio, Barbados	Call Letters VPO
Destrellan Radio, Guadeloupe	Call Letters FFO
Fort de France Radio, Martinique	Call letters FFP
Tuckerton Radio, New Jersey	Call Letters WSC

all stations maintaining 24-hour service. These radio stations then relay the messages by cablegram to Frederiksted via either ITT World Communications Inc. or Cable and Wireless, Western Union International.

(*b*) Master of every vessel arriving Frederiksted is required to give at least 24 hours advance notice of arrival to Captain of the Port, U.S. Coast Guard – San Juan, Puerto Rico, by wireless on 500 kilocycles or by radio telephone 2182 kilocycles.

Call Letters for U.S. Coast Guard, San Juan, Puerto Rico – NMR.

(*c*) Masters are requested to advise Agents their expected time of arrival, at least 36 hours in advance. Arrival messages should include cash requirements (local currency U.S. dollar), and advice regarding repairs, stores, etc. This information is particularly necessary in the cases of vessels arriving on week-ends or holidays. For cruise vessels the arrival messages should also include the number of passengers and crew on board.

(*d*) While vessels are in Frederiksted the authorities do not permit the use of the ship's radio transmitters.

FRESH WATER: Very limited, delivered by truck.

TIME: GMT minus 4 hours. Atlantic Standard Time.

HOLIDAYS: The following are legal holidays: Sundays; January 1 (New Year's Day); January 30 (Roosevelt's Birthday); February 12 (Lincoln's Birthday); The Third Monday in February (Washington's Birthday); March 31 (Transfer Day); Holy Thursday; Good Friday; Easter Monday; Whit Monday; Last Monday in May (Memorial Day); June 22 (Organic Act Day); July 4 (Independence Day); July 2; (Supplication Day); The first Monday in September (Labour Day) The second Monday in October (Columbus Day); The fourth Monday in October (Veterans Day); November 1 (Liberty Day); The fourth Thursday in November (Thanksgiving Day); December 25 (Christmas Day); December 26 (Christmas Second Day), and such other days as the President or the Government may by proclamation declare as holidays.

The following are legal half-day holidays, commencing at Noon, viz: Every Thursday during the months from April to November, inclusive, except Thursdays in those weeks where there already is a legal holiday other than Sunday. Whenever any holiday falls upon a Sunday, the Monday following is a legal holiday.

REGULATIONS: The U.S. Coast Guard strictly enforces the Harbour Pollution Act of 1924, prohibiting discharge of refuse and oil in navigable waters of the U.S.Virgin Islands. Local Port Regulations are similar to those applying in U.S. Mainland Ports.

PRATIQUE: Contact Agent for Radio Pratique. All vessels arriving Frederiksted from foreign non-quarantine exempt areas must hoist "Q" flag upon arrival off the port *if radio free pratique was not granted.* This will notify the Quarantine Officer that inspection is required,

which is available 24 hours (day and night). Quarantine Officer will board vessel on arrival for partial or complete inspection by quarantine personnel, depending upon the evaluation of information contained in the radio pratique request.

Quarantine Officers will board vessels at anchorage or wharf berths and will require an accommodation ladder.

Upon boarding, Quarantine Officer must be presented with one completed set of Maritime Quarantine Declaration form (HSM 13.19 NCDC 7-69). He will ascertain from Captain (or ship's surgeon) if there is anyone ill. He visits the sick cases and determines the control measures if a communicable disease is involved.

A vessel must comply with any requirements specified in Pratique issued by Quarantine Officer, and shall undergo quarantine inspection if vessel arrives direct from a port where quarantinable diseases were present or suspected of being present; or if certain communicable disease is on board or has been on board during current voyage, or there is a person on board who has been outside quarantine exempt areas within past fifteen days (In this case quarantine inspection of persons is ordinarily limited to those who have been outside quarantine exempt areas within past fifteen days, Unless a significant epidemological problem is encountered, other persons on board are not given quarantine inspection.

Areas exempt from smallpox vaccination requirement.

Canada	Bahama Islands	Lesser Antilles:
Greenland	Bermuda Islands	Aruba, Bonaire, Curacao
Iceland	British Virgin Islands	All Leeward Islands
St. Pierre and	Greater Antilles:	All Windward Islands
Miquelon Islands	Jamaica, Haiti	Barbados
Mexico	Dominican Republic	Cayman Islands
Panama Canal Zone		Trinidad and Tobago

Passengers and crew of vessels subject to quarantine inspection are required to muster and present a valid smallpox vaccination certificate. (The validity of a smallpox vaccination certificate is three years). Any person who arrives from countries reporting certain diseases from which quarantine action may be required at a U.S. port of entry who cannot produce an international valid smallpox vaccination certificate (form approved by the World Health Organisation) will be vaccinated on arrival, and surveillance order (Form HSM 13.17 NCDC) will be issued. Passengers or crew arriving from a foreign non-quarantine exempt area will be required to present a valid international smallpox vaccination certificate if radio-free pratique is not granted. Anyone who cannot produce such a certificate will be issued a health alert notice. They will also be inspected visually for signs of "Quarantinable" or other communicable diseases. They will be questioned briefly about their health and about their travels for the past 15 days in order to determine whether they have been in an area where there was a hazard of quarantinable disease infection. If the vessel carries a surgeon, he should meet the Quarantine Officer at the gangway and submit to him a statement of the health of passengers and crew.

Vessels arriving alongside a wharf from a plague-infected or suspected area must be breasted-off from pier by at least six feet, and all connecting lines properly fitted with rat guards; and, at night, the gangway must be well lighted.

Vessels required present a valid (not older than six month) Deratisation Certificate or deratisation Exemption Certificate.

No fee for quarantine inspection during regular boarding hours *Monday* to *Saturday* from 0600 to 1800. Inspection performed between hours of 1800 and 0600 Monday to Friday, Sundays and Federal Holidays shall be paid for.

Garbage should be disposed of beyond the three-mile limit. On passing the three-mile limit all garbage disposal units which open to the sea should be closed. All garbage should then be placed in covered cans and retained on board until the ship is again beyond the three-mile limit.

CUSTOMS: Customs Officers will board at anchorage or wharf berths, and will require an accommodation ladder.

Vessels required to enter and clear through Customs House:

Vessels loading or unloading cargo;
Vessels embarking or disembarking passengers;
Vessels remaining in port over 24 hours:
Vessels requesting permission for their passengers to go ashore during the stay of the vessel in port.

Vessels in above categories must present following documents:

Clearance from Last Port;
1 copy of Crew List (Form I. 418) or substantially similar form – see note below*)
1 copy Passenger List (Form I. 418) or substantially similar form – see note below*)
4 copies Inward Foreign Manifest covering all cargo for discharge at St. Thomas, V.I., showing weights or measurements (of basis of how cargo is freighted) on all items (Customs Form 7527-A or 7527-B).
1 copy Pratique from U.S. Public Health Service (if from foreign).
1 copy Stores List (Engine-Deck-Commissary-Narcotics).
1 copy Master's Oath (Form 3251) (will be submitted by us).
List of crew purchases acquired abroad (see Sec. 4.7 (*e*) Customs Regulations of the United States).

* List of passengers and crew shall be on Customs and Immigration Form I. 418 or on a substantially similar form, except that where no steerage passengers are aboard upon arrival, the listing of the passengers may be in the form of a vessel "Souvenir List". Or similar list, in which the names of the passengers are listed alphabetically by class.

Sealing of Stores: Upon arrival of a vessel from a foreign port, or a vessel engaged in foreign trade from a domestic port, sea stores and ship's stores not required for immediate use of consumption on board while vessel is in port and articles acquired abroad by officers and members of crew, for which no permit to land has been issued, shall be placed under seal, unless customs officer is of the opinion that circumstances do not require such action. Customs Inspectors in charge of vessel, from time to time, may issue stores from under seal for consumption on board by passengers and crew.

Passengers disembarking must present personal baggage declaration if from foreign.

IMMIGRATION: Recommended that Masters who are unfamiliar with U.S. Immigration Procedure should seek clarification from Agents as far in advance as is possible.

If a vessel arrives direct from a United States mainland port or from Puerto Rico no immigration inspection will be performed. If a vessel arrives direct from a foreign port the vessel shall undergo immigration inspection.

Vessels arriving without a visaed crew list, may be able to obtain a waiver from Officer in Charge of U.S. Immigration & Naturalisation Service, by making application on Form 1. 193. A fee of $10.00 is required to obtain a waiver.

In order to expedite the clearing of the vessel. It is suggested that prior to arrival all passengers subject to inspection should be assembled where the inspection is to be performed.

Stowaways must be reported in ETA Message and listed on a Passenger Manifest (Form I. 418) and on Form 1. 94. and must be reported to the U.S. Immigration Officer as soon as he boards.

All non-resident alien crew members, whether shore leave is required or not, are required to have in their possession valid Passports, Seaman's Book or Identification Card (with photo) and Form I.95 (crewman's Landing Permit) or Form I. 184 (Alien Crewman's Permit and Identification Card) on arrival. All resident alien crewmembers are required to have in their possession Alien Registration Receipt Card (Form I. 151) on arrival.

SHORE GANGWAYS: Available.

LAUNCHES/TENDERS: Not available.

AIRPORT: Distant 8½ miles.

AUTHORITY: Virgin Islands Port Authority.

AGENT: Robert L. Merwin & Co., Inc., PO Box 472, 1 Strand Street, Frederiksted, St. Croix, U.S. Virgin Islands. 00840 Cables: "Merwin St. Croix." Telex 365812. Tel. Day – 772 – 0913, R. Spencer; night (Primary) R. Spencer, (Alternate) R. Gordon 773 – 2053. Shipping Agents and Customs Brokers, Contract Stevedores and Truckers, Lloyd's Agents.

LIMETREE BAY, St. Croix: 17.41 N. 64.44 W.

LOCATION: The facilities of Hess Oil Virgin Islands Corp. (Hovic) are located in Limetree Bay on the South cost of the island of St. Croix, U.S. Virgin Islands. St. Croix is 32 miles South of St. Thomas and St. John Islands and 50 miles South-east of the island of Puerto Rico. It is the largest of the U.S. Virgin Islands being 19 miles long and averages 3.5 miles in width.

The sea buoy "ELB" No. 2 marking the entrance to Limetree Bay channel is located in 60 ft. of water on the Westerly side of the channel: Latitude, 17° 40′ 42″ North, Longitude 64° 44′ 18″ West.

The sea buoy is painted red and is equipped with a flashing white light having a one second flash, nine second eclipse with a visibility of seven miles.

DOCUMENTS: Clearance (U.S. – Foreign). Inward clearance is effected on board immediately after docking Clearance should be made for Christiansted, St. Croix, via Limetree Bay.

The following documents are required by the Customs and Immigration authorities for entry and clearance:

Master's Certificate on Preliminary Entry.
Master's Oath.
Stores List.
Crew Purchases List (Curio List).
Inward Foreign Manifest.
Quarantine Free Pratique.
Deratisation Certificate.
Crew List (Certified).
Clearance from Last Port.
Crew men Landing Permits.
Passengers List (if any passengers).

PILOTAGE: Service is available 24 hours a day and is compulsory for all vessels using HOVIC facilities in Limetree Bay. The HOVIC Harbour Master acts as Pilot and will assist the Master in docking and undocking vessels using Hess facilities; however, the Master of the vessel retains full responsibility for the ship at all times. The Pilot can be contacted by VHF Channel 16. Pilot boards at the sea buoy, position 17° 40.7′ N., 64° 44.3 W. Vessels over 45,000 dwt. are subject to movements in daylight only. Vessels should remain outside the sea buoy until boarded by the Pilot. The Pilot will be placed aboard by a company tug.

The tug HOVIC 1 is equipped with a radio-telephone having the following crystals: 2182 k.c., U.S.C.G., 2638 k.c., Ship to ship. 2738 k.c., Ship to ship. 2134 k.c., San Juan, Puerto Rico and Galveston, Texas. Ships having the above crystals should call the HOVIC 1–3 hours before their arrival at the sea buoy, and advise of any change in their ETA.

ANCHORAGE: There is no suitable anchorage for deep draft vessels off the port. Normal practice is to stop engines and wait 6 to 8 miles from the sea buoy if required to wait instructions. In bad weather vessels should proceed to Frederiksted and anchor in the vicinity of the long pier in depths of 30 to 60 ft. Vessels shall have their anchors ready to let go upon entering the channel into Limetree Bay.

APPROACHES: Entrance to channel marked by a black sea buoy, equipped with a white flashing light, visible 8 miles. The buoy (ELB No. 1) (flashing every 5 seconds) is at the West side of the channel (Lat. 17° 40′ 42″ N. Long. 64° 44′ 18″ W.). At sea buoy there is 60 ft. of water and the channel has a depth of 60 ft. to Nos. 3 and 4 berths.

The turning basin opens up Eastward from the channel line and is approx. 1,200 ft. long and 1,000 ft. wide. The West turning basin is 1,500 ft. by 1,200 ft. with a maximum depth of 35 ft.

RESTRICTIONS: Navigation permitted 24 hours a day except for ships over 50,000 dwt.

The Harbour Master will check and report on each vessel's draft before piloting them inbound or outbound.

HEALTH: National quarantine laws are enforced in the U.S. Virgin Islands by officers of the U.S. Public Health Service. All vessels are subject to inspection.

RADIO: Masters are requested to advise both HOVIC – St. Croix and their Agents by radio 48 hours and 24 hours in advance of their ETA giving the vessel's name, date and hour of arrival (local time), bunkers and water required.

TUGS: Tug assistance in the channel, docking and undocking is mandatory and is provided by three 1,800 h.p. diesel tugs stationed in the port to provide this service. All tugs are under the orders of the HOVIC Harbour Master and are equipped with fire pumps and monitors to assist in fire fighting.

BALLAST: United States laws prohibit the pumping overboard of dirty ballast while a vessel is within U.S. coastal waters. All ballast must be pumped to facilities available ashore. However, if a vessel is especially equipped with clean segregated systems which are reserved for ballast use only, it is permissible to pump overboard at the dock after first being inspected and approved by the dock master.

In pumping dirty ballast ashore, the ballast is received through one 12-in. shore line at a maximum discharge pressure to shore installations of 125 psi. The ballast is pumped into a ballast facility about 1 mile North of the dock. Due to the limited facilities and to the possibility of two vessels deballasting at the same time, it is requested that vessels arrive with the minimum possible ballast.

The U.S. Oil Pollution Act of 1924 applies to the Pollution of Coastal Waters. Violators are subject to fines of up to $2,500 and a year's imprisonment for each offence.

NOTICE OF READINESS: Notice of readiness to load or discharge is a warranty that the vessel is in all respects ready to load or discharge, and that all of the ship's equipment (including, but not limited to tanks, pumps, valves, and pipe-lines) is ready and fit to load or discharge petroleum and/or petrochemical products. Notice of readiness will not be accepted unless the vessel is in all respects ready to load or discharge, as appropriate. Vessel will not be deemed ready to load or discharge and pumping will not commence until the senior deck officer shall have executed and delivered to HOVIC a "Declaration of inspection prior to bulk cargo transfer" as required by U.S. Coast Guard Regulations.

BERTHING: Vessels must provide their own gangway.

There are, at present, seven berths on finger pier, three on East side and four on West side.

Deepest berths are No. 3 and No. 4 each with 60 ft. depth of water alongside.

LOADING: Loading operations are normally carried out at relatively high pumping rates. Loading rates may be reduced by request. Loading cargo overall will not be permitted without specific written authorisation from HOVIC'S General Manager.

Hose pressures should not exceed 125 psi during loading or discharging.

Oil Dock is serviced by: 1 24 in. diameter crude line, 1 24 in. diameter no. 6 oil line. 1 20 in. diameter gasoline line, 1 20 in. no. 2 oil line, 1 10 in. diameter kerosine line, 1 12 in. diameter ballast line, 1 8 in. diameter fresh water line.

Four 10 in. hoses are available for connecting up to each of the 20 in. and 24 in. shore lines – single 10 in. hoses are available for the kerosine and ballast lines.

Oil Dock 2 serviced by: 1 24 in. diameter crude line, 1 24 in. diameter 6 oil line.

MEDICAL: Medical attention is generally available from the public hospital at any hour of the day or night to crew members of all vessels. The representative of the ship's Agent should be contacted by the Master with any requests for medical attention for the crew. For each man needing medical or dental attention, a form should be completed in duplicate and signed by the Master, or in his absence, by the Chief Officer. The form should provide the date, patient's name, rating, and the name of the vessel. In case of emergency, or when a patient cannot be moved from the vessel, the Master should advise the ship's Agent by radio if at sea, or on the telephone if in port.

DENSITY: 1025.

FRESH WATER: The island of St. Croix is dependent almost entirely on rainfall for its supply of fresh water. There are wells but many of them are rather saline in nature. As a result fresh water is scarce and expensive. In conjunction with its refinery operation HOVIC operates a desalination plant and limited quantities of fresh water are available providing at least 48 hours notice of these requirements is given prior to the ship's arrival. All fresh water is metered aboard ship.

FUEL: Both no. 6 fuel oil (Bunker C) and light marine diesel are available by prior arrangement. Advice concerning quantities should be given in the vessels arrival message (ETA) sent 48 hours prior to arrival.

DEVELOPMENTS: New docks under construction.

AIRPORT: Situated 5 miles from port facilities.

SHORE LEAVE: Under normal circumstances, no restrictions are imposed by the Immigration Authorities on shore liberty. Masters are requested to have all crew members on board at least 1 hour prior to departure time, to avoid delay "awaiting crew members". If crew members of foreign vessels are to be given shore leave, Form 1–95 must be prepared for each member of the crew.

TIME: The U.S. Virgin Islands use Atlantic Standard Time, which is four hours slow of Greenwich Mean Time.

GENERAL: (*a*) *Immigration:* The United States immigration laws apply in the U.S. Virgin Islands. Passports and visas are required.

(*b*) *Customs:* The customs collection district of the U.S. Virgin Islands is under the jurisdiction of the U.S. Treasury Department but has its own Customs laws.

(*c*) *Liquors:* The transportation of alcoholic beverages inside HOVIC's property is strictly prohibited; consequently, no liquor or beer may be removed from vessels. The only exception to the foregoing is in the case of bonded stores ordered by Masters.

(*d*) *Visitors:* No visitors are permitted in the dock area. Only persons on official ship's business are permitted on the piers.

(*e*) *Laundry:* Only limited facilities are available to handle ship's laundry.

(*f*) *Surveyors:* Representatives of the American Bureau of Shipping, Lloyds' Register and other maritime classification societies are available in San Juan, Puerto Rico on 12 to 24 hours notice. The ship's Agent will assist Masters in soliciting their services.

(*g*) *Mail:* Official and persohal mail will be delivered on board by the ship's Agent when vessels are being cleared inwards. Mail received for vessels while in port will be delivered on board prior to sailing. Outgoing mail is accepted from Masters, provided it is accompanied by a mail transmittal slip to support disbursements.

(*h*) *Transportation:* Walking through the refinery is not permitted. Arrangements for transportation will have to be made through the ship's Agent or the Refinery General Manager's Office.

(*i*) *Supplies and Repairs:* Limited supplies of provisions and marine hardware are available on the island. There are no facilities for major repairs closer than San Juan, Puerto Rico. Machine shops in Christiansted and Fredriksted can assist in making minor repairs.

(*j*) *Overloading:* Masters are advised that the international laws are strictly enforced with regard to overloading and should be guided accordingly. In cases where overloaded cargo has to be discharged, all expenses incurred, including ship delay, will be for the vessels account.

(*k*) *Weather Conditions:* The loading and discharge of all crude petroleum and its products will be stopped during any electrical storm. Ullage screens or ullage plugs must be in place. Loading gasoline or other similar low-flash products will be stopped during periods of calms when the heavy vapours can not be dispersed quickly enough to prevent hazards from accumulated gas pockets. Ship's officers are cautioned to be on their guard during such conditions. In the event of abnormal weather conditions in the area as a hurricane, vessels will be notified that additional moorings are required. If the situation so demands, Masters will be told to suspend all operations and proceed to sea until normal weather conditions again prevail.

(*l*) *Demurrage:* Vessels are required to vacate berth promptly upon completion of cargo handling operation (loading or discharging operations, as the case may be). Permission to lay alongside at any time the vessel is not engaged in cargo handling operations must be granted in writing by the Dock Master. The Harbour Master will keep vessels advised of other vessels awaiting berth. If any vessel fails to vacate its berth upon completion or cargo handling operations and expiration of free laytime for dock usage as outlined below, the vessel will be responsible for penalties and demurrage as follows:

(*a*) To pay dock demurrage.

(*b*) To hold HOVIC harmless for any demurrage and damages incurred as a result of other vessels awaiting berth.

The following rules shall govern the determination of demurrage:

(*a*) One hour free laytime will be allowed after completion of cargo handling operations. This free time will start at the time cargo hoses are disconnected from the ship's manifold on completion of loading or discharge of cargo. Vessels awaiting cargo papers and/or Customs clearance must vacate the berth within 1 hour of such completion and move outside to wait for their papers.

(*b*) Three hours free laytime will be allowed for ballasting after discharge operations.

AUTHORITY: Hess Oil Virgin Islands Corp., Kingshill, POB 127, St. Croix, U.S. Virgin Islands 00850.

AGENT: See "Frederiksted".

ST. THOMAS: 18.20 N. 64.56 W.

Harbour of St. Thomas, U.S.V.I. situated on south side of Islands of St. Thomas. It is 1,434 miles from port of New York. Northern side of Islands borders on Atlantic Ocean, and Southern side on Caribbean Sea. The Harbour is one of the best in the West Indies, being almost landlocked.

WEATHER: There is a signal station on Cowell Hill which shows storm signals. The weather is usually mild with little wind. Squalls, when they occur, usually come from the north-east.

DOCUMENTS: *Quarantine.* – see "Health". *Customs* – see "Customs". *Immigration* – see "Immigration". *Agent:*

1 Copy Crew List (Form I. 418).

1 Copy Passenger List (Form I. 418).

PILOTAGE: Compulsory and available day and night. Pilot Boat has letter "P" on deck house and flies International Code flag "P".

Pilots will meet vessels 1 to 3 miles outside harbour, boarding via Jacob's ladder.

ANCHORAGE: Outer Harbour Anchorage located beginning at Scorpion Rock Lighted Buoy No. 1 (18° 91′ 25.6″ N; 64° 55′ 8″ thence 180° 1,580 yards; thence 263°, 2,490 yards; thence due North 1,255 yards; thence due East to the Southerly tip of Sprat Point, Water Island; thence to Cowell Point, Hassel Island, and thence to point of beginning. This anchorage is considered good and is about 8 fathoms with sand bottom.

TUGS: Normally not considered necessary for docking, however tugs are available for docking and undocking ships.

BERTHING: Wharf of the West Indian Company Limited, located on Eastern shore of harbour basin. Wharf is of bulkhead type, 2,234 ft. long, running North-east/South-west, and is well protected to seaward, Mooring bits are spaced at intervals of 50 ft. There is a "cut out" in the wharf 950 ft. from North-eastern corner, which is 22 ft. wide and approximately 3.5 ft. above low water. This ramp is slanting from 8.3 to 3.5 ft. over a distance of 20 ft. Similar type of ramp located on West Corner of wharf. Safe depth alongside from 27 ft. near North-east end to 30 ft. on South-west end. Bulkwark is 8·3 ft. above mean tide. Average difference between high and low tide is 11 in.

Dockage dues are payable to the West Indian Company Limited, as per tariff.

In the Crown Bay area (access via East or West Gregerie Channels) the VI Port Authority maintains facilities which include a "T"-head pier extending 500 ft. from shore, where ships up to 25,000 g.t. are mooring to breasting dolphins 200 ft. on centres, and mooring dolphins 200 ft. fore and aft from them. Controlling depth presently 30 ft. This pier is used for berthing tourist and tanker vessels only. A curved bulkhead at top of Crown Bay, approximately 900 ft. long, is used for roll-on/roll-off, container and break bulk cargo. Controlling depth 15 ft. 24-hour arrival notice required.

CARGO HANDLING: Containers are handled at the West Indian Company and the Crown Bay area (VI Port Authority), but no special gantry cranes are available. Roll-on/roll-off cargo handled at these facilities as well. No liquid chemicals facilities exist here but there is a small privately-owned LPG plant limited to 20 ft. draft and 250 ft. length. Shell uses this facility for gasoline and light diesel. The "T"-pier in Crown Bay is used for the VI Water and Power Authority for movement of fuel and water, and Texaco has its own pipeline on the same pier for their products.

STEVEDORES: Discharging and/or loading arranged by the West Indian Company Limited for account and risk of vessels.

Rates of discharging and/or loading dependent on vessel's equipment and stowage. However, following may be considered average:

General Cargo 6 weight tons per gang hour.

Bagged Goods 8/10 weight tons per gang hour.

Lumber 10/12 weight tons per gang hour.

Each stevedore gang normally consists of 12 stevedores (10 on board and 2 ashore) 2 winchmen, 1 signalman, 1 foreman

RADIO: The St. Thomas Marine Operator will guard the following from 0800 to 2100: Channels 26, 16 VHF, 2009–2506 and 2182 AM, and the upper side band (2010·4–2507·4) of the same frequency. The St. Thomas Signal Station and the Harbour Master's Office maintain a 24-hour watch on VHF Channel 16 (talk Channel 12).

(*b*) Master of every vessel arriving St. Thomas is required to give at least 24 hours advance notice of arrival to Captain of the Port, U.S. Coast Guard – San Juan, Puerto Rico by wireless on 500 kilocycles or by radio telephone 2182 kilocycles.

(*c*) Masters are requested to advise Agents their expected time of arrival, at least 36 hours in advance. Arrival messages should include cash requirements (local currency U.S. Dollar) and advice regarding repairs, stores, etc. This information is particularly necessary in the cases of vessel arriving on weekends or holidays. For cruise vessels the arrival messages should also include the number of passengers and crew on board.

(*d*) While vessels are in St. Thomas Harbour, the authorities do not permit the use of the ship's radio transmitters.

(*e*) U.S. Coast Guards: This organization maintains a small Light Attendant Station in St. Thomas to observe, service and effect repairs to aid navigation in vicinity of St. Thomas. An 82-ft. Coast Guard Patrol Boat "Point Whitehorn" (82364) is attached to the station for primary purpose of search and rescue work. Maintains watch on VHF Channel 16. Radio telephone marine information broadcasts, including Notices to Mariners, will be made on 2670 kilocycles, after first making a preliminary announcement on 2182 kilocycles. Radio telephone urgent and safety broadcasts or Marine Informations will continue to be made on 2182 kilocycles.

FUEL: The West Indian Company Limited operates the bunkering terminal and are agents for Esso. Bunker fuel "C" and marine diesel fuel handled through 6 in. or 8 in. pipelines (4 in. or 6 in. hoses) at maximum rate of approximately 125 tons per hour, at the wharf of the West Indian Company Limited, where vessels drawing up to 30 ft. can be accommodated.

Delivery by barge is not available. Bunkers available at all hours, including Sundays and holidays. Owners of vessels must make prior arrangements for bunkers.

Overtime as incurred will be charged to ships for bunkers supplied outside normal working hours, Saturdays, Sundays and holidays.

FRESH WATER: Mostly rain water which when available is supplied by the West Indian Company Limited. Delivery effected by pipe alongside wharf. Water by barge can be delivered in St. Thomas.

MEDICAL: Local hospital is the Knud-Hansen Memorial Hospital, which is equipped with facilities for operations, etc.

TIME: Official St. Thomas time is Atlantic Standard Time, which is four hours behind GMT.

HOLIDAYS: The following are legal holidays in St. Thomas: Sundays; January 1 (New Year's Day); January 15 (Martin Luther King); January 30 (Roosevelt's Birthday); February 12 (Lincoln's Birthday); The Third Monday in February (Washington's Birthday); March 31 (Transfer Day); Holy Thursday; Good Friday; Easter Monday; Whit Monday; The Last Monday in May (Memorial Day); June 22 (Organic Act Day); July 4 (Independence Day); July 25 (Supplication Day); The first Monday in September (Labour Day); The second Monday in October (Columbus Day); The fourth Monday in October (Veterans Day); November 1 (Liberty Day); The fourth Thursday in November (Thanksgiving Day); December 25 (Christmas Day); December 26 (Christmas Second Day), and such other days as the President of the Government may by proclamation declare as holidays.

The following are legal half-day holidays, commencing at Noon, viz: Every Thursday during the months from April to November, inclusive, except Thursdays in those weeks where there already is a legal holiday other than Sunday. Whenever any holiday falls upon Sunday, the Monday following is a legal holiday.

REGULATIONS: The U.S. Coast Guard strictly enforces the Harbour Pollution Act of 1924, prohibiting discharge of refuse and oil in navigable waters of the U.S.Virgin Islands.

Local Port Regulations are similar to those applying in U.S. Mainland Ports.

PRATIQUE, CUSTOMS, IMMIGRATION: Refer to Frederiksted.

CONSULS: Following countries have consular representatives in St. Thomas.

Belgium	France	Norway
Denmark	Great Britain	Panama
Dominican Republic	Haiti	Sweden
El Salvador	Netherlands	

AIRPORT: Distance 2 miles. Connections with International flights from Puerto Rido.

GENERAL: *Gangway.* One aluminium gangway available which is 34 ft. long and 2 ft. 6 in. wide – made with skidding prevention strips only and therefore not recommended for use as a passenger gangway. Since presently this is the only gangway it is made available to vessels on a first-come-first-served basis.

Stores. St. Thomas should not be depended upon for large quantities of provisions or deck and engine stores, as practically all commodities are imported making prices higher than United States mainland ports and Puerto Rico. No regular Ship's Chandlers established in St. Thomas, V.I.

Storage Facilities: The West Indian Company Limited undertakes ordinary storage for a limited period of time in eight transit warehouses, all 14 ft. high with a total floor area of 80,000 sq. ft., plus an additional 9,600 sq. ft. roof covered area. There is also a large uncovered area available for outside storage. Only limited cold storage facilities are available on The West Indian Company's Dock.

Ice: Small quantities may be obtained.

Laundry: Modern laundry service is available.

POLICE/AMBULANCE/FIRE: Police 915; Ambulance 774-1212; Fire 921.

AUTHORITY: Virgin Islands Port Authority, PO Box 36, St. Thomas, Virgin Islands, U.S.A. 00801.

AGENTS: The West Indian Company Limited, (Shipping Department), PO Box 660 – St. Thomas, V.I. 00801. (Passenger & Crewmail PO Box 4400) Telegraphic Address: Occident. Telex Numbers: 3472313 (Wico) ITT System) 365246 (Wicostt) (Cable & Wireless Western Union System) Tel. (809 774–1780)

Office Hours: Monday through Friday: 8.00 a.m. to 12.00 noon; 1.00 p.m. to 5.00 p.m.

Outside Regular Office Hours Tel. Manager Shipping Department. (809) 774–2683; Ass't. Manager Shipping Dept. (809) 774–0625; Dockmaster (089) 774–5285; Shipping Department (809) 774–4170.

Windward Islands

CASTRIES, St. Lucia: 14.00 N. 60.59 W.

DOCUMENTS:

5 Crew Lists.
5 Passenger Lists.
1 Stores List.
1 Clearance from Last Port.
2 sets of Manifest mailed prior to arrival.
2 copies each Bills of Lading.
3 copies each of Manifests on arrival,
1 Health Certificate.

PILOTAGE: ETA to Agents at least 48 hours in advance, and further advice if any changes. Agents inform Pilot's office of expected time. Ship remains approximately 3 miles out of harbour, and is located by Lighthouse guard who immediately informs Pilot's office. Pilot meets ship in pilot boat – small white canoe-shaped boat, no top, with letter "P" painted in black on both sides of bow. Signal for Pilot: day time flag "G"; and night: white light or blue light. VHF channel 2182. Pilot embarks on the starboard side via pilot ladder.

ANCHORAGE: North of leading lights, about ½ mile from harbour, depth about 12 fathoms.

RESTRICTIONS: Ships must at no time enter without a Pilot.

MAX. SIZE: Not longer than 600 ft. (cargo and passenger). Tankers – not longer than 400 ft. Alongside, all ship's, draft 24 ft.

HEALTH: Pratique given by Pilot. Health Officer boards ship and if any infectious diseases are on board, ship is anchored out until doctor arrives.

RADIO: Barbados Radio, call sign 8PO, 2182 kc. 2527 kc. 2537 kc. 2638 kc.
TUGS: Not necessary.
BERTHING: First ship goes up to top or first berth, and others follow down line.
MEDICAL: In urgent cases only, advise requirements in advance. Hospital facilities available.
TANKERS: Discharging by marine and floating hose, 6-in. and 4-in. lines. Berths alongside quay (2), off shore (2) Presently fuels discharged: Mogas 95 and 83, kerosene gas oil, colas RS2, cutaback RC2, banana spray oil.
FRESH WATER: Available by delivery hose from water hydrant on wharf.
FUELS: Gas oil 48/52 DI–API. Viscosity at 60° 36.3 S.G. at 60° 0.8435.
GANGWAY/DECK WATCHMEN: Available if required.
OPENING/CLOSING HATCHES: By crew.
CERTIFICATES: Ship's Register required on board.
CUSTOMS ALLOWANCES: Tobacco, one carton of 200 cigarettes. Wine/Spirit, one quart.
CONSULS:

Norway	Tel. 2214	France	Tel. 2351–2
Portugal	,, 2811	U.K.	,, 2484–5
Holland	,, 2811		

REPAIRS: Only welding and painting work available.
DRY DOCKS: None.
REPATRIATION: Facilities available.
AIRPORT: Distance from wharf 2 miles. Flights per day 4. Airlines: BWIA, LIAT, Caribair.
TIME: GMT minus 4 hours. No alterations to clock.
HOLIDAYS: New Year's Day (1st January); New Year's Holiday (2nd January); Statehood Day (1st March); Good Friday (late March or early April); Easter Day (April); Easter Holiday (April); Labour Day (1st May); Whit Monday; Corpus Cristi (late June); Queen's Birthday (12th June); Emancipation Day (1st Monday in August); Harvest Day (1st Monday in October); Discovery Day (13th December); Christmas Day (25th December); Boxing Day (26th December).
EMERGENCIES: Police dial 99; Fire 97; Ambulance 95.
TELEPHONES: Arrangements exist for placing on board.
GENERAL: Ships arriving after 2000 hours cannot be attended to until 0700 hrs. following day.
SERVICES: Compass adjusting.
SHORE LEAVE: Allowed.

KINGSTOWN, St. Vincent: 13.09 N. 60.57 W.

DOCUMENTS:
Customs:
2 copies Ship's Store List.
1 copy Crew Store List.
1 copy Crew List.
1 copy Passenger List.
1 copy List of Cargo not manifested.
Immigration:
2 copies Passenger List.
2 copies Crew List.
Port Officer:
1 copy Declaration of Health.
1 copy Passenger List.
1 copy Crew List.
2 copies Port Officer Return.
PILOTAGE: Not compulsory. Cable agents 24 hours prior arrival order arrange Pilot. English-speaking Pilot boards at harbour entrance – about 2 miles from anchorage. By day pilot vessel flies pilot flag and by night signal lights.
ANCHORAGE: Well protected. Tourist vessels lie at anchor, between 15 and 20 fathoms, or at pier.
RESTRICTIONS: None. Vessels may arrive and/or sail any hour day or night.
HEALTH: Port Health Officer boards vessel at anchorage requires Bill of Health or Master's declaration, and one copy Passenger List. Vessel's own form of manifest accepted. Vaccination Certificates are not required to be shown and passengers and crew do not require inoculation. Passenger and crew muster, not required. Health Doctor requires letter signed by Ship's Doctor (if any) and certified by Master stating all passengers and crew in possession of valid smallpox vaccination certificates. No persons allowed leave vessel before pratique granted and Immigration officials boarded vessel.
BERTHING: No tidal restrictions, no strong currents. Occasional on-shore South winds during August and September but only light winds. Rest of year off-shore winds. Mooring boats available for taking lines. No special moorings required. Jetty situated at South-east corner of harbour about 70 ft out from beach. Bow and stern lines to landing stage. Landing stage in good condition and well lit. If vessel at anchorage and not at berth transit ashore by ship's motor launches only. Anchorage about 2 cables distant from quay.
TUGS: Not required.
FRESH WATER: Available.
TELEPHONE: May be connected on board if required, charge about 1 Dollar per day.
CUSTOMS/IMMIGRATION: Customs and Immigration officers board vessel at anchorage or quay. Vessel entered and cleared at Customs House by Agents. Ship's own form of manifest accepted by Customs and Immigration. On passenger vessels, ship's bar is sometimes sealed.
IDENTIFICATION CARDS: Not required for going ashore.
VISAS: Not required for crews or passengers, but nationals of foreign countries other than U.S.A. or Canada disembarking for permanent residence require Visas.
PROVISIONS: Limited quantities of provisions, fish, fruit and vegetables. Pasturised cows' milk obtainable. Stocks of ice available.
CURRENCY: No special currency regulations in force and passengers permitted to take ashore any amount of U.S., Canadian or foreign currency. Currency exchanges at Banks or tourist bureaux, but Bank tellers do not board vessel to exchange currency. Local currency may be re-exchanged for U.S. dollars at local Tourist Bureau before departure. U.S. or Canadian currency accepted by stores, shops, restaurants and hotels.
AUTHORITY: Port Officer.

AGENT: Corea & Co. Ltd., PO Box 122, Kingstown, St. Vincent. Windward Islands, West Indies. Tel. 2201. Cables "George".

Yemen, People's Republic

ADEN (including Little Aden): 12.48 N. 44.54 E.

DOCUMENTS:
3 Crew Lists for Ship's Agent, Police and Immigration.
3 Passenger Lists for Ship's Agent, Police and Immigration.
1 Health Form to be shown to Pilot on boarding and handed to Ship's Agent.
Manifests, Bills of Lading if landing cargo only.
Ship's Register to be sighted by Pilot.
Arrival Declaration to be filled in by Ship's Agent after arrival.
Dangerous material declaration to be handed to Pilot on boarding.
PILOTAGE: Compulsory for all vessels proceeding to oil berths or over 100 tons net. To call Pilot fly International Code Flag G or white/red lights at night. Call "Harbour Control" on VHF Channel 16, or R/T 2182 kcs., or Signal Station by lamp. 48 hours notice of ETA with draft to Harbour Office.
Pilot boat will meet ship at the Fairway Buoy in all weathers. Pilot boat is 50 ft. launch painted red, flying Pilot flag by day or white/red lights at night. Pilot will board on port side of ship by pilot ladder. Vessels waiting Pilot can anchor anywhere in Outer Harbour except in a Prohibited Area of 2,000 ft. from Fairway Buoy.
ANCHORAGES: Ample anchorage area available with depths from 18 to 54 ft.
(*a*) Anywhere North of Fairway Buoy clear of Main and Little Aden Channels and clear of Prohibited Area mentioned above.
(*b*) Deep water anchorage anywhere to S.W. of Fairway Buoy clear of Little Aden Channel and Prohibited Area mentioned above.
MAX. SIZE:
Aden:
(*a*) Maximum length 900 ft., breadth no restriction, depth 38 ft. at datum for vessels taking bunkers from BP, Shell or Gulf.
(*b*) Vessels taking bunkers from Mobil, Caltex, Stanvac and Esso, maximum length restricted to tankers of 750 ft., and passenger ships of 600 ft., breadth no restriction, depth 39 ft. at datum.
(*c*) Larger vessels can be considered on application to the Port Officer. Longest vessel to enter 940 ft.
Little Aden (Refinery):
Maximum length 760 ft., breadth no restriction, depth 40 ft. at datum and maximum deadweight 55,000 tons.
Note: In both harbours vessels manoeuvring require 2 ft. water under keel, and vessels of draft 37 ft. and above require 4 ft. water under keel.
HEALTH: Vessels requiring pratique fly International Code Signals or 3 red lights at night.
Control of quarantinable and infectious diseases is direct responsibility of Port Health Officer. All passengers from infected local areas except children under age of one year are required to have valid international certificate of vaccination or revaccination against yellow fever and cholera. Valid certificates of vaccination against smallpox are required of arrivals from all countries.
RADIO: All ships landing passengers are boarded by Assistant Port Health Officer unless radio pratique has been given. Pratique may be obtained by wirelessing Port Health Authorities no earlier than 12 hours and no later than 4 hours before arrival, in accordance with international procedure. All landing passengers medically inspected and vaccination certificates checked on board before free pratique granted. Ships having infectious diseases on board are also boarded; after examining the case and taking any necessary precautions the Assistant Port Health Officer grants restricted pratique. Ships also inspected for issuing deratting exemption certificates. Deratting carried out when necessary and deratting certificate issued.
RADIO: Cable and Wireless (Mid East) Ltd., Mercury House, Ras Boradi (Tel. 22223/5).

The capital letters in column one denote alternative designation of mooring buoys/dolphins.
Free Zone. Initial Stage 525,420 sq. ft. open space and 162,000 sq. ft. covered space. Import and export industrial facilities. No restrictions, no taxes. Transhipment storage Free of unlimited period.
STEVEDORES: ETA advice to Ship's Agents at least 48 hours before arrival.
MEDICAL: Advance notice for medical attention not normally required except for serious cases requiring doctor's attendance on board, or ambulance cases. Vaccination certificate required for landing. Hospital facilities available.
TANKERS: Tankers carrying dangerous petroleum (flash point below 73° F) and those not gas free cannot enter Aden Harbour during hours of darkness. They can enter Little Aden day or night. Slop (residue) discharge facilities available at Little Aden. Four tankers berths for discharge/loading at Little Aden with maximum datum depth of 40 ft.

Berthing at Oil Harbour: Functions of Oil Harbour Little Aden to receive crude oil in bulk for oil refinery and to export refined petroleum products. Vessels carrying cargo for refinery other than oil, discharge at Inner Harbour.

Oil Harbour has finger jetty and two T-head jetties which provide berths for four tankers. Tankers of up to 55,000 tons summer deadweight can be accommodated.

Berth	*Type*	*Normal maximum length of ship in feet*	*Datum depth in in feet*
1	Dolphin & mooring dolphins	750	40
2	Dolphin & mooring dolphins	750	40
3	Dolphin & mooring dolphins	750	40
4	Dolphin & mooring dolphins	750	40

DENSITY: Salt water at all times.
FRESH WATER: Ample available, delivered by barge in Aden at about 50 tons an hour. Ordinary water in Little Aden supplied by pipe line at about 40 tons an hour and condensate at about 2 tons an hour.
FUEL:
(*a*) B.P., Shell, Gulf.
Marine fuel 2500 sec., 1000 sec., 600 sec., 200 sec.
Diesel oil and gas oil.
(*b*) Caltex, Mobil, Esso, Stanvac.
Marine fuel – all grades below, 3,500 sec.
Diesel oil and gas oil.
All supplies done on a Nomination basis through the Company's Head Offices, with the vessel giving at least 48 hours notice to Aden.
FIRE PRECAUTIONS: As per the Refinery regulations. Tug wires to be rigged.
GANGWAY/DECK WATCHMEN: It is recommended watchmen are employed; they can be supplied by Ship's Agent.
OPENING/CLOSING HATCHES: Normally carried out by stevedores, derrick-topping by ship's crew. Vessels not to move in harbour with beams off.
CUSTOMS ALLOWANCE: Tobacco/Wine, Spirit allowance. No restriction at the moment. Bonded stores not allowed to be supplied more than one hour before ship sails.
IDENTIFICATION CARDS: Not required at the moment.
CONSULS:

Embasies	*Consuls*
United Kingdom	Belgium
U.S.S.R.	Denmark
U.A.R.	Netherlands
Somalia	Norway
Italian	Sweden
India	Portugal
Iraq	Greece
Spain	Ethiopia
Pakistan	G.D.R.
Yugoslavia	

REPAIRS: Workshops are equipped to carry out: Boiler repairs; Plating and sheet metal work; Galvanising work/moulding work; Welding and blacksmith's work; Main and auxiliary machinery repairs; Carpentry and joinery work; Electrical and plumbing work; Refrigeration repairs; Painting, cleaning and chipping. Repairs afloat to vessels up to 80,000 tons are undertaken; repairs to the largest vessels carried out mostly in Outer Harbour.

Wireless engineering section with fully qualified personnel giving round-the-clock service of repairs and maintenance of radar and wireless equipment.
DRY DOCK: One sideways slipway taking 1,500 tons and one floating dock lifting about same tonnage.
REPATRIATION: Arranged through Ship's Agent and Immigration.
AIRPORT: About 5 miles from port. Flights to U.K. via Beirut (Middle East Airlines), Nairobi (East Africa Airways), Khartoum (Sudan Air Lines), Cairo (United Arab Airlines). Two flights each a week.
TIME: GMT plus 3 hours. No alteration of clocks.
HOLIDAYS: Most holidays are religious which have moveable dates. National holidays are 14th October and 30th November. Cargo work usually carried out during all holidays. Friday is a public weekend holiday.
POLICE/AMBULANCE/FIRE: Ambulance Crater 53232; Harbour Police 22851; Port Health 22626/7; Fire 22222.
TELEPHONES: No connection to ship's but link calls can be made on VHF through Cable & Wireless Ltd. using Channel 16 to call and working on Channel 26. Some Agencies have private VHF channels.
GENERAL: Outer harbour contains ample anchorage area for vessels requiring datum depths up to 54 ft. Inner harbour approached by 2·7 mile dog-leg channel, dredged to 36 ft., from Fairway buoy in Outer harbour where pilots board. Inner harbour protected by breakwater at Steamer Point and by rubble mound. It provides 24 buoy or anchor-and-buoy berths, including 13 with oil bunkering facilities. Majority of these berths have a datum depth of 30 or 38 ft., with maximum length of ship ranging from 275 to 750 ft. In addition three dolphin berths, with bunkering facilities, of 39 ft. datum depth and normally accommodating ships of 750–900 ft. maximum length; vessels of greater length can be accommodated with the approval of the Port Officer. Quays and wharves cater for shallower-draught vessels and lighters.

Oil harbour, serving refinery at Little Aden, reached by 38 ft. channel from Fairway buoy, provides facilities for tankers of up to 750 ft. All berths and anchorages are under the jurisdiction of the Port Officer.
SHORE LEAVE: No restrictions.
PORT REGULATIONS: Vessels must fly the National flag of PROSY at foremast. No movement of "dangerous petroleum" at night. Vessels must vacate oil berths on completion of bunkering. Main engines must not be immobilised in an oil berth. Sufficient crew must remain aboard vessel at all times to move her.
AUTHORITY: Yemen Ports Corp., Steamer Point, Aden, POB 22666. Cables: "Maway Aden".

Yugoslavia

BAR: 42.05 N. 19.03 E.

DOCUMENTS/HEALTH: Same as "Rijeka".
PILOTAGE: Pilot boards vessel off breakwater.
ANCHORAGE: Off breakwater. Safe anchorage in about 27 fathoms.
RESTRICTIONS: Vessels enter/leave port day and night.
MAX. SIZE: Only limitation draft. Maximum allowed draft 33 ft. See "Tankers" below.
RADIO: Bar Radio – 2182 kc/s. and 2574 kc/s.
TUGS: Available.
BERTHING: Berths assigned at Agent's request for liners or at Receivers/Shippers request for tramp vessels at daily meeting of the Harbour Board.
STEVEDORES: Sole stevedoring enterprise "Luka Bar" – Bar.
MEDICAL: Medical care available, nearest hospital at Titograd about 60 km. from Bar (train and bus).
TANKERS: Tankers call at Bar with bunkers for local bunker station. Berth used for this cargo can accommodate vessels drawing

up to 23 ft. In 1973, new berth for tankers will be in use, up to 60,000 dwt. Tank cleaning, pumping of slops and de-gasing not permitted in port. Tankers must be ready to leave the port in 30 minutes at any time and at request of Port Authorities.
CARGO-HANDLING FACILITIES: Available for fuel and chemicals in development for bulk cargoes, containers.
DEVELOPMENTS: Now in construction, second phase berths for bulk, fuel and container cargo. To be one of largest ports in Yugoslavia. Their realisation depends on completion of normal gauge railway to Hinterland, which is to be completed end 1974.
FRESH WATER: Available from hydrants on quay.
FUEL: Available from local bunker station.
GANGWAY/DECK WATCHMEN: Available.
OPENING/CLOSING HATCHES: If not performed by crew, stevedores.
CUSTOMS ALLOWANCES: About 40 cigarettes and reasonable amount wine/spirits per man per day.
CARGO GEAR: 4 cranes of 5–6 tons, 3 cranes of 3 tons. Shore mobile cranes, vacuvators, conveyors, fork lifts.
IDENTIFICATION CARDS: Shore passes issued by local police.
REPAIRS: At nearby shipyard of Bijela (Boka Kotorska).
REPATRIATION: By train, bus or plane from Dubrovnik and Titograd.
TIME: Central European time. GMT plus one hour.
HOLIDAYS: January 1st and 2nd; May 1st and 2nd; July 4th and 13th; November 29th and 30th. Work can be arranged on Sundays and 2nd day of two-day holidays.
POLICE/AMBULANCE/FIRE: Police, Tel. 22232; Ambulance, 94; Fire, 93.
SHORE LEAVE: Allowed.
PORT AUTHORITY: Lucka Kapetanija, Bar. Tel. 22161.

AGENT: Transagent, Bar, 13 Juli 30. Tel. 2134. Cables: "Transagent".

DUBROVNIK (GRUZ HARBOUR): 42.38 N. 18.07 E.

DOCUMENTS/HEALTH/HOLIDAYS: Same as "Rijeka".
PILOTAGE: Compulsory. Pilot boards at a point situated approximately in centre of triangle formed by Kolocep Island, Daksa Island and Grebeni Rocks.
ANCHORAGE: In about 22 fathoms in channel between Daksa Island and mainland. This anchorage is exposed to strong N.N.E. winds in winter time.
RESTRICTIONS: Only port of Gruz is open to commercial traffic, the old port of Dubrovnik (within the city walls) can accommodate only yachts and small craft drawing under 9 ft.
MAX. SIZE: Maximum length 230 metres, maximum draft 32 ft., no limits on beam.
RADIO: Call sign YUX, working on 500 kc/s. and 447 kc/s, from 0800 to 1100 and 1600 to 1900.
TUGS: No permanently stationed tug boats, but can be ordered when necessary from other ports.
BERTHING: Berths for 5 ocean going vessels. Six cranes from 1, 5 to 25 tons lifting capacity.
CARGO-HANDLING FACILITIES: The port handles some bulk cargoes (grain and bauxite) occasionally and in small quantities but is not specially equipped for handling these and other cargoes.
STEVEDORES: One State stevedoring company.
MEDICAL: General hospital and medical facilities available.
FRESH WATER: Available from hydrants on quay.
FUEL: Not available. Only oil for diesel engines in limited quantities. Heavy fuel can be delivered by coastal tankers from Split.
GANGWAY/DECK WATCHMEN: Available.
OPENING/CLOSING HATCHES: If not performed by crew, stevedores.
CUSTOMS ALLOWANCES: About 40 cigarettes and limited amount wine/spirits per man per day.
CARGO GEAR: Although operations are performed usually with shore cranes ship must have efficient cargo gear and relative certificates.
IDENTIFICATION CARDS: Issued by local police.
CONSULS: None.
REPAIRS: Small repairs only.
REPATRIATION: By bus, ship or plane from Dubrovnik International Airport.
TIME: Central European Time. GMT plus one hour.
POLICE/AMBULANCE/FIRE: Police, tel. 92; Fire, 93; Ambulance, 94.
SHORE LEAVE: Allowed.
AUTHORITY: Lucka Kapetanija Dubrovnik, Gruska Obala 75, Dubrovnik.

AGENT: Transagent, Dubrovnik, Gruska Obala 50. Tel. 3161. Cables: "Transagent".

KOPER: 45.31 N. 13.44 E.

DOCUMENTS/HEALTH: Same as "Rijeka".
PILOTAGE: Pilot boards in roads.
ANCHORAGE: During winter N.N.E. gales best anchorage is in 10 fathoms of water West of Debeli Rt. (Punta Grossa).
RESTRICTIONS: Vessels enter port by daylight. However berthing possible also during night hours in fair weather.
MAX. SIZE: General cargo berths, vessels drawing up to 31 ft. Crude oil berth, berth for tankers up to 60,000 dwt.
RADIO: Communication on MW and SW through Rijeka Radio. VHF Communication ship-shore on short range to vessels in roads.
TUGS: Two of 600 h.p.
STEVEDORES: Port Enterprise Koper.
MEDICAL: Medical assistance and hospital available.
CARGO-HANDLING: 1,000 metres of operative quays with depths from 6 to 12 metres. One crane of 20 tons and two of 10 tons capacity.
Two more quays for bulk goods are under construction. Particular moorings for minor corn transports.
A special wharf is under construction, with 17 hectares (42 acres) of acreage for the transhipment of containers. The port is able to handle roll-on/roll-off traffic and the transhipment of all kinds of freight in units.
A timber yard with two 8-ton portal cranes.
All harbour services are mechanised, i.e. performed by fork-lift trucks, transporters, pallets and other modern means. Moreover, the port is able to trans-ship heavy lifts up to 25,000 kg/s.
TANKERS: Crude oil terminal, depth alongside 16 metres.
FRESH WATER: Available from quay.
FUEL: Diesel available locally. Marine fuel delivered by barge from Rijeka or Trieste.
GANGWAY/DECK WATCHMEN: Available at ship's request.
OPENING/CLOSING HATCHES: If not performed by crew, then stevedores.
CUSTOMS ALLOWANCES: About 40 cigarettes and reasonable amount wine/spirits per man per day.
IDENTIFICATION CARDS: Shore pass issued by local police.
REPATRIATION: By train or bus, and by plane via Ljubljana Airport.
TIME: GMT plus one hour.
HOLIDAYS: January 1st and 2nd; April 27th; May 1st and 2nd; July 4th; July 22nd; November 1st; November 29th and 30th.
POLICE/AMBULANCE/FIRE: Police, No. 92; Ambulance, No. 94; Fire, No. 93.
TELEPHONE: Can be installed aboard at many berths.
SHORE LEAVE: Allowed.
PORT AUTHORITY: Lucka Kapetanija Koper. Postal Address: Pristaniski trg. 2. Tel. 21–216. Telegraphic address: Lucka Koper.

AGENT: Interagent, International Shipping Agency, Verdijeva 5, POB 27. Cables: "Interagent – Koper". Telex: 34150 – YU INTRAG. Tel. 22–051, 21–750.

PLOCE: 43.03 N. 17.26 E.

DOCUMENTS/HEALTH/HOLIDAYS: Same as "Rijeka".
PILOTAGE: Compulsory for vessels over 500 GRT. Pilot boards vessel at entrance of the channel.
ANCHORAGE: Vessels may anchor under lee of the coast between Point Visnjica and Dobrogosce Bay except in case of S.W. and W. winds when recommended drop anchor about 1 mile south of Soline Bay (S.E. of the entrance of the channel). Good holding.
RESTRICTIONS: Ship entering channel between Visnjica Point and embankment of right hand bank must keep in middle leaving buoys to starboard. Recommended speed 5–8 knots.
MAX. SIZE: Only draft limited to a maximum 38 ft.
RADIO: Nearest Radio Station Split Radio YUS – 2574 kc/s.
TUGS: 2 tugs of 850 h.p.
BERTHING: New Dock No. 5, depth 38 ft. Channel depth 38 ft. All other berths depths from 31 to 34½ ft.
STEVEDORES: Port Enterprise of Ploce is sole stevedoring company.
MEDICAL: Medical service available. Nearest hospital at Mostar (64 km.).
FRESH WATER: Available from quay.
FUEL: Nearest bunker station at Split.
DEVELOPMENTS: Dredging to accommodate vessels of 60,000 dwt. and construction of facilities for unloading tankers with crude oil for new refinery of Bosanski Brod.
GANGWAY/DECK WATCHMEN: Available.
OPENING/CLOSING HATCHES: If not performed by crew, stevedores.
CUSTOMS ALLOWANCES: About 40 cigarettes and reasonable amount wine/spirits per man per day.
IDENTIFICATION CARDS: Shore pass issued by local police.
REPAIRS: Only small repairs.
REPATRIATION: By train or bus. By plane from nearby airports, Mostar, Split and Dubrovnik.
TIME: GMT plus one hour.
POLICE/AMBULANCE/FIRE: Police, Tel. 79–006; Ambulance, 79–115; Fire, 79–029.
SHORE LEAVE: Allowed.
PORT AUTHORITY: Lucka Kapetanija – Ploce. Telegraphic address: Luckap Ploce. Tel. 79–008.

AGENT: Transagent Ploce, Saobracajni Trg BB. Tel. 79025. Cables: "Transagent".

RIJEKA: 45.21 N. 14.26 E.

DOCUMENTS:
5 Crew Lists.
5 Passenger Lists.
3 Manifests of Dangerous Goods.
3 Store Lists.
2 Customs Declaration Lists.
Cargo Manifests with extra copy for Customs.
2 Transit Cargo Manifests.
1 List of Organic Goods.

Cargo Manifests and copy of Cargo Plan with Hatch Lists, if possible, should be mailed to Agent from loading port.
PILOTAGE: Compulsory in Inner Harbour only. Pilot boards in the roads half a mile from main breakwater.
ANCHORAGE: All vessels, with the exception of those loaded with dangerous or hazardous cargoes, must anchor in the zone enclosed by the following points:
a) 45° 20,0′ N. – 14° 22,7′ E. c) 45° 15,1′ N. – 14° 27,1′ E.
b) 45° 17,5′ N. – 14°20,0′ E. d) 45° 18,4′ N. – 14° 28,5′ E.
Tankers and vessels with dangerous cargoes must anchor in the following zone:
a) 45° 17,8′ N. – 14° 28,0′ E. c) 45° 14,1′ N. – 14° 29,4′ E.
b) 45° 15,1′ N. – 14° 27,1′ E. d) 45° 16,1′ N. – 14° 31,8′ E.
RESTRICTIONS: At Bakar petroleum berth only daylight berthing permitted.
MAX. SIZE: Rijeka and Susak Basins, permitted draft 34 ft.; Bakar Basin, permitted draft 50 ft. Vessels up to 100,000 dwt. have discharged ore at Bakar.
HEALTH: To obtain free pratique radio 48 hours before arrival advising following details; number of crew and passengers, health conditions and possible infectious diseases. No one allowed to leave vessel until free pratique obtained.
RADIO: Rijeka Radio, call sign YUZ, 500 and 512 kc/s. Radio telephone on 2 metres band covering area of Kvarner Gulf.
TUGS: From 600 to 1,200 h.p. available.
STEVEDORES: Port works five days a week in two shifts: 1st shift from 0630 hours to 1430 hours. 2nd shift from 1430 hours to 2230 hours. The third shift may be worked on overtime, from 2230 to 0630 hours. Saturdays, Sundays and holidays may be worked on overtime.

Unloading of bulk cargo at the basin of Bakar during the first shift on Saturday from 0630 to 1430 is considered to be an ordinary working shift. The working week of this basin, therefore, lasts from Monday 0630 hours to Saturday 1430 hours.

Unloading of bulk cargo at the above mentioned Basin includes, as well as the unloading, continuation of unloading the vessels that might be for some special operational reasons shifted from Bakar Basin to Susak Basin.

Loading/unloading of cereals and oilseeds in bulk by means of loading/unloading towers in Silo Rijeka in the first shift on Saturday, from 0640 to 1430, is considered to be an ordinary working shift, and therefore the working week for such operations lasts from Monday 0630 to Saturday 1430 hours.
MEDICAL: Two hospitals and all kinds of medical assistance.
TANKERS: Old Petroleum Port, for tankers up to 150 m. length, berthing alongside breakwater.

Splitska Obala, berth for medium-size tankers up to 30,000 dwt. Mooring stern to quay using anchors forward.

Bakar, two berths for tankers up to 70,000 dwt. stern to quay. One berth alongside quay for tankers up to 30,000 dwt.

Urinj, 5 miles East of Rijeka, a new berth for tankers up to 100,000 dwt. Slop reception facilities available. Vessels moor stern to quay using both anchors.
DENSITY: 1020 to 1025, depending on place, season and weather.
FRESH WATER: Available from quay in any quantity. Not available at Urinj.
FUEL: All grades of bunkers available by barge at 48 hours notice.
FIRE PRECAUTIONS: If two tankers moored side by side in Bakar a tug required standing by. Tankers moored stern to quay must have towing wire rigged.
GANGWAY/DECK WATCHMEN: Service available
OPENING/CLOSING HATCHES: Crew may do this, otherwise stevedores for extra payment.
CUSTOMS ALLOWANCES: About 40 cigarettes and reasonable quantity wine/spirits per man per day.
CARGO GEAR: Although operations usually by shore cranes, ship must have efficient cargo gear and relative certificates.
IDENTIFICATION CARDS: Shore passes issued by local police.
CONSULS: Only in Zagreb and Beograd.
REPAIRS: All kinds available. Floating cranes up to 100 tons capacity.
DRY DOCKS: One for "Liberty" size vessels, and one for vessels up to 60,000 dwt.
REPATRIATION: Possible by train, bus, and air. New airport at Rijeka.
TIME: GMT plus one hour.
HOLIDAYS: January 1st and 2nd; May 1st and 2nd; July 4th; July 27th; November 29th and 30th. Work can usually be arranged on Sundays, January 2nd, May 2nd and November 30th from 0700 to 1400 for extra payment. If a holiday falls on a Sunday the first working day after becomes a holiday.
POLICE/AMBULANCE/FIRE: Police, tel. 92; Ambulance, tel. 94; Fire, tel. 93; Port fire brigade, tel. 25–126.
SHORE LEAVE: Allowed.
AUTHORITY: Lucka Kapetanija – Rijeka, Obala 10 rujna No. 3. Cables: Luckap Rijeka. Tel. 22–201.

AGENT: Transagent, Rijeka, Trscanska Obala 8. Cables: Transagent Rijeka. Tel. 22–406. Telex: 24219.

SIBENIK: 43.43 N. 15.52 E.

DOCUMENTS/HEALTH/HOLIDAYS: Same as "Rijeka".
PILOTAGE: Pilot boards vessel at the entrance of St. Ante Channel, within a circle of 3 miles radius from Jadrija Lighthouse.
ANCHORAGE: Vessels waiting Pilot must anchor between Prvic Island and the shore if incoming from the West, or between the South point of Zlarin and the shore if coming from the East, all in depths of 22 metres.

In the Bay of Sibenik, vessels may anchor in 20 fathoms of water in front of the N.N.E. light on quay. Alternatively, a buoy mooring is available.
RESTRICTIONS: All vessels over 50 grt. must apply for permission to enter St. Ante Channel by using International Code Signal Z by flag, or sound signal or light signal. Alternatively, a white light above a red light visible all round may be used.

Vessels may enter channel only when authorised by a signal, two black balls vertically disposed by day or two green lights vertically displayed by night, made by the signalling station of Port Sv Nikola.
MAX. SIZE: Only draft limited. 33 ft. alongside in deepest berth.
RADIO: None. Vessel may call Agents through Rijeka Radio.
TUGS: One of 750 h.p. One of 350 h.p.
STEVEDORES: Port Enterprise Sibenik.
MEDICAL: Medical service available including hospitalisation.
FRESH WATER: Available from quay.
FUEL: Can be delivered by barge from Split. Recommended to check well in advance.
GANGWAY/DECK WATCHMEN: Available.
OPENING/CLOSING HATCHES: If not performed by crew, can be done by stevedores.
CUSTOMS ALLOWANCES: About 40 cigarettes and reasonable amount wine/spirits per man per day.
CARGO GEAR: General cargo discharged using ship's gear. Ore and other dry bulk cargoes handled by shore cranes fitted with grabs.
IDENTIFICATION CARDS: Shore passes given by local police.
REPAIRS: Small repairs only.
REPATRIATION: By train or bus, by air from Split Airport nearby, or from Zagreb or Zadar.
TIME: GMT plus one hour.
TELEPHONE NUMBERS: Police, 92; Ambulance, 94; Fire, 93.
SHORE LEAVE: Allowed.
PORT AUTHORITY: Lucka Kapetanija, Obala Jugoslavenske Mornarice b.b., Sibenik.

AGENT: Transagent Sibenik, Obala Oslobodjenja. Tel. 2582. Cables: Transagent.

SPLIT: 43.31 N. 16.26 E.

DOCUMENTS/HEALTH/HOLIDAYS: Same as "Rijeka".
PILOTAGE: Pilot boards vessel in roads.
ANCHORAGE: Vessels anchor in Solin Basin within a circle with centre approximately in 43° 32′ 36″ N. 16° 24′ 36″ E.
MAX. SIZE: Length and breadth not limited. Draft permitted in Southern Basin 29 ft. Northern Basin 34 ft. (ore, coal), 36 ft. (grain. General Cargo, 31 ft.
RADIO: Split Radio working on 2182 and 1574 kc/s.
TUGS: from 240 to 1350 h.p. available.
MEDICAL: All medical assistance including hospitalisation.
TANKERS: Two berths for tankers, max. length 200 m., draft 31 ft.
FRESH WATER: Available from quay.
FUEL: Available from local storage tanks.
GANGWAY/DECK WATCHMEN: Available.
OPENING/CLOSING HATCHES: By crew or stevedores.
CUSTOMS ALLOWANCES: About 40 cigarettes and reasonable amount wine/spirits per man per day.
IDENTIFICATION CARDS: Shore passes issued by local police.
CONSULS: British, Dutch, Italian, and German.
REPAIRS: Any kind, including dry docking.
DRY DOCKS: Floating dock at Trogir for vessels up to 28,000 dwt.
REPATRIATION: By train, bus or air from Split Airport.
TIME: GMT plus one hour.
TELEPHONE NUMBERS: Police, 92; Ambulance, 94; Fire, 93.
GENERAL: Port consists of two basins: The Old Southern Port for passenger ships and with a few berths for general cargo.
SHORE LEAVE: Allowed.
PORT AUTHORITY: Lucka Kapetanija – Split, Obala Lazareta 1. Telegraphic address: Luckap Split. Tel. 2588.

AGENT: Transagent Split, Saveznicka Obala 10. Tel. 3351. Cables: Transagent.

ZADAR: 44.07 N. 15.14 E.

DOCUMENTS/HEALTH/HOLIDAYS: Same as "Rijeka".
PILOTAGE: 48 and 24 hours notice of ETA must be given to Agent. According these notices Agent arranges for Pilot to board on arrival. Pilot boat blue motor launch with large "P" on bows. No particular signals to be made by vessels requiring Pilot. Pilot boards ship in the anchorage.
ANCHORAGE: About 4·5 cables, 245° from green port light, (FL G 2 sec.) on the North part of Zadar Peninsula. Average depth about 18 fathoms.
MAX. SIZE: Zadar, old port, maximum permissible draft 20 ft. Zadar-Gazenica, new port, max. draft 30 ft., both in dry and oil cargo berths. Max. length in dry cargo berth, 150 metres.
RADIO: Rijekaradio, YUZ.
TUGS: No tugs available.
STEVEDORES: Number of gangs required to be stated in usual notice of ETA.
MEDICAL: Advance notice not necessary, hospital facilities available.

TANKERS: At Zadar-Gazenica Port, one tanker berth max. draft 30 ft.
DENSITY: Average density in the port – 1,026.
FRESH WATER: Fresh water connections on piers, rate of delivery 8–15 tons/hour.
FUEL: Fuel available for coasters only.
DEVELOPMENTS: Completion of Zadar-Gazenica Port, railroad and road terminals. In future completion of second berth for dry cargo ships.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Normally, but not compulsorily, carried out by stevedores.
CUSTOMS ALLOWANCES: 200 cigarettes per person. Tobacco and liquor sealed in bond.
IDENTIFICATION CARDS: Needed. Issued by local police.
CONSULS: None.
REPAIRS: Only minor repairs as well as classification for ships up to about 2,000 brt.
REPATRIATION: Facilities exist for effecting crew changes and arranging necessary repatriations.
AIRPORT: Airport Split, 160 km. distant, served by regular airlines, 21 flights per week. Zadar airport for internal flights only.
DRY DOCKS: One floating dock existing for ships up to about 2,000 brt.
TIME: GMT plus one hour.
POLICE/AMBULANCE/FIRE: Police, 2464; Ambulance, 94; Fire, 93.
TELEPHONES: No facilities for placing telephones on board.
AUTHORITY: Lucka Kapetanija – Zadar. Tel. 2344.

AGENTS: Jadranska Pomorska Agencija, Filijala Zadar, N. Nodila b.b., Zadar. Tel. 3210, 3215. Telex: 27129 Yu Jadrag. Telegrams: Jadroagent Zadar.

ZELENIKA: 42.27 N. 18.35 E.

DOCUMENTS/HEALTH: Same as "Rijeka".
PILOTAGE: Pilot boards at entrance of the Bay of Kotor, near point Punta Ostro. In bad weather pilot boards at anchorage.
ANCHORAGE: Good ground for anchorage S.W. of Zelenika, about ¼ mile off port light in about 27 fathoms.
MAX. SIZE: Two quays 330 ft. and 420 ft. for vessels drawing 17 ft. to 27 ft. Breadth not limited. Vessels the size of a liberty have been berthed by mooring the vessel a couple of metres off quay. Two other quays, but with very shallow water, used for coastwise traffic only.
PRATIQUE: Radio Agent requesting free pratique, 24 hours before arrival. For vessels over 500 grt. pratique is given at the anchorage. For small ships and yachts, pratique is given at Herceq-Novi about 1 mile North West of Zelenika anchorage.
TUGS: None. In case of necessity can be ordered from other ports.
BERTHING: The berth is assigned through the Agents giving notice 24 or 48 hours in advance.
STEVEDORES: State stevedoring company.
MEDICAL: Nearest hospital at nearby town of Herceg Novi.
FRESH WATER: Available from hydrant on quay.
FUEL: Nearest bunker station is Bar.
OPENING/CLOSING HATCHES: If not performed by crew, can be done by stevedores.
CUSTOMS ALLOWANCES: About 40 cigarettes and reasonable quantity wine/spirits per man per day.
CARGO GEAR: Loading, unloading performed with ship's gear.
IDENTIFICATION CARDS: Shore passes issued by local police.
CONSULS: None.
REPAIRS: Any kind of repairs including dry docking at nearby shipyard "Rijeka".
DRY DOCKS: Floating dock lifting capacity 10,000 tons LOA. 184 m., length over keelblocks 165·5 m., inside free breadth 26·4 m. The yard is about 4 miles East of Zelenika.
REPATRIATION: By bus to Dubrovnik, and from there bus, plane or ship to main cities in Yugoslavia.
TIME: Central European Time. GMT plus one hour.
HOLIDAYS: January 1st and 2nd; May 1st and 2nd; July 4th and 13th; November 29th and 30th. Work can be arranged on Sundays and on 2nd day of two-day holidays.

3 Vaccination Lists (valid books for vaccination/inoculation against Smallpox, Yellow Fever are obligatory).

APPROACHES: In view of the strong current, and in view of the fact that the lights of the navigation buoys on the Congo River do not always work properly, night navigation is practically impossible. Tankers, therefore, arriving at night, or in times of congestion, are recommended to anchor approx. 5 miles West of Moita Seca Light in approx. 10 fathoms, about 12 miles from Stella Buoy.
PILOTAGE: River Congo can be entered direct from sea in deep water. Pilots not compulsory. Mooring master boards incoming tankers to assist mooring at buoys. Notice of arrival to be given to Harbour Master, radio Maritime Banana. No VHF.
The position of the flare of the SOCIR Refinery at Moanda is:
5° 57′ 51″ S.
12° 25′ 07″ E.
The flare is visible during day and night and may be a good bearing for vessels approaching Congo River.
MAX. SIZE: Tankers up to 40 ft. draft may discharge at buoy moorings. Banana Creek is limited to vessels draft not exceeding 15 ft.
HEALTH: Quarantine Officer boards at sea buoy. Free pratique usually granted as soon as Maritime Health Declaration completed. Valid smallpox and yellow fever inoculations required for all crew members.
RADIO: At least three days notice required to Agent (ETA and draft only) and to Harbour Master, Maritime Banana (ETA only). As it is necessary to transmit these notices via another shore station (e.g. Capetown Radio, Libreville Radio, etc.), as the Banana Radio Station can only be reached two days prior arrival. Close advice on changes in ETA necessary to prevent delays in waiting for cargo-lighters and push-boats.
Radio Banana (9 PA) working on 495 kc/s. and 8714 kc/s.
BERTHING: Tankers berth in river anchorage between buoys 12 and 14, both anchors used. Tugs not available and not required.
Upon arrival at the berths, tankers should use both anchors on long scope in view of the current. When anchoring it is recommended to drop outside anchor first, up to approx. three shackles and subsequently, after the ship's swinging to starboard, the starboard anchor. Thereafter it is essential that ample cable is used on both anchors, approx. eight shackles. Tankers sail without Pilot and may leave any time.
CARGO OPERATIONS: Tankers discharge-into/load-from cargo barges moored alongside either side. These barges (three in total) are equipped with 8-in. cargo hoses (position of hose connection amidships) and suitable fenders, have a capacity of 1,650 long tons or 2,050 cub. metres, and can receive the cargo at a rate of up to 800 tons per hour or, alternatively, can load at a rate of approx. 400 tons per hour. Under normal conditions the refinery will handle three barges per shift of 12 hours. Cargo operations are effected continuously day and night, during Sundays and holidays, in shifts from 0600 to 1800 hours and from 1800 hours to 0600 hours. Therefore a tanker of approx. 19,000 tons can be completed in a net discharging/loading time of approximately 48 hours. During the cargo operations, six Congolese deckhands stay on board to handle cargo hoses and barges. These men are to be provided with meals and accommodation (one spare cabin will be sufficient). Masters are also requested to instruct their crew to assist with the mooring/unmooring of cargo barges alongside.
DENSITY: Brackish to salt.
FRESH WATER: Not available.
FUEL: Subject to enquiry through Agent.
MEDICAL: Doctor available for emergency only. No dental or hospital facilities.
TANKERS: No tank-cleaning facilities. Barge available for dirty ballast reception limited to 2,000 cub.m. per trip.
REPAIRS: No facilities.
GENERAL: During stay of tankers at anchorage the discharge and/or loading operations are constantly supervised by 1 or 2 European representatives of the refinery, who are to be accommodated on board and to be provided with meals.
SHORE LEAVE: Shore leave is presently not allowed due to lack of communications; only in urgent cases a crewmember may join one of the refinery tugs. There is no entertainment whatsoever ashore.
AUTHORITY: Office d'Exploitation des Transports Coloniaux.

BOMA: 05.15 S. 13.03 E.

DOCUMENTS:
6 Crew Lists.
4 Passenger lists (or "no passenger" declaration).
3 Stores Lists.
3 Crew personal effects lists.
Import and Export Manifests (made up by Agent).
3 sets Cargo Manifests and 4 sets Bills of Lading to be airmailed to Agent in advance.
Maritime Declaration of Health.
PILOTAGE: Port is situated on the right bank of River Congo, about 44 miles above Pilot Station at Banana.
Radio Maritime Banana 24 hours prior arrival giving ETA at Banana and requesting Pilot. Pilot available between 0700 and 2200 for arriving vessels. No VHF.
RESTRICTIONS: Depth at bar 30 ft. Permissible draft for navigating Congo River varies between 20 ft. to 27 ft. according to local conditions and should be checked with Port Authority in advance.
HEALTH: Quarantine Officer boards on arrival. All crew members require valid smallpox vaccinations and yellow fever inoculation certificates.
TUGS: Two tugs of 200 and 300 h.p. available to assist berthing.

BERTHING: Total quay length 450 metres with three berths alongside. Depth of water at the quay 8 metres at low water. Maximum current at the berths is 3 knots.
FRESH WATER: Available from quays, not suitable for drinking.
FUEL: Not available.
MEDICAL: Doctors and hospital facilities available.
REPAIRS: No facilities.
AUTHORITY: Office d'Exploitation des Transports Coloniaux. Cables: Otraco Boma.

MATADI (including Ango Ango): 05.49 S. 13.27 E.

DOCUMENTS:
3 sets Cargo Manifest and 4 sets Bills of Lading to be airmailed to Agent in advance.
7 Crew Lists.
4 Passenger Lists or "No Passengers" Declaration.
3 Stores Lists.
3 Crew Personal Effects Lists.
Import and Export Manifests (made up by Agent).
Ship's Register.
Maritime Declaration.
PILOTAGE: Compulsory for vessels over 500 GRT. Radio Maritime Banana 24 hours prior arrival giving ETA at Banana and requesting Pilot. Pilot boards at Banana pilot station. Distance from Banana to Matadi about 75 miles. Pilot available between 07.00 and 22.00 for arriving vessels. No VHF.
RESTRICTIONS: Depth at bar 30 ft. Permissible draft for navigating Congo River varies between 20 ft. and 27 ft. according to local conditions and should be checked with the Port Authority in advance.
MAX. SIZE: Controlled by draft in river.
HEALTH: Quarantine Officer boards on arrival. All crew members require valid smallpox vaccination and yellow fever inoculation certificates.
TUGS: Three tugs, largest 1,300 h.p., available to assist berthing.
BERTHING: Seven quays, total berthing length 1,084 metres with minimum depth alongside 8 metres. Three further quays under construction which will have a minimum depth alongside of 10 metres LW.
BULK HANDLING FACILITIES: Palm oil is stocked by four companies in Matadi, three of which have pipe-lines to a main quay. The palm oil installations of CCP are at Ango-Ango where ships must berth at Socopetrol Pier. Vessels handling Socopetrol cargoes are given priority at this pier and in case of unavailability of berth, palm oil would be loaded by barge of 260 tons capacity at Matadi.
DENSITY: Fresh water.
STEVEDORES: Working hours: 1st shift 06.30 to 14.30, 2nd shift 14.30 to 22.30, 3rd shift 23.00 to 06.00 in overtime. Arrangements for overtime to be made 24 hours in advance.
TANKERS: Discharge at Socopetrol pier at Ango-Ango. If lightening necessary before berthing, this can be effected at Ramler Buoy, 17 miles above Banana. No tank-cleaning facilities.
FRESH WATER: Available from shore hydrants. Not suitable for drinking.
FUEL: Fuel of 1500 seconds available from Socopetrol pier at Ango-Ango.
MEDICAL: Doctors and hospital facilities available.
REPAIRS: No facilities.
AUTHORITY: Office d'Exploitation des Transports Coloniaux. Cables: Otraco Matadi.
